Welcome

There are many reasons to come to Washburn.

A great one is small class sizes. Smaller classes allow teachers to give individualized attention to each student, providing for a more relaxed atmosphere for learning, and making students feel more comfortable asking questions. Our small class sizes and office hours for professors allow students and educators alike to get to know each other on a one-on-one basis. Teachers know your name and something about you! Our teachers genuinely care for each student and go the extra mile to help our students become successful. Washburn is small enough that you will always be able to find a familiar face, but still large enough that you will meet new people every day.

Washburn offers a number of organizations to fit many interests, from the Washburn Student Government Association, which advocates and delegates funds for and to students, to the Washburn Bowling Club, which meets every month for a relaxing game of bowling. Washburn also provides a variety of entertainment events every semester; such as comedians, magicians, and musicians come to campus and students get free admission to athletic events.

Other benefits to students include career services, student health services, counseling services, and the Recreation and Wellness Center. You will find our services help you to have a smooth transition to college and lots of support once you are settled into college life. The best part is that all these activities are easily accessible with free parking for students!

The Student One Stop is located on the first floor of Morgan Hall Welcome Center. Staff at the One Stop can help you take care of a range of school-related business including questions related to enrolling and financial aid. It also conveniently holds frequently visited offices such as admissions, the business office, and the registrar all in one place.

The University Library becomes a second home to our students and offers extended, late-night hours for student convenience during finals week. A popular area in the library are the study spaces, complete with plenty of white boards, chairs, and cubby spaces for students to study and work in a group or individually.

Our campus offers great residence halls to enhance your living and learning experience. Our Living Learning Center (LLC) is set apart from larger campuses by features such as an enclosed hallway connecting

students to the Union while protecting them from the weather. Lincoln Hall offers new dining options in an all-you-care-to-eat dining hall. It is a popular place to live and fills up quickly. The residential areas allow students to create a community with lounges and study areas that allows students to learn and live together in a social and relaxing environment.

There are several reasons to attend Washburn, many that you will find out for yourself when you arrive on our campus. Make the most of your college experience and get involved with all that Washburn has to offer! As Teddy Roosevelt said, "Nothing in the world is worth having or worth doing unless it means effort, pain, or difficulty." Higher education involves all three, but Washburn is here to help, and I assure you it will be worth it. Welcome to Washburn!

JuliAnn Mazachek, Ph.D., President

Strategic Framework - Vision, Mission, Values

Strategic Framework

Our Strategic Framework is a collaborative effort through which administrators, faculty, staff and students created a living document for moving Washburn forward. This six-month process led to the identification of our mission, vision and values followed by priorities, objectives and initiatives. With guidance from the Washburn Board of Regents, Washburn implemented its Strategic Framework in February 2024.

Mission

Washburn creates educational pathways to success for everyone.

- Educational - Rigorous and intellectually stimulating. Washburn will provide learners with quality opportunities to learn from expert faculty, engage in critical thinking and explore new ideas. Curriculum content includes skill development for life and career readiness.
- Pathways - A variety of options for learners to pursue their educational, civic and career goals. This includes two-year and four-year degrees, Masters and Doctorate degrees, continuing education, technical certificates, diplomas and apprenticeships. Pathways also means learners will have flexibility to choose the path that best meets their individual needs and interests, including inter-university and K-12 partnerships.
- Success - As determined by each learner's unique perspective, dreams and journey.
- Everyone - People of all backgrounds and life experiences.

Vision

A premier community of higher learning focused on life and careers.

- Premier - Providing outstanding academic quality, teaching excellence, learner success and community engagement; qualifying as an Employer of Choice.
- Community of Higher Learning - A supportive and collaborative environment where learners, faculty and staff can come together to learn from each other and to grow intellectually.
- Focused on Life and Careers - Committed to preparing learners for success in both their personal and professional lives. This includes providing learners with the knowledge, critical thinking and problem-

solving skills and civic values to develop to their full potential as individuals, citizens and professionals.

Values

Creating positive **IMPACT**. Inclusion. Modernization. Partnership. Achievement. Community. Transformation.

- Inclusion - Creating a welcoming and supportive environment for all learners, faculty, staff and visitors, regardless of their background or identity.
- Modernization - Ensuring financial stability while developing new ideas, methods and technologies that improve teaching and learning, scholarship and the lives of others.
- Partnership - Fostering collaboration among learners, faculty, staff and external partners to solve problems and achieve common goals.
- Achievement - Demonstrating excellence by providing high-quality teaching and learning, conducting meaningful scholarship and producing graduates who are prepared to make a difference in the world.
- Community - Becoming a valued community asset and an Employer of Choice.
- Transformation - Helping learners to develop knowledge, skills and values.

Priorities, Objectives & Initiatives

Priority A: Expand learner success opportunities and pathways

- Objective: Enhance current offerings and develop new and innovative academic pathways and programs
 - optimize academic portfolio of program offerings to attract learners and prepare graduates for success
 - increase number of experiential learning opportunities beyond the classroom
 - meet needs of adult learners in the community we serve
- Objective: Increase number of Northeast Kansans who participate in postsecondary education.
 - expand outreach and opportunities to Northeast Kansans to make postsecondary education a possibility for more learners
 - increase postsecondary attending rates of Northeast Kansans at Washburn
 - increase number of pathways with Kansas postsecondary institutions
- Objective: Enable equitable opportunities.
 - increase academic success of all Washburn learners
 - grow number of learners from unrepresented groups
 - increase the number of students in targeted learning populations (first-generation, military, corrections, concurrent enrollment program and high school)

Priority B: Enhance our environment to learn, work and thrive.

- Objective: Optimize campuses to offer superior learning and working environments.
 - develop a master plan for all campuses to 2030 and beyond
 - emphasize development of gathering spaces for learners, faculty and staff to learn, work and build community
 - execute the planned and funded building and renovation projects

- Objective: Enhance work environment in order to become an employer of choice.
 - evaluate, develop and maintain competitive compensation and benefits for all employees
 - enhance training, orientation and ongoing professional development for all employees
 - evaluate and improve key operational processes
- Objective: Foster an engaging and energetic environment of vibrancy, belonging and safety.
 - optimize engagement opportunities for all learners with academic, athletic, cultural, organizational and community activities
 - develop programs and activities that enhance a culture of wellness and belonging for all
 - foster safety of campus and engage city and county partners to improve safety in our surrounding community and on routes to campus

Priority C: Accelerate partnerships to grow the community.

- Objective: Fortify interdependent relationship among Washburn, Topeka and Shawnee County.
 - tell Washburn's story in our community and across the state to increase awareness and support of Washburn and its educational and cultural opportunities
 - promote Washburn in Topeka and Shawnee County, leveraging our partnership and programs to further develop a thriving college-town environment
 - support success of the community's strategic plan - Momentum 2027
- Objective: Expand collaboration with education, business, industry and government to serve the needs of learners and employers.
 - further develop and formalize effective advisory boards with employers and leaders to inform and support curricula and programs
 - expand apprenticeship and internship opportunities for learners with regional employers
 - implement a best-practices, career-engagement model to provide comprehensive Career Engagement for learners and employers
- Objective: Implement new state-of-the-art programs to support industry needs and enable economic growth.
 - collaborate and strengthen partnerships with K-12 schools in our community to support students in their learning journeys and paths to careers
 - develop interprofessional health-related educational programs and opportunities
 - create programs anticipating regional and state needs in manufacturing and aviation

Belonging at Washburn

Washburn is committed to cultivating an inclusive learning, living, and working community, facilitating the success of all people, and supporting all individuals. An inclusive community values diversity in culture, socio-economic status, race, ethnicity, nationality, place of origin, language, ability, gender identity, gender expression, sexual orientation, religious and non-religious identity, political and social ideology, family background, veteran status, and age, as well as the intersections of these identities. The University strives to provide opportunities for its members

to reflect upon their own perspectives while examining the perspectives of others, resulting in a culture of empathy and respect for all.

Non-Discrimination Regulation and Procedure

For the most up-to-date information, please visit:

- Equal Opportunity (<https://www.washburn.edu/statements-disclosures/equal-opportunity/>)
- Non-Discrimination Regulations (<https://www.washburn.edu/faculty-staff/human-resources/wuprpm/WUPRPM-Procedures-and-Regs/A.%20GeneralTopicsRegs.pdf#page=2>)
- Title IX Regulations (<https://www.washburn.edu/faculty-staff/human-resources/wuprpm/WUPRPM-Procedures-and-Regs/A.%20GeneralTopicsRegs.pdf#page=46>)

Clery Annual Security Report

Website: <https://www.washburn.edu/statements-disclosures/clery-act.html>

Washburn University is committed to maintaining a safe and secure learning environment for the campus community. In 1998, the federal government passed the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, formerly the Student Right to Know Act of 1990. (Clery Act) This law requires colleges and universities receiving federal funding to disclose the reported instances of certain categories of criminal activity on their campuses. As part of our ongoing commitment to public safety Washburn University maintains compliance with the Clery Act.

The Washburn University's annual security report includes statistics for the previous three years concerning reported crimes that occurred on campus; in certain off-campus buildings or property owned or controlled by Washburn, and on public property within, or immediately adjacent to and accessible from, the campus. Other reports include institutional policies concerning campus security, such as policies concerning alcohol and other drug use, crime prevention, the reporting of crimes, sexual assault, and other matters. A copy of the report can be obtained by contacting the Office of Student Life (Morgan Hall, (785) 670-2100) or by accessing the Annual Campus Security and Fire Report on the following website: www.washburn.edu/securityreport (<https://www.washburn.edu/student-life/health-safety/police/required-reporting/annual-campus-security-and-fire-report.pdf>).

History of the University

Washburn University was established in February 1865 as Lincoln College by a charter issued by the State of Kansas and the General Association of Congregational Ministers and Churches of Kansas. A two-story brick building on the northeast corner of 10th and Jackson Streets was soon erected and the first classes began in January 1866. In 1868, the school was renamed Washburn College, in recognition of a \$25,000 donation by Ichabod Washburn, a church deacon and resident of Worcester, Mass.

The university was granted a permanent location in 1865 when Topekan Col. John Ritchie donated a 160-acre site, which at the time was a considerable distance southwest of the city. Construction on the first building began in 1872, with occupancy taking place in 1874. For the next two decades, college President Peter McVicar conducted an aggressive development campaign. His efforts resulted in the establishment of

numerous Victorian limestone structures which characterized the campus for the next 90 years.

Expansion of the school was constant. The School of Law was organized in 1903, as was a School of Fine Arts and a medical school, which educated physicians until 1913. During the next three decades structures such as the Mulvane Art Museum, Benton Hall and Whiting Field House were added to the campus. In June 1966, a tornado struck Topeka and several historic buildings on campus were demolished. The Washburn community rallied and financial support from friends and alumni made possible the rebuilding of many school facilities during the coming years. Today, university facilities offer more than one million square feet of modern academic and support space.

In 1941, the citizens of Topeka endorsed Washburn by voting to establish a municipal university, supported in part by the city and governed by a local board of regents. In 1952, the Washburn Board of Regents officially changed the name of the school to Washburn University of Topeka. In 1999, the university's primary funding was moved from city property tax to county sales tax sources, with the school retaining status as a municipal subdivision of the state. In addition to local financial support, Washburn has received state funds since 1961, which have been coordinated by the Kansas Board of Regents since 1991. Washburn is governed by its own nine-member Board of Regents.

Washburn provides broadly-based liberal arts and professional education through more than 200 certificate, associate, baccalaureate, master's, doctorate, and Juris Doctor programs through the College of Arts and Sciences and the Schools of Law, Business, Nursing and Applied Studies. Over eighty percent of full-time faculty holds the highest degree available in their discipline.

University Assessment

The assessment of student learning is an integral part of the teaching and learning process. Washburn University strives to create an inclusive, holistic, and collaborative culture of assessment surrounding all curricular and co-curricular activities in which students participate.

Students share the responsibility for the evaluation of student learning by completing assessment activities which provide the data required for reliable analysis of the curricular and co-curricular activities which are undertaken.

Valid and reliable assessment is important for three reasons:

1. To improve student learning.
2. To provide accountability to stakeholders, such as students, parents, legislators, accrediting agencies, and the public.
3. To assist in the process of accreditation, both of the University and of individual programs.

To foster this culture of assessment, Washburn University has created a university-wide assessment committee. The Assessment Committee supports the university's commitment to excellence in teaching, scholarly work, and quality academic and professional programs through the collection, analysis, and dissemination of evidence of student learning. The committee is dedicated to ensuring that the entire university community collaboratively shares the responsibility for student learning. To help the University Assessment Committee satisfy its mission, the following are shared expectations:

- Every program/unit/major has a mission statement.
- The program/unit/major ensures the mission statement is shared with all constituents.
- The program/unit/major periodically reviews the mission statement to ensure it is appropriate and compatible with the University's mission.
- Every program/unit/major has student learning objectives (outcomes), which are measurable.
- Evidence is consistently collected and accessible to appropriate internal and external constituents, who are given opportunities to collaborate on assessment practices.
- Evidence is regularly analyzed (i.e., the program/unit has an established a schedule for review of evidence).
- The program/unit/major has an appropriate mechanism to institute changes which are suggested by the evidence.

University Accreditation

Washburn University is accredited or approved by the

Higher Learning Commission
230 South LaSalle Street, Suite 7-500
Chicago, IL 60604

To file a complaint with the commission, please follow its stated procedures at this link (<https://www.hlcommission.org/Student-Resources/complaints.html>).

In addition, several academic programs are accredited or approved by the following accrediting bodies:

- AACSB - International (All Undergraduate and Graduate programs offered by the School of Business)
- ACJS - Academy of Criminal Justice Sciences (Certified – Master)
- ACOTE - Accreditation Council for Occupational Therapy Education (Occupational Therapy Assistant)
- AAM - American Alliance of Museums (Mulvane Art Museum)
- ABA - American Bar Association
- ACS - American Chemical Society (Certified BS Chemistry)
- ASE - National Institute for Automotive Service Excellence Foundation (Automotive Service Technician - Washburn Institute of Technology)
- CAHIIM - Commission on Accreditation for Health Informatics and Information Management Education (Health Information Technology)
- CAPTE - Commission on Accreditation in Physical Therapy Education (Physical Therapist Assistant)
- CoARC - Commission on Accreditation for Respiratory Care (Respiratory Therapy)
- CAAHEP - Commission on Accreditation of Allied Health Education Programs (Diagnostic Medical Sonography)
- CAAHEP - Commission on Accreditation of Allied Health Education Programs (Surgical Technology – Washburn Institute of Technology)
- CAEP - Council for Accreditation of Teacher Preparation (Education – Master, Baccalaureate)
- CCNE - Commission on Collegiate Nursing Education (Nursing – Post-Graduate APRN Certificate, Doctor, Baccalaureate)
- CEA - Commission on English Language Program Accreditation (Intensive English Program)

- CSWE - Council on Social Work Education (Social Work – Master, Baccalaureate)
- ICAR – Inter-Industry Conference on Auto Collision Repair (Auto Collision – Washburn Institute of Technology)
- JRC-DMS - Joint Review Committee on Education in Diagnostic Medical Sonography (Diagnostic Medical Sonography)
- JRCERT - Joint Review Committee on Education in Radiologic Technology (Radiation Therapy)
- JRCERT - Joint Review Committee on Education in Radiologic Technology (Radiologic Technology)
- KDADS - Kansas Department of Aging and Disability Services (approval for Family & Human Services coursework for Certificate in Person Centered Case Management)
- KSBN - Kansas State Board of Nursing (Nursing – Post-Graduate APRN Certificate, Doctor, Master, Baccalaureate, Practical Nursing)
- KSDE - Kansas State Department of Education (Education - Master, Baccalaureate)
- NAACLS - National Accrediting Agency for Clinical Laboratory Sciences (Medical Laboratory Science in Conjunction with the University of Nebraska Medical Center)
- NAADAC - The Association for Addiction Professionals (approval for BAS and MA addiction counseling programs)
- NASAD - National Association of Schools of Art and Design (Art)
- NASM - National Association of Schools of Music (Music)
- NCCER - The National Center for Construction Education and Research (Carpentry, Cabinet/Millwork, Electrical, Plumbing, and HVAC – Washburn Institute of Technology)
- NCFR - The National Council on Family Relations (approval for Family Services abbreviated route to Certificate in Family Life Education)

Open Meetings and Records

Washburn University is a public municipal institution of higher education organized and existing under the provisions of the Kansas Constitution (Article 6, Section 2) and the Kansas Statutes Annotated (K.S.A. 13-13a03 et seq). As a public institution, the meetings of its governing board are open to the public under the provisions of the Kansas Open Meetings Act (K.S.A. 75-4317 et seq) and the records of the University are subject to inspection as provided under the Kansas Open Records Act (K.S.A. 45-215 et seq).

Campus and Facilities

Washburn University is located on a spacious, attractive campus in the capital city of the state of Kansas. Washburn is a municipally supported, state assisted university comprised of five major academic units: the College of Arts and Sciences, the School of Law, the School of Business, the School of Nursing, and the School of Applied Studies. There are approximately 6,000 students enrolled in traditional undergraduate degree programs, two-year associate degree programs and professional graduate programs in Law, Business, Psychology, Education, Social Work, Criminal Justice, Liberal Studies, Communication and Leadership, and Nursing. Visit the website listed above to learn more about the campus. For more information about Washburn, visit: <https://www.washburn.edu/>

Washburn Institute of Technology was officially established in 1964. The school has completed major remodeling projects, having grown from one building in 1966 to a 43-acre, multi-building campus providing today's valued technical training. Washburn Tech has 110 full-time staff including 70 faculty members offering 39 certificate programs to approximately

1,250 students, more than 50% of whom are postsecondary. The school also has Continuing Education and a Business and Industry Center with 35 part-time faculty offering continuing education courses and customized training to area businesses. Technical education in Kansas is overseen by the Technical Education Authority, a division of the Kansas Board of Regents through which Washburn Tech receives supplemental funding. For more information about Washburn Tech, visit www.washburntech.edu (<http://www.washburntech.edu>).

Washburn University and Washburn University Institute of Technology (i.e., Washburn Tech) have a unique affiliation agreement for offering programs within the state of Kansas. Washburn Tech offers certificate programs and associate of applied science degrees with supervision and approval from administrators at Washburn University, the Washburn University Board of Regents, the Kansas Board of Regents (Technical Education Authority), and the Higher Learning Commission. In addition, some programs are reviewed by specific discipline-based accrediting agencies.

For information regarding the offerings at Washburn Tech, please refer to the Washburn University Institute of Technology catalog (<https://catalog.washburn.edu/washburn-institute-technology/>).

Washburn University and Washburn Tech are governed by an appointed, independent, 9-member Board of Regents.

Special Facilities

Listed below are brief descriptions of special facilities available at Washburn. For information on classroom buildings, visit the Campus Map (<https://www.washburn.edu/about/visit/virtual-tour/>).

The **Andrew J. and Georgia Neese Gray Theatre**, seating 330, features an acoustically-designed thrust stage, and is the site of sophisticated plays and musicals, from classical to contemporary both the University Theatre Department and Community groups.

Athletic Facilities, the equipment and facilities for physical education provide an opportunity for every student to participate in Kinesiology activities. (See information on Petro Allied Health Center, Whiting Field House, and Student Recreation and Wellness Center.)

Carole Chapel, located north of Henderson Learning Resources Center and directly east of Benton Hall, Carole Chapel was moved to campus in 2004. The building was located at the former Menninger Foundation site in northwest Topeka. The chapel has numerous functions for students, faculty, staff and the community, including hosting meditation classes and special events. Further, the facility is a practice and performance site for music students, as it features a piano at the west end of the chapel, along with several chairs for observers. Alumnus John Whitfield designed the stained glass window in the chapel.

Whiting Field House is one of the most historic and oldest buildings on Washburn's campus. Built in 1928, it served as the home for Washburn men's and women's basketball and volleyball until 1984, when both teams began playing in Lee Arena. The Fieldhouse underwent a renovation in 2008, including a state-of-the-art conditioning center and large practice court for the basketball and volleyball teams. The **Capitol Federal Student Athlete Strength and Conditioning Center** is a 12,500 square foot weight training facility. Whiting Fieldhouse houses the Washburn football locker room. The Fieldhouse also contains Washburn's Hall of Fame Room.

Yager Stadium is a 7,200-seat facility and home to the Ihabod football and women's soccer teams. It serves as one of the finest stadiums in

NCAA Division II. The facility, built in 1928 and originally named Moore Bowl, exclusively hosted football until the addition of women's soccer in 2006. The **Bianchino Pavilion Suites** were constructed in 2002 as an area to host boosters and alumni before and during games. The football team began play in 1891 and has won several conference titles since 1974. Washburn played in the first college football game to include a forward pass and the 10-yard first down requirement in 1905 during an experimental game against Fairmount College.

Washburn's Indoor Athletic Facility is one of the newest buildings on campus and provides our student-athletes with a competitive advantage rarely seen at Division II schools. The facility has two main sections, including one with a 200-meter, six-lane banked track and another with a 110-yard synthetic turf practice field. The latter is 50 yards wide and provides a practice field for football, soccer, baseball, softball, cross country and track and field. The banked track is the only one in Division II and one of the few in the Midwest at any level. The building is also used for some intramural events, providing you with an opportunity to compete in our new digs.

Other playing fields are provided for additional varsity sports, varsity practice, and intramural sports. A baseball diamond and two softball diamonds for intercollegiate competition are available, and there are six excellent cement tennis courts located near Petro Allied Health Center.

Petro Allied Health Center is a multi-purpose physical education and athletic facility. This facility includes a large gymnasium with basketball, volleyball and badminton courts, as well as a running track. There is also a weight-training room, dance studio, athletic training room, exercise physiology laboratory, and Physical Therapist Assistant laboratory.

Bradbury Thompson Alumni Center, which was funded entirely from private sources, opened in April 1996. The Center houses the operations of the Washburn Alumni Association and the offices of Academic Affairs and Administration/Treasurer. The building was designed to serve the needs of alumni and Washburn University, as well as provide meeting space for many community groups and organizations.

Charles Bennett Computer Center, completed in 1988, houses the main offices of Information Technology and Services, and academic computing laboratories.

International House, located near the center of the campus, is situated between the Student Union and Benton Hall. This Spanish-style structure, built in 1931 by Dr. and Mrs. Parley P. Womer, was the private residence of the former university president and his wife. After their deaths, the home reverted to the University and serves now as the center of international activities. The building features a magnificent great room, 44 by 22 feet with a balcony on two sides, huge fireplace and a beamed, vaulted ceiling. Hurricane shutters and wrought iron balustrade and chandelier enhance the Spanish architecture. The House is furnished with American antiques and artifacts from around the world.

KBI Forensic Science Center is a state-of-the-science facility on Washburn's campus that includes more than 10,000 square feet for academic use. Building spaces specially designed for Washburn students include a vehicle bay for in-depth study of crime scene processing, an outdoor laboratory for forensic anthropology study, a dedicated laboratory space for each concentration area (digital forensics, forensic anthropology, forensic chemical science, and forensic investigation) near the KBI scientists of the same discipline, and state-of-the-art interactive classroom and laboratory spaces.

KTWU is a non-commercial television station licensed to Washburn University and a member station of Public Broadcasting Service (PBS). It began broadcasting in 1965 as the first public television station in Kansas. KTWU's broadcast center is located at 19th & Jewell Ave. on the Washburn Campus. KTWU offers five digital destinations for unique content: KTWU (PBS) in High Definition on Channel 11.1; KTWU/MHz Worldview on Channel 11.2; KTWU ENHANCE on Channel 11.3; KTWU.ORG, online; and KTWU MOBILE TV.

The station serves a 70-mile radius in northeastern Kansas as well as a 30-mile area in southeast central Kansas. In addition, other communities in Kansas, Nebraska, Oklahoma and Missouri receive the KTWU signal over various cable systems. More information about KTWU is available on-line at www.ktwu.org (<http://www.ktwu.org>).

The **Robert J. Dole Hall**, which opened in July 2023, houses the **Washburn University School of Law**. The School has been in continuous existence since 1903. The School was admitted to membership in the Association of American Law Schools in 1905 and in 1923 was one of 38 law schools (from among some 150 then in existence) on the American Bar Association's first approved list of law schools. For more information please visit www.washburnlaw.edu (<http://www.washburnlaw.edu>).

The **Law Library for Washburn University School of Law** is located in the law building on the southeast corner of the campus. The National Jurist (March 2010) ranked the library 40th among 198 U.S. law school libraries using a mix of categories measuring collection, facility and staff resources. The library contains over 406,000 volumes, including titles in microfiche, video, and digital formats. It is an official depository for materials published by the U.S. Government Printing Office and Kansas state agencies. Appellate case reports and statutes from all fifty states are available as is an extensive collection of briefs from the U.S. and Kansas Supreme Courts. The online catalog provides direct access to selected Internet full text documents as well as to the holdings of the University Library and the 200,000 volumes held by the Kansas Supreme Court Law Library (located a five-minute drive from the law school in the Judicial Center).

The **Memorial Union** serves as the hub of campus life, providing cultural, social and recreational services integral to your campus experience. Dedicated in 1952 as a memorial to Washburn students and Shawnee County residents who lost their lives in foreign wars, it serves today as the "living room of campus." Washburn added the Union Café food court in Stauffer Commons, which connects to the Living Learning Center residence hall, in 2001. The Union is home to numerous offices, student organizations and spaces for students, faculty and community members. You can purchase books for classes and Washburn gear in the **Ichabod Shop** or grab lunch in the **Café** or **Union Market**. Fifteen conference rooms of various sizes and numerous comfortable lounges guarantee the Memorial Union is the favorite meeting place for campus and public gatherings and student leisure activities.

Washburn Student Government Association offices are also located on the lower level of the Union as well as the **Washburn Student Media**. The **Student Involvement and Development Office** is located on the main floor of the Union.

Henderson Learning Resources Center houses the largest number of classrooms of any building on campus. The building is home to the Washburn School of Business, the Washburn Honors Program and several academic departments, including Psychology, Political Science, Sociology, Anthropology, History and Mass Media. It also houses the single largest classroom on campus – a tiered room that can seat 246

people and is primarily used for larger meetings. It was built in 1971 to replace several buildings destroyed in the 1966 Topeka tornado.

White Concert Hall serves as the nucleus for the arts in Topeka. It is home to all music department concerts, Topeka Symphony Orchestra, Community Concert Series, Festival Singers, Sunflower Music Festival and countless university and civic events. It is considered to be one of the finest concert halls in the country, with incredible acoustics and a 1,200-person seating capacity. The iconic hall has hosted performances by Broadway star Jeff Kready, b music '04; rock band Kansas, which features former Washburn students; jazz musician Dizzy Gillespie; and conductor Leonard Slatkin. A new recital hall is slated for Fall 2025, as well.

The **Mulvane Art Museum**, founded in 1922 with a bequest from Joab Mulvane, is one of the oldest museums west of the Mississippi River. Accredited by the American Association of Museums in 1988, the Museum houses a collection of approximately 4,000 objects from around the world including paintings, prints, drawings, sculptures, photographs and decorative art. While international in scope, the Museum's collection focuses on the works of artists from Kansas and the Midwest and has a concentration in American art of the 20th century. In addition to showing works from the collection the Museum also hosts traveling exhibitions.

Following a tornado in 1966, that destroyed most of the buildings on campus, the present complex was built. Due to the nature of the Mulvane Trust, the original building's native limestone exterior was unchanged; however the severely damaged interior was gutted and connected to the new **Garvey Fine Arts Center** which also houses the Art History, Music and Theater Departments. The Mulvane Art Museum underwent another renovation project, completed in 2006, that increased exhibition space to 5,000 sq. ft., provided secure storage for the collection, art preparation areas, and significantly enlarged the art education program with the creation of **ArtLab**, a 1,500 sq. ft. hands-on art experience center and the renovation of four education classrooms.

In 2015, the Mulvane Art Museum received a significant donation of paintings, drawings, sculptures and archival material representing the lifework of Kansas artist Rita Blitt. Those pieces are on display at the **Rita Blitt Gallery and Sculpture Garden**. Sorting through and cataloging the hundreds of works is a monumental task that creates unique opportunities to engage students and communities in the research, interpretation and development of exhibitions and educational programs for many years to come.

The Museum's education program provides extensive community outreach to children at after school sites, public and private school classrooms and preschool centers throughout the region. In-house art classes, public lectures, family events and community educational experiences for people of all ages and abilities are also offered. Admission to the Museum and ArtLab is free and open to the public.

Student Recreation and Wellness Center, SRWC, facility components include a rock climbing wall, indoor track, gymnasium, cardiovascular and resistance training area, multi-purpose room, wellness suite, and locker rooms. Program offerings include informal, intramural, group exercise, climbing and wellness opportunities.

The Plass Learning Resources Center: The Plass Learning Resources Center is the physical home of the University Libraries, Career Engagement, Aleshire Center for Leadership and Community Engagement, Washburn Transformational Experiences, Study Abroad, the University Honors Programs, the Department of Education, the John and Barbara Stauffer Learning Center, which includes the Philip H. Etzel Immersive Classroom, a twenty-first century learning space that allows

instructors and students to create the learning environment that best serves their needs and the Richard E. Shermoen Math Learning Lab, designed to promote student success in undergraduate mathematics, and the Center for Student Success and Retention, which includes the following offices: Academic Advising, First-Year Experiences, First Generation Student Success Services, Military Student Success, ITS Help Desk, TRIO: Upward Bound, Azura Financial Literacy Program, International Student Success Programs, Student Success Coaching, and the Center for Prior Learning and Testing.

The University Library: The University Library is the intellectual and cultural heart of the university. Its staff offers a wide variety of services, with a special focus on educational programs that promote the intelligent use of information resources and information literacy, including an Information Literacy Minor. The University Libraries maintains multiple learning spaces such as the Ichabod Reading Lounge, a space for quiet study and reflection, and the Information Literacy Suite, a traditional mediated digital classroom.

The Library has four floors: the first level is a quiet study space that also houses the Washburn University Archives and Special Collections, while the second floor is a mixed space that serves the Washburn Community as a learning commons – a space for faculty and students to engage one another and the world outside the formal classroom. The third level contains the Curriculum Resources Center, a space for aspiring Pre-K – 12 educators to access the information resources they need to prepare for becoming educators. The stacks are located on the fourth floor.

Laptops are available for checkout at the library desk. The Library website or digital branch (www.washburn.edu/mabee (<http://www.washburn.edu/mabee/>)) features the Encore search tool that allows researchers to access the collections of the Washburn University Libraries, the Curriculum Resources Library, the Washburn School of Law Library, the Kansas Supreme Court Library, and the Kansas State Historical Society Library. In addition to an extensive number of books and print journals, the Library also provides access to electronic resources. Librarians provide an online subject-specific set of help tools (<http://libguides.washburn.edu>), which extend public services beyond the 88.5 hours each week that in-person research assistance is available.

Special Collections in the Library include the Rare Book Collection, the University Archives, the William I Koch Art History Collection, the Thomas Fox Averill Kansas Studies Collections, and a growing Digital Institutional Repository that displays the scholarly work of faculty and students.

Information Technology Services

Information Technology Services (ITS) provides Technology Support for all students at Washburn University. Services include free computer assistance, virus removal, updating, and recommendations as needed.

You can find information on hours and services available to you at <https://washburn.edu/its> (<http://washburn.edu/its/>). Our walk-up support center is located at 104 Bennett Computer Center, by telephone at (785) 670-3000, and by email support@washburn.edu.

Students admitted to Washburn University are given a standard username, and password for access to the following primary resources:

- **MyWashburn** - <https://experience.elluciancloud.com/mywashburn/> (<https://experience.elluciancloud.com/mywashburn/>) - Includes campus announcements, course registration, financial information, links to online class content, etc.

- **Desire2Learn (D2L)** - <https://d2l.washburn.edu> - D2L is our Learning Management System where students access online course content
- **Office 365 (Outlook)** - <https://outlook.washburn.edu> - Student email, and Microsoft 365 access including 5 licenses of Office for installation on your computers, or tablets.

On campus, students may connect to the internet, student accessible printers, and other computing resources in classrooms, computer labs, or wirelessly on personal devices. Students living on campus may also connect devices using a wired connection. More information can be found at <https://washburn.edu/its/internet-wifi-access> (<https://washburn.edu/its/internet-wifi-access/>)

ITS is here to provide the support you need for access to university resources. If you should require any assistance stop by the Technology Support Center at 104 Bennett Computer Center, Call (785) 670-3000, or email support@washburn.edu.

Evening, Weekend, and Online Courses

Courses offered online and during late afternoon, evening and weekend hours compose a significant part of the University academic and continuing education program. Classes are organized to serve working adult members of the community as well as full-time students of the University.

Students enrolling in these classes can begin a college education, continue their education on a college level, improve occupational knowledge and skills, study for personal enrichment, or pursue avocational interests.

In addition to offering a broad range of academic courses which may lead to certificates, associate degrees, or the baccalaureate and master's degrees from the College of Arts and Sciences, the School of Applied Studies, the School of Business, and the School of Nursing, the University recognizes the responsibility to develop other instructional programs in areas where community needs are identified and the University has resources to respond to those needs.

The Academic Scheduling Office annually produces three class schedules. Course listings are available online at www.washburn.edu/academics/course-schedule (<https://www.washburn.edu/academics/course-schedule/>) and have a search feature for online, evening, weekend, and graduate courses. The semester schedule can also be accessed by admitted students on Washburn University's online portal at <https://experience.elluciancloud.com/mywashburn/>. (<https://experience.elluciancloud.com/mywashburn/>)

Summer Session

As the University continues to broaden the scope of its educational activities, the academic life of an increasing number of students extends into the summer months. The Washburn Summer Session includes day and evening classes, special summer institutes, short-term foreign language workshops, travel and online courses.

The diverse summer program is planned for students who wish to begin their college study, for those who wish to continue their regular academic programs, for eligible high school students who wish to pursue special interests, and for adults who wish to pursue studies on a professional level or for individual self-improvement.

Student Services and Academic Support

- Admissions (p. 15)
- Registration and Enrollment (p. 17)
- Location Policy and Residency Requirements (p. 18)
- Tuition and Fees (p. 19)
- Financial Aid (p. 22)
- Center for Student Success and Retention (p. 23)

Admissions

Registration, Enrollment, and Residency Qualifications

Washburn University welcomes applications from all interested students. As a public institution, the University recognizes a responsibility to serve a variety of educational needs manifested by its student clientele. Prospective students are always welcome to the campus and are encouraged to visit prior to enrollment. The Office of Admissions, in Morgan Hall, handles all arrangements during students' campus visitations.

Admission Requirements for Degree Seeking Candidates

Graduates of accredited high schools who meet admission criteria, and wish to fulfill the requirements for a degree will be admitted as degree-seeking students. Admission classification will depend upon the student's academic credentials.

An Application for Admission must be completed by all first time students and by current or former students who are changing their degree status (degree or non-degree). An Application for Admission may be obtained by going to www.washburn.edu/admissions (<http://www.washburn.edu/admissions/>). Former students who are returning in the same status can complete the Returning Student Reactivation form at <http://washburn.edu/admissions/apply.html>. Students who are or have taken classes as a high school student need to complete the undergraduate application for admission.

Official high school or GED transcripts may be required for degree seeking applicants with fewer than 24 completed hours of college or vocational work.

Official transcripts of all previous college or vocational work listed on the application must be submitted by all degree seeking applicants. An official transcript must be received from each institution attended. Official transcripts can be sent through the mail or electronically to etranscripts@washburn.edu. Official transcripts cannot be faxed.

Fall enrollment, applications for admissions and transcripts should ideally be on file in the Office of Admissions by August 1. Applicants for the spring should ideally have applications and transcripts on file by January 2. Summer applicants should ideally have applications and transcripts on file by 10 business days prior to Summer enrollment.

Admission Criteria

High School and Home School Students

Students who are or will be graduates from an accredited high school or home school curriculum.

Regular Admission for High School and Home School Students

Students meeting the following criteria will be granted regular admission: High School GPA ≥ 2.00 on a 4.00 scale

Admission Exceptions for High School and Home School Students

Given our commitment of access to high-quality education, students not meeting Regular Admission criteria are granted admission by exception. Applicants admitted by exception are required to participate in either the Passport for Success or the Ichabod Ignite Program (see <https://www.washburn.edu/academics/center-student-success/index.html> (<https://www.washburn.edu/academics/center-student-success/>))

GED Students

Students who are not graduates of a high school may qualify for admission by taking the GED. The University requires receipt of an official GED transcript.

Admission Exceptions for GED Students

Applicants not meeting Regular Admission or Ichabod Ignite Program criteria (see below) may be granted admission by exception. Applicants admitted by exception must participate in the Passport for Success Program for placement testing, prescriptive course selection, and receive academic advising through the Center for Student Success (p. 23).

Graduates of non-accredited high schools will be evaluated on an individual basis.

Questions Regarding Admission

If students have questions regarding admissions, they should contact the Admissions Office at (785) 670-1030.

Transfer Students

Transfer students who have completed 24 or more hours of college or vocational work must submit an official transcript from each previously attended regionally accredited post-secondary institution listed on the admissions application to the Office of Admissions at Washburn University. If the student has completed fewer than 24 college or vocational hours and is seeking a degree, additional material may be required for admittance. For more information, please refer to Admissions Criteria for details.

Entering degree-seeking transfer students must have an application and all transcripts on file in the Office of Admissions by the respective beginning term deadline. Those students unable to meet the minimum admissions standards due to unusual circumstances may be considered on a case-by-case basis by the Director of Admissions. Transfer students desiring additional information should call (785) 670-1030.

A cumulative 2.0 GPA on a 4.00 scale (C = 2.0) is the minimum preferred on all completed course work of transfer students seeking admission to Washburn University. Decisions rendered for those below a 2.0 GPA will be predicated on the number of hours attempted at previous institutions. Credits and grades earned in courses which are not acceptable from a transfer school will not be counted in the final grade point average

or total hours earned at Washburn. At least 60 hours required for the baccalaureate degree must be taken at a 4-year college or university.

Transfer students who have completed a baccalaureate degree at an institution of higher education accredited by one of the six regional accrediting organizations (<https://www.chea.org/regional-accrediting-organizations/>) are considered to have satisfied general education requirements and are therefore not required to meet Washburn's general education requirements. Students who have completed all Kansas Board of Regents Systemwide General Education requirements at any Kansas post-secondary institution are also considered to have satisfied general education requirements at Washburn University, unless their major department has been granted permission to continue requiring a specific general education course or deviate from the systemwide general education requirements.

Students will, however, be required to meet degree requirements that are specific to certain bachelor and associate degrees including required courses outside their major program department, which may be also designated as general education courses.

For transfer students who have not completed a baccalaureate degree, courses completed at a college, university, or technical institution accredited by one of the six regional accrediting organizations which have been designated by the sending institution as general education courses will transfer to Washburn University as courses within the appropriate general education distribution area without further review.

In addition, courses listed by the Kansas Board of Regents as a Kansas System-Wide Transfer (KSWT) course at www.kansasregents.org/transfer_articulation/ will transfer as their listed Washburn University equivalent course without further review. **Note:** The policy is not intended to circumvent specific program requirements for particular majors. This is a most important distinction and should be noted by students and their advisors.

Exceptions to this transfer policy include the following.

1. Specific courses required in the general education program (such as EN 101 and EN 200) must be approved as equivalent courses by the relevant departments unless the student has completed a baccalaureate degree from a regionally accredited institution.
2. KSWT courses that are lower-division at the sending institution and upper-division at Washburn University will be considered equivalent to the course at Washburn University for the purposes of program requirements but will not count toward the minimum upper-division hours required for graduation.
3. Courses not included in the sending institution's general education program which a transfer student believes may meet the spirit and intent of Washburn University's general education program must be reviewed by the General Education Committee.
4. Courses that may satisfy a major requirement or a prerequisite to a major requirement must be reviewed by the major department chairperson.

Courses taken at institutions outside the United States: College-level courses completed outside the United States and recorded on official transcripts will be evaluated for transfer credit, provided that the tertiary institution where the courses were taken is accredited by the Ministry of Education (or its equivalent) in that country. International transfer students who have completed college-level courses outside the

United States may be requested to submit proof of accreditation by the Ministry of Education and/or provide an evaluation from an authorized international credential evaluation agency such as Educational Credential Evaluators (ECE) or World Education Services (WES). For students who have completed a baccalaureate or associate degree with a similar duration as a domestic baccalaureate or associate degree from an accredited international institution, courses satisfactorily completed in the Arts and Humanities, Social Sciences, and Natural Sciences and Mathematics will be accepted towards credit in the appropriate general education distribution area.

Course Transfer Review Process (for exceptions listed above): To determine whether transfer coursework has been approved as satisfying Washburn's general education program, students can access the online transfer guide links at <https://washburn.edu/registrar/transfer.html>. Department chairs determine how major courses will transfer and transfer students must provide appropriate documentation (course description and course syllabus) to the chairperson to make an informed decision. Requests for approval of a course to count for general education credit are reviewed by the university's General Education Committee. To request approval, students must complete the General Education Transfer Course Petition (<https://www.washburn.edu/faculty-staff/faculty-resources/policies-forms/forms/gen-ed-transfer-petition.pdf>) with their academic advisor and submit the form to the Office of Academic Affairs. Decisions are usually made 1-2 weeks after all required information is received.

Students can appeal decisions on the transferability of general education courses through the General Education Committee if additional information can be provided which might change the initial ruling. The committee's decisions can be appealed to the Vice President for Academic Affairs, whose decision will be final.

Academically Suspended Students

Academically suspended former students must submit a Petition for Academic Reinstatement to the Vice President of Academic Affairs Office if they wish to be considered for enrollment in a subsequent semester. Students should contact the Office of Academic Advising, in Plass Learning Resources Center, at (785) 670-1942, to begin the process of reinstatement.

Non-Degree Seeking Students

Non-degree seeking students or non-credit community auditors are required to only submit an application. If the course the student wishes to enroll in has a prerequisite, an unofficial transcript with the prerequisite course listed must be emailed to the professor teaching the course. It is important to be aware that federal financial aid is not available to non-degree seeking students.

International Students

Information regarding international students can be found in the catalog:

- Center for Student Success and Retention: International Student Services (p. 23)
- College of Arts and Sciences, Modern Language department: Intensive English (p. 190)

New Student Orientation

Washburn will host New Student Orientation sessions for new freshmen and transferring students enrolling in fall and summer terms. For

more information, please visit washburn.edu/orientation (<https://washburn.edu/admissions/orientation/>) or contact the Office of Student Orientation and Transition Programs at (785) 670-1834 or orientation@washburn.edu.

Academic Program Admission

Additional requirements are needed to be admitted in the following programs:

College of Arts and Sciences

- Art (Bachelor of Fine Arts)
- Music (Bachelor of Arts)

School of Business

- Bachelor of Business Administration

School of Applied Studies

- Medical Laboratory Science
- Magnetic Resonance
- Diagnostic Medical Sonography
- Occupational Therapy Assistant
- Physical Therapist Assistant
- Radiation Therapy Technology
- Radiologic Technology
- Health Information Technology
- Respiratory Therapy
- Bachelor of Health Science
- Education (Bachelor and Master Degrees)

School of Nursing

- Bachelor of Science in Nursing

While program admission is required for degree candidacy, some courses in these areas may be taken by non-degree candidates with approval of an advisor from the area.

High School Students

The opportunity to accelerate an educational program while in secondary school is given and a student may take courses on campus before graduation. Upon the written authorization of the high school principal or high school counselor, junior and senior students with a 3.0 average or better may enroll in day or evening classes for which they are qualified. Students are limited to a maximum of two courses (six credits) per semester. A Request to Enroll form may be obtained through the student's local high school guidance office or Washburn's Office of Admissions website, www.washburn.edu/admissions (<http://www.washburn.edu/admissions/>). It should be submitted to the Office of Admissions, along with a completed Concurrent Enrollment Program (High School) application, 15 days before enrollment. Students below high school junior standing or not presenting a 3.0 grade point average, must also have permission of the relevant academic dean prior to enrollment. It is important to be aware that federal financial aid is not available to non-degree seeking students.

ACT or ACT Residual

Prospective students who cannot take a national ACT test or are out of high school and do not have an ACT score may use the ACT Residual.

This test is administered by the Center for Student Success located in Plass Learning Resources Center.

Auditing Classes

Students who wish to attend classes, but do not wish to receive credit, may audit classes. Students in this category must have the approval of the instructor at the time they enroll and must pay the same fees as credit students. Audited courses are not assigned grades and students are not required to turn in class assignments or write examinations. Students enrolled in an audited class may not convert to a credit status after the first week of class. Students may not change a class from credit status to audit after the third week of classes. It is important to be aware that federal financial aid is not available to non-degree seeking students.

60 and Over Tuition-free Audit Program

Kansas residents 60 years of age and over may audit credit courses at Washburn University without paying University tuition, University fees, or student activity fee charge. Being able to audit a course is subject to availability of class space and to the enrollment of a specified minimum number of fee-paying students. The costs of materials and/or textbooks are the responsibility of the auditor. It is important to be aware that federal financial aid is not available to non-degree seeking students.

Auditors are not required to prepare homework assignments or take examinations. They will need to seek instructor permission regarding participation in classroom discussion, group work, and laboratory and field work. No college credit will be awarded for courses, thus no transcripts will be generated. Auditors must follow the student code of conduct and are expected to follow University rules and regulations regarding parking, library privileges, and other appropriate university regulations. If an auditor does not follow instructor directions, is disruptive, or otherwise behaves in a way the instructor believes is detrimental to the class, the instructor, department chair or dean may rescind consent to audit the class and/or future classes.

Auditors must be at least 60 years old on or before the first day of the semester/term in which the class is taught and need to be prepared to have their birth date verified by showing a driver's license or birth certificate when they register. Registration forms will be processed only after most fee-paying students have enrolled which enables the identification of classes that have space available.

By filling out a non-degree seeking application, auditors may apply in the Office of Admissions, and then they will enroll through the Student One Stop (SOS), Morgan Hall 101A. Registration instructions are available in the Registration Information Guide for each semester/term under the title of "60 Years of Age and Over Audit Program".

Registration and Enrollment

Advance Registration

The University offers advance registration. Students who are currently enrolled will have the first opportunity to register for the following semester/summer term. The respective Registration Information Guide will have the advance registration dates, instructions, and regulations. Current students will be able to register during their classification schedule provided they have no holds.

Open Registration

Open registration is available to all currently enrolled Washburn students who did not advance register during their classification time frame, and to all new and former students who are eligible for admission and have completed the application or reapplication process. New and returning students will need to have obtained their WIN (Washburn Identification Number) and their MyWashburn Account information before they can register on the web. Specific dates will be in the Registration Information Guide for each semester and summer term.

Late Enrollment

Late enrollment is available for returning or admissible students who did not enroll before the first day of classes. Students may enroll online during the first week of class. During the second and third weeks of class, new enrollments and added courses will require permission of the instructor. No student may begin an enrollment schedule after the third week of semester classes. The summer session will have its own specific deadlines according to the length of session or class. See the respective semester Registration Information Guide (<https://www.washburn.edu/academics/course-schedule/>) for details.

Location Policy and Residency Requirements

Student Address and Location Policy

For the purposes of disclosures related to professional licensure programs, a student's location will be considered their residence hall address, if one exists. If this address does not exist, the student's location will be considered their current address, if one exists. If this address does not exist, the student's location will be considered their permanent address. If all of the student's listed addresses are inaccurate (by evidence of returned mail), the student's location will be considered to be in the state of Kansas. This policy is distinct from Washburn University's residency criteria, described below.

Kansas Residency and Tuition Assessment Policy

The University charges two residency rates of tuition for undergraduate, graduate, and law courses: 1) a resident of Kansas rate for students who can meet the University's residence requirements and 2) a non-resident of Kansas rate for those who do not qualify as a resident of Kansas. No refund shall be made if residence qualifications are met after the end of the fifth week of the semester.

Definitions

"Residency" or **"Resident Status"** shall mean that status which is achieved when sufficient proof of a domicile within a state is presented.

"Domicile" shall mean presence within a state with intent of making the state a permanent home for an indefinite period.

Factual Criteria in Determination of Resident Status

1. A resident's attendance at an institution of higher education outside of Kansas shall be regarded as a temporary absence from the state; therefore, a student neither gains nor loses resident status solely by such attendance.

2. The burden of proof of establishing eligibility for Kansas resident status shall rest with the student.
3. In determining resident status for the state of Kansas, the following shall be sufficient proof of domicile of a person and their dependents within the state of Kansas:
 - a. Presence within the state of Kansas for a minimum of the six (6) consecutive months prior to the start of the period of attendance coupled with proof of an intent to make the state of Kansas a permanent home for an indefinite period;
4. In determining whether a student holds an intent to make the state of Kansas a permanent home for an indefinite period, the following factors, although not conclusive, shall be given heavy weight:
 - a. Continuous presence in the state of Kansas during those periods not enrolled as a student.
 - b. Presence within the state of Kansas upon marriage to a Kansas resident and the maintenance of a common domicile with the resident spouse.
 - c. Substantial reliance on sources within the state of Kansas for financial support.
 - d. Former domicile within the state and maintenance of significant connections while absent.
 - e. Ownership of a home within the state of Kansas.
 - f. Employment within the State of Kansas.
The six- (6) month period of presence within the state, as stipulated in paragraph 3 of this rule, in and of itself, does not establish resident status in the absence of the required proof of intent.
5. The following factors indicate intent to make the state of Kansas a permanent home for an indefinite period shall be given equal weight than those in subsection above and include:
 - a. Acquisition of Kansas driver's license.
 - b. Voting or registration for voting.
 - c. Part-time employment.
 - d. Lease of living quarters.
 - e. Automobile registration or operator's license obtained in Kansas.
 - f. Payment of income, personal and property taxes in Kansas.
 - g. The factors listed in this subsection have applicability only as they support the intent to make the state of Kansas a permanent home for an indefinite period.
6. The following criteria shall be sufficient to establish eligibility for Kansas resident status pursuant to Section 702 of the Veterans Access, Choice and Accountability Act of 2014 ("Choice Act"):
 - a. A Veteran who lives in Kansas (regardless of his/her formal state of residence) and enrolls in the school within three years of discharge from a period of active duty service of 90 days or more.
 - b. A spouse or child (as defined in the Choice Act) using transferred benefits who lives in Kansas (regardless of his/her formal state of residence) and enrolls in the school within three years of the transferor's discharge from a period of active duty service of 90 days or more.
 - c. A spouse or child using benefits under the Marine Gunnery Sergeant John David Fry Scholarship who lives in Kansas (regardless of his/her formal state of residence) and enrolls in the school within three years of the Service member's death in the line of duty following a period of active duty service of 90 days or more.

- d. Any person who qualifies for Kansas resident status pursuant to this Section 6 shall retain that status as long as the person remains continuously enrolled at Washburn University.
7. A student who transfers to the Washburn University campus from another Kansas public college or university without an interruption in enrollment, except for a summer term, and who possessed resident status at the prior institution shall be granted resident status at Washburn University.

Educational Fee Assessment Rules

1. **Rates Assessed.** Residents of Kansas as defined in the residence rules will be assessed tuition at the resident rates. Students who are not residents of Kansas as defined by these rules will be assessed the tuition at the nonresident rates.
2. The **exception of the payment** of out-of-state tuition rates granted in paragraphs 4, 5, 6, and 7, shall be applicable only for the first six months such person is residing in the state of Kansas. Thereafter, he or she shall be eligible for in-state residence tuition rates only if he/she has established domiciliary residency in the state and can provide the indicia of residency in Kansas.
3. **Education Employment Tuition Waiver** - Persons who are full-time employees of a state educational institution.
4. **Active Duty Military Tuition Waiver** - Persons who are in active military service.
5. **Military Tuition Waiver** - For persons who do not already qualify for in-state tuition pursuant to The Choice Act, Section 6 above, persons who are domiciliary residents of the state, who were in active military service prior to becoming domiciliary residents of the state, who were present in the state for a period of not less than two years during their tenure in active military service, whose domiciliary residence was established in the state within thirty (30) days of discharge or retirement from active military service under honorable conditions, but whose domiciliary residence was not established at least six months prior to the first day of enrollment for the semester in which the students are enrolling.
6. **Employment Tuition Waiver** - Persons who are domiciliary residents of the state, who are employed on a full-time basis and whose employment requires at least 1,500 hours of work per year, whose domiciliary residence was not established at least six (6) months prior to the first day of enrollment for the semester in which the students are enrolling.
7. **Alumni Tuition Waiver** - Persons who are not domiciliary residents of Kansas, but are the dependent children (legal children, stepchildren or wards) of a graduate of Washburn University. For the purposes of this policy a graduate is any person who has earned a Certificate, Associate, Bachelor's, Master's, or Doctorate degree at Washburn University.

Appeals

Any student wanting to appeal a residency relative to his or her current residency status shall complete the Resident Status Appeal Form (<https://www.washburn.edu/admissions/paying-for-college/Residency/full-residency.html>) and submit to the campus residency officer (Associate University Registrar). The Resident Status Appeals Committee will review the appeal and all provided documentation.

The Resident Status Appeals Committee shall review the appeal and provide such student with a decision based upon submitted materials.

The committee will also notify the University Registrar's Office, the Financial Aid Office, and the Business Office of their final decision.

The student may appeal an adverse ruling with new or additional information to the Executive Director of Strategic Enrollment Management, whose decision shall be final.

Resident Status Appeal Committee Procedures

1. Student needs to submit completed appeal form with supporting documentation to Associate University Registrar within 30 days after the start of a semester. Students will be encouraged to submit the form and all documentation at once not separately.
2. The committee will meet as needed to review appeals.
3. All residency status changes will be reviewed as a group.
4. Once the committee decision has been made the student will be notified by their MyWashburn email.
5. Students wanting to appeal the committee's decision will be directed to the Executive Director of Strategic Enrollment Management only if new or additional information can be provided.

Tuition and Fees

Financial Obligations

Tuition and fees are established by the Washburn University Board of Regents and are subject to change. Once a student has enrolled in classes, she or he is liable for tuition and fee charges unless the student withdraws from all classes before the end of the 100% tuition refund period (fees are non-refundable after the term begins). Financial aid eligibility may change upon withdrawal from one or more classes, leaving a balance due on the student account. If receiving financial aid and/or scholarships, students are encouraged to contact the Financial Aid Office prior to withdrawing from classes. Payments can be made online in WU-VIEW which can be accessed through MyWashburn via the Payment Portal card. Payments may also be made by mail or in person at the Cashier Window in Morgan Hall 103. The Cashier Window is open between 8:00 AM and 5 PM, Monday through Friday, except on Wednesday, when office hours are 9 AM to 5 PM. A depository is located next to the Cashier Window to receive payments outside of office hours. Washburn University accepts cash, checks, and debit cards at the Cashier Window, and electronic checks, debit, and credit cards (VISA, MasterCard, Discover and American Express) online for the payment of student accounts. The processor charges a convenience fee of 2.95% for each credit card transaction submitted online.

All tuition and fee charges must be paid, or an installment plan set up, by the published "last day to pay without a late fee" to avoid penalties (more below). An installment plan may be set up in WU-VIEW, accessed through MyWashburn via the Payment Portal card. There is a \$30 setup fee for the installment plan and a \$25 late fee for each installment not paid on time. Installment payments may be made online in WU-VIEW, by mail, or in person at the Cashier Window in Morgan 103. Students or an authorized user may set up scheduled payments in WU-VIEW to automatically pay installments from a bank account or card. E-mail reminders will be sent to students and authorized users who schedule payments.

Electronic bills will be generated on a monthly basis and may be viewed in WU-VIEW. NO PAPER BILLS ARE SENT. A Financial Obligation Letter is sent to students with a balance mid-January or Mid-August, but may not be sent if a student enrolls after that date. No obligation letters are sent for the Summer term.

Academic Status: Full-Time and Part-Time Students

Students are defined as full-time in the Fall and Spring semesters if they are:

- Undergraduates enrolled in at least 12 credit hours.
- Graduate students enrolled in at least 9 hours.
- Law students enrolled in at least 9 hours.

Students are defined to be half-time in the Fall and Spring semesters if they are not full-time and are:

- Undergraduates enrolled in at least 6 hours.
- Graduate students enrolled in at least 5 hours.
- Law students enrolled in at least 5 hours.

During the summer session, any student enrolled in at least 6 hours is considered full-time, while students enrolled in at least 3 but fewer than 6 hours are considered half-time. For financial aid purposes, full-time enrollment in the summer is 12 hours for undergraduate students and 5 hours for graduate and law students.

Tuition

The tuition charge is applicable to all terms of work such as regular semester, evening program, etc., whether taken for credit or as an audit.

Categories of Charges

Tuition and fees vary by category of student. Current rates may be viewed on the Business Office (<https://www.washburn.edu/student-life/business-office/>) website.

Existing categories of undergraduate students

Undergraduate

- Traditional Undergraduate (resident)
- Traditional Undergraduate (nonresident)
- Traditional Online UG
- Undergraduate Distance Education
- Bachelor of Health Sciences
- School of Business UG (resident)
- School of Business UG (nonresident)
- School of Business UG Online
- School of Nursing UG (resident)
- School of Nursing UG (nonresident)
- School of Nursing UG Online
- School of Nursing UG Online RN to BSN

Allied Health Programs

- CLS/CT/MRI & Sonography
- Radiation Therapy

High School Programs

- Concurrent Enrollment Program
- Concurrent Enrollment Program (business)
- Senior Academy
- Senior Academy Online

Information on tuition residence categories may be obtained from the section, "Residence Qualifications." All traditional Undergraduate classes are billed as "resident" during Summer Session.

Fees

Current fee structure may be viewed on the Tuition & Fee Schedule (<https://www.washburn.edu/student-life/business-office/tuition-fees.html>) webpage on the Business Office (<https://www.washburn.edu/student-life/business-office/>) website.

Credit by Exam Fee

A \$50 fee per exam is assessed.

Student Fee

The Student Fee is required of all students attending the University who are enrolled in the regular Fall and Spring semesters. Student fees are charged regardless of whether the courses are on-campus or off-campus. Student fees are non-refundable after the 100% tuition refund date and are not charged in Summer.

Private Music Lessons

Students majoring in curricula that require private lessons in music pay no additional fee for their lessons if they enroll and remain enrolled in 12 credit hours for a full semester. All other students are charged for private lessons, in addition to the credit hour charge, according to the categories listed below:

Semester Charges ¹

The per-semester-charges for private music lessons vary as follows:²

- Full-time music majors are charged an additional fee for private lessons, but are provided a waiver for that expense from the Music Department.
- All other students must pay an extra fee at the current resident undergraduate hour tuition rate for each hour they enroll.

¹ For additional information contact the music department.

² All private music lesson charges are rounded to the nearest dollar.

Private music lessons falling on legal and all-school holidays will not be made up. Lessons missed by the student will be made up only if satisfactory arrangements can be made with the instructor. Lessons missed by the instructor will be made up by the end of the semester. If a student withdraws from applied lessons after the "Last day to enroll without a late fee," there will be no reimbursement of fees. The only exceptions will be prolonged illness, administrative error, or death.

Private lessons are not available during the summer sessions.

Miscellaneous Charges

Late Fees will be charged to those students who have not completed the payment for tuition and fees, or set up an installment plan, by the date set and published as the last day to pay without a late fee. A single late fee, based upon the number of credits in which they are enrolled, will be charged.

Credit Hrs.	Late Fees
0.5-3.0	\$25.00
3.5-6.0	\$50.00

6.5-9.0	\$75.00
9.5+	\$100.00

Cap and Gown Use

The student is responsible for making arrangements and for paying the Ichabod Shop for use of cap and gown during commencement exercises.

Laboratory Usage

The student is expected to compensate the University for laboratory breakage or damage to other University property due to negligence, carelessness, or failure to follow instructions.

Course Materials Charge

Certain courses may have materials or other course-related fees in addition to tuition charges. Information on specific course fees can be obtained from the academic department offering the course.

Housing Payments

If a resident of University housing fails to make payments or enroll in a term payment plan according to the published payment deadline for the term (see Business Office (<https://www.washburn.edu/student-life/business-office/>) website), a hold will be placed on the person's records. Advance registration and enrollment in subsequent terms will not be permitted until the financial obligation is paid in full.

Parking Fines

Failure to pay a University parking fine within five days of the due date results in a late payment fee of \$10.00. If the student does not pay the fine and the late payment fee, a hold will be placed on the student's records, restricting registration in courses, the ability to obtain transcripts and/or diploma. Enrollment in subsequent terms will not be permitted until the financial obligation is paid in full. Parking and traffic regulations are distributed each semester.

Library Fines/Other University Financial Obligations

Failure to pay a library fine or any other University financial obligation which has not been discussed above will result in a hold being placed on the student's records, restricting registration and the ability to obtain transcripts and/or diploma. Enrollment in subsequent terms will not be permitted until the financial obligation has been paid in full.

Liability for Institutional Charges

(Tuition, Fees, Housing, Fines, etc.)

Once a student has enrolled in classes, she or he is liable for tuition and fee charges unless the student withdraws from classes via the web. Tuition charges for full-term classes from which a student has withdrawn will be removed from the student account according to the published refund schedule. Tuition charges for classes that are less than full term from which a student has withdrawn will be removed according to a pro-rated schedule.

Having tuition charges removed from the student account does not necessarily mean there will be a refund. In fact, if withdrawal from one or more classes results in having financial aid removed as well, the student may owe a balance. Students considering withdrawing from one or more classes need to be sure that the financial implications are clearly understood before withdrawing.

If a student withdraws from one or more classes in which she or he has enrolled, it may be necessary to return all or a portion of the Title

IV financial aid (e.g. loans and/or grant aid) that were received for the term, as required by federal regulations. Based on this calculation and the refund period, the student may have to repay Washburn University up to the amount of aid that has been returned.

Please note that the student fee is refundable up to the 100% tuition refund date, even if the student withdraws from all classes. Refunds and/or charges that are due to a student leaving campus housing are governed by the terms of the housing contract.

Failure to pay any tuition, late fees, or other charges when due may subject the student to:

- Holds and non-release of the student's records, including transcripts.
- Holds and non-release of diplomas/certificates.
- Restrictions on advance registration and enrollment in subsequent semesters.
- Placement of the balance due with the Kansas Debt Recovery System (setoff program) and/or other collection agencies.
- Collection charges, including attorney fees, incurred as part of collection efforts.

Holds will be lifted only after the student has made full payment.

For payments made by personal or electronic check, a transcript hold will remain in place for 7 to 10 days to allow time for the payment to clear the bank. Post-dated checks will not be accepted for payments. **Returned checks are subject to a \$30 fee.**

Refunds

A student permitted to withdraw from a course or courses in an academic session in which he or she is enrolled may be eligible for a refund of the University tuition paid for that course or courses. No refunds will be made of the late fee unless the failure to settle the account balance in a timely manner was due to an error on the part of Washburn University. In the event the student is a financial aid recipient, the refund will first be made to the financial sources used to pay such tuition, including but not limited to scholarships, grants, and Federal Title IV funds. Withdrawal from a course or courses making the student ineligible for the grant, aid or scholarship paid shall require the student to make repayment of the grant, aid or scholarship pro-rated on the basis of the amount of the student's participation in the activity for which the grant, aid or scholarship was awarded. If the student has any unpaid account with the University, any refund from withdrawal may be applied to such an account. Any amount paid to the University that exceeds tuition and fees paid by these other sources, and any amounts due to the University, shall then be paid to the student. For students who completely withdraw from classes and have received Federal Title IV funds, please refer to the Federal Return of Title IV funds policy available in the Financial Aid office or on the Financial Aid website (<https://www.washburn.edu/admissions/paying-for-college/financial-aid/>) and select "Right to Know."

If a student account has a refundable credit balance, a refund will be generated. The preferred method of disbursement of excess financial aid is via direct deposit to a student checking or savings account, (which the student sets up via MyWashburn via the Payment Portal card, WU-VIEW, Electronic Refunds). The University reserves the right to refund credit balances to credit card(s) used to make payment(s) on the student account. Parents will normally receive any excess funds for Parent PLUS loans by mail.

Students may request that a check be mailed, or they may pick up a check – specific dates, times and places for that process will be posted on the Business Office (<https://www.washburn.edu/student-life/business-office/>) website. The student is responsible for ensuring that all contact information is correct and up to date. Students can change their mailing address and other contact information through their MyWashburn via the Student Account Information card. It is important to make sure address information is correct and up to date. Checks are normally mailed to the current address on file with the Business Office.

Due to the unique nature of the various programs offered, cancellations and refunds for non-credit offerings may be different depending on the program or course. If a student is unable to attend a course, she or he should refer to the cancellation and refund policies established for each program as indicated in the program brochure, on the program web page, or by contacting the coordinator responsible for the program.

The first official day of classes constitutes the beginning of the semester for tuition refunds. For courses which are scheduled out of sequence of the regular Fall and Spring Semesters and Summer Session, the day published as the official first class meeting for the course constitutes the beginning of the course for tuition refund purposes, assuming the course is for a term of five or more weeks and is subject to tuition refund. Withdrawal from a course and enrollment in another course are treated as separate transactions and there may be fees attached. Information about Refunds Dates by Course is available on the Business Office website: <https://washburn.edu/student-life/business-office/tuition-refunds.html>.

Refund Due to Death of a Student

If a student should die during a semester/session in which the student is duly enrolled, the student's estate will be refunded the tuition and fees based on the above stated policies, providing the student has no other outstanding University financial obligations. To initiate this process, the family may contact the Associate Vice President of Student Life, Morgan Hall.

Non-Credit-Hour Courses (Sponsored by Departments/Divisions)

For non-credit conferences, institutional seminars and community service offerings that are of more than one-day duration and are not described in a separately published brochure, the refund is 100% if the official withdrawal notice is received on or before the first day after the first class session. There is no refund for these courses following the first business day after the first class session.

Financial Aid

Website: <https://www.washburn.edu/admissions/paying-for-college/financial-aid/index.html> (<https://www.washburn.edu/admissions/paying-for-college/financial-aid/>)

Washburn University provides financial aid assistance through scholarships, state programs, federal grants, federal work study, and federal student loans. Washburn University Academic Scholarships may be available to incoming, direct from high school, freshman and transfer undergraduate students who meet the minimum cumulative GPA requirements, enrollment criteria, and the priority date of March 1, based on availability of funds. In addition, scholarships may be available to students through their academic department, based on their program of study. Current and admitted students can also match with external and internal scholarships through our new scholarship matching tool,

Scholarship Universe - <https://www.washburn.edu/admissions/paying-for-college/scholarships/scholarshipuniverse.html>

Washburn University Freshman Academic Scholarships are available up to a maximum of eight consecutive undergraduate semesters or until one graduates with their 1st Bachelors degree, whichever comes first. Students must be enrolled full time (12+ credit hours) each semester to receive an academic scholarship(s). To qualify for renewal of academic scholarships each year, students must maintain a required Washburn University cumulative grade point average, as indicated online (<https://www.washburn.edu/admissions/paying-for-college/scholarships/>) (per each award) and complete and pass at least 24 credit hours between the fall and spring semesters (for Fall 2022 cohorts and previous). Fall 2023 cohorts and beyond will be required to complete at least 27 Washburn credit hours between the Fall, Spring and Summer semesters. Visit the Scholarships (<https://www.washburn.edu/admissions/paying-for-college/scholarships/>) website for more information. If the above criteria is not met, students can appeal using the Academic Scholarship Appeal Form available online (<https://www.washburn.edu/admissions/paying-for-college/financial-aid/forms.html>). Washburn Summer courses can be considered in the appeal to meet the hours and/or GPA criteria.

Federal financial aid is awarded for one year with its continuance based upon financial aid eligibility, as determined by the Free Application for Federal Student Aid (FAFSA) and Satisfactory Academic Progress.

Washburn University's Satisfactory Academic Progress Policy can be reviewed online (<https://www.washburn.edu/admissions/paying-for-college/financial-aid/Satisfactory-Academic-Progress.html>).

Students must apply for financial aid each year by completing the FAFSA on the web at www.studentaid.gov (<http://www.studentaid.gov/>). Washburn's federal school code is 001949. The FAFSA becomes available each year on October 1 for the following academic year. To be considered for limited campus-based funds, eligible students should complete their FAFSA as soon as possible after October 1, but no later than Washburn University's November 15 priority date. Admission to Washburn University is a prerequisite for consideration of financial aid.

Summer financial aid is based on remaining annual federal aid eligibility – i.e. federal funds that were unused during the fall and spring semesters of the academic year. To be considered for summer financial aid, students must have a valid FAFSA on file.

All financial aid and scholarships must first apply to students' applicable charges assessed to their account. Any excess financial aid may be issued to the student as a refund. Please see the "Refunds" section for more information on receiving a refund from financial aid funds. (<https://www.washburn.edu/student-life/business-office/financial-aid-refunds.html>)

Washburn University has partnered with the i3 Group to assist current and former students. The i3 Group is a financial aid counseling service that answers questions and assists current and former students with their Federal Student Loans. The i3 Group's goal is to provide quality customer service while helping students stay informed of the status of their loan, provide alternative repayment options, and to promote solutions to every student to avoid default. Each current and former student will have the ability to register for their own Iontuition account at www.iointuition.com (<http://www.iointuition.com>). Iontuition is a self-help web tool that allows the student to review their loan status, payment amount, due date, and servicer in one user-friendly location. Iontuition also includes budgeting tools and repayment calculators to

assist students with all of the repayment options available. Both are free services provided to the students on behalf of Washburn University.

For more information, contact the Financial Aid Office at (785) 670-1151 or financialaid@washburn.edu, or stop by the Student One Stop in Morgan Hall.

Center for Student Success and Retention

Overview

Washburn University created the Center for Student Success and Retention (CSSR) in July 2011, in order to better support the successful transition of students into and through their first-year of studies. Students and, therefore, the Washburn Community of Learning continue to benefit from the creation of the CSSR because First-Year student retention is increasing. The CSSR and the initiatives that come out of it are changing success outcomes well beyond the first year for students. On this page, you can learn about our activities.

First-Year Experience

Website: <https://www.washburn.edu/academics/undergraduate-programs/first-year/index.html> (<https://www.washburn.edu/academics/undergraduate-programs/first-year/>)

Plass Learning Resources Center
(785) 670-1942

First-Year Experience (FYE) supports the academic, social, and personal transitions of all first-year students. Through collaborative efforts with faculty, staff, and peer educators, we empower and support first-year students by providing intentional courses, programs, and services that promote success and persistence in college. The Washburn FYE program seeks to help students begin the process of becoming information literate to promote student success in the Information Age.

First-Year Experience initiatives include the iRead common reading program, success skillshops, the first-generation student mentoring initiative, and special programs for first-year students. FYE is involved in New Student Orientation, Welcome Week, and Convocation. Beyond programmatic efforts, the First-Year Experience offers a series of success courses.

WU 101 The Washburn Experience - First Year Experience Course

This course is designed to help students develop the vital skills necessary to successfully transition into Washburn University by focusing on topics such as: information literacy, academic honesty and success, college reading and writing, campus involvement, and others that promote student success at Washburn.

Additional courses which may assist students in achieving success at the university include:

WU 120 Major and Career Exploration (2)

WU 120 will use a Social Science research process to guide students through academic and career exploration in the Information Age. Engaged and capable citizens need a firm grounding in digital research to navigate successfully the Knowledge Economy. Because this world continues to evolve rapidly, having a skill set that provides the ability to evaluate a changing environment is essential. This course meets a core student need by teaching Information Literacy and Technology skills while encouraging students to consider thoughtfully their role as citizens. Prerequisite: None.

IL 170 Library Research Strategies (1)

Designed to both introduce and improve basic library research skills using the print and automated information retrieval resources of the University Library. Additional in-depth analysis of database sources, the ability to construct search strategies and evaluation of materials are covered. Prerequisites: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- Gen Ed Pre-AY 2024-2025: Natural Science
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Information Literacy and Technology

IL 171 Internet Research Strategies (1)

Designed to both introduce and improve research strategies for finding scholarly information on the Internet, including resources in the Invisible Web that cannot be accessed with standard search engines, such as Google. Students will learn to formulate and modify an effective search strategy, investigate the theory behind the search process, and critically evaluate electronic resources based on appropriate criteria. This course is offered on-campus, on-line or hybrid. Prerequisites: IL 170.

IL 300 Information Literacy for Scholars (3)

In this course, students will use an advanced approach to the research process and methods for retrieving information for a scholarly paper or presentation. Experience in the research process, selecting a topic, and retrieving information on topics is required. Focus is on developing the following skills: understanding the many types of research, methods, delivery of research results in the academic community. Prerequisites: None.

Office of Academic Advising

Website: <https://www.washburn.edu/academics/advising/index.html> (<https://www.washburn.edu/academics/advising/>)

Plass Learning Resources Center
(785) 670-1942

The Office of Academic Advising serves as a resource for high quality academic advising for the entire Washburn community. Academic Advising provides services and referrals to first-year, exploratory, prospective, transfer, probationary, and reinstated students. Academic Advising oversees both the Passport for Success (see below) and the Academic Fresh Start Program. Professional advisors assist exploratory students with academic questions, provide information about university policies, regulations, and services, assist students with course selection, and guide students in the exploration of majors. Advisors are available in Plass Learning Resources Center for daily drop-in times and appointments—Students use the Navigate App to schedule or call (785) 670-1942. Extended hours offered during the regular semester. Visit the

Office of Academic Advising's website (<https://www.washburn.edu/academics/advising/>) for more information.

Passport for Success & Ignite Programs

Washburn University, which historically prizes access to postsecondary education, continues to develop pathways that meets students where they are in their individual preparation. Students admitted by exception to regular admission are required to participate in either the Passport for Success program or The Ichabod Ignite program. Both programs are collaborative efforts between the Center for Student Success, University Library, Academic Affairs, Student Life, and Enrollment Management at Washburn University.

These programs consist of coursework, activities and services across a student's first two years of study at Washburn University that are designed to put them on the path to college success. Instead of rejecting students, these initiatives allow students to enroll in 4 carefully chosen courses, 12-credit hours that work toward graduation, and they are designed to develop their academic ability and success behaviors.

- Advisor approved course selection and scheduling, leading to approved associate degree.
- Limit on number of semester hours: 12 credit hours per semester during their first year, with recommended summer classes to maintain 30 credit hours per year. (Exceptions granted by advisor approval.)
- Mandatory multi-session per semester advising: These three academic advising sessions will include academic assessment, program and degree planning.
- Enrollment in WU 101 The Washburn Experience during first semester of attendance.
- Enrollment in WU 115 Academic Enhancement course as directed by advisor.
- Participation in study skills, career planning, test taking and other seminars offered by the University Tutoring & Writing Center.
- Tutoring as needed.

Students will be contacted by their assigned advisor at the beginning of each term. For more information, please email advising@washburn.edu.

University Tutoring and Writing Center

Website: <https://www.washburn.edu/student-life/tutoring-writing-center/index.html> (<https://www.washburn.edu/student-life/tutoring-writing-center/>)

Plass Learning Resources Center

Students are encouraged to maximize their success by utilizing tutoring services provided through the University Library. The University Tutoring and Writing Center offers support for students seeking assistance with writing and other specific courses. All services are free of charge. Visit the University Tutoring and Writing Center's website (<https://www.washburn.edu/student-life/tutoring-writing-center/>) for more information.

Center for Testing and Prior Learning

Website: <https://www.washburn.edu/academics/center-student-success/testing/index.html> (<https://www.washburn.edu/academics/center-student-success/testing/>)

Plass Learning Resources Center

The Academic Testing office administers placement tests for new students, proctors exams for Washburn students who are concurrently enrolled in a distance education course at another college and serves as a testing center for a number of national standardized testing programs. Visit the Center for Testing and Prior Learning's website (<https://www.washburn.edu/academics/center-student-success/testing/>) for more information.

Additional Academic Services

The Harlan J. Koca Mathematics Enrichment Program Tutor Center

The Math Lab is a peer tutoring facility located in the Plass Learning Resources Center for students in the following courses:

Code	Title	Hours
MA 112	Contemporary College Mathematics	3
MA 116	College Algebra	3
MA 117	Trigonometry	3
MA 123	Pre-Calculus	3
MA 140	Statistics	3
MA 141	Applied Calculus I	3
MA 151	Calculus & Analytic Geometry I	5

No appointment is necessary. Please visit <https://www.washburn.edu/academics/college-schools/arts-sciences/departments/mathematics-statistics/mathtutor.html> for more information.

Departmental Advising/Tutoring

Academic advising for students with a declared major are advised through their academic department. Students should consult with their department for further information about departmental tutoring.

Supplemental Instruction in the Sciences

Students completing science courses should contact their instructor regarding supplemental instruction opportunities.

International Student Services

Washburn Website: International Student Services (<https://www.washburn.edu/academics/international-programs/international-students/>)
Email: international@washburn.edu

Plass Learning Resources Center, Room 220

Baili Zhang, Director of International Student Recruiting
Heidi Staerkel, Associate Director, International Programs
Michala Stokes, International Student Advisor

International Student Advisors

International student advisors are involved in the preliminary acceptance of international students, aid the students in preparation of their academic programs, counsel them regarding how to maintain their visa status, and maintain contact with them during their academic careers. Call (785) 670-1051 or email international@washburn.edu for more information.

Undergraduate Admission

A complete application includes the following:

1. A completed on-line Washburn University International Application (<https://washburn.elluciancrmrecruit.com/international/pages/welcome.aspx>) form.
2. Recent (within two years) iBT TOEFL, IELTS or DuoLingo English Test (DET) score report. Go to English Proficiency Requirements (<https://www.washburn.edu/academics/international-programs/international-students/english-proficiency-requirement.html>) for more details.
3. Completed Financial Disclaimer (<https://www.washburn.edu/academics/international-programs/international-students/financial-disclaimer-form.pdf>) form and original financial supporting documentation of the student's/sponsor's ability to finance studies while in the U.S.
4. Official transcripts of completed secondary education and of any university-level course work. University-level course work must be evaluated by either Educational Credential Evaluators (ECE (<https://www.ece.org>)) or World Education Services (WES (<https://www.wes.org>)) if obtained from outside the U.S. The grades of university-level international courses will be listed on the Washburn University transcript as CR (grade of A,B, or C), P (grade of D), or NC (grade of F) and the grade point average earned in international college course transfer work will not be calculated in the cumulative GPA at Washburn University.
5. Copy of passport ID page.

Note: Refer to University Requirements Common to all Associate and Bachelor Degrees (p. 48) sections for further information.

International Transfer Student Admission (from another U.S. school to Washburn)

In addition to the aforementioned admissions materials, a completed transfer application includes the following:

1. A completed Washburn University Transfer Eligibility (<https://www.washburn.edu/academics/international-programs/international-students/transfer%20eligibility%20form/>) form, completed by the applicant and an international student advisor at the current school.
2. A copy (pages 1 and 2) of the student's current Form I-20 or Form DS-2019 (page 1).
3. Official transcripts of all university-level work, sent to Washburn University directly by the issuing school/language program.
4. A copy of the student's current visa, and passport ID page.

Intensive English Program Admission

A complete application includes the following:

1. A completed on-line Washburn University International Application (<https://washburn.elluciancrmrecruit.com/international/pages/welcome.aspx>) form or a Washburn University Application for degree or non-degree seeking students already living in the US.
2. Official English test score (such as Duolingo English Test, iBT TOEFL, or IELTS) for IE course placement. Submit the Duolingo English Test score directly to WU from the Duolingo Website. Send other scores to international@washburn.edu or with admission documents.
3. If attending on an F-1 or J-1 visa, a completed Financial Disclaimer (<https://www.washburn.edu/academics/international-programs/international-students/financial-disclaimer-form.pdf>) form and original financial supporting documentation of the student's/sponsor's ability to finance studies while in the U.S and a copy of passport ID page.

Transcript Requirement

Applicants must provide original transcripts which should have detailed addresses of the issuing schools for verification. If originals cannot be submitted, attested certified copies of transcripts must be sent to Washburn by the issuing school.

All university-level foreign transcripts must be evaluated by ECE (<https://www.ece.org>) or WES (<https://www.wes.org>). A "course-by-course" report is required and must be submitted by the evaluation service to Washburn University directly.

English Proficiency Requirement for Undergraduate Studies

Students whose native language is not English must meet Washburn's English Proficiency Requirement (<https://www.washburn.edu/academics/international-programs/international-students/english-proficiency-requirement.html>). Some undergraduate programs have additional English proficiency requirements which must be met for program admission.

Please note: Students who cannot meet the above guidelines will be placed in the Intensive English classes by the staff of the program based on their English proficiency test scores, transcripts, and other evidence. They must enroll in and successfully complete the required IE courses as early as possible.

Transfer students must also fulfill the English Proficiency Requirement (<https://www.washburn.edu/academics/international-programs/international-students/english-proficiency-requirement.html>).

Full-time students in the IEP (Level I or II) are not eligible to take other academic courses. Students in Level III or needing only part-time enrollment in IEP can take other academic courses.

For graduate program applicants, please refer to the academic department for the English proficiency requirement, as this varies by graduate program.

Office of Student Life

Website: <https://www.washburn.edu/student-life/services/student-life.html>

Morgan Hall 240
(785) 670-2100
studentlife@washburn.edu

Student Life enriches the educational experience of the Washburn community with an appropriate balance of challenge and support, through a commitment to learning, student development and advocacy. We value all students and strive to create environments which foster the sustained development of well-balanced, civic-minded individuals.

The following Student Life units cooperate to play integral roles in achieving this mission: Campus Spirit, Career Engagement, Residential Living, Student Accessibility Services, Student Health and Counseling Services, Student Recreation and Wellness, Veterans Transitions and the Office of Student Life and Development.

Resolving Problems

Faculty and staff at Washburn University are committed to student success which includes everything from efficient business processes to excellent experiences both inside and outside the classroom.

Despite this campus-wide commitment, however, it is inevitable that misunderstandings or disputes may arise periodically. Such misunderstandings can typically be resolved quickly, directly and informally at Washburn. For more information please visit <https://washburn.edu/student-life/services/resolving-problems.html>

The Washburn University of Code of Conduct is available at <https://www.washburn.edu/student-life/policies-forms/academic-policies.html>

Campus Resolution

If you want to visit with someone informally, privately and respectfully about a problem you are experiencing, you may contact the Student Life Office (785) 670-2100 or studentlife@washburn.edu. This office can provide advice about the options available to you and also can assist in finding an informal way of resolving your problem.

Depending on the nature of your concern, a specialized procedure may apply. Policies and procedures designed to assist you in obtaining resolution to the issue you are dealing with exist in many areas within Washburn University. The Student Life Office can direct you to the campus resources that are directly responsible for assisting students with the specific challenges you are experiencing.

Career Engagement

Website: <https://www.washburn.edu/student-life/career-services>
(<https://www.washburn.edu/student-life/career-services/>)

Platt Learning Resources Center, Room 219
(785) 670-1450
career-services@washburn.edu

Washburn University Career Engagement provides coaching and assistance to WU students in two basic areas:

- Career exploration – deciding on major and career path
- Preparing for and finding experience – part-time, full-time, and internship

Career Engagement staff members conduct class presentations, individual in-person and virtual coaching sessions, and workshops around all topics surrounding career development, from career assessments to resume writing to interview practice. Career events on campus include career fairs, resume review days, and employer interview sessions.

Handshake (washburn.joinhandshake.com (<https://washburn.joinhandshake.com/>)) is the primary tool for students to engage initially with employers and Career Engagement. Handshake hosts

- Job and internship postings for WU students
- Appointment scheduling with Career Engagement
- Student resumes and profiles
- Employer database
- Virtual fairs, event information and on-campus interview schedules

In addition, Career Engagement maintains a comprehensive website (<https://www.washburn.edu/student-life/career-services/index.html> (<https://www.washburn.edu/student-life/career-services/>)) with helpful resources for every step of the career development process, such as career exploration, resume writing, interviewing, LinkedIn, and choosing graduate school programs.

Current students can schedule individual appointments via Handshake. For more information for students or alumni, please call Career Engagement at (785) 670-1450 or email career-services@washburn.edu. Career Engagement is open 8 a.m. – 5 p.m., Monday – Friday.

Residential Living

Website: <https://www.washburn.edu/student-life/residential-living/>

1801 SW Jewell Ave.
(785) 670-1065
resliving@washburn.edu

The mission of the Residential Living Office is to support the university community by providing a comfortable, secure, and diverse living and learning environment for students that encourages community

relations and personal and academic development. First time, full time undergraduate students that are coming to Washburn directly from high school are required to live on campus for their freshman year.

Washburn's state-of-the-art living facilities have been recognized in national magazines for their comfort and design. Students report that living on-campus is the best way to make new friends, have fun and be healthy!

Student Housing on Campus

Residential Living offers three unique residence halls available for students interested in living on-campus. The goal is to provide attractive on-campus housing designed to support the intellectual and social development of students

The Living Learning Center - The Living Learning Center serves students, faculty, staff, alumni, and community members by providing social and common areas, seminar rooms, dining services, a reading room, and on-campus student housing.

The LLC is a coed hall that includes 400 beds in modern, four-bed suites grouped for privacy and personal space. Wireless internet is available throughout the building. Students can experience the opportunities of on-campus living and an atmosphere that encourages learning. Rooms are arranged in clusters around community spaces that include television lounges, kitchenettes with ovens, sinks and microwaves; and spacious study rooms at the end of every wing.

Professional apartments are connected to the Living section of the Center. These accommodate the Residence Hall Coordinator and the Faculty-in-Residence.

Lincoln Hall – Lincoln Hall is a coed hall that houses approximately 350 students in two-, four- and six-person suites. Depending on the configuration of each suite, there is one or two bathrooms and sinks. Each suite also features a living area with seating for residents and guests. Students living in Lincoln Hall enjoy a common area on each floor that not only offers space to study individually or in groups, but allows the use of a kitchen area for personal or programmatic needs. Residents have access to laundry facilities, a conference room, mailboxes and vending machines. Lincoln Hall also is connected to Lincoln Dining which features all-you-can-eat meal options.

Washburn Village - This option provides apartment-style housing for students who are in their second or more year of college. This 192-bed facility, located on the southwest corner of campus, includes 2-, 3-, and 4-bedroom units. The apartments are fully furnished with a bathroom with a shower/tub combination, a living room, and a small kitchenette. The commons building includes a conference room for study, a lounge area with a large-screen TV, a game room, a reception desk, mailboxes, and 24-hour access to laundry facilities.

Off-Campus Housing

Many students prefer to live in apartments and residences in the neighborhoods immediately surrounding the University campus. Several apartment complexes are within easy walking distance of campus, and Topeka offers a large selection with easy access to campus.

Additional Information

For a housing contract or housing exemption requests, or further information, please visit www.washburn.edu/resliving or contact resliving@washburn.edu

Student Accessibility Services

Website: <https://www.washburn.edu/studentaccessibility/index.html>
(<https://www.washburn.edu/studentaccessibility/>)

Plass Learning Resources Center, Room 316
(785) 670-1629
accommodations@washburn.edu

The Student Accessibility Services office is responsible for assisting in arranging reasonable accommodations and for identifying resources on campus for students with disabilities.

Documentation Requirements

Qualified students with disabilities must register with our office to be eligible for services. The office **MUST** have current documentation on file in order to provide services.

Documentation includes:

- Diagnosis of a specific disability by a professional qualified in the area of the disability (i.e. licensed therapist, primary care provider, or tester)
- States how the disability substantially limits a major life activity
- Explains how the disability affects the students academic performance
- Additional documentation guidelines can be found in our helpful documentation guide (<https://www.washburn.edu/studentaccessibility/files/helpful-documentation-guide.pdf>)

Services are identified to meet the needs of individuals based on their specific disability. Accommodations can include: note takers, test readers/scribes, adaptive technology training, braille materials, or other necessary accommodations.

Requests for accommodations should be submitted at least TWO MONTHS before the services will be needed. However, if you have a current accommodation need, please contact the Student Accessibility Services staff immediately.

Service Request Forms

In order to provide appropriate accommodations for students with disabilities, individuals (new and returning students) must complete a Accommodation Request Form every semester services are needed. New students additionally must request their medical provider, physician or therapist to complete the Disability Impairment and Assessment form. For more information and forms, please visit the Student Accessibility Services (<https://www.washburn.edu/studentaccessibility/>) website.

Student Health and Counseling Services

Student Health Services

Website: <http://www.washburn.edu/current-students/services/health-services/index.html>

Morgan Hall 140
(785) 670-1470

Washburn University Student Health Services exists to enhance the learning and development of University students (and staff/faculty), through provision of holistic health care, with a strong emphasis on education, prevention, affordability and patient advocacy. Immunizations, TB testing and urgent care are provided for students, faculty and staff. Additional primary care services include health promotion/ education, treatment of stable chronic conditions, physical exams, well woman exams, LGBTQ+ care, including Hormone Replacement Therapy, and psychological care in collaboration with Counseling Services. Student Health Services will make referrals to community resources as necessary. Psychiatric Mental Health Nurse Practitioner services are available on a limited basis. All clinic services are confidential, and provided at low cost to no cost by our nurse practitioner providers. For more information, please visit Student Health Services (<https://www.washburn.edu/student-life/services/health-services/>) website. A low cost health insurance program is available to all students registered for at least 5 credit hours. Information about this plan is available at Student Health Services and at the Student Life office. For more information, visit the Student Health Services (<http://www.washburn.edu/current-students/services/health-services/>) website.

Counseling Services

Website: <https://www.washburn.edu/student-life/services/counseling/index.html> (<https://www.washburn.edu/student-life/services/counseling/>)

Kuehne Hall 200
(785) 670-3100

College life can be very stressful. At times, students may want additional support to help manage stress and maximize success. Counseling is a place to explore any area of life that a student may be concerned about or wish to improve. For instance, if a student is feeling depressed, anxious, or distracted, counseling may be helpful. Advocacy and case management are available through Counseling Services as well. All services are confidential and free for currently enrolled students. For more information, visit the Counseling Services (<https://www.washburn.edu/student-life/services/counseling/>) website.

Additional services are available by phone 24 hours a day, 7 days a week by calling (785) 670-3100 and selecting option 2 to speak to someone immediately.

Student Recreation and Wellness Center

Website: <https://www.washburn.edu/student-life/recreation-wellness/index.html> (<https://www.washburn.edu/student-life/recreation-wellness/>)

The Student Recreation and Wellness Center (SRWC) provides individuals with the opportunity to build and belong to a community. The SRWC

engages with students by providing programs and services that are fun, educational, promote healthy lifestyle habits, and enhance the student experience. For more information, visit the SRWC (<https://www.washburn.edu/student-life/recreation-wellness/>) website.

Veterans Transitions

Website: <https://www.washburn.edu/student-life/military/index.html> (<https://www.washburn.edu/student-life/military/>)

Plass Learning Resources Center, Room 113
(785) 670-1629

Washburn University is here to help you make the most of your opportunities as a veteran. No matter whether you want some guidance for your career or need help navigating your benefit options, we've got your back.

Reach out to the Military-Student Success Center (<https://www.washburn.edu/student-life/military/military-student-success-center.html>) to take advantage of assistance and benefits available to you at Washburn University.

Prior to enrollment, students must schedule a meeting with:

- Chris Bowers, Military Transitions Coordinator, Military Student Advisor & (ESO), Military-Student Success Center, Plass Learning Resources Center, Room 113, wuveterans@washburn.edu or (785) 670-1983. Create a degree plan with a Military-Student advisor (a list of all the courses needed to complete your degree) before registering for classes.
- If Military student Advisor is unavailable, meet with Academic Advising, in Plass Learning Resources Center, advising@washburn.edu or with Yvette Montgomery, School Certifying Official, Morgan Hall, Room 102A (enter through the Admissions office), yvette.montgomery@washburn.edu, (785) 670-2329.
- Meet with the Center for Prior Learning & Testing, Plass Learning Resources Center, Room 226, testing@washburn.edu or (785) 670-1227. Discuss military transcripts and earning credit for military training/experience through DSST and CLEP exams which are funded for qualified military service members

Remember, you will have to recertify for your VA benefits at the **beginning of each semester** through the Registrar's Office. Changes in enrollment, such as dropping courses, adding courses, or formally withdrawing from the University, must be submitted to the VA. VA regulations require veterans to pursue an educational objective, file a degree plan, regularly attend classes, and make satisfactory progress.

If you have questions or need help with the certification process, please contact the Military Benefits Specialist at Morgan Hall 102A (enter through the Admissions office) or (785) 670-2329.

Military Deployment Withdrawal

Students who are called to military active duty and must withdraw from classes as a result should contact the Military Transitions Coordinator or Veterans Certifying Official prior to deployment at militarybenefits@washburn.edu. The Vice President for Enrollment Management requires that the student submit a copy of the military orders and a written request to withdraw. Those items are forwarded to the University Registrar for complete withdrawal.

Office of Student Involvement and Development

Website: <https://www.washburn.edu/student-life/student-involvement>
(<https://www.washburn.edu/student-life/student-involvement/>)
Facebook: [facebook.com/cabatwu](https://www.facebook.com/cabatwu)

Main Level, Memorial Union
(785) 670-1723
student.involvement@washburn.edu

The Office of Student Involvement and Development, in conjunction with the Student Life area, supports the Washburn community through the creation of co-curricular experiences that encourage collaboration and inclusivity to enhance student learning, through leadership development, and campus engagement. It provides a wide range of services and activities at Washburn designed to enhance campus life through recreational, leisure, social, entertainment, cultural, and service programs.

With over 125 student organizations and clubs (<https://www.washburn.edu/student-life/student-involvement/>), the Office of Student Involvement and Development provides an opportunity to serve and get connected to the University and community. The office assists student groups in program planning and leadership development. It provides information on existing student groups; establishes guidelines for developing new organizations; offers advice on setting organizational goals and objectives, fund-raising, or developing a constitution; assists in scheduling speakers, events and meetings.

Fraternity and Sorority Life

Website: <https://www.washburn.edu/student-life/student-involvement/fsl/index.html> (<https://www.washburn.edu/student-life/student-involvement/fsl/>)

Washburn University is home to 5 fraternities and 6 sororities. The Greek community of Washburn University provides a comprehensive educational and social learning experience for all of its members through the promotion of academics, leadership and personal development, brotherhood and sisterhood, and service to the University and the Topeka community.

National statistics show that students who participate in fraternity or sorority life increase their chances of graduating; build long lasting relationships with friends and with their university; serve in more leadership roles on campus; and on the average obtain higher grade point averages.

Panhellenic Council, Interfraternity Council, and Greek Council are the governing bodies for the chapters on campus and are comprised of members from each organization. Panhellenic Council sponsors fall formal recruitment activities where female students may participate in formal membership recruitment during September for 3 of the 4 sororities. The other sororities, Alpha Kappa Alpha, Gamma Phi Omega and Sigma Lambda Gamma have a deferred recruitment process. In addition, all students can participate in open membership recruitment during the school year. The sororities at Washburn are: Alpha Kappa Alpha, Alpha Phi, Delta Gamma, Gamma Phi Omega, Sigma Lambda Gamma and Zeta Tau Alpha. The fraternities at Washburn are: Alpha Delta, Kappa Sigma, Phi Delta Theta, Phi Mu Alpha Sinfonia, and Sigma Phi Epsilon. Six of our fraternities and sororities provide on campus living.

For more information on all of our chapters, visit our website (<https://www.washburn.edu/student-life/student-involvement/>) or contact the Office of Student Involvement and Development at (785) 670-1723.

Honorary Organizations

An honorary organization often times offers a student recognition for academic excellence, leadership and service to the community. Washburn University sponsors a number of honorary organizations; many are connected to academic departments on campus. One such organization is the chapter of Phi Kappa Phi, a nonprofit honor society that promotes the pursuit of excellence in all fields of higher education and recognizes outstanding achievement by students, faculty, and others through election to membership, and through various awards for distinguished achievement. Please contact the Office of Student Involvement and Development for more information or a complete list (<https://www.washburn.edu/student-life/student-involvement/>).

Washburn Student Government Association (WSGA)

Website: <https://www.washburn.edu/student-life/wsga/>

Lower Level, Memorial Union
(785) 670-1169
wsga.office@washburn.edu

The Washburn Student Government Association (WSGA) exists to serve the students and registered student organizations with any problems or concerns they may have. Members of the student body are automatically members of WSGA.

The WSGA Senate is the student government arm of the association. There are 34 senators: 27 that are elected by the student body in the spring and 5 freshman senators that are elected by the freshman student body in the fall. One transfer senator and one international student senator is appointed by the executive staff throughout the year as vacancies occur. Applications for appointment are available in the WSGA office. Senators must maintain a 2.0 GPA and be enrolled in at least three hours as an undergraduate.

The president and vice president of WSGA are elected each spring by the student body. They, in turn, appoint an executive staff which is responsible for carrying out the decisions of the senate.

The senate is funded by a portion of student activity fees. These fees help provide student services such as the WSGA Lecture Series, Success Week events and Homecoming. All registered student organizations are eligible to request funding for their group's activities from WSGA.

Student Media

Student Media at Washburn University offers multiple experiences for students. The Review is the student newspaper, which publishes 13 email newsletters weekly during the fall and spring semester. Students maintain the Washburn Review website, www.washburnreview.org (<http://www.washburnreview.org>), as well.

Washburn's award-winning student publication has a long history of offering the student body and faculty current news, interesting features and lively opinions. The Review staff is open to all interested students to apply; visit the office in the basement of Memorial Union.

Students also produce two issues of Indigo Magazine each year as well as the Sapphire Yearbook. Both the Indigo magazine and the Sapphire yearbook earned the All-Kansas distinction from the Kansas Collegiate Press for its 2023 publications.

Student Media offers opportunities for learning and applying technology across a variety of platforms. It employs reporters, photographers, podcasters, videographers, designers, sales and promotion staff, copy editors, editors and web managers. To reach students in charge, email studentmedia@washburn.edu.

Athletics

Website: <https://wusports.com/>

Washburn University offers a variety of athletic programs for both men and women.

Men's Sports:

- baseball,
- basketball,
- cross country,
- football,
- golf,
- indoor and outdoor track and field,
- and tennis.

Women's Sports:

- basketball,
- cross country,
- golf
- indoor and outdoor track and field,
- soccer,
- softball,
- tennis,
- and volleyball.

Washburn is a member of the National Collegiate Athletic Association (NCAA) Division II and the Mid-America Intercollegiate Athletics Association (MIAA).

Student Responsibilities

Attendance

The value of a college education is enhanced by full participation and attendance in class activities. Because classroom activities are intended to assist the students in the learning experience, it is expected that they will attend class sessions whenever possible. There are certain kinds of class sessions in which it is impossible to carry on the work of the class unless the student is present. For this reason, each member of the faculty has the prerogative of establishing specific attendance regulations which, in the instructor's opinion, are best suited to the course. There is no University wide attendance policy.

An instructor, after due notice to the student, may request withdrawal of the student from a course because of nonattendance through the same date as the last day a student may withdraw from a course. This would **not** absolve the student of financial responsibility for tuition/fees for the course in question.

Student Conduct

The University expects conduct of all students which is consistent with the law and with generally accepted principles of academic behavior. The University retains the right to secure the safety of individuals, the protection of property, and the continuity of the educational process. Any interference with access to University facilities, interruptions of educational activities, or damage to property exceeds permissible bounds. Although remedies are available through local law enforcement bodies, the University may elect to impose its own disciplinary sanctions. Information regarding student rights and the rules governing student behavior are found in the Washburn University Student Conduct Code. It is available online at <https://www.washburn.edu/student-life/services/>

[files/Student_Conduct_Code.pdf](#) and in the Student Life Office, Morgan Hall Room 240D.

Academic Impropriety Policy

Excerpts of this policy are printed each semester in the schedule of classes. A complete copy of the Academic Impropriety Policy can be found in Section 7 of the Faculty Handbook (<https://www.washburn.edu/faculty-staff/faculty-resources/faculty-handbook/>).

Authorized Academic Load

Normally, the maximum number of hours permitted for undergraduate students is 20 per semester. Correspondence, extension, and evening courses taken concurrently are counted as a part of the total load. For summer sessions, the maximum number of hours permitted concurrently is 9, provided that no more than 6 are taken in the same early or late session or shorter term. Superior students may petition the appropriate Dean for permission to enroll in more hours. Normally the term superior will be construed to mean a cumulative grade point average of at least 3.0.

Official E-Mail Address

The student's Washburn University e-mail address will be the official address used by the University for relaying important messages regarding academic and financial information and the University will consider this medium as an official notification for important information. The student university e-mail address may also be used by instructors to provide specific course information.

- Login to your Office 365 email at <https://outlook.washburn.edu>

Students who choose to have their email forwarded to a private (unofficial) email address outside the official university network address, do so at their own risk. The University is not responsible for any difficulties that may occur in the proper or timely transmission or access of email forwarded to any unofficial email address, or related issues. It is the student's responsibility to ensure that the official Washburn e-mail box does not exceed the message quota resulting in the inability of e-mail messages to be accepted into the mailbox.

- Office 365 training is available at <https://www.washburn.edu/its/office-365/training.html>
- An ITS Quick Start Guide (<https://washburn.edu/its/files/ITS-Quick-Start-Guide.pdf>) can be found at: <https://www.washburn.edu/its> (<https://www.washburn.edu/its/>) in the Getting Started section. This guide will give you information on account access, password management, email and calendar, online course access (D2L), wireless networks, technology support and more.

Student Success Week

Success Week is designated as the five week days preceding the first day of scheduled final examinations each Fall and Spring semester. Success Week is intended to provide students ample opportunity to prepare for final examinations. Additional information regarding Success Week can be found in Section 6 of the Faculty Handbook (<https://www.washburn.edu/faculty-staff/faculty-resources/faculty-handbook/>).

Withdrawals

A student who wishes to withdraw from a course may do so on the web when it is available for registration/enrollment. The semester registration

PIN is required to complete this process. Specific instructions will be available in the appropriate Registration Information Guide (<https://www.washburn.edu/academics/course-schedule/>).

When web registration is not available, students must complete a Schedule Change Form and submit it to the Student One-Stop (SOS) where the information will be processed and the form signed. The student will be given a copy documenting these transactions. The date of withdrawal is determined by the day the withdrawal form is processed in the Student One-Stop (SOS). Students who cannot complete the withdrawal process on campus must notify the University of their intent to withdraw by sending an e-mail to enrollment@washburn.edu using their MyWashburn account or by mailing or faxing a signed request to the Student One-Stop (SOS). To verify that the withdrawal process has been successfully completed, students should access their MyWashburn account online. The status will indicate withdrawn and the date the course was withdrawn successfully.

The responsibility for initiating and clearing withdrawal notices with the Student One-Stop (SOS) rests with the student, not the faculty. Failure to officially withdraw results in the recording of "F" grades at the end of the semester/term and responsibility for all assessed charges.

For semester courses a student may withdraw through the second week with no recorded grade. From the third through the thirteenth week a "W" is recorded for any dropped course. Beginning with the start of the fourteenth week, there are no withdrawals, and a grade will be assigned for the course.

Specific dates for withdrawal in the summer are listed in the Registration Information Guide (<https://www.washburn.edu/academics/course-schedule/>). The dates vary according to the length of session. Withdrawal procedures/regulations are the same as stated above.

Similar dates/deadlines for short term courses can be found on MyWashburn by selecting the Registration/Student Information card and clicking on the Last Day Deadline for Courses link.

Complete Withdrawal

Students may withdraw from all semester courses through their MyWashburn account until the last day to withdraw. The date of withdrawal is determined by the day the withdrawal is processed or the date the student contacts a Washburn staff member to begin the withdrawal process. The responsibility for completing the withdrawal process rests with the student. Failure to officially withdraw results in the recording of "F" grades at the end of the semester/term, and in being responsible for all assessed charges. Specific deadlines for all courses, including out-of-sequence courses, can be found on MyWashburn by selecting the Registration/Student Information card and then selecting Last Day Deadline for Courses. Students who are unable to withdraw through their MyWashburn account may email sos@washburn.edu or call the Student One Stop at (785) 670-2162. Students with holds on their account preventing them from withdrawing through their MyWashburn account should contact their academic advisor, email sos@washburn.edu or call the Student One Stop at (785) 670-2162.

Retroactive Withdrawal

There are two types of retroactive withdrawal: medical and administrative. If a student is unable to complete a semester or term for any reason, the student may withdraw from courses by the "Last Day" to withdraw from that term (see above). Medical or other extenuating

circumstances **do not change** the student's financial obligation to the University.

For withdrawals with a medical basis (physical or mental illness, injury, or trauma) after the last day to withdraw, the student must present an affidavit signed by a licensed health care provider, certifying the circumstances. To be eligible for a medical retroactive withdrawal, students must apply within one calendar year from the end of the semester for which they are requesting a withdrawal. Medical retroactive withdrawals are approved by the Provost/VPAA or their designee.

Administrative retroactive withdrawals based on extenuating circumstances other than medical require a personal statement regarding the nature of the extenuating circumstances necessitating the withdrawal. Corroborating documentation may be required.

Administrative retroactive withdrawals are considered by an administrative retroactive withdrawal committee. To be eligible for an administrative retroactive withdrawal, students must apply within one calendar year from the end of the semester for which they are requesting a withdrawal.

Applications for medical or administrative retroactive withdrawal are found at <https://www.washburn.edu/student-life/policies-forms/forms/index.html> (<https://www.washburn.edu/student-life/policies-forms/forms/>). Based on an approved request, the student will be withdrawn from all relevant courses and will receive a "W" on their transcript for those courses. There will be **no refund** for this procedure. Only withdrawals processed during the published refund schedule generate any refund of tuition.

Military Withdrawal

Students who are called to military active duty and must withdraw from classes as a result should contact the Military Transitions Coordinator or Veterans Certifying Official prior to deployment at militarybenefits@washburn.edu. The Vice President for Enrollment Management requires that the student submit a copy of the military orders and a written request to withdraw. Those items are forwarded to the University Registrar for complete withdrawal.

Major/Minor/Progress

Declaring/Changing A Major or Minor

In order to ensure the early and proper selection of a field of concentration, students seeking a baccalaureate degree are required to file a declaration of major by the time they have completed 60 hours. Candidates for the associate degree must file the declaration of major at the completion of 30 credit hours. A student is free to change majors at any time, or to add a second or third major. To declare or change a major or minor a student must visit their academic advisor who will electronically submit the declaration(s) of program to the University Registrar's Office via the Declaration of Program system.

Declaring an Optional Minor

Students may complete a minor area of study from a discipline other than his/her major degree field. Such a minor is optional and not to be confused with any department's required minor. A minor will consist of no less than 15 hours in one discipline as specified by the department. A minimum of 6 hours must be at the upper division level. Students must have a grade of C or better in each course in the optional minor. The course content of the minor is selected in consultation with an advisor in the minor department or program. Prior to graduation, the department or

program chair must certify the completion of the minor to the University Registrar's Office.

Monitoring Progress Toward Degree Completion

Students are expected to monitor their progress toward degree completion periodically throughout their tenure at Washburn University by conducting online degree audits through their MyWashburn account, located on the Degree Progress Card. If potential problems are identified (e.g., missing transfer work, unposted course substitutions, etc.), students should meet with their advisors as soon as possible to resolve these issues in a timely fashion.

Degrees

Degree Conferment

Washburn University confers degrees three times a year to students who have met all requirements as of the last day of final examinations for each semester/term: Fall semester, Spring semester, and the Summer term. The summer term is comprised of several sessions or short courses, but the degree will be conferred at the end of the term. All work not completed by the last day of finals for each semester/term will result in a graduation date of the following semester/term. If a previous "incomplete" has not been finalized, it may be a later semester/term. If a student is concurrently enrolled at another institution and intends to use the work to complete graduation requirements at Washburn, an official transcript from the institution must be received within two weeks of Washburn's last final examination date of the graduating semester/term in order to have the degree conferred in that same semester/term.

The University holds commencement ceremonies twice a year, at the end of the Fall and Spring semesters. Students who are scheduled to complete final requirements for a degree during the following Summer term may be permitted to participate in the Spring commencement. Such candidates must have submitted an Application for Graduation located on the Graduation and Beyond card on MyWashburn. Additional information and ceremony details can be found at <https://www.washburn.edu/student-life/commencement/index.html> (<https://www.washburn.edu/student-life/commencement/>).

Application for Graduation

Students planning to complete an Associate, Baccalaureate, Master degree, Doctorate or a Certificate must submit an online Application for Graduation located on the Graduation and Beyond card on MyWashburn in order to initiate a graduation check. The graduation check will be completed early in the semester/term in which the student plans to graduate. The online application should be submitted in September for the Fall semester and in February for the Spring semester and Summer term (see the academic calendar for the exact dates). A student is not a candidate for degree until the student has submitted the online Application for Graduation. Students who do not graduate in the semester/term for which they have applied, must contact the University Registrar's Office via audits@washburn.edu to update their semester/term of graduation. Hard copy Application for Degree Forms will be available in the Student One Stop (SOS) or online by accessing www.washburn.edu/registrar/ (<http://www.washburn.edu/registrar/>) for those students whose academic programs or registration status preclude them from participating in the online process (for example if they are not able to declare their degree/certificate).

Posthumous Degree

Upon the recommendation of the deceased student's major department or school, and upon approval of the Dean of the College or School, the Vice President for Academic Affairs, the President, and the Board of Regents, a degree may be awarded posthumously provided that the student:

- Was in good academic standing at the time of death, and,
- Unless exceptional circumstances exist, had achieved senior status, if the student was enrolled in a baccalaureate degree program; or
- Was within one semester of completion, if the student was enrolled in an associate degree program; or
- Was in the final year, if the student was enrolled in a graduate degree program.

Student Records

Policy, Procedure, and Records

Washburn University maintains various student records to document academic work and to record interactions with University staff and officials. The Family Educational Rights and Privacy Act of 1974 (FERPA) was enacted to protect each student's right to privacy and to provide each student the right to inspect and review his/her education records. This Act is also commonly known as the Buckley Amendment. A notice of this policy is published each semester/term in the Registration Information Guide and by email each semester to all students. For purposes of FERPA, "student" is defined as an individual who is or has been in attendance at Washburn University. At the University, an individual is considered "in attendance" on the day classes begin of the term a student is first enrolled.

Directory Information

In accordance with the Family Educational Rights and Privacy Act of 1974 (FERPA), the University may release to the general public certain information about the student which has been identified by the institution as directory information. The following items are considered directory information at Washburn University: student's name, photo, current address and phone number, permanent address and phone number, university assigned e-mail address, classification status (i.e. freshman, sophomore, etc.), major field of study, dates of attendance, honors and awards received, degrees and certificates received and dates awarded, enrollment level and status (full-time, half-time, less than half-time, undergraduate or graduate), most recent educational institution attended, participation in officially recognized activities and sports and height and weight of members of athletic teams.

Students may "opt out" of the disclosure of directory information by completing a form in the Student One-Stop (SOS). If a student "opts out", the University will not disclose directory information without the student's written consent. The "opt out" will remain in effect until the student submits a written revocation.

Types, Custodians and Locations of Education Records

With the exception of Directory Information as described above, student records are considered to be confidential. Only the custodians of the records, their designee, or their director/dean/vice president to whom that person reports has the authority to release the record. The following is a

list of the types of records that the University maintains, their custodians, and their locations.

1. (Official) Academic Records: University Registrar, Morgan Hall 102B
2. Academic Records: Deans of Schools/College and/or Departmental Offices, Specific Locations listed in the Campus Directory
3. Academic Impropriety Records: Vice President for Academic Affairs Office, Bradbury Thompson Alumni Center 200
4. Admissions Records: Director of Admissions, Morgan Hall 100
5. Business Records: Bursar, Morgan Hall 103B
6. Career Services: Director of Career Engagement, Plass Learning Resources Center 219
7. Testing and Placement Records: Center for Student Success and Retention, Plass Learning Resources Center 315
8. Financial Aid Records: Director of Financial Aid, Morgan Hall 103K
9. International Student Records: Plass Learning Resources Center 220
10. Medical Records: Director of Student Health Services, Morgan Hall 140
11. Residence Hall Records: Director of Residential Living, Living Learning Center
12. Student Disciplinary Records: Student Life Office, Morgan Hall 240D
Traffic and Security Records: Chief of Police, Morgan Hall 135
13. Veteran Records: University Registrar's Office, Morgan Hall

Student Access to Education Records

Students may inspect, review and/or receive copies of their education records upon written request to the appropriate record custodian with the exceptions noted below. The written request submitted to the record custodian or appropriate University staff should identify as precisely as possible the record or records he or she wishes to inspect. The record custodian or appropriate University staff must comply within a reasonable period of time, not to exceed 45 days from the receipt of the request. Copies of records accessible to the student will be provided at the student's expense. The charge to the student for any such records is 25 cents per page.

When a record contains information about more than one student, the student may inspect and review only the records which relate to him or her. If any question arises as to the identity of the requesting student, the student shall be asked to provide photo identification.

Washburn University reserves the right to refuse to permit a student to inspect or have access to the following records:

1. The financial statement of the student's parents.
2. Letters and statements of recommendation for which the student has waived his or her right of access, or which were placed in file before January 1, 1975.
3. Records connected with an application to attend Washburn University or a component unit of Washburn University if that application was denied.
4. Medical and counseling records. These records may be released, however, to other medical or psychological professionals at the written request of the student; and may be inspected by the patient at the discretion of the professional staff.
5. Law enforcement records.
6. Private notes of staff, faculty, and administrators.
7. Official transcripts of credit earned at other institutions which have been presented for admission or evaluation of credit and have become a part of the student's permanent record are not reissued or copies duplicated. Transcripts from other institutions, including the high school transcript and test scores, should be obtained from the original institution.
8. When a student is delinquent in a financial account to the University, has incomplete admission credentials, or about whom official disciplinary action has not been resolved, the appropriate university official may request that the student's record not be released. The effect of this action is that grade reports, transcripts, and diplomas/certificates are not released. In addition to these documents not being released, registration and enrollment at Washburn in subsequent semesters is not permitted.

Disclosure of Education Records or Personally Identifiable Information

The University will obtain written consent from the student before disclosing records or personally identifiable information from education records of the student, except in the cases of:

1. Directory Information, unless a student "opts out," as defined and explained above.
2. School officials who have a legitimate educational interest in the records. A school official is:
 - a. A person employed by the University in an administrative, supervisory, academic or research or support staff position.
 - b. A person employed by or under contract to the University to perform a special task, such as an attorney or auditor.
 - c. A student serving on an official committee, such as disciplinary or grievance committee.
 - d. A student employed by the university (through financial aid or departmental/administrative office) who assists another school official in performing his or her tasks.
 - e. A person serving on the Board of Regents.
3. A school official has a legitimate educational interest if the need to review an education record is in order to fulfill his or her professional responsibilities for the University.
4. Officials of another school, school system, or institution of post secondary education where the student seeks or intends to enroll, or where the student is already enrolled as long as the disclosure is for purposes related to the student's enrollment or transfer.
5. Authorized representatives of the Comptroller General of the U.S., Attorney General of the U.S., the Federal Secretary of Education, or state or local education authorities in connection with an audit of federal or state-supported education programs or with the enforcement of or compliance with federal legal requirements relating to those programs.
6. Financial aid personnel in connection with a student's application for or receipt of financial aid as necessary to determine the eligibility, amount, or conditions of the financial aid, or to enforce the terms and conditions of the aid.
7. Organizations conducting certain studies for or on behalf of the University.
8. Accrediting organizations to carry out their functions.
9. Parents of an eligible student who claim the student as a dependent for income tax purposes.
10. Authorities to comply with a judicial order or a lawfully issued subpoena.

11. Appropriate parties in a health or safety emergency if necessary to protect the health or safety of the student or other individuals.
12. The final results of any disciplinary proceeding conducted by the University to the alleged victim of a crime of violence or non-forcible sex offense.
13. To the student him-or herself.
14. To a court in the context of a lawsuit between a student and the institution.
15. To parents of a student under 21 of a drug or alcohol violation.
16. The final results of a disciplinary proceeding against a student whom the University has determined violated an institutional policy of an alleged crime of violence or non-forcible sex offense.
17. Information about sex offenders or other individuals required to register.
18. University Police Personnel shall have access to student class schedules in an emergency situation.
 - a. University Police Personnel will attempt to verify the identity of the person requesting information and the emergency situation. The class schedule will not be released to the requesting individual but a police officer will attempt to contact the student directly.
 - b. A record of each disclosure request must be made and maintained. The record should include the name and address of the requestor, date and time of request, and the nature of the emergency situation. These records of requests are considered part of the student's educational record.

Notice to Third Parties

The University must inform the parties to whom a student's education record or personally identifiable information is given that they are not permitted to disclose that information to another person (third party) without the written consent of the student and that the information is to be used only for the purpose(s) intended. Persons who receive a student's education record or personally identifiable information about the student may disclose such information to other persons only if the name of the additional persons and the legitimate interest of such persons is provided as a part of the original request.

Maintaining Education Records and Records of Requests and Disclosures

Each office that maintains education records shall adopt its own policy with regard to destruction of education records. No education record, however, may be destroyed if there is an outstanding request to inspect and review the record. Also, the record of requests for the disclosures of the education record and any explanation that are a part of the record must be maintained for as long as the education record to which it pertains is maintained.

Washburn University officials responsible for the various types of records will maintain a record of all requests for disclosure of information from a student's education records. The record will indicate the name of the party making the request, any additional party to whom it may be redisclosed, and the legitimate interest the party had in requesting or obtaining the information. The record of request is open to inspection of the student.

Records of requests and disclosures may not be maintained or may be maintained for only a limited time for:

1. requests made by the student him/herself;
2. requests for which the student has given written consent;
3. requests made by school officials with legitimate education interests;
4. requests for directory information; or
5. disclosures to comply with a judicial order or lawfully issued subpoena.

Student's Right to Challenge Information Contained in Education Records

Students have the right to challenge the content of an education record that they believe inaccurate, misleading, or in violation of their privacy rights. No hearing under this policy shall be granted for challenging the underlying basis for a grade; however, the accuracy of its recording could be challenged. Following are procedures for challenging the content of education records:

A student must ask the appropriate school official to change or modify the record by identifying the part of the record they want changed and specify why the information is inappropriate.

After researching the request, the Washburn University official may comply with the request and make the changes wanted in a reasonable time. If the school official decides not to comply, the student will be notified in writing of the decision and advised of his/her right to a hearing to challenge the information believed to be inappropriate.

All requests for a formal hearing by the student shall be directed to the appropriate Area Head and shall contain a concise written statement of the specific facts constituting the student's claim.

The **hearing will be conducted by a hearing officer** who is a University staff member but who does not have a direct interest in the outcome of the challenge and who shall be appointed by the appropriate Area Head or his/her designee. The hearing shall be held within a reasonable time of receipt of the student's request and the student shall be notified reasonably in advance by the hearing officer of the date, place and time of the hearing.

At the hearing, the student shall be afforded a full and fair opportunity to present evidence relevant to his/her claim and may, at his or her expense, receive assistance from any individuals of his/her choice.

The hearing officer shall make a written recommendation to the appropriate Area Head with written findings of facts concerning the student's request within ten working days of the hearing. The appropriate Area Head or his/her designee shall notify the student in writing of the decision within an additional fourteen working days of receipt of the hearing officer's report. The decision must include a summary of the evidence and the reasons for the decisions.

If the appropriate Area Head is adverse to the student's request, the student will be notified that he/she has a right to place in the record a statement commenting on the challenged information and/or a statement setting forth reasons for disagreeing with the decision.

The statement will be maintained as a part of the student's education records as long as the contested portion is maintained. If Washburn University discloses the contested portion of the record, it must also disclose the student's summary statement.

If the student's challenge to the content of a given record is successful, the University shall amend the education record accordingly and so inform the student in writing.

Complaints

A student who believes the University has not complied with federal law or regulations should check first with the office involved or the Area Head to which it reports. If the student wishes to file a complaint with the federal government concerning the University's failure to comply with the Privacy Act, he/she may send a written complaint to:

The Family Policy Compliance Office
400 Maryland Avenue, S.W.
Washington, D.C. 20202

Questions

Questions regarding FERPA may be directed to:

The University Registrar
102 Morgan Hall
(785) 670-1074

Campus Telephone Directory Information

Listings in the online student directory are compiled from information supplied by students to the University.

- The student is responsible for updating and providing correct information for online directory listings.
- Information may be updated at any time during the year.
- The online directory listings are updated daily.
- To update online directory information, go to the Directory Information card on MyWashburn.
- Currently enrolled students may choose to withhold information from the online university directory.

Students who withhold information from the online university directory are not "opting out" of the disclosure of directory information as permitted by FERPA. Students must complete a form in the Student One-Stop (SOS) to "opt out" for that purpose.

Transcripts

A transcript is an official copy of a student's permanent academic record. Official transcripts are available from the Student One Stop (SOS). Each transcript costs \$8.00. A transcript request must be written and the fee must be paid in advance. A transcript request will not be processed for students who have financial or other obligations to the University.

Transcripts may be requested in person upon showing some form of photo identification at the Student One Stop (SOS) during regular business hours.

You may conveniently request your Washburn transcript online through the National Student Clearinghouse system from the University Registrar's Office home page at the following link (https://washburn.edu/student-life/policies-forms/forms/Transcript%20Request%20Form%20rev%201_2017.pdf). The National Student Clearinghouse transcript secure ordering system directs you through placing your order, including the delivery options and fees. You may request that your transcript be a

paper, official mailed version or an electronic, official pdf transcript to be transmitted. Order updates are sent to you via email and text messages. You can also track your transcript order online and pay for your transcript with a major credit or debit card.

Current students may also request transcripts by logging into MyWashburn and accessing the link on the University Registrar Links card.

Transcripts may also be requested through the mail. A mailed request must be sent to the Office of the University Registrar. The request should include the following information: current name and other names while attending Washburn University, student signature, identification number/ social security number, return address for receipt purposes, current phone number, date of birth, date of attendance at Washburn, the number of transcripts requested, complete and accurate addresses where each transcript is to be sent, and \$8.00 for each transcript requested paid at the time of request.

Checks should be made payable to Washburn University.

A Transcript Request form may also be obtained by printing it at www.washburn.edu/registrar (<http://www.washburn.edu/registrar/>). It may be returned to the Student One Stop (SOS) by mail, fax, or in person by following the relative procedures described in this section.

Definition of Student Credit Hour

Washburn University conforms to the Council for Higher Education Accreditation (CHEA) proposed definition of a student credit hour which states: "For every credit hour awarded for a course, the student is typically expected to complete approximately one hour of classroom instruction, online interaction with course material, or direct faculty instruction and a minimum of two additional hours of student work each week for approximately 15 weeks for one semester or the equivalent amount of work over a different amount of time." This credit hour definition is to be included in the Master Syllabus attached to each course syllabus. However, not all academic activities precisely match this definition (e.g., internships, student teaching, laboratory work, online courses, study abroad, and independent study). In such credit-bearing activities, the amount of student work required per credit hour will match as closely as possible the standard definition as defined above.

1. Internship/Externship/Practicum

1 Credit Hour = A minimum of three hours per week engaged in the supervised field placement for 15 weeks or equivalent over the course of a term for the average student.

2. Independent Study

1 Credit Hour = Meet with faculty member and/or engage in related academic activity for 3 hours per week for 15 weeks or equivalent over the course of a term for the average student.

3. Study Abroad

Students who enroll for semester- or year-long study abroad experiences are awarded credit based on the standard definition of a credit hour provided by CHEA.

4. Faculty-Led Travel Course

A faculty-led travel course is a credit-bearing course in which the majority of the academic work is accomplished through group study and travel external to the Washburn University campus. Normally, short-term programs are arranged for 1 to 3 credit hours. Typical activities included in determining the credit hours awarded for faculty-led travel courses are: pre-trip academic and cultural awareness sessions; on-site formal/structured learning; immersion

activities; cultural interactions; group and individual reflection activities; student presentations; and service learning projects. Determination of the number of credit hours granted is based on the standard definition of a student credit hour espoused by the university (completion of approximately one hour of classroom instruction, online interaction with course material, or direct faculty instruction and a minimum of two additional hours of student work each week for approximately 15 weeks for one semester or the equivalent amount of work over a different amount of time).

5. **Online/Hybrid Class**

Online and hybrid courses must meet the same credit hour requirements as face-to-face courses. Online and hybrid courses must account for a minimum of 3 hours per week per credit hour for 15 weeks or equivalent over the course of a term for the average student. Course hours should involve faculty-led activities and engagement pertinent to the content of the course. Outcomes and assignments across multiple modes of teaching must be equivalent.

6. **Laboratory Course**

1 Credit Hour = A minimum of two (2) class hours of work each week in a laboratory under the supervision of a lab supervisor/instructor and an expectation of one (1) class hour of additional out-of-class student work each week.

7. **Credit for Prior Learning**

Credit for Prior Learning is awarded in accordance with the HLC criteria for accreditation, American Council on Education (ACE) and the Council for Adult and Experiential Learning (CAEL) Standards, and the CPL quality check list as recommended in the Kansas Credit for Prior Learning Guidelines (November, 2022)

Note: As studio and ensemble work varies between fine art disciplines, assignment of credit hours should be according to discipline standards and/or accreditation criteria while meeting the main CHEA standard adopted by the University.

Grade Reports

At the end of the Fall and Spring semesters and the early, late, and full sessions of the Summer Session, final grades are submitted by instructors via the web. The grades become a part of the student's permanent record. Grades will be made available for viewing on the web after the University Registrar's Office completes the end of semester/session processing. Grades will not be mailed nor can they be secured by phone. Students may print their screen to have a written copy of their grades.

Information on graduation and retention rates may be requested from the Strategic Analysis, Research, and Reporting (SARR) office via email at SARR@washburn.edu. For more information, please visit the SARR (<https://www.washburn.edu/about/facts/institutional-research/>) website.

Diplomas

Diploma Distribution

Diplomas are available approximately two months after each semester/term concludes. The Office of the Registrar mails, upon completion of degree requirements, one complimentary diploma. Diplomas are mailed to the address provided at the time the student applied to graduate. Diplomas are not issued if the student has outstanding financial obligations to the University.

Diploma Replacement

A diploma is replaced providing a request is made in writing. The Diploma Replacement request is located at www.washburn.edu/registrar (<http://www.washburn.edu/registrar/>). The replacement processing fee is \$30.

Diploma Designations

Majors and minors are not designated on the diploma; however, they are reflected on the transcript. If a student adds a major/minor to a degree after the diploma is issued, the additional designation will be reflected on the transcript. An additional diploma will not be issued. Only Latin honors (Summa Cum Laude, Magna Cum Laude, and Cum Laude) are designated on bachelor degree diplomas. In addition to Latin Honors, Stoffer Honors, Departmental and School Honors, University Honors and Bonner Scholar honors are only posted on the transcript.

Credit for Prior Learning

Recognizing that individuals gain knowledge outside a traditional postsecondary environment, Washburn University maintains a comprehensive Credit for Prior Learning (CPL) program. CPL may take the form of postsecondary credit or advanced standing toward further education. Postsecondary level credit is the optimal outcome. The University may grant credit through national/international examinations, university department examinations, and/or prior military training. To gain additional information regarding CPL, students should contact the Center for Prior Learning and Testing (<https://www.washburn.edu/academics/center-student-success/testing/>).

Students must be either currently enrolled at Washburn University or former students of Washburn University in order to have credit awarded and posted to their transcripts. Specific information about the different types of examinations is provided below.

National Examinations

College Entrance Examination Board (CEEB): Advanced Placement Examinations

The Advanced Placement exams are prepared, scored and reported by the College Entrance Examination Board. Students should seek information and obtain registration materials through appropriate high school counselors or other secondary school officials.

This program is designed for high school seniors planning to enter college and is administered in conjunction with Advanced Placement courses taught in the high schools. The scores are reported to the University by CEEB. Appropriate credit or advanced placement is awarded at the time of enrollment in the University. When credit is awarded it may be applied to meet degree requirements. When advanced placement is awarded, a student is advanced to a higher level college course without being required to take a lower level prerequisite. Depending on departmental policy and the examination scores which are achieved, an academic department may award either credit or advanced placement or both to a student. No entry is made on the college transcript for scores which are lower than those determined to be satisfactory by the Washburn academic departments.

Students may have Advanced Placement test scores obtained in high school reported to the University for evaluation. Credit and/or advanced placement are awarded to students who have received a score of three (3), four (4), or five (5). Currently a student may be awarded college credit hours in the subjects listed below as follows:

International Baccalaureate (IB) Diploma Program

Washburn University recognizes the International Baccalaureate (IB) Program. Students should seek information and obtain registration materials through appropriate high school counselors or other secondary school officials. This program is designed for high school juniors and seniors planning to enter college and is administered in conjunction with International Baccalaureate courses taught in high schools.

At the time of enrollment in the University, official transcripts should be forwarded to the University Registrar in order to receive appropriate credit. Credit is awarded on a course-by-course basis by academic departments depending on departmental policy and the examination scores which are achieved. No entry is made on the college transcript for scores which are lower than those determined to be satisfactory by the Washburn academic departments.

- ² May count for general education credit except for Bachelor of Arts degree. This exception for the Bachelor of Arts degree does not apply to students who transfer such credit in from other regionally-accredited institutions.
- ³ The 3 hours of CM 299 Special Topics/CIS will be Software Lifecycles.
- ⁴ AR 103 Introduction to Art will be awarded to art minors and non-art majors; Art Studio elective will be awarded to art majors and art history minors.

DSST Testing

Students can obtain information for certain subjects then take a standardized test to receive college credit through DSST examinations. Students cannot earn DSST exam credit for a course that has been previously attempted or completed at Washburn or a transfer institution. (A course that appears on a college transcript or a course in progress is considered an attempted course.) If a DSST examination is attempted and not passed, a students must wait 30 days before retesting.

Credit for DSST examinations are awarded as credit. However, the score identified as passing should be interpreted as equivalent to a grade of C or better. Therefore, DSST credit can be awarded for any course requiring a grade of C or better. This credit is considered transfer credit and may be treated as a prerequisite for subsequent courses. There is no record made on the academic transcript for those students who are not awarded credit. Each school or department within the university has different curriculum requirements and may use the scores in different ways.

Veterans and active military personnel are particularly encouraged to take advantage of DSST exams. Military service members may be eligible to have their DSST exam fee funded through the DANTES program. For more information visit http://getcollegedcredit.com/test_takers (http://getcollegedcredit.com/test_takers/).

In order for Washburn University to accept as transfer credit DSST exam credit awarded at another postsecondary institution, official university transcripts must be submitted to Washburn. Depending on the institution awarding the credit, students may need to submit an official DSST transcript to Washburn University.

Official DSST transcripts can be ordered by visiting this website: https://www.getcollegedcredit.com/scores_transcripts/. For DSST transcript inquiries call 1-877-471-9860. To schedule a DSST Examination at Washburn University, contact the Center for Prior Learning and Testing. Washburn University awards credit for the following DSST examinations:

College Level Examination Program (CLEP)

Washburn University allows you to test out of courses in which you already have academic knowledge comparable to that gained in collegiate study. A national credit by examination opportunity is available at the university: the College Level Examination Program (CLEP). CLEP examinations measure knowledge of the material usually covered in courses during the first two years of college. Students cannot earn CLEP credit for a course previously attempted or completed at Washburn University or a regionally accredited postsecondary institution. (A course that appears on a college transcript or a course in progress is considered an attempted course.) If a CLEP examination is attempted and not passed, a student must wait 90 days before retesting. Credit for CLEP examinations are awarded as credit. However, the score identified as passing should be interpreted as equivalent to a grade of C or better. Therefore, CLEP credit can be awarded for any course requiring a grade of C or better.

This credit is considered transfer credit and may be treated as a prerequisite for subsequent courses. There is no record made on the academic transcript for those students who are not awarded credit. Each school or department within the university has different curriculum requirements and may use the scores in different ways.

Veterans and active military personnel are particularly encouraged to take advantage of CLEP exams. Military service members may be eligible to have their CLEP exam fee funded through the DANTES program. For more information visit <https://clep.collegeboard.org/earn-college-credit/military-benefits> (<https://clep.collegeboard.org/earn-college-credit/military-benefits/>).

Official CLEP scores can be ordered by contacting:
CLEP
Box 6601

Princeton, N.J., 08541
800-257-9558, (Washburn code 6928)

In order for Washburn University to accept as transfer credit CLEP exam credit awarded at another postsecondary institution, official university transcripts must be submitted to Washburn. Depending on the institution awarding the credit, students may need to submit an official CLEP transcript to Washburn University.

The CLEP scores listed are for exams taken through computer-based testing (CBT) only. Contact the Center for Prior Learning and Testing regarding scores for exams taken before July 2001. To schedule a CLEP Examination at Washburn University, contact the Center for Prior Learning and Testing.

Washburn awards the following credit for CLEP (through computer-based testing) exams:

Cambridge International Education

Washburn University recognizes the Cambridge International Advanced Subsidiary (AS) and Advanced (A) Levels. In order to receive appropriate credit, official transcripts should be forwarded to the University Registrar. Credit is awarded on a course-by-course basis by academic departments depending on departmental policy. The table below provides information on Cambridge International AS and A level courses that are currently recognized for college credit by Washburn academic departments. Credit for other courses may be awarded upon request by a student, after consultation with the relevant academic department(s).

Subject	Syllabus Code	Award	Hours	Gen Ed
Biology	9700	A-Level: BI 192 and BI 194	10	KSNS or KSSR (BI 192 only)
Business	9609	A-Level: BU 101	3	
Chemistry	9701	A-Level: CH 151	5	KSNS or KSSR
Economics	9708	AS-Level: EC 100	3	KSSS or KSSR
		A-Level: EC 200 and EC 201	6	KSSS or KSSR
Physical Education	9396	A-Level: KN 300 and KN 311	6	
Math	9709	A-Level: MA 123	3	KSMA
Physics	9702	A-Level: PS 281 and PS 282	10	KSNS or KSSR (PS 281 only)

University Department Exams

When a student identifies a course which they feel qualified to "challenge" or "quiz out of," the student should contact the chair of the department offering that course to determine whether a department examination could be accepted. If the academic department gives approval for the

student to quiz out of a specific course, the student obtains a Credit by Examination registration form from the Student One Stop. The Student One Stop determines that the student is either currently enrolled or a former student who is not currently enrolled in the challenged class and is free of all holds. The student completes the credit by examination registration form and obtains department signatures as required on the form. The student then takes the form to the Business Office to pay the standard testing fee for the exam. After payment is made, the student returns a copy of the form to the Student One Stop. The student takes the copy which has been marked "paid" to the department at the scheduled time of the examination. Under no circumstances will the examination be administered prior to payment. No refunds will be given for exams not taken or not passed.

After the student has taken the exam, the department evaluates it and determines whether or not the student receives credit and submits the grade to the Student One Stop. If the department determines that credit is to be awarded, credit for the course is posted to the transcript by the Registrar's Office. If the department determines based on the exam that credit should not be awarded, no entry is made to the transcript. If the course is taken to fulfill requirements in a major, a letter grade for the course may be determined by the department and posted on the transcript. The exam may not be repeated; a student may not take a department exam for any course more than once. Credit by department examination may not be used to repeat courses previously taken by the student. Credit given by department examination is considered residential credit.

Transferring CPL from Another Institution

Credit for Prior Learning awarded by all accredited institutions of higher education is evaluated in the same manner as regularly graded coursework from these institutions. The credit awarded is adjusted to the CPL policies of Washburn University. Every attempt is made to ensure that credit for prior learning applies to both a student's degree program and university requirements for graduation.

CPL Limits

There is no overall cap on Credit for Prior Learning that can be earned at Washburn University. The amount of CPL may be limited by the student's need to meet all University and departmental requirements for graduation.

Credit Granted for Military Service

Credit awarded for military service is based upon the recommendations of the Commission on Accreditation of Service Experiences which was appointed by the American Council on Education. Credit will be granted to all military personnel in accordance with the recommendations of the ACE Guide to the Evaluation of Educational Experiences in the Armed Services. Students should provide their military transcripts by clicking the link www.acenet.edu/news-room/Pages/Transcripts-for-Military-Personnel.aspx (<http://www.acenet.edu/news-room/Pages/Transcripts-for-Military-Personnel.aspx>).

Army, Coast Guard, Marine Corps, and Navy, Active Duty, Reserve and Veterans are eligible to access this system. Please follow directions under Military Transcripts. Air Force transcripts can be requested through the Community College of the Air Force or Air University, using the same link.

Military credit is subject to the same limitations as regular transfer credit, i.e. technical credit limits and no credit awarded for course duplications.

For more information and to secure forms for making application, students should contact the Office of the University Registrar.

Seal of Biliteracy

The Seal of Biliteracy is awarded to recognize students who attain proficiency in English and at least one other language prior to their high school graduation. Washburn University will award academic credit to students who obtain the Silver or Gold Seal of Biliteracy. A student who receives the Silver Seal of Biliteracy will receive credit for SP/FR/FL 101 (4 credit hours), as appropriate. Credit for both SP/FR/FL 101 and SP/FR/FL 102 (8 credit hours total) will be awarded to students who receive the Gold Seal of Biliteracy.

Students that receive a Silver or Gold Seal of Biliteracy in American Sign Language, and are completing a program that includes a foreign language requirement, should complete a culture course in Modern Languages, taught in English, to meet the foreign language requirement.

Grading System

Grades and Grade Points

Symbols used in grading:

Grade	Description	Grade Points
A	Excellent	4
B	Well above average	3
C	Average	2
D	Below average but passing	1
F	Failure	0
AU	Audit	0 ¹
CR	Credit only-letter grade C or better	0 ¹
I	Incomplete	0 ¹
NC	No credit	0 ¹
IP	In Progress	0 ¹
NR	Not recorded	0 ¹
P	Credit only-letter grade of D	0 ¹
W	Withdrawn	0 ¹
S	Satisfactory	0 ¹
U	Unsatisfactory	0 ¹

¹ Not included in grade point average

A/Credit/Pass/Fail Option

Under certain circumstances, undergraduate students have the option to elect to enroll in a course for a grade or for A/Credit/Pass/Fail. A student may enroll in only one A/Credit/Pass/Fail course per semester. Courses in a student's program cannot be taken for A/Credit/Pass/Fail without written permission from the appropriate department chair or dean on file in the Student One Stop (SOS).

If the student earns an A in the course, this is recorded on the transcript. If the student earns a grade of B, C, or D this is recorded as CR (earned grade of B or C) or P (earned grade of D) on the transcript, and is not included in the student's cumulative grade point average. If the student

fails the course, a grade of F is recorded, and this grade is included in the student's cumulative grade point average. Students must present a minimum of 84 graded hours (i.e., hours in which an A/B/C/D, or F was received) for graduation with a Bachelor's degree, or a minimum of 42 graded hours for an Associate's degree.

Subject to the provisions above, a student may elect graded or A/Credit/Pass/Fail status for a course at any time during the period in which that student may elect to withdraw from that course. Please see the academic calendar at www.washburn.edu/academics/academic-calendar-files/index.html (<https://www.washburn.edu/academics/academic-calendar-files/>) for specific deadline dates.

Certain courses may not be taken for a grade, but may only be taken pass/fail. The above policy does not pertain to such courses.

