V. Officer Reports

A. Chair’s Report

There was no Chair’s report.

B. President’s Report

President Farley said the Washburn Review reported our dorms are in the top twenty of most affordable in the country. The survey called us “the best value college experience that money can buy.” Our Halls are considered attractive and have outstanding amenities.

Dr. Farley reported today state senators and their staff visited campus to walk through the KBI building. The KBI Director and his staff led the tour explaining the space. He said the visitors expressed interest in the forensics program, but there is no money. The House was in session with education budget, so their tour will be rescheduled. Our Vice President for Academic Affairs and staff are working on programs for forensic science. Including identified equipment, we would need about $920 thousand annually to finance the program. Financing was in the Kansas Board of Regents’ submission but was not in the Governor’s budget because of other issues. The tour helped get this on notice for some senators in the upcoming week.
President Farley gave a brief report on housing, saying there are already 300 contracts with deposits for next year. He said there are another 90 without deposits. The rate is the same as last year but there are over 200 more new students.

Dr. Farley discussed enrollment, saying we currently have new high school applications for 1,390 students. Last year at this time we had 1,230. He said transfers are up about 40 applications over last year. The decline in spring enrollment is a much smaller than last spring and the retention rate of 84% from fall to spring was the highest in a long time. He indicated much of this is the result of faculty and staff calling students. We made 4,500 contacts with students in the fall with about 2,000 students returning.

President Farley talked about the new Welcome Center. He said it appears to be on time and on budget. There will be a phased move-back in from the middle May through June, with full occupancy by mid-July or sooner.

Dr. Farley said Washburn alum Jeff Kready and his wife will be doing a benefit concert in White Concert Hall on March 27. Both are starring on Broadway right now.

Dr. Farley said this Saturday the Ichabod baseball team will pay tribute to Coach Steve Anson at their double header. They plan to put Coach Anson’s name and number on the outfield fence. He said the team is playing very well this season.

President Farley mentioned the University will hold its annual employee recognition ceremony on April 2 to recognize years worked by faculty and staff.

Dr. Farley said this year we awarded three $6,000 per year four-year scholarships from the Ritchie family scholarship.

Dr. Farley said this year’s Apeiron will be same date as the next board meeting, April 24. He said he hopes Board members will be able to make it and see some of the projects students are doing.

He said these changes help define for general faculty and also with procedures to develop consistency.

f. Faculty Handbook Change: Promotion and Tenure Committee Members

Vice President for Academic Affairs Randy Pembrook presented the item. He said that when reviewing or on a committee, applications must have the rank of what the person is applying for. For example, an Associate Professor cannot evaluate an application for full professor.

RECOMMENDATION:

__________________________  ______________________________
Date  Jerry B. Farley, President
SUBJECT: Eminentes Universitatis

DESCRIPTION:

Washburn University awards the “Eminentes Universitatis” designation to long-term employees who meet the following requirements: employed as an administrative or classified employee for a period of ten years or more; retire in good standing; and service performed must be judged to have been meritorious. Dave Kendall meets these requirements and has announced his plans to retire on May 31, 2015.

Dave has been the Production Manager at KTWU since FY 1999-2000. Dave began his career at KTWU in the mid-to-late eighties. For at least a couple of years, Dave was an independent producer doing projects for KTWU until he came on staff full-time in 1987.

Dave is best known for his role as the affable on-camera host for KTWU’s series Sunflower Journey’s. The series is one of the longest running television programs in Kansas, approaching its thirty-year mark in a couple of years. Each year, Dave has been responsible for guiding a group of producers and Kansas cultural consultants through the exercise of illustrating the uniqueness of Kansas, via the medium of television. His vest, hat and kind countenance have led viewers to discover the hidden treasures of Kansas.

Over the years, Dave has spoken to countless community groups and told many stories about the Sunflower state. He has served on many local and statewide boards, hosted statewide events and is considered by most a Kansas celebrity. Since KTWU is a PBS station, I guess we could say Dave is our own local Mr. Rogers, Lawrence Welk and Cookie Monster rolled into one.

