V. Officer Reports

A. Chair's Report

Chairperson Storey recognized Mr. John Brown of 15th Street Investments (Company) who made a presentation on the company’s request that Washburn participate in a development financing mechanism for a redevelopment in the vicinity of 15th and Adams streets.
Mr. Brown gave an introduction to his history and experience as a developer. Mr. Brown showed a schematic plan of the development. He explained the project needed Washburn University’s portion of sales tax derived from the retail sales of the project to make the project optimal through a mechanism known as Tax Increment Financing (TIF). He said all sales at the site would be business from the interstate highway adjacent to the property. While the project would reduce Washburn’s tax collections it would brighten up a blighted corridor to the campus and thus would benefit the University. The sales tax capture is estimated at $5.5 million and he hopes it would be recaptured quickly and not take twenty years.

Chairperson Story indicated there would be no action by the Board at this meeting, and thanked Mr. Brown. Mr. Matthew Gough, Barber Emerson, L.C, Mr. Brown’s attorney, distributed a letter to the Board dated July 25, 2008.

B. President’s Report

President Farley commented on the recent Visioning process currently taking place in the community, acknowledging members of the Regents, faculty, students and staff who are active in the process. President Farley is a co-chair of the community-wide effort.

Dr. Farley reported the KAW transition is progressing smoothly. The University is interviewing for an interim director. He acknowledged the hard work of Vice Presidents Bowen and Hill during the process.

President Farley reported Washburn has received communication from the Kansas Board of Regents of the Governor’s plan to reduce FY ‘09 budgets by up to 2%. Dr. Farley clarified the reduction had not yet taken place and might not if there were some state budget improvement. The KBoR has requested comments from all universities about how they might meet those contingent reductions by August 5 and extended an invitation to the Washburn administration to participate in the August KBoR retreat.

Dr. Farley said students will be returning in two weeks. He reported housing is filling, saying we currently are at 85% in the LLC and 90% in the Washburn Village. He said the University projects more to sign housing contracts.

President Farley reported enrollments appear to be down. Washburn graduated its largest class last May and freshman classes have shrunk in light of declines in high school graduates. He said enrollment declines would likely result in budget re-evaluation with likely cuts. Dr. Farley explained that discussion about budget reductions would involve the entire campus.

Regent Lykins was asked about prospects for enrollment at Kansas Board of Regents schools. He commented that KU would be up, K-State flat and all others likely down.

In response to a question from Regent Marquardt about how much enrollments would likely be off, Dr. Farley indicated it would be approximately 5000 credit hours on a base of 150,000.

Regent Lykins queried if Law School enrollments would also be down. President Farley said applications are down but enrollments should stay the same at an
entering class of 125 because applications exceed spaces available and a waiting list for admissions is kept.

President Farley said the first home football game will be on August 28 at 7:00 p.m., a Thursday evening, against the Colorado School of Mines.

Dr. Farley reported the Washburn Endowment Association and the University have cooperated to invite Mr. Mayo Schmidt, Vitera, to be Executive in Residence September 25, 26, 2008.