Repetition of Courses

Undergraduate courses may be repeated. Courses for which grades of Ds and Fs are recorded can be retaken without departmental approval; courses for which a grade of C, or credit, or higher are recorded will require departmental approval prior to registration. The transcript will contain a complete record of all courses taken and grades earned. The repeated will be included in determining the cumulative grade point average, the original grade will not be included. After a student has repeated the same course three times, or has repeated three different courses, that student must have the permission of his/her academic dean before repeating any course.

Awarding "Incomplete" Grades

The letter "I" indicates "incomplete work" which may be completed without repetition of the course. The incomplete will not be used when a definite grade can be assigned for the course. It will not be given for the work of a student in any course except to indicate that some part of the work, for good reason, has not been completed, while the rest of the work has been satisfactorily completed. The student must have completed three-fourths of the course requirements satisfactorily to be assigned an incomplete. The incomplete grade is used only when in the opinion of the instructor there is the expectation that the work will be completed.

The instructor provides the list of remaining requirements to the student and Department Chairperson. When the requirements are met and evaluated, the instructor submits the grade to the University Registrar's Office and the "I" is replaced by the grade.

Unless an earlier deadline is stipulated by the instructor of the course, the incompletes in courses must be completed by the last day of classes and grades submitted to the University Registrar Office by the deadline of grade submission of the subsequent Spring semester for Fall incompletes or the subsequent Fall semester for Spring and Summer incompletes; otherwise a grade of "F" will be recorded.

The above procedure applies to undergraduate courses. The Incomplete grade policy for graduate courses and programs can be found in the graduate catalog. Students transferring to Washburn with "Incompletes" on their transcripts will have the courses designated with an "NC" instead of an "I." Transfer students may have the designation changed by an officially revised transcript from the originating institution or by repeating those courses in accordance with the Washburn University repeat policy.

Classification

- An entering student with fewer than 30 semester hours of accumulated credit is classified as a Freshman.
- To be classified as a Sophomore, a student must have between 30 and 59 semester hours of college credit.
- To be classified as a Junior, a student must have between 60 and 89 semester hours of college credit.
- A student who has at least 90 semester hours of college credit is classified as a Senior. Graduate students are those who have been formally admitted to a graduate program. Law students are those who have been formally admitted to the School of Law.

Course Numbering System

Generally, it is recommended students take lower level courses (courses numbered 100-299) when they are freshman and sophomores and complete upper level courses (courses numbered 300-499) when they are juniors and seniors. Students should work with their advisors to determine the appropriate sequencing of courses, including whether it may be necessary to begin taking upper-level courses beginning in the sophomore year to complete a degree program in four years. If a course is listed in the catalog as specifically requiring junior level standing in the prerequisite, students may register for the course during the semester in which they will achieve junior level rank, provided they have enrolled in sufficient lower division courses during that same semester to meet the requirements of junior rank.

Exceptions to the classification requirement may be made by the course instructor, chair, or dean. Completion of forty-five hours of upper level courses (courses numbered 300-499) is required for any baccalaureate degree. Courses numbered 400-499 are also open to graduate students. Courses numbered 500-599 are considered graduate coursework but may not count toward the 30 hour minimum for a Masters degree.

Honors

Washburn has a variety of means to provide proper recognition for successful application to college work and several programs to encourage highly motivated and talented students to undertake work at the honors level.

Latin Honors

Any student seeking a Bachelor's degree who has met degree requirements by completing only Washburn coursework and by achieving a cumulative grade point average of:

- 3.4-3.59 receives a degree cum laude.
- 3.6-3.79 receives a degree magna cum laude.
- 3.8-4.0 receives a degree summa cum laude.

Students who have transfer coursework from any other university/college will have the following procedures applied in calculating honors. If the student does not have a baccalaureate degree from another university/college, the cumulative grade point average of the transferable coursework will be used in calculating honors. If the student has a degree from another university/college, the cumulative grade point average for the entire degree will be used in calculating honors. In either category, the honor awarded to a student with transfer coursework will be determined by the **lower** of the following two grade point averages:

1. the overall (degree or transferable coursework GPA combined with the Washburn coursework GPA), and
2. the Washburn coursework only.

Students with transfer coursework must have completed a minimum of 24 graded hours at Washburn University to qualify for a degree with honors. Latin honors are awarded for baccalaureate degrees only. All majors completed during a single degree will be used in calculating honors. Any additional major acquired after the original degree is awarded will not be used in recalculating Latin honors for that degree.

Dean's Honor Roll

Students whose grade point average for the semester is equivalent to 3.4 or better are honored by having their names placed upon the Dean's Honor Roll and they are so notified by the Dean of the appropriate college or school. The completion of a minimum of 12 Washburn semester hours taken for letter grades is required.

President's Honor Roll

Students whose grade point average is 4.00 for the semester are honored by having their names placed upon the President's Honor Roll and they are so notified by the President. The completion of a minimum of 12 Washburn semester hours taken for letter grades is required.

Grade Appeal Procedure

The following grade appeal procedure applies to the College and the Schools, not the School of Law. The obligation of the instructor to evaluate the performance of students on sound academic grounds is basic to the formal education process. A student who believes the grade awarded by an instructor is based upon reasons other than the student's academic performance may appeal the grade received in a course. Students utilize the procedure outlined below to appeal the grade unless a student believes the grade was awarded based on illegal discrimination on the basis of race, color, religion, age, national origin, ancestry, disability, sex, marital or parental status or sexual orientation/gender identity. Appeals based upon complaints of discrimination follow the University's procedure for complaints of discrimination (eodirector@washburn.edu).

Consultation with the Faculty Member

A student must first attempt to resolve the dispute concerning the final grade received in a course through consultation with the instructor of the class. Such consultation normally shall take place following award of the grade but in no event shall such consultation take place later than the fourth week of the next regular academic semester following the award of the grade. In the event the course instructor is no longer at the University or is on a leave of absence during the semester following the contested grade or the instructor has refused to consult with such student, the student may proceed to the next stage, which is mediation by the Department Chair (where such exists). If no Department Chair exists, the next stage is mediation by the Dean of the College or School in which the course was offered.

Mediation by the Department Chair

If the student is dissatisfied with the result of the consultation with the instructor or the student has been unable to meet with the instructor because of the instructor's refusal to meet or absence, the student may seek mediation of the matter with the Department Chair in the unit in which the course was offered. The Department Chair must be notified in

writing by the student of the intention to continue the appeal process. Such notification must be received within 10 working days of the day on which the student/instructor consultation has been completed. The process shall be terminated if notification is not received within 10 working days. The instructor shall make available to the Department Chair all of the materials and criteria which entered into the determination of the student's final grade in the course. The student shall provide the Department Chair, in writing, the grounds for contesting the grade by the instructor. After receiving and reviewing these materials, the Department Chair shall meet with the student and the instructor, either jointly or separately, to attempt to mediate the dispute about the contested grade.

Mediation by the Dean of the College or School in Which the Course was Offered

If the student is dissatisfied with the result of the consultation with the instructor and with the Department Chair (where appropriate) or the student has been unable to meet with the instructor because of the instructor's refusal to meet or absence, the student may seek mediation of the matter with the Dean of the College or School in which the course was offered. The Dean must be notified in writing by the student of the intention to continue the appeal process. Such notification must be received within 10 working days of the day on which the student/Department Chair consultation has been completed. The process shall be terminated if notification is not received within 10 working days. The instructor shall make available to the Dean all of the materials and criteria which entered into the determination of the student's final grade in the course. The student shall provide the Dean, in writing, the grounds for contesting the grade by the instructor. After receiving and reviewing these materials, the Dean shall meet with the student and the instructor, either jointly or separately, to attempt to mediate the dispute about the contested grade.

Appeal to Grade Appeal Committee

If, after mediation with the Dean as provided above, the student is still dissatisfied with the result, the student may file a notice of appeal with the Dean, which shall specify the grade requested and provide a written summary of the grounds for appeal to the Grade Appeal Committee. Such notification must be received by the Dean within 10 working days of the day on which the student/faculty member consultation was completed. The process shall be terminated if notification is not received within 10 working days.

Upon receipt of the notice of appeal, the Dean shall forward it and all materials submitted by the faculty member and student during the mediation process to the Provost and Vice President for Academic Affairs, the faculty member, and the student. The Provost and Vice President for Academic Affairs, upon receipt of the notice and materials, shall appoint and convene a committee of five persons comprised of three faculty members (at least one and no more than two members from the department/discipline from which the grade appeal originated and a minimum of one from other departments/disciplines) and two students from departments/disciplines outside the originating College/School to serve as the Grade Appeal Committee. The Provost and Vice President for Academic Affairs may request names of potential discipline-based committee members from the appropriate Dean and/or Department Chair. The awarding of grades that are fair and equitable is taken seriously by the University. Therefore, faculty members are urged to view a request to serve on a Grade Appeal Committee as an important obligation and a service to the University which should be refused only under extraordinary circumstances.

At its first meeting, the Grade Appeal Committee shall select its chairperson and set the date, time and place for the appeal to be heard, and review appeal materials from the Provost and Vice President for Academic Affairs. The committee shall advise the student and the faculty member of the hearing date. The Grade Appeal Committee may only request clarifying information related to the original documents of the appeal packet. Clarifying information requested from the student/faculty member by the committee should be requested through the Provost and Vice President for Academic Affairs. Any clarifying information gathered by the Provost and Vice President for Academic Affairs will also be shared with the student and/or faculty member.

Hearing

The hearing will take place before the entire Committee. The burden of proof rests with the student who shall, during the course of the hearing on the contested grade, be responsible for presenting evidence to support the claim. The hearing will be informal and the formal rules of evidence shall not be applicable. Oral testimony of witnesses may be presented but is not required. If either the student or the faculty member presents witnesses, he/she must provide a written summary of the testimony expected of the witness(es) to the Provost and Vice President for Academic Affairs not later than five business days prior to the date of the hearing. The Provost and Vice President for Academic Affairs will then disseminate such information to the committee and each party within three business days. The student or the faculty member may be accompanied by an advisor whose only role in the course of the hearing will be to render advice to the student/faculty member. The student is required to attend the hearing. It is recommended that the faculty member attend the hearing. Should both the student and faculty member attend, they will meet with the committee jointly. The amount of time allotted to each party will be left to the discretion of the committee. The hearing will not be audio, video, or digitally recorded.

Decision

The student will prevail only if at least four of the five members of the committee agree that the relief (grade) sought should be awarded for the reasons stated in the notice of appeal and the student's grade be changed. The committee shall report its decision in writing to the Provost and Vice President for Academic Affairs who will then disseminate the decision to the student, faculty member, Dean, and Department Chair (if applicable). The decision of the committee shall be final. If it is the judgment of the committee that the grade be changed, the Provost and Vice President for Academic Affairs shall notify the University Registrar, who will enter the changed grade.

Undergraduate Academic Probation and Reinstatement Policy

(Effective June 2015)

Students with 0 – 29 hours must maintain a 1.8 cumulative grade point average in order to be in good academic standing. Students with 30 – 59 hours must maintain a 1.9 cum GPA or higher. Students with more than 60 credit hours must maintain a 2.0 GPA or higher to be in good academic standing. Specific regulations governing students whose cumulative grade point average does not meet good academic standing have been developed.

Academic Notice

A freshman or sophomore, as determined by the student's cumulative credit hours, whose cumulative grade point average (GPA) falls below 2.00 and into the ranges below, receives a letter of Academic Notice.

Cumulative Credit Hours Attempted	Cumulative GPA Requirement
0-29	1.80 to 1.99
30-59	1.90 to 1.99

The Letter of Academic Notice will clearly state the need for students to improve their academic performance to avoid being placed on Academic Warning in a later semester. Further, it will highlight that both Associate and Bachelor degree seeking students need a minimum 2.0 GPA to graduate.

Academic Warning

Academic Warning is used to indicate that an undergraduate student is not meeting requirements for good academic standing. A student is placed on academic warning when the student's cumulative grade point average (GPA) falls within the indicated range based on cumulative credit hours attempted (see below).

Cumulative Credit Hours Attempted	Cumulative GPA Requirement
0-29	1.60 to 1.79
30-59	1.70 to 1.89
60-89	1.80 to 1.99
90 or more	1.90 to 1.99

A student on Academic Warning can continue to enroll at Washburn University. Students on Academic Warning are required to enroll and participate in the STAR Program: Stage 1 administered by the Center for Student Success and Retention each semester they are on Academic Warning.

STAR Program: Stage 1 includes, but is not limited to:

- Semester course registration considerations to promote success.
- Completion of the online learning modules.
- Mid-term grade checks and class attendance checks.

Academic Probation and Suspension

An undergraduate student on Academic Warning who does not achieve a 2.0 GPA for the semester and obtains a cumulative Washburn University GPA outlined below is placed on Academic Probation or can face Academic Suspension as determined by the Probation and Reinstatement Committee with input from Center for Student Success and Retention. A student who achieves 2.0 GPA for the semester but has not achieved the minimum required cumulative GPA outlined above, is considered to be on Academic Warning.

Cumulative Credit Hours Attempted	Cumulative GPA Requirement
0-29	1.59 or below
30-59	1.69 or below
60-89	1.79 or below
90 or more	1.89 or below

Students who are placed on probation rather than being suspended by the Probation and Reinstatement committee and the Center for Student Success must enroll in the STAR Program: Stage 2.

STAR Program: Stage 2 includes, but is not limited to:

- Semester course registration revisions to promote success.
- Completion of the online learning modules.
- Mid-term grade checks and class attendance checks.
- Required tutoring in various courses.
- Required Financial Aid and/or Literacy counseling.
- Academic coaching meetings.

A student who completes the requirements of the STAR Program: Stage 2 but who does not meet the minimum required semester GPA or cumulative GPA listed for Academic Warning may remain enrolled only if both the CSSR and the Probation and Reinstatement Committee make a positive recommendation. In such cases, the student will be considered to be on Academic Probation and continue in the STAR Program: Stage 2.

Students on Academic Warning or Academic Probation can face immediate Academic Suspension if they do not participate in and/or successfully complete the terms of the STAR Program.

Students who obtain either a semester or cumulative GPA of 1.0 or below, can face immediate Academic Suspension, even if not previously on Academic Warning or Academic Probation.

The Academic Suspension is effective for at least one full semester. The summer session does not count as a full semester.

Reinstatement from Suspension Status

1. In order to be considered for academic reinstatement, the student must complete the established reinstatement process no later than 60 calendar days prior to the beginning of the semester/session in which the student wants to enroll.
2. The student must complete the following steps in order to complete the reinstatement petition process:
 - a. Contact the STAR Program Coordinator to arrange an individual Student Success Plan for their transition semester back into Washburn University and to schedule their reinstatement meeting. Call the Center for Student Success and Retention, (785) 670-1942, Plass Learning Resources Center, to schedule your reinstatement meeting.
 - b. The purpose of this meeting is to (1) discuss your past academic history, (2) explore strategies for future academic success, and (3) assist you in creating your required individual Student Success Plan. The STAR Program Coordinator, upon the completion of your agreed upon Individual Student Success Plan, will sign the verification portion of a Reinstatement Petition Form, and give to you for submission as part of your request for reinstatement.
 - i. **Good Standing Reinstatement:** If you have earned academic credits from other institutions which will make your GPA higher than a 2.0, please make sure you provide that information to the STAR Program Coordinator. Your earned academic credits may allow you to gain good standing reinstatement and your advisor can provide you with instructions. Also make sure that all transcripts are sent to the Admissions office once all grades have been posted at the other institution(s).
 - ii. If you believe your GPA will be higher than a 2.0 with the transfer of courses, please submit a written request to the Office of Academic Affairs.

Appeal for Reconsideration of Suspension

Students whose GPA falls below that level may request reconsideration if there were extenuating circumstances beyond their control which prevented them from attaining the required academic standards.

If any appeals for reconsideration of suspension are received, a meeting of the Probation and Reinstatement committee will be convened to hear only those appeals.

1. In order to appeal a suspension, the student must submit a typed statement to the Office for Academic Affairs no later than two (2) weeks prior to the beginning of the semester/session in which the student wants to enroll.
 - a. Compose a personal statement. Your statement should include the following information:
 - i. Discussion of your past academic performance.
 - ii. Information about your meeting with the STAR Program Coordinator.
 - iii. The strategies you have identified to have a successful academic reentry to the University.
 - iv. The academic plan for the semester you want to attend if reinstated.
 - b. Submit the Reinstatement Petition Form and your Personal Statement by the deadline to the address listed on the Petition Form. **Note:** If you have attended another college, official transcripts must be received by the Admissions Office for the committee's review before a final decision is made.
2. The student is strongly encouraged to contact the Office of Academic Advising to set appointments to meet with the STAR Coordinator or an academic advisor PRIOR to submitting an appeal of their suspension.
3. Any written appeals for reconsideration of suspension by students which indicate extenuating circumstances outside of the student's control will be referred to the Office for Academic Affairs where they will be reviewed for potential consideration by the Probation and Reinstatement committee. If approved for consideration by the Committee, the student will be responsible for completing the entire reinstatement process as soon as possible with the completed packet submitted to the Office for Academic Affairs office no later than one week prior to the committee's meeting. The student should be aware that the reinstatement/petition must be approved by the Committee as a whole.

Administrative Information

1. Transfer students must meet the retention standards of Washburn students including entering on probation.
2. A grade of incomplete will not affect the GPA for the semester in which it is received. The grade, when it has been awarded, or the F to which it has been converted, will affect the subsequent semester and cumulative GPA.
3. Students who have academic deficiencies are advised to enroll in no more hours than they have successfully (with C or better grade) completed in the preceding semester.
4. Students who have been suspended and are later reinstated will be readmitted on academic notice or warning.

No student will be reinstated more than twice. The third academic suspension is, in effect, the final academic dismissal, except that a

student who has been academically dismissed may, three or more years after dismissal, apply for readmission under the Fresh Start Program.

Academic Forgiveness

Academic Forgiveness enables an undergraduate student to neutralize, in part, the grade impact of prior academic performance. Academic Forgiveness provides for the computation of an alternative GPA and for the use of that GPA in most academic situations. A student can apply for Academic Forgiveness only once, and to only Academic Forgiveness or Academic Fresh Start, and the process is irreversible.

Eligibility Conditions:

The student experienced one or more extenuating circumstances that caused a drastic change to the student's academic performance at Washburn University in one or two semesters.

- After the session(s) affected by the extenuating circumstance, the student earned a Washburn GPA of 2.0 or higher at the end of the academic session and at least 12 credits.
- Grades from up to two (2) consecutive semesters may be excluded from the regular cumulative GPA calculation.
- The Center for Student Success and Retention may request documentation confirming the extenuating circumstances with the application for Academic Forgiveness. Final decisions regarding petitions occur in the Office for Academic Affairs.

Calculation and Reporting of Academic Forgiveness GPA and its uses in Academic Evaluation:

Academic Forgiveness deletes nothing from the student's academic record. Grades earned before the Academic Forgiveness remain on the transcript along with the cumulative GPA for all hours taken.

- Per federal regulations, the student's full academic history must be reviewed for Satisfactory Academic Progress (SAP) guidelines. Washburn's SAP policy can be found online at <https://www.washburn.edu/admissions/paying-for-college/financial-aid/policies.html> under Right to Know. Academic Forgiveness does not impact the Satisfactory Academic Progress determination.
- The transcript will clearly indicate the term(s) of the Academic Forgiveness. The transcript will reflect an Academic Forgiveness GPA and a cumulative GPA. The Academic Forgiveness GPA will exclude course grades from the Academic Forgiveness term(s) while the cumulative GPA will include all course grades earned.
- University-wide academic policies based on a cumulative GPA, including graduation GPA requirements, generally will use the Academic Forgiveness GPA.
- Academic programs are not required to use Academic Forgiveness GPA. Some programs, such as those in the graduate school or those leading to licensure, may use all grades for the calculation of the GPA.
- For students in the Academic Fresh Start or Academic Forgiveness program to be eligible for university academic honors and/or the Sibberson Award, they must complete a minimum of 60 hours in residence, with at least 50 hours in graded courses after the forgiveness begins. Other academic policies are not affected.

Procedure for Applying for Academic Forgiveness:

- Students seeking Academic Forgiveness present their petition to Academic Advising in the Center for Student Success and Retention.

- A student must apply no later than the academic semester prior to the one when the degree will be granted. Students wishing to apply are encouraged to do so as soon as possible after qualifying.

Petitions are available through Academic Advising in Plass Learning Resources Center.

Academic Fresh Start

Students who have performed poorly in their first year or two at any regionally accredited post-secondary institution and then withdraw or are dismissed frequently return to school later to resume their education. Unfortunately, their prior academic record often presents a major obstacle to their overall success. Students who want an opportunity for a fresh undergraduate start at Washburn University, without the handicap of their prior academic record, may apply for Academic Fresh Start within the first term of attendance subject to the following conditions:

- All previous academic work at any regionally accredited post-secondary institution will be disregarded with respect to Washburn University graduation requirements.
- The prior academic record remains a part of the student's overall academic transcript but is not carried forward as part of the student's program.
- The Washburn transcript will indicate Academic Fresh Start and the date granted.
- The student will then begin college study again under the current catalog with no credits attempted, no credits earned, and no grade points earned.
- A person may receive Academic Fresh Start only once.

The Academic Fresh Start policy applies only to your Washburn academic record. A student granted Academic Fresh Start is an entering first-year student and as such is eligible for consideration for all academic opportunities afforded by Washburn. A student transferring from Washburn University to another institution will have to follow the receiving institution's policy.

To be eligible for consideration of Academic Fresh Start:

- At least three years must have elapsed between the end of the semester in which the applicant was last in attendance at any regionally accredited post-secondary institution and the beginning of the semester in which he/she intends to re-enroll. This three year waiting period may be waived if course work was completed prior to high school graduation.
- Student petitions for Academic Fresh Start within the first term of attendance.
- Student must apply for admission through the Office of Admissions.
- Student submits official transcripts from all regionally accredited post-secondary institutions attended.
- Application fee paid.

Granting of Academic Fresh Start does not mean the student is eligible for institutional scholarships or financial aid. Per federal regulations, the student's full academic history must be reviewed for Satisfactory Academic Progress (SAP) guidelines. Washburn's SAP policy can be found online at <https://www.washburn.edu/admissions/paying-for-college/financial-aid/index.html> (<https://www.washburn.edu/admissions/paying-for-college/financial-aid/>) under Right to Know. An individual request for reinstatement of federal aid should be directed to the financial aid office in writing.

Graduation, Degree, and General Education Requirements

- Graduation Requirements (p. 48)
- University Requirements Common to All Bachelor Degrees (p. 48)
- University Requirements Common to All Associate Degrees (p. 48)
- General Education Statement (p. 49)
- General Education Requirements (p. 50)
- 2024-2025 KBOR General Education Courses (p. 50)

Graduation Requirements

Each candidate for a degree must meet the general requirements for graduation and the specific requirements for the degree desired. The ultimate responsibility for complying with degree requirements rests with the student. In order to ensure the early and proper selection of a field of concentration, every student seeking a baccalaureate degree is required to have filed a declaration of major by the time the student has completed 60 credit hours. Candidates for the associate degree must file the declaration of major at the completion of 30 credit hours. A student is free to change or add majors at any time by following the correct prescribed procedures. Declaration of a major is made by visiting the relevant academic department.

Candidates for a degree (graduate, baccalaureate, or associate) or certificate must submit an online Application for Degree in September for the fall semester and in February for the spring and summer semester. The University confers degrees at the end of each semester and at the end of the Summer Session.

Transfer students who have completed a baccalaureate degree at an institution of higher education accredited by one of the six regional accrediting organizations recognized by the Council for Higher Education Accreditation are considered to have satisfied general-education requirements and are therefore not required to meet Washburn's general education requirements. Students who have completed all Kansas Board of Regents Systemwide General Education requirements at any Kansas post-secondary institution are also considered to have satisfied general education requirements at Washburn University, unless their major department has been granted permission to continue requiring specific general education courses or deviate from the systemwide general education requirements.

Students will, however, be required to meet degree requirements that are specific to certain bachelor and associate degrees including required courses outside their academic major department, which may also be designated as general education courses. Other transfer students (domestic and international) should review the "Transfer (p. 15)" section for additional information regarding the transfer of general-education course work.

University Requirements Common to All Bachelor Degrees

A minimum of 120 semester hours of credit. Some baccalaureate degrees may require additional hours. See specific degree/major.

1. A cumulative grade point average of at least 2.0.
2. Forty-five hours of upper division work (300-400 numbered courses).
3. At least 12 hours in the major must be in the upper division courses.

4. 34-35 hours of general education courses, further described under General Education Requirements (p. 50).
5. Courses required by a program must be earned with a 'C' or better.
6. A course required for a program may not be taken as A/Credit/Pass/Fail unless written permission is obtained from the head of the major department for that course and filed with the University Registrar's Office.
7. Of the last 45 hours required to complete the bachelor's degree, at least 30 must be earned from Washburn University OR at least 90 of the total overall hours required to complete the degree must be earned from Washburn University. In both cases, at least 25% of the credit hours required to fulfill the major (and at least 12 hours of the upper division credits in the major) must be earned from Washburn University. Programs with professional accreditation standards may have more stringent requirements. The academic residency requirement will be waived in the case of formal articulation agreements.
8. At least 60 hours of the total credit hours required for the baccalaureate degree must be taken at a four year college or university.
9. A student may be awarded a degree after completing the requirements for that degree in effect when he/she first enrolled or, if he/she chooses, in effect in any subsequent year except that no degree shall be awarded based upon requirements not in effect within six years of the date of graduation.
10. A double major may be completed within the 120 hour total by meeting all the requirements of the two majors.
11. Any candidate for a second baccalaureate degree must meet the specific requirements for both degrees and present an additional 30 credit hours beyond the first baccalaureate degree.
12. For general elective credits for a baccalaureate degree, no more than a combined total of ten hours of credit in physical activity courses and music ensemble courses will count.
13. No more than 12 hours of correspondence work may be offered toward any degree. This applies to correspondence courses only and not to extension courses. Courses failed by a student in residence may not be repeated by correspondence. Normally, courses offered on campus may not be taken by correspondence.
14. While there is no specific limit to the total number of semester hours that may be taken on a non-graded basis such as A/Credit/Pass/Fail, credit by examination, advanced placement, and/or military service, a minimum of 84 hours presented for graduation must be on a graded basis. For international students presenting transfer credit from an international tertiary institution accredited by the Ministry of Education (or its equivalent) in that country, a minimum of 60 hours presented for graduation must be on a graded basis since Washburn converts grades earned in these transfer courses to CR, P and NC.

University Requirements Common to All Associate Degrees

A minimum of 60 hours. Some associate degrees may require additional hours. See specific degree/major.

1. A cumulative grade point average of at least 2.0.
2. A/pass/fail option cannot be taken in courses required by the university (further explained in General Education Requirements (p. 50)) or specific courses required by a program unless written

permission is obtained from the head of the major department for that course and filed with the Registrar's Office.

3. At least 15 of the last 30 hours required to complete the degree must be earned from Washburn University. Programs with professional accreditation standards may have more stringent requirements. The academic residency requirement will be waived in the case of formal articulation agreements.
4. Forty-two hours must be graded. Credit hours earned at Washburn University Institute of Technology count as graded. For international students presenting transfer credit from an international tertiary institution accredited by the Ministry of Education (or its equivalent) in that country, a minimum of 30 hours presented for graduation must be on a graded basis since Washburn converts grades earned in these transfer courses to CR, P and NC.
5. A student may be awarded a degree after completing the requirements for that degree in effect when the student first enrolled or, if the student chooses, in effect in any subsequent year except that no degree shall be awarded based upon requirements not in effect within six years of the date of graduation.
6. Other requirements vary by type of degree (associate of science, associate of art, associate of liberal studies, associate of applied science); please see additional requirements for associate degrees below, and general education requirements (p. 50) in the general education section of the catalog.

Additional University Requirements Common to ASSOCIATE OF SCIENCE (AS), ASSOCIATE OF ART (AA), and ASSOCIATE OF LIBERAL STUDIES (ALS) Degrees

1. 34-35 hours of general education courses, further described in General Education Requirements (p. 50).

Additional University Requirements Common to ASSOCIATE OF APPLIED SCIENCE (AAS) Degrees

1. At least 30 credit hours in the area of specialized preparation are required, with at least 15 hours in each area of focus.
2. Normally AAS degrees will not require more than 68 credit hours. External accreditation, licensing, or industry standards may make it necessary to exceed this limit.
3. 15 hours of general education courses, further described in General Education Requirements (p. 50).

General Education Statement

The General Education component of higher education specifically focuses on introducing students to ways of knowing, integrative knowledge, appreciation of historical context, common themes of human experience, social responsibility, analytical reasoning, civic engagement, and the development of practical skills and reflective habits of mind. The General Education requirements at Washburn University are designed with the intent of providing students with a grounding in liberal arts and sciences and shaping an informed, capable citizenry through a broad education in a range of disciplines. These courses ensure that students are equipped with the knowledge and skills necessary to engage with our rapidly changing world over their lifetimes.

Students complete a broad range of coursework in composition, mathematics, communication, natural science, arts and humanities, social science, inclusion and belonging, and scientific reasoning and literacy. General education courses are designed to focus on at least one of the following five learning outcomes:

1. **Communication.** Communications skills involve the ability to clearly express and understand ideas in written, oral and non-verbal forms. Communication includes the practical exchange of information, which can include the ability to listen, comprehend and respond to others, as well as the creative expression of ideas in the visual, written and performing arts. In oral and written communication, students will demonstrate the ability to shape a central thesis, organize an argument, and formally support that argument. Students will be able to understand and interpret creative expression based on knowledge of the forms and principles of various expressive media.
2. **Quantitative and Scientific Reasoning and Literacy.**
 - a. Quantitative reasoning involves the ability to work with numerical data and the higher-order thinking skills required to make and understand mathematical arguments. Students will be able to understand and develop arguments supported by quantitative evidence, clearly communicate those arguments using words, tables, graphs, statistical inference, or mathematical equations and functions, as appropriate, and apply mathematical methods to solve problems from a wide array of contexts and everyday situations.
 - b. Scientific reasoning and literacy involve the acquisition and application of skills and knowledge necessary to understand scientific methods and apply them to observable phenomena. Students will be able to understand, develop, and evaluate arguments supported by scientific evidence, clearly communicate those arguments in a variety of formats, and use scientific methods to solve problems from a wide array of contexts and disciplines.
3. **Information Literacy and Technology.** Information literacy and technology involves the ability to locate, select, use and evaluate information obtained from appropriate electronic and/or printed resources, including a critical analysis of the information and the credibility of the sources of information. It also involves the ability to use technology to research, organize, present and/or communicate information in meaningful ways. Additionally, information literacy and technology includes skills such as the ability to understand the development of technology and its impact on society, the ability to understand and use existing technologies and information to address real-world issues, and the ability to recognize emerging technological trends and their possible impact on the future.
4. **Critical and Creative Thinking.** Critical thinking is the intellectually disciplined process of assessing and evaluating ideas and forms. It involves clarifying questions, reflecting upon meaning, comparing multiple viewpoints, and evaluating evidence to make an informed judgment. Creative thinking involves the production of original ideas, forms or works by making connections, generating alternatives, and elaborating or exploring new applications of accepted practices through innovation and/or invention. Critical and creative thinkers gather information from experience, observation, reasoning, reflection and communication. They explore and synthesize related ideas, connect them to prior knowledge, and apply them to new contexts.
5. **Global Citizenship, Ethics, and Diversity.** Global citizenship refers to the broad understanding of peoples and cultures in the United States and around the world, and to humankind's place and effects in the world. Global citizenship includes a respect for the commonalities

and differences in peoples, including an understanding of values, beliefs and customs. It places an emphasis on the economic, religious, political, geographic, linguistic, historic, environmental, and social aspects that define cultures. It places an emphasis on ethics, equality and human rights, an appreciation for diversity, the interconnectedness of societies and cultures, and a commitment to finding solutions to problems that can affect the world.

Each general education course bases a substantial portion (typically at least 30%) of the final course grade on a specified student learning outcome. These courses are identified in the course catalog description with their relevant learning outcome.

General Education Requirements

Washburn's General Education program provides all students with a breadth of knowledge across all the Student Learning Outcomes. Beginning in academic year 2024-25, Washburn's General Education program aligns with the Kansas Board of Regents (KBOR) Systemwide General Education framework.

For all baccalaureate, associate of science, associate of arts, and associate of liberal studies degrees, students will complete 34-35 hours of General Education, consisting of the following:

1. EN 101 Introductory College Writing and EN 200 Intermediate College Writing (6 credit hours of English), and
2. CN 101 Introduction to Communication Studies or CN 150 Public Speaking or CN 151 Introduction to Interpersonal Communication or CN 351 Special Topics in Interpersonal Communication (3 credit hours of Communication Studies), and
3. MA 112 Contemporary College Mathematics or higher (3 credit hours of Mathematics or Statistics), and
4. 4-5 credit hours of Natural Science with a laboratory component, and
5. 6 credit hours of Social Sciences courses, from at least two disciplines, and
6. 6 credit hours of Arts and Humanities courses, from at least two disciplines, and
7. 6 credit hours of institutionally designated coursework, from at least two disciplines:
 - a. 3 credit hours from Inclusion and Belonging distribution area, and
 - b. 3 credit hours from Scientific Literacy distribution area.

Courses in areas 1-3 above may not be taken as A/credit/pass/fail and a grade of 'C' or better must be earned.

For associate of applied science degrees, students will complete 15 hours of General Education, consisting of the following:

1. EN 101 Introductory College Writing, and
2. MA 112 Contemporary College Mathematics or higher, and
3. At least 9 hours of additional general education courses from three of the following areas, and from at least three different disciplines:
 - a. Communications
 - b. Natural Sciences
 - c. Social Sciences
 - d. Arts and Humanities
 - e. Inclusion and Belonging
 - f. Scientific Reasoning and Literacy.

Courses in areas 1 and 2 above may not be taken as A/credit/pass/fail and a 'C' or better must be earned.

Students should check with their major department; in some cases, courses required by the major department will also fulfill specific General Education requirements.

Vision

To be a premiere center for transformative leadership development and community-engaged learning, committed to developing socially engaged, inclusive, and accountable leaders.

Mission

The Aleshire Center for Leadership and Community Engagement is committed to developing leaders through high-impact community-engaged learning and research. We empower students to become global citizens that support the creation of thriving, just communities. We bridge academic and co-curricular experiences to foster cross-cultural understanding and create innovative approaches to learning in partnership with community stakeholders.

Academic Partnerships

- **School of Nursing Leadership Partnership**
 - Nursing students can supplement NU 450 Leadership, Management, Health Policy (2 credit hours) and NU 462 Quality and Safety in Healthcare (3 credit hours) as substitutes for LE 300 Leadership Skills Development (3 credit hours) and LE 400 Leadership Internship (3 credit hours); however, students opting to complete their Leadership Minor or Certificate in this way must enroll in LE 301 Leadership Skills Integration (1 credit hour) concurrently with NU 450 Leadership, Management, Health Policy to substitute for LE 300 Leadership Skills Development, and LE 401 Leadership Internship Integration (1 credit hour) concurrently with NU 462 Quality and Safety in Healthcare to substitute for LE 400 Leadership Internship. The content in LE 301 Leadership Skills Integration and LE 401 Leadership Internship Integration will integrate coursework in the departmental leadership course with the content covered in LE 300 Leadership Skills Development and LE 400 Leadership Internship.

- Transferability of applicable course credit will be prescribed for each institution in WU's transfer guide, though ultimately is left at the discretion of each academic department. Transfer students will only be able to transfer a maximum of 6 credit hours toward completion of a Leadership Studies Minor (p. 56).

• Community-Engaged Learning

- Community-engaged learning (CEL), also known as community-based learning, service-learning, or community service education, refers to an educational approach that integrates classroom instruction with meaningful community experiences. It is a pedagogical strategy that aims to enhance students' understanding of course content, develop critical thinking and problem-solving skills, and foster a sense of civic responsibility and social awareness.
- The Aleshire Center for Leadership and Community engagement seeks to strengthen CEL at Washburn University by supporting resources, funding, and connection with campus and community partners engaged in this work. For additional information or to schedule a consultation, contact Dr. Jason Miller, Community Engagement Faculty Fellow, at jason.miller2@washburn.edu.

Co-Curricular Programs and Partnerships

• Leadership Washburn Transformational Experience

- Students earning a WTE in Leadership will complete a 1-3 credit leadership course and complete a 50 hour change project. For more information, see the Leadership WTE (p. 60) section of this catalog.

• Community & Civic Engagement Washburn Transformational Experience (CCE-WTE)

- Students participating in the CCE-WTE engage in significant meaningful work with and for the community. Completion of the CCE-WTE is recognized at commencement and appears on students' academic transcript. For more information, please see the CCE-WTE (p. 60) section of this catalog.

• Leadership Challenge Event

- The Leadership Challenge Event™ (LCE™) is an annual 2-day event hosted by the Aleshire Center for Leadership and Community Engagement. It is a unique inter-scholastic as well as inter-collegiate leadership competition which provides high school and undergraduate college students an opportunity to participate in an organized competition that simulates real-life experiences. The LCE™ challenges students to address a variety of problems and situations where the outcome of the simulation is dependent on the leadership decisions made throughout the course of the competition.

• Bonner Scholar Program

- This national civic engagement leadership and university honor program requires a significant community engagement commitment, mentored training and enrichment activities, and participation in group initiatives and projects with other members of the program. Participants work to effect social change and build the capacity of community-based organizations; become knowledgeable about issues that affect the local, national and international communities in which we live; and develop broad-based leadership skills through their service experience to support their development as actively engaged citizens. This is based on the premise that college students have a unique and important ability to contribute to society in meaningful, lasting ways. The program is also meant to create a supportive community of students on campus whose common focus

on community and civic engagement gives them a sense of purpose and meaning while connecting their service back to their academic and professional goals. Washburn is one of only 73 colleges and universities that form a network committed to the Bonner Foundation model of Community Engaged Learning. Opportunities are provided for all members of the program to interact with other members in the network and to engage with their national partners. Completion of the program includes the University honor of Bonner Scholar, which is recognized at commencement and appears on the student's academic transcript.

- **Community-Based Work Study:** Students who qualify for Federal Work Study have the option of earning this money by working with a nonprofit organization, public school, or government entity in the community that matches their academic and/or professional goals.

Course Offerings

CE 250 Introduction to Community Studies (3)

This course introduces students to the interdisciplinary academic discipline of community studies. Topics include the importance of understanding self and place, theories of community change, basic community-based research methods, and the importance of civic engagement.

CE 251 Introduction Poverty Studies (3)

This course examines poverty as a problem for individuals, families, and societies. It focuses on the United States, perhaps the most impoverished of any developed nation. This course emphasizes discussion intended to advance understanding and prompt critical analyses of the assigned readings. Prerequisites: None.

CE 300 Special Topics in Community Studies (0-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisites: CE 250 or consent of instructor.

CE 350 Community-based Research (3)

Community-based research (CBR) is a collection of research methods focused on social justice and social change. This field-based course presents an overview of CBR weaving together three key areas. First, an exploration of the historical and theoretical underpinnings of CBR. Second, key aspects of CBR practice such as ethics, working with diverse populations, program planning, and program evaluation. Third, the skills CBR practitioners use to collect and analyze data in their work. Prerequisite: CE 250 or consent of instructor.

CE 391 Social Change and Political Activism (3)

This course is designed to familiarize students with mobilizing and development of issue campaigns. The content of the course will focus on an understanding of social action, change and advocacy. Organizing a campaign refers to a particular form of community participation in which "grassroots" people learn techniques to share in power. This implies that the model will focus on recruiting grassroots membership and targeting systems for change. The methods may include collaborative problem solving, strategic planning and confrontation. Targets for change may be individuals, systems, institutions, and policies.

CE 397 Directed Readings (1-3)

Under the supervision of a faculty member, students will undertake an extensive reading course to further their understanding of a specific topic within Community Studies. May be repeated for a maximum of six hours. Students are limited to six hours total from CE 397 and CE 398 combined. Prerequisites: CE 250, declared minor, junior/senior standing, and consent of instructor.

CE 398 Directed Research (1-3)

Under the supervision of a faculty member, students will undertake an independent research project to further their understanding of a specific topic within Community Studies. May be repeated for a maximum of six hours. Students are limited to six hours total from CE 397 and CE 398 combined. Prerequisites: CE 250 or consent of instructor.

CE 399 Internship (1-3)

Under the supervision of a faculty member, students will be placed with a local community-based organization to gain practical experience in a community setting. May be repeated twice for a maximum of three hours. Prerequisites: CE 250 or consent of instructor.

CE 400 Special Topics in Community Studies (1-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: CE 250 or consent of instructor.

CE 401 Community Studies Capstone (3)

In this course, students will apply core knowledge from the interdisciplinary academic discipline of community studies to address a community-identified need. Special attention is given to reflection and professional preparation for various career paths including nonprofit and community-based organizations, and governments. Prerequisites: CE 250 and 12 credits in the minor or instructor consent.

LE 100 Exploring the Concept of Leadership (3)

A survey of leadership theories and introduction to the academic study of leadership using contexts of the leadership process and case studies; requires identifying personal leadership potential, articulating a personalized leadership theory, and applying leadership concepts in a Campus Action Project. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

LE 125 Foundations of Leadership in Society (1-3)

This course will expose students to a variety of concepts, theories and skills relevant to contemporary leadership thought. Students will be challenged to consider their personal conceptions and philosophy of leadership. Students will examine leadership within particular contexts such as creating change, ethical leadership, leadership and management, and historical leadership thought and leaders. Prerequisite: None.

LE 200 Ethical Responsibilities of Leadership (3)

A survey of the fundamental ethical responsibilities of leadership; requires examination of obstacles to and opportunities for ethical leadership, an understanding of the cultural contexts of leadership and an articulation of a personal ethics statement as a foundation for applied ethics in the leadership process. Prerequisite: LE 100 or appropriate HN 202 or consent.

LE 300 Leadership Skills Development (3)

Students focus on developing individual and interpersonal leadership skills, teamwork and collaboration skills, and an understanding that leadership is more than the exercise of power; techniques for embracing and leading change are practiced in a semester-long change project. Prerequisite: LE 200 or appropriate HN 201 section or consent.

LE 301 Leadership Skills Integration (0-3)

Students will integrate their learning from a leadership skills course from another department with the curriculum of the Leadership Institute. Outcomes include development of individual and interpersonal leadership skills, teamwork and collaboration skills, and an understanding that leadership is more than the exercise of power; techniques for embracing and leading change are practiced in a semester-long change project. Prerequisite: LE 200 or appropriate HN 201 section or consent; Corequisite: NU 450 or another departmental leadership skills course at a 300 level or higher.

LE 320 Leadership Campus Experience I (0-1)

Students will review a contemporary leadership theory as a framework with which to integrate their learning from a campus leadership position with an understanding that leadership is more than just a position. Students will begin to think critically about creating change in association with a campus leadership experience. Prerequisite: Consent of instructor or junior standing.

LE 321 Leadership Campus Experience II (0-1)

Students will participate in a campus leadership position and reflect on the experience to develop a greater awareness of self and how they contribute to the process of leadership. Prerequisite: Consent of instructor or junior standing and completion of LE 320.

LE 322 Leadership Campus Experience III (0-1)

Students will reflect on leading change through implementation of a change project. Within this course, students will reflect on their learning from their student involvement within the framework of leadership theories. Prerequisite: Consent of instructor or junior standing and completion of LE 320 and LE 321.

LE 350 Leadership Practicum Experience (3)

Students pursuing the Leadership Studies Certificate will practice a "change agent" leadership role by implementing and evaluating a change process, and produce a detailed record of the experience suitable for archiving. Prerequisite: LE 300 or consent of instructor.

LE 375 Gender and Leadership (3)

An examination of an analytic framework for understanding the role that gender plays in defining and determining access to leadership and power. Contains an analysis of the myths, challenges, and opportunities that accompany the issue of gender through an exploration of gender and leadership both conceptually and practically. Prerequisite: Consent of instructor or junior standing.

LE 398 Special Projects - Leadership (0-3)

Independent study or project in leadership. The same project may be repeated up to 3 credits. Prerequisite: Consent of instructor.

LE 399 Special Topics in Leadership (0-3)

Special topics in leadership. May be repeated for different topics. See course schedule for current offerings. Prerequisite: Consent of instructor or junior standing.

LE 400 Leadership Internship (3)

Students will practice a "change agent" leadership role by implementing and evaluating an evidence-based change process, and produce a detailed record of the experience suitable for archiving. Prerequisite: LE 300 and consent of instructor.

LE 401 Leadership Internship Integration (0-3)

Students integrate their learning from an internship from another department with the curriculum of the Leadership Institute. Students must practice a "change agent" leadership role within this internship. Within this course, students will reflect on their learning from the internship within the framework of the Leadership Institute curriculum. Prerequisite: Consent of Instructor. Corequisite: NU 462 or another departmental leadership internship course.

Leadership Studies, Minor

The Leadership Studies Minor is an interdisciplinary program open to students in all majors and degree programs. The Leadership Studies Minor combines academic, co-curricular and community leadership experiences. The Leadership Studies Minor is designed to be completed concurrently while earning a baccalaureate degree. Leadership Studies Minor requirements must be completed at the time of graduation. These programs provide graduates with the knowledge and skills necessary to be effective leaders in a variety of sectors and setting.

Student Learning Outcomes

Washburn graduates who complete the Leadership Studies Minor will be able to:

- Critique and analyze the concept of leadership.
- Identify the historical, psychological and social bases of leadership.
- Accept and appreciate the ethics and responsibilities of leadership.
- Recognize and demonstrate mastery of the skills and abilities necessary for effective leadership.
- Convert leadership theory into action.
- Observe and evaluate leadership in a variety of contexts.

Leadership Core Curriculum

The Leadership Studies Minor requires 18 credit hours of leadership curriculum. As cultivated at Washburn, leadership is broadly defined and inclusive in scope in order to expose students to many differing views of leadership. The Leadership Institute takes an integrative approach to the education, experience, and empowerment of personal leadership development. Three multidisciplinary leadership courses and one leadership internship experience constitute the core curriculum of the Leadership Studies Minor. Each course has a primary focus and emphasis, but all courses work toward the following interrelated goals:

- To foster the ability to think critically and analytically about leadership.
- To advance the understanding of the historical underpinnings of leadership.
- To advocate internalization of the ethical basis for leadership.
- To promote the development of leadership skills.
- To aid comprehension of the theoretical components of leadership.

- To enhance a self-reflective, self-assessing awareness of one's own leadership potential.
- To cultivate the ability to convert leadership theory into action.

Specialized Track Option

At the approval of the Director of the Aleshire Center for Leadership and Community Engagement, the elective track can be customized to an individual student's interests. To elect this specialized track option, a student must present a justifiable rationale to take one class from each of two separate tracks in order to satisfy the six hours of elective credits required. This rationale should be based on the student's individual career interests and academic plan. Furthermore, in unique circumstances based on a personalized opportunity, a student can include up to three independent study credit hours with their specialized track. Students electing this option would gain approval from their major department utilizing an independent study course number in that discipline.

Guidelines for the Minor

- 18 total credit hours (9 credit hours must be upper-division coursework). One elective must be upper-division level, in addition to LE 300 and LE 400.
- Using non-Leadership courses to satisfy the requirements of both a major and the Leadership Minor is permitted (e.g. student with a Management major could include major course requirements from the College of Arts & Sciences, but cannot select Management courses from the list of Minor electives for the Leadership Minor). Further, Business electives for the Leadership Minor cannot also be used as Business electives within a Business major (this includes Economics and Accounting).
- LE 100 is a General Education course in the social sciences. This course may also be taken for Honors credit by registering for the course as HN 202. Please note HN 202 cannot be taken as A/P/F.
- LE 200 can also be taken for General Education and/or Honors credit by registering for the course as HN 201. HN 201 counts as general education credit in the humanities and fine arts. Please note HN 201 cannot be taken as A/P/F.

Minor Requirements

Leadership Studies, Certificate

The Leadership Studies Certificate is an interdisciplinary program open to students in all majors and degree programs. The Leadership Studies Certificate combine academic, co-curricular and community leadership experiences. Students completing an associate degree or baccalaureate degree are able to earn a Leadership Studies Certificate. Leadership Studies Certificate requirements must be completed at the time of graduation. This program provides graduates with the knowledge and skills necessary to be effective leaders in a variety of sectors and setting.

Student Learning Outcomes

Washburn graduates who complete the Leadership Studies Certificate will be able to:

- Critique and analyze the concept of leadership.
- Identify the historical, psychological and social bases of leadership.
- Accept and appreciate the ethics and responsibilities of leadership.
- Recognize and demonstrate mastery of the skills and abilities necessary for effective leadership.
- Convert leadership theory into action.
- Observe and evaluate leadership in a variety of contexts.

Leadership Core Curriculum

The Leadership Studies Certificate requires 12 credit hours of leadership curriculum. As cultivated at Washburn, leadership is broadly defined and inclusive in scope in order to expose students to many differing views of leadership. The Aleshire Center for Leadership and Community Engagement takes an integrative approach to the education, experience, and empowerment of personal leadership development. Three multidisciplinary leadership courses and one leadership internship experience constitute the core curriculum of the Leadership Studies Certificate. Each course has a primary focus and emphasis, but all courses work toward the following interrelated goals:

- To foster the ability to think critically and analytically about leadership.
- To advance the understanding of the historical underpinnings of leadership.
- To advocate internalization of the ethical basis for leadership.
- To promote the development of leadership skills.
- To aid comprehension of the theoretical components of leadership.
- To enhance a self-reflective, self-assessing awareness of one's own leadership potential.
- To cultivate the ability to convert leadership theory into action.

Certificate Requirements

Students completing an associate degree or baccalaureate degree are able to earn the Leadership Studies Certificate.

Code	Title	Hours
Required Courses Inside Department		
LE 100/HN 202	Exploring the Concept of Leadership ¹	3
LE 200/HN 201	Ethical Responsibilities of Leadership	3
LE 300	Leadership Skills Development	3
LE 350	Leadership Practicum Experience ²	3

or LE 400	Leadership Internship
Total Hours	12

- ¹ Approved as social sciences general education credit
- ² Associate degree students will take LE 350 Leadership Practicum Experience in place of LE 400 Leadership Internship.

¹ CE 399 can be replaced with a three-credit internship in the student's major if the internship is community-engaged and meets the placement, hour and learning outcomes required by CE 399. Such a substitution requires pre-approval by the student's minor advisor.

Community Studies, Minor

A minor in community studies provides an opportunity to understand and address the complex issues facing communities. Using an interdisciplinary lens, Community Studies minors gain valuable skills to identify and understand community assets and concerns as well as create community-based projects to address challenges and bring about positive social change. Community studies minors integrate their classroom learning from a variety of academic disciplines with community-engaged and community-based experiences. This allows students to apply their learning in hands-on settings. Working with an advisor, community studies minors select complimentary courses that form a “track” clustered around a student’s interest.

The Community Studies Minor requires 18 credit hours of coursework consisting of nine hours of required courses [CE 250 Introduction to Community Studies (3 credits), CE 399 Internship (3 credits), and CE 401 Community Studies Capstone (3 credits)] and nine hours of approved elective courses at any level. CE 399 can be replaced with a three-credit internship in the student’s major if the internship is community-engaged and meets the placement, hour, and learning outcomes required by CE 399. Such a substitution requires pre-approval by the student’s minor advisor.

Student Learning Outcomes

- Demonstrate the ability to critically analyze information from a variety of academic disciplines in order to understand the complex social issues facing communities.
- Conduct basic community-based research including identifying community assets, understanding community needs, and collecting and analyzing qualitative and quantitative data.
- Apply community development theories (e.g., Theory of Change) to craft community-based programs and projects that are rooted in anti-bias, equity, and social justice.
- Communicate effectively, with a variety of stakeholders, orally and in writing.

Minor Requirements

The Community Studies Minor requires 18 credit hours of coursework:

Washburn Transformational Experience (WTE)

Website: <https://www.washburn.edu/academics/wte/index.html> (<https://www.washburn.edu/academics/wte/>)

The Washburn Transformational Experience (WTE) provides Washburn University students with an exciting opportunity to do something truly extraordinary. In short, the main objective of the WTE program is to transform students into a new kind of individual. The WTE goes beyond the everyday classroom experience by allowing students to choose and create projects that reflect their interests. Students pursuing a degree have the opportunity to pursue one or more transformational experiences:

- Community & Civic Engagement WTE (p. 60)
- International Education WTE (p. 60)
- Leadership WTE (p. 60)
- Scholarly or Creative WTE (p. 61)

Community & Civic Engagement WTE

Website: <https://www.washburn.edu/academics/leadership-community/academic-programs/community-wte.html>

Coordinator: Kristine Hart
Plass Learning Resources Center, Room 217
(785) 670-1950

Purpose: Students who have engaged with faculty members and other students in significant, meaningful community and civic engagement work, and who have been guided to reflect on the power and purpose of these experiences, graduate from the University as citizens who are not resigned to accepting the community (local, national and international) as it is but have a vision for how they can help make it a better place for all who live there.

Students participating in the Community & Civic Engagement transformational experience are required to complete at least 300 hours of community engagement work at a site approved by the Community & Civic Engagement transformational experience Coordinator. A mentor will guide each student through this experience to help students develop a focus for this transformational experience that complements their interests and academic pursuits.

Each student will conclude the experience with a presentation of their learning and the outcomes of the work they were engaged in both with and for the community.

International Education WTE

Website: <https://www.washburn.edu/academics/international-programs/study-abroad/index.html> (<https://www.washburn.edu/academics/international-programs/study-abroad/>)

Coordinator: Tina Williams
Plass Learning Resources Center, Room 217
(785) 670-1051

Purpose: Students who have studied abroad or been thoroughly exposed to the richness of history and culture beyond our shores graduate from

the University ready to contribute to a fast-paced global society in which information is delivered instantly around the world.

The International Education WTE is most directly satisfied by a study abroad experience. To identify an appropriate experience, students will work with a faculty member or the study-abroad coordinator. Students will declare their program as an International Education WTE, complete an Activity Plan, and write a Pre-Trip Background Research Paper on a relevant topic prior to their departure to help prepare for the experience. A post program Final Written Assessment Report and Public Presentation about experience is required within the semester after returning and prior to graduation.

Washburn University supports three types of study abroad programs:

Type 1: Study in a foreign institution with which Washburn maintains exchange agreements. Washburn University currently has exchange agreements with partner universities in such places as Austria, France, Germany, Mexico, Paraguay, Spain, and Sweden. In addition, Washburn belongs to the Magellan Exchange consortium, which provides additional opportunities in Austria, Belgium, Costa Rica, Finland, Denmark, The Netherlands, Serbia, and South Korea.

Type 2: Study in a program offered by a study abroad program provider, another accredited U.S. Institution or approved consortium/program.

Type 3: Participate in a study abroad program or internship coordinated and taught by Washburn faculty or for Washburn credit, in programs offered occasionally by some schools or departments (e.g.: School of Business, School of Law, School of Nursing, Departments of Art, Criminal Justice, Modern Languages, Political Science, and others). Mostly, these are short term programs (one to four weeks).

Besides these types, in some cases and under Washburn faculty supervision, students can also study abroad in other foreign institutions with which Washburn does not have an agreement. Other types of foreign study or experience (for example, involvement in a humanitarian project abroad) are considered as well.

Leadership WTE

Website: <https://www.washburn.edu/academics/leadership-community/academic-programs/leadership-wte.html>

Coordinator: Madeline Lambing
Plass Learning Resources Center, Room 217
(785) 670-2000

Purpose: Students who serve in leadership roles are transformed by improved self-understanding derived from practical experience and examination of inspirational examples of selfless leadership service; they graduate from the University as citizens who recognize the abundance of leadership opportunities and are ready to accept the mantle of responsibility that comes with these opportunities.

Students who choose to pursue a Washburn Transformational Experience in Leadership currently:

1. Complete with a grade of "C" or better 1-3 semester hours of college coursework consisting of an academic study of leadership (e.g., LE 100 Exploring the Concept of Leadership, LE 398 Special Projects - Leadership or any other course, provided that the unit offering the course and the Director of the Aleshire Center for Leadership and

Community Engagement or Leadership WTE Coordinator endorse it as an academic study of leadership); and

2. Complete a change project (approx. 50 hours) approved in advance by the Leadership WTE Coordinator.

Students who complete a Leadership Studies Minor or Certificate also complete a Leadership WTE in conjunction with their Leadership Studies program. In addition, an independent study may be arranged through the Aleshire Center for Leadership and Community Engagement which would encompass both the academic study component of the Leadership WTE as well as the change project requirement.

Through the associated course work and change project, students assess the strengths and weaknesses of their own leadership skills while considering how a leader becomes an effective change agent. Students will complete their experience by providing both written and oral reports that address what they learned about themselves and their own leadership skills, and how this learning has impacted their view of leaders and leadership.

Scholarly or Creative WTE

Website: <https://www.washburn.edu/academics/wte/scholarly-creative/index.html> (<https://www.washburn.edu/academics/wte/scholarly-creative/>)

Coordinator: Dr. Lindsey Ibanez
Plass Learning Resources Center, Room 217
(785) 670-1610

Purpose: Students who have engaged with faculty members to advance knowledge, create music or art or literature, or participate in other experiences that require a high level of intellectual stimulation or achievement, graduate from the University prepared to solve increasingly complex problems and to sort through complex and sometimes contradictory information in order to gain fresh insight.

The Scholarly or Creative transformational experience is a significant scholarly or creative project completed under the tutelage of a faculty member. The format of the project may vary, but it must be an independent project that is not part of a structured (faculty-planned) course. The project may be part of a capstone course in which students create or develop their own projects, but not a course in which the students simply follow the direction of an instructor. While the nature of these projects varies by discipline, the project should result in a significant commitment of scholarly and/or creative effort on the part of the student, as judged by the student's faculty mentor.

Study Abroad

Program Mission

The mission of Study Abroad is to provide Washburn University students with education opportunities that combine academic rigor with experiential and cultural learning through immersion in international destinations. We are committed to advising students and faculty on international education opportunities and maintaining collaborations with international partner universities and study abroad program providers.

International Education Washburn Transformational Experience (IE-WTE)

Students participating in an approved study abroad program may elect to complete the program as an International Education Washburn Transformational Experience (IE-WTE) (p. 60). By completing a study abroad program as an IE-WTE, students are eligible for the IE-WTE Scholarship. Awards vary depending on the cost and length of the program.

Scholarships and Financial Aid for Study Abroad

The Study Abroad Scholarship Committee recommends scholarships from designated endowments and IE WTE funds for qualified students. To be eligible for a scholarship a student must be a currently enrolled degree seeking student at WU and have completed a minimum of 12 hours at WU with a minimum C average. (Extenuating circumstances may be considered - check with the Study Abroad Coordinator.) Students may also apply most other types of financial aid, including student loans, toward the cost of their study abroad programs.

Study Abroad Credit Transfer

Students participating in credit bearing study abroad programs are required to complete a Study Abroad Credit Transfer Form with the Study Abroad Coordinator prior to beginning their program. This form confirms that the student consulted with his/her academic advisor and that the academic advisor approves the proposed program of study.

This also serves as a guarantee to the student that his/her credits will be transferred to his/her Washburn transcript upon successful completion of the program. A letter grade will only be posted if the course is required for the student's major or minor academic program. All other course work is posted as credit. All attempted coursework abroad will be reflected on the Washburn transcript, including failing grades. However, students will not earn credit for failed courses.

Study Abroad Programs

Washburn has study abroad exchange programs in France, Germany, Mexico, Spain, and Sweden. In addition, Washburn belongs to the Magellan Exchange consortium, which provides additional opportunities in Austria, Belgium, Costa Rica, Denmark, Finland, The Netherlands, Serbia, South Korea and the United Kingdom. Washburn Faculty also develop and offer short term study abroad programs in a variety of locations each year. Programs in many other countries can also be

arranged through study abroad program providers, other US schools and consortiums.

Regardless of the type of program chosen, participants must complete the Study Abroad Program Application process for approval. Students may also complete a Study Abroad Scholarship Application. The applications are available online at: <https://www.washburn.edu/studyabroad>.

The Department of Modern Languages reviews Study Abroad Program and Modern Languages Scholarship Applications for students who have declared Foreign Language as their major or minor.

Study Abroad Courses

Students who are planning to participate in an approved program in which they intend to transfer foreign credit will enroll in the appropriate Interdisciplinary Studies course(s) after consultation with the Study Abroad Coordinator. Courses require instructor's consent.

IS 201 Study Abroad Internal Program (1-18)

Approved study abroad program coordinated by the Office of International Programs.

IS 203 Study Abroad Departmental-Specific Program (1-18)

Approved departmental-specific study abroad program coordinated by the Office of International Programs.

IS 221 Study Abroad External Program (0-18)

Approved external (non-Washburn) study abroad program coordinated by the Office of International Programs.

IS 301 Study Abroad Internal Program (1-18)

Approved study abroad program coordinated by the Office of International Programs.

IS 303 Study Abroad Departmental-Specific Program (1-18)

Approved study abroad program coordinated by the Office of International Programs.

IS 321 Study Abroad External Program (0-18)

Approved external (non-Washburn) study abroad program coordinated by the Office of International Programs. Prerequisite: Consent of Instructor.

IS 420 Study Abroad Internal Program (1-18)

Approved senior- or graduate-level study abroad programs coordinated by the Office of International Programs.

IS 421 Study Abroad External Program (0-18)

Approved study abroad programs for senior- or graduate-level hosted by another US institution.

University Honors Program

Website: <https://www.washburn.edu/academics/honors-program/index.html> (<https://www.washburn.edu/academics/honors-program/>)

Dr. Kerry Wynn, Director
 Dr. Lindsey Ibañez, Associate Director
honors@washburn.edu
 Plass Learning Resources Center, Room 217

The mission of the Honors Program at Washburn University is to provide highly motivated and academically talented students with enriched educational experiences in and out of the classroom, enabling and empowering them to realize their full potential as critical thinkers, informed global citizens, and agents of change. Toward this end, the program provides curricular and co-curricular experiences supporting, promoting, and rewarding excellence in academic rigor, research and scholarship, leadership, and service learning.

Student Learning Outcomes

Upon successful completion of the Washburn University Honors Program, students will be able to:

- Formulate a specific position (perspective, thesis/hypothesis) that accounts for the complexities of the issue and weighs the positions taken by others.
- Interpret intercultural experience from the perspectives of their own and more than one worldview and demonstrate the ability to act in a supportive manner that recognizes the beliefs of another cultural group.
- Connect academic experiences in the classroom to activities outside of the classroom. Experience and reflect upon cultural, artistic, and political events as intellectuals.
- Design, conduct, and actively pursue independent educational experiences.

In pursuit of its mission, the University Honors Program provides many benefits for students including the following:

- Special sections of existing courses.
- Unique and engaging Honors courses that also satisfy general education requirements.
- Independent research opportunities, and other creative scholarly projects.
- Closer working relationships with distinguished faculty.
- Individual and Honors specific advising.
- Unique ways to have a voice in, and change, Honors and the University as a whole.
- Trademark events that include guest speakers, community engagements, and more.

Honors fits well with Washburn's many four-year degree programs and the tiered system allows students to pursue honors with varying degrees of involvement and receive recognition. Students work directly with the Honors Program Director to identify opportunities to explore, relate, and assimilate many diverse learning experiences. As Linus Pauling said, "The best way to have a good idea is to have lots of ideas." The University Honors Program is committed to providing students, faculty, and staff with opportunities to develop and implement good ideas.

University Honors Tiers and Involvement Requirements

"Honors Associate" – 12 Credit Hours of Honors Credit

"Honors Scholar" – 18 Credit Hours of Honors Credit

"Honors Graduate" – 24 Credit Hours of Honors Credit

Regardless of tier, students will be expected to complete an Honors Thesis Project (or similar scholarly/creative project, e.g., scholarly/creative WTE). In addition to curricular requirements, students may receive recognition for involvement in honors and intellectual pursuits.

University Honors Distinction

Students may graduate "with Distinction" or "with High Distinction" by participating in and reflecting on activities in 5 areas pursued by intellectually engaged individuals: inspiration, collaboration, independence, curiosity, and service. Students receive Distinction upon the completion of annual activities in each of the areas listed above and the submission of annual and comprehensive reflection portfolios. Students receive High Distinction based upon the evaluation of the quality of their portfolio by a faculty committee. Additional information regarding activities, reflection, and assessment is available from the Program Director.

Each curricular tier can be combined with any level of involvement (e.g., University Honors Graduate with High Distinction).

Admission Criteria

Entering freshman students with an unweighted high school GPA of 3.5 or higher and/or an ACT of 28 or higher are especially encouraged to inquire about the University Honors Program by submitting a completed application (found on the University Honors website). Individuals may apply on their own initiative, be recommended to apply by their high school or college faculty, or be invited to apply by the Director of University Honors. Students who meet the minimum criteria and successfully complete the application process (application materials can be found online at <https://www.washburn.edu/academics/honors-program/index.html> (<https://www.washburn.edu/academics/honors-program/>)) will be invited to join the community of exceptional learners and thinkers.

Although proven scholastic performance is important, the Honors Director will place substantial emphasis on students' ability to benefit from and contribute to the program. Once admitted into the program, students who complete requirements associated with a given tier (listed above) will have their transcripts listing the completed tier and involvement if completed. Washburn is an institutional member of the National Collegiate Honors Council and an institutional member of the regional Great Plains Honors Council.

Course Offerings

EN 102 Freshman English Honors (3)

The analysis of texts that purport to gather facts, to structure experience into pleasing formal structures, to persuade others to action, judgment, or evaluation, and to articulate principles whose power shapes diverse experiences into meaningful patterns of coherence. The writing of expository prose that communicates thoughtfully and clearly the results of those analyses. Open to those students accepted into the University Honors Program and by invitation from the Composition staff.

HN 101 Honors First Year Experience (3)

HN 101 is a three credit hour course, designed for first-year honors students (incoming honors freshmen) providing students with a common first-semester experience. The course will substitute for WU101 thereby fulfilling this university-wide requirement. Like WU 101, course content will focus upon information literacy, technology, and the transition into the Washburn University Community of Learning in addition to exposure to co-curricular activities (a.k.a., passport activities). Common themes such as the exploration of writing, study skills, research, wellness, technology, plagiarism, and others will be covered to introduce students to a series of best practices for success. HN 101 differs from WU 101 in general in that additional topics will be explored and some shared topics with WU 101 (e.g., writing) be emphasized more. For example, students will learn more about conducting research through instruction and by conducting a group research project, complete a service learning project, and actively participate in seminar-style discussions covering assigned readings. Prerequisite: Accepted into Honors program.

Course Attribute: USLO: Information Literacy and Technology

HN 201 Seminar Humanities Fine Arts (3)

An integrated humanities topics course that takes some special problem, theme, or subject matter and explores it from a humanistic perspective. Topics vary from semester to semester. Satisfies three hours of general education credit in the humanities and fine arts. May be taken more than once with different topics.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

HN 202 Seminar in the Social Sciences (3)

An integrated social sciences topics course that takes some special problem, theme, or subject matter and explores it from the perspective of the social sciences. Topics vary from semester to semester. Satisfies three hours of general education credit in the social sciences. May be taken more than once with different topics.

Course Attributes:

- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

HN 203 Seminar Physical Science & Mathematics (3)

A special topics course that takes some special problem or subject matter and explores that subject matter or problem from the perspective of the natural sciences or mathematics. Topics vary from semester to semester. Satisfies three hours of general education credit in the natural sciences and mathematics. May be taken more than once with different topics.

Course Attributes:

- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Critical and Creative Thinking

HN 301 Seminar Humanities Fine Arts (3)

An integrated humanities topics course that takes some special problem, theme, or subject matter and explores it from a humanistic or fine arts perspective. Topics vary from semester to semester. May be taken more than once with different topics. Prerequisites: Sophomore Standing.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

HN 302 Seminar in the Social Sciences (3)

An integrated social sciences topics course that takes some special problem, theme, or subject matter and explores it from the perspective of the social sciences. Topics vary from semester to semester. May be taken more than once with different topics. Prerequisite: Sophomore standing.

Course Attributes:

- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

HN 303 Seminar Natural Sciences & Mathematics (3)

A special topics course that takes some special problem or subject matter and explores from the perspective of the natural sciences or mathematics. Topics vary from semester to semester. May be taken more than once with different topics. Prerequisites: Sophomore Standing.

Course Attributes:

- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Critical and Creative Thinking

HN 305 Colloquium Liberal Arts Professional Disciplines (3)

A special topics course that involves the study of the relationship of the professional disciplines – for example, law, education, business, public planning and administration, social work or other applied studies, the health professions – to the liberal arts, or one of the liberal arts – for example, history, poetry, rhetoric, or philosophy.

HN 392 Directed Readings (1-3)

A special topics course designed to allow students and faculty the opportunity to explore and develop areas of study as a foundation for thesis work.

HN 399 Honors Thesis (1-6)

Independent research in a specified area approve by the Dean of University Honors.

University Interdisciplinary Academic Programs

- Information Literacy Studies, Minor (p. 65)

- Reserve Officer Training Corps (p. 67)

Information Literacy Studies, Minor

Sean Bird, Director
Associate Dean, University Libraries

Description

Information Literacy at Washburn University is an online program open to all baccalaureate students in all majors and degree programs. The program contains both theoretical and experiential components, for a total of 15-credit hours. The primary objective of the program is to teach students Information Literacy and prepare them to take an active role in lifelong learning in the Information Age into which they will graduate and live their professional lives. The IL Minor directly supports the Washburn University student learning outcome Information Literacy and Technology.

Students will choose three upper-division courses tailoring their individual Information Literacy Minor paths to complement their major classes and career goals. Elective course requirements shall remain flexible to the addition of new online curriculum and/or departmental offerings across campus.

Student Learning Outcomes

Upon successful completion of the Information Literacy Minor, students will be able to:

- Define the nature and extent of information needed.
- Identify types of information resources available.
- Evaluate information and sources critically.
- Use information effectively to accomplish a purpose.

Minor Requirements

The program requirements for the Information Literacy Minor at Washburn are: 15 total credit hours (6 required credits)

Code	Title	Hours
CM 101	Computer Concepts and Applications	3
IL 170	Library Research Strategies	1
IL 171	Internet Research Strategies	1
IL 172	Advanced Research Strategies	1
Select three of the following:		9
IL 300	Information Literacy for Scholars	
IL 301	Google and Beyond	
IL 311	Information Literacy Health Professions	
IL 321	Information Organization and Access	
IL 351	Information, Culture, & People	
IL 398	Information Literacy Readings	
IL 399	Information Literacy Research	
Total Hours		15

IL 170 Library Research Strategies (1)

Designed to both introduce and improve basic library research skills using the print and automated information retrieval resources of the University Library. Additional in-depth analysis of database sources, the ability to construct search strategies and evaluation of materials are covered. Prerequisites: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- Gen Ed Pre-AY 2024-2025: Natural Science
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Information Literacy and Technology

IL 171 Internet Research Strategies (1)

Designed to both introduce and improve research strategies for finding scholarly information on the Internet, including resources in the Invisible Web that cannot be accessed with standard search engines, such as Google. Students will learn to formulate and modify an effective search strategy, investigate the theory behind the search process, and critically evaluate electronic resources based on appropriate criteria. This course is offered on-campus, on-line or hybrid. Prerequisites: IL 170.

IL 172 Advanced Research Strategies (1)

Designed to introduce and improve advanced research strategies for students that have completed both IL 170 and IL 171. Students will focus on research in the disciplines and create artifacts for an identified discipline. This course is ideal for students that are interested in designing a research plan for publication. This course is offered on-campus, on-line or hybrid. Prerequisites: IL 171.

IL 174 Trace Your Family History (1)

In this course, students will use an advanced approach to the research process and methods for retrieving information for a scholarly paper or presentation. Experience in the research process, selecting a topic, and retrieving information on topics is required. Focus is on developing the following skills: understanding the many types of research, methods, delivery of research results in the academic community. Prerequisites: None.

IL 300 Information Literacy for Scholars (3)

In this course, students will use an advanced approach to the research process and methods for retrieving information for a scholarly paper or presentation. Experience in the research process, selecting a topic, and retrieving information on topics is required. Focus is on developing the following skills: understanding the many types of research, methods, delivery of research results in the academic community. Prerequisites: None.

IL 301 Google and Beyond (3)

An introduction to information searching and evaluating information in digital, print, visual, and aural formats, students will learn advanced search techniques used in online resources. Students will develop skills to locate reliable information to become and remain informed citizens. This class will improve student communication, critical thinking, and information literacy skills. Prerequisites: None.

IL 311 Information Literacy Health Professions (3)

This course acquaints students with the processes of finding, organizing, using, producing and distributing information in a variety of formats specific to the Health Sciences. Students will examine the flow of information in a variety of Health Sciences disciplines, effective research processes, how to access information in multiple formats and how to formulate effective searches in health specific electronic databases and on the Internet. Learning how to evaluate the quality of information and becoming familiar with practical, social and ethical issues relating to information within the health professions in an increasingly technological society is a key component of the course. This class seeks to improve student communication, critical thinking and information literacy skills in health professions. Prerequisites: None.

IL 321 Information Organization and Access (3)

This course introduces the fundamentals of identifying objects or ideas, including description, content indication, and metadata. Students will learn basic aspects of representing and organizing information resources in daily lives or academic settings. This class will improve student communication, critical thinking, and information literacy skills. Prerequisites: None.

IL 351 Information, Culture, & People (3)

In a study of how individuals and groups create meaning, students will explore research topics concerning people and communication, including information literacy, organization and innovation, knowledge management, and information as cultural phenomenon. Students will study various international and generational cultures' access to and ways to share information, preparing them for interaction with professional colleagues from varied backgrounds. This class will improve student communication, critical thinking, information literacy skills, and understanding of the knowledge society. Prerequisites: None.

IL 398 Information Literacy Readings (3)

The 3-credit forum course for Information Literacy Minors to provide students guidance and training in the skills and processes necessary for the practice of Information. The course draws upon research methods and critical analysis culminating with an annotated bibliography. Also, students will be introduced to opportunities in the Information Literacy field and the ethics of information literate citizens in the knowledge society. The course will be delivered online. Prerequisites: IL 170, IL 171, and IL 172 or consent of instructor.

IL 399 Information Literacy Research (1-3)

The capstone course for Information Literacy Minors devoted to guided and independent research, developing bibliographic techniques in the creation of a written artifact and culminating in a presentation to the class. The course will be delivered online. Prerequisites: IL 170, IL 171, and IL 172 or consent of instructor.

Interdisciplinary Studies

Interdisciplinary courses have content derived from various academic disciplines. Courses may be taught by a single faculty member proficient in the course content or jointly by two or more faculty members from different segments or areas. The interdisciplinary program is administered by a faculty committee chaired by the Provost and Vice President for Academic Affairs or their designee.

IS 000 Reservation Placeholder (0)**IS 110 Special Topics (0-6)**

Special topics in interdisciplinary studies announced in advance. May be repeated with different topics. Prerequisite: Consent of Instructor

IS 201 Study Abroad Internal Program (1-18)

Approved study abroad program coordinated by the Office of International Programs.

IS 203 Study Abroad Departmental-Specific Program (1-18)

Approved departmental-specific study abroad program coordinated by the Office of International Programs.

IS 221 Study Abroad External Program (0-18)

Approved external (non-Washburn) study abroad program coordinated by the Office of International Programs.

IS 270 Grant Writing I (3)

This internship course is designed to provide pre-professional work experience, in a sponsored projects office, to facilitate professional development and career exploration in grant writing and grant proposal development in response to either a private or a public opportunity. Prerequisite: None.

IS 300 Mock Trial II (1)

Enrollment is open only to students selected to the Mock Trial Team.

IS 301 Study Abroad Internal Program (1-18)

Approved study abroad program coordinated by the Office of International Programs.

IS 303 Study Abroad Departmental-Specific Program (1-18)

Approved study abroad program coordinated by the Office of International Programs.

IS 321 Study Abroad External Program (0-18)

Approved external (non-Washburn) study abroad program coordinated by the Office of International Programs. Prerequisite: Consent of Instructor.

IS 389 Integrated Studies Capstone Proposal (1)

This course is the prerequisite course to the IS 390 Capstone Project course and must be taken the semester immediately preceding IS 390 or special permission by the BIS Director. This course is designed to assist the student in developing an appropriate capstone project. Prerequisite: At least thirty completed hours from either the Individualized Study Plan (ISP) or the Multi-Disciplinary Study Plan (MDSP) or special permission by the BIS Director.

IS 390 Integrated Studies Capstone (1-7)

The thoughtful integration of diverse materials is a major demand on the student working toward a Bachelor of Integrated Studies. The format may vary in terms of the student's special interests, abilities, imagination, and creativity. May consist of a research paper, a comprehensive written examination on selected reading materials, an oral presentation, or a special performance utilizing one or more art forms or modes of expression. Prerequisite: IS 389 or by consent of the BIS Director.

IS 400 Special Topics (0-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: Consent of instructors.

IS 420 Study Abroad Internal Program (1-18)

Approved senior- or graduate-level study abroad programs coordinated by the Office of International Programs.

IS 421 Study Abroad External Program (0-18)

Approved study abroad programs for senior- or graduate-level hosted by another US institution.

IS 470 Grant Writing II (3)

This internship course is designed to provide pre-professional work experience, in a sponsored projects office, to facilitate professional development and career exploration in grant writing and grant proposal development in response to both private and public grant opportunities. Prerequisite: None.

IS 471 Grant Administration Internship (3)

This course is designed to provide pre-professional work experience, in a sponsored projects office, to facilitate professional development and career exploration in the administration and management of a grant (sponsored project) award. Prerequisite: IS 270 or IS 470.

Reserve Officer Training Corps

Air Force Reserve Officer Training Corps (ROTC)

Air Force ROTC – Det 270 (KSU)
1304 N. 17th Street, Room 108
Manhattan, KS 66506-2101
(785)532-6600 afrotc@ksu.edu

Air Force ROTC – Det 280 (KU)
AFROTC Detachment 280
1520 Summerfield Hall Drive, Room 109
Lawrence, KS 66045-7605
(785)864-4676 afrotc@ku.edu

Program Eligibility and Enrollment

Students from Washburn University, Barton County Community College-Fort Riley Campus, and Manhattan Christian College may currently attend Kansas State University for Air Force ROTC (AFROTC) classes while simultaneously working towards their degree from these other schools. They will be enrolled in the AFROTC classes as non-degree seeking students at K-State. Students from Washburn University, Baker University, Benedictine College, Donnelly College, Haskell Indian Nations University, Johnson County Community College, Mid-Nazarene University, Ottawa University, and the University of St. Mary may currently attend the University of Kansas for Air Force ROTC (AFROTC) classes while simultaneously working towards their degree from these other schools. They will be enrolled in the AFROTC classes as non-degree seeking students at KU.

General Information

The Air Force Reserve Officer Training Corps provides the best means for undergraduate students to become officers in the United States Air Force. Upon completion of the university program, students are commissioned second lieutenants, and then enter active duty service.

Any undergraduate student with at least three years left in their degree program who is a U.S. citizen may apply to become a cadet by enrolling in AERO 110 and AERO 099 at Kansas State or AIR 100 and AIR 144 at KU. The duration of the program is typically four years but can be condensed into three years or expanded to five years, depending upon an applicant's academic major.

Scholarships

Full-time students who qualify to become Air Force officers, with three or more years left for degree completion (including graduate study), are eligible to apply for scholarships. If selected, students will have their tuition, fees, and a book allowance paid for by the U.S. Air Force; they

will also receive a \$300 to \$500 monthly stipend while in school. All payments are tax free.

High school students considering the four-year Air Force High School Scholarship Program must be highly motivated toward becoming Air Force officers. To qualify, students should be above-average scholars, be physically capable, possess leadership potential, and apply before January of their senior year of High School. Financial benefits are the same as the undergraduate scholarships mentioned earlier. Applicants should contact their high school counselor or visit afrotc.com for more details on the high school scholarship program.

Four-year program

Basic course: Students electing the four-year program normally will begin with the General Military Course (GMC) during the freshman or sophomore year. This program consists of four semesters of 1 credit hour each and enrollment in the Air Force ROTC Leadership Lab. Aerospace Studies GMC courses are open to all students at the university without obligation to military service. Students in the GMC are provided uniforms, texts, and other equipment needed for their AFROTC courses.

Advanced course: The Professional Officer Course (POC) is the upperclass program and consists of four courses of 3 credit hours each, over a period of four semesters. All cadets in the POC become members of the Air Force Reserve and receive \$450 to \$500 a month and all necessary AFROTC texts and equipment. Upon completion of the POC and their degree requirements, students are commissioned as second lieutenants in the United States Air Force.

Field training: Cadets practice their leadership and management skills in a cadet group. Cadets who are in the four-year program attend 13 days of field training at an Air Force base during the summer prior to entering the POC. During training, cadets are paid and receive travel pay to and from the training base.

Extracurricular activities: Students enrolled in Air Force ROTC may participate in many activities including detachment-sponsored events and social functions. Cadets pursuing officers' commissions are eligible for membership in the Arnold Air Society, a national honorary professional and service organization established to foster good relations among Air Force ROTC, the Air Force, the campus, and the local community. Participation in the Arnold Air Society is voluntary. Students are also eligible to participate in Honor Guard, a team that presents the colors at University and local community events.

Aerospace Studies Minor: Students who complete the AERO program and select physics and science classes at Kansas State University can earn an Aerospace Studies minor.

Air Force ROTC Courses (taken at KSU or KU)

AERO 099 (KSU) or AIR 100 (KU) - Aerospace Studies Lab (0)

The leadership laboratory for aerospace studies. Students will receive leadership training and experience as well as training in Air Force customs and courtesies. This course runs concurrently with AERO/ AIR 100, 200, 300, and 400 level classes; is required for all cadets; and includes mandatory physical fitness training.

AERO 110 (KSU) or AIR 144 (KU) – The Foundation of the United States Air Force – Heritage and Values 1 (Fall Only, 1)

Introduces the Air Force (AF) by examining general aspects of the Department of the AF, AF Leadership, AF benefits and opportunities for

AF Officers. This course lays the foundation for Airman by outlining our heritage and values through topics such as: customs and courtesies, AF standards, formation of the AF and building officer communication skills.

AERO 111 (KSU) or AIR 148 (KU) - The Foundation of the United States Air Force – Heritage and Values 2 (Spring Only, 1)

Builds on AERO 110 and the introduction to the Air Force (AF) by examining general aspects of the Department of the AF, AF Leadership, AF benefits and opportunities for AF Officers. This course continues to lay the foundation for Airman by outlining our heritage and values through lessons such as: war and the US military, AF operations, principles of war and airpower.

AERO 210 (KSU) or AIR 284 (KU) – Team and Leadership Fundamentals 1 (Fall Only, 1)

Provides a fundamental understanding of both leadership and team building. Covers subjects such as self-assessment, listening, followership, problem solving, motivation, and standards and accountability.

AERO 211 (KSU) or AIR 288 (KU) - Team and Leadership Fundamentals 2 (Spring Only, 1)

Builds on the fundamental understanding of both leadership and team building started in AERO 210. Covers subjects such as building teams, human relations, conflict management, feedback, and ethical decision making.

AERO 310 (KSU) or AIR 344 (KU) - Officer Leadership Studies 1 (Fall Only, 3)

A study of USAF professionalism, leadership, and management includes the meaning of professionalism, professional responsibilities, leadership theory, functions and practices, management principles and functions, problem solving, and management tools, practices, and controls.

AERO 311 (KSU) or AIR 348 (KU) - Officer Leadership Studies 2 (Spring Only, 3)

Continuation of AERO 310.

AERO 410 (KSU) or AIR 404 (KU) - Regional Studies and Defense Policy (Fall Only, 3)

This course will examine the role of the professional officer in a democratic society; socialization processes within the armed services; the requisites for maintaining adequate national security forces; political, economic, social constraints upon the overall defense policy-making process, and the global environment that the military exists within.

AERO 411 (KSU) or AIR 408 (KU) - Aerospace Studies/Civil Military Relationships (Spring Only, 3)

Focuses on the complex environment of rules and regulations that an Air Force officer lives within. Examines how a new military officer functions both as a leader and as an Air Force member. Communicative skills are stressed.

Army ROTC

Under an agreement between Washburn University, the University of Kansas, and the U.S. Army, students may participate in Army ROTC classes taught at the University of Kansas. Army ROTC classes may be taken by any Washburn student and are available to students at **no tuition cost**. For those that contract into the program, the culmination of the ROTC program is a commission as an officer in either the active army or in the Army Reserve or National Guard.

For those that choose to seek a commission while participating in ROTC, students pursue an academic degree in any academic major of their choice. ROTC classes are divided into basic and advanced courses. All necessary ROTC books and equipment are provided to the student free of charge.

For those interested in scholarship opportunities, Army ROTC awards four-year, three-year, and two-year scholarships on a competitive basis. For detailed scholarship information contact Lawrence Jenkins, Operations Officer, Admissions & Scholarship, (785) 864-1113, lawrence.v.jenkins@ku.edu (lawrence.v.jenkins@ku.edu).

Army ROTC Courses (taken at KU)

ARMY 101 Introduction to Military Science I (1)

Required introductory course for the Army military science program. Course is comprised of lecture, laboratory and physical fitness weekly, as well as other field training exercises. Introduces the military science program as an element of the reserve forces and includes an examination of major legislation, the Army organization structure, and military leadership techniques. Course must be taken in conjunction with ARMY 101L.

ARMY 101L Army ROTC Lab (0)

Required ROTC Lab. Must be taken in conjunction with ARMY 101.

ARMY 102 Introduction to Military Science II (1)

Course comprised of lecture, laboratory and physical fitness weekly, as well as other field training exercises. A general study and appreciation of the American military system from colonial times to the present. The course identifies factors present in the American society and national policy in each particular historical period which influenced the development of American military systems. The relationship between the military establishment and the larger American society is examined in each historical period. Course must be taken in conjunction with ARMY 102L Lab. Prerequisites: ARMY 101/ARMY 101L or department approval.

ARMY 102L Army ROTC Lab (0)

Required ROTC Lab. Must be taken in conjunction with ARMY 102.

ARMY 201 Basic Military Science I (1)

Course comprised of lecture, laboratory, and physical fitness weekly, as well as other field training exercises. Analyzes the principles of war and military leadership at small unit level, and introduces principles of military writing. Course must be taken in conjunction with ARMY 201L Lab. Prerequisites: ARMY 102/ARMY 102L or department approval.

ARMY 201L Army ROTC Lab (0)

Required ROTC lab. Must be taken in conjunction with ARMY 201.

ARMY 202 Basic Military Science II (1)

Course is comprised of lecture, laboratory, and physical fitness weekly, as well as other field training exercises. Curriculum consists of the fundamentals of topographic map reading and their application in a field environment. Includes instruction in various types of maps, marginal information, topographic symbols and colors, scale, distance, direction and use of the magnetic compass. Course must be taken in conjunction with ARMY 202L Lab. Prerequisites: ARMY 201/ARMY 201L or department approval.

ARMY 202L Army ROTC Lab (0)

Required ROTC lab. Must be taken in conjunction with ARMY 202.

ARMY 301 Theory & Dynamics of Tactical Operations I (3)

Course is comprised of lecture, laboratory, and physical fitness weekly, as well as other field training exercises. A comprehensive study of conventional tactical operations. Emphasizes the fundamentals of land warfare and the qualities necessary to conduct fluid, non-linear operations. Introduces the student to the tenets of Air-Land Battle, the underlying structure of modern warfare, the dynamics of combat power, and the application of classical principles of war to a contemporary battlefield. Prerequisite: ARMY 202 or department approval.

ARMY 301L Army ROTC Lab (0)

Required ROTC lab. Must be taken in conjunction with ARMY 301.

ARMY 302 Theory & Dynamics of Tactical Operations II (3)

Course is comprised of lecture, laboratory, and physical fitness weekly, as well as other field training exercises. Expands on the application of conventional tactical operations in the low, medium, and high intensity conflict spectrum. Examines the three-dimensional nature of modern warfare and the unified battlefield. Prerequisite: ARMY 301 or department approval.

ARMY 302L Army ROTC Lab (0)

Required ROTC lab. Must be taken in conjunction with ARMY 302.

ARMY 303 Military Conditioning (1)

Introduction to the theoretical and practical aspects of developing physical fitness programs for all Army personnel from the commander or supervisor's perspective. Provides an overview of total fitness, defines physical fitness, outlines the phases of fitness, discusses various types of fitness programs, and presents evaluation criteria.

ARMY 401 Concepts of Military Management (3)

Course is comprised of lecture, leadership, and physical fitness weekly, as well as other field training exercises. An introduction to the military management system with special attention to the functions, organizations, and operations of military training, logistics and administration. The use of standardized staff formats in the development of plans and orders is emphasized from the standpoint of the leader with limited resources. Extensive use of standard staff procedures is emphasized in problem solving scenarios. Prerequisite: ARMY 302 or department approval.

ARMY 401L Army ROTC Lab (0)

Required ROTC lab. Must be taken in conjunction with ARMY 401.

ARMY 402 The Military Profession (3)

Course is comprised of three hours of lecture and two hours of leadership laboratory per week. A seminar on the military profession as an object of social inquiry. Focus is on the internal structure of the profession, current problems, and interaction with the larger American society. Seminar topics include but are not limited to the following: a historical perspective on the military profession; civil-military relations; social and political impact of military activities; military justice; professionalism versus careerism. One hour lecture and one hour lab (ARMY 402L) per week. Prerequisite: ARMY 401 or KU department approval.

ARMY 402L Army ROTC Lab (0)

Required ROTC lab. Must be taken in conjunction with ARMY 402.

ARMY 450 Military Analysis (1)

A study of present and future military operations; emphasis placed on analysis of problem. The student will defend his/her analysis through written and oral presentations. Prerequisite: Department approval.

College of Arts and Sciences

Website: <https://www.washburn.edu/academics/college-schools/arts-sciences/index.html> (<https://www.washburn.edu/academics/college-schools/arts-sciences/>)

Faculty

Kelly Erby, PhD, Dean and Professor
 Maria Stover, PhD, Assistant Dean and Professor
 Matt Arterburn, PhD, Associate Dean and Professor
 Tracy Routson, PhD, Associate Date and Professor
 Dana King, Communications Coordinator and Assistant to the Dean
 Toni Lewis, Office Coordinator
 Christine Stoner, Office Coordinator

Mission

The College of Arts and Sciences seeks to engage students in a principled search for intellectual growth and development. In the same progressive spirit that motivated its founders, the College strives to provide all students an education in the liberal arts and sciences, so they may acquire, create, communicate, and integrate knowledge to enrich their own lives and be prepared for positions of responsibility as active citizens of their local communities and our global society. The College promotes community engagement, interdisciplinary opportunities, small classes, and diversity in its faculty and student body.

History

From its inception, the College of Arts and Sciences has been entrusted with the responsibility for providing the liberal education central to the mission of Washburn University. Maintaining a standard of excellence in all of its programs, the College strives to motivate and challenge students to develop creative thinking, aesthetic awareness, and discriminating judgment, as well as a sense of purpose and a zeal for continued independent and formal learning.

Through its faculty, the College remains the advocate for liberal education as a force for adaptation to an everchanging world. Faculty commitment to the triad of teaching, scholarship, and service helps guide students in specialized ways while exposing them to broad areas of knowledge encompassed by liberal education. This combination of generalized and specialized learning leads to the integrated understanding characteristic of an educated person.

Why a College of Arts and Sciences Degree?

The College of Arts and Sciences promotes "learning for a lifetime" across a variety of disciplines. Although the content and focus of course work may vary across disciplines, several themes characterize all departments and programs within Arts and Sciences. Faculty pay attention to students as individuals. Course offerings are designed to meet the needs of a diverse student population. Students work with Ph.D.'s from the beginning of their academic careers. Majors are well-known as individuals and valued as members of a departmental family. Alumni have gone on to do extraordinary things. Among the graduates of the college are a Nobel Prize winner, Governors, CEOs, Members of Congress, Presidential candidates, nationally recognized coaches, world-renowned scientists, entrepreneurs, academics, and writers.

Arts and Sciences students win honors. The debate team has won several national championships in American parliamentary debate. Math,

science, and social science majors regularly publish their scholarship. Humanities and performing arts students frequently receive prestigious awards. Year after year, Arts and Sciences graduates are accepted into esteemed graduate and professional schools or go immediately into interesting jobs and begin making important contributions to their communities.

Success in every profession depends on the ability to think critically, recognize new trends, find the key questions in new contexts, and recognize the consequences of new answers. The College provides students with the skills necessary to meet future challenges.

The College of Arts and Sciences offers a broadly based liberal education for all students, regardless of their specific objectives. The College also promotes career-oriented endeavors, including a number of terminal programs and practical experiences in the field, and prepares qualified students for graduate and professional schools.

Graduation Requirements

Each candidate for a degree must meet the general requirements for graduation and the specific requirements for the degree desired.

Declaring A Major

In order to ensure the early and proper selection of a field of concentration, students seeking a baccalaureate degree are expected to file a declaration of major by the time they have completed 54 hours. Declaration of a major is made by visiting or contacting the prospective major department. After the information has been submitted, the student will receive an e-mail confirming the declaration or change and if approved, an advisor will be assigned.

Departmental Minor

A departmental minor in the College of Arts and Sciences shall consist of no less than 15 hours in one discipline as specified by the department. Of these, at least 6 hours must be at the upper-division level. Students must have a grade of C or better in each course in the minor. A minimum of six hours used to meet the minor requirements must be earned in residence at Washburn University.

Interdisciplinary Minor

An interdisciplinary minor in the College of Arts and Sciences shall consist of no less than 15 hours in at least two different disciplines as specified by the minor program. Of these, at least 9 credit hours must be outside of the major discipline. Students must have a grade of C or better in each course in the minor. A minimum of six hours used to meet the minor requirements must be earned in residence at Washburn University.

Certificates

A certificate in the College of Arts and Sciences shall consist of at least 9 credit hours. Students must have a grade of C or better in each course for the certificate. A minimum of six hours used to meet the certificate requirements must be earned in residence at Washburn University.

Degrees and Programs

Requirements for all Arts and Sciences Baccalaureate Degrees

To receive any baccalaureate degree from Washburn's College of Arts and Sciences a student entering Washburn direct from high school must

complete WU 101 The Washburn Experience or HN 101 Honors First Year Experience (conditional upon admittance into the Honors Program) with a minimum grade of C.

Notes on requirement above:

1. Students not direct from high school entering Washburn University with less than 24 hours completed at an accredited post-secondary institution who have not completed a university success course with a minimum grade of C enroll in WU 101 The Washburn Experience or HN 101 Honors First Year Experience (conditional upon admittance into the Honors Program) as determined by their Academic Advisor.
2. Students transferring to Washburn University with 24 or more credit hours completed at an accredited post-secondary institution (after graduating from High School) with a GPA of 2.0 or higher are exempt from the requirement to take WU 101 The Washburn Experience or HN 101 Honors First Year Experience. They are strongly encouraged to complete a series of independent online modules introducing them to the Washburn University Community of Learning. Other exemptions may be made by the dean of the College of Arts and Sciences.
3. Students not falling in designated categories will be reviewed by Academic Advisors for applicable placement recommendations.
4. Students originally determined as being required to complete WU 101 The Washburn Experience or HN 101 Honors First Year Experience who advance beyond 24 hours of credit without fulfilling the requirement with a minimum grade of C are required to complete a 3-credit hour Directed Readings project (IS 110 Special Topics) administered by the FYE Lecturer/Coordinator.

To receive any baccalaureate degree from Washburn's College of Arts and Sciences students must also complete an upper-division composition course (EN 300 Advanced College Writing, EN 308 Scientific and Technical Writing, or EN 312 Theories of Persuasive Writing).

To receive a BA, BFA, BM, BMA, BPA, or BS degree from Washburn University, students must complete a minimum of 99 semester hours of credit in courses that either are offered in the College of Arts and Sciences or would normally be taught by a discipline in a college of arts and sciences.

To receive a BEd degree from the College of Arts and Sciences at Washburn University students must complete 72 semester hours of credit in courses that either are offered in the College of Arts and Sciences or would normally be taught by a discipline in a college of arts and sciences.

In certain instances, such as when students are pursuing a dual degree, double major, or minor in a program outside of the College, it may be possible to reduce the number of credit hours required from the College of Arts and Sciences. Such requests should be made to the Dean of the College.

There is no minimum requirement for credit hours within the College of Arts and Sciences for students pursuing the Bachelor of General Studies degree or Bachelor of Integrated Studies.

Degrees

- Bachelor of Arts (BA) (p. 73)
- Bachelor of Education (BEd) (p. 73)
- Bachelor of Fine Arts (BFA) (p. 73)
- Bachelor of General Studies (BGS) (p. 73)

- Bachelor of Integrated Studies (BIS) (p. 74)
- Bachelor of Music (BM) (p. 74)
- Bachelor of Musical Arts (BMA) (p. 74)
- Bachelor of Public Administration (BPA) (p. 74)
- Bachelor of Science (BS) (p. 75)
- Bachelor of Science in General Science (BS) (p. 75)
- Associate Degrees (p. 75)

Programs

A

- Actuarial Science Specialization, BA-BS (p. 178)
- Administrative Communication, BIS (p. 157)
- African American and African Diaspora Studies, Minor (p. 76)
- Anthropology (Forensic Concentration), BS (p. 96)
- Anthropology, BA (p. 96)
- Anthropology, Minor (p. 97)
- Applied Media, Minor (p. 173)
- Applied Statistics Specialization, BA-BS (p. 178)
- Applied Statistics, Minor (p. 179)

W

- Web Technology Utilization Emphasis, BIS (p. 158)
- Women's and Gender Studies, Minor (p. 91)

Bachelor of Arts (BA)

Each candidate for the degree is required to complete the following:

- A minimum of 120 hours, 84 of which must be graded and 45 of which must be at the 300 or 400 level.
- A minimum of 99 semester hours of credit in courses that either are offered in the College of Arts and Sciences or would normally be taught by a discipline in a college of arts and sciences.
- A major consisting of no less than 24 hours in the discipline, of which at least 12 must be at the upper division level.
- Eighty hours outside the major discipline.
- All general education requirements (p. 50).
- WU 101 The Washburn Experience.
- An upper-division English composition course (EN 300, EN 308, or EN 312).
- The 102-level course in one of the languages offered by the Department of Modern Languages, or the equivalent. Course work taken to fulfill this requirement may not be applied toward general education requirements for completing the BA degree. Equivalents of the required course work are defined as follows:
 - Successful completion of a similar course of study in a foreign language taken at an accredited post-secondary institution.
 - Successfully challenging the departmentally administered 102 level examinations or a score of "4" or higher on the AP or a score of 63 on the CLEP foreign language examinations.
 - **Note:** Native speakers of a language other than English may not receive credit for any 100 level courses in that language.
- Candidates must have a cumulative grade point average of at least 2.0 and a grade of C or better in each course in the major, required courses and English, math, and communication studies general education courses. A double major may be completed within the 120 hour total by meeting all the requirements of the two majors.

Students may also elect a minor or certificate. See the Student Services and Academic Support (p. 15) section of the catalog concerning hours transferred to Washburn University.

Bachelor of Education (BEd)

The College of Arts and Sciences offers a Bachelor of Education degree designed to meet the needs of those who want to teach at the middle school and/or high school levels and those who plan to teach physical education. A Bachelor of Education degree in elementary education is offered by the School of Applied Studies (p. 240).

Bachelor of Education degrees from the College of Arts and Sciences are available in the following areas of specialization: Chemistry, English, History, Math, Physical Education, Politics and Government, and Speech and Theatre.

The Bachelor of Education Degree requires at least 36 semester hours of core courses with other requirements determined by academic discipline. Majors in each discipline must meet the specific requirements of the selected specialization as describe in later sections of this catalog.

Bachelor of Fine Arts (BFA)

Each candidate for the degree is required to complete the following:

- A minimum of 120 credit hours, 84 of which must be graded and 45 of which must be at the 300-400 level.
- A minimum of 99 semester hours of credit in courses that either are offered in the College of Arts and Sciences or would normally be taught by a discipline in a college of arts and sciences.
- A major consisting of no less than 84 hours. BFA with Teacher Licensure includes courses from both Art and Education Departments as major requirements. (See Art Department (p. 98) for specific requirements for each concentration).
- All general education requirements (p. 50).
- WU 101 The Washburn Experience.
- An upper-division English composition course (EN 300, EN 308, or EN 312).
- Candidates must have a cumulative grade point average of at least 2.0 and a grade of C or better in each course in the major, required courses, and the English, math, and communication studies general education courses. A double major may be completed within the 120 hour total by meeting all the requirements of the two majors. Students may also elect a minor or certificate. See the Student Services and Academic Support (p. 15) section of the catalog concerning hours transferred to Washburn University.

Bachelor of General Studies (BGS)

Candidates for the Bachelor of General Studies degree must complete the following requirements:

- A minimum of 120 credit hours, 84 of which must be graded and 45 of which must be at the 300 or 400 level
- All general education requirements (p. 50).
- An upper-division English composition course (EN 300, EN 308, or EN 312).
- Minimum 2.0 GPA
- Minimum of 30 credit hours of the last 45 must be earned from Washburn University

- Minimum of 60 credit hours must be earned from a four-year institution
- There is no minimum requirement for credit hours within the College of Arts and Sciences

Bachelor of Integrated Studies (BIS)

Candidates for the BIS degree must meet all requirements for the Bachelor of Arts degree with the following exceptions:

- No major requirements.
- No foreign language requirement.
- No minimum requirement for credit hours within the College of Arts and Sciences.
- Candidates for the BIS degree are required to work with the BIS Director to develop an Individualized Study Program (ISP) or complete requirements for a pre-approved multi-department study program (MDSP). An ISP/MDSP consists of a minimum of 30 graded hours, including 12 hours of 300-400 level courses and a capstone project or internship approved by BIS Director.
- A grade of "C" or better is required for designated courses in ISP or MDSP.
- Courses applied to General Education distribution requirements may not be utilized to meet ISP/MDSP requirements.

Bachelor of Music (BM)

Candidates for the degree, Bachelor of Music, may choose a major in music performance or a major in music education. All students graduating with the Bachelor of Music degree will be expected to appear in recital. Participation in two large ensembles or accompanying is required during each semester of full-time enrollment. In addition, all full-time students are required to attend recitals and programs.

Music Performance Major

The major in music performance consists of a total of 121 hours, including 24 hours in private lessons. Those electing the performance major also must complete:

- All general education requirements (p. 50).
- WU 101 The Washburn Experience.
- An upper-division English composition course (EN 300, EN 308, or EN 312).
- A minimum of 99 semester hours of credit in courses that either are offered in the College of Arts and Sciences or would normally be taught by a discipline in a college of arts and sciences.
- Candidates must have a cumulative grade point average of at least 2.0 and a grade of C or better in each course in the major, required courses, and the English, math, and communication studies general education courses. A double major may be completed within the 120 hour total by meeting all the requirements of the two majors. Students may also elect a minor or certificate. See the Student Services and Academic Support (p. 15) section of the catalog concerning hours transferred to Washburn University.

Music Education Major

This program is designed for those who wish to teach in public or private schools. Students who pursue the P-12 Music Education Degree must meet the specific requirements of the selected specialization as described in the Music section of this catalog and the Music Student

Handbook. The successful completion of program requirements satisfies Kansas State Department of Education requirements for eligibility to apply for licensure to teach in public schools.

Bachelor of Musical Arts (BMA)

The program leading to the Bachelor of Musical Arts degree is designed for students planning to pursue a diverse array of professional careers in music. The BMA is a flexible and personalized degree that requires a complementary minor outside of music. With the help of the academic advisor, the student also selects a track of music electives that form an emphasis beyond the core music requirements.

The BMA consists of a total of 120 hours, including 14 hours in private lessons. Those pursuing this degree must also complete:

- All general education requirements (p. 50).
- WU 101 The Washburn Experience.
- An upper-division English composition course (EN 300, EN 308, or EN 312).
- A minimum of 99 semester hours of credit in courses that either are offered in the College of Arts and Sciences or would normally be taught by a discipline in a college of arts and sciences.
- Candidates must have a cumulative grade point average of at least 2.0 and a grade of C or better in each course in the major, required courses, and the English, math, and communication studies general education courses. A double major may be completed within the 120 hour total by meeting all the requirements of the two majors. Students may also elect a minor or certificate. See the Student Services and Academic Support (p. 15) section of the catalog concerning hours transferred to Washburn University.

Bachelor of Public Administration (BPA)

The Bachelor of Public Administration (BPA) degree is designed to meet the needs of students seeking careers in the public or quasi-public sector or seeking to continue their education in professional programs.

Each candidate for the degree is required to complete the following:

- One hundred twenty-four hours, 84 of which must be graded and 45 of which must be at the 300-400 level.
- A major consisting of at least 30 hours, but not in excess of 40 hours, in Political Science Courses. At least 15 of these hours will be in upper division courses. See Political Science in the index.
- Eighty-four hours outside the major.
- All general education requirements (p. 50).
- WU 101 The Washburn Experience.
- An upper-division English composition course (EN 300, EN 308, or EN 312).
- A minimum of 99 semester hours of credit in courses that either are offered in the College of Arts and Sciences or would normally be taught by a discipline in a college of arts and sciences.
- Candidates must have a cumulative grade point average of at least 2.0 and a grade of C or better in each course in the major, required courses, and the English, math, and communication studies general education courses. A double major may be completed within the 120 hour total by meeting all the requirements of the two majors. Students may also elect a minor or certificate. See the Student

Services and Academic Support (p. 15) section of the catalog concerning hours transferred to Washburn University.

Bachelor of Science (BS)

Each candidate is required to complete the following:

- A minimum of 120 hours, 84 of which must be graded and 45 of which must be at the 300-400 level.
- A major consisting of at least 30 hours, and no more than 48 in one department, of which 12 must be at the upper division level.
- A 30 hour concentration chosen from the Natural Sciences and Mathematics Division in departments other than the major, and with at least 15 of these hours in one department. The 30 hours must be approved by the student's major department chairperson.
- Seventy-two hours outside the major discipline, 30 of which must be allocated to the required concentration.
- All general education requirements (p. 50).
- WU 101 The Washburn Experience.
- An upper-division English composition course (EN 300, EN 308, or EN 312).
- A minimum of 99 semester hours of credit in courses that either are offered in the College of Arts and Sciences or would normally be taught by a discipline in a college of arts and sciences.
- Candidates must have a cumulative grade point average of at least 2.0 and a grade of C or better in each course in the major, required courses, and the English, math, and communication studies general education courses. A double major may be completed within the 120 hour total by meeting all the requirements of the two majors. Students may also elect a minor or certificate. See the Student Services and Academic Support (p. 15) section of the catalog concerning hours transferred to Washburn University.

In addition to offering the traditional Bachelor of Science Degree in Physics or Mathematics, Washburn University offers a 3-2 engineering program in cooperation with Kansas State University and the University of Kansas. Under this program a typical student will take three years of prescribed curriculum at Washburn and then transfer to Kansas State University or the University of Kansas. Upon completion of one year of prescribed work at either of the institutions named, the student will be awarded the Bachelor of Science degree from Washburn, and upon completion of the requirements of the selected school, the appropriate engineering degree will be awarded by that school. Bachelor of Science candidates should meet with the chairperson of their major department no later than their third semester to complete a declaration of major form.

Bachelor of Science in General Science (BS)

An alternative program to the Bachelor of Science described above is the Bachelor of Science in General Science. A student may elect this program by substituting the following requirements for the major and minor requirements listed above. The candidate must take at least eight hours of course work in each of the subject areas of Biology, Chemistry, Computer Information Sciences, Mathematics and Physics/Astronomy. These hours must be in courses that would count toward a major in each of the respective departments. Also, an additional 20 hours of course work that would be appropriate for majors in the listed departments must be completed by the student, at least 12 hours of which must be in upper division courses. Students desiring middle school teaching

certification in General Science should contact the certification office in the Department of Education for specific requirements relative to that certification.

Associate Degrees

The following Associate degrees are offered in the College of Arts and Sciences:

- Associate of Liberal Studies (ALS) (p. 167)
- Computer Information Science (AA) (p. 134)
- Humanities and Creative and Performing Arts (AA) (p. 156)
- Laboratory Science (AA) (p. 124)
- Natural Science and Mathematics (AA) (p. 207)
- Engineering (AS) (p. 137)

To receive any associate degree from Washburn's College of Arts and Sciences a student entering Washburn direct from high school must complete WU 101 The Washburn Experience or HN 101 Honors First Year Experience (conditional upon admittance into the Honors Program) with a minimum grade of C.

Notes on requirement above:

1. Students not direct from high school entering Washburn University with less than 24 hours completed at an accredited post-secondary institution who have not completed a university success course with a minimum grade of C enroll in WU 101 The Washburn Experience or HN 101 Honors First Year Experience (conditional upon admittance into the Honors Program) as determined by their Academic Advisor.
2. Students transferring to Washburn University with 24 or more credit hours completed at an accredited post-secondary institution (after graduating from High School) with a GPA of 2.0 or higher are exempt from the requirement to take WU 101 The Washburn Experience or HN 101 Honors First Year Experience. They are strongly encouraged to complete a series of independent online modules introducing them to the Washburn University Community of Learning. Other exemptions may be made by the dean of the College of Arts and Sciences.
3. Students not falling in designated categories will be reviewed by Academic Advisors for applicable placement recommendations.
4. Students originally determined as being required to complete WU 101 The Washburn Experience or HN 101 Honors First Year Experience who advance beyond 24 hours of credit without fulfilling the requirement with a minimum grade of C are required to compete a 3-credit hour Directed Readings project (IS 110 Special Topics) administered by the FYE Lecturer/Coordinator.

See also University Requirements Common to all Associate Degrees (p. 48) section. For specific requirements of the Associate degrees in Computer Information Sciences, contact the Computer Information Sciences department; for the remaining degrees, see appropriate academic department.

Interdisciplinary Minors and Certificates

These programs combine existing, regularly taught classes from different disciplines into a coherent grouping focused on a relevant and innovative theme. These programs will provide students more opportunities to complete a minor or certificate that complements their major area of study; advances their personal, professional, and civic goals; and improves career readiness and marketability in a world where job descriptions will continue to change frequently.

- African American and African Diaspora Studies, Minor (p. 76)
- Game Design, Minor (p. 78)

African American and African Diaspora Studies, Minor

Website: <https://www.washburn.edu/academics/interdisciplinary-studies/aaads.html>

Description

African American and African Diaspora Studies (AAADS) is an interdisciplinary program that examines the societies and cultures of people of African descent around the globe. This includes the ideas, institutions, and practices that African Americans and people throughout the African diaspora have used to survive and shape the modern world. The mission and learning objectives of the program are rooted in critical race theory-in particular, the premise that the construction of race and ethnicity is inextricably linked to systems of power and privilege-and thus an ability to analyze how concepts of race and ethnicity both influence and are influenced by social, historical, and cultural processes is essential to the pursuit of social justice. AAADS aims to help students cultivate this ability, preparing them to contribute to the creation of a more socially just world through their professional and civic endeavors.

Student Learning Outcomes

Upon completion of the AAADS minor, students will be able to:

- Describe the history of the African diaspora and the continued impact of colonialism, global slave trade, and segregation/apartheid on African Americans and other African diasporic communities.
- Analyze the social construction of race and ethnicity and how their intersections with class, gender, and other factors affect African Americans and other African diasporic individuals and communities.
- Apply interdisciplinary methods and theories appropriate to African American and African Diaspora Studies.
- Demonstrate social justice praxis informed by critical race theory.

Study Plan

To obtain the optional minor in African American and African Diaspora Studies (AAADS), a student must complete at least 15 hours of designated AAADS coursework, including both required and elective courses. Electives must be taken in at least two disciplines, and at least 6 hours of electives must be at the upper-division level. These courses should include AD 200 Introduction to Critical Race & Ethnic Studies. The minor will be supervised by the director of the AAADS program or a member of the AAADS advisory board. Students may complete the minor in two ways. They may

- Submit a study plan consisting of coursework formally identified as counting toward the AAADS minor, or
- Develop a study plan to request alternate coursework be accepted toward the minor.

The minor plans will be reviewed by the director of the program and advisory board to ensure the program learning outcomes are met. Students wishing to complete the minor must submit their study plan for approval before completing coursework in the minor.

Required Courses

Code	Title	Hours
AD 200	Introduction to Critical Race & Ethnic Studies	3

One of the following courses:	3
HI 328 African-American History	
HI 329 Civil Rights Movement	
HI 370 Modern Africa, c. 1700-Present	
AN 317 Peoples and Cultures of Africa	
Electives that may count toward the minor include but are not limited to:	9
AN 317 Peoples and Cultures of Africa	
AR 309 Art of Africa	
HI 328 African-American History	
HI 329 Civil Rights Movement	
HI 370 Modern Africa, c. 1700-Present	
HS 450/650 Multicultural Issues	
MM 360 Minorities & The Media	
PY 395 Special Topics	
Approved directed readings or independent studies	
Total Hours	15

Please note that, while the classes above all require prerequisites, these prerequisites will be waived for students pursuing this minor program.

Course Offerings

AD 199 Special Topics in African American and African Diaspora Studies (3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: Consent of Instructor

AD 200 Introduction to Critical Race & Ethnic Studies (3)

This course provides students with foundational knowledge of Critical Race Theory as a lens to understand race and ethnicity as socially, culturally, and historically constructed realities that sustain unequal distribution of political and socioeconomic power and inform constructions of identity and community. Students will gain skills to work toward an anti-racist and socially just society. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

AD 299 Special Topics in African American and African Diaspora Studies (3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: Consent of Instructor

AD 395 Directed Study in African American and African Diaspora Studies (1-3)

Directed readings and individualized research program on a subject relevant to African American and African Diaspora Studies and with the guidance of a professor. May be taken for more than one semester. Prerequisite: Consent of Instructor and approval of the AAADS Director.

AD 397 Internship in AAADS (1-3)

A program for junior/senior-level undergraduates offered in cooperation with a local or state agency with the supervision of faculty and/or the AAADS Director. Prerequisite: Approval of the AAADS Director.

AD 399 Special Topics in African American and African Diaspora Studies (3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: Consent of Instructor

Game Design, Minor

Minor Requirements

Students who exercise the optional minor in game design will fulfill the fifteen hour requirement from among the following classes:

Code	Title	Hours
Required Courses		
Select five courses from the following list, two of which must be either AR 322, CM 390, MA 361, or MM 393:		15
AR 222	Video Game Design	
AR 326	2D & 3D Digital Animation	
AR 333	Digital Painting and Drawing	
BU 260	Business Plan Development	
CM 390	Special Topics/Computer Information Science (Game Programming)	
EC 306	Game Theory and Applications	
MA 361	Game Design	
MM 393	Special Topics/Mass Media (Visual Storytelling)	
Subtotal		15
Additional Hours		
Additional classes as approved by the advisor of the minor may include:		
HI 300	Topics in History (Ancient Greece)	1-3
HI 300	Topics in History (Medieval Experience)	1-3
HI 300	Topics in History (Pirates of the Caribbean)	1-3
HI 300	Topics in History (Traditional Japan)	1-3
HI 334	Civilization of Ancient Rome	3
EC 200	Principles of Microeconomics	3
Total Hours		25-33

No more than two classes from a single department will count towards this minor.

Great TEXTS, Certificate

Website: <https://www.washburn.edu/academics/interdisciplinary-studies/great-texts.html>

Washburn University's Great TEXTS certificate program is an interdisciplinary program that engages students in reading transformative texts to explore big, timely, and timeless problems and questions of humankind. The program is open to students in all majors and degree programs, especially those who want to enhance their reading, writing, speaking, and critical-thinking skills. Each Great TEXTS course is team-taught by a pair of faculty members through an approach inspired by humanist traditions. Each course also includes unique opportunities to pursue knowledge outside of the traditional classroom, including travel to historic and cultural sites and engagement with the community. Additional benefits of the TEXTS program include smaller classes that are discussion based. The unique Great TEXTS plan of study helps students to see connections between the topics they study and contemporary debates that they will confront as business, science, political, and industry leaders and as citizens in a multicultural democracy. Great TEXTS courses are Transformative, **EX**periential, and Team-Taught Studies.

Student Learning Outcomes

Students who complete the certificate program will be able to:

- Engage critically with transformative texts, drawing on multiple perspectives, to reflect on one's position in the world
- Analyze major intellectual ideas, human institutions, and human behavior as expressed in transformative texts from the Western and non-Western traditions
- Apply interdisciplinary methods and theories from the liberal arts to current challenges facing individuals, communities, and societies.

Plan of Study

The certificate program requires a total of 15 credit hours of Great TEXTS courses.

Code	Title	Hours
<i>Required Introductory Course</i>		
TX 100	Critical Thinking, Communication, and Transformative Texts: Antiquity to Modernity	3
<i>Required Seminars</i> ¹		
TX 200	Enduring Questions and Transformative Texts	3
TX 300	Complex Problems and Transformative Texts	3
TX 301	Inspiring Visions and Transformative Texts	3
<i>Capstone</i> ²		
TX 400	TEXTS Capstone	3
Total Hours		15

¹ These seminars will approach an important and timely problem or question from the perspective of the humanities. Topics will vary by semester.

² With faculty consultation, students will complete a project based in transformational texts that applies to their lives, major, and interests.

The project may be based in research, creative work, or community engagement.

Course Offerings

TX 100 Critical Thinking, Communication, and Transformative Texts: Antiquity to Modernity (3)

This first-year gateway course introduces students to the great questions and problems of humankind through discussion-based exploration of transformative texts from a variety of disciplines and genres. These texts will be examined in the context in which they were written and explored for what they mean today. The course helps students practice the critical thinking and communication skills they will need for success in college and in life. Throughout the course, students’ understanding and enjoyment of the selected texts will be supplemented by extracurricular activities and presentations, such as visits to historic and cultural sites, plays, musical performances, films, galleries, poetry readings, public lectures, and community engagement. Prerequisites: Acceptance into Great TEXTS certificate program

TX 200 Enduring Questions and Transformative Texts (3)

This course examines a series of transformative texts written in a variety of different genres, cultural traditions, and historical periods that engage with life’s big questions, both contemporary and enduring. Throughout the course, students’ understanding and enjoyment of the selected texts will be supplemented by extracurricular activities and presentations, such as visits to historic and cultural sites, plays, musical performances, films, galleries, poetry readings, public lectures, and community engagement. Specific topics and texts will change each semester. Prerequisites: TX 100

TX 300 Complex Problems and Transformative Texts (3)

This course examines a series of transformative texts written in a variety of different genres, cultural traditions, and historical periods that engage with the essential problems of the human condition, both contemporary and enduring. Throughout the course, students’ understanding and enjoyment of the selected texts will be supplemented by extracurricular activities and presentations, such as visits to historic and cultural sites, plays, musical performances, films, galleries, poetry readings, public lectures, and community engagement. Specific topics and texts will change each semester. Prerequisites: TX 100 and TX 200

TX 301 Inspiring Visions and Transformative Texts (3)

This course examines a series of transformative texts written in a variety of different genres, cultural traditions, and historical periods that inspire, foresee, or call to action. Throughout the course, students’ understanding and enjoyment of the selected texts will be supplemented by extracurricular activities and presentations, such as visits to historic and cultural sites, plays, musical performances, films, galleries, poetry readings, public lectures, and community engagement. Specific topics and texts will change each semester. Prerequisites: TX 100, TX 200, and TX 300

TX 400 TEXTS Capstone (3)

With faculty consultation, students will complete a project based in transformational texts that applies to their lives, major, and interests. The project may be based in research, creative work, or community engagement. Prerequisites: TX 100, TX 200, TX 300, and TX 301

Kansas Studies, Minor

Website: <https://www.washburn.edu/academics/center-kansas-studies/index.html> (<https://www.washburn.edu/academics/center-kansas-studies/>)

Contact: Dr. Laura Murphy, laura.murphy@washburn.edu

The Washburn University Kansas Studies Minor is an interdisciplinary program devoted to encouraging research, sponsoring programming, and promoting outreach that focuses on the past, present, and future of Kansas.

Student Learning Outcomes

Upon completion of the Kansas Studies minor, students will be able to:

- Describe the natural environment of Kansas and how humans have interacted with that environment.
- Demonstrate knowledge of the diversity of cultures, arts, and literature of Kansas
- Critically analyze central processes and developments in Kansas history, economics, and politics

Study Plan

To obtain the optional minor in Kansas Studies, a student must complete at least 15 hours of designated Kansas Studies course work, with at least 6 of those hours at the upper-division level. The minor will be supervised by the director(s) of the Center for Kansas Studies.

Courses which may be applied toward the requirements of the minor include, but are not limited to, the following:

Code	Title	Hours
AN 369	Kansas Archaeology	3
EN 138	Kansas Literature	3
GG 304	Geography of Kansas	3
GL 103	Historical Geology	3
HI 322	Kansas History	3
KS 199	Special Topics: Kansas Studies	3
KS 340	Kansas Studies	1-3
KS 395	Independent Study - Kansas Studies	1-3
KS 397	Internship in Kansas Studies	1-3
KS 399	Special Topics-Kansas Studies	3
PO 107	Kansas, State, and Local Government	3
PO 309	Kansas Legislative Experience	3
PO 307	Internship	3-6

Course Offerings

KS 199 Special Topics: Kansas Studies (3)

An interdisciplinary topics course on a theme associated particularly with Kansas history and culture, which is team taught by Fellows of the Center. Students and faculty will be challenged to integrate material from different perspectives on a common topic based on joint interest and available resources. As topics change, the course may be repeated for credit.

KS 340 Kansas Studies (1-3)

A multidisciplinary course taught by faculty members of the Center for Kansas Studies that stresses the interrelationships among all aspects of Kansas including anthropology, archaeology, ethnicity, fine arts, geography, geology, history, literature, politics and religion. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

KS 395 Independent Study - Kansas Studies (1-3)

Directed readings and individualized research program on a subject relevant to Kansas Studies and with the guidance of a professor. May be taken for more than one semester. Prerequisite: Consent of Instructor and approval of Director of the Center for Kansas Studies.

KS 397 Internship in Kansas Studies (1-3)

A program for junior/senior-level undergraduates offered in cooperation with a local or state agency with the supervision of the Director of the Center for Kansas Studies. Prerequisite: Approval of Director of the Center for Kansas Studies.

KS 399 Special Topics-Kansas Studies (3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: Consent of Instructor

Multidisciplinary Studies, Minor

A minor in Multidisciplinary Studies enables students to discover and apply ways of knowing encountered outside of the major discipline, to enhance educational experiences and develop critical skills in multidisciplinary ways, to experience and practice new ways of thinking, to grow as individuals, and to engage as global citizens over the course of a lifetime.

Student Learning Outcomes

- In oral and written communication, students will demonstrate the ability to shape a central thesis, organize an argument, and formally support that argument.
- Students will be able to understand and interpret creative expression based on knowledge of the forms and principles of various media.
- Students will be able to understand and develop arguments supported by quantitative evidence, clearly communicate those arguments in a variety of formats (using words, tables, graphs, statistical inference, mathematical equations and functions, etc., as appropriate), and apply mathematical or scientific methods to solve problems from a wide array of contexts and everyday situations.
- Students will gather information from experience, observation, reasoning, reflection and communication. Students will explore and synthesize related ideas, connect them to prior knowledge, and apply them to new contexts.
- Students will develop greater intercultural awareness and respect through study of economic, religious, political, geographic, linguistic, historic, environmental, and social aspects that define cultures throughout the world.

This minor requires a minimum of 15 credit hours, consisting of at least 3 credit hours from each of the following areas, historically defined as core foundational areas of knowledge and study: (1) Humanities; (2) Creative and Performing Arts; (3) Natural Sciences, Mathematics, and Statistics; and (4) Social Sciences. A list of disciplines in each area follows. No more than 3 hours should be taken in one discipline. A minimum of 6 hours will be at the upper division level. Students must have a grade of "C" or better in each course. A minimum of six hours used to meet the minor requirements must be earned in residence at Washburn University. Students may include courses designated as General Education. However, they may not count courses for both general education and this minor. Students may request alternate coursework be accepted toward the minor. Students should make these requests prior to completing coursework.

Disciplinary Areas:

- **Humanities**
 - Communication
 - English
 - History
 - Honors Humanities-designated courses
 - Mass Media
 - Modern Languages
 - Philosophy
 - Religion
- **Creative and Performing Arts**

- Art
- Music
- Theatre
- **Natural Sciences, Mathematics, and Statistics**
 - Astronomy
 - Biology
 - Chemistry
 - Computer Information Science
 - Geology
 - Honors Natural Science-designated courses
 - Mathematics
 - Physics
- **Social Sciences**
 - Anthropology
 - Economics
 - Geography
 - Honors Social Science-designated courses
 - Kansas Studies
 - Kinesiology
 - Political Science
 - Psychology
 - Sociology

Museum and Curatorial Studies, Minor

Museum and Curatorial Studies is an interdisciplinary program that examines the practices associated with the collection, analysis, and exhibition of art, artifacts, specimens, and interpretive displays for the purpose of preservation, interpretation, and public engagement. It also considers the practices associated with the governance, administration, and responsible fiscal management within the professional world of museums and other collection and exhibition spaces. Finally, the field of museum studies seeks to understand the dynamic role museums, galleries, and collecting play in history and culture.

Student Learning Outcomes

Upon completion of the Museum and Curatorial Studies minor, students will be able to:

- Demonstrate understanding of approaches to work performed in museums and galleries including operations, collections management, interpretation, exhibition, and museum education.
- Analyze the role of public exhibitions in culture, for example, as institutions embedded in historical contexts and as sites of cultural production.
- Apply interdisciplinary methods and theories appropriate to the various aspects of museum and curatorial studies to an aspect of museum work that could include operation collections management, interpretation, exhibition, or museum education.

Study Plan

To obtain the optional minor in Museum and Curatorial Studies, a student must complete at least 18 hours of designated Museum and Curatorial Studies coursework, including both required and elective courses.

Required courses include:

Code	Title	Hours
MC 200	Introduction to Museum and Curatorial Studies	3
MC/AR 313	Museums and Materials	3
MC 400	Capstone in Museum and Curatorial Studies	3
Total Hours		9

Students will work with the director of the Museum and Curatorial Studies to create a study plan of 9 additional credit hours in elective courses that satisfy the program's learning outcomes and complement a student's major area and interests. These electives must be taken in at least two disciplines, and at least 6 hours of electives must be at the upper-division level. This study plan must be approved before a student completes coursework in the minor program.

Course Offerings

MC 199 Special Topics in Museum and Curatorial Studies (3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: Consent of Instructor.

MC 200 Introduction to Museum and Curatorial Studies (3)

Museums, collections, and exhibition spaces: why do we have them and what are their functions in society? What sort of institutions fall under the definition of a museum? What does it mean to work in a museum, a gallery, a private collection, or to serve in a curatorial role? This class will explore the history of museums and exhibition spaces and current debates about these institutions, including mission and vision statements, roles and organizational structure, architecture and facilities management, and legal and ethical issues. Lectures, readings, and assignments will encompass interdisciplinary ideas and establish for students the capabilities required of a curatorial professional—from the practical skills needed to operate a museum or gallery to theories on the societal role of museums and other exhibition spaces. Students will learn through lecture, discussion, in-class activities, reading, writing assignments, museum visits, and guest speakers. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

MC 313 Museums and Materials (3)

Drawing on the resources of the Mulvane Art Museum, this class will examine collection and curatorial practices for museums. Students will learn protocols and guidelines for managing collections. They will study current preventative conservation methods and recommendations for object care. Through hands-on activities, they will learn best practices for object documentation, handling, and storage. They will explore the issues and considerations involved in loaning objects between museums. Prerequisites: MC 200

MC 399 Special Topics in Museum and Curatorial Studies (3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: Consent of Instructor.

MC 400 Capstone in Museum and Curatorial Studies (3)

The Museum and Curatorial Studies Capstone prepares students to successfully plan and complete a project related to their professional interests in Museum and Curatorial Studies. Capstone projects may include an analysis of an issue or topic in areas such as collections, curatorial management, education or administration. Prerequisites: MC 200, AR 313, and at least 12 hours of credit in the Museum and Curatorial Studies minor or permission of the director of the Museum and Curatorial Studies program.

Peace, Justice, and Conflict Resolution Studies, Minor

Website: <https://www.washburn.edu/academics/interdisciplinary-studies/peace-justice-studies.html>

Minor Faculty Leader: Tonya Ricklefs, PhD LMSW
Benton Hall 412D

Affiliated Faculty

Professor Deborah Altus, Family and Human Services
Professor Alan Bearman, History
Professor Kim Morse, History
Associate Professor, Lindsey Modellmog, Political Science

Mission

Peace Studies is an interdisciplinary program of study, building on existing course offerings in a range of departments, that incorporates both international peace and justice issues and, through internship opportunities with community-based agencies, local dimensions of conflict resolution. Students will combine core courses in Peace Studies with elective courses from departments across campus that share a common theme of peace, justice, and conflict resolution.

To obtain the Optional Interdisciplinary Minor in Peace, Justice and Conflict Resolution, a student must complete at least 15 hours of course work, comprised of 9 hours of designated core courses and 6 hours of electives. Some of these courses require prerequisites.

The Minor will be supervised by a Committee of Advisors and coordinated by the Dean of the College of Arts and Sciences.

Student Learning Outcomes

Students minoring in Peace, Justice, and Conflict Resolution, upon graduation, are expected to have:

- Shaped an effective thesis in written work about Peace Studies.
- Offered analytical interpretations of peace and conflict in the world.
- Integrated materials from multiple disciplines related to Peace Studies.
- Used effectively organization, logic, and vocabulary in writing about Peace Studies.

Minor Requirements

Students will take 18 hours of coursework with Washburn faculty who have interest and expertise in Peace Studies, with fifteen hours of core courses (listed below) and 3 hours of electives.

Electives can be chosen from a wide range of designated courses (see below).

Code	Title	Hours
Core		
IS 110	Special Topics ¹	6
CN 330	Communication in Conflict and Negotiation	3
CN 363	Intercultural Communication	3
HI 397	Internship in Historical Agencies	3
Subtotal		15
Electives		

Elective courses (p. 83)	3
Subtotal	3
Total Hours	18

Elective Courses

Courses which may be counted as elective credit for Peace Studies include, but are not limited to:

Code	Title	Hours
AN 336	Globalization	3
BI 203	Human Impact on the Environment	3
BI 310	Ecology	4
BI 343	Human Genetics	3
CN 350	Persuasion	3
CN 361	Communication in Social Movements	3
EC 201	Principles of Macroeconomics	3
EN 133	Stories Around the World	3
EN 399	Special Topics - Writing/Reading ¹	1-3
GG 102	World Regional Geography	3
GG 302	Natural Resources Conservation	3
HI 329	Civil Rights Movement	3
HI 300	Topics in History (or other special topics courses) ¹	1-3
HI 311	Cold-War America, 1945-1990	3
HI 398	Directed Readings ¹	1-6
HS 302		3
HS 390	Special Topics	1-6
MS 330	International Conflict	3
NU 306	Health Assessment & Promotion	4
PH 102	Ethics: Introduction to Moral Problems	3
PH 312	Social-Political Philosophy	3
PO 225	Introduction to International Politics	3
PO 346	Problems in Public Administration ¹	3
RG 102	World Religions	3
SO 207		3
SO 301	Population and Society	3
SO 306	Law and Society	3
SO 310	Social Class in the U.S.	3
SO 338	Strategies for Social Change	3
SW 250	Diversity and Social Justice in Social Work	3
SW 350	Social Policy and Programs	3
Special topics in interdisciplinary studies ²		
HI 397	Internship in Historical Agencies	3
Directed experience in an agency ^{2,3}		

¹ When relevant to Peace Studies

² Prerequisite: Consent of Instructor

³ Such as the Topeka Center for Peace & Justice, whose mission is directly related to peace and justice issues, or an approved special project in the areas of peace and justice. May be repeated once for a maximum of 6 hours of awarded credit.

Sport and Health Psychology, Minor

The disciplines of psychology and kinesiology are complementary ones, particularly for students pursuing degrees in health and fitness promotion and exercise and rehab science. The sport and health psychology minor is designed to expose students to a variety of foundational knowledge and skills in both psychology and kinesiology. Students will develop an understanding of educational paths and career opportunities in the fields of kinesiology and psychology.

Student Learning Outcomes

Students will utilize an evidence-based approach in a professionally appropriate manner with athletes, clients, and patients with whom they interact to:

- Understand the impact of mental health on sport, exercise, and physical activity, and apply psychological concepts and perspectives to maximize performance and minimize injury.
- Integrate sport, exercise, and physical activity techniques to maintain mental health and well-being.

This minor requires a minimum of 18 credit hours, consisting of 12 required credit hours and six credit hours taken from an approved list of electives. A minimum of 6 hours will be at the upper-division level. Students must have a grade of "C" or better in each course. A minimum of six hours used to meet the minor requirements must be earned in residence at Washburn University. Students may request alternate coursework be accepted toward the minor. Students should make these requests prior to completing coursework.

Code	Title	Hours
Required Courses		
KN 248	Wellness Concepts and Applications	3
KN 300	Psychology of Sport and Physical Activity	3
or KN 318	Exercise Psychology	
PY 100	Basic Concepts in Psychology	3
PY 307	Physiological Psychology	3
or PY 326	Health Psychology	
Subtotal		12
Elective Courses		
Select two courses from the following:		6
KN 300	Psychology of Sport and Physical Activity	
or KN 318	Exercise Psychology	
KN 308	Nutrition for Sports & Fitness	
KN 326	Physiology of Exercise	
KN 410	Fitness Testing and Exercise Prescription	
PY 307	Physiological Psychology	
or PY 326	Health Psychology	
PY 309	Theories of Personality	
PY 333	Counseling Psychology	
or PY 350	Introduction to Clinical Psychology	
PY 389	Independent Study	
PY 390	Directed Research	
SO 315	Sociology of Sport	
Total Hours		18

Sports and Media, Minor

This minor will provide students with the foundational knowledge and skills needed to organize and run sport-related events, as well as develop effective media and promotional campaigns for these events. In addition, students will gain an understanding of the various political and economic forces impacting the world of sports and explore comparative approaches through an optional travel abroad experiential learning opportunity.

Student Learning Outcomes

- The student will demonstrate an understanding of the historical and cultural foundations of sports-related activities and events.
- The student will develop and successfully demonstrate the skills and techniques involved with the promotion, production and/or presentation of sports-related activities and events.

This minor requires a minimum of 15 credit hours, consisting of 9 required credit hours and six credit hours taken from an approved list of electives. A minimum of 6 hours will be at the upper-division level. Students must have a grade of "C" or better in each course. A minimum of six hours used to meet the minor requirements must be earned in residence at Washburn University. Students may request alternate coursework be accepted toward the minor. Students should make these requests prior to completing coursework.

Code	Title	Hours
Required Courses		
MM 155	Sports and the Media	3
MM 393	Special Topics/Mass Media (Section Name: Sports Branding and Promotion)	3
KN 370	Facility & Event Management	3
Subtotal		9
Elective Courses		
Select two courses from the following or contact advisor for other appropriate choices:		6
EN 190	Film Appreciation	
KN 315	Special Topics in Kinesiology (Section Name: Sports Traditions and Cultural History of Europe)	
MM 199	Professional Media Applications	
SO 315	Sociology of Sport	
Total Hours		15

STEM, Certificate

This is an interdisciplinary certificate intended for students interested in gaining introductory-level knowledge base in STEM (Science, Technology, Engineering, and Mathematics) disciplines

Student Learning Outcomes

- Students will develop and demonstrate critical thinking skills as it relates to the STEM fields, especially the ability to discern the accurateness of information presented by the media.
- Students will learn to use creativity to address real world problems (such as climate change, homelessness, green energy, etc.).
- Students will hone problem solving skills by analyzing data, writing code, solving equations, etc.
- Students will become curious about science in the world around them and be able to answer questions with knowledge gained in STEM courses.

This certificate requires a minimum of 12 credit hours in approved science courses from four different disciplines. Courses designated as General Education may be counted towards this certificate, but only two courses (up to 8 credit hours) taken may count for both general education and this certificate. Students must have a grade of "C" or better in each course. A minimum of six hours used to meet the certificate requirements must be earned in residence at Washburn University. Students may request alternate coursework be accepted toward the certificate. Students should make these requests prior to completing coursework.

Storytelling and Narrative Arts, Certificate

A certificate in Storytelling & Narrative Arts provides expanded academic opportunities and learning in English, Mass Media, Modern Languages, Theatre, Sociology or Anthropology. The certificate program is designed to expose students to a variety of foundational skills and knowledge that can be used towards further academic study and a variety of careers. Through this certificate, students will develop a deeper understanding of communication, collaboration, and performance.

Student Learning Outcomes

Upon completion of the Storytelling & Narrative Arts certificate, students will be able to:

- Communicate important ideas through various narrative structures and multimedia modes.
- Solve problems creatively using different methods (written, verbal, multimedia) and in a collaborative manner.

This certificate requires at least 12 hours of course work selected from the list below. Students not majoring in English, Mass Media, Modern Languages, Theatre, Sociology and Anthropology must choose at least one course from three of the five disciplines represented. English, Mass Media, Modern Languages, Theatre or Sociology and Anthropology majors wanting to pursue the minor must choose at least 9 hours from other two disciplines. A minimum of 6 hours will be at the upper-division level. Students must have a grade of "C" or better in each course. A minimum of six hours used to meet the certificate requirements must be earned in residence at Washburn University. Students may request alternate coursework be accepted toward the certificate. Students should make these requests prior to completing coursework.

Sustainability and Environmental Studies, Certificate

This interdisciplinary certificate explores the relationship between humans and the environment. The program integrates knowledge and methods from the natural sciences, social sciences, and humanities to gain a holistic understanding of the environmental challenges of the 21st century. Students earning a certificate in Sustainability and Environmental Studies will be better prepared to understand and communicate a host of complex issues confronting our species and our planet, including climate change, energy, pollution, waste, biodiversity loss, population growth, food production, environmental racism, and the moral standing of nonhuman animals and future generations.

Student Learning Outcomes

Students completing a certificate in Sustainability and Environmental Studies will be able to:

- Use scientific reasoning to understand, evaluate, and develop arguments about human impacts on the environment and ways to mitigate those impacts.
- Evaluate and develop arguments about ethical dimensions of humans' relationships to and impacts on the environment, including how these vary across human populations.
- Analyze and create communication strategies to respond to environmental challenges and engage in environmental advocacy.
- Analyze and synthesize representations and conceptualizations of the environment in human cultures.

This certificate requires 9 credit hours of required courses. Students must have a grade of "C" or better in each course. A minimum of six hours used to meet the certificate requirements must be earned in residence at Washburn University. Students may request alternate coursework be accepted toward the certificate. Students should make these requests prior to completing coursework.

