Vice President for Academic Affairs, Randy Pembrook, presented the item and explained the needs of first year students and the need for the different course options to be required as part of the first year experience. He stated the data from the pilot project indicates retention from first year to second year is significantly higher for those taking the class. Dr. Pembrook explained transfer students with 24 or more hours of prior successful completion in higher education may be exempted from course. He said the recommendation is to require one of the courses within the first year.

5. Removal of KN198 Lifetime Wellness as a University graduation Requirement

Vice President for Academic Affairs, Randy Pembrook, presented the item and stated the Lifetime Wellness class has functioned well but the recommendation is to make the course an elective and offer the new KN298 course for general education credit in the social sciences so students could access a more in-depth and critical analysis of wellness through the new course if desired.
6. **School of Applied Studies Associates (SAS) degree offerings in conjunction with Washburn Institute of Technology**

Vice President for Academic Affairs, Randy Pembrook, presented the item explaining that historically the School of Applied Studies has worked with Washburn Institute of Technology to assist students in completing the Associate of Applied Science degree with general education courses being offered through the School of Applied Studies. He said the offerings of certain required general education courses will now be offered at the Washburn Institute of Technology location and all associate degrees offered within the School of Applied Studies will be Associate of Arts or Associate of Science degrees.

Chairperson Klausman presented all five academic items presented by Dr. Pembrook to the Board for a vote. Regent Parks moved to approve the five recommendations by Dr. Pembrook as a whole. The motion was seconded. Motion passed.

7. **Digital Marketing and Website Redesign Services**

Dr. Cindy Hornberger, Special Assistant to the President, presented the item. She said the positive experience with BarkleyREI, as vendor for the Washburn University website redesign project, has led to a requested continuation of the digital marketing and website redesign services project for Washburn Institute of Technology through BarkleyREI for consistency and uniformity of design, the scope being essentially the same for Washburn Institute of Technology as it was for the Washburn main campus. Clark Coco, Dean of the Washburn Institute of Technology, stated it was an important project in moving Washburn Institute of Technology forward.

Regent Lykins inquired as to whether other Kansas schools use BarkleyREI to which Dr. Hornberger answered not to her knowledge.

Motion was made and seconded to approve. Motion passed.

Agenda Item No.  V. A. 3.
Washburn University Board of Regents

SUBJECT: Voluntary Phased Retirement: Professor John Hunter

DESCRIPTION:

At its November 8, 2000 meeting, the Board of Regents approved the renewal of the voluntary phased retirement plan originally approved on February 18, 1998. Under this plan, employees meeting applicable criteria could apply for, and receive if deemed in the best interests of the University, voluntary phased retirement from the University. Under the program approved, the successful applicant would receive a reduced workload for the term of the agreement, but continue receiving employee benefits as though she or he were a full-time employee of the University. The program at Washburn University is similar to that of the state educational institutions.

Professor John Hunter, Theatre Department, has requested a phased retirement program for the academic years 2013-2014, 2014-2015, and 2015-2016, effective August 1, 2013 and ending at the end of the spring term in 2016. Professor Hunter’s appointment will be at 50% for each of those years.

Phased retirement will be of benefit to the institution by permitting Professor Hunter to continue teaching in his specialized subject area. It will also provide fiscal benefits to the university, as outlined below.

FINANCIAL IMPLICATIONS:

The total savings for the three-year phased retirement will be approximately $129,063. The cost of hiring additional teachers to replace lost instruction, if necessary, will be covered by salary savings from Dr. Hunter’s phased retirement.

RECOMMENDATION:

President Farley recommends that the Board of Regents approve this voluntary phased retirement request.

SUBJECT: Voluntary Phased Retirement: Dr. Virginia Pruitt

DESCRIPTION:

At its November 8, 2000 meeting, the Board of Regents approved the renewal of the voluntary phased retirement plan originally approved on February 18, 1998. Under the program approved, the successful applicant would receive a reduced workload for the term of the agreement, but continue receiving employee benefits as though she or he were a full-time employee of the University. The program at Washburn University is similar to that of the state educational institutions.

Dr. Virginia Pruitt, Professor of English, has requested a phased retirement program for the academic years 2013-2014, 2014-2015, and 2015-2016, effective August 1, 2013 and ending at the end of the spring term in 2016. Dr. Pruitt’s appointment will be at 50% for each of those years.

Phased retirement will be of benefit to the institution by permitting Dr. Pruitt to continue teaching in her specialized subject area. It will also provide fiscal benefits to the university, as outlined below.

FINANCIAL IMPLICATIONS:

The total savings for the three-year phased retirement will be approximately $130,605. The cost of hiring additional teachers to replace lost instruction, if necessary, will be covered by salary savings from Dr. Pruitt’s phased retirement.

RECOMMENDATION:

President Farley recommends that the Board of Regents approve this voluntary phased retirement request.

Agenda Item No. V. B. 1.
Washburn University Board of Regents

SUBJECT: Welcome Center

BACKGROUND:

The University’s strategic plan “150 Forward” addresses the need to provide high-quality facilities for our students and programs. Renovation of Morgan Hall is needed to create a one-stop student service center, and a Welcome Center with a definitive front entrance to campus.

While the University has multiple entrances to access campus facilities and activities, Morgan Hall is the “front door” where prospective students, their parents and campus visitors generate their first impressions of Washburn. Morgan Hall continues to be a multi-functional building with much activity by prospective and current students, faculty and administration.

Washburn has invested in the infrastructure of the building in these last years and progress has been made. Despite these efforts to maintain and upgrade Morgan Hall, we recognize the facilities are obsolete in serving the needs and expectations of our students today. Additional investment in the facility is necessary to meet the needs of students and various functional areas and to present the positive dynamic “first impression” Washburn seeks to provide its visitors.

DESCRIPTION:

Our goal is to build a new Welcome Center space extending Morgan Hall while renovating the existing building. This project will provide a common element and design throughout the building. The project will accommodate the needs for a one-stop student service center primarily located on the first floor of Morgan Hall. It will also provide an opportunity to create a dynamic front entrance to Washburn University along 17th street. The initial project estimate was approved by the Board in March 2012. PGAV architects hired in May 2012 have worked with the campus community and completed the final program plan and prepared architectural drawings sufficient for fundraising and preliminary total project cost budget. This process more clearly defined the scope of the renovation/addition and site work necessary to complete the project in a successful manner. Next steps include completing formal design documents by September 2013 so the project can be bid and awarded by the Board in December 2013. Construction would start in February 2014 with completion of the project in the Summer 2015.

FINANCIAL IMPLICATIONS:

The initial project estimate approved by the Board in March 2012 was $13 million. Based on the revised design and the extensive site work considerations, the preliminary total project cost budget for the Welcome Center will be $17 million. The University and the Foundation are recommending a project financing model of 30% ($5 million) from University sources and 70% ($12 million) from private donations.
RECOMMENDATION:

President Farley recommends the Board of the Regents approve the revised project scope and total project budget with completion of architectural design documents necessary to bid the project by September 2013.

SUBJECT: Report of Purchases between $25,001 and $50,000

DESCRIPTION:

In compliance with that approval and to ensure the Board fully complies with its fiduciary responsibilities, the Board of Regents requested all items approved by the administration between $25,001 and $50,000 be listed each month and included for information.

FINANCIAL IMPLICATIONS:

These expenditures are in line with current year budgets.