Although low-key in most ways, Dave is bright, funny, passionate, giving and caring. I guess you could call him a Kansan.

FINANCIAL IMPLICATIONS: None

RECOMMENDATION:

President Farley recommends Board of Regents approval to award the designation “Eminentes Universitatis” to Dave Kendall.
Agenda Item No. V. B. 1.
Washburn University Board of Regents

SUBJECT: Men’s and Women’s Track & Field/Cross Country Program

DESCRIPTION:

The Athletics Department is requesting adding a Track & Field (indoor and outdoor) and Cross Country program for men and women at Washburn University. Washburn had a track and field program beginning in the early 1900’s. Through the years, Bradbury Thompson and many other illustrious alumni were a part of this program. Unfortunately due to financial constraints the track and field program was discontinued in the early 1980’s. Now is the time for us to revive the program for both men and women.

Of the fourteen schools in the MIAA conference, 11 schools have Track and Field and Cross Country. Washburn, Northeastern State and Missouri Western do not have these programs. Adding Track & Field and Cross Country at Washburn would take us to 16 sports which is more in line with the number of sports of other NCAA Division II programs. We are anticipating this program to generate 90 new student athletes (45 men and 45 women) ramped up over a three year period. Scholarship equivalent’s for men and women is 19.5 student athletes. Non-scientific NCAA studies have indicated that for every student athlete in your programs an additional 1.5 students will attend with them which could bring another 135 students to Washburn.

FINANCIAL IMPLICATIONS:

Estimated projections are based on an increase of approximately 90 student athletes. See the attached Track & Field/Cross Country Financial Proforma. There will be an initial cash outlay during the first two years for renovation of lockers and office space for coaches, purchase of field equipment and uniforms, coaches salaries and recruiting costs. These start-up expenses are estimated to be $765,000. Student athletes will start enrolling for the Fall 2016 semester and be at full strength in year three. Annual tuition for student athletes is estimated to be over $710,000 by year three with annual operating expenses of $389,000 and scholarships of $137,000.

RECOMMENDATION:

President Farley recommends the Board of Regents approve the addition of a Track & Field/Cross Country program at Washburn for both men and women and the allocation from reserve of up to $765,000 for program start-up and locker room expenses.

Washburn University Board of Regents

SUBJECT: Men’s and Women’s Basketball Junior Varsity Programs

DESCRIPTION:

Washburn Athletics is looking to add junior varsity (JV) teams for men’s and women’s basketball. This will expand the current number of student athletes in these sports from 14/15 to 24 per team. The JV teams will provide an opportunity for high school student athletes to continue their athletic careers at the collegiate level. The student athletes that will comprise the JV teams will tend to be strong academically, good athletically and have a desire to continue to play and compete. Most, if not all, of these student athletes will not be on athletic scholarships. They will play an 8-10 game schedule against junior colleges and NAIA schools in Kansas and Missouri. The goal of these student athletes will be to perform at a level where they can make the varsity team and earn an athletic scholarship. The addition of JV teams in basketball will attract more students to Washburn University.

FINANCIAL IMPLICATIONS:

Increasing the roster size by 9-10 student athletes in each of the men’s and women’s basketball programs will generate $126,360 in tuition revenue. Athletics will also be contributing $30,000 of marketing/sponsorships and game guarantee monies Expenses for an 8 game JV schedule for both teams will be $116,700. This includes salaries and benefits for a full-time coach, team travel, officials, uniforms, and supplies. Estimated net gain to the university is $39,660 annually.

RECOMMENDATION:

President Farley recommends the Board of Regents approve a junior varsity program for men’s and women’s basketball.

\[ \text{Estimated Net Income per year for increasing squad size} = \text{\$ 39,660} \]

NOTES:

Based on estimated tuition rate of $260/credit hour

Both the men's & women's teams would carry a minimum of 24 players. Current NCAA equivalency for basketball is 10 - all income above the 10 equivalencies is direct revenue to the University. Typically teams will carry approx. 15 athletes. Since there would already be 10 athletes (5/team or $70,200 in tuition revenue) paying their own way this proforma factors in only those athletes above 15.