Sustainability and Environmental Studies, Minor

This interdisciplinary minor explores the relationship between humans and the environment. The program integrates knowledge and methods from the natural sciences, social sciences, and humanities to gain a holistic understanding of the environmental challenges of the 21st century. Students earning a minor in Sustainability and Environmental Studies will be better prepared to understand and communicate a host of complex issues confronting our species and our planet, including climate change, energy, pollution, waste, biodiversity loss, population growth, food production, environmental racism, and the moral standing of nonhuman animals and future generations.

Student Learning Outcomes

Students completing a minor in Sustainability and Environmental Studies will be able to:

- Use scientific reasoning to understand, evaluate, and develop arguments about human impacts on the environment and ways to mitigate those impacts.
- Evaluate and develop arguments about ethical dimensions of humans' relationships to and impacts on the environment, including how these vary across human populations.
- Analyze and create communication strategies to respond to environmental challenges and engage in environmental advocacy.
- Analyze and synthesize representations and conceptualizations of the environment in human cultures.

This minor requires a minimum of 15 credit hours, consisting of 9 credit hours in three core courses and 6 credit hours to be taken from approved courses from at least two of three distribution areas (Humanities, Natural Sciences, and Social Sciences). A minimum of 6 hours will be at the upper division level. Students must have a grade of "C" or better in each course. A minimum of six hours used to meet the minor requirements must be earned in residence at Washburn University. Students may request alternate coursework be accepted toward the minor. Students should make these requests prior to completing coursework.

Technical Communication, Certificate

This certificate will support any student wishing to gain practice and credentials in technical communication (both writing and speaking), including the writing of texts to document processes (e.g., manuals or instructional materials), provide instructions or explanations, or share technical information, as well as grant writing, and technical presentations. This certificate is especially appropriate for majors in the natural sciences, social sciences, computer science, healthcare fields, English, mass media, and communication studies. This certificate will document to future employers that writing and presentation skills cover a wide range of styles and approaches in the technical arena.

Student Learning Outcomes

- Select and use appropriate processes (e.g. research, brainstorming, collaboration, revision, editing, formatting) to develop texts and presentations about technical information.
- Clearly communicate complex information in a variety of presentation formats and modalities.
- Create technical texts and presentations by successfully utilizing the appropriate syntax, structure, formatting, and presentation based upon the context and audience.

This certificate requires a minimum of 12 credit hours, including 6 credit hours in two required classes and 6 credit hours to be taken from approved courses from two different distribution areas (1) oral communication; and (2) specialized communication. Students must have a grade of "C" or better in each course. A minimum of six hours used to meet the certificate requirements must be earned in residence at Washburn University. Students may request alternate coursework be accepted toward the certificate. Students should make these requests prior to completing coursework.

Women's and Gender Studies, Minor

Website: <https://www.washburn.edu/academics/interdisciplinary-studies/womens-gender-studies.html>

Contact: Dr. Jim Schnoebelen, jim.schnoebelen@washburn.edu or wags@washburn.edu

Mission

The Washburn University Women's and Gender Studies Minor is an interdisciplinary program devoted to encouraging research on women and gender, sponsoring events focused on issues relevant to women and gender, and promoting outreach across the campus and to the larger community. Women's and Gender Studies explores the connections between race and ethnicity, class, sexual identity and gender as they impact the lived experience in a variety of cultural contexts. Courses critically examine the social, historical, psychological, literary, artistic, philosophic, and biological roles of women and gender while seeking to provide a fuller understanding of the multidimensional nature of personhood. Emphasizing the connections between theory and practice, Women's and Gender Studies encourages applied learning through internships, community involvement projects, research, and service learning courses.

Student Learning Outcomes

Upon completion of the Women's and Gender Studies minor students will be able to:

- Critically analyze the basic components that distinguish feminist methodologies from other approaches of inquiry.
- Describe the multiple ways in which gender is intersected by other social relations such as race, ethnicity, sexuality, class, and nation.
- Apply feminist methodology to course subject matter, demonstrating in-depth knowledge of one aspect of women's experience learned through (for example) a literary genre, a time period, a geographic region, or focus on a very narrow topic.

Study Plan

To obtain the Optional Minor in Women's & Gender Studies, a student must complete at least 18 hours of designated Women's & Gender Studies course work, with at least 6 of the hours at the upper division level. These courses should include WG 175 Introduction to Women's Studies and WG 400 Women's/Gender Study Capstone. The minor will be supervised by a Women's & Gender Studies Advisory Committee member. Students may complete the minor in two ways. They may (a) submit a study plan consisting of coursework formally identified as counting towards the WGSM or (b) they may develop a study plan to request alternate coursework be accepted toward the minor. The minor plans will be reviewed to ensure the program learning outcomes are met. Students wishing to complete the minor must submit their study plan for approval before completing coursework in the minor.

Minor Requirements

Course Offerings

WG 175 Introduction to Women's Studies (3)

Introduces the principal history, methods, issues and debates in Women's Studies utilizing an interdisciplinary approach. Through a broad range of issues confronting women, the course examines both historical and contemporary ideas, institutions, and constraints that shape women's lives. Attention will be focused on differences among women as well as the potential for women's unity and empowerment. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

WG 199 Special Topics (0-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: Varies by course and instructor.

WG 375 Women and Popular Culture (3)

This course explores the ways women are depicted in popular culture and how these integrated patterns and beliefs are transmitted to succeeding generations. We will identify how these images influence basic assumptions about societal roles and expectations of women and, therefore, female development. This examination of popular culture genres reveals the influence of pop culture and its impact on stereotypes, personal and professional relationships. Through readings, text analysis, discussion and research-oriented writing assignments, the course will engage interdisciplinary methods to examine gender and popular culture. Students will learn to analyze and critique the narratives that shape their own perceptions of gender, sex and identity, and formulate a personal response to gender identity. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

WG 390 Human Trafficking and Modern Day Slavery (3)

An advanced undergraduate course that focuses on contemporary human trafficking and slavery. Types of trafficking and slavery to be covered include sex trafficking, bonded labor, forced labor, child soldiers, chattel slavery, and domestic servant slavery. The contributing roles of the state, organized crime, the media, culture, and corruption will be examined. Debates about defining trafficking and the connection between sex trafficking and prostitution will be reviewed. Course materials may include testimonies and autobiographies by survivors, research reports, theoretical essays, policy statements, expert testimonies, podcasts and videos. Prerequisite: Junior standing or permission of the instructor.

WG 395 Independent Study (0-3)

This course allows the student to pursue individualized scholarship with guidance from a professor. The format may vary in terms of the student's special interests, abilities, imagination, and creativity. May consist of a research paper, a comprehensive written examination on selected reading materials, an oral presentation, or a special performance utilizing one or more art forms or modes of expression. Prerequisite: Consent of Instructor.

WG 399 Special Topics (0-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: Varies by course and instructor.

WG 400 Women's/Gender Study Capstone (3)

The capstone is a required course that gives students a forum to synthesize and apply theories, methods and concepts that they have learned throughout their minor in Women and Gender Studies. Individualized advanced projects focused on women, gender and/or sexuality are designed in collaboration between the student and their WG adviser and can include a research paper, an internship, service learning or activist project. Prerequisite: Junior standing.

Anthropology

Department of Sociology and Anthropology

Website: <https://www.washburn.edu/academics/college-schools/arts-sciences/departments/sociology-anthropology/index.html> (<https://www.washburn.edu/academics/college-schools/arts-sciences/departments/sociology-anthropology/>)

Faculty

Professor Mary Sundal, PhD, Chair

Professor Alexandra Klaes, PhD

Associate Professor Jason Miller, PhD

Associate Professor Laura Murphy, PhD

Associate Professor Sangyoub Park, PhD

Associate Professor Lindsey Ibañez, PhD

Lecturer Ashley Maxwell, PhD

Lecturer Alexander Myers, PhD

Mission

The mission of the Department of Sociology and Anthropology is to foster an understanding of the social, cultural, and biological diversity in the world - past, present, and future. As two distinct but complementary disciplines, Sociology and Anthropology prepare students for a variety of career paths and encourages them to be active contributors and informed global citizens through student-centered teaching, meaningful scholarship, and engaged community service.

Description of Anthropology

Anthropologists try to answer the fundamental question "What makes us human?" through a global and holistic approach. American anthropology includes four subfields: archaeology, the study of the human past; biological anthropology, the study of human evolution and variation; cultural anthropology, the study of human cultures; and linguistic anthropology, the study of human languages.

The Major

Both the BA and BS degrees in Anthropology are designed to prepare students to be competitive as applicants to a variety of graduate school programs or immediately in the labor market.

Departmental Honors

To earn department honors, majors must achieve a 3.5 or higher GPA in all Anthropology courses and successfully complete one of the following:

- An Anthropology supervised study course (AN 363 Internship; AN 366 Directed Readings; or AN 367 Directed Research).
- A Washburn Transformational Experience (p. 60) (WTE)
- A project agreed upon in advance by the student, department chair, and instructor of record.

Students are encouraged to begin these projects no later than the first semester of their senior year. More information about department honors is available from the department chair or academic advisor.

Programs

- Anthropology, BA (p. 96)
- Anthropology (Forensic Concentration), BS (p. 96)
- Anthropology, Minor (p. 97)

Course Offerings

AN 112 Cultural Anthropology (3)

Students will learn about contemporary global cultures to develop a culturally relative understanding of and appreciation for diverse societies. Students will explore major domains of culture (such as economics, kinship, social stratification, political organization, communication, and religion) and the impact of globalization and colonialism on culture. Finally, students will explore how anthropological work is applied to contemporary social problems. Prerequisites: None

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

AN 113 Linguistic Anthropology (3)

This course is an introduction to the cross-cultural examination of language and communication. Students will learn how language shapes culture, behavior, and thought, the evolution of language over time, the impact of globalization and colonialism, and the intersectionality of race, ethnicity, class, and gender on language. The class will explore how linguistic anthropologists conduct research and apply research to real world settings.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

AN 114 Introduction to Archaeology (3)

This course will introduce students to the theories and methods of archaeological science to understand how archaeological remains are used to interpret human prehistory. This course covers what archaeology has revealed about the evolution and experience of humankind from the origins of stone-tool use to the emergence of complex societies around the world. No prerequisites.

Course Attributes:

- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

AN 116 Biological Anthropology (3)

This course introduces students to biocultural evolution across time and space. Students will investigate the biological aspects of human life through the study of the principles of evolution, genetics, adaptation, and human variation. This course will explore the evolutionary history of human ancestors and nonhuman primates using fossil evidence.

Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Quantitative and Scientific Reasoning and Literacy

AN 118 Introduction to Forensic Science (3)

This course provides an overview of the multi-disciplinary nature of forensic science. Students will learn how forensic scientists in various fields, such as anthropology, biology, chemistry, criminal justice, and digital science, apply the scientific method to collect and evaluate evidence. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Quantitative and Scientific Reasoning and Literacy

AN 200 Special Topics in Anthropology (1-3)

Topics will vary from semester to semester and will be announced in advance. May be taken more than one semester. Prerequisite: Varies by topic and semester.

AN 300 Special Topics in Anthropology (1-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: Varies by topic and semester.

AN 302 Culture, Gender & Sexuality (3)

This course introduces students to anthropological perspectives on sex, gender, and sexuality. Special attention is given to the social, political, economic, and cultural processes that shape us to act and think as particular kinds of sexed, gendered, and sexualized persons, including the complexities and dilemmas posed by intersecting identities (race, ethnicity, class, religion). Prerequisite: AN 112, or AN 113, or consent of instructor.

AN 303 Human Origins and Evolution (3)

This course examines the evolutionary fossil record of human and nonhuman primates from a bio-cultural perspective. Students will explore current anthropological methods and theories used to interpret the evolutionary data including the development of bipedalism, human adaptations, and the emergence of Homo sapiens. Prerequisite: AN 116.

AN 311 Primate Social Behavior (3)

This course focuses on the behavioral ecology and evolution of the Order Primate. Students will examine the taxonomic classification of nonhuman primates and investigate how evolution has shaped the diversity of their social structure and behavior. In addition to watching several anthropological films, we may observe nonhuman primate interactions at a local zoo. Prerequisite: AN 116.

AN 312 Medical Anthropology (3)

This course will explore biocultural constructions of health and illness across the globe. Students will critically assess biomedical assumptions and the effects of inequality to gain a better understanding of how different societies view and treat illness, the interaction of biology and culture, and the political and economic roles in relation to patterns of health and healing. Prerequisite: AN 112 or AN 116.

AN 313 Religion, Magic and Witchcraft (3)

This course is a cross-cultural study of the forms and functions of non-Western and Western supernatural beliefs. Students will examine a wide range of religious systems and worldviews including myth, ritual, symbolism, magic, ancestor worship, witchcraft, religious healing, and spirit possession. Major theories about the origins and social functions of such beliefs and practices will be explored. Prerequisite: AN 112.

AN 314 The Im/migrant Experience in America (3)

This course explores the historical and modern implications of im/migration in the United States; how globalization, colonialism, and transnationalism affect im/migrant communities; and how im/migrants acculturate into their host communities. Special attention will be given to the experiences of im/migrants in Kansas today. Prerequisite: AN 112, AN 113, or consent of instructor.

AN 316 Forensic Anthropology and Laboratory (3)

In this laboratory-based course, students will apply forensic anthropological methods and theories to recover and positively identify human remains and to evaluate trauma and taphonomy in medico-legal contexts. Forensic anthropology will also include an overview of the historical and current developments in the field. Prerequisites: AN 114 or AN 116.

AN 317 Peoples and Cultures of Africa (3)

This course explores sub-Saharan African societies through selected case studies covering topics such as kinship, gender, religion, political economy, geography, and contemporary social issues. Analysis includes the pre-colonial, colonial, and post-colonial histories of the various groups. Prerequisite: AN 112.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

AN 318 North American Archaeology (3)

As a survey of the diverse prehistoric cultures and environments of North America, this course will examine economic, technological, and organizational changes from the earliest hunter-gatherers to pre-Colombian complex societies. Students will gain an understanding of the history and theory of North American archaeology and explore experimental archaeological techniques through ancient tool making. Prerequisite: AN 114 or consent of instructor.

AN 319 Peoples and Cultures of Indigenous North America (3)

This course explores indigenous North American cultures through selected case studies covering topics such as kinship, gender, religion, political economy, geography, and contemporary social issues. Analysis includes the pre-colonial, colonial, and post-colonial experiences of the various groups. Prerequisite: AN 112.

AN 320 Ancient Latin America (3)

This course is an archaeological survey of the Pre-Columbian heritage of Mesoamerica and South America. Cultures such as the Olmec, Maya, Aztec, Moche, Nazca, Chimú, and Inca will be examined through artifacts, art, architectural remains, and ethnohistoric documents. Students will achieve an understanding of the growth and decline of complex societies, and will examine the relationship between the past and contemporary Latin American cultures. Prerequisite: AN 114 or consent of instructor.

AN 321 Anthropology of Women (3)

The roles and statuses of women around the world are examined in the three sub-systems of culture – material, social and ideational – including in-depth studies of women in horticultural, peasant, and modern societies. Prerequisite: AN 112 or consent of instructor.

AN 322 Visual Anthropology (3)

This course explores how images and other types of media are created, circulated, and consumed by members of diverse cultures and by anthropologists. Topics to be covered include how culture is portrayed in media and in museums, the use of media as a tool in ethnographic research; analysis of media from an anthropological perspective; and the creation of the "other" through media. Prerequisite: AN 112.

AN 324 History and Theory of Anthropology (3)

This course examines the history of Anthropology while also exploring current debates, schools of thought, and contemporary theories from a four-field perspective. Prerequisites: Declared major, AN 112, and junior standing.

AN 327 Fragmentary Human Osteology (3)

This laboratory-based course focuses on the growth and development of the human skeletal system and the identification of fragmentary skeletal and dental remains. Students will also explore how trauma, pathology, taphonomy, and cultural factors affect skeletal biology. Prerequisite: AN 316.

AN 332 Forensic Anthropology in Popular Culture (3)

Forensic anthropology is arguably one of the lesser-known forensic fields, but popular television shows have brought forensic anthropology to the forefront of popular culture. This course explores the general public's fascination with anything dubbed forensics in popular culture through the lens of forensic anthropology. We'll explore the difference between science and fiction through an in-depth analysis of how forensic anthropology is presented and manifests within popular culture versus the reality of the scientific discipline. Themes to be covered in the course include, but are not limited to, the CSI effect, "body farms," culture change in body deposition practices, social media, beauty-related skeletal modifications, buying and selling human remains, dark tourism, cultural appropriation, politics of the "border crisis," fascination with death, the TV drama series *Bones*, and skeletons in art, media, couture, and religion/ritual. No prerequisites

AN 334 Archaeological Myths, Frauds, and Controversies (3)

This course critically evaluates archaeological frauds, myths, controversies, and other mysteries perpetuated by pseudoarchaeology. We will investigate the origins of these myths and mysteries, break down the controversies, and learn to recognize frauds. We will evaluate the types of "evidence" used to create them and examine the reasons and rationales that lead people to invent, disseminate, and believe pseudoarchaeological claims. Most importantly, we will consider how these claims impact our culture, society, and how we view the human past. This course requires active discussion and hands-on applied projects to debunk pseudoarchaeology and promote the scientific endeavor of archaeology. No prerequisites.

AN 336 Globalization (3)

This course examines the causes and consequences of economic, political, and cultural globalization – the increasing interconnectedness among societies. Anthropological and interdisciplinary frameworks are applied to specific cases to understand how the world is changing and what it means for the world's people. Prerequisites: AN 112 or AN 113 or AN 114 or AN 116 or consent of instructor

AN 358 Human Skeletal Biology and Laboratory Methods (3)

In this laboratory-based course, students apply the principles, methods, theories, and techniques that anthropologists use to macerate, identify, analyze, and curate human skeletal remains. Students will work with real human skeletal material and forensic cases in a series of hands-on learning activities. Prerequisite AN 327.

AN 362 Methods of Social Research (3)

This course introduces students to the foundations of social science research including: designing an ethically and methodologically sound research project, generating research questions, conducting a literature review, selecting appropriate data collection methods, planning for data analysis, and sharing results. Prerequisites: 12 hours of Anthropology; or consent of instructor.

AN 363 Internship (1-3)

Field training to provide students with experience in an operational or research setting through assignment to local social agencies or museums approved and supervised by a faculty member. May be elected twice for a maximum of three hours. Prerequisites: Declared major, senior standing, and consent of instructor.

AN 366 Directed Readings (1-3)

Under supervision of a faculty member, students will undertake an extensive readings course to further their understanding of a specific topic within Anthropology. May be repeated for a maximum of six hours. Students are limited to six hours total from AN 366 and AN 367 combined. Prerequisite: Declared major, junior/senior standing, and consent of instructor.

AN 367 Directed Research (1-3)

Upon supervision of a faculty member, students will undertake an independent research project in a specific aspect of Anthropology. May be repeated for a maximum of six hours. Students are limited to six hours total from AN 366 and AN 367 combined. Prerequisite: Declared major, junior/senior standing, and consent of instructor.

AN 369 Kansas Archaeology (3)

This course is a survey of the archaeological record of Kansas from the earliest Paleoindian inhabitants through the Historic period. Students may have the opportunity to visit archaeological sites and museums in Kansas and participate in archaeological analysis through hands-on work with collections. Prerequisite: AN 114 or consent of instructor.

AN 370 Historical Archaeology (3)

In this course, students will examine the recent past through material remains of societies that also have some form of written evidence. Students will also learn about historic preservation, museum curation methods, and historic interpretation for public archaeology. Prerequisite: AN 114 or consent of instructor.

AN 371 Field and Lab Methods in Archaeology (3)

In this course, students will learn how to properly survey and excavate an archaeological site and how to identify and analyze artifacts, cultural features, and sediments using state-of-the-art techniques. Students will gain hands-on experience working in a mock-excavation setting and with real archaeological collections. This course is a prerequisite for AN 372 Archaeological Field School. Prerequisite: AN 114 or consent of instructor.

AN 372 Archaeological Field School (1-6)

This course provides students with practical, hands-on experience where they apply their archaeological training and knowledge at a field site held off-campus. The field school may include survey, location, and excavation techniques, technical mapping, and proper documentation and collection of field data. Long-distance and overnight travel may be required. Prerequisite: AN 371 or consent of instructor.

AN 374 Forensic Archaeology (3)

In this course, students will learn how to properly survey and excavate outdoor crime scenes containing human remains and forensic evidence using state-of-the-art techniques. Students will gain hands-on experience working in a mock-forensic excavation setting. This course is a prerequisite for AN 375 Forensic Anthropology Field School. Prerequisites: AN 114 or AN 316.

AN 375 Forensic Anthropology Field School (3)

This course provides students with practical, hands-on experience through a series of mock forensic cases including surface scatters, burials, and/or fatal fires. Students will apply knowledge gained in AN 374 Forensic Archaeology to simulated forensic cases beginning with the initial search to the recovery and transport of remains to the laboratory. Prerequisites: AN 374.

AN 400 Special Topics in Anthropology (1-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: Varies by topic and semester.

AN 428 Case Studies Forensic Anthropology (3)

Utilizing real forensic case studies, this class will highlight the anthropological techniques and methods used to recover and identify human remains. Students will work on cases from initial recovery to the preparation of the final forensic anthropological case report. Prerequisite: AN 358 and AN 374.

AN 490 Applied Anthropology (3)

In this course, students will apply core knowledge from the subfields of anthropology to real-world problems. Special attention is given to reflection and professional preparation for various career paths including nonprofit and community-based organizations, businesses and corporations, and governments. Prerequisite: AN 324 and junior/senior status.

Anthropology, BA

Anthropologists try to answer the fundamental question “What makes us human?” through a global and holistic approach. American anthropology includes four subfields: archaeology, the study of the human past; biological anthropology, the study of human evolution and variation; cultural anthropology, the study of human cultures; and linguistic anthropology, the study of human languages.

Student Learning Outcomes

BA in Anthropology majors at Washburn University, upon graduation, should be able to:

- Articulate the importance of human diversity through a holistic, four-field anthropological approach.
- Critically evaluate anthropological theories, ethics, and research methods.
- Apply critical thinking skills to biological evolution and culture change over time.
- Critically evaluate the impact of colonialism and globalization on world cultures.
- Effectively communicate, in a variety of formats, to diverse audiences.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor

of Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your academic advisor for more information.

In addition, all B.A. in Anthropology majors must complete a minor, certificate, and/or additional major; students must declare the minor, certificate, and/or additional major with the department that grants it.

Code	Title	Hours
Required Courses Inside the Department ¹		
AN 112	Cultural Anthropology	3
AN 113	Linguistic Anthropology	3
AN 114	Introduction to Archaeology	3
AN 116	Biological Anthropology	3
AN 324	History and Theory of Anthropology	3
AN 362	Methods of Social Research	3
AN 490	Applied Anthropology	3
AN 3XX	Five Anthropology Upper-Division Electives	15
Total Hours		36

¹ Students must earn a grade of "C" or better in all courses applied to the major(s) and minor or certificate. Majors working toward the BA degree are strongly encouraged to take courses in statistics and computer science.

**Anthropology (Forensic Concentration), BS
Mission**

Consistent with the mission of the University and the College of Arts and Sciences, the Bachelor of Science in Anthropology with a Forensic Concentration offers students the opportunity to broaden their knowledge of humankind and themselves across time and space. We believe that an engaged multidisciplinary approach with a firm grounding in anthropology, the natural sciences, and forensics allows students to become active members of the professional field, while also making a meaningful difference in their communities.

Natural Science Concentration

All Bachelor of Science degrees include a required 30-hour natural science concentration, which includes courses chosen from departments in the Natural Sciences and Mathematics Division, other than the student's major department. At least 15 of these hours must be in one department. The 30 hours must be approved by the student's major department chairperson.

Student Learning Outcomes

BS in Anthropology (Forensic Concentration) majors at Washburn University, upon graduation, should be able to:

- Contextualize the history and role of forensic anthropology in the four-field discipline of anthropology.
- Apply anthropological ethics, methods, and/or theory to the recovery and analysis of human remains.
- Effectively interpret and communicate anthropological data.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Science (p. 75) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

¹ Students must earn a grade of C or better in each course in the minor. Sociology majors can minor in Anthropology.

Art

Department of Art

Website: <https://www.washburn.edu/academics/college-schools/arts-sciences/departments/art/index.html> (<https://www.washburn.edu/academics/college-schools/arts-sciences/departments/art/>)

Faculty

Associate Professor of Art History Kelly Thor, PhD, Department Chair

Professor of Art Marguerite Perret, MFA

Professor of Art Azyz Sharafy, MFA

Professor of Art Yegiang Wang, MFA

Associate Professor of Art Michael Hager, MFA

Associate Professor of Art Danielle Head, MFA

Associate Professor of Art Kwok-Pong Tso, MFA

Associate Professor of Art Wonjae Lee, MFA

Donald B. and Twila Catron Art Education/Public Outreach Lecturer Deena Amont, MFA

Mission

The mission of the Washburn University Department of Art is to provide students with a strong foundation in the visual arts, support their development as artists, designers and art historians, and equip them for post-graduate life. Upon graduation, art and art history majors will be able to draw upon their broad course work, technical knowledge, internship and study abroad opportunities in order to pursue careers and/or further education as knowledgeable global citizens.

The Art Department serves those intending to prepare for professions in art education, graphic design, and the visual arts (BFA degrees) and professions focused on the visual arts, such as museum and curatorial studies, art history, and arts administration (BA degrees). Studio and art history courses are open to anyone with the proper prerequisites. Faculty maintain active professional careers as content for teaching and are exemplars of life-long learning in the visual arts, art history, and museum and curatorial studies.

Department Description

The degree programs in the Art Department are designed to prepare students for a variety of career paths. The BA in Art is a liberal arts degree and may be combined with other degree programs within the College.

The BA in Art History is structured for those interested in pursuing museum and curatorial studies, advanced work in art history, or any field demanding strong skills in research, writing, and critical thinking.

The Bachelor of Fine Arts Degree in Studio Art is designed for the student who intends to follow a career in the visual arts, including but not limited to: graphic design, animation, photography, ceramics, painting, multimedia art, sculpture, printmaking, higher education, and arts administration. BFA graduates are expected to exhibit a high level of technical knowledge and conceptual development and therefore must apply and be admitted to the BFA program, in accordance with Art Department standards. All Studio BFA students prepare a senior exhibition of their artwork as the capstone experience of their degrees.

BFA students in Art Education must meet all competencies and requirements to teach art P-12 in the state of Kansas. The degree requirements are listed separate from the BFA in Studio Art.

Art Department Scholarships

Each year, the Art Department faculty award thousands of dollars in scholarships to incoming, existing, and transferring majors. Students must apply for scholarships each year, regardless of previous award and will be evaluated according to their academic and studio record, depending upon their program.

"Full Ride" Scholarships:

Incoming Freshmen may apply for the highly competitive Barbara L. Buzick Art Scholarship, which provides tuition, textbooks, art supplies, and on-campus room and board. Buzick scholars in good standing may have this scholarship renewed through graduation.

Incoming Freshmen AND transfer students are eligible to apply for the John R. Adams Endowed Art Scholarship Fund. This scholarship also provides tuition, textbooks, art supplies and on-campus or off-campus room and board. Adams Scholars in good standing may have this scholarship renewed through graduation.

Contact the Art Department for more information.

Credit and Time Requirements in the Art Department

For every credit hour awarded for a course, the student is typically expected to complete one hour of class time, online interaction, or direct faculty instruction and a minimum of two additional hours of student work each week for approximately 15 weeks for one semester or the equivalent amount of work over a different amount of time. In studio courses, the amount of class time is usually 6 hours per week, with an additional expectation of at least 3 hours per week of outside class work for a 3-hour course.

Programs

- Art, BA (p. 103)
- Art History, BA (p. 103)
- Studio Art, BFA (p. 104)
- Art Education with Teacher Licensure, BFA (p. 104)
- Art History, Minor (p. 106)
- Studio Art, Minor (p. 106)

Course Offerings

AR 101 Survey of Art History, Prehistoric to Medieval (3)

A survey of major monuments and movements in the history of art from Paleolithic through Medieval times.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

AR 102 Survey of Art History, Renaissance to Contemporary (3)

Major monuments and movements in Western Art from the Proto-Renaissance through the arts of today.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

AR 103 Introduction to Art (3)

The major principles and ideas of art, with emphasis on different purposes art has served in both Western and non-Western cultures. This course is for non-art majors.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

AR 120 2D Design (3)

An exploration of the fundamentals of visual communication. Students will become familiar with the elements of design and organizational principles. Using traditional and digital media, studio assignments will encourage creative thinking, synthesis and analysis, and problem solving. Prerequisites: none.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

AR 121 3D Design (3)

An expanded investigation of the basic design principles with an emphasis on idea generation and creative translation. Students will learn how to think critically about visual art, problem solve, and consider a broad range of contemporary and historical approaches. Prerequisite: AR 120.

AR 140 Drawing I (3)

Basic principles of drawing and design. This course is fundamental to all studio courses and should be taken in the freshman year.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

AR 141 Drawing II (3)

A continuation of Drawing I. Prerequisite: AR 140 or equivalent.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

AR 219 Introduction to Printmaking (3)

Drawing and cutting upon the blocks (plywood, linoleum, and masonite), assemblage will be explored for form and texture. Initial prints will be considered temporary evidence of how marks or forms work toward a completed work. Prerequisites: AR 120 and AR 140.

AR 220 Photography I (3)

Lecture and studio. History of the development of the Photographic process, equipment and material. Darkroom procedures with an emphasis on composition and design in the black and white print.

AR 222 Video Game Design (3)

This course introduces the making and creating of 2D/3D video games. Students learn to create a fully interactive video game. This hands-on course focuses on design, aesthetics and interactivity of the video game. Prerequisite: CM 101, AR 131, or equivalent computer competency.

AR 223 Graphic Design I (3)

Introduction to graphic design through formal and theoretical context. Focus is on development of technical skills and design concepts for print production. Prerequisite: AR 120.

AR 226 Video Editing: FinalCut Pro (3)

Fundamentals of digital video, including lighting, sound composition and editing are taught with the aim of creating time-based art forms. Aesthetic issues evident in video design and editing structure will be examined through viewing, discussion and critique. Software: FinalCut Pro. Prerequisite: AR 120 or MM 100.

AR 231 Basic Multimedia (3)

Introduction to the use of social media to share creative artwork, including video and animations. This course covers video capture with simple video cameras or smart phones, movie editing, and posting work to the Internet. It will include basic animation, sound and interactivity. Students must provide their own phone or other video capture device. Prerequisite: None.

AR 240 Painting I (3)

Introduction to oil or acrylic painting techniques. Emphasis is placed on color theory and effects. Subject matter includes still life, landscape, figure drawing and abstraction. Prerequisite: AR 141.

AR 260 Ceramics I (3)

Introduction to ceramics as creative media for utilitarian and expressive purposes. Course content includes forming techniques, the nature of clay and glazes, firing principles and ceramic history. Creative Thinking will be practiced and assessed as part of the ceramic process. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

AR 262 Sculpture I (3)

Introduction to modeling, casting, carving, and construction as basic methods of executing 3-dimensional form. Prerequisite: AR 121.

AR 265 Kiln-formed Glass & Mosaics (3)

Applied design work utilizing glass techniques of cutting, grinding, fusing, and slumping.

AR 291 Art Therapy (3)

Practice of Art Therapy as a treatment and diagnostic tool in the psychiatric setting. Visiting lecturers and field experience will be included. Prerequisite: PY 100.

AR 299 Special Topics in Art (1-3)

Special media or content offerings not covered in other art courses. May be repeated with different topics. Prerequisites as specified for each offering.

AR 300 Art Theory Past and Present (3)

This class will examine approaches to art and art history from mimesis to the competing theoretical approaches used today. Methods employed by critics, historians, sociologists, and others will be studied as constructions that reflect the sociopolitical circumstances of their authors and audience. Prerequisite: AR 101 and AR 102.

AR 301 Ancient Art (3)

The arts of the Ancient Near East, Egypt, Aegean, Greece, and Rome.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

AR 303 Medieval/Renaissance Art History (3)

Study of the diverse cultural expressions found in art and architecture from the early Medieval to the Renaissance period. Although Western in focus, non-Western influences and exchange will be considered throughout. Prerequisite: AR 101, AR 102, AR 103 or junior standing

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

AR 306 Development of Modern Art (3)

Survey of the broad trends in art and architecture from 17th - 20th century. Course material will be examined through visual and historical analysis, emphasizing the sociopolitical, religious, and cultural shifts for each period. Prerequisite: AR 101, AR 102 or AR 103; or junior standing

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

AR 307 Twentieth Century Art (3)

Examination of the response of the visual art world to historical, cultural and political changes of the twentieth century. Modernist movements, performance, installation, and the effects of globalism will be considered through visual and historical analysis. Prerequisite: AR 101 or AR 102 or AR 103; or junior standing.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

AR 309 Art of Africa (3)

A historical survey of the major arts produced by African cultures.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

AR 310 Art of Asia (3)

A survey of the major traditions of art in Asia from Neolithic times through the 19th century.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

AR 311 Art of the Americas (3)

An overview of the visual arts traditions of the ancient and contemporary cultures of the indigenous peoples of North, Central and South America.

AR 312 Research in Art History (3)

Library and Archival research and writing on specific research topics in the History of Art. Prerequisite: Major/minor in Art History or consent.

AR 313 Museum Studies (3)

Study of the history, organization and practices of museums as well as art materials, conservation and archival methods. Prerequisites: AR 101 or AR 102.

AR 315 History Of Photography (3)

History of photography as related to the visual arts, including technical innovations, major photographers and aesthetic philosophies.

Prerequisites: AR 101 or AR 102 or AR 103 or consent.

AR 317 Art Theory in Practice (3)

This course is equal parts art history, theory and studio. Includes exploration of contemporary artists, practices, new audiences and markets with an emphasis on studio experimentation and production. Prerequisites: None

AR 318 Typography (3)

Introduction to the fundamentals of typography and design, including the use of type to solve visual problems. Topics include: anatomy, legibility, hierarchy, and verbal/visual relationships. Prerequisites: AR 223

AR 319 Etching (3)

An exploratory course in etching. Emphasis will be placed on black and white techniques, including intaglio, drypoint, and aquatint. Prerequisite: AR 219.

AR 320 Photography II (3)

Course focuses on developing technical proficiency in photography. Students will work primarily with fiber-based paper. Emphasis is placed upon exploration and expansion of traditional photographic values. Prerequisite: AR 220 or consent.

AR 321 Photoshop Imaging (3)

An intermediate course in creative Photoshop software techniques. Students execute assignments such as photo coloring, restoration and retouching, print design, and collage. Prerequisites: AR 120 and AR 131 and AR 223.

AR 322 Graphic Design II (3)

Advanced graphic design course building on concepts learned in Graphic Design I. Emphasis is on systems of design with a focus on branding, packaging, and information design. Prerequisites: AR 120 and AR 131 and AR 223.

AR 323 Silkscreen (3)

An introductory course in silkscreen printing. Sequential thinking for the production of prints plus application of color theories is investigated. Emphasis will be placed on traditional photographic and inventive applicators of silkscreen techniques for the production of personal images. Prerequisite: AR 219.

AR 324 Lithography (3)

An introductory course for lithography. The printing process of stone and plate lithography is explored with emphasis on imagery and the aesthetics of the fine print. Prerequisites: AR 140, AR 141, AR 219.

AR 325 Photoshop Imaging II (3)

An advanced course in photoshop software techniques focusing on aesthetics and critical issues. Students produce assignments with an emphasis on photo composites for illustration, printing, and fine art. Prerequisite: AR 321.

AR 326 2D & 3D Digital Animation (3)

Through the use of 3D animation software and Adobe Premier, students will create computer graphics and animations. Also includes digital video and sound. Software: Lightwave 3D, Final-Cut Pro. Prerequisite: AR 223.

AR 332 Advanced Photo Techniques I (3)

Course focuses on developing technical proficiency in use of different format cameras and large size printing. Students explore aspects of photography such as cibachrome, Polaroid transfer and emulsion lifts, or mural printing. Prerequisite: AR 220.

AR 333 Digital Painting and Drawing (3)

This course is designed to provide the student with knowledge and skills necessary to create digital paintings and drawings using a range of visual art media related to digital processes, including AR/VR and 3D virtual painting. Emphasis of the course is focused on the student. Prerequisites: AR 120 or AR 140.

AR 336 Video Editing and FX (3)

This course covers video editing techniques using Final Cut Pro, Motion, Soundtrac Pro and Live Type software. The course introduces various aspects of digital editing related to special effect, motion graphics, visual and special effects using text. The course covers the basics of sound, camera and editing for special effects in film, the use of green screen, composite effects and integration of computer graphics to digital film. Prerequisite: AR 131 or MM 210.

AR 340 Advanced Oil Painting (Topic) (3)

Advanced study of specific oil or acrylic painting techniques, subjects and styles. Includes class paintings, outside work, and research documentation. May be repeated with different content to 6 hours total credit. Prerequisite: AR 240.

AR 341 Art of Landscape (3)

Creative activity in the outdoor environment. Students consult with instructor regarding media choice and expressive intent. Prerequisite: AR 140 for students engaged in Painting or Drawing; AR 140 and AR 220 for students emphasizing photography.

AR 342 Watercolor (3)

Exploration of watercolor techniques. Subject matter includes still life, landscape, figure and abstraction. Prerequisite: AR 240

AR 343 Figure Drawing (3)

Drawing from the nude and draped human figure. Prerequisite: AR 141

AR 345 Chinese Painting (3)

Introduction to Chinese Painting techniques, including handling ink and color on raw and sized rice paper. Subject matter includes landscapes, plants, animals and figures. Prerequisite: AR 120 and AR 140.

AR 352 Professional Photographic Lighting (3)

Introduction to studio lighting using 35 mm digital cameras. Students will study the principles of lighting and their practical use in areas such as portraiture, products, food and fashion. Field trips will expose students to professional studios and practices. Prerequisite: AR 220.

AR 353 Alternative Photo Processes (3)

Study of historical non-silver photographic processes used in the early stages of photographic development and currently used by contemporary artists as a creative element. Processes include: cyanotype, Van Dyke, platinum/palladium, salted paper, gum bichromate. Prerequisite: AR 220.

AR 354 Documentary Photography (3)

Course focuses on basic principles and techniques of documentary photography. Topics will vary by semester and will be announced in advance. Prerequisite: AR 220 or consent.

AR 355 Experimental Photography (3)

Experimental and creative methods using digital and historic photographic techniques. Students will experiment and combine new techniques with old, and use the results in mixed-media art. Techniques include: bromoil, pronto plates, albumen on paper, anthotypes, tintypes, mixed-media. Prerequisite: AR 220.

AR 360 Ceramics II (3)

Continued exploration of ceramics with emphasis on wheel-throwing techniques, glaze formulation, and various firing methods.

AR 361 Ceramic Glaze/Surface Exploration (3)

Study of fired ceramic surfaces through experiments with raw materials. Theoretical, historical, and empirical methods are applied to research. Prerequisite: AR 260.

AR 364 Advanced Sculpture (3)

Study of advanced sculptural techniques to achieve artistic expression. May involve environmental or multimedia emphasis. Prerequisite: AR 262. May be repeated with different content. Limit of 9 hours.

AR 365 Kiln-formed Glass & Mosaics (3)

Applied design work utilizing glass techniques of cutting, grinding, fusing, and slumping. 365-level students are expected to complete more advanced projects and class presentations. Prerequisite: AR 121 or AR 265.

AR 380 Elementary Art Education (3)

Study of the artistic development of children, practice with art materials, techniques, and concepts appropriate to the elementary grades including planning and presentation of art lessons. Production, aesthetics, criticism, and history of artworks are emphasized as the basis for children's growth in art learning.

AR 381 Experimental Media (3)

Exploration of papermaking, batik, weaving, and metal working processes. Health and safety, traditions and current trends in crafts are studied. Education majors write unit/lesson plans. Non-ED majors do extra projects. Prerequisites: AR 120, AR 121.

AR 382 Methods and Philosophy in Art Education (3)

Examination of historical and current theories of art education, the development of personal philosophy of art education, and the examination of curriculum goals and objectives. Effective teaching methods for lesson planning, presentation, and evaluation are studied.

AR 390 Independent Study in Art (1-3)

Students work with faculty member to complete independent art projects. Does not involve formal group faculty critiques. Primarily intended for advanced nonmajors. Prerequisites: Advanced course work in discipline, mentor approval, chair approval.

AR 391 Art Therapy (3)

Practice of Art Therapy as a treatment and diagnostic tool in the psychiatric setting. Visiting lecturers and field experience will be included. Prerequisite: PY 100.

AR 398 Art and Culture Abroad (0-3)

Teaches students how to respectfully engage with people and places outside of Kansas, with most trips focused on international experiences. The course may be counted as either studio or art history credit. Students are expected to research the destination's culture in order to communicate their knowledge through art and/or written projects. Prerequisites: None.

AR 399 Special Topics (0-3)

Special media or content offerings not covered in other art courses. May be repeated with different topics. Prerequisites as specified for each offering

AR 400 Senior Exhibition (1)

Preparation and presentation of an exhibit of student's artwork. Prerequisite: BFA-senior status, BA with Department approval.

AR 401 Internship (3)

Work experience in art-related businesses, institutions, or non-profits. 3 hrs required for all BFA majors. Licensure students meet requirement through student teaching. Prerequisite: Instructor permission

AR 403 Workshop in Art Media (3)

Independent work under faculty mentor in studio area of choice. Must include written plan, research, and report. Students must present work for mid-term and final critiques by all studio faculty. May be repeated for limit of 6 hours. Prerequisite: Jr or Sr BFA Major and AR 407.

AR 404 Professional Practices (3)

Professional preparation for all art majors, taken the semester prior to AR 400 Senior Exhibition. Includes exhibition preparation, portfolio, careers, and other professional concerns of fine artists. Prerequisite: Senior Art major.

AR 407 Themes-Contemporary Art Practice (3)

This course is equal parts art history, theory and studio. Includes exploration of contemporary artists, practices, new audiences and markets with an emphasis on studio experimentation and production. Prerequisite: AR 102 and admission to the BFA Program.

AR 418 UX / UI Design (3)

Students will learn the concepts and skills necessary for Human-Computer Interaction (HCI). Course materials teach students how to utilize user behavior, conduct effective user research, and employ various design tools and technologies in order to create seamless experiences on mobile platforms. Prerequisites: AR 223 and AR 318.

AR 419 Advanced Relief Printing (3)

In-depth study and experimentation with various relief processes including large scale printing. Prerequisite: AR 219.

AR 421 Advanced Digital Painting/Drawing (3)

The course is designed to provide the students with advanced knowledge and skills in digital paintings and drawing. Students will explore a variety of visual art media related to the drawing and painting process, which will be created digitally via computer and software. Emphasis of this course is focused on the wide format artwork and advanced creative expression. The students will demonstrate artistic design, creativity, and concepts in the language of paintings and drawings. Prerequisite: AR 327.

AR 426 Interactive Art: Digital (3)

Students will learn to make their artwork interactive digitally and also make it compatible for web interactivity. The process will include using various types of digital software and the web. Prerequisite: AR 223.

AR 429 Web Design (3)

An introduction to web design through front end web development. Focus on interactivity and Information Architecture to support usability and web standards. Students will apply design principles and explore visual organization of digital space. Prerequisites: AR 223 or AR 318.

AR 432 Advanced Photo Techniques II (3)

See course description under AR 332. Students enrolled at the 432 level must complete additional research in a photo technique and document their research through creative work. Prerequisite: AR 332.

AR 441 Art of Landscape II (3)

Creative activity in the outdoor environment. Students consult with instructor regarding media choice and expressive intent. Advanced students are expected to bring a more experienced and personal creative approach to the course, and are evaluated accordingly. Prerequisite: AR 341.

AR 442 Advanced Watercolor Painting (3)

In-depth study of personal expression through the watercolor medium. Prerequisite: AR 342.

AR 443 Figure Drawing II (3)

Advanced course in drawing the nude and draped human figure. Prerequisite: AR 343.

AR 445 Advanced Chinese Painting (3)

Continuation of Chinese Painting with emphasis on experimentation in techniques and pursuit of personal artistic language. Prerequisite: AR 345.

AR 453 Alternative Photo Processes II (3)

See course description for AR 353. AR 453 will study one process of choice in-depth. Prerequisite: AR 353.

AR 454 Documentary Photography (3)

Course focuses on basic principles and techniques of documentary photography. Topics will vary by semester and will be announced in advance. Prerequisite: AR 220 or consent.

AR 455 Experimental Photography II (3)

Experimental and creative methods using digital and historic photographic techniques. Students will experiment and combine new techniques with old, and use the results in mixed-media art. Techniques include: bromoil, pronto plates, albumen on paper, anthotypes, tintypes, mixed-media. Advanced students are expected to complete in-depth research and professional level work in chosen techniques. Prerequisite: AR 355.

AR 460 Advanced Ceramics (Topic) (3)

Study of specialized ceramic techniques of firing, surface and forming to achieve differing purposes. May involve multimedia applications. May be repeated with different topic. Limit of 9 hours. Prerequisite: AR 360.

Art, BA

Student Learning Outcomes

- Students will demonstrate a comprehensive understanding of art making and application of technical skills in more than one medium.
- Students will effectively communicate through visual, written and verbal means using the principles of design, discipline-specific vocabulary to convey conceptual content.
- Students will demonstrate a broad knowledge of diverse cultural and historical perspectives in the arts through visual art making and discussion.
- Students will apply theory, art history, and contemporary practices towards the development of creative work.
- Students will be prepared for a variety of careers requiring an interdisciplinary knowledge and critical thinking.

Each candidate for the Bachelor of Arts degree is required to complete a foreign language course. For more information, please see the Bachelor of Arts (p. 73) degree page.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

In addition, all Art (BA) majors must complete a complementary minor, certificate, or additional major; students must declare this with the department that grants it.

Code	Title	Hours
Required Courses Inside Department		
AR 101	Survey of Art History, Prehistoric to Medieval	3
AR 102	Survey of Art History, Renaissance to Contemporary	3
AR 120	2D Design	3
AR 121	3D Design	3

AR 404	Professional Practices	3
AR XXX	Art Studio Elective Courses ^{1, 2}	15
Total Hours		36

¹ Must include 12 hours upper division studio courses chosen in consultation with an art advisor.
² For a complete list of upper-division Art and Art History course offerings, please refer to the catalog (p. 98) and consult with your Art advisor.

Art History, BA

Student Learning Outcomes

- Students will demonstrate visual literacy by using appropriate vocabulary and theoretical approaches to describe the ways the

- formal choices made by people convey meaning within specific contexts.
- Students will communicate their knowledge of select historical and contemporary materials from diverse global cultures.
- Students will show their understanding of key theoretical questions, debates, and biases that have shaped the field of aesthetics and art history from its inception to the present.
- Students will demonstrate their ability to independently identify and utilize quality research sources to support arguments related to the relationship of material culture and its historical context.
- Students will be prepared for a variety of careers offered in the fields of studio art and art history.

Each candidate for the Bachelor of Arts degree is required to complete FL 102 Beginning Foreign Language II or above. For more information, please see the Bachelor of Arts (p. 73) degree page.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

In addition, all Art History (BA) majors must complete a complementary minor, certificate, or additional major; students must declare this with the department that grants it.

Art Education with Teacher Licensure, BFA

Student Learning Outcomes

- Students will demonstrate knowledge of art education instructional strategies, teaching methods and education philosophies for various K-12 settings and age groups.
- Students will demonstrate the ability to create curriculum, assessments and differentiated learning opportunities for K-12 students.
- Students will be well versed in the artistic processes and are able to work with a wide variety of art materials, techniques, processes and concepts relating to art and design.
- Students will have knowledge of contemporary, historical and multicultural art. They will be able to write, research and present works of art. They will demonstrate the ability to explain art history to various K-12 students.
- Students will understand the nuances of being a professional art educator and know the wide variety of career options available to them.

BFA candidates must pass faculty portfolio review for admission to BFA in Art Education and upon graduation, candidates must pass licensure exams to receive teaching licenses from the State of Kansas.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Fine Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Students seeking certification to teach Art must also be formally admitted to the University's Professional Teacher Education Programs (p. 291).

Studio Art, BFA

The Bachelor of Fine Arts (BFA) Degree in Studio Art is designed for the student who intends to follow a career in the visual arts, including but not limited to: graphic design, animation, photography, ceramics, painting, multimedia art, sculpture, printmaking, higher education, and arts administration. BFA graduates are expected to exhibit a high level of technical knowledge and conceptual development and therefore must apply and be admitted to the BFA program, in accordance with Art Department standards. All Studio BFA students prepare a senior exhibition of their artwork as the capstone experience of their degrees.

BFA students in Art Education must meet all competencies and requirements to teach art P-12 in the state of Kansas. The degree requirements are listed separate from the BFA in Studio Art.

All BFA degrees require 3 hours of internship. The internship requirement for BFA with Teaching Licensure is met through student teaching. All BFA

students must enter the Mulvane Art Museum's Juried Student Exhibition at least twice during their academic careers.

Admission to the BFA

In order to maintain the BFA program's high standards and encourage successful completion of the BFA degree, students applying for admission to the BFA must meet specific requirements including completion or concurrent enrollment in required art foundation courses, a GPA of 3.0 or higher in Art courses, and the submission of a portfolio.

Each year, a committee of art faculty will meet to review the qualifications and portfolios for BFA applicants. All materials must be submitted by the advertised deadline.

Portfolios will be evaluated for evidence of technical proficiency, effective design, and conceptual expression. Students will be notified of acceptance or non-acceptance prior to the subsequent semester's enrollment period. Candidates may reapply for BFA admission one time. While candidates are encouraged to apply late in their sophomore/early junior year, all must receive advisor approval in order to apply to the BFA program.

Student Learning Outcomes

- Students will demonstrate a comprehensive understanding of art making and application of technical skills in more than one medium.
- Students will effectively communicate through visual, written and verbal means using the principles of design, discipline-specific vocabulary to convey conceptual content.
- Students will demonstrate a broad knowledge of diverse cultural and historical perspectives in the arts through visual art making and discussion.
- Students will apply theory, art history, and contemporary practices towards the development of creative work.
- Students will be prepared for a variety of careers requiring an interdisciplinary knowledge and critical thinking.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Fine Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Art History, Minor

A minor in Art History is designed to deepen the student's knowledge of material culture, an interdisciplinary study that complements other areas within the University. Students can expect to sharpen their skills in analysis and communication. The minor must be planned with the aid of art history faculty.

An art history minor consists of 18 hours of art history coursework. In order for the minor to both provide an overview of the discipline and offer opportunities for focused study at the upper-division level, the following guidelines must be met:

Code	Title	Hours
Required Courses Inside Department		
AR 101	Survey of Art History, Prehistoric to Medieval	3
AR 102	Survey of Art History, Renaissance to Contemporary	3
Upper Division Art History Electives ¹		12
Total Hours		18

¹ At least 6 hours of upper division courses

Studio Art, Minor

A minor in Art is designed to integrate art knowledge with other disciplines of the University. It may be constructed from courses in any area of the curriculum. The minor must be planned with the aid of art faculty.

Minor Requirements

A minor consists of 18 hours and includes study in art history and studio courses. In order for the minor to both provide an overview of the discipline and offer opportunity for proficiency in some aspect of it, the following guidelines must be met:

Code	Title	Hours
Required Courses Inside Department		
Select one of the following:		3
AR 120	2D Design	
AR 140	Drawing I	
Select one of the following:		3
AR 101	Survey of Art History, Prehistoric to Medieval	
AR 102	Survey of Art History, Renaissance to Contemporary	
AR 103	Introduction to Art	
Art Electives ¹		12
Total Hours		18

¹ At least 6 hours of upper division studio courses

Astronomy

Department of Physics and Astronomy

Website: <https://www.washburn.edu/academics/college-schools/arts-sciences/physics-astronomy/index.html> (<https://www.washburn.edu/academics/college-schools/arts-sciences/physics-astronomy/>)

No major or minor is offered in Astronomy. The offerings are administered by the Department of Physics and Astronomy.

Course Offerings

AS 101 Introduction to Astronomy/Cosmology (3)

A qualitative study of stellar, galactic, and extragalactic astronomy and cosmology surveying what is known and how it is known.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

AS 102 Introduction to Astronomy - Solar System (3)

A qualitative study of the history of astronomy, the origin, evolution, and functioning of the solar system surveying what is known and how it is known.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

AS 103 Observational Astronomy (1)

Use of telescope, planetarium, and other laboratory equipment commonly used in astronomy together with selected descriptive experiments in astronomy. Prerequisite: AS 101 or AS 102 or consent of instructor.

AS 104 Life in the Universe (3)

A scientific investigation of the question "Are we alone in the universe?" Course content includes the origin and properties of stars and planets, the requirements for life, and the emergence and sustainability of civilizations. Students will complete a variety of interactive assignments and a term project. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

AS 201 Introduction to Astro Photography (1)

Photographic procedures and techniques peculiar to astronomical photography. Prerequisite: Consent of instructor.

AS 251 General Astronomy (3)

A review of the key ideas and discoveries in astronomy at the intermediate level. Prerequisite: AS 101 or AS 102, and MA 116 with a grade of C or better, or consent of instructor.

AS 360 Research in Astronomy (1-2)

Research in any of the fields of astronomy/astrophysics. Prerequisite: Consent of instructor.

AS 370 Special Subjects/Astronomy (1-5)

Material to be chosen according to student interest from any one of a number of astronomical subjects. Offered on demand as teaching schedules permit. Prerequisite: Consent of instructor.

Mission

The Washburn Biology Department consists of a team of student-centered educators that provides all students with a strong foundation in the life sciences, promotes critical thinking through teaching and research opportunities, and encourages engagement with the community.

Description of the Discipline

Biology is an integrative discipline that emerges from all areas of the natural sciences and builds upon those foundations. In the spirit of our discipline the Biology Department is committed to providing students with a strong foundation in the life sciences that culminates in specialized experiences designed to prepare students not only for diverse career opportunities available in the biological sciences, but also to be life-long learners. Fundamental to our students' development is the acquisition of a broad knowledge base, the ability to integrate and apply this knowledge, and the ability to communicate observations and analyses. Through close interaction with our faculty in the classroom and in research environments the Biology Department fosters students' innate desire for discovery and helps them develop the skills and modes of thinking that will empower their contributions to an ever-expanding understanding of the natural world.

Faculty members professionally engage in their sub-disciplines through scholarly work and service, enabling them to contribute to the evolution of their disciplines and engaging them as active members of the greater scientific community abreast of the dynamic nature of their fields. This engagement functions to meet changing student needs within the Biology Department, Allied Health, pre-Nursing and other programs and serves as resources of life science knowledge and awareness of biological issues for the community at large. We strive to establish and maintain the highest standards of curricular innovation, academic rigor,

technical skill, modern physical facilities, and personalized mentorship, in support of our primary goal: providing a high-quality learning experience for all students that we engage.

Description of Programs

The courses in biology are designed to meet the needs of at least four groups of students: those interested in biology as a subject necessary to their general education, those in nursing, kinesiology, and the various allied health programs, those planning to teach biology or general science, and those preparing for graduate work or for professional careers in biology, environmental biology, forensic biology, molecular biology and biotechnology, or other related fields.

Student Learning Outcomes

Student Learning Outcomes for each major are listed in their respective major descriptions.

Information Common to all Majors within the Biology Department

All Majors within the Biology Department must be officially declared before taking upper division BI courses; however, it is recommended that the major be declared as early as possible after matriculation to Washburn University in order to be eligible for Biology scholarships, and to be assigned an appropriate advisor. Non-Biology majors must be officially declared in an appropriate major before taking upper division BI courses. The declaration of major is done online by either the Chair or an appropriate advisor within the department, after an advising session with the student. Each semester all majors must meet with a department advisor to plan the appropriate course work for the next semester and to receive a registration PIN.

Natural Science Concentration

All Bachelor of Science degrees include a required 30-hour natural science concentration, which includes courses chosen from departments in the Natural Sciences and Mathematics Division, other than the student's major department. At least 15 of these hours must be in one department. The 30 hours must be approved by the student's major department chairperson.

Natural Sciences Concentration courses for BS degrees offered by the Department of Biology are limited to these courses:

- CH 151 Fundamentals of Chemistry I or above,
- PS 261 College Physics I or above,
- MA 116 College Algebra or above, or
- CM 105 Introduction to Computer Science or above.

Departmental Honors

Students are eligible to receive departmental honors upon graduation if they fulfill the following minimum requirements:

- A grade point average of 3.5 in the major, including a 3.5 in upper division work in the major.
- Successful completion of BI 395 Research in Biology.
- Service to the Department, or to the community relevant to their respective department major.
- The recommendation of the Department.

Programs

- Biology, BA and BS (p. 112)
- Environmental Biology, BA and BS (p. 113)
- Forensic Biology, BS (p. 114)
- Molecular Biology and Biotechnology, BS (p. 114)
- Biology Major with Secondary Education Specialization, BS (p. 115)
- Biology Secondary Education, BEd (p. 116)
- Biology, Minor (p. 117)

Course Offerings

All course descriptions listed below assume either a 16-week fall or spring semester. Courses that are offered in the summer and/or online will be held at different times than what is listed below, but will be equivalent in terms of class and laboratory time.

BI 100 Human Biology (3)

This course is an introduction to fundamental life processes in humans. Topics will include the structure and function of biomolecules, chemical reactions and enzymes, and the structure, function, and energy transformations of cells. Cell division, the central dogma, and introductory genetics are introduced as is a general survey of human organ systems. This course is primarily for majors in nursing, allied health, and kinesiology. Not applicable toward credit for biology major requirements. Three hours of lecture per week. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Natural and Physical Sciences
- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Critical and Creative Thinking

BI 101 Human Biology Laboratory (2)

This lab course complements the BI 100 lecture course. Laboratory exercises will provide hands-on applications to understand human biology concepts. Not applicable toward credit for biology major requirements. Three hours of laboratory per week. Prerequisite: A grade of "C" or better in BI 100, or concurrent enrollment.

Course Attributes:

- Gen Ed AY 2024-2025: Natural and Physical Sciences
- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

BI 106 Everyday Biology (5)

An integrated lecture and laboratory course designed for people pursuing degrees outside the natural or health sciences and who are interested in understanding basic biological concepts and their applications in everyday life. Topics include scientific inquiry, health, nutrition, natural resources, ecosystems, and biotechnology. Laboratory exercises apply biological concepts towards investigating pertinent questions. This course requires no previous science or mathematics background and cannot count towards Biology Department degree programs. Fulfills the general education requirement of a natural science course with lab. Course consists of three hours of lecture and three hours of laboratory exercises per week. Prerequisites: None.

Course Attributes:

- Gen Ed AY 2024-2025: Natural and Physical Sciences
- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- USLO: Quantitative and Scientific Reasoning and Literacy

BI 140 Introduction to Forensic Biology (3)

An introduction to the collection, processing and testing of biological evidence during forensic investigations. Topics include: the use of biological samples in crime scene investigation, molecular biology techniques used to detect biological samples and evaluating the strength of DNA profiling. Three hours of lecture per week. Prerequisites: None.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

BI 150 Evolution (3)

The course is designed for non-science majors who want a basic explanation of evolution, how it works, and why it matters. The course will include discussion of simple genetics, origins of life, mechanisms of evolution, and the applied value of evolution. Three hours of lecture per week. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

BI 155 Sexually Transmitted Disease (1)

An overview of diseases, which rely on sexual interactions for transmission, e.g., AIDS, syphilis, herpes, and others. The history, epidemiology, clinical nature, treatment and prevention of these diseases are discussed. Two hours of lecture per week for an 8-week course. Prerequisite: None.

BI 180 Special Topics/Biology (1-3)

Selected topics of general interest. Not applicable toward credit for biology major requirements. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Natural and Physical Sciences
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Critical and Creative Thinking

BI 192 General Cellular Biology (5)

The organization and activities of organisms at the cellular level. Analysis of the chemical, genetic, and microscopic properties shared by all cells. This is the beginning biology course for the student who wishes to major in biology. Four hours of lecture and three hours of laboratory per week. Prerequisites: None.

Course Attributes:

- Gen Ed AY 2024-2025: Natural and Physical Sciences
- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Critical and Creative Thinking

BI 194 General Organismal Biology (5)

An introduction to the basic principles of organismal biology with an emphasis on plants and animals. Topics covered will include general ecology and evolution, anatomy and physiology, and organismal diversity. Four hours of lecture and three hours of laboratory per week. Prerequisite: A grade of "C" or better in BI 102 or BI 192.

BI 202 Biology of Behavior (3)

Biological aspects of human & animal behavior, including sociobiology, ethology, behavioral genetics & evolution, heredity vs. environment, male-female differences, & the neurological & hormonal basis of behavior. Three hours of lecture per week. Prerequisites: None.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

BI 203 Human Impact on the Environment (3)

The structure and function of a natural environment and the impact of humans on that environment. Topics include population and food, various pollution problems, energy problems, and possible solutions. Three hours of lecture per week. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Global Citizenship, Ethics and Diversity

BI 206 Introductory Microbiology (4)

The basic characteristics of microbes and an analysis of their effects on humans. Emphasis on human medical microbiology. Basic microbiological techniques, with an emphasis on those used in medicine. Developed primarily for students majoring in nursing. Not applicable toward credit for biology major requirements. Three hours of lecture and one three-hour laboratory per week. Prerequisites: A grade of "C" or better in BI 100 and BI 101 or BI 102 or BI 192.

BI 230 Introduction to Human Physiology (3)

This human physiology course is designed for those needing a basic background in physiology principles without the additional functional knowledge that is obtained in the laboratory setting. The emphasis of this course will include learning basic relationships and necessary language to be able to understand the terminology that may be used in fields that are in the periphery of physiology. Three hours of lecture per week. Prerequisite: A grade of "C" or better in BI 100 or BI 102 or BI 192.

BI 234 Introduction to Biotechnology (3)

The purpose of this course is to introduce and explore the scientific basis of a broad range of topics in the emerging areas of biotechnology involving microbes, plants, animals, and medicine to understand the impact of biotechnology on society. Additional topics include: history, development, current operations, future advances, industry structure, and career opportunities within the biotechnology industry. Three hours of lecture per week. Prerequisite: A grade of "C" or better in BI 102 or BI 192.

BI 250 Introduction to Human Anatomy (3)

The structure of the human body, with emphasis on skeletal and muscular systems. Three hours of lectures per week. Prerequisite: A grade of "C" or better in BI 100 or BI 102 or BI 192.

BI 255 Human Physiology (4)

The basic functions of human organ systems. Three hours of lecture and one three-hour laboratory period per week. Prerequisites: A grade of "C" or better in BI 100 and BI 101 or BI 102 or BI 192.

BI 260 Biology of Aging (3)

Mechanisms of aging processes with special reference to human gerontology. Unfavorable progressive changes in molecules, cells, systems, and organisms will be examined. Three hours of lecture per week. Prerequisites: None.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Critical and Creative Thinking

BI 275 Human Anatomy (4)

Designed primarily for students majoring in biology, nursing or physical therapy. Lectures survey the organ systems with emphasis on skeletal, muscular, nervous, circulatory and reproductive systems. Laboratory exercises include both animal and human cadaver dissection. Two hours of lecture and two two-hour laboratory periods per week. Prerequisites: A grade of "C" or better in BI 100 and BI 101 or BI 102 or BI 192. NOTE: Pregnant women should consult with physician and instructor prior to enrollment due to specimen preservatives used in this course.

BI 280 Special Topics/Biology (1-3)

Selected topics of general interest. Prerequisite: One or more general biology course(s).

BI 300 Field Biology (3)

Identification and study of plants and animals in the field, including their ecology. One hour of lecture and three hours of laboratory per week. Prerequisite: A grade of "C" or better in BI 103 or BI 194.

BI 301 General Microbiology (4)

Characteristics of microorganisms with major emphasis on bacteria and viruses. Principle roles of microorganisms in our environment. Laboratory introduces basic techniques used in microbiological studies. Three lectures and one three-hour laboratory period a week. Prerequisites: BI 103 or BI 194 with a grade of C or better, and CH 151.

BI 302 Entomology (4)

Designed to cover the general biology of insects with a focus on their ecology, importance to humans and the environment, and their identification and taxonomy. Field trips will be an integral part of this course. Three hours of lecture and one three-hour laboratory period per week. Prerequisites: A grade of "C" or better in BI 103 or BI 194.

BI 303 Invertebrate Zoology (4)

The invertebrate groups with emphasis on basic zoological principles. Field trips are an integral part of this course. Three lectures and one three-hour laboratory period a week. Prerequisite: BI 103 or BI 194 with a grade of C or better.

BI 305 Parasitology (4)

This course will explore the various protozoan, helminth, and arthropod parasites of humans. Three hours of lecture and one three-hour laboratory period per week. Prerequisite: A grade of "C" or better in BI 103 or BI 194.

BI 310 Ecology (4)

Examines the interactions between organisms, their environment, and their evolution; major topics include global ecology, physical ecology, community ecology, species interactions, and biodiversity. Three lectures and one three-hour laboratory period a week. Prerequisite: BI 103 or BI 194 with a grade of C or better.

BI 311 Field Ecology (3)

Introduction to experimental and observational studies in field ecology; stressing experimental design, data collection, analysis, and interpretation and presentation of results. The course will emphasize fieldwork and student led projects. The course will also use field and computer exercises designed to familiarize students with research and analysis tools in ecology. One hour of lecture and one three-hour laboratory per week. Prerequisites: A grade of "C" or better in BI 310, or consent of instructor.

BI 312 Behavioral Ecology (4)

An advanced approach to the study of animal behavior, with a focus on how animals interact with one another and how those interactions influence their evolutionary fitness. Topics will include foraging, movement and space-use, parental care, behavioral types, and predator-prey interactions. Three hours of lecture and one three-hour lab per week. Prerequisites: A grade of "C" or better in BI 103 or BI 194, or consent of instructor.

BI 314 Statistics for Biologists (3)

A course designed as an overview of statistical procedures common in biological research emphasizing their biological relevance and interpretation. Lectures will cover data presentation, parameter estimation, hypothesis testing, goodness of fit, analysis of variance, regression, and a brief introduction to modern methods of analysis. Labs will cover the practical implementation of statistical analyses using the statistical package R. Two hours of lecture and two hours of laboratory per week. Prerequisite: Grades of "C" or better in BI 102 or BI 192 and MA 116. Recommended: MA 140 with a grade of C or better.

BI 315 Vertebrate Zoology (4)

A taxonomic approach to the study of vertebrate animals, with a focus on phylogeny, evolution, comparative anatomy, ecology, and behavior. Laboratory experiences will mostly entail fieldwork or field trips and focus on the ecology and behavior of different vertebrate taxa. Three hours of lecture and one three-hour laboratory period per week with several optional weekend field trips. Students will be expected to drive and/or carpool to field sites each week during their assigned laboratory time. Prerequisites: A grade of "C" or better in BI 103 or BI 194.

BI 319 Biology for STEM Educators (3)

An exploration of the core concepts and principles that unite the major disciplines of the Biological Sciences. The impacts that each of these concepts have on society will be discussed. Special emphasis will be placed on developing lessons and models that effectively communicate complex ideas to a range of ages, and in a variety of classroom, museum, and clinical settings. Three hours of lecture per week. Prerequisite: A grade of "C" or better in either BI 100 and BI 101 or BI 106 or BI 102 or BI 192, and Junior standing.

BI 322 Advanced General Botany (4)

A survey of the anatomy, physiology, and diversity of plants. Evolutionary development, ecology, and applied botany will be discussed. The laboratory will include both field-based and laboratory-based experiments. Three lectures and one three-hour laboratory period a week. Prerequisite: A grade of "C" or better in BI 103 or BI 194.

BI 324 Systematic Botany (3)

Exploration of the flowering plants of Kansas and their habitats. Major principles of systematics are covered. Two three-hour class periods per week, and nearly all periods are devoted to field trips to local areas of interest. Prerequisite: BI 103 or BI 194 with a grade of C or better.

BI 325 Microbiology of Human Disease (5)

Basic principles involved in pathogenesis of human disease, host resistance, and epidemiology. Characteristics and laboratory diagnosis of major bacterial pathogens. Three hours of lecture and two two-hour laboratory periods per week. Prerequisite: A grade of "C" or better in BI 301.

BI 328 Plant Anatomy and Physiology (3)

Examines the anatomy and physiology of the stems, roots, leaves and reproductive organs of plants, from the molecular to the organismal levels. Prerequisite: BI 103 or BI 194 with a grade of C or better.

BI 330 Animal Physiology (4)

A comparative study of the basic physiological processes occurring throughout the animal kingdom. Three lectures and one three-hour laboratory period a week. Prerequisites: BI 103 or BI 194 with a grade of C or better, and CH 152.

BI 333 General Genetics (4)

A course designed to cover basic genetic principles, including Mendelian genetics, cytogenetics, population genetics and an introduction to molecular genetics. Laboratory experiments will be used to illustrate the genetic principles covered in lecture. Three hours of lecture and one three-hour laboratory period per week. Prerequisites: BI 103 or BI 194 with a grade of C or better, and CH 151.

BI 340 Evolutionary Biology (3)

A course designed to cover the fundamental aspects of evolutionary biology from classical Darwinian evolution to modern analyses of evolutionary theory. Specific topics covered include the history and development of evolutionary thought, population genetics, cooperation and conflict, phylogenetics, and patterns and tempo of diversification. The course will also include a discussion of the relevance of evolution to societal issues. Three hours of lectures per week. Prerequisite: A grade of "C" or better in BI 103 or BI 194, or consent of instructor.

BI 343 Human Genetics (3)

This course explores classical and molecular mechanisms of inheritance in individuals, families, and populations. Topics include genetics of behavior, outcomes of gene and chromosomal mutations, cancer genetics, genetic counseling, personalized genomics, and issues and applications of current gene and reproductive technologies. Three hours of lecture per week. Prerequisites: A grade of "C" or better in BI 333, or consent of instructor.

BI 353 Molecular Genetics (3)

The molecular basis of genetic systems including chromosomal and extrachromosomal elements. Topics include manipulation of DNA, molecular techniques, cloning, methods for the study of gene expression, mutability of DNA, plasmid systems, prokaryotic and eukaryotic genomes, and practical aspects of biotechnology. Three hours of lecture per week. Prerequisite: A grade of "C" or better in BI 301 or BI 333.

BI 354 Molecular Biology Laboratory (3)

A laboratory course designed to introduce the student to modern molecular biology techniques, including recombinant DNA technology (gene cloning), DNA sequence analysis, PCR, Southern hybridization, bioinformatics, and more. This course is designed to mimic a real-world research experience. Two periods totaling 5 hours per week to include one hour for lecture/discussion. Prerequisite: A grade of "C" or better in BI 301 or BI 333 or BI 353 or consent of instructor.

BI 355 Developmental Biology (5)

Topics in modern developmental biology will be covered in lecture and through readings so as to gain a working knowledge of the analyses of developmental processes such as fertilization, embryonic cleavage, cell determination and cell differentiation in selected species. Emphasis will be on experiments that reveal how these processes are controlled at the molecular and cellular levels. Three hours of lecture and two two-hour laboratory periods per week. Prerequisite: A grade of "C" or better in BI 333.

BI 357 Histology (4)

Microscopic examination of fundamental tissues and vertebrate organs. Two hours of lecture and two two-hour laboratory periods per week. Prerequisite: A grade of "C" or better in BI 103 or BI 194.

BI 360 Human Cadaver Dissection (3)

This course is intended to give students who aspire to go to medical school, dental school or post graduate human anatomy programs a chance to gain experience dissecting and learning human cadaveric anatomy. This is a five week summer course that covers the dissection of the entire human cadaver. Focus of dissection is primarily on muscle and joint anatomy, but includes thoracic and abdominopelvic organs along with vascular dissection and identification. Student evaluation is based on participation and dissection skills. Prerequisites: BI 103 or BI 194 with a grade of C or better, or BI 275, and instructor consent.

BI 362 Immunology (3)

Molecular and cell biology of specific and nonspecific immune responses in mammals, with special emphasis on human immune systems. Reviews experimental support for current immunological theories. Roles of immunology in human health and disease. Three hours of lectures per week. Prerequisite: Grades of "C" or better in BI 301 and (BI 333 or BI 353 or CH 350).

BI 363 Immunology Laboratory (2)

Laboratory course designed to introduce students to current clinical & research procedures in immunology. Includes techniques utilized in biological & biochemical research as well as medical applications. Four hours of laboratory per week. Prerequisite: A grade of "C" or better in BI 362, or concurrent enrollment.

BI 370 Virology (3)

The structure and properties of animal viruses. Molecular aspects of virus replication and the role of viruses in disease states. Three hours of lecture per week. Prerequisite: A grade of "C" or better in BI 301.

BI 380 Special Topics/Biology (1-3)

A consideration of various emerging or advanced specialty areas in biology, offered according to student and staff availability. Prerequisites: BI 103 or BI 194 with a grade of C or better, and consent of instructor (Additional prerequisites might be needed depending upon particular topic).

BI 389 Biology Literature Review (2)

Students will learn to critically read and analyze primary biology literature in at least four of the five core biology disciplines: cell biology, botany, zoology, microbiology and genetics. It is designed for students who have not yet taken Biology Seminar (BI 390). Students will orally present the data from these papers to the class and complete a series of worksheets on the content of the literature. Students will also learn the basics of a thorough, scientific literature search online and the mechanics of writing a scientific abstract. Two hours of lecture per week. Prerequisite: A grade of "C" or better in BI 103 or BI 194, and one other biology core course, and consent of instructor.

BI 390 Biology Seminar (1)

Organization and oral presentations of the results of current research in the biological sciences. Utilization of recent journal literature, abstracting techniques, and oral communication of scientific data will be emphasized. One semester is required of all majors. Up to three credit hours may be applied toward meeting departmental or university graduation requirements. Prerequisites: 15 hours of BI and Jr. standing.

BI 395 Research in Biology (1-3)

This course is the capstone course in the Biology degree, and open only to declared majors at Washburn University. Independent, undergraduate research on some special problem in biology, the field to be chosen by the student in conference with the instructor. Open only to students, from any discipline, with at least fifteen hours of credit derived from core majors' courses in Biology. At least one semester is required of every Biology major. A maximum of six credit hours of research may be taken by any student, and no more than 3 credits in one semester. Prerequisite: Consent of instructor.

BI 420 Forensic Molecular Biology (4)

This course will thoroughly cover the theory behind the molecular biology used in forensic DNA analysis as well as the practical considerations pertaining to the forensic lab environment. Through simulated examples of real-life sample types, students will learn and gain experience with techniques and equipment currently used in the forensic biology field. Three lectures and one three-hour laboratory period per week. Prerequisites: A grade of C or better in BI 333, CH 340, and CH 342 or consent of instructor.

BI 440 Biotechnology Internship (3)

Experience and training in an approved biotechnology or related industry laboratory, or academic research laboratory. Prerequisites: 27 credit hours of biology, 15 credit hours of chemistry, and Instructor approval.

BI 448 Zoo Internship (3)

Field experience and training at an AZA accredited Zoo. Students can specialize in either an education, animal, or horticulture tract. Prerequisite: A grade of "C" or better in BI 102 or BI 192 and BI 103 or BI 194, Junior Standing, and consent of instructor.

Biology, BA and BS

Both the BA and BS degrees in Biology are designed to meet the needs of students expressing an interest in general biology and preparing them to be competitive as applicants to a variety of graduate programs, professional schools or immediately in the job market.

Student Learning Outcomes

Biology majors at Washburn University, upon completion of the program will be able to:

- Describe and explain fundamental biological concepts in cell biology, genetics, organismal biology, structure and function relationships, ecology, and evolution.
- Explain and utilize the scientific method.
- Employ and demonstrate a variety of scientific techniques in the core biology disciplines of zoology, microbiology, genetics, and undergraduate research.
- Analyze and interpret scientific data.
- Evaluate scientific information and use oral and written presentation skills to formulate explanations of data in a professional manner.

Degree Requirements
Biology, BA

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Environmental Biology, BA and BS

Both the BA and BS degrees in Environmental Biology are designed to meet the needs of students expressing an interest in environmental biology and preparing them to be competitive as applicants to graduate programs. This degree is built around a biology core emphasizing the principles of ecology and evolution with an orientation towards natural resources, conservation, and other environmental concerns.

Student Learning Outcomes

Environmental Biology majors at Washburn University, upon completion of the program will be able to:

- Describe or distinguish major biological principles in cell biology, genetics, organismal biology, ecology, and evolution.
- Demonstrate the complex interrelationships amongst ecological and evolutionary forces and how they influence organisms, populations, and community function.
- Explain the scientific process and be able to discriminate between different approaches to science.
- Identify, recognize, and recall the basic biology of at least one major taxonomic group.
- Design experiments and analyze and interpret basic scientific data.
- Explain scientific information in oral and written presentations in a clear and professional manner.

Degree Requirements

Environmental Biology, BA

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Forensic Biology, BS

The BS degree in Forensic Biology is designed to provide students with both the theoretical and practical knowledge required to obtain employment in the forensic biology field. The curriculum is rooted in a rigorous core of biology and other natural sciences, while also exposing students to legal and ethical considerations that are necessary for any career in forensic science.

The coursework for the B.S. in Forensic Biology satisfies the 30-hour natural science concentration and is designed to meet the requirements for accreditation as outlined by the Forensic Science Education Programs Accreditation Commission (FEPAC).

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Science (p. 75) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses

below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Molecular Biology and Biotechnology, BS

The BS degree in Molecular Biology and Biotechnology is designed to provide students an opportunity to focus their undergraduate studies in the molecular biosciences in an effort to prepare themselves for either entering the workforce directly as baccalaureate-level research scientists or for entering competitive graduate programs to further their studies.

The curriculum is designed to be rich in laboratory experiences through coursework, research and an internship. In addition to over 80 credit hours of science courses, Molecular Biology and Biotechnology majors will be required to take an ethics course to appreciate the interplay between biology and society.

Student Learning Outcomes

Molecular Biology & Biotechnology majors at Washburn University, upon completion of the program will be able to:

- Acquire a comprehensive understanding of biological principles including cell biology, genetics, organismal biology, structure and function, ecology, and evolution.
- Acquire the ability to understand and utilize the scientific method.
- Master a variety of scientific techniques in the core biology disciplines of organismal biology, microbiology, genetics, molecular biology, and undergraduate research.
- Develop the ability to analyze and interpret scientific data.
- Develop the oral and written presentation skills to successfully communicate scientific information in a professional manner.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Science (p. 75) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Biology Major with Secondary Education Specialization, BS

The BS degree in Biology with Secondary Education Specialization is designed for those students seeking teaching certification in Biology and who wish to have a more extensive natural science foundation.

Student Learning Outcomes

Biology, Secondary Education Specialization majors at Washburn University, upon completion of the program will be able to:

- Describe or distinguish major biological principles in cell biology, genetics, organismal biology, ecology, and evolution.
- Demonstrate the complex interrelationships amongst ecological and evolutionary forces and how they influence organisms, populations, and community function.
- Explain the scientific process and be able to discriminate between different approaches to science.
- Identify, recognize, and recall human anatomy, physiology, reproduction, and development.
- Design experiments and analyze and interpret basic scientific data.
- Explain scientific information in oral and written presentations in a clear and professional manner.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Science (p. 75) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Students seeking certification to teach Biology must also be formally admitted to the University's Professional Teacher Education (p. 291) Programs.

NOTE: The number of credit hours to graduate with a B.S. in Biology with Secondary Education Specialization varies but is at least 140 credit hours.

Biology Secondary Education, BEd

The Bachelor of Education (BEd) in Biology Secondary Education is designed for those students seeking teaching certification in Biology.

Student Learning Outcomes

Biology Secondary Education Majors with a Bachelor of Education degree, upon completion of the program, will be able to:

- Understand and explain the similarities and differences between how a variety of organisms live and grow.
- Understand and explain how organisms interact with their environment.
- Understand and explain how genetic information is transmitted from one generation to the next and how genetic variation is lost or maintained.
- Understand and explain evolutionary principles and processes and how they provide evidence that shows the relatedness of different species.
- Incorporate core biological ideas, scientific and engineering practices, and crosscutting concepts into instruction.
- Demonstrate an ability to create and manage environments that support learning.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Education (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Students seeking certification to teach Biology must also be formally admitted to the University's Professional Teacher Education (p. 291) Programs.

Biology, Minor

Minor Requirements

(optional minor for the Bachelor of Arts degree)

To minor in Biology the student must contact the Department and be assigned a Biology advisor. The 17-hour minimum must be met with course work appropriate for Biology majors with at least 7 hours of upper-division biology coursework. No fewer than 7 hours of this minor must have been completed at Washburn University. Students must have a grade of C or better in each course taken to fulfill the minor.

Chemistry

Department of Chemistry

Website: <https://www.washburn.edu/academics/college-schools/arts-sciences/departments/chemistry/index.html> (<https://www.washburn.edu/academics/college-schools/arts-sciences/departments/chemistry/>)

Faculty

Professor Shaun Schmidt, Chair, PhD
 Professor Seid Adem, PhD
 Professor Sam Leung, PhD
 Associate Professor Holly O'Neill, MS
 Assistant Professor Allan Ayella, PhD
 Assistant Professor Hoang Long Nguyen, PhD

Vision

Washburn Chemistry Department strives to create a supportive, diverse, and inclusive environment to promote life-long learning, to develop analytical and critical thinking skills, and to grow the body of knowledge for our students, faculty, and community.

Mission

Consistent with the mission of the University and the College of Arts and Sciences, the Department of Chemistry is committed to:

- Provide a broad spectrum of undergraduate students with a supportive environment in which to develop the necessary understanding of chemical principles, and analytical and critical thinking skills,
- Engage in scientific research,
- Serve the scientific and local communities.

Student Learning Outcomes

Chemistry majors at Washburn University, upon graduation, will be proficient in:

- Applying fundamental chemical principles, models, and theories;
- Safely conducting empirical labs, implementing calculations and computational methods, and evaluating data;
- Evaluating and delivering oral and written scientific communications;
- Practicing inclusive collaboration, ethics, and professionalism.

Additional Requirements

Additional Requirements for all Chemistry Bachelor Degrees

Research (CH 390 Undergraduate Chemical Research) must be initiated at least one semester prior to the semester of graduation. A written report of research or internship is required of all majors. An oral presentation of CH 390 Undergraduate Chemical Research results is required of all BS majors.

Required Natural Science Concentration

All Bachelor of Science degrees include a required 30-hour natural science concentration, which includes courses chosen from departments in the Natural Sciences and Mathematics Division, other than the student's major department. At least 15 of these hours must be in one

department. The 30 hours must be approved by the student's major department chairperson.

Natural Sciences Concentration courses for BS degrees offered by the Department of Chemistry are limited to these courses:

- Biology: BI 192 General Cellular Biology and courses with BI 192 or higher as prerequisite;
- Computer Information Sciences: CM 111 Introduction to Structured Programming or courses with CM 111 or higher as a prerequisite;
- Mathematics: MA 116 College Algebra and courses with MA 116 or higher as a prerequisite;
- Physics: PS 281 General Physics I or above for the ACS certified major, or PS 261 College Physics I or PS 281 General Physics I and above for the non-certified major.

Departmental Honors

Students are eligible to receive departmental honor upon graduation if they fulfill the minimum requirements:

- A grade point average of 3.5 in the major, including a 3.5 in upper division work in the major.
- Successful completion of research with presentation or internship in Chemistry.
- Service to the Department, or to the community relevant to the Chemistry major.
- The recommendation of the Department.

Programs

- Chemistry, BA (p. 121)
- Chemistry, BS - Certified by the American Chemical Society (p. 121)
- Chemistry, BS - Not Certified by the American Chemical Society (p. 122)
- Chemistry Secondary Education, BEd (p. 122)
- Chemistry, Minor (p. 123)
- Biochemistry, BA (p. 123)
- Biochemistry, BS (p. 123)
- Forensic Chemistry, BS (p. 124)
- Forensic Chemistry, Minor (p. 124)
- Laboratory Science, AA (p. 124)

Course Offerings

CH 100 Science Success Strategies (2)

Interdisciplinary class may be taken as MA 105. Develops math and science skills fundamental to science majors. Prerequisite: MA 104, or MA 110, or MA 112, or MA 116 with a grade of D or better.

CH 103 Introduction to Forensic Chemistry (3)

This course emphasizes the history, philosophy and major theories of chemistry as they apply to current forensic analytical techniques. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

CH 111 Chemistry in Everyday Life (0-5)

An integrated lecture and laboratory course designed for people pursuing degrees outside the natural or health sciences and who are interested in understanding basic chemistry concepts and their applications in everyday life. Topics include composition, phases and structure of matter, chemical reactions, solution chemistry, electrochemistry, and chemical equilibrium and their effects on health, the environment, water quality, energy sources, food, and polymers. Lab exercises help students apply concepts and models. This course requires no previous science or mathematics background and cannot count towards Chemistry Department degree programs. Fulfills the general education requirement of a natural science course with lab. Course consists of three hours of lecture and three hours of laboratory exercises per week. Prerequisites: None.

Course Attributes:

- Gen Ed AY 2024-2025: Natural and Physical Sciences
- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- USLO: Quantitative and Scientific Reasoning and Literacy

CH 121 General, Organic, and Biological Chemistry (5)

Designed for those students who need only a one-semester survey of the principles of chemistry or for nursing students. Includes vocabulary, laws, and applications of the basic concepts of chemistry. Laboratory work includes preparations, illustrations of laws and typical quantitative experiments. Chemistry 121 will not count towards a major or minor in chemistry. High school or on-line courses will not be considered equivalent to this course. Three one-hour lectures, one hour of recitation, and one three-hour laboratory period a week. Prerequisite: Equivalent or higher of MA 116 or MA 112 with a grade of C or better.

Course Attributes:

- Gen Ed AY 2024-2025: Natural and Physical Sciences
- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

CH 126 RN-BSN General, Organic, Bio Chemistry (3)

Designed to fulfill the degree requirement in chemistry for the Registered Nurse to Bachelor of Science in Nursing program, this course introduces measurements, atomic theory, compounds, solutions, and reactions. Prerequisite: The student must be a registered nurse and enrolled in or received a C or better in MA 116, its equivalent or higher.

CH 151 Fundamentals of Chemistry I (5)

Designed for those students who need one year of general chemistry. This course discusses vocabulary and basic laws that are necessary as a foundation for future studies in chemistry. Topics covered will include such subjects as atomic structure, states of matter, chemical bonding and solutions. The emphasis in the laboratory is on quantitative work. Credit for CH 151 precludes subsequent earning of credit in CH 121. High school or on-line courses will not be considered equivalent to this course. Three class periods, one hour of recitation, and one three-hour laboratory period per week. Prerequisite: MA 116 or concurrent enrollment.

Course Attributes:

- Gen Ed AY 2024-2025: Natural and Physical Sciences
- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

CH 152 Fundamentals of Chemistry II (5)

A continuation of Chemistry 151. Includes a study of equilibrium, electrochemistry, thermodynamics, thermochemistry, and kinetics. Laboratory work deals with experimental studies on the theories of chemistry, qualitative analysis and independent laboratory projects. High school or on-line courses will not be considered equivalent to this course. Three one-hour lectures, one hour of recitation, and one three-hour laboratory period a week. Prerequisite: CH 151 with a grade of C or better.

Course Attributes:

- Gen Ed AY 2024-2025: Natural and Physical Sciences
- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

CH 202 Professional Forensic Science Seminar (2)

Students will be introduced areas of forensic science not covered in traditional science coursework through seminars as presented by professionals in the field. These areas will include topics that pertain to every field in forensics such as courtroom testimony, ethics and professionalism and government reporting on forensics. Additional topics may include arson investigation, digital evidence, gunshot residue analysis, firearms and toolmarks analysis and fraud investigation. Prerequisite: None

CH 212 Chemistry of Food and Cooking (3)

This course will introduce students to advanced chemistry topics through examples of food and cooking. One two-hour lecture and one three-hour laboratory period per week. Prerequisite: CH 101 or higher.

CH 300 Special Topics/Chemistry (1-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: Consent of instructor.

CH 317 Chemistry for STEM Educators I (3)

Designed to introduce concepts and applications of chemistry to STEM educators. This includes chemical safety, vocabulary, atomic structure, states of matter, gases, chemical interactions, bonding, solutions, kinetics, thermodynamics, and thermochemistry. Composed of three hours of lectures/demonstrations/laboratory exercises each week. This course does not satisfy any chemistry prerequisite/requirement outside of the STEM program. Prerequisites: MA 112 or MA 116 and PS 108 with a letter grade of a "C" or higher; concurrent enrollment in ED 317 Chemistry for STEM Educators II

CH 320 Analytical Chemistry (3)

The theoretical and practical fundamentals of classical and physiochemical methods of analysis, with special emphasis on the relationship between physical and analytical chemistry. Prerequisites: CH 152 with a grade of C or better.

CH 321 Analytical Chemistry Lab (1)

Principles and techniques of analytical and physical measurements with computer assisted analysis. One three hour laboratory per week. Prerequisites: CH 152 with a grade of C or better and concurrent enrollment in CH 320 or consent of instructor.

CH 323 Advanced Forensic Chemistry (0-4)

Advanced Forensic Chemistry will familiarize students with the most common laboratory equipment and techniques found in a forensic chemistry lab, allowing them to apply the principles learned in the lecture portion to analyze mock evidence, correctly interpret data and effectively communicate results. At the end of the course, there will be a mock case that students will work from start to finish, ending with a testimony in a mock courtroom. Prerequisites – CH 340 Organic Chemistry I with a C or better

CH 340 Organic Chemistry I (3)

The principles of organic chemistry and their application to the preparation, properties, and reaction of aliphatic, aromatic, and a few heterocyclic compounds. Prerequisites: CH 152 with a grade of C or better.

CH 341 Organic Chemistry II (3)

A continuation of Chemistry 340. Three class periods per week. Prerequisite: CH 340 with a grade of C or better.

CH 342 Organic Chemistry Lab I (2)

Principles and techniques of organic chemistry, including preparation, separation, identification, and use of microscale equipment. One hour of lecture and one three-hour laboratory period per week. Prerequisites: CH 152 and CH 340 with a grade of C or better or concurrent enrollment.

CH 343 Organic Chemistry Lab II (2)

A continuation of CH 342 with emphasis on spectroscopy and other instrumental techniques. One hour of lecture and one three-hour laboratory period per week. Prerequisites: CH 341 or concurrent enrollment, and a grade of C or better in CH 342.

CH 345 Inorganic Chemistry Lab (2)

Emphasis on inorganic preparations and analytical and physical measurements on inorganic and organometallic compounds with computer assisted analysis of data. One hour lecture and one three-hour laboratory period per week. Prerequisites: CH 152 and CH 342 with a grade of C or better.

CH 346 Instrumental Analysis (2)

Advanced techniques, instrumentation, computational analysis, and computer analysis are used to investigate biological, inorganic, and organic compounds. One hour lecture and one three-hour laboratory period per week. Prerequisites: CH 321 and CH 343 with a grade of C or better.

CH 347 Physical Chemistry Concepts Lab (1)

Techniques and interpretation of physical systems measurements. One three-hour laboratory per week. Prerequisite: CH 343 with a grade of C or better.

CH 350 Biochemistry I (3)

Basic principles of the structure and chemistry of biochemical molecules, such as proteins, nucleic acids, carbohydrates, lipids, enzymes, and vitamins. Prerequisites: CH 340 with a grade of C or better.

CH 351 Biochemistry Laboratory I (2)

Biochemistry from the laboratory aspect, with special emphasis on modern techniques and instruments. One four-hour laboratory period a week, one hour lecture and one three-hour laboratory period per week. Prerequisites: CH 342 and CH 350 with a grade of C or better or concurrent enrollment and consent of instructor.

CH 352 Biochemistry II (3)

A continuation of CH 350 emphasizing metabolism, regulatory mechanisms, and DNA replication and expression. Prerequisite: CH 350 with a grade of C or better.

CH 353 Biochemistry Laboratory II (2)

Emphasis on individual projects using the tools of biochemistry from CH 351 and the biochemical literature. One four-hour laboratory period a week. Prerequisites: CH 350 and CH 351 with a grade of C or better.

CH 355 Medicinal Chemistry (2)

A brief history of the development of medicinal chemistry and its social and political implications. Major emphasis will be placed on the methods of discovery and development of drugs. Examples will be drawn from natural products, including plants, animal, and microbiological sources, from organic synthesis, and from modern physicochemical approaches. The mechanism of action, metabolism, and proof of structure of representative drugs will be presented. Prerequisite: CH 341 with a grade of C or better.

CH 360 Descriptive Inorganic Chemistry (3)

Descriptive chemistry of the inorganic elements based on the principles learned in freshman chemistry. Prerequisite: CH 152 with a grade of C or better.

CH 362 Spectroscopy (2)

An introduction to the interpretation of the spectra of organic compounds. Prerequisite: CH 343 with a grade of C or better.

CH 371 Advanced Topics in Chemistry (1)

The specific course content will depend on the instructor. At least two of the following four topics will be introduced: synthetic polymers, biological macromolecules, supramolecular aggregates, meso or nanoscale materials. Introduction to these topics will include preparation, characterization, and physical properties. Thirty hours of chemistry or consent of instructor(s) is required.

CH 380 Fundamentals of Physical Chemistry (3)

A non-calculus based physical chemistry class. Prerequisites: a score of at least the 40th percentile on the American Chemical Society full-year General Chemistry Exam, CH 152, PS 261 or PS 281 with a grade of C or better.

CH 381 Physical Chemistry I (3)

Covers the properties of gases, kinetic principles, thermodynamics, state changes, equilibrium, and properties of solution. Prerequisites: CH 152 with a grade of C or better, MA 151 with a grade of C or better, PS 262 or PS 282 (recommended or concurrent enrollment), and MA 152 (recommended).

CH 382 Physical Chemistry II (3)

Covers quantum principles with applications to atomic and molecular structure and spectroscopy, statistical thermodynamics, and kinetic theory of gases. Prerequisites: CH 381 with a grade of C or better and MA 152 or concurrent enrollment.

CH 383 Physical Chemistry III (3)

Application of quantum theory in spectroscopy, gas and solution phase molecular reaction dynamics, surface chemistry, and electrochemistry are investigated. Prerequisite: CH 382 with a grade of C or better.

CH 385 Physical Chemistry Lab (1)

Experimental measurements and data analysis emphasize the physics of chemical systems. One three hour laboratory per week. Prerequisite: CH 381 with a grade of C or better or concurrent enrollment.

CH 386 Inorganic Chemistry (3)

Modern theories in inorganic chemistry, including atomic structure, molecular structure and bonding, symmetry and point groups, acid/base definitions, and oxidation/reduction concepts. These topics are applied to main groups, coordination compounds, and organometallic compounds and their respective reactions. Prerequisite: CH 340 with a grade of C or better.

CH 390 Undergraduate Chemical Research (1-5)

Laboratory or theoretical computational research in any of the fields of chemistry, a typed formal report is required. Students may enroll for more than one semester of research. No more than five credit hours may be applied toward meeting departmental or graduation requirements. Prerequisite: departmental permission.

CH 391 Chemistry Seminar (1)

Students must enroll for one credit of seminar and give oral and written presentations on subjects chosen from a list of supplied topics to meet the requirement of the major in chemistry. Prerequisite: departmental permission.

CH 393 Internship (3)

Experience training in a professional forensic laboratory. Prerequisites: Chemistry, 25 credits; Biology, 12 credits; chair approval.

Chemistry, BA Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Communication

Department of Communication Studies

Website: <https://www.washburn.edu/academics/college-schools/arts-sciences/departments/communication/index.html> (<https://www.washburn.edu/academics/college-schools/arts-sciences/departments/communication/>)

Faculty

Professor Jim Schnoebelen, PhD, Chair
 Professor and Associate Dean of CAS Tracy Routsong, PhD
 Assistant Professor Adebanye Adebayo, PhD
 Assistant Professor Carson Kay, PhD
 Director of Debate/Senior Lecturer Kevin O'Leary, PhD
 Assistant Director of Debate/Lecturer Steve Doubleddee, MA
 Lecturer, Alexandra Kirksey, PhD

Mission

The Washburn University Communication Studies Department exists to advance the intellectual growth and development of marketable skills by majors, minors, and general education students. This is achieved through student-centered instruction which relies upon Communication theory and research to develop critical thinking skills in written, oral, and nonverbal communication. Communication Studies faculty teach Communication courses, mentor clubs, and coach activities to foster the development of skills that enhance student success in professional and community settings. Thus, Communication Studies students are able to resolve communication challenges, engage in principled actions as citizens and scholars, and achieve rewarding, productive careers.

Student Learning Outcomes

Communication Studies majors at Washburn University should be able to, upon graduation:

- Describe the purposes of communication in the 21st Century.
- Analyze the needs and expectations of audiences.
- Create messages to achieve specific communication goals.
- Apply communication skills and theory to generate new insights into contemporary communication situations.
- Describe complexities such as race, gender, culture, and interpersonal history, of communication situations.

The Communication Studies major prepares students for professional and personal success. Some fields where communication graduates are building their careers are corporate management, human resources, training and development, advertising, marketing, banking and insurance. The 36 hour major is designed to provide broad general theory and skills for application in many communication arenas. Students who want to pursue graduate or professional school are well prepared to enter the most competitive programs. Students who take communication studies courses develop strong general education skills, as well as in-depth understanding of the theory and practice of human communication. Six courses are specifically identified to meet general education requirements: CN 101 Introduction to Communication Studies, CN 150 Public Speaking, CN 151 Introduction to Interpersonal Communication, CN 341 Persuasive Speaking, CN 342 Communication-Teams and Groups and CN 351 Special Topics in Interpersonal Communication. Alumni find employment as corporate trainers, lobbyists, small business owners,

directors of non-profits, consultants, and in a broad range of other careers.

Debate

The nationally ranked debate program offers opportunities in competitive forensics with an emphasis on NFA Lincoln-Douglas debate. Scholarships are available.

Mock Trial

Washburn University fields a highly competitive mock trial team that competes at tournaments throughout the fall, with regionals and nationals in the spring. Students hone their legal presentation and critical thinking skills by acting as witnesses and attorneys in trials. Scholarships are available.

Departmental Honors

To receive departmental honors, a graduating student must have a GPA of 3.5 in the Major and an A in Capstone (CN 491 Senior Capstone Internship or CN 498 Senior Capstone).

Lambda Pi Eta

This is the honorary society sponsored by the National Communication Association, the professional organization of communication scholars. To be included in Lambda Pi Eta students must attain a minimum of 60 credit hours with a GPA of 3.0, have taken 12 credit hours of communication while maintaining a 3.25 GPA in CN classes and be enrolled in good standing with the department.

Programs

- Communication Studies, BA (p. 128)
- Communication Studies, Minor (p. 128)
- Speech and Theatre, BEd (p. 129)

Please see the Graduate (<https://catalog.washburn.edu/graduate/college-arts-sciences/>) catalog for additional information regarding the department's graduate programs:

- Master of Arts - Communication and Leadership (<https://catalog.washburn.edu/graduate/college-arts-sciences/master-arts-communication-leadership/>)
- Graduate Certificate in Communication and Leadership (<https://catalog.washburn.edu/graduate/college-arts-sciences/graduate-certificate-communication-leadership/>)

Course Offerings

CN 101 Introduction to Communication Studies (3)

Examines concepts and skills involved in human communication. Topics include language, nonverbal communication, relationships, perception, and conflict management. Emphasizes the ability to analyze and synthesize information, and to interpret and assess human values. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Communications
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

CN 150 Public Speaking (3)

Focuses on the process of speech preparation and presentations. Emphasizes the development of critical thinking and listening, clear speaking, and the interpretation of human values through the development of public speaking competencies. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Communications
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

CN 151 Introduction to Interpersonal Communication (3)

This course introduces the basic principles of relationships in dyadic, group, and social mediated settings and the various opportunities for application within everyday life. This introductory course prepares students to reflect upon various types of relationships using a variety of lenses and perceptions. This course will also prepare students for advanced courses within and outside the discipline.

Course Attributes:

- Gen Ed AY 2024-2025: Communications
- Gen Ed AY 2024-2025: Inclusion and Belonging
- USLO: Global Citizenship, Ethics and Diversity

CN 154 Debate (1-3)

Preparation for intercollegiate debate. May be repeated up to 3 hours. Prerequisite: Consent.

CN 302 Communication Theory (3)

Explores the theoretical foundations that underlie applications in a variety of communication contexts. Provides broad exposure to contemporary communication theory. Prerequisite: CN 101.

CN 303 Research Methods (3)

This course will introduce a variety of ways of conducting research in the Communication Studies discipline that might include Interviews, Observation, Textual Analysis, Rhetorical Criticism, and/or Surveys. Prerequisites: CN 101 and CN 302 or special permission.

CN 304 Qualitative Communication Research Methods (3)

Presents fundamental types and steps of qualitative research in communication. Prerequisites: CN 101 and CN 302 or special permission.

CN 305 Quantitative Communication Research Methods (3)

Presents fundamental types and steps of quantitative research in communication. Prerequisites: CN 101 and CN 302 and MA 112 or higher, or special permission.

CN 306 Health Communication (3)

Explores the concepts and theories of health communication. Examines the demands of health care and health promotion, communication issues and problems in modern health care systems, and identifies communication strategies health care consumers and providers can employ to achieve their health care goals.

CN 307 Communication in Legal Process (3)

Explores the practice of communication in the legal setting, including attorney-client interaction, the trial process, attorney-jury interaction, and legal negotiation.

CN 308 Organizational Communication (3)

Examines organizations from a communication perspective. Emphasizes how organizational variables affect communication patterns. Topics include concepts, skills, theories, and strategies for improving organizational communication.

CN 309 Political Communication (3)

Examines communication concepts in campaigns, presidential addresses, and other political environments.

CN 330 Communication in Conflict and Negotiation (3)

Explores the roles of communication in conflict and negotiation within relationships, groups, and organizations. Examines both theory and practice.

CN 340 Interviewing (3)

Examines the key concepts and needed skills to conduct effective interviews in many settings.

CN 341 Persuasive Speaking (3)

Sharpens persuasive speaking skills initiated in Public Speaking. Focuses on preparation, delivery, and analysis of persuasive speeches in a variety of contexts, including political and corporate settings. Prerequisite:

CN 150.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

CN 342 Communication-Teams and Groups (3)

Provides an in-depth look at group dynamics and communication.

Focuses on communication and decision making, relationships, conflict, leadership, and group development.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

CN 343 Debate (1-3)

Preparation for intercollegiate debate. May be repeated up to 4 hours.

Prerequisite: Consent

CN 344 Oral Interpretation (3)

This course will introduce students to the skills and techniques involved in creating and evaluating acts of oral interpretation. Particular attention will be paid to those events and acts common to the forensic arts.

CN 350 Persuasion (3)

Examines theory and research on the role of communication in influencing attitudes, beliefs, values, and behaviors.

CN 351 Special Topics in Interpersonal Communication (3)

Examines critical factors in interpersonal communication. Analyzes and applies various interpersonal theories and concepts to a variety of relationships.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Communications
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

CN 352 Truth and Deception (3)

This course examines a particularly human activity (or skill?): Lying and deception. Study of these topics draws from recent scholarship in the disciplines of Communication Studies, Psychology, Philosophy, Public Policy, and Marketing. Theoretical concepts will be brought down to earth as we consider them at work in applications to current events and breaking news.

CN 353 Environmental Communication (3)

This course looks at ways human symbols define, construct, and impact "the environment." Focuses include understanding and creating environmental messages, examining constructs of wilderness and civilization, and analyzing strategies designed to meet environmental challenges, to build communication campaigns, and to engage in environmental advocacy. Topics include eco-tourism, "green" schemes, and representations in social and mass media, visual media, and popular culture.

CN 354 Reputation Management (3)

This course examines the role strategic communication with publics plays within corporate and institutional settings, specifically its effectiveness in developing and maintaining external and internal relationships. Methods combine close reading, current event applications, case analyses and focused discussion. Special attention is paid to strategies of crisis planning and management, apologia, and rhetorical reputation management techniques.

CN 359 Methods of Teaching Speech and Drama (3)

The study and application of teaching strategies for secondary education certification in speech. Prerequisites: Advisor approval and formal admission to teacher education.

CN 361 Communication in Social Movements (3)

Assesses theories, models, practice, and criticism of protest communication related to a variety of sociocultural movements.

CN 362 Sexual Communication (3)

This course is designed to provide you with more advanced theory and practice in the study of sexual communication.

CN 363 Intercultural Communication (3)

Explores speech communication in and between different cultures and communities.

CN 364 Gender Communication (3)

Focuses on how gender influences communication patterns between and among men and women. Communication influences the creation of gender roles and identity.

CN 365 Business/Professional Presentation (3)

Focuses on principles and practices of public speaking in corporate and professional settings such as reports, proposals, and meetings. Emphasizes clear speaking and information processing in terms of synthesis and analysis.

CN 366 Nonverbal Communication (3)

Explores nonverbal communication by individuals and society.

CN 367 Crisis Communication (3)

Crises are best managed through sound communication practices. This class will help you to develop understanding of the crisis life-cycle, along with effective strategies you can use to foresee, prepare for, and manage crises in professional and personal dimensions of life.

CN 368 The Rhetoric of Hip Hop and Rock n Roll (3)

This course explores the rhetorical dimensions of rock 'n' roll and hip hop by examining four interconnected themes and their relation to communication: fandom, stardom, criticism, and failure. In addition, concepts such as identity, anti-heroism, appropriation, place, production, improvisation, tone, and flow are explored and discussed. With the benefit of open access content as well as short readings, we will focus on some of the key figures in rock 'n' roll and hip hop (e.g., AC/DC, Jimi Hendrix, Beyoncé, Drake, Kendrick Lamar) along with their motivations and messages.

CN 369 Critical Studies (3)

Examines cultural practices and their relation to communication as both the object of study and the location of political criticism and action.

CN 370 Communication Training & Development (3)

Emphasizes the theory and practice of training and development in organizations. Prerequisites: CN 150 and CN 308, or with consent of instructor.

CN 380 Strategic Management Communication (3)

Strategic Management Communication links current theories of business communication to applications and practices that build on these within professional settings. The course provides essential information as to expectations for form and content of a variety of message types that apply to all business situations. Using the case method as a tactic for understanding applications of this material in current business settings, students develop theory-based and strategy-driven skills in production of written and oral document types used in business, corporate, and management communication. Prerequisites: CN 101 required; preferred CN 308 Organizational Communication.

CN 395 Special Topics/Communication (1-3)

Focuses on a topic not regularly offered, but that enhances the curriculum because of specialized faculty or student interest.

CN 490 Directed Research (1-3)

Selected research on communication topics not provided in the curriculum.

CN 491 Senior Capstone Internship (3)

Experience and training in professional settings related to communication careers. Second semester junior or senior status. Majors only. Prerequisites: 27 hrs of communication courses completed including: CN 101, CN 150, CN 302, CN 304 or CN 305, EN 300, and instructor approval. Note: Students can choose either CN 491 or CN 498 to meet their Capstone requirement.

CN 498 Senior Capstone (3)

Students design and execute an appropriate project which provides a culminating experience for the undergraduate academic career and is presented in a departmental forum. Prerequisites: 27 hrs of communication courses completed, including CN 101, CN 150, CN 302, CN 304 or CN 305, EN 300 and Instructor approval. Note: Students can choose either CN 498 or CN 491 to meet their Capstone requirement.

Communication Studies, BA

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

In addition, all Communication (BA) majors must complete a complementary minor, certificate, or additional major; students must declare this with the department that grants it.

Total Hours		81

¹ Student must take TH 100 or TH 300 three times, for a total of three credit hours. Student should discuss which course to register for with their academic advisor.

Computer Information Science

Department of Computer Information Sciences

Website: <https://www.washburn.edu/academics/college-schools/arts-sciences/computer-information-sciences/index.html> (<https://www.washburn.edu/academics/college-schools/arts-sciences/computer-information-sciences/>)

Faculty

Professor Nan Sun, PhD, Chair

Professor Bruce Mechtly, PhD

Assistant Professor George Frazier, PhD

Assistant Professor Joseph Kendall-Morwick, PhD

Lecturer Phillip Hauptman, PhD

Mission

Consistent with the mission of the University and College of Arts and Sciences, the Department of Computer Information Sciences is dedicated to providing students, through a diverse learning environment, the knowledge and skills necessary to enter careers and to become lifelong learners in the field of computer information science. Faculty members professionally engage in their disciplines through teaching, researching, and serving the University and the community.

Student Learning Outcomes

The Computer Information Science Associate of Arts, Bachelor of Arts, and Bachelor of Science degrees are based on the guidelines provided by the Joint Task Force on Computing Curricula for Undergraduate Degree Programs recommendations.

We adopt ABET's criteria for our program learning outcomes. Computer Information Sciences majors at Washburn University, upon graduation, are expected to be able to:

- Analyze a complex computing problem and apply principles of computing and other relevant disciplines to identify solutions;
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline;
- Communicate effectively in a variety of professional contexts;
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles;
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.

Departmental Honors Program

CIS majors are eligible to receive departmental honors upon graduation if they fulfill the following requirements:

- CM GPA: 3.70 or above.
- Overall GPA: 3.70 or above.
- Capstone project: aggregate 90% or above based on faculty evaluations.
- Approval of CIS faculty: 75% or above.

Programs

- Computer Information Science, BA (p. 132)
- Computer Information Science with Digital Forensics Concentration, BA (p. 133)
- Computer Information Science, BS (p. 133)
- Computer Information Science with Data Science Concentration, BS (p. 134)
- Computer Information Science, AA (p. 134)
- Computer Information Science, Minor (p. 134)
- Computer Information Science in Digital Forensics, Minor (p. 135)

Bachelor of Science / Natural Science Concentration

All Bachelor of Science degrees include a required 30-hour concentration, which includes courses chosen from departments in the Natural Sciences and Mathematics Division, other than the student's major department. At least 15 of these hours must be in one discipline. The 30 hours must be approved by the student's major department chairperson.

Natural Sciences Concentration courses for BS degrees offered by the Department of Computer Information Science are limited to these courses:

- BI 100 Human Biology or above;
- CH 103 Introduction to Forensic Chemistry or above;
- MA 117 Trigonometry or above, except: MA 200 Number & Operation for Elementary Teachers, MA 201 Geometry, Proportion & Data Analysis for Elementary Teachers, MA 204 Number Theory and Discrete Math for Middle School Teachers, MA 316 Teaching Algebra, MA 317 Teaching Trigonometry, MA 318 Teaching Statistics, MA 320 Mathematics for Middle School Teachers;
- PS 101 Physics in Everyday Life or above, AS 101 Introduction to Astronomy/Cosmology or above, GL 101 Physical Geology or above, EG 105 Introduction to Engineering or above.

Course Offerings

CM 101 Computer Concepts and Applications (3)

Overview of computer hardware, software, applications, and social implications. Emphasis on computer literacy, basic tools and applications to access resources on the Internet, and hands-on experience. The course provides an introduction to word processing, spreadsheet, database, presentation software, and emerging technologies. This course does not apply toward CIS departmental major requirements. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

CM 105 Introduction to Computer Science (3)

A broad perspective of the field of Computer Science from core concepts to computing's most important application areas and their ethical issues. Core concepts include data, hardware, software, operating systems, communications, and programming. Application areas include software development, cybersecurity, and data science. Prerequisites: MA 112 or higher, or an ACT Mathematics score at or above 22, or Math Diagnosis score at or above 75.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

CM 111 Introduction to Structured Programming (4)

Introduction to essential concepts of structured programming including sequence, selection, iteration, and function calls. These concepts are examined through learning the syntax and semantics of a popular programming language. Students will apply structured programming to problem solving through utilizing basic data structures, logic, algorithm development, and APIs (Application Programming Interfaces). This course will prepare students for more advanced programming techniques. Three credit hours of lecture and a weekly two-hour laboratory session. Prerequisites: MA 112 or higher, or an ACT Mathematics score at or above 22, or Math Diagnosis score at or above 75.

CM 130 Web Development I (3)

Introduction to basic web development using HTML, cascading style sheets, frameworks, and elementary JavaScript. Emphasis on following the latest standards to create accessible, well-designed, and full-featured web pages that are easy to use and maintain. Prerequisites: None.

CM 203 Digital Forensics I (3)

Introduction to the field of digital forensics. Topics include data representation, file signatures, Windows artifacts, creating and using drive images, drive layout, partition tables, FAT32 and NTFS file systems, basic cryptography, and others as time permits. Prerequisites: MA 112 or higher, or an ACT Mathematics score at or above 22, or Math Diagnosis score at or above 75.

CM 231 Computer Organization/Assembler Language (3)

Introduction to computer organization and architecture. Topics include data representation, digital circuits, instruction set architectures, assembler language, and memory organization. Prerequisite: CM 111.

CM 244 C Programming Language (3)

Introduction to the C programming language and the use of C for applications. All aspects of the C language will be covered including syntax, data types, control structures, operators, data structures, pointers, and file input/output. Prerequisite: CM 111.

CM 245 Contemporary Programming Methods (3)

A study of advanced programming techniques with a focus on object-oriented programming. Topics include object-oriented design, event-driven programming, fundamentals of graphical user interfaces, and software testing. Prerequisite: CM 111.

CM 261 Networked Systems (3)

Introduction to the theory and practice of networking. Topics include network standards, ISO and TCP/IP reference models, routing and switching techniques, SDN, services, and protocols. Prerequisite: CM 231.

CM 290 Introduction to Python Programming (3)

Introduction to computer programming using Python. Topics include structured programming concepts, object-oriented programming, algorithm development, problem solving, and basic machine learning. Students will use Python libraries for manipulation, visual representation, and statistical interpretation of data. Prerequisites: MA 112 or higher, or an ACT Mathematics score at or above 22, or Math Diagnosis score at or above 75.

CM 298 Special Topics/Non-Majors (1-3)

Special topics course or directed study in CIS at the lower-division level. This course does not count toward the required electives of any CIS degree. Prerequisite: Determined by instructor.

CM 299 Special Topics/CIS (1-3)

Special topics course or directed study in CIS at the lower-division level. This course may count toward the lower-division electives of a CIS degree. Prerequisite: Determined by instructor.

CM 303 Digital Forensics II (3)

A follow-up course in digital forensics. Topics include the investigative process, court testimony, mobile forensics, computer forensics, online investigations, case studies, and tools used by professional digital forensic investigators. Prerequisites: CM 203

CM 307 Data Structures & Algorithmic Analysis (3)

Introduction to algorithmic analysis and algorithmic strategies. Topics include mathematical analysis of algorithms such as linear and divide and conquer algorithms, recursive programming, use of array-based and linked lists, stacks, queues, priority queues, trees, graphs, and selection of data structures to solve common problems in computer science. Prerequisites: MA 206 and CM 245.

CM 322 Operating Systems (3)

Introduction to the basic principles of the function and design of operating systems. Topics include processes and dispatching, kernels, resource management, scheduling, virtual memory, concurrency, inter-process communications, multiprocessing and multithreading, memory management, file systems, and virtualization. Prerequisite: CM 231.

CM 330 Web Development II (3)

Advanced studies in web development using a scripting language and a database. The student will learn to develop web applications that display dynamic content. Advanced features of client-side scripting will be introduced. Prerequisite: CM 111 or CM 290.

CM 331 Artificial Intelligence (3)

Introduction to the concepts, techniques, and applications of artificial intelligence. Topics include knowledge representation, reasoning, search, constraint satisfaction, creativity, learning, impacts of AI technology, ethical questions, logic and deduction, uncertainty, and planning. Prerequisite: CM 307.

CM 332 Data Mining (3)

Problem solving through the analysis of data. Topics include ethical issues, collecting and transforming data, machine learning algorithms, statistical and linear models, and clustering techniques. Prerequisites: CM 307 and MA 140.

CM 333 Software Engineering (3)

Study of disciplined approaches to the production of quality software products and an examination of social and professional issues related to software production and use. Topics include software requirements and specifications, lifecycle models, design, validation and evolution of software, project management, CASE tools, as well as social and ethical considerations. Prerequisite: CM 307 or CM 335.

CM 334 Modeling with VBA/Excel (3)

Introduction to the fundamentals of programming with Visual Basic for Applications using the Excel object model, and the application of those concepts in the creation of Decision Support Systems with their supporting models. Topics include ranges, control logic, worksheets, workbooks, charts, arrays, functions, subroutines, user forms, file handling, error handling, database access, and the application of these concepts in the creation of a decision support system. Prerequisites: CM 245 and MA 140

CM 335 Advanced Application Programming & Design (3)

Advanced topics in application programming and design using state of the art design techniques and implementation language. Topics include design of user interfaces, interacting with file systems, multi-threading, database programming, client-server programming, and basic web programming. Prerequisite: CM 245.

CM 336 Database Management Systems (3)

Characteristics and objectives of database management systems. Topics include entity-relationship models, relational database models, normalization to address modification anomalies, SQL, functions, stored procedures, triggers, and multi-user database issues. Prerequisite: CM 307 or CM 335.

CM 339 Computer Information Science Research (3)

Introduction to conducting research in the CIS field. Students learn to form research questions, conduct literature reviews, collect data, use statistical techniques to analyze data, and write research papers for submission to a CIS journal or conference. Prerequisites: CIS major with Junior Standing or consent of the instructor.

CM 341 Information Security: Technical Issues (3)

In-depth examination of technical issues associated with information security. The tools and techniques necessary to provide information security will be discussed in class and investigated in the laboratory whenever possible. Risks and threats to information security will also be discussed. Prerequisites: CM 261 and CM 322.

CM 342 Information Security Governance (3)

An examination of the development, function, roles, and responsibilities of information security programs. Topics include policy development, risk management, incident response, compliance, monitoring, and disaster recovery. Current law, regulations, and case studies will be discussed. Prerequisite: Junior standing and (CM 105 or higher).

CM 361 Introduction to Cybersecurity (3)

Introduction to computer security threats, vulnerabilities, and risks and the policies and best practices for mitigation. Topics include physical security, network security, information assurance, cryptography, malware, ethical hacking, and social engineering. Prerequisite: CM 261.

CM 370 Information Technology Project Management (3)

Introduction to project management concepts and techniques with an emphasis on CIS projects. Students will gain experience with project management software and developing project management documents and artifacts. Upon completing the course, students will be prepared to pass industry recognized project management certification exams. Prerequisite: Junior standing and (CM 105 or higher).

CM 390 Special Topics/Computer Information Science (1-4)

Special topics course or directed study in CIS at the upper-division level. This course may count toward the upper-division electives of any CIS degree. Prerequisites: Determined by instructor.

CM 400 Internship in Computing (1-6)

Practicum in the computing field that leverages computer science knowledge towards problem solving in the real world. The student will share internship experience in a public forum. Credit/No Credit Only. Repeatable. Prerequisites: A declared Major in CIS, an employment contract, and consent of the instructor.

CM 465 Computer Information Science Capstone Project (3)

Students will assimilate and synthesize knowledge and skills acquired during the course of study for the major to initiate and complete a functioning system through analysis, design, implementation, and testing. Students may choose to conduct a research project in the CIS field. Credit/No Credit Only. Prerequisites: CM 333 and CM 336 or (CM 307 and 90 hours).

Computer Information Science, BA

The Bachelor of Arts degree is for students who desire a traditional liberal arts education with less mathematical emphasis. It requires similar Computer Information Science coursework as the BS, with different Math or Natural Science course requirements, and two foreign language courses.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Code	Title	Hours
Required Courses Inside Department		
CM 111	Introduction to Structured Programming	4
CM 231	Computer Organization/Assembler Language	3
CM 245	Contemporary Programming Methods	3
CM 261	Networked Systems	3

Total Hours		64-66

Computer Information Science with Digital Forensics Concentration, BA

The Bachelor of Arts with a concentration in Digital Forensics is a variation of the Bachelor of Arts degree with courses designed to train students in digital forensics investigation. Washburn's partnership with the Kansas Bureau of Investigations Forensic Science Center provides the students the opportunity to understand criminal investigations and how crucial computer science is in solving today's crimes.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Computer Information Science, BS

The Bachelor of Science degree is for students who desire a strong mathematical or science foundation for their degree. This degree requires a 30-hour concentration in natural science or mathematics. Students planning on graduate study in Computer Science or a closely related field should choose this degree.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Science (p. 75) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Code	Title	Hours
Required Courses Inside Department

Computer Information Science with Data Science Concentration, BS

The Bachelor of Science with a concentration in Data Science is a variation of the Bachelor of Science degree with courses designed to train students in the field of big data and analytics. In this program you'll earn our flagship computer information science degree and add specialization in data science.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Science (p. 75) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Code	Title	Hours

Computer Information Science, AA

The Associate of Arts degree can be completed in two years. The programming-focused degree will give you the skills you need to start at the workforce. From there you can continue to a four-year degree and beyond, or grow your skills on the jobs.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Associate of Arts (p. 75) degree, and any additional hours needed to reach the minimum 60 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information

Computer Information Science, Minor

The Minor in Computer Information Science will provide students valuable computing skills in partnership with primary degrees. The minor could pair with every major, from Biology to English.

Minor Requirements

The minor in Computer Information Science consists of 16 hours of Computer Information Science coursework, including at least six upper division hours. The courses must include:

Code	Title	Hours
Required Courses Inside Department		
CM 111	Introduction to Structured Programming	4
CM 245	Contemporary Programming Methods	3
CM XXX	Any Division CM Course	3
CM 3XX	Upper Division CM Course	3
CM 3XX	Upper Division CM Course	3
Total Hours		16

CM 101 Computer Concepts and Applications and CM 298 Special Topics/Non-Majors do not count toward the minor.

Computer Information Science in Digital Forensics, Minor

The Minor in Computer Information Science in Digital Forensics will provide students valuable computing skills including those used in digital forensics investigation.

Minor Requirements

The Digital Forensics minor consists of 16 hours of Computer Information Science coursework, including at least six upper division hours. The courses must include:

Code	Title	Hours
Required Courses Inside Department		
CM 111	Introduction to Structured Programming	4
CM 245	Contemporary Programming Methods	3

Economics

School of Business

Website: <https://www.washburn.edu/academics/college-schools/business/index.html> (<https://www.washburn.edu/academics/college-schools/business/>)

Faculty

Professor Paul Byrne, PhD

Professor and Associate Vice President for Academic Affairs Jennifer Ball, PhD

Professor Sungkyu Kwak, PhD

Professor and Associate Dean of School of Business Dmitri Nizovtsev, PhD

Professor and Dean of School of Business David Sollars, PhD

Professor Rosemary Walker, PhD

Assistant Professor Manaf Sellak, PhD

Mission

The mission of the Economics program is teaching and instruction, supported by faculty involvement in basic and applied research as well as research that supports the teaching mission. The Economics faculty is committed to offering a high-quality baccalaureate Economics program that provides students with not only a broad general education background but also a thorough professional education. The Economics program offers courses in the University's general education program as well as required and elective courses in other programs on campus, including those offered by the School of Business.

Student Learning Outcomes

Upon completion of the major in Economics, students will be able to:

- Find facts and interpret them consistent with economic thinking.
- Demonstrate an understanding of how decision makers allocate scarce resources to achieve economic efficiency.
- Apply economic tools to analyze decisions made by consumers, firms, and policy makers.
- Use economic models to analyze the impact of various fiscal monetary, and trade policies on a nation's economy.

Honors in Economics

Candidates for the Bachelor of Arts degree, with a major in Economics, may qualify for Honors in Economics provided the following criteria are met:

- Accumulate a GPA of at least 3.50 in all economics courses applied to the BA degree, and
- Demonstrate superior research and/or independent study skills while enrolled in Economics 405, and
- Be approved for honors designation by a two-thirds vote of the School of Business faculty.

In fulfilling conditions (2) and (3), the student will be expected to provide any academic data requested and to provide the School with an extra copy of written work prepared for credit in EC 405 Honors Research in Economics. Written notice of intent to graduate with honors must be submitted by the student to the Office of the Dean, School of Business, early in the semester in which the student expects to graduate. This written notice is separate from any reporting requirements in place when

EC 405 Honors Research in Economics is taken as part of the Washburn Transformational Experience (WTE) program.

Programs

- Economics, BA (p. 136)
- Economics, Minor (p. 136)

Course Offerings

Course offerings are listed in the School of Business (p. 319) section of the catalog.

Note: Both the Economics major within the BA degree and the Economics major area of concentration within the Bachelor of Business Administration (BBA) degree program, as well as the minor in Economics, are administered by the Economics faculty within the School of Business. Course descriptions and further information are found in the School of Business section of the catalog. See, also, the subdivisions under Economics in the index.

Economics, BA

The Economics major in the Bachelor of Arts degree is designed to provide the student with an understanding of the principles and institutions governing economic decisions made by households, businesses, and governments. This type of knowledge, combined with studies in related areas, provides an appropriate background for employment in financial and non-financial business firms and governmental agencies. It also provides a solid basis for graduate study in economics, business and public administration, urban planning, international studies, and law.

Candidates for the degree are encouraged to elect courses in mathematics, political science, history, sociology, psychology, and philosophy. Students planning graduate study in economics are strongly urged to take the BA degree with a minor field of concentration in mathematics.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Code	Title	Hours
Required Courses Inside Department ^{1, 2}		
EC 200	Principles of Microeconomics	3
EC 201	Principles of Macroeconomics	3
EC 211	Statistics for Business and Economics	3
EC 300	Microeconomic Analysis ³	3
EC 301	Macroeconomic Theory ³	3
EC 3XX	Economics Upper Division Courses	9
Required Courses Outside Department ¹		
MA XXX	Mathematics course	3
Total Hours		27

- ¹ All courses required for the major must be taken on a graded basis and a grade of "C" or better must be earned.
- ² At least one half of the economics hours used to meet major requirements must be earned at Washburn University.
- ³ A grade point average of 2.0 is required before enrollment is permitted

Economics, Minor
Minor Requirements

The Minor in Economics can be earned by candidates for any bachelor's degree offered by Washburn University. The economics faculty has approved the following requirements for the optional minor.

Code	Title	Hours
EC 200	Principles of Microeconomics	3
EC 201	Principles of Macroeconomics	3
Economics courses numbered 300 or above		9
Approved course in statistics		3
Total Hours		18

A grade of C or better must be earned in each course used to satisfy the requirements of the minor and half of the credit hours in the economics courses used to meet minor requirements must be earned at Washburn University. Please see the current advising sheet for the minor in economics for further details.

Engineering Transfer Program

Department of Physics and Astronomy

Website: <https://www.washburn.edu/academics/college-schools/arts-sciences/departments/physics-astronomy/degree-engineering.html>

Engineering courses allow engineering transfer students to complete most of the program common to the first two years at most recognized schools of engineering. They also provide a background of application to theory for students majoring in mathematics and the physical sciences.

Faculty

Senior Lecturer Keith Mazachek, PhD

Student Learning Outcomes

Students participating in the engineering transfer program at Washburn University, upon graduation, are expected to have:

- Acquired an understanding of the different engineering disciplines and functions.
- Acquired a solid foundation in mathematics, the sciences, and basic engineering necessary to further their engineering education; and develop the ability to progress from observations to logical conclusions, applying analytical and critical thinking.

A joint “3-2” dual degree program with Kansas State University, the University of Kansas, and the University of Missouri-Kansas City enables a student to earn both a Bachelor of Science in Physics, Mathematics, Chemistry, or Computer Information Sciences at Washburn University, and a Bachelor of Science in Engineering at one of the other universities. Three years are spent at Washburn University pursuing the BS in one of the majors above. Upon satisfactory completion of this work, the student will be eligible for transfer to KSU, KU, or UMKC. Upon satisfactory completion of additional work as agreed upon by the student, the advisory committee, and the chairperson of the department involved, the student will receive the appropriate BS from Washburn University. Upon satisfactory completion of the requirements of the engineering school, the student will be awarded a BS in Engineering from that school. This program will normally take five years, but depending upon the particular field of engineering, the time may vary.

Due to the complexities of transferring to engineering schools with different major requirements and to avoid taking courses not fulfilling engineering degree requirements, it is imperative that the engineering student be advised in their course of study by a faculty member in the department.

Programs

- Engineering-Physics, AS (p. 137)

Course Offerings

EG 103 Physics & Engineering Seminar I (1)

An overview of the fields and practice of physics and engineering. Students will participate in weekly readings and discussions, and complete at least one written piece and at least one presentation. Specific content will change each time the course is offered.

EG 105 Introduction to Engineering (3)

Introduction to the professional role of an engineer with an orientation to the academic requirements of engineering studies, responsibilities of engineering students and professionals, discussion of various engineering careers, job site duties, professional development and registration and engineering ethics. Included are problem definition and solution, engineering design and terminology and the role of technology and its influence on society.

EG 116 Engineering Graphics (3)

Elements of geometry of engineering drawing with emphasis on spatial visualization and applications. Freehand sketching, dimensioning, and graphs. Computer aided design and engineering analysis.

EG 250 Engineering Mechanics: Statics (3)

Vector notation; resultants of force systems; analysis of force systems in equilibrium including beams, frames and trusses; analysis of systems involving friction forces; determination of centroids, centers of gravity, second moments of areas, moments of inertia. Prerequisites: MA 151 and PS 281.

EG 303 Physics & Engineering Seminar II (1)

An overview of the fields and practice of physics and engineering. Students will participate in weekly readings and discussions, and complete at least one written piece and at least one presentation. Specific content will change each time the course is offered. Prerequisite: upper-division standing

EG 320 Engineering for STEM Educators (3)

Designed to introduce concepts and applications of engineering to STEM educators. Course will explore various experimental, analysis, and design situations to develop knowledge about how objects work together to perform a function. Experiments will develop an understanding of basic engineering concepts such as motion, solid mechanics, fluid mechanics, thermodynamics, electricity, and magnetism. Analysis of experiments will provide recognition of experimental variables and their relationships to mathematical equations. Significant emphasis is on conceptual understanding of how mathematics and physics work together to solve engineering problems. This course does not satisfy any engineering prerequisite/requirement outside of the STEM education program. Prerequisite: BI 319 Biology for STEM Educators with a “C” or better; concurrent enrollment in MA 320 Mathematics for Middle School Teachers.

EG 351 Engineering Mechanics: Dynamics (3)

Displacement, velocity, and acceleration of a particle; relation between forces acting on rigid bodies and the changes in motion produced; translation; rotation; motion in a plane; solutions using the principles of force, mass and acceleration, work and energy, and impulse and momentum. Prerequisites: EG 250 and MA 152.

EG 360 Mechanics of Materials (3)

Elementary theories of stress and strain, behavior of materials, and applications of these theories and their generalizations to the study of stress distribution, deformation, and instability in the simple structural forms that occur most frequently in engineering practice. Prerequisites: EG 250 and MA 253.

Engineering-Physics, AS

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for an Associate of Science (p. 75) degree, and any additional hours needed to reach the minimum 60 credit hours required for graduation. Some

of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Code	Title	Hours
Required Course Inside Department		
EG 103	Physics & Engineering Seminar I	1
EG 250	Engineering Mechanics: Statics	3
EG 351	Engineering Mechanics: Dynamics	3
Select one:		3
EG 360	Mechanics of Materials

English

Department of English

Website: <https://www.washburn.edu/academics/college-schools/arts-sciences/departments/english/index.html> (<https://www.washburn.edu/academics/college-schools/arts-sciences/departments/english/>)

Professor Melanie Burdick, PhD, Chair
 Professor Vanessa Steinroetter, PhD
 Professor Eric McHenry, MA
 Professor Danny Wade, PhD
 Director CTCL / Professor Kara Kendall-Morwick, PhD
 Associate Professor Louise Krug, PhD
 Associate Professor Corey Zwikstra, PhD
 Assistant Professor Erin Chamberlain, PhD
 Associate Professor Andy Farkas, PhD
 Assistant Professor Bradley Siebert, PhD
 Assistant Professor Muffy Walter, PhD
 Senior Lecturer Dennis Etzel, Jr., MFA
 Senior Lecturer David Weed, PhD
 Lecturer Kate Albrecht, MA

Mission

Consistent with the mission of the University and the College of Arts and Sciences, the Department of English seeks to satisfy the needs and aspirations of three different groups of students:

- Those taking English to satisfy general education writing requirements.
- Those taking English to satisfy general education humanities requirements.
- Those taking English to satisfy major requirements in one of three undergraduate emphases: Literature and Film Criticism, Creative Writing, and English Education.

English majors will acquire the skills and habits of mind that serve them well in all occupations and professions. They will learn to read carefully, write effectively, exercise good judgment in solving problems, and flexibly adopt different points of view. More specifically, students will become knowledgeable about great literature (American, British, and World) and writing, understand how language functions in communication and the arts, and appreciate and understand how human beings from different cultures and/or from different times have used the literary arts to shape experiences thoughtfully and meaningfully. Students will acquire the ability to express these ideas via analysis, creative thinking, and writing. Writing majors will experience a broad range of writing experiences, literature majors will analyze and interpret a variety of literary works, and education majors will learn current methods for teaching processes of reading, writing, speaking, listening, thinking, and viewing and their interconnections.

Student Learning Outcomes

English majors at Washburn University, upon graduation, will be able to:

- Identify and articulate major developments in British, American, and World Literature.
- Interpret how the diverse range of human experiences, identities, and cultures is reflected in language, literature, and multimedia texts.
- Analyze how language works, especially regarding grammar, writing conventions, and rhetorical situations.

- Demonstrate knowledge and understanding of the forms, genres, and conventions of literary and multimedia texts.

In addition to these shared learning outcomes,

- Writing majors will have created and revised texts in a broad range of literary forms.
- Literature majors will have composed and presented scholarly research that interprets and analyzes a variety of literary and/or multimedia texts.
- Education majors will have planned, designed, and implemented instruction and assessments for reading, literature, composition, diversity, and social justice.

General Education Writing Requirements

All students graduating from Washburn must take six hours of composition courses, three at the first year level and three at the sophomore level.

Most first year students will take EN 101 Introductory College Writing. For those students who do not feel adequately prepared for EN 101 Introductory College Writing, the English Department offers sections of EN 101 with additional support. These sections provide additional supplemental feedback and practice. Students are allowed to decide for themselves whether they would feel more comfortable with the supported sections of EN 101. This “directed self-placement,” however, can be aided by consultation with members of the English faculty, individual advisors, and advisers in the Office of Academic Advising.

The second required composition course is EN 200 Intermediate College Writing. This course, which is designed to be taken in the sophomore year, prepares students for academic research-based and argumentative writing.

The Major

Students majoring in English have three options. They may major in English with a literature and film criticism emphasis, or in English with a creative writing emphasis, or in English education, where they will prepare to teach secondary English.

English Honors

English departmental honors are offered to majors graduating with a 3.7 or higher English GPA and a 3.5 or higher overall GPA.

Inscope: The Washburn Literary Arts Review

A student editorial staff produces the Washburn literary magazine, *Inscope*. Fiction, nonfiction, drawings, photographs and poetry by students, faculty, staff, and an international community are submitted annually and considered for publication. *Inscope* is published each spring and is available for sale in the Washburn Bookstore and the English Department throughout the year.

Programs

- Creative Writing, BA (p. 144)
- English Literature and Film Criticism, BA (p. 145)
- English Education, BA (p. 145)

- English Education, BEd (p. 146)
- English, Minor (p. 146)

Course Offerings

EN 100 Developmental English (3)

Small classes and individual attention, focusing on developing the basic habits of good writing through short writings and culminating in the writing of organized and developed themes. Does not count towards degree credit hour requirements or general education requirements.

EN 101 Introductory College Writing (3)

Introduction to writing at the college level with a focus on developing flexibility and skill as a writer. Analysis of texts and arguments in preparation for creating a variety of essays that include personal, analytical, and argumentative writing. Special attention given to the processes of drafting, revision, and reflection. Instruction in and practice of writing conventions such as grammar, mechanics, and citations. Required, with a minimum grade of C, for graduation. Prerequisite: None. Course Attributes:

- Gen Ed AY 2024-2025: English
- USLO: Communication

EN 102 Freshman English Honors (3)

The analysis of texts that purport to gather facts, to structure experience into pleasing formal structures, to persuade others to action, judgment, or evaluation, and to articulate principles whose power shapes diverse experiences into meaningful patterns of coherence. The writing of expository prose that communicates thoughtfully and clearly the results of those analyses. Open to those students accepted into the University Honors Program and by invitation from the Composition staff.

EN 103 Academic Reading & Research (3)

This course provides training and practice in academic reading, writing, and research for students who desire more focused instruction in using academic texts, including syllabi, rubrics, textbooks, and articles. There will be instruction and practice in different methods of reading and responding to texts in writing and orally. Students will read a variety of texts, including a book-length text, and will create a culminating project which synthesizes their course reading with personal research. Students who complete the course will be more confident and competent in their interactions with college-level texts. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

EN 105 Introduction to English Studies (3)

This course provides a firm grounding in English as an academic discipline, covering a variety of concepts and approaches critical to English studies. The course will emphasize building students' critical and creative vocabulary, knowledge, and skills in order to foster future success both in English coursework and in their academic careers more generally. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 110 Multicultural American Literature (3)

A study of literature written by, and expressing the perspectives of, authors from diverse ethnic, racial, and cultural groups in the United States, including but not limited to Native Americans, African Americans, Asian Americans, and Latino/a Americans, as well as multiracial, multicultural, and other culturally diverse Americans. Course readings include poetry, drama, fiction, and autobiographical non-fiction.

Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

EN 112 Masterpieces of American Literature (3)

Focuses on celebrated and influential works of fiction, drama, and poetry by American authors from the late eighteenth through the early twenty-first centuries. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 116 Mystery Literature (3)

Mystery fiction, still a popular form of literature today, is a longstanding genre that has been evolving for the last two centuries. The course will examine some of the most important mystery writers of the 19th and 20th centuries. The mystery genre has taken several forms over the years, in large part due to the social history and culture of a particular time period. Over time the mystery genre has shifted from "the novel with a secret" to more complicated examinations of character, an emphasis on psychology over plot, and further explorations of both setting and theme. Many of the novels read are written by authors who became well-known in the mystery genre for developing a certain literary type, technique, or situation that other writers would continue to explore in the years that followed. The course will explore several prominent themes in this type of fiction, in particular the propensity for violence, murder, crime, and the appeal of other taboo subjects. The role of the reader is also critical to the genre as the shadow figure who in part determines which secrets are revealed or disguised, how the characters are developed for a connection to or isolation from the reader, and how the drama itself is written expressly for readers seeking the "thrill" of the mystery.

Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 131 Understanding Short Fiction (3)

This course provides an introduction to reading and analyzing short fiction, with a particular emphasis upon the short story. Readings will include works of short fiction from a range of historical and cultural contexts and will represent a variety of genres. Students will develop a critical vocabulary and analytical skills to foster better understanding of and appreciation for short fiction as a literary form.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

EN 133 Stories Around the World (3)

Focuses on modern and contemporary fiction by European, Latin American, Asian, Middle Eastern, and African authors.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

EN 135 Introduction to Literature (3)

The appreciation of literature showing relationships through analysis of different genres.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 138 Kansas Literature (3)

A study of Kansas through its poetry, short stories, novels, and journalism. Lectures on Kansas history provide background as an aid to better understanding the literature. A study of the literature of pioneering, the small town, and contemporary accounts of Kansas, its land and people.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 177 Science Fiction (3)

Selected novels and short stories depicting innovations and discoveries in science and their impact on people, society, and the universe.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 178 Fantasy (3)

Selected novels and short stories depicting fictive worlds that contemporary knowledge considers impossible.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 190 Film Appreciation (3)

Film as a mode of artistic expression with emphasis on selected films, short and feature-length, American and foreign, for understanding and appreciation. Stress will be given to the development of a "vocabulary" with which to discuss, criticize, and otherwise enjoy film art. May be repeated with a change of content.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 192 Literature & Film (3)

A study of literary texts and their adaptations into the medium of film, with emphasis on the comparative strengths and weaknesses of each version. Stress will be given to the critical vocabulary shared by these narrative forms.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 193 Types of Popular Culture (3)

Examination of subjects and themes in popular literature, with focus on the relationship between popular genres and the traditional canon. May be repeated with change of content.

EN 199 Special Topics - Writing/Reading (1-3)

A variable topic course in selected subjects in literature and language. See schedule for current offerings.

EN 200 Intermediate College Writing (3)

This class builds on writing process skills developed in EN 101, including drafting, revising, and reflecting with additional emphasis on developing and supporting an academic argument, analyzing and synthesizing sources, and making choices appropriate for a variety of rhetorical situations encountered in college-level writing. #Required, with a minimum grade of C, for graduation. Prerequisites: EN 101

Course Attributes:

- Gen Ed AY 2024-2025: English
- USLO: Communication

EN 206 Beginning Poetry Writing (3)

An introduction to and practice in the writing of poetry. Prerequisite: EN 101 or EN 102.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

EN 207 Beginning Nonfiction Writing (3)

An introduction to and practice in the writing of memoir, narrative essays, New Journalism, travel writing and other nonfiction forms. Prerequisite: EN 101 or EN 102.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

EN 208 Professional Writing (3)

A review of the basic essentials of business/technical usage and style, with emphasis on organizing ideas and managing basic business and technical writing forms. Prerequisite: EN 101 or EN 102.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

EN 209 Beginning Fiction Writing (3)

An introduction to and practice in the writing of the short story.

Prerequisite: EN 101 or EN 102.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

EN 210 Mythologies in Literature (3)

A study of mythologies that have been a reference point for literature, focusing mainly on Greek and Roman materials, but drawing upon others such as Norse, Celtic, Gaelic, and Eastern. Readings will include both literary works and supplemental texts.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 212 Sexuality & Literature (3)

Examines the various roles that sexuality, which includes categories such as intimacy, sex, gender, and sexual orientation, has played in literature and film.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 214 Women & Literature (3)

This course surveys literature by women from the medieval to the contemporary periods. Particular attention is given to recurring themes and issues addressed by women writers, as well as how the intersection of gender with factors like class, race, and ethnicity impacts women's experiences and their literary representation. Readings consist of representative works of fiction, poetry, drama, and select nonfiction by women of diverse backgrounds.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 240 Introduction to Film Studies (3)

This course provides students with an introduction to the elements, techniques, and vocabulary critical to the study of film as a medium. The course will emphasize building students' critical vocabulary, knowledge, and skills through the discussion of numerous films from various genres and historical periods. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 300 Advanced College Writing (3)

Intensive writing and revision practice designed to help students develop skills needed to write successful analyses and arguments in their academic disciplines and their careers. Focus on critical thinking about how writing works in various appropriate contexts and on advanced research writing. Some sections for specific academic programs. Required, with a minimum grade of C, for graduation.

EN 301 Literary Criticism & Theory (3)

Practical criticism and writing, stressing the types and methods of critical approaches to literature, ancient and modern, and their application in the interpretation of literary works. Students taking the course for graduate credit will write a substantial additional paper focusing on one aspect of the relationship between critical theory and an individual work or author. Prerequisites: EN 101 or EN 102 and EN 300. For EN 601, admission to MLS program or consent.

EN 305 Advanced Fiction Writing (3)

Continued practice in fiction writing with special emphasis on technique. Students taking EN 605 will, in addition to the short stories due as work for 305, revise and edit their stories and write an introduction that shows how their practice of craft has been shaped by their experience in the course. Prerequisite: EN 209 or consent. For EN 605, admission to MLS program or consent.

EN 306 Advanced Poetry Writing (3)

Continued practice in poetry writing with special emphasis on technique. Students taking EN 606 will be required to select at least five of the poems due as work for 306 and write an introduction to those five that shows how their practice of craft has been shaped by their experience in the course. Prerequisite: EN 206 or consent. For EN 606, admission to MLS program or consent.

EN 307 Advanced Nonfiction Writing (3)

Continued practice in the writing of creative nonfiction, including but not limited to personal essay, memoir, literary journalism, travel and science writing. Students taking EN 607 will develop writing projects of considerable length and/or research depth. Prerequisite: EN 207 or consent. For EN 607, admission to the MLS program or consent.

EN 308 Scientific and Technical Writing (3)

This writing course provides students with intensive practice organizing, developing, writing, and revising various scientific and technical documents (e.g., technical reports, proposals, process analyses, procedure/instruction manuals, etc.). Emphasizes strategies for analyzing and adapting content to various audiences and purposes. Includes individual and collaborative writing practice. Prerequisite: EN 101

EN 309 ESL Methods & Cross-Cultural Communication (3)

Designed for those who work with non-English speakers. Special emphasis on improving intercultural understanding, on the interaction of language and culture, and on language learning and language teaching. Not regularly offered.

EN 310 English Grammar/Linguistics (3)

Description and analysis of English grammar, its smallest parts up through how those parts are expressed as meaningful discourse. Instruction in how to understand and discuss the English language effectively. Studies the dynamics (formal, historical, social) of language as a particularly human form of communication. Investigates what language is and how it works, how language changes and varies over time and place, and how language is used in social contexts. Students will learn major linguistic categories of phonology (sounds), morphology (words), syntax (sentences), and semantics (meaning), and ask questions about rules and standards of usage, as well as issues of style and politics as they pertain to English language use. Graduate students must write a substantial paper developing in greater detail one of the topics covered in the course. Prerequisite for EN 610: admission to MLS program or consent.

EN 312 Theories of Persuasive Writing (3)

Study of theories about how people use language/writing persuasively to shape knowledge and opinion. The course focuses on selected theoretical readings from the history of mainstream and marginalized rhetorics. The course will build students' understanding of rhetorical theory and their skill in using it to analyze persuasive writing in their areas of interest. Prerequisites: EN 101, First-Year College Writing. Completion of EN 300, Advanced College Writing, or simultaneous enrollment strongly recommended.

EN 315 Reading as Writers (3)

Practice in the study of literature from a writer's perspective, primarily exploring the elements of craft involved in creating literary art (point of view, voice, style, prosody, figurative language, diction, syntax). Through critical analysis, aesthetic investigation, and imitation, students will discover the various tools writers employ to create meaning. Students taking EN 615 will be expected to write a paper of 20 pages analyzing the elements of craft involved in one or more essays by a non-fiction writer chosen in consultation with the professor. Prerequisite for EN 615: admission to MLS program or consent.

EN 320 Teaching Young Adult Literature (3)

This course provides pre-service teachers intensive instruction in ways to teach young adult literature at the middle school and high school levels, including a focus on reading strategies, response strategies, reading engagement and motivational strategies, discussion strategies, lesson design, and instruction. Attention will also be given to the content and history of young adult literature, the diversity inherent in the genre, and censorship and selection of young adult literature. Prerequisite: None.

EN 321 Teaching Composition (3)

Students will conduct, review, analyze, and discuss the teaching of composition, applying the best research-based strategies for elementary- and secondary-level learners from diverse perspectives. Pre-service teachers of literacy will explore writing as a process and develop instructional practices that will increase their students' writing abilities across the curriculum. Students will also reflect on their learning as they study and practice instructional methods in microteaching opportunities. The course will emphasize the writing process, purposes of writing, grammar and conventions, response groups, multigenre writing, research writing, technology resources, struggling writer strategies, instructional practice and design strategies, and assessment and evaluation techniques. Prerequisites: EN 300.

EN 325 British Lit through 1785 (3)

Covers major literary movements, major authors, and the careful reading of masterpieces through 1785. Students in 625 will write a substantial paper, including scholarship, on selected works of a single author from the Middle Ages, Renaissance, or 18th Century on a topic chosen in consultation with the professor. Prerequisite for EN 625: admission to MLS program or consent.

EN 326 British Literature since 1785 (3)

This course examines the major literary movements in Britain from the Romantic period to the present in relation to their historical and cultural contexts. This class also surveys how the genres of poetry, the novel, the short story, and drama emerge and evolve through the late eighteenth to the early twenty-first centuries. Students in EN 626 will write an extended research paper on a topic chosen in consultation with the instructor. Prerequisite for EN 626: admission to MLS program or consent.

EN 330 American Literature through 1865 (3)

The course provides a survey of early American literature from pre-Columbian legends through the end of the Civil War. Graduate students will be required to investigate in depth one of the following areas: colonial literature, early national literature, or the literature of the American Renaissance. Prerequisite for EN 630: admission to MLS program or consent.

EN 331 American Literature since 1865 (3)

The course provides a survey of American literature from the Civil War to the present in historical and generic contexts. It stresses close readings of individual texts of fiction, poetry, and drama. Graduate students will select one major author and examine his/her treatment in literary criticism during last fifty years. Prerequisite for EN 631: admission to MLS program or consent.

EN 332 Literature of American West (3)

Focuses on the fiction, but also includes the autobiographies, poetry, and/or essays, of authors shaped by the landscape, diverse peoples, and values of the American west.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 336 Contemporary Theatre (3)

A study of developments in playwriting, directing, acting since WWI to the present with special emphasis on influences that have affected contemporary theatre and drama. Graduate students must prepare an oral report on an assigned work of literary (or dramatic) criticism and must write a research paper of 15-20 pages with full scholarly apparatus. Cross listed with TH 306. Cannot enroll for credit in both EN 336 and TH 306. Prerequisite for EN 636: admission to MLS program or consent. Not regularly offered.

EN 337 Short Story (3)

This course provides an introduction to the history and characteristics of the short story as a literary form. Students will read representative works of short fiction from a variety of cultural and historical contexts in order to better understand how writers have adapted the short story form to represent the diverse range of human experience.

EN 345 Shakespeare (3)

Students read, discuss, and write on some of Shakespeare's poetry and a selection from the Comedies, Tragedies, and Histories. Consideration of historical and cultural contexts of the plays, as well as their performance history, will help us appreciate both the works and the culture which inspired them. Graduate students will conduct primary research on topics of their choosing. Prerequisite for EN 645: admission to MLS program or consent.

EN 350 Major Authors (3)

The advanced study of a major literary author or two authors. Special attention will be paid to the evolution of an author's writing style within the historical and cultural framework in which he or she was writing. May be repeated with change of content. Prerequisite: None.

EN 360 World Literature through 1650 (3)

This course focuses on close readings of masterpieces in world literature to 1650 in relation to their historical and cultural contexts. Attention is given to authors and genres of central importance, and how emerging themes evolve over the centuries. Prerequisite: None.

EN 361 World Literature since 1650 (3)

This course focuses on close readings of masterpieces in world literature from 1650 to the present in relation to their historical and cultural contexts. Attention is given to authors and genres of central importance, and how emerging themes evolve. Prerequisite: None.

EN 370 Medieval Literature (3)

A survey of English literature in the Middle Ages with special emphasis on the works of Chaucer. Special attention to the contextual relationship of literature and the thought and culture of the period. Prerequisite for EN 670: admission to MLS program or consent.

EN 371 Renaissance Literature (3)

A survey of the literature written from 1475 to 1660, focusing on major poets and dramatists, such as Spenser, Shakespeare, Jonson, Donne, and Milton, but also lesser-known writers such as the Countess of Pembroke and Aemilia Lanyer. Special attention to the contextual relationship of literature and the thought and culture of the period. Graduate students will additionally write a substantial research paper on a topic of their choosing. The course also requires two class presentations on selected writers of the period, drawing on current scholarly criticism. Prerequisite for EN 671: admission to MLS program or consent.

EN 372 Restoration & 18th Century Literature (3)

A survey of the principal genres and major authors of literature written between 1660 and 1800. The course may emphasize a certain genre such as the novel or satire, or an individual author such as Jonathan Swift, Aphra Behn, Samuel Johnson, Henry Fielding, or Fanny Burney. Special attention to the contextual relationship of literature and the thought and culture of the period. Graduate students must present an oral report on an assigned work of literary (or dramatic) criticism and must additionally write a substantial research paper with full scholarly apparatus. Prerequisite for EN 672: admission to MLS program or consent.

EN 373 Romantic & Victorian Literature (3)

Readings in Romantic and Victorian literature. The course begins with Wordsworth's expressions of religion in nature, working through selections from the other major Romantics, and concludes with the prophetic and public solutions to the problems of industrial England offered by Carlyle, Tennyson, Ruskin, and Arnold. Special attention to the contextual relationship of literature and the thought and culture of the period. Graduate students must present an oral report on an assigned work and must additionally write a substantial research paper with full scholarly apparatus. Prerequisite for EN 673: admission to MLS program or consent.

EN 374 Modern Literature (3)

Readings will cover the expressions of Modernism in all the major creative arts with primary focus on the reading and analysis of selected "modernist" literary writers from the genres of fiction, poetry, and drama. Some attention to defining the concept and historical parameters of "modernist". Prerequisite for EN 674: admission to MLS program or consent.

EN 375 Contemporary Literature (3)

Readings in the literary milieu from 1960 to the present in poetry, short fiction, and the novel with attention to the cultural, social, and historical context of individual works and their authors. Graduate students will additionally write a substantial paper, including contemporary scholarship, examining one author, theme, or movement from this period. Prerequisite for EN 675: admission to MLS program or consent.

EN 376 Nineteenth Century American Literature (3)

Readings in nineteenth century American literature from the rise of literary nationalism through the Gilded Age, with special focus on the major literary movements of the period. Graduate students must write a research paper of 15-20 pages with full scholarly apparatus. Prerequisite: None.

EN 380 Modern Poetry (3)

Major British and American poets from about 1890 to 1945, including Yeats, Eliot, and Frost. Prerequisites: None.

EN 381 Drama (3)

A study of drama as a literary form. Students will read representative works of drama from a variety of contexts. Graduate students will complete additional assignments appropriate to the post-baccalaureate level. Prerequisite for EN 681: admission to MLS program or consent.

EN 382 Modern Novel (3)

This course will examine the novel as a literary form, paying particular attention to the origins and development of the genre from the 18th century through to the contemporary period. Graduate students will complete additional writing and research in consultation with the professor. Prerequisite for EN 682: admission to MLS program or consent.

EN 384 Publishing Lab (3)

Students gather, evaluate and edit creative manuscripts to produce and publish a literary magazine. Prerequisite: EN 305, EN 306, or EN 307.

EN 385 Directed Reading/Writing/Research (1-3)

Designed to investigate a field of special interest which will not be covered in detail in the courses offered by the department. After securing the approval of the chairperson of the department and the consent of a member of the department who is prepared to supervise their reading, students will carry out their projects with the supervising teacher. Prerequisite: consent of instructor.

EN 390 Aspects of Film (2-3)

Variable specified content in film, such as the American novel into film, the science fiction film, western novels in film. May be repeated with change of content.

EN 393 Literature of Pop Culture (3)

The study of such individual literary topics as the western, detective fiction, sports literature, and prizewinning novels. Students taking this course as 693 will write a substantial paper, including scholarly research, examining one author, theme, or movement in the genre under consideration. The topic will be chosen in consultation with the instructor. May be repeated with change of content. Prerequisite for EN 693: admission to MLS program or consent.

EN 396 Topics in Women & Literature (3)

An advanced study of the works of a major woman author, the women writers of a particular period or in a particular genre, or a thematic study of women writers. Not regularly offered. Prerequisite: 3 hours of one of the following: EN 330, EN 331, EN 360, or EN 361. For EN 696: admission to MLS program or consent.

EN 399 Special Topics - Writing/Reading (1-3)

See schedule for the current offerings.

EN 400 Senior Thesis (3)

Capstone experience for the EN degree in the literature and film criticism emphasis. Working independently under the supervision of an assigned faculty member, students conduct research culminating in the writing of a substantial paper and a presentation of their research in a departmental or public forum. Prerequisites: Senior standing in the literature and film criticism emphasis and chair approval.

EN 402 Internship (1-3)

Applicants should be majors and minors who have second semester junior or senior status, and the approval of their academic advisor and the internship coordinator. Interns will be supervised by the internship coordinator and a workplace supervisor(s). Prerequisites: 15 hrs. of English courses completed, including EN 105, EN 300, and 9 hours at the 300 level, as well as a 3.0 GPA in English coursework.

EN 499 Special Topics - Teaching and Study of English (1-3)

Special topics of a varying nature for teachers doing in-service work, for graduate students in education and English education, and upper-division English majors. Not regularly offered.

**Creative Writing, BA
Degree Requirements**

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Arts (p. 73) degree, and any additional hours needed to reach the 120 credit hours required for graduation.

In addition, all English (BA) majors must complete a complementary minor, certificate, or additional major; students must declare this with the department that grants it.

Additional hours at any level		3
Total Hours		18

General Studies, BGS

Website: <https://www.washburn.edu/academics/interdisciplinary-studies/bachelor-general-studies.html>

The Bachelor of General Studies program is a flexible, interdisciplinary four-year degree program that provides a broad educational experience. This is a degree completion option for students who have completed significant coursework but not the requirements of a specific major. College credits that are not easily applicable to a particular major or minor can often be applied to this degree, facilitating time to graduation. Students may seek college credit for non-traditional prior learning experiences by contacting the Center for Prior Learning: <https://www.washburn.edu/academics/prior-learning-assessment/index.html> (<https://www.washburn.edu/academics/prior-learning-assessment/>).

Admission to the General Studies program requires a minimum of 45 credit hours of college coursework earned after high school graduation and acceptance by the program coordinator. The program coordinator will discuss with students whether a more traditional degree would better advance their personal and professional goals.

Program Learning Objectives:

- Develop a broad understanding of various disciplines, fostering an interdisciplinary approach to problem solving and decision making.
- Develop and apply critical thinking skills to evaluate and synthesize information, assess arguments, and make informed decisions across diverse subject areas and perspectives.
- Develop and apply communication skills.

Degree Requirements

Admission to the Bachelor of General Studies program requires a minimum of 45 credit hours of college coursework earned after high school graduation and acceptance by the program coordinator. The program coordinator will ensure students pursue a more traditional degree when appropriate. Candidates for the Bachelor of General Studies degree must complete the following requirements:

Code	Title	Hours
Required Courses ^{1, 2}		
General Education Courses ³		34-35
EN 3XX	Upper-Division English Composition Course	3
Other University Courses Required to Reach 120 Hours		82-83
Total Hours		120

¹ A minimum of 30 credit hours of the last 45 must be earned from Washburn University, and a minimum of 60 credit hours must be earned from a four-year institution. Additionally, a minimum of 84 hours must be graded, and at least 45 hours must be at the 300 or 400 level.

² A minimum 2.0 GPA is required for graduation.

³ See the General Education Requirements (p. 50) section for more information.

Geography

Department of History and Geography

Website: <https://www.washburn.edu/academics/college-schools/arts-sciences/departments/history/index.html> (<https://www.washburn.edu/academics/college-schools/arts-sciences/departments/history/>)

No major or minor is offered in Geography. The offerings are administered by the Department of History. Some Geography courses are part of the General Education curriculum and others are part of the Kansas Studies Program of Washburn University.

Course Offerings

GG 101 Introduction to Geography (3)

A study of the principal themes of geography: human and environment in interaction, the patterns of distribution of natural phenomena affecting human use of the earth, and the cultural patterns of occupancy and exploitation of the physical world. This course satisfies general education requirements.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

GG 102 World Regional Geography (3)

World regional geography is a comparative study of physical and human environments of world realms and the interplay of forces which gives each realm its distinctive character. This course satisfies general education requirements.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

GG 151 Urban Geography (3)

This course examines the geographic origins and development of urbanism, with special emphasis on physical attributes of site and spatial attributes of situation.

GG 201 Environmental Geography (3)

Also known as physical geography, this course introduces students to the distribution and components of the natural environment, including climate, biomes, soils, vegetation and landforms. The course also examines the interactions between these elements, and the effects of humans on the natural environment. Prerequisite: GG 101.

GG 220 Special Topics/Geography (3)

Topics will vary from semester to semester and will be announced in advance. Prerequisite: 3 hr GG or consent

GG 300 Special Topics/Geography (3)

Topics will vary from semester to semester and will be announced in advance. Prerequisite: 3 hr GG or consent

GG 302 Natural Resources Conservation (3)

A study of the principles of natural resource conservation and management, particularly as they relate to human populations, soil conservation and agriculture, water and air pollution and energy resources. Human activities that affect preservation, conservation, and multiple uses and options in a sustainable economy and society are emphasized. Prerequisite: GG 101.

GG 303 Introduction to Land Use (3)

Students are introduced to the conceptual basis of land use planning as it relates to the determinants, classification and survey, and environmental and fiscal impact analysis of the controlled use of land. The course also examines zoning and subdivision regulations in the approaches to land use planning at local, state and national levels. Prerequisite: GG 101.

GG 304 Geography of Kansas (3)

This course is a survey of the distributions and interrelationships of various physical, cultural and economic phenomena of the state. Topics include physiographic regions, settlement patterns, agricultural and urban geography. The High Plains, the Southeastern mining areas, and the urban Northeast regional cultures are examined. Prerequisite: Second semester sophomore status.

GG 325 Introduction to GIS (3)

As one of the most important areas in geography, Geographic Information System (GIS) is widely used in various disciplines for storing, sharing, displaying, analyzing and managing geographically referenced information. The objectives of this class are to provide a firm conceptual and technical understanding of how to present, synthesize, process and analyze geographic data. This class will have both a lecture and a lab session and the lab is taught using ArcGIS 10.5.1 (ESRI, Inc.). This class serves as a pre-requisite for the class of GG 326 Advanced GIS. No prerequisites.

Geology

Department of Physics and Astronomy

Website: <https://www.washburn.edu/academics/college-schools/arts-sciences/departments/physics-astronomy/index.html> (<https://www.washburn.edu/academics/college-schools/arts-sciences/departments/physics-astronomy/>)

No major or minor is offered in Geology. The offerings are administered by the Department of Physics and Astronomy.

Course Offerings

GL 101 Physical Geology (3)

Special emphasis on the observation of the phenomena of erosion, mountain formation, and stream and glacial action. Lecture-recitation and some field trips.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

GL 103 Historical Geology (3)

For students interested in the history and evolution of the planet Earth. Lecture and in-class laboratory work will include exercises with commonly found fossils and geologic-topographic maps. Will provide information about the environment of the early Earth and changes through time.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

History

Department of History and Geography

Faculty

Professor Thomas Prasch, PhD, Chair

Professor, Vice-President of Strategic Enrollment Management and

Student Success, and Dean of University Libraries Alan Bearman, PhD

Professor and Dean of College of Arts and Sciences Kelly Erby, PhD

Professor and Director of University Honors Kerry Wynn, PhD

Professor Kim Morse, PhD

Assistant Professor Bruce Mactavish, PhD

Senior Lecturer Anthony Silvestri, PhD

Mission

Consistent with the mission of the University and the College of Arts and Sciences, the Department of History exists to develop the learning skills of enrolled students and impart to them an informed awareness of the past, to encourage the professional development of its faculty, and to contribute the professional expertise of its faculty in service to the academy and its constituency.

Description of the Discipline

Each scheduled history course has a common objective, namely that students enrolled are engaged in "doing history." Each course challenges students to imagine what happened in the past by examining records of human activity and interpreting them to produce a coherent explanation of times and peoples different from our own. Students in Washburn history courses are not passive recipients of information about the past, but active reconstructors of the past. They sharpen their skills in reading the record, critically thinking about what they find, and drawing conclusions.

Student Learning Outcomes

History majors at Washburn University, upon graduation, are expected to be able to:

- Recognize the broadest patterns of United States and World History.
- Demonstrate ability to master critical skills of the historical discipline.
- Apply the understanding of the broad patterns of history to an in-depth examination of significant historical issues for three cultural areas identified by the department (United States, Europe, Non-Western).
- Demonstrate mastery of the discipline's scholarship by: putting specific research focus in the context of larger historical patterns; identifying an appropriate research project, and with it both the primary and secondary sources needed to carry it through; reading and assessing both of these kinds of sources in terms of the focused research project; and, conceptualizing, organizing, and writing a scholarly paper presenting the result of this scholarship.

Programs

- History, BA (p. 153)
- Secondary Social Studies - Preparation for Teachers, BA (p. 154)

- History Secondary Education, BEd (p. 155)

- History, Minor (p. 155)

Course Offerings

HI 100 Survey of Early World History (3)

Stone-age origins to c. 1200 CE. Basic introductory survey of earliest eras of world cultures and history. Covers late pre-history; first and classical age civilizations of Mediterranean, Asia, and Americas; and emerging peripheral cultures and civilizations of Africa, Asia, Europe and Americas.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

HI 101 Changing World History: Traditions and Transitions (3)

Basic introductory survey of world developments, c. 1200-1750 CE. Begins with Mongol conquests. Continues with resurgence and change in established civilizations of Asia, Africa, Europe and Americas. Traces emergence and impact of modernizing West, early era of world explorations and empire building, and development of global trading networks.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

HI 102 Modern World History (3)

Basic introductory survey of world developments, c. 1750 to present. Begins with industrialization and political change in the West, producing technologically-advanced Western economic, social and political world dominance. Traces power, processes of decolonization, emerging late 20th-century world economies, states and societies.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

HI 105 Introduction to World Music and its History (3)

This course explores the history of world cultures by focusing specifically on the development of musical traditions from around the world. Students explore the history and cultural development of selected world cultures, and listen to and analyze the musical traditions from those cultures to understand how a culture's music reflects both its traditions and its interaction with other cultures. Prerequisites: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

HI 111 History of the United States through the Civil War (3)

Survey of American history from the first encounters between American Indians, Europeans, and Africans through the period immediately following the Civil War, which introduces students to the study of the past and familiarizes them with records of American experiences. It exposes students to political, economic, social and intellectual forces shaping the American heritage and contributing to the nation's development. No prerequisites.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

HI 112 History of the United States since the Civil War (3)

Survey of American history from the emergence of an urban and industrial society after the Civil War to the present, which introduces students to the study of the past and familiarizes them with records of American experiences. Exposes students to political, economic, social and intellectual factors shaping the American heritage and contributing to the nation's development. No prerequisites.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

HI 300 Topics in History (1-3)

Topics will vary from semester to semester and will be announced in advance. Prerequisite: 3 hrs HI or consent.

HI 303 Colonial America to 1763 (3)

Study of the age of exploration and the establishment of the original colonies. Emphasis will be given to the British colonies of the western hemisphere, but the course will also include those colonies of other nations as they affect American growth and development. It will include a broad treatment of social, political, economic and intellectual forces to 1763. Prerequisite: 3 hrs HI or consent.

HI 304 American Revolutionary Period, 1763-1789 (3)

An examination of the problems of Great Britain and the colonies following the French and Indian War. The causes of the American Revolution as well as the events resulting from it will be studied in detail. The critical period, the writing of the Constitution and the laying of the foundations of our government by the Federalists will be analyzed. Prerequisite: 3 hrs HI or consent.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

HI 305 Early National United States (3)

This class examines topics and themes in American society, politics, economics, and culture between roughly 1787 and 1850. In this period, deep changes unfolded throughout the young nation. As we will see, America in these years was marked both by more inclusive democracy and greater hierarchy; it became simultaneously more confident and defined as an independent nation, but also more fragmented according to the regional, economic, gender, racial, and ethnic distinctions among its peoples. In our assessment of early national U.S. history, we will pay special attention to the profound economic and cultural upheavals historians refer to as the market revolution as a way to view the period as a whole and to understand the transformations in human experience and national identity that took place during it. Prerequisites: 3 hours of History or permission of instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

HI 307 American Civil War: 1848-1877 (3)

A survey of the sectional crisis beginning with the conclusion of the Mexican War in 1848 to resolution of the crisis by 1877. Themes include: the nature of Northern and Southern societies; the political crisis of the 1850s; the relative military strengths of each side; the major battles and campaigns; the Northern and Southern home fronts, the role African-Americans played in their own liberation; the process by which reconstruction first emerged and then collapsed. Prerequisite: 3 hrs HI or consent.

HI 308 Making of Modern America, 1880-1920 (3)

The history of the United States from the end of Reconstruction to World War I. Examines social, political and economical changes. Topics covered include industrialization and its effects, popular culture, reform movements, and immigration. Prerequisite: 3 hrs History or consent.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

HI 309 America in the 1920s & 30s (3)

History of the United States from the "Roaring Twenties" through the New Deal. Focuses on the dramatic shifts in American life in the interwar period. Topics of special interest include entertainment and leisure, youth culture, the Great Depression, and the expansion of the American state through New Deal programs. Prerequisite: 3 hrs History or consent.

HI 311 Cold-War America, 1945-1990 (3)

Examines the development of the US as it responds to the pressures of the Cold War, repercussions of the corporate economy, dynamics of changing race relations and the emergence of a New World Order in the 1980s. Prerequisites: 3 hrs. HI or consent.

HI 312 War's Impact on America (3)

A twentieth-century U.S. History course emphasizing social, economic, and cultural implications of American involvement in wars from the First World War through the Gulf War of 1991. The course addresses, from comparative perspective, mobilization and conscription issues, societal implications on the American home front, and civil liberties issues in wartime from the 1910s to the 1990s. Prerequisite: 3 hrs HI or consent.

HI 315 Women in US History (3)

American women's history from the nineteenth century to the present with an emphasis on their role in society, and how women's experiences have been affected by social, economic, and political changes.

Prerequisite: 3 hrs HI or consent.

HI 316 History of American Childhood (3)

This course surveys the wide range of historical literature on children and youth in American culture, and considers evolving notions of childhood from America's colonial period to the present. This is a seminar-style, discussion-oriented course, complemented with lectures, films and students' research presentations. Readings will include historical monographs, autobiographies, and primary sources. Grading criteria will be based on students' research and essay-writing, class participation, and a final exam. This course can be utilized toward fulfillment of an upper-division requirement for American history. Prerequisite: 3 hours of History or permission of instructor.

HI 317 Topeka & Urban American History (3)

Explores the development of Topeka within the context of urban growth in America. The first half focuses on individuals, groups, institutions, and ideas that define the nation's urban experience, while the second half weaves Topeka into the pattern. Prerequisite: 3 hrs HI or consent.

HI 319 American Indian History (3)

Examines the history of American Indian societies, concentrating mainly on the period from the 17th century to the present. Emphasizes topics related to sovereignty, intercultural relations, political and economic trends, and the diversity of American Indian cultures. Prerequisite: 3 hrs History or consent.

HI 320 American West (3)

Focuses on the development of the west as a region. It addresses innovative institutions and practices, the changing environment, and the diversity and interaction of cultures. Prerequisite: 3 hrs HI or consent.

HI 322 Kansas History (3)

Social, economic and political history from Spanish explorations to the present, including the role of the native-American, non-English ethnic groups, and women, and the part played by Kansas and Kansans on the national scene. Prerequisite: 3 hrs HI or consent.

HI 325 American Religious History (3)

This course serves as an introduction to religion in American history by focusing upon the impact of religion on American culture and of American culture on religion. It examines the major figures, themes, and theological positions in American religious history from approximately 1600 to the modern era. Prerequisite: 3 hrs HI or consent.

HI 326 Anabaptism: The Radical Reformation and Beyond (3)

This course focuses on the major events, persons, literature, and practices of Anabaptist-related groups from the 16th-century Reformation to the present. History department faculty and guest speakers will trace the evolution of this religious movement from its multi-faceted European origins to diverse contemporary practices of Mennonites, Amish, Hutterites, and other Anabaptists on five continents. Course components include research projects on religious identity formation, storytelling about Anabaptists' lives and essays on novels and other literature drawn from Anabaptist experience. Students taking the course HI 526 for graduate credit will choose an appropriate topic for a research paper utilizing primary and secondary sources, in consultation with the professor. Prerequisites: 3 hours of History or permission of instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

HI 328 African-American History (3)

The black experience in America from African origins to the present. Themes to be emphasized include: the process of enslavement, the emergence of African-American culture, the nature of slavery, the struggle for freedom, the migration to the North, the Civil Rights movement, and contemporary issues. Prerequisite: 3 hrs HI or consent.

HI 329 Civil Rights Movement (3)

Examines the way black and white Americans have redefined race relations between the mid-1950's and mid-1980's. Class discussion comprises a significant portion of the course. Prerequisite: 3 hrs HI or consent.

HI 330 Ancient/Medieval Europe to 1400 (3)

The development of Greek civilization through the Hellenistic period, the phases of Roman civilization, and the forms of civilization in Europe in the wake of the Roman collapse (including feudal and manorial structures, the spread of Christianity, and the first stages of the emergence of nation states). Prerequisite: 3 hrs HI or consent.

HI 331 Early Modern Europe, 1300-1750 (3)

Covering the Italian Renaissance and its diffusion to the north, the Reformation as social and political as well as a religious movement, the conditions that fueled the European Age of Exploration, the consolidation of nationstates, and the formation of a trans-Atlantic trade network grounded on slavery. Prerequisite: 3 hrs HI or consent.

HI 332 Modern Europe, 1750-Present (3)

Begins with Industrialization and its effects and continues to the French Revolution and its broader impact, the development of democratic institutions in the context of industrial consolidation in the 19th century through the total wars of the 20th century, the Soviet Revolution, trends toward broader democratization and welfare statism, the collapse of communism in the East, and current movements toward European union. Prerequisite: 3 hrs. HI or consent.

HI 334 Civilization of Ancient Rome (3)

This survey course covers the history of ancient Roman civilization from its origins to Late Antiquity. The course is divided into three major sections. The first section, FOUNDATIONS, covers the early development of Italy, the establishment and development of the Roman Republic, and key Roman cultural institutions, especially the Roman state religion. The second section, TRANSFORMATION examines the slow disintegration of the institutions of the Republic, and its eventual collapse under the weight of the political ambition of senators such as Marius, Sulla, Pompey and Julius and Augustus Caesar. The third section, IMPERIUM, covers the history of the empire from Augustus to its collapse in the West in 476 and beyond, with special attention to the development of new religions to challenge the older order, namely Christianity and the other Mystery Cults. Throughout the semester we will be exploring sub-themes, such as the legitimacy and usefulness of drawing parallels between the histories of Rome and the United States, and the ever-changing perception of Rome in the modern popular imagination as evidenced in film. Also part of the course will be an extended simulation of the Roman Senate in the aftermath of the assassination of Julius Caesar, with students representing senators faced with the conflict between the achievement of personal ambition and the good of the state in troubled times. Prerequisite: 3 hours of History or permission of the instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

HI 336 History of England (3)

Origins and historical development of England in its political, economic and social aspects from the earliest times to the present. Prerequisite: 3 hrs HI or consent.

HI 338 Victorian Britain, c. 1830-WWI (3)

Intensive study of British history and life during the Victorian era, 1837-1901. Emphases will include the impact of industrialization, the continued evolution of parliamentary rule, changing women's and family roles, Victorian culture and the expansion of Empire. Prerequisite: 3 hrs HI or consent.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

HI 339 History of France (3)

Study of the development of French history and culture from the earliest times to the present. Prerequisite: 3 hrs HI or consent.

HI 340 French Revolution & Napoleon (3)

A study of the decade of revolution, 1789-1799, and of the Napoleonic regime. Constitutional, political, societal, economic, and cultural issues will be considered. Prerequisite: 3 hrs HI or consent.

HI 342 History of Germany (3)

Study of the development of German history and culture from the earliest times to the present. Prerequisite: 3 hrs HI or consent.

HI 343 The European Reformation (3)

A survey of the history and theology of the Magisterial, Radical, and Roman Catholic Reformation movements of the early sixteenth century, with particular emphasis on the religious ideas and practices of leading reformers such as Luther, Zwingli, Calvin, and Ignatius Loyola. Reformation ideas will be examined within the context of the experiences of these principal figures and of the public they addressed and by whom they were interpreted. The reformation will be considered in relation to the cultural, social, economic, and political changes of the early modern period. Prerequisite: 3 hrs HI or consent.

HI 344 The Holocaust: A Seminar (3)

In consultation with the instructor, students will select a topic related to the Holocaust, research it, make a class report, be critiqued by their peers and the instructor, and prepare a research paper. Prerequisite: 3 hrs HI or consent.

HI 354 History of Middle East (3)

Origins, historical development and interaction of the major events, ideas, figures, and patterns shaping the history of the Middle East from the rise of Islam to the present. Prerequisite: 3 hrs HI or consent.

HI 357 History of Traditional China (3)

Origins, historical development and interplay of major forces, events and characteristics of Chinese Civilization from pre-history to c. 1800. Prerequisite: 3 hrs HI or consent.

HI 358 History of Modern China (3)

Origins, historical development and interplay of major forces, events and characteristics of Chinese Civilization from c. 1800 to the present. Prerequisite: 3 hrs HI or consent.

HI 360 History of Mexico (3)

Origins of Mexican Civilization in the blending of the Indian and Spanish races and civilizations and the historical development of that civilization to the present. The interaction of physical, economic, political and social forces in the shaping of that civilization is emphasized. Prerequisite: 3 hrs HI or consent.

HI 361 Colonial Latin America (3)

The course surveys Latin American history from the pre-Columbian era to 1820. Through the exploration of the fundamental events of colonial Latin American history using primary sources, the course identifies and analyzes key political, social, economic, and religious institutions of the colonial experience in Latin America, evaluates the role of state and religion in society, examines intersections of race, class, and gender, and assesses the causes of and wars of independence. Prerequisite: 3 hrs HI or consent.

HI 362 History of Latin America (3)

Latin American history from 1820 to the present. The course will focus on the interaction of social, cultural, economic, political, and international factors in the creation of the reality lived by Latin Americans from all socioeconomic backgrounds from the nineteenth century to the present. Prerequisite: 3 hrs HI or consent.

HI 363 Borderlands and Beyond (3)

The course explores Latino history in the United States within the broader U.S., Latin American, and global economic perspective. Beginning during the Spanish colonial period and including the major formative events in U.S./Mexican/and Latin American history, (Mexican Independence, Texas Independence, Mexican-American War, Mexican Revolution, Spanish-American-Cuban War, etc.), the course asks students to think about the multiple meanings of borders, past and present, as well as the changing role of migration and immigration within that historical context. Prerequisite: 3 hrs HI or consent.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

HI 364 History/Literature of Latin America (3)

This course focuses on the relationship between history and literature in modern Latin America. Through the study of novels, poetry, film, and other genres the course examines how authors use literature to interpret the meaning of history and society as well as moments in which literature became part of the historical process. Prerequisite: HI 100, HI 101, or HI 102, or consent.

HI 370 Modern Africa, c. 1700-Present (3)

Covers the basic developments in sub-Saharan African history since 1700. Begins with the intensification of slave trading, widening trade networks within Africa and linking Africa to the Atlantic world, and continues with the New Imperialist conquest of Africa and its consequences from the 19th century on. Closes with the rise of nationalist movements, decolonization and formation of independent states in Africa. Prerequisite: 3 hrs HI or consent.

HI 380 Women in World History (3)

Surveys major figures, philosophies, patterns and events shaping women's changing roles and status within human society, origins of civilization to current industrial society. Traditional civilizations covered include Classical Mediterranean World, Confucian Asia, and Islam; significant emphasis will also be placed on understanding the impact of industrialization and modern political revolution both within the west and in the developing world. Prerequisite: 3 hrs HI or consent.

HI 381 History & Psychology of Sex & Gender (3)

Team taught by an historian and a psychologist. Surveys historic and current experience of being male and female within changing western society. Examines past roles and ideas about distinctions between sexes and surveys current psychological research in the area. See Psychology for cross-listing. Prerequisite: 3 hrs Social Science or consent.

HI 383 Film and History (3)

In this course, students will survey and evaluate films about historical subjects, seeking to understand the role film plays in shaping popular attitudes towards history and trying to assess the sort of history that film versions of the past promulgate. The main business of the class will be watching films and then discussing them, primarily through E-mail exchanges and debates, a required component of the course. In addition, students will do two book reports and a research paper. Prerequisite: 3 hrs HI or consent.

HI 395 History Forum (3)

A seminar on the nature of history and its application. Prerequisites: any three 100 level HI courses.

HI 397 Internship in Historical Agencies (3)

A program for junior/senior level undergraduates principally offered in cooperation with the Kansas State Historical Society and the Brown v. Board of Education National Historic Site on a limited basis, in Museum Display, History Education, Archives and Manuscripts. Prerequisites: HI 111, HI 112, 6 hours upper division HI, consent.

HI 398 Directed Readings (1-6)

Directed readings in selected fields of history. Regular conferences. May be taken until six credit hours are earned. Prerequisite: Senior history major or approval of the department chair.

HI 399 Historical Methods & Research (3)

Research and bibliographical techniques and practice in the application of these techniques in selected research. A capstone course required of history majors. Prerequisites: HI 111, HI 112, HI 395 and two of The World History courses.

History, BA

In declaring a major in history, students will be assigned an advisor and develop a departmentally approved plan for graduation. The department recognizes a maximum of 3 hours history credit through CEEB Advanced Placement.

Departmental honors are offered to those majors attaining a 3.5 in History, a 3.2 GPA overall, and an A in the capstone HI 399 Historical Methods & Research course.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

In addition, all History (BA) majors must complete a complementary minor or additional major; students must declare this with the department that grants it.

History, Minor

Students may minor in history by applying to the department and being assigned an advisor, who will arrange a course sequence in conformity to department requirements. A minor will consist of at least 15 credit hours and include a balance between introductory survey courses and upper level work. Minors may be multicultural, may concentrate in one of the principal historical traditions, or may be organized around a central theme. All course work is to be graded, and all grades counting toward the minor must be C or better.

Humanities and Creative and Performing Arts, AA

The Associate of Arts degree in the Humanities and Creative and Performing Arts is intended to give students a broad background in a particular area of liberal studies. Students are required to take coursework in at least three disciplines within the Humanities and Creative and Performing Arts and to select a 12-hour concentration in one subject area. The credits earned in this associate degree are all applicable toward a bachelor's degree. For information and advising on this degree, please contact the College of Arts and Sciences.

A student must complete 60 semester hours with a minimum grade point average of 2.0. Twenty-four credit hours must be completed at Washburn University; of these, 12 of the last 24 must be Washburn University credits. Forty-two hours must be graded. A student may not take the A/Pass/Fail option in the area of concentration without obtaining and filing with the Registrar's office written permission from the chairperson of the department offering the course.

Student Learning Outcomes

Washburn University students completing this degree, upon graduation, are expected to have:

- Acquired an introductory knowledge of the disciplines comprising the humanities.
- Acquired a foundation for continuing academic study.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Associate of Arts (p. 75) degree, and any additional hours needed to reach the minimum 60 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Code	Title	Hours
Required Courses ¹		
Humanities and Creative Performing Arts ²		24
Total Hours		24

¹ A minimum of a C grade is required in all courses within the area of concentration, including the six hours of general education in the Humanities and Creative and Performing Arts.

² The 24 hours of coursework will include at least six hours each from a minimum of three subject areas within the Humanities and Creative and Performing Arts. At least 12 hours from one discipline area. These courses will be selected from a list developed by faculty in that discipline area and may include six hours of upper-division credit.

Integrated Studies

Contact: Professor Tracy Routsong, PhD, Director

Mission

The Integrated Studies program aims to foster cross-disciplinary connections in preparation for the complexity of a global society.

The Bachelor of Integrated Studies allows students the opportunity to blend resources in a sound and creative manner. Consistent with the mission of the University and the College of Arts and Sciences, students are able to individualize their academic experiences. This degree can provide a broad, general studies focus, or a more concentrated development of an emphasis delivered in a variety of platforms including online, face-to-face, and weekend options. This degree may be completed fully online.

The requirements of the BIS degree are based on the assumption that a multi-disciplinary approach is suitable for the depth of experience of an undergraduate student's degree. In particular, those students who desire exposure of various disciplines relevant to their personal interests, goals, aspirations, or career path will benefit from this degree. This program allows for more flexible and creative options toward reaching students' degree goals. Multi-disciplinary plans of study within the Bachelor of Integrated Studies may be created in one of two ways:

- Unique, customized plan created by a student with the assistance of the director of the program.
- Standard multi-disciplinary plan.

Student Learning Outcomes

Students who complete the Bachelor of Integrated Studies should be able to:

- Demonstrate the ability to engage in objective, multidisciplinary perspective taking. Outcome: Develop an ISP that includes two or more disciplines.
- Integrate knowledge and modes of thinking drawn from two or more disciplines Outcome: Articulate how course materials integrate into a cohesive program in a reflection paper.
- Integrate interdisciplinary understanding of a complex problem or intellectual question Outcome: Design and complete an interdisciplinary project.

Descriptions of Plans

Students interested in obtaining more information about the Bachelor of Integrated Studies should contact the College of Arts and Sciences Dean's office.

Individualized Study Plan: To meet the depth of experience component within traditional degree requirements, the student designs and submits for approval an Individualized Study Program (ISP). This ISP is formulated by selecting courses consistent with a specific focus, theme, or unifying conceptual principle with the approval of the BIS Director. All ISPs will have a minimum of 30 credit hours.

Multi-Disciplinary Study Plan: As the world becomes more complex, the needs for interdisciplinary educational experiences increases. To respond to this trend, groups of departments may design a Multi-disciplinary Study Program (MDSP) for approval by the Integrated Studies Advisory Committee (ISAC) and the BIS Director. Students who choose to pursue

these "pre-approved" plans of study must complete the course-work identified by the participating departments or work with the BIS Director to find appropriate substitutions. All MDSPs will have a minimum of 30 credit hours but may have more depending on the individualized plan.

Two Areas of Emphasis

12 - 18 hours completed in each of two departments or disciplines, one of which must be within CAS.

Three Areas of Emphasis

12 - 18 hours will be completed in each of three departments or disciplines, two of which must be within CAS.

All programs require the completion of:

IS 389 Integrated Studies Capstone Proposal - Development (1 credit hour) plus IS 390 Integrated Studies Capstone - Project (2 credit hours)

Upper division courses may require prerequisites or consent of instructor. Programs must be formulated in consultation with the BIS Director. If considering a customized plan, use the standard pre-approved programs as models.

Pre-Approved Multi-Departmental Study Programs

The following pre-approved multi-departmental study programs (MDSPs) are currently available:

- Administrative Communication, BIS (p. 157)
- Liberal Arts Program Emphasis, BIS (p. 157)
- Web Technology Utilization Emphasis, BIS (p. 158)

Course Offerings

IS 389 Integrated Studies Capstone Proposal (1)

This course is the prerequisite course to the IS 390 Capstone Project course and must be taken the semester immediately preceding IS 390 or special permission by the BIS Director. This course is designed to assist the student in developing an appropriate capstone project. Prerequisite: At least thirty completed hours from either the Individualized Study Plan (ISP) or the Multi-Disciplinary Study Plan (MDSP) or special permission by the BIS Director.

IS 390 Integrated Studies Capstone (1-7)

The thoughtful integration of diverse materials is a major demand on the student working toward a Bachelor of Integrated Studies. The format may vary in terms of the student's special interests, abilities, imagination, and creativity. May consist of a research paper, a comprehensive written examination on selected reading materials, an oral presentation, or a special performance utilizing one or more art forms or modes of expression. Prerequisite: IS 389 or by consent of the BIS Director.

Administrative Communication, BIS Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Integrated Studies (p. 74) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Code	Title	Hours
Required Courses Inside Department ¹		
IS 389	Integrated Studies Capstone Proposal	1
IS 390	Integrated Studies Capstone	2
Subtotal		3
Required Courses Outside Department ¹		
CN 308	Organizational Communication	3
CN 330	Communication in Conflict and Negotiation	3
CN 350	Persuasion	3
Select 12 Credits of Psychology Core		12
Select 12 Credits from Business/Political Science/Sociology Core		12
Total Hours		36

- ¹
- Grade of "C" or better required for designated courses in the ISP/ MDSP.
 - Courses applied to the General Education distribution requirements may not also be utilized to meet ISP/MDSP requirements.

Liberal Arts Program Emphasis, BIS Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Integrated Studies (p. 74) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Students must complete the following core coursework by selecting two to three areas of emphasis (minimum of 30 hours total):

Code	Title	Hours
Two Areas of Emphasis ¹		
Upper division College of Arts and Sciences coursework ²		12-18
Upper division Approved Coursework in Second Area ³		12-18
IS 389	Integrated Studies Capstone Proposal	1
IS 390	Integrated Studies Capstone	2
Total Hours		27-39

- ¹ Two Areas of Emphasis program considerations:
- Grade of "C" or better required for designated courses in the ISP/ MDSP.
 - The first 30 hours of the ISP/MDSP may not be applied to the 84 hour "non-major" requirement.
 - Courses applied to the General Education distribution requirements may not also be utilized to meet ISP/ MDSP requirements.

² From approved programs. Upper division courses may require prerequisites or consent of instructor.

³ Second Area may be outside CAS, but must be approved. Upper division courses may require prerequisites or consent of instructor.

Code	Title	Hours
Three Areas of Emphasis ¹		
Upper division College of Arts and Sciences coursework ²		12-18
Upper division College of Arts and Sciences coursework ²		12-18
Upper division Approved Coursework in Third Area ³		12-18
IS 389	Integrated Studies Capstone Proposal	1
IS 390	Integrated Studies Capstone	2
Total Hours		39-57

¹ Three Areas of Emphasis program considerations:

- Grade of "C" or better required for designated courses in the ISP/ MDSP.
- The first 30 hours of the ISP/MDSP may not be applied to the 84 hour "non-major" requirement.
- Courses applied to the General Education distribution requirements may not also be utilized to meet ISP/ MDSP requirements.

² From approved programs. Upper division courses may require prerequisites or consent of instructor.

³ Third area may be outside CAS, but must be approved. Upper division courses may require prerequisites or consent of instructor.

Subtotal		43
Electives - Select 21 credit hours of the following (at least 18 must be upper division):		21
AR 120	2D Design	
AR 322	Graphic Design II	
AR 325	Photoshop Imaging II	
AR 326	2D & 3D Digital Animation	
AR 403	Workshop in Art Media	
AR 429	Web Design

Kinesiology

Department of Kinesiology

Website: <https://www.washburn.edu/academics/college-schools/arts-sciences/departments/kinesiology/>

Faculty

Professor Roy Wohl, PhD, Chair

Professor Park Lockwood, PhD

Assistant Professor Eric Mosier, PhD

Assistant Professor Yang Song, PhD

Assistant Professor Clayton Whalen, PhD

Senior Lecturer John Burns, MS

Senior Lecturer Karen Garrison, MA

Mission

The Mission of the Kinesiology Department is to engage students in an impassioned search for intellectual growth and personal fulfillment through study in one or more of the disciplines encompassed by the domains of health and human movement and prepare them for a career in Kinesiology or further study in related graduate and/or professional degree programs. The Department promotes the acquisition and application of knowledge and skills, fosters critical thinking, participates in research, and supports students and faculty in discipline-related service to the University, the profession, and the global community.

Vision

The Kinesiology Department, through continuing excellence in teaching, research, and service, will be recognized for producing quality graduates who possess the theoretical knowledge, applied skills and advanced competencies necessary to become leaders in the health and human movement related professions.

Graduates of Kinesiology Department degree programs are expected to have:

- Been involved in a comprehensive professional preparation program that meets or exceeds state and/or national standards.
- Participated in a wide variety of opportunities to gain experiences and knowledge through instruction in a variety of health and fitness activities and related topics.
- Been empowered to take charge of their learning through quality academic guidance in order to prepare for future career and/or professional goals.
- Developed an appreciation of leadership, research and/or educational service through participation and volunteerism.

Description of Discipline

Kinesiology is an academic discipline concerned with the study of physical activity and human movement and their impact on health, society and quality of life. It includes, but is not limited to, such area of study as health promotion, fitness, sport management, injury prevention and care, biomechanics, socio-cultural analyses of sports, physical education teacher education, exercise and sport psychology, and exercise science. In addition, Kinesiology provides an excellent academic foundation for the student wishing to pursue a graduate and/or professional degree in a wide range of allied health-related professions

such as athletic training, clinical exercise physiology, physical therapy, occupational therapy, and cardiac rehabilitation.

Student Learning Outcomes

- Demonstrate an understanding of the fundamental knowledge (i.e., scientific, historical, philosophical) in the principal areas of study in Kinesiology.
- Summarize the relationship between physical activity participation and health, wellness, and quality of life.
- Determine an individual's health and fitness status through demonstrated proficiency in skills/competencies needed to successfully perform standard health and fitness assessments.
- Demonstrate proficiency in computer technology skills and use of applications that can be applied in exercise, fitness and sport settings.
- Critically evaluate research about physical activity and the movement-related professions.

Natural Science Concentration

All Bachelor of Science degrees include a required 30-hour natural science concentration, which includes courses chosen from departments in the Natural Sciences and Mathematics Division, other than the student's major department.

Natural Sciences Concentration courses for BS degrees offered by the Department of Kinesiology must be chosen from the disciplines of Biology, Chemistry, Math, and Physics, and 15 of these hours must be from Biology.

Degree Programs

- Exercise and Rehabilitation Science, BS (p. 163)
- Health and Fitness Promotion, BA (p. 164)
- Sport Management, BA (p. 165)
- P-12 Physical Education Teaching, BEd (p. 165)
- Minor in Coaching & Certificates (p. 166)

Course Offerings

HL 277 Principles of Health Education and Promotion (3)

Designed to familiarize the student with the purpose, function, organization and administration of health education and promotion services. Some areas to be discussed are history and philosophy of health education, effective settings, behavior change theories, government initiatives, and ethics. Prerequisite: KN 248 or consent of instructor

HL 377 Critical Issues in Health (3)

This course will focus on controversies surrounding a wide range of current health science and personal health issues. When confronted by differing opinions and points of view, it is necessary to use critical thinking skills to comprehend, evaluate and make decisions in the face of uncertainty. Pros and cons of selected issues will be presented through readings, lectures, class discussions and both oral and written presentations. Prerequisite: KN 248 or consent of instructor.

HL 477 Health Program Planning and Evaluation (3)

This course is designed to study the fundamental concepts, models, theories and strategies pertaining to health education and promotion program planning and evaluation. Students will gain practical knowledge and will be expected to develop a comprehensive, theory-based strategy for delivery of a health promotion program, as well as provide for appropriate evaluation mechanisms throughout the program.

Prerequisites: HL 277 and HL 377, or consent of instructor.

KN 100 Rhythmic Fitness (1)

Rhythmic Fitness

KN 101 Body Toning (1)

Body toning.

KN 102 Archery (1)

Archery

KN 103 Badminton (1)

Badminton

KN 104 Step Aerobics (1)

Step Aerobics

KN 107 Basketball (1)

Basketball

KN 109 Bowling (1)

Bowling

KN 111 Canoeing (1)

Canoeing

KN 112 Cycling (1)

Cycling

KN 113 Fencing (1)

Fencing

KN 117 Golf I (1)

Golf

KN 123 Judo (1)

Judo

KN 124 Karate (1)

Karate

KN 125 Lifeguard Training (1)

Lifeguard Training

KN 129 Racquetball (1)

Racquetball

KN 132 Softball (1)

Softball

KN 133 Swimming I (1)

Swimming I

KN 134 Swimming II (1)

Swimming II

KN 137 Tennis (1)

Tennis

KN 139 Tai Chi (1)

Tai Chi

KN 140 Pilates (1)

Pilates

KN 141 Yoga (1)

Yoga

KN 142 Zumba (1)

Zumba

KN 143 Soccer (1)

Soccer

KN 144 Volleyball (1)

Volleyball

KN 146 Weight Training (1)

Weight Training

KN 152 Kardio Kickbox (1)

Kardio Kickbox.

KN 157 Country & Western Dance (1)

Country and Western Dance

KN 162 Beginning Skin & Scuba Diving (1)

Beginning Skin and Scuba Diving

KN 165 Self-Defense (1)

Self-Defense

KN 169 Social Dance (1)

Social Dance

KN 170 Aqua Exercise (1)

Aqua Exercise

KN 171 Deep Water Walking (1)

Deep Water Walking

KN 173 Water Safety Instructor (1)

Water Safety Instructor

KN 176 Tae Kwon Do (1)

Tae Kwon Do

KN 190 Special Topics (1)

Special Topics

KN 192 Marathon Training I (1)

Marathon Training I

KN 193 Marathon Training II (1)

Marathon Training II

KN 240 Coaching Principles and Philosophy (2)

This course is required for the Minor in Coaching. It is designed to provide students with a basic understanding of coaching principles and help students develop a sound coaching philosophy. Students will examine their roles as coaches, improve communication and management skills, develop technical coaching skills, and learn proper team training and management strategies. This course will provide content necessary for students to complete the American Sport Education Program's (ASEP) certification exam. Prerequisite: Sophomore status.

KN 248 Wellness Concepts and Applications (3)

The purpose of this course is to introduce and explore the essential concepts of wellness and to gain an understanding of the processes that contribute to developing and maintaining a healthy lifestyle. The wellness approach will emphasize personal responsibility for one's health through critical examination and evaluation of the consequences of lifestyle choices, the selection and development of behavior change skills that promote optimal enhancement of all wellness dimensions, and the creation of a personal wellness plan for a productive and satisfying life.

Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

KN 250 Introduction to Kinesiology (2)

This course examines the process of human movement as a unifying element in the study of the discipline of Kinesiology. Content areas include the scientific foundations of human movement, the history and philosophy of physical education, the role of physical education in the educational process, general purposes of Kinesiology programs, career orientation and the future of Kinesiology.

KN 257 Prevention and Care of Athletic Injuries (3)

This course will instruct and evaluate contemporary methods of conditioning, prevention, recognition and acute care of athletic injuries. This course will also focus on risk assessment and management relating to physical activity. The course is appropriate for Kinesiology majors, pre-healthcare majors, and students interested in coaching. An additional fee is associated with this course.

KN 266 Microcomputer Applications to Kinesiology (2)

This course examines computer technology applications and software related to Kinesiology and Physical Education. Prerequisite: Kinesiology or Physical Education Major, KN 248 and KN 250; or 54 credit hours and consent of instructor.

KN 271 First Aid and CPR (2)

General emergency first aid including sudden illness, musculoskeletal injuries, heat/cold emergencies, splinting, bandaging and CPR. Opportunity is provided to earn both American Red Cross Responding to Emergencies First Aid and CPR certifications. An additional fee is associated with this course.

KN 280 Sports Officiating I (2)

Study and interpretation of current rules; field work for practicing officiating techniques. Prerequisite: Consent of instructor.

KN 281 Coaching Football (2)

Fundamentals and coaching techniques in coaching football. Rules, planning and implementing practice sessions, offensive and defensive techniques and strategies, game day organization, and administrative responsibilities will be covered. implementing practice sessions, offensive and defensive techniques and strategies, game day organization, and administrative responsibilities will be covered.

KN 282 Coaching Basketball (2)

Fundamentals and coaching techniques in basketball. Rules, offensive and defensive strategies, planning and implementing practice sessions and administrative requirements will be covered. strategies, planning and implementing practice sessions and administrative requirements will be covered.

KN 283 Coaching Track and Field (2)

Fundamentals and coaching techniques and methods in all events within a track and field program. Rules and regulations, meet strategies, planning and implementing practice sessions and administrative requirements will be covered.

KN 284 Coaching Baseball and Softball (2)

Fundamentals and coaching techniques in baseball and softball. Rules, offensive and defensive strategies, planning and implementing practice sessions and administrative requirements will be covered.

KN 285 Coaching Volleyball (2)

Fundamentals and coaching techniques involved in coaching volleyball. Rules, practice and game day organization, offensive and defensive strategies, and administrative responsibilities will be covered.

KN 286 Coaching Soccer (2)

Fundamentals and coaching techniques in soccer. Rules, offensive and defensive strategies, planning and implementing practice sessions administrative requirements will be covered.

KN 291 Field Experience 1 in Exercise and Rehabilitation Science (1)

This course is designed to help students explore exercise and rehabilitation professions, providing them a framework for the foundational knowledge and skills gained as an exercise and rehabilitation science major. Field observations exposing majors to potential careers and professional settings are included. Prerequisites: KN 248 & AL 101 or KN 250 & NU 102.

KN 299 Measure & Eval in Kinesiology (2)

This course is designed to provide students with an understanding of measurement and evaluation principles in Kinesiology, and emphasizes the selection, development, administration and interpretation of appropriate assessments for physical education. Skill performance and fitness assessments with computer applications will be included. Prerequisites: KN 248 and KN 250, plus MA 112 or MA 116.

KN 300 Psychology of Sport and Physical Activity (3)

The study of psychological processes related to sport and exercise behavior. The course will provide a broad overview of the major topics, including: motivation, arousal, goal-setting, self-confidence, and imagery. Prerequisites: KN 248 and KN 250, or junior standing and consent of instructor.

KN 306 Organization and Administration in Kinesiology (3)

This course is designed to provide a theoretical and practical approach to the organization and administration of Kinesiology programs. Students will be assigned administrative projects to enhance learning. Prerequisite: junior standing or consent of instructor.

KN 308 Nutrition for Sports & Fitness (3)

This course will provide an understanding of nutrition and its relationship to physical fitness and sports performance. Students will learn about nutrition guidelines and the effects of nutrition on topics such as metabolism, hydration, body composition, supplements, ergogenic aids, and sports specific training. In addition, students will perform and analyze nutrition and energy assessments and make recommendations to improve performance. Prerequisite: KN 248 and KN 250, or junior standing and consent of instructor.

KN 311 Motor Development (3)

This course is designed to provide students with an examination of current theories of motor development throughout the life cycle. Emphasis is placed on development of fundamental motor skills, physical growth and development, and assessment. Students will be required to conduct a variety of assessments on diverse individuals. Prerequisites: KN 248 and KN 250 and KN 341 or KN 342 (Kinesiology majors must have C or better in prerequisites).

KN 315 Special Topics in Kinesiology (1-3)

May vary from semester to semester. May be taken more than one semester depending upon topic.

KN 318 Exercise Psychology (3)

This course will introduce students to the basics and provide a solid foundation of psychological consequences and adherence aspects associated with the psychology of exercise. The interconnection among theory, research, application, and intervention will be utilized in order to apply the knowledge learned in this course to actual situations. Prerequisites: KN 248 and KN 250, or junior standing and consent of instructor.

KN 321 Anatomical Kinesiology (3)

The study of anatomical and mechanical principles in relation to human motion. Prerequisite: BI 250 or BI 275.

KN 326 Physiology of Exercise (3)

Process of scientific inquiry applied to physiological systems engaged in exercise. Examination of the acute and chronic effects of exercise on structure, function, and performance. Prerequisite: BI 255.

KN 327 Physiology of Exercise Lab (1)

The purpose of this course is to gain an understanding of the physiology (neuromuscular, metabolic, and cardiopulmonary) of exercise, including the physiology of training (i.e., the acute responses and chronic adaptations that occur due to exercise). This course will reinforce the basic exercise physiology concepts via application, increase awareness of and proficiency in performing selected laboratory tests and measurements commonly used in exercise physiology studies of humans, and provide practice in the process of data collection, evaluation and reporting. Prerequisites: BI 255; must be taken concurrently with KN 326.

KN 330 Administration of Exercise and Rehabilitation Science (3)

This class is designed to provide foundational information relating to the Administration of Exercise and Rehabilitation Science professions for Kinesiology majors who intend on pursuing Exercise or Rehabilitation Science professions. Students will learn the importance of quality management of financial, human, and facility resources. Prerequisites: KN 291 and junior standing.

KN 335 Human Factors and Ergonomics (3)

This course examines human factors and ergonomics as the interdisciplinary study of humans interacting with elements of systems in the workplace and other environments. Thorough analysis, evaluation, and synthesis are employed in the application of design to optimize well-being and performance. Prerequisite: junior standing or consent of instructor.

KN 340 Adapted Physical Education (3)

This course will provide students with the knowledge, skills and instructional techniques necessary to adapt and modify physical activities for students with developmental delays and/or mental and physical disabilities. Legal issues associated with educating individuals with disabilities in the physical education setting will be examined. A practicum experience in the public school setting and/or community setting is required. Prerequisite: KN 311 or consent of instructor.

KN 341 Physical Education Activity Techniques I (2)

This course emphasizes the learning of basic skills and teaching progressions, including lead-up games/activities, instructional strategies & teaching methods for activities such as basketball, soccer/speedball, softball, flag football, team handball, lacrosse, and floor hockey. Prerequisites: KN 248 and KN 250.

KN 342 Physical Education Activity Techniques II (2)

This course emphasizes the learning of basic skills and teaching progressions, including lead up games/activities, instructional strategies and teaching methods of aerobics, weightlifting, track and field, and unique physical education games. Prerequisites: KN 248 and KN 250.

KN 343 Physical Education Activity Techniques III (2)

This course will provide undergraduate physical education majors with an introduction to a variety of sports and activities found in various school curricula. Additionally, the course will provide an opportunity for students to gain teaching experience through peer-teaching experiences. Sports and activities to be covered will include: Archery, Badminton, Bowling, Golf, Pickleball, Table Tennis, Tennis, and Volleyball. Prerequisites: KN 248 and KN 250

KN 344 Physical Education Activity Techniques IV (2)

This course emphasizes the learning of basic skills and teaching progressions, instructional strategies and teaching methods for these activities: Pre-K – 12 rhythms and dance, including creative rhythms, social, folk and line dances, and basic tumbling, stunts and balance activities. Prerequisites: KN 248 and KN 250.

KN 345 Physical Education Activity Techniques V (2)

This course will provide Physical Education and Kinesiology majors with an introduction to a variety of outdoor activities and related teaching experiences. The overall purpose is to provide potential teachers and recreational leaders with the foundational knowledge and skills necessary to teach and participate in a variety of outdoor leisure activities. An additional fee is associated with this course. Prerequisites: KN 248 and KN 250.

KN 350 Orthopedic Evaluation (3)

This course is designed to instruct students on the techniques involved evaluating orthopedic injuries. This course will cover the sequence of a formal evaluation, documentation, the signs & symptoms of common injuries, & differential diagnosis. Prerequisite: KN 321.

KN 357 Sports Performance Training and Conditioning (3)

This course provides students with the knowledge and skills to design, measure, and instruct contemporary activity-specific functional training programs. The course will emphasize methods and progression of strength, flexibility, speed, power including Olympic lifts and plyometrics, agility, balance, core and endurance training techniques with modern tools and exercise equipment. Peer teaching and testing and opportunity to participate in practical application of skills is included. Prerequisite: BI 255 and KN 342.

KN 367 Therapeutic Exercise (3)

This course is designed to provide Kinesiology majors with theoretical basis, comprehension and synthesis in the application of therapeutic exercise to address metabolic disease and musculoskeletal disorders. Students will develop specific exercise approaches for a varied population of people with a variety of special conditions to improve movement, function and quality of life. Prerequisite: KN 321.

KN 370 Facility & Event Management (3)

This course addresses the principles and procedures involved in sports facility and event management. Special emphasis will be given to sports event planning, production, and evaluation. Prerequisite: KN 306 or instructor approval.

KN 403 Biomechanics (3)

This course provides an overview of biomechanics related to sport and exercise. Specific topics include: external forces and their effect on the body and its movement, including linear and angular kinetics; work, power, and energy in human activity; and the internal mechanics of human tissues, specifically the bones, skeletal muscle, ligaments, and tendons that make movement possible. This course will consist of lecture, discussion, and laboratory sessions to communicate the background of biomechanical principles, as well as their application. Prerequisites: KN 321 and PS 131/PS 132 or PS 261

KN 410 Fitness Testing and Exercise Prescription (3)

Students will become familiar with current fitness testing procedures and exercise prescription methods. Prerequisites: KN 326 and KN 342, MA 140 or PY 151.

KN 411 Current Literature in Kinesiology (3)

This course acquaints students with the processes by which research generates information and theoretical advances in Kinesiology and also explores specific recent developments in the field. Prerequisite: KN 326, MA 140 or PY 151.

KN 420 Curriculum Development for Elementary and Secondary Physical Education Methods (3)

Instructional methods, resources and curriculum development aimed at preparing future physical education teachers with the knowledge to create developmentally appropriate activities for preschool through high school age students, utilizing practical site-based experiences in planning, teaching, and evaluating physical education programs. Prerequisites: KN 311, plus any of the following: KN 341, KN 342, KN 343, KN 344, KN 345, and formal admission to the Professional Teacher Education Program or consent of instructor.

KN 430 Senior Seminar Physical Education (1)

This is a capstone course in which teacher candidates will review and update their Physical Education philosophy, complete their Physical Education portfolio, further develop their professional goals and plan for professional development; create their advocacy plan, and complete a practical experience related to the major. Prerequisites: Senior standing and formal acceptance into the Professional Teacher Education Program; or consent of instructor.

KN 491 Field Experience 2 in Exercise and Rehabilitation Science (3-6)

This course is designed for students interested in gaining practical experience in settings related to exercise and rehabilitation science, such as athletic training, physical therapy, clinical exercise physiology, fitness/wellness, sports and conditioning or research settings. Prerequisites: KN 291, KN 357 and KN 410; current First Aid and CPR certifications must be on file prior to the start of the field experience.

KN 497 Internship: Sport Management (6-12)

This course provides an off-campus experience in the field of sport management, in areas such as facility operations, game day promotions and advertising, ticket sales, and/or front-office administration. Each credit hour of internship equates to 50 contact hours at the internship site. This internship is for a minimum of 300 hours and a maximum of 600 hours. Prerequisite: All Major and Activity Requirements completed; current First Aid and CPR certifications must be on file prior to start of internship.

KN 498 Internship: Health and Fitness Promotion (3-6)

This course provides an off-campus experience in health promotion and/or fitness settings such as public health, corporate wellness, personal training, strength and conditioning, and recreation administration. Each credit hour of internship equates to 50 contact hours at the internship site. This internship is for a minimum of 150 hours and a maximum of 300 hours. Prerequisite: All Major and Activity Requirements completed; current First Aid and CPR certifications must be on file prior to start of internship.

Exercise and Rehabilitation Science, BS

The Bachelor of Science in Kinesiology in Exercise and Rehabilitation Science is designed for students desiring to pursue graduate or professional school in fields such as Athletic Training, Exercise Physiology, Physical or Occupational Therapy, Nutrition Science/Dietetics, Physician Assistant, Chiropractic and Cardiac Rehabilitation. This degree prepares the student to meet many of the prerequisite courses necessary for application to the above-mentioned professional degree programs. The BS degree also requires a 30-hour Concentration to be chosen from the Natural Science disciplines of Biology, Chemistry, Physics, and Math. For the Bachelor of Science in Kinesiology in Exercise and Rehabilitation Science, 15 of these hours must be from Biology.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Science (p. 75) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Code	Title	Hours
Required Course Inside Department

Health and Fitness Promotion, BA

The Bachelor of Arts in Kinesiology in Health and Fitness Promotion is designed for students desiring to pursue careers in health promotion, wellness and/or fitness-related settings. Areas such as exercise and sports performance, personal fitness training, corporate wellness, recreation/leisure settings, public health management and profit/non-profit health agencies are some examples. In addition, students could pursue advanced degrees in other health and fitness-related professions but may need to complete additional course work to meet prerequisite requirements for graduate school.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Sport Management, BA

The Bachelor of Arts in Kinesiology in Sport Management is designed for students desiring to pursue careers in the business side of sports and activity-oriented industries. Some examples are front office administration, facility operations, advertising and ticket sales, game day promotions, and retail equipment sales. Included in this degree is a twenty-one credit hour Minor in Business certified by the Washburn University School of Business.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

P-12 Physical Education Teaching, BEd

The Bachelor of Education in P-12 Physical Education Teaching is designed for undergraduate students desiring to teach in the public school system. This degree is completed in conjunction with the Washburn University Education Department and prepares students to obtain their Kansas Teaching Licensure. In addition, a P-12 Physical Education Teaching Licensure program is offered for students who have graduated with a non-teaching degree in any discipline and want to pursue a licensure program in Physical Education.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Education (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Students seeking certification to teach Physical Education must also be formally admitted to the University's Professional Teacher Education Programs (p. 291).

Coaching, Minor

The Minor in Coaching provides students the education and experience needed to obtain an entry-level coaching position. In addition, courses selected provide the knowledge needed to complete the American Sport Education Program (ASEP) national coaching certification exam. The Minor in Coaching is aligned with the National Association for Sport and Physical Education (NASPE) standards.

Minor in Coaching

Current CPR/First Aid/AED Certification is required at time of graduation.

Certificates Offered

American Sport Education Program Bronze Level National Coaching Certification (ASEP)

The ASEP is a world-wide organization providing coaching certification for over 30 years. This certification is for those desiring to coach athletes aged fourteen years and older at the high school, college, Olympic and competitive club-sport levels. The program provides the comprehensive information and resources needed to sit for the ASEP Bronze Level national certification exam and be better prepared to obtain an entry-level coaching position. This exam is included as a requirement in KN240 Coaching Principles and Philosophy, one of the courses included in the Minor in Coaching.

Functional Movement Screen Level 1 Certification by Functional Movement Systems, LLC. (FMS)

This course provides an understanding of the relationship movement patterns play in health and fitness goals. The FMS is a tool for standardized movement screening that is used to see how individuals of any age move in everyday life. Students become proficient in identifying movement patterns an individual moves well in, or patterns that are less than ideal and can be protected and corrected. At the conclusion of the course, you will have the knowledge and experience needed to sit for the FMS Level 1 certification exam. This exam is included as a requirement in KN315 ST: Personal Training Certification.

Personal Trainer Certification (NASM-CPT)

This certification is a partnership between the National Academy of Sports Medicine (NASM) and the Athletics and Fitness Association of America (AFAA). Learn a systematic approach to developing personalized and unique training plans that have predictable outcomes for any type of client. A wide variety of fitness, training and performance assessments are delivered and explained, thus providing students with the most scientifically accurate information and educational experiences needed to sit for the NASM-CPT national certification. This exam is included as a requirement in KN315 ST: Functional Movement Screening Certification.

Liberal Studies, ALS

The Associate of Liberal Studies degree is intended to give students a broad background in liberal studies in preparation for further study or employment.

Student Learning Outcomes

Washburn University students completing the Associate of Liberal Studies degree, upon graduation, are expected to have:

- Acquired an introductory knowledge of the disciplines comprising the humanities, natural sciences, and social sciences.
- Acquired a foundation for continued academic study.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for an Associate of Liberal Studies (p. 75) degree, and any additional hours needed to reach the minimum 60 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Code	Title	Hours
Required Courses		
Choose one of the following plans:		12
<i>Plan A Coursework</i>		
A focus of at least 12 hours in one College of Arts and Sciences discipline (C or better)		
<i>Plan B Coursework</i>		
Courses selected from the general education disciplines (C or better)		
Subtotal		12
Electives		

Additional coursework to achieve a minimum of 60 hours ¹

¹ No more than 27 hours in a single discipline excluding core requirements may be included in the 60 hour total. Minimum of 24 hours from Washburn with 12 of the last 24 hours at Washburn. Minimum GPA of 2.0.

Lecturer Sam Finch, MA
Lecturer Dean Krueger, MFA

Mission

The mission of the Department of Mass Media at Washburn University is the pursuit of excellence. Through excellence in teaching, scholarly, creative, and community activities, students are empowered to discover and express their voices in today's mass media landscape. With students at the forefront of all of its endeavors, the Department of Mass Media strives to build exceptionally ethical, professional, critical, strategic, and socially responsible leaders who are prepared to make an indelible impact in a diverse and engaging media environment. Through cooperative partnerships, projects, and internships with global, national, and local organizations, students are provided opportunities to apply the skills developed in the classroom to their professional endeavors. Upon graduation, students are prepared to create responsible, effective contemporary media for a mobile and global society. Driven by its faculty and students, the Department of Mass Media aims to promote media literacy, freedom of expression, and socially responsible communication.

Vision Statement

You want to change the world and get a job. We'll help you do both.

Description of the Department

We live in a society dominated by the media where it is more important than ever to master the art of communication. At the same time, the mass media landscape is changing almost daily. That's why the mass media program is designed to be flexible and help our students adapt and thrive in an era of rapid transformation.

Washburn's program prepares students to become successful communicators. Our students learn through real-world experience combined with education in the theory, the art and practice of communications in today's media environment.

Our students graduate ready to take their place in a wide range of fields including online, broadcast and print journalism, advertising, media analysis, film and video production, digital media management, as well as public relations and event planning. The major and minor can be selected in combination with other majors offered in the College of Arts and Sciences and other schools within the university.

Student Learning Outcomes

Mass media students at Washburn University, upon graduation, are expected to:

- Understand the development of technology and its impact on society and use existing technologies and information to address real-world issues and recognize emerging technological trends and their impact on the future.
- Research, organize, present and/or communicate information in meaningful ways to diverse audiences.
- Critically analyze information and the credibility of the sources of information, and clearly express that information in written and oral form.
- Identify diversity, ethics, equality and human rights, the interconnectedness of societies and cultures, and demonstrate a commitment to finding solutions to problems that affect the world.

Hands-on Experiences

Mass media majors have the opportunity to gain hands-on experience in advertising, public relations, journalism, as well as film and video at Washburn University. Most mass media courses are highly involved with learning skills in technology, as well as producing work for real-world clients. Mass media majors also gain much needed experience in film and TV broadcasting by using Instructional Media's television studio, and the public TV station, KTWU. Student Media offers paid opportunities for print, digital media, radio, advertising and promotions. The writing, design and editing courses are taught in the Stauffer Mass Media computer lab. The film and video editing courses are taught in the film editing lab in Henderson Learning Center.

Internships

Internships are required for all students. The mass media faculty members maintain a network of contacts, but students are responsible for finding and setting up their own internships. The process of signing up for the internship program starts during the semester immediately preceding the internship semester. To enroll in the internship class, students must first obtain the consent of the Internship Coordinator. Students work a total of 128 hours for the organization. Twenty-four hours of credit in the major, with at least nine hours in the area of concentration, must be completed prior to the internship experience.

Mass Media Honors

Must have a 3.2 overall GPA, 3.5 Mass Media GPA. Earn a minimum of three badges. Apply by Week 10 of your graduation semester.

Programs

- Mass Media, BA - Advertising and Public Relations Concentration (p. 171)
- Mass Media, BA - Contemporary Journalism Concentration (p. 172)
- Mass Media, BA - Film and Video Concentration (p. 172)
- Mass Media, Minor (p. 173)
- Applied Media, Minor (p. 173)
- Film and Video, Minor (p. 173)

Course Offerings

MM 100 Introduction to Mass Media (3)

The subject of this course is mass media. It is designed to acquaint students with newspapers, magazines, books, radio, recordings, television, films, advertising, public relations, and the interactive media of computers and information technology. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Information Literacy and Technology

MM 128 The Impact of The Walt Disney Company on Society (3)

This course will explore the impact that the Walt Disney company has had on society in both the domestic and international cultural spaces. Topics explored include the company's influence on society and culture through:

- 1) mass media, such as film, television, radio, publishing, literature, online, and gaming;
- 2) business, such as tourism, merchandising, licensing, franchising, marketing, and promotions;
- 3) innovation, such as technology, creative development, engineering, and architecture;
- 4) history, such as historical, gender, race, and colonial representation.

Prerequisites: None.

MM 155 Sports and the Media (3)

This course is designed as a foundational course and, as such, examines the interrelationship between the media and sport. Emphasis is placed on how media tell the story of sport. Students critically examine how media shape sports news, images, events, identities, and the cultural values of fans regarding sport. Also, students become acquainted with a diverse array of media and media industries (i.e., newspapers, magazines, books, radio, recordings, television, film, gaming, advertising, public relations, and digital media) in the context of the sport industry in order to understand the role these media play in transmitting sport as a cultural phenomenon. Prerequisites: None

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Information Literacy and Technology

MM 199 Professional Media Applications (3)

This class implements technology processes and the construction of messages to be used in commercial, social and mobile media while creating an understanding of the significance and application of basic media terminology. Prerequisite: None.

MM 202 Professional Media Writing (3)

The study and practice of fundamentals of media writing for journalism, public relations and advertising. Prerequisites: MM 100 and MM 199 or consent.

MM 222 Screenwriting (3)

The focus in this course is to develop knowledge and skills relating to visualization of cinematic story elements, and writing a narrative film script. Topics include: formatting, structure, character development, conflict, dialogue, and other script elements. Prerequisites: MM 100 and MM 199 or consent.

MM 300 Media Law, Ethics & Diversity (3)

This course takes an in-depth look at the First Amendment, ethics, and diversity from a media practitioner's standpoint. Students will think critically about the freedoms of speech in the United States, privacy in a digital age, and common legal protections in the workplace. The course will also include an examination of professional ethics in mass media and how those may be applied in case studies. Furthermore, students will also examine the societal representations of gender, race, and disability in media and how those images influence and reinforce cultural stereotypes. Prerequisites: MM 100 or consent.

MM 301 Mass Media & Cinema (3)

Investigation into how the cinema portrays the media of radio, television, film and the press. Discussion of various types of film analysis and criticism, including production analysis, sociological, genre, and ideological criticism of film form and content. Prerequisites: MM 100 or consent.

MM 303 Video Game Storytelling (3)

This course empowers students to learn the professional side of video games, and understand the central role of storytelling and character development. In addition to storytelling basics, students are exposed to the vital history and design elements in the industry. Professionals from all sides of the video game industry interact directly with students, providing them with first-hand insights. This course provides a foundation for pursuing a career in the video game industry from the producer, designer, executive, journalistic, and public relations standpoints. Prerequisites: None

MM 308 Intro Film & Video Techniques (3)

This course provides students the opportunity to learn the basics of film and video production. Students are introduced to a variety of valuable video content creation tools and techniques such as effectively shooting video with a smartphone, and video editing using Adobe Premiere Pro. Students will apply what they learn throughout the course through the completion of various video projects. Prerequisites: MM 100 and MM 199

MM 311 TV Studio Production (3)

Practice of the production roles and technical operations required to work collaboratively in a multi-camera TV studio environment. This course will provide students the opportunity to live-direct and work as part of a TV studio production crew in a variety of roles to produce a series of studio and field productions. Prerequisite: MM 202 or MM 222 or consent

MM 312 Cinematography (3)

This course focuses on the skills and theory of the camera department in the modern professional film and video environment. Students learn how to operate as the cinematographer/director of photography, gaffer, 1st and 2nd assistant camera, and grip. Through lecture students learn the theory and technique of visual storytelling as well as gain hands-on practice in the studio. Prerequisite: MM 100, MM 199 or consent.

MM 321 Advanced Professional Media Applications (3)

This course introduces students to a practice-based approach to visual communication where fundamental principles of typography, color and design are introduced alongside a variety of projects that expose students to industry-standard applications and software. Prerequisites: MM 100 and MM 199 or consent of instructor.

MM 326 Student Media Practicum (1)

This course provides students with the opportunity to gain hands-on experience by becoming contributing members within Student Media's newsroom at Washburn. Students will emerge with augmented skills in writing, reporting, editing, photography, podcasting, videography and graphic design as a result of their contribution to the Washburn Review Newspaper, the Kaw Yearbook, and the Bod Magazine. Prerequisites: MM 202 or consent.

MM 328 The Impact of The Walt Disney Company on Society (3)

This course will explore the impact that the Walt Disney company has had on society in both the domestic and international cultural spaces. Topics explored include the company's influence on society and culture through: 1) mass media, such as film, television, radio, publishing, literature, online, and gaming; 2) business, such as tourism, merchandising, licensing, franchising, marketing, and promotions; 3) innovation, such as technology, creative development, engineering, and architecture; 4) history, such as historical, gender, race, and colonial representation. Prerequisites: EN 101.

MM 350 Film Editing and Theory (3)

This course examines the craft and art of editing in the digital age and explores film history and theory as related to the editing process. Students engage in editing assignments to apply continuity and non-linear techniques. Prerequisites: MM 100, MM 199 or consent

MM 351 Data Literacy & Audience Research (3)

To make effective strategic decisions, advertising and public relations professionals must be informed of trends and changes related to an organization and its competitive environment. Furthermore, advertising and public relations professionals must know how to design and execute research that will inform organizational decision-making and the creative process. Working from the perspective of a brand strategist, students in this course collect, interpret, evaluate, and report research findings. Students are exposed to both qualitative and quantitative research methods for advertising and public relations program management. Emphasis is placed on the research process, sampling techniques, data collection methods, evaluation of data, and report writing. Prerequisite: MM 321 or consent. This class is a corequisite to MM 352.

MM 352 Advertising and PR Strategies (3)

This course focuses on the fundamentals related to the fields of advertising and public relations, and the larger roles that each discipline plays in an organization's overall integrated brand promotion (IBP) function. Students explore the foundational concepts related to the IBP industry's structure, professional careers in the field of IBP, how organizations segment and target potential and current consumers. Students also develop creative messaging for a variety of media channels, engage in strategic promotional planning, and discover brand building through reputation management and crisis communication techniques. Through this course, students emerge with both a broad understanding of IBP and its place in business and society, as well as a specific understanding of the IBP process. Prerequisites: MM 202 and MM 321 or consent. MM 351 is a corequisite

MM 355 Sports & The Media (3)

Mediated sport is an important facet of modern life. This course will explore the fundamentals of media as related to both collegiate and professional sports. Students will apply strategic thought in the creation of various media related to the sport industry. Prerequisites: EN 101 and MM 199

MM 360 Minorities & The Media (3)

This class is an examination of the portrayal of underrepresented groups in the media, and how these audiences can be reached via media messages. Prerequisite: MM 100 or consent.

MM 372 Film Production (3)

This lab course provides students an opportunity to utilize the skills and theory they've learned from the prerequisite film courses on three high quality film projects as a collaborative trio. Students learn directing, producing and production/post sound skills as well as utilize their editing and cinematography skills with a focus on collaboration. With an emphasis on the professional environment, students acquire skills that allow them to walk onto any set or post-production environment on any type of narrative production. Prerequisites: MM 222, MM 312, and MM 350.

MM 375 Murder, Mayhem and Media (3)

This course teaches real-world skills and provides valuable information for students interested in covering crime or courts for media outlets; working in law enforcement or judicial public relations; or telling crime stories through books, movies or TV. The course provides insight into what police officers do, how the criminal justice system works and how the media covers crime, with an emphasis on social media and current events. The class seeks to help enable students to serve as the eyes and ears of their readers and viewers, telling stories in a descriptive manner that helps people hear the sirens and smell the smoke. Prerequisite: MM 202.

MM 393 Special Topics/Mass Media (1-3)

Special subject courses not covered in the department catalog listing. May be repeated when topics vary. Prerequisite: MM 100 or consent.

MM 401 Media Analysis & Criticism (3)

This class includes a discussion of various levels of media analysis and criticism, including production analysis, sociological, feminist and ideological criticism of media form and content. There is also an emphasis on news analysis and television criticism. Prerequisites: MM 100 or consent.

MM 403 Advanced Professional Media Writing (3)

This course focuses on writing and information design skills by giving students the opportunity to practice writing mechanics, story editing, interviewing, and design for real-world publications like the Mass Media Alumni Newsletter, the Mass Media Messenger, and the Washburn Review. Students will also learn how to tailor messages to specific audiences and explore the duties of publication editors and managers from an organizational standpoint. Prerequisite: MM 202

MM 405 Documentary Filmmaking (3)

Through readings, screenings, and assignments, this course will develop an understanding of the background and methods for producing independent documentary films, and the accompanying issues commonly encountered in this process. Students will develop a documentary project and script treatment on a topic of their choosing. Prerequisites: MM 222, MM 312, and MM 350 or consent.

MM 408 Sports Branding & Promotion (3)

This course surveys the strategies, techniques, and media employed to promote a wide array of sports products available to the American audience. In this course, students explore the fundamentals of branding and promotion as related to both collegiate and professional sports. Topics explored include understanding the landscape of the sports industry, the variety of promotional tactics employed in the field, the role of entertainment related to the sports venue, the role of media in delivering the sports product, and consumer behavior related to the fan experience. Students emerge from the course with a strong understanding of the roles that branding and promotion play in building relationships between sports entities and consumers. Prerequisites: MM 321

MM 411 Entrepreneurial Media (3)

The class emphasizes how business principles are utilized to explore entrepreneurial opportunities in media. Students gain insight into how media content and service enterprises are conceived, planned, financed, and managed. The legal, ethical, and social implications of independent digital media ventures are considered. Prerequisites: MM 100 and MM 199 or consent.

MM 414 Advanced Film Production (3)

This advanced lab course functions as a full-fledged production company that works on one high-quality film project. Students select a director and producer duo from the class who then hire out the rest of the class as the DP/cinematographer, editor(s), production sound, post sound, assistant director, costume designer, production designer, and additional positions. The business aspects are analyzed from funding to distribution so students can leave the class with a high-quality project and a deeper understanding of how to work in whatever aspect of the business they chose. Prerequisites: MM 372 or consent.

MM 416 Digital and Social Content Strategies (3)

This course teaches students to recognize the vital role that social media play in an organization's communication efforts as well as exposes them to the material related to developing an effective social media strategy. The class functions as a social media agency where students produce high-quality work for a client. Prerequisites: MM 321 or consent.

MM 421 Event Planning and Management (3)

This course focuses on event planning and crisis communication from a media practitioner's perspective. Students will help plan and manage real-world events throughout the semester, putting into practice the skills they have learned. Along with this, the class studies creating and implementing crisis communications plans to show how organizations navigate the communication process during a crisis. Prerequisites: MM 321 or consent.

MM 426 Advanced Student Media Practicum (2)

This course provides students with the opportunity to gain hands-on experience by becoming contributing members within Student Media's newsroom at Washburn. Students will assume assistant-level leadership responsibilities and a specific project to manage. Students will oversee a small group of staff members to complete a more in-depth media assignment, developed in consultation with the director of Student Media and a Core leader of the organization while continuing to build skills in writing, reporting, editing, photography, podcasting, videography and graphic design as a result of their contributions to the Washburn Review Newspaper, the Kaw Yearbook, and the Bod Magazine. Prerequisites: MM 202 or consent.

MM 431 Creative Media Publications (3)

Students will work with on and off-campus clients to produce, edit, and design communication materials, both print and online, associated with business, industry, and non-profit groups. Students will also write, design, edit, and sell advertising for the department alumni magazine, the Mass Media Messenger. Prerequisite: MM 321.

MM 432 Advanced Advertising and PR Strategies (3)

Building on the foundational concepts studied in MM352, this course explores integrated brand promotion (IBP) through the execution of a complete IBP project with a real-world client. As part of this project students analyze a specific industry, cultivate insights related to the client's targeted consumers, develop objectives to solve the client's issue from an IBP perspective, create messaging for a variety of media channels, put forth a media plan and a means for the client to effectively measure the proposed plan, and pitch the plan to the client. Through this course, students emerge with real-world, practical experience in the field of IBP. Prerequisite: MM 352 or consent.

MM 433 Film Festival Management (3)

This course follows the planning and execution of the annual WIFI Film Festival, with students in charge of programming, promotion, fundraising, marketing and logistics. Students experience all aspects of running a large entertainment event in a real-world setting. Prerequisites: MM 202 or MM 222 or consent.

MM 485 International Media Systems (3)

This class covers and analyzes the development, structure, and functions of media in other nations, and offers an examination of the role of communications in the international arena. Prerequisites: MM 100 and EN 300, or consent.

MM 492 Independent Study (1-3)

Investigates a mass media area of interest not covered in regular courses. Involves producing research or creative projects. Prerequisites: Consent of faculty and chairperson; majors only.

MM 493 Special Topics/Mass Media (1-3)

Special subject course not covered in the department catalog listing. May be repeated when topics vary. Prerequisites: MM 100 or consent.

MM 494 Internship (1-2)

Experience and training in professional setting related to mass media careers. Mass media faculty and the sponsoring organization supervise students. A total of 64 hours of work per credit hour is given to the sponsoring organization during the semester. Usually requires 8-12 hours per week. Prerequisites: consent; second semester junior or senior standing; 24 credit hours completed in the major and 9 hours completed in concentration.

MM 499 Career Development & Digital Portfolio (2)

Students in this class explore career options and make preparations for a transition from academic life to professional careers or graduate school. A significant portion of this class will be devoted to developing and/or improving the credentials needed to land a job in the media field. In particular, this class will provide students with the opportunity to finalize their resume and digital portfolio. Prerequisites: majors only; senior status.

Mass Media, BA - Advertising and Public Relations Concentration

The Mass Media - Advertising and Public Relations Concentration prepares students to work in a broad range of public and private sector positions requiring the skills of integrated brand promotion. The

curriculum offers opportunities for students to pursue the business side of advertising and public relations or explore a customizable creative track. The course sequence includes instruction on professional media writing, principles and techniques of persuasive messaging, digital content strategies, message design as well as hands-on practice with real-world clients in the classroom.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

A minor (or certificate) is required for all Mass Media Majors. Minors vary in credit hours but most are between 15-18 credit hours. Students with a double major do not have to complete a minor.

Code	Title	Hours
Required Courses Inside Department		
<i>Required Mass Media Core Courses</i>		
MM 100	Introduction to Mass Media	3
MM 199	Professional Media Applications	3
MM 300	Media Law, Ethics & Diversity	3
MM 321	Advanced Professional Media Applications	3
MM 494	Internship ¹	2
MM 499	Career Development & Digital Portfolio	2
MM XXX	Mass Media Upper Division Electives ²	6
<i>Required Concentration Courses ³</i>		
MM 202	Professional Media Writing	3
MM 351	Data Literacy & Audience Research	3
MM 352	Advertising and PR Strategies	3
MM 403	Advanced Professional Media Writing	3
MM 416	Digital and Social Content Strategies	3
MM 432	Advanced Advertising and PR Strategies	3
Required Courses Outside Department		
CN 150	Public Speaking	3
Total Hours		43

¹ Students are encouraged to complete multiple internships. To be eligible for the Internships class, you must have 80 credit hours completed. The internship must be approved and proper paperwork submitted prior to the semester you want to intern.

² Mass Media majors must choose among additional courses offered outside their concentration in the mass media department to satisfy the six (6) hours of Upper Division electives (300 level or higher). Special topics courses will also satisfy the requirement and might include: Iconic Film Directors, Video Game Storytelling, Military and the Media, etc. Check with your advisor for the best fit.

³ MM majors can complete two MM concentrations, but this does not replace the minor requirement

Mass Media, BA - Contemporary Journalism Concentration

The Mass Media - Contemporary Journalism Concentration prepares students who want careers as writers, reporters, editors, or designers. The curriculum emphasizes storytelling through writing, reporting, editing, designing, producing and managing for print, audio, video and web.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

A minor (or certificate) is required for all Mass Media Majors. Minors vary in credit hours but most are between 15-18 credit hours. Students with a double major do not have to complete a minor.

² Mass Media majors must choose among additional courses offered outside their concentration in the Mass Media Department to satisfy the nine (9) hours of Upper Division electives (300 level or higher). Special topics courses will also satisfy the requirement and might include: Iconic Film Directors, Video Game Storytelling, Military and the Media, etc. Check with your advisor for the best fit.

³ MM majors can complete two MM concentrations, but this does not replace the minor requirement.

Mass Media, BA - Film and Video Concentration

The Mass Media - Film and Video Concentration prepares students in a wide range of creative and technical skills and knowledge necessary for success as a professional in the field. The curriculum covers all of the stages of visual storytelling pre-production, production, and post-production. The course sequence provides a foundation in film history and criticism combined with hands-on and theoretical instruction on screenwriting, picture editing, sound design, sound editing, production sound recording/mixing, cinematography, documentary filmmaking, and studio production.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Special topics courses will also satisfy the requirement and might include: Iconic Film Directors, Video Game Storytelling, Military and the Media, etc. MM 433 Film Festival Management is also suggested. Check with your advisor for the best fit.

³ MM majors can complete two MM concentrations, but this does not replace the minor requirement.

Mass Media, Minor

Minor Requirements

The minor in Mass Media: A customizable minor can be developed in advertising & public relations, sport and event media, or contemporary journalism in consultation with a Mass Media adviser.

Students must complete:

Code	Title	Hours
MM 100	Introduction to Mass Media	3
One writing course (MM 202, MM 222, MM 416)		
One skills course (MM 199, MM 308, MM 311, MM 321)		
Additional 6 credit hours selected in consultation with a Department of Mass Media adviser.		
This minor consists of 15 credit hours, with 9 credits that must be completed at the upper level.		
Total Hours		15

Applied Media, Minor

Minor Requirements

The minor in Applied Media: Undergraduates with majors outside of Mass Media often pursue careers that require skills taught in Mass Media courses, such as crafting effective mediated messages, managing social media campaigns or shooting and editing videos. The minor in Applied Media allows students to gain knowledge about digital tools and acquire hands-on skills that they will use to pursue the requirements of careers in their chosen majors.

Students must complete 15 credit hours consisting of:

Code	Title	Hours
MM 100	Introduction to Mass Media	3
MM 199	Professional Media Applications	3
MM 202	Professional Media Writing	3
MM 321	Advanced Professional Media Applications	3
or MM 308	Intro Film & Video Techniques	
Additional three upper-division hours selected in consultation with a Department of Mass Media adviser.		3
Total Hours		15

Film and Video, Minor

Minor Requirements

The minor in Film and Video: A minor in film and video is available for students who wish to augment their visual story telling skills through a mix of preproduction, production and postproduction courses. Students emerge with hands-on skills that have a wide applicability to their main areas of study.

Students must complete a total of 15 credit hours consisting of:

Code	Title	Hours
MM 100	Introduction to Mass Media	3
MM 222	Screenwriting	3
MM 312	Cinematography	3
MM 372	Film Production	3
MM 405	Documentary Filmmaking	3
Total Hours		15

Students interested in this option should visit with a Department of Mass Media adviser.

Mathematics and Statistics

Department of Mathematics and Statistics

Faculty

Associate Professor Sarah Cook, PhD Chair
 Professor Janet Sharp, PhD
 Professor Jennifer Wagner, PhD
 Associate Professor Gaspar Porta, PhD
 Assistant Professor Guannan Hu, PhD
 Assistant Professor Kosman Rajapaksha, PhD
 Lecturer Todd Cooksey, MA
 Lecturer Angela Crumer, MS
 Lecturer Stephanie Herbst, MS
 Lecturer Beth McNamee, MA
 Math Lab Manager Jillian Kimzey, MA
 Math Success Coach Matthew Ellis, MS

Mission

The mission of the Department of Mathematics and Statistics is to ensure all mathematics majors obtain a comprehensive knowledge of mathematics in terms of content, problem solving, analytical skills, and abstract mathematical reasoning. All mathematics majors will be able to communicate their skills and knowledge effectively and will be able to make appropriate choices regarding the method of solution and presentation of problems. We are committed to providing high-quality instruction at all levels, in our developmental, lower division, General Education, and upper-division courses. Further, the department is committed to providing service to the community and our profession in a variety of ways, including a number of on-campus programs for grade 6-16 learners, professional consultations, involvement in professional organizations, and other outreach activities.

The Major

The Mathematics Department offers four specialties for mathematics majors: pure mathematics, actuarial science, applied statistics, and secondary education.

General Requirements

General requirements for the Bachelor degrees Bachelor of Arts, or the Bachelor of Science, Bachelor of Education are listed in the catalog. See pages listed in the index. Graphing calculators are required in all courses MA 116 College Algebra to MA 152 Calculus & Analytic Geometry II inclusive, and MA 253 Calculus/Analytic Geometry III.

Natural Science Concentration

All Bachelor of Science degrees include a required 30-hour natural science concentration, which includes courses chosen from departments in the Natural Sciences and Mathematics Division, other than the student's major department. At least 15 of these hours must be in one department. The 30 hours must be approved by the student's major department chairperson.

Natural Sciences Concentration courses for BS degrees offered by the Department of Mathematics and Statistics are limited to these courses:

- Computer Information Sciences: CM 105 Introduction to Computer Science or higher
- Biology: BI 100 Human Biology or higher
- Chemistry: CH 103 Introduction to Forensic Chemistry or higher
- Physics: PS 101 Physics in Everyday Life, PS 108 Physical Science, PS 120 Meteorology, or PS 261 College Physics I or higher.
- Astronomy: AS 101 Introduction to Astronomy/Cosmology or higher

Student Learning Outcomes

Student Learning Outcomes for each degree specialization are listed in their respective description.

Programs

- Actuarial Science Specialization, BA-BS (p. 178)
- Applied Statistics Specialization, BA-BS (p. 178)
- Mathematics, BA-BS (p. 179)
- Mathematics Secondary Education: Advanced Mathematics 6-12, BEd (p. 180)
- Applied Statistics, Minor (p. 179)
- Mathematics and Statistics, Minor (p. 180)

Course Offerings

MA 090 Preparation for Quantitative Reasoning Pathway (3)

Selected topics in pre-algebra, algebra, geometry and other areas designed to prepare students for quantitative reasoning and beyond. Not open to students with credit for MA 108 or above. Does not count towards degree credit hour requirements, nor general education requirements. Prerequisites: ACT English score of at least 18 or a C or better in EN 101 or EN 103

MA 095 Preparation for College Algebra Pathway (3)

Selected topics in pre-algebra, algebra, geometry and other areas designed to prepare students for college algebra and beyond. Not open to students with credit for MA 108 or above. Does not count towards degree credit hour requirements, nor general education requirements. Prerequisites: ACT English score of at least 18 or a C or better in EN 101 or EN 103

MA 108 College Algebra Preparation (3)

This course is the first of a two-semester College Algebra sequence. Topics covered include: factoring, equations (linear, quadratic, rational, absolute value, root, linear systems), functions (notation, domain), graphing (linear, quadratic, piece-wise), inequalities (linear, compound, absolute value), applications involving linear, quadratic, and rational equations. Not open to students with credit in MA 116, or any MA-designated course numbered above MA 116. Prerequisite: ACT Mathematics score of at least 18 or an equivalent background as determined by the Mathematics Department, for example, comparable score on Departmental Placement Exam, Accuplacer, or the Quantitative Section of the SAT.

MA 112 Contemporary College Mathematics (3)

This course will focus on the mathematical skills and knowledge required for quantitative literacy, so the topics of understanding numerical relationships, financial mathematics, probability, and data analysis and statistics will be addressed. Each academic year the course will adopt a theme such as the political endeavor, the environment, art and culture and will study the topics from the context of the theme. The course will be project-based and to the extent possible the projects will investigate contemporary issues related to the overarching course theme. In addition to demonstrating mastery of the mathematical content, students will be expected to demonstrate an ability to understand how to determine the appropriate representation of quantitative information and to effectively communicate their assumptions and analysis. This course is not intended to prepare students for calculus. Graphics calculator required. Prerequisite: A grade of A or B in MA 090 or an ACT mathematics score of at least 22 or an equivalent background as determined by the Mathematics Department, for example, comparable SAT, COMPASS, or ACCUPLACER score.

Course Attributes:

- Gen Ed AY 2024-2025: Math and Statistics
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

MA 116 College Algebra (3)

Equations (linear system, polynomial, rational, absolute value, root, exponential, logarithmic), functions (notation, combining, domain, inverse), graphing (linear, quadratic, polynomial, piece-wise, rational, exponential, logarithmic), inequalities (compound, absolute value, polynomial, rational), logarithmic expressions, applications involving various types of equations and/or systems of equations. Not open to students with credit in MA 117, MA 123, or any course numbered above MA 140. Prerequisite: A grade of A or B in MA 095 or an acceptable (as determined by the Mathematics Department) ACT mathematics score or SAT quantitative score or Compass or Accuplacer Mathematics Placement Test score.

Course Attributes:

- Gen Ed AY 2024-2025: Math and Statistics
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

MA 117 Trigonometry (3)

Trigonometric functions, their inverses, graphs, and identities. Solving trigonometric equations. A wide variety of applications, and appropriate use of technology. Graphics calculator required. Prerequisite: A grade of C or better in MA 116 or concurrent with MA 116 or an acceptable (as determined by the Mathematics Department) ACT mathematics score or SAT quantitative score or equivalent knowledge as determined by the Mathematics Department.

Course Attributes:

- Gen Ed AY 2024-2025: Math and Statistics
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

MA 123 Pre-Calculus (3)

Algebraic, exponential and trigonometric functions. Topics in plane analytic geometry. Designed for the student preparing for calculus. Not open to students with credit in MA 141 or MA 151. Prerequisite: A grade of "C" or better in MA 116 or MA 117 or an acceptable ACT mathematics score or SAT quantitative score or equivalent knowledge as determined by the Mathematics Department.

Course Attributes:

- Gen Ed AY 2024-2025: Math and Statistics
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

MA 131 Topics in Trigonometry and Introduction to Calculus (3)

Trigonometric functions, using right triangles and the unit circle. Trigonometric identities, sinusoidal graphs, and trigonometric applications, including periodic phenomena. Limits, continuity, rates of change, and the meanings of differentiation and integration. Not open to students with credit in MA 141 or MA 151. Prerequisites: MA 116 with a grade of "C" or better or an acceptable ACT mathematics score or SAT quantitative score or equivalent knowledge as determined by the Mathematics Department.

Course Attributes:

- Gen Ed AY 2024-2025: Math and Statistics
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

MA 140 Statistics (3)

Introduction to statistics and probability with practical applications. Descriptive techniques including graphical methods, linear regression, probability distributions, sampling distributions, confidence intervals, hypothesis tests. Graphics calculator required. Prerequisite: A grade of "C" or better in either MA 116 or MA 112 or, an acceptable ACT mathematics score or SAT quantitative score or Compass or Accuplacer Mathematics Placement score.

Course Attributes:

- Gen Ed AY 2024-2025: Math and Statistics
- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

MA 141 Applied Calculus I (3)

Definition and elementary properties of the derivative and definite integral with emphasis on the application of the derivative and integral to problems in business. Not open to students with credit in MA 151. Prerequisite: A grade of "C" or better in MA 116 or MA 123 or an acceptable ACT mathematics score or SAT quantitative score or equivalent knowledge as determined by the Mathematics Department.

Course Attributes:

- Gen Ed AY 2024-2025: Math and Statistics
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

MA 151 Calculus & Analytic Geometry I (5)

Differential and integral calculus of the elementary functions with applications. Prerequisite: A grade of "C" or better in MA 117 or MA 123 or an acceptable ACT mathematics score or SAT quantitative score or equivalent knowledge as determined by the Mathematics Department.

Course Attributes:

- Gen Ed AY 2024-2025: Math and Statistics
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

MA 152 Calculus & Analytic Geometry II (5)

A continuation of Mathematics 151. Topics in plane analytical geometry, techniques of integration with applications, and infinite series. Graphics calculator required. Prerequisite: A grade of C or better in MA 151.

MA 200 Number & Operation for Elementary Teachers (3)

Investigation of K-6 mathematical concepts and procedures for counting & cardinality, patterns & algebraic thinking, number systems, operation with whole numbers, fractions, decimals & integers. Significant emphasis on conceptual in-depth understanding of these mathematical topics and connecting concepts to a range of procedures for beginning teachers. Prerequisite: MA 112 or higher (or appropriate ACT or SAT quantitative score as determined by the Mathematics Department)

MA 201 Geometry, Proportion & Data Analysis for Elementary Teachers (3)

Investigation of K-6 mathematical concepts and procedures for geometry, measurement, proportional reasoning, and probability & statistics. Significant emphasis on conceptual in-depth understanding of these mathematical topics and connecting concepts to a range of procedures for beginning teachers. Prerequisite: MA 200 with a "C" or better.

MA 204 Number Theory and Discrete Math for Middle School Teachers (3)

Fundamental ideas of number theory, including divisors, factorization, and modular arithmetic. An introduction to discrete mathematics, including discrete structures, enumeration, logic, and applications. Prerequisite: A grade of "C" or better in MA 201 or concurrent.

MA 206 Discrete Mathematics for Computing (3)

Discrete mathematics topics useful in computer-aided problem solving. Topics will include Boolean algebra and computer logic, graphs and trees with algorithms, and analysis of algorithm complexity. Prerequisites: CM 111 and one of the following: A "C" or better in MA 116 or MA 123, or an acceptable (as determined by the Mathematics Department) ACT mathematics score or an acceptable SAT quantitative score, or equivalent knowledge as determined by the Mathematics Department.

MA 253 Calculus/Analytic Geometry III (3)

A continuation of Mathematics 152. Multivariable calculus, vectors in two and three-dimensional spaces. Graphics calculator required. Prerequisite: A grade of "C" or better in MA 152.

MA 260 Introduction to Number Theory (3)

Topics include properties of numbers (prime, composite, rational, irrational, transcendental), divisibility, congruences, Diophantine equations, and continued fractions. Prerequisites: MA 152 or concurrent.

MA 271 Contemporary Actuarial Concepts (1)

Current issues in Actuarial Mathematics with emphasis on the releases of the Society of Actuaries. Includes practical application to solving problems of the type included in the Society of Actuary's Course P. Prerequisite: MA 253.

MA 281 History of Early Mathematics (1)

Chronological development of early mathematics, with emphasis on the great mathematicians and the corresponding concrete & pictorial representations utilized during periods of discovery and invention. Topics include numeration systems and geometry. Focus on extending understandings from physical representations to abstract/formula representations for the mathematics of the time in history. Prerequisite: MA 116 or consent of instructor.

MA 299 Special Topics in Mathematics (1-6)

Directed study in some area of mathematics at the lower division level.

MA 301 Linear Algebra (3)

An introduction to the fundamental concepts and basic computational techniques of linear algebra. Topics investigated from both a theoretical and computational perspective include systems of linear equations, vector spaces, transformations, matrices, eigenvalues and eigenvectors, and orthogonality. Prerequisite: MA 152.

MA 307 Discrete Mathematics (3)

Logic, counting methods, induction, functions, equivalence, partial order, and congruence relations. Set up and solve recurrence relations problems. Graph theory and its applications. Significant emphasis on the format and method of mathematical proof. Prerequisites: MA 151 or MA 204 or MA 206, and PH 220 or consent of instructor.

MA 315 Seminar: Teaching Mathematics (1)

Practical applications of pedagogical techniques for teaching mathematics. Prerequisites: Concurrent with MA 316 or MA 317 or MA 318.

MA 316 Teaching Algebra (1)

Pedagogical knowledge needed for teaching algebra. Emphasis on fundamental ideas of algebra including algebraic notation; interpreting the structure of an expression in terms of its context; function families and representations; and patterns of change. Includes co-teaching an algebra-based course. Prerequisites: A grade of "C" or better in MA 151 and ED 275. A grade of "C" or better in MA 315 or taken concurrently with MA 315.

MA 317 Teaching Trigonometry (1)

Pedagogical knowledge needed for teaching trigonometry. Emphasis on fundamental ideas of trigonometry including right triangles, identities, application of periodic phenomena, and trig function families. Includes co-teaching a trigonometry-based course. Prerequisites: A grade of "C" or better in MA 151 and ED 275. A grade of "C" or better in MA 315 or taken concurrently with MA 315.

MA 318 Teaching Statistics (1)

Pedagogical knowledge needed for teaching statistics. Emphasis on fundamental ideas of statistics including variability, measures of central tendency, randomness, inference, and multiple representations. Includes co-teaching a statistics-based course. Prerequisites: C or better in MA 140, MA 151, and ED 275. A grade of "C" or better in MA 315 or taken concurrently with MA 315.

MA 320 Mathematics for Middle School Teachers (3)

The investigation of mathematical problems as a means to develop as practitioners of the discipline of mathematics. Problems rely on a wide range of math topics. The primary focus of the course is on developing expertise in doing mathematics. By solving problems, students gain expertise in reasoning, constructing arguments, modeling, using resources, being precise, noticing deep structures of problems & expressing those structures with appropriate mathematical language. Significant emphasis on conceptual understanding of mathematics, connecting concepts to a range of realistic problem situations and appropriate use of technology. Understand and develop mathematical arguments and be able to clearly communicate those arguments using multiple representations. Prerequisite: MA 201 or concurrent

MA 331 Differential Equations (3)

Methods for solving ordinary differential equations and systems of ordinary differential equations including Laplace transforms, series, numerical methods with applications. Prerequisite: MA 253 or concurrent.

MA 340 ANOVA/Design of Experiments (3)

An introduction to the design and analysis of experiments, both single and multi-factor. Analysis of variance, both fixed effects and random effects. Topics will include Randomized Complete Block Design, the Latin Square Design, Incomplete Block Designs, Nested Designs, and the Split-Plot Design. Prerequisite: A 'C' or better in MA 140 Statistics.

MA 341 Nonparametric Tests/Quality Control (3)

An introduction to nonparametric statistical procedures including signed-rank tests, sign tests, rank and rank sum tests, along with an introduction to the use of statistical methods for the purpose of quality control, including control charts for variables, control charts for attributes, the analysis of process capability, and acceptance sampling. Prerequisite: A "C" or better in MA 140 Statistics.

MA 342 Statistical Computing (3)

An introduction to the statistical software packages SAS and R that includes basic commands and the structure, as well as data entry and manipulation, creating graphs and plots, simulation, bootstrapping, and introductory level programming. Prerequisite: A "C" or better in MA 140 Statistics.

MA 344 Mathematical Statistics I (3)

Probability, random variables and expectation, conditional distributions and stochastic independence, distributions of functions of random variables. Prerequisites: MA 253 or concurrent, and one of MA 340, MA 341 or MA 346.

MA 345 Mathematical Statistics II (3)

An introduction to the theoretical framework of statistical methods including: point and interval estimators, large and small sample theories, hypothesis testing methods, linear statistical models with emphasis on regression and correlation, non-parametric testing methods, brief introduction to Bayesian methods for statistical inference. Prerequisite: MA 344.

MA 346 Regression Analysis (3)

Linear regression and correlation concepts and methods, multiple regression, curvilinear regression, applications including use of statistical software. Prerequisite: MA 140 or consent of course instructor.

MA 347 Stochastic Processes (3)

Generating functions, normal processes and covariance stationary processes, Poisson processes, renewal processes, Markov chains, discrete time processes. Prerequisite: MA 344.

MA 348 Time Series Analysis (3)

Regression models with time series error, autocorrelation function, spectral density, autoregressive and moving average processes, and seasonal time series; applications including use of statistical software. Prerequisites: MA 344 and MA 346.

MA 349 Statistical Topics for Actuarial Science (1)

Emphasis on topics in probability and statistics of special importance to actuarial science students. Prerequisites: MA 140 or consent of course instructor.

MA 354 Abstract Algebra (3)

An introduction to abstract algebraic structures and their substructures. Emphasis on groups (including symmetry groups, cyclic groups, and permutation groups), with rings and fields as time allows. Prerequisites: MA 253 and MA 307, or consent of the instructor.

MA 361 Game Design (3)

This course offers students the necessary background to design games on their own, including an introduction to the history of game design in the last 150 years. Students are then guided through an exploration of individual game mechanics which are frequently used in highly successful games. During these explorations the game mechanics are deconstructed to understand their structure using elementary mathematical tools, techniques, and language. While making these connections and observations, students are guided through isolated examples on how to integrate these into a game design. The course culminates with a final project in the form of an original game design of the students' own making – either analogue (physical) or digital. Prerequisite: A grade of "C" or better in MA 112 or MA 116, or consent of instructor.

MA 367 Modern Geometry (3)

This course will focus on the study of geometry as an axiomatic system. Emphasis will be placed on conjecture, proof and construction utilizing both classical tools as well as appropriate technology. Geometries investigated will include Euclidean, affine, projective, hyperbolic, and elliptical. A variety of approaches (synthetic, analytical and transformation) will be used to investigate the geometries. Prerequisite: MA 151.

MA 371 Introduction to Real Analysis I (3)

Sets and functions, properties of the real number system, sequences, limits of functions and continuity of functions. Prerequisites: MA 253 and MA 307, or consent of the instructor.

MA 372 Introduction to Real Analysis II (3)

Continuity, differentiation, the Riemann integral, sequences of functions, and infinite series. Prerequisite: MA 371.

MA 380 Problem Solving Strategies (1)

Weekly problem sets require a wide variety of techniques to achieve solutions to the problems. Problem solutions may feature one or more techniques from calculus, linear algebra, discrete mathematics, statistics, geometry, and other areas. The course is repeatable up to three times. Prerequisite: A grade of "C" or better in MA 152, or consent of the instructor.

MA 381 History of Mathematics (3)

Chronological development of mathematics, with emphasis on the great mathematicians and the corresponding concrete & pictorial representations utilized during periods of discovery and invention. Topics include numeration systems, algebra, geometry, measurement, probability, and statistics. Focus on extending understandings from physical representations to abstract/formula representations for the mathematics of the time in history... Prerequisite: MA 116 or consent of instructor.

MA 384 Theory of Interest (3)

Topics include measure of interest (emphasis on continuous nature), accumulated and present value factors, annuities, yield rates, sinking funds, and bonds and related securities. Prerequisite: MA 152 or concurrent.

MA 385 Actuarial Mathematics (3)

Theory and application of contingency mathematics in the area of life and health insurance, annuities and sections from both the probabilistic and deterministic approaches. Prerequisites: MA 344, MA 384 or consent of instructor.

MA 388 Capstone Research (1)

Students must complete an individual semester project on a topic in the mathematical sciences under the guidance of one or more faculty from the department. The project serves as a culminating experience for Bachelor's degree students, requiring both a written and an oral component. A minimum of two hours of MA 380 Problem Solving Strategies are required unless permission is granted by the department Chair. Prerequisites: MA 151, MA 152, MA 253, MA 301, a minimum of two hours of MA 380; and, a total of 19 or more hours in mathematics/statistics (MA 151 or above), at least 6 hours of which must have been completed at Washburn University; and, consent of the instructor. Students must have junior or senior standing to enroll in this course.

MA 390 Seminar (1-3)

Directed study in some advanced area. Prerequisite: Consent of instructor.

MA 400 Internship in Mathematics or Statistics (1-6)

A work experience in the area of mathematics and/or statistics performed in cooperation with a business, industrial, medical or educational institution. The internship study must provide a learning experience in the applications of mathematics or statistics. Prerequisite: Consent of Department Chair.

MA 450 Topics in Mathematics (1-6)

Directed study in some area of mathematics at the graduate level. Prerequisite: Consent of instructor.

Actuarial Science Specialization, BA-BS

Student Learning Outcomes

- Students will solve a variety of problems in mathematics including calculus, probability and statistics, and linear algebra.
- Students will write mathematical proofs and solve challenging problems both pure and applied.
- Students will communicate mathematics and statistical results both orally and in writing.
- Students will identify and utilize the appropriate practices and tools, including the use of technology, to solve mathematics problems and perform statistical modeling and analysis of data.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Arts (p. 73) or Bachelor of Science (p. 75) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Code	Title	Hours
Required Courses Inside Department		
MA 151	Calculus & Analytic Geometry I	5

CM 111	Introduction to Structured Programming	
CM 203	Digital Forensics I	

CM 245	Contemporary Programming Methods
CM 303	Digital Forensics II
Sequence 4 (This puts students on track to obtain an Economics Minor)	
EC 200	Principles of Microeconomics
EC 201	Principles of Macroeconomics
EC 3XX	6 credit hours of 300-level Economics courses
Sequence 5 (This puts student on track to obtain a Business Data Analytics Minor)	
EC 211	Statistics for Business and Economics
BU 258	Foundations of Data Analysis
BU 250	Management Information Systems
DA 348	Data Discovery and Management
Sequence 6 (This puts student on a track to obtain a Game Design Minor)	
EC 200	Principles of Microeconomics
BU 260	Business Plan Development
EC 306	Game Theory and Applications
CM 390	Special Topics/Computer Information Science (Game Programming)
Subtotal	12-13
Total Hours	55-56

¹ MA 380 is a 1 credit course that must be taken at least twice.

Mathematics and Statistics, Minor

Minor Requirements

Students who exercise the optional minor in mathematics and statistics will fulfill the fifteen hour requirement by taking the following courses:

Code	Title	Hours
Required Courses Inside Department		
MA 151	Calculus & Analytic Geometry I	5
MA 307	Discrete Mathematics	3
Select at least one of the following:		3
MA 301	Linear Algebra	
MA 331	Differential Equations	
MA 344	Mathematical Statistics I	
MA 354	Abstract Algebra	
MA 371	Introduction to Real Analysis I	
To complete the 15 credit-hour minor, select remaining credits from the following:		4
MA 152	Calculus & Analytic Geometry II	
MA 253	Calculus/Analytic Geometry III	
MA 301	Linear Algebra	
MA 331	Differential Equations	
MA 344	Mathematical Statistics I	
MA 354	Abstract Algebra	
MA 367	Modern Geometry	
MA 371	Introduction to Real Analysis I	

MA 380	Problem Solving Strategies
Total Hours	15

Mathematics Secondary Education: Advanced Mathematics 6-12, BEd

Student Learning Outcomes

- Students will solve a variety of problems in mathematics including calculus, probability and statistics, algebra, and geometry.
- Students will write mathematical proofs and solve challenging problems both pure and applied.
- Students will communicate mathematics both orally and in writing.
- Students will identify and utilize the appropriate practices and tools, including the use of technology, to solve mathematics problems.
- Students will apply appropriate mathematical practices and tools, including the use of technology, to teaching mathematical concepts, thinking, and content appropriate for secondary students.
- Students will work collaboratively and persistently with peers to solve mathematics problems to develop learner-centered instruction.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Education (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Students seeking certification to teach mathematics must also be formally admitted to the University's Professional Teacher Education (p. 291) Programs.

Modern Languages

Department of Modern Languages

Website: <https://www.washburn.edu/academics/college-schools/arts-sciences/departments/modern-foreign-languages/index.html>
(<https://www.washburn.edu/academics/college-schools/arts-sciences/departments/modern-foreign-languages/>)

Faculty

Professor Miguel González-Abellás (SP), PhD, Chair
Professor Courtney Sullivan (FR), PhD
Associate Professor Michael O'Brien (SP), PhD
Senior Lecturer Georgina Tenny (SP), MA
Senior Lecturer Kelly McClendon (IE), MA
Lecturer Hélène Perriguet-Keene (FR/SP), MA

Mission

Consistent with the mission of the University, the Department of Modern Languages serves as the main source for studying world cultures in their own languages, thus preparing students to communicate in other languages and be knowledgeable about other cultures, so they can compare and connect their culture to others and become engaged citizens in the global community.

Faculty members and language instructors, trained in humanities and linguistics studies, strive to share their knowledge and understanding of diverse cultures. The department collaborates with many other units, such as Music, History, Business, Education, and the Honors program to offer a vast array of opportunities to students wanting to bridge discipline boundaries. Through study abroad programs, and service opportunities at the local and international level, the department continues to support the mission of the university in developing skilled and informed global citizens.

The department offers a minor in International Studies; majors and minors in French and Spanish; collaborates with the School of Business in their minor in International Business; and also offers a minor with the History Department in Latin American and Latina/o Studies. It also maintains course offerings in other languages, such as Latin and Japanese, when available.

Thus, the Department aims to serve students who:

- Major or minor in a foreign modern language;
- Must fulfill the foreign language proficiency requirement (BA degree);
- Wish to combine foreign language with a professional program;
- Plan to teach; and
- Plan to go on to graduate school.

Student Learning Outcomes

Modern Languages students at Washburn University, upon graduation, are expected to:

- Demonstrate the ability to understand, interpret, discuss, and explain a wide variety of written and oral communications in the target language.
- Illustrate the ability to use with accuracy the grammar, syntax, basic vocabulary and idioms of the target language and compare these usages with English.

- Demonstrate an understanding of the institutions, history, social practices, and artistic and literary tradition(s) of the countries and culture(s) in which the language is spoken in their socio-historical background and/or their cultural significance.
- Demonstrate a functional knowledge of the strategies for independent and continuing learning of the target language.

Placement

Students beginning the study of a modern language who have had no more than 1 to 2 years in high school should enroll in the 101 level. Those who have had 2 years of recent high school modern language instruction with a minimum grade of B are eligible to enroll in a 102 level class. Students with 3 to 4 years of recent high school language with a minimum grade of B may enroll at the 201 level.

On the basis of examination scores and consultation with the student, the department may grant 0, 4 or 8 credit hours for the CEEB Advanced Placement program. Students should request that their examination scores be forwarded to the department chair.

If a student qualifies to enroll at a level higher than the 101, he or she can receive credit for the previous class(es) by departmental examination. In order to do that, the student needs to discuss with the chair or the corresponding faculty member which course(s) he/she wants to challenge, and then follow the procedure mentioned in the Credit by Examination section of this catalog. For example, if a student enrolls in FR 201 Intermediate French I, he/she can receive credit for FR 101 Beginning French I and FR 102 Beginning French II (8 hours in total) by departmental examination.

Rules excluding freshmen and sophomores from junior-senior courses (numbered 300 and above) do not apply if the student's preparation warrants placement at the upper division level.

Study Abroad Opportunities

The department offers summer, semester or academic year direct exchange programs in France at the University of Clermont Auvergne in Clermont-Ferrand, in Spain at the University of Cantabria in Santander and at the University of Santiago de Compostela, and in Mexico at the University of Guanajuato, and the University of Monterrey (Magellan Exchange), and in Paraguay at the Universidad Nacional and the Universidad Católica, both in the capital city, Asuncion. Substantial scholarships are available for language majors and minors with a 3.0 GPA.

The Major

Students who plan to major in any of the modern languages offered in the department are encouraged to begin their language studies as soon as they enter Washburn University, and should continue to enroll in at least one language course each semester until graduation. Learning another language is a cumulative process and any period of time away from the language is highly detrimental to developing and maintaining necessary skills in the language. The department also strongly recommends study for a period of time in a country where the language is spoken (a summer or a semester) as a component of the student's preparation for the major. Substantial scholarships for study abroad are available each year from the department and Study Abroad. For more information, visit the Study Abroad (p. 62) website.

Programs

- French, BA (p. 186)
- Spanish, BA (p. 186)
- French, BA (Teaching Emphasis) (p. 187)
- Spanish, BA (Teaching Emphasis) (p. 187)
- Foreign Language Licensure P-12 (p. 188)
- French or Spanish, Minor (p. 188)
- International Business, Minor (p. 188)
- International Studies, Minor (p. 189)
- Latin American and Latina/o Studies, Minor (p. 189)
- Intensive English (p. 190)

Course Offerings

French

FR 101 Beginning French I (4)

Introduction to conversation, reading, grammar, and composition. Development of oral/aural skills. Particular emphasis on contemporary culture and social customs in the French-speaking countries. An audiovisual program to develop phonological skills is a component of this course. Offered fall semester only. No prerequisite.

FR 102 Beginning French II (4)

Continuation of French 101. Offered spring semester only. Prerequisite: FR 101 or two years of high school French, or consent of instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

FR 201 Intermediate French I (3)

This course is intended as reinforcement of the 5 skills learned in FR 102: speaking, listening, reading, writing and culture. Offered fall semester only. Prerequisite: FR 102 or 3 years of high school French with B or better.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

FR 202 Intermediate French II (3)

This course is the continuation of FR 201. Offered spring semester only. Prerequisite: FR 201 or consent of the instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

FR 207 French Conversation (3)

Vocabulary expansion, stressing everyday practical usage. Development of oral/aural skills in conversations on cross-cultural topics. Stress on traditions and current political/social developments in French-speaking countries. Use of magazines, newspapers, and other topical materials as basis for conversation. Prerequisite: FR 202 or three years of high school French, or consent of instructor.

FR 274 Independent Study (1-3)

Directed study. May be repeated. Prerequisite: Consent of instructor.

FR 290 Study Abroad French Speaking Country (1-15)

Students who are planning to study in a French speaking country should enroll under this number after consultation with their major advisor. Prerequisite: 1st year university-level French (FR 101/FR 102) or equivalent.

FR 295 Faculty Led Program French Speaking Country (1-6)

Students who plan to study French in a French speaking country in a program led by a faculty member at Washburn should enroll in this class. Prerequisite: Consent of Faculty Group Leader.

FR 307 Contemporary French Civilization (3)

This course is an introduction to contemporary France. We will study France through its regions, its politics, and its relations with Europe and the United States. We will look at the different institutions that participate in the construction of identities in France, as well as moments when individuals or groups "disidentify" with the nation. THIS COURSE IS TAUGHT IN ENGLISH. French majors may enroll in this course and use it as an elective if they do not have FR 308 and FR 309.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

FR 308 French Literature in Translation (3)

This course introduces students to some of the most important French speaking thinkers (writers, poets, and film directors). An emphasis on historical and cultural context will provide students with a better understanding of literary texts and culture. Each course is organized around one theme or question subject to change. Students will enhance their skill of analyzing narrative [literature, films] and gain an understanding of historical and cultural aspects in the modern French-speaking world. Students will work on producing good academic prose, clear and concise essays on novels, plays, poems, films and/or theoretical works studied in class. Selected films in French will be shown with English subtitles. Class will be conducted in English and it is only valid for the major in the language as a correlated course. Prerequisite: Sophomore Standing or Consent of Instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

FR 309 French Fiction and Films (3)

This class is taught in English and is intended for students who have an interest in French literature and French cinema. This course will include films which are adopted from novels or short stories and students will examine the influence of literature on films. The texts will be translated from the French and the films will be subtitled. No knowledge of French is necessary. French majors may enroll in this course and use it as an elective if they do not have FR 307 and FR 308.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

FR 311 French Grammar Review (3)

Comprehensive review of French Grammar with emphasis on the development of free composition. Stress on grammatical accuracy, clarity, and the appropriate use of idioms and syntax. Offered fall semester only. Prerequisite: FR 202 or consent of the instructor.

FR 312 French Composition (3)

Development of grammatical accuracy and proficiency in composition. Use of readings to illustrate grammatical points and form the basis for composition and discussion. Offered spring semester only. Prerequisite: FR 311 or consent of the instructor.

FR 315 Translation (3)

French-English and English-French translation of a variety of texts. Focus on techniques of translation and improving French grammar, syntax and idioms. Prerequisite: FR 312 or consent of instructor.

FR 324 French Civilization (3)

A systematic study of France from its beginning to the present from a historical and social perspective. Prerequisite: FR 312 or consent of instructor

FR 326 La France Contemporaine (3)

Readings from contemporary sources, including magazines and newspapers for discussion and composition. Prerequisite: FR 312 or consent of instructor.

FR 331 Introduction to French Literature (3)

Analysis of selected texts from various genres, poetry, theatre and novels. Emphasis on Explication de textes. Prerequisite: FR 312 or consent of instructor.

FR 351 French and Francophone Literature (3)

FR 351 introduces students to a sampling of chefs-d'oeuvre of literature from France and the Francophone world. In this survey course, we study French literature from its beginnings as a Romance language and its development during the Middle Ages up to the present. We analyze selected texts of canonical literature from various genres, including poetry, plays, novels, and short stories. Some of the texts will be read in their entirety, some in excerpts. We will study these literary texts in relation to literary, social, political, and economic trends and the historical changes that shape these trends. Prerequisite: FR 312 or consent of instructor.

FR 374 Independent Study (1-3)

Directed study. May be repeated. Prerequisite: Consent of instructor.

FR 390 Study Abroad French Speaking Country (1-15)

Students who are planning to study in a French speaking country should enroll under this number after consultation with their major advisor. Prerequisite: 2nd year university-level French (FR 201/FR 202) or equivalent.

FR 395 Faculty Led Program French Speaking Country (1-6)

Students who plan to study French in a French speaking country in a program led by a faculty member at Washburn should enroll in this class. Prerequisite: Consent of Faculty Group Leader.

FR 399 Special Topics/French (3)

Study of individual authors or literary topics. May be repeated. See chairperson and/or schedule for current offerings. Prerequisite: Consent of instructor.

FR 400 Senior Thesis (3-6)

A major research project culminating in a thesis which deals with a literary topic, or other topics as approved by the thesis director. May be presented to the departmental faculty for consideration for departmental honors. Prerequisite: Senior standing.

Spanish

SP 101 Beginning Spanish I (4)

Introduction to conversation, reading, grammar, and composition. Development of oral/aural skills. Particular emphasis on contemporary culture and social customs in the Spanish-speaking world. An audiovisual program to develop phonological skills is a component of this course. No prerequisite.

SP 102 Beginning Spanish II (4)

Continuation of Spanish 101. Prerequisite: SP 101 or two years of high school Spanish, or consent of instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

SP 201 Intermediate Spanish I (3)

This course is intended as reinforcement of the 5 skills learned in SP 102: speaking, listening, reading, writing and culture. Offered fall semester only. Prerequisite: SP 102 or 3 years of high school Spanish with B or better.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

SP 202 Intermediate Spanish II (3)

This course is the continuation of SP 201. Offered spring semester only. Prerequisite: SP 201 or consent of the instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

SP 207 Basic Spanish Conversation (3)

Development of oral skills with emphasis on practical vocabulary. Use of magazines, newspapers, and other topical materials as basis for conversation. Offered fall semester only. Prerequisite: SP 202 or two years of high school Spanish, or consent of instructor.

SP 240 Spanish for Heritage Speakers (3)

This is a course designed for heritage speakers of Spanish, that is, those individuals with oral proficiency but no formal training in the language. In this course we build on the language skills these student possess, focusing on developing their vocabulary, writing skills, and grammar accuracy through activities related to the Latino communities in the U.S. and the Hispanic world. Prerequisite: Heritage speaker (consult with the instructor).

SP 274 Independent Study (1-3)

Directed study. May be repeated. Prerequisite: Consent of instructor.

SP 290 Study Abroad Spanish Speaking Country (1-15)

Students who are planning to study in a Spanish speaking country should enroll under this number after consultation with their major advisor. Prerequisite: 1 year of university-level Spanish (SP 101/SP 102) or equivalent.

SP 295 Faculty Led Program Spanish Speaking Country (0-6)

Students who plan to study Spanish in a Spanish speaking country in a program led by a faculty member at Washburn should enroll in this class. Prerequisite: Consent of Faculty Group Leader.

SP 307 Contemporary Hispanic Culture (3)

This course explores the diversity and complexity of the Spanish-speaking world through its geography, history, politics, and cultural manifestations. Through the study of different media, the course examines how culture interprets and shapes the identity of Hispanic countries. THIS COURSE IS TAUGHT IN ENGLISH. Spanish majors may enroll in this course and use it as an elective if not counting SP 308. Prerequisite: Sophomore status.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

SP 308 Hispanic Narrative in Translation (3)

This course introduces students to some of the most important Hispanic speaking thinkers (writers, poets, and film directors). An emphasis on the historical and cultural context will provide students with a better understanding of literary texts and culture. Each course is organized around one theme or question subject to change. Students will enhance their skill of analyzing narrative [literature, films] and gain an understanding of historical and cultural aspects in the modern Spanish-speaking world. Students will work on producing good academic prose, clear and concise essays on novels, plays, poems, films and/or theoretical works studied in class. Selected films in Spanish will be shown with English subtitles. Class will be conducted in English and it is only valid for the major in the language as a correlated course. Prerequisite: Sophomore Standing or Consent of Instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

SP 311 Spanish Grammar Review (3)

Comprehensive review of Spanish grammar with emphasis on the development of free composition. Grammatical accuracy, clarity, and the appropriate use of idioms and syntax are stressed. Offered fall semester only. Prerequisite: SP 202 or consent of instructor.

SP 312 Spanish Composition (3)

Development of grammatical accuracy and proficiency in composition. Use of readings to illustrate grammatical points and form the basis for composition and discussion. Offered spring semester only. Prerequisite: SP 311 or consent of instructor.

SP 315 Translation (3)

Spanish-English and English-Spanish translation of a variety of texts. Focus on techniques of translation and improving Spanish grammar, syntax and idioms. Prerequisite: SP 311 or consent of instructor.

SP 324 Civilization of Spain (3)

Oral and written treatment of geography, history, art, economy, and customs in order to understand present conditions in this country. Use of multimedia resources. Prerequisite: SP 312 or consent of instructor.

SP 326 Civilization of Latin America (3)

Oral and written treatment of geography, history, art, economy, and customs in order to understand present conditions in this area of the world. Use of multimedia resources. Prerequisite: SP 312 or consent of instructor.

SP 331 Introduction to Hispanic Literature (3)

Intensive readings in modern Hispanic literature to give students critical methods for dealing with Hispanic literary genres. Prerequisite: SP 312 or consent of instructor.

SP 351 Spanish Literature (3)

SP 351 is an introduction to the world of Spanish Peninsular literature, from its origins in the Middle Ages to the present. The course has two main objectives: On the one hand it presents the necessary elements so that the student can understand and analyze a literary work, and on the other, to present the student with a series of works, generally from the established canon, of different genres. Prerequisite: SP 312 or consent of instructor.

SP 371 Latin American Literature (3)

This is a survey course of Latin American literature from its beginnings to the present. The course offers a general view of the history and literary movements of literature in this region of the world, along with readings and discussion of unabridged novels, short stories, poems and plays by Latin American authors from pre-Hispanic times to the present. Prerequisite: SP 312 or consent of the instructor.

SP 374 Independent Study (1-3)

Directed study. May be repeated. Prerequisite: Consent of instructor.

SP 380 Hispanic Culture thru Film (3)

This course is an introductory survey of the history of Hispanic film, and how film reflects and shapes Hispanic history, culture, and society. The course can focus on a particular Spanish-speaking country. Special attention will be paid to the study of significant movies, stars and directors, as well as the basics of critical language needed to talk and write about a film. Prerequisite: SP 312 or consent of instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

SP 390 Study Abroad Spanish Speaking Country (1-15)

Students who are planning to study in a Spanish speaking country should enroll under this number after consultation with their major advisor. Prerequisite: 2nd year of university-level Spanish (SP 201/SP 202) or equivalent.

SP 395 Faculty Led Program Spanish Speaking Country (0-6)

Students who plan to study Spanish in a Spanish speaking country in a program led by a faculty member at Washburn should enroll in this class. Prerequisite: Consent of Faculty Group Leader.

SP 399 Special Topics/Spanish (3)

Study of individual authors or literary topics. May be repeated. See chairperson and/or schedule for current offerings. Prerequisite: Consent of instructor.

SP 400 Senior Thesis (3-6)

A major research project culminating in a thesis which deals with a literary topic, or other topics as approved by the thesis director. May be presented to the departmental faculty for consideration for departmental honors. Prerequisite: Senior standing.

Foreign Languages (Non-major and FL Courses)**FL 100 Specified Topics (2-4)**

Custom designed curriculum for elementary-level training in foreign language.

FL 101 Beginning Foreign Language I (4)

Introduction to conversation, reading, grammar and composition in foreign languages not regularly offered. Development of aural/oral skills and emphasis on contemporary culture and social customs of the language area.

FL 102 Beginning Foreign Language II (4)

Continuation of FL 101. Prerequisite: FL 101 or consent of instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

FL 190 Study Abroad in a Non-Program Language (1-12)

Students who are planning to study abroad in a country whose language is not offered in a Washburn University program must use this course to transfer their credits.

