SECTION 7. FACULTY TENURE.

a. The awarding of tenure to a faculty member is a critical point in the member's relationship with Washburn University. Tenure is a means to certain ends; specifically: (1) freedom of teaching and research and of extramural activities and (2) a sufficient degree of economic security to make the profession attractive to men and women of ability. Freedom, economic security, and tenure are indispensable to the success of Washburn in fulfilling its obligation to its students and to society. Not only does tenure recognize the worth of the individual and that person's contribution to the University community, but tenure and the promotion process are the means by which the quality of the faculty is maintained and improved. The added prestige and recognition that promotion and tenured status based on the standards below confer on an individual are essential to the moral and lustre of Washburn's faculty and the University.

b. The review of candidates for tenured appointments, beginning at the departmental level and moving through the channels of the University level, must at all stages be careful, deliberate, and searching if the standards of excellence to which Washburn aspires is to be attained. The same considerations apply to recommendations for promotion in rank.

c. Criteria for tenure and promotion traditionally have been and continue to be teaching, research, and community and professional service. The award of tenure must take into account any prior service credited but will be based largely on evidence of achievement since joining the Washburn faculty. Promotion and tenure are never automatic for a faculty member. They must be earned.
d. After an appropriate length of employment in academic duties by the University, full-time members of the faculty shall be eligible for tenure in an academic discipline offered at Washburn, signifying that their services are of such quality as to merit continuing appointment; and if granted tenure, their employment thereafter shall be terminated involuntarily only for cause as provided in Section 8. The President and the Board shall determine if a leave of absence or a faculty exchange is to be used as part of the required length of service.

e. Beginning with appointment to the rank of full-time instructor or a higher rank, the probationary period at Washburn University shall not exceed six years. At least three of these six years must be at Washburn as a full-time instructor or higher rank. Up to three years credit may be granted, by written agreement, for full-time service at other institutions of higher education. The initial employment contract of every full-time faculty member will indicate that member's maximum probationary period at Washburn University. Notices of non-reappointment should be given at least one year prior to the expiration of the probationary period if the faculty member is not to be continued in service after the expiration of that period.

5/1/14

f. Faculty tenure in an academic discipline may be granted at any time by action of the Board of Regents upon recommendation by the President. The recommendation by the President shall be made after review of the recommendations by the Vice President and by the relevant Unit's Dean, who shall have consulted with his/her Major Academic Unit's CPT.

4/11/84; 5/10/89

g. Administrators and faculty members not previously holding tenure shall not be granted tenure in any administrative academic disciplines offered by Washburn University. Serving in an administrative capacity shall not deprive a faculty member of retaining or acquiring tenure in an academic discipline, such as Professor of Education, Associate Professor of Business Administrations, etc.

h. Except for persons sharing a tenure-track joint faculty appointment described in subsection i below, faculty members employed part-time, or as teaching assistants, visiting faculty or lecturers are not eligible for tenure.

i. When deemed appropriate by the Vice President for Academic Affairs a full-time tenure track faculty position may be split into two half-time positions and persons otherwise qualified to fill such position may be appointed to share it as a joint faculty appointment. Beginning with appointment to instructor or a higher rank in a joint faculty appointment position, the probationary period at Washburn University shall not exceed six years. Such probationary period for each of the two persons in a joint faculty position shall be identical and stated in their respective initial employment contracts with the University. At least three of the six years probationary service must be at Washburn at the rank of instructor or higher. Up to three years credit may be granted to appointees, by written agreement, for full-time service by each as teaching faculty at other institutions of higher education. Joint faculty appointees in a tenure
track position may be eligible to petition, jointly if they choose, for tenure and/or for promotion in accordance with the procedures in Article V, Sections 6. and 7. for full-time faculty members; provided, however, that tenure or promotion will only be awarded to any person sharing a joint faculty appointment in the event (a) both individuals in such joint faculty position petition for tenure and/or for promotion in the same year of review; and, (b) both individuals are deemed to fulfill all of the requirements for tenure and/or promotion in rank. In the event one of the individuals does not petition for tenure or one of the two is deemed not to fulfill all of the requirements for tenure, both will be given notice of non-reappointment and their employment will terminate upon the expiration of their probationary period. The property right granted by the award of tenure is the continuation of employment as a half-time faculty member which may be terminated for cause under section 8 of Article V or as provided in subsection k. below.

