I. PROGRAM OBJECTIVE: To offer an Associate of Science degree with a major in Occupational Therapy Assistant.

A. Rationale:

Occupational Therapy (OT) is a skilled treatment that helps individuals achieve independence in all facets of their lives. Occupational Therapy assists people in developing the skills for the job of living and necessary for independent and satisfying lives. Occupational therapy assistants (OTA) assist the OTs to implement the treatment plans to help individuals to achieve their independence.

Washburn University's Mission states that it: *shall prepare qualified individuals for careers, further study and lifelong learning through excellence in teaching and scholarly work.* The Occupational Therapy Assistant program will assist with meeting the mission through increasing healthcare services in our region. There is a need in the rural communities and the local cities/communities for a more diverse set of allied health professionals, i.e. occupational therapy assistants, to provide well rounded service to the community.

The Allied Health Department offers an associate of science degree with the following majors: Health Information Technology; Physical Therapist Assistant; Radiologic Technology; and Respiratory Therapy. The Occupational Therapy Assistant program will provide an additional major within the associate degree.

B. Market Demand

This program would serve a large geographical area within Missouri and Kansas. Within Kansas only one program exists, Newman University. Within the identified catchment area only Penn Valley Community College provides an OTA program.

The Bureau of Labor Statistics indicates that employment for occupational therapy assistants is expected to grow much faster than average as demand for OT services rises. The employment of OTAs is expected to grow 25% from 2006 to 2016. (BLS - Occupational Outlook Handbook, 2008-09 Edition http://www.bls.gov/oco/ocos166.htm)

Accordingly, the Kansas Hospital Association projected 2008 employment of OTAs is at 325 with average annual job openings of 50-70 openings per year.
C. COMMUNITY SUPPORT

In May of 2008 the Vice President for Patient Care Services at Saint Francis Health Center contacted the Washburn University allied health department chair to discuss the shortage of OTs and OTAs. A concern regarding the sudden surge of traumatic brain injured soldiers at Ft Riley, which used to have about 10-20 soldiers and now has 300-400 soldiers, was an additional influence for Saint Francis contacting Washburn University.

Since July of 2008 the allied health department in conjunction with Saint Francis has been working on the development of this curriculum/program. Letters of support can be found in Appendix A.

D. ADMINISTRATION

The degree will be administered by the Department of Allied Health. This program will be accredited through the Accreditation Council For Occupational Therapy Education Accreditation (ACOTE).

E. FACULTY

Two full time faculty positions are required by accreditation as indicated by Standard A.2.O. Academic Resources. The Program Director position will be a 12 month position and the second faculty position will be a 9 month position. Both positions would be funded by sources external to Washburn University.

F. BUDGET

This program would only be implemented as long as external funding is available for the faculty positions. The pro forma is located in Appendix B.

II. ADMISSION REQUIREMENTS

Candidates for admission to the program would be required to be accepted by Washburn University following current policies. In addition, the program would have specific admission criteria that would have to be met.

The number of students accepted into the program would be determined by the number of clinical placements available. It is expected that twenty students will be accepted per year.

III. CURRICULUM

The associate of science degree will be a total of 76 credits which includes university requirements and specific allied health course which meet the OTA standards for
The curriculum outline, course descriptions, and degree plan can be found in Appendix C. Also listed within the course descriptions are the ACOTE standards each new course will meet.

Located in Appendix D are the OTA-ACOTE Standards. Beside each standard is a list of courses that satisfy the ACOTE requirement.

III. LIBRARY HOLDINGS

Relevant to the proposed OTA program, Judy Druse completed a review of the resources at Mabee Library. Her analysis is in Appendix E.

IV. PROGRAM EVALUATION

The following are minimal measures that will be conducted to evaluate the effectiveness of the program.

1. Student satisfaction with course/curriculum content.
2. Graduate satisfaction with course/curriculum content.
3. Employer satisfaction with graduate competence.
4. Course enrollment versus completion rates.
5. Passing rates on certification exams.

