## **Modality Adjustment Considerations**

Instructions: Please fill in the course information and answer the questions. Review with chair or dean (as applicable). Approved form should be forwarded to VPAA's office for documentation purposes.

| Instructor name:   |  |  |
|--|--|--|
| Course number and section:                                     |  |  |
| Course reference number (CRN):                                 |  |  |
| Course name:   |  |  |
| Type of course (lab, lecture, etc):                            |  |  |
| Current modality:  |  |  |
| Proposed modality:   |  |  |
| Date of request:   |  |  |
|  |  |  |
| What is the triggering event? (A stud                          | dent with positive test; difficulties enforcing physical distancing or |  |
| mask wearing; etc.)  |  |  |
|  |  |  |
|  |  |  |
| What is the problem caused by stayi                            | ng in the current modality? (Exposure for faculty or students;         |  |
| less-than-ideal learning environment                           | t; etc.)   |  |
|  |  |  |
|  |  |  |
| What is the time frame for the propo                           | osed adjustment? (From MM/DD/YY to MM/DD/YY)                           |  |
|  |  |  |
|  |  |  |
| Is there another way to address the                            | problem and stay in the current modality? (Assign certain              |  |
| student(s) to attend remotely; change                          | ging modality for shorter period of time; etc.)                        |  |
|  |  |  |
|  |  |  |
| What modality do you propose movi                              | ing to?  |  |
|  |  |  |
|  |  |  |
| Would changing to this modality pot                            | entially cause other problems that one should take into account?       |  |
| (Technical issues; problems meeting learning objectives; etc.) |  |  |

| X                      |  |
|------------------------|--|
| Faculty                |  |
|                        |  |
| X                      |  |
| Chair (if appropriate) |  |
|                        |  |
| Χ                      |  |
| Dean                   |  |