5/1/14

j. In the event one of the persons appointed to a joint faculty appointment is non-renewed, terminated for cause or voluntarily terminates employment, such event shall be deemed cause for the termination of the remaining individual's employment at the end of the then current academic year. However, such individual shall be eligible to apply for any vacant faculty position at the University for which she/he is qualified. Except as a provided in the preceding sentence, persons in a joint faculty appointment shall have the same rights of non-reappointment of non-tenured full-time faculty stated in Section 6.f of this Article.

9/13/02

k. In the event tenure has been awarded to both individuals in a joint faculty appointment and one is terminated for cause or otherwise is unwilling or unable for any reason, except for a reason which may be provided such individual by operation of law, to fulfill the obligations of his/her half-time position in such appointment, the remaining half-time appointee shall be offered the duties and functions of the full-time faculty position. If the remaining individual is unwilling or unable, except for a reason which may be provided by operation of law, to accept the full-time faculty duties of the position, then his/her unwillingness or inability to serve shall serve as the occurrence of the condition subsequent and cause for the termination of such individual's employment at the end of the then current academic year.

SECTION 8. TERMINATION FOR CAUSE.

a. The President may terminate the services of a member of the faculty at any time, for cause. Cause for termination consists of demonstrated incompetence or dishonesty in teaching or research, substantial and manifest neglect of duty, personal conduct which substantially impairs the individual's fulfillment of his/her University responsibilities, engaging in or substantially contributing to actions materially disruptive to the effective operations of the University, substantial falsification of credentials, or violation of other faculty, staff, or student's civil rights. Written notice of termination specifying the cause shall be given by the President to the faculty member concerned prior to the date of termination. The Board of Regents shall determine and fix the date on which payment of salary shall cease, which date shall not be prior
to the effective date of the termination of services. Such termination by the President shall only be made after consultation with the Vice President and the appropriate Dean.

b. The termination for cause of a tenured teacher or the dismissal for cause of a full-time non-tenured teacher previous to the expiration of a term appointment, if appealed by the affected faculty member, will be considered by both the Faculty Appeals Committee and the Board of Regents. Appeal procedures for termination for cause as approved by the General Faculty and the Board of Regents are specified in the Faculty Handbook.

SECTION 9. APPEALS COMMITTEE PROCEDURE

a. The Faculty Appeals Committee shall consist of five (5) faculty appointed by the Faculty Senate. No one shall be appointed who is a member of the academic department of which the appellant is a member. The member of the Committee senior in tenure shall serve as chairperson.

b. The decision of the Committee, which shall include provisions for appropriate remedial action, will be binding unless a party to the appeal makes a written request within ten days for final determination by the Board.

c. The Board of Regents' review of the case shall be scheduled for the earliest possible date and shall be based on the record of the previous hearing accompanied by opportunity for argument, oral or written or both, by the principals or his/her representatives. The decision of the Faculty Appeals Committee should either be sustained or the proceeding be returned to the Committee with objections specified. In such a case the Committee shall reconsider, taking account of the stated objections and receiving new evidence if necessary. It should frame its decisions and communicate it in the same manner as before. Only after study of the Committee's reconsideration should the Board of Regents make a final decision overruling the Committee.

d. Except for such simple announcements as may be required, covering the time of hearing and similar matters, public statements about matters before the Faculty Appeals Committee by either the faculty member or administrative officers shall be avoided as far as possible until the proceedings have been completed. Announcement of the final decision shall include a statement of the Faculty Appeals Committee's original actions if this decision has not previously been made known.