The Athletics contribution is NOT from their general fund operating budget. It will come from the Athletics restricted funds.

No increases factored in for extra workload on trainers, compliance officer, weight room staff, equipment room staff and other Athletics administration.

SUBJECT: Indoor Practice Facility and move Campus Facilities operations location

DESCRIPTION:

This project represents an opportunity to improve our student athlete experience and conference competitiveness along with improving the aesthetics of the central part of our campus.

RATIONALE:

Washburn University Athletics continues to work to improve the student athlete experience. The Indoor Practice Facility would do just that. It would provide a structure where our student athletes from six of our sports: football, women’s soccer, softball, baseball and track & field would be able to practice during inclement weather and the winter months. This facility would continue to show the commitment to our student athletes that we will provide the best facilities possible to our student athletes and that we can compete at the highest level of NCAA Division II. A facility of this nature also keeps us competitive in our conference as we recruit the top student athletes in the Midwest and across the nation. The Indoor Practice Facility, for the sports mentioned above, would also eliminate the excessive wear and tear on Lee Arena where these sports now practice during inclement weather and the winter months. This facility is another step in our progression to be an elite NCAA Division II program.

Campus Facilities offices and warehouses are currently located in a central part of the Washburn campus. Moving this operation will improve the aesthetics of campus and allow for the redevelopment of this area for higher campus priorities outlined in the campus master plan.

We are requesting approval to move forward with the architectural selection process to begin detail program planning, site development, project cost estimates, and conceptual/schematic design for fundraising, on the Indoor Practice and Campus Operations Facility.

FINANCIAL IMPLICATIONS:

Initial gifts will fund the program plan, cost estimate and schematic design for the project.

RECOMMENDATION:

President Farley recommends the Board of Regents approval for planning a new Indoor Practice Facility and Campus Facilities move.

SUBJECT: Purchase of Ellucian Degree Works Software

DESCRIPTION:

Information Technology Services and Enrollment Management are requesting approval to fund the purchase of Ellucian’s Degree Works software. Degree Works is a comprehensive academic advising, transfer articulation, and degree audit solution that will replace our current degree audit software, CAPP. While CAPP is no longer being enhanced by Ellucian, Degree Works, a Banner alternative to CAPP, adds new capabilities to help students and their advisors navigate curriculum requirements. Degree Works supports the University's goals of retention and completion rates through academic planning tools, real time counseling capabilities, and more personal interactions between advisors and students. Degree Works is one component of our integrated Student Information System and Banner business system provided by Ellucian.

FINANCIAL IMPLICATIONS:

Funding for $100,000 was previously approved through Capital Equipment requests for Fiscal Year 2016. These funds will be used to purchase the Degree Works License for $63,250. Remaining funds will be used to purchase implementation support from Ellucian. Annual software maintenance support of $11,385 will be covered by Information Technology Services.

RECOMMENDATION:

President Farley recommends the Board of Regents approve award of a contract to Ellucian.
SUBJECT: Therapy Pools for Athletics -- Project # 900085

DESCRIPTION:

This project will take the two large therapy pools that are sitting on the deck of the Petro natatorium and place them in ground to facilitate end users ease in the ingress and egress for using the pools. Schwerdt Design Group has provided design and engineering services for this project.

Four Topeka contractors were notified, and 3 bids were received. The bids came in as follows:

</tr>
<tr>
<td>Senne and Company</td>

</tr>
</tbody>
</table>

DISCUSSION:

The bid from Mohan Construction was found to be incomplete and was disqualified due to failure to provide a factory authorized service provider for the dismantling, relocation, and reinstallation of the existing therapy pools into the new below deck vault as identified in the approved specifications and drawings. Washburn University and Schwerdt Design recommend the next lowest qualified bidder, Kelley Construction, be awarded the construction contract for this project.