September 8, 2009

REF: Occupational Therapy Assistant Program – Letter of Support

Dear Dr. Munzer:

I write endorsing wholeheartedly the effort by Washburn University and St. Francis Health Center Rehabilitation Services to develop an Occupational Therapy Assistant Program. We experience daily unmet patient needs in northeast Kansas secondary to the lack of occupational therapists and assistants. Such training often means students must leave the state… and often do not return, but practice in the community where they received their degrees/certifications.

The aging of the population, even more so in northeast Kansas, coupled with the increasing number of baby boomers in the next few years call for resources aimed at providing for the physical needs ensuring a patient can remain as independent as long as possible for the good of the person, his/her family, and the community. I recommend the Occupational Therapy Assistant Program move forward.

Sincerely,

Andrew H. Schauer, PhD
Consulting Psychologist - St. Francis Health Center – Rehabilitation Services

Dr. Pat Munzer
Chair Allied Health
Washburn University
1700 SW College Ave.
Benton 108
Topeka, KS 66621

Dear Dr. Munzer,

I am an occupational therapist at St. Francis Health Center and have worked in the field for 15 years. I can honestly say that the vast majority of time I have been in the field, we have been grossly short-staffed. We typically have two or more openings at any given time.

I would like to express my excitement at the prospect of having a well-run occupational therapy assistant program here at Washburn University. We have profited greatly from the physical therapy assistant program in that we have hired many graduates, and have the pleasure of working with many of the students. I foresee a COTA program offering us the same benefits.

I believe this would offer a great number of people in this geographic area a chance at a rewarding career. I truly hope this comes to fruition.

Sincerely,

Jenny Sodergren, OTR/L
St. Francis Health Center

William S Dunlap, Ph.D.
Washburn University
Dean and Professor, School of Applied Studies
1700 SW College Avenue
Topeka, KS 66621

Dr. Mr. Dunlap:

On behalf of Lawrence Memorial Hospital, Kreider Rehabilitation Services, I would like to express our support of the development of an Occupational Therapist Assistant program at Washburn University. The need for occupational therapists assistants throughout Kansas is extremely strong. This is a growth area within medical rehabilitation services. OTA's are highly respected within the health care community, well-paid, and are in high demand and short supply. This need is becoming more critical with advances in therapeutic services, our aging population, and the aging workforce in health science specialties. We applaud Washburn for its foresight in taking the lead in proposing this valuable degree option. Thank you for your consideration in helping meet the health care needs of Kansas.

Sincerely,

[Signature]

Jaye Cole
Director of OT, Lawrence Memorial Hospital, Kreider Rehabilitation Services

Topeka, KS 66621

Dear Dr. Dunlap,

On behalf of Stormont-Vail Healthcare I would like to express our support of the development of an Occupational Therapist Assistant program at Washburn University. The need for occupational therapists assistants throughout Kansas is extremely strong. This is a growth area within medical rehabilitation services. OTA’s are highly respected within the health care community, well paid, and are in high demand and short supply. This need is becoming more critical with advances in therapeutic services, our aging population, and the aging workforce in health science specialties. We applaud Washburn for its foresight in taking the lead in proposing this valuable degree option. Thank you for your consideration in helping meet the health care needs for Kansas.

Sincerely,

[Signature]

Toby Thompson, OTR/L
Occupational Therapy Supervisor, Rehabilitation Services
October 1, 2009

To Whom It May Concern:

On behalf of Mercy Regional Health Center’s Occupational Therapy Department, I would like to express our support of the development of an Occupational Therapist Assistant program at Washburn University. The need for occupational therapist assistants throughout Kansas is extremely strong. This is a growth area within the medical rehabilitation services. OTA’s are highly respected within the health care community, well-paid, and are in high demand and short supply.

This need is becoming more critical with advances in therapeutic services, our aging population, and the aging workforce in health science specialties. We applaud Washburn for its foresight in taking the lead in proposing this valuable degree option. Thank you for your consideration in helping meet the health care needs for Kansas.

Sincerely,

Mary Sue Gaffke, MHS, OTR/L
Lead Occupational Therapist
September 23, 2009

William S. Dunlap, Ph.D.
Dean and Professor, School of Applied Studies
Washburn University
1700 SW College Avenue
Topeka, KS 66621

Dear Mr. Dunlap:

Thank you for your dedication to health professional education in Kansas. On behalf of the Kansas Hospital Association, I would like to express our support for the development of an Occupational Therapist Assistant program at Washburn University.

