```

At the SAVE to folder in <Mail on username.inbox.ema> [saved-messages] : prompt, type the name of the new folder and press Enter (NOTE: the new folder does not need to have the same name as the existing folder)

At the Folder "FOLDERNAME" in <Mail on username...> doesn't exist. Create? prompt, press Y (Yes, to create the folder on the system) NOTE: wait a few seconds for the [Busy <|> ] message to go away and the [# messages saved and deleted] message to appear on the screen.

After the messages have been moved, press the comma key (which does the same thing as the less-than key) to return to the Folder List

With the highlight still on the name of the folder just moved, press D (Delete)

At the DELETE "FOLDERNAME" (the currently open folder)? prompt, press Y (Yes)

Repeat all the above steps for each folder you want to move (Make sure you are looking at the list of messages in a folder, NOT the list of folder names when you begin again.)