FINANCIAL IMPLICATIONS:

An expenditure of **$239,000** from donated funds and Excellence in Athletics funds for the procurement of design services from Schwerdt Design Group in the amount of **$18,000** and **$221,000** for construction services to Kelley Construction.

RECOMMENDATION:

President Farley recommends the Board of Regents approve award of the contract to Kelley Construction for the therapy pools project and for design services to Schwerdt Design Group.

SUBJECT: New Parking Lot at Durow & Jewell – Project No. M15012

DESCRIPTION:

This project is to build a new parking lot on the Washburn University campus at the corner of Durow and Jewell Avenues (by KTWU). Work will be completed over the summer with substantial completion by September 1st, 2015. This project will paid for out of University reserves.

A total of five sets of plans were picked up, and one bid was received. Bids were taken for both this parking lot and another at the SE corner of campus (future Law School Parking). Bid pricing for both parking lots were analyzed by Washburn University staff and Steve LaCasse at Bartlett & West (Design Engineer of Record), and found that the pricing anticipated per stall in the SE parking lot was a few percentage points higher than was originally estimated (approximately $542/stall). This was due to the complexity of the projects to meet new requirements for storm water quality, the timing of the bidding process, and the plentiful work in the local area available to paving contractors through the City of Topeka Capital Improvement Plan and Shawnee County sales tax funded projects.

The bid documents were structured to allow the University to accept any combination of the proposal items by either individual lot or a combination of both lots. Based on the aggregate price exceeding the engineer’s estimate and the tight timelines to complete the work, we recommend moving forward with accepting the proposal items relating to only the parking lot at the corner of Durow and Jewell this summer. The intent is to rebid the SE parking lot (future Law School parking) at a later date to be completed no later than August, 2016. This will allow for more flexibility in the construction timeline and should achieve better pricing.

The bid for the new parking lot at Durow and Jewell came in as follows:

<table>

<tbody>
<tr>
<td>Bettis Asphalt &amp; Construction Inc.</td>

</tbody>

Bettis Asphalt & Construction, Inc. will serve as General Contractor and excavator for this project, having received multiple bids from local concrete, electrical, landscape/irrigation, brick paving contractors and one staking consultant. The proposed subcontractors are listed below:

- Concrete - Joe Conroy Contractor (Bids were received from Joe Conroy Contractor, Sunflower Paving, and Martin Construction)
• Site Lighting – Lesser Electric (Bids were received from Lesser Electric and Midwest Electrical)
• Landscape/Seeding – Topeka Landscape (Bids were received from Topeka Landscape, Luxury Lawn, Condray & Young)
• Brick Pavers – Condray & Young (Bids were received from Condray & Young, Sunflower, Martin Construction)

FINANCIAL IMPLICATIONS:

An expenditure of $342,021 from University reserve funds at this time. $800,000 was authorized at the March 12, 2015 meeting.

RECOMMENDATION:

President Farley recommends the Board of Regents approve award of the contract to Bettis Asphalt & Construction Inc. for the new parking lot project at Durow & Jewell.

DESCRIPTION:

This project is to selectively replace broken or severely damaged concrete panels in parking lot #9 (south of the Law School) on the Washburn University campus. Work will be done over the summer of 2015 and paid for out of capital improvement funds.

There was less than a 1% difference in the price of the two bids. Dinkel Construction was chosen for the project since they have done numerous parking projects for the University. They are very familiar with campus and working around our summer schedule.

FINANCIAL IMPLICATIONS:

An expenditure of $216,014 from the FY15 Capital Improvement budget.

RECOMMENDATION:

President Farley recommends the Board of Regents approve award of a contract to Dinkel Construction in the amount of $216,014 for the parking lot repair project.

SUBJECT: Contract for Services with Kansas Board of Regents

DESCRIPTION:

Washburn, on behalf of the TRAC-7 consortium, is requesting approval to enter into a contract with the Kansas Board of Regents (KBOR) to provide limited student level education and employment data necessary to meet the TRAC-7 TAACCCT grant reporting requirements on employment status and program impact analysis for grant participants.