FL 200 Specified Topics/Foreign Language (3)

Continuation in the specified topic of FL 100. Prerequisite: FL 100.

FL 201 Intermediate Foreign Language I (3)

This course is intended as reinforcement of the 5 skills learned in FL 102: speaking, listening, reading, writing, and culture. This course is the continuation of FL 102.

Course Attribute: Gen Ed AY 2024-2025: Arts and Humanities

FL 202 Intermediate Foreign Language II (3)

This course is the continuation of FL 201.

Course Attribute: Gen Ed AY 2024-2025: Arts and Humanities

FL 207 Conversation (3)

Vocabulary expansion, stressing everyday practical usage. Development of oral/aural skills on cross-cultural topics. Stress on tradition and current political/social developments. May be repeated for credit when the language studied is different. Prerequisite: Consent of Instructor.

FL 209 Reading & Conversation (3)

Development of oral/aural proficiency through the reading of short literary works as a basis for discussion. Comparison between materials read and life patterns in order to understand a different cultural heritage. May be repeated for credit when the language studied is different. Prerequisite: FL 207

FL 290 Study Abroad in a Non-Program Language (1-12)

Students who are planning to study abroad in a country whose language is not offered in a Washburn University program must use this course to transfer their credits back. Prerequisite: 1st year of college level coursework in the target language.

FL 399 Spec. Tpcs in Frgn Lit/Clt (3)

FL399 Special Topics in Foreign Literature or culture: Study of individual authors, literary and/or cultural topics. May be repeated. Prerequisite: Consent of instructor.

Japanese

JP 101 Beginning Japanese I (4)

Introduction to conversation, reading, writing, grammar and composition. Development of oral/aural skills. Particular emphasis on contemporary culture and social customs in Japan. A CD Rom program to develop phonological skills is a component of this course. Offered fall semester only. No prerequisite.

JP 102 Beginning Japanese II (4)

Continuation of Japanese I. Offered spring semester only. Prerequisite: JP 101 or consent of instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

JP 201 Intermediate Japanese I (3)

This course is intended as reinforcement of the 5 skills learned in JP 102: speaking, listening, reading, writing and culture. This course is the continuation of JP 102.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

JP 202 Intermediate Japanese II (3)

This course is a continuation of JP 201.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

German

GE 101 Beginning German I (4)

Introduction to conversation, reading, grammar, and composition. Development of oral/aural skills. Particular emphasis on contemporary culture and social customs in the German-speaking countries. An audiovisual program to develop phonological skills is a component of this course. Offered fall semester only. No prerequisite.

GE 102 Beginning German II (4)

Continuation of German 101. Offered spring semester only. Prerequisite: GE 101 or two years of high school German, or consent of instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

French, BA

All majors are required to present a portfolio upon graduation. The portfolio will contain three significant papers and a video recorded public presentation in front of professors.

Three significant papers: One of the essays must be the senior thesis, the other from the literature requirement (FR 331 Introduction to French

Literature) and the third one preferably from a cultural course, either on campus or taken abroad. If that's not possible, discuss with the advisor what essay should be included.

The student will give an oral presentation of the senior thesis, not to exceed 15 minutes, summarizing what's in the thesis. The student may use as much or as little technology as he/she wishes, keeping in mind that the presentation may **not** be read; it should be delivered in a comfortable, yet professional manner. The presentation will be recorded. After the presentation, there will be a question and answer session by faculty members present.

Transfer students and students desiring validation of foreign language competencies for teaching certification normally must take a minimum of 6 hours in the target language at the 300-level at Washburn.

Students whose native language is one of those taught by the department may not enroll in or challenge 100-level courses by examination.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

All French (BA) majors must also complete a complementary minor, certificate, or additional major; students must declare this with the department that grants it.

Code	Title	Hours
Required Courses Inside Department		
FR 311	French Grammar Review	3
FR 312	French Composition	3
FR 331	Introduction to French Literature	3
FR 400	Senior Thesis	3-6
FR 3XX	French Upper Division Courses	6
FR XXX	French Electives ¹	9-12
Total Hours		30

¹ Students must complete the appropriate amount of French courses beyond FR 101 to equal 30 total hours of French courses. Selection of courses should be discussed with student's academic advisor.

Spanish, BA

All majors are required to present a portfolio upon graduation. The portfolio will contain three significant papers and a video recorded public presentation in front of professors.

Three significant papers: One of the essays must be the senior thesis, the other from the literature requirement (SP 331 Introduction to Hispanic Literature) and the third one preferably from a cultural course, either on campus or taken abroad. If that's not possible, discuss with the advisor what essay should be included.

French, BA (Teaching Emphasis)

Students must complete the appropriate amount of French courses beyond FR 101 to equal 30 total hours of French courses. Selection of courses should be discussed with student's academic advisor. The department regularly prepares students to meet state licensure requirements for teaching grades P-12. In addition to the usual requirements for the BA in French, all students planning to teach must take FR 324 French Civilization, FR 326 La France Contemporaine, and ED 368 Methods of Teaching Foreign Language or equivalent course in ED. Students must also be formally admitted to the University's Professional Teacher Education Program and fulfill that program's requirements. For admission requirements, see the Education (p. 290) section in this catalog.

French or Spanish, Minor

A minor in French or Spanish requires at least 18 hours of course work beginning with FR/SP102, with at least 6 credit hours at the upper division level. Check with your advisor for further details.

International Business, Minor

The Minor in International Business provides students with the opportunity to gain an understanding of the special considerations and implications of operating a business in a global environment. Students completing the minor will have an introduction to the basic economics, management, and marketing principles as applied by business today. Students will be exposed to the language and operation of business in a multinational and national environment.

Minor Requirements

The Minor in International Business provides students with the opportunity to gain an understanding of the special considerations and implications of operating a business in a global environment. Students completing the minor will have an introduction to the basic economics, management, and marketing principles as applied by business today. Students will be exposed to the language and operation of business in a multinational and national environment. For more information, see the School of Business (p. 319) section of this catalog.

Required business and economics courses include:

Code	Title	Hours
BU 101	Introduction to Business ¹	3
EC 200	Principles of Microeconomics	3
EC 201	Principles of Macroeconomics	3
BU 355	International Business	3
BU 368	International Marketing	3
EC 410	International Economics	3
Cross-cultural course approved by the International Business Advisor		3
Select one of the following:		3-6
BU 406	International Business and Entrepreneurial Experience	
University-approved study abroad or an international internship ²		
Six credit hours of course work in one of the modern foreign languages at the intermediate level or above		
Total Hours		24-27

¹ AC 224 Financial Accounting and AC 225 Managerial Accounting may be substituted for BU 101 Introduction to Business for the purpose of this minor.

² Credits earned from the study abroad may be counted to fulfill other university program requirements.

A grade of C or better must be earned in each course used to satisfy the requirements for the minor. Half of the hours used to satisfy these course requirements must be earned at Washburn University.

For further information, please contact the Office of the Dean, School of Business.

International Studies, Minor

Minor Requirements

The curriculum for the Minor in International Studies consists of three components: a foreign language, study abroad and course work. The specific requirements are as follows:

Modern Language Requirement

A minimum of 9 credit hours of a modern language beyond the 100 level, or demonstrate proficiency in a language other than English at the advanced level (e.g., living and studying in another language through high school). International students educated in their countries through high school in a language other than English will meet this requirement with their courses in English at Washburn.

Study Abroad Requirement

Participation in at least a summer long study abroad program (four weeks minimum) in the country of the language studied. For international students, enrollment in at least 12 hours for a full semester at Washburn will meet this requirement.

Course Work Requirement

A minimum of 12 hours of course work chosen from the following collaborative departments: English, History, Art, Political Science, Religion, Philosophy, Anthropology and Sociology, Mass Media and the School of Business. The courses identified should focus on international topics. They should be chosen in consultation with an advisor in the Department of Modern Languages.

Latin American and Latina/o Studies, Minor

Description

This minor is constructed around the premise that broader understanding issues that face Latin America and the Latina/o population today is crucial in the global community. The minor is also constructed around the second premise that nations do not exist in isolation. Interaction and interdependence shaped nations in the Western hemisphere in the past, do so in the present, and will continue to do so in the future.

To obtain the optional minor students will complete at least 18 credit hours of coursework. In addition to six credit hours of required coursework, students must complete at least 12 credit hours of elective courses from at least two disciplines. A student will not be able to take more than six elective credits in a single discipline. Some courses require completion of prerequisites. The advisor will serve in the role of department chair to certify that a student has successfully met the requirements for this optional minor.

Student Learning Outcomes

Latin American and Latina/o Studies minors, upon graduation from Washburn University, are expected to have:

- Acquired an intermediate fluency in Spanish, written, reading and speaking.
- Acquired a basic understanding of the history of the relationships between nations in the American hemisphere.

- Acquired knowledge of cultural and ethnic relationships, economics, literature, and environmental issues pertinent to Latin American and Latina/o peoples in the Americas

Minor Requirements

Intensive English

Washburn Website: <https://www.washburn.edu/academics/international-programs/english-classes/index.html> (<https://www.washburn.edu/academics/international-programs/english-classes/>)

Email: learnenglish@washburn.edu

Kelly McClendon, MA, Coordinator/Senior Lecturer, Intensive English

Mission

The mission of the Intensive English Program (IEP) is to offer leveled English language courses to prepare non-native English speakers, including international students, for success in degree programs at the university and other academic and community settings. The IEP is committed to facilitating cross-cultural understanding and supporting the university's values of academic excellence and inclusion.

Program Student Learning Outcomes

Upon completion of the IEP, students will be able to:

- PSLO 1: write short essays, present short academic speeches, and participate in social conversations with minimal grammar errors after applying linguistic knowledge and using strategies to find and correct their own errors.
- PSLO 2: read at 180 words per minute with 75% comprehension in order to succeed in courses with required college-level (low-advanced) reading.
- PSLO 3: (1) take relevant and organized notes from short lectures; (2) prepare a college-level presentation that demonstrates clear points with visual aids, appropriate organization, and proper citation.
- PSLO 4: write a college level paper organized in the American style of discourse and academic vocabulary with some research and proper citations included.
- PSLO 5: degree-seeking students will be able to identify resources on campus for success in the college classroom, self-reflect on study skills needed for the college classroom, increase communicative competence in English through authentic language practice, increase their comfort level of working on a multicultural team, and present about reflections on cultural adjustment lessons learned.

Admission

Prospective students are encouraged to contact the program coordinator before enrolling in the IEP. A placement test is required to evaluate proper placement in the IEP courses unless the student starts in Level 1 classes. Testing options include Duolingo English Test, TOEFL, IELTS, PTE, and more listed on the website. After completing the IEP, students have met the WU English proficiency requirement. Some undergraduate programs require a specific score above the undergraduate Washburn University English proficiency requirements, such as Nursing. Those who test into Level 3 courses in the IEP can take for-credit academic courses concurrently with the approval of the IEP.

Curriculum

The accredited Intensive English Program includes three levels (I, II, and III) in each of three skill areas which are available spring and fall semesters with grammar instruction embedded in each area: Reading Comprehension, Speaking and Understanding, and Writing. A fourth area in cultural experience (IE 091 Language & Culture in Context Seminar I / IE 092 Language & Culture in Context Seminar II) is offered to full time Intensive English students. Two additional courses (IE 070 Intensive English-Acad Purp I and IE 100 Intensive English-Acad Purp II) offered

are not part of the required levels in the program but may be offered as special topics or for short-term exchange/visiting students. The core classes follow the University schedule and meet five hours per week in class each semester (16 weeks). A full-time student typically takes four courses and receives 18 hours of classroom instruction for 12 - 13 credit hours.

Intensive English courses IE 202, IE 203, and IE 204 courses each count for four General Education Humanities credits toward bachelor degree requirements. CN 150 cannot be taken when an IEP student is enrolled in IE 203. EN 101 cannot be taken when an IEP student is enrolled in IE 204.

Students can utilize all university academic support services and the ESL Class sponsored by the International Center of Topeka, which may be one-on-one or small group instruction provided by or associated with the University. These services are free of charge to the students. In addition, students have full access to other University services and facilities, such as the health center, computer labs, libraries, and athletic events/facilities, free of charge.

Credit

Students receive general education credit for IE 202, IE 203, and IE 204. Credits earned for IE 102, IE 103, and IE 104 can be applied toward undergraduate degree programs as electives. All other IE courses count toward a student's overall GPA.

Accredited Intensive English Program (IEP)

Students are placed into the Intensive English Program initially by an English proficiency test (link to English Proficiency Requirements in Intl Services overview part) into one of three levels (beginning, low intermediate, high intermediate) in each of three skill areas. The following shows the progression of course levels within skill areas. Grammar outcomes are embedded within each of the leveled skills courses. Language and Culture in Context Seminars are open to all levels and short-term programs.

Reading Comprehension	Speaking & Understanding	Academic Writing	Language and Culture in Context Seminars
Level I - IE 072	Level I - IE 073	Level I - IE 074	All levels - IE 091 & IE 092
Level II - IE 102	Level II - IE 103	Level II - IE 104	
Level III - IE 202	Level III - IE 203	Level III - IE 204	

The core classes in reading, speaking/understanding, and writing follow the University schedule and each meet four times per week during the semester. The Seminar class meets 1-2 times per week. A full-time student typically takes four courses and receives 18 hours of classroom instruction for 12 - 13 credit hours.

Short-term Programs

WU hosts groups of exchange students for short term programs that are not part of the accredited Intensive English Program but often take courses offered by the IEP or the following combined-skills courses.

- Intensive English for Academic Purposes I and II - IE 070 and IE 100
- Language and Culture in Context Seminar I and II - IE 091 and IE 092

Intensive English Courses

IE 070 Intensive English-Acad Purp I (1-3)

Combined skills course with IE 100 centered around U.S. cultural themes. It is considered a special topic course as the needs of the students taking it are considered when designating the specific outcomes of English language learning and cultural competence. It may be offered as a short-term course for exchange/visiting students for English language skills improvement within a U.S. cultural experience.

IE 072 Reading Comprehension for Academic Purposes I (4)

Develops nonnative English speakers' vocabulary and reading skills for personal and academic communication using materials with diverse topics. Students focus on learning the most common words in English and begin to do sustained content reading at a high beginning level using strategies to help them increase comprehension and gain fluency and vocabulary. Prerequisite: None.

IE 073 Speaking and Understanding for Academic Purposes I (4)

Students are introduced to the words and phrases needed for everyday social situations including introductions and begin to develop their listening skills in simple conversations and speaking skills for the U.S. college classroom.

IE 074 Writing for Academic Purposes I (4)

This course is for nonnative English speakers and focuses on foundational writing skills from sentence structure to well-organized paragraphs of various kinds. Besides analyzing audience and purpose, basic citation and research skills are covered. Students will develop skills in writing sentences with correct structure and a beginning-level paragraph on concrete or personal subjects. They will also be able to use technology to compose their writing, including appropriate written communication with an instructor.

IE 091 Language & Culture in Context Seminar I (0-2)

IE 091 and IE 092 give international students unique opportunities to experience language in local cultural contexts and challenge their application of the English language. Students will go on field trips and hear guest speakers from diverse backgrounds on relevant topics to the international student. Students will be required to complete a project and write a journal with reflections on their experiences. IE 091 is offered in the fall and IE 092 is offered in the spring. These courses meet for one-three hours per week but do not count toward the 120 hour baccalaureate degree requirement. Full time Intensive English students are required to enroll in these courses. No prerequisite. Repeatable.

IE 092 Language & Culture in Context Seminar II (0-2)

IE 091 and IE 092 give international students unique opportunities to experience language in local cultural contexts and challenge their application of the English language. Students will go on field trips and hear guest speakers from diverse backgrounds on relevant topics to the international student. Students will be required to complete a project and write a journal with reflections on their experiences. IE 091 is offered in the fall and IE 092 is offered in the spring. These courses meet for one-three hours per week but do not count toward the 120 hour baccalaureate degree requirement. Full time Intensive English students are required to enroll in these courses. No prerequisite. Repeatable.

IE 100 Intensive English-Acad Purp II (1-3)

Combined skills course with IE 070 centered around U.S. cultural themes. It is considered a special topic course as the needs of the students taking it are considered when designating the specific outcomes of English language learning and cultural competence. It may be offered as a short-term course for exchange/visiting students for English language skills improvement within a U.S. cultural experience.

IE 102 Reading Comprehension for Academic Purposes II (4)

Develops nonnative English speakers' vocabulary, grammar, and reading skills for personal and academic communication using materials on diverse topics. Students will become active readers of content in English at an intermediate level and further develop their strategies for vocabulary learning and reading fluency to increase their comprehension and also their understanding of text organization. Prerequisite: IE 072, or equivalent English proficiency test scores, or IEP coordinator permission.

IE 103 Speaking and Understanding for Academic Purposes II (4)

Nonnative English-speaking students practice to improve their oral and aural skills. They prepare to participate in everyday social conversations, classroom interactions, listening effectively to lectures and being involved in basic discussions. Students are expected to prepare and give short speeches and will be tested weekly on a list of idiomatic expressions. Students develop intermediate level skills, including grammar, to participate in everyday social conversations, classroom interaction, and intermediate-level discussions. Students will also increase their listening and note-taking skills to be able to comprehend short lectures on general topics. Prerequisite: IE 073, or appropriate listening and speaking English proficiency test scores, or IEP coordinator permission.

IE 104 Writing for Academic Purposes II (4)

This course for nonnative English speakers focuses on foundational writing skills from sentence structure to well-organized paragraphs of various kinds. Besides analyzing audience and purpose, basic citation and research skills are covered. Students will develop skills in writing and grammar for intermediate-level academic paragraphs of the following types: definition, description, opinion, explaining processes. Students will also learn strategies to apply to writing and editing. Prerequisite: IE 074, or appropriate English proficiency test scores, or IEP coordinator permission.

IE 202 Reading Comprehension for Academic Purposes III (4)

By reading books, articles and sample academic texts, nonnative English speakers in this course study and practice effective reading and investigating strategies to discover the ways ideas are expressed and put into writing. Students will develop academic vocabulary, grammar skills, reading fluency, comprehension and strategies to become active readers at a high intermediate/low advance level monitoring and adjusting their strategies to meet the demands of academic reading for university courses. Prerequisite: IE 102, or equivalent English proficiency test scores, or IEP coordinator permission.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

IE 203 Speaking and Understanding for Academic Purposes III (4)

This course focuses specifically on the speaking, listening, and grammar skills needed for presentations, the basic organization of American communication, and idiomatic expressions that prepare the student for the American academic and professional environment. Cannot be taken concurrently with CN 150 Public Speaking. Students will also increase their listening and note-taking skills to be able to comprehend lectures on general academic topics. Prerequisite: IE 103, or equivalent English proficiency listening and speaking test scores, or IEP coordinator permission.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

IE 204 Writing for Academic Purposes III (4)

Students develop the ability to compose, (i.e., comprehend, select, plan, draft) and produce essay length texts on diverse general education academic topics by applying appropriate grammar skills and writing strategies with basic knowledge of how to use other sources and cite without plagiarism. Cannot be taken concurrently with EN 101. Prerequisite: IE 104, or appropriate English proficiency test scores, or IEP coordinator permission.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

IE 294 Writing for Academic Purposes III (GR only) (3)

Transitional course for graduate students. Expressing ideas in writing for the American academic and business reader is the goal in these courses for nonnative English speakers. Students will learn the conventions of expository paragraphs, essays and investigative reports. Summary, analysis, citation and research skill practice are included. Cannot be taken concurrently with EN 101 First Year Writing or EN 300 Advanced College Writing.

IE 295 Special Topics: Enhancing Skills for Graduate Studies (3)

This course for non-native English speakers only will orient students who haven't completed an undergraduate degree in the US to the style and rigor specified by individual graduate programs. Typically this will involve specific instruction to help students improve research, presentation, group work, and higher level academic writing skills that are required by graduate programs. Topics and targeted programs will be announced in advance. Prerequisite: IE 202 and IE 204 or equivalent iBT, TOEFL, IELTS scores or instructor permission.

 Lecturer Zsolt Eder, DMA
 Lecturer Kelly Huff, PhD
 Lecturer Andrew Hakenewerth, MA
 Lecturer Erinn Renyer, MM

Mission

Consistent with the mission of the University and the College of Arts and Sciences, the Department of Music is dedicated to sharing a personal commitment to musical excellence as exemplified in creative activities, research, teaching, and public performances contributing to the expansion of knowledge in the field of music. This personal commitment to our students encourages them to think creatively, speak effectively, and write critically. Through musical performances and sponsorship of musical activities, the Music Department strives to enrich the cultural, aesthetic and creative life of the university, the community, the region and the nation.

Desirable Student Attributes

Music students at Washburn University, upon graduation, should have developed: a personal lifelong commitment to the art of music; an understanding of the importance of being involved in local, state, and national music and arts organizations; skills in pursuing a variety of music professions, and the capacity to provide cultural enrichment through music performance for university, community, state, national and international venues.

Student Learning Outcomes

Music students at Washburn University, upon graduation, are expected to have:

- Demonstrated music performance skills (think creatively; present effectively).
- Demonstrated the ability to read and write music.
- Demonstrated the ability to analyze and describe music.
- Demonstrated listening skills in music (write critically; research skills).
- In addition to the above, Music Education students are expected to have demonstrated skills in teaching music.

Department of Music

The Department of Music is a unit of the College of Arts and Sciences in the Division of Creative and Performing Arts. Our Mission Statement provides a window through which the Music Department views its efforts in teaching, scholarship, performance, research, and service. As a department dedicated to presenting its accomplishments to the public, the Music Department plays a unique role in promoting and enhancing the image and prestige of the University.

The Music Department prepares individuals for careers and further study in the field of music while promoting a lifetime of continuous learning and appreciation for music. Music courses in the Fine Arts are a vital part of the General Education program, which is the foundation for all undergraduate degrees. In addition, non-majors have the opportunity to experience music making through their participation in performance ensembles and/or private instruction. Students and members of the larger community may enhance their appreciation and enjoyment of music by attending live performances sponsored by the Department.

The Music Department is fully accredited by the National Association of Schools of Music (NASM), the Kansas Department of Education (KSDE), and the Council for the Accreditation of Educator Preparation (CAEP). The Department of Music utilizes the review and self-assessment required by these accrediting associations to achieve continuous improvement and accountability for its various programs.

Admittance to Music Major Status

All students must audition to be accepted into "Music Major" or "Licensure only" status in the Department of Music. Failure to audition prior to the 7th day of regularly scheduled classes will result in automatic "non-major" status. Incoming students who are accepted into music major status are immediately placed under music faculty advisement. Students accepted for "Licensure" will be required to complete all requirements for the Music Education degree as per the results of a transcript analysis. In addition, all "Licensure" students must perform a conducting audition prior to being admitted to the program.

Private Lessons (1-3 hours) and Performance Class (0 Credit)

Only Music Performance majors may enroll for 3 hours. Non-majors must pay an additional fee to enroll in private lessons. The extra fee is equivalent to the current resident undergraduate hour tuition rate for each hour they enroll. All Music Majors must enroll in MU 070A Performance Class and all Music Minors must enroll in MU 070B Performance Class every semester that they are enrolled in private lessons in their concentration area. All students who enroll in private lessons must present a performance jury after each semester of study. Accompanists are required for each semester jury. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

Membership in Large Ensemble

All Bachelor of Arts and Bachelor of Music candidates are required to participate in two large ensembles (Washburn Choir; Washburn Singers; Women's Chorus; Washburn Orchestra; Washburn String Orchestra; Collaborative Piano; Washburn Wind Ensemble; University Band; Marching Band; Jazz Orchestra or Concert Jazz Ensemble) each semester of full-time enrollment. For large ensemble requirements particular to each instrument, please consult the online Music

Department Handbook (<https://www.washburn.edu/academics/college-schools/arts-sciences/music/current-students.html>).

Non-Music Majors

Music courses in the Fine Arts are a vital part of the General Education program which is the foundation for all the University's undergraduate degrees (please note the music courses which have been approved for General Education Credit). In addition, non-majors may also enroll in performance ensembles and private lessons with the consent of the instructor. Private lessons are not available for auditors.

Programs

- Bachelor of Arts in Music, BA (p. 200)
- Bachelor of Musical Arts, BMA (p. 200)
- Bachelor of Music in Music Education, BM (p. 201)
 - Instrumental Emphasis (p. 201)
 - Vocal Emphasis (p. 202)
- Bachelor of Music in Performance, BM (p. 203)
- Music, Minor (p. 205)
- Jazz Studies (Vocal or Instrumental), Minor (p. 206)

Course Offerings

MU 070A Performance Class (0)

Weekly master class-performance/recital course required of all music majors who enroll in private lessons. Prerequisite: Music Major/ Concurrent enrollment in private lessons.

MU 070B Performance Class (0)

Weekly master class-performance/recital course required of all music minors who enroll in private lessons.

MU 100 Enjoyment of Music (3)

The materials and structure of music, as they relate to perceptive listening and increased listening enjoyment. Frequent use of recordings and lecture recitals places the course on a plane of practical appreciation. Planned primarily for non-music majors. No prerequisite.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

MU 103 Jazz History (3)

The materials and structure of jazz music with an emphasis on listening skills. Includes New Orleans, Chicago, Swing, Bop, Free-form and Fusion styles. Frequent use of recordings and live demonstration and performance. No prerequisite.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

MU 104 Movies & Music (3)

An exploration of the role of music in motion pictures and the relationship between music and other aspects of the film medium. No prerequisite.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

MU 106 Introduction to World Music and its History (3)

A survey of music from cultures around the world from musical and anthropological perspectives. *This course has been approved as a multi-cultural course by the Department of Education. No prerequisite.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

MU 108 History of American Rock & Roll (3)

In this course students will study the origins of American rock and roll music from its early roots to current genres. The focus will be on how the development of rock and roll continues to intersect with the social, economic, and cultural trends of popular culture.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

MU 109 Piano for Beginners I (2)

Development of basic piano techniques, sight reading, improvisation, transposition, and keyboard harmony. Planned for non-music majors. No prerequisite.

MU 110 Piano for Beginners II (2)

Development of basic piano techniques, sight reading, improvisation, transposition, & keyboard harmony. Planned for non-music majors. Prerequisite: Consent of instructor.

MU 111 Guitar for Beginners (2)

Designed to acquaint the beginner with basic chords and accompanying techniques. No prerequisite.

MU 120 Fundamentals of Music Theory (2, 3)

Music fundamentals including basic notation, intervals, scales, rhythm, ear training, writing of simple harmonic material with selected music for harmonic & form analysis.

MU 122 Rhythm Perception-Music Majors (1)

Study of rhythm and meter through the analysis of mathematical constructs, notation practices, counting systems and tapping/clapping exercises. Development of rhythmic perception through rhythmic dictation and singing. Prerequisite: Music Major.

MU 123 Integrating Technology in Music (1)

An introduction to understanding the use of computer music applications and MIDI (Musical Instrument Digital Interface) in music. Will include software applications addressing ear training and music theory, sequencing and music notation. Prerequisite: Music Major.

MU 133 Group Piano I (1)

Development of basic piano techniques, sight reading, keyboard harmony and harmonization skills. Prerequisite for MU 133: Music Major status. Prerequisite for MU 134 is MU 133 or consent of instructor.

MU 134 Group Piano II (1)

Development of basic piano techniques, sight reading, keyboard harmony and harmonization skills. Prerequisite for MU 133: Music Major status. Prerequisite for MU 134 is MU 133 or consent of instructor.

MU 145 Marching Band (0-1)

The Fighting Blues Marching Band is open to all majors and non-majors. The Fighting Blues take great pride in entertaining and thrilling our fans in Yager Stadium with our precision marching and exciting music selections. The band also performs for other events, including bowl games, pep-rallies, alumni, administrative and foundation functions. Audition is not required. No prerequisite.

MU 146 Pep Band (0-1)

The WU Blues Pep Band is a driving force of the game day experience at basketball games. Comprised of students from across campus, and performing a repertoire of over 70 pieces, the WU Blues Pep Band is a high-energy, powerful ensemble that enhances the experience of the students, fans, and athletes. Participation in the WU Blues provides students with both musical and nonmusical benefits, developing musical skills in addition to learning valuable life skills relating to their overall education, including communication, teamwork, responsibility, and a sense of accomplishment. Prerequisites: Students selected, by audition, for Pep Band; participation are required to have successfully completed all Marching Band (MU 145/MU 345) requirements in the Fall semester immediately preceding Pep Band. Audition required.

MU 150 Introduction to Music Education (1)

Supervised school-based field experience designed for potential music teacher education candidates to investigate school music teaching as a profession. A minimum of 20 hours in an assigned school setting is required. Orientation to the Washburn teacher education program is included during university classroom sessions. MU 150 must be taken prior to admission to the Professional Teacher Education Program. Prerequisite: Admission into the Bachelor of Music degree in Music Education or consent of instructor.

MU 200 Special Topics/Music (0-3)

A variable content course treating areas of interest to both music majors and non-music majors. May be repeated for credit. Prerequisite: Consent of Instructor.

MU 204 Vocal Techniques - Instrumental Majors (1)

Study of pedagogical techniques for appropriate vocal development and health for instrumentalists. Prerequisite: Admission to Bachelor of Music - Music Education degree, or admission to Bachelor of Music - Instrumental Performance, or consent of instructor.

MU 205 Woodwind Techniques (1)

A practical study of pedagogy, tone production, embouchure, technique, care, repair, and other aspects of playing and teaching for the flute, clarinet, saxophone, oboe, and bassoon in the public schools. No prerequisite.

MU 206 Improvisation (2)

Introduction to the basic materials utilized in the practice of improvisation. Includes practical application through performance and utilization of major scales and modes, ear training, transcription, and the learning of patterns. Prerequisite: MU 215 or Consent of instructor.

MU 208 Guitar Techniques (1)

A study of tone production, technique, care and maintenance of the guitar. Pedagogical approaches for teaching guitar in school settings include: basic chords, positioning, and musical elements. Prerequisite: None.

MU 210 Brass Techniques (1)

The study of tone production, technique, care and maintenance of brass instruments, with an emphasis focused on teaching methods for public education. Prerequisite: None.

MU 211 String Techniques (1)

The study of tone production, technique, care and maintenance of string instruments, with an emphasis focused on teaching methods for public education. Prerequisite: None.

MU 212 Percussion Techniques (1)

The study of technique, care and maintenance of percussion, with an emphasis focused on teaching methods for public education. Prerequisite: None.

MU 213 Group Piano III (1)

Continuation of Group Piano II. Development of functional skills including transposition, score reading and improvisation. Also includes study of the intermediate level piano literature from various style periods. For music majors. Prerequisite: MU 134

MU 214 Group Piano IV (1)

Continuation of Group Piano II. Development of functional skills including transposition, score reading and improvisation. Also includes study of the intermediate level piano literature from various style periods. For music majors. Prerequisite for MU 213: MU 134. Prerequisite for MU 214: MU 213.

MU 215 Music Theory I (3)

Study of music notation, scales, intervals, rhythm, meter, triads, seventh chords, figured bass, and Roman numerals, with an introduction to part-writing, harmonic progressions, cadences, and basic non-harmonic tones. Corequisite: MU 217 and MU 123 or consent of instructor. Prerequisite: music major, music minor, or musical theatre concentration status.

MU 217 Aural Skills I (1)

Development of aural skills through sight singing and melodic, rhythmic, and harmonic dictation. Reinforces fundamental concepts covered in Music Theory I. Corequisite: MU 215 or consent of instructor. Prerequisite: music major, music minor, or musical theatre concentration status.

MU 220 Vocal Diction I (2)

The study of the International Phonetic Alphabet, and application of these tools to study lyric diction in English, Italian, and Latin. Prerequisite: Music major or consent of instructor.

MU 222 Vocal Diction II (2)

Application of the International Phonetic Alphabet to study lyric diction in German and French. Prerequisites: MU 220; Music major or consent of instructor.

MU 226 Wind Ensemble (0-1)

The Washburn Wind Ensemble is comprised of the finest woodwind, brass, and percussion students at Washburn University. The Wind Ensemble exposes students to the highest quality of music written for wind instruments from the Renaissance to the present. This repertoire, along with visits by renowned artists and educators, give the students a unique opportunity to experience a wide range of compositional techniques, rehearsal processes, and musical possibilities. Membership in the Wind Ensemble is open to both music and non-music majors, through audition.

MU 237 Choral Lab (0)

The initial experience in secondary music education in the area of choral work. No prerequisite.

MU 238 Instrumental Lab (0)

The initial experience in secondary music education in the area of instrumental works. Prerequisite: None.

MU 239 University Band (0-1)

The University Band is an ensemble that performs works from the standard literature for wind band. The University Band promotes the musical and intellectual growth of its members through careful selection of appropriate repertoire. Membership in the University Band is open to both music and non-music majors, through audition.

MU 240 Beginning Conducting (1)

Basic beat patterns, baton technique, score reading, philosophy and basic concepts of conducting. No prerequisite.

MU 243 Composition (1-3)

Individual tutoring in music composition with emphasis on the development and expansion of music materials. May be taken as an elective. May be repeated as an elective with consent of instructor. Prerequisite: MU 215 or consent of instructor.

MU 244 Collaborative Piano (1)

A laboratory designed to develop proficiency in sight reading and accompanying at the keyboard. Required for keyboard concentrations and keyboard majors.

MU 245 Concert Jazz Ensemble II (0-1)

The Washburn Concert Jazz Ensemble studies and performs works from various styles of jazz literature. The Ensemble promotes musical development and intellectual growth of its members through careful selection of appropriate jazz repertoire. Membership is open to both music and non-music majors through audition.

MU 246 Women's Chorus (0-1)

Open, by audition, to both majors and non-majors. Membership is based upon appropriate vocal range and quality, and not gender. The Women's Chorus focuses on the fundamentals of proper choral singing and a wide range of literature. In addition, the ensemble performs on campus and off campus during the year.

MU 247 Choir, Singers (0-1)

Open, by audition, to both majors and non-majors. The Washburn Singers perform a variety of styles of music from the chamber choir repertoire. In addition to participating in on-campus concerts each year, the ensemble also performs throughout the region for various high school choral programs and civic functions.

MU 248 Choir, Washburn (0-1)

Open, by audition, to both majors and non-majors. The Washburn Choir excels in performing a wide variety of styles of choral music. The choir performs regularly in both on and off-campus concerts, including major works with the Topeka and Kansas City symphonies.

MU 249 Washburn Jazz Orchestra (0-1)

The Washburn University Jazz Orchestra meets for the purpose of exploring various styles of jazz literature from swing to contemporary works of notable arrangers and composers through the instrumentation of the jazz big band. Expectations for the ensemble are of a professional quality with the highest possible standards in performance. Selection and placement is by audition only.

MU 250 Washburn Opera Studio (0-1)

Works from the operatic and musical theatre repertoire are rehearsed and performed workshop style. Practice and performance in solo and ensemble singing and staging in material ranging from modern and contemporary Broadway and off-Broadway musicals and revues to classic opera and operettas. Prerequisite: Consent of instructor.

MU 251 Orchestra (0-1)

Enrollment in Washburn University Orchestra is open to music and non-music majors by audition only. Repertory performed ranges from Baroque through contemporary literature. The ensemble performs at least two concerts each semester including Christmas Vespers in the Fall semester. Class participants may audition to perform solos with the orchestra. Selection and placement is by audition.

MU 252 Orchestra, String (0-1)

Enrollment in Washburn University String Orchestra is open to music and non-music majors by audition only. Repertory performed ranges from Renaissance through contemporary literature. Selection and placement is by audition.

MU 254 Small Ensembles-Lower Division (0-1)

This class offers students a chamber music experience with only one person on a part. Pre-existing chamber groups may enroll, or students will be assigned to various chamber groups based upon current enrollment. Recital performance is required.

MU 255 Bassoon (1-3)

Private Lesson - Bassoon. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 256 Cello (1-3)

Private Lesson - Cello. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 257 Clarinet (1-3)

Private Lesson - Clarinet. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 258 Euphonium (1-3)

Private Lesson - Euphonium. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 259 Flute (1-3)

Private Lesson - Flute. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 260 Guitar (1-3)

Private Lesson - Guitar. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 262 Harpsichord (1-3)

Private Lesson - Harpsichord. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 263 Horn (1-3)

Private Lesson - Horn. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 264 Oboe (1-3)

Private Lesson - Oboe. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 265 Organ (1-3)

Private Lesson - Organ. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 266 Percussion (1-3)

Private Lesson - Percussion. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 267 Piano (1-3)

Private Lesson - Piano. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 268 Saxophone (1-3)

Private Lesson - Saxophone. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 269 String Bass (1-3)

Private Lesson - String Bass. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 270 Trombone (1-3)

Private Lesson - Trombone. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 271 Trumpet (1-3)

Private Lesson - Trumpet. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 272 Tuba (1-3)

Private Lesson - Tuba. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 273 Viola (1-3)

Private Lesson - Viola. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 274 Violin (1-3)

Private Lesson - Violin. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 275 Voice (1-3)

Private Lesson - Voice. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 276 Applied Jazz Lessons (1-3)

Private Lesson - Applied Jazz. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 300 Music, Politics, Soc Comment. (3)

Interdisciplinary study of music as a tool for social and political commentary, propaganda, and protest, focusing primarily on 20th and 21st century genres, cultural movements, and events. Special emphasis is placed on American trends. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

MU 305 Business of Music (1)

An overview of the music industry, with specific attention given to career development and opportunities, promotion and marketing techniques, contracts and negotiation, and arts management. Prerequisite: Jr. standing or consent of instructor.

MU 307 Music and the Brain (3)

Study of the biological processes of active and passive music involvement; and the resulting effect on individuals' learning, physical health, and mental well-being. Includes an experimental component.

Prerequisite: EN 101 and BI 100.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

MU 311 Aural Skills II (1)

Development of aural skills through sight singing and melodic, rhythmic, and harmonic dictation. Reinforces fundamental concepts covered in Music Theory I and II. Corequisite: MU 314 or consent of instructor. Prerequisites: MU 215 and MU 217 or consent of instructor.

MU 312 Aural Skills III (1)

Development of aural skills through sight singing and melodic, rhythmic, and harmonic dictation. Reinforces fundamental concepts covered in Music Theory II and III. Prerequisites: MU 311 and MU 314. Corequisite: MU 315 or consent of instructor.

MU 313 Foundations of Elementary Music Education (2)

This course will examine the history and general principles of aesthetic education, the position of elementary music education in the historical and contemporary frameworks of universal public education, administrative operation of schools and music education programs, elementary music curriculum design and implementation, the management of music material, human relations aspects of teaching music, and aspects of the music educator's professional development. Elementary Music Practicum requirement: All students in this course participate in field-based teaching experiences in the schools. Prerequisite: Accepted in Professional Education program.

MU 314 Music Theory II (3)

Continued study of part-writing, harmonic progressions, cadences, and non-harmonic tones, with an introduction to tonicization, modulation, phrase and period forms, and baroque and classical style analysis. Corequisite: MU 311 or consent of instructor. Prerequisites: MU 215 and MU 217 or consent of instructor.

MU 315 Music Theory III (3)

Study of chromatic harmony, modulation, smaller and larger forms, and other topics related to music before 1900. Corequisite: MU 312 or consent of instructor. Prerequisites: MU 311 and MU 314 or consent of instructor.

MU 316 Music Theory IV (3)

Analysis of modern music and various analytical methods, including set theory, introduction to composition using tools of post-tonal genres, and study of jazz/popular music theory, including improvisation. Prerequisites: MU 315

MU 317 Orchestration (2)

Practical arranging of piano, choral and instrumental literature. Scoring for voices, strings, woodwinds, brass and percussion instruments including the study of tone, timbre, ranges, transpositions and the blending of these elements. Prerequisite: MU 314 or consent of instructor.

MU 320 Form and Analysis (2)

Musical works from the 17th through 20th centuries are analyzed using a variety of analytical techniques. Students explore standard musical forms, musical structures, and questions of aesthetics. Prerequisite: MU 316

MU 325 Music History I (3)

Survey of musical styles, composers, and forms in Western art music from Greco-Roman antiquity through the Baroque era (approx. 1750). Prerequisite: MU 215 or consent of instructor.

MU 326 Music History II (3)

Survey of musical styles, composers, and forms in Western art music from the Classical era (c. 1750) to the end of the Romantic Era (c. 1900). Prerequisite: MU 325

MU 327 Music History III (2)

Survey of musical styles, composers, and forms in Western art music from c. 1900 through the present. Prerequisite: MU 326 or consent of instructor.

MU 330 Vocal Pedagogy and Literature (2)

Examines the anatomy and physiology of the vocal mechanism and its application for the singer, voice teacher, and music educator. The second half of the semester is devoted to song literature and its application for the solo singer as well as the voice teacher. Prerequisite: Music Major status or consent of instructor.

MU 335 Organ Literature I (2)

Study of organ literature from the Renaissance to the present incorporation styles, registration, and instrument of each period. Prerequisite: Music Major status or consent of instructor.

MU 336 Organ Pedagogy (1)

Study of various organ method books and relevant literature for use in teaching, plus knowledge of styles, registration, and organs of each musical period. Prerequisite: Music Major status or consent of instructor.

MU 337 Piano Literature I (2)

Keyboard music from the Elizabethan virginal school to the present time, designed primarily for piano majors and prospective piano teachers. Prerequisite: Music Major status or consent of instructor.

MU 338 Piano Literature II (2)

Keyboard music from the Elizabethan virginal school to the present time, designed primarily for piano majors and prospective piano teachers. Prerequisite: Music Major status or consent of instructor.

MU 339 Piano Pedagogy (2)

Examines learning theories, methods and materials for private and group piano teaching at the elementary to intermediate levels, including business and professional aspects of teaching. Prerequisite: Music Major status or consent of instructor.

MU 345 Marching Band (0-1)

The Fighting Blues Marching Band is open to all majors and non-majors. The Fighting Blues take great pride in entertaining and thrilling our fans in Yager Stadium with our precision marching and exciting music selections. The band also performs for other events, including bowl games, pep-rallies, alumni, administrative and foundation functions. Audition is not required. No prerequisite.

MU 400 Special Topics in Music (1-3)

A variable content course treating areas of interest to music majors. May be repeated for credit. Prerequisite: Consent of instructor.

MU 402 Senior Research Seminar (2)

Development and application of research, information literacy, and writing skills in preparation for graduate study and professional activity in music. Designed for music performance majors, but open to all music majors.

MU 415 Tonal Counterpoint (2)

The study, analysis, and writing of inventions, canons and fugues in 18th-century style, using works of J.S. Bach as a model. Prerequisite: MU 316.

MU 417 Secondary Choral Methods (3)

This course will examine materials and specific instructional methods of teaching choral music for grades 7-12 through a concept and skill building approach. Additional emphasis will be placed on the organization and development of vocal performing groups for grades 7-12. Secondary choral practicum requirement: All students in this course participate in field-based teaching experiences in the schools. Prerequisite: MU 313 or consent of instructor

MU 418 Elementary/Secondary Music Education Instrumental Methods (3)

This course will examine materials and specific instructional methods of teaching elementary and secondary instrumental music, by a concept and skill building approach, and emphasize the organization and development of instrumental performing groups. Practicum requirement: All students in this course participate in field-based teaching experiences in the schools. Prerequisite: MU 313 or consent of instructor.

MU 420 Jazz Band Pedagogy (1)

This course will examine the various jazz styles, rehearsal techniques, and improvisation in jazz band. Prerequisite: Pass Fourth Semester Jury or consent of instructor.

MU 421 Marching Band Pedagogy (1)

This course will examine the various marching band styles, marching fundamentals, rehearsal techniques, show design principles and other facets of organization for teaching High School Marching Band. Prerequisite: MU 245/MU 445 Marching Band.

MU 426 Wind Ensemble (0-1)

The Washburn Wind Ensemble is comprised of the finest woodwind, brass, and percussion students at Washburn University. The Wind Ensemble exposes students to the highest quality of music written for wind instruments from the Renaissance to the present. This repertoire, along with visits by renowned artists and educators, give the students a unique opportunity to experience a wide range of compositional techniques, rehearsal processes, and musical possibilities. Membership in the Wind Ensemble is open to both music and non-music majors, through audition.

MU 439 University Band (0-1)

The University Band is an ensemble that performs works from the standard literature for wind band. The University Band promotes the musical and intellectual growth of its members through careful selection of appropriate repertoire. Membership in the University Band is open to both music and non-music majors, through audition.

MU 441 Advanced Choral Conducting (1)

A practical opportunity to direct, under supervision, voices under conditions approximating the rehearsal situation. Prerequisite: MU 237 and 240 or consent of instructor.

MU 442 Advanced Instrumental Conducting (1)

A practical opportunity to direct, under supervision, strings and woodwind instruments under conditions approximating the rehearsal situation. Prerequisite: MU 238 and 240 or consent of instructor.

MU 443 Composition (1-3)

Individual tutoring in music composition with emphasis on the development and expansion of music materials. May be taken as an elective. May be repeated as an elective with consent of instructor. Prerequisite: MU 316 or consent of instructor.

MU 444 Collaborative Piano (1)

A laboratory designed to develop proficiency in sight reading and accompanying at the keyboard. Required for keyboard concentrations and keyboard majors.

MU 445 Concert Jazz Ensemble (0-1)

The Washburn Concert Jazz Ensemble studies and performs works from various styles of jazz literature. The Ensemble promotes musical development and intellectual growth of its members through careful selection of appropriate jazz repertoire. Membership is open to both music and non-music majors through audition.

MU 446 Women's Chorus (0-1)

Open, by audition, to both majors and non-majors. Membership is based upon appropriate vocal range and quality, and not gender. The Women's Chorus focuses on the fundamentals of proper choral singing and a wide range of literature. In addition, the ensemble performs on campus and off campus during the year.

MU 447 Choir, Singers (0-1)

Open, by audition, to both majors and non-majors. The Washburn Singers perform a variety of styles of music from the chamber choir repertoire. In addition to participating in on-campus concerts each year, the ensemble also performs throughout the region for various high school choral programs and civic functions.

MU 448 Choir, Washburn (0-1)

Open, by audition, to both majors and non-majors. The Washburn Choir excels in performing a wide variety of styles of choral music. The choir performs regularly in both on and off-campus concerts, including major works with the Topeka and Kansas City symphonies.

MU 449 Washburn Jazz Orchestra (0-1)

The Washburn University Jazz Orchestra meets for the purpose of exploring various styles of jazz literature from swing to contemporary works of notable arrangers and composers through the instrumentation of the jazz big band. Expectations for the ensemble are of a professional quality with the highest possible standards in performance. Selection and placement is by audition only.

MU 450 Washburn Opera Studio (0-3)

Works from the operatic and musical theatre repertoire are rehearsed and performed workshop style. Practice and performance in solo and ensemble singing and staging in material ranging from modern and contemporary Broadway and off-Broadway musicals and revues to classic opera and operettas. Prerequisite: Consent of instructor.

MU 451 Orchestra (0-1)

Enrollment in Washburn University Orchestra is open to music and non-music majors by audition only. Repertory performed ranges from Baroque through contemporary literature. The ensemble performs at least two concerts each semester including Christmas Vespers in the Fall semester. Class participants may audition to perform solos with the orchestra. Selection and placement is by audition.

MU 452 Orchestra, String (0-1)

Enrollment in Washburn University String Orchestra is open to music and non-music majors by audition only. Repertory performed ranges from Renaissance through contemporary literature. Selection and placement is by audition.

MU 454 Small Ensembles-Upper Division (0-1)

This class offers students a chamber music experience with only one person on a part. Pre-existing chamber groups may enroll, or students will be assigned to various chamber groups based upon current enrollment. Recital performance is required.

MU 455 Bassoon (1-3)

Private Lesson - Bassoon. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 456 Cello (1-3)

Private Lesson - Cello. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 457 Clarinet (1-3)

Private Lesson - Clarinet. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 458 Euphonium (1-3)

Private Lesson - Euphonium. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 459 Flute (1-3)

Private Lesson - Flute. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 460 Guitar (1-3)

Private Lesson - Guitar. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 462 Harpsichord (1-3)

Private Lesson - Harpsichord. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 463 Horn (1-3)

Private Lesson - Horn. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 464 Oboe (1-3)

Private Lesson - Oboe. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 465 Organ (1-3)

Private Lesson - Organ. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 466 Percussion (1-3)

Private Lesson - Percussion. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 467 Piano (1-3)

Private Lesson - Piano. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 468 Saxophone (1-3)

Private Lesson - Saxophone. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 469 String Bass (1-3)

Private Lesson - String Bass. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 470 Trombone (1-3)

Private Lesson - Trombone. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 471 Trumpet (1-3)

Private Lesson - Trumpet. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 472 Tuba (1-3)

Private Lesson - Tuba. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 473 Viola (1-3)

Private Lesson - Viola. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 474 Violin (1-3)
Private Lesson - Violin. An additional fee is associated with this course.
Prerequisite: BM students must pass “4th semester Jury.” BA students must pass “Double Jury.”

MU 475 Voice (1-3)
Private Lesson - Voice. An additional fee is associated with this course.
Prerequisite: BM students must pass “4th semester Jury.” BA students must pass “Double Jury.”

MU 476 Applied Jazz Lessons (1-3)
Private Lesson - Applied Jazz. An additional fee is associated with this course. Prerequisite: BM students must pass “4th semester Jury.” BA students must pass “Double Jury.”

Bachelor of Arts in Music, BA

The program leading to the Bachelor of Arts Degree with a major in Music is designed for students seeking a Liberal Arts Education with a concentration in music. The degree does not carry departmental recommendation for teaching licensure.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

In addition, all Music (BA) majors must complete a complementary minor, certificate, or additional major; students must declare this with the department that grants it.

Code	Title	Hours

Total Hours		64

¹ Students must enroll in course for credit if they do not pass the entrance exam.
² BA majors must enroll in a minimum of 1 cr. hr. each semester in their concentration area until the 8-semester requirement is met.
³ All Bachelor of Arts, Bachelor of Music, and Bachelor of Musical Arts students are required to participate in two large ensembles each semester of full-time enrollment. For large ensembles requirements, to each instrument, please consult the Music Department Handbook (www.washburn.edu/music-handbook)
⁴ 9 hours must be upper division credit.
⁵ Electives may be taken from any department in the university.

Bachelor of Musical Arts, BMA

The program leading to the Bachelor of Musical Arts (BMA) degree is designed for students planning to pursue a diverse array of professional careers in music. The BMA is a flexible and personalized degree that requires a complementary minor outside of music. With the help of the academic advisor, the student also selects a track of music electives that form an emphasis beyond the core music requirements.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Musical Arts (p. 74) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

In addition, all Bachelor of Musical Arts (BMA) majors must complete a complementary minor, certificate, or additional major; students must declare this with the department that grants it.

¹ Students must enroll in course for credit if they do not pass the entrance exam.

Bachelor of Music in Music Education, BM

The Bachelor of Music (BM) degree with a major in Music Education qualifies the graduate to apply for teacher licensure (PK-12 Music). The student is urged to seek advisement from a Music Education advisor regarding specific course requirements. Refer to the music department handbook (online at <https://www.washburn.edu/academics/college-schools/arts-sciences/departments/music/current-students.html>) for further details concerning this degree and corresponding curriculum.

All students seeking licensure to teach must be formally admitted to the University's Professional Teacher Education Program. Admission is conditional on recommendation by the Music faculty. For admission requirements, see the Education (p. 290) section in this catalog.

- Instrumental Emphasis (p. 201)
- Vocal Emphasis (p. 202)

Instrumental Emphasis

This program is for students who want to teach music. You can choose either a vocal emphasis or an instrumental emphasis. In addition to music courses, you'll take courses in education to be prepared to teach kindergarten through twelfth grade.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Music (p. 74) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Students seeking certification to teach Instrumental Emphasis must also be formally admitted to the University's Professional Teacher Education (p. 291) Programs.

ED 440	Student Teaching Grades P-12	12
HI 105/MU 106	Introduction to World Music and its History	3

Total Hours **100**

¹ Students must enroll in this course for credit if they do not pass the entrance exam.

² Students must enroll in 2 large ensembles each semester - one must be the major ensemble for the primary performance concentration. Voice, Keyboard, Strings: Marching Band is required for at least one semester.

³ Courses that require fieldwork outside of class.

Bachelor of Music in Performance, BM

The program leading to the Bachelor of Music (BM) degree with a major in Music Performance is designed for students planning a career in professional performance, college or university teaching, or private studio teaching. Entering students who plan to major in Music Performance should be prepared to demonstrate acceptable performance skills before enrolling at Washburn. Performance majors are required to present both a Junior and a Senior public recital.

Music Department Proficiency Requirements

Students must complete the following prior to scheduling the 4th Semester Performance Proficiency Exam:

Code	Title	Hours
	Piano Proficiency Exam (PPE) ¹	
	Rhythmic Perception Exam (RPE) ¹	
	48 Recital Credits ¹	
	Scale Proficiency Exam ¹	
	Pass MU 215 Theory I (w/ C or better) ¹	
	Pass MU 217 Aural Skills I (w/ C or better) ¹	
	4th Semester Performance Proficiency Exam ²	
	Pass Junior Recital Jury and present Junior Recital	
	Pass Senior Recital Jury and present Senior Recital	

¹ Students must complete all proficiency requirements prior to taking 4th Semester Performance Proficiency Exam.

² 4th Semester Performance Proficiency Exam: Students who pass can enroll in upper division lessons, ensembles and music classes.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Music (p. 74) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

¹ Students must enroll in courses for credit if needed to pass Piano Proficiency Exam.

² All Bachelor of Arts, Bachelor of Music, and Bachelor of Musical Arts students are required to participate in two large ensembles each semester or full-time enrollment. For large ensembles requirements, to each instrument, please consult the Music Department Handbook.

Music, Minor

The Music Minor is designed for non-Music Majors who are interested in acquiring the fundamental knowledge of music. For all students seeking a minor in music, they must:

- Complete 15 credit hours of the minor at Washburn University.
- Enroll in MU 070B Performance Class every semester that they are enrolled in private lessons in their concentration area. All students

enrolled in music lessons are required to present a performance jury before a faculty panel at the conclusion of each semester of study. Students are required to provide their own accompanist for the jury.

- Submit music minor application at the beginning of the program, pass an entrance audition, attend and accrue 14 recital credits, complete 6 credit hours of upper division coursework and maintain regular communication with music minor advisor.

For further information, including application forms, please see Dr. Kelly Huff.

Music Minor - 21 Credits

The **Music Minor** is designed for non-Music Majors who are interested in acquiring the fundamental knowledge of music. Students pursuing any of the minors must complete the following courses, listed below. For further information, including application forms, please see Dr. Kelly Huff or Dr. Silas Huff. For all students seeking a minor in music, a minimum of 15 credit hours of the minor must be completed at Washburn University. ***In addition, students wishing to pursue any of the minors in music must pass an entrance audition, attend and accrue 14 recital credits, and complete 6 credit hours of upper division coursework.***

Music Electives - 8 Credits

- No more than 6 additional credits of large/small ensembles may be used towards this category.
- Must include a minimum of 6 credits of upper division courses.
- Can include additional applied lesson credit.
- To receive upper division credit for lessons and ensembles, the student must pass a Double Jury (see applied instructor for more information).

Other Requirements

- Pass entrance audition prior to admission to the minor
- Submit music minor application at the beginning of the program
- Earn at least 14 recital attendance credits prior to graduation

- Maintain regular communication with music minor advisor

- Complete 5 credits of upper division courses

Jazz Studies, Minor

The Minor in Jazz Studies (Vocal or Instrumental) is designed for non-Music Majors who are interested in acquiring the fundamental knowledge of music. For all students seeking a minor in music, they must:

- Complete 15 credit hours of the minor at Washburn University.
- Enroll in MU 070B Performance Class every semester that they are enrolled in private lessons in their concentration area. All students enrolled in music lessons are required to present a performance jury before a faculty panel at the conclusion of each semester of study. Students are required to provide their own accompanist for the jury.
- Submit music minor application at the beginning of the program, pass an entrance audition, attend and accrue 14 recital credits, complete 6 credit hours of upper division coursework and maintain regular communication with music minor advisor.

For further information, including application forms, please see Dr. Kelly Huff.

Natural Sciences and Mathematics Programs

- General Science, BS (p. 207)
- Natural Sciences and Mathematics, AA (p. 207)

General Science, BS

(This program is not accepting students during 2024-2025.)

The General Science degree is a versatile program that exposes students to a diverse array of courses in biology, chemistry, computer science, and astronomy/physics. The degree can be tailored to prepare the student for advanced education towards careers in healthcare, research, industry, and more.

Degree Requirements

The candidate must take at least eight hours of course work in each of the subject areas of Biology, Chemistry, Computer Information Sciences, Mathematics and Physics/Astronomy. These hours must be in courses that would count toward a major in each of the respective departments. Also, an additional 20 hours of course work that would be appropriate for majors in the listed departments must be completed by the student, at least 12 hours of which must be in upper division courses. Students desiring middle school teaching certification in General Science should contact the certification office in the Department of Education for specific requirements relative to that certification.

Natural Sciences and Mathematics, AA

The Associate of Arts degree in Natural Sciences and Mathematics is intended to give students a broad background in a particular area of liberal studies. Students are required to take coursework in at least three disciplines within Natural Sciences and Mathematics (Biology, Chemistry, Computer Information Sciences, Physics, or Mathematics and Statistics) and to take a twelve-hour concentration in one of these discipline areas. The credits earned in this associate degree are all applicable toward a bachelor's degree.

A student must complete 60 semester hours with a minimum grade point average of 2.0. Twenty-four credit hours must be completed at Washburn University; of these, 12 of the last 24 must be Washburn University credits. Forty-two hours must be graded. A student may not take the A/Pass/Fail option in the area of concentration without obtaining written permission from the chairperson of the department offering the course and filing it with the University Registrar's Office. The application for degree should be on file before enrolling for the last 15 hours.

Student Learning Outcomes

Washburn University students completing this degree, upon graduation, are expected to have:

- Acquired an introductory knowledge of the basic principles of science and mathematics.
- Develop the ability to understand and utilize the scientific method.
- Acquired a foundation for continued academic study.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for an Associate of Arts (p. 75) degree, and any additional hours needed to reach the minimum 60 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Code	Title	Hours
Required Courses ¹		
	Natural Sciences and Mathematics ²	24
Total Hours		24

¹ A minimum of a C grade is required in all courses within the area of concentration, including the six hours of general education in the Natural Sciences and Mathematics.

² The 24 hours of coursework will include at least six hours each from a minimum of three subject areas within the Natural Sciences and Mathematics. At least 12 hours from one discipline area. These courses will be selected from a list developed by faculty in that discipline area and may include six hours of upper-division credit.

Philosophy

Department of Philosophy and Religious Studies

Website: <https://www.washburn.edu/academics/college-schools/arts-sciences/departments/philosophy-religious-studies/index.html>
(<https://www.washburn.edu/academics/college-schools/arts-sciences/departments/philosophy-religious-studies/>)

Faculty

Professor Ian Smith, PhD, Chair
Associate Professor Rik Hine, PhD
Lecturer Justin Moss, PhD

Mission

Consistent with the missions of the University and the College of Arts and Sciences, the Department of Philosophy and Religious Studies is dedicated to providing high-quality undergraduate courses in philosophy and religious studies, providing the educational foundations for life-long critical thinking, engaging in research and scholarly activities in these and related areas and to serving the University and its various communities. The Department emphasizes excellence in teaching undergraduate students.

Description of Discipline

Philosophy focuses on fundamental questions concerning the nature of reality, knowledge, and values: metaphysics seeks to understand the true nature of reality in general and of humankind in particular; logic and epistemology endeavor to determine valid methods of reasoning and the limits and criteria of knowledge; and ethics attempts to formulate the basic moral norms by which our choices and actions should be governed. Through the study of philosophy, students can improve their understanding of themselves and the world in which they live. They can increase their command of intellectually responsible methods of establishing and evaluating beliefs and theories. They can also develop more effective ways of determining their moral duties.

In general, the study of philosophy helps to develop the ability to think clearly. If one understands how to think clearly, one can apply the techniques of critical and constructive thinking to the study of any discipline or to the concerns of any occupation. The department's philosophy curriculum provides an opportunity for all students, whether majoring in philosophy or not, to be educated in the methods of critical and constructive thought through reflection on the fundamental presuppositions of knowledge in general and of individual disciplines—such as science, mathematics, law, religion, and art—in particular.

Student Learning Outcomes

Philosophy students at Washburn University, upon graduation, are expected to be able to:

- Demonstrate the ability to think critically, using both natural and artificial languages.
- Demonstrate an understanding of the major figures and movements in Ancient, Modern, and Contemporary Philosophy.
- Explain important theories and the views of major figures in Metaphysics and Epistemology.

- Explain important theories and the views of major figures in Value Theory.
- Formulate and evaluate philosophical positions critically and systematically.
- Construct well-reasoned, well-integrated essays based on philosophical research.
- Defend philosophical positions in an oral format.

Pre-Law

An individualized course of study for pre-law students may be designed in cooperation with the Department's pre-law advisor.

Philosophy Program Honors

Honors candidates are those who both have a 3.5 overall GPA at the beginning of the senior year and an intention to finish with Honors by enrolling in PH 398 rather than PH 397.

Programs

- Philosophy, BA (p. 211)
- Philosophy, Minor (p. 211)

Course Offerings

PH 100 Introduction to Philosophy (3)

Philosophy is introduced to students by a survey of major areas of Philosophy (e.g., metaphysics, epistemology, ethics, history of philosophy) with an emphasis on traditional techniques of philosophical analysis and logical argument. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

PH 102 Ethics: Introduction to Moral Problems (3)

Rational decision-making procedures in moral theory and their application to specific moral problems and problem areas; e.g. racism and sexism; the moral status of animals; moral issues in sexual orientation.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

PH 103 Introduction to Political Philosophy (3)

Philosophical examination of the central problems and ideas of Politics and the State; e.g., the legitimate nature and extent of the State; justification of political authority; rights of citizens.

PH 104 Introduction to Logic and Critical Thinking (3)

Students are exposed to general principles of thought and reason and to workable guidelines for improving their powers of rational thought. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

PH 105 Introductory Topics in Philosophy (1-3)

Topics will vary from semester to semester and will be announced in advance. May be repeated for credit when topics vary.

PH 115 Philosophy of Love & Sex (3)

An introduction to philosophical thinking about human love and sexual relationships. The course will examine fundamental questions such as "What is Love?" and "What is Perversion?" It will also raise moral questions dealing with the proper role and circumstances of sex, and deal with socio-sexual issues such as pornography and the sexist implications of sex.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

PH 117 Creation, Evolution, Morality (2-3)

Evolutionary theory appears to hold that human beings are natural products of evolutionary forces, without special moral or religious status. What does this mean for morality? Can notions of right and wrong, good and evil, have a place in an evolutionary world? What are the religious implications of evolution? This course will consider these and other philosophical and moral issues raised by Darwinism.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

PH 200 General Topics in Philosophy (1-3)

Topics will vary from semester to semester and will be announced in advance. May be repeated for credit when topics vary.

PH 201 Corrupting the Youth: Ancient Greek Philosophy (3)

It is probably no exaggeration to say that the entire Western intellectual cannon can trace its roots to the first Philosophers in fifth-century BCE Greece. By far the most famous, was Socrates. So, should we be disturbed that he was sentenced to death for 'corrupting the youth'? We will look at the claims he made that resulted in his execution, before focusing on the ways in which his student, Plato, built upon and systematized these ideas. We will close by looking at Plato's student, Aristotle, widely regarded as one of the most influential thinkers in human history, and of whom it has been said, "it is doubtful whether any human being has ever known as much as he did." Prerequisite: EN 101 or EN 102 with a grade of C or better.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

PH 203 Introduction to Buddhist Philosophy (3)

An introduction to the basic problems, issues and theories of the Buddhist philosophical tradition, including: the four noble truths, the claim that there is no self as we normally understand it, and the claim that everything is impermanent and illusory. Prerequisite: EN 101 or 102 with grade of C or better.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

PH 205 Existentialism (3)

Introduction to both theistic and atheistic existentialism through the study of some of the more prominent existentialists (e.g. Kierkegaard, Nietzsche, Sartre, Camus, Buber, Tillich), major existentialist themes (e.g., concrete individuality, freedom of choice, dread, alienation and death), and the influences of existentialist thought on contemporary literature, ethics, social and political theory, psychology and religion. Prerequisite: EN 101 or EN 102 with a grade of C or better.

PH 207 Existence of God (3)

An elementary course in Philosophy and Religion focusing upon the specific rational arguments which have been advanced for and against the existence of a supreme being. Prerequisite: EN 101 or EN 102 with a grade of C or better, or consent of the Instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

PH 211 Introduction to Ethical Theory (3)

Introductory survey of problems and positions in ethical theory: moral absolutism and moral relativism; moral decision-making theories, including Utilitarianism and Kant; evidence in moral argument. Prerequisite: EN 101 or EN 102 with a grade of C or better.

PH 214 Medical Ethics (3)

Philosophical examination of moral problems that arise in health care; e.g., professional-patient relationship; role and rights of the patient; truth-telling and confidentiality; abortion and euthanasia. Prerequisite: EN 101 or EN 102 with a grade of C or better.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

PH 220 Symbolic Logic (3)

Analysis of argument forms, using symbolic logic as a primary tool. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Quantitative and Scientific Reasoning and Literacy

PH 300 General Topics in Philosophy (1-3)

Topics will vary from semester to semester and will be announced in advance. May be repeated for credit when topics vary.

PH 301 I think therefore I am? Modern Philosophy 1600-1800 (3)

Contemporary scientific consensus seems to be that the Universe is an infinitely large machine, and that, ultimately, everything in it – including us – can be explained mathematically. But where did these notions come from, and why should we believe them? Is this really how the world is, and how can we find out? We will trace the origin of these claims to the sixteenth century. René Descartes, the 'father of modern philosophy', proclaimed, "I think, therefore I am." As one of the 'Rationalists' he argued that the world could be explained, mathematically, and through reason, alone. We will follow by investigating the 'Empiricists', who argued instead that the world could be known, if at all, only through experience. We will finish in the eighteenth century with Immanuel Kant, who claimed that the world as we know it is in some sense a product of our own minds. Prerequisites: EN 101 or EN 102 with a grade of C or better AND either PH 100, PH 201, PH 203, or PH 207 with a grade of C or better.

PH 302 Philosophy of Religion (3)

Analyzes basic religious concepts such as God, faith, the problem of evil, etc. and looks closely at the meaning of religious language. Prerequisite: PH 201 or PH 301 with a grade of C or better, or consent of the instructor.

PH 303 Topics-History of Philosophy (3)

Advanced study of a major period, movement, or individual in the History of Philosophy. May be repeated for credit when topics vary. Prerequisite: PH 201 or PH 301 with a grade of C or better, or consent of the instructor.

PH 311 Issues in Ethical Theory (3)

Specific issues in the philosophical study of morality; e.g., the objectivity of moral judgments, the place of reason in moral thinking, proof of basic moral principles, the status of moral language. Prerequisite: At least one of the following: PH 100, PH 102, PH 201, PH 211 or PH 301 with a grade of C or better.

PH 312 Social-Political Philosophy (3)

Current problems in social and political philosophy including but not limited to distributive justice, reparations, liberalism, alienation, radicalism, freedom and natural rights, social decision procedures, the concept of public interest, and the relationship between justice and equality. Prerequisite: At least one of the following: PH 100, PH 102, PH 103, PH 201, PH 211 or PH 301 with a grade of C or better.

PH 313 Professional Ethics (3)

The study of complex ethical issues that arise in professions such as medicine, finance, law, journalism, engineering, and others. Issues examined include, but are not limited to those that are found across many different professions: whistleblowing and loyalty, truth-telling and lying, privacy and confidentiality, and issues of social responsibility for professionals. Prerequisite: 3 credit hours of Philosophy with a grade of C or better, or instructor's consent.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

PH 315 Philosophy of Law (3)

A philosophical examination of such topics as the fundamental concept of law; relations between legal theory and moral theory; the nature of legal reasoning; justification of punishment. Prerequisite: 3 credit hours of Philosophy with a grade of C or better.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

PH 317 Ethics of Genetic Technologies (3)

This course investigates ethical issues regarding genetic technologies (or genethics). We will consider the ethics of genetic screening and testing and the ethics of gene therapy and genome (or gene) editing. We will consider ethical issues in these areas both within the human context and outside of the human context.

PH 319 Midwestern Environmental Ethics (3)

When people think about environmental ethics in the US, they think about coasts or mountains. The Middle Western plains have been largely forgotten as an area of interest for environmental ethics since the dust bowl. In fact, most environmental issues and values that get traction in the American national media, in anthologies on environmental ethics, in movies focused on environmental issues, etc. focus on issues in the West and East Coast (think of all the ink that has been spilled on water rights in the West, for example). Bucking this history, we will focus on environmental issues that are manifest in the American Midwest (though of course can be manifest in other regions of America and in other parts of the world). Prerequisites: 3 credit hours of Philosophy with grade of C or better, or instructor's consent.

PH 320 Advanced Logic (3)

Advanced study of logical theory and language calculi. Prerequisite: PH 220 with a grade of C or better.

PH 323 Philosophy of Race (3)

This course explores metaphysical and epistemological issues surrounding the concept of race, including but not limited to: historical development of the modern concept of race; the ontological status of race; how race and racism function within lived bodily experience; how race affects one's status as a knower. Prerequisites: 3 credit hours of Philosophy with grade of C or better, or instructor's consent.

PH 325 Philosophy of Mathematics (3)

Philosophical aspects of mathematics, including the foundation of mathematics, the nature of mathematical truth, and the ontological status of mathematical objects. Prerequisite: PH 220 or MA 307 with a grade of C or better.

PH 327 Philosophy of Science (3)

Philosophical aspects of the physical and social sciences, including the nature and problems of theory construction and concept formation, empirical testability, explanation and prediction, and problems of induction and confirmation. When the topics studied differ significantly, this course may be repeated for credit. Prerequisite: PH 104 or PH 200 with a grade of C or better.

PH 330 Philosophy of Mind (3)

Classical and contemporary treatments of the traditional problems of mind-body, other minds, mental acts, self, persons, perception etc. Prerequisite: PH 100, PH 201 or PH 301 with a grade of C or better, or consent of the instructor.

PH 335 Metaphysics (3)

Alternative theories of the nature of ultimate reality, including concepts such as cause, substance, time, etc. Prerequisite: PH 201 or PH 301 with a grade of C or better, or consent of the instructor.

PH 340 Aesthetics (3)

A philosophical approach to such questions as the nature of art, aesthetic value, and art criticism. Prerequisite: PH 201 or PH 301 with a grade of C or better, or consent of the instructor.

PH 386 Special Studies (1-3)

Individual study in the thought of a particular philosopher or on a particular philosophical problem. Regular conferences to be scheduled with the professor directing the study. May be repeated for credit. Prerequisites: 9 hours of Philosophy, and permission in advance by the professor with whom the student desires to work.

PH 397 Senior Capstone for Majors (3)

Students will complete a portfolio project which asks them to submit a folder containing philosophy papers from previous courses along with their reflection upon their development over time in writing such papers. The students will also need to take a paper written for a previous 200 or 300 level philosophy course and rewrite it to a standard that would be considered sufficient for presentation at a public event like Apeiron, a Philosophy Club presentation, or an undergraduate philosophy conference. The student will then be required to present their paper at such a public event. Prerequisites: Senior Philosophy Major

PH 398 Senior Philosophy Honors Thesis Preparation (3)

Independent research in preparation for a senior thesis. Students will complete preliminary research in the area of their senior thesis and prepare a thesis proposal. In addition, students will complete the portfolio project which asks them to submit a folder containing philosophy papers from previous courses along with their reflection upon their development over time in writing such papers. The proposal completed in PH 398 may not be or have been submitted for credit in any other course. Prerequisite: Senior Honors Philosophy Major. Honors candidates are those who both have a 3.5 overall GPA at the beginning of the senior year and an intention to finish with Philosophy Program Honors by enrolling in PH 398 rather than PH 397.

PH 399 Senior Philosophy Honors Thesis (3)

Independent research, writing and defense of a substantial paper, under faculty supervision. Work completed in PH 398 and PH 399 may not be or have been submitted for course credit in any other course. Prerequisite: PH 398 with a grade of C or better.

Philosophy, BA

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

In addition, all Philosophy majors must declare and then meet the requirements for a minor, a second major, or a certificate in order to graduate.

Code	Title	Hours
Required Courses Inside Department		
PH 201	Corrupting the Youth: Ancient Greek Philosophy	3
PH 220	Symbolic Logic	3
or PH 104	Introduction to Logic and Critical Thinking	
PH 301	I think therefore I am? Modern Philosophy 1600-1800	3
PH 303	Topics-History of Philosophy	3
<i>Select either Philosophy Track or Philosophy Honors Track</i>		9
Philosophy Track		
PH 397	Senior Capstone for Majors (3 hrs)	
AND Philosophy Elective credit (6 hrs) ¹		
Philosophy Honors Track		

PH 398	Senior Philosophy Honors Thesis
& PH 399	Preparation and Senior Philosophy Honors Thesis (6 hrs total for both classes)

AND Philosophy Elective credit (3 hrs) ¹	
Value Theory - Select at least two of the following:	
PH 200	General Topics in Philosophy ²
PH 211	Introduction to Ethical Theory
PH 214	Medical Ethics
PH 300	General Topics in Philosophy ²
PH 311	Issues in Ethical Theory
PH 312	Social-Political Philosophy
PH 313	Professional Ethics
PH 315	Philosophy of Law
PH 317	Ethics of Genetic Technologies
PH 319	Midwestern Environmental Ethics
PH 340	Aesthetics
PH 386	Special Studies ²
Metaphysics and Epistemology - Select at least two of the following:	
PH 200	General Topics in Philosophy ²
PH 203	Introduction to Buddhist Philosophy
PH 205	Existentialism
PH 207	Existence of God
PH 300	General Topics in Philosophy ²
PH 302	Philosophy of Religion
PH 320	Advanced Logic
PH 323	Philosophy of Race
PH 325	Philosophy of Mathematics
PH 327	Philosophy of Science
PH 330	Philosophy of Mind
PH 335	Metaphysics
PH 386	Special Studies ²
Total Hours	
33	

- ¹ - Philosophy Honors Track students will complete 3 hours of electives; Philosophy Track students will complete 6 hours of electives.
 - A 100-level course may count toward this elective credit, but only with the permission of the Chair.
 - PH 104 cannot count toward this elective credit for any students, whether they are honors students or non-honors students.
 - At least 21 hours of the 33 must be at the 300 level.
² If course material is appropriate (Chair's discretion).

Philosophy, Minor

Minor Requirements

Code	Title	Hours
PH 220	Symbolic Logic	3
or PH 104	Introduction to Logic and Critical Thinking	
Philosophy Electives ¹		12
Total Hours		15

- ¹ - Selection of courses should be made with departmental advisor and subject to departmental approval.
- 6 hours must be upper division Philosophy courses.
 - Courses may be broadly selected or may be concentrated in an area of particular interest.

Physics

Department of Physics and Astronomy

Website: <https://www.washburn.edu/academics/college-schools/arts-sciences/departments/physics-astronomy/index.html> (<https://www.washburn.edu/academics/college-schools/arts-sciences/departments/physics-astronomy/>)

Faculty

Professor Karen Camarda, PhD, Chair
 Professor Brian Thomas, PhD
 Senior Lecturer Keith Mazachek, PhD

Mission

The mission of the Physics and Astronomy Department is to engage our community in an impassioned and continued search for intellectual growth in the fields of physics, astronomy, engineering, and geology. The department will accomplish this mission by: offering general education courses to all students; providing a comprehensive and personalized foundation for majors, which will prepare them for a career in their chosen field; performing research and scholarship which broadens the horizons of knowledge and informs our teaching, and; providing public access to the planetarium and observatory and conducting educational programs in physics, astronomy, engineering, and geology for the intellectual enrichment of the citizens of the state of Kansas.

Student Learning Outcomes

Physics students at Washburn University, upon graduation, are expected to have:

- Acquired an understanding of the vocabulary and methodology of physics.
- Demonstrated the ability to move from observations to logical conclusions, and apply analytical thinking.
- Acquired knowledge of the subject matter in terms of content, problem solving, experimental design, data reduction and analysis.

Natural Science Concentration

All Bachelor of Science degrees include a required 30-hour natural science concentration, which includes courses chosen from departments in the Natural Sciences and Mathematics Division, other than the student's major department. At least 15 of these hours must be in one department. The 30 hours must be approved by the student's major department chairperson.

Departmental Honors

Students are eligible to receive departmental honors upon graduation if they fulfill the following minimum requirements:

- A grade point average of 3.5 in the major, including a 3.5 in upper-division work in the major.
- Successful completion of PS 360 Physics Research or PS 368 Computational Physics Research.
- Service to the Department, or to the community relevant to the major.
- The recommendation of the Department.

Programs

- Physics, BS (p. 216)
- Physics, BA (p. 216)
- Computational Physics, BS (p. 216)
- Engineering Physics, AS (p. 217)
- Physics, Minor (p. 217)

Course Offerings

AS 101 Introduction to Astronomy/Cosmology (3)

A qualitative study of stellar, galactic, and extragalactic astronomy and cosmology surveying what is known and how it is known.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

AS 102 Introduction to Astronomy - Solar System (3)

A qualitative study of the history of astronomy, the origin, evolution, and functioning of the solar system surveying what is known and how it is known.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

AS 103 Observational Astronomy (1)

Use of telescope, planetarium, and other laboratory equipment commonly used in astronomy together with selected descriptive experiments in astronomy. Prerequisite: AS 101 or AS 102 or consent of instructor.

AS 104 Life in the Universe (3)

A scientific investigation of the question "Are we alone in the universe?"

Course content includes the origin and properties of stars and planets, the requirements for life, and the emergence and sustainability of civilizations. Students will complete a variety of interactive assignments and a term project. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

AS 201 Introduction to Astro Photography (1)

Photographic procedures and techniques peculiar to astronomical photography. Prerequisite: Consent of instructor.

AS 251 General Astronomy (3)

A review of the key ideas and discoveries in astronomy at the intermediate level. Prerequisite: AS 101 or AS 102, and MA 116 with a grade of C or better, or consent of instructor.

AS 360 Research in Astronomy (1-2)

Research in any of the fields of astronomy/astrophysics. Prerequisite: Consent of instructor.

AS 370 Special Subjects/Astronomy (1-5)

Material to be chosen according to student interest from any one of a number of astronomical subjects. Offered on demand as teaching schedules permit. Prerequisite: Consent of instructor.

EG 103 Physics & Engineering Seminar I (1)

An overview of the fields and practice of physics and engineering. Students will participate in weekly readings and discussions, and complete at least one written piece and at least one presentation. Specific content will change each time the course is offered.

EG 105 Introduction to Engineering (3)

Introduction to the professional role of an engineer with an orientation to the academic requirements of engineering studies, responsibilities of engineering students and professionals, discussion of various engineering careers, job site duties, professional development and registration and engineering ethics. Included are problem definition and solution, engineering design and terminology and the role of technology and its influence on society.

EG 116 Engineering Graphics (3)

Elements of geometry of engineering drawing with emphasis on spatial visualization and applications. Freehand sketching, dimensioning, and graphs. Computer aided design and engineering analysis.

EG 250 Engineering Mechanics: Statics (3)

Vector notation; resultants of force systems; analysis of force systems in equilibrium including beams, frames and trusses; analysis of systems involving friction forces; determination of centroids, centers of gravity, second moments of areas, moments of inertia. Prerequisites: MA 151 and PS 281.

EG 303 Physics & Engineering Seminar II (1)

An overview of the fields and practice of physics and engineering. Students will participate in weekly readings and discussions, and complete at least one written piece and at least one presentation. Specific content will change each time the course is offered. Prerequisite: upper-division standing

EG 320 Engineering for STEM Educators (3)

Designed to introduce concepts and applications of engineering to STEM educators. Course will explore various experimental, analysis, and design situations to develop knowledge about how objects work together to perform a function. Experiments will develop an understanding of basic engineering concepts such as motion, solid mechanics, fluid mechanics, thermodynamics, electricity, and magnetism. Analysis of experiments will provide recognition of experimental variables and their relationships to mathematical equations. Significant emphasis is on conceptual understanding of how mathematics and physics work together to solve engineering problems. This course does not satisfy any engineering prerequisite/requirement outside of the STEM education program. Prerequisite: BI 319 Biology for STEM Educators with a "C" or better; concurrent enrollment in MA 320 Mathematics for Middle School Teachers.

EG 351 Engineering Mechanics: Dynamics (3)

Displacement, velocity, and acceleration of a particle; relation between forces acting on rigid bodies and the changes in motion produced; translation; rotation; motion in a plane; solutions using the principles of force, mass and acceleration, work and energy, and impulse and momentum. Prerequisites: EG 250 and MA 152.

EG 360 Mechanics of Materials (3)

Elementary theories of stress and strain, behavior of materials, and applications of these theories and their generalizations to the study of stress distribution, deformation, and instability in the simple structural forms that occur most frequently in engineering practice. Prerequisites: EG 250 and MA 253.

GL 101 Physical Geology (3)

Special emphasis on the observation of the phenomena of erosion, mountain formation, and stream and glacial action. Lecture-recitation and some field trips.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

GL 103 Historical Geology (3)

For students interested in the history and evolution of the planet Earth. Lecture and in-class laboratory work will include exercises with commonly found fossils and geologic-topographic maps. Will provide information about the environment of the early Earth and changes through time.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

PS 101 Physics in Everyday Life (5)

An integrated lecture and laboratory course designed for people pursuing degrees outside the natural or health sciences and who are interested in understanding how physics forms the backdrop of modern life. Topics include motion, gravity, energy, heat, sound, light, electricity, and magnetism, discussed in terms of impact on modern society and everyday life. Laboratory exercises demonstrate physical concepts while emphasizing the scientific process of data collection and analysis. This course requires no previous science or mathematics background and cannot count towards Physics Department degree programs. Fulfills the general education requirement of a natural science course with lab. Course consists of three hours of lecture and three hours of laboratory exercises per week. Prerequisites: None.

Course Attributes:

- Gen Ed AY 2024-2025: Natural and Physical Sciences
- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

PS 103 Physics & Engineering Seminar I (1)

An overview of the fields and practice of physics and engineering. Students will participate in weekly readings and discussions, and complete at least one written piece and at least one presentation. Specific content will change each time the course is offered.

PS 108 Physical Science (3)

Introduces basic physics and chemistry with an emphasis on the understanding and significance of accepted fundamental principles. It provides an opportunity to develop critical thinking suited to pursuing any science, as well as giving a larger perspective than can be obtained by study of a single science. Explores contemporary issues as well as the methods, limitations, and societal implications of scientific advancement. Students will be encouraged to explore the relationship between science and everyday life. For non-majors. Recommended for partial fulfillment of the graduation requirement in natural science. Prerequisite: MA 112 Essential Mathematics or MA 116 College Algebra or higher, or concurrent enrollment.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

PS 120 Meteorology (3)

The Earth's atmosphere and basic circulation patterns including types and classification of clouds and air masses, the formation of fronts, winds aloft computations, principles of forecasting, energy considerations and other associated physical processes. Prerequisite: MA 095 or higher.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

PS 126 Physical Science for Elementary Educators (5)

This course introduces the fundamentals of physics and chemistry, for the pre-service elementary school teacher. The course features lab-based, hands-on activities, and collaborative, inquiry-based exercises. Course activities serve to improve confidence in both scientific process and content learning, with methods applicable to elementary curricula.

Course Attributes:

- Gen Ed AY 2024-2025: Natural and Physical Sciences
- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

PS 131 Biological Physics for the Health and Life Sciences (3)

A one-semester course covering classical and modern physics, designed primarily for students in the health professions. Typical subjects include the laws of motion, gravity, heat, sound, light, electricity, and magnetism. Subjects are treated conceptually along with the use of basic data. Recommended for partial fulfillment of the graduation requirement in natural science. Not applicable toward credit for physics major requirements. Students will not receive credit for both PS 101 and PS 131. Prerequisite: MA 112 Essential Mathematics or MA 116 College Algebra or higher, or concurrent enrollment.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

PS 132 Biological Physics for the Health and Life Sciences Laboratory (1)

A laboratory exploring classical and modern physics, designed primarily for students in the health professions. Experiments in motion, gravity, heat, sound, light, electricity, and magnetism are designed to teach physics concepts and basic laboratory techniques. The course is designed to introduce students to laboratory techniques used in physics emphasizing instrumentation, data acquisition, and analysis. One three-hour laboratory period per week. Recommended for partial fulfillment of the graduation requirement in natural science. Not applicable toward credit for physics major requirements. Prerequisite: PS 131 Biological Physics for the Health and Life Sciences or concurrent enrollment. Concurrently enrolled students may not drop PS 131 and remain enrolled in PS 132.

PS 261 College Physics I (5)

Recommended for medical arts and general science students. Mechanics, heat, and sound are studied. Lecture-recitation and laboratory. Prerequisite: MA 117 or MA 123 or MA 151 (or concurrent). Course Attributes:

- Gen Ed AY 2024-2025: Natural and Physical Sciences
- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

PS 262 College Physics II (5)

A continuation of College Physics I. Electricity, optics and modern physics. Lecture-recitation and laboratory. Prerequisite: PS 261 with a grade of C or better.

PS 281 General Physics I (5)

Required for students who wish to major in physics and astronomy and for pre-engineering students. Mechanics, heat, and sound are studied. Lecture-recitation and laboratory. Prerequisite: MA 151.

Course Attributes:

- Gen Ed AY 2024-2025: Natural and Physical Sciences
- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

PS 282 General Physics II (5)

A continuation of General Physics I. Electricity and magnetism, optics, and modern physics. Lecture-recitation and laboratory. Prerequisite: PS 281 with a grade of C or better.

PS 291 Elementary Computational Physics (2)

An introduction to computer modeling of physics problems using spreadsheet programs, computer algebra systems, and other mathematical software. Prerequisite: MA 151 or concurrent.

PS 303 Physics & Engineering Seminar II (1)

An overview of the fields and practice of physics and engineering. Students will participate in weekly readings and discussions, and complete at least one written piece and at least one presentation. Specific content will change each time the course is offered. Prerequisite: upper-division standing

PS 310 Relativity (2)

Concepts of space and time, frames of reference, Einstein's Theory of Special Relativity and Elements of General Relativity. Prerequisite: PS 262 or PS 282; MA 253.

PS 318 Earth and Space Science for STEM Educators I (3)

Designed to introduce the history, structure, composition, and dynamic processes that shape our planet, as well as the impact humans have on Earth's resources, to STEM educators. Connects astronomy and geology through the study of planetary science and exploration. This course does not satisfy any physics requirement outside of the STEM education program. Prerequisites: CH 317 with a letter grade of C or higher; concurrent enrollment in ED 318.

PS 320 Electromagnetic Theory I (3)

The basic theory of electro-magnetic fields and waves using the calculus and vector methods. Prerequisites: PS 262 or PS 282; MA 253.

PS 321 Electromagnetic Theory II (3)

A continuation of Physics 320. Prerequisite: PS 320.

PS 322 Circuits and Electronics (3)

Design and applications of DC and AC circuits along with electrical measurement and analysis. Topics include filters, complex impedance, Fourier analysis, and semiconductor devices. Two lecture hours and three laboratory hours per week. Prerequisite: PS 262 or PS 282.

PS 330 Optics (3)

Physical and geometrical optics. Lecture-recitation. Prerequisite: PS 262 or PS 282.

PS 332 Optics Lab (1)

Experiments with lens systems, mirrors, aberrations, the spectrometer, interference and diffraction, and polarization. Prerequisite: PS 330 or concurrent enrollment.

PS 334 Thermodynamics (3)

Consideration of heat phenomena, first and second laws of thermodynamics, their principal consequences and application to simple systems, and the kinetic theory of gases. Prerequisite: PS 262 or PS 282; MA 253.

PS 335 Theoretical Mechanics I (3)

A mathematical study of classical mechanics. Rigid body statics and dynamics, kinematics and dynamics of particles and systems of particles, and conservative and non-conservative force fields. Prerequisites: PS 262 or PS 282; MA 253.

PS 336 Theoretical Mechanics II (3)

A continuation of Theoretical Mechanics I. Prerequisite: PS 335.

PS 340 Computer Interfacing and Instrumentation (3)

Design and implementation of scientific instruments via computer interfacing, emphasizing both software and hardware considerations. LabVIEW and Arduino platforms are used specifically. Two lecture hours and one three-hour laboratory per week. Prerequisites: PS 262 or PS 282

PS 350 Modern Physics I (3)

Phenomena specific to the extra-nuclear structure of the atom; phenomena peculiar to the atomic nucleus; introduction to quantum and wave mechanics, and relativity. Prerequisites: PS 262 or PS 282; MA 253.

PS 351 Modern Physics II (3)

A continuation of Physics 350. Prerequisite: PS 350.

PS 352 Modern Physics Laboratory (1)

Measurements of constants fundamental to atomic physics: Planck's constant, electron charge and mass, speed of light, etc. Techniques of nuclear alpha, beta and gamma ray spectroscopy. Prerequisite: PS 350.

PS 360 Physics Research (1, 2)

Experimental design and techniques. Extensive use of technical literature will be necessary. Independent work is encouraged. This Capstone requires summative reflection, serving as a culminating experience for Bachelor's degree students. Prerequisite: Consent of instructor.

PS 365 Introduction to Theoretical Physics (3)

Application of ordinary and partial differential equations, Fourier series and Transforms, partial differential equations with solution methods, and tensor analysis as applied to problems in the fields of physics and engineering. Prerequisites: PS 262 or PS 282 or concurrent enrollment; MA 253.

PS 366 Introduction to Computational Physics (3)

Techniques and models in computational physics. Prerequisites: PS 262 or PS 282; MA 253.

PS 368 Computational Physics Research (1)

Computational physics research in any of the areas of physics. A written and an oral presentation of the work is required. This Capstone requires summative reflection, serving as a culminating experience for Bachelor's degree students. Prerequisite: Departmental permission.

PS 370 Special Subjects in Physics (1-3)

Offered on demand as teaching schedules permit. Material is to be chosen according to student interest from any one of a number of fields of physics. Prerequisite: consent of instructor.

Physics, BS

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Science (p. 75) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Code	Title	Hours
Required Courses Inside Department		
PS 103	Physics & Engineering Seminar I	1
Select one of the following physics sequences:		10
PS 261 & PS 262	College Physics I and College Physics II	
PS 281 & PS 282	General Physics I and General Physics II	
PS 303	Physics & Engineering Seminar II	1
PS 320	Electromagnetic Theory I	3
PS 330	Optics	3
PS 334	Thermodynamics	3
PS 335	Theoretical Mechanics I	3
PS 350	Modern Physics I	3
PS 360	Physics Research	1,2
PS 365	Introduction to Theoretical Physics	3
PS 366	Introduction to Computational Physics	3
Select two of the following upper division laboratory courses		2-6
PS 322	Circuits and Electronics	
PS 332	Optics Lab	
PS 340	Computer Interfacing and Instrumentation	
PS 352	Modern Physics Laboratory	
Total Hours		36-41

Physics, BA

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

In addition, all Physics (BA) majors must complete a minor, certificate, or additional major; students must declare this with the department that grants it.

Code	Title	Hours
Required Courses Inside Department ¹		
PS 103	Physics & Engineering Seminar I	1
PS 303	Physics & Engineering Seminar II	1
Other Physics Courses ^{2, 3}		23
Total Hours		25

¹ At least 6 hours of major courses in the Department must be taken in residence at Washburn University.

² At least 11 of the 23 hours must be upper division hours.

³ These hours cannot include credits in PS 101 Introduction to Physics, PS 120 Meteorology, PS 126 Physical Science for Elementary Educators, PS 131 Biological Physics for the Health and Life Sciences and PS 132 Biological Physics for the Health and Life Sciences Laboratory and AS 101 Introduction to Astronomy/Cosmology, AS 102 Introduction to Astronomy - Solar System and AS 103 Observational Astronomy.

Computational Physics, BS

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Science (p. 75) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Political Science and Public Administration

Department of Political Science

Website: <https://www.washburn.edu/academics/college-schools/arts-sciences/departments/political-science-public-administration/index.html>
(<https://www.washburn.edu/academics/college-schools/arts-sciences/departments/political-science-public-administration/>)

Faculty

Professor Bob Beatty, PhD, Chair
Professor Linsey Modellmog, PhD
Associate Professor, Amber Dickinson, PhD
Lecturer, Bill Fiander, MA

Mission

Consistent with the missions of the University and the College of Arts and Sciences, the Department of Political Science offers students the opportunity to deepen and broaden their knowledge of the theories and functions of politics, policy and governance which regulate the civic interactions of both peoples and sovereignties in the United States of America and internationally. Students enrolled in the offerings of the department will learn to critically examine the laws, organizations, political practices and public behaviors/involvements in the workings of governments both foreign and domestic. Through engaged teaching, guided practical involvement, and mentored scholarly research, faculty contribute to the intellectual development of students who acquire skills for the examination and understanding of the discipline. In addition to the academic/classroom experience, opportunities are provided for observation, participation in, and assessment of the political environment through internships, field study, and the opportunity to experience and interact with public officials, analysts and policy experts through course offerings and events.

Description of the Discipline

Political Science is the study of governments, public policies and political behavior using both humanistic and scientific perspectives and skills to examine the countries and regions of the world. See www.apsanet.org (<http://www.apsanet.org>).

The Political Science Department administers the two degrees of political science (BA) and public administration (BPA), and a Certificate of Non-Profit Management (see also the Department of Human Services).

The Bachelor's degree in Political Science (BA) seeks to prepare well-rounded students who understand politics and policies domestically, internationally, theoretically, and administratively. The BA in Political Science is for those who plan to go on to graduate or law school, careers in public affairs or public employment, or who seek a well-rounded liberal arts education in preparation for any number of life callings.

The Department offers a Bachelor of Public Administration degree (BPA) that emphasizes public and non-profit management. We also offer jointly with the Department of Human Services in the School of Applied Studies the Certificate of Non-Profit Management.

Student Learning Outcomes

Political Science students at Washburn University, upon graduation, are expected to have acquired knowledge in four of the following five subfields:

- The political institutions and processes of the governments of the United States.
- International political issues, significant international organizations, and the world political economy.
- The field of comparative political institutions and political processes.
- The field of public administration, its processes, and the general principles and problems of complex public organizations.
- Interpret the meaning and significance of political data.

Departmental Honors

3.5 overall GPA and a 3.5 Political Science/Public Administration GPA

Programs

- Political Science, BA (p. 220)
- Bachelor's Degree (BPA) in Public Administration (p. 221)
- Government and Political Science Secondary Education, BEEd (p. 222)
- Political Science, Minor (p. 223)
- Public Administration, Minor (p. 223)
- Non-Profit Management, Certificate (p. 223)

Course Offerings

PO 106 The Government of the United States (3)

Theory, organization and functioning of our democratic government in modern society with special emphasis on the national government and its relations with the states. The role of government in a democratic society as a supplier of services, the embodiment of values and the arbiter of conflict is stressed.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

PO 107 Kansas, State, and Local Government (3)

Examines American state and local politics, government, and public policies from the grassroots to the institutional level with a particular emphasis on the similarities and differences that exist in Kansas in comparison to the characteristics found in the rest of the states. Contrasting the fundamental differences between states and localities and the national government is also an emphasis of the course.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

PO 225 Introduction to International Politics (3)

Theory and practice of international politics with special attention to foreign policy and decision-making process, major issues facing the international system, the role and functions of international and transnational organizations with respect to conflict and cooperation in the international community.

Course Attributes:

- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

PO 235 Governments of the World: Comparative Politics (3)

Examines selected governments of the world. Basic concepts, theories and methods in comparative analysis of political institutions, processes, and policies of nations. Case studies of selected political systems developed and developing, Western and non-western, democratic and non-democratic illustrate the analytical approaches.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

PO 245 Introduction to Public Administration (3)

Designed to acquaint the student with the organization and functioning of the administration of government. Includes introduction to theories of administration, policy and administration values, study of the governmental bureaucracy and administrative behavior.

PO 255 Introduction to the American Legal System (3)

Designed to acquaint the student with the basic institutions and procedures of the American legal system. Also a very basic introduction to substantive areas of American law such as: torts, contracts, civil procedure, regulation of business.

Course Attributes:

- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

PO 300 Special Topics/Political Science (1-3)

Topics will vary from semester to semester and will be announced in advance.

PO 305 Public Policy (3)

Examines the role of government as a supplier of services to its citizens. It will cover the following topics: the nature of politics and policy, social problem identification and articulation, interest groups and the formation of public policy, the analysis of policy content, policy implementation, and policy evaluation.

PO 306 American Urban and Metropolitan Planning (3)

Analysis of historical, political, economic, social, and physical development of urban America. Emphasis will be placed on evolution of the post-industrial American city through its contemporary form, solutions to urban problems through local and regional planning, and how communities are shaped by the land use, transportation, urban design, public policy, housing, political, economic, environmental, social equity, legal, and ideological contexts of urban and metropolitan government decision-making.

PO 307 Internship (3-6)

Experience in the administration of any public, private, or non-profit operation or service related to the political science or public administration field. Prerequisites: PO 107 and/or consent of instructor. Junior or Senior standing.

PO 308 American Elections and Federalism (3)

Examines American national elections in the context of the American federal system. A study of the nature, patterns, and impact of American federalism, including historical, fiscal, economics, policy and political significance.

PO 309 Kansas Legislative Experience (3)

Analysis of the Kansas legislature and governor, along with other state-wide offices and the media — how all function within the governmental system of Kansas. Along with an in-depth study of the legislative session, the student will be required to attend legislative committee meetings, floor debates, and gubernatorial press conferences. Students will also conduct participant observation within a legislative or executive branch office.

PO 325 Advanced International Relations (3)

The course will examine traditional realist approaches to international power; alternative perspectives to power politics; American foreign policy; and understandings of the roots and resolution of international conflict.

PO 332 Politics through Film & Literature (3)

Exposes students to the nature and varied dynamics of politics through film and literature. Emphasis will be placed on classical, modern, and post-modern understandings of politics as expressed in film and literature with the expectation of sharing an informed and inviting view of politics in the Western world.

PO 335 Advanced Comparative Politics (3)

A study of the governments politics, policies and political cultures of the countries in particular regions of the world e.g. Latin America, Central and Western Europe, or China, Japan and Eastern Asia. Analysis of the political processes, government institutions, national and multi-national alliances, public policies, political economies, cultures, interest groups and leaders that shape the political landscapes of the particular region covered in a given semester constitutes the scope of each semester's class. A specific emphasis on the forces of political and economic change will be central to the course.

PO 337 Religions and Politics (3)

Describes the many current trends of religions and politics in the U.S. focusing on the major religions and their political teachings, considerable political power and activism in contemporary American politics, society and life. Prerequisite: 3 hours of political science, or consent of the instructor.

PO 343 Administrative Law (3)

The scope of the law as it applies to administrative agencies of the government. Focuses on the powers of agencies, administrative rule-making, regulatory activities, due process, and judicial review of administrative actions.

PO 346 Problems in Public Administration (3)

Problems and cases involved in administering public policy.

PO 371 Topics: American Politics and Government (3)

At the discretion of the instructor this course may investigate any aspect of the theories, institutions, contexts, or contemporary problems of American politics and government. Chief subject elements they include are the various branches of American government, federalism, constitutionalism, the roles of the press, public opinion, interest groups and non-governmental policy and service institutions, and the various policy fields of the government, e.g. economic, welfare, education, public health, and military defense.

PO 372 Topics: Comparative Politics (3)

At the discretion of the instructor this course may investigate any aspect of the theories, institutions, contexts, or contemporary problems of comparative politics. Chief subject elements may include regional international alliances, democratization, non-democratic governmental systems, international political economy, human rights issues, global trade, the international political implications of immigration, food production, environmental degradation and restoration, species migration, and climate change.

PO 373 Topics: International Relations (3)

At the discretion of the instructor this course may investigate any aspect of the theories, institutions, contexts, or contemporary problems of international relations. Chief subject elements may include theories of nation-state interaction, negotiation, and war, American foreign policy, and examining aspects of changing global hegemonic power.

PO 374 Topics: Public Administration (3)

At the discretion of the instructor this course may investigate any aspect of the theories, institutions, contexts, or contemporary problems of the field of Public Administration including but not limited to: the theories of bureaucratic administration; public law; personnel management and labor relations; organizational theory, management and behavior; public policy making, implementation, and evaluation; intergovernmental relations; leadership; public finance, budgeting and auditing; urban planning.

PO 386 Independent Study (1-3)

Studies in the selected fields of Political Science and Public Administration. May be taken until three credit hours are earned. This course is repeatable for another 1-3 hours if the topic areas differ. Prerequisite: Senior Political Science or Public Administration majors or approval of the department head.

PO 390 Applied Political Research (3)

Introduction to utilization of basic research techniques in public administration and political science.

PO 391 Managing People in Public Organizations (3)

The fundamental principles, techniques, and legal constraints that guide human resource relationships with employees serving the public. Particular attention is given to budgets, civil service and union environments, retention and attraction of talent, benefits, organizational relationships including executive and legislative, professional development, inclusiveness, and other relevant employment demands in the public sector.

PO 393 Managing Public Money (3)

The politics of planning, financing, and managing governmental budgets at the national, state, and local levels. Develop necessary skills to engage in financial analysis to make better decisions for the public.

PO 394 Challenges Managing Public Organizations (3)

This class explores concepts and practices in organization behavior and management theory as they apply to public organizations. It covers dynamics associated with organizational structures, accountability, and culture and dynamics of risk in leadership, collaboration, performance and contracting. It emphasizes approaches to understanding the dynamics of individuals, groups, and teams within organizations.

PO 395 Non-Profit Management and Leadership (3)

A survey of the various forms and particular differences of the management and operation of Non-Profit organizations as distinguished from traditional government administration. Elements of leadership will be emphasized.

PO 396 Topics in Applied Research (3)

This is an expansion of the methodological foundation laid in PO 390, the required methodology course for PO majors. In this course the basic techniques and tools introduced in PO 390 are reviewed and expanded to include contemporary techniques in multi-variate analysis. Students will also be expected to develop and complete research inquiries into relevant quantitative and/or qualitative data, and prepare and present their analysis before a departmental audience. Prerequisite: PO 390 or by permission of the course instructor.

PO 397 Advanced Applied Research (3)

This is an advanced course in social science research methodology involving instruction and student participation in various aspects of the research enterprise as used by political campaign staffs, consultants, public agencies and other public policy investigative organizations. Possible areas of investigation include but are not limited to survey research design, questionnaire development and testing, focus group research, quasi-experimental research design and execution, qualitative research tools, multi-variate statistical analysis, OLS regression analysis, data description, and presentation formatting. Prerequisite: PO 390 or by permission of the course instructor.

PO 401 Equity and Hard Choices in Public Administration (3)

The most vital methods of evaluating the effects of public policies, programs and agency goals of government and non-profit agencies as viewed through the tensions of equitable and political environments.

PO 450 Seminar in Political Science and Public Administration (1)

Required course for all political science and public administration majors and should be taken after student has completed sixty hours of university coursework. Course is a review of major areas of political science and public administration and also helps students develop skills and gain insight into preparing for post-graduate study and careers.

**Political Science, BA
Degree Requirements**

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Bachelor's Degree (BPA) in Public Administration

Mission

The Bachelor of Public Administration Degree is offered through the Political Science Department. The mission of this program is to prepare exceptionally versatile leaders in public service whose aspirations are rooted in the advancement of the public good, sustainability, and equity. Students will have the capacity to solve their community's biggest challenges using a foundation of critical thinking skills across political, social, economic, legal, and analytical spectrums.

The Political Science Department and the Family and Human Services Department also jointly offer a Certificate of Nonprofit Management.

Student Learning Outcomes

Public Administration students at Washburn University, upon graduation, are expected to have acquired foundational knowledge and skills in the following subfields driving public decision-making processes:

- Data visualization and analyzing
- Communication and engagement with community members, elected officials, and other stakeholders
- Leadership and management
- Political, economic, organization, and urban/regional planning theory.
- Ethical and legal practices to enhance community service delivery.

- Consideration of equity, sustainability, efficiency, effectiveness, and economy for agency outcomes.
- Program and policy development/evaluation
- Human resource development
- Budgeting and funding

Degrees and Certificates

The Bachelor of Public Administration (BPA) degree leads to employment in national, state or local governments, non-profit agencies, or certain aspects of business relating to human resources management, government relations or government regulations. The BPA degree requires 40 political science, public administration, and inter-disciplinary credit hours as described below including an internship/work requirement in a public service capacity. An inter-disciplinary concentration in management analyst, sustainable communities, or non-profit management certificate is required unless substituted with another department's major/minor as approved by the advisor.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Public Administration (p. 74) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Government and Political Science Secondary Education, BEd

The B.Ed. in Government and Political Science provides students with a program to complete degree requirements within 120 credit hours while continuing to earn the same core curriculum as all other Education majors, acquire content knowledge emphasizing government and political science, and satisfy Kansas State Department of Education (KSDE) 6-12 licensure standards.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Education (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Students seeking certification to teach Government and Political Science must also be formally admitted to the University's Professional Teacher Education (p. 291) Programs.

Non-Profit Management, Certificate

Move up in your career and make a difference in your community by earning a certificate in Non-Profit Management. Our program offers specialized training that prepares you to work as a leader in the non-profit sector. Graduates may find employment in a wide variety of non-profit organizations such as social welfare agencies, public charities, foundations, advocacy groups or health care entities. You also may choose to continue your education with a master's degree in fields such as public administration or social work. Managing a non-profit agency is challenging work, but the rewards are great when you provide important services to the community. Be part of a profession that focuses on vital issues and fosters hope for the future!

This program is an interdisciplinary certificate offered in collaboration with Washburn's Family and Human Services and Political Science departments.

Awarded upon completion of a Bachelor degree, and completion of 27 credit hours as follows:

HS 495	Research and Evaluation	3
or PO 401	Equity and Hard Choices in Public Administration	
Approved Internship in Family and Human Services or Political Science (HS 381, HS 480, HS 481 or PO 307)		3
Total Hours		27

¹ PO 346 & PO 374 require advisor approval.

* This certificate is offered in collaboration with the Family and Human Services and Political Science Departments. Courses required a C or better.

Pre-Professional Studies

Pre-Dentistry

Biology Advisors

Professor John Mullican
john.mullican@washburn.edu

Associate Professor Andrew Herbig
andrew.herbig@washburn.edu

Associate Professor Paul Wagner
paul.wagner@washburn.edu

Associate Professor Tracy Wagner
tracy.wagner@washburn.edu

Chemistry Advisor

Professor Sam Leung
sam.leung@washburn.edu

Students preparing to enter dental school should consult an advisor during their first year in college. Students should consult the catalog of the dental school(s) to which they plan to apply. Specific admissions requirements on each dental school may be found at www.adea.org (<http://www.adea.org>) but in general students must have a four-year degree with strong foundations in the natural sciences (e.g., biology, chemistry, and physics) with coursework in the social sciences, humanities, applied arts, and business being strongly recommended. In general, the program for the pre-dental student is similar to that for pre-medical students.

Pre-Law

College of Arts and Sciences Advisor

Professor Linsey Modellmog,
linsey.modellmog@washburn.edu

School of Applied Studies Advisor

Associate Professor Amy Memmer
amy.memmer@washburn.edu

School of Business Advisor

Professor Rosemary Walker
rosemary.walker@washburn.edu

The student preparing to enter Washburn School of Law or any quality school of law should seek a broad undergraduate education which should include courses in English, economics, history, political science, philosophy, sociology and criminal justice and legal studies. Courses that develop the ability to write and speak clearly and correctly, as well as those courses that help to attain exactness of thought and the ability to make valid analytical comparisons and differentiations, are desirable. The student interested in pre-legal education should seek the advice of a pre-law advisor early in his/her college career. Pre-law advisors may be found in a number of departments including Political Science, History, Criminal Justice and Legal Studies, Philosophy, Psychology, English, Communication, and the School of Business. You should begin preparing for the LSAT early in your college career. Extracurricular activities such as Washburn Student Government Association, the Washburn Transformational Experience, Debate, Mock Trial, and the Pre-Law Club can help students gain valuable experience outside the classroom in preparation for law school. For information about pre-law

related activities, students should contact a pre-law advisor in their area of study.

Law Early Admission Program

Washburn has an early entry program for our students who desire to attend the Washburn School of Law. The Law Early Admission Program (LEAP) allows Washburn undergraduates to apply, and if accepted, apply courses toward the law degree to the completion of the undergraduate degree.

If accepted to LEAP, students may enter Washburn's School of Law during what would have been their last year of undergraduate work. The program allows for the last 29 credits of undergraduate work (elective credits, or those designated by their program) to be satisfied by the successful completion of the first year of law school (or 29 credits). LEAP was primarily designed for incoming freshmen as it requires careful consultation with an advisor to make the credits work out right. However, theoretically, any enrolled Washburn student may apply for entry into LEAP if they can make the credit requirements. Not all majors can LEAP to Law School, please see the appropriate pre-law advisors for advising or the Washburn LEAP webpage for a list of applicable majors.

LEAP Admission Requirements

- A high school GPA of 3.0 or higher on a 4-point scale; or
- An ACT score in the top quartile (28-36) or a comparable SAT score; or
- A GPA of 3.0 for current Washburn or transfer students with at least 15 or more undergraduate credit hours; and
- An application and an acceptance decision by a pre-law advisor.

LEAP Completion Requirements

- Maintain a 3.0 undergraduate GPA
- Take the LSAT as administered by the Law School Admissions Council (LSAC)
- Apply to Washburn Law by the deadline for the semester that the student plans to attend
- Earn admission to Washburn Law, including mandated character and fitness review that is necessary for admission to both law school and the bar
- Complete all requirements for undergraduate graduation (see more information below, excluding the remaining 29 credit hours to be completed with law school credits)

LEAP Benefits

- Washburn Law will provide LEAP students with a mentor from the Washburn Law faculty, or from the local bench or bar, to assist the student with preparation for law school and a career in the law
- Fee waiver for application to Washburn Law
- In-state tuition fees for each year of enrollment
- A full-tuition scholarship for the first year of law school at Washburn University
- Minimum of \$5,000 scholarship per year for years two and three of law study, contingent on successful academic progress

Pre-Medicine

Biology Advisors

Professor John Mullican
john.mullican@washburn.edu

Associate Professor Susan Bjerke
susan.bjerke@washburn.edu

Associate Professor Paul Wagner
paul.wagner@washburn.edu

Associate Professor Tracy Wagner
tracy.wagner@washburn.edu

Chemistry Advisor

Professor Sam Leung
sam.leung@washburn.edu

Students preparing to enter medical school should ideally consult an advisor during their first year in college. Most medical schools prefer a four-year degree preparation with strong foundations in the natural sciences (e.g., biology, chemistry, and physics), the humanities and social sciences (e.g., anthropology, sociology and psychology) and English. Additionally, pre-medical students should acquire significant experience in a health care environment involving direct patient contact, and become active in appropriate service activities. The Medical College Admission Test (MCAT) is required for students applying to either an allopathic (M.D.) or osteopathic (D.O.) medical school and is typically taken shortly after the junior year in college. The pre-medical student is urged to consider choosing certain medical schools to which they might apply before the junior year in college. The exact course of study applicable to any student's background can best be established in consultation with a pre-medicine advisor.

Pre-Nursing

Louisa Schurig, Advisor
louisa.schurig@washburn.edu

Washburn University offers the four-year baccalaureate program in Nursing and pre-nursing course requirements for students preparing to enter the Nursing Major. The Bachelor of Science degree prepares the graduate to write the national licensure exam (NCLEX) to become a registered nurse.

Pre-nursing students interested in the Washburn Bachelor of Science Degree in nursing should schedule academic advisement in the School of Nursing (Petro Allied Health Center, Rm 203).

Pre-Pharmacy

Biology Advisor

Professor Matt Arterburn
matt.arterburn@washburn.edu

Chemistry Advisor

Professor Seid Adem
seid.adem@washburn.edu

Most students in the pre-pharmacy program transfer to the School of Pharmacy at the University of Kansas, which requires about 68 hours (approximately two years) of college level pre-professional studies prior to admission to the professional program. The exact course of study applicable to any student's background can only be established in consultation with the pre-pharmacy advisor. Students normally complete the Associate of Arts in Laboratory Science as part of the pre-pharmacy curriculum.

Pre-Veterinary Medicine

Associate Professor, Benjamin Reed
benjamin.reed@washburn.edu

Most state schools of veterinary medicine have preferred admission of residents of that state, and certain numbers of applicants from cooperating states lacking veterinary schools. Private schools accept applications from all qualified students. Kansas residents would ordinarily apply to the Kansas State University School of Veterinary Medicine. All of the required Pre-Veterinary courses can be taken at Washburn. Practical experience with animals, especially in a veterinary context, is important in making successful application. Program details are available from the pre-veterinary advisor or the Department of Biology.

Psychology

 Professor Michael McGuire, PhD
 Associate Professor Linzi Gibson, PhD
 Associate Professor Dave Provorse, PhD
 Assistant Professor Julie Boydston, PhD
 Assistant Professor Tucker Jones, PhD

Mission

We promote the value of psychological science through a personalized, quality education that helps students to create a more fulfilling life, prepares them for future careers, and builds stronger communities.

Student Learning Outcomes

Psychology students at Washburn University, upon graduation, are expected to be able to achieve the following outcomes:

- Students will use various technologies (e.g. computers, statistical software packages, empirical databases) to find, describe, evaluate, and apply key concepts, theoretical perspectives, historical trends, and overarching themes in psychology.
- Students will use critical and creative thinking, skeptical inquiry, scientific literature, and the scientific method to solve problems, explore, evaluate, and draw logical and objective conclusions about psychological phenomena.
- Students will engage in ethically and socially responsible behaviors to express the need to tolerate ambiguity, articulate an understanding of/respect for diversity and individual differences and their roles in psychological theory and research, and to explain the importance of civic engagement for psychology.
- Students will skillfully communicate about psychology in written and oral forms to use discipline-specific conventions and formats and to manage interpersonal communication in groups or teams.
- Students will apply psychological principles to personal and professional growth to make informed career decisions, to identify and pursue realistic career/graduate education paths, to take practical career steps, and to practice professional integrity.

Departmental Distinction

Psychology majors with a GPA of 3.7 or higher in all Psychology classes are eligible to graduate with departmental distinction.

Departmental Honors

Psychology majors with a GPA of 3.5 or higher in all Psychology classes are eligible for departmental honors by demonstrating superior research skills or scholarship. To graduate with departmental honors in psychology, students must complete one of the four options outlined in the Departmental Honors Worksheet.

- Option one requires the student to complete PY 390 Directed Research, produce an Honors Thesis based upon their study, and defend it before a faculty committee.
- Option two requires the student to complete two unrelated Washburn Transformational Experiences in Psychology (e.g., an internship and empirical project; two empirical projects with separate data collection).
- Option three requires the student to complete PY 336 Internship, publicly present their internship experience and related scholarly research, and provide significant service to the Psychology Department.
- Option four requires the student to complete PY 390 Directed Research and present the results of the study in a forum off campus (e.g. Annual Meeting of the Midwestern Psychological Association).

Students are encouraged to begin these projects no later than the first semester of their senior year. More information about honors is available from a departmental advisor.

Psi Chi

The national honorary psychology society, Psi Chi, is represented at Washburn University by a chapter chartered in 1968. Membership is conferred each year upon advanced psychology students whose grades in psychology meet the prescribed national and local requirements.

Independent Work in Psychology

The department encourages all interested and qualified students to pursue a program of independent work in psychology by participating in one or more of the following three courses.

Code	Title	Hours
PY 336	Internship ¹	1-3
PY 389	Independent Study ¹	1-3
PY 390	Directed Research ¹	1-3

¹ It is generally recommended that a student should have completed at least 15 hours in Psychology, including PY 251 Research Methods in Psychology, prior to enrolling in any of the above courses.

Interested sophomores, juniors, and seniors are required to arrange independent work with their departmental advisor during the semester prior to enrolling in these courses.

Sport Psychology

Students interested in Sport Psychology should meet with either the Psychology Department Sport Psychology advisor (Dr. Provorse) or an advisor in the Kinesiology Department to obtain a list of courses which prepare students to meet application eligibility requirements for graduate programs which offer training leading to careers in Sport Psychology.

Programs

- Psychology, BA (p. 229)
- Psychology, Minor (p. 229)

Please see the Graduate (<https://catalog.washburn.edu/graduate/college-arts-sciences/>) catalog for additional information regarding the department's graduate program:

- Master of Arts - Psychology (<https://catalog.washburn.edu/graduate/college-arts-sciences/master-arts-psychology/>)

Course Offerings

PY 100 Basic Concepts in Psychology (3)

An introduction to fundamental areas of Psychology including an overview of the concepts and methods of such areas as perception, learning, motivation, memory, development, personality, abnormal and social.

Course Attributes:

- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

PY 151 Psychological Statistics (3)

The course will introduce students to descriptive and inferential statistical techniques used in contemporary psychology. The course will not only help students understand the mathematical and statistical concepts presented but also to assist in the application of the procedures. Prerequisite: PY 100 with a grade of C or better, or concurrent enrollment, and MA 090 or MA 095.

PY 209 Psychological Development through the Life-Span (3)

Psychological research and theories which describe and explain life-cycle stability and change in perception, cognition, language, psychomotor behavior, personality, interpersonal relationships, etc. Prerequisite: PY 100.

PY 210 Psychology of Infancy and Childhood (3)

Overview of theory and research on the psychological development of infants and children. Included are the development of sex roles, aggression, friendship, attachment to parents, perception, cognition, language, and moral reasoning and behavior.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

PY 211 Adolescent Psychology (3)

Theory and research on adolescent personality, social and cognitive development, including problems of adjustment during the teenage years.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

PY 212 Psychology of Adulthood and Aging (3)

Psychological theory and research on the changes and continuities of the adult years: personality, intelligence, memory, sex roles, interpersonal relationships, death and dying, and the psychological consequences of physical and health changes.

Course Attributes:

- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Information Literacy and Technology

PY 231 Abnormal Psychology (3)

A survey of the origins, processes, and diagnostic characteristics of representative syndromes of maladaptive behavior.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

PY 234 Applied Behavior Analysis (3)

Elementary principles of learning & their application for managing the behavior of normal & abnormal populations in a variety of settings including schools, mental institutions, hospitals & businesses.

Prerequisite: PY 100.

PY 251 Research Methods in Psychology (3)

This course is an introduction to research methods in psychology. The goals of the course are for the student to learn how research is planned, carried out, communicated, and critiqued. Although only a few of students may pursue a career as a research psychologist, everyone is a consumer of research from psychology and other scientific disciplines. As such, a major goal of this course is to develop the capacity for critically evaluating "scientific evidence" that is communicated in journals, magazines, newspapers, and news programs. Prerequisite: PY 100.

PY 295 Special Topics (1-3)

Selected topics in psychology, announced in advance. Prerequisite: Specified for each topic.

PY 299 Psychological Forum (1)

Survey of applied issues in the profession of Psychology including an overview of employment and graduate school opportunities as well as vocational techniques for achieving those goals. Pass/Fail Only. Prerequisites: PY 100 and Sophomore Psychology Major.

PY 301 Principles of Learning (3)

Examines factors involved in acquiring and changing behaviors. Theories, historical and current models, and empirical findings in the field of learning and memory are explored. Prerequisite: PY 100.

PY 305 Sensation & Perception (3)

Focus on the anatomy and functions of sensory systems (vision, audition, olfaction, gustation, haptics). Emphasis on differences in theoretical backgrounds. Prerequisite: PY 100.

PY 306 Cognition (3)

A study of the intellectual structures and processes involved in the acquisition, storage, transformation, and use of knowledge. Prerequisite: PY 100.

Course Attributes:

- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

PY 307 Physiological Psychology (3)

Examines the physiological basis of psychological phenomena (e.g., behavior). Concentrates on the function of biological systems on both general and specific behaviors. Prerequisite: PY 100.

PY 309 Theories of Personality (3)

Psychological theories of personality, including psychoanalytic, learning, and humanistic approaches. Prerequisite: PY 100.

PY 310 Social Psychology (3)

Theory and research on cognitive and behavioral responses to social stimuli. Prerequisite: PY 100.

PY 311 Multicultural Psychology (3)

This course is an introduction to multicultural psychology theory, research, and practice. In this class, students will develop multicultural competencies (i.e., knowledge, awareness, and skills) and cultural humility (i.e., openness, curiosity, perspective taking) in order to prepare them to live and work with individuals from diverse backgrounds. No prerequisites.

PY 312 Psychology of Creativity (3)

Exploration of the many facets of creativity, including the nature, measurement, prediction, and cultivation of creativity, and its relationship to other cognitive abilities. Prerequisite: PY 100.

PY 314 Personality and Social Behavior (3)

Description of the characteristics that distinguish individuals and a review of the processes by which these characteristics are thought to be established and changed. Prerequisite: PY 100.

PY 316 Consumer Psychology (3)

Psychological principles and theories of learning, perception, motivation, attitude formation, personality and decision making are examined as they affect consumer behavior and the influence process.

PY 317 Music and the Brain (3)

Study of the biological processes of active and passive music involvement and the resulting effect on individuals' learning, physical health, and mental well-being. Includes an experimental component. Prerequisite: EN 101 and BI 100 or higher; or PY 100; or consent of instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

PY 320 Psychological Testing and Measurement (3)

Theory and methods in psychological measurement, and their application to the construction, selection, and interpretation of psychological tests. Includes a survey of representative personality and ability tests. Prerequisite: PY 100.

PY 325 Community Psychology (3)

The study of community and organizational approaches to intervention and prevention strategies for mental health care, general health care, and various social problems. Prerequisite: PY 100.

PY 326 Health Psychology (3)

Introduction to the contributions of psychology to the prevention and treatment of illness, promotion and maintenance of health, and the improvement of the healthcare system. Topics include the role of stress and physiological factors in illness, chronic pain disorders and pain management, lifestyle and psychosocial influences on health, complementary and alternative methods for health promotion, and interpersonal factors involved in illness and health. Prerequisites: PY 100.

PY 327 Correctional Psychology (3)

An introduction to the field of Correctional Psychology. Applies psychological theories, principles and research to correctional issues. Topics include inmate behavior, women in prison, and psychological disorders found among offenders and prevention of fatigue, stress, and burnout in staff members. Prerequisite: PY 100 or consent.

PY 333 Counseling Psychology (3)

Major theories and techniques of psychological counseling. Prerequisite: PY 100.

PY 336 Internship (1-3)

Supervised experience in the application of psychological concepts and methods or volunteer work. Work in non-classroom situations required. Arrangements for enrollment must be completed prior to registration. (May be used to meet Senior Capstone Experience requirement). Pass/Fail Only. Prerequisites: One related advanced course and consent of instructor.

PY 338 Childhood Psychopathology (3)

An overview of psychological and behavioral disorders of children and adolescents, including their characteristics, origins, and treatment. Prerequisite: None.

PY 339 Psychology of Sex and Gender (3)

This course will examine and analyze ways biology, culture, and society shape females' and males' identities, life experiences and other aspects of psychology. To study the psychology of sex and gender, we will examine historical views, physiology, socialization, friendships, sexuality, romantic relationships, childbearing and rearing, work, and mental and physical health. Prerequisite: PY 100.

PY 350 Introduction to Clinical Psychology (3)

Clinical Psychology as a science and a profession. The history, scope, ethics, theories, and methods of clinical psychology. Prerequisite: PY 100.

PY 353 Psychology of Everyday Life (3)

Applications of psychological theory and research in common life arenas, including family, work, and interpersonal relationships. Prerequisite: PY 100.

PY 356 Psychology of Marital and Family Processes (3)

An overview of psychological theories and research pertaining to family processes and the influence of the family on the psychological development of the individual. Topics to be covered include various psychological theories pertaining to family functioning, family dysfunction and divorce, and relationships between family functioning and psychopathology. Prerequisite: PY 100.

PY 385 From Classroom to Career (3)

Students work with the instructor and career services to hone professional development skills to transfer from the classroom into their careers and review academic literature relating to some aspect of professional development. This course helps to address APA's Professional Development guidelines for undergraduate psychology majors. (May be used to meet Senior Capstone Experience requirement.) Prerequisites: PY 100

PY 386 Advanced Research Design/Scientific Writing (3)

This course is primarily designed for students considering directed research and graduate school. This course will provide students with hands-on experience with regard to experimental research methods. Students will gain the skills necessary to conduct a literature review that will then be used to design, conduct, and analyze a novel empirical investigation. This course will enhance student's writing skills, with an emphasis on scientific writing using APA format. Prerequisites: PY 151 and PY 251 with grades of "C" or better; 3.0 cumulative GPA.

PY 387 History and Systems of Psychology (3)

An examination of philosophical and empirical roots that led to the development of the discipline of psychology and the historical progression of ideas central to modern psychology. (May be used to meet Senior Capstone Experience requirement). Prerequisite: Psychology Senior or consent.

- PY 388 Directed Collaborative Research (3)**
Supervised small group research project(s) designed to provide the opportunity to work collaboratively with peers. (May be used to meet Senior Capstone Experience requirement). Prerequisites: PY 386 and consent of instructor.
- PY 389 Independent Study (1-3)**
Individual problems planned and executed by the student under supervision. (May be used to meet Senior Capstone Experience requirement.) May be repeated up to a total of 6 hours. Prerequisite: Consent of instructor.
- PY 390 Directed Research (1-3)**
Supervised independent research involving gathering, analysis, and reporting of empirical data. This course serves as a culminating experience for Bachelor's degree students and may be used to meet the Senior Capstone Experience requirement. May be repeated up to a total of 6 hours. Prerequisites: PY 386 and consent of instructor.
- PY 395 Special Topics (1-3)**
Selected topics in psychology, announced in advance. Can be repeated for credit under different topic areas. Prerequisite: Specified for each topic.

Psychology, BA

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Code	Title	Hours
Required Courses Inside Department ¹

PY 385	From Classroom to Career	
PY 387	History and Systems of Psychology	

PY 389	Independent Study
PY 390	Directed Research ⁴
<hr/>	
Total Hours	34

- ¹ Students must complete a minimum of 34 graded hours in psychology, earning a grade of C or better in each course. Some courses which meet psychology major requirements are not offered each semester, so students should always consult a Psychology faculty advisor when planning their course schedule. At least 9 hours (including 6 upper division hours) must be taken at Washburn.
- ² These six hours must be in addition to the required Capstone course, and other required upper division courses.
- ³ Students should work closely with an advisor to plan the required Capstone Experience. The Capstone Experience should be taken during the junior or senior year.
- ⁴ PY 386 is a required prerequisite.

Psychology, Minor

Minor Requirements

A minor in psychology consists of no less than 15 hours, including at least 9 hours of upper division courses. At least 4 hours must be taken at Washburn. Students should consult the College of Arts and Sciences Academic Advisor to select the most appropriate psychology courses to complement their major. Students must have a grade of C or better in each course applied to the minor.

Religious Studies

Department of Philosophy and Religious Studies

Website: <https://www.washburn.edu/academics/college-schools/arts-sciences/departments/philosophy-religious-studies/index.html>
(<https://www.washburn.edu/academics/college-schools/arts-sciences/departments/philosophy-religious-studies/>)

Faculty

Associate Professor Chris Jones, PhD

Mission

Consistent with the missions of the University and the College of Arts and Sciences, the Department of Philosophy and Religious Studies is dedicated to providing high quality undergraduate courses in philosophy and religious studies, to providing the educational foundations for life-long critical thinking, to engaging in research and scholarly activities in these and related areas and to serving the University and its various communities. The Department emphasizes excellence in teaching undergraduate students.

Description of Discipline

Religious Studies is not just the study of religion. It begins with serious reflection on what we mean by “religion” and whether we all mean the same thing when we say it. Is religion a ubiquitous human phenomenon, the very thing that makes us human (as some have claimed)? Is religion about humanity’s search for cosmic meaning, or is it a technique for social cohesion (and control), or is it a projection of our desires and fears, or is it something else entirely? These perspectives (and others) will be entertained and evaluated in religious studies courses at Washburn University.

Student Learning Outcomes

Religious Studies students at Washburn University, upon graduation, are expected to be able to:

- Identify central practices and historically significant developments within several different global religious traditions.
- Use a variety of different theoretical models to interpret and explain local religious expressions (including texts, artifacts, symbols, and behaviors).
- Communicate effectively about religion in a variety of different academic, civic, and job-related genres (oral and written).
- Assess the accuracy and credibility of information about religion in social settings, in public speech, and in print and electronic media.
- Analyze and contribute to the solution of complex problems that result from the intersection of religion with culture, society, economy, history, and politics.
- Evaluate their own religious biases and commitments and how they relate to people who act differently from themselves.

Religious Studies Program Honors

Religious Studies majors desiring to earn religious studies program honors must meet the following minimum requirement: graduating with at least a 3.5 overall and program GPA.

Programs

- Religious Studies, BA (p. 231)
- Religious Studies, Minor (p. 232)

Course Offerings

RG 101 Introduction to the Study of Religion (3)

This course introduces the academic study of religion. In it, we learn social scientific methods of study and we apply them to religious communities within the greater Topeka area. Students will ultimately be able to use what they learn in the course to make sense of religion wherever and however they encounter it in their careers and in their lives. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

RG 102 World Religions (3)

A study of selected religious traditions around the world, using humanistic methods and focusing on questions of comparison and classification. What do religions have in common with one another? What makes them distinct? What makes something a “world” religion, and who gets to decide? Who gets left out? Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

RG 103 Introduction to the Bible (3)

An introduction to the academic study of the Bible, including 1) biblical and non-biblical ancient texts in their historical contexts and 2) the historical processes that led to the creation of different canons of the Bible among Jews and Christians, and 3) the Bible’s impact on modern issues like abortion, immigration, and the environment. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

RG 110 Special Topics/Religion (1-3)

Topics will vary from semester to semester and will be announced in advance. May be repeated for credit when topics vary.

RG 207 Existence of God (3)

An elementary course in Philosophy and Religion focusing upon the specific rational arguments which have been advanced for and against the existence of a supreme being. Prerequisite: EN 101 or EN 102.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

RG 300 Special Topics/Religion (2-3)

Topics will vary from semester to semester and will be announced in advance. May be repeated for credit when topics vary. Prerequisite: three hours of Religion or PH 302.

RG 301 Prophets and Prophetic Books in Ancient Judaism (3)

In this course, ancient Jewish prophetic literature is examined, including biblical books like Isaiah and extra-canonical traditions like Enoch. Prophecy is studied against the backdrop of ancient Near Eastern divination, and focus is on the role of prophetic books (a uniquely Jewish phenomenon) in the shaping of early Judaism. Prerequisite: three hours of Religion.

RG 302 Jews, Christians, and Sex (3)

This course examines the historical development of Jewish and Christian teachings on sexuality, emphasizing the distinctions between Judaism and Christianity and the tremendous impact of the latter on Euro-American societies. We will examine ancient sources and modern interpretations of those sources. Students will have opportunities to critique various teachings about sexuality and to develop and defend their own ideas. Prerequisites: RG 101, RG 102, or RG 103.

RG 304 Race and Religion (3)

This course explores the generative intersections “race” and “religion” in the greater Atlantic world from the 15th century until the present moment. The purpose of this class is to evaluate claims about these intersections on the basis of public evidence and rational argumentation, in particular the claim that “race” and “religion” are social constructs invented by Europeans to facilitate the colonization of the rest of the world. Prerequisites: RG 101, RG 102, or RG 103.

RG 306 Ritual (3)

This class is an exploration of the concept of ritual. Do all societies have rituals and/or engage in ritualized behavior? Do animals have ritual? Is ritual a distinctly religious phenomenon? What roles do rituals play in human socialization? We will read a variety of theoretical and ethnographic materials on ritual; we will also observe and invent rituals in the real world. Prerequisites: RG 101, RG 102, or RG 103.

RG 331 Understanding Religion (3)

What do we mean when we call something “religion”? Who decides what is and is not “religion”? This course examines various approaches to the academic study of religion, focusing on current disciplinary debates over description versus explanation, insider/outsider dynamics, and the heuristic value of “religion” when applied to non-Western traditions. Prerequisite: Religious Studies Major, or consent of the instructor.

RG 386 Special Study (1-3)

Individual study of specialized subjects pertaining to religion. May be repeated for credit. Prerequisites: nine hours of Religion and permission in advance by the professor with whom the student desires to work.

RG 398 Capstone Preparation (3)

Students prepare for their senior capstone (RG 399) by developing a portfolio of prior work and reflecting on their growth during their time in college. They engage in vocational discernment, exploring potential career paths and identifying the steps that they need to take on those paths. Ultimately, they propose a senior capstone project for RG 399 that connects their prior learning in the major with their short- and long-term goals. Prerequisite: Senior Religious Studies Major.

RG 399 Religious Studies Capstone (3)

Students design and implement a project that reflects what they have learned in their careers as religious studies majors. The project will be chosen and prepared in RG 398. Potential senior capstone projects include, but are not limited to: independent research papers, community service projects, and internships. Students are required to submit materials demonstrating what they have learned and how it connects to their religious studies coursework, and they are required to present their project at a public campus event. Prerequisite: RG 398 with a grade of C or better.

Religious Studies, BA

The major in Religious Studies is designed to take full advantage of Washburn University’s unique resources as a public municipal institution in a state capital city. Courses will focus on religious traditions and communities from around the world as they are found in the modern United States of America. Introductory courses (RG 101 Introduction to the Study of Religion, RG 102 World Religions) include ethnographic components and local site visits. Core courses (culminating in RG 331 Understanding Religion) invite students to reflect on religious studies as an academic discipline and to position themselves within it. The major culminates in a senior thesis in which students use the theories and methods they’ve learned to analyze a particular religious community that they’ve studied in their elective coursework. Ultimately, religion majors develop a toolkit for understanding human beings in light of their ultimate concerns and the particular contexts in which they live.

Religious studies majors go on to find success in a number of pursuits after graduation. Some go on to graduate studies in religion, which can lead to a Ph.D. and a career in academia. Some go to seminary and seek ordination within their own religious communities. Most, however, go on to graduate study in other areas or find work in business, government, or the non-profit/NGO world. Because religion is pervasive in human experience, studying it provides a foundation for engaging people within any sphere of life.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

In addition, all Religious Studies majors must declare and then meet the requirements for a minor, a second major, or a certificate in order to graduate.

Religious Studies, Minor

Minor Requirements

Minor programs in Religious Studies are individually designed by the student in consultation with a departmental advisor and subject to departmental approval. A minor will consist of at least 15 hours, 12 of which must be in Religious-Studies courses and six of which must be upper division.

Sociology

Department of Sociology and Anthropology

Website: <https://www.washburn.edu/academics/college-schools/arts-sciences/departments/sociology-anthropology/index.html> (<https://www.washburn.edu/academics/college-schools/arts-sciences/departments/sociology-anthropology/>)

Faculty

Professor Mary Sundal, PhD, Chair
 Professor Alexandra Kales, PhD
 Associate Professor Jason Miller, PhD
 Associate Professor Laura Murphy, PhD
 Associate Professor Sangyoub Park, PhD
 Associate Professor Lindsey Ibañez, PhD
 Lecturer Ashley Maxwell, PhD
 Lecturer Alexander Myers, PhD

Mission

The mission of the Department of Sociology and Anthropology is to foster an understanding of the social, cultural, and biological diversity in the world - past, present, and future. As two distinct but complementary disciplines, Sociology and Anthropology prepare students for a variety of career paths and encourages them to be active contributors and informed global citizens through student-centered teaching, meaningful scholarship, and engaged community service.

Description of Sociology

Sociology is the "study of social life, and the social causes and consequences of human behavior" (www.asanet.org (<http://www.asanet.org>)). Sociologists study topics from welfare to health care reform, from organized religion to cults, from poverty to concentrations of wealth, from war to natural disasters, from aging to population change, from social media to music and film, from deviance to social order, from law to crime, from divisions of race/class/gender to shared cultural meanings. Students may go on to careers in areas such as social services (juvenile justice system, battered women shelters, disaster planning/relief), administrative support (information technology, human resources, employee training), social science researcher and/or analyst, law, education (graduate school, professor), marketing (copy writing, technology or software), and law enforcement.

Student Learning Outcomes

Sociology majors at Washburn University, upon graduation, should be able to:

- Critically analyze the role of culture and social structure (e.g., race, class, gender, and other dimensions of social diversity) in shaping the lives of members of society.
- Apply core sociological theories/perspectives to social phenomena.
- Frame sociological questions of significance, outline processes by which they might be empirically answered, and evaluate the major ethical issues involved.

Programs

- Sociology, BA (p. 234)
- Sociology, Minor (p. 235)

Course Offerings

SO 100 Introduction to Sociology (3)

This course introduces students to theories, concepts, and methods used by sociologists in the study of society. Through this course, students should come to realize how many aspects of their lives are influenced by the social world in which they live and, as a result, should obtain a better understanding of themselves as social individuals and their place in society. Students will also develop an awareness and appreciation of how other individuals, groups, and/or societies have arrived at quite different perspectives. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

SO 101 Social Problems (3)

This course introduces students to the complexity of major social problems that are currently facing the U.S. and the world. Special emphasis is given to problems emerging from various divisions and inequalities in society related to social power, social class, race/ethnicity, sex, etc. Students will learn tools needed to critically evaluate these issues using sociological perspectives. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

SO 200 Special Topics in Sociology (1-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: SO 100 or SO 101.

SO 300 Special Topics in Sociology (1-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: SO 100 or SO 101.

SO 301 Population and Society (3)

This course provides students with an overview of the field of population studies. In the course, students will explore topics including fertility, mortality, immigration, marriage, and the consequences of these demographic changes on both social and individual levels. Prerequisite: SO 100.

SO 302 Culture, Gender and Sexuality (3)

This course introduces students to sociological perspectives on sex, gender, and sexuality. Special attention is given to the social, political, economic, and cultural processes that shape us to act and think as particular kinds of sexed, gendered, and sexualized persons, including the complexities and dilemmas posed by intersecting identities (e.g., race, ethnicity, class, religion). Prerequisite: SO 100, or consent of instructor.

SO 304 The Family (3)

This course provides an examination of contemporary U.S. and global family life, including courtship, marriage, divorce, child-rearing, and caring for aging parents. Prerequisite: SO 100.

SO 305 Criminology (3)

This course examines theories of causation of crime as well as conformity (non-criminal behavior), and their relationships to social structure and culture. In this course, we examine how laws are created, applied, and enforced in society. Prerequisite: Six hours of Sociology including SO 100 or SO 101.

SO 306 Law and Society (3)

In this course, the legal system is studied not in terms of the rules that make up the system, but in terms of the activities involved in creating, interpreting and enforcing these rules. The primary concern is with the ways in which the legal system affects society and in which society is an integral part of the larger social system and not an isolated set of rules, procedures, and activities. Prerequisite: SO 100 or SO 101.

SO 308 Sociology of Mental Health (3)

Survey and sociological analyses of major theoretical approaches toward mental health and illness exploring the social factors associated with mental illness; examination of the dynamics of societal reactions to mental illness. Prerequisite: SO 100.