The need for occupational therapist assistants throughout Kansas is a challenge community hospitals continually struggle to overcome. Statistics clearly show occupational therapy is a growth area within medical rehabilitation services. Occupational therapist assistants are highly respected within the health care community and well-paid, but are also in short supply despite high industry demand. This need is becoming more critical with advances in therapeutic services, our aging patient population, and the aging workforce in health science specialties.

We applaud Washburn for its foresight in taking the lead to propose this valuable degree option. Thank you for your consideration in helping meet the health care needs for Kansas.

Respectfully,

Thomas S. Bell
President

William S. Dunlap, Ph.D.
Dean and Professor, School of Applied Studies
Washburn University
1700 SW College Avenue
Topeka, KS 66621

Dear Dr. Dunlap,

I was glad to hear that Washburn's future plans may include the development of an Occupational Therapist Assistant program. We have had an association with Washburn's Physical Therapist Assistant program for some time and have been pleased with the students that have done clinical affiliations here.

On behalf of Salina Regional Health Center I would like to express support for this program. There is a need for more Occupational Therapist Assistants in our city and in this region. We typically recruit for many months before we can fill open positions. I know there are currently a number of openings in our community.

I would anticipate that you would need clinical affiliation sites with the advent of this program. Salina Regional Health Center Occupational Therapy department would be happy to help in this area. I look forward to hearing about the successful development of this program.

Sincerely,

COURSE DESCRIPTIONS

AL 161 - FOUNDATIONS OF OCCUPATIONAL THERAPY I (2 Credit Hours)

COURSE DESCRIPTION:  This course is an introduction to the history and philosophical base of occupational therapy. Areas of instruction include: models of practice; frames of reference; the role of the Occupational Therapist/Occupational Therapy Assistant; Code of Ethics; Core Values; Standards of Practice and the Delivery of Occupational Therapy Services.  PREREQUISITE:  Formal Admission to the Occupational Therapy Assistant Program.

LEARNING OBJECTIVES:

1.  Articulate an understanding of the importance of the history and philosophical base of the profession of occupational therapy
2.  Describe basic features of the theories that underlie the practice of occupational therapy

AL 162 - OCCUPATIONAL THERAPY INTERVENTIONS I (3 Credit Hours)

COURSE DESCRIPTION:  This lecture and lab course will discuss the dynamics of the occupation to include the activity, performance skills, and performance patterns from conception to age 18.  The student will exhibit the ability to analyze tasks and implement an intervention plan for the occupational therapy client.  PREREQUISITE:  AL 161

LEARNING OBJECTIVES:

1.  Describe the meaning and dynamics of occupation and activity, including the interaction of areas of occupation, performance skills, performance patterns, activity demands, context(s) and client factors.
2.  Exhibit the ability to analyze tasks relative to areas of occupation, performance skills, performance patterns, activity demands, context(s) and client factors to implement the intervention plan.

AL 163 - FOUNDATIONS OF OCCUPATIONAL THERAPY II (3 Credit Hours)

COURSE DESCRIPTION:  This lecture/lab course is a continuation of AL 161 and will allow the student to develop the ability to select and implement occupational therapy interventions related to the activities of daily living.  PREREQUISITE:  AL 161, Concurrent with AL 164

ACOTE STANDARDS:  B.4.1, B.4.2, B.4.3, B.5.2, B.5.3, B.5.4, B.5.5, B.5.11, B.7.6, B.7.9, B.9.7, B.9.8

LEARNING OBJECTIVES:
Articulate the importance of balancing areas of occupation with the achievement of health and wellness.

1. Select and provide direct occupational therapy interventions and procedures to enhance safety, wellness, and performance in activities of daily living (ADL), instrumental activities of daily living (IADL), education, work, play, leisure and social participation.

**AL 164 - LEVEL I FIELDWORK 1 (1 Credit Hour)**

**COURSE DESCRIPTION:** This course requires a specific number of hours of limited occupational therapy assistant exposure in the healthcare setting. **PREREQUISITE:** AL 161 and Concurrent with AL 163.