The purpose of this Agreement is to enable Washburn, as the consortium lead for TRAC-7, to utilize student education record data and information to assist in the study and evaluation of postsecondary education programs for evaluating TRAC-7 outcomes and impact. KBOR will also share limited employment data, in a manner consistent with the data sharing agreement between KBOR and the Kansas Department of Labor (KDOL) dated February 6, 2013, which authorizes the use of KDOL data for the evaluation of postsecondary education programs.

A proposal was received from the Kansas Board of Regents as a sole source provider for providing these data at the student level via KBOR’s statewide data management and reporting system. As a result of the agreement with KDOL, KBOR is the only entity to possess the management and reporting data system of integrated education and wage records, and therefore is uniquely qualified to perform the data match for TRAC-7 institutions necessary for Washburn’s study and evaluation of the TRAC-7 program.

SUBJECT: Washburn Institute of Technology Building D Renovation

DESCRIPTION:

This project is to renovate and remodel Building D on the Washburn Institute of Technology Campus to create a new site for the Advance Systems Technology (AST) Program that is currently located at Forbes Field. Notice has been given to the property owner at Forbes Field that Washburn will be opting out of the lease beginning October 2015. The Board approved this action during the March Board Meeting. With such a short time frame to renovate Building D to accommodate the AST Program and to provide additional programming space for the welding program before the start of the Fall Semester the project delivery method of Construction Manager At Risk (CMAR) was chosen to undertake this project. With this project being very heavily weighted in the mechanical and electrical area, the University is requesting approval to enter into agreement with Bartlett and West Engineering Topeka, to provide design services and construction administration. Concurrently Facilities Services coordinated a Request for Qualifications process to select a General Contractor to provide general and specialty construction for this project.

Requests for qualifications were sent out to 4 contractors located in the City of Topeka.

Bob Florence Contractor, Inc and Senne Company did not respond to the RFQ.

KBS Constructors and Kelley Construction responded to the RFQ and were shortlisted and went through a thorough interview process. KBS Constructors were chosen to move forward in the process as they were experienced in the CMAR process, had the availability of key personnel to undertake this project and fully understood the necessity of meeting the very tight timelines of the project.

FINANCIAL IMPLICATIONS:

An expenditure not to exceed $1,800,000 from Washburn Institute of Technology reserves.

RECOMMENDATION:

President Farley recommends the Board of Regents approve award of the CMAR contract to KBS Constructors and to Bartlett and West for Design Services.

SUBJECT: Debt Relating to Housing and Dining Facility Project

BACKGROUND:

The University’s strategic plan, Washburn 150 Forward”, addresses the need for high-quality facilities for our students and programs. In October 2013 the Board gave approval to contract with Brailsford & Dunlavey to access the demand for additional on-campus student housing. The study indicated a demand for additional residence hall style housing of approximately 350 beds and an additional dining hall. In June 2014 the Board approved hiring HTK/KWK architects to design the project. At the last Board meeting (March 12, 2015) the construction contract was awarded to McPherson, Inc. for construction on the facility to be complete by July 2016. Below outlines how the new Housing and Dining project will be funded and financed.

After discussions with Springsted Incorporated, the University’s financial advisor and discussion at previous Board meeting, the University decided to split the debt financing for the project into two portions. The first portion is a fixed rate tax-exempt bond offering not to exceed $20 million, with a 25-year repayment schedule. The second portion is a fixed-rate tax-exempt private placement not to exceed $7.2 million, with a 7- or 10-year rate lock and payments based on a 20-year amortization. Total debt not to exceed $27.2 million.

For the bond offering, due to the relatively short timeline, and because of the success of the 2014 bond refunding transaction underwritten by Piper Jaffray & Co., the University has selected that firm as underwriter for the bond portion of the financing.

The bonds are expected to be issued by early June 2015. The first interest payment will be due on July 1, 2016. Annual debt service on the bonds will range from approximately $1.1 million in FY17 to $1.2 million in FY26 and subsequent years, depending on the amount of bonds issued.