SO 309 Sociology of Deviance (3)

This course includes presentation, evaluation, and integration of sociological perspectives of deviance. The course focuses on the social processes producing and maintaining deviance. Consideration is given to a variety of deviant expressions. Prerequisite: SO 100 or SO 101.

SO 310 Social Class in the U.S. (3)

This course explores the definition of social class and the impact of social class on everyday lives including opportunity, education, marriage, and parenting. Prerequisite: SO 100.

SO 313 Sociology of Disasters (3)

This course analyzes the phenomena we call "disaster" using a sociological perspective. Some of the topics covered will include: What is a disaster? Do disasters randomly affect populations, or are some groups more vulnerable than others? How can disasters act as an agent for or against social change? Prerequisite: SO 100.

SO 314 Organizations (3)

This course examines organizations from the sociological perspective with emphasis on formal organizations. Through this course, students will learn to apply concepts of organizational structure; organizational culture; processes of power, leadership, and decision-making; and understand outcomes of organizations on individuals, communities, and society, as well as the larger environments. Prerequisite: SO 100.

SO 315 Sociology of Sport (3)

In this course we examine sport as a microcosm of society, in that we critically examine the social, cultural, political, and economic realities of society. Further, the sociology of sport exists to promote, stimulate, and encourage the sociological study of play, games, and contemporary physical culture and examine what these activities tell us about society. Prerequisite: SO 100.

SO 316 Japan and East Asia (3)

The main objective of this course is to examine social, cultural, demographic, economic, and political trends in East Asia through the lens of sociologists and other social scientists. Emphasis will be on China, Japan, and Korea. Prerequisites: SO 100.

SO 318 Sociology of Religion (3)

This course provides a comparative study of the phenomenon of religion with special emphasis on the impact and future of religion in the modern world. Classical and contemporary theories serve as a basis for the approach to religious values, norms, institutional structures, and changing religious practices. Prerequisite: SO 100.

SO 319 Food and Culture (3)

Food is a part of everyday life, and we often taken the act of cooking and eating for granted. In this course, we will explore larger social phenomena through our consumption of food. Much of the focus of this course will involve reading scholarly analyses of different issues surrounding food. Prerequisites: SO 100 or consent of instructor.

SO 320 Sociology of Race and Ethnic Relations (3)

This course will examine the historical construction of race from a Sociological perspective. We will explore on how race and ethnicity shape, and are shaped by social life. This course will focus on the experiences of racial and ethnic groups primarily within the United States. Prerequisites: SO 100

SO 323 The City and Urban Life (3)

This course provides a comparative study of the origin and development of cities. The focus is on processes of urban development, rural-urban migration, inter-relationships between people, urban cultures, social institutions, use of space and competing theoretical perspectives. Prerequisite: SO 100 or SO 101.

SO 326 Aging and Society (3)

This course explores the aging process from the vantage point of sociological theories and related empirical studies. Emphasis is on the social, political, economic, medical, and demographic contexts of aging. Special attention is given to "new ageism." The course also focuses on the effect on U.S. society of an aging population. Prerequisite: SO 100.

SO 336 Globalization (3)

This course examines the causes and consequences of economic, political, and cultural globalization—the increasing interconnectedness among societies. Sociological and interdisciplinary frameworks are applied to specific cases to understand how the world is changing and what it means for societies and individuals. Prerequisites: SO 100 or SO 101 or consent of instructor.

SO 338 Strategies for Social Change (3)

This course explores the major economic, political, and social forces that influence structural and cultural change in the U.S. and the world using a sociological perspective. The course also introduces students to different types of social movements and provides a framework for activism, as individuals and as members of groups. Prerequisite: SO 100 or SO 101.

SO 360 Sociological Theory (3)

This course provides a historical examination of the field of sociology and the development of sociological theory from its classical roots to contemporary debates. "Schools of thought" and the work of particular theorists are used to explore central concepts. Prerequisite: Declared major, junior / senior standing.

SO 362 Methods of Social Research (3)

This course introduces students to the foundations of social science research including: designing an ethically and methodologically sound research project, generating research questions, conducting a literature review, selecting appropriate data collection methods, planning for data analysis, and sharing results. Prerequisites: 12 hours of Sociology, or consent.

SO 363 Internship (1-3)

Field training to provide students with experience in an operational or research setting through assignment to local social agencies or museums approved and supervised by a faculty member. May be elected twice for a maximum of three hours. Prerequisites: Declared major, senior standing and consent.

SO 366 Directed Readings (1-3)

Under supervision of a faculty member, students will undertake an extensive readings course to further their understanding of a specific topic within Sociology. May be repeated for a maximum of six hours. Students are limited to six hours total from SO 366 and SO 367 combined. Prerequisite: Declared major, junior/senior standing, and consent.

SO 367 Directed Research (1-3)

Upon supervision of a faculty member, students may undertake an independent research project in a specific aspect of Sociology. May be repeated for a maximum of six hours. Students are limited to six hours total from SO 366 and SO 367 combined. Prerequisite: Declared major, junior/senior standing, and consent.

SO 377 Sociology of Education (3)

This course examines theories and methods focusing on the role of education in stabilizing and changing industrial society particularly the United States. We describe and analyze how schools and universities figure into recurring crises and struggles—especially those related to the job market and to people's concerns as to what constitutes a rewarding life. Prerequisite: SO 100, SO 101 or consent of instructor.

SO 400 Special Topics/Sociology (1-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: SO 100 or SO 101.

SO 495 Sociology Senior Capstone (3)

Students will define a sociological problem or project and utilize knowledge and skills gained from previous sociology coursework to engage in contemporary issues using a critical framework. The Sociology Senior Capstone serves as a culminating experience for graduating seniors majoring in sociology. Prerequisites: SO 360 and SO 362.

Sociology, BA

Sociology is the "study of social life, and the social causes and consequences of human behavior" (www.asanet.org (<http://www.asanet.org>)). Sociologists study topics from welfare to health care reform, from organized religion to cults, from poverty to concentrations of wealth, from war to natural disasters, from aging to population change, from social media to music and film, from deviance to social order, from law to crime, from divisions of race/class/gender to shared cultural meanings. Students may go on to careers in areas such as social services (juvenile justice system, battered women shelters, disaster planning/relief), administrative support (information technology, human resources, employee training), social science researcher and/or analyst, law, education (graduate school, professor), marketing (copy writing, technology or software), and law enforcement.

Department Honors

Department honors are awarded to majors who attain:

- a 3.2 GPA or higher GPA;
- a 3.5 GPA in all Sociology courses;
- a successful Washburn Transformational Experience (WTE)

More information about departmental honors is available from the department chair or academic advisor.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor

of Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your academic advisor for more information.

In addition, all Sociology majors must complete a minor, certificate, and/or additional major; students must declare the minor, certificate, and/or additional major with the department that grants it.

Code	Title	Hours
Required Courses Inside the Department ¹		
SO 100	Introduction to Sociology	3
SO 101	Social Problems	3
SO 360	Sociological Theory	3
SO 362	Methods of Social Research	3
SO 495	Sociology Senior Capstone	3
SO 3XX	Sociology Upper-Division Electives	18
Total Hours		33

¹ Students must earn a grade of "C" or better in all courses applied to the major(s) and minor or certificate. Majors working toward the BA degree are strongly encouraged to take courses in statistics and computer science.

Sociology, Minor

Minor Requirements

To minor in Sociology, students must complete a minimum of 15 sociology credit hours:

Code	Title	Hours
SO 100	Introduction to Sociology	3
Upper-division Sociology hours (completed at Washburn University)		6
Sociology electives		6
Total Hours		15

Students must earn a grade of C or better in each course in the minor. Anthropology majors can minor in Sociology.

Theatre

Department of Music and Theatre

Website: <https://www.washburn.edu/academics/college-schools/arts-sciences/departments/theatre/index.html> (<https://www.washburn.edu/academics/college-schools/arts-sciences/departments/theatre/>)

Faculty

Associate Professor, Director of Theatre, Julie Noonan, PhD
Lecturer Theodore Shonka, MFA

Mission

Consistent with the mission of the University and the College of Arts and Sciences, the Theatre division is dedicated to providing students with a strong foundation in Theatre based on mastering basic concepts of dramatic literature, performance, history, design and criticism as well as the technical skills to produce theatre. Studying Theatre at Washburn is theoretical, practical and experiential. Public performances are offered by the department in the Andrew J. and Georgia Neese-Gray Theatre throughout the year, affording students experience in Theatre practice. As one of the University's "public faces," the University Theatre is a cultural resource provided to the citizens of Washburn and the Topeka community.

- ### Programs
- Musical Theatre, BA (p. 238)
 - Theatre, BA (p. 238)
 - Speech and Theatre, BEd (p. 239)
 - Theatre Studies, Minor (p. 238)

Course Offerings

TH 100 Theatre Practicum (0-1)
This course is designed for both theatre majors and other students interested in performing onstage or working backstage to provide practical experience as a member of a theatre production crew. Students will have the opportunity to perform onstage, or serve as crew members, designers or directors, who may work in several technical or production areas, including stage management, costumes, set design and construction, lighting, sound, properties, house management, and publicity.

TH 101 Drama Classics on Video (3)
Introduction to the theatre through play reading and viewing of selected recordings of staged plays that cover the work of theatre artists, production styles range from the Greeks to the American Musical theatre. Students who enroll in or have completed TH 301 are ineligible to enroll in TH 101.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

TH 102 Introduction to Theatre (3)

Current views of theatre in society; theatre as art and ritual and its relationship to other fine arts, the nature of the theatrical metaphor and the aesthetic evaluation by the audience. Career opportunities associated with the art: professional, educational, community, and amateur.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

TH 103 Voice, Diction & Interpretation (3)

Training the speaking voice; study of vocal mechanism, breathing, projection, articulation, enunciation; practical application of speaking principles in oral interpretation reading; projects.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

TH 104 Theatre Movement Dance I (3)

Theatre Movement and Dance I is designed to introduce students to the fundamentals of dance. Dance I is a beginner class. Repeatable for credit. Prerequisite: None.

TH 199 Special Topics in Theatre (1-3)

Newly developed course material offered for variety and expansion of the course curriculum.

TH 202 Acting I (3)

Introduction to basic acting principles and practice involving physical, vocal, improvisatory, and text-based character analysis and performance techniques.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

TH 204 Theatre Movement Dance II (3)

Theatre Movement and Dance II is designed to further the development and understanding of the performers' body and mind connection. Dance II is an intermediate class. Prerequisites: TH 104 or permission of the instructor

TH 206 Early Theatre History (3)

Play-reading in historical context. Study and interpretation of dramatic and performance texts including elements of production, performance practice, form, and style. Representative periods span from Ancients to 18th century.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

TH 207 Late Theatre History (3)

Play-reading in historical context. Study and interpretation of dramatic and performance texts including elements of production, performance practice, form, and style. Representative periods span from 18th century to Contemporary.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

TH 208 Principles of Playwriting (3)

Practical writing lab. Analysis of established texts leads students to creation and development of dramatic monologues, short and one-act plays. Class will culminate in public readings and/or staging of original work.

TH 209 Musical Theatre Performance I (3)

Performance class; students practice fundamental performance techniques for musical theatre repertoire; fundamental analysis of song forms and acting objectives for solo and scene work from selected styles. Singing, movement and public performance required. Prerequisite: None.

TH 211 Stagecraft (3)

Lecture and laboratory exploration of the concepts of stage drafting, construction and painting. Crew assignment will be required.

TH 218 Acting & Directing Workshop I (3)

Practical experiences in acting and directing through analysis, preparation and performance of scenes and monologues, and other performance exercises. Focus: Realism and Serious Contemporary Drama. Prerequisite: None.

TH 300 Theatre Practicum (0-1)

This course is designed for both theatre majors and other students interested in performing onstage or working backstage to provide practical experience as a member of a theatre production crew. Students will have the opportunity to perform onstage, or serve as crew members, designers or directors, who may work in several technical or production areas, including stage management, costumes, set design and construction, lighting, sound, properties, house management, and publicity.

TH 301 Drama Classics on Video (3)

An introductory Theatre course which involves viewing performances and play reading. Production styles range from the Greeks to the American Musical theatre. This course carries a mutual exclusion with the following course; you may not enroll in TH 301 if you have completed TH 101 with a passing grade.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

TH 304 Theatre Movement Dance III (3)

Course is designed to continue to develop dance skills and techniques. Dance III includes jazz, modern, ballet and tap. Prerequisites: TH 204 or permission of the instructor.

TH 306 Contemporary Theatre (3)

Study of developments in playwriting, directing, and acting since WWII to the present with special emphasis on influences that have affected contemporary theatre and drama. Students who enroll in or have completed EN 336 are ineligible to enroll in TH 306/TH 606.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

TH 307 Non-Western Drama (3)

Detailed examination of the drama and theatre of selected Non-Western theatrical forms. Special emphasis is placed upon the relationship of cultural elements to the theatrical event.

TH 308 Principles of Playwriting (3)

Practical writing lab. Analysis of established texts leads students to creation and development of dramatic monologues, short and one-act plays. Class will culminate in public readings and/or staging of original work.

TH 309 Musical Theatre Performance II (3)

Performance Class; students practice intermediate performance techniques for musical theatre repertoire; analysis of form, style, acting and movement for solo, scene and ensemble work from multiple styles. Singing, movement and public performance required. Prerequisites TH 209 or permission.

TH 311 Stagecraft (3)

Lecture and laboratory exploration of the concepts of stage drafting, construction and painting. Crew assignment will be required.

TH 313 Introduction to Children's Theatre (3)

Study of theatre production for children and youth. Investigation into the Children's Theatre repertory with special emphasis on playwriting. Development of a philosophy of theatre for children and youth.

TH 314 Children's Theatre Tour (3)

Touring area schools as a performer or stage manager throughout a given semester. Preparation, rehearsal and performance of play chosen for a specific age group. Prerequisite: TH 202, TH 313 or consent.

TH 315 Set and Prop Construction (3)

This course will focus on scenic and prop construction. Prerequisite: None.

TH 316 Costume Construction (3)

Costume Construction will teach students how to make costumes and costume accessories. Prerequisite: None.

TH 317 Lighting and Sound (3)

Light and Sound Production will teach students how to read a light plot, hang/focus lights, write cues and run a light board. Additionally, students will learn how to record and edit sound for theatre productions. Prerequisite: None.

TH 318 Acting & Directing Workshop II (3)

Practical experiences in acting and directing through analysis, preparation and performance of scenes and monologues, and other performance exercises. Focus: Realism, Experimental and Contemporary Comedy. Prerequisite: TH 218 - Acting and Directing Workshop I or consent of instructor

TH 319 Stage Makeup (3)

A practical guide to the theory and practice of theatrical makeup. Students will become familiar with the traditional and color theory approaches to makeup. Various conceptual and technical problems will be studied and solved.

TH 320 Acting II (3)

Advanced acting course continuing development of skills acquired from Acting I. Emphasis on styles and methods of analysis, interpretation, and portrayal of characters from selected plays, (contemporary to historical period): Prerequisite: TH 202 or instructor permission

TH 333 Digital Painting and Drawing (3)

AR327 is designed to provide the student with knowledge and skills necessary to create digital paintings and drawings using a range of visual art media related to digital processes, including AR/VR and 3D virtual painting. Emphasis of the course is focused on the student.

TH 359 Methods of Teaching Speech and Drama (3)

The study and application of teaching strategies for secondary education certification in speech. Prerequisites: Advisor approval and formal admission to teacher education.

TH 399 Special Topics/Theatre (0-3)

Newly developed course material offered for variety and expansion of the course curriculum.

TH 401 Analysis and Directing (3)

Students practice analytical skills and apply directing concepts and skills to stage a scene or short play. Prerequisites: TH 202 and TH 211 (Acting I and Stagecraft) or Instructor permission.

TH 403 Acting III (3)

TH 403 Acting III : Advanced acting course continuing development of skills acquired from Acting II. Emphasis on ensemble-based styles and methods using text and/or non-text based sources to create character. Prerequisite: TH 320 or Instructor permission.

TH 406 History - American Musical (3)

Examines major cultural, artistic, historical, economic and social influences surrounding the creation, performance and reception of the American Musical.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

TH 407 Drama Theory & Criticism (3)

Study of general principles of Western literary theory and the methods, aims, functions and characteristics of Drama as an art form, derived from and/or illustrated by examples in criticism and reviewing.

TH 408 Advanced Playwriting (3)

Practical writing lab for the development of full-length texts. Advanced critique and rewriting techniques will be employed to assist in script development. Prerequisite: TH 208 or TH 308 or consent.

TH 409 Musical Theatre Performance III (3)

Performance Class: Students practice advanced performance techniques for musical theatre repertoire; analysis of form, style, acting, movement for solo, scene and ensemble work from varied styles. Singing, movement and public performance required. Prerequisite: TH 309 or permission of the instructor.

TH 415 Experimental Theatre (3)

Practical introduction and practice in performance theory, collective creation and conceptualization. Creation of theatre piece from existent or original sources.

TH 416 Special Theatre Projects (1-3)

Majors must complete a faculty mentored project. Specifically developed projects or internships (1-3) in acting, directing, playwriting, design, public relations, and theatre management.

Musical Theatre, BA

The B.A. in Musical Theatre prepares students for life as working artists in the theatre and further study in performance. Students develop skills in music, dance and acting. Practical training and creative experiences are coupled with an interdisciplinary liberal arts curriculum and a foundation in theatre history and theory.

Students must audition for admittance to the Musical Theatre program. The audition will evaluate music, dance, and acting skills. Students are expected to participate in the Theatre Showcase each semester. Students are expected to audition and perform as cast in musical productions. Students must pass a jury each year to remain in the program.

Student Learning Outcomes

Students graduating with a B.A. in Musical Theatre should be able to:

- Demonstrate performance skills that include:
 - Voice production and technique to create roles in full productions (speaking and singing)
 - Vocal interpretation and role preparation skills that enable understanding and performance of roles from a wide variety of styles
 - Musicianship, sight-singing competence and analytic skills
 - Stage movement and dance skills in at least 3 styles of musical theatre dance genres
 - Integration of voice, movement and acting skills
- Demonstrate proficiency in implementation of skills and knowledge of:
 - Basic production elements such as costume, sets and props, lighting, makeup and sound.
 - Script analysis, dramatic literature and history, and musical theatre repertoire.
 - Audition and business techniques for musical theatre performers.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Code	Title	Hours
Required Courses Inside Department		
TH 100 or TH 300	Theatre Practicum ¹	4
TH 202	Acting I	3
TH 206	Early Theatre History	3
TH 207	Late Theatre History	3
TH 311	Stagecraft	3
Select one of the following courses:		3
TH 315	Set and Prop Construction	

TH 316	Costume Construction	
TH 317	Lighting and Sound	
TH 319	Stage Makeup	
TH 104	Theatre Movement Dance I	3
TH 204	Theatre Movement Dance II	3
TH 209	Musical Theatre Performance I	3
TH 309	Musical Theatre Performance II	3
TH 409 or TH 304	Musical Theatre Performance III Theatre Movement Dance III	3
TH 406	History - American Musical	3
TH 401	Analysis and Directing	3
Subtotal		40
Required Courses Outside Department		
MU 109	Piano for Beginners I	2
MU 215	Music Theory I ²	3
MU 217	Aural Skills I ²	1
MU 275	Voice ³	8
Voice Ensemble ⁴		4
Total Hours		58

¹ A total of four credit hours must be taken.
² MU 215 and MU 217 are usually taken concurrently.
³ A total of eight credit hours must be taken.
⁴ A total of four credit hours must be taken.

Theatre Studies, Minor
Minor Requirements

A minor in Theatre Studies consists of a minimum of eighteen hours in Theatre approved in advance by a Theatre Faculty Advisor, with a minimum of six hours of upper division. Courses must represent all three areas: Performance, Design/Technology, and History/Literature.

Theatre, BA

The B.A. in Theatre prepares students to apply skills in professional, semi-professional, community and recreational theatre and in many related fields including public relations, advertising, media professions, and entertainment. The degree prepares students in fundamental core coursework and offers flexibility through elective coursework to acquire knowledge and skills in a student's interest area. Practical work in theatrical production is required to allow students to demonstrate the ability to apply concepts in coursework. Theatre is part of Washburn University's College of Arts and Sciences and serves students, the University and the community in their scholarly and creative work.

Student Learning Outcomes

Students graduating with a B.A. in Theatre are expected to have acquired skills in Performance, Theatre Technology, and Theatre history, literature and criticism. Students will be able to:

- Demonstrate acquired skills in vocal expression, interpretation and performance.
- Demonstrate acquired conceptual skills in theatre aesthetics, design/technology, construction and execution.

- Demonstrate content knowledge and the ability to analyze and evaluate dramatic texts.
- Demonstrate the ability to respond critically to dramatic literature and theatre performances.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Arts (p. 73) degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

In addition, all Theatre (BA) majors must complete a complementary minor, certificate, or additional major; students must declare this with the department that grants it.

Code	Title	Hours
Required Courses Inside Department ¹		
TH 100 & TH 300	Theatre Practicum and Theatre Practicum ²	4
TH 103	Voice, Diction & Interpretation	3
TH 202	Acting I	3
TH 206	Early Theatre History	3
TH 207	Late Theatre History	3
TH 311	Stagecraft	3
Select one additional tech class from the following:		3
TH 315	Set and Prop Construction	
TH 316	Costume Construction	
TH 317	Lighting and Sound	
TH 319	Stage Makeup	
TH 401	Analysis and Directing	3
TH XXX	Theatre Electives ³	15
Total Hours		40

¹ A minimum of 17 credit hours of must be taken at the upper division level in the major.

² A total of four credit hours must be taken, and a minimum of two credits must be from TH 300.

³ Chosen in consultation with your advisor.

Speech and Theatre, BEd Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Education degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Students seeking certification to teach Speech and Theatre must also be formally admitted to the University's Professional Teacher Education Programs (p. 291).

MM 100	Introduction to Mass Media	3
TH or CN Elective		3
Total Hours		81

¹ Student must take TH 100 or TH 300 three times, for a total of three credit hours. Student should discuss which course to register for with their academic advisor.

School of Applied Studies

Website: <https://www.washburn.edu/academics/college-schools/applied-studies/index.html> (<https://www.washburn.edu/academics/college-schools/applied-studies/>)

Faculty

Zach Frank, DPT, Dean and Associate Professor
 Melanie Worsley, JD, Associate Dean and Professor
 Michelle Shipley, MS, Assistant Dean and Associate Professor
 Sarah Hagler, SAS Academic Advisor
 Nicole Vavra, SAS Academic Advisor and Recruitment Coordinator
 Beth Kuhn, Office Coordinator
 Alicia Moulden, Administrative Specialist

Brief History

In the fall of 1981, a new academic division was established within the Office of Continuing and Special Instructional Programs to offer degrees in those areas not directly related to existing University departments. In the spring of 1983, the General Faculty of the University, the Board of Regents, and the Kansas Legislature recognized the importance of these growing applied programs to the mission of an urban university like Washburn and established the School of Applied and Continuing Education.

In the spring of 1992, this academic unit was renamed the School of Applied Studies (SAS). Continuing Education became a separate unit. That same year the departments of Criminal Justice and Social Work were transferred to the School, joining the existing departments of Allied Health, Human Services, and Office, Legal and Technology. Today, the School of Applied Studies consists of Allied Health, Criminal Justice & Legal Studies, Education, Family & Human Services and Social Work.

Vision

The School of Applied Studies will be an outstanding educational setting and resource center for the creation of a learning community that embraces exemplary leadership, scholarship and integrity.

Values Guiding Our Vision

Commitment to Academic Excellence: To have highly qualified and talented faculty & staff as well as discerning and productive graduates.

Commitment to Scholarship: To engage in scientific research, innovative studies, and scholarly endeavors that have beneficial and practical consequences.

Commitment to Technological Empowerment: To foster literacy in relevant technology in order to best utilize its importance and potential.

Commitment to Public Service: To strengthen our creative partnerships and outreach.

Commitment to Diversity: To strive for a vibrant and inclusive learning environment that respects and embraces the many different dimensions of diversity and international perspectives.

Commitment to Compassionate Professionalism: To prepare dedicated and caring professionals, who adhere to the highest ethical standards and performance competencies.

Mission

The School of Applied Studies has the primary function of offering quality professional programs in areas which respond to community and state needs.

The mission for the School of Applied Studies will be accomplished when all graduates are:

- Lifelong learners who are committed to continuing education and scholarship.
- Competent individuals who possess the necessary skills in their professional field of employment.
- Complex thinkers who have the ability to problem solve, analyze, synthesize, and evaluate.
- Informed individuals who are sensitive to cultural diversity.
- Effective communicators who have the necessary verbal and written skills to work in our global society.
- Responsible individuals who demonstrate commitment to professional values and ethics.
- Technologically literate individuals with application skills relevant to their profession.

General Degree Requirements

The School of Applied Studies offers the following degrees:

- Associate of Arts (AA),
- Associate of Applied Science (AAS),
- Bachelor of Applied Science (BAS),
- Bachelor of Education (BE),
- Bachelor of Health Science (BHS),
- Bachelor of Criminal Justice (BCJ),
- Bachelor of Legal Studies (BLS),
- Bachelor of Social Work (BSW),
- Master of Arts in Family and Human Services (MA),
- Master of Criminal Justice (MCJ),
- Master of Health Science (MHS),
- Master of Social Work (MSW), and
- Master of Education (MEd)

The School also offers Certificates of Completion in selected programs.

In addition to University degree requirements common to all associate degree programs (see Degrees, Common Requirements (p. 48)), the student must complete all major and required program courses specific to each program (see specific program requirements).

For baccalaureate degrees, students must meet the university degree requirements common to all baccalaureate programs (see Degrees, Common Requirements (p. 48)) and complete all major and required program courses specific to each program (see specific program requirements).

Minor Requirements

A grade of C or better must be earned in each course used to satisfy the requirements of the minor and a minimum of six credit hours used to meet minor requirements must be earned in the SAS Department that is providing the minor.

Certificate Programs

A student seeking an academic certificate in the School of Applied Studies must apply and be admitted to the program within the department in which they are seeking the certificate. Applications to receive an academic certificate should be made during the semester in

which the student expects to finish certificate requirements. At least half the required hours for a certificate must be earned at Washburn. Students with more than half the required hours earned at other institutions may take more advanced classes at Washburn in specific content areas to

1. advance their knowledge and skills and
2. avoid duplicating coursework.

Students seeking a Certificate will take all courses on a letter grade basis.

Accreditation and Approval

Programs within the School of Applied Studies are approved or accredited by the following agencies:

- Academy of Criminal Justice Sciences: Master of Criminal Justice (ACJS)
- Accreditation Council for Occupational Therapy Education (ACOTE): Occupational Therapy Assistant
- Commission on Accreditation in Physical Therapy Education of the American Physical Therapy Association: Physical Therapist Assistant (CAPTE)
- Commission on Accreditation for Respiratory Care (CoARC): Respiratory Therapy
- Commission on Accreditation for Health Informatics and Information Management Education: Health Information Technology (CAHIIM): Health Information Technology
- Commission on Accreditation of Allied Health Educational Programs, Joint Review Committee on Education in Diagnostic Medical Sonography (CAAHEP): Diagnostic Medical Sonography (JRC-DMS)
- Council on Social Work Education: Bachelor of Social Work, Master of Social Work (CSWE)
- Joint Review Committee on Education in Radiologic Technology (JRCERT): Radiologic Technology, Radiation Therapy (JRCERT)
- National Accrediting Agency for Clinical Laboratory Sciences: Clinical Laboratory Science in Conjunction with the University of Nebraska Medical Center (NAACLS)
- CAEP - Council for Accreditation of Teacher Preparation (Education - Master, Baccalaureate)
- KSDE - Kansas State Department of Education (Education- Master, Baccalaureate)

Academic Advisement

Students who have selected a major in the School of Applied Studies should be advised by a faculty member teaching in that area, the department chair, or the Dean's designate. The students should meet with their advisor at least once each semester to ensure all program requirements are met.

Academic Standards

Students with a declared major in the School must maintain a cumulative Grade Point Average (GPA) of 2.0 in order to graduate or receive a certificate. To count toward a major, minor, or program requirement, students must earn a letter grade of "C" or better.

Students who fail to maintain the university minimum academic standards may be placed on probation or suspended according to the university procedures. All students are expected to follow the established standards of academic honesty and integrity. Failure to meet these standards may result in dismissal.

Certain programs uphold additional academic standards for continuance in the program. Students are advised to contact their faculty advisors, department chair, or the dean's office for details.

Scholarship/Financial Aid

Many alumni, friends and organizations have given generously to provide financial assistance through scholarships to outstanding students in The School of Applied Studies. Information is available by contacting The School of Applied Studies, Dean's Office, (785) 670-1282, and on our website www.washburn.edu/sas (<http://www.washburn.edu/sas/>) or Financial Aid, (785) 670-1151. To be considered for scholarships in the School of Applied Studies, students must make direct application to the School each year. The deadline for applications is February 15th.

Phi Theta Kappa

Phi Theta Kappa (PTK) is a nationally-organized and recognized scholastic honor society. The PTK Alpha Mu Omicron chapter is sponsored by the School of Applied Studies. The objective of the Alpha Mu Omicron chapter is to recognize and honor those students in two-year degree programs who have attained scholastic excellence in their respective fields of study.

To be eligible, students must be enrolled in a 2-year program at Washburn University and; must have completed at least twelve credit hours at Washburn with grade point average of 3.5 or above. Only courses taken at Washburn are considered in determining eligibility. Letters of invitation are mailed to eligible individuals. For more information contact the Allied Health department.

Lambda Nu Honor Society

Lambda Nu is a nationally organized and recognized scholastic honor society. The Kansas Theta chapter is sponsored by the Allied Health Department in the School of Applied Studies. The objectives are to foster academic scholarship at the highest academic record, promote research and investigation in the radiologic and imaging sciences and recognize exemplary scholarship.

To be eligible, students must be enrolled at Washburn University and have a 3.5 grade point average after one full semester of a professional radiologic or imaging program. Exemplary honors may be achieved upon evidence of additional professional recognition (i.e., academic paper or poster presentation, publication, etc.). For more information, contact the Allied Health (<https://www.washburn.edu/academics/college-schools/applied-studies/departments/allied-health/>) department.

SAS Departmental Honors

In the School of Applied Studies, students are eligible to receive Departmental honors upon graduation if they fulfill the following minimum requirements:

Baccalaureate Degree Honors

- A grade point average of 3.5 in all major coursework.
- Successful completion of a scholarly, creative, community, or service project or an equivalent deemed suitable by the department.
- The recommendation of the department is required.
- Individual departments may specify additional requirements.

Associate Degree Honors

- A minimum grade point average of 3.5 in all major and program requirements, with a minimum of 30 hours of degree courses completed at Washburn University.
- Grade point averages are calculated on all required major and required program courses applied to the Associate degree.
- The recommendation of the department is required.
- Individual departments may specify additional requirements.

Certificate Honors

- A minimum grade point average of 3.75 in the certificate coursework.
- At least half the required certificate credit hours must be earned at Washburn University in the department awarding the certificate.
- Student must take all courses for a letter grade.
- The recommendation of the department is required.
- Individual departments may specify additional requirements.

School of Applied Studies Honors

WUTech students graduating with an associate degree from the School of Applied Studies departments are eligible to receive honors if they meet the following minimum requirements:

- A minimum grade point average of 3.5 in all coursework, with a minimum of 15 hours of degree coursework completed at Washburn University.

Dean's Honor Roll

Students who have achieved a semester grade point average of 3.4 or better are honored by having their names placed on the Dean's Honor Roll. They are notified by the dean of the School of Applied Studies. Must be enrolled at Washburn University in a minimum of 12 semester hours taken for a letter grade at Washburn University is required.

Part-Time Student Dean's Honor Roll

Students whose grade point average for the semester is between 3.40 – 3.99 are honored by having their names placed upon the Dean's Honor Roll and they are so notified by the dean of the School of Applied Studies. Part-time students must complete a minimum of 12 hours in the combined fall and spring semesters of an academic year.

School of Applied Studies Courses

Select courses are offered under the School of Applied Studies that are not part of a specific academic department. Typically these courses are interdisciplinary in nature and can be taken by a student in any of the school's academic departments.

AU 300 Principles of Leadership (3)

This course provides a thorough review of established leadership and management theory, principles, and traits. The course also will focus on leadership skills relevant to future leaders in a wide variety of professional fields.

AU 495 Proseminar (1)

This course is designed as a forum for graduate and faculty exchange of ideas related to teaching scholarship and creative activities. Faculty or faculty and their students can present on their scholarship or research. This is a forum for the exchange of ideas and provides a venue for graduate and select undergraduate students to learn about research and creative endeavors. This forum can also provide an opportunity for collaboration, inquiry, critical analysis and collegial exchange of ideas. For graduate and select undergraduate students this can be an opportunity to present scholarly achievements to a professional audience. A/Pass/Fail only. Course can be repeated.

AU 595 Proseminar (1)

This course is designed as a forum for graduate and faculty exchange of ideas related to teaching scholarship and creative activities. Faculty or faculty and their students can present on their scholarship or research. This is a forum for the exchange of ideas and provides a venue for graduate and select undergraduate students to learn about research and creative endeavors. This forum can also provide an opportunity for collaboration, inquiry, critical analysis and collegial exchange of ideas. For graduate and select undergraduate students this can be an opportunity to present scholarly achievements to a professional audience. A/Pass/Fail only. Course can be repeated.

Mission

The mission of the department is to prepare qualified individuals for careers in Allied Health and technical professions for the community, the state and across the globe. This is accomplished through excellent teaching with high levels of faculty-student interaction and relationships with community partners to enhance education experiences.

The mission for the Allied Health Department is met:

- At the certificate and associate degree level by preparing competent individuals for entry level and advanced professional practice, with the ability to provide a consistent standard and quality of care.
- At the bachelor's degree level by preparing health care professionals for advanced clinical and administrative practice, and technical professionals for administrative and managerial careers.
- At the master's degree level by preparing existing health care professionals to educate future health care providers.

Student Learning Outcomes

Allied Health students, upon completion of their respective professional programs, are expected to have:

- Demonstrated the ability to comprehend, apply, and evaluate medical information relevant to their professional discipline.
- Obtained the proficiency of all the skills necessary to fulfill their professional discipline.
- Demonstrated professional behavior consistent with employer expectations in their professional discipline.

Programs

- Bachelor of Health Science (p. 251)
 - Health Services Administration, BHS (p. 251)
 - Medical Imaging, BHS (p. 252)
 - Diagnostic Medical Sonography, Concentration (p. 253)
 - Magnetic Resonance (MR), Concentration (p. 254)
 - Radiation Therapy, Concentration (p. 254)
 - Medical Laboratory Science, BHS (p. 255)
 - Public Health, BHS (p. 258)
 - Health Services Administration, Minor (p. 259)
 - Public Health, Minor (p. 259)
- Diagnostic Medical Sonography, Certificate (p. 259)
- Healthcare Coding, Certificate (p. 260)
- Health Information Technology, AAS (p. 260)
- Magnetic Resonance (MR), Certificate (p. 261)
- Occupational Therapy Assistant, AAS (p. 262)
- Physical Therapist Assistant, AAS (p. 263)
- Public Health, Certificate (p. 264)
- Advanced Certificate, Public Health (p. 264)
- Radiation Therapy, Certificate (p. 265)
- Radiologic Technology, AAS (p. 265)
- Respiratory Therapy, AAS (p. 266)
- Technology Administration, BAS (p. 267)
 - Technology Administration, Minor (p. 269)

- Post-Graduate Certificate in Health Care Education (<https://catalog.washburn.edu/graduate/school-applied-studies/post-graduate-certificate-health-care-education/>)

Course Offerings

Allied Health

AL 101 Foundations of Healthcare (3)

An overview of the role of various health care professions, ethical and legal responsibilities, patient communication methods, cultural competence, patient assessment techniques, medical terminology, electronic health records and preventative health care. Through role playing and case studies, students learn how the various members of the health care team interact and communicate with one another in order to provide the most efficient and effective delivery of patient care. Additional technical competencies included in this course are: assessment of vital signs, safe body mechanics, patient transfers and safety, basic first aid, standard and transmission-based infection precautions.

AL 120 Radiographic Procedures & Patient Care I (3)

Focuses on the principles of producing and evaluating radiographs of the skeletal and urinary systems. Discusses patient care procedures such as vital signs, infection control, medical emergencies and aseptic techniques. Prerequisite: Admission to the Radiologic Technology program and concurrent with AL 120A.

AL 120A Procedures Lab I (0)

Required laboratory demonstrations will include chest, KUB, upper extremity, lower extremity, spine, and contrast studies. A one hour weekly session is held on campus. Concurrent with AL 120.

AL 121 Radiographic Procedures & Patient Care II (3)

Explores those procedures employed in the more complicated investigation of the human body. Continues to examine present techniques necessary for the assessment and care of the ill and injured patient. Prerequisites: AL 120, AL 130, AL 134, and concurrent with AL 121A.

AL 121A Procedures Lab II (0)

Required laboratory demonstrations include spine, contrast studies, cranium, bony thorax, and miscellaneous positions. A one hour session is held each week. Concurrent with AL 121.

AL 130 Radiographic Exposure I (3)

Principles of radiographic image formation related to digital imaging. Physics of x-ray production and influences on image creation. The course provides an understanding and analysis of the radiographic image. Prerequisite: Admission to the Radiologic Technology program and concurrent with AL 130A.

AL 130A Exposure Lab I (0)

Demonstrations will be directed towards the primary factors of radiograph (image) production. An energized x-ray unit will be available for the one hour weekly session. Concurrent with AL 130.

AL 131 Radiographic Exposure II (3)

A continuation of AL 130 emphasizing imaging principles. Problem solving through mathematical application. Techniques of quality control. An additional fee is associated with this course. Prerequisites: AL 120, AL 130, AL 134, and concurrent with AL 131A or consent.

AL 131A Exposure Lab II (0)

Demonstrations will involve the imaging systems, computation of radiation dosages, and quality control techniques. The one hour weekly session will utilize an energized x-ray unit. Concurrent with AL 131.

AL 134 Radiology Clinical I (3)

This course requires a specific number of hours of limited radiographic assistance in a healthcare setting. Students will achieve competency in simple procedures under direct supervision. Prerequisite: Admission to the Radiologic Technology program.

AL 135 Radiology Clinical II (4)

This course requires a specific number of hours of limited radiographic assistance in a healthcare setting. This course builds on competencies achieved in AL 134. Students will achieve competency in more complex procedures with direct and/or indirect supervision. Prerequisite: AL 134 or consent.

AL 141 Medical Terminology (3)

This course covers word elements that form the base on which the medical language is constructed, including commonly used abbreviations. Emphasis on competency in spelling, pronunciation, correct usage and meaning of terminology related to all body systems, medical science and medical specialties.

AL 150 Principles of Health Information Technology (3)

This course covers the organization, analysis, and evaluation of health records, methods of storage, retrieval and preservation, an introduction to computer and information systems in health care, and an overview of health information department management. Prerequisites: AL 101, Admission to HIT Program.

AL 157 Specialized Records & Registries for Health Information Technology (2)

This course explores health information requirements in non-hospital settings including long-term and ambulatory care, & functions and procedures for specialized health information registries. Prerequisite: AL 150, AL 366 or concurrent.

AL 161 Foundations of Occupational Therapy (2)

This course is an introduction to the history and philosophical base of occupational therapy. Areas of instruction include: models of practice; frames of reference; the role of the Occupational Therapist/Occupational Therapy Assistant; Code of Ethics; Core Values; Standards of Practice and the Delivery of Occupational Therapy Services. Prerequisite: Formal Admission to the Occupational Therapy Assistant Program.

AL 162 Occupational Therapy Interventions I (3)

This lecture and lab course will discuss the dynamics of the occupation to include the activity, performance skills, and performance patterns from conception to age 18. The student will exhibit the ability to analyze tasks and implement an intervention plan for the occupational therapy client. Prerequisite: AL 161.

AL 163 Foundations of Occupational Therapy II (3)

This lecture/lab course is a continuation of AL 161 and will allow the student to develop the ability to select and implement occupational therapy interventions related to the activities of daily living. Prerequisite: AL 161 and concurrent with AL 164.

AL 164 Level I OTA Fieldwork Rotation I (1)

This course requires a specific number of hours of limited occupational therapy assistant exposure in the healthcare setting. Prerequisite: AL 161 and Concurrent with AL 163.

AL 166 Occupational Therapy Interventions II (3)

This lecture lab course is a continuation of AL 162 and will discuss the dynamics of the occupation to include the activity, performance skills, and performance from early adulthood to later maturity. Prerequisite: AL 162.

AL 167 Foundations of Occupational Therapy III (3)

This course is a continuation of AL 163 and will allow the student to develop the ability to administer selected assessments, screening, evaluation tools, and skilled observations and to develop skills that relate to analysis of movement, orthotic devices, superficial thermal and mechanical modalities. Prerequisite: AL 163.

AL 168 Level I OTA Fieldwork Rotation II (1)

This course requires a specific number of hours in the health care setting to allow the student to employ logical thinking, critical analysis, problem solving and creativity as it relates to the psychosocial aspects of occupational therapy in the clinical setting.

AL 170 Physical Therapy Procedures (4)

This class features the development of early Physical Therapy skills and the understanding of basic procedures. Specific emphasis is placed on range of motion, measurement of range of motion, therapeutic exercise basics, aseptic and isolation techniques, proper bed positioning, massage, transfers, wheelchair management, architectural barriers, locomotion training, documentation, vital signs and safety. All skills are reinforced and practiced in supervised scheduled laboratories and open lab sessions. Prerequisite: Admission to PTA Program.

AL 171 Musculoskeletal Assessment in Physical Therapy (5)

This course follows AL 170 PT Procedures in the curriculum sequence and is designed to provide the Physical Therapist Assistant student with a foundation for musculoskeletal assessment and treatment. Emphasis is on orthopedic physical therapy assessment, including manual muscle testing, cranial nerve testing, dermatomal and myotomal assessment, special tests, joint mobilization theory, therapeutic exercise, motor control theory, clinical decision making according to the Physical Therapist Plan of Care, identification of red flags, specific orthopedic protocols and implementation of specific physical therapy programs for various rehab clients. Prerequisite: AL 170 and concurrent enrollment in AL 261

AL 185 Principles of Respiratory Therapy I (2)

Specific modes of respiratory care are examined to understand principles of application to patients, indications, hazards, contraindications, and evaluation of therapy. Emphasis is placed on detailed knowledge of equipment used in these modes. Modes of care include medical gas therapy, humidity and aerosol therapy, lung expansion techniques and basic diagnostic studies. An additional fee is associated with this course. Prerequisite: Consent and concurrent with AL 185L.

AL 185L Principles of Respiratory Therapy Lab (0)

Explores the procedures for specific respiratory therapies. Students will practice skills and complete required competencies. Concurrent with AL 185.

AL 186 Cardiopulmonary Assessment (2)

This course is for Allied Health students and is designed to provide the student with an understanding of the cardiopulmonary systems. Areas of study will include a review and assessment of the anatomy and physiology of the pulmonary, cardiac, and renal systems. Prerequisites: OTA-AL 167; RT-AL 185; PTA-concurrent with AL 265 and AL 272 or consent.

AL 187 Respiratory Therapy Clinical I (3)

An introduction to basic respiratory therapy procedures. Orientation to clinical practice, charting of records, infection control, emergency procedures, therapeutic procedures and diagnostic procedures are emphasized. The student will be introduced to routine respiratory care and equipment. Prerequisite: AL 185.

AL 220 Radiographic Procedures III (2)

Presents cross-sectional anatomy as a background for radiographic related imaging modalities. Develops an awareness of related areas including venipuncture, computed tomography, sonography, nuclear medicine, radiation therapy, magnetic resonance, mammography, and interventional procedures. The investigation of alternative methods of radiography of the atypical patient is included. Prerequisite: AL 121 or consent.

AL 230 Radiologic Equipment Operation (2)

Focuses on radiography physics, electromagnetic radiation, and x-ray production. Emphasizes electrical concepts including electrodynamics, circuitry, electromagnetism, rectification and the application of these principles to radiography. A working knowledge of basic algebraic equations is required. Prerequisite: AL 131 or consent.

AL 231 Radiation Protection & Biological Effects (2)

Provides the knowledge and serves to develop the attitude necessary to intelligently protect the patient, themselves, and others from the potentially harmful effects of radiation. Includes an in-depth discussion of biological effects, cell and organism sensitivity, and somatic and genetic effects of ionizing radiation. Prerequisite: AL 121 or AL 131 or consent.

AL 236 Radiology Clinical III (3)

This course requires a specific number of hours of direct radiographic assistance in a healthcare setting. Students will demonstrate competence in a variety of procedures with indirect supervision. Prerequisite: AL 121, AL 131, AL 135, or consent.

AL 237 Radiology Clinical IV (4)

This course requires a specific number of hours of direct radiographic assistance in a healthcare setting. Students demonstrate competence in special procedures utilizing positioning techniques covered in AL 220 with direct supervision. Rotations through specialized areas of radiology will begin. Prerequisite: AL 236 and concurrent with AL 220 or consent.

AL 238 Radiology Clinical V (4)

Additional experience and expertise in routine and non-routine examinations is gained. Rotations through the specialized areas of radiology will continue. Students are under indirect supervision. Prerequisites: AL 237 and AL 220 or consent.

AL 240 Professional Practice I for Health Information Technology (2)

This course includes simulated projects completed independently, and supervised clinical experience in the technical aspects of health records in approved health care facilities and agencies. Prerequisites: Admission to Health Information Technology Program, AL 150 or concurrent enrollment.

AL 241 Professional Practice II for Health Information Technology (3)

Continuation of AL 240. Prerequisite: AL 240.

AL 243 Coding Professional Practice for Health Information Technology (2)

Simulated projects performed independently, and supervised clinical including inpatient and outpatient coding in approved health care facilities and agencies. Prerequisites: AL 245, AL 246, or concurrent.

AL 244 Healthcare Statistics - Health Information Technology (2)

This course covers the collection, computation, analysis, presentation and use of healthcare statistical data. Prerequisite: AL 150.

AL 245 Health Information Coding I (3)

This course covers coding principles for diseases and operations using the International Classification of Diseases. Focus is on the identification, coding & sequencing of inpatient medical diagnosis and procedures. Prerequisites: BI 230, BI 250, AL 320 or concurrent.

AL 246 Health Information Coding II (3)

This course covers coding principles for outpatient services using the International Classification of Diseases and Current Procedure Terminology manuals. Focus is on the identification, coding & sequencing of outpatient diagnosis & procedures. Prerequisite: AL 245.

AL 247 Healthcare Reimbursement Methods (3)

This course covers healthcare reimbursement methodologies and advanced coding skills for inpatient and outpatient settings. Prerequisite: AL 250, AL 246 or concurrent.

AL 250 Seminar in Health Information Technology (1)

This course includes an analysis of major trends and issues affecting health information, review of the fundamental principles of health information technology & successful completion of a simulated certification examination. Concurrent with AL 241.

AL 252 Psychosocial Occupational Therapy (3)

This lecture/lab course provides the student with the knowledge and understanding of psychiatric disorders, human behavior, and the role of occupational therapy in psychosocial mental health. The course prepares the student to interact therapeutically with clients across the lifespan in various settings who have psychosocial needs, with emphasis on the therapeutic use of self and therapeutic process. Prerequisite: AL 164

AL 253 Level I OTA Fieldwork Rotation III (1)

This course requires a specific number of hours in the health care setting to allow the student to employ logical thinking, critical analysis, problem solving and creativity as it relates to the occupational therapy clinical setting. Prerequisites: AL 164, AL 167.

AL 254 Current Topics Occupational Therapy (2)

This course will allow the student to obtain the knowledge and understanding of the systems and structures that create federal and state legislation and regulation for occupational therapy. Topics include reimbursement, national, international and state regulations for licensure, certification and/or registration for occupational therapy. Prerequisite: AL 167.

AL 255 Level II Occupational Therapy Fieldwork (8)

This fieldwork placement consists of two, full time, eight week rotations and provides the student with the opportunity to develop into competent, entry-level occupational therapy assistants. The student will be exposed to a variety of clients across the life span and a variety of settings. Prerequisite: Satisfactory completion of all previous coursework.

AL 257 Applied Neurophysiology - Occupational Therapy (3)

This course is designed to provide the Occupational Therapy Assistant with a foundation in applied neurophysiology concepts. This includes, but is not limited to, specific assessment and treatment techniques for patients in special populations, such as spinal cord injury, pediatrics, amputees, traumatic head injury, cerebrovascular accidents, as well as other neurological or cardiovascular disorders. Prerequisite: AL 167 and BI 230.

AL 260 Independent Study (1-3)

Allied Health majors may pursue an independent research project if approved by the Program Director in consultation with the Department Chair. Independent Study may not be used in place of any courses required in the major. Independent Study courses must meet equivalencies to Federal definition of a credit hour. Prerequisites: Consent

AL 261 Therapeutic Modalities in Physical Therapy (4)

This course follows AL 170 Physical Therapy Procedures in the curriculum sequence and is designed to provide the student with a foundation for the use of therapeutic modalities. This course includes instruction on the various modalities of heat, cold, electrical stimulation, hydrotherapy, diathermy, ultrasound, traction, ultraviolet/infrared light and other physical agent modalities and treatments. Prerequisites: AL 170 and concurrent enrollment in AL 171.

AL 264 Physical Therapy Clinical I and Lab (3)

This course involves observation and supervised hands-on treatment of various types of patients in different clinical settings with the practicum of skills learned in AL 170 Procedures and AL 171 Musculoskeletal Assessment in Physical Therapy, and AL 261 Therapeutic Modalities in Physical Therapy. This course will include an on-going communication between the clinical instructor (CI), the student and the academic coordinator. The student is given the opportunity to work with a variety of patients and to begin developing competence as a medical team member. The student also attends 6 clinical labs prior to the start of the clinical rotation to further develop his/her skills with patients and department procedures. Prerequisites: AL 261 and AL 171.

AL 265 Applied Neurophysiology - Physical Therapist Assistant (3)

This lecture/lab course is designed to provide the Physical Therapist Assistant with a foundation in applied neurophysiology concepts and common neurologic disease processes, physical therapy assessment and intervention techniques. This includes, but is not limited to, specific assessment and treatment techniques for patients in special populations, such as spinal cord injury, pediatrics, traumatic head injury, cerebrovascular accidents, as well as other neurological or cardiovascular disorders. Prerequisite: AL 264, AL 268, AL 271 and concurrent enrollment in AL 272 and AL 186.

AL 268 Integumentary Assessment in Physical Therapy (2)

Therapy management of various wounds and integumentary disorders. Specific emphasis will be placed on proper identification/staging of wounds, assessment and measurement, treatment protocols including selection of proper debridement techniques and dressings, along with other topics regarding integumentary assessment and wound care. Prerequisite: AL 261 and AL 171.

AL 271 Health Policy & Systems in Physical Therapy (2)

This course emphasizes professional aspects of the Physical Therapist Assistant. Included in that realm are topics such as professional behavior with colleagues and patients, health care history, policy, and systems, reimbursement guidelines, legislative issues, continuing education and plan for professional advancement, code of ethics, cultural sensitivity and competence, current developments in Physical Therapy, professional relationships, research, evidence based practice, employment, etc. This course is designed to broaden the student's understanding of professional responsibility and motivate them towards personal improvement, commitment and continuing competence in the Physical Therapy profession. Prerequisite: AL 261, AL 171, and concurrent enrollment in AL 264 and AL 268.

AL 272 Current Rehabilitation Techniques in Physical Therapy (2)

This course emphasizes the characteristics, clinical problems, and physical therapy treatment of various rehabilitation patients, including the physical, psychological, sexual and vocational problems encountered. Specialized areas of Physical Therapy such as Aquatics, Geriatrics, Oncology, Women's Health Issues, Prosthetics/Orthotics, Sports Physical Therapy and Pediatrics are included in this course. Prerequisite: Satisfactory completion of all previous coursework. AL 264, AL 268, AL 271 and concurrent enrollment in AL 265.

AL 273 Physical Therapy Issues (1)

In consultation with a faculty member, the student is assigned for intensive study a specific area of concern related to physical therapy. This may include intensive reading and the preparation of patient and/or practitioner educational materials related to the subject. This will give the student an opportunity to develop an area or topic of expertise by exploring various avenues of information and compiling those into one document. During this course the student will also be reviewing for the Program Comprehensive Final to be given during the second or third week of the spring semester. Prerequisites: AL 265, AL 272. AL 186, AL 265, AL 272 and concurrent enrollment in AL 279.

AL 279 Physical Therapy Clinical II & III (6)

This course is clinical in nature and consists of two six-week full-time rotation following the completion of all didactic course work. The student will be involved in practicing all Physical Therapist Assistant skills in an assigned healthcare facility. The course will entail either on-site or phone/skype communication between the clinical instructor, the student and the academic coordinator (at least once during each rotation). The student is given the opportunity to practice advanced applications with direct supervision on a variety of patients and to develop competence as a full-time member of the medical team. Prerequisites: AL 265, AL 272, AL 186, and concurrent enrollment in AL 273.

AL 289 Respiratory Therapy Clinical II (5)

Students are assigned to various clinical settings designed to allow the student to complete procedural evaluations in basic respiratory care. The student will also be introduced to critical care medicine. Prerequisite: AL 187.

AL 290 Special Topics/Allied Health (1-3)

Selected topics related to one of the Allied Health programs, which vary from semester to semester. Announced in advance. Prerequisite: Specified on each topic.

AL 291 Respiratory Therapy Principles and Procedures I (3)

Lectures and laboratory topics on cardiopulmonary resuscitation, airway care and management, emergency care, mechanical ventilation and care of the critically ill patient. Prerequisite: AL 289.

AL 292 Respiratory Therapy Principles and Procedures II (5)

Lectures, simulation and group discussion of diagnostic procedures used by the pulmonary physician in evaluating patients with respiratory disease. Special emphasis will be placed on etiology, pathophysiology, clinical manifestations, patient education, and treatment of obstructed and restricted pulmonary diseases. Prerequisite: Consent

AL 293 Respiratory Therapy Clinical III (5)

An in-depth exploration of critical care medicine. The student will execute procedures relating to care of the patient being mechanically ventilated. The student will also be given clinical experience in EKG's and pulmonary function studies. The student will also be introduced to neonatal critical care medicine. An additional fee is associated with this course. Prerequisite: AL 289.

AL 294 Respiratory Therapy Clinical Topics II (3)

An introduction to medical microbiology. Special emphasis on pathogens related to the cardiopulmonary systems. Students will also be exposed to new, current and advanced clinical respiratory therapy topics. Prerequisite: AL 292.

AL 295 Respiratory Therapy Clinical IV (5)

Clinical rotations in pulmonary rehabilitation/home care, advanced ventilation techniques, hemodynamic monitoring, and specialty rotations that the student is concerned with related to respiratory therapy. Students will also receive clinical experience in pediatrics and neonatology. Prerequisite: AL 293.

AL 296 Respiratory Therapy Clinical Topics III (3)

Instruction in fields of obstetrics, neonatology and pediatrics as related to respiratory care. Includes sections on medical ethics. Prerequisite: AL 382.

AL 300 Introduction to Diagnostic Medical Sonography (3)

An introduction to the Diagnostic Medical Sonography profession. Topics include discussion of sonographic terminology, basic theories of equipment operation, body imaging, seminars in patient care, professionalism, and information concerning clinical education. Prerequisite: Admission to Diagnostic Medical Sonography Program or consent.

AL 301 Clinical Radiation Therapy I (4)

In this course the student therapist will participate in the daily activities of the radiation oncology department while under direct supervision at affiliated clinical education sites. The student therapist will work to develop skills to achieve competency and learn to interact professionally and ethically with staff and patients.

AL 302 Radiation Therapy Principles I (3)

This course is designed to provide a basic overview of radiation therapy treatment planning and delivery concepts as well as foundational knowledge related to patient assessment, pharmacology, ethics, and law.

AL 303 Radiation Therapy Physics I (3)

This course is designed to establish knowledge of basic physics concepts relevant to fundamental physical units, principles, atomic structure, types of radiation, x-ray production, interactions with matter, measurement devices, and x-ray generating equipment.

AL 304 Therapeutic Radiobiology (3)

This course is designed to explore the biological, chemical, and physical effects of radiation on cells, tissues, and the body as a whole.

AL 305 Radiation Therapy Physics II (3)

This course is designed to examine factors that influence and govern the optimal planning of external beam radiation therapy and brachytherapy. Topics include isodose distributions, compensating factors, methods of dosimetric calculations, and clinical applications of treatment beams.

AL 307 Oncology, Simulation, and Treatment Procedures I (3)

This course is designed to examine and evaluate the management of neoplastic disease. The epidemiology, etiology, diagnosis, treatment approaches, sequelae, and prognosis are discussed.

AL 308 Allied Health Portfolio (3)

This is a required course for Bachelor of Health Science majors who are requesting credit for a radiographer, sonographer or radiation therapist accredited program which was not completed at a University/ College. Students will develop a portfolio demonstrating completion of appropriate education and registry examinations in addition to retrospective and prospective self-evaluation

AL 309 Foundations of Radiation Therapy (2)

This course is designed to provide an introduction to radiation oncology and the role of the professional radiation therapist. Radiation therapy medical terminology, patient assessment, radiation protection, and safety are explored. Students are oriented to the policies and procedures of the educational program.

AL 310 Radiation Therapy Procedures II (3)

This course is designed to provide instruction regarding radiation therapy quality management.

AL 311 Imaging in Radiation Therapy (3)

This course is designed to introduce crosssectional anatomy as it relates to the practice of radiation therapy with a focus on location of normal gross anatomy and relationship to other structures. Anatomy will be identified in axial (transverse), sagittal, and coronal planes. Radiation oncology imaging and simulation equipment/components, and related devices

AL 315 Allied Health Pharmacology (3)

This course is for allied health students and is designed to familiarize the student with general classification of drugs, the mechanism of action, indications, contraindications, and major adverse effects. Principles of drug administration and pharmacokinetic are also presented.

AL 320 Human Disease (3)

A study of diseases, their causes and complications, and the modern practices of diagnosis and treatment. Prerequisite: BI 230 or BI 250 or BI 255 or BI 275.

AL 321 Advanced Radiographic Imaging (2)

A continuation of disease concepts with a direct application to patient assessment, patient care, selection of radiation exposure factors and radiologic procedures. Prerequisite: Consent.

AL 330 Sonography Principles and Instrumentation I (3)

This course provides information concerning the basic physical principles of sound waves, their applications to the human body, the operation and physical characteristics of the transducer, the method by which the sound waves are converted into an image. In-depth instruction on physics principles and instrumentation will be presented. Prerequisite: Admission to Diagnostic Medical Sonography program or consent.

AL 331 Sonography Principles and Instrumentation II (3)

This course is a continuation through the physics of sonography. It will continue the exploration of the basic physical principles of sound waves, their applications to the human body, the operation and physical characteristics of the transducer, the method by which the sound waves are converted into an image. An in-depth instruction on physics principles and instrumentation will be presented. Prerequisite: Admission to Diagnostic Medical Sonography program or consent.

AL 332 Sonography Principles and Instrumentation III and Registry Review (2)

This course will review all of the curriculum related to the physics of sonography and sonography instrumentation to prepare the student for the national credentialing examinations. Prerequisite: Admission to Diagnostic Medical Sonography program or consent.

AL 340 Clinical Radiation Therapy II (4)

This course is a continuation of AL301. The student therapist will participate in the daily activities of the radiation oncology department while under direct supervision at affiliated clinical education sites. The student therapist will work to develop skills to achieve competency and learn to interact professionally and ethically with staff and patients.

AL 341 Sectional Anatomy & Imaging Applications (4)

Detailed study of gross anatomical structures will be conducted systematically for location, relationship to other structures and function. Gross anatomical structures are located and identified in axial (transverse), sagittal, coronal and orthogonal (oblique) planes. Illustrations and anatomy images will be compared with magnetic resonance (MR) and computed tomography (CT) images in the same imaging planes and at the same level when applicable. The characteristic appearance of each anatomical structure as it appears on CT and MR, when applicable, will be stressed. Prerequisite: Consent.

AL 347 Magnetic Resonance (MR) Physics I (3)

Content is intended to impart an understanding of theories of magnetic resonance properties. Additional concepts such as pulse sequencing, coils, gradient usage and signal production will be covered. Prerequisite: Consent.

AL 348 Magnetic Resonance (MR) Imaging I (3)

Content is designed to provide a review of anatomy involving selected body regions with an understanding of MR tissue characteristics. Routine imaging of the abdomen, pelvis, thorax, musculoskeletal system and central nervous system will be discussed. Common pathology as demonstrated through MR imaging will be presented. Prerequisite: Consent.

AL 349 Magnetic Resonance Clinical Experience I (1-3)

Assignment to a MR facility for application of theory and development of competency in routine imaging. Establish eligibility for certification through the American Registry of Radiologic Technologists. Prerequisite: Consent.

AL 350 Magnetic Resonance (MR) Physics II (3)

A continuation of Physics I concepts including pulse sequencing application, coil selection relating to scans, calculation of scan times as well as scan parameters and image factors. Prerequisite: AL 347 or consent.

AL 351 Magnetic Resonance (MR) Imaging II (3)

A continuation of imaging methods with a focus on non-routine or specialized protocols of the abdomen, pelvis, thorax, musculoskeletal system, central nervous system and vascular system. Prerequisite: AL 348 or consent.

AL 352 Magnetic Resonance Clinical Experience II (1-3)

Assignment to a MR facility for application of theory and development of competency in specialized imaging. Establish eligibility for certification through the American Registry of Radiologic Technologists. Prerequisite: AL 349 or consent.

AL 354 International Health Care Experience (3)

This course will offer students the opportunity to experience the culture of countries other than the United States while engaging in meaningful healthcare services or studies. In addition to completing their studies or service project, students will learn about the history, political systems, healthcare systems and culture of the country they visit. Prerequisite: Permission of the course instructor.

AL 355 Basic Concepts Health Services Administration (3)

This course is designed primarily for students who are new to the Bachelor of Health Science program and do not possess an allied health or other healthcare certification. This course will consist of introductory information and examines the health profession, health care administration and the organization of health care. Prerequisite: None.

AL 360 Independent Study/Allied Health (1-3)

Allied Health majors may pursue an independent research project if approved by the Program Director in consultation with the Department Chair. Independent Study may not be used in place of any courses required in the major. Independent Study courses must meet equivalencies to Federal definition of a credit hour. Prerequisites: Consent

AL 361 General Sonography Clinical I (6)

Students are assigned to various clinical settings to allow the student to begin developing the technical skills necessary to become an entry-level sonographer. Students receive supervision, training, and feedback from a registered sonographer. Prerequisite: Admission to Diagnostic Medical Sonography program or consent.

AL 362 General Sonography Clinical II (6)

Students are assigned to various clinical settings to allow the continuation of developing the technical skills necessary to become an entry-level sonographer. Students receive supervision, training, and feedback from a registered sonographer. Prerequisite: Admission to the Diagnostic Medical Sonography program or consent.

AL 363 General Sonography Clinical III (3)

Students are assigned to various clinical settings to allow the continuation of developing the technical skills necessary to become an entry-level sonographer. Students receive supervision, training, and feedback from a registered sonographer. Prerequisite: Admission to the Diagnostic Medical Sonography program or consent.

AL 366 Legal & Regulatory Issues for the Health Care Professional (3)

This course is an overview of the legal and regulatory issues that impact the delivery of health care. Emphasis will be placed on the management of a health care organization from a leadership perspective. Prerequisite: Admission to the Bachelor of Health Science major/minor or HIT program.

AL 367 Foundations of Quality Improvement in Health Care (3)

The course introduces the student to key quality and process improvement issues impacting the administrators of today's health care organizations and explores how those issues affect the delivery of care. Data-driven process and quality improvement is a central theme in the exploration of a variety of health care topics. This course provides basic knowledge of process improvement to be used in later courses. Prerequisite: Admission to the Bachelor of Health Science major/minor or HIT program.

AL 370 Oncology, Simulation and Treatment Procedures II (3)

This course is designed to examine and evaluate the management of neoplastic disease. The epidemiology, etiology, diagnosis, treatment approaches, sequelae, and prognosis are discussed.

AL 371 Abdomen Sonography Procedures I (3)

This Course will introduce introductory topics concerning abdominal sonography including but not limited to anatomy, pathophysiology, anatomical disease processes, patient care applications and sonographic principles and practices. Prerequisite: Admission to the Diagnostic Medical Sonography program or consent.

AL 372 Abdomen Sonography Procedures II (3)

This Course will continue to explore general abdominal sonography and general small parts sonography topics. Topics will include but not limited to anatomy, pathophysiology, anatomical disease processes, patient care applications and sonographic principles and practices. Additionally special topics, pediatrics and interventional sonography practices will be explored. Prerequisite: Admission to the Diagnostic Medical Sonography program or consent.

AL 375 Health Care Policy (3)

This course focuses on government and private policy and how it impacts the delivery of health care. Students will learn how a health care leader can be an advocate for change. Prerequisite: Admission to the Bachelor of Health Science major.

AL 379 General Sonography Procedures III and Registry Review (2)

This course will combine all information concerning general sonography procedures and OBGYN sonography procedures courses. This course will serve as a review course with mock board review exams tailored to the requirements of the National Registry exams of the Abdominal and OBGYN specialty board exams. Prerequisite: Admission to the Diagnostic Medical Sonography program or consent.

AL 380 Clinical Radiation Therapy III (3)

This course is a continuation of AL340. The student therapist will participate in the daily activities of the radiation oncology department while under direct supervision at affiliated clinical education sites. The student therapist will work to develop skills to achieve competency and learn to interact professionally and ethically with staff and patients.

AL 381 Radiation Therapy Seminar (3)

This course offers a is designed to provide a systematic review of the ARRT content specifications with a focus on real world radiation therapy situations, which challenge a therapist's problem solving and critical thinking skills. This course prepares the student for the national certification examination and entry-level problem solving.

AL 382 Cardiovascular Monitoring and Scanning (3)

Course for Respiratory Therapy students designed to provide the student with an understanding of cardiovascular monitoring. Areas of study will include an introduction to heart development, review of anatomy and physiology of the heart, hemodynamic monitoring, effects on hemodynamics due to disease states, and cardiac arrhythmia recognition. Prerequisite: Admission to Respiratory Therapy program.

AL 383 Cardiac Sonography Procedures I (3)

The content of this course will an indepth exploration of cardiac embryology, anatomy and physiology, pathophysiology, echocardiographic procedures, imaging techniques, and protocols specific to echocardiography.

AL 384 Cardiac Sonography Procedures II (3)

A detailed and in-depth exploration of various cardiac pathology and their echocardiographic manifestations. Prerequisite: Admission to the Diagnostic Medical Sonography program or consent.

AL 385 Cardiac Sonography Clinical I (6)

Students are assigned to various clinical settings to allow the student to begin developing the technical skills necessary to become an entry-level sonographer. Students receive supervision, training, and feedback from a registered sonographer.

AL 386 Cardiac Sonography Clinical II (6)

Students are assigned to various clinical settings to allow the continuation of developing the technical skills necessary to become an entry-level sonographer. Students receive supervision, training, and feedback from a registered sonographer.

AL 387 Cardiac Sonography Clinical III (3)

Students are assigned to various clinical settings to allow the continuation of developing the technical skills necessary to become an entry-level sonographer. Students receive supervision, training, and feedback from a registered sonographer.

AL 388 Cardiac Sonography Procedures III and Registry Review (2)

The course will cover new and highly specialized procedures in the realm of echocardiography, such as stress echo (treadmill and pharmacological), contrast echocardiography, diastology, and transesophageal echocardiography. It will also provide a review and Mock Testing for Boards. Prerequisite: Admission to the Diagnostic Medical Sonography program or consent.

AL 389 OBGYN Sonography Procedures I (3)

This Course will introduce introductory topics concerning obstetrical and gynecological sonography including but not limited to anatomy, pathophysiology, anatomical disease processes, fetal anatomy and disease, patient care applications and sonographic principles and practices. Prerequisite: Admission to the Diagnostic Medical Sonography program or consent.

AL 390 Special Topics/Allied Health (1-3)

Selected topics related to allied health which vary from semester to semester. Announced in advance. Prerequisite: Consent.

AL 391 Chemistry Application in Respiratory Care (3)

Introduction to medical chemistry. This course will discuss the basic aspects of chemistry and biochemistry as related to cardiopulmonary physiology and therapeutic intervention. This course includes atomic theory, chemical bonding and acid-base balance.

AL 392 OBGYN Sonography Procedures II (3)

This Course will continue to explore obstetrical and gynecological sonography including but not limited to anatomy, pathophysiology, anatomical disease processes, fetal anatomy and disease, patient care applications and sonographic principles and practices. Additionally special topics, fetal anomalies, and interventional OBGYN sonography practices will be explored.

AL 393 Vascular Sonography Procedures I (3)

An in-depth discussion of the anatomy, physiology, and pathophysiology of the peripheral and cerebral vascular systems. The focus will be on the cerebrovascular system and the arterial and venous systems of the lower extremities. Hemodynamics, Doppler waveforms, pressure measurements, plethysmography, appropriate pharmacology, sonographic appearance, and scanning techniques will be discussed. This will include arterial and venous systems, therapeutic intervention, and non-invasive testing-exam protocols. Prerequisite: Admission to Diagnostic Medical Sonography program.

AL 394 Vascular Sonography Procedures II (3)

Continuation of AL 393 to include discussion of the anatomy, physiology, and pathophysiology of the abdominal and peripheral vascular systems. The focus will be on the abdominal vasculature and on the arterial and venous systems of the upper extremities. Hemodynamics, Doppler waveforms, pressure measurements, plethysmography, appropriate pharmacology, sonographic appearance and scanning techniques will be discussed. Therapeutic intervention includes arterial and venous systems, non-invasive testing, and exam protocols. Prerequisite: Admission to the Diagnostic Medical Sonography program or consent.

AL 395 Vascular Sonography Clinical I (6)

Students are assigned to various clinical settings to allow the student to begin developing the technical skills necessary to become an entry-level sonographer. Students receive supervision, training, and feedback from a registered sonographer.

AL 396 Vascular Sonography Clinical II (6)

Students are assigned to various clinical settings to allow the continuation of developing the technical skills necessary to become an entry-level sonographer. Students receive supervision, training, and feedback from a registered sonographer. Prerequisite: AL 395.

AL 397 Vascular Sonography Clinical III (3)

Students are assigned to various clinical settings to allow the continuation of developing the technical skills necessary to become an entry-level sonographer. Students receive supervision, training, and feedback from a registered sonographer.

AL 398 Vascular Procedures III and Registry Review (2)

The course will cover new and highly specialized procedures in the realm of vascular sonography. Among the content will be hemodialysis access, transcranial doppler, and mapping procedures. It will also provide review and Mock Testing for Boards. Prerequisite: Admission to the Diagnostic Medical Sonography Program or consent.

AL 399 Health Information Systems (3)

This course is designed to help current and future health care professionals understand the impact of data and technology on daily clinical practice. In this course, we will examine the processes involved in acquiring, organizing, protecting, and utilizing information to support and improve health care delivery. We will discuss aspects of technology and their relevance to health care, including computer applications, infrastructure planning, ethical and legal aspects of health informatics, data security and management, and the future of data and information in health care practice. Throughout the course, we will emphasize the importance of providing competent, patient-focused care. Prerequisite: Admission to the Bachelor of Health Science major/minor or HIT program.

AL 400 Supervisory Practices for the Health Care Professional (3)

This course will introduce students to basic supervisory functions and responsibilities related to managing in health care organizations. Topics include history of management theory, the primary supervisory functions of planning, organizing, staffing, influencing, and controlling, and effective practices for managing a diverse workforce. Prerequisite: Admission to the Bachelor of Health Science program and EN 300.

AL 405 Financial Issues in Health Care I (3)

This course will introduce the student to common financial practices and issues in today's health care facilities, including a focus on the regulatory environment. Prerequisite: Admission to the Bachelor of Health Science major/minor and MA 112 or 116 with a C or higher grade.

AL 406 Finan Issues in Health Care II (3)

This course introduces the student to the economics of healthcare and the current system of financing health care. Addresses basic budgeting and management systems applicable to various health care industries. Examines the role of capital management and strategic planning in the success of a healthcare organization. Prerequisite: AL 405

AL 420 Current Issues in Health Care (3)

This course will explore current health care issues from the perspective of the Health Services Administrator. Special emphasis will be placed on the impact of the issue under study for the delivery, practice and organization of the American Health care system.

AL 430 Essentials of Public Health (3)

This course will provide students with an introduction to public health concepts as well as public health professional practice. Throughout the course, students will explore the origins and development of modern public health organizations and the relationship of public health to the overall healthcare system. Course topics include the basic structure of the public health system, the laws that influence public health, the public health workforce, and managing public health programs. Prerequisite: Admission to a Bachelor of Health Science program.

AL 450 Application of Quality Improvement in Health Care (3)

The course builds on the foundations of quality improvement class. It provides students the background to develop and implement quality assurance and patient safety programs according to national initiatives. Students explore methods of making organizations and individuals more adaptive and productive. Emphasis is on using tools and techniques that will improve critical thinking skills and students will apply communication skills to maintain positive stakeholder relationships. Prerequisite: Admission to the Bachelor of Health Science major and AL 367.

AL 460 Research in Health Care (3)

This course is designed to give you an introductory understanding of quantitative and qualitative research terminology and methodology. Throughout the semester, you will demonstrate the ability to locate scholarly sources of information, and you will develop the skills to evaluate published literature to determine the quality of the content and its relevance to health care practice. By the end of the course, you will be able to discuss the role of research in evidence-based practice and health care decision-making. Prerequisite: Admission to the Bachelor of Health Science program and EN 300.

AL 465 Evidence-Based Approaches to Public Health (3)

This course will explore ways that epidemiology and research are used to inform public health practice. Throughout the course, basic research methodologies will be reviewed, examining the role of data collection and analysis in the field of public health. Topics include principles of epidemiology, research methodologies as applied to public health practice and using evidence to support public health initiatives. Prerequisites: Admission to a public health degree or AL 430

AL 470 Public Health Program Planning (3)

This course will explore how evidence-based concepts are utilized in public health program planning, implementation, and evaluation. Focus on developing public health interventions that prioritize community concerns and resources. Course topics include a review of public health data sources, evaluating factors that influence health behaviors, the importance of community engagement, the role of stakeholders, and strategies for communicating with diverse populations. Prerequisites: Admission to a public health degree or AL 430

AL 475 Public Health Program Management (3)

This course is an introduction to essential public health program management skills. Throughout the course, the student will learn strategies for effectively managing resources to support implementing public health programs and interventions. Course topics include leadership theories and practices, strategic planning concepts, team building and performance evaluation, and securing and managing financial resources. Prerequisites: Admission to a public health degree or AL 430

AL 480 Senior Seminar In Healthcare (3)

A capstone course designed to provide integration and application of health care administration and leadership principles. This course also requires a summative reflection of the student's experience and growth as a health care leader. Prerequisite: Admission to the Bachelor of Health Science Health Services Administration major, EN 300, and senior standing. This course should be taken during the last semester. Medical imaging majors require BHS advisor approval.

Bachelor of Health Science

The Allied Health Department offers a Bachelor of Health Science with a major in Health Services Administration, Medical Imaging, Medical Laboratory Science, or Public Health. These options are designed to enhance the skills and marketability of health science associate degree graduates, and may also serve as an excellent preparation for those who wish to continue on to a graduate program.

Program Mission

The mission of the Bachelor of Health Science (BHS) is to prepare professionals and pre-professionals for leadership and management positions in health-related fields.

Washburn University Assessment – Program Student Learning Outcomes

Upon completion of the program students will be able to:

- PSLO 1: Practice leadership and healthcare decision-making skills utilizing critical thinking and evidence-based literature.
- PSLO 2: Demonstrate professional oral and written communication skills.
- PSLO 3: Examine factors that influence health outcomes of diverse populations.
- PSLO 4: Communicates a commitment to ethical practice in health care.

Programs

- Health Services Administration, BHS (p. 251)
- Medical Imaging, BHS (p. 252)
- Medical Laboratory Science, BHS (p. 255)
- Public Health, BHS (p. 258)
- Health Services Administration, Minor (p. 259)
- Public Health, Minor (p. 259)

Health Services Administration, BHS

There is a need for qualified managers in the health care field. The Bachelor of Health Science (BHS) in Health Services Administration is designed to provide graduates with knowledge and skills in the areas of health care management and leadership. Completion of a baccalaureate degree with advanced coursework in health care management and related areas will make graduates more marketable for administrative positions.

Admission Requirements

There are two options for admission into the BHS Health Services Administration program:

Option 1: Graduates with an associate degree (or higher) in an allied health field

The following are examples of acceptable health care programs:

- Respiratory Therapy
- Radiologic Technology
- Physical Therapist Assistant
- Health Information Technology
- Occupational Therapy Assistant

Documentation that student is credentialed, licensed or registered in a health care profession may be required. Students that have completed MA 112 Contemporary College Mathematics or MA 116 College Algebra and have been admitted into Washburn's Allied Health associate programs will also meet this criterion.

A cumulative GPA of 2.50 on a 4.00 scale and a minimum of a 2.25 Washburn GPA if appropriate.

Option 2: Students without formal healthcare training/education

45 Completed College Credit Hours including the courses listed below with a grade of "C" or higher:

- MA 112 Contemporary College Mathematics/MA 116 College Algebra University Math Requirement (3)
- AL 101 Foundations of Healthcare (3)
- AL 320 Human Disease (3) – prerequisite is an anatomy or physiology course listed below
- AL 355 Basic Concepts Health Services Administration (3)

AND (Choose one of the Following BI courses)

- BI 230 Introduction to Human Physiology (3)
- BI 255 Human Physiology w/lab (4)
- BI 250 Introduction to Human Anatomy (3)
- BI 275 Human Anatomy w/lab (4)

A cumulative GPA of 2.50 on a 4.00 scale and a minimum of a 2.25 Washburn GPA if appropriate.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50) and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Code	Title	Hours
Required Courses Inside Department		
AL 101	Foundations of Healthcare	3
AL 320	Human Disease	3
AL 355	Basic Concepts Health Services Administration (For non-credentialed majors only OR provide documentation that you are credentialed, licensed, or registered in a healthcare profession.)	3
AL 366	Legal & Regulatory Issues for the Health Care Professional	3
AL 367	Foundations of Quality Improvement in Health Care	3
AL 375	Health Care Policy	3
AL 399	Health Information Systems	3
AL 400	Supervisory Practices for the Health Care Professional	3
AL 405	Financial Issues in Health Care I	3
AL 406	Finan Issues in Health Care II	3
AL 430	Essentials of Public Health	3
AL 450	Application of Quality Improvement in Health Care	3
AL 460	Research in Health Care	3
AL 480	Senior Seminar In Healthcare	3
Subtotal		42
Required Courses Outside Department		
BI 230	Introduction to Human Physiology	3-4
or BI 250	Introduction to Human Anatomy	
or BI 255	Human Physiology	
or BI 275	Human Anatomy	
EN 300	Advanced College Writing	3
or EN 308	Scientific and Technical Writing	

WU 101	The Washburn Experience	3
Total Hours		51-52

Medical Imaging, BHS

The Bachelor of Health Sciences Medical Imaging option is available to students who have completed an associate's degree in a health-related field and who are pursuing an advanced imaging certificate in one of the following areas of concentration:

- Diagnostic Medical Sonography, Concentration (p. 253)
- Magnetic Resonance (MR), Concentration (p. 254)
- Radiation Therapy, Concentration (p. 254)

The need for qualified medical imaging professionals continues to rise. The medical imaging major is designed to provide associate degree healthcare graduates with knowledge and skills in advanced imaging fields and management. Completion of the baccalaureate degree makes graduates more marketable and eligible for leadership and supervisory positions.

Admission Requirements

The major in Medical Imaging requires an associate degree in a patient-care related health care field and prior acceptance to one of the following certificate programs: Diagnostic Medical Sonography, Magnetic Resonance Imaging or Radiation Therapy. Candidates must be credentialed in their allied health specialty and have achieved a cumulative GPA of 2.5 or higher on a 4.0 scale for the Associate degree and a minimum of 2.25 Washburn GPA. Interested students should contact the Allied Health Department for more specific requirements or visit <https://www.washburn.edu/academics/college-schools/applied-studies/departments/allied-health/bhs/index.html> (<https://www.washburn.edu/academics/college-schools/applied-studies/departments/allied-health/bhs/>).

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50) and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Code	Title	Hours
Required Courses Outside Department		
EN 300	Advanced College Writing	3

AL 430	Essentials of Public Health
AL 450	Application of Quality Improvement in Health Care
AL 460	Research in Health Care
Select one of the following certificate programs: 22-40	
Diagnostic Medical Sonography (p. 253)	
Magnetic Resonance Imaging (p. 254)	
Radiation Therapy (p. 254)	
Total Hours	34-52

Diagnostic Medical Sonography, Concentration

The Diagnostic Medical Sonography Program offers three separate certificates: Adult Cardiac, Vascular, and General (OB/GYN/AB). Each certificate program is 12 months in length. The cardiac and vascular certificates are 34 credit hours and the general certificate is 40 credit hours. These certificates provide a balance of didactic and clinical experience that will equip the student with the knowledge and skills to be an entry-level sonographer. The sonography program didactic courses are online and students must have access to high speed internet and possess excellent computer skills.

Program Mission

The Diagnostic Medical Sonography Program is focused on the development of qualified sonographers who provide optimum patient care through technical competency and professional conduct. The program will provide the knowledge and cognitive skills underlying the intelligent performance of major tasks typically required for an entry level staff sonographer.

Washburn University Assessment – Program Student Learning Outcomes

Upon completion of the program students will be able to:

- PSLO 1: To prepare competent entry-level sonographers in the cognitive (knowledge) learning domain..
- PSLO 2: To prepare competent entry-level sonographers in the psychomotor (skills) learning domain.
- PSLO 3: To prepare competent entry-level sonographers in the affective (behavior) learning domain.

Accreditation

The Diagnostic Medical Sonography program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP), upon recommendation of the:

Joint Review Committee on Education in Diagnostic Medical Sonography (JRC-DMS)
6021 University Blvd., Ste 500
Ellicott City, MD 21043

Admission Requirements

This program has special admission requirements. The applicant should have an Associate degree or higher, in a healthcare program with hands-on patient care clinical rotations. Examples include: Radiologic Technology, Respiratory Therapy, Physical Therapist Assistant,

Occupational Therapy Assistant or Registered Nurse, **and** completion of the following required courses with a C or better: Intermediate Algebra or higher college level mathematics course; Physics, Communication (English, speech, or composition); Human anatomy, Human physiology, and Medical Terminology.

Alternate pathways are available, please visit: www.washburn.edu/ultrasound (<https://www.washburn.edu/ultrasound/>)

AL 392	OBGYN Sonography Procedures II	3
Total Hours		40

Magnetic Resonance (MR), Concentration

MR curriculum at Washburn University is a 22 credit hour certificate program, which is conducted online. The certificate is designed to assist registered technologists in meeting the criteria for post-primary certification through the American Registry of Radiologic Technologists (ARRT). The curriculum addresses both didactic and clinical education, as outlined by the American Society of Radiologic Technologists and the ARRT.

Mission

The Magnetic Resonance program is focused on development of qualified medical imaging technologists who provide optimum patient care.

Washburn University Assessment – Program Student Learning Outcomes

Upon completion of the program students will be able to:

- PSLO 1: Demonstrate the ability to comprehend, apply and evaluation medical information relevant to the profession of magnetic resonance.
- PSLO 2: Demonstrate the technical proficiency in all skills necessary to fulfill the professional discipline of magnetic resonance.
- PSLO 3: Demonstrate professional behavior consistent with graduate expectations in the profession of magnetic resonance.

Admission Requirements

This program has special admission requirements which include ARRT registration in Radiography, Nuclear Medicine Technology, Radiation Therapy or Sonography. Contact the Allied Health Department for additional information or visit: <https://www.washburn.edu/academics/college-schools/applied-studies/departments/allied-health/mr/index.html> (<https://www.washburn.edu/academics/college-schools/applied-studies/departments/allied-health/mr/>).

Certificate Requirements

Code	Title	Hours
AL 341	Sectional Anatomy & Imaging Applications	4
AL 347	Magnetic Resonance (MR) Physics I	3
AL 348	Magnetic Resonance (MR) Imaging I	3
AL 349	Magnetic Resonance Clinical Experience I	3
AL 350	Magnetic Resonance (MR) Physics II	3

AL 351	Magnetic Resonance (MR) Imaging II	3
AL 352	Magnetic Resonance Clinical Experience II	3
Total Hours		22

Radiation Therapy, Concentration

The Radiation Therapy curriculum at Washburn University is a 40 credit hour, 13-month, online, certificate of completion program. This program will provide the knowledge and cognitive skills underlying the intelligent performance of the major tasks typically required of a staff radiation therapist at entry level. Graduates are registry eligible with the American Registry of Radiologic Technologists (ARRT).

Program Mission

The Radiation Therapy Program is focused on the development of qualified radiation therapists who provide optimum patient care through technical competency and professional conduct.

Washburn University Assessment – Program Student Learning Outcomes

Upon completion of the program students will be able to:

- PSLO 1 – Students will pass the national certification exam on the 1st attempt within 6 months of graduation.
- PSLO 2 – Students will demonstrate clinical competency by analyzing pertinent data from treatment planning documents.
- PSLO 3 – Students will demonstrate clinical competency by accurately positioning patients for treatment delivery.
- PSLO 4 – Students will demonstrate effective written communication skills.
- PSLO 5 – Students will evaluate images using various imaging technologies (MV, kV, CBCT) to ensure proper patient alignment.
- PSLO 6 – Students will demonstrate professional work standards.

External Accreditation

The Radiologic Technology program is accredited by the:

Joint Review Committee on Education in Radiologic Technology,
20 North Wacker Drive, Suite 2850,
Chicago IL 60606-3182,
(312) 704-5300, e-mail: mail@jrcert.org.

Admission Requirements

This program has special admission requirements. The applicant must be a graduate of an accredited Radiologic Technology program, possess a minimum of an associate degree from an institution that is accredited by an acceptable accrediting body (per ARRT), hold the professional designation of RT(R), and possess a minimum cumulative grade point average of 2.5. Required prerequisite coursework includes: college mathematics; verbal communication (communication or public speaking course), written communication (english, composition), human anatomy (can be combined with physiology); human physiology (can be combined with anatomy), and radiation physics. Interested students should contact the Allied Health Department for questions on specific requirements or visit the Radiation Therapy website (<https://www.washburn.edu/radiation-therapy/>).

The Radiation Therapy program is online and students must have access to the internet, have a webcam and microphone, and possess basic computer skills.

Certificate of Completion Requirements

The Radiation Therapy program is a 13-month program. In addition to the online didactic portion, this program includes a comprehensive clinical component. Clinical courses may be out of sequence with other University course offerings. Consult program director for course schedule.

Code	Title	Hours
AL 301	Clinical Radiation Therapy I	4
AL 302	Radiation Therapy Principles I	3
AL 303	Radiation Therapy Physics I	3

Medical Laboratory Science, BHS

Website: <https://www.washburn.edu/academics/college-schools/applied-studies/departments/allied-health/bhs/cls/index.html> (<https://www.washburn.edu/academics/college-schools/applied-studies/departments/allied-health/bhs/cls/>)

Priority Deadline for Application: December 1

Mission

Upon completion of the medical laboratory science (CLS) education program, the graduate will be the health care team professional responsible for providing laboratory information that is timely, cost-effective and of high quality. The laboratory professional will demonstrate a command of medical laboratory science theory and application such that s/he develops, implements, and evaluates the total laboratory process to improve patient care outcomes.

Washburn University Assessment – Program Student Learning Outcomes

The CLS graduate will demonstrate:

- PSLO 1: Competence through their ability to interpret, assess validity and correlate medical information relevant to their professional discipline.
- PSLO 2: Technical proficiency in all skills necessary to fulfill their professional discipline.

- PSLO 3: Professional behavior consistent with expectations of their professional discipline.

Description of Program

The CLS Program provides patient-centered educational opportunities, with theoretical knowledge and practical experience in hematology, clinical chemistry, microbiology, immunohematology (blood bank), immunology, molecular diagnostics and laboratory management. The program emphasizes laboratory principles and procedures, clinical significance and application, principles and practice of quality assurance, principles of laboratory management and supervision, safety, instructional methods, and computer applications.

CLS Program Goals

- Graduate technically competent practitioners, who interpret, assess validity and correlate clinical laboratory data.
- Instill the highest standards of performance and professional ethics in all graduates.
- Provide graduates with tools that promote sound, independent judgment, successful problem-solving abilities, and essential educational and administrative skills.
- Graduate professionals who are effective communicators with all members of the health care team, patients and the public (community).
- Support and mentor the development of professional responsibility to include lifelong learning activities, teamwork skills, and the ability to adapt to and facilitate change.
- Graduate professionals who actively educate others regarding the integral role of medical laboratory scientists in delivering quality patient care.
- Prepare graduates to pass national certification examinations in order to enter professional practice.

Accreditation

Washburn University's CLS program, in conjunction with the University of Nebraska Medical Center, is accredited by:

National Accrediting Agency for Clinical Laboratory Sciences (NAACLS)
5600 N River Road, Suite 720
Rosemont, IL 60018
(773) 714-8880

Admission Requirements

This program has special admission requirements due to limited enrollment.

In addition to the 43 hours of major coursework listed below, students must meet all prerequisites, general education and university requirements. The prerequisites include a minimum of 16 credit hours of biology and 16 credit hours of chemistry. Interested students should contact the CLS advisor for information about the prerequisites, application requirements and priority application deadlines.

Some students complete a Bachelor of Science degree prior to entering the CLS program. These students should contact the CLS advisor to determine program eligibility.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50) and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

¹ Students must receive a C or better in each course.

CL 407 Clinical Laboratory Operations (2)

This course provides a basic introduction to the theory, practical application, technical performance and evaluation of laboratory skills specific to the practice of clinical laboratory science. Laboratory safety; microscopy; pipetting; general laboratory equipment; quality control; mathematics; phlebotomy; pre-analytic, analytic and post-analytic processes, including specimen collection, processing and transport to maintain test result integrity, will be addressed. Prerequisite: Admission to the Clinical Laboratory Science program.

CL 408 Introduction to Clinical Hematology (2)

This course introduces the theory, practical application, technical performance and evaluation of hematological and hemostasis procedures. There is an emphasis on the correlation of clinical laboratory data with the diagnosis of erythrocyte, leukocyte and bleeding/clotting disorders. Prerequisite: Admission to the Clinical Laboratory Science program.

CL 409 Introduction to Microbiology (2)

This course introduces the theory, practical application, technical performance and evaluation of procedures for isolation, identification and susceptibility testing of infectious disease organisms in humans. The course focuses on bacteriology, emphasizing the correlation of clinical laboratory data with the patient's diagnosis and treatment. Prerequisite: Admission to Clinical Laboratory Science program.

CL 410 Introduction to Clinical Chemistry & Urinalysis (1)

This course introduces the theory, practical application, technical performance and evaluation of basic laboratory skills and methods in clinical chemistry and urinalysis. Correlation of laboratory data with the diagnosis and treatment of carbohydrate, renal, liver, protein, electrolyte and acid-base disturbances is emphasized. Prerequisite: Admission to Clinical Laboratory Science program.

CL 411 Introduction to Clinical Immunohematology (1)

This course introduces the theory, practical application, technical performance and evaluation of immunohematology procedures required for the collection, processing, storage and transfusion of blood and blood components and management of immunohematologic conditions. Prerequisite: Admission to Clinical Laboratory Science program.

CL 412 Clinical Laboratory Science Theory, Application, Correlation (5)

This course includes the application, evaluation and correlation of laboratory procedures used in the diagnosis and treatment of common disease states. Opportunities for building critical thinking, oral communication, professional behavior, and teamwork skills are provided in small group clinical case decisions.

CL 413 Clinical Endocrinology & Toxicology (1)

This course incorporates advanced theory, practical application, and evaluation of clinical chemistry laboratory procedures. Correlation of clinical laboratory data with diagnosis and treatment of endocrine disorders, toxicology disturbances and therapeutic drug monitoring is emphasized.

CL 414 Clinical Chemistry & Urinalysis I (2)

This course expands on the theory, practical application, technical performance and evaluation of basic laboratory procedures introduced in CL410, Introduction to Clinical Chemistry and Urinalysis. This course will focus on the interpretation, evaluation, and correlation of clinical laboratory data with the diagnosis and treatment of carbohydrate, renal, liver, protein, cardiac, lipid, electrolytes, trace elements, pancreatic-GI and acid-base disturbances. Prerequisite: CL 410.

CL 415 Clinical Chemistry & Urinalysis II (2)

This course expands on the theory, practical application, and evaluation of laboratory procedures introduced in CL 414 Clinical Chemistry and Urinalysis I and CL 444 Clinical Core Laboratory Practical I. Correlation of clinical laboratory data with the diagnosis and treatment monitoring of carbohydrate, renal, hepatic, cardiac, lipid/lipoprotein, protein, major and minor electrolyte, trace element, enzyme, pancreatic-gastrointestinal and acid-base disorders; tumor markers; and inborn errors of metabolism is emphasized. Prerequisite: CL 414.

CL 416 Clinical Hematology I (2)

This course expands on the theory, practical application, technical performance and evaluation of hematological and hemostasis procedures introduced in Introduction to Clinical Hematology. There is an emphasis on the correlation of clinical laboratory data with the diagnosis and treatment of erythrocyte, leukocyte and bleeding/clotting disorders. Prerequisite: CL 408

CL 417 Clinical Hematology II (2)

This course expands on the theory, practical application, and evaluation of hematological and hemostasis procedures introduced in CL 416 Clinical Hematology I and CL 444 Clinical Core Laboratory Practicum I, and includes the analysis of cerebrospinal, synovial and serous fluids. Correlation of clinical laboratory data with the diagnosis and treatment of erythrocyte, leukocyte and bleeding/clotting disorders will be emphasized. Prerequisite: CL 416.

CL 418 Clinical Microbiology I (2)

This course expands on the theory, practical application, technical performance and evaluation of procedures for isolation, identification and susceptibility testing of infectious disease organisms in humans introduced in Introduction to Clinical Microbiology. The course focuses on bacteriology emphasizing the correlation of clinical laboratory data with patient's diagnosis and treatment. Prerequisite: CL 409.

CL 419 Clinical Microbiology II (2)

This course incorporates advanced theory, practical application, technical performance and evaluation of procedures for isolation, identification and susceptibility testing of infectious disease organisms in humans. This course includes bacteriology, mycology, parasitology, virology and serology, and emphasizes the correlation of clinical laboratory data with the patient's diagnosis and treatment. Prerequisite CL 418.

CL 420 Clinical Immunology & Molecular Diagnostics (2)

This course includes the theory, practical application, and evaluation of immunological components, principles and methodologies used in the assessment of immunologically related disorders, including hypersensitivity reactions, autoimmune, immunoproliferative and immunodeficient disorders. The theory and application of molecular diagnostic tools, such as polymerase chain reaction (PCR), nucleic acid probes, and microarrays are also addressed. Prerequisite: Declared major in Clinical Laboratory Science and acceptance into CLS program.

CL 422 Clinical Immunohematology I (2)

This course expands on the theory, practical application, technical performance and evaluation of immunohematology procedures required for the collection, processing, storage and transfusion of blood and blood components and management of immunohematologic conditions that was introduced in CL 411 Introduction to Clinical Immunohematology. Prerequisite: CL 411.

CL 423 Clinical Immunohematology II (2)

This course incorporated advanced theory, practical application, technical performance and evaluation of blood bank procedures required for transfusion of blood and blood components and for handling and storage of blood and blood components. Prerequisite: CL 422.

CL 430 Clinical Laboratory Management I (2)

This course includes the theory, practical application, technical performance and evaluation of laboratory management principles and associated models. Lectures and assignments focus on effective written and oral communications, critical evaluation of research studies, compliance and regulatory issues, educational methodology, human resources financial management, laboratory operations, cultural competency, professionalism and ethical decision making. Opportunities to build problem-solving, teamwork and management skills are provided.

CL 431 Clinical Laboratory Management II (3)

This course includes the theory, practical application, technical performance and evaluation of laboratory management principles and associated models. Opportunities for building critical thinking, problem-solving, and management/professional leadership skills are provided. Prerequisite: CL 430.

CL 442 Clinical Immunohematology Practicum I (1)

This course provides practical application in a clinical laboratory setting for the technical performance and evaluation of clinical immunohematology procedures and preparation of blood components. Course content will include new skills and procedures, in addition to the skills and procedures presented in CL 407 Clinical Laboratory Operations and CL 411 Introduction to Clinical Immunohematology. Prerequisite: Admission to Clinical Laboratory Science program.

CL 443 Clinical Immunohematology Practicum II (1)

This course provides practical application in a clinical laboratory setting for the technical performance and evaluation of clinical immunohematology procedures and preparation of blood components. Course content will include new skills and procedures, in addition to the skills and procedures presented in CL 442 Clinical Immunohematology Practicum I. Prerequisite: Admission to the Clinical Laboratory Science program.

CL 444 Clinical Core Lab Practicum I (1)

This course provides practical application in a clinical laboratory setting for the technical performance and evaluation of clinical hematology/hemostasis, chemistry and urinalysis procedures. Course content will include new skills and procedures and the application of automation and automatic verification techniques, building on the skills and procedures presented in CL 407 Clinical Laboratory Operations, CL 408 Introduction to Clinical Hematology and CL 410 Introduction to Clinical Chemistry and Urinalysis. Prerequisite: Admission to the Clinical Laboratory Science program.

CL 445 Clinical Core Lab Practicum II (1)

This course provides practical application in a clinical laboratory setting for the technical performance and evaluation of clinical hematology/hemostasis, chemistry and urinalysis procedures. Technical content will include new skills and procedures, in addition to CL 444 Clinical Core Practicum I. Prerequisite: Admission to Clinical Laboratory Science program.

CL 448 Clinical Microbiology Lab Practicum I (1)

This course provides practical application in a clinical laboratory setting for the technical performance and evaluation of clinical microbiology procedures. Course content will include new skills and procedures, in addition to the skills and procedures presented in CL 407 Clinical Laboratory Operations and CL 409 Introduction to Clinical Microbiology. Prerequisite: Admission to Clinical Laboratory Science program.

CL 449 Clinical Microbiology Lab Practicum II (1)

This course provides practical application in a clinical laboratory setting for the technical performance and evaluation of clinical microbiology procedures. Course content will include new skills and procedures, in addition to the skills and procedures presented in CL 448 Clinical Microbiology Laboratory Practicum I. Prerequisite: Admission to Clinical Laboratory Science program.

Public Health, BHS

The Allied Health Department offers a Bachelor of Health Science with a major in Public Health. The BHS PH degree will prepare students for a career in the field of Public Health by providing knowledge, skills and experience specific to public health. The curriculum is appropriate for students with a wide range of interests and career goals such as education, community outreach, marketing, policy and advocacy, epidemiology, and research. This degree will also prepare students who wish to continue on to a graduate program.

Program Mission

The mission of the Bachelor of Health Science (BHS) Public Health degree is to prepare professionals and pre-professionals for leadership and management positions in public health-related fields.

Washburn University Assessment – Program Student Learning Outcomes

Upon completion of the program students will be able to:

- PSLO 1: Demonstrate knowledge of public health infrastructure and the workforce.
- PSLO 2: Discuss the role of evidence-based theories in public health.
- PSLO 3: Interpret quantitative and qualitative data following current scientific standards.
- PSLO 4: Recognize the foundational values of equity, social justice, and ethics in public health practice.
- PSLO 5: Describe the health and social determinants of diverse community populations.
- PSLO 6: Identify the necessity of collaboration and partnerships in public health practice.
- PSLO 7: Develop effective practices for public health policy and program development.
- PSLO 8: Apply critical thinking to public health decision-making.
- PSLO 9: Practice professional and effective communication with diverse audiences.

Admission Requirements

- Completed or be working toward an associate degree or have completed at least 45 college credit hours, including program prerequisites.
- MA 112 Contemporary College Mathematics or MA 116 College Algebra or equivalent (3)
- AL 101 Foundations of Healthcare
- BI 230 Introduction to Human Physiology (3) **OR** BI 255 Human Physiology w/Lab (4) **OR**
 - BI 250 Introduction to Human Anatomy (3) **OR** BI 275 Human Anatomy w/Lab (4)
- AL 320 Human Disease
- A cumulative GPA of 2.50 on a 4.0 scale and a minimum of a 2.25 Washburn GPA if appropriate.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50) and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Code	Title	Hours

Health Services Administration, Minor

Students may develop a specialization in health services through earning a Minor in Health Services Administration by completing a set of five specific upper-division courses in the health services administration field.

Admission Requirements

Interested students must apply for admission to the minor program with the Bachelor of Health Science advisor. The requirements for acceptance into the minor program are junior standing, a cumulative GPA of 2.5 or higher on a 4.0 scale and a minimum of 2.25 Washburn GPA. Students are required to have completed MA 112 Contemporary College Mathematics/MA 116 College Algebra University Math Requirement with a "C" or higher grade.

Minor Requirements

Code	Title	Hours
AL 366	Legal & Regulatory Issues for the Health Care Professional	3
AL 367	Foundations of Quality Improvement in Health Care	3
AL 375	Health Care Policy	3
AL 399	Health Information Systems	3
AL 405	Financial Issues in Health Care I	3

Public Health, Minor

Students may develop a specialization in Public Health through earning a Minor in Public Health by completing a set of five specific upper division courses. The minor is available to students working towards a bachelor degree at Washburn University.

Admission Requirements

Interested students must apply for admission to the minor program with a Bachelor of Health Science advisor.

The requirements for acceptance into the minor program are a junior standing, a cumulative GPA of 2.5 or higher on 4.0 scale and a minimum of 2.25 Washburn GPA. Students are required to have completed MA 112

Contemporary College Mathematics / MA 116 College Algebra University Math requirement with a "C" or higher grade.

Minor Requirements

Code	Title	Hours
AL 430	Essentials of Public Health	3
AL 465	Evidence-Based Approaches to Public Health	3
AL 470	Public Health Program Planning	3
AL 475	Public Health Program Management	3

Total Hours		15

Diagnostic Medical Sonography, Certificate

The Diagnostic Medical Sonography Program offers three separate certificates: Adult Cardiac, Vascular, and General (OB/GYN/AB). Each certificate program is 12 months in length. The cardiac and vascular certificates are 34 credit hours and the general certificate is 40 credit hours. These certificates provide a balance of didactic and clinical experience that will equip the student with the knowledge and skills to be an entry-level sonographer. The sonography program didactic courses are online and students must have access to high speed internet and possess excellent computer skills.

Program Mission

The Diagnostic Medical Sonography Program is focused on the development of qualified sonographers who provide optimum patient care through technical competency and professional conduct. The program will provide the knowledge and cognitive skills underlying the intelligent performance of major tasks typically required for an entry level staff sonographer.

Washburn University Assessment – Program Student Learning Outcomes

Upon completion of the program students will be able to:

- PSLO 1: To prepare competent entry-level sonographers in the cognitive (knowledge) learning domain.
- PSLO 2: To prepare competent entry-level sonographers in the psychomotor (skills) learning domain.
- PSLO 3: To prepare competent entry-level sonographers in the affective (behavior) learning domain.

Accreditation

The Diagnostic Medical Sonography program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP), upon recommendation of the:

Joint Review Committee on Education in Diagnostic Medical Sonography (JRC-DMS)
6021 University Blvd., Ste 500
Ellicott City, MD 21043

Admission Requirements

This program has special admission requirements. The applicant should have an Associate degree or higher, in a healthcare program with hands-on patient care clinical rotations. Examples include: Radiologic Technology, Respiratory Therapy, Physical Therapist Assistant, Occupational Therapy Assistant or Registered Nurse, **and** completion of the following required courses with a C or better: Intermediate Algebra or higher college level mathematics course; Physics, Communication (English, speech, or composition); Human anatomy, Human physiology, and Medical Terminology.

Alternate pathways are available, please visit: <https://www.washburn.edu/academics/college-schools/applied-studies/departments/allied-health/dms/index.html> (<https://www.washburn.edu/academics/college-schools/applied-studies/departments/allied-health/dms/>)

Total Hours		32

Health Information Technology, AAS

This program leads to an Associate of Applied Science (AAS) degree in Health Information Technology. The program features a sound base in general education in addition to professional courses and professional practice experience designed to guide students in the development of the technical skills necessary to become a Health Information Technician. Courses in the program major are on-line and students must have access to the internet and possess basic computer knowledge.

Accreditation

The Health Information Technology Associate degree Program is accredited by:

The Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM)
200 East Randolph Street, Suite 5100
Chicago, IL 60601
www.cahiim.org (<http://www.cahiim.org>)

Program Mission

The Health Information Technology program is focused on the development of qualified health information technicians who meet the demands of the health care industry through technical competence and professional conduct.

Washburn University Assessment – Program Student Learning Outcomes

Upon completion of the program students will be able to:

- PSLO 1: Demonstrate entry-level HIM (health information management) competencies.
- PSLO 2: Demonstrate the technical proficiency in all skills necessary to fulfill the professional discipline of health information technology.
- PSLO 3: Demonstrate professional behavior consistent with employer expectations in the professional discipline.

Admission Requirements

This program has special admission requirements. Interested students should contact the Allied Health Department for specific requirements or visit <https://www.washburn.edu/academics/college-schools/applied-studies/departments/allied-health/hit/index.html> (<https://www.washburn.edu/academics/college-schools/applied-studies/departments/allied-health/hit/>).

Degree Requirements

In addition to the requirements stated below, students must complete 15 hours of General Education (p. 50) and all requirements for an Associate of Applied Science (p. 48) degree. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Magnetic Resonance (MR), Certificate

MR curriculum at Washburn University is a 22 credit hour certificate program, which is conducted online. The certificate is designed to assist registered technologists in meeting the criteria for post-primary certification through the American Registry of Radiologic Technologists (ARRT). The curriculum addresses both didactic and clinical education, as outlined by the American Society of Radiologic Technologists and the ARRT.

Mission

The Magnetic Resonance program is focused on development of qualified medical imaging technologists who provide optimum patient care.

Washburn University Assessment – Program Student Learning Outcomes

Upon completion of the program students will be able to:

- PSLO 1: Demonstrate the ability to comprehend, apply and evaluation medical information relevant to the profession of magnetic resonance.
- PSLO 2: Demonstrate the technical proficiency in all skills necessary to fulfill the professional discipline of magnetic resonance.
- PSLO 3: Demonstrate professional behavior consistent with graduate expectations in the profession of magnetic resonance.

Admission Requirements

This program has special admission requirements which include ARRT registration in Radiography, Nuclear Medicine Technology, Radiation Therapy or Sonography. Contact the Allied Health Department for additional information or visit: <https://www.washburn.edu/academics/>

college-schools/applied-studies/departments/allied-health/mr/index.html (<https://www.washburn.edu/academics/college-schools/applied-studies/departments/allied-health/mr/>).

Total Hours		22

Occupational Therapy Assistant, AAS

The Occupational Therapy Assistant Program leads to the Associate of Applied Science (AAS) degree. Upon successful completion of the program, its graduates will be eligible to sit for the national certification examination for the occupational therapy assistant administered by the National Board for Certification in Occupational Therapy (NBCOT)®.

The program features general education and science requirements as well as occupational therapy procedure and systems courses and Level I and II Fieldwork education component. During fieldwork courses students may be required to attend clinical sites outside the Topeka area. All students in this program are required to provide their own transportation to clinicals as well as clinical lab attire. Professional liability insurance is provided by Washburn University, however, some clinical sites may require malpractice insurance.

Occupational Therapy (OT) is a skilled treatment that helps individuals achieve independence in all facets of their lives. Occupational Therapy assists people in developing the skills for the job of living and necessary for independent and satisfying lives. Occupational therapy assistants (OTA) assist the OTs to implement the treatment plans to help individuals to achieve independence.

Program Mission

Washburn University's mission states that it: enriches the lives of students by providing opportunities for them to develop and to realize their intellectual, academic, and professional potential, leading to becoming productive and responsible citizens. We are committed to excellence in teaching, scholarly work, quality academic and professional programs, and high levels of faculty-student interaction. We develop and engage in relationships to enhance educational experiences and our community.

The Occupational Therapy Assistant program assists that mission by preparing qualified occupational therapy assistants who provide optimum patient care through technical competency and professional conduct in the profession of an occupational therapy assistant. Washburn's OTA program also supports the University's mission to provide learning opportunities for students to develop their professional, intellectual, and academic potential; while encouraging and facilitating the importance of life-long learning and service to the community

Washburn University Assessment – Program Student Learning Outcomes

Upon completion of the program students will:

- PSLO 1: Be educated as a generalist with a broad exposure to the delivery models and systems used in settings where occupational therapy is currently practiced and where it is emerging as a service.
- PSLO 2: Have achieved entry-level competence through a combination of academic and fieldwork education.
- PSLO 3: Be prepared to articulate and apply occupational therapy principles and intervention tools to achieve expected outcomes as related to occupation.
- PSLO 4: Be prepared to articulate and apply therapeutic use of occupations with individuals or groups for the purpose of participation in roles and situations in home, school, workplace, community, and other settings.
- PSLO 5: Be able to apply occupational therapy interventions to address the physical, cognitive, psychosocial, sensory, and other aspects of performance in a variety of contexts and environments to support engagement in everyday life activities that affect health, well-being, and quality of life.
- PSLO 6: Uphold the ethical standards, values, and attitudes of the occupational therapy profession.
- PSLO 7: Understand the distinct roles and responsibilities of the occupational therapist and occupational therapy assistant in the supervisory process.
- PSLO 8: Be prepared to effectively communicate and work interprofessionally with those who provide care for individuals and/or populations in order to clarify each member's responsibility in executing components of an intervention plan.

Accreditation

The occupational therapy assistant program is accredited by the:

Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA)
7501 Wisconsin Avenue, Suite 510E
Bethesda, MD 20814
(301) 652-AOTA, www.acoteonline.org (<http://www.acoteonline.org>).

Graduates of the program will be eligible to sit for the national certification examination for the occupational therapy assistant administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of this exam, the individual will be a Certified Occupational Therapy Assistant (COTA). In addition, all states require licensure in order to practice; practice. Requirements for each state's license may be found at each state's individual licensing board. Note that a felony conviction may affect a graduate's ability to sit for the NBCOT certification examination and/or attain state licensure.

Note: Students must complete Level II fieldwork within 18 months following completion of the didactic portion of the program.

Alpha Omega Tau

Alpha Omega Tau (AQT) is a specialized honor society for students and graduates of an occupational therapy assistant program who meet the eligibility requirements (GPA in top 35% of cohort, with a minimum GPA of 3.5, and commitment to leadership, scholarship, and service). AQT

recognizes and encourages superior scholarship in a specialized or given field of study at a school, college, or larger unit of a University or within a field of study of a two-year college.

Occupational Therapy Assistant Committee (OTAC)

The purpose of the Occupational Therapy Assistant Committee (OTAC), the program's student organization, is to provide an opportunity to promote and educate the community about Occupational Therapy Services. OTAC provides an avenue that enables professional growth, leadership, develops peer support and mentorship. OTAC members provide volunteerism and community service within the university and surrounding communities.

Admission Requirements

This program has special admission requirements. Interested students should contact the Allied Health Department for specific requirements.

Degree Requirements

In addition to the requirements stated below, students must complete 15 hours of General Education (p. 50) and all requirements for an Associate of Applied Science (p. 48) degree. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Physical Therapist Assistant, AAS

The Physical Therapist Assistant Program leads to the Associate of Applied Science (AAS) degree. Upon completion of the program students are eligible to take the national examination through the Federation of State Boards in Physical Therapy (FSBPT) to become Physical Therapist Assistants (PTA). The program features general education and science requirements as well as physical therapy procedure and systems courses and a clinical education component. During clinical courses students may be required to attend clinical sites outside the Topeka area. All students in this program are required to provide their own transportation to clinicals as well as clinical lab attire. Professional liability insurance is provided by Washburn University, however, some clinical sites may require malpractice insurance.

Mission

The mission of the Physical Therapist Assistant Program is to offer a quality career-oriented program allowing graduates to become credentialed Physical Therapist Assistants. To help students achieve this goal, the program is focused on providing excellence in teaching with high faculty-student interaction and enhanced educational experiences through relationships with community partners. By doing so, it allows students to realize their intellectual, academic, and professional potential so they can become lifelong learners who are responsible and productive members of the health care team and local community, state, and region.

Washburn University Assessment - Program Student Learning Outcomes

Upon completion of the program students will be able to:

- PSLO 1: Demonstrate the ability to work under the supervision of a physical therapist in an ethical, legal, safe, and effective manner.
- PSLO 2: Implement a comprehensive treatment plan developed by a physical therapist.
- PSLO 3: Communicate regularly with supervising physical therapists about the patient's progress or adjustments made in treatment procedures in accordance with changes in patient status.
- PSLO 4: Perform appropriate measurement techniques within the knowledge and limits of practice to assist the supervising physical therapists in monitoring and modifying the plan of care.
- PSLO 5: Interact with patients and families in a manner which provides the desired psychosocial support including the recognition of cultural and socioeconomic differences.
- PSLO 6: Participate in the teaching of other health care providers, patients, and families.
- PSLO 7: Document relevant aspects of patient treatment and participate in discharge planning and follow-up care.
- PSLO 8: Demonstrate effective written, oral, and nonverbal communication with patients and their families, colleagues, health care providers, and the public.
- PSLO 9: Understand the levels of authority and responsibility; planning, time management, supervisory process, performance evaluations, policies, and procedures; fiscal considerations for physical therapy providers and consumers, and continuous quality improvement.

- PSLO 10: Practice professional development through reading and interpreting professional literature, participation in professional organizations, and attendance at continuing education programs.
- PSLO 11: Graduate pass rates for the PTA Certification Examination will be at or above the national pass rate average.

Accreditation

The Physical Therapist Assistant Program at Washburn University is accredited by:

The Commission on Accreditation in Physical Therapy Education (CAPTE)

3030 Potomac Ave Ste 100

Alexandria, Virginia 22305-3085

telephone: (703) 706-3245; e-mail: accreditation@apta.org;

website: www.capteonline.org (<http://www.capteonline.org>).

If needing to contact the program/institution directly, please call (785) 670-2170 or email mark.kohls@washburn.edu.

Physical Therapy Club

The purpose of the Physical Therapy Club is to provide an environment which facilitates professional growth, creates a community of professionals for mentorship and peer support, and develops a group that will provide community and educational leadership and service at Washburn University and the surrounding geographical area.

Admission Requirements

This program has special admission requirements. Interested students should contact the Allied Health Department for specific requirements or visit: <https://www.washburn.edu/academics/college-schools/applied-studies/departments/allied-health/pta/index.html> (<https://www.washburn.edu/academics/college-schools/applied-studies/departments/allied-health/pta/>). Although some coursework can be completed prior to admission to the PTA Program, there are no pre-requisite courses that must be completed to be eligible for program admission. A maximum of twenty-four students are accepted for the fall of each year.

Degree Requirements

In addition to the requirements stated below, students must complete 15 hours of General Education (p. 50) and all requirements for an Associate of Applied Science (p. 48) degree. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Radiation Therapy, Certificate

The Radiation Therapy curriculum at Washburn University is a 40 credit hour, 13-month, online, certificate of completion program. This program will provide the knowledge and cognitive skills underlying the intelligent performance of the major tasks typically required of a staff radiation therapist at entry level. Graduates are registry eligible with the American Registry of Radiologic Technologists (ARRT).

Program Mission

The Radiation Therapy Program is focused on the development of qualified radiation therapists who provide optimum patient care through technical competency and professional conduct.

Washburn University Assessment – Program Student Learning Outcomes

Upon completion of the program students will be able to:

- PSLO 1 – Students will pass the national certification exam on the 1st attempt within 6 months of graduation.
- PSLO 2 – Students will demonstrate clinical competency by analyzing pertinent data from treatment planning documents.
- PSLO 3 – Students will demonstrate clinical competency by accurately positioning patients for treatment delivery.
- PSLO 4 – Students will demonstrate effective written communication skills.
- PSLO 5 – Students will evaluate images using various imaging technologies (MV, kV, CBCT) to ensure proper patient alignment.
- PSLO 6 – Students will demonstrate professional work standards.

External Accreditation

The Radiation Therapy program is accredited by the Joint Review Committee on Education in Radiologic Technology, 20 North Wacker

Drive, Suite 2850, Chicago IL 60606-3182, (312) 704-5300, e-mail: mail@jrcert.org.

Admission Requirements

This program has special admission requirements. The applicant must be a graduate of an accredited Radiologic Technology program, possess a minimum of an associate degree from an institution that is accredited by an acceptable accrediting body (per ARRT), hold the professional designation of RT(R), and possess a minimum cumulative grade point average of 2.5. Required prerequisite coursework includes: college mathematics; verbal communication (communication or public speaking course), written communication (english, composition), human anatomy (can be combined with physiology); human physiology (can be combined with anatomy), and radiation physics. Interested students should contact the Allied Health Department for questions on specific requirements or visit the Radiation Therapy website (<https://www.washburn.edu/radiation-therapy/>).

The Radiation Therapy program is online and students must have access to the internet, have a webcam and microphone, and possess basic computer skills.

Certificate Requirements

Course Sequence

The Radiation Therapy program is a 13-month program. In addition to the online didactic portion, this program includes a comprehensive clinical component. Clinical courses may be out of sequence with other University course offerings. Consult program director for course schedule.

Requirements for Certificate of Completion

Required Major Courses (40 Credit Hours)

Code	Title	Hours
AL 301	Clinical Radiation Therapy I	4
AL 302	Radiation Therapy Principles I	3
AL 303	Radiation Therapy Physics I	3
AL 304	Therapeutic Radiobiology	3
AL 305	Radiation Therapy Physics II	3
AL 307	Oncology, Simulation, and Treatment Procedures I	3
AL 309	Foundations of Radiation Therapy	2
AL 310	Radiation Therapy Procedures II	3
AL 311	Imaging in Radiation Therapy	3
AL 340	Clinical Radiation Therapy II	4
AL 370	Oncology, Simulation and Treatment Procedures II	3
AL 380	Clinical Radiation Therapy III	3
AL 381	Radiation Therapy Seminar	3
Total Hours		40

Radiologic Technology, AAS

This program leads to an Associate of Applied Science (AAS) degree in Radiologic Technology, with graduates eligible to apply for examination through the American Registry of Radiologic Technologists (ARRT). The program features general education as well as radiologic technology courses. The program provides a balance of on-campus courses, labs and

clinical education. Approximately twenty-eight students are accepted for the fall of each year.

Mission

The Radiologic Technology (Radiographer) program is focused on development of qualified medical imaging technologists who provide optimum patient care through competency and professional conduct.

Program Goals (External Accreditation)

- Students and graduates will demonstrate clinical competence.
- Students will utilize critical thinking and problem-solving skills.
- Students will be able to communicate effectively.

External Accreditation

The Radiologic Technology program is accredited by the:

Joint Review Committee on Education in Radiologic Technology
20 North Wacker Drive, Suite 2850,
Chicago IL 60606-3182
(312) 704-5300, e-mail: mail@jrcert.org.

Washburn University Assessment – Program Student Learning Outcomes

Upon completion of the program students will be able to:

- PSLO 1: Demonstrate the ability to comprehend, apply and evaluate medical information relevant to the professional radiologic technology.
- PSLO 2: Demonstrate the technical proficiency in all skills necessary to fulfill the professional discipline of radiologic technology.
- PSLO 3: Demonstrate professional behavior consistent with graduate expectations in the profession of radiologic technology.

Radiologic Technology Student Organization

Students who are enrolled in the radiologic technology program have the opportunity to join the Radiologic Technology Student Organization (RTSO). The purpose of the RTSO is to create an awareness of the radiologic technology program to the University and community, to maintain communication with alumni and other Kansas programs, and to engage in campus, community and professional organization activities to further the knowledge of the practice of radiologic technology.

Application Requirements

This program has special admission requirements due to limited enrollment. Interested students should contact the Allied Health Department for specific requirements or visit the website <https://www.washburn.edu/academics/college-schools/applied-studies/departments/allied-health/xr/application-admission.html>

Degree Requirements

In addition to the requirements stated below, students must complete 15 hours of General Education (p. 50) and all requirements for an Associate of Applied Science (p. 48) degree. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Code	Title	Hours
Required Courses Inside Department ¹		
AL 101	Foundations of Healthcare	3
AL 120	Radiographic Procedures & Patient Care I (plus lab)	3

¹ Students must receive a C or better in each course.

² BI 100 is a required prerequisite for BI 230 and BI 250. BI 100 and BI 101 are prerequisites for BI 255 and BI 275.

Respiratory Therapy, AAS

The Respiratory Therapy program leads to an Associate of Applied Science (AAS) degree in Respiratory Therapy. Upon completion of the program, students are eligible to take the national credentialing examination to become a Registered Respiratory Therapist (RRT). The program features general educational and science prerequisites, as well as respiratory therapy courses. Interested students are required to make application for admission to the Respiratory Therapy Program. Eighteen students are accepted for the fall of each year.

Program Mission

The Respiratory Therapy program is focused on development of qualified graduates who are prepared to provide the essentials for the safe and effective delivery of respiratory care and patient education.

Program Goals

The Respiratory Therapy program focuses on developing qualified graduates by preparing them to provide the essentials for the safe and effective delivery of respiratory care and patient education. The goal of the Respiratory Care program is to prepare graduates with demonstrated

competence in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains of respiratory care practice as performed by registered respiratory therapists (RRTs). Professional competence combines cognitive, psychomotor, and affective skills essential for the safe and effective delivery of respiratory care. The Respiratory Care Program uses the outcome-based education model to ensure students develop and master the knowledge, skills, and professional behaviors expected of the registered respiratory therapist (RRT).

Washburn University Assessment – Program Student Learning Outcomes

Upon completion of the program students will be able to:

- PSLO 1: Demonstrate the ability to comprehend, apply, and evaluate medical information relevant to a registered respiratory therapist.
- PSLO 2: Demonstrate the technical proficiency in all skills necessary to function as a registered respiratory therapist.
- PSLO 3: Demonstrate professional behavior consistent with employer expectations as performed by registered respiratory therapists.

Accreditation

The Respiratory Therapy program is accredited by the Commission on Accreditation for Respiratory Care (www.coarc.com (<http://www.coarc.com>)).

Commission on Accreditation for Respiratory Care
264 Precision Blvd
Telford, TN 37690

Respiratory Therapy Student Organization

The Respiratory Care Student Organization (RCSO) is made up of current Respiratory Therapy majors. The purpose of the RCSO is to promote the purpose and program of respiratory care to the community including but not limited to: asthma education, smoking cessation, ECG screening, and pulmonary function screening; and to compete in the academic contest at the annual Kansas Respiratory Care Society's conference.

Admission Requirements

This program has special admission requirements due to limited enrollment. Interested students should contact the Allied Health Department for specific requirements or visit <https://www.washburn.edu/academics/college-schools/applied-studies/departments/allied-health/rt/index.html> (<https://www.washburn.edu/academics/college-schools/applied-studies/departments/allied-health/rt/>).

The Respiratory Therapy Program adheres to policies of non-discrimination as defined by various federal and state laws and regulations.

Degree Requirements

In addition to the requirements stated below, students must complete 15 hours of General Education (p. 50) and all requirements for an Associate of Applied Science (p. 48) degree. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Technology Administration, BAS

The Bachelor of Applied Science degree with a major in Technology Administration is available for students who have completed an occupational oriented associate degree and are interested in pursuing further studies to advance in a technology-management related career. The degree accommodates students from diverse disciplines whose associate degree academic major does not easily lead to a bachelor's degree.

The nature of the program affords the flexibility to meet the needs of students from many technical backgrounds who desire to develop or expand skills to enhance their career opportunities. The curriculum is designed to complement the students' technical and professional skills by providing foundation studies in technological, leadership and management topics. A minor is required that provides additional knowledge and experience. All courses in the major are offered completely on-line using a variety of instructional approaches addressing different learning styles. Interested students should contact the Allied Health department for specific requirements or visit: <https://www.washburn.edu/academics/college-schools/applied-studies/departments/allied-health/bas/index.html> (<https://www.washburn.edu/academics/college-schools/applied-studies/departments/allied-health/bas/>)

Mission

The Technology Administration Program develops managers, team leaders, supervisors and other professionals who understand technology;

its impact on humanity; and use tools, techniques, and systems to enhance their effectiveness in a global, competitive environment.

Washburn University Assessment – Program Student Learning Outcomes

Technology Administration students at Washburn University, upon graduation, are expected to be able to:

- PSLO 1: Demonstrate the impact that technology has on the individual, society, and civilization.
- PSLO 2: Apply the current legal decisions and organization policies to the development and management of technology.
- PSLO 3: Apply life cycle system development methods to reduce risks associated with management decisions.
- PSLO 4: Demonstrate the application of process and behavior data to improve efficiency in a production environment.
- PSLO 5: Identify the core competencies of effective project management and demonstrate how skilled project managers are crucial to an organization.
- PSLO 6: Select quality indicators that can be used to modify inputs and impact measured system outputs in a management operation.
- PSLO 7: Demonstrate competence in the use of the skills required for analyzing, communicating and problem solving complex and unpredictable situations where the management of technology is a central issue.
- PSLO 8: Demonstrate oral and written communication skills, and the ability to work in teams.

Major

The major for this degree consists of an integrative core of technological and management courses. This sequence of courses focuses on personnel management, organizational systems, personal leadership, the evolution and impact of technology, systems design and evaluation, safety issues and quality assurance, and a capstone technology project. Elective classes focus on the role of technology in relation to the natural world, tools to look forward to the role technology will take, the design and application of technology policy, individual and in-depth research, the process of planning for technology including project management, and individualized internships.

Minor Options

Recommend minor options include Business Administration, Communication Studies, Health Services Administration or Public Administration. Specific course requirements for the minors appear in the information below. For assistance, in declaring a minor, please contact the:

School of Business office in HC 114, (785) 670-1308;

Communication Studies office in MO 206, (785) 670-2230;

Health Services Administration office in BE 107, (785) 670-2170 or,

Public Administration office in HC 215, (785) 670-1737.

Applied Science/Technology Area

This section of the degree program relates to the major courses from the student's associate degree. Because of the diverse nature of associate

degree programs, credit hour completion of technical related courses could range up to 48 credit hours.

Admission Requirements

Candidates for admission to the Bachelor of Applied Science degree program with a major in Technology Administration must meet the following requirements:

- Completion of an associate degree from an accredited institution.
- A cumulative grade point average of 2.0 or higher on a 4-point scale on the associate degree and with a grade of "C" or higher in all major and related courses.
- Contact the Technology Administration Program coordinator for advising.

Technology Administration Degree Requirements

In addition to the requirements stated below, students must complete a certificate or associate degree in a technical area, 34-35 hours of General Education (p. 50), and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education requirements. Please see your advisor for more information.

TA 210 Technology Survey (3)

Reviews the historical and practical development of technology in a wide variety of settings. Students will learn about the development of technological innovation and the effect on today's society; systems design and analysis; planning and managing a safe environment; tools and techniques to forecast future development in technology; the conflict between technological innovation and resources including local, national and global consequences; using and managing technology in the workplace and at home; and leadership and management in a variety of settings with a technology focus. Prerequisite: none.

TA 300 Evolution & Development of Technology (3)

This course includes a historical account of the development and innovation of technology. Emphasis is on the development of scientific knowledge and its relationship to inventions, their role in careers and impact on civilization.

TA 310 Technology & Society (3)

Course will focus on current technology in the context of historical development and the effect of technology on today's society. Students will develop critical analysis of technological innovation through a variety of readings, research and projects.

TA 320 System Design, Assessment, & Evaluation (3)

This course provides practice in skills to analyze organizational opportunities and evaluates systems using techniques such as flow charts, cause and effect diagrams and others to determine how systems can be utilized to meet organizational challenges. The course will cover such topics as systems planning, analysis, design, testing, implementation and maintenance. Prerequisite: MA 110, or MA 112, or MA 116, or MA 140.

TA 330 Safety Analysis & Quality Assurance (3)

The purpose of the course is to review the organization of accident prevention programs, job hazards, accident cost control, and planning and maintaining a safe environment. The course includes analysis of data, including the use of statistical process control, risk management, and quality assurance issues such as inspections, reports, and external standards of federal, state and local agencies.

TA 340 Technology Policy (3)

This course will provide an in-depth study of policy and law practices relating to technology. The course will deal with technology policy, legal ramification in relation to local environments, state, national and international communities. Consideration in the course will deal with issues such as technological efficiency, socio-economic development, environment, security and others. Special emphasis will be given to the political process in which technology policies are shaped in public and private organization.

TA 360 Independent Study (1-4)

Technology Administration majors may pursue an independent research project approved by the Program Director in consultation with the Department Chair. Independent Study may not be used in place of any courses required of the TA work major. Independent Study courses must meet equivalencies to Federal definition of a credit hour. Prerequisites: Consent

TA 370 Technology Internship (1-4)

Provides the opportunity under the direction of a faculty member to gain insight and practical experiences in an area of technology administration.

TA 380 Technology and the Future (3)

This course will examine applications of a variety of predication tools and techniques to forecast future developments in their career field. Outcomes will include identification and implementation of strategies to create a desired future in an operation, production or market. Prerequisite: (MA 110 or MA 112 or MA 116) and EN 101.

TA 381 Technology and Ecology (3)

The purpose of the course is to examine ecological policy in terms of technology and innovation, including the political, geographical, legal and social contexts in which technological innovation occurs. The course will examine conflicts between innovation and resources, risk assessment, national and global impact, and scale of consequences.

TA 390 Special Topics in Technology (1-3)

These special topic courses cover a variety of subjects designed to instill current topics into the technology program.

TA 400 Technology Administration (3)

This course provides an introduction to several core concepts in technology management and the role of managers of technology in their respective organizations. The course will cover topics such as technology strategy, effective use of resources, the impacts of technology systems, funding technology and ethical approaches to using and managing technology.

TA 410 Technology Planning (3)

This course investigates the increasing use of projects to accomplish organizational goals, including how project plan inputs are accurately gathered, integrated and documented. Topics include project life cycle, work breakdown structure, and the importance of quality, risk, and contingency management in planning development. Prerequisite: None.

TA 420 Technology Project (3)

Students working individually and in teams will complete projects as assigned. These projects may take a variety of forms, but will integrate students' technical and professional coursework. Students will be required to produce written and oral presentations of their projects. Evaluation will be based both on individual performance and performance as a team member. Leadership skills will be a critical component of the course. This Capstone project requires summative reflection, serving as a culminating experience for Bachelor's degree students. Prerequisite: TA 300, TA 310, TA 320, TA 330 or concurrent.

Technology Administration, Minor

The Technology Administration minor will provide students with an understanding of the essentials of technology development, practice and management. Students in business, communication studies, mass media, public administration and other areas may find the Technology Administration minor helps them to understand the technological challenges they will face in their careers.

Students must successfully complete a total of 15 credit hours as specified below.

Criminal Justice and Legal Studies Department

Website: <https://www.washburn.edu/academics/college-schools/applied-studies/departments/criminal-justice-legal-studies/index.html>
(<https://www.washburn.edu/academics/college-schools/applied-studies/departments/criminal-justice-legal-studies/>)

Faculty

Amy Memmer, JD, Associate Professor and Chair
Patricia Dahl, PhD, Associate Professor
Kimberly Gerhardt-Whiddon, Lecturer
Erin Grant, PhD, Associate Professor
Brent Groves, Lecturer
Michelle Watson, JD, Associate Professor
Melanie Worsley, JD, Professor (Assoc. Dean School of Applied Studies)
Tami Gwaltney, Senior Administrative Assistant

Mission

The Criminal Justice and Legal Studies degree programs prepare students to pursue advanced educational opportunities and to obtain productive careers in law enforcement, corrections, security administration, forensics investigation, and the law. The programs are designed to produce knowledgeable students who possess the necessary theoretical, practical, and critical thinking skills to compete in today's job market. Faculty bring practical and academic experience to the classroom and are committed to excellence in teaching. Equity and justice are valued, and faculty are dedicated to producing ethical graduates who are prepared to succeed in their chosen profession.

Criminal Justice Fast Track Program

The Criminal Justice Fast Track Program allows criminal justice majors at Washburn University the opportunity to complete their Bachelor of Criminal Justice (BCJ) and Master of Criminal Justice (MCJ) degrees in five years.

Students who participate in the Fast Track Program will be eligible to take up to 12 hours of MCJ classes and have those 12 hours count towards the program electives requirement of the BCJ degree as well as the MCJ degree requirements. Students may enroll in the Fast Track Program even if they do not plan on using all 12 hours of MCJ classes to satisfy BCJ degree requirements, but this will affect their ability to graduate with both degrees within a five-year period.

Although the Fast Track Program is primarily designed for incoming freshmen, students may participate in the program after their freshman year. Students who intend to complete the Fast Track Program must work carefully with the MCJ Program Coordinator to plan their course schedules and are required to officially enroll in the program after completing 90 hours of undergraduate coursework. Fast Track students will apply for admission to the MCJ program the last semester of their senior year.

Eligibility Requirements

- BCJ degree seeking at Washburn University
- Have completed 90 hours of undergraduate work, including all core undergraduate courses

- Have a cumulative GPA of 3.0 or better in the last two years (sixty hours) of college course work from accredited institutions
- Accepted into the Fast Track Program

Completion Requirements

- Maintain a 3.0 or higher GPA in both the BCJ and MCJ programs
- Complete all requirements for graduation for the BCJ and MCJ degrees
- Students who fail to comply with the grade requirements may be dropped from the Fast Track Program.

Questions concerning the degrees or eligibility for enrollment should be addressed to Amy Memmer, the department chair (amy.memmer@washburn.edu).

Student Associations & Honor Societies

Alpha Phi Sigma

Alpha Phi Sigma is a National Criminal Justice Honor Society. Students must meet academic eligibility requirements to apply.

Criminal Justice Association

The Criminal Justice Association is a student organization headed by an Executive Committee of 4-5 officers and a faculty advisor. The Association was created in 1987 and maintains an annual membership of 50-100 undergraduate students who are majoring in law enforcement, forensic investigations, corrections, or security administration. CJA actively participates in WU events such as Bod Blast, Homecoming and Career Days.

KCA/ACA Student Chapter

A student organization affiliated with the Kansas Correctional Association and American Correctional Association.

Legal Studies – WPA

The Washburn Paralegal Association (WPA) is a student organization for legal studies majors. It was formed in order to promote and maintain high standards in the paralegal profession, to offer and encourage continuing education for paralegals, to provide a forum for meeting and exchanging ideas, and to assist legal studies students in realizing their career and educational goals. This organization offers students in the program opportunities to network with other students and to gain leadership skills.

Criminal Justice Core Program Student Learning Outcomes

All Criminal Justice undergraduate students at Washburn University, upon graduation, are expected to be able to:

- Critically evaluate key concepts and issues pertaining to diversity and ethics within the criminal justice system.
- Demonstrate proficient communication relevant to the criminal justice field.
- Demonstrate the ability to apply criminal justice research to practices in the criminal justice field.

Major Emphasis

Students majoring or minoring in Criminal Justice must earn a grade of "C" or better in all required major or minor courses, including required

program courses. A minor is required for the BCJ degree and must be approved by the Criminal Justice Department.

Programs

- BCJ - Criminal Justice (p. 276)
- BCJ - Corrections Emphasis (p. 277)
- BCJ - Forensic Investigations Emphasis (p. 278)
- BCJ - Forensic Investigation Sciences Emphasis (p. 279)
- BCJ - Law Enforcement Emphasis (p. 280)
- BCJ - Security Administration Emphasis (p. 281)
- Criminal Justice, AAS (p. 282)
- Criminal Justice, AA (p. 282)
- Criminal Justice, Minor (p. 283)
- Legal Studies (p. 283)
 - Legal Studies, BLS (p. 285)
 - Legal Studies, AAS (p. 286)
 - Legal Studies, AA (p. 286)
 - Legal Studies, AA - Program Option with Washburn Institute of Technology (p. 287)
 - Legal Studies, Minor (p. 287)
 - Legal Studies, Certificate (p. 287)
- Military & Homeland Security Studies (p. 288)

Please see the Graduate (<https://catalog.washburn.edu/graduate/school-applied-studies/>) catalog for additional information regarding the department's graduate programs:

- Master of Criminal Justice (MCJ) (<https://catalog.washburn.edu/graduate/school-applied-studies/criminal-justice-graduate-programs/master-criminal-justice-mcj/>)
- Dual Juris Doctor - Master of Criminal Justice (J.D./MCJ) (<https://catalog.washburn.edu/graduate/school-applied-studies/criminal-justice-graduate-programs/dual-juris-doctor-master-criminal-justice-jd-mcj/>)

Course Offerings

CJ 100 Crime & Justice in America (3)

This is an introductory course in the field of criminal justice. It introduces the student to the nature and extent of crime in America and provides a detailed description of the components of the American criminal justice system: police, courts and corrections. In the second portion of the course, the role of the crime victim and the principal functions of criminal justice agencies are considered.

CJ 110 Introduction to Law Enforcement (3)

This course examines the history and major functions of modern law enforcement agencies and personnel. Special attention to career opportunities and alternatives in the field of law enforcement.

CJ 115 Introduction to Forensic Investigations (3)

This course introduces students to forensic science and is a primer to more advanced courses in the field of forensic science. The history of forensic science is explored, with particular emphasis on forensic investigations, as well as the developing and changing nature of the field. The role that forensic science plays within the American Criminal Justice System is a focus of study. The various technologies used are reviewed as are the limitations of forensic science. Prerequisite: None.

CJ 116 Applied Intro to Forensic Investigations - Lab (3)

Applied Introduction to Forensic Investigations provides a more practical application of materials and information learned in Intro to Forensic Investigations (CJ 115). Students will use real-world tools and resources in a hands-on lab setting to gain a better understanding of topics covered in CJ 115. Corequisites: CJ 115

CJ 120 Introduction to Corrections (3)

Contemporary correctional activities and the functions performed by correctional agencies and personnel. Includes an overview of the functions performed by correctional institutions and agencies for juveniles and adults.

CJ 130 Public & Private Security (3)

History and philosophy of security, goals and measures of businesses, security firms, military services, and governmental agencies.

CJ 210 Criminal Law (3)

Review of substantive criminal law theory and specific elements common to index offenses will be presented. Course will offer a brief synopsis of the historical development of penal codes, as well as application of the Model Penal Code. Special emphasis will include a review of established defenses to criminal liability such as the insanity, self-defense and diminished mental capacity defenses.

CJ 220 Criminal Justice Communications (3)

Methods of gathering and reporting information essential to effective criminal justice operations are reviewed, discussed, and practiced. Emphasis is on developing effective interviewing skills and accurate reporting of information gathered by criminal justice practitioners.