**ACOTE STANDARDS:** B.1.2, B.7.8, B.7.10, B.9.6

**LEARNING OBJECTIVES:**

1. Identify personal and professional abilities and competencies as they relate to job responsibilities.
2. Employ logical thinking, critical analysis, problem solving, and creativity in the clinical OTA setting.

**AL 165 - SPECIAL CONSIDERATIONS FOR OTAs IN PSYCHOSOCIAL DISORDERS (1 Credit Hour)**

**COURSE DESCRIPTION:** This course will provide the student with the knowledge and understanding of the concepts of psychiatric disorders and human behavior as it relates to the role of occupational therapy services. This course will focus on psycho social mental health occurring disorders with dementia, physical injury, trauma, or neurological dysfunction. **PREREQUISITE:** AL 164

**ACOTE STANDARDS:** B.1.6, B.1.7, B.2.6

**LEARNING OBJECTIVES:**

1. Demonstrate knowledge and understanding of the concepts of human behavior to include the behavioral and social sciences as it relates to occupational therapy.
2. Demonstrate knowledge and appreciation of the role of sociocultural, socioeconomic, and diversity factors and lifestyle choices in contemporary society as it relates to occupational therapy.

**AL 166 - OCCUPATIONAL THERAPY INTERVENTIONS II (3 Credit Hours)**

**COURSE DESCRIPTION:** This lecture lab course is a continuation of AL 162 and will discuss the dynamics of the occupation to include the activity, performance skills, and performance from early adulthood to later maturity. **PREREQUISITE:** AL 162

**ACOTE STANDARDS:** B.1.5, B.4.5, B.7.7, B.7.8, B.8.1, B.8.2, B.8.3,

**LEARNING OBJECTIVES:**
1. Explain the need for and use of compensatory strategies when desired life tasks cannot be performed.
2. Apply models of occupational performance and theories of occupation.

**AL 167 - FOUNDATIONS OF OCCUPATIONAL THERAPY III (3 Credit Hours)**

**COURSE DESCRIPTION:** This course is a continuation of AL 163 and will allow the student to develop the ability to administer selected assessments, screening, evaluation tools, and skilled observations and to develop skills that relate to analysis of movement, orthotic devices, superficial thermal and mechanical modalities. **PREREQUISITE:** AL 163

**ACOTE STANDARDS:** B.4.1, B.4.2, B.5.3, B.5.8, B.5.9, B.5.10, B.5.13, B.7.6, B.7.9

**LEARNING OBJECTIVES:**

1. Gather and share data for the purpose of screening and evaluation including, but not limited to, specified screening tools; assessments; skilled observations; checklists; histories; consultations with other professionals; and interviews with the client, family and significant others.
2. Administer selected measurements using appropriate procedures and protocols (including standardized formats) and use of occupation for the purpose of assessment.

**AL 265B - APPLIED NEUROPHYSIOLOGY - OCCUPATIONAL THERAPY LAB (0 Credit Hours)**

**COURSE DESCRIPTION:** This lecture lab course is designed to develop the Occupational Therapy Assistant and the Physical Therapist Assistant with the skills to collaborate, develop and implement assessment/treatment techniques for individuals with neurological and/or cardiovascular disorders. This includes specific assessment and treatment techniques for patients in special populations, such as spinal cord injury, pediatrics, amputees, traumatic head injury, cerebrovascular accidents, as well as other neurological or cardiovascular disorders. **PREREQUISITES:** AL 167, BI 255

**ACOTE STANDARDS:** B.4.4, B.4.5, B.5.4, B.5.8, B.5.9, B.5.10, B.5.11, B.5.12, B.5.13, B.7.7, B.7.8, B.8.1, B.8.2, B.8.3

**LEARNING OBJECTIVES**

1. Monitor and reassess, in collaboration with the client, caregiver, family, and significant others, the effect of occupational therapy intervention and the need for continued or modified intervention, and communicate the identified needs to the occupational therapists.
2. Facilitate discharge planning by reviewing the needs of the client, caregiver, family, and significant others; resources; and discharge environment, and identify those needs to the occupational therapy, client, and other involved in discharge planning. This includes, but is not limited to, identification of community, human, and fiscal resources;
recommendations for environmental adaptations; and home programming.

