

**Acknowledgement of Essential Functions required for the Magnetic Resonance Program**

A person who cannot perform the “Essential Functions” of the profession will not be considered qualified for entrance into the Program. Both section 504 of the Rehabilitation Act, 29 U.S.C.A. Section. 794, and the Americans with Disabilities Act, as amended, prohibit discrimination against “otherwise qualified” persons with a disability. Those persons not meeting the Essential Functions with or without reasonable accommodation are not considered “otherwise qualified” to enter into the profession.

I, \_\_\_\_\_, have been informed of the Essential Functions required of the Washburn University Magnetic Resonance Program, and acknowledge the following:

I have carefully reviewed the Essential Functions and have asked questions if I was unfamiliar with the standards and skills listed.

If I believe I require accommodation, I will request an appropriate accommodation with the Student Services Office (Morgan Hall, Room 135, 785-670-1629) no later than July 1<sup>st</sup>.

I am aware that certain chronic or recurrent illnesses and problems that interfere with patient care or safety may be incompatible with magnetic resonance clinical practice. I have also considered any conditions that I may have that may lead to a high likelihood of absenteeism.

I have been informed that deficiencies in knowledge, judgment, integrity, character, or professional attitude or demeanor which may jeopardize patient care may be grounds for course/rotation failure and possible dismissal from the program.

I have the ability to meet the standards and skills listed in the Essential Functions and agree to complete the educational requirements for the certificate in Magnetic Resonance.