CJ 225 Jail Workshop (3)

This course provides the student an overview of the history, functions, design and operation of the American jail.

CJ 230 Principles of Investigation (3)

Gathering information; principles and procedures used for crime scene protection and search; collection and preservation of evidence; interviewing and interrogation of complainants, witnesses, suspects, and victims; and scientific applications to a variety of investigations conducted in criminal justice setting.

CJ 235 Traffic Law & Investigation (3)

Provides a basic introduction to the traffic regulation function in modern society with particular emphasis on the impact on technology, judicial decisions, Federal mandates and societal expectations on the enforcement of traffic laws and the investigation of related violations.

CJ 245 Officer Survival (3)

Comprehensive police officer survival seminar designed for basic and in-service police training. Includes examination of the laws regarding use of force, civil and criminal liability, mental conditioning, post shooting trauma, the dynamics of lethal force and other special topics, including biomedical hazards, dealing with gangs and plainclothes and off-duty officer survival. Strenuous physical activity expected. Advise instructors of any medical condition that would prevent involvement in the training.

CJ 250 Patrol Procedures (3)

Provides a comprehensive study of police patrol procedures, beginning with a historical overview of local policing and moves into current patrol practices. Includes presentations of old training films, as available, to allow students to critique early methods with techniques learned. Includes legal issues and their impact on police methods.

CJ 260 Independent Study (1-3)

Criminal Justice majors may pursue an independent research project approved by faculty in consultation with the Department Chair. Independent Study may not be used in place of any courses required of the criminal justice major. Independent Study courses must meet equivalencies to Federal definition of a credit hour. Prerequisites: 6 hours of CJ course work.

CJ 290 Special Topics (1-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester for variable credit. Prerequisite: Consent of instructor.

CJ 303 Diversity in American Culture (3)

This course is designed to explore the relationship between culture and the criminal justice system. Emphasis is given to understanding the historical, theoretical, and structural perspectives of racial/ethnic and minority groups in society.

CJ 305 Crime & Justice in Film (3)

The course is intended to survey modern America's attitudes about our criminal justice system through analysis of several motion pictures dealing with various facets of the system.

CJ 310 Police Problems & Practices (3)

Analysis of police functions and problems commonly encountered in the performance of those functions. Problem-solving methods and techniques are reviewed, discussed, and practiced. Prerequisite: CJ 110 or consent of instructor.

CJ 315 Drug Abuse & Criminality (3)

Societal reaction to drug abuse in terms of legal sanctions, treatment alternatives, and the criminal justice response (law enforcement, the courts, corrections). How substance abuse and criminal behavior are interrelated.

CJ 318 Juvenile Justice (3)

This course provides an overview of the American Juvenile Justice System, including theories and measurements of juvenile offending; the roles and relationships of law enforcement, courts, probation and parole, diversion programs, service agencies, and correctional institutions. Prerequisites: CJ 100.

CJ 320 Correctional Treatment Strategies (3)

Treatment strategies employed in adult and juvenile corrections programs, focusing on classification, types of institutional programming, as well as community and aftercare facilities. Prerequisite: CJ 120 or consent of instructor.

CJ 323 Serial Killers (3)

This course will review the methods used by criminal justice agencies to identify and track serial killers, examine various aspects of this particular criminal profile and review the impact of such criminal activity on our society. Case studies of convicted serial killers will be used to demonstrate the various factors that influence the development of this abnormal criminal mind. Prerequisite: None.

CJ 324 Evidenced Based Corrections (3)

This course is designed to explore best practices in corrections that are based on research. Emphasis is given to studying the findings from program evaluations to better understand EBP that have reduced recidivism and enhanced public safety. Prerequisites: CJ 120.

CJ 325 Applied Criminology (3)

Applied criminology will examine various criminological theories including delinquent subculture, differential association, and conflict theories, and their application by criminal justice professionals. In addition, the student will understand and practice the application of criminological theory in dealing with an individual offender.

CJ 330 Judicial Process (3)

Historical development and contemporary structure of state and federal trial courts and courts of appellate review will be presented. Constitutional and statutory authority for courts, court procedure, and defendant rights in the judicial process will be reviewed to include due process, public and speedy trial, jury composition, self-incrimination, punishment and state and federal post-conviction relief and/or appellate review. Other statutory and administrative/regulatory laws will be reviewed pertaining to the Code of Professional Responsibility as it applies to respective judicial officers. Close analysis is offered of the respective roles, duties performed, and career paths for judicial officers such as judges, prosecutors and defense counsel.

CJ 332 Law of Corrections (3)

This course is designed to explore the law of corrections by providing an in-depth examination of the court system with particular focus on prisoners' post-conviction rights. Topics covered include the various sources of correctional law, prisoners' statutory and constitutional rights, potential liability for corrections employees, and other controversial legal issues in corrections. Prerequisites: CJ 120.

CJ 337 Sex Offenders (3)

This course concerns sex offenders, sexual offending behavior and the policy responses of this type of crime. The course will cover "typical" sex offender characteristics, at least as much as the behavior can be typified. It will investigate the nature and procedure of sexual offending behavior. Policy targeted toward preventing or curbing behavior will also be explored. Prerequisite: None.

CJ 340 Crime Prevention (3)

Situational crime prevention, environmental design, physical security measures, defensible space, opportunity theories, crime displacement, rational choice theory, and crime prevention studies. Prerequisite: CJ 130 or consent of instructor.

CJ 342 Capital Punishment in America: The Death Penalty (3)

An overview of capital punishment in America with specific application to Kansas. The course covers different philosophical and religious positions on the death penalty; pro and con arguments related to retribution, deterrence, and incapacitation; the relative costs of the death penalty vs. permanent incarceration; innocent people on death row, discrimination, and arbitrariness in the application of the death penalty; and the role of judges, prosecutors, defense attorneys, juries, and witnesses in death penalty cases. Prerequisite: CJ 100 or consent of instructor.

CJ 345 Homicide (3)

An in-depth examination of homicide investigation and the tools required to bring the case to a successful completion. Prerequisite: CJ 110 or CJ 115, or consent of instructor.

CJ 350 Legal Issues in Security and Safety (3)

Civil and criminal liability of security officers and employers, security laws of arrest/search/seizure, security regulations, security licensing and training, OSHA standards and legal requirements, and case studies. Prerequisite: CJ 130 or consent of instructor.

CJ 352 Firearms Decision Making (3)

Firearms decision making provides students with the opportunity to examine the legal aspects of police use of force incidents. During the course students will learn about firearms and the proper safety, usage and storage of weapons. Each student will be provided the opportunity to use the Firearms Training System (FATS) and the simmunitions weapons system and experience split second decision making in a use of force incident. Finally, student will study the basic preparation for dealing with critical incidents and the aftermath of a shooting incident. An additional fee is associated with this course. Prerequisite: CJ 100 or consent of instructor.

CJ 355 Women in Criminal Justice (3)

An overview of the theories and facts on female criminality, employment practices and on-the-job problems that affect female criminal justice workers, and factors relative to female victims of crime.

CJ 360 Independent Study (1-3)

Criminal Justice majors may pursue an independent research project approved by faculty in consultation with the Department Chair. Independent Study may not be used in place of any courses required of the criminal justice major. Independent Study courses must meet equivalencies to Federal definition of a credit hour. Prerequisites: 6 hours of CJ course work or consent.

CJ 362 Human Trafficking (3)

An advanced undergraduate course that focuses on contemporary human trafficking and slavery. Types of trafficking and slavery to be covered include sex trafficking, bonded labor, forced labor, child soldiers, chattel slavery, and domestic servant slavery. The contributing roles of the state, organized crime, the media, culture, and corruption will be examined. Debates about defining trafficking and the connection between sex trafficking and prostitution will be reviewed. Course materials may include testimonies and autobiographies by survivors, research reports, theoretical essays, policy statements, expert testimonies, podcasts and videos. Prerequisite: Junior Standing or permission of the course instructor.

CJ 364 Homeland Security (3)

This course will provide an introduction and general overview of homeland security in the United States. The course will focus on helping students understand the key elements of homeland security strategies and operational policies. The role and purpose of homeland security strategy will be evaluated in regard to its implementation in a contemporary democratic society. Prerequisite: None.

CJ 365 Police & the Community (3)

Relevant literature and the scope of the problem, psychological and sociological considerations; and viable programs that effectively improve communications between the police and the public. Prerequisite: CJ 110 or consent of instructor.

CJ 366 Advanced Criminal Investigations (3)

This course will build on principles learned in CJ 230 Principles of Investigation. Students will examine more in-depth issues related to the investigation of crime scenes. The course will review the constitutional protections offered by the Fourth Amendment and consider the role they play in maintaining the integrity of the crime scene, search, and any evidence seized. Students will also experience hands on application of these principles, through use of mock crime scenes, simulated investigations, and mock interviews and interrogations, as well as discuss the various parties they may encounter at crime scenes. Prerequisites: CJ 110 and CJ 230

CJ 367 Firearms and Tool Mark Examination (3)

This course will provide an understanding of the history and scope of firearms and toolmark examination as well as introducing students to basic methods of firearms and tool mark identification and examination. An emphasis will be placed on the use of this type of evidence as a means of facilitating effective crime scene investigations. The theory of firearms and tool mark evidence identification will be discussed as students are able to develop a better understanding of the scientific method and how it is applied to criminal investigations. Prerequisite: CJ 115 or consent of instructor.

CJ 368 Introduction to Bloodstain Pattern Analysis (3)

This is the first of two courses in Bloodstain Pattern Analysis (BPA). Each course will cover different aspects of BPA. In combination, the two courses will meet all the requirements of the International Association of Bloodstain Pattern Analysis (IABPA) Basic BPA Course. BPA is an investigative tool utilized by forensic scientists, crime scene technicians and investigators to identify bloodstain patterns at a crime scene, which may assist in reconstructing events. This course will introduce students to bloodstain pattern identification and analysis. Attention will be focused on how bloodstain analysis can be used to help facilitate criminal investigations. Prerequisite: CJ 115 or consent of instructor.

CJ 369 Advanced Bloodstain Pattern Analysis (3)

This is the second part of two courses in Bloodstain Pattern Analysis (BPA). Each course will cover different aspects of BPA. In combination, the two courses will meet all the requirements of the International Association of Bloodstain Pattern Analysis (IABPA) Basic BPA Course. BPA is an investigative tool utilized by forensic scientists, crime scene technicians and investigators to identify bloodstain patterns at a crime scene, which may assist in reconstructing events. Prerequisite: CJ 368.

CJ 370 Fire Investigation and Prevention (3)

Examines the principles of fire investigation, burn patterns, arson, fraud, industrial and commercial fire prevention, hazard recognition, fire control and suppression methods. Prerequisite: CJ 115 or consent of instructor.

CJ 371 Intro to Forensic Photography (3)

This course introduces students to both basic and more advanced techniques in forensic photography to include overall, midrange, and close up photography composition as well as low light photography and comparison quality photography. Prerequisite: CJ 115

CJ 372 Intro to Fingerprint (3)

This is an introductory course on the surface of the skin referred to as friction ridge skin. This course examines the role of fingerprints in forensic investigations as well as focuses on fingerprint classification, orientation, and collection of known fingerprint impressions. Prerequisites: None

CJ 373 Fingerprint Development Lab (3)

This intermediate course will introduce students to different chemical and physical development processes that are utilized in the latent fingerprint laboratory. Students will gain a better understanding of the factors that affect latent print deposition, along with the proper processes utilized to search for, document, and preserve latent fingerprints on different surfaces. Prerequisite: CJ 372

CJ 374 Intro to 3-D Scanner (3)

This course enhances students sketching and mapping skillsets by introducing them to scanning equipment that allows for complete 360-degree documentation of a crime scene. Students will learn more about proper measuring and sketching methods, along with how to operate the scanning equipment and using the associated software to enhance and utilize the scan data. Prerequisite: CJ 115

CJ 375 Forensic Psychological and Criminal Profiling (3)

This course introduces students to the diverse ways in which the forensic psychologist participates in the legal system. Particular attention is given to the role of the forensic psychologist in criminal proceedings as it relates to the state of mind of the offender. The course also introduces students to basic theories of criminal profiling and ethical considerations in the use of profiling. Prerequisite: CJ 110 or CJ 115, or consent of instructor.

CJ 380 Terrorism (3)

An exploration of the incidence and threats of terrorism and an investigation of the security and law enforcement measures needed to combat it. Topics such as assassination, kidnapping, hijacking, extortion, sabotage, bomb threats/searches, hostage negotiations, victims' survival, and medical/tactical reaction teams will be discussed as they relate to executive protection and terrorism.

CJ 382 Security Technologies (3)

This course provides an overview of the technologies used by security professionals and criminalists working in public safety. Emphasis is given to methods of assessing public and private security threat and managing security protection in government and industrial agencies, and digital, cyber and protective services. Prerequisites: CJ 130.

CJ 386 Footwear and Tire Tracks (3)

This is an introductory course on footwear and tire track impressions. This course examines the role of track impressions in forensic investigations with a specific focus on outsole and tire tread characteristics. Students will demonstrate, through hands-on practicals, how to properly search for, document, and collect all types of tread evidence. Prerequisites: None

CJ 387 Digital Enhancement (3)

This course introduces students to the capabilities and functions of digital enhancement through the use of Adobe Photoshop as well as proper collection, tracking, and storage of digital images. Prerequisites: None

CJ 388 Shooting Incident Reconstruction (3)

This course will give students a better understanding of ballistics and the amount of information that is available when handling a shooting incident. Students will learn proper documentation practices for shooting incidents as well as learn tools and resources that are needed for reconstructive purposes. Prerequisites: None

CJ 390 Special Topics (1-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester for variable credit. Prerequisite: Consent of instructor.

CJ 395 Seminar in Metropolitan Criminal Justice (3)

An overview of the functions, interrelations and problems of metropolitan law enforcement, judicial and correctional agencies is provided through lectures, assignments and agency visitations. Usually conducted in the Kansas City metropolitan area over a five-day period. Prerequisite: Consent of instructor.

CJ 400 Criminal Justice Research Methods (3)

This course allows students to learn and demonstrate knowledge of research methodology within the criminal justice system and become acquainted with the range and scope of quantitative and qualitative tools available to the criminal justice researcher. Prerequisite: 12 hours Criminal Justice or consent of instructor.

CJ 401 Criminal Justice Ethics (3)

An advanced exploration of the field of ethics as specifically applied to the criminal justice field. Theoretical ethics will be examined alongside a pragmatic and applied focus on the application of these ethical principles in a contemporary criminal justice professional environment. Prerequisite: None.

CJ 410 Criminal Procedure and Evidence (3)

Advanced analysis of the constitutional statutory foundations of modern criminal procedure will be emphasized, with particular focus on the 4th, 5th, and 6th Amendments. The law of search and seizure, interrogations and confessions, warrants, indictment/information, pretrial suppression and exclusionary rule applications will be presented. Rules pertaining to obtaining, qualifying and admitting evidence will be discussed, to include direct and cross examination, application of the hearsay rule, recognized privileged communications, and common evidentiary objections will be offered in the criminal prosecution/defense perspective.

CJ 415 Advanced Forensic Investigations (3)

Examines the role of forensic science in the investigation and solution of crime. Each type of physical evidence normally encountered in criminal investigation is studied with regard to collection and packaging techniques which maximize evidentiary value, the current types of scientific analyses available, and the significance and limitations of the scientific results. The history of forensic science is also briefly examined. Prerequisite: CJ 115 or consent of instructor. Corequisite: Must be taken at the same time as CJ 416.

CJ 416 Forensic Applied Science Laboratory (3)

This skills application course is designed to complement CJ 415 Forensic Investigations in Criminal Justice. Emphasis is given to the application of forensic investigation techniques and practices related to the preservation of evidence and the processing of crime scenes, including: processing latent prints, gathering trace evidence, documenting firearms and toolmarks evidence, and the collection of illicit drugs. Preparations for court testimony and presentation of evidence in court proceedings are covered. This course must be taken the same semester as CJ 415. Prerequisite: CJ 115 or consent of instructor. Corequisite: CJ 415

CJ 417 Probation, Parole and Community Based Corrections (3-6)

Crime scene investigation internships are created for CSI students to put their classroom-learned skills to real-life applications. Moreover, having an on-the-job training under a crime scene investigation unit will expose you to different specializations of your career choice such as photography skills at crime scenes; this way, you can choose which aspect of a CSI job to concentrate on. This internship requires summative reflection, serving as a culminating experience for Bachelor's degree students. Prerequisites: CJ 115, CJ 415, and Consent of Instructor.

CJ 420 Probation, Parole and Community Based Corrections (3)

Probation and parole, including the administration, procedures, and techniques used in the treatment and supervision of offenders. Also, the history and trends of probation and parole, and professional training in these fields. Prerequisite: CJ 120 or consent of instructor.

CJ 425 White Collar Crime (3)

Occupational crime, fraud, theft, computer crimes, environmental crimes, business and governmental crimes, and prevention measures. Prerequisite: CJ 110 or consent of instructor.

CJ 435 Death Investigations (3)

An accurate death investigation is a critical piece of information in any homicide case. Students will learn more in depth information about the importance of proper death investigation in a homicide as well as different manners of death. This course will cover different aspects of a death investigation from the crime scene to the autopsy. Prerequisites: None. Corequisites: CJ 436

CJ 436 Applied Death Investigations (3)

Applied Death Investigation provides a more practical application of materials and information learned in Death Investigations (CJ 435). Students will be given the resources to critically think through different situations encountered at a death investigation. Prerequisites: CJ 415, CJ 416, and permission of the course instructor. Corequisites: CJ 435

CJ 440 Enforcement Administration (3)

For those interested in police administration. Students are required to participate in field & classroom experiences designed to expose & prepare them for an administrative role in the criminal justice system. Students demonstrate through exams, assigned papers, reports, & classroom participation their knowledge of administration principles & practices. Prerequisite: CJ 110 or consent of instructor.

CJ 445 Drug Enforcement Policies and Programs (3)

The role in establishing alcohol and other drug policy and the development of regulation for the implementation of federal policy. Officials from federal, state, and local agencies describe agency functions and effects at addressing the drug problem. The course will also examine the impact of federal drug policy at the local level. Prerequisite: CJ 110 or consent of instructor.

CJ 455 Criminal Justice Administration (3)

This course provides an overview of the basic functions of criminal justice agency management and administration, including activities such as planning, forecasting, budgeting, organizing, training, evaluating and directing personnel. The special requirements for the administration of criminal justice agencies and facilities such as building public support, communicating results, informing policy decisions, maintaining transparency, and interacting with other criminal justice agencies are explored. Case studies from a variety of criminal justice settings including law enforcement, corrections, and courts are analyzed to enhance understanding of management and administrative complexities. Prerequisite: None.

CJ 465 Criminal Justice Planning (3)

Criminal Justice planning, including analysis of crime data and systems interrelations, forecasting, problem identification, establishing goals and objectives, and developing plans for implementation and evaluation.

CJ 470 Internship in Security (3-6)

Supervised practical internship in a security setting. May be taken for 3 hours in two semesters or 6 hours in one semester. Placement requires agency approval. This internship requires summative reflection, serving as a culminating experience for Bachelor's degree students. Prerequisite: CJ 100, CJ 110, CJ 220, CJ 340, CJ 400, and CJ 450 (or consent of instructor).

CJ 475 Police Experience (3)

Travel to law enforcement agencies, guest lectures and class discussion. Prerequisite: CJ 110 or consent of instructor.

CJ 484 Internship in Criminal Justice (3)

Supervised observation & participation in the functions of a federal, state, or local criminal justice agency. Assignment supervision is received from experienced agency personnel and an orientation to agency operations is provided. Students may participate in specific law enforcement, corrections, forensic investigation, or security administration activities. Experience may be concentrated in one agency or divided among more than one agency. Placement and continuation in the internship require approval of the criminal justice agency where the student completes their internship experience. This internship requires summative reflection and serves as a culminating experience for criminal justice students. Prerequisites: Permission of the course instructor.

CJ 485 Internship in Criminal Justice (3-6)

Supervised observation & participation in the functions of a federal, state, or local criminal justice agency. Assignment supervision is received from experienced agency personnel and an orientation to agency operations is provided. Students may participate in specific law enforcement, corrections, forensic investigation, and/or security administration activities. The criminal justice internship may be taken in one semester or over the course of two semesters. Experience may be concentrated in one agency or divided among more than one agency. Placement and continuation in the internship requires approval of the criminal justice agency where the student completes their internship experience. This internship requires summative reflection and serves as a culminating experience for criminal justice students. Prerequisite: Permission of the course instructor.

CJ 486 Seminar in Criminal Justice (3)

This course provides an opportunity for students to examine more in-depth an area or aspect of the criminal justice system, including problems or challenges for policy or practices. Students will select an area of interest and complete an original research project or a research paper under the supervision of a department faculty member with related experience. Prerequisites: Permission of the course instructor.

CJ 495 Correctional Experience (3)

Impact course designed to provide the student with the opportunity to "experience" the correctional institution and draw a unique insight into corrections. Students visit correctional institutions, observe their operations, and interact with correction practitioners and confined offenders. Institutions have been chosen for visitation to provide the student with as broad a correctional experience as possible, beginning with juveniles through adults, including county, state, and federal institutions. Prerequisite: CJ 120 or consent of instructor.

CJ 499 International Travel Experience in Criminal Justice (1-3)

This course will provide students with an opportunity to earn course credit for participation in educational travel opportunities. These opportunities will incorporate elements of both travel and education, providing students with an applied opportunity to learn as they explore different locations. Prerequisite: Permission of the course instructor.

BCJ - Criminal Justice

In completing a bachelor's degree in criminal justice, students can select a specific emphasis in the program, including Corrections, Law Enforcement, Forensic Investigation, Forensic Investigation Sciences, and Security Administration. Alternatively, students can choose to complete the degree requirements below without an emphasis and, instead, replace those emphasis-related course requirements with the ability to take courses from varying different areas in the criminal justice field.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50) and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements.

In addition, all Criminal Justice majors must complete a complementary minor, certificate, or additional major; students must declare this with the department that grants this. Please see your advisor for more information.

BCJ - Corrections Emphasis

The Corrections major is designed to provide an academic and experiential learning environment that will prepare students for employment in federal, state, and local corrections agencies. The curriculum is designed to provide a broad, comprehensive introduction to the theoretical as well as the practical aspects of criminal justice, with the greatest emphasis being placed on the institutional and community corrections. The program is designed for both personnel already in criminal justice and pre-service students interested in criminal justice careers. For those who are not yet in the field, the degree includes an internship, intended to promote the development of knowledge and skills for correctional practice while providing opportunity for professional networking and personal growth.

Additional Student Learning Outcomes

In addition to the core criminal justice program student learning outcomes, students who graduate with a corrections major are expected to be able to:

- Identify and describe key historical developments in the growth of institutional and community corrections in the U.S. and how they inform current policy and practice.
- Apply concepts, theory, and evidence-based practices to make informed decisions affecting the workplace and the field of corrections.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50) and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements.

In addition, all Criminal Justice majors must complete a complementary minor, certificate, or additional major; students must declare this with the department that grants this. Please see your advisor for more information.

¹ Students majoring in Criminal Justice must earn a grade of "C" or better in all required criminal justice courses for credit.

BCJ - Forensic Investigations Emphasis

The Forensic Investigations major is designed to provide students a balanced interdisciplinary education, emphasizing the practical issues and theoretical concepts employed by forensic investigators. Students will receive specialized training in crime scene investigations, including courses offered at the Kansas Bureau of Investigation's Crime Laboratory. This major will prepare students for careers in local, state and federal law enforcement as well as enhance the skills of professionals already in the field.

Additional Student Learning Outcomes

In addition to the core criminal justice program student learning outcomes, students who graduate with a forensic investigation major are expected to be able to:

- Demonstrate the ability to use forensic investigation techniques to collect, document, and process evidence.
- Effectively testify as an expert witness in a criminal trial.
- Apply forensic pathology principles to death investigations.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50) and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements.

In addition, all Criminal Justice majors must complete a complementary minor, certificate, or additional major; students must declare this with the department that grants this. Please see your advisor for more information.

¹ Students majoring in Criminal Justice must earn a grade of "C" or better in all required criminal justice courses for credit.

BCJ - Forensic Investigation Sciences Emphasis

This degree is designed to provide a pathway for students in the program to gain forensic investigation experience, building and improving practical and professional skills needed to enter careers in the forensic investigation field, while also gaining a strong skillset in the laboratory setting. The program allows students to build a base of knowledge with natural science lab courses as well as other STEM areas. The curriculum requirements for this degree comply with the requirements for accreditation under the American Academy of Forensic Sciences' Forensic Science Education Programs Accreditation Commission (FEPAC), and with the National Institute of Standards and Technology's OSAC Standards (the Organization of Scientific Area Committees for Forensic Science) in mind. The curriculum of this program prepares students to be highly marketable and successful in the forensic investigation field.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50) and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements.

¹ Students majoring in Criminal Justice must earn a grade of "C" or better in all required criminal justice courses for credit.

BCJ - Law Enforcement Emphasis

The Law Enforcement major is designed to provide a balanced introduction to all aspects of the criminal justice process with particular emphasis on the theoretical and practical aspects of law enforcement. The program is interdisciplinary in content, utilizing courses in the social sciences as well as those more directly related to functions and programs in the criminal justice system. This program is designed for both personnel already employed in criminal justice and pre-service students interested in criminal justice careers.

Additional Student Learning Outcomes

In addition to the core criminal justice program student learning outcomes, students who graduate with a law enforcement major are expected to be able to:

- Demonstrate the ability to critically evaluate the role and purpose of the law enforcement profession in contemporary American society.
- Identify and describe key historical developments in law enforcement in the United States and abroad.
- Explain how law enforcement function is related to the functions of the other branches of the criminal justice system.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50) and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements.

In addition, all Criminal Justice majors must complete a complementary minor, certificate, or additional major; students must declare this with the department that grants this. Please see your advisor for more information.

¹ Students majoring in Criminal Justice must earn a grade of "C" or better in all required criminal justice courses for credit.

BCJ - Security Administration Emphasis

The Security Administration major is interdisciplinary in nature, emphasizing practical issues and theoretical concepts related to security, safety, fire, crime prevention, investigations, law enforcement and the social sciences. This program is designed to prepare students for professional and managerial employment in security, investigations, loss prevention, and risk management positions in business, industry, government agencies and non-profit organizations. This program is designed for both personnel already employed in criminal justice and pre-service students interested in careers in security.

Additional Student Outcomes

In addition to the core criminal justice program student learning outcomes, students who graduate with a security administration major are expected to be able to:

- Analyze crime control and prevention theories that are relevant to the security administration industry.
- Identify and describe key historical developments in security administration in the U.S. and how current policy and practice is informed by those developments.
- Demonstrate critical thinking and problem solving skills to adapt to the needs of the security administration industry.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50) and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements.

In addition, all Criminal Justice majors must complete a complementary minor, certificate, or additional major; students must declare this with the department that grants this. Please see your advisor for more information.

Criminal Justice, Minor

Minor Requirements

Non-Criminal Justice majors may minor in criminal justice. A criminal justice minor must include a minimum of fifteen credit hours in criminal justice, not less than six of which must be 300 level or above.

Legal Studies

Legal Studies Mission Statement

The Legal Studies program prepares students for successfully gaining employment in the legal profession as paralegals, legal assistants, or related positions. The program also serves to prepare students for continuing on to law school or seeking other advanced degrees. Students gain confidence, knowledge, and practical experience to succeed in the legal field, while understanding and respecting ethical obligations.

Legal Studies Student Learning Outcomes

Legal Studies students at Washburn University, upon graduation, will be able to:

- Demonstrate proficiency in legal research and writing.
- Use critical thinking skills to analyze and apply case law and statutory law.
- Understand litigation procedures and legal terminology.
- Apply general communication and interpersonal skills in a legal setting.
- Evaluate legal scenarios and identify applicable professional rules of ethics.

Programs

- Legal Studies, Certificate (p. 287)

Course Offerings

LG 101 Introduction to Legal Practice (3)

Introduction to basic legal terminology and legal principles, as well as hands on experience with computer technology applicable to law office management, document production, scheduling, research, litigation support, and ethics. Prerequisite: None.

LG 200 Introduction to Law (3)

Introduction to the basic skills of legal analysis and case briefing, understanding the state and federal legal systems, and judicial decision-making. The course will also include a survey of torts, contracts, criminal law, and property law. Prerequisite: None.

LG 205 Corporate Law (3)

A study of business organizations and the tasks a paralegal would be required to perform in setting up and maintaining those organizations. Topics covered include: law of agency, partnership, limited partnership and corporations. Prerequisite: LG 101 or LG 200 or consent.

LG 210 Family Law (3)

Family law issues are the focus of this course, including the law of divorce, annulment and separate maintenance actions. The gathering of information and preparation of pleadings are undertaken. Adoption and custody procedures are reviewed. Prerequisite: LG 101 or LG 200 or consent.

LG 215 Property Law (3)

Procedural and substantive principles of real and personal property laws. Preparation of documents for common real estate transactions, including deeds, contracts, and mortgages. Personal property topics will include bailments, possession, accession and gifts. Prerequisite: LG 101 or LG 200 or consent.

LG 220 Wills & Estate Administration (3)

Involves probating a will or administering an estate; assembling information necessary for collection and evaluating assets; maintaining proper records for accounting purposes; preparing pleadings for initial petition and appointment of an administrator and executor; sale, mortgage, and lease of assets; and preparing estate tax returns, wills and trusts. Intestate succession and tax implications are studied. Prerequisite: LG 101 or LG 200 or consent.

LG 240 Constitutional Law (3)

This course explores the basic structure of the Constitution, the powers it grants to the federal government, and the basic rights and protections it provides to individuals. Students will analyze and think critically about United States Supreme Court opinions on such topics as rights against discrimination, privacy rights, rights to the freedom of speech and religion, due process rights, and the right to bear arms. Prerequisite: None.

LG 250 Legal Research I (3)

Introduction to primary and secondary authorities, including court decisions, legislation, annotations, digests, legal periodicals and specialty texts and reports. Practical research projects, including legal writing. Prerequisite: LG 101 or LG 200 or consent.

LG 300 Legal Writing (3)

The various forms of legal writing are the focus of this course, including letters, memoranda, motions, and briefs. Students will learn further research techniques, including an introduction to computerized legal research. Practical writing projects are included. Prerequisite: LG 250 or consent.

LG 305 Litigation I (3)

Analysis of the steps and procedures in preparing for litigation. Course topics include a detailed study of the preparation and use of discovery devices, the drafting of pleadings and motions, and a detailed analysis of the steps involved in trial preparation and procedure. Prerequisite: LG 101 or LG 200 or consent.

LG 310 Interviewing & Investigation (3)

Study of basic interviewing techniques in various legal settings. Mock interviews of clients and witnesses. Various styles of interviewing covered, as well as question-asking and listening techniques. Factual and legal investigation theories, plans and techniques will be used. Ethical concerns related to interviewing witnesses and clients covered. Rules of evidence are reviewed. Prerequisite: LG 101 or LG 200 or consent.

LG 315 Legal Research II (3)

This course is designed to teach students further research techniques, including the research of legislative history and administrative law, both through library research and computer-assisted legal research. Prerequisite: LG 250 or consent.

LG 320 Elder Law (3)

Introduction to laws that affect the elderly population. Study of course topics will include estate planning, guardianship and conservatorship, patients' rights, entitlement programs, managed care, social security, Medicare, Medicaid, and elder abuse. Prerequisite: LG 101 or LG 200 or consent.

LG 325 Personal Injury Law (3)

Introduction to basic concepts in tort law, including elements of various tort claims, defenses, privileges, and immunities. Prerequisite: LG 101 or LG 200 or consent.

LG 330 Administrative Law for Paralegals (3)

An introduction to administrative law concepts. Topics covered in the course will include, but not be limited to: delegation of authority to administrative agencies; limitations on agencies' authority; due process of law in the administrative arena; informal versus formal agency actions; rule-making; FOIA; the Privacy Act; open meetings; adjudicative functions of agencies; Administrative Procedures Act; and judicial review. Practical application of the concepts studied will occur through the completion of exercises and drafting assignments. Prerequisite: LG 101 or LG 200 or consent.

LG 340 Law and the Cinema (3)

This course uses movies in the study of law and legal principles. By watching law-based films and reading related journal articles, we will discuss and analyze rules of civil and criminal procedure, rules of evidence, and rules of ethics. In addition, the broader legal and moral issues raised by the films will be discussed and studied. This course will also allow students to develop a heightened awareness of how depictions in popular culture can affect a society's understanding and discourse concerning issues surrounding the law. Prerequisite: None.

LG 342 Capital Punishment in America (3)

An overview of capital punishment in America with specific application to Kansas. The course covers different philosophical and religious positions on the death penalty; pro and con arguments related to retribution, deterrence, and incapacitation; the relative costs of the death penalty vs. permanent incarceration; innocent people on death row, discrimination, and arbitrariness in the application of the death penalty; and the role of judges, prosecutors, defense attorneys, juries, and witnesses in death penalty cases. Prerequisite: LG 101 or LG 200 or CJ 100 or consent.

LG 345 Criminal Law (3)

Introduction to substantive criminal law and criminal procedure for the paralegal. Topics covered include elements of crimes against persons and property; burden of proof; defenses and constitutional protection; comparison of Kansas law with common law, federal law, and selected other states. Prerequisite: LG 101 or LG 200 or CJ 100 or consent.

LG 350 Professional Ethics (3)

An overview of the Kansas Rules of Professional Conduct, which govern the practice of law in Kansas. Subjects covered include: ethics in the law office, unauthorized practice of law, advertising of legal services, contact with parties who are represented by counsel, impaired, lawyers, competency, professionalism, and fees for paralegal work. Complaints, disciplinary proceedings, and possible sanctions are covered. The role of the Kansas Supreme Court and the duties of attorneys under the rules are studied. Prerequisite: LG 101 or LG 200 or consent.

LG 355 Introduction to Contracts (3)

Overview of contract law in relation to the formation of contracts, the Statute of Frauds, third-party beneficiary contracts, assignment of rights and delegation of duties, liability for breach of contract, termination, discharge and other related issues. Practical drafting projects are included. Prerequisite: LG 101 or LG 200 or consent.

LG 360 Independent Study (1-3)

Legal Studies students pursuing the Bachelor of Legal Studies degree may enroll in an independent research project if approved by faculty in consultation with the Department Chair. Independent Study courses must meet equivalencies to Federal definition of a credit hour. Prerequisites: 6 hours of LG course work.

LG 390 Special Topics/Legal Asst (1-3)

Selected topics which vary from semester to semester. Announced in advance. Prerequisite: Specified on each topic.

LG 399 International Travel Experience in Legal Studies (3)

This course allows students from Washburn University to work collaboratively with the students from a partnering university outside the United States. Students will participate in a comparative analysis of international differences in law, the legal system, and litigation practices; and develop a better understanding of the cross-cultural significance of diversity in the legal system. Prerequisite: Consent.

LG 405 Litigation II (3)

Analysis of the steps involved in criminal procedure. Constitutional principles and limitations will be studied. Appropriate pleadings will be drafted relating to the various stages of a criminal trial. Advanced civil litigation topics will also be studied, such as class actions, complex litigation, and various settlement devices, including alternative dispute resolution modalities. Students will research and complete a comparative study of the criminal and civil litigation systems. Prerequisite: LG 305.

LG 410 Bankruptcy & Collections (3)

Acquaints students with the legal foundations for methods commonly used to collect delinquent accounts, as well as the terminology of bankruptcy practice, and the statutory framework of and proceedings under, the Bankruptcy Act. Prerequisite: LG 101 or LG 200, and LG 250 or consent

LG 450 Internship (2-3)

Special placement of a student in a law firm, agency, or other legal setting using paralegals. Specific learning objectives established for each placement. Internship consists of a minimum of 160 clock-hours of experience under the supervision of a practicing attorney or paralegal and university faculty, performing tasks appropriate to a paralegal in a professional setting. Pass/Fail only. This internship requires summative reflection, serving as a culminating experience for Bachelor's degree students. Prerequisite: Students must apply with the program director and be given consent to enroll.

LG 495 Legal Studies BLS Capstone (3)

Students who have completed all of their major course work (or who are concurrently enrolled in their final semester and completing their major course work) may enroll in the capstone course with the consent of the program director. Students will complete a self-assessment by completion of a portfolio, using the core competencies for the profession to determine if remedial work needs to be done in any area before graduation. In addition, students may participate in resume-writing, job interviewing skills and networking. Mock interviews may be scheduled for each student. Students will attend two different paralegal organization meetings and two court sessions. Report writing will be included. Ethics will be emphasized by the use of hypothetical situations which will be analyzed and discussed. Students must participate in at least one pro bono activity (i.e., serve as a witness or juror in mock trial or client counseling competitions at the law school or high schools; assist at the Washburn University Law Clinic; assist a not-for-profit organization in the provision of legal services and assistance to low-income individuals and/or children; or, any other approved volunteer effort). This Capstone requires summative reflection, serving as a culminating experience for Bachelor's degree students. Prerequisite: Consent

Legal Studies, BLS

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50) and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements.

In addition, all Legal Studies majors must complete a complementary minor, certificate, or additional major; students must declare this with the department that grants this. Please see your advisor for more information.

¹ Students majoring in Legal Studies must earn a grade of “C” or better in all required legal studies/criminal justice courses for credit.

Legal Studies, AAS

This degree is designed to allow students to obtain an associate degree that focuses on specialized training in the legal studies field, preparing them for work as a paralegal, legal assistant, or legal advocate. The degree requirements include course topics covering introduction to law, legal research, legal writing, litigation, as well as the opportunity to select from various specialized areas of law such as corporate law, family law, and personal injury law.

Degree Requirements

In addition to the requirements stated below, students must complete 15 hours of General Education (p. 50), all requirements for an Associate of Applied Science (p. 48) degree, and any additional hours needed to reach the minimum 60 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Military & Homeland Security Studies, Minor

Military & Homeland Security Studies offers the student a Minor, with emphasis in homeland security. The minor requires 15 credit hours of which not less than 6 must be upper division. Subject to approval by the department chair, students may elect to include up to 6 credit hours of military history or international policy courses from the related disciplines of History and Political Science. Students minoring in Military & Homeland Security Studies must earn a grade of "C" or better in all courses taken to satisfy the minor requirement.

Mission

The Military and Homeland Security Studies Program at Washburn University offers students the unique opportunity to pursue a minor degree that emphasizes homeland security issues, counterintelligence, international conflict, national security policy, and strategic planning and leadership

Student Learning Outcomes

Military & Homeland Security Studies students at Washburn University, upon graduation, are expected to:

- Explain the structure and doctrines of the armed forces.
- Describe contemporary practices in Homeland Security.
- Analyze a wide range of national security issues.
- Integrate the fundamentals of military planning, organization, and leadership being utilized in today's armed forces.

Course Offerings

MS 100 Introduction to Military Studies (3)

This course explores the use of the armed forces as an instrument of national power. Students will develop an understanding of the doctrinal principles of war, fundamentals of the offense and defense, just war doctrine, rules of engagement, and how nations organize and execute military operations in pursuit of national objectives and vital interests. The course also examines the doctrine of Military Operations Other Than War (MOOTW), focusing on the use of the military during peacetime. Historical case studies and examinations of current events are presented as they relate to the course objectives.

MS 110 Fundamentals of Military Leadership (3)

This course is oriented toward the college graduate entering the workforce in any profession. Fundamental leadership principles developed by the United States military and Department of Defense are presented, including leadership traits, principles, styles, values, and disciplinary strategies. Foundation for the course begins with individual self-evaluation, including the Myers-Briggs Type Indicator and other personal tendency tests, and progresses through selected group dynamics exercises, and in-depth case study analyses of historically effective leadership examples. The primary focus of the course causes students to become familiar with individual preferences and personality traits in order to form an effective personal leadership style.

MS 120 History of The American Military (3)

Historical presentation of the evolution of the American military from colonial period through the present. A survey of those aspects of organization, training and employment of military forces developed over time—either created in response to particular need or borrowed from other international military examples—and presented as a means of providing foundation for an evolving military legacy.

MS 210 A Soldier's Story (3)

A view of warfare from the bottom up, using the individual soldier's perspective as a means of de-emphasizing national strategy in favor of the social, psychological and emotional impact experienced by those engaged in close armed combat. Individual experiences reported from news accounts, personal diaries, journals, letters, and autobiographies are used as the primary source materials for the course.

MS 215 America at War (3)

Exploration of United States participation in the major wars experienced through its history, with special emphasis on the World Wars.

Presentation is made on a broad perspective, to include national interests, mobilization of the home front, and the effect of wars on American society, economy and government.

MS 301 Great Battle Campaigns (3)

Examines the conduct of war through in-depth analysis of a particular battle or campaign shown to be pivotal to the prosecution of a war. Students are allowed to select the battle/campaign of their choice, with advisement, and proceed with customized research. Prerequisite: Undergraduate-junior standing or permission.

MS 320 National Security Policy (3)

Study of the institutions, actors and processes that formulate and execute national security policy in the United States. Traces the historical and contemporary roles of governmental branches, administrative agencies, civilian consultants and contractors, and non-governmental organizations in the development and implementation of policy. Also incorporates the development of intelligence analysis in the formulation of policy, to include the evolution of intelligence assets.

MS 322 Terrorism (3)

Course provides an overview of terrorism with emphasis on assisting students to understand foreign and domestic terrorism and counter-terrorism efforts. Prerequisite: None.

MS 330 International Conflict (3)

Examination of contemporary international conflict. Issues addressed include the evolution of warfare within and between nation states, the interplay between conflict and international diplomacy, economic interdependence, and foundational conflict theory.

MS 335 Elite Forces and Special Operations (3)

This course examines the history, organization, and functioning of modern elite military forces. Analyzes the counter-terrorist forces of the United States and other countries, including the U.S. Army Rangers and Special Forces, Navy Sea-Air-Land (SEALs), Air Force Task Force 160 (Night Stalkers), and Marine Corps Reconnaissance (RECON) units. Also exposes students to foreign elite military forces, to include the British Special Air Service (SAS) and Special Boat Squadron (SBS), French Foreign Legion, Israeli Sayeret (Reconnaissance) units. Uses historical case studies illustrating the use of elite forces in special operations, and follows current special operations in the war on terror.

MS 336 Hollywood Goes to War (3)

Examines the dual role of filmmakers, the cinema, and the motion picture industry to both entertain and inform. Special emphasis placed on how cinematography can shape popular perceptions and attitudes about warfare in general, as well as particular conflicts. Course makes extensive use of film library materials in making thoughtful analysis.

MS 352 Homeland Security (3)

This course will provide an introduction and general overview of homeland security in the United States. The course will focus on helping students understand the key elements of homeland security strategies and operational policies. The role and purpose of homeland security strategy will be evaluated in regard to its implementation in a contemporary democratic society. Prerequisite: None.

MS 360 Independent Study (1-3)

A research project of extensive reading in aspects of the disciplines or engagement in a field experience. May be carried on in absentia. Students are required to prepare and gain approval of the department chair (Criminal Justice) and the supervising professor of a comprehensive learning contract. Students must complete a project prospective that is approved by supervising professor prior to enrollment. Prerequisite: Consent of the Department Chair.

MS 390 Special Topics (1-3)

Course titles and topics will vary from semester to semester, and will present current trends of interest in the organization, equipment, training, and employment of military forces. May be taken more than once under different topical areas, and may be offered for variable credit depending upon the scope, amount of material, or course length.

MS 400 Strategic Leadership (3)

Analysis and assessment of skills, knowledge, attributes, and competencies of senior and strategic leaders. Examines the characteristics, values and responsibilities of military and civilian professionals. Provides and appreciation of leadership characteristics of historical figures.

MS 420 Combat Journalism (3)

Explores war reporting by the media in both historical and political contexts, and demonstrates the balance between open, fair reporting and the security required for military operations. Also presents the role of news accounts in shaping popular opinion. Prerequisite: Undergraduate-junior standing or permission.

MS 425 Military Justice and The Law of War (3)

Traces the development of modern international rules pertaining to the conduct of war, and presents the various treaties and conventions that govern the conduct of military operations. Course comprises a serious literature review within the context of actual war crime investigations and trials to present the geopolitical consequences of war conduct.

Prerequisite: Undergraduate-junior standing or permission.

MS 432 Hitler, WWII, and Holocaust (3)

Course is designed to provide in-depth overview of the rise of National Socialism in Germany and subsequent 13 year Third Reich. A component of the course gives emphasis to WWII, changes in the face of Eastern and Western Europe, and evaluating Hitler as a military leader. Prerequisite: None.

MS 450 Military Intelligence (3)

Comprehensive analysis of military intelligence operations from tactical to strategic. Studies aspects of collection, analysis and dissemination of intelligence information, to include the use of national intelligence assets and strategic planning. Prerequisite: Undergraduate-junior standing or permission.

MS 462 Military Operations/Tactics (3)

Course provides doctrine that frames counterinsurgency within the context of the range of military operations. A major component of the course is dedicated to understanding how commanders synchronize their efforts to achieve end states. Also, overview of Army and Marine Corps military tactics. Prerequisite: None.

MS 470 Insurgency & Guerilla War (3)

Overview of insurgent campaigns and guerilla warfare throughout history. Emphasis on popular political movements, opposition to recognized and existing governments, and transition of guerilla leadership into legitimate government. Presents topical coverage of significant historical examples of both successes and failures in revolution and revolt. Prerequisite: Undergraduate-junior standing or permission.

MS 475 Directed Readings (1-3)

Students pursuing the minor in Military Studies may enroll in an independent research project if approved by faculty in consultation with the Department Chair. Independent Study courses must meet equivalencies to Federal definition of a credit hour. Prerequisites: 3 hours of MS course work.

MS 480 Military Operations Other Than War (3)

Explores the emerging role of military forces in non-standard missions such as peacekeeping, humanitarian relief, non-combatant evacuation operations, and support to host nation military training. Also examines the relationship between and cooperation with non-governmental agencies and organizations through the use of case studies.

MS 490 Special Topics (1-3)

Topics vary each semester & are announced in advance. May be taken for more than one semester for variable credit.

Education

Website: <https://www.washburn.edu/academics/college-schools/applied-studies/departments/education/index.html> (<https://www.washburn.edu/academics/college-schools/applied-studies/departments/education/>)

Faculty

Professor Cherry Steffen, PhD, Chair
 Professor Michael Rettig, PhD
 Professor Carolyn Carlson, PhD
 Associate Professor Lisa Douglass, PhD
 Assistant Professor Heather Hayes, EdD
 Lecturer Craig Carter, MEd Director of Field Experiences
 Lecturer Tracie Lutz, MEd
 Lecturer Kirsten Cigler Nelson, MEd
 Lecturer Gary Graves, MEd
 Ms. Tara Porter, Licensure Officer

Mission

Consistent with the mission of the University and the School of Applied Studies, the Department of Education is committed to preparing educators to work in rural, suburban, and urban settings, and to educating leaders and professional specialty practitioners for leadership roles in schools and other community settings. It is our goal to ensure that all preservice and inservice educators are provided with numerous clinical and field-based experiences, are knowledgeable of curricula and pedagogy, receive accurate advising, and are provided with the educational supports necessary to be successful and reflective practitioners.

Description of Discipline

Education as a discipline is concerned with the professional and pedagogical knowledge required of effective and reflective teachers. In the process of acquiring professional knowledge, candidates become aware of the psychological, historical, philosophical, and social foundations upon which the discipline rests. From a pedagogical perspective, candidates become proficient in the skills and knowledge that allow them to organize learning environments, and plan and implement instruction that ensure all children and youth have opportunities to learn.

Student Learning Outcomes

Washburn University professional education candidates, upon graduation, are expected to:

- Demonstrate content knowledge and pedagogical skills.
- Demonstrate the ability to plan and implement instruction including the use of technology.
- Demonstrate that they are accepting of diversity among people and make decisions and adaptations that reflect a commitment to educational equity among students, including those with exceptionalities and reflect positive professional dispositions.
- Demonstrate that they can use assessment information for planning and decision making.
- Demonstrate that they have had a positive impact on P-12 student learning.

Requirements of Majors

Students must meet degree and licensure requirements in place at the time they obtain formal admission to the teacher education program. Students seeking a teaching license will complete courses in three areas: general education courses, professional education courses, and content area courses appropriate for a specific professional license.

Transfer Students

Students transferring from a two or four year institution should meet with a teacher education advisor in the content area department of their interest, and/or the Department Chairperson and/or Licensure Officer in the Department of Education for an evaluation of transcripts and development of a plan for program completion. Transfer students will be expected to complete requirements for a Washburn baccalaureate degree.

Endorsements

Teachers who are licensed to teach in Kansas may pursue an additional teaching endorsement at Washburn. Interested teachers should contact the Licensure Officer in the Department of Education for a review of licensure requirements and the development of a plan for program completion.

Declaring/Changing Major

Students seeking a baccalaureate degree are required to file a declaration of major by the time they have completed 60 hours. Students pursuing a licensure only program should file a declaration during their first semester. All elementary students must visit with the Department of Education Licensure Officer to declare or change their major or emphasis.

All secondary and P-12 students must contact the appropriate content area department to declare/change their majors.

A student is free to change majors or emphasis at any time. Students may view the Suggested Program of Study for all licensure programs on the Department of Education website: <https://www.washburn.edu/academics/college-schools/applied-studies/departments/education/index.html> (<https://www.washburn.edu/academics/college-schools/applied-studies/departments/education/>).

Department of Education Scholarships

Students who have declared an education major in any content area or been admitted to the Professional Teacher Education Program are eligible to apply for department scholarships. Scholarship application forms are available on the Department of Education website. Departmental scholarship applications are due February 1st for the following school year. See the Department website for a complete list of scholarships: <https://www.washburn.edu/academics/college-schools/applied-studies/departments/education/index.html> (<https://www.washburn.edu/academics/college-schools/applied-studies/departments/education/>).

Department Awards

Each semester the Department of Education faculty recognizes student achievements through the following awards:

- Julia Etta Parks Outstanding Elementary Student Teaching Award
- Outstanding Early Childhood Education Student Award
- Outstanding Secondary Student Teacher Award

- Donovan W. Cook Outstanding PreK-12 Education Student Teaching Award

Recipients of these awards have their names engraved on permanent plaques in the Department of Education Office and receive individual plaques in recognition of their outstanding teaching performance. Each semester student teachers who have completed the Professional Teacher Education Program with a 3.5 GPA are recognized with the Reflective Educator Award at the Student Teacher Celebration.

Admission to Teacher Education

All students pursuing a Professional Teacher Education Program and a Kansas teaching license must be formally admitted to the Professional Teacher Education Program. See the Department of Education or the teacher education advisor in the content area of interest for an application. Applications are reviewed three times a year. Deadlines for submission of **all** application materials are February 1, June 1, or October 1. Upon review of application materials, the Undergraduate Admissions Committee will either recommend or deny admission to a Professional Teacher Education Program. Students may be admitted with a pending status until all admission requirements are met. Applicants will be notified in writing regarding their admissions status. Candidates not admitted must resubmit an application for subsequent admission reviews.

Admission to Student Teaching

Applications will be accepted only from students who have been formally admitted to the Professional Teacher Education Program. To be eligible for student teaching, students must:

1. Have filed a Student Teaching Application a year prior to the student teaching semester
2. Have completed all professional education requirements with a grade of C or better
3. Have an overall professional education grade point average of 2.75 or better
4. Have a specialty grade point average of 2.75 or better
5. Overall grade point average of 2.5
6. Submitted a degree audit
7. Must be approved by the Department of Education.

Requirements

Degree Seeking Students

- Completion of 24 credit hours of university coursework including ED 155 Teaching, Learning, Leadership and ED 285 Educational Psychology with earned grade of A, B, or C.
- 2.75 overall grade point average OR 3.25 or better grade point average in the last 24 credit hours
- A or B in EN 101 Introductory College Writing
- A or B in MA required for one's major
- No ACT or CORE test required

OR

- Completion of 24 hours of university coursework at the time of application including:
 - ED 155 Teaching, Learning, Leadership
 - ED 285 Educational Psychology
- Successful passage of one of the following tests:

- the CORE Academic Skills Test (writing/162, reading/156, math/150) **OR**
- an overall score of 22 or better on the ACT **OR**
- an overall score of 1665 or better on the SAT
- An overall grade point average of 2.75 or better for all completed courses
- Submission of an Education Department Professional Reference form.

Licensure Only Students

- Completion of ED 155 Teaching, Learning, Leadership , and ED 285 Educational Psychology with a grade of C or better.
- Overall grade point average of 2.75 or higher. A C or better in all content specialty courses completed by students seeking admission to all programs.
- Submission of an Education Department Professional Reference form.

Programs

- Content-Specific Licensure Program (p. 295)
- Middle Grades STEM, BEd (p. 298)
- Elementary Education, BEd (p. 296)
 - with a concentration in one of the following:
 - Middle School English/Language Arts (Grades 5-8)
 - Middle School History (Grades 5-8)
 - Middle School Mathematics (Grades 5-8)
 - Special Education High Incidence (Grades PreK-6)
 - English for Speakers of Other Languages (ESOL) (Grades PreK-12)

Please see the Graduate (<https://catalog.washburn.edu/graduate/school-applied-studies/>) catalog for additional information regarding the department's graduate program:

- Master of Education (MEd) (<https://catalog.washburn.edu/graduate/school-applied-studies/master-education-med/>)

Course Offerings

Education

ED 155 Teaching, Learning, Leadership (3)

This course is designed to acquaint students with the education profession and to help them develop a realistic understanding of teaching, learning, and leadership. Students will examine motives for teaching, explore the qualities of effective teachers and leadership, and discuss the various diversities teachers encounter as well as the implications for teachers and learning. Students will begin to identify strategies and options for successful classroom practice. Ethical, legal, and controversial issues affecting education today will be addressed along with how to become a teacher leader in the profession. Prerequisite: None.

ED 165 Ed. 1, Examining Teaching as a Profession: Diversity 1, Literacy 1, Technology 1 (3)

First in a series of four courses that comprise the foundational education program for future teachers. The four courses address four topics that are essential to establishing and maintaining a successful learning environment: Classroom Management, Diversity, Literacy and Technology. Topics in the first phase are centered around diversity, literacy, and technology. The foundational courses are sequential in nature and build upon the previous course. The courses are intended to be taken in consecutive semesters.

ED 217 Introduction to STEM and STEM Education (3)

This course, introduces the history and current state of STEM (Science, Technology, Engineering and Mathematics) and STEM education while giving students the opportunity to explore the various components of STEM and STEM careers. A strong emphasis is placed upon critical STEM areas (specifically underrepresented populations in STEM and how STEM impacts people and the environment) and STEM in the Community. Students will explore various STEM careers. Prerequisite: None.

ED 275 Ed. 2 Exploring Teaching as a Profession (Classroom Management 1, Diversity 2, Technology 2) Ed. 2 (3)

Second in a series of four courses comprise the foundational education program for future teachers. The four courses address four topics that are essential to establishing and maintaining a successful learning environment: Classroom Management, Diversity, Literacy and Technology. Topics in this phase are centered around further building on diversity and technology, and introducing classroom management. The foundational courses are sequential in nature and build upon the previous course. Prerequisite: ED 165

ED 285 Educational Psychology (3)

The purpose of this course is for students to develop a working knowledge of theories, concepts and models derived from the discipline of psychology as they apply to teaching, learning, and other aspects of educational practice. In addition to theories of learning, motivation, intelligence, students study child and adolescent development. Students also address social, cultural, and family influences on human behavior and human development as well as the experiences of diverse student populations in school settings. ED 285 must be taken prior to admission to the Professional Teacher Education Program. Prerequisite: None.

ED 290 The Whole Child (3)

The Whole Child is an educational child psychology-oriented course which looks at the whole child from birth to age 12. The course explores the developmental levels of the elementary child along with the academic, physical, and social-emotional areas of the child in relation to educating the whole child.

ED 295 Ed. 3 Experiencing Teaching as a Profession (Classroom Management 2, Diversity 3, Literacy 2) (3)

Third in series of four courses comprise the foundational education program for future teachers. The four courses address four topics that are essential to establishing and maintaining a successful learning environment: Classroom Management, Diversity, Literacy and Technology. Topics in the third phase are centered on reinforcing and enhancing previously covered topics in classroom management, diversity, and literacy. The foundational courses are sequential in nature and build upon the previous course. Prerequisite: ED 275. Corequisite: ED 395.

ED 302 Teaching Exceptional Learners (3)

A survey of the characteristics and educational needs of all types of exceptional learners, with particular emphasis given to those students included into the regular classroom. Instructional strategies and appropriate resources for various exceptionalities are explored in detail. Prerequisite: Admission to teacher education.

ED 310 Teaching Math in Elementary School (3)

One course in the unified block in the teaching of mathematics and science. Investigates general content and teaching strategies for each strand of the elementary mathematics program. Problem solving and mental computation will be integrated and the development and use of manipulatives will be stressed. Current curriculum trends and the role of will be explored. Prerequisites: Admission to teacher education and a grade of "C" or better in both MA 112 or MA 116 and MA 228; Concurrent enrollment in ED 315 and ED 317.

ED 314 Chemistry Methods for STEM Edu (3)

This course is designed for pre-service education students and covers a range of chemistry topics related to curriculum and instruction at the middle or secondary grades level. It includes planning instruction, instructional methods and strategies, managing the classroom, assessing student performance, and working with others in the school environment, especially pertaining to the teaching of chemistry. Students are also required to participate in a 6 week observation/practicum and experience actually teaching several lessons in the student's major area. Corequisite: CH 317

ED 315 Teaching Science in Elementary School (3)

One course in the unified block in the teaching of mathematics and science. Methods and materials for teaching knowledge, processes, and applications in physical, earth and life sciences will be developed. Emphasis will be placed on activity-oriented programs. Prerequisites: Admission to teacher education, PS 126, BI 100, and BI 101; Concurrent enrollment in ED 310 and ED 317.

ED 317 Math/Science Practicum (2)

A supervised field experience in the teaching of mathematics and science in the elementary grades. Prerequisites: Concurrent enrollment in ED 310 and ED 315, and admission to teacher education.

ED 318 Earth/Space Science for STEM E (3)

This course is designed for pre-service education students and covers a range of Earth and space science topics related to curriculum and instruction at the middle and secondary level. It is designed to be taught in conjunction with Earth/Space Science for STEM Educators (PS 318). It includes planning instruction, instructional methods and strategies, managing the classroom, assessing student performance, and working with others in the school environment, especially pertaining to the teaching of chemistry. Students are also required to participate in a 6 week observation/practicum and experience actually teaching several lessons in an Earth/Space science classroom. CO-REQUISITE: Earth/Space Science for STEM Educators (PS 318)

ED 319 STEM Practicum I (1)

Catalog Description: Supervised field experience in the teaching of STEM in the middle grades. ED 319 will be taught in conjunction with BI 319 (or an approved substitute). The course will focus on the Biology course content as it relates to teaching the content at the middle grades level. Prerequisite: Admission to Professional Teacher Education Program. Concurrent enrollment in BI 319

ED 320 Teaching Reading in Elementary School (3)

The theory and practice of teaching reading including word attack, comprehension, and study skills. Special emphasis is given to the use of basal and other instructional materials in regular and special reading classes. Prerequisite: Admission to teacher education, ED 310 and ED 315. Corequisites: ED 325, ED 327, ED 330, ED 354

ED 321 STEM Practicum II (1)

Supervised field experience in the teaching of STEM in the middle grades. ED 321 will be taught in conjunction with EG 320 (or an approved substitute) and will focus on the course content as it relates to teaching the content at the middle grades level. Prerequisite: Admission to Professional Teacher Education Program. Concurrent enrollment in EG 320 or approved PY or EG course.

ED 322 Social Studies Content for Elementary Educators (3)

Social Studies Content for Elementary Teachers provides a broad foundation of social studies topics covered in the elementary school classroom. The focus of the course will emphasize the big four disciplines addressed in social studies—History (including American History and World History), Government and Civics, Geography and Economics.

ED 325 Teaching Language Arts & Children's Literature (3)

The theory and practice of teaching oral and written communication skills. Special emphasis is given to the interrelationship between literature for young people and the language arts skills of listening, speaking, reading and writing. Prerequisite: Admission to teacher education; Concurrent enrollment in ED 320 and ED 327.

ED 327 Literacy Practicum (2)

A supervised field experience in the teaching of literacy skills in the K-6 classroom. Prerequisite: Admission to teacher education; Concurrent enrollment in ED 320 and ED 325.

ED 330 Teaching Social Studies through Integrating Curriculum (3)

This course includes content, methods, and learning theory for effective social studies instruction. Methods for integrating social studies instruction with other content areas, including the arts will be addressed. Special attention is given to methods which promote critical thinking abilities necessary for participation in a diverse democratic society. Prerequisite: Admission to teacher education, ED 310 and ED 315. Corequisite: ED 320 and ED 337.

ED 335 Creative Experiences in Early Childhood Through Middle School (3)

Explores various elements of aesthetics, including art, music, drama, dance, and movement and the relationship of such activities to the teaching-learning environment. Emphasis will emphasize use of creative activities to enrich other content areas. Prerequisite: Admission to the Professional Teacher Education Program. Corequisites: ED 310 and ED 315.

ED 337 Social Studies Practicum (1)

One course in a unified block in the teaching of social studies and aesthetics. This course requires students to develop and teach social studies lessons in the elementary school classroom. Prerequisite: Admission to teacher education. Corequisites: ED 330 and ED 320.

ED 340 Teaching in Adolescent Middle Level Environment (2)

Understanding the unique nature of middle level education will be the focus of this course. Based upon readings, field experience, and class discussion, students will study the nature of adolescent development, curriculum and instruction, programs and collaborative interactions that support an effective middle school program. Prerequisite: Admission to teacher education; Concurrent enrollment in one of the following practicum sections, ED 346, ED 348 or ED 349.

ED 346 Middle Level History Practicum (1)

A supervised field experience in the teaching of history in the middle level classroom. Prerequisite: Admission to teacher education; Concurrent enrollment in ED 340.

ED 348 Middle Level English/Language Arts Practicum (1)

A supervised field experience in the teaching of English/Language Arts in the middle level classroom. Prerequisite: Admission to teacher education; Concurrent enrollment in ED 340.

ED 349 Middle Level Mathematics Practicum (1)

A supervised field experience in the teaching of mathematics in the middle level classroom. Prerequisite: Admission to teacher education; Concurrent enrollment in ED 340.

ED 350 General Secondary Methods (3)

Extensive laboratory and simulated classroom experiences with field-based observation. All secondary majors are required to have at least one methods course, and this course fills the basic requirement when a "special area" methods course is unavailable. All students who enroll in this methods course participate in a field-based teaching experience at various secondary schools. Prerequisite: Admission to teacher education.

ED 353 Assessment & Evaluation in Early Childhood Education (3)

Students in this course will learn how to assess and evaluate young children's development and learning. Typical assessment procedures appropriate for children from birth through third grade will be studied. Techniques will be developed to record children's behavior individually and in group settings. Prerequisite: Admission to teacher education.

ED 354 Curriculum and Assessment (3)

The curriculum and assessment course provides students with an opportunity to examine how to design implement and assess curriculum to address the needs of all learners. Prerequisites: Admission to Teacher Education and ED 275.

ED 362 Methods of Teaching English in Secondary School (3)

The study of and practice in the methods of teaching literature, language, and writing, in the secondary schools. Major concerns include teaching theory; the relationship between oral and written language; language development; language used in various social, regional, and cultural settings; curriculum development and evaluation; and the assessment of students' progress in reading and writing. Students participate in a field-based experience at various secondary schools. Prerequisites: Admission to teacher education and permission of the instructor.

ED 363 Methods of Teaching Math in Secondary School (3)

Principles and methods of teaching the process and content of secondary school mathematics. Includes emphasis and training in general mathematics, algebra, geometry, as well as advanced mathematics. All students who enroll in this course participate in field based teaching experiences at various secondary schools. Prerequisites: Admission to teacher education and permission of the instructor.

ED 366 Methods of Teaching Social Studies in Secondary School (3)

Principles and methods of teaching the process and content of the social studies. Includes emphasis and training in locating information, developing instructional units, and using instructional aids. All students enrolled in this course participate in field-based teaching experiences at various secondary schools. Prerequisites: Admission to teacher education and permission of instructor.

ED 368 Methods of Teaching Foreign Language (3)

Principles and methods of teaching foreign languages. Extensive laboratory and simulated classroom experiences with field experiences with field based observation. Discussion of problem situations observed in the classroom. Emphasis given to proficiency oriented teaching of various target languages, developing instructional units, use of multimedia resources, and principles of foreign language testing. Prerequisites: Admission to teacher education and permission of instructor.

ED 369 Student Teaching in Preschool Education (3)

A supervised field experience in a pre-school setting and a seminar exploring child development issues. This course includes planning, teaching, and assessing developmentally appropriate activities for preschoolers in field placements. Prerequisite: ED 160, ED 343, ED 345, and admission to the Professional Teacher Education Program. Concurrent enrollment in ED 367.

ED 395 Ed. 4 Extending Teaching as a Profession (Classroom Management 3, Literacy 3, Technology 3) (3)

ED 395 Ed 4. Extending Teaching as a Profession (3) Fourth in series of four courses comprise the foundational education program for future teachers. The four courses address four topics that are essential to establishing and maintaining a successful learning environment: Classroom Management, Diversity, Literacy and Technology. Topics in the fourth phase are centered on reinforcing and enhancing previously covered topics in classroom management, literacy and technology. The foundational courses are sequential in nature and build upon the previous course. Prerequisite: ED 275. Corequisite: ED 295.

ED 410 Secondary Student Teaching (6-12)

Directed and supervised teaching of content in 6-12 classrooms. Students are assigned to Topeka and neighboring schools for a period of twelve weeks. Not available for graduate credit. May be taken on a Pass/fail basis only. Prerequisites: Completion of appropriate professional education courses, and teaching specialization courses, and admission to student teaching.

ED 415 5th-8th Grade Student Teaching (4-12)

Directed and supervised teaching of content in 5-8 classrooms. Students are assigned to Topeka and neighboring schools for a period of six to twelve weeks. Not available for graduate credit. May be taken on a pass/fail basis only. Prerequisites: Completion of appropriate professional education courses, middle school teaching content courses, and admission to student teaching.

ED 420 K - 6 Student Teaching (8-12)

Directed and supervised student teaching for a minimum 8 weeks in a K-6 classroom. Not available for graduate credit. May be taken on a pass/fail basis only. Prerequisites: Completion of appropriate professional education courses, and teaching specialization courses, and admission to student teaching.

ED 430 Student Teaching Birth to Grade 3 (4)

Directed and supervised student teaching in a kindergarten through grade three educational setting. Not available for graduate credit. May be taken on a pass/fail basis only. Prerequisites: Completion of appropriate professional education courses, and teaching specialization courses, and admission to student teaching.

ED 440 Student Teaching Grades P-12 (4-12)

Directed and supervised student teaching in grades Pre-Kindergarten through grade 12 educational setting. Not available for graduate credit. May be taken on a pass/fail basis only. Prerequisites: Completion of appropriate professional education courses, and teaching specialization courses, and admission to student teaching.

ED 450 Methods & Cross-Cultural Communication (3)

Emphasis on practical methods of teaching English as a Second Language and strategies for working with speakers of other languages. Includes a review of resource materials, lesson planning, and in-class teaching practice as well as an analysis of problems posed by conflicting cultural and language habits. Prerequisites: Admission to Teacher Education.

ED 461 ESOL Assessment Administration Teacher Education (2)

This course focuses on language assessment theory and practice in ESOL settings. The content of the course will include purposes for assessment, types of assessment including alternative assessment and construction of assessment instruments. Central issues in the assessment of language will be presented and analyzed. Prerequisite: Admission to the program.

ED 463 ESOL Teaching and Learning (3)

This course is designed to provide students with a critical understanding of instructional delivery which caters for the linguistic and literacy needs of minority/heritage communities. The focus of this course is located within postmodernist principles of cultural capital, discursive practices and difference. Students will be required to engage with the political debates and resultant educational ramifications concerning bilingual education, dual language programs, ESOL education, as well as other issues such as power and inequalities in language education. This sociocultural-critical theoretical framework will provide students with the basis to then negotiate issues of second language learning, critical pedagogy, language varieties, multicultural communities as well as critical literacy and reading development. Prerequisite: Admission to the program.

ED 464 ESOL Practicum-Assessment & Administration Teacher Education (3, 4)

A supervised clinical experience with three ESOL learners of different levels (one elementary level learner, one middle level learner, and one secondary level learner). Students administer tests, analyze data, determine the learners' strengths and weaknesses, develop instructional plans for each learner, select and implement appropriate strategies and materials, and assess progress towards instructional goals using skills developed as critical and reflective professionals. Appropriate conduct is maintained with parents and classroom teachers with oral or written reports as deemed appropriate. Prerequisites: ED 450, ED 463, ED 461, and ED 462.

ED 466 Linguistics for ESOL Teachers (3)

This course provides an introduction to language as a system, with a particular focus on teaching English as a second language to students in public schools, in grades P-12. Among the topics addressed are: first and second language acquisition processes; English phonology, morphology, syntax, and discourse; implications for teaching English language learners the four language skills – listening, speaking, reading, and writing; and implications for teaching content-specific language (math, science, social studies). Prerequisites: Admission to Teacher Education.

ED 474 Special Topics in Education (0-3)

Courses in special topics that will vary from semester to semester and will be announced in advance. ED 474 may be taken for more than one semester. Prerequisite: Permission of the Department Chairperson.

ED 497 Independent Study in Education (1-3)

Intensive guided study in a special topic in education. Independent Study in Education is available only to candidates for teaching licenses. Prerequisites: Admission to an approved program of study and written approval of the Chairperson of the Department of Education.

Special Education**SE 420 Planning for Children and Youth with Mid-Moderate Disabilities (3)**

Introduction to programming, planning and scheduling procedures to structure the learning environment for pre-school and elementary students with learning and behavioral problems. Emphasis placed on establishment of procedures for laws and regulations, regular class integration, student and teacher time management, class scheduling, grading practices, and student/program evaluation. Prerequisite: Admission to the Professional Teacher Education Program and ED 302.

SE 422 Educational Planning for Youth with Disabilities (3)

Introduction to programming, planning and scheduling procedures to structure the learning environment for middle and secondary school students with learning and behavioral problems. Emphasis placed on establishment of procedures for regular class integration, student and teacher time management, class scheduling, grading practices, and student/program evaluation. Prerequisite: Admission to the Professional Teacher Education Program and ED 302.

SE 430 Methods & Materials for Teaching Youth with Disabilities (Pre K-Grade 5) (3)

Emphasis on selection and implementation of instructional methods including affective and learning behaviors, selection and adaptation of materials to support student learning, behavior, and social adjustment in regular education classroom. IEP development. Prerequisites: Admission to teacher education and ED 302.

SE 432 Methods & Materials for Teaching Youth with Disabilities (Grade 6-12) (3)

Emphasis on selection and implementation of instructional methods including affective and learning behaviors, selection and adaptation of materials to support student learning, behavior, and social adjustment in regular education classroom. Prerequisite: Admission to the Professional Teacher Education Program and ED 302.

SE 440 Individual & Group Management - Children & Youth with Disabilities (3)

Principles and applications of individual and group management techniques for children and youth with mild/moderate disabilities. Topics addressed include various theoretical approaches, practical techniques, and assessment procedures. Prerequisites: Admission to teacher education and ED 302.

SE 456 Special Education Practicum (4)

Directed and supervised intensive teaching experiences with children with mild/moderate disabilities in educational settings which include elementary age children. Prerequisite: Admission to the Professional Teacher Education Program, ED 302, and Admission to Student Teaching.

SE 460 Exceptions-Early Childhood (3)

Focuses on children with disabilities ages birth through grade three. Emphasis is placed on understanding assessment, uses of technology, working with families, development of IEP's/IFSP, legal and historical foundations, program models, and collaboration with school personnel. Prerequisite: ED 302.

Content-Specific Licensure Programs

Washburn offers course work and clinical experiences leading to subject specific teaching licenses. These programs are delivered collaboratively between the Department of Education where students complete professional education courses, and College of Arts and Sciences Departments offering content in a teaching licensure area. Students major in the content area they wish to teach, and in most instances, receive a degree from the specific content area department. Students should consult with their content area advisor for degree requirements and the Department of Education advisor for licensure requirements. Content areas, level of license, degrees and Department-contacts are listed below.

All Levels PreK - Grade 12

Content Area	Contact
Art	Dr. Amont
French	Dr. O'Brien
Music	Dr. Cook-Cunningham
Physical Education	Dr. Song
Spanish	Dr. O'Brien

Early-Late Adolescence - Grades 6-12 (Secondary)

Content Area	Contact
Biology	Dr. Emry
Chemistry	Dr. Schmidt
English/Lang. Arts	Dr. Burdick
History	Dr. Prasch
Math	Dr. Cook
Political Science	Dr. Beatty
Speech / Theatre	Dr. Schnoebelen / Dr. Noonan

Total Hours		39

General Education Requirements

Students should consult with an advisor in the content specific department to ensure that they enroll in general education courses that meet both teacher licensure requirements, as well as general education courses required for graduation in the major.

Major/Licensure Content Requirements

Students should consult with an advisor in the content specific department to ensure that they enroll in content specific courses that meet both teacher licensure requirements and course requirements for the major. In addition, students should consult with a Department of Education advisor or licensure officer to ensure that the professional education requirements are met.

Licensure Only

Students holding a baccalaureate degree from an accredited institution may complete requirements leading to a specific teaching license without completing a second baccalaureate degree. All general education requirements will be deemed as met, except those that are supportive to and/or prerequisite for courses required by a specific teaching license. Students with a baccalaureate degree should meet with a teacher education advisor or the Licensure Officer in the Department of Education for an evaluation of transcripts and development of a plan for completion of courses leading to a teaching license.

These programs are available for individuals who have graduated with a 4 year degree and are interested in pursuing requirements for a teaching license and not an additional degree.

All Levels PreK-12 Programs

- Math
- Speech/Theatre
- Optional second license in Special Education High Incidence (6th-12th grade) or ESOL (PreK-12 grade) available

Grades 5 - 8

- Middle Grades STEM

Elementary Education, BEd

The PreK-6 teaching program prepares students to teach in preschool through sixth grade classrooms. Students may choose to complete a second license in one of six areas at the same time they complete preparation for the PreK-6 license.

These areas include:

- Middle School English/Language Arts (Grades 5-8)
- Middle School History (Grades 5-8)
- Middle School Mathematics (Grades 5-8)
- Special Education High Incidence (Grades PreK-6)
- English for Speakers of Other Languages (ESOL) (Grades PreK-12)

Candidates for degrees and licenses in these areas are advised by the Faculty of the Department of Education. See an advisor for specific licensure requirements or visit the Department of Education website (<https://www.washburn.edu/academics/college-schools/applied-studies/departments/education/index.html> (<https://www.washburn.edu/academics/college-schools/applied-studies/departments/education/>)).

Bachelor of Education in Elementary Education: PreK - 6th Grade License

In addition to the requirements stated below, students must complete all requirements for a Bachelor of Education degree. By completing the courses below, students will have completed the 35 hours of

General Education that are required. Please see your advisor for more information.

Middle Grades STEM, BEd

The focus of the Middle Grades STEM Education program is on science and mathematics education and on integrating STEM throughout the curriculum. The program prepares students for licensure in both mathematics and science education in grades 5-8. Candidates for the degree and licensure in Middle Grades STEM Education are advised by the faculty of the Department of Education.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Education degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements.

Family & Human Services Department

Website: <https://www.washburn.edu/academics/college-schools/applied-studies/departments/human-services/index.html> (<https://www.washburn.edu/academics/college-schools/applied-studies/departments/human-services/>)

Faculty

Stacy Conner, PhD, Associate Professor, Department Chair
 Zenova Williams, PhD, Assistant Professor, MA Director
 Kara Langin, PhD, Assistant Professor, BAS Director
 Jessie Piper, PhD, Assistant Professor
 Dena Dean, MSW, Clinical Coordinator and Lecturer
 Bailey Grey, MSW, Lecturer
 Patty Robert, Senior Administrative Assistant

Mission

The mission of the Family and Human Services Department is for students to attain the attitudes, skills, and knowledge to become effective, ethical, and compassionate helping professionals who engage in creative approaches to meet diverse individual, family, community, and societal needs.

Program Description

The Family and Human Services department prepares students for careers in a variety of helping professions, including addictions counseling and family life education (see program approvals below) as it relates to the areas of youth services, trauma and recovery services, gerontology/aging, mental health, disability services, and homelessness/poverty. At the Associate's level, students can choose from an Associate of Arts degree with robust general education, which sets them up for a future Bachelor's degree, or an Associate of Applied Science degree, which offers more flexibility within the 60 credit hours required. At the Bachelor's level students may choose from two tracks, addiction counseling or family services, both of which prepare them for licensing or certification. The Department also offers certificates in Addiction Counseling, Gerontology, Trauma and Recovery, and Non-Profit Management, all of which require a prior or concurrent Bachelor's degree. Students can choose online or on-campus coursework (or both).

Program Approvals and Licensure/Certification Eligibility

The addiction counseling program is approved by the Kansas Behavioral Sciences Regulatory Board (BSRB) and the Association for Addiction Professionals (NAADAC). The program provides the educational curriculum for becoming Licensed Addiction Counselors (LAC), Licensed Master Addiction Counselors (LMAC) and Licensed Clinical Addiction Counselors (LCAC) in Kansas. The program is also approved by the Kansas Department of Aging and Disability Services (KDADS) to provide the educational curriculum for becoming certified as a Person Centered Case Manager (PCCM) in Kansas. KDADS and BSRB have additional post-degree eligibility requirements. In addition, application for licensing and certification may require a criminal background check and other personal information. Students should contact the licensing approval body for specific eligibility information.

Students seeking addiction licensing/certification in other states may be able to meet requirements through Washburn's program. Please contact your state licensing board for eligibility requirements.

Students who complete the family services track at the Bachelor's level will fulfill the educational requirements to apply for the Certification in Family Life Education through the National Council on Family Relations within two years of graduation.

Student Learning Outcomes

Upon graduation, Family and Human Services students should be able to:

- Describe the historical development and scope of the field.
- Explain the foundational values of the field, including the promotion of strengths, diversity, social justice, and integrative wellness.
- Demonstrate effective prevention, intervention, and evaluation skills for working with individuals, families and other stakeholders.
- Display effective interpersonal and professional skills appropriate to the field.
- Adhere to professional ethical standards.

Internship Requirements

Students must apply for admission to the Family and Human Services Internship Program and must submit two reference statements. In addition, they must apply for each subsequent internship. If accepted by the Department for an internship, students will still have to be accepted by an approved placement agency. Some agencies may require criminal background checks or other personal information. All agencies have full discretion to accept or reject applicants. Progress in the Family and Human Services curriculum will be curtailed if student(s) are not accepted into the internship program or if they are unable to secure a placement or otherwise complete the internship requirement. Additionally, progress in the Family and Human Services curriculum may be curtailed if a student fails an internship or is otherwise let go from an internship site due to performance problems. Please refer to the Family and Human Services Internship Manual, which may be found on the Department's website, for more information. Students pursuing licensure must meet specific fieldwork requirements. Please refer to your state licensing board for specific fieldwork requirements.

Department Sponsored Co-Curricular Activities

Washburn Family and Human Services Coalition (WFHSC): The purpose of the Coalition is to bring together students from different fields of study that relate to human services. The Coalition provides career development, professional education, and networking opportunities for its members.

Department Honors

Graduation with Honors in Family and Human Services requires a minimum major GPA of 3.75, completion of a Department-approved project, and Department approval. Faculty will consider student performance of the interpersonal and professional skills listed in the Internship manual when determining approval.

Fast-Track to Master's Degree

Students have the option of earning a Bachelor of Applied Science-Family and Human Services/Addiction Counseling and Master of Arts-Family and Human Services/Addiction Counseling in 5 years (including some summer coursework). In the fourth year of study (after being

accepted to the Master's program), students are able to enroll in MA-HS courses that will be applied as elective credits toward the BAS degree. Being on the fast-track allows students to efficiently use required credits toward two degrees in less time than it would typically take for a student to complete an undergraduate and graduate degree in this field.

Programs

- Trauma and Recovery, Certificate (p. 307)

Please see the Graduate (<https://catalog.washburn.edu/graduate/school-applied-studies/>) catalog for additional information regarding the department's graduate programs:

- Master of Arts in Family & Human Services - Addiction Counseling Emphasis (MA) (<https://catalog.washburn.edu/graduate/school-applied-studies/family-human-services-graduate-programs/master-arts-human-services-ma/>)
- Graduate Certificate in Trauma and Recovery (<https://catalog.washburn.edu/graduate/school-applied-studies/family-human-services-graduate-programs/grad-cert-trauma-recovery/>)

Course Offerings

Many of the following courses are offered both online and face-to-face. Students trying to complete the Family and Human Services curriculum, however, are advised that the courses they need may not be offered in each format every semester.

HS 100 Family and Human Services (3)

This course provides an introduction to the philosophical framework, major theoretical models, and interdisciplinary nature of family and human services. Students will examine various approaches to family and human services within historical, societal, and cultural contexts. Students will explore occupations, professional organizations, and community resources relevant to family and human services. Students will complete a 30 hour service learning project in a relevant agency in their own community. Prerequisite: None

HS 131 Human Development (3)

This course provides a holistic introduction to human development across the lifespan and considers different theoretical approaches and research methods used to study development. The course examines developmental processes using social, emotional, cognitive, physical, and sexual lenses from conception through childhood, adolescence, adulthood, later life and death. The course offers information designed to support healthy human development using an interdisciplinary approach based on science and applied toward important human problems.

Prerequisite: None.

HS 222 Juvenile Justice (3)

The American system of juvenile justice, including the roles and relationships of law enforcement, courts, probation and parole, diversionary programs, service agencies, and correctional institutions.

Prerequisite: None.

HS 231 Methods of Long Term Mental Health Care (3)

This course will build on the theoretical issues of basic health care, with emphasis on acquiring the skills to care for the health and safety concerns of people in long-term treatment programs. Prerequisite: None.

HS 232 Introduction to Community Mental Health Services (3)

This course is designed to familiarize students with the history and development of community mental health; federal, state and local policies impacting the delivery of community mental health services; and methods utilized in community mental health service delivery such as short-term counseling, crisis intervention, case management, prevention, education, and assessment of need for services. Prerequisite: None.

HS 240 Introduction to Intellectual Disabilities (3)

This is a survey course designed to introduce the student to a philosophy and set of practices for providing services to people with intellectual disabilities. Course topics include rights of individuals, legal issues, assessment and planning, communication, prevention, and supportive services for promoting independence and well-being. The course focuses on practical skill development for working with people with intellectual disabilities. Prerequisite: None.

HS 243 Fundamentals of American Sign Language (3)

This course is designed to provide students with a basic framework of knowledge regarding the nature of hearing loss and its extremely varied influence on the lives of people who are deaf, hard of hearing, late-deafened, and deaf with a dual diagnosis. Important issues within the field of deafness will be addressed, namely: Deaf culture, education of deaf people, technological advances, and political influences. Emphasis will be placed on learning the fundamentals of American Sign Language (ASL) while providing the student with a working vocabulary of approximately 500 signs. The student can expect sign demonstration and practice as well as lecture on various salient topics in deafness.

HS 250 Skills for Helping Professionals (3)

This course is designed to address foundational skills and techniques for providing family and human services. Students will engage in assignments to aid in their preparation for human services practice at the internship level. This course will explore ethics and professional conduct, goal setting, behavior-change strategies, communication skills, and relationships built on respect, compassion, and responsibility. Students will consider how values and biases influence helping. Special consideration will be given to understanding and working with diverse populations. Prerequisite: None.

HS 260 Directed Study (1-3)

Family and Human Services majors may pursue an independent study project if approved by the instructor in consultation with the Department Chair. A contract must be signed by all parties that specifies learning outcomes, assignments, deadlines, and assessment strategies. Independent Study courses must meet equivalencies to Federal definition of a credit hour. Prerequisite: Department Consent.

HS 290 Special Topics/Human Services (1-3)

Topics will vary from semester to semester and will be announced in advance.

HS 300 Prevention and Social Change (3)

This course will examine the foundational roles of prevention and social change in Family and Human Services. Content will focus on selection and implementation of social change and prevention strategies, with special attention to the importance of social justice in promoting a healthy society. Prerequisite: None.

HS 301 Working with Trauma (3)

This course provides information on the concept of psychological trauma as well as an overview of the common responses to trauma in individuals and families, PTSD diagnostic criteria, family stress theories, resource management, and resilience. Current treatment practices, both evidence-based and alternative, are reviewed. Principles for working with trauma-exposed populations in family and human services are emphasized. This course is required for the Trauma and Recovery Certificate in Family and Human Services. Prerequisite: None.

HS 304 Case Management (3)

This course is designed to enhance students' ability to provide case management services. This course will focus on serving children with severe emotional disturbance and adults with mental illness. In addition, students will investigate issues and responsibilities of case managers, community resources, the family support perspective, client advocacy, the strengths approach when working with people, and the fundamental philosophy and applications of wraparound community services. This course will be helpful for those students with the desire to work as case managers, social workers who would like to expand their knowledge of case management in community settings, bachelor level psychology students wanting to work in community mental health, and administrators/supervisors who have the desire to implement case management services within their agencies. Prerequisite: None.

HS 308 Working with Parents and Youth (3)

This course examines effective parenting strategies and parent education programs, with attention to contemporary sociocultural issues impacting families. Students will study evidence-based prevention and intervention practices for working with parents and youth that promote healthy child development, effective family functioning and resilience. Prerequisite: None.

HS 310 Gender and Sexuality (3)

This course provides information on the physiological, psychological, and social aspects of human sexuality across the lifespan. In addition, this course discusses issues of sexual, gender, and relationship diversity within the helping professions. Students will learn to communicate about gender, sexual, and relationship diversity with appropriate vocabulary and evidence-based information. The course will emphasize how helping professionals can create an inclusive and supportive environment for working with sexual and gender minority populations. Prerequisite: None.

HS 312 Mental Health and Addiction (3)

This course teaches students about effective addictions treatment for persons with co-occurring disorders. The course will provide students with an understanding of terms, services delivery systems, assessment, and strategies for working with clients with co-occurring disorders. The course will cover methods for providing individualized treatment based on a consumer's biological, psychological, social and spiritual needs. The content of this course is based on TAP21 competencies. This is a required course for addictions counseling licensure with the Kansas BSRB. Prerequisite: None.

HS 316 Addictions Treatment (3)

This course describes the most generally accepted and scientifically supported models of treatment, recovery, relapse prevention, and continuing care for addiction and other substance-related problems. Students will be exposed to the principles and philosophy of prevention, treatment and recovery. The course will focus on the social, political, economic, cultural, and family context within which addiction and substance abuse exist, including risk and resiliency factors that characterize individuals and groups and their living environments. Emphasis will be given to the behavioral, psychological, physical health and social effects of psychoactive substances on the user and significant others and the importance of research and outcome data and their application in clinical practice. The content of this course is based in part on TAP 21 competencies. This is a required course for addictions counseling licensure with the Kansas BSRB. Prerequisite: None.

HS 321 Youth & Violence (3)

This course is designed to provide an overview of violence and youth, specifically the problems associated with it; including, but not limited to, such issues as definition, reporting, investigations, causes, treatment, the importance of family preservation and re-integration, institutional abuse, institutional neglect, parent training, parent support, prevention, the roles of foster care, state agencies, the court system, the schools, etc. The role of the human service worker in preventing and dealing with child abuse and youth violence will be an area of special focus. Child abuse will be viewed as a part of a continuum of personal/family violence. Prerequisite: None.

HS 323 Service Coordination (3)

This course focuses on the coordination of services for human services clients. Students will learn about intake, screening, assessment, diagnosis, client placement, treatment planning, discharge/transfer plans, report writing, referral and other aspects of service coordination. The course stresses a multidisciplinary approach to service coordination and examines the roles of professionals, agencies, families, community groups, and other support systems in the treatment process across the continuum of care. Students will learn effective, ethical ways to work with clients, with a focus on recovery-oriented systems of care. The content of this class is based in part on TAP21 competencies. This is a required course for addictions counseling licensure with Kansas BSRB. Prerequisite: None.

HS 325 Group Work (Group Counseling) (3)

This course is designed to provide both knowledge and skills in the organization and facilitation of psycho-educational and other group experiences used in the helping process, with special focus on addiction and recovery. Students will learn a variety of techniques and strategies designed to facilitate and enhance group learning and the personal growth of participants—particularly psycho-social development. The content of this course is based in part on TAP 21 competencies. This is a required course for addictions counseling licensure with the Kansas BSRB. Prerequisite: None.

HS 341 Applied Behavioral Interventions (3)

This course is designed to familiarize students with the history, theory, and practice of applied behavior analysis. Emphasis will be on the "practice" side, with students learning how to define and observe behaviors, design effective and socially valid interventions to help consumers reach valued goals, and analyze the impact of interventions on important behaviors. Students will learn about best practices in behavior analysis with a variety of consumer populations and will gain experience in reading and evaluating reports of behavior-analytic research. Prerequisite: None.

HS 355 Peacemaking (3)

The course will cover the need for peace education in our society. Peace education is pertinent for students majoring in human services with an interest in working with violence and poverty prevention, social justice, the environment, youth, and sustainable communities. Other students will find value in the course through the experiential component of designing a peace education presentation that can be used in their community. Topics include personal peacemaking, nonviolence, conflict resolution, compassionate intentional living, civil rights, equity, education and the environment. Prerequisite: None.

HS 360 Directed Study (1-3)

Family and Human Services majors may pursue an independent study project if approved by the instructor in consultation with the Department Chair. A contract must be signed by all parties that specifies learning outcomes, assignment deadlines, and assessment. Independent Study courses must meet equivalencies to Federal definition of a credit hour. Prerequisite: Department consent

HS 362 Human Trafficking and Modern Day Slavery (3)

This course is an advanced undergraduate course that focuses on contemporary human trafficking and slavery. Types of trafficking and slavery to be covered include sex trafficking, bonded labor, forced labor, child soldiers, chattel slavery, and domestic servant slavery. The contributing roles of the state, organized crime, the media, culture, and corruption will be examined. It will review the debates about defining trafficking and the connection between sex trafficking and prostitution. Course materials may include testimonies and autobiographies by survivors, research reports, theoretical essays, policy statements, expert testimonies, podcasts and videos. Prerequisite: None.

HS 370 Mass Victimization/Mental Health (3)

This course will provide an overview of interventions used with victims following mass violence and disasters. Additionally, compassion fatigue effects and methods used to assist emergency responders who become victims of disaster through their role in response and recovery will be thoroughly discussed. Attention will focus on mental health effects dealing with both immediate and long-term recovery issues for immediate victims and those responding to the incident.

HS 371 Mental Health and Aging (3)

This course provides an overview of biological, psychological, and social factors related to successful aging, with an emphasis on the development and maintenance of mental health across the lifespan. The course considers ways that HS professionals can support mental health throughout the aging process. Students will also learn about mental health problems in relation to the aging process. Prerequisite: None.

HS 372 Death & Dying (3)

This course will cover biological, psychological, social, and cultural issues surrounding death and the dying process. Topics will include stages of dying, approaches to working with people who are dying and their families, the bereavement process, cross-cultural practices related to death and dying, services available to people who are dying and to their caregivers, and legal and ethical issues surrounding end-of-life decision making. Prerequisite: None.

HS 373 Disaster Response and Recovery (3)

This course provides an overview of the hazard cycle and basic concepts of disaster preparedness, response and recovery. Additionally, this course will provide an overview of the helping professional's role during times of disaster including discussion of the specific emergency support functions assigned to groups and agencies as designated in the National Response Framework. Emphasis will also be paid to concepts used when working with direct and indirect victims of disaster. Prerequisite: None.

HS 375 Hate and Bias Crimes (3)

This course provides an overview of hate and bias crimes in the United States. Focus will be on causative factors, human service and criminal justice responses, and impact on victims/survivors and communities. Hate violence based upon race and ethnicity will be a primary focus, but discussion will also include hate violence targeting persons because of gender, sexual orientation, age, religion, and disabilities. Prerequisite: None.

HS 377 Personal & Community Prevention (3)

This course explores a principle-based model of professional health and helping. It focuses on a new and innovative approach to prevention and human services that changes lives, communities, and organizations from the inside-out. Most recently known as The 3 Principles (also known as Health Realization), this approach emphasizes people's innate health and resilience to foster the capacity for personal well-being and the ability to function productively and successfully among colleagues and constituents. This course is directed toward strengthening the student's approach to life and work, which is necessary for developing the capacity to serve others and respond to the consistent demands of the helping profession. Prerequisite: None.

HS 378 Issues in Aging (3)

The course provides an interdisciplinary examination of the human aging process by surveying biological, psychological, sociological, and cultural theories, and influences, on aging. While this course does not focus solely on old age, the course will examine social policies and human services for older people that are informed by our knowledge of the aging process. Prerequisite: None.

HS 381 Internship I (3)

This course is the first internship required in the Associate and, Baccalaureate programs, and may be used to meet certificate requirements. The internship consists of a minimum of 150 clock-hours of field experience in an agency in the community under the supervision of agency staff and university faculty. In addition, a weekly seminar is required to integrate learning in the field with classroom instruction. Students work on specific competencies related to the delivery of human services. Additionally, addiction counseling students work on TAP 21 competencies. This is a required course for addiction counseling licensing with the Kansas BSRB. Prerequisite: Department consent.

HS 390 Special Topics (1-6)

Topics will vary from semester to semester and will be announced in advance.

HS 395 International Service Experience (0-3)

This course will offer the students the opportunity to experience the culture of countries other than the United States while engaged in meaningful service in both urban and rural settings. Through a partnership with a non-governmental agency service assignments will be arranged to meet the needs of various communities. The focus of this assistance is on community and economic development, sustainable agriculture, health, education, training in non-violent resolution of conflicts, and women's empowerment. The purpose of the experience is to develop friendships and a sense of partnership with the members of the community organizations and people the students interact with during their time in country. In addition to completing the service project students will learn about the history, political systems, and the culture of the country they visit. Prerequisite: Instructor consent.

HS 402 Trauma and Recovery Services (3)

This course provides an overview of prevention and intervention services available to persons and families who have experienced traumatic stress. Particular focus will be placed on trauma-informed strategies and ethical interventions. Topics will include various traumatic exposures that may be experienced across the lifespan, including child abuse, bullying, partner violence, sexual violence, human trafficking, hate crimes, homicide, elder abuse, military trauma, natural disasters, and vehicle accidents. Prerequisite: None.

HS 410 Pharmacology & SUDs (3)

This course covers fundamental concepts of pharmacology, including physiological, behavioral, psychological, social and health effects of psychoactive substances. The course also covers infectious diseases associated with substance use and methods of disease prevention. Students will learn about drug screening, drug testing and HIV/AIDS testing and counseling, and associated legal and ethical issues. The content of this course is based on TAP21 competencies. This is a required course for addictions counseling licensure with the Kansas Behavioral Sciences Regulatory Board. Prerequisite: None.

HS 411 Family Issues (3)

This course will explore the role that family interaction plays in the various areas of Family and Human Services. Different theories of family functioning and intervention will be reviewed, as well as major risk and resiliency factors. Specific attention will be paid to family issues using a strengths-based approach to domestic violence, youth issues, aging family members, illness and disability, and addictions. For students preparing to work as addiction and recovery counselors, knowledge of ways to teach or facilitate discussions of how substance use and abuse affects families and concerned others will be emphasized. The content of this course is based in part on TAP 21 competencies. This is a required course for addictions counseling licensing with the Kansas BSRB. Prerequisite: None.

HS 414 Individual Counseling Methods (3)

This course will introduce students to a variety of evidence-based counseling theories and approaches for working with individual clients and family/significant others. Students will study common topics that arise in individual counseling as well as cultural and ethical issues associated with effective counseling practice. In addition, the course will examine methods for forming effective helping relationships along with strategies for helping clients establish and work toward realistic, meaningful goals. Students will have the opportunity to demonstrate an individual counseling approach covered in this course. The content of this course is based in part on TAP 21 competencies. This is a required course for addiction counseling licensing with the Kansas BSRB. Prerequisite: None.

HS 421 Women and Addiction (3)

Women with substance use disorders have serious and unique health concerns. Using a bio-psycho-social-spiritual framework, this course will examine how treatment services are changing to help women successfully navigate the road to recovery. Prerequisite: None.

HS 429 Adolescence & Substance Abuse (3)

This course is designed to cover the dynamics of substance abuse for children and youth, and the state-of-the-art of prevention and intervention. Special topics of the course will include growth and development, family process, assessment, intervention, treatment, co-dependency, education, cultural factors, at-risk populations, prevention, and resources. Prerequisite: None.

HS 446 Legal, Ethical, & Professional Issues (3)

This course will address legal, ethical, and professional issues which impact the delivery of human services, including codes of ethics, confidentiality, duty to warn, and similar issues. The content of this course is based in part on TAP 21 competencies. This is a required course for addictions counseling licensing with the Kansas BSRB. Prerequisite: None.

HS 450 Multicultural Issues (3)

This course provides an overview of the major issues in providing family and human services to the increasingly pluralistic population of the United States. Themes to be discussed are: cross-cultural theories of intervention, communication styles, definitions of suffering and recovery, and working with diverse individuals and groups. The range of human service delivery systems, including mental health, alcohol and substance abuse, youth services, gerontology, and victim/survivor services, will be addressed from a multicultural perspective. Emphasis will be on exploring provider attitudes and competencies as well as developing practical applications and solutions. For students preparing to work as addiction and recovery counselors, special emphasis will be given to recognizing the social, political, economic, and cultural context within which addiction and substance abuse exist, including risk and resiliency factors that characterize individuals and groups and their living environments. Prerequisite: None.

HS 480 Internship II (3)

This course is the second internship required in the Baccalaureate program and may also be used to meet certificate requirements. The internship consists of a minimum of 150 clock-hours of field experience in an agency in the community under the supervision of agency staff and university faculty. In addition, a weekly seminar is required to integrate learning in the field with classroom instruction. Students will work on specific competencies related to the delivery of human services. Additionally, addiction counseling students will work on TAP 21 competencies. This internship requires summative reflection, serving as a culminating experience for Bachelor's degree students. This is a required course for addiction counseling licensing with the Kansas BSRB. Prerequisite: Department consent.

HS 481 Internship in Family & Human Services (3)

HS 481 is a supplemental internship course for baccalaureate and certificate students within the Human Services Department who want to obtain additional field experience. The internship consists of a minimum of 150 clock-hours of experience in an agency in the community specific to the student's area of concentration, under the supervision of agency staff and university faculty, as well as a weekly seminar to integrate learning in the field with classroom instruction. Practice will focus on advanced-level skills specific to the student's area of emphasis. Department consent is required for enrollment in this course.

HS 495 Research and Evaluation (3)

This course introduces students to applied research and evaluation in family and human services. The purposes and techniques of applied research and evaluation are explored, including qualitative and quantitative approaches. Students gain experience with the critical reading of research articles relating to the evaluation of human service programs. Projects give students direct experience with program evaluation and applied research. The content of this course is based in part on TAP 21 competencies. This is a required course for addictions counseling licensing with the Kansas BSRB. This is a summative course that requires students to synthesize knowledge learned across the curriculum. Prerequisite: Junior/Senior Standing.

HS 498 Senior Capstone Seminar (3)

This capstone course is meant to provide students with the opportunity to assimilate and synthesize the knowledge, skills, and attitudes they have acquired through their coursework and field experiences in the major. Through the development of a portfolio, students will demonstrate the acquisition of the major learning objectives necessary to become a skilled human service professional. This course will address additional issues related to professional development and educational advancement. Prerequisite: Majors only.

Family & Human Services - Addiction Counseling Emphasis, BAS

Please refer to the Graduation, Degree and General Education Requirements (p. 48) section to learn about the university and general education requirements to graduate with a Bachelor's degree. This curriculum provides the educational requirements to become a Licensed Addiction Counselor (LAC) with the state of Kansas.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50) and any additional hours needed to reach the 120 credit hours required for graduation.

Code	Title	Hours
Required Courses Inside Department ¹

Family & Human Services - Family Services Emphasis, BAS

Please refer to the Graduation, Degree, and General Education Requirements (p. 48) section to learn about the university and general education requirements to graduate with a Bachelor's degree. The Family Services track is meant to provide students with a holistic, generalist foundation in Family and Human Services and focuses on family life education in a variety of areas, including disabilities, gerontology, mental health, youth services, and trauma and recovery services.

Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50) and any additional hours needed to reach the 120 credit hours required for graduation.

Family and Human Services - Early Childhood Professional, AAS

Students who have completed Early Childhood Education at Washburn Institute of Technology may enter into an articulation agreement to earn their Associate of Applied Science in Family and Human Services at Washburn University.

Students who go on to pursue a bachelor's degree in Family and Human Services in the Family Services track will meet the educational requirements to apply for national Certification in Family Life Education (CFLE) with the National Council on Family Relations. This certification prepares students to work as family life educators in a variety of human services settings (e.g., child welfare agencies, youth programs, parenting programs, county extension offices, hospital education departments, senior centers, prevention programs, etc.).

Degree Requirements

In addition to the requirements stated below, students must complete the Early Childhood Professional Certificate (Cert A - 24 hours), 15 hours of General Education (p. 50) and all requirements for an Associate of Applied Science (p. 48) (AAS) degree. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Family & Human Services, Minor Minor Requirements

A Minor in Family and Human Services consists of no less than 15 hours of Family and Human Services coursework selected in consultation with a Department Advisor and approved by the Chair of the Department of Family and Human Services. Students must attain a grade of "C" or better for each course applied to the Minor. Up to 6 credit hours towards the Minor can be transferred from another accredited institution of higher education.

Health Services Administration for Family and Human Services, Minor Family Services Emphasis

Family and Human Services Bachelor degree students with an interest in health care may develop a specialization in health services by earning a Minor in Health Services Administration in the Allied Health Department by completing a set of five specific upper-division courses in the health services administration field. Declaration of BAS major in Family and Human Services (Family Services) and declaration of minor in the

Bachelor of Health Science program are necessary before enrollment in Health Services courses.

Admission Requirements for Minor in Health Services Administration

Interested students must apply for admission to the minor program through both their Family and Human Services Department advisor and the Bachelor of Health Science advisor. Admission to the minor program is available to students who have declared their Bachelor degree with a major in Family and Human Services. The requirements for acceptance into the minor program are junior standing, a cumulative GPA of 2.0, and a completion with a grade of "C," or better, of the following Family and Human Services courses (15 semester hours):

Code	Title	Hours
HS 446	Legal, Ethical, & Professional Issues	3
HS 378	Issues in Aging	3
HS 300	Prevention and Social Change	3
HS 323	Service Coordination	3
HS 372	Death & Dying	3

Any course substitutions must be approved by the Family and Human Services department chair.

Minor Requirements

Code	Title	Hours
Required Courses		
AL 366	Legal & Regulatory Issues for the Health Care Professional	3
AL 367	Foundations of Quality Improvement in Health Care	3
AL 375	Health Care Policy	3
AL 399	Health Information Systems	3
AL 405	Financial Issues in Health Care I	3
Total Hours		15

Addiction Counseling, Certificate

Awarded upon completion of a Bachelor degree and completion of 33 credit hours as follows:

Code	Title	Hours
HS 312	Mental Health and Addiction	3
HS 316	Addictions Treatment	3
HS 323	Service Coordination	3
HS 325	Group Work (Group Counseling)	3

HS 411	Family Issues	3
HS 414	Individual Counseling Methods	3
HS 446	Legal, Ethical, & Professional Issues	3
HS 495	Research and Evaluation	3
Two Approved Internships		6
Total Hours		33

Gerontology, Certificate

Department: Family and Human Services

Coordinator: Jessie Piper, Assistant Professor

Description

This certificate is constructed around the premise that a broader understanding of Gerontology is critical to meet the needs of an aging society. The certificate is also based on the premise that Gerontology is, by its nature, an interdisciplinary course of study requiring education in bio-psycho-social issues. Expanded career opportunities in gerontology are forecast in many areas, including healthcare, the helping professions, public policy, and more. As a result, this certificate is open to all students across the university and includes courses from several disciplines. This certificate will prepare students to meet increasing workforce needs of an aging society and/or to pursue graduate study in Gerontology or related fields.

Student Learning Outcomes

Students obtaining the Gerontology Certificate, upon graduation, will be able to:

- Describe physiological, psychological, and social changes that are associated with aging.
- Identify societal changes that are associated with an aging population.
- Identify ways in which aging is intersected by race, ethnicity, gender, socio-economic status, and other important social variables.
- Use evidence-based information, effective logic and accurate vocabulary to communicate about Gerontology.

Study Plan

To obtain the certificate, students will complete 18 credit hours of coursework. In addition to 15 credit hours of required coursework, students must complete three credit hours of elective coursework. Some courses may require completion of prerequisites. The list of electives may be modified as new courses with Gerontology content become available. Students wishing to obtain elective credit for a directed study or internship course must obtain prior approval from the coordinator.

Certificate Requirements

Code	Title	Hours
HS 131	Human Development	3
HS 372	Death & Dying	3
HS 378	Issues in Aging	3
BI 260	Biology of Aging	3
PY 212	Psychology of Adulthood and Aging ¹	3
or PY 326	Health Psychology	
Elective Course (Select one course from the list below)		3
Total Hours		18

¹ Prerequisite: PY 100

Elective Courses

Code	Title	Hours
AL 101	Foundations of Healthcare	3
AL 366	Legal & Regulatory Issues for the Health Care Professional	3
AL 420	Current Issues in Health Care	3
AN 312	Medical Anthropology ¹	3
AR 291/391	Art Therapy ²	3
CN 306	Health Communication	3
CN 351	Special Topics in Interpersonal Communication	3
HS 301	Working with Trauma	3
HS 371	Mental Health and Aging	3
HS 390	Special Topics (Strategies in Lifespan Resilience)	1-6
HS 390	Special Topics (Disability Studies)	1-6
HS 411	Family Issues	3
LG 220	Wills & Estate Administration ³	3
LG 320	Elder Law ³	3
KN 248	Wellness Concepts and Applications	3
NU 335	Special Topics/Nursing (Interdisciplinary Community Health) ⁴	3
NU 335	Special Topics/Nursing (Palliative Care) ⁴	3
PO 305	Public Policy	3
PY 326	Health Psychology ²	3
SO 326	Aging and Society ⁵	3
SW 360	Geriatric Social Work Practice	3
An internship or practicum in a setting approved by the coordinator		3
A directed study course approved by the coordinator		3

¹ Prerequisite: AN 112 or AN 116

² Prerequisite: PY 100

³ Prerequisite: LG 100 or LG 200 or consent

⁴ Prerequisite: Requires Consent

⁵ Prerequisite: SO 100

Non-Profit Management, Certificate

Move up in your career and make a difference in your community by earning a certificate in Non-Profit Management. Our program offers specialized training that prepares you to work as a leader in the non-profit sector. Graduates may find employment in a wide variety of non-profit organizations such as social welfare agencies, public charities, foundations, advocacy groups or health care entities. You also may choose to continue your education with a master's degree in fields such as public administration or social work. Managing a non-profit agency is challenging work, but the rewards are great when you provide important services to the community. Be part of a profession that focuses on vital issues and fosters hope for the future!

This program is an interdisciplinary certificate offered in collaboration with Washburn's Family and Human Services and Political Science departments.

Awarded upon completion of a Bachelor degree, and completion of 27 credit hours as follows:

Code	Title	Hours
Required Courses Inside Family & Human Services Department		
HS 300	Prevention and Social Change	3
HS 323	Service Coordination	3
HS 446	Legal, Ethical, & Professional Issues	3
Required Courses Inside Political Science Department		
PO 245	Introduction to Public Administration	3
PO 395	Non-Profit Management and Leadership	3
PO 393	Managing Public Money ¹	3
or PO 346	Problems in Public Administration	
or PO 374	Topics: Public Administration	
PO Elective (Select One Course):		3
PO 391	Managing People in Public Organizations	
PO 394	Challenges Managing Public Organizations	
PO 346	Problems in Public Administration ¹	
or PO 374	Topics: Public Administration	
Other Required Courses		
HS 495	Research and Evaluation	3
or PO 401	Equity and Hard Choices in Public Administration	
Approved Internship in Family and Human Services or Political Science (HS 381, HS 480, HS 481 or PO 307)		3
Total Hours		27

¹ PO 346 & PO 374 require advisor approval.

* This certificate is offered in collaboration with the Family and Human Services and Political Science Departments. Courses required a C or better.

Trauma and Recovery, Certificate

Awarded upon completion of a Bachelor degree, and completion of 27 credit hours as follows:

Code	Title	Hours
HS 100	Family and Human Services	3
HS 131	Human Development	3
HS 301	Working with Trauma	3
HS 323	Service Coordination	3
HS 325	Group Work (Group Counseling)	3
HS 411	Family Issues	3
HS 446	Legal, Ethical, & Professional Issues	3
HS 402	Trauma and Recovery Services (or approved 300/400 HS elective)	3
Approved Internship		3
Total Hours		27

Bassima Schbley, PhD, LMSW, Associate Professor

Mission

The mission of the Bachelor of Social Work (BSW) program at Washburn University is to prepare students for the competent and ethical practice of social work within an entry-level generalist model, via systematic attention to the core multidimensional competencies established by the Council on Social Work Education. The program is committed to providing a respectful, supportive approach to learning, while maintaining high academic standards. In doing so, the BSW program is systematically linked to the core values of the social work profession.

BSW Program Description

Education for competence in social work practice is the guiding principle of the Department of Social Work. The BSW program in Social Work provides a respectful, supportive approach to learning while maintaining high academic standards. The program is committed to providing opportunities to students who may otherwise experience barriers to higher education. The BSW program is strongly linked to the core values of the profession. The program maintains its mission by integrating content throughout the curriculum relevant to the pursuit of social and economic justice, as well as its dedication to the value, worth, and dignity of all persons. The BSW program is designed to prepare undergraduate social work students for a generalist practice that will meet the multi-level needs of clients.

Student Learning Outcomes

Upon graduation, BSW students are expected to demonstrate knowledge, skills, professional values and ethics, and cognitive/affective reasoning in relation to nine core competencies (CSWE, 2022):

1. Demonstrate ethical and professional behavior
2. Advance human rights and social, racial, economic, and environmental justice
3. Engage in anti-racism, diversity, equity, and inclusion (ADEI) in practice
4. Engage in practice-informed research and research-informed practice

5. Engage in policy practice
6. Engage with individuals, families, groups, organizations, and communities
7. Assess individuals, families, groups, organizations, and communities
8. Intervene with individuals, families, groups, organizations, and communities
9. Evaluate practice with individuals, families, groups, organizations, and communities

Licensure Eligibility

All graduates of the BSW program are eligible to pursue licensure at the baccalaureate level (LBSW) in the State of Kansas and in other states that require social work licensing or registration at the baccalaureate level. This licensure is necessary for the practice of social work, and satisfactory completion of an accredited social work program is necessary to be eligible for the LBSW (exact requirements vary from state to state).

Program Accreditation

Washburn University's BSW program is fully accredited by the Council on Social Work Education (CSWE). Students may wish to review the Educational Policy and Accreditation Standards for social work degree programs in social work education as set forth by the CSWE. The full text of the CSWE Policies is available in the Social Work office, or at www.cswe.org (<https://www.cswe.org>).

Washburn Transformational Experience (WTE)

Social work is a service-oriented profession; the social work faculty has created what has been called a "built-in" transformational experience and this is required of all BSW students. This means that a BSW student will fulfill the community service component of the WTE by successfully completing SW 354 Seminar & Field Education I & SW 355 Seminar & Field Education II and all other requirements of the Community Service WTE.

BSW students with questions about the WTE should check with their respective academic advisors, the Director of the BSW Program, or the Department Chair.

Department Honors

The Department of Social Work recognizes students who demonstrate excellence in their academic work with a designation of BSW honors. An honors designation is included in the commencement program and on the student's academic transcript. Students who are granted honors may also choose to purchase an honor cord to wear at commencement, and should contact the Ichabod Shop for more information. BSW students who are eligible for honors must meet all of the following minimum requirements:

1. Overall cumulative GPA of 3.2
2. Social work GPA of 3.5
3. Grade of "A" on a designated SW 354 BSW Seminar assignment, as determined by the Social Work Department and specified on the BSW Honors Application

Students should apply for honors during the calendar year in which they intend to graduate. Students must meet the posted minimum GPA

requirements both at the time of application and upon completion of all undergraduate coursework.

To apply for BSW honors, students should complete the BSW Honors Application electronically through Sonia Live and provide the requested demographic and academic information. The application will be open annually from January 1 through February 15; No applications for honors will be considered after February 15. Students will be notified of a provisional decision regarding honors in March based on the academic information available at that time, and this information will be used for the designation of honors in the commencement program. The final designation of honors that will be reflected on the student's academic transcript will be decided following the posting of the student's final semester grades.

Online and Web-Assisted Courses

Students who have not taken an online course at Washburn University are required to sign up for and participate in the online Student Orientation training at the earliest practicable time. The orientation is available in MyWashburn via the My Courses card along with any other courses in which the student is enrolled.

Undergraduate Social Work Student Association

The primary purpose of the Washburn Student Social Work Association (WSSWA) is to encourage responsible student participation in the policy and decision-making processes of social work education and to promote student cooperation and welfare. WSSWA seeks to provide its members with activities designed to inform them of the many opportunities in the field of social work, to enhance the students' personal and professional lives, to provide opportunities for association with social work professionals and community providers, and to participate actively in community service. Members commit themselves to the organization by attendance at meetings, involvement in activities, and participation on BSW Program committees. Membership in this organization is open to all Washburn undergraduate social work students. For more information see the Social Work Student Organizations page on the Social Work Department's website: <https://www.washburn.edu/academics/college-schools/applied-studies/departments/social-work/index.html> (<https://www.washburn.edu/academics/college-schools/applied-studies/departments/social-work/>).

Course Offerings

SW 100 Introduction to Social Work & Social Welfare (3)

The purpose of the course is to introduce interested students to the basic mission, values and ethics, knowledge base, methods, and services of the social work profession. An overview of the United States' historical response to human needs and the current status of public social welfare policy will be explored. Prerequisite: None.

SW 250 Diversity and Social Justice in Social Work (3)

This course presents an overview of concepts related to diversity, equity, inclusion, anti-racism, and social justice, in the context of social work practice with individuals, families, groups, organizations, and communities. Students will practice self-awareness of their personal biases and values, and strategies for managing their influence on working with diverse clients and constituencies.

SW 325 Person In Environment I: Individuals & Families (3)

The purpose of this course is to develop knowledge about human behavioral interactions, using a person-in-environment perspective. Bio-psycho-social aspects of individual and family interactions will be emphasized. This course will provide the foundation for developing direct social work practice skills. Prerequisites: SW 100 and SW 250.

SW 326 Person In Environment II: Groups, Organizations, & Communities (3)

The purpose of this course is to develop knowledge about human interactions relevant to groups, organizations, communities, cultures, societies, and other, larger systems. The emphasis will be to build upon the person-in-environment perspective, and to expand this model to encompass the effects of larger systems on individual functioning. This course will provide the foundation for developing social work macro-level practice skills. Prerequisites: SW 100 and SW 250.

SW 350 Social Policy and Programs (3)

The major purpose of this course is to develop the conceptual knowledge of policy formulation, and the content, values, and process elements necessary for conducting social policy analysis. Prerequisites: SW 100 and SW 250.

SW 352 Micro Social Work Practice (3)

The major purpose of this course is to prepare social work students for their field practicum work. The emphasis is on the development of working knowledge of the generalist practice model, interactional theories, and methods of facilitating change. In addition, there will be an emphasis placed on developing skills for providing social work services. For social work majors only. Prerequisites: SW 100 and SW 250.

SW 353 Macro Social Work Practice (3)

This second practice course will emphasize more advanced theoretical material, and the application of the generalist practice model to more complex systems. Skill development will be emphasized for assessment of client systems, and delivery of social work services. For social work majors only. Prerequisites: SW 100 and SW 250.

SW 354 Seminar & Field Education I (6)

This course integrates the Field education component and the Practice Seminar. Students will spend 16 hours per week in their field education placements, with direct supervision by a licensed professional social worker. Opportunities for engaging in generalist social work practice at micro, mezzo and macro levels will be provided. In addition, students will attend a three-hour seminar each week. The seminar will emphasize the integration of their field experiences with the generalist practice model, and theories of change. Students must make application for the field in their junior year by the posted deadlines. Concurrent enrollment in SW 425 BSW Field Education Workshop is required. The culmination of the BSW program is the Field Education Placement. Two consecutive field education/seminar courses are required and constitute this culminating educational experience. Prerequisites: SW 100, SW 250, SW 325, SW 326, SW 352, SW 353, and a 2.5 cumulative grade point average; admission to the BSW program; and a field education-director-approved field education placement.

SW 355 Seminar & Field Education II (6)

This is the second semester of the field education experience and seminar required for social work majors. The culmination of the BSW program is the field education placement. This field education placement requires summative reflection, serving as a culminating experience for Bachelor's degree students. Two consecutive field education/seminar courses are required and constitute this culminating educational experience. Prerequisites: SW 100, SW 250, SW 325, SW 326, SW 352, SW 353, SW 354; admission to the BSW program; and a field education director-approved placement in a field education agency.

SW 356 Social Work Practice in Healthcare (3)

This course introduces students to generalist social work practice in healthcare settings, including the technological, social, political, ethical, and financial factors impacting patient care. This course emphasizes the relevant theories and models for healthcare practice at the micro, mezzo, and macro levels. Prerequisite: None.

SW 357 Inclusive and Competent Social Work Practice in Healthcare (3)

The purpose of this course is to prepare social workers for generalist healthcare practice with clients with diverse backgrounds. The emphasis is on inclusive and culturally competent social work practice, to include the development of cultural awareness, humility, and knowledge about health and healthcare, as well as issues that can affect inclusive access, such as language and literacy, physical and cognitive ability, gender and sexuality, and macro, policy, and legal factors. Prerequisite: None.

SW 358 Family Decisions in Healthcare (3)

The purpose of this course is to provide overall theoretical information about how families function and communicate during the process of health and long-term care decision-making. This course will provide overall generalist social work application skills and addresses interdisciplinary communication skills critical for working in a variety of healthcare settings. Prerequisite: None.

SW 359 Human Sexuality and Social Work Practice (3)

The major purpose of this course is to prepare social work students to explore the physiological, psychological, and socio-cultural variables associated with sexual identity, sexual orientation, sexual behavior, as well as to introduce a variety of theories explaining sexual behavior, development of sexual norms, and gender fluidity. Students will develop an understanding and appreciation of all aspects of human sexual behavior. Prerequisite: None.

SW 360 Geriatric Social Work Practice (3)

The purpose of this course is to provide students with an overview of gerontological social work in generalist practice with an emphasis on the principles of practice, the application of research, and the formulation of policies as they relate to older adults. The course will define the role of the social worker from a gerontological perspective and will introduce considerations for special populations that are most vulnerable: aging people of color, the disabled, and gay and lesbian aged. Prerequisite: None.

SW 361 Independent Study (1-3)

Social Work majors may pursue an independent research project approved by the BSW Program Director in consultation with the Department Chair. Independent Study may not be used in place of any courses required of the social work major. Independent Study courses must meet equivalencies to Federal definition of a credit hour. Prerequisites: SW 100 and SW 250.

SW 362 Generalist Quantitative Research (3)

Introduces students to the basic principles of generalist quantitative social work research, including ethics, problem formulation, and quantitative research designs and methodologies. Emphasis is placed on becoming a responsible consumer of quantitative research as well as exploring quantitative evaluation of programs and outcomes of practice. Prerequisites: SW 100 and SW 250.

SW 363 Generalist Qualitative Research (3)

Introduces students to the basic principles of generalist qualitative social work research, including ethics, problem formulation, and qualitative research designs and methodologies. Emphasis is placed on becoming a responsible consumer of qualitative research as well as exploring qualitative evaluation of programs and outcomes of practice. Prerequisites: SW 100 and SW 250.

SW 372 Social Work Practice in Child Welfare (3)

The purpose of this course is to provide students with an overview of child welfare services from a historical, theoretical, and social work practice perspective. This course will examine specific types of child endangerment through the lens of social and racial justice, including the etiology of the maltreatment, provision of services, how the consumer views the services, as well as the influence of bias, power, and personal values on client outcomes.

SW 373 Case Management in Social Work Practice (3)

This course provides students with an overview of generalist case management, including the contexts in which services are delivered, with clients from diverse backgrounds. An emphasis is placed on social work knowledge and skills regarding assessment, goal setting and monitoring, and coordination of services; knowledge of person-in-environment and other culturally responsive frameworks; and cultural humility and respect for client self-determination.

SW 374 Social Work Practice with Survivors (3)

This course introduces social work practice with children and adults who have experienced sexual assault/abuse, interpersonal/family violence, human trafficking, or violent crime. An emphasis is placed on: person-in-environment and empowerment theories; social work assessment, intervention, and advocacy practices; related policies and laws and their connection with social work practice; intersections with the National Association of Social Workers Code of Ethics; managing affective reactions, vicarious traumatization, and self-care; and intersections with anti-racism, diversity, equity, and inclusion. Prerequisites: SWK major or minor only.

SW 390 Contemporary Issues in Social Work (3)

A series of courses are designed to supplement the core curriculum. Each of these four required elective courses will focus on a contemporary issue, and will emphasize the integration of core social work values and ethics, the generalist practice model, and theories of human interactions and change. Specific courses taught under this course number include, among other courses: Child Welfare, Social Work and the Law, Multicultural Social Work, Case Management, and Social Work Policy Practice.

SW 395 Social Work International Service (3)

This course uses an international lens to provide BSW students the opportunity to learn about social work practice, including the effects of historical, social, psychological, physical, and environmental conditions on well-being at the micro, mezzo, and macro levels. The course will emphasize ways that culture and diversity intersect with social work practice. A portion of this course includes international travel.

SW 425 BSW Field Education Workshop (0)

In this mandatory one-day workshop, BSW students will be oriented to the field education program, expectations regarding professional comportment, duties/responsibilities in completing tasks, required field education program paperwork, and other aspects of the field education experience. Concurrent enrollment in SW 354 Seminar and Field Education I is required. Prerequisites: SW 100, SW 250, SW 325, SW 326, SW 352, SW 353, and a 2.5 grade point average overall; admission to the BSW program; and a field education-director-approved placement in a field education agency.

Social Work, BSW

The BSW Program is designed to prepare social work students for professional generalist practice. This involves the application of an eclectic knowledge base, professional values, and a wide range of skills to target systems of any size, for change within the context of four primary processes. First, generalist practice involves working effectively within an organizational structure and doing so under supervision. Second, it requires the assumption of a wide range of roles. Third, generalist practice involves the application of critical thinking skills to the planned change process. Fourth, it emphasizes client empowerment. In this regard, social workers utilize their knowledge and skills to assist individuals, families, groups, communities and organizations to improve their social functioning, obtain the resources needed to accomplish identified goals, or effect social change to eliminate social and economic injustice. The framework for accomplishing these goals is centered in competent assessments of the person-in-the-environment, and the subsequent skillful selection of multilevel interventions, in keeping with social work values and ethical practice.

Careers in social work occur in a variety of settings, such as public/state social services, hospitals, schools, mental health agencies, courts, nursing homes, crisis centers, and children and family service agencies. Career options include direct practice with clients, administration, social planning, and legislative advocacy.

The BSW program is typically completed in four years by full-time students. Two lower division courses, SW 100 Introduction to Social Work & Social Welfare and SW 250 Diversity and Social Justice in Social Work, are recommended for the freshman year. Foundation theory and skills courses may then be completed in the sophomore and junior years. The culmination of the BSW program is the Field Education Practicum. Two consecutive practicum/seminar courses are required and constitute this culminating educational experience (SW 354 Seminar & Field Education I and SW 355 Seminar & Field Education II). Students develop their social

work practice skills in a community agency under the direct supervision of a licensed social worker. Field Education Placement is arranged by the Field Education Office; more information about the Field Education Program can be found online: <https://www.washburn.edu/academics/college-schools/applied-studies/departments/social-work/index.html> (<https://www.washburn.edu/academics/college-schools/applied-studies/departments/social-work/>).

Specific goals, objectives, and outcomes for individual courses are available to students for review in the Department of Social Work's office, or from the respective faculty member responsible for an individual course or sequence. For more information, see the BSW Student Handbook.

Declaring Social Work as a Major

It is the policy of the Department of Social Work to assure equal educational opportunities to qualified individuals without regard to age, class, color, culture, disability, ethnicity, family structure, marital status, national origin, political perspective, race, religion, sex, sexual orientation, gender, gender identity, and/or expression. A student may opt to declare a major in social work, declare additional majors, and/or subsequently change majors at any time.

Most often, the declaration of major is completed when a student recognizes a significant interest in the social work profession and seeks academic advising from the Department of Social Work. Upon declaration, the student will be identified as a "Pre-BSW" major. The student is then provided an academic advisor from among the social work faculty. The faculty advisor assists the student in the selection of courses, and develops a curriculum plan. A student with a declared major in a field other than social work, or an undeclared undergraduate student, is allowed to enroll in all undergraduate social work department courses with the exception(s) of the practice sequence, (SW 352 Micro Social Work Practice, SW 353 Macro Social Work Practice) and the field education courses (SW 354 Seminar & Field Education I, SW 355 Seminar & Field Education II), as well as SW 362 Generalist Quantitative Research, and SW 363 Generalist Qualitative Research. These courses are only open to declared social work majors. In order to proceed into the field education, students must achieve "formal admission" to the BSW Program (see below).

Accreditation

The BSW program was granted full reaccreditation by the Council on Social Work Education (CSWE) in 2019 and has been reaccredited for eight years through the end of October 2027.

BSW Admissions

BSW Program Admission Policy Statement

"Declaring a major" in social work is not the same thing as "Formal Admission" to the BSW Program. Majors apply for Formal Admission to the BSW Program by October 1st in the year prior to the beginning of the Field Education Placement. The application form must be submitted electronically, and access and completion instructions will be provided by September 1st of each year.

Requirements for Formal Admission to the BSW Program and the Field Practicum

Refer to the BSW Student Handbook on the Social Work Department website for a more detailed explanation of these requirements. Persons not meeting published admission requirements are encouraged to

contact the department for more information. Basic requirements include:

- Current enrollment as a student in good standing at Washburn University as defined in the current Washburn University Catalog.
- Approved Declaration of Major (Pre-BSW) in Social Work (verified using the university's Banner Information System).
- An overall (cumulative) grade point average of at least 2.5.
- Completion of a minimum of 34 hours of General Education course credits.
- Successful completion of (or current enrollment in) SW 100, SW 250, SW 325, and SW 352 at the time of application.
- Submission of a completed "BSW Application for (1) Formal Admission by the due date.

Please note that SW 100, SW 250, SW 325, SW 326, SW 352, and SW 353 must be successfully completed (grade of C or better) prior to beginning the BSW Field Education.

Code	Title	Hours
SW 100	Introduction to Social Work & Social Welfare	3
SW 250	Diversity and Social Justice in Social Work	3
SW 325	Person In Environment I: Individuals & Families	3
SW 326	Person In Environment II: Groups, Organizations, & Communities	3
SW 352	Micro Social Work Practice	3
SW 353	Macro Social Work Practice	3

Field Education marks the start of a student's professional social work career in the community. Students complete the intake process for Field Education following their formal admission to the BSW Program. Two consecutive semesters (Fall and Spring) Seminar and Field Education in the same practicum placement are required. The seminar and field education courses must be taken concurrently both semesters. A student must pass both field education and seminar the first semester to proceed to the second semester.

Field education begins during the first week of each semester, although some placements have an orientation before the start of Fall semester. Time in placement averages approximately 13 hours per week. The following is required: 200 hours per semester and 400 hours overall. Students cannot complete their field education early.

Degree Requirements

BSW Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50) and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education requirements. Please see your advisor for more information.

Healthcare Social Work Concentration

Within the BSW program, students may choose to receive specialty training in healthcare social work. The concentration consists of three undergraduate electives (9 hours) plus a generalist practicum in an approved healthcare setting. Students selecting the healthcare concentration should notify their advisor of their intentions in order to ensure appropriate academic advising to meet the requirements.

Child Welfare Social Work Concentration

Within the Bachelor of Social Work program, students may choose to receive specialty training in social work with an emphasis in child welfare settings. The concentration in Child Welfare Social Work consists of three courses (9 total credit hours), for partial fulfillment of the social work special topic degree requirements. In addition, BSW students must elect a child welfare setting for their field education placement. Child welfare field education placement settings include the Kansas Department for Children and Families, and agencies that have received a contract to provide child placement or family preservation services in Kansas. Other placement settings will be considered on a case-by-case basis as needed, by the BSW Field Education Director, in consultation with the BSW Program Director.

Social Work, Minor

The Social Work minor requires completion of 15 credit hours, 9 hours of which are core courses and 6 hours of which are electives. Course work in the minor is taken for a letter grade and students must earn a minimum grade of C. The minor will expose students to core social work competencies. It emphasizes synthesis and application of social work theories, policies and research in the development of comprehensive solutions to major social problems.

Associate Degree Programs with Washburn Institute of Technology

Washburn University offers a number of associate degree programs in cooperation with Washburn Institute of Technology (Washburn Tech). Specific requirements for each major are listed below by program.

Requirements for credit transfer from Washburn Tech include:

- Students must successfully complete all program requirements for the completion of the approved Washburn Tech certificate.
- Washburn Tech credit is posted on the Washburn transcript following completion of the approved Washburn Tech certificate and admission to Washburn University. Grades earned at Washburn Tech are then calculated into the student's Washburn University GPA.
- Washburn Tech students seeking to enroll at Washburn University must register for courses through the Dean's Office in the School of Applied Studies. For more information, contact the Dean's Office or visit www.washburn.edu/sas (<https://www.washburn.edu/sas/>).

Programs

Washburn Tech students have a unique opportunity to complete an associate degree through Washburn University (WU). These programs require course work at both WU and Washburn Tech.

- *Washburn Tech: Advanced Systems Technology* (<https://catalog.washburn.edu/washburn-institute-technology/programs-technical-certificates-graduation-requirements/certificate-programs/advanced-systems-technology-industrial-machine-mechanic-certificate/>)
 - Washburn University: Skilled Trades, AAS (p. 317) (credit hours may vary, see advisor)
 - Washburn University: Industrial Technology, AS (p. 316) (credit hours may vary, see advisor)

- Office Administration, AA (p. 317)
- Skilled Trades, AAS (p. 317)

Culinary Arts, AA

The Culinary Arts Associate of Arts Degree is offered with the Washburn Tech professional cooking program. This program prepares students to serve under the supervision of chefs and other culinary professionals. Instruction includes culinary math, food safety and sanitation, use and care of equipment as well as food preparation and cooking skills. Students will develop other essential skills including baking, purchasing, menu planning along with an introduction to restaurant supervision and management as well as the exploration of international cuisines. Upon graduation students will have the skills and confidence to be a productive member of any restaurant team.

Student Learning Outcomes

Students completing the Associate of Arts in Culinary Arts, upon graduation are expected to have:

- Demonstrated organized skills related to commercial food service.
- Demonstrated proficiency in the use of all technologies and tools essential to food service production.
- Explained food service preparation and delivery.
- Demonstrated safe food handling techniques.

Degree Requirements

This program requires completion of the Culinary Arts Washburn Tech certificate program, 34-35 hours of General Education (p. 50), and all requirements for an Associate of Arts (p. 48) (AA) degree.

Code	Title	Hours

Culinary Arts Certificate (from Washburn Tech)		
TA 210	Technology Survey	3

Design Technology, AS

The Design Technology Associate of Science degree is offered with the Washburn Institute of Technology (Washburn Tech). Students who have completed all requirements of Washburn Tech's Engineering Drafting & Design program are eligible for this degree.

Student Learning Outcomes

Students completing the associate degree in Design Technology, upon graduation, are expected to have:

- Demonstrated proficiency in the use of all technologies essential to the design concentration.
- Developed relevant design techniques to produce applied outcomes.
- Demonstrated professional applications in applied settings.
- Integrated skills and knowledge to situations or environments other than standardized classroom setting.

Degree Requirements

Engineering Drafting and Design Emphasis

This program requires completion of Engineering Drafting & Design from Washburn Tech certificate program, 34-35 hours of General Education

(p. 50), and all requirements for a Design Technology Associate of Science (p. 48) (AS) degree.

Code	Title	Hours

Design Technology, AA

The Design Technology Associate of Arts degree is offered with the Washburn Institute of Technology (Washburn Tech). Students who have completed all requirements of Washburn Tech's Graphics Technology programs are eligible for this degree.

Student Learning Outcomes

Students completing the associate degree in Design Technology, upon graduation, are expected to have:

- Demonstrated proficiency in the use of all technologies essential to the design concentration.
- Developed relevant design techniques to produce applied outcomes.
- Demonstrated professional applications in applied settings.
- Integrated skills and knowledge to situations or environments other than standardized classroom setting.

Degree Requirements

Graphics Technology Emphasis

This program requires completion of Graphics Technology from Washburn Tech certificate program, 34-35 hours of General Education (p. 50), and all requirements for a Design Technology Associate of Arts (p. 48) (AA) degree.

Code	Title	Hours

Family and Human Services - Early Childhood Professional, AAS

Students who have completed Early Childhood Education at Washburn Institute of Technology may enter into an articulation agreement to earn their Associate of Applied Science in Family and Human Services at Washburn University.

Students who go on to pursue a bachelor's degree in Family and Human Services in the Family Services track will meet the educational requirements to apply for national Certification in Family Life Education (CFLE) with the National Council on Family Relations. This certification prepares students to work as family life educators in a variety of human services settings (e.g., child welfare agencies, youth programs, parenting programs, county extension offices, hospital education departments, senior centers, prevention programs, etc.).

Degree Requirements

In addition to the requirements stated below, students must complete the Early Childhood Professional Certificate (Cert A - 24 hours), 15 hours of General Education (p. 50) and all requirements for an Associate of Applied Science (p. 48) (AAS) degree. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Code	Title	Hours
Required Courses Inside Department ¹

¹ Students must receive a C or better in each course.

Industrial Technology, AS

Student Learning Outcomes

Students completing the Associate of Science in Industrial Technology, upon graduation, are expected to have:

- Demonstrated proficiency in the use of all technologies and tools essential to the concentration.
- Practiced techniques related to safety and health concerns.
- Compared basic theoretical concepts of the technology.
- Demonstrated relevant technique to applied outcomes.
- Integrated skills and knowledge to situations or environments other than standardized classroom.

Degree Requirements

This program requires completion of an approved Washburn Tech certificate program, 34-35 hours of General Education (p. 50), and all requirements for a Industrial Technology Associate of Science (p. 48) (AS) degree.

Eligible Washburn Tech certificate programs are as follows:

- Advanced Systems Technology
- Automotive Collision
- Auto Service Technician
- Cabinet and Millwork
- Climate and Energy Control Technologies
- Commercial and Heavy Construction
- Diesel Technology
- Heavy Diesel Construction
- Machine/Tool Technology
- Welding

For a suggested curriculum please see your advisor; for course descriptions see the Criminal Justice & Legal Studies Department (p. 271).

Office Administration, AA

Students who graduate with a completed certificate from Washburn Institute of Technology in Business Bookkeeping and Accounting, Legal Office Professional, and/or Medical Office Professional may graduate with an Associate of Arts degree in Office Administration.

Student Learning Outcomes

Students completing the Associate of Arts in Office Administration, upon graduation are expected to have:

- Demonstrated proficiency in composing, formatting, and editing written communications.
- Demonstrated technical proficiency of all the skills necessary to fulfill their professional discipline.
- Analyzed the basic principles of management theory in relation to the office environment.
- Applied interpersonal skills to develop effective working relationships and to function as a member of the office team.
- Utilized problem solving and critical thinking skills in performing office procedures.
- Applied appropriate business protocol, ethics, and office etiquette.

Degree Requirements

This program requires completion of an approved Washburn Tech certificate program, 34-35 hours of General Education (p. 50), and all requirements for an Associate of Arts (p. 48) degree.

Eligible Washburn Tech certificate programs are as follows:

- Business, Bookkeeping and Accounting
- Legal Office Professional
- Medical Office Specialist

Code	Title	Hours

TA 210	Technology Survey	3

Skilled Trades, AAS

The Associate of Applied Science (AAS) in Skilled Trades allows individuals to earn an associate degree tailored to their occupational/ career needs. Students first complete one of the eligible certificate programs through Washburn Institute of Technology, then finish the required general education and other degree requirements through Washburn University to earn the AAS degree.

Student Learning Outcomes

Students completing the Associate of Applied Science in Skilled Trades, upon graduation are expected to have:

- Demonstrated proficiency in the use of all technologies and tools essential to the area of concentration.
- Practiced techniques related to safety and health concerns.
- Compared basic theoretical concepts of the technology.
- Integrated skills and knowledge to situations or environments other than standardized classroom settings.

Degree Requirements

This program requires completion of an approved Washburn Tech certificate program, 15 hours of General Education (p. 50), and all requirements for an Associate of Applied Science (p. 48) degree.

Eligible Washburn Tech certificate programs are as follows:

- Auto Collision
- Auto Service Technician
- Cabinet and Millwork
- Climate and Energy Control Technologies
- Culinary Arts
- Diesel Technology
- Engineering Drafting and Design
- Graphics Technology
- Industrial Automation Mechanic
- Information Systems Technology
- Machine/Tool Technology
- Welding

¹ Students transferring in 30 or more credit hours completed at an accredited post-secondary institution (after graduating from high school) with a GPA of 2.0 or higher are exempt from this requirement.

School of Business

Website: <https://www.washburn.edu/academics/college-schools/business/index.html> (<https://www.washburn.edu/academics/college-schools/business/>)

The Washburn University School of Business was established on July 1, 1973, by action of the Board of Regents. In 1946, the Bachelor of Business Administration (BBA) degree was created. The Master of Business Administration (MBA) degree was implemented in 1982 and the Master of Accountancy (MAcc) began in 2013.

The School of Business and its Bachelor of Business Administration, Master of Accountancy, and Master of Business Administration, degree programs are accredited by the Association to Advance Collegiate Schools of Business – AACSB International.