For the private placement portion, Requests for Proposals were sent to ten banks on March 31, 2015; responses from four (4) of these were received prior to the 5:00 p.m., Tuesday, April 14, 2015 deadline. The firms were requested to provide proposals for the private placement with a 7-year term and/or a 10-year term. The banks submitting proposals were:

<td>Bank of Kansas City (Overland Park, KS)</td>
</tr>
<tr>
<td>JP Morgan Chase (Minneapolis, MN)</td>
</tr>
<tr>
<td>UMB Financial Corporation (Kansas City, MO)</td>
</tr>
<tr>
<td>US Bank (Topeka, KS)</td>
</tr>
</tbody>
</table>
The proposals were reviewed by the University’s Financial Advisor; the Vice President for Administration & Treasurer; and the Director of Finance. Initial discussions narrowed the proposals down to 2 finalists.

The UMB and Bank of Kansas City proposals were discussed with the Board’s Budget & Finance Committee on April 24. The proposal from ______ was selected as the best response by the Committee. This proposal specifies interest-only payments for the first three years, with annual debt service ranging from $530,000 to $575,000 after that during the interest rate lock period.

FINANCIAL IMPLICATIONS:

Annual combined debt service will range from $1.7 million to $1.8 million during the interest rate lock period. At the end of the lock period, the University must either enter into another financing arrangement, or pay the then-outstanding principal balance. Debt service on the bonds will range from $1.1 million to $1.2 million between FY22 and FY41, depending on the amount of bonds sold. Total debt service will be funded via related housing and dining revenues.

RECOMMENDATION:

Dr. Farley recommends approval to ratify the selection of Piper Jaffray & Co. as underwriters for the bond portion of the financing, and approve the selection of _____ as the bank lender for the private placement portion. Dr. Farley further recommends that the board authorize the President and the Board Chair to sign any documents required to consummate the transactions, and to designate other University staff (e.g., University Counsel, Vice President for Administration and Treasurer, and Director of Finance) to sign applicable closing documents, subject to the following provisions:

- Bonded indebtedness not to exceed $20 million
- Interest cost on bonded indebtedness not to exceed 4.0%
- Private placement debt not to exceed $7.2 million
- Interest rate on private placement debt not to exceed 2.4% during the lock period
- Total debt not to exceed $27.2 million

The University hereby covenants that it will take no action of any kind which would in any manner impair or delay the collection of the Pledged Revenues or which might otherwise adversely affect the Pledged Revenues, and in the event any litigation, claim or proceeding shall be commenced in any form or tribunal under which the pledge of the Pledged Revenues pursuant to this Resolution may be challenged,
or which in any other way may adversely affect the collection of the Pledged Revenues by the University in amounts sufficient to pay the Debt Service Requirements on the Bonds and any Parity Bonds and Parity Obligations, the University shall take all action necessary to contest any such litigation or proceedings.

**Section 6. Additional Parity Bonds and Parity Obligations.** The University hereby covenants and agrees that so long as any Parity Bonds remain Outstanding and unpaid, it will not issue any revenue bonds or other obligations payable from the Pledged Revenues, or any part thereof, which are superior in lien, security or otherwise to the first and prior lien of the Parity Bonds and Parity Obligations on the Pledged Revenues. (a) When the issuance of additional bonds or other obligations payable from the Pledged Revenues of equal stature and priority is permitted by the statutes of the State of Kansas; and the issuance of any such revenue bonds or other obligations will not adversely affect the exclusion of the interest on the Series 2015 Bonds from gross income for purposes of Federal income taxation;

(b) When the University shall not be in default in the making of any payments at the time required to be made by it into the respective funds and accounts required by this Resolution or any Parity Resolution and shall not be in default in any covenants or procedures established in this Resolution or any Parity Resolution; and

The University may also issue Additional Bonds and Additional Obligations which will be additionally secured by a pledge of other University revenues, including Mill Levy Revenues and Sales Tax Revenues, if permitted by the statutes of the State of Kansas at the time of such issuance.