**AL 252 - PSYCHOSOCIAL OCCUPATIONAL THERAPY**  (4 Credit Hours)

**COURSE DESCRIPTION:** This lecture lab course discusses the role of occupational therapy concerning therapeutic use of self, including one's personality, insights, perceptions and judgments as part of the therapeutic process in individual and group interactions. PREREQUISITE: AL 165,

**ACOTE STANDARDS:** B.1.7, B.1.8, B.4.4., B.4.5, B.5.6, B.7.7, B.7.8, B.8.1, B.8.2, B.8.3,

**LEARNING OBJECTIVES:**

1. Articulate the influence of social conditions and the ethical contest in which humans choose and engage in occupations.
2. Provide therapeutic use of self, including one's personality, insights, perceptions, and judgments as part of the therapeutic process in both individual and group interaction.

**AL 253 - LEVEL I FIELDWORK II** (1 Credit Hour)

**COURSE DESCRIPTION:** This course requires a specific number of hours in the health care setting to allow the student to employ logical thinking, critical analysis, problem solving and creativity as it relates to the occupational therapy clinical setting. PREREQUISITE: AL 164, AL 167

**ACOTE STANDARDS:** B. 5.6, B.5.7, B.7.10

**LEARNING OBJECTIVES:**

1. Describe the role of the occupational therapy assistant in care coordination, case management, and transition services in traditional and emerging practice environments.
2. Describe the ongoing professional responsibility for providing fieldwork education and the criteria for becoming a fieldwork educator.

**AL 254 - CURRENT TOPICS IN OCCUPATIONAL THERAPY**  (2 Credit Hours)

**COURSE DESCRIPTION:** This course will allow the student to obtain the knowledge and understanding of the systems and structures that create federal and state legislation and regulation for occupational therapy. Topics include reimbursement, national, international and state regulations for licensure, certification and/or registration for occupational therapy. PREREQUISITE: AL 167

**LEARNING OBJECTIVES:**

1. Articulate to consumers, potential employers, colleagues, third-party payers, regulatory boards, policymakers, other audiences, and the general public both the unique nature of
occupation as viewed by the profession of occupational therapy and the value of occupation to support the context(s) for the client.

2. Identify the systems and structures that create federal and state legislation and regulation

**AL 255 - LEVEL II FIELDWORK** (8 Credit Hours)

**COURSE DESCRIPTION:** This field work placement consists of two, full time, eight week rotations and provides the student with the opportunity develop into competent, entry-level occupational therapy assistants. The student will be exposed to a variety of clients across the life span and a variety of settings. **PREREQUISITE:** Satisfactory completion of all previous coursework

**LEARNING OBJECTIVES:**

1. Psychosocial factors influencing engagement in occupation must be understood and integrated for the development of client-centered, meaningful, occupation-based outcomes.

2. Ensure that the fieldwork experience is designed to promote clinical reasoning appropriate to the occupational therapy assistant role, to transmit the values and beliefs that enable ethical practice, and to develop professionalism and competence in career responsibilities.

**AL 256 - OCCUPATIONAL THERAPY ISSUES** (1 Credit Hour)

**COURSE DESCRIPTION:** This course will emphasize issues that relate to consumers, potential employers, colleagues, third party payers, regulatory boards, policymakers and others the value of the occupational therapy profession. **PREREQUISITE:** Satisfactory completion of all previous coursework

**LEARNING OBJECTIVES:**

1. Demonstrate knowledge of global social issues and prevailing health and welfare needs.

2. Identify the role and responsibility of the practitioner to address changes in service delivery policies, to effect changes in the system, and to recognize opportunities in emerging practice areas.

3. Demonstrate knowledge of applicable national requirements for credentialing and requirements for licensure, certification, or registration under state laws.
COMPARISON OF COURSES WITH 2006 OTA FORM C
OTA ACOTE STANDARDS

For each Standard, list the course numbers that satisfy the requirements of that Standard. (Do not include Level II fieldwork.)

*Assessment Measures:
1 Assignment 5 Project
2 Lab Test 6 Presentation
3 Objective test 7 Demonstration
4 Essay test 8 Other - please specify

AL 186 |
| B.5.2. | Select and provide direct occupational therapy interventions and procedures to enhance safety, wellness, and performance in activities of daily living (ADL), instrumental activities of daily living (IADL), education, work, play, leisure, and social participation. | AL163  
AL165 |
| B.5.3. | Provide therapeutic use of occupation and activities (e.g., occupation-based activity, practice skills, preparatory methods). | AL165  
AL167 |
| B.5.4. | Provide training in self-care, self-management, home management, and community and work integration. | AL163  
AL167 |
| B.5.5. | Provide development, remediation, and compensation for physical, cognitive, perceptual, sensory (e.g., vision, tactile, auditory, gustatory, olfactory, pain, temperature, pressure, vestibular, proprioception), neuromuscular, and behavioral skills. | PY 100  
AL163 |
| B.5.6. | Provide therapeutic use of self, including one's personality, insights, perceptions, and judgments as part of the therapeutic process in both individual and group interaction. | AL252  
AL253 |
| B.5.7. | Describe the role of the occupational therapy assistant in care coordination, case management, and transition services in traditional and emerging practice environments. | AL253  
AL254 |
| B.5.8. | Modify environments (e.g., home, work, school, community) and adapt processes, including the application of ergonomic principles. | AL167  
AL265B |
| B.5.9. | Articulate principles of and demonstrate strategies with assistive technologies and devices (e.g., electronic aids to daily living, seating systems) used to enhance occupational performance. | AL167  
AL265B |
| B.5.10. | Provide fabrication, application, fitting, and training in orthotic devices used to enhance occupational performance and training in the use of prosthetic devices. | AL167  
AL265B |
| B.5.11. | Provide training in techniques to enhance mobility, including physical transfers, wheelchair management, and community mobility, and participate in addressing issues related to driving. | AL163  
AL265B |
| B.5.12. | Enable feeding and eating performance (including the process of bringing food or fluids from the plate or cup to the mouth, the ability to keep and manipulate food or fluid in the mouth, and the initiation of swallowing) and train others in precautions and techniques while considering client and contextual factors. | AL162  
AL265B |
| B.5.13. | Recognize the use of superficial thermal and mechanical modalities as a preparatory measure to improve occupational performance. Based on the intervention plan, demonstrate safe and effective administration of superficial thermal and mechanical modalities to achieve established goals while adhering to contraindications and precautions. | AL167  
AL265B |
| B.5.14. | Promote the use of appropriate home and community programming to support performance in the client's natural environment and participation in all | AL163  
AL167 |
<p>| B.5.15. | Demonstrate the ability to educate the client, caregiver, family, and significant others to facilitate skills in areas of occupation as well as prevention, health maintenance, and safety. | AL163 | AL167 |
| B.5.16. | Use the teaching-learning process with the client, family, significant others, colleagues, other health providers, and the public. Collaborate with the occupational therapist and learner to identify appropriate educational methods. | AL162 | AL163 | AL166 | AL167 |
| B.5.17. | Effectively interact through written, oral, and nonverbal communication with the client, family, significant others, colleagues, other health providers, and the public in a professionally acceptable manner. | EN 101 | AL252 |
| B.5.18. | Grade and adapt the environment, tools, materials, occupations, and interventions to reflect the changing needs of the client and the sociocultural context. | AL163 | AL167 |
| B.5.19. | Teach compensatory strategies, such as use of technology, adaptations to the environment, and involvement of humans and nonhumans in the completion of tasks. | AL163 | AL167 |
| B.5.20. | Demonstrate skills of collaboration with occupational therapists on therapeutic interventions. | AL163 | AL167 |
| B.5.21. | Understand when and how to use the consultative process where appropriate with specific consumers or consumer groups as directed by an occupational therapist. | AL 101 | AL256 |
| B.5.22. | Recognize and communicate the need to refer to specialists (both internal and external to the profession) for consultation and intervention. | AL 101 | AL256 |
| B.5.23. | Monitor and reassess, in collaboration with the client, caregiver, family, and significant others, the effect of occupational therapy intervention and the need for continued or modified intervention, and communicate the identified needs to the occupational therapist. | AL162 | AL166 | AL265B | AL252 |
| B.5.24. | Facilitate discharge planning by reviewing the needs of the client, caregiver, family, and significant others; resources; and discharge environment, and identify those needs to the occupational therapist, client, and others involved in discharge planning. This includes, but is not limited to, identification of community, human, and fiscal resources; recommendations for environmental adaptations; and home programming. | AL162 | AL166 | AL265B | AL252 | AL256 |
| B.5.25. | Under the direction of an administrator, manager, or occupational therapist, collect, organize, and report on data for evaluation of practice outcomes. | AL162 | AL166 | AL265B | AL252 |
| B.5.26. | Recommend to the occupational therapist the need for termination of occupational therapy services when stated outcomes have been achieved or it has been determined that they cannot be achieved. Assist with developing a summary of occupational therapy outcomes, recommendations, and referrals. | AL161 | AL166 | AL265B | AL252 |
| B.5.27. | Document occupational therapy services to ensure accountability of service provision and to meet standards for reimbursement of services. | AL162 | AL166 |</p>

APPENDIX E
TO: Alan Bearman, Interim Dean of Libraries
FROM: Judy Druse, Interim Assistant Dean of Libraries
DATE: June 8, 2009
RE: Occupational Therapy Assistant (OTA) Program

Monographs: The book/e-book collection of the Mabee Library in appropriate subject areas (Occupational Therapy and Occupational Therapists) is inadequate to support the proposed new course. The library catalog contains records for only 39 items in the RM735 call number; 17 were published between 2000 and 2009; 7 between 2004 and 2009. The Blackwell Collection Manager lists 59 occupational therapy titles published in 2008/2009; 103 published in 2006/2007. Many recent and/or core titles are missing from the collection (see attached list). Numerous books, however, may be found under related subject headings: Art Therapy, Handicraft, Occupations, People with Disabilities, Physical Therapy, Play Therapy, Quality of Work Life, Recreational Therapy, Rehabilitation, Vocational Rehabilitation, Work, and others). Additional titles may be cataloged by medical specialty (e.g., Pediatrics, Geriatrics, or Psychiatry) or by affected body systems (e.g., the Musculoskeletal System or the Nervous System). Books may also be requested through interlibrary loan.

Periodicals: The journal collection is adequate to support the new course. Core journals (e.g., American Journal of Occupational Therapy, OT Practice, Journal of Rehabilitation, Occupational Therapy International, Psychiatric Rehabilitation Journal, OTJR) are available either in print or full text through one of the Libraries electronic databases. As funding permits, access to additional journals (e.g., Journal of Occupational Science, Occupational Therapy in Health Care, Occupational Therapy in Mental Health, World Federation of Occupational Therapists Bulletin, Physical and Occupational Therapy in Geriatrics, and Physical and Occupational Therapy in Pediatrics) should be considered for purchase. Journal articles may also be requested through document delivery.

Databases: Databases (e.g., Academic OneFile, CINAHL Plus, Cochrane Library, ERIC, Health Reference Center, Medline, ProQuest Nursing Journals, PsycInfo, Mental Measurements Yearbook and SportDiscus), which index topics related to occupational therapy, are available to support the new course. Many relevant full-text articles are available through CINAHL Plus, Cochrane Library, JSTOR, Sage Premier and ProQuest Nursing Journals. Other databases (e.g., OT Seeker and OTCATS) are freely available on the Web. As funding permits, access to OT Search, OTDBase, and other relevant databases should be considered for purchase.

Non-print: The University Libraries have no holdings of non-print materials to support the new occupational therapy program. Relevant podcasts may be heard on the American Occupational
Therapy Association's (AOTA) website and 26 AOTA videos may be watched on YouTube. Nevertheless, the Libraries recommend that additional non-print resources be purchased to support the OTA program.

New and/or core books needed for the collection:

- Asher, I. Occupational therapy assessment tools. 2007
- Carpenter, C. Qualitative research for occupational and physical therapists: a practical guide. 2008.
- Creek, Jennifer. Contemporary issues in occupational therapy. 2007.
- Dunbar, Sandra B. Occupational therapy models for intervention with children and families. 2007.
- Early, Mary Beth. Mental health concepts and techniques for the occupational therapy assistant. 2009.
- Radomski, Mary V. Occupational therapy for physical dysfunction. 2008.