Faculty

- David L. Sollars, PhD, Dean of the School of Business and Professor
- Danny Funk, MBA, Director
- Barbara Scofield, PhD, Professor and MAcc Director
- Robert Hull, PhD, Professor and C.W. King Chair of Finance
- Norma Juma, PhD, Professor and Brenneman Professor of Business Strategy
- James Martin, MProf/Acc, Senior Lecturer, Snyder Distinguished Lecturer in Business
- Louella Moore, PhD, Mosso Professor of Accounting
- Pamela Schmidt, PhD, Dibble Professor of Accounting
- Michael Stoica, PhD, Distinguished Professor of Marketing
- Jennifer Ball, PhD, Professor and Associate Provost for Corrections Education and University Accreditation
- Robert Boncella, PhD, Professor Emeritus and Lecturer
- Paul Byrne, PhD, Professor
- Liviu Florea, PhD, Professor
- Thomas Hickman, PhD, Professor
- Sungkyu Kwak, PhD, Professor
- Dmitri Nizovtsev, PhD, Professor and Associate Dean of the School of Business
- David Price, PhD, Professor
- Rosemary Walker, PhD, Professor
- Gail Hoover King, EdD, Visiting Professor
- Sunita Rao, PhD, Associate Professor
- Shane Van Dalsem, PhD, Associate Professor
- Akhadian Harnowo, PhD, Associate Professor
- Manaf Sellak, PhD, Assistant Professor
- Jayme Burdick, MBA, Lecturer
- Richard LeJuernne, JD, Lecturer

Kansas Small Business Development Center at Washburn University:

- Nadia Arbelo, Interim Director, Lecturer
- Mary Ann Riederer, Consultant
- James Monson, MAcc Outreach Center Advisor

Mission

We provide knowledge and personalized experiences to engage students who will enhance the economic vitality of businesses in the region and beyond.

The School:

- Uses flexible delivery and small interactive classes to prepare students for challenges of a dynamic collaborative environment;
- Provides students with distinctive opportunities for personal growth through transformative activities and engagement with local and global stakeholders;
- Produces research that enhances our classroom teaching, assists practitioners, and advances knowledge in business disciplines;
- Stimulates economic development of the region through our Small Business Development Center and other collaborative partnerships;
- Fosters integrity, inclusiveness, mutual respect, and ethical behavior as requisites to business practice.

Undergraduate Program Core Competencies

To implement the mission of the School, the faculty has adopted the following undergraduate program core competencies as broad instructional goals of the BBA program:

- **Business Knowledge:** Students will be able to demonstrate a broad knowledge of business constructs across all the basic, functional areas of business and economics.
- **Written and Oral Communication Abilities:** Students will be able to write with clarity, verbalize concisely, and clearly present ideas.
- **Problem-Solving Abilities:** Students will be able to define and analyze diverse problems; and organize and interpret information in order to draw and support conclusions.
- **Ethical Decision-Making Abilities:** Students will be able to differentiate between ethical and unethical behavior and integrate ethical understanding and societal responsibility into decision-making.
- **Global Awareness:** Students will understand the impact of participation in the global economy on business conduct and performance as well as the effects of business actions on that economy.
- **Technology Abilities:** Students will be able to apply technology in order to solve business problems and explain how technology supports the strategic goals of organizations.

School of Business Values Statement

Stakeholders of the Washburn School of Business including, but not limited to, faculty, students, and administrators, should expect their interactions with other stakeholders and stakeholder groups to be guided by principles, including, but not limited to, honesty, trust, fairness, respect, integrity, and responsibility.

Honesty - Honesty is the cornerstone of the other fundamental program values. There can be no trust, fairness, respect, integrity, or responsibility without honesty. Honesty creates the possibility for quality teaching, learning, academic research and communication between individuals.

Trust - Trust results from a culture of honesty. Trust provides the foundation for an environment that nourishes creativity and risk-taking

in teaching, learning, and scholarship, and is essential to Washburn University's pursuit of quality human development and "learning for a lifetime."

Fairness - A sense of fairness emerges when standards, policies, and procedures are equitable, clear, and in the best interest of all stakeholders. Without fair processes, the learning environment cannot sustain trust and honesty. Fairness ensures that all stakeholders have the opportunity to succeed, and provides a foundation for mutual respect among stakeholders.

Respect - A university environment focused on the creation and transmission of knowledge requires interaction and participation by all stakeholders. Quality interaction is facilitated when stakeholders display respect for one another. When stakeholders are treated fairly and honestly, they are better able to trust one another, which leads to a culture of mutual respect.

Integrity - Stakeholders of the Washburn School of Business conduct themselves with integrity when teaching, learning, research, communication, and other interactions are conducted in accordance with the principles of honesty, trust, fairness and respect.

Faculty act responsibly when they:

- Maintain currency in their field.
- Freely share their knowledge with students.
- Develop coursework that is focused, relevant, and coherent and adds value to students' career skills and ambitions.
- Critically assess students' work in a constructive and rigorous manner.
- Challenge students to grow intellectually and professionally.
- Create an environment that is conducive to learning.
- Assist students in understanding the requirements and expectations of their degree programs.

Students act responsibly when they:

- Properly prioritize their commitments to the program.
- Manage their work and family responsibilities so they may attend class and be fully engaged in other program activities and requirements.
- Understand the requirements and expectations of their degree programs and plan their class schedules consistent with these expectations.
- Accept criticism in a professional manner and with the understanding that such feedback is designed to improve their business skills and critical thinking.
- Arrive prepared at each class session.
- Contribute substantively to the classroom dialogue.
- Approach the course material thoughtfully.

At the time of declaration of a major in the School of Business and at the time of application for admission to the School of Business, students are asked to affirm that they have read and understand the Washburn School of Business Values Statement and agree to practice and abide by these values while they are stakeholders of the School.

Additionally, all Washburn University students are expected to conduct themselves appropriately and ethically in their academic work. Inappropriate or unethical behavior includes (but is not limited to) giving or receiving unauthorized aid on examinations or in the preparation

of papers or other assignments and knowingly misrepresenting the source of academic work. Washburn University's Academic Impropriety Policy (<https://www.washburn.edu/academic-impropriety/>) describes academically unethical behavior in greater detail and explains the actions that may be taken when such behavior occurs.

For guidelines regarding protection of copyright, consult www.washburn.edu/statements-disclosures/copyright/ (<https://www.washburn.edu/statements-disclosures/copyright/>). For Washburn University Student Conduct and Disciplinary Code, go online to www.washburn.edu/student-life/policies-forms/academic-policies/ (<https://www.washburn.edu/student-life/policies-forms/academic-policies/>).

Degree, Minor, and Certificate Programs

Undergraduate students may earn the Bachelor of Business Administration (BBA) degree with a major in Accounting, Business Data Analytics, Economics, Entrepreneurship and Innovation, Finance, International Business, Management, Marketing, or General Business. Additionally, students may earn the Minor in Business Data Analytics, the Minor in International Business, the Minor in Economics, the Certificate in Entrepreneurship, and the Kansas Insurance Certificate. Undergraduate students outside of the School of Business may earn the Minor in Business, the Minor in Business Data Analytics, the Minor in Economics, the Minor in International Business, the Certificate in Entrepreneurship, and the Kansas Insurance Certificate. Students pursuing the BBA are not eligible for the Minor in Business.

Bachelor of Business Administration (BBA) Degree Requirements

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50), all requirements for a Bachelor of Business Administration degree, and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Total Hours		84

¹ All the courses required by the School of Business as part of the BBA degree, including the prerequisites to any required courses, need to be taken for a grade and completed with a grade of "C" or better.

² A grade point average of at least 2.0 is a prerequisite for enrollment in the seven upper-division business courses required of all BBA students. A student must be admitted to the School of Business to enroll in 400-level accounting (AC) and business (BU) courses.

³ These courses cannot be used to meet both the core requirement and the requirements of a major area of concentration.

⁴ For more information regarding the Major Areas of Concentration, please see the section below in the catalog or go to the Major Areas of Concentration (p. 331) webpage.

⁵ Students transferring to Washburn University who have completed 30 or more credit hours at an accredited post-secondary institution with a GPA of 2.0 or higher are exempt from the requirement to take WU 101 The Washburn Experience or HN 101 Honors First Year Experience.

Major Areas of Concentration

BBA candidates must complete an additional 24 hours of upper-division coursework offered by the School of Business. This may be done in either of the following ways:

- A student may select courses from a variety of subject areas within the School of Business and receive a BBA with a major area of concentration in general business.
- Alternatively, a student may select courses in a way that allows them to complete one or two of the following concentrations.

Each major consists of 24 graded upper-division hours in the School of Business divided between required and elective courses.

- Accounting, Concentration (p. 331)
- Business Data Analytics, Concentration (p. 332)
- Economics, Concentration (p. 332)
- Entrepreneurship and Innovation, Concentration (p. 332)
- Finance, Concentration (p. 333)
- General Business, Concentration (p. 333)
- International Business, Concentration (p. 333)
- Management, Concentration (p. 334)
- Marketing, Concentration (p. 334)

When two major areas of concentration are selected, the student should seek advice from faculty member in both major areas and prepare a graduation plan two semesters before the intended graduation date to check for feasibility. Without careful planning it may not be possible to complete the specific requirements of two concentrations in the same semester due to time conflicts between classes or classes not offered every semester. Therefore, students, especially part-time and returning students, should seek early advice about course scheduling and sequencing. The same warning applies to students seeking to earn the minor in international business or the certificate in entrepreneurship or who are also concurrently pursuing a degree in another unit of the university.

Minors and Certificates

- Programs of Interest to Both Non-Business and Business Majors (p. 335)
 - Business Data Analytics, Minor (p. 336)
 - Economics, Minor (p. 335)
 - International Business, Minor (p. 336)
 - Entrepreneurship, Certificate (p. 336)
 - Kansas Insurance Certificate (p. 336)
- Programs available only to Non-Business Majors (p. 337)
 - Business, Minor (p. 337)

International Experience Opportunities

Juniors or seniors have the opportunity to participate in a faculty-led course that places special emphasis on international business and involves travel to Brazil, China, or Europe. Students may also spend one or two semesters in an approved study abroad program. Washburn University is a member of several international partnerships and exchange agreements, including the Magellan Exchange, a business school partnership with about 20 universities in Western Europe, Latin America, and Asia.

Customized programs of study in many other countries can also be arranged. For further information contact the Office of the Dean, School of Business or the Office of International Programs, Washburn University.

Law Early Admission Program (LEAP) Partnership

The Washburn University School of Law (Washburn Law) and the Washburn University School of Business (WUSOB) offer the Washburn University Law Early Admissions Program (LEAP) to academically talented and highly motivated undergraduate students at WUSOB. This program allows such students to matriculate into Washburn Law early, after completing 91 credit hours of undergraduate study. The affiliation is structured to assist these students with their preparation for law school by exposing them to the skills necessary for the study of law, the qualities, and the programming and curriculum available at Washburn Law. Preparing students early with law-faculty and attorney mentors, will prepare them to serve their communities in a variety of roles in law firms, prosecutors' offices, corporations, not-for-profit enterprises, and other professional legal environments. For further information, contact the WUSOB Prelaw Coordinator through the School of Business Office at (785) 670-1308.

Internships

Starting in their junior year, School of Business students have the opportunity to select internships at successful area businesses

representing various industries. Internships enables students to earn credit toward their degree and also acquire job market skills for employment. Both the student intern and the employer are required to file progress reports with the internship coordinator on a regular basis. Internship credit hours are graded on a pass/fail basis only and do not count as electives to meet requirements for the majors. For further information, interested students should consult with the Director of Student Affairs in the School of Business. Descriptions of the programs are provided in the course listings of this catalog under AC 499 Internship In Accounting BU 499 Internship in Business, and EC 499 Internship in Economics. Students can take AC 499 and EC 499 once and BU 499 twice during their course of studies, but the total number of credit hours from all School of Business internship may not exceed nine (9) semester hours.

Student Organizations

The School of Business believes that in order for our students to succeed they must develop communication and networking skills. To cultivate these skills the School of Business supports several student organizations that students can join for both camaraderie and learning. For a full listing, description, and contact information please consult the School's website at www.washburn.edu/business (<https://www.washburn.edu/business/>).

Kansas Small Business Development Center at Washburn University

The Kansas Small Business Development Center at Washburn University (KSBDCWU) provides free, confidential, one-on-one counseling for small business owners or potential owners in the Northeast Kansas counties of Brown, Clay, Dickinson, Geary, Jackson, Marshall, Nemaha, Pottawatomie, Riley, Shawnee, Wabaunsee, and Washington.

The KSBDCWU utilizes a wide variety of resources including online and Internet databases to help small businesses obtain the timely, detailed, and relevant information necessary to make sound business decisions. The KSBDCWU also offers low-cost seminars and training programs for their clients. The services of the KSBDCWU are available to all start-up or existing small businesses.

Washburn University students pursuing the BBA degree have the opportunity to get involved in business consulting projects through a partnership with the SBDC as part of some of their coursework.

KSBDC at Washburn University and BRITE Center

School of Business Honors

Candidates for the Bachelor of Business Administration degree may qualify for School of Business Honors provided the following criteria are met:

1. Accumulate a grade point average (GPA) of at least 3.50 in all accounting, business, and economics courses applied to the BBA degree; and
2. Demonstrate superior research and/or independent study skills while enrolled in BU 405 Honors Research-Business; and
3. Be approved for honors designation by a two-thirds vote of the School of Business faculty.

In fulfilling conditions (2) and (3), the student will be expected to provide any academic data requested and to provide the School with an extra copy of written work prepared for credit in BU 405. Written notice of intent to graduate with honors must be submitted by the student to the Office of the Dean, School of Business early in the semester in which the student expects to graduate. This written notice is separate from any reporting requirements in place when BU 405 is taken as part of the Washburn Transformational Experience (WTE) program.

School of Business Scholars

Students graduating with the Bachelor of Business Administration degree will be awarded the designation of School of Business Scholar provided they have accumulated a GPA of at least 3.50 in all accounting, business, business data analytics, and economics courses and rank in the upper quartile of the Washburn University graduating class. Students graduating with the Bachelor of Arts degree with a major in economics will be awarded the designation of School of Business Scholar provided they have accumulated a GPA of at least 3.50 in the economics coursework used to meet the requirements of the major and also in all upper-division coursework used to meet the requirements of the degree.

Dean's and President's Honor Rolls for Undergraduates

In order to be included on the Dean's Honor Roll, School of Business, a student must:

- Have declared a major within the School of Business,
- Be in good standing, and
- Have completed at least 12 graded semester hours with a GPA of at least 3.40 during the immediately preceding semester.

Students who have completed at least 12 graded semester hours with a GPA of 4.00 during the immediately preceding semester will be included on the President's Honor Roll.

Scholarships

In recognition of the quality of School of Business programs, many alumni, individuals, and organizations have given generously to support worthy students with financial aid. For information and applications, please contact the Director of Financial Aid or the Office of the Dean, School of Business, Washburn University. To be considered for the scholarships administered by the School of Business, either as new or continuing recipients, students must submit a direct application to the School of Business each year; the standard deadline is February 15.

Academic Advising and Admission Requirements

It is important that any student pursuing the Bachelor of Business Administration degree work closely with their academic advisor, who will assist students in selecting a major and in planning their academic schedules. Freshman and transfer students should initially consult with the Director of Student Affairs in the School of Business office, especially with regard to courses they intend to transfer in (see the Transfer Credit section below for details). Once established in the program, these students are usually assigned an advisor from among the School of Business faculty in the field of their interest.

As stated in the School of Business Values Statement (above), students are expected to act responsibly in their academic programs and to “understand the requirements and expectations of their degree programs and plan their class schedules consistent with these expectations.” The School of Business offers in-person academic advising during the enrollment process and provides advising materials explaining program requirements through this catalog, the School’s website, and customized information sheets. The student, however, has the ultimate responsibility for understanding the requirements of their degree programs as outlined in this catalog and in the advising materials, including potential scheduling conflicts between majors, for monitoring their own progress in the program, and for ensuring that the program requirements, including course prerequisites, are met in proper order and on a timely basis.

Students should become familiar with Navigate and Degree Works academic planning tools. They should review their academic transcript and degree audit periodically and especially prior to each meeting with their advisor. The purpose of the degree audit is to identify for students the remaining requirements necessary to complete their degree program. While the degree audits are unofficial, they intend to be an accurate reflection of the student’s academic progress. If the student believes his or her audit or transcript is incorrect, the question should be brought promptly to the attention of an advisor or the Dean’s office.

In planning their class schedules, students are expected to observe basic advising principles, including course prerequisites, and to consult with a School of Business advisor to clarify any doubts. Course prerequisites are considered met when the prerequisite course is complete with a grade of “C” or better. **Note:** The prerequisites of a course include the prerequisites of its prerequisite courses.

The basic advising principle in course sequencing is that 100-level courses should generally be completed before 200-level courses, which should be completed before 300-level courses, which should be completed before 400-level courses. However, several general education courses can be saved until the end as this allows more flexibility in course scheduling. While the upper-division business requirement beyond the upper-division business core has room for two major areas of concentration in most cases (excluding accounting), students may not be able to complete the requirements of both majors in the same semester. Additionally, some courses in some majors are offered only once per year. Therefore it is recommended that students plan their course work at least two semesters ahead.

Administratively, there are four steps in a student’s progress to the Bachelor of Business Administration (BBA) degree, apart from the course work and the separate applications for scholarships and financial aid, which need to be initiated by the student. These steps are:

1. Application to Washburn University as a degree-seeking student,
2. Declaration of major,
3. Admission to the School of Business, and
4. Application for the degree.

They are explained below in more detail.

Declaration of Major Area of Concentration

Early in their program of study, all students interested in earning the Bachelor of Business Administration degree should declare their intended degree and major area(s) of concentration by filling out the “Declaration of Major Program Form” electronically (https://www.washburn.edu/academics/college-schools/business/_REDESIGN%202018/FILES/Paperwork/Declaration-of-Major-Form.pdf#Declaration%20of%20Major%20Form) or in print and delivering it to bba@washburn.edu or to the School of Business office. After the declaration of major program has been approved and the faculty advisor has been assigned, students should meet with the faculty advisor for enrollment advising and to plan their academic program. This procedure should also be followed when a student changes their major or adds a major. The areas of concentration available within the BBA degree are accounting, business data analytics, entrepreneurship and innovation, economics, finance, international business, management, marketing, and general business. Students who are interested in the BBA degree but have not yet decided on a concentration can initially declare a concentration in general business and then later change their declaration to align with their final decision.

Declaring a major is not the same as being admitted to the School of Business. A declaration of major is simply a statement of student intentions which also establishes an advising relationship. To be admitted to the School of Business, students must satisfy the conditions for admission detailed under Application for Admission to the School of Business below.

Application for Admission to the School of Business

Upon completion of 54 semester hours of college credit, MA 116 College Algebra, and the seven required lower-division School of Business courses, students should apply for admission to the School of Business by filling out the “Application for Admission Form” electronically (https://www.washburn.edu/academics/college-schools/business/_REDESIGN%202018/FILES/Paperwork/Declaration-of-Major-Form.pdf#Declaration%20of%20Major%20Form) or in print and delivering it to bba@washburn.edu or to the School of Business office. The eight courses required for admission are:

Code	Title	Hours
MA 116	College Algebra	3
AC 224	Financial Accounting	3
AC 225	Managerial Accounting	3
BU 250	Management Information Systems	3
BU 258	Foundations of Data Analysis	3
EC 200	Principles of Microeconomics	3
EC 201	Principles of Macroeconomics	3
EC 211	Statistics for Business and Economics	3

MA 346 Regression Analysis may be substituted for EC 211 Statistics for Business and Economics. A minimum of 30 semester hours must

be earned after being admitted to the School of Business. Admission to the School of Business is a requirement for enrolling in BU 449 Strategic Management, the capstone course of the BBA degree as well as all 400-level accounting (AC) and business (BU) courses. As part of the application for admission to the School of Business and prior to each semester's advising, students are asked to process a degree audit and to confirm that all transfer credit is correctly posted.

Students should file an application for admission with the Office of the Dean of the School of Business as soon as the student becomes eligible to apply. Students are limited to no more than 30 credit hours of accounting and business courses without being admitted to the School of Business. Upon admission students should process a degree audit to determine the remaining courses and to develop a plan to graduation.

Application for Degree

Early in their last semester, students planning to graduate must file an Application for Degree form in the Office of the University Registrar in order to initiate a graduation check. The form should be filed in September for the Fall semester and in February for the Spring semester and the Summer term. A student is not a Candidate for Degree until the University Registrar's Office has the form on file and the candidacy has been approved.

Students applying for graduation should process a degree audit upon enrollment for the final semester and again at the beginning of final semester to ensure that all degree requirements will be met. At the time of the application for the degree, the student should undeclare any major no longer being pursued. All questions, uncertainties, and potential anomalies should be brought to the attention of an advisor in the School of Business.

Prerequisite Policy for Students in School of Business Courses

It is the responsibility of all students, enrolled in School of Business courses, to observe the published prerequisites for the course. This applies to all degree-seeking, visiting, and non-degree-seeking students regardless of their major or degree program. Visiting students including exchange students, or their sponsoring organizations, will need to present official documentation that prerequisites have been met. For a prerequisite requirement to be met, the prerequisite course must be successfully completed with a grade of "C" or better. The prerequisites of a course include the prerequisites of its prerequisite courses. If after enrolling in a course, a student no longer meets the course prerequisite requirements, the student is required to withdraw from the course without delay or be subject to administrative withdrawal from the course at any time. Students not majoring in one of the majors in the BBA degree may request permission in the Dean's Office to enroll in 400-level accounting (AC) and (BU) courses if they have achieved standing in their own programs comparable to admission to the School of Business. Any questions should be directed to the Director of Student Affairs in the School of Business office.

Pass/Fail Policy

Candidates for the BBA degree must earn a grade of "C" or better in all courses used to meet School of Business requirements and may not take those courses pass/fail. This includes courses offered by the School of Business, as well as courses offered outside of the School of Business but required for the BBA degree including CN 150 Public Speaking, EN 208 Professional Writing, MA 116 College Algebra, MA 140

Statistics, PY 100 Basic Concepts in Psychology, and SO 100 Introduction to Sociology. Students who earn pass/fail credit in a required course prior to admission to the School must consult with the School of Business Dean's office.

Repetition of Courses

Undergraduate courses may be repeated. Courses for which grades of D or F are recorded can be retaken without departmental approval. Courses for which a grade of C, or pass, or higher are recorded will require departmental approval from the department or school offering the course before the student can retake it.

The transcript will contain a complete record of all courses taken and grades earned. Only the last repeated and not the prior grade(s) will be included in determining the cumulative grade point average. However, after a student has repeated the same course three times, or has repeated three different courses, that student must have the permission of the associate dean of the School of Business before repeating any course. In cases where an excessive repeat (ER) hold has been put in place, the student should expect to be advised by the associate dean until all relevant courses have been successfully completed. Enrollment before the completion of the previous semester is at the discretion of the associate dean.

Transfer Credit

The School of Business reserves the right to evaluate any credit hours offered for transfer before accepting or rejecting such hours as meeting School of Business requirements. In accord with business school accreditation standards, academic work accepted from other institutions should be comparable to that in the degree programs of the School of Business.

To facilitate advising and schedule planning, any review of transfer courses should be completed as soon as possible and preferably during the first semester of enrollment. Students should prepare transfer course petitions and provide catalog course descriptions and course syllabi to the School of Business. Official transcripts of all coursework taken at other schools should be sent directly to Washburn University Registrar. Transfer courses that are not already listed on the Washburn University Transfer Guides but might meet University degree requirements, including general education requirements, will need to be reviewed by the department to which the course discipline belongs or by the University General Education Committee. For more information on the credit transfer process, please refer to the Transfer Student (p. 15) section of this catalog.

Washburn business majors who wish to take classes at another institution to meet their degree requirements at Washburn must receive prior approval. Guidelines and application forms are available in the School of Business office.

International Transfer Credit

International students with transfer credit from non-U.S. institutions must provide original transcripts that should have detailed addresses of the issuing school for verification. If originals cannot be submitted, attested certified copies of transcripts must be on the issuing school's stationary and sent to Washburn in an official school's envelope. All university-level foreign transcripts must be evaluated by a Washburn University-recognized evaluation service (e.g. Education Credential Evaluators (ECE, www.ece.org) (<https://www.ece.org/>) or World Education Services (WES, www.wes.org) (<https://www.wes.org/>)). Application forms can be

obtained from their respective websites. A “course-by-course” report is required. The cost of this evaluation is borne by the student. Completed evaluations should be sent directly by the evaluation agency to the Office of International Programs at Washburn University. International Student & Scholar Services | Washburn University (<https://www.washburn.edu/academics/international-programs/international-students/>)

For students who have completed a baccalaureate or associate degree at an accredited international institution similar in duration to a U.S. baccalaureate or associate degree, courses satisfactorily completed in any of the general education distribution areas will be accepted for credit accordingly. International transfer courses that are not part of a completed degree at an accredited international institution, will need to be reviewed individually by the University General Education Committee or by the chair of the department to which the course discipline belongs. Courses in accounting, business, business data analytics, and economics not already on the transfer guides will be reviewed by the School of Business.

To facilitate advising and schedule planning, all the reviews should be completed in the first semester of enrollment at Washburn, especially for courses needed for prerequisites or admission to the School of Business. The process starts with the posting of the results of the ECE or WES evaluation on the student's Washburn University transcript and degree audit. The students should provide catalog course descriptions, syllabi and other information as required by the “General Education Transfer Course Petition (<https://www.washburn.edu/faculty-staff/faculty-resources/policies-forms/forms/gen-ed-transfer-petition.pdf>)” form. Petitions should be prepared by the students and submitted through the students' academic advisors.

Second Bachelor's Degrees and Second Concentrations

Students who have already completed a BBA degree from Washburn University may later return to earn an additional concentration within the BBA. However, they must satisfy all the specific BBA degree requirements under a catalog that is still in effect at the time the additional major is awarded, which may not be their original catalog.

If the student has completed a bachelor's degree in business outside of Washburn University, then the student must also satisfy the School's residency requirements for the BBA degree at Washburn.

To meet School of Business residency, at least 50 percent of the accounting, business, business data analytics, or economics hours presented for the BBA degree must be completed at Washburn University. All such students will be required to complete the capstone BU 449 Strategic Management course and the specific degree requirements. When the previous business degree is from an AACSB-accredited business school, the business core requirements normally will be considered to have been met with the exception of BU 449 Strategic Management, assuming that appropriate grades have been earned and prerequisites have been met for courses to be taken at Washburn. All other transfer credit will be evaluated on a course-by-course basis.

Students with a bachelor's degree in an area other than business from either Washburn University or an external institution can also earn the Washburn BBA as an additional degree. Such students must complete a minimum of 150 hours of university-level credit in total and satisfy all the specific business degree requirements.

All students looking to complete a second degree or concentration in business should consult School of Business academic advisors about course scheduling and sequencing and develop a viable and appropriate graduation plan

Outcome Assessment and Assurance of Learning

The Washburn University School of Business, as part of its continuous improvement efforts and consistent with the requirements of Washburn University, the Higher Learning Commission, and the Association for the Advancement of Collegiate Schools of Business - AACSB International, at intervals administers surveys and tests to its students, graduates, staff, and external constituents. We encourage all of those contacted to support our continuous improvement efforts by participating in these surveys and tests. For currently enrolled students, the tests and surveys may be required as part of coursework, or as program and degree graduation requirements separate from coursework, and are independent of the catalog under which the student intends to graduate. Tests may be administered during regularly scheduled classes, or at other times separate from class meeting times, including on Saturdays; an assessment fee may be charged.

Course Offerings

Accounting

AC 224 Financial Accounting (3)

The study of accounting as a means of communicating financial information about the activities of business enterprises. Emphasis is placed on concepts and principles underlying the measurement of income and financial position and how this information may be used to evaluate the progress of a firm. Prerequisites: EN 101 and MA 116 (recommended) or MA 112, or MA 123, or MA 141, or MA 151.

AC 225 Managerial Accounting (3)

The development and use of information in the accounting system as a management decision tool. Prerequisites: AC 224, EN 101, MA 116 (recommended) or MA 112, or MA 123, or MA 141, or MA 151, and BU 250 or concurrent enrollment.

AC 303 The Role of Accounting in Business and Society (3)

Role of accounting in society, including public and private sector organizations. Information needed for external reporting to investors and creditors, internal management planning and control decisions, assessment of risks and controls critical to reliable financial and non-financial data, and regulatory oversight. Overarching themes include decision-making related to recognition and valuation of economic events, effective communication related to accounting and economic information, as well as the importance of diversity, a global mindset, and good professional judgment by accounting professionals. Prerequisites: AC 224 and AC 225 with a grade of C or better, and consent of instructor.

AC 321 Intermediate Financial Accounting I (3)

Financial theory and problems. Emphasis is on valuation and measurement problems of income determination and balance sheet presentation. Prerequisites: AC 225 and BU 250. May not be taken A/Pass/Fail.

AC 322 Intermediate Financial Accounting II (3)

A continuation of financial accounting theory and problems. Prerequisite: AC 321. May not be taken A/Pass/Fail.

AC 325 Cost Accounting (3)

A study of inventory valuation procedures in manufacturing concerns and the processing, analysis and interpretation of data for use by management in the planning and control of operations. Prerequisites: AC 225 and BU 250. May not be taken A/Pass/Fail.

AC 330 Accounting Information Systems (3)

The study of the development and design of an accounting system. Emphasis on procedures necessary to meet generally accepted auditing standards and methods and techniques to evaluate internal control of an accounting system. Prerequisites: AC 225 and BU 250. May not be taken A/Pass/Fail.

AC 403 Special Topics/Accounting (3)

Selected topics announced in advance. May be taken more than one semester. Prerequisite: Admission to the School of Business. Other prerequisites will be specified for each topic. May not be taken A/Pass/Fail.

AC 404 Independent Study - Accounting (3)

Individual study of a topic in accounting. Activity must be supervised by a full-time School of Business faculty member with professorial rank. Prerequisites: Admission to the School of Business and consent of directing faculty member prior to enrollment. May not be taken A/Pass/Fail.

AC 421 Advanced Financial Accounting (3)

Accounting methods and procedures related to partnerships, branches, business combinations, and foreign exchange. Prerequisites: Admission to the School of Business and AC 322. May not be taken A/Pass/Fail.

AC 423 Federal Income Taxation - Individual (3)

Income tax laws, regulations, and procedures pertinent to individual taxpayer reporting. Prerequisites: Admission to the School of Business and AC 224, AC 225, and BU 250 completed with grades of "C" or better. May not be taken A/Pass/Fail.

AC 424 Federal Income Taxation - Business Entities (3)

Income tax laws, regulations, and procedures pertinent to partnership, corporation, and fiduciary reporting. Prerequisites: Admission to the School of Business and AC 225 and BU 250. May not be taken A/Pass/Fail.

AC 425 Auditing (3)

The course covers essential processes of auditing including specific procedures and techniques usable in the public and private sectors. Technical standards of these sectors receive attention with an emphasis on ethics related to the profession of auditing. The course includes operational and compliance auditing in addition to auditing of financial statements. Other content areas are the auditor's role in society, the application of internal control concepts, the understanding of accounting information systems, the methods of statistical sampling and the use of auditing software. Prerequisites: Admission to the School of Business and AC 321, AC 322, and AC 330 completed with grades of "C" or better. (AC 322 may be taken concurrently.) May not be taken A/Pass/Fail.

AC 427 Governmental and Institutional Accounting (3)

Methods and procedure used in fund accounting with emphasis on governmental units and not-for-profit organizations. Prerequisites: Admission to the School of Business and AC 225 and BU 250. May not be taken A/Pass/Fail.

AC 428 Fraud Examination (3)

Theory, techniques, methods and procedures for the detection, investigation, and deterrence of fraud. Prerequisites: Admission to the School of Business and AC 224, AC 225, and BU 250 or equivalent. May not be taken A/Pass/Fail.

AC 431 Contemporary Issues in Accounting (3)

Current issues in accounting with emphasis on the releases of the American Institute of Certified Public Accountants and the Financial Accounting Standards Board. Includes accounting theory to solving accounting problems. Prerequisites: Admission to the School of Business and AC 322. May not be taken A/Pass/Fail.

AC 499 Internship In Accounting (3)

Professional work experience with a business firm or governmental agency in some phase of public, private, or governmental accounting. The work situation must create a new learning experience for the student. Credit hours in this course may be used only as elective business hours and will not count toward the minimum 63 hours of accounting, business, and economics hours required of the BBA candidate nor will they count toward the minimum twenty-four hours of accounting required of accounting majors. Internship credit hours will be counted in the maximum School of Business hours an accounting major may earn within a 120-hour program. The student's grade will be awarded on a pass-fail basis, as determined by the supervising faculty member. Prerequisites: Admission to the School of Business, consent of the accounting faculty, appropriate academic background, at least 75 semester credit hours, at least a 2.5 overall grade average, and meet the general qualifications specified by the sponsoring business firm or governmental agency.

Business**BU 101 Introduction to Business (3)**

Designed to introduce the student to the American business system and to analysis of business organization and operation.

BU 115 Entrepreneurship and Entrepreneurship Law (3)

Assists aspiring business owners and managers in recognizing issues relevant to starting-up, maintaining, and growing a company.

BU 180 Personal Finance (3)

Personal and family financial planning. Topics include: consumer legislation, consumer finance, family budgeting, estate planning, insurance, individual income tax, home buying, mortgages, retirement pensions, and investments.

BU 250 Management Information Systems (3)

Concepts of information systems; analysis, evaluation, and implementation of management information systems; data-base management; information systems and management. (Assumes intermediate knowledge of MS Office applications, including Excel spreadsheets.) Prerequisites: EN 101, and MA 116 (recommended) or MA 112, or MA 123, or MA 141, or MA 151.

BU 258 Foundations of Data Analysis (3)

Foundational knowledge and technology to perform fundamental data analysis supporting problem solving and evidence based decision making. Through hands-on experiences, students will identify, extract, prepare, and analyze data and communicate those results that inform decisions. Prerequisites: EN 101, MA 116 (recommended) or MA 112, and BU 250.

BU 259 The Business of Art (3)

Explores and analyzes approaches to art valuation, art appraisal, and entrepreneurship in the arts. Examines the art market, the art consumer, and the value of art. Business problems and opportunities in the world of art are identified, analyzed, and assessed. Prerequisite: MA 112.

BU 260 Business Plan Development (3)

Through application of an entrepreneurial framework, learn to evaluate opportunities and develop a business concept to determine feasibility and access funding. Gain confidence to use entrepreneurial thinking and action with future opportunities.

BU 302 Business Communications (3)

Written communications including simpler types of business messages. Emphasis is placed on positive planning for effective human relations through management messages. Prerequisites: EN 101 with grade of "C" or better, CM 101, or equivalent, CN 150 or CN 365, or equivalent.

BU 305 Contemporary Information Systems (3)

Enterprise Resource Planning (ERP) computer systems. Understanding of business processes and their relation to Integrated Information Systems. Advanced Computer Modeling. Prerequisites: BU 250 and AC 225.

BU 309 Business Data Communication and Networking (3)

Understanding of the technical and managerial aspects of business data communications and networking to support business processes. Prerequisites: BU 250, AC 225, EC 200, and EC 201.

BU 315 Legal Environment of Business (3)

Legal process, nature, and sources of the law, government regulation and administrative law as they affect business. Prerequisites: EC 200, EC 201, and 2.0 GPA.

BU 319 Labor Law & Legislation (3)

The statutory, judicial and administrative law pertaining to labor-management relations. Prerequisites: EC 200 and EC 201.

BU 342 Organization & Management (3)

Management theory and practice, including fundamentals of management; making things happen; meeting the competition; organizing people, projects, and processes; and motivating and leading. Emphasis is given to the development of management, organizational structures, organizational dynamics, the impact of environmental forces and use of analytical tools in the performance of the management function. Prerequisites: EC 200 and EC 201; one of the following: PY 100 or SO 100; and 2.0 GPA.

BU 343 Entrepreneurship, Creativity, and Innovation (3)

Provides students with an overall understanding of the entrepreneurship process. Specifically explores the dimensions of creativity and innovation, and how these can aid firm growth. Explores the scope of entrepreneurship as new venture development and examines entrepreneurship as a manageable process that can be applied in any organizational setting. Exposes students to a mix of theory and practice which is applied to real world situations. Prerequisites: BU 260, or EC 200, EC 201, and BU 342 (or concurrent).

BU 345 Human Resources Management (3)

The principles and practices of sound employee relations with emphasis upon the selection, development and morale of employees. Prerequisites: EC 200 and EC 201.

BU 346 Organizational Behavior (3)

Review of theory and research related to work behavior in organizations with focus on individual and group behavior. Prerequisites: PY 100 or SO 100.

BU 347 Production and Operations Management (3)

Operations management in both manufacturing and service organizations. Use of models to make operations management decisions in the areas of productivity, quality, customer service, and production and process strategy. Prerequisites: BU 250, BU 342, EC 211 (or MA 346), AC 225, MA 116 or higher, and 2.0 GPA.

BU 355 International Business (3)

The global economic and political environment in which international trade and investment activities as conducted by multinational and national business organizations. Examination of the international dimensions of the areas of finance, management, marketing, operations, and business strategy. Prerequisites: AC 225 or BU 101, EC 200 and EC 201.

BU 356 Cross-Cultural Management (3)

Critical assessment of practices in managing a culturally diverse workforce. Applications of culture to ethics and values across the globe, communication, motivation, dispute resolution, and human resource management. Prerequisite: BU 342 (or concurrent).

BU 360 Principles of Marketing (3)

Marketing concepts and their relevance to organizational objectives and methods of operation. Marketing environment, marketing mix, marketing planning, strategy implementation, and assessment of marketing performance. Emphasis on improving marketing performance in a socially and ethically responsible manner. Prerequisites: EC 200, EC 201, and 2.0 GPA.

BU 361 Principles of Retailing (3)

Structural organization for retailing and the functional activities involved. Principles of site selection, staffing, planning, pricing, buying merchandise, sales promotion and expense management are included. Prerequisite: BU 360.

BU 362 Marketing Research (3)

Techniques by which industries and individual firms seek to coordinate buying with consumer demand. Application of research techniques to various marketing problems. Prerequisites: BU 360 and EC 211 (or MA 346).

BU 363 Promotion (3)

Examination of the promotion function of the marketing mix. Topics include: promotion strategy; management of the promotion mix (advertising, sales promotion, public relations); media strategy; and evaluation. Prerequisite: BU 360.

BU 364 Consumer Behavior (3)

The behavior of buyers of goods and services. An examination will be made of theories, concepts, methods and research findings of other disciplines and a study of the relation of these findings to management decision making. Industrial and consumer buying behavior will be considered within the context of the course. Prerequisite: BU 360.

BU 366 Sales (3)

A detailed examination of the selling dimension of the promotion mix. Topics include: personal communication; personal selling; relationship-building; and sales strategy and management. Prerequisite: BU 360.

BU 368 International Marketing (3)

Analysis of marketing management problems, techniques and strategies in international marketing, emphasizing changes in competition and market structure abroad.

BU 369 Entrepreneurial Marketing (3)

Framework to identify, create, and implement innovative marketing techniques for new ventures and small businesses in a resource-constrained environment. Creative strategies for the start-up phase for new products and services or in new markets and also applicable in large organizations. Prerequisite: BU 360.

BU 370 Entrepreneurship Clinic (3)

The capstone of the entrepreneurship program. Key building blocks: in class debate, field cases, redefinition and development of business ideas moderated by instructors. Students will be expected to work for and with entrepreneurs and develop business models that can be implemented. They will present a working model by the completion of the course. Successful entrepreneurs will participate as speakers/moderators and mentors for the participating students. Prerequisites: BU 343 or Admission to the School of Business.

BU 371 Digital Marketing (3)

Examines how digital technologies can be employed to enhance and implement the marketing function. Provides an overview of the concepts defining the digital environment and examines the concepts and techniques that characterize marketing in the digital environment. Prerequisite: BU 360.

BU 374 Principles of Risk and Insurance (3)

The study of risk and insurance, dealing with the principal risks to which individuals are exposed, and the various means of dealing with risk, including insurance, risk retention, self-insurance, and loss prevention. Examines the responsibilities and activities for treating risk at three levels: personal and family, employer, and government.

BU 375 Property and Liability Insurance (3)

An advanced insurance course of current financial, legal and social problems involving property-liability insurance; analysis of legal problems involving insurance coverage, financial aspects, and governmental regulation of the property-liability insurance enterprise, and economic aspects of the insurance industry. Prerequisite: BU 374.

BU 378 Life and Health Insurance (3)

The problems of and the alternative techniques for the insuring of health and human life values from the differing viewpoints of the company, the economy, and the consumer. Among the topics covered are health and financial needs in the life cycle of the family, settlement options and the programming elements of business insurance, estate planning, probability theory mortality, rating and reserves, and the recent changes in the health insurance industry. Prerequisite: BU 374.

BU 381 Business Finance (3)

Theory and techniques of financial management, designed to provide the basic financial background needed by students in business, economics, or related fields. Topics include: capital budgeting, capital structure, dividend policy, the cost of capital, and working capital management. Prerequisites: EN 101, AC 224, AC 225, BU 250, MA 116 or higher, EC 211 (or MA 346), and 2.0 GPA.

BU 387 Credit Management (3)

Principles and procedures involved in mercantile and consumer credit. The organization and operation of a credit department, source of credit information, and collection procedure and policies. Prerequisites: EC 200 and EC 201.

BU 389 Entrepreneurial Finance - Small Business (3)

The financial aspects of the management of small business and entrepreneurial firms (sole proprietorships, partnerships, small nonpublic corporations). Prerequisite: BU 381.

BU 390 Principles of Real Estate (3)

A course that surveys the many areas of the real estate business and real estate investment. Financing, appraisal, loan closing, marketing, property management, land description, title transfer and other topics are included in the course.

BU 392 Real Estate Law (3)

Elements of property laws, purchase contracts, listing agreements, estates and trusts. Prerequisite: BU 315.

BU 393 Real Estate Appraisal (3)

An introduction to real estate appraising including the market comparison, cost and income approaches to value with emphasis on house appraisal.

BU 403 Special Topics/Business (3)

Selected topics announced in advanced. May be taken more than one semester. Prerequisite: Admission to the School of Business. Other prerequisites will be specified for each topic.

BU 404 Independent Study-Business (3)

Individual study of a topic in business. Activity must be supervised by a full-time School of Business faculty member with professorial rank. Prerequisites: Admission to the School of Business and consent of directing faculty member prior to enrollment.

BU 405 Honors Research-Business (3)

Restricted to those students seeking to qualify for honors in the major field and designed to provide an intellectual challenge for superior students with a strong interest in scholarship. Course activity must be supervised by a member of the full-time School of Business faculty with professorial rank. Prerequisites: Admission to the School of Business and consent.

BU 406 International Business and Entrepreneurial Experience (3)

First-hand business experience acquired in an international setting. Analysis of business problems, ideas, opportunities, techniques, and strategies in an international context. Emphasizes changes in competition and market structure abroad. Washburn students will work in teams with foreign students to solve a problem for an overseas company. With approval, this course may be taken for credit more than once. Prerequisites: Admission to the School of Business, BU 315, BU 347, BU 381 (or concurrent), and consent.

BU 416 Commercial Transactions (3)

Commercial law in the area of the Uniform Commercial Code, suretyship, insurance, professional responsibilities, etc. Prerequisites: Admission to the School of Business and BU 315.

BU 417 Legal Business Associations (3)

Examination of the law of agency, partnerships, corporations, and security regulations. Prerequisites: Admission to the School of Business and BU 315 recommended.

BU 419 Labor Relations (3)

Labor relations and collective bargaining including the history, structure, and policies of labor organizations. Mediation and arbitration are considered. Prerequisites: Admission to the School of Business and EC 341.

BU 449 Strategic Management (3)

Integrate the functional areas of business in formulating and implementing basic policy for business. Analytical approach to strategic decisions applied to practical examples of problems faced by business firms. May not be taken for graduate credit. Prerequisites: Admission to the School of Business, BU 342, BU 347, BU 360, BU 381, and 2.0 GPA.

BU 457 Multinational Enterprise Practices (3)

Multinational enterprise principles and solutions to meet international accounting and global supply chain business needs. Benefits risks, and costs associated with MNE managers's decisions. Prerequisite: Admission to School of Business, and BU 342 or BU 355.

BU 460 Small Business Institute (3)

Student groups counsel and consult with small business firms selected by the Small Business Administration and the instructor. Field work with the firms provides opportunities to identify and analyze problems, and to make recommendations. Prerequisites: Admission to the School of Business, senior business major, and consent.

BU 461 Small Business Institute (3)

Student groups counsel and consult with small business firms selected by the Small Business Administration and the instructor. Field work with the firms provides opportunities to identify and analyze problems, and to make recommendations. Prerequisites: Admission to the School of Business, senior business major, and consent.

BU 470 Entrepreneurship Clinic (3)

The capstone of the entrepreneurship program. Key building blocks: in class debate, field cases, redefinition and development of business ideas moderated by instructors. Students will be expected to work for and with entrepreneurs and develop business models that can be implemented. They will present a working model by the completion of the course. Successful entrepreneurs will participate as speakers/ moderators and mentors for the participating students. Prerequisites: BU 115, BU 260 and junior status; or EC 201 and CM 335 and junior status; or admission to the School of Business.

BU 471 Marketing Management (3)

Examination of the strategic marketing management process planning, implementation, and control. Topics include: environmental, competitor, and customer analysis; market targeting; the marketing mix; and the international aspects of marketing management. Case analysis and marketing models are used. Prerequisites: Admission to the School of Business and BU 360.

BU 473 Marketing Channels (3)

The distribution function of the marketing mix. Topics include: channel structure and function; strategic channel development; channel management and logistics; direct channels, service channels, franchising, and international distribution channels. Prerequisites: Admission to the School of Business and BU 360.

BU 475 Theory of Insurance (3)

The nature and cost of risk in our economic society, and of the methods of handling it. Prerequisites: Admission to the School of Business and BU 375.

BU 477 International Finance (3)

The financial management of a multinational business enterprise. Develops strategies for investing internationally, including hedging exchange rate risk, adjusting to client preferences and home currencies, evaluating performance, estimating a corporation's exposure to real exchange rate risk, strategies to hedge risk or to dynamically adjust to shocks, and reasons for a corporation to hedge. Also covers international capital budgeting, multinational transfer pricing, and international cash management. Prerequisites: Admission to the School of Business and BU 381, or equivalent (assumes accounting and statistics).

BU 483 Investments (3)

The theory and techniques of financial asset analysis including the fundamental, technical, and efficient market approaches. The course is designed to provide background needed by individuals (regardless of major) to make investment decisions. Topics include: market mechanism, mutual funds, the yield curve, fundamental common stock analysis, and portfolio theory. Prerequisites: Admission to the School of Business and BU 381.

BU 484 Applied Portfolio Management (3)

Provides students with the opportunity to practice investment analysis and portfolio management. Students will use industry tools to analyze investment strategies and allocate funds provided by the Washburn University Foundation to various investments held in a portfolio that is reviewed and updated in subsequent semesters. Prerequisites: Admission to the School of Business or declaration of the Actuarial Science major and BU 483.

BU 488 Financial Management (3)

Specialized skills in corporate financial management are developed through the application of techniques such as the discounted cash flow method, dividend valuation model, capital asset pricing model, and options pricing models. Problem areas covered include working capital management, capital budgeting, and capital structure. Prerequisites: Admission to the School of Business and BU 381.

BU 491 Real Estate Finance (3)

Methods of financing residential, commercial and industrial properties. The nature of mortgage loans for construction and permanent financing and land development. Sources of funds, lender requirements, and loan and investment yield analysis. Secondary mortgage market financing. Prerequisites: Admission to the School of Business and BU 381.

BU 493 Income Property Appraisal (3)

Techniques and methods used in appraising income properties. Prerequisites: Admission to the School of Business and BU 393.

BU 495 Real Estate Investment (3)

Cash flow and investment return analyses are applied to income-producing properties. The most commonly used methods of yield analysis are used in real estate investment case analysis. Financing, appraisal, taxation, and property rights are applied to apartment and office buildings, rental houses, shopping centers, industrial parks, and other types of properties. The capstone real estate course. Prerequisites: Admission to the School of Business.

BU 499 Internship in Business (3)

Professional work experience with a business firm or governmental agency in the following areas of specialization: finance and banking, management, and marketing. The work situation must create a new learning experience for the student. Credit hours may be used only as elective business hours and will not count toward the minimum 63 hours of accounting, business, and economics hours required of the BBA candidate. The grade will be awarded on a pass-fail basis, as determined by the supervising faculty member. Prerequisites: Admission to the School of Business, consent of the major area faculty, appropriate academic background, at least seventy-five (75) semester credit hours, at least a 2.5 overall GPA, and meet the general qualifications specified by the sponsoring business firm or governmental agency.

Data Analytics

DA 348 Data Discovery and Management (3)

Students will identify and manipulate data that will provide actionable information to solve business problems. Prerequisite: BU 250, BU 248 or BU 258, and EC 211 or MA 346

DA 358 Data Methods and Warehousing (3)

Students will learn methods to process a variety of data types (unstructured and semi-structured) and to use technologies that convert, analyze and store large volumes of data. Unstructured and semi-structured data will be converted into information useful for problem solving. Prerequisite: BU 250 and BU 248 or BU 258, and EC 211 or MA 346

DA 368 Data Mining and Modeling (3)

Students will learn technologies that can be used to discover relationships among data. These relations can be used to create models used to predict or classify new data. Prerequisite: BU 250 and BU 248 or BU 258 and EC 211 or MA 346

DA 478 Data Analytics Applied - Practicum (3)

Students will apply the data analytics process, including data discovery, transformation, organization, and modeling, to a real-world project and learn to effectively communicate the solutions. Prerequisite: DA 348 and DA 358 and DA 368.

Economics

Economics courses cannot be used to meet the general education distribution requirement in the social science area for students seeking the BBA, but they can be used to meet the requirement for twelve additional hours in a general education discipline. (See BBA requirements for details.)

EC 100 Introduction to Economics (3)

Factors determining the general levels of employment and inflation are examined as well as an analysis of markets, prices and production. Current economic problems are used to illustrate these concepts. Not open to students who have credit in EC 200 or EC 201. EC 100 may not be used as a substitute for EC 200 or EC 201.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Quantitative and Scientific Reasoning and Literacy

EC 200 Principles of Microeconomics (3)

The fundamentals of price theory. A study of the interaction of markets and decisions made by consumers and firms. Market structure, allocation of resources, and efficiency issues are addressed. Prerequisites: MA 116 (recommended) or MA 112, or higher. (Formerly EC 202)

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Quantitative and Scientific Reasoning and Literacy

EC 201 Principles of Macroeconomics (3)

Nature and performance of the American economy considered in the aggregate. Topics include the determinants of aggregate output, unemployment, and inflation. Analyses of national income, business cycles, fiscal and monetary policies, and international trade are introduced. Prerequisites: EC 200, MA 116 (recommended) or MA 112, or higher.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Quantitative and Scientific Reasoning and Literacy

EC 211 Statistics for Business and Economics (3)

The application of statistical methods to decision problems in business and economics. Topics include sampling distributions and their properties, statistical inference, simple linear and multivariate regression analysis, application of regression and smoothing techniques to time series analysis, analysis of variance, distribution-free and chi-square test procedures, and concepts of statistical quality control. Prerequisites: MA 140, or its equivalent, and MA 116 (or MA 141 or MA 151 or higher), or their equivalents with grades of C or better.

EC 300 Microeconomic Analysis (3)

An in-depth analysis of the behavior of individual economic units and various economic policies is developed, using the tools of price theory and game theory. Prerequisites: EC 200, EC 201, MA 116 or higher, and 2.0 GPA. MA 141 is recommended but not required.

EC 301 Macroeconomic Theory (3)

A study of the determinants of the level of aggregate income, employment, and prices. Analyses of secular and cyclical changes in economic activity, and of the effects of public policy on aggregate economic experience. Integration of international trade and finance into macroeconomic models. Classical, Keynesian, and Monetarist theories are analyzed. Prerequisites: EC 200, EC 201, MA 116 or higher, and 2.0 GPA.

EC 306 Game Theory and Applications (3)

Acquaints the student with concepts and tools of game theory and their use in strategic decision making. Applications of game theory to business, sociology, political science, and evolutionary biology are discussed. Prerequisites: MA 116 and MA 140.

EC 310 History of Economic Thought (3)

Comparative study of the historical origin, content, and impact of selected schools of economic thought. Emphasis upon tracing evolution of economic theories out of specific historical contexts. Major schools of economic thought from the Greeks through Adam Smith to the present. Prerequisites: EC 200 and EC 201.

EC 313 Industrial Organization and Policy (3)

An in-depth look at market structures and their effect on tactics and strategies of firms. Includes economic analysis of government efforts to regulate and control business activities. Prerequisites: EC 200 and EC 201.

EC 341 Labor Economics (3)

An analysis of the market for labor in the United States. Investigates issues of wage determination, worker productivity, labor supply and demand analysis, employment, and education and training. May include income inequality, discrimination, promotion, compensation, and immigration. Prerequisites: EC 200 and EC 201.

EC 388 Urban & Regional Economics (3)

The location of economic activity for firms, industries and cities used as a base for considering regional growth and decline and urban economic structure, problems, and policies. Prerequisites: EC 200 and EC 201.

EC 403 Special Topics/Economics (3)

Selected topics announced in advance. May be taken more than one semester. Prerequisites will be specified for each topic.

EC 404 Independent Study-Economics (3)

Individual study of an economic problem. Course activity must be supervised by a member of the full-time faculty with professorial rank in the School of Business. Prerequisite: Consent of directing faculty member prior to enrollment.

EC 405 Honors Research in Economics (3)

Restricted to those students seeking to qualify for honors in the major field. The study is designed to provide an intellectual challenge for superior students with a strong interest in scholarship. Course activity must be supervised by a member of the full-time faculty with professorial rank in the School of Business. Prerequisites: Senior major and consent.

EC 409 Introductory Econometrics (3)

An introduction to analysis and its applications. Investigates the use of linear regression models, their standard assumptions, and correction for violation of these assumptions. Special topics may include qualitative explanatory variables, distributed lags, and simultaneous equation models. Prerequisites: EC 200, EC 201, and EC 211 (or MA 343).

EC 410 International Economics (3)

The theory of international trade and international finance. Costs and benefits of international economic interdependence. Discussion of current issues in trade policy and the international economic system. Prerequisites: EC 200 and EC 201.

EC 480 Public Finance (3)

The theory of taxation, public expenditure and fiscal policy. Impact of government financial policies upon resource allocation, income distribution, economic growth, economic stabilization and balance of payments. Foundations for balanced state and local taxation. Prerequisites: EC 200 and EC 201.

EC 485 Money & Banking (3)

The economic principles and institutional features of money, the payments system, and the financial system, with emphasis on commercial banking. Analyzes the Federal Reserve System and the effect of monetary policy on the economy. Prerequisites: EC 200 and EC 201.

EC 499 Internship in Economics (3)

Professional work experience with a government agency, financial institution, or other business firm in the area of economic analysis or planning. The work situation must create a new learning experience for the student. Credit hours in this course will not count toward the minimum 63 hours in the School of Business required for the BBA. The student's grade will be awarded on a pass/fail basis, as determined by the supervising faculty member. Prerequisites: Consent of major area faculty, appropriate background, at least seventy-five (75) semester credit hours, at least a 2.5 overall GPA and meet the general qualifications specified by the sponsoring business firm or governmental agency.

Major Areas of Concentration Programs

- Accounting, Concentration (p. 331)
- Business Data Analytics, Concentration (p. 332)
- Economics, Concentration (p. 332)
- Entrepreneurship and Innovation, Concentration (p. 332)
- Finance, Concentration (p. 333)
- General Business, Concentration (p. 333)
- International Business, Concentration (p. 333)
- Management, Concentration (p. 334)
- Marketing, Concentration (p. 334)

Accounting, Concentration

There are many career choices within the profession of accountancy. The four principal areas of employment are in private companies, public practice, non-profit organizations, and governmental agencies. Industrial and non-profit accountants assemble and interpret relevant business information for interested parties within their employer's firm or organization. Public accountants provide professional services primarily in three areas: income tax, auditing, and management services. Governmental accountants perform services similar to those by industrial and public accountants for local, state, and national governmental agencies.

Student Learning Outcomes for the Accounting Concentration

Upon completion of a concentration in accounting, students will be able to do the following:

- Perform the systematic transformation of data into accounting information through the application of GAAP and income tax law.
- Describe the uses, qualities, and roles of accounting information.
- Explain the principles of internal control systems and the importance of internal control systems to organizations.
- Apply current technology to the accounting process and the demand for information.
- Evaluate accounting issues and related behavior in an ethical context, while reflecting an understanding of the public service nature of the accounting function.

Concentration Requirements

Code	Title	Hours
AC 321	Intermediate Financial Accounting I	3
AC 322	Intermediate Financial Accounting II	3
AC 325	Cost Accounting	3
AC 330	Accounting Information Systems	3
AC 423	Federal Income Taxation - Individual	3
AC 425	Auditing	3
Graded upper-division elective hours in accounting, business data analytics, economics, or business		6
Total Hours		24

Candidates for the **Uniform Certified Public Accountant Examination** must also fulfill the subject matter requirements of the Kansas Board

of Accountancy. Students desiring to attempt the examination for the **Certificate in Management Accounting** must meet the requirements of the Institute of Management Accountants. Information regarding the CPA examination and the CMA examination may be obtained from the accounting faculty.

Business Data Analytics, Concentration

The business data analytics curriculum is designed to prepare students for professional employment in a wide variety of business firms managing and analyzing the ever-increasing flows of data resulting from normal business operations and processes. Utilization of these new sources of value requires business professionals with the analytic and visualization skills and training to put these new resources to work to solve business problems.

Learning Objectives for the Business Data Analytics Concentration

Upon completion of a concentration in business analytics, the students will be able to do the following:

- Find sources of data and demonstrate different methods for data collection.
- Demonstrate methods to transform data into useful, actionable information for solving business problems.
- Use modeling techniques to discover relationships among data.
- Use information-processing tools and models applicable to business management and decision making.
- Identify the regulations, privacy concerns, security issues, and ethical considerations of data management.
- Apply data discovery, organization, modeling, visualization, and analysis to a real-world project.

Concentration Requirements

The following courses are required for the business data analytics concentration:

Code	Title	Hours
DA 348	Data Discovery and Management	3
DA 358	Data Methods and Warehousing	3
DA 368	Data Mining and Modeling	3
DA 478	Data Analytics Applied - Practicum	3
Graded upper-division elective hours in accounting, business, business data analytics, or economics		12
Total Hours		24

Economics, Concentration

The economics curriculum is designed to provide the student with an understanding of the principles and institutions governing economic decisions made by households, businesses, and governments. This type of knowledge, combined with studies in related areas, provides an appropriate background for careers in financial and non-financial business firms and governmental agencies. It also provides a solid basis for graduate study in economics, business and public administration, urban planning, international studies, and law.

Learning Objectives for the Economics Concentration

Upon completion of a concentration in economics, students will be able to do the following:

- Find facts and interpret them consistent with economic thinking.
- Demonstrate an understanding of how decision makers allocate scarce resources to achieve economic efficiency.
- Apply economic tools to analyze decisions made by consumers, firms, and policy makers.
- Use economic models to analyze the impact of various fiscal, monetary, and trade policies on a nation's economy.

Concentration Requirements

The following courses are required for the economics concentration:

Code	Title	Hours
EC 300	Microeconomic Analysis	3
EC 301	Macroeconomic Theory	3
Additional upper-division economics hours		6
Graded upper-division electives in accounting, business, business data analytics, or economics		12
Total Hours		24

Entrepreneurship and Innovation, Concentration

The entrepreneurship and innovation curriculum is designed to educate students in the business start-up process and to apply innovative thinking and problem-solving in their chosen organizations, small or large, for-profit or non-profit, or in the public or private sectors.

Learning Objectives for the Entrepreneurship and Innovation Concentration

Upon completion of a concentration in entrepreneurship and innovation, students will be able to do the following:

- Explain the concepts and methods associated with innovation, entrepreneurship, and small business.
- Analyze markets and assess the potential of opportunities prior to developing the business plan.
- Demonstrate an understanding of the importance of creativity and innovation in the entrepreneurship process in a variety of organizational settings.
- Prepare a business plan and demonstrate knowledge of how to start and manage their own business.
- Analyze risk and uncertainty and understand how to reduce these factors in new ventures.

Concentration Requirements

The following courses are required for the entrepreneurship and innovation concentration:

Code	Title	Hours
BU 343	Entrepreneurship, Creativity, and Innovation	3
BU 369	Entrepreneurial Marketing	3
BU 370	Entrepreneurship Clinic	3
BU 389	Entrepreneurial Finance - Small Business	3
Graded upper-division elective hours in accounting, business, business data analytics, or economics		12
Total Hours		24

Finance, Concentration

The finance curriculum is designed to prepare students for (1) careers in government services, corporate financial management, commercial banking, security analysis, insurance, real estate, and other finance fields, and (2) graduate study. Students are encouraged to meet with faculty advisors as early as possible to plan a program which will fulfill their goals.

Learning Objectives for the Finance Concentration

Upon completion of a concentration in finance, students will be able to do the following:

- Demonstrate an understanding of interest rate determination and monetary policy.
- Demonstrate an understanding of agency issues in finance.
- Calculate and apply present value concepts to financial decisions.
- Demonstrate an understanding of the risk-return tradeoff and of insurable risk.
- Analyze accounting information to support financial decisions.

Concentration Requirements

The following courses are required for the finance concentration:

Code	Title	Hours
BU 483	Investments	3
BU 488	Financial Management	3
EC 485	Money & Banking	3
Select three hours from the following:		3
BU 374	Principles of Risk and Insurance	
BU 477	International Finance ¹	
BU 484	Applied Portfolio Management	
Graded upper-division elective hours in accounting, business, business data analytics, or economics		12
Total Hours		24

¹ BU 477 International Finance cannot be used to meet both the finance elective requirement and the Global Dynamics Requirement (GDR). If BU 477 International Finance is used as a finance elective, the BU 355 International Business or EC 410 International Economics must be used for the GDR.

General Business, Concentration

The concentration in general business allows the student the flexibility to design a 24-hour upper-division program using courses from several

or all areas in the School of Business in accord with his or her own interests and needs. Candidates for the degree of Bachelor of Business Administration with a concentration in general business must:

1. meet the University requirements,
2. meet the School of Business requirements, and
3. complete at least twenty-four (24) additional graded upper-division hours in accounting, business, business data analytics, or economics beyond those named courses required for all candidates for the BBA degree.

Learning Objectives for the General Business Concentration

Upon completion of a concentration in general business, students will be able to do the following:

- Apply quantitative and qualitative analysis and critical thinking to business problems.
- Explain how leadership capabilities affect the ability to structure and manage business organizations.
- Demonstrate knowledge of the application of ethical concepts to business issues.
- Explain the impact of global markets on business operations.
- Apply technology to the solution of diverse business issues and problems.
- Explain the impact of diversity on organizations.
- Explain the relationships among the above mentioned aspects of business.

International Business, Concentration

The international business curriculum is designed to equip graduates with skills suitable for employment at international and global enterprises. A student would understand advantages and challenges of doing business globally, understand different cultures, and be able to perform business tasks in a different cultural and professional environment.

Student Learning Outcomes for the International Business Concentration

Upon completion of the concentration in international business, students will be able to do the following:

- Critically assess costs and benefits of doing business internationally.
- Demonstrate familiarity with international business practices and select strategies suitable for firms entering and operating in global markets.
- Assess the impact of international business activities on functional departments within a firm.
- Identify risks associated with global operations and strategies for managing those risks.
- Demonstrate the ability to manage cultural and ethical challenges related to international business.
- Apply multicultural constructs to business tasks.

Concentration Requirements

The following courses are required for the international business concentration:

Code	Title	Hours
BU 356	Cross-Cultural Management	3
BU 368	International Marketing	3
BU 457	Multinational Enterprise Practices	3
EC 410	International Economics	3
or BU 477	International Finance	3
Additional graded upper-division elective hours in accounting, business, business data analytics, or economics		12
Select one of the following:		3-6
BU 406	International Business and Entrepreneurial Experience ¹	
University-approved study abroad or an international internship ¹		
Six credit hours of course work in one of the modern foreign languages at the intermediate level or above		
Total Hours		27-30

¹ Credits earned may be counted to fulfill the twelve additional upper-division elective hours in accounting, business, or economics requirement.

Note: Courses taken to fulfill the requirements of the international business concentration cannot be used to simultaneously meet the Global Dynamics Requirement (GDR) for the BBA degree. Therefore, a student seeking a BBA degree with a concentration in international business will have to take the total of five courses with international content. While most students will use BU 355 International Business to meet the GDR, students who have already met the GDR by taking EC 410 International Economics or BU 477 International Finance will be required to take either the other course from that pair or BU 355 International Business. BU 406 International Business and Entrepreneurial Experience cannot be used to meet the GDR, but can be used as a business elective.

Management, Concentration

Management courses in the fields of organization theory, human relationships, administrative communication, and related behavioral areas provide students with pertinent background for management careers in business and non-business organizations. Students may focus their studies in the areas of personnel management, industrial relations, and industrial management by selecting appropriate elective courses in consultation with an advisor.

Learning Objectives for the Management Concentration

Upon completion of the concentration in management, students will be able to do the following:

- Describe the critical functions of human resource management and how they fit with other organizational functions and strategy.
- Demonstrate how an understanding of human behavior can solve interpersonal problems in organizational settings.

- Demonstrate proficiency in written and oral communications.
- Demonstrate how economic thought influences management decision making.

Concentration Requirements

The following courses are required for the management concentration:

Code	Title	Hours
BU 345	Human Resources Management	3
BU 346	Organizational Behavior	3
EC 341	Labor Economics	3
Select three hours from the following:		3
BU 302	Business Communications	
BU 356	Cross-Cultural Management	
BU 457	Multinational Enterprise Practices	
Graded upper-division elective hours in accounting, business, business data analytics, or economics		12
Total Hours		24

Marketing, Concentration

The marketing curriculum involves analysis of the ways business firms plan, organize, administer, and control their resources to achieve marketing objectives. Through proper selection of courses, a student may prepare for a career in general marketing management, promotion management, personal selling and sales management, marketing research, channels management, and/or retail management.

Learning Objectives for the Marketing Concentration

Upon completion of a concentration in marketing, students will be able to do the following:

- Conduct and present a comprehensive consumer behavior audit.
- Analyze a company's existing product, determine its positioning in the marketplace, and develop a marketing mix strategy reflective of its positioning.
- Prepare and defend a marketing plan for a company by integrating appropriate concepts and methods.
- Develop a marketing research plan and defend its procedural soundness.
- Demonstrate an understanding of the stages of the sales process and the way these stages are implemented.
- Demonstrate an understanding of the global marketplace and how to design marketing strategies that are appropriate for various cultures and countries.

Degree Requirements

The following courses are required for the marketing concentration:

Code	Title	Hours
BU 362	Marketing Research	3
BU 364	Consumer Behavior	3
BU 471	Marketing Management	3
Select three additional hours from the following:		3
BU 361	Principles of Retailing	

BU 363	Promotion	
BU 366	Sales	
BU 368	International Marketing	
BU 369	Entrepreneurial Marketing	
BU 371	Digital Marketing	
BU 473	Marketing Channels	
Graded upper-division elective hours in accounting, business, business data analytics, or economics		12
Total Hours		24

Programs of Interest to Both Non-Business and Business Majors

The School of Business offers several academic programs for students whose bachelor degree or degree programs are not in business. These programs include:

- Minor in Business Data Analytics (p. 336)
- Minor in Economics (p. 136)
- Minor in International Business (p. 336)
- Certificate in Entrepreneurship (p. 336)
- Kansas Insurance Certificate (p. 336)

The Minor in Business Data Analytics, the Minor in Economics, the Minor in International Business, the Certificate in Entrepreneurship, and the Kansas Insurance Certificate can be earned by any student as part of any Washburn University bachelor degree program. However, the Minor in Business is not available to BBA majors. For more info regarding the Minor in Business, see Programs only available to Non-Business Majors (p. 337) section.

Visiting students and Washburn University students not seeking a BBA degree, minor, or certificate offered by the School of Business are welcome to enroll in most undergraduate courses offered by the School of Business (unless otherwise designated) provided they, like BBA students, meet the course, hours, and GPA prerequisites for the course as noted in the class schedule and Washburn University catalog. Questions should be directed to the Director of Student Affairs in the School of Business office. Final determination as to whether prerequisites have been met resides in the Dean's Office. **Note:** The prerequisites of a course include the prerequisites of its prerequisite courses.

The Master of Accountancy program is open to Washburn senior accounting students and to students with a bachelor's degree in accounting, or its equivalent, without regard to major, provided they meet the course prerequisite requirements and the requirements for admission. The Master of Business Administration program is open to students with a bachelor's degree, or its equivalent, without regard to major, provided they meet the requirements for admission. The process of admission to both the Master of Accountancy and the MBA programs requires an application to Washburn University as well as a separate application for admission to the program. See Graduate (<https://catalog.washburn.edu/graduate/school-business/>) section of the catalog for more information.

Economics, Minor

Minor Requirements

The Minor in Economics can be earned by candidates for any bachelor's degree offered by Washburn University. The economics faculty has approved the following requirements for the optional minor:

Code	Title	Hours
EC 200	Principles of Microeconomics	3
EC 201	Principles of Macroeconomics	3
Economics courses numbered 300 or above		9
Approved course in statistics		3
Total Hours		18

A grade of C or better must be earned in each course used to satisfy the requirements of the minor and half of the credit hours in the economics

courses used to meet minor requirements must be earned at Washburn University. Please see the current advising sheet for the minor in economics for further details.

Business Data Analytics Minor

The School of Business Minor in Business Data Analytics is designed for non-Business (non-BBA) students who are interested in enhancing their area of study with the understanding of Data Analytics. Students must successfully complete 15 hours as specified below:

Code	Title	Hours
EC 211	Statistics for Business and Economics	3
BU 250	Management Information Systems	3
BU 258	Foundations of Data Analysis	3
DA 348	Data Discovery and Management	3
DA 358	Data Methods and Warehousing	3
or DA 368	Data Mining and Modeling	
Total Hours:		15

International Business, Minor

The Minor in International Business provides students with the opportunity to gain an understanding of the special considerations and implications of operating a business in a global environment. Students completing the minor will have an introduction to the basic economics, management, and marketing principles as applied by business today. Students will be exposed to the language and operation of business in a multinational and national environment.

Minor Requirements

The Minor in International Business provides students with the opportunity to gain an understanding of the special considerations and implications of operating a business in a global environment. Students completing the minor will have an introduction to the basic economics, management, and marketing principles as applied by business today. Students will be exposed to the language and operation of business in a multinational and national environment. For more information, see the School of Business (p. 319) section of this catalog.

Required business and economics courses include:

Code	Title	Hours
BU 101	Introduction to Business ¹	3
EC 200	Principles of Microeconomics	3
EC 201	Principles of Macroeconomics	3
BU 355	International Business	3
BU 368	International Marketing	3
EC 410	International Economics	3
Cross-cultural course approved by the International Business Advisor		3
Select one of the following:		3-6
BU 406	International Business and Entrepreneurial Experience	
University-approved study abroad or an international internship ²		

Six credit hours of course work in one of the modern foreign languages at the intermediate level or above	
Total Hours	24-27

- ¹ AC 224 Financial Accounting and AC 225 Managerial Accounting may be substituted for BU 101 Introduction to Business for the purpose of this minor.
- ² Credits earned from the study abroad may be counted to fulfill other university program requirements.

A grade of C or better must be earned in each course used to satisfy the requirements for the minor. Half of the hours used to satisfy these course requirements must be earned at Washburn University.

For further information, please contact the Office of the Dean, School of Business.

Entrepreneurship, Certificate

The Certificate in Entrepreneurship program is open to all students from all majors at Washburn University. It is designed for the student who seeks to be an entrepreneur in a start-up venture, operate a family business, or work as an entrepreneurial change agent within a corporate setting.

Students should notify the School of Business of their intent to pursue the certificate and consult with a School of Business advisor regularly. The awarding of the Certificate in Entrepreneurship is independent of the graduation date of degree-seeking students. **Note:** Due to Federal regulations, students completing the certificate independently from a Washburn degree program will not be able to receive federal financial aid for the certificate program.

Certificate Requirements

The certificate program requires four three-credit-hour courses. A grade of C or better must be earned in each course used to satisfy the requirements of the certificate.

Code	Title	Hours
Required Courses		
BU 115	Entrepreneurship and Entrepreneurship Law	3
or BU 101	Introduction to Business	
BU 260	Business Plan Development	3
BU 343	Entrepreneurship, Creativity, and Innovation	3
BU 370	Entrepreneurship Clinic	3
Total Hours		12

Kansas Insurance Certificate

The Kansas Insurance Certificate provides academic preparation for students who want to pursue a career in the insurance and financial services industries. While the program is offered in partnership with several Kansas Regents universities, all coursework may be completed at Washburn University.

Certificate Requirements

The program requires four (4) three-credit-hour courses for business or non-business students. A grade of C or better must be earned in each

course and at least six hours must be earned at Washburn University. Some courses have prerequisite requirements. However, prerequisites normally are met as part of the student's major program.

Code	Title	Hours
Required classes for the Kansas Insurance Certificate		
BU 374	Principles of Risk and Insurance	3
BU 378	Life and Health Insurance	3
Select six hours from the following:		6
MA 385	Actuarial Mathematics	
BU 366	Sales	
BU 483	Investments	
BU 499	Internship in Business ¹	
An additional course offered online from one of several Kansas Regents Universities or another approved Washburn University course in the insurance or financial services areas		
Total Hours		12

¹ The internship must be insurance- or financial services-related.

The awarding of the Kansas Insurance Certificate is independent of the graduation date of degree-seeking students. **Note:** Due to Federal regulations, students completing the certificate independently from a Washburn degree program will not be able to receive federal financial aid for the certificate program.

Programs available only to Non-Business Majors

The Minor in Business (p. 337) is not available to students who are pursuing one of the business concentrations. It is only available to Non-Business Majors.

Business, Minor

The Minor in Business is designed to provide the non-business student with an understanding of the essentials of business methods and practices. This minor is not available to students majoring in any of the business concentrations.

Minor Requirements

The requirements are as follows:

Code	Title	Hours
AC 224	Financial Accounting	3
EC 200	Principles of Microeconomics ¹	3
EC 201	Principles of Macroeconomics ¹	3
Select one of the following:		3
BU 342	Organization & Management	
BU 345	Human Resources Management	
BU 346	Organizational Behavior	
Additional nine hours from accounting, business, or economics (in courses numbered 200 and above), including six hours at the upper-division level.		9
Total Hours		21

¹ One of these courses can count towards the fulfillment of general education requirements in the Social and Behavioral Science distribution area.

A grade of C or better must be earned in each course used to satisfy the requirements for the minor. Half of the hours used to satisfy the requirements of the minor must be earned at Washburn University.

Mission Statement

Washburn School of Nursing prepares professional nurse leaders to provide quality healthcare for everyone.

Philosophy

The nursing faculty believe each human being is a unitary, living open system and is continually engaged in a mutual dynamic process with the environment. Individuals are unique, have inherent worth, and strive to maintain system integrity while progressing through the life process from conception through death. Individuals, families, and communities are open systems engaged in mutual dynamic process with the environment.

Nursing is a health profession which is concerned with promoting the quality of life in individuals, families, and communities. The deliberative and creative use of knowledge for the betterment of human beings is expressed in the science and art of nursing. The nurse, at all levels of preparation, is responsible for assisting the client in recognizing and coping with health needs throughout the life process. Through

application of the nursing process, the nurse functions as a provider of care, a designer/coordinator/manager of care, and as a member of the profession.

Nursing is a practice profession that values clinical expertise and the application of scientific knowledge. Professional education in nursing begins at the baccalaureate level. The purpose of professional nursing education is to provide the knowledge, skills, and attitudes necessary for the student to become a professional nurse and to have the foundation for graduate education. General education in the humanities and in the natural and social sciences provides a broad foundation for understanding and augmenting nursing theory and facilitates the development and integration of the nursing student as a professional person.

The student who attains a graduate degree in nursing becomes a specialized practice expert who demonstrates expanded accountability and responsibility for the care of patients, populations, and systems. In addition to the direct practice role, the graduate also demonstrates expertise in the following competencies:

- Scientific underpinnings for practice.
- Organizational and systems leadership for quality improvement and systems thinking.
- Clinical scholarship and analytical methods for evidence-based practice.
- Information systems/technology for the improvement and transformation of health care.
- Health care policy for advocacy in health care.
- Interpersonal collaboration for improving patient and population health outcomes.
- Prevention of disease and promotion of population health.
- Advancing nursing practice.

Learning is a complex, mutual process of growth and development identified by changes in the behavior of the learner. Each student is unique in life experiences, motivation for learning, and scholastic aptitude. The educational process is designed to provide opportunities for students to meet individual learning needs. The role of the nurse educator is to facilitate the learning process. Students are responsible for learning.

The philosophy and purposes of the School of Nursing are consistent with the mission of Washburn University. The School of Nursing is a major academic unit within the University and is responsible for determining its own professional curriculum and instruction. The richness of resources within the university and community provide opportunities for faculty and students to make significant contributions to health care delivery in a changing, multicultural society.

General Policies

Equal Educational Opportunity

It is the policy of Washburn University to assure equal educational and employment opportunity to qualified individuals without regard to race, color, religion, age, national origin, ancestry, disability, gender, marital or parental status, or sexual orientation.

HIPAA Requirements

Students will receive HIPAA (Health Insurance Portability and Accountability Act) training prior to attending clinical. This training is mandatory for all nursing students.

Completion of Prerequisite Courses

All prerequisite courses must be successfully completed with a grade of C or better before beginning the upper division nursing courses.

Clinical Placement

Students participate in a wide variety of clinical experiences. Clinical experiences may be during the week, on weekends, in the evenings, and outside the Topeka area. With increased class size, students should expect to travel to clinical agencies outside Topeka.

Retention and Progression in the Major

Following admission to the nursing major, a student's progress is evaluated by the Undergraduate Admission, Progression, and Retention (UAPR) Committee upon completion of each nursing course. The School of Nursing follows the University policy of requiring attainment of a minimum grade of C in all required nursing courses.

Grades of Incomplete for Nursing Courses

Course grades of incomplete are given under specific conditions as outlined in the University catalog. In the event that a grade of incomplete has been awarded to a student, the student must complete course work in sufficient time so that a final course grade can be awarded one week prior to the next semester. Students may not progress to the next semester without special permission from the Dean.

Academic Warning and Dismissal

A minimum grade of C is considered a passing grade in all nursing courses.

If a student receives a final grade of D or F in a nursing course the student will be placed on Academic Warning. Withdrawing from a course is considered a failing grade. The student may be allowed to repeat the course after approval by the UAPR committee and on a space-available basis. Students repeating courses should expect a delayed graduation date due to prerequisites required by each level.

If a student has 2 failures in the same course the student will be dismissed from the program. Students have 4 years to complete the BSN degree beginning once they start level 1 nursing courses.

Non-Academic Dismissal

To remain in the BSN program at Washburn University students must:

- Adhere to the nursing profession's Code of Ethics.
- Adhere to the School of Nursing Code of Professional Conduct for Nursing Students located in Student Handbook.
- Adhere to the professional conduct requirements outlined in the rules and regulations of the Kansas Nurse Practice Act.
- Adhere to Washburn University's Student Conduct Code and academic impropriety policy as described in the Washburn University Catalog and Student Planner and Handbook.

Students are expected to exhibit professional behavior in the classroom, on campus, and in the practicum settings. Such behavior must reflect the

values and ethics of the nursing profession. Should a student be able to perform academically and clinically, yet demonstrate behaviors, values, or attitudes inconsistent with professional nursing practice, non-academic dismissal from the BSN program will be considered. This decision is governed by specific criteria, policies, and procedures as published in the University Catalog and Student Planner and Handbook. The School of Nursing follows the reporting and disciplinary procedures as presented in the Washburn University Student Conduct Code.

Withdrawal from the Nursing Major

A student who wishes to withdraw from the nursing major should present to the Dean of the School of Nursing a written statement of intent to withdraw. An official University withdrawal must be completed in person at the Student One Stop in Morgan Hall Room 101A. Re-application to the School of Nursing will be necessary should the student desire to re-enter the nursing program.

Nursing Skills Competency Following an Absence

Students who have been absent from a baccalaureate nursing program for more than one semester must pass a skills competency examination. The competency exam must be successfully completed the week prior to the beginning of the semester. The student may access the Learning Center resources for review of skills. Students who do not pass the competency exam will be reviewed by the UAPR Committee for decisions regarding remediation or course placement.

Appeal Procedure for a Student Dismissed from the Nursing Major

The student must provide a written request to the Chairperson of the UAPR Committee regarding reconsideration and stating their reasons for disagreement with the decision of the Committee. The letter to the UAPR Committee should include the following:

- an explanation for the situation surrounding the grades received,
- rationale for continuing in the program, and
- a plan of action for future academic success.

The UAPR committee will review above, and the decision by the committee will be final.

Attendance

Regular attendance (both in person and online) at all classes and clinical experiences is expected as a part of professional responsibility and is required of all nursing majors. Students are expected to notify the nursing course instructor in advance when there is need to be absent from a class or clinical experience. Students are required to make up missed clinical time. Students who have missed an excessive portion of a given course may be withdrawn from the course or receive a failing grade.

Health Clearance Requirements

A health examination, together with prescribed laboratory tests and immunizations, including Hepatitis B vaccine (or signed waiver), is a requirement for entrance into the nursing major. A flu immunization is required for all students. The completion of health clearance requirements is each student's responsibility. The School of Nursing has partnered with Verified Credentials to track pre-licensure student health clearance records and to conduct pre-entrance background

checks and drug screens. Students will be provided simple instructions on how to submit their health clearance documentation and will be assessed a fee upon signing up on the Verified Credentials website. Any questions or concerns regarding uploading documents should be directed to Verified Credentials via their website chat feature, email (clientservices@verifiedcredentials.com) or phone (800.938.6090). Nursing students must submit all health clearance requirements by July 1st for the Fall semester, and December 1st for the Spring semester. Students may not participate in any clinical practicums without being compliant with all their health clearance requirements. Failure to comply with health clearance deadlines may result in disenrollment from the program.

Many clinical sites used by the Washburn University School of Nursing of practical experiences are now requiring proof of the COVID-019 vaccination and/or testing for nursing students. The School of Nursing must follow each clinical partner's health clearance requirements.

The student is responsible for renewing health clearance information annually, by July 1 or December 1 (corresponding to the initial admission date to the nursing major), with his/her personal physician or through the University Student Health Service. Forms for the Annual Health Examination are available through Verified Credentials. Any expenses associated with health examinations or incurred during the course of study in the nursing major are borne by the student.

All nursing students are required to carry personal health insurance and to show verification of a health insurance policy. A group health insurance program is available to all students on an annual basis through the university. All international students, unless they have evidence of other health insurance, must participate in the University sponsored insurance program which is available at each registration period. The cost of the health insurance is the student's responsibility.

CPR Certification

Current certification in Cardiopulmonary Resuscitation (CPR for the Professional Rescuer) is required for all nursing students. Students are responsible for completing the CPR requirement prior to entering the nursing major and for keeping the certification current throughout the nursing program.

Student Liability Insurance

A group liability insurance policy is provided through Washburn University at no cost to students admitted to the nursing major. The policy protects nursing students only when they are engaged in clinical learning experiences under Washburn nursing faculty supervision.

Background Checks and Drug Screen

A criminal background check and drug screen will be completed on students admitted to the School of Nursing prior to onset of first semester. Students must complete the process with the company designated by Washburn University and are responsible for all costs related to completing the background checks. Background clearance and drug screen must be completed and available to the School of Nursing by July 1 for the fall semester and December 1 for the spring semester. Students who have not been cleared by this date will not be permitted to begin the semester, regardless of the outcome of the background check.

Nursing Students Employed by Clinical Agencies

Acknowledging the multiple roles in which students may function during their time in nursing school, it is important that role boundaries be maintained. Role boundaries may be applicable for students employed by the University as student workers, graduate students employed as School of Nursing faculty, as well as students who are employed by clinical agencies.

Students do not represent the University or the School of Nursing while working in an employment setting off campus. Students must maintain awareness of the boundaries that separate their performance and action as students from how they may function in roles outside of the SON educational setting.

Guidelines to demonstrate understanding of student versus employee roles include, but are not limited to the following

- Students shall not wear Washburn University scrubs and identification badges when employed in a clinical setting.
- Students shall not perform tasks or assume responsibilities in an employment setting not included in their job description.
- Students employed by Washburn University shall not share confidential or privileged information for which they may have access.
- Use of office equipment/materials is permitted, for faculty employment or tutoring services, but may not be used for personal assignments.

Students who demonstrate any role boundary problems will be counseled regarding these actions, which may result in sanctions by the either the Undergraduate Admissions, Progression and Retention Committee (UAPR) or the Graduate Admissions, Progression and Retention Committee. Washburn University liability insurance does not cover nursing students under employment conditions.

Policy Statement on Chemical Dependency

The School of Nursing, as a unit within Washburn University, prohibits the unlawful possession, use or distribution of illicit drugs and alcohol by students on University property or as part of any School of Nursing activities on or off campus. The School of Nursing faculty will follow federal, state and local laws as indicated in the Washburn University Student Disciplinary Code and Drug Free Workplace policy. Violators will be subject to disciplinary action by the University in accordance with University policies and procedures.

The School of Nursing will require students applying for admission to the School of Nursing to disclose any current chemical dependency and the nature of treatment being received. The School of Nursing will communicate to students the requirements of the Kansas State Board of Nursing for chemically dependent students who apply for licensure.

The School of Nursing defines chemical dependency as an illness in which alcohol and/or drug use interferes with the person's ability to function safely and affects the person's physical, emotional and social health. Chemical dependency is characterized by physical and psychological dependence on drugs/alcohol and if untreated causes health, social and legal problems, and possibly death. The School of Nursing faculty believes it has a professional and ethical responsibility

to students and patients to provide a safe teaching and learning environment.

The School of Nursing faculty will confront students who show signs of chemical dependency, or in whom there is suspicion of chemical dependency, and direct them into further assessment and evaluation. Drug screening is required of all students in certain clinical settings and also may be required at any time if suspicion of alcohol and/or drug use exists. When there is evidence of chemical dependency, students will be directed into a treatment program. Continuation of chemically dependent students in the School of Nursing depends on compliance with the treatment program and with the terms of a contract initiated by the Dean of the School with the student. The faculty will maintain a supportive attitude toward chemically dependent students during their treatment program and in the follow-up period. The faculty believes that students who comply with treatment and remain drug free can become safe practicing nurses.

Student Academic Integrity Policy

Academic integrity is essential for maintaining a standard of professional behavior expected of all students enrolled in the School of Nursing. Becoming a member of the School of Nursing obligates implicit and explicit adherence to academic integrity.

Academic integrity implies honesty in all aspects of the educational process and is essential for promotion of an optimum learning environment, and for the development of personal and professional responsibility and accountability in nursing students. Students in the School of Nursing are expected to conduct themselves in a professional manner according to the ANA Code for Nurses (see Student Handbook) and to adhere to all School of Nursing and University policies in any endeavor associated with School of Nursing activities, either on or off campus. Dishonesty, disruption of learning experiences, or any other form of academic impropriety or misconduct will not be tolerated. A partial list of proscribed behaviors pertaining to academic misconduct in the School of Nursing is included below. See also the University Student Disciplinary code (both of which are included in the University Catalog). A student shall be subject to disciplinary action or sanction upon violation of any of the following conduct proscriptions:

1. Disruption and disorderly conduct which interferes with the rights and opportunities of other students to pursue their academic studies.
2. Academic impropriety including, but not limited to:
 - Cheating on tests.
 - Copying from another student's test paper.
 - Using materials during a test not authorized by the person giving the test.
 - Collaboration with any other person during a test without authorization.
 - Attempting to obtain, or knowingly obtaining, using, buying, selling, transporting or soliciting in whole or in part the contents of an unreleased test or information about an unreleased test.
 - Bribing another person to obtain a copy of an unreleased test or information about an unreleased test.
 - Substituting for another student or permitting any other person to substitute for oneself to take a test.
 - "Plagiarism," which means the appropriation of any other person's work and the unacknowledged incorporation of that work in one's own work offered for credit.

- Submitting the same work for more than one course, unless authorized to do so by the instructors of all the courses in question.
 - "Collusion," which means the unauthorized collaboration with any other person in preparing work offered for credit.
3. Filing a formal complaint with the Associate VP of Student Life, University Police or other University officials(s) with the intention of falsely accusing another with having violated a provision of this code.
 4. Furnishing false information to the University with the intent to deceive, the intimidation of witnesses, the destruction of evidence with the intent to deny its presentation to University Officials.
 5. Forgery, alteration, unauthorized destruction, unauthorized use or misuse of university documents, records, identification cards, or computer services.
 6. Physically abusing, harassing, or intentionally inflicting severe emotional distress upon a member of the University community on or off campus; or physically abusing, harassing or intentionally inflicting severe emotional distress upon a non-member of the university community on campus or while engaged in university activities off campus.
 7. Intentional disruption or obstruction of teaching, research, administration, disciplinary proceedings, or other university activities or programs whether occurring on or off campus or of activities or programs authorized or permitted by the university to be conducted on campus.
 8. Unauthorized entry upon the property of the university or into a university facility or any portion thereof, including a computer file, which has been reserved, restricted in use, or placed off limits; unauthorized presence in any university facility after closing hours; or unauthorized possession or use of a key to any university facility.
 9. Violation on campus of any state or federal law or violation of any state or federal law off campus while participating in any university sponsored activity, including but not limited to sex offenses and/or sexual assault as defined by the laws for the State of Kansas.

Other Information

Program Expenses

Tuition and fees are established by the University Board of Regents and are subject to change at any time. Nursing courses are assessed at a higher per credit hour tuition rate than other undergraduate courses. Nursing students should anticipate additional costs for physical examinations, laboratory tests, immunizations, health insurance, CPR certification, laboratory supplies, textbooks, uniforms, transportation to clinical agencies, RN licensing fees, nursing pin, and graduation fees. Nursing students also are expected to have a bandage scissors, stethoscope, and other laboratory equipment. Laboratory packets are a required purchase. ATI - Assessment Technologies Institute is a product students are required to use for the duration of the Undergraduate nursing program. The cost for this product is billed at the beginning of each semester for four semesters to the student's account.

Nursing majors will be required to complete a comprehensive assessment and review program in preparation for registered nurse licensure. Students will receive curricular materials each semester and complete normative examinations in specific content areas in the second, third and fourth semesters of the curriculum. Students must pass the RN Comprehensive Predictor Exam to successfully complete NU 494 Capstone/Seminar. The minimum passing score on the RN

Comprehensive Predictor Exam, as noted in the NU 494 syllabus, is subject to change as the exam is revised on a regular basis.

Scholarships, Grants and Loans

Students who have been admitted to the School of Nursing and have above average academic records and/or a demonstrated financial need may apply for nursing scholarships through the School of Nursing. The application form is available on the School of Nursing website: <https://www.washburn.edu/academics/college-schools/nursing/index.html> (<https://www.washburn.edu/academics/college-schools/nursing/>). Nursing endowed scholarships are awarded by recommendation of the Dean of the School of Nursing. The Financial Aid Office disburses awards to student accounts. Deadlines for application for Fall and Spring Scholarships are February 15 and October 15 respectively. The Financial Aid Office (<https://www.washburn.edu/admissions/paying-for-college/financial-aid/>) has additional information on other types of financial assistance available.

Student Nursing Organization

Student Nurses of Washburn - SNOW (See description and membership eligibility in Pre-licensure BSN Student Handbook).

Honors for Graduating Seniors

Nursing students who demonstrate academic excellence are recognized at the completion of their course of study. Two Honors designations are recognized. Both designations require Faculty Consensus Commendation to receive either School of Nursing Honors or School of Nursing Scholar. See the School of Nursing Pre-licensure BSN Student Handbook for complete details.

Graduation Awards

Members of each graduating class are eligible to be nominated and selected by the faculty for School of Nursing Awards. Criteria for each award is detailed in the Pre-licensure BSN Student Handbook. The awards include the Aletha J. Cushinberry Professionalism in Nursing Award; the Alice Jensen Award, the Spirit of Nursing award, and the Alice Young Award.

Dean's Honor Roll

Students whose grade point average for the semester is equivalent to 3.40 or better are honored by having their names placed upon the Dean's Honor Roll.

President's Honor Roll

Students whose grade point average for the semester is 4.00 are honored by having their names placed upon the President's Honor Roll and they are so notified by the President.

ROTC Programs

The University of Kansas has an Army ROTC, Navy ROTC and Air Force/Space Force which offer a cross-town enrollment program for nursing students interested in obtaining a commission.

Kansas State University has an Army ROTC and Air Force ROTC Unit which offer a cross-town enrollment program for nursing students interested in obtaining a commission.

Degrees

- Pre-Licensure BSN (p. 345)
- LPN to BSN (p. 350)
- RN to BSN (p. 351)

Course Offerings

NU 102 Medical Terminology (1)

Introduction to basic terminology used in medical reports and treatment recommendations. Word compositions, prefixes, suffixes, and roots of medical terms are studied in relation to body systems. Extensive use of audiovisual media.

NU 220 Principles of Nutrition (3)

Principles of normal nutrition with emphasis on nutrient interrelationships, dietary assessment, and nutritional needs through the life cycle. Recommend students take BI 100 / BI 101 prior to this course.

NU 301 Applied Pharmacology for RNs (2)

Builds on previously learned knowledge of anatomy, physiology, chemistry, and genetics and introduces concepts of pharmacologic therapy for collaborative nursing practice. Selected medication categories are studied with emphasis on nursing responsibility, accountability, and safety. Case study-based critical thinking exercises focus learning on lifespan issues, patient assessment, and therapeutic response. Prerequisite: Admission to RN to BSN Program.

NU 302 Nursing for Military Healthcare Personnel (2)

This course content covers the assessment and nursing skills that supplements the content from the 68W or equivalent medic training. Students will learn additional assessment and nursing skills to enhance role development as a professional nurse. This is important information that will develop the knowledge, skills, and attitudes to provide holistic nursing care across the lifespan. Prerequisite: Admission to the Nursing program and approved military training (68W or equivalent).

NU 306 Health Assessment & Promotion (4)

This course introduces the processes of health assessment and promotion including interviewing, history-taking, physical assessment, and health education across the lifespan. Incorporated throughout the course is the importance of assessing a culturally diverse population. Prerequisite: Admission to the nursing major.

NU 310 Pathway to Nursing Student Success Elective (0)

This course reinforces strategies to promote successful completion of the Pre-licensure BSN program. It focuses on time management, test-taking skills, learning strategies, study methods, and individualized student success activities. It is required for students who are unsuccessful in an upper-division nursing course. Prerequisites: Admission to the Nursing Major.

NU 311 Medical/Surgical I: Fundamentals of Nursing/Practicum (6)

This course introduces nursing as a professional discipline. It is designed to provide the student with the evidence-based theory, rationale, and procedure for performing the skills needed for entry level nursing practice. Prerequisite: Admission to the nursing major.

NU 312 Clinical Concepts I (3)

The first of two courses designed to strengthen and enhance learner knowledge about physical assessment, pathophysiology, and pharmacology for major health problems. Exploration will include cellular, immune, lymphatic, circulatory, respiratory, gastrointestinal, and renal systems. Learners are challenged to enhance their comprehension of health promotion, disease prevention, and disease management strategies that improve the care of healthy and compromised individuals, groups, and populations.

NU 314 Clinical Concepts II (3)

The second of two courses designed to strengthen and enhance learner knowledge about physical assessment, pathophysiology, and pharmacology for major health problems. Exploration will include endocrine, neurological, musculoskeletal, integumentary, and reproductive systems. Learners are challenged to enhance their comprehension of health promotion, disease prevention, and disease management strategies that improve the care of healthy and compromised individuals, groups, and populations.

NU 317 Applied Health Assessment for RNs I (2)

Focuses on comprehensive health assessment skills for the professional registered nurse. Expands on health assessment knowledge with an emphasis on health history, critical thinking, clinical reasoning, and advanced physical assessment techniques. Health assessment principles and techniques are expected to be identified and applied to health issues across the lifespan. Incorporated throughout the course is the importance of communication and collaboration across culturally diverse populations and developmental dimensions. Students are expected to identify and apply pathophysiological principles to selected health issues across the lifespan. This fully online course includes virtual simulation experiences. Prerequisite: Admission to RN to BSN Program.

NU 318 Professional Transformation I: Becoming a Nurse (1)

This course introduces professional nursing expectations with an emphasis on the principles of therapeutic relationships, ethics, self-reflection, and communication. Prerequisite: Admission to the nursing program.

NU 319 Applied Health Assessment for RNs II (2)

Focuses on the continuation of comprehensive health assessment skills for the professional registered nurse. Expand existing skills and knowledge processes of health assessment to include history taking, physical assessment, and application of clinical reasoning and critical thinking. Emphasis is placed on health promotion and disease prevention across the lifespan. Students are expected to identify and apply pathophysiological principles to selected health issues across the lifespan. Students also synthesize nursing knowledge and physical assessment skills to complete comprehensive health assessments on complex patient scenarios. This fully online course includes virtual simulation experiences. Prerequisite: NU 317 and Admission to RN to BSN Program.

NU 320 Pathophysiology I (3)

This course introduces pathophysiologic concepts related to the functional and structural changes that accompany disease processes. The course focuses on the general mechanisms of disease, and the application of the basic concepts to body systems and selected disease processes. Prerequisite: Admission to nursing major or permission of instructor.

NU 321 Professional Transformation (3)

Introduces professional nursing expectations. Students learn to establish therapeutic relationships as the foundation of professional nursing practice and personal accountability. The communication of theory of TEAMSTEPPS is incorporated throughout the course. The value of self-care and reflection in relation to professional transformation is also explored. Prerequisite: Admission to RN to BSN Program.

NU 322 Pharmacology I with Lab (2)

This course introduces the principles of pharmacokinetics, pharmacodynamics, and pharmacogenetics for major drug classes. This includes basic drug dosage calculations and safe medication administration to a culturally diverse population. Prerequisite: Admission to nursing major or consent of instructor.

NU 323 Applied Pathophysiology for RNs I (2)

Designed for the professional registered nurse building on current knowledge and experience. Focuses on mechanisms of disease and recognition of the importance of clinical management across the lifespan. Students analyze risk factors and clinical manifestation associated with pathophysiological changes. Emphasis is placed on interpretation and prioritization of data. Prepares the professional nurse to critically approach complex situations systematically. Prerequisite: Admission to RN to BSN Program and NU 317 (can be taken concurrently).

NU 324 Pathophysiology II (2)

This course focuses on the application of basic pathophysiology concepts to body systems and disease processes. Etiology of disease, prevention, manifestations, laboratory, and diagnostic tests are discussed to provide a foundation to understand an individual's illness experience. Prerequisite: NU 320 or consent of instructor.

NU 325 Nursing Informatics (2)

This course introduces information and technology literacy necessary to improve quality and safety in nursing practice. Prerequisite: NU 311 or consent of instructor.

NU 326 Pharmacology II (2)

This course emphasizes pharmacotherapeutic agents used in the prevention, promotion, maintenance, and restoration of health in treating various diseases. Nursing implications and patient/family education relative to the drug therapies are examined. Prerequisite: NU 322 or consent of instructor.

NU 327 Applied Pathophysiology for RNs II (2)

Designed for the professional registered nurse and builds on current knowledge, experience, and Applied Pathophysiology I. Presents the pathophysiology of common variations according to body systems. Students analyze risk factor and clinical manifestations associated with pathophysiological changes. Emphasis continues to be placed on interpretation and prioritization of data, as well as on disease prevention and health promotion. Prerequisite: Admission to RN to BSN Program, NU 323, and NU 319 (can be taken concurrently).

NU 328 Evidence Based Nursing (2)

This course introduces the principles of nursing research and application through evidence-based practice. Prerequisites: MA 140 or equivalent and NU 311.

NU 329 Introduction to Nursing Informatics (3)

Provides a systematic application of information and computer technology to related nursing practice. Emphasis is on integrating nursing practice systems and information technology. Examination of the evolution, future, and role of nursing informatics is discussed. Prerequisite: Admission to RN to BSN Program.

NU 330 Indep Study - Nursing (1-3)

Advanced study and/or guided learning experiences in a selected area of nursing. Student defines objectives and learning experiences and selects faculty preceptor. Prerequisite: Consent.

NU 333 Stress Management for Nurses (2)

Discussion of stress theory and the effects stress has on the nurse, professionally and personally. Introduction and application of a variety of stress reduction interventions will be incorporated into each class. Prerequisite: NU 311.

NU 334 Interpreting Lab Tests and Diagnostic Modalities (2)

Interpretation of results of laboratory tests and diagnostic procedures with implications for nursing care of clients. Exploration of new technology used in diagnostic modalities. Prerequisite: NU 311.

NU 335 Special Topics/Nursing (0-3)

Selected subjects of relevance for nursing, announced in advance. Prerequisite: Consent.

NU 338 Nursing for Pain Management (2)

Application of nursing theoretical concepts in the care of clients with pain and comfort needs. Exploration of the nature of the pain experience, theories of pain transmission, types of pain and nursing interventions in the management of pain. Upper division nursing course designed to supplement basic knowledge in the care of patients with pain. Prerequisite: NU 311.

NU 341 Evidence-Based Nursing (3)

Emphasizes appraisal of research studies as the foundation for evidence-based nursing practice. Prerequisite: Admission to RN to BSN Program.

NU 344 Health Promotion (3)

In this course, learners will explore the theoretical foundations and principles of health promotion and disease prevention across the lifespan for individuals, families, and populations. Lifestyle behaviors, protective and predictive factors that influence health including genetics, will be examined. The importance of communication and interprofessional collaboration to improve health are discussed.

NU 347 Curricular Practical Training (1)

Provides international students the opportunity to gain experience in a USA-based health care system. Emphasis is on an immersion experience to better understand the nursing role within the US health care system. Practicum is a precepted experiences. Prerequisites: 1) Acceptance into the undergraduate nursing program, 2) International student must have a student visa, 3) completion of two required Curricular Practical Training (CPT) forms through the Washburn Office of International Programs, 4) receipt of the CPT authorization on the I-20 document, and 5) approval of the chairperson of the School of Nursing International Studies Committee.

NU 348 Psychiatric/Mental Health Nursing/Practicum (3)

This course introduces basic theories and concepts related to psychiatric care across the lifespan. The emphasis is on knowledge of psychopharmacological and nursing management. Advanced communication skills will be explored. Prerequisites: All Level 1 courses.

NU 360 Professional Transformation II: Nursing Role in Healthcare (1)

This course introduces nurse leadership roles in healthcare. Concepts such as interdisciplinary teamwork, organizational structure, systems, and inequities in care will be explored. Prerequisites: NU 318

NU 386 Medical/Surgical Nursing II/Practicum (6)

This course emphasizes nursing care of chronic diseases. Learning objectives focus on risk factors, manifestations, treatments, and prevention of commonly occurring medical-surgical illnesses. Prerequisites: All Level 1 courses.

NU 450 Professional Transformation III: Nurses as Leaders (2)

This course introduces leadership skills that promote ethical and critical decision-making, effective working relationships, care coordination and conflict resolution strategies. A basic overview of complex systems and the regulatory expectations guiding these systems is provided. Prerequisites: All Level 1 courses or consent.

NU 451 Leadership, Mgmt, Hlth Policy (2-3)

Focuses on leadership skills that emphasize ethical and critical decision-making, initiating and maintaining effective working relationships, communication and collaboration within interprofessional healthcare teams, care coordination, delegation, and developing conflict resolution strategies. Students obtain a basic understanding of complex systems and the impact of power, politics, policy, and regulatory guidelines on these systems. Prerequisite: Admission to RN to BSN Program.

NU 452 Maternal/Women/Newborn Nursing/Practicum (3)

This course is the study of the human life process from conception through the newborn period. Basic theory and concepts related to the maternity cycle, care of the newborn, and nursing care of the mother are emphasized. General knowledge of women's health is introduced.

NU 456 Medical/Surgical Nursing III/Practicum (7)

This course focuses on the theory and concepts related to evidence-based nursing care of adult individuals, families, and groups with varying health-illness across acute care settings. Students will build upon their foundational nursing knowledge and skills obtained in previous and current courses to provide holistic, quality, and safe nursing care for a baccalaureate generalist. Prerequisites: All Level 1 and Level 2 courses.

NU 462 Professional Transformation IV: Quality and Safety in Health Care (3)

This course focuses on system leadership, quality improvement and safety concepts to promote high quality healthcare. Emphasis is placed on the application of evidence-based knowledge from contemporary sciences and communication with interprofessional healthcare team members. Prerequisites: All Level 1, 2 and 3 courses or consent.

NU 463 Quality and Safety in Healthcare (2-3)

System leadership, quality improvement, and safety concepts are presented to promote high quality nursing practice in healthcare settings. Emphasis is placed on the application of evidence-based knowledge from the contemporary sciences and communication with interprofessional healthcare team members. Prerequisite: Admission to RN to BSN Program.

NU 465 Population Health with Practicum (3)

This course explores social determinants of health for aggregates of people, communities, and populations. Emphasis on public health science and epidemiology principles will guide students in the identification of the social, cultural, environmental, and legislative issues within complex community systems. Prerequisites: All Level 1, 2, and 3 courses.

NU 467 Clinical Prevention and Population Management (3)

The focus of this course emphasizes population health management principles to guide learners in the identification of the social, cultural, environmental, and legislative issues within complex community systems. Learners examine clinical prevention and health promotion strategies for effectiveness, efficiency, and equity to identify resources that contribute to the population's overall health status. Prerequisite: Admission to RN to BSN Program.

NU 468 Pediatric Medical-Surgical Nursing with Practicum (3)

This course focuses on basic theory and concepts related to children and their families in varying stages of health in complex settings.

Prerequisites: All Level 1, 2 and 3 courses.

NU 494 Capstone/Seminar (5)

This course integrates all previous theoretical and clinical learning in preparation for NCLEX and entry level clinical practice. Prerequisites: All Level 1, 2, and 3 courses; Co-requisites: NU 462, NU 465, and NU 468.

NU 495 Leadership Capstone (3)

The focus of this course is the integration of knowledge, skills, and attitudes central to functioning as a nursing leader. Experiences allow learners to practice cultural competence in providing safe, quality care of patients of diverse race and ethnicity. Prerequisite: Admission to RN to BSN Program.

Pre-Licensure BSN

Description of the Program

The baccalaureate program in nursing at Washburn University is designed to prepare students as professional nurses. The focus of the program is the study of the individual and family life process from conception through aging, in varying stages of health within the context of community. The nursing curriculum builds upon and augments courses in the humanities and the natural and social sciences and provides for application of this general education throughout the nursing major. Emphasis is on the development of the student as an integrated professional person. The BSN program is designed to be completed in 120 credit hours over 4 years.

An advantage of the School is its connection with the community and access to Topeka's health care facilities that provide excellent learning environments for clinical learning experiences. Clinical experiences are coordinated with the theoretical content in nursing and are planned to meet specific objectives. A variety of community facilities are utilized including daycares, schools, clinics, public health agencies, hospitals, physicians' offices, and private homes. Community resources are selected according to their potential for illustrating principles and theories students are studying simultaneously in the classroom. Multiple resources may be used in any given course as deemed appropriate to meet course objectives.

Graduates of the program are prepared to function as generalists in nursing. They assume professional responsibility for health promotion, for care of people in acute and chronic illness, and for provision of supportive and restorative measures for realization of optimum health potential. Graduates of the baccalaureate program are eligible for examination for licensure as registered nurses and have the foundation for graduate study in nursing.

The baccalaureate nursing program was established at Washburn University in 1974 as a department within the College of Arts and Sciences. In 1982, the program was granted School of Nursing status and operates as one of the major academic units of the University.

Accreditation

The Baccalaureate Degree in Nursing, Doctor of Nursing Practice Degree, and Post-Graduate APRN Certificate Program at Washburn University are accredited by the Commission on Collegiate Nursing Education (<https://www.aacnnursing.org/CCNE> (<https://www.aacnnursing.org/CCNE/>)).

The Pre-licensure BSN Program and all graduate APRN programs are approved by the Kansas State Board of Nursing. All programs in the School of Nursing are approved by the Higher Learning Commission.

Student Learning Outcomes of the Baccalaureate Program

At the completion of the nursing curriculum, the new graduate will:

- Integrate nursing science to build a foundation of knowledge to apply clinical judgment for competent practice.
- Coordinate evidence based person-centered care that applies a mutually acceptable plan for optimal outcomes.
- Collaborate with community partners for the advancement of equitable population health.
- Apply principles of improvement science to enhance quality and contribute to a culture of safety.

- Practice interprofessional communication and collaboration to optimize healthcare delivery.
- Coordinate resources across complex systems to improve healthcare delivery.
- Demonstrate ethical use of information and communication technology to enhance safe healthcare.
- Cultivate a professional identity that embraces nursing characteristics and values.
- Demonstrate commitment to personal wellbeing, lifelong learning and leadership opportunities.

RN Licensure

Graduates of the nursing program are eligible to apply for licensure as a registered nurse from the Kansas State Board of Nursing or other State Boards of Nursing. To become licensed, graduates must complete the nursing program as verified by the Registrar and the Dean of the School; submit required applications, photos, fees, fingerprints, and transcripts; receive a passing score on the national licensure exam (NCLEX-RN) and meet all other requirements stipulated by the Board of Nursing. Graduation from the nursing program does not guarantee licensure as a registered nurse.

Nursing licenses may be denied by the Kansas State Board of Nursing (KSBN). Possible grounds for such action may include being guilty of a felony or misdemeanor involving an illegal drug offense if the KSBN determines that such person has not been sufficiently rehabilitated to warrant the public trust. All criminal history must be revealed to and will be evaluated by the KSBN before licensure is granted or denied.

Nursing Continuing Education

The School of Nursing is a Kansas State Board of Nursing approved provider of mandatory continuing education for registered nurses and licensed practical nurses. A series of workshops, seminars, and conferences that provide continuing education contact hours are offered each year through the School of Nursing. College credit nursing courses offered through the School of Nursing also meet continuing education requirements for RN re-licensure.

Eligibility for Graduation

Students who fulfill university and School of Nursing requirements for graduation are eligible for graduation and for attainment of the degree, Bachelor of Science in Nursing (BSN). Candidates for graduation must have on file in the University Registrar's Office,

1. a declaration of major on file;
2. a completed Application for Degree form; and
3. a degree audit.

The Dean of the School of Nursing, in conjunction with the University Registrar, validates that prospective graduates have completed all requirements for graduation. The University confers degrees at the end of each semester and at the end of the summer session. Students who are scheduled to complete final requirements for the degree and major during the following summer term may be permitted to participate in the Spring Commencement.

Admission

There are two pathways to formal admission into the School of Nursing:

1. Early Acceptance Pathway

The School of Nursing allows students admitted to WU directly from high school to apply for the Early Acceptance Pathway. This pathway guarantees the qualifying student a position in nursing school when they are ready. A separate application process is required the summer after high school graduation. Specific criteria must be met and maintained for this program.

2. Regular Admission Pathway

Students may apply for regular admission to the School of Nursing for Fall or Spring semester when meeting the following criteria:

- Completion of 30 hours of Washburn University general education requirements and School of Nursing prerequisite courses.
- Have a cumulative grade point average of 2.70 (minimum).

The following items are required for application:

- School of Nursing application (separate from the University application)
- Official transcripts from all colleges or universities attended, sent directly to the University Registrar
- Two Reference Statements (forms available on the SON (<https://www.washburn.edu/academics/college-schools/nursing/undergrad/bs-nursing/form-reference-statement.html>) website)
- Washburn University application if not already a student at Washburn
- Written interview – questions provided in application packet

Applications are accepted September 1 to December 1 for Fall admission and March 1 to July 1 for Spring admission a year prior to expected date of entry into the program. To qualify for the WU academic scholarship, the university application and updated transcripts are due to the Admissions office by February 15. (School of Nursing scholarship requires separate application due August 15th and February 15th in School of Nursing office.)

Students transferring from another nursing program are required to submit the following additional documents to be considered for admission and/or placement in the nursing curriculum:

- A course syllabus for all completed nursing courses so that transfer credit may be awarded for equivalent nursing coursework.
- A letter of recommendation from the Dean or Chairperson that addresses the student's academic standing at the time of transfer.
- A letter from the student describing their reason for requesting a transfer.
- Applicants who have been previously dismissed from a nursing program will be considered for admission on an individual basis and space availability. A personal interview with a member of the faculty may be required of applicants for assessment of qualifications.

The School of Nursing Undergraduate Admission, Progression, and Retention (UAPR) Committee reviews applications and admits qualified applicants to fill available positions. A personal interview with a member of the faculty may be required of applicants for assessment of qualifications. Students are selected for admission to the nursing major without discrimination in regard to race, color, religion, age, national origin, ancestry, disability, gender, marital or parental status, or sexual orientation. The School of Nursing adheres to policies of non-discrimination as defined by various federal and state laws and regulations.

The School of Nursing seeks applicants who exhibit the interpersonal skills and behaviors that enable them to work compatibly with others in both the classroom and the clinical area. Applicants seeking admission should demonstrate emotional maturity, personal integrity, and ethical responsibility. Applicants also should possess the flexibility to deal with unexpected situations and should demonstrate a willingness to utilize constructive feedback to develop professional behaviors. The School of Nursing reserves the right to withhold admission to or withdraw students from the program who do not demonstrate these attributes. If the UAPR Committee is aware of a prospective student's behavioral issues in pre-nursing or other classes, the Committee will require a FERPA release to conduct an investigation into those incidents prior to making a decision about admission.

Students with disabilities may voluntarily identify themselves to their course instructors to request accommodations. The Student Accessibility Services Office (<https://www.washburn.edu/studentaccessibility/>) is available to students for assistance in arranging reasonable accommodations and identifying resources on campus.

Applicants who have been convicted of a felony may be considered for admission only if, in the judgment of the UAPR Committee, the applicant has been satisfactorily rehabilitated. However, applicants for admission should be aware that current Kansas law provides that no license or authorization to practice nursing as a licensed professional nurse, as a licensed practical nurse, as an advanced practice registered nurse or registered nurse anesthetist shall be granted to a person with a felony conviction for a crime against persons as specified in Article 34 of Chapter 21 of the Kansas Statutes Annotated, prior to their appeal, or article 54 of Chapter 21 of the Kansas Statutes Annotated, or other applicable state statutes. Newly admitted students will complete a background check and drug screen as part of clearance prior to beginning nursing classes.

Students are advised that nursing licenses may be denied or disciplined by the Kansas State Board of Nursing (KSBN). Possible grounds for such action may include being guilty of a felony or misdemeanor involving an illegal drug offense if the KSBN determines that such person has not been sufficiently rehabilitated to warrant the public trust. Also considered are patterns of practice and other behaviors exhibiting an apparent incapacity to practice nursing. All criminal history must be revealed to and will be evaluated by the KSBN before licensure is granted or denied. **Admission to and graduation from the School of Nursing does not guarantee that a student will be eligible for licensure.**

Professional Aptitudes, Abilities and Skills and Essential Requirements for Nursing

School of Nursing admissions are based on academic achievement and additional program specific non-academic criteria that can be referenced in the catalog. Essential Requirements have been established identifying the occupational specific technical skills and standards required of students in the program. Meeting these standards is necessary for students to become successful in both their clinical coursework and later in their profession. Decisions to apply for admission to the School of Nursing BSN program should be made after considering the program Essential Requirements.

It is the responsibility of the faculty to be concerned with the rights of patients and to only place students that are capable of providing safe, high quality health care in clinical sites. The following list represents

reasonable expectations for the student enrolled in the BSN nursing program at Washburn University. **It is the responsibility of program applicants to carefully review the essential requirements and ask questions, if not familiar with the standards and skills listed.**

Certain chronic or recurrent illnesses and problems that interfere with patient care or safety may be incompatible with nursing skills or clinical practice. Conditions that may lead to a high likelihood of student absenteeism should be carefully considered. Deficiencies in knowledge, judgment, integrity, character, or professional attitude or demeanor which may jeopardize patient care may be grounds for course/clinical failure and possible dismissal from the program. All applicants to the program must have the ability to meet the standards and skills listed below, with or without reasonable accommodation, if accepted to the program in order to complete the educational requirements for the applicable degree.

If a student cannot demonstrate the following standards and skills without reasonable accommodation, it is the responsibility of the student to request an appropriate accommodation with the Student Accessibility Services Office (<https://www.washburn.edu/studentaccessibility/>) by the application deadline. The School of Nursing is committed to the principle of equal opportunity as defined in this catalog and will provide reasonable accommodation as long as it does not fundamentally alter the nature of the program offered, does not compromise patient safety, or impose an undue hardship.

Essential Requirements

Mandatory Requirements

- Current American Heart Association Basic Life Support Completion Card for the healthcare provider
- Satisfactory Physical Examination (on program-specific form)
- Health insurance maintained throughout program
- Criminal history or record search
- Drug Screen

Current Immunizations

- Hepatitis B series and titer (booster or additional series may be required if immunity not achieved)
- Tetanus (within 10 years)
- 2 MMR (only 1 if born before 1957)
- TB skin test or negative chest radiograph (current for the year.) Two step testing on admission, one step annually thereafter.
- Varicella Zoster titer (vaccine may be required if immunity not achieved)
- Rubella and Rubeola titer (vaccine may be required if immunity not achieved)
- Influenza
- Other requirements such as COVID vaccine as mandated by clinical practice sites

Mobility and Motor Ability

The use of motor skills to execute gross and fine motor movements required to provide assessment, general care and emergency treatment of clients. Examples of such skills include but are not limited to the ability to:

- Walk, bend, stand, kneel, sit, stoop or crawl to perform patient care activities and administer patient interventions or assist with equipment or to administer emergency care (CPR).
- Reach above head in standing, to adjust and position equipment.

- Lift, pull, guide, transfer a patient of up to 150 lbs; lift, pull, guide, transfer a patient of up to 250 lbs using a two-man technique.
- Guide, resist and assist adult patients (or classmates) during patient transfers, ambulation, interventions and exercises, using your arms, legs or trunk to provide the necessary stabilization for a patient when performing patient care.
- Walk for extended periods of time; climb stairs & inclines while safely guarding an unstable patient.
- Assume a wide base of support, balance to guard, maintain and correct balance of an unstable patient on flat surfaces, inclines and stairs. Perform all patient physical assistance using safe and proper body mechanics.
- Demonstrate bilateral manual dexterity to perform clinical skills such as administering medications, initiating intravenous therapy, catheter insertion and dressing changes and assist with activities of patient care.
- Physical capacity to perform all essential skills and procedures to complete twelve hour work days and a 40 hour work week during nursing clinical experiences.

Sensory Abilities and Observation

The use of assessment skills such as observing faculty demonstrations, obtaining a health history from the client, and directly observing a client's health condition. Students must be able to perform sensory skills (auditory, visual, and tactile) necessary to assess accurately the health status of clients. Examples of such skills include but are not limited to the ability to:

- See (with or without corrective lenses) patient skin, discriminate color changes, facial expressions and non-verbal communications, normal and abnormal patterns of movement; the environment for up to 20 feet; to read the electronic medical record and set parameters on patient care and monitoring equipment, and detect small calibrations on measuring instruments.
- Hear soft voices, masked voices, patient call systems, alarms, timers, hear with a stethoscope to assess blood pressure, heart, lung and abdominal sounds.
- Feel to discriminate small and large temperature differences; palpate pulses, discriminate sharp and dull, light touch and deep pressure sensation.
- Smell to detect odors related to patient assessment.

Communication

Communication with patients, members of the health care team and families in settings where communication typically is oral or written and in settings when time span for communication is limited. Examples of such skills include but are not limited to the ability to:

- Speak and express clearly and understandably in the English language, information to peers, faculty, patients, their families and other health care providers; demonstrate active listening skills.
- Read typed, handwritten, chart data and computer-generated documents in the English language; at a level of competency that allows safe and timely execution of essential tasks or assignments.
- Understand, interpret medical terminology and information given regarding status, progress and safety of a patient; to follow simple and complex instructions (oral or written) regarding patient care; and respond to non-verbal communication/behaviors of others.
- Follow directions accurately and efficiently, seeking clarification where necessary.

- Write to produce legible handwritten or computer word processed documents; use correct medical terminology, spelling, grammar and punctuation; organize and express thoughts in written form in the English language; to prepare accurate, thorough, legally defensible patient documentation.
- Interpersonal skills to work collaboratively; interact professionally; to establish rapport with patients, colleagues and classmates; to resolve conflicts with individuals from a variety of social, emotional, cultural and intellectual backgrounds; maintain confidentiality in all interactions.

Intellectual, Conceptual, Integrative, and Quantitative Abilities

Critical thinking, problem solving and teaching skills necessary to provide care for individuals, families and groups. Examples of such skills include, but are not limited to the ability to:

- Think critically to identify and solve problems; identify cause/effect relationships; to apply reading, lecture and laboratory information to case study preparation; to employ effective teaching, learning and test taking strategies.
- Comprehend relevant information regarding patient diagnoses, nursing interventions, indications and contraindications from textbooks, medical records and professional literature.
- Prioritize events to provide for patient safety; appropriate patient interventions; multiple tasks; integrate information and make decisions about sequence and progression.
- Calculate to collect and/or interpret accurate patient data.
- Make clinical decisions to respond quickly and appropriately to changes in patient status; to analyze written, observed or verbal data about patients and make decisions to contact health care provider for clarification of orders and modify the nursing care plan; act safely & ethically in the nursing laboratory and clinical settings.
- Demonstrate short-term and long-term memory to accurately and quickly remember data from the chart and information relayed in verbal exchanges with other members of the health care team; to access learned knowledge to include but not limited to diagnoses, indications, contraindications for interventions, safety precautions, subjective reports of patients, emergency procedures; safety procedures; to participate successfully in the learning and evaluation of knowledge within the curriculum.
- Think quickly and clearly to execute all duties unimpaired by any condition or substance that alters mental processing, speed or quality of thought processes or judgment.

Behavioral and Social Characteristics

The ability to provide care that is client centered and shows respect for human dignity and the uniqueness of each individual, free from bias and discrimination, and without consideration for personal attributes or the nature of health problems. Students must be emotionally stable. Examples of such skills include but are not limited to the ability to demonstrate:

- Flexibility to adjust to a constantly changing and very demanding full-time schedule.
- Compassion and respect and ability to show empathy for patients and their families; for people of all personality types, backgrounds, ethnic race or socioeconomic backgrounds and medical condition/diagnosis.

- Cooperation to work as a member of a team; develop positive and effective relationships with faculty, clinicians, peers and patients.
- Recognition of limitations to request assistance when needed; accept correction and constructive suggestions; assume responsibility for personal development; utilize resources effectively.
- Tolerance for close physical contact with patients, peers and classmates during the provision of interventions and in lab; for close proximity and physical contact with patients that require use of standard precautions during therapy due to open wounds, incontinence or other potential exposure to bodily fluids or pathogens during treatment.
- Willingness to participate in lab activities that require palpation, measurement and other forms of therapeutic touching of patients; to serve as both the patient model and clinician during patient simulations that allow classmates to practice and perfect nursing skills.
- Ability to attend class and clinic promptly and regularly; to stay focused and on task in lecture and laboratory instructional time; to submit work products promptly when due; to submit to all classroom and clinical rules/policies; to demonstrate respect for other health care providers and the profession of nursing; to comply with all legal and ethical standards of practice.
- Stress management coping skills for fast-paced clinical situations; to manage multiple academic deadlines; deal effectively with psychosocial issues of catastrophic illness, disability and death, respond appropriately in a stressful environment and during impending deadlines; manage personal matters outside of class/clinical work day.
- The ability to plan ahead to arrange transportation and living accommodations for/during off campus clinical assignments to foster timely reporting to the classroom and clinical centers.
- Self care to maintain general good health and hygiene in order not to jeopardize the health and safety of self and individuals with whom one interacts in the academic and clinical settings.
- Initiative, enthusiasm and appropriate peer and patient interactions.

Applicants with English as a Second Language

Applicants with English as a second language must demonstrate proficiency in both oral and written English. To be considered for admission, applicants are required to submit either the iBT (internet based TOEFL) exam scores or the IELTS exam scores to the School of Nursing. The minimum score for each section is:

Section	Minimum Score TOEFL	Minimum Score IELTS
Writing	20	5.5
Speaking	20	6.5
Reading	19	6.5
Listening	20	6.5

Original scores are due in the School of Nursing at the same time official transcripts are due.

Degree Requirements

The curriculum is designed to be completed in four academic years and leads to the degree Bachelor of Science in Nursing (BSN). Because of a required sequence for prerequisites and nursing courses, those interested in the program should contact the School of Nursing early in their program of studies for advisement. Application to the major

generally is made the first semester of the sophomore year for admission to the nursing major in the first semester of the junior year.

In addition to the requirements stated below, students must complete 34-35 hours of General Education (p. 50) and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Code	Title	Hours

- ¹ Completion of this course will partially fulfill social and behavioral sciences general education requirement. An additional three credit hours in a department other than psychology are required.
- ² Completion of these courses will fulfill natural and physical science general education requirement.
- ³ Courses must be satisfactorily completed with a grade of "C" or better
- ⁴ Courses must be satisfactorily completed prior to completing nursing courses

LPN to BSN

The LPN to BSN articulation program at Washburn University is specifically designed for licensed practical/vocational nurses (LPNs) seeking to earn a Bachelor of Science Degree in Nursing. Qualified students who have graduated from a Kansas State Board of Nursing approved school will receive fifteen (15) credit hours of college coursework. These students will receive credit for the following courses.

Code	Title	Hours
NU 220	Principles of Nutrition	3
NU 311	Medical/Surgical I: Fundamentals of Nursing/Practicum	6
NU 386	Medical/Surgical Nursing II/Practicum	6

LPN student graduates from out-of-state programs may be eligible for advanced credit upon review of transcripts. The LPN to BSN articulation student will need to complete the remaining 34-35 hours of general education courses and nursing requirements (<https://catalog.washburn.edu/undergraduate/school-nursing/pre-licensure-bsn/#degreerequirementstext>). Interested students need to make an appointment with a nursing advisor.

Credit for courses listed above will be posted on the Washburn University transcript after being officially accepted to the nursing major. Course work will be posted on transcripts as "CR" for credit without a letter grade. These courses will not count in computation of grade point averages.

RN to BSN

The Online RN-BSN Program at Washburn University School of Nursing is designed specifically for registered nurses seeking to earn a Bachelor of Science in Nursing (BSN) degree. The program offers affordability and flexibility.

- Courses are offered online in 8-week sessions.
- Students may complete the program in 2 years.
- A minimum of 120 credit hours is required for graduation.
- At least 30 hours must be completed at Washburn University.
- Courses completed at other accredited institutions are considered for transfer, provided the grade received is "C" (2.0) or above.
- Students are awarded 33 credit hours with successful completion of the NCLEX-RN examination.

NU 456	Medical/Surgical Nursing III/Practicum	7

NU 468	Pediatric Medical-Surgical Nursing with Practicum	3
NU 494	Capstone/Seminar	2
Total Hours		33

RN Articulation Advisement and Admission Procedures

Successful completion of the online application package inclusive of the following requirements is necessary for admission:

- Washburn University and RN-BSN Program applications
- Graduate of an approved/accredited associate degree or diploma nursing program
- Official transcripts from each higher education institution attended
- Minimum cumulative GPA of 2.5 on a 4.0 scale
- Copy of current active, unencumbered, valid license as an RN in the state of residency
- Completion of all required prerequisite courses with a grade of C or better

Applications for Fall session admission are due by July 1. Applications for Spring session admission are due by December 1. Potential candidates must complete all application materials to be considered for admission. Once admitted, students will receive academic advisement from the Student Compliance and Operations Director, who will assist the student in developing an individualized degree plan. A final degree check is made by the Student Compliance and Operations Director and the Registrar's office prior to graduation to determine eligibility for graduation based on completion of all general education and nursing requirements for the degree Bachelor of Science in Nursing.

Degree Requirements

Students will receive 33 hours of credit for their ADN/RN. In addition to the requirements stated below, students must complete all Nursing specific prerequisite courses, 34-35 hours of General Education (p. 50) and any additional hours needed to reach the minimum 120 credit hours required for graduation. Some of the courses below may also fulfill general education or other degree requirements. Please see your advisor for more information.

Faculty Emeriti

Aida Alaka, B.A., J.D, Professor of Law, 2006-2021
Deborah Altus, B.A., M.A., Ph.D., Chair and Professor of Family and Human Services, 2000-2024.
Bobbie Anderson, B.A., M.S., Lecturer in International Programs, 2001-2010.
Dale N. Anderson, B.A., M.A., Ed.D., Manager KTWU, 1967-1998.
Stephen Angel, B.A., B.S., Ph.D., Chair and Professor of Chemistry, 1991-2018.
Ronald J. Ash, B.S., M.S., Ph.D., Professor of Biology, 1987-2007.
Thomas Fox Averill, B.A., M.A., M.F.A., Professor of English, Writer in Residence, 1980-2017.
David W. Bainum, B.S., M.S., M.S., Ph.D., Professor of Computer Information Sciences, 1985-2016.
Lyle D. Baker, B.S., M.A.T., Ed.D., Associate Professor of Education, 1987-1998.
W. Gary Baker, B.S., M.A., Ph.D., Professor of Finance, 1975-2015.
Michael A. Barbara, B.S., J.D., Professor of Law, 1980-1992.
Rick Barker, B.S.E., M.A., M.S., Associate Professor of Computer Information Sciences, 1981-2022.
Karen Barron, B.A., M.A., Senior Lecturer of English, 2006-2023.
Janice Sweeny Barton, B.S., Ph.D., Professor of Chemistry, 1982-2009.
J. Wendell Bayles, B.S., J.D., LL.M., Professor of Law, 1983-2003.
Gerald Bayens, B.A., M.C.J., Ph.D., Dean of Washburn Tech and Professor of Criminal Justice and Legal Studies, 1996-2022.
Patricia A. Bender, B.A., M.S., Ph.D., Assistant Professor of Kinesiology, 1986-2014.
Phyllis E. Berry, B.G.S., M.A.J., Ph.D., Professor of Criminal Justice and Legal Studies, 2004-2016.
Steven Black, B.S., Ph.D., Chair and Assistant Professor of Physics and Astronomy, 1983-2018.
Larry D. Blumberg, B.A., M.A., Ph.D., Associate Professor of Mathematics and Statistics, 1967-2009.
Robert Boncella, B.A., M.A., M.S., Ph.D., Professor of Business Administration, 1983-2024
Terry Booth, B.A., M.A., Ph. D., Assistant Professor of Anthropology, 1969-2002.
Barbara Bowman, B.A., M.A., Ph.D., Associate Professor of Psychology, 1994-2011.

- Lee E. Boyd**, B.S., M.S., Ph.D., Professor of Biology, 1982-2018.
- Steven J. Cann**, B.S., M.S., Ph.D., Professor of Political Science, 1985-2019.
- Rodney Carney Boyd**, B.M.E., M.S.M.E., Associate Professor of Music, 1968-1999.
- John Frederick Buckner**, B.A., M.M.E., Ph.D., Professor of Music, 1970-1993.
- Barbara Burgess**, B.A., M.S., Ph.D., Director of Kansas Studies and Assistant Professor of Mass Media, 1986-2003.
- Emanuel Calys**, B.S., M.A., Ph.D., Professor of Mathematics, 1964-66, 1968-1997.
- Kevin Charlwood**, B.S., M.S., Ph.D., Chair and Professor of Mathematics and Statistics, 1997-2020.
- Frank J. Chorba**, B.A., M.A., Ph.D., Professor of Mass Media, 1984-2017.
- John E. Christensen**, B.S., J.D., M.L.S., Library Director and Professor of Law, 1979-2016.
- Barbara K. Clark**, B.A., M.N., Ph.D., Associate Dean and Associate Professor of Nursing, 1981-2003, 2004-2009.
- Nora K. Clark**, B.S., B.S.N., M.N., Ph.D., Assistant Professor of Nursing, 1991 - 2014.
- Novella Noland Clevenger**, CPA, B.S., M.A., M.B.A., J.D., LL.M., Associate Professor of Taxation, 1988-2011.
- Sheldon Cohen**, B.S., Ph.D., Executive Director of Planning and Professor of Chemistry, 1960-1999.
- Betty Cole**, B.A., M.S., Ph.D., Associate Professor of Biology, 1979-2006.
- Annie Collins**, B.S.N., M.S.N., Ph.D., Assistant Professor of Nursing, 2002-2018.
- James Concannon**, B.S., J.D., Dean and Professor of Law, 1973-2020.
- Dean Corwin**, B.M., M.S., M.A., Catalog Librarian, Mabee Library, 1996-2013.
- Kennett Cott**, B.A., M.A., Ph.D., Chair and Professor of History, 1969-2003.
- Iris Craver**, B.A., M.S.Ed., Ed.D., Professor of Human Services, 1979-2017.
- Barry Crawford**, B.A., M.A., Ph.D., Professor of Religion, 1978-2017.
- Linda Croucher**, B.S., M.S., Clinical Coordinator and Associate Professor of Radiologic Technology, 1983-2012.
- Martha Crumpacker**, B.A., M.S., D.B.A., Associate Professor of Management, 1977-2010.
- Aletha J. Cushinberry**, B.S.N., M.S.N., Ed.D., R.N., Associate Professor of Nursing, 1974-1993.
- Jack L. Decker**, B.S., M.S., Associate Professor of Computer Information Sciences, 1984-2010.
- Joan E. Denny**, B.S.N., C.N.M., M.S.N., Lecturer of Nursing & Learning Center Coordinator, 1983-2008.
- David L. DePue**, B.S., M.S., Ph.D., Associate Professor of Technology Administration, 2003-2008.
- Judy H. Diffley**, B.S., M.B.A., Ph.D., Program Director and Professor of Office Administration, 1982-2007.
- Jean Dimmitt**, B.A., M.A., Ph.D., Associate Professor of English, 1990-2008.
- Shiao-Li Ding**, B.M., M.M., D.M.A., Professor of Music, 1993-2020.
- Shirley Dinkel**, B.S.N., M.S.N., Ph.D., Associate Dean, School of Nursing, and Professor of Nursing, 2002-2019.
- Lee Dodson**, B.S., Ed.D., Vice President and Dean of Students, Associate Professor of Education, 1966-1989.
- Judy Druse**, B.S., M.L.S., Assistant Dean and Curriculum Librarian Mabee Library, 1987-2012.

- William S. Dunlap**, B.S., M.S., Ph.D., Director of Clinical Laboratory Science Program and Professor of Allied Health, 1983-2016.
- Janice Dunwell**, B.S., B.S.N., M.S.N., Ed.D., Associate Professor of Nursing, 1989-2003, 2007-2010.
- Gloria Dye**, B.A., M.A., Ph.D., Professor of Education, 1994-2024.
- James Robert Eck**, B.S.C., M.B.A., Ph.D., Professor of Finance, 1979-2009.
- Linda Elrod**, B.A., J.D., Professor of Law, 1974-2024.
- Ronald G. Evans**, B.S., M.A., Ph.D., Professor of Psychology, 1976-2008.
- Howard J. Faulkner**, B.A., M.A., Ph.D., Chair and Professor of English, 1972-2010.
- David Feinmark**, B.A., M.S., M.B.A., Coordinator of Collection Development, Mabee Library, 1981-2009.
- Karen Field**, B.A., M.A., Ph.D., Professor of Sociology & Anthropology, 1979-2008.
- Gary B. Forbach**, B.A., M.S., Ph.D., Professor of Psychology, 1973-2015.
- Ross Friesen**, B.A., M.Ed., Ed.D., Assistant Professor of Kinesiology, 1995-2024.
- William Gahnstrom**, B.A., M.S., Lecturer of Mathematics and Statistics, 1998-2017.
- Marilyn L. Geiger**, B.S., M.S., Ph.D., Professor of History, 1962-2000.
- Paul David Gilkison**, B.S., M.B.A., D.B.A., Professor of Marketing, 1981-1993.
- Lois Rimmer Glazier**, Ph.D., R.N., Professor of Nursing, 1974-2000.
- Maureen Godman**, B.A., M.A., Ph.D., Associate Professor of English, 1999-2013.
- Rachel Goossen**, B.A., M.A., Ph.D., Professor of History, 1999-2022.
- Nancy Gray**, B.A., Circulation and Faculty Services Librarian, School of Law, 1996-2017.
- John L. Green, Jr.**, B.S., M.S., Ph.D., Professor of Business Administration, 1981-1993.
- Ronald C. Griffin**, B.A., J.D., LL.M., Professor of Law, 1978-2011.
- Oliver F. Guinn**, B.B.A., M.B.A., Ph.D., Professor of Economics, 1961-1988.
- Larry J. Halford**, B.A., M.A., Ph.D., Associate Professor of Sociology, 1972-2001.
- Chris Hamilton**, B.A., M.A., Ph.D., Professor of Political Science, 1997-2019.
- G. Daniel Harden**, B.S., M.S., Ph.D., Professor of Education, 1987-2009.
- Theodore L. Heim**, B.A., M.A., Assistant Professor of Criminal Justice, 1971-1998.
- Mary Alice Hines**, B.S., M.S., Ph.D., C. W. King Professor of Real Estate and Finance, 1982-2004.
- Raylene J. Hinz-Penner**, B.S., M.A., M.F.A., Lecturer of English, 2003-2012.
- James L. Hoogenakker**, B.S., M.A., Ph.D., Professor of English, 1963-2013.
- Cynthia Hornberger**, B.A., B.S.N., M.S., M.B.A., Ph.D., Special Assistant to the President and Professor of Nursing, 1989-2016.
- Susan J.W. Hsia**, B.S., M.S., M.N., Ph.D., Associate Professor of Nursing, 1975-2002.
- Harold Hula**, B.A., M.S., Assistant Professor of Education, Associate Dean and Director of Counseling and Testing, 1965-1994.
- Catherine A. Hunt**, B.M., Diploma in Voice, M.A., Ph.D., Director of Music Education and Professor of Music, 2003-2019.
- John C. Hunter**, B.E., M.F.A., Professor of Theatre, 1975-2015.
- Kathy Hupp**, A.S., B.A., Director of Clinical Laboratory Science Student Affairs and Lecturer, 2003-2013.
- John L. Iltis**, B.M., M.M., D.Mu.Ed., Professor of Music, 1965-1986.
- Janet Jackson**, B.A., J.D., Professor of Law, 2004-2022.
- Russell A. Jacobs**, B.A., Ph.D., Chair and Professor of Philosophy, 1975-2017.
- Walter F. James**, B.S., M.S., Ph.D., C.P.A., Professor of Accounting, 1973-1997.
- Ursula Jander**, M.S., Ph.D., Associate Professor of Biology, 1985-2011.
- Reinhild Janzen**, B.A., M.A., M.Phil., Ph.D., Professor of Art, 1996-2011.
- Alyce Jessop**, R.N., M.S.N., Assistant Professor of Nursing, 1997-2004.
- Ross E. Johnson**, B.S., M.S., Ph.D., Professor Biology, 1961-1997.

Simone A. Johnson, Bac.-es-lettres, M.A., Ph.D. Chair and Professor of French, 1965-1986.

Roberta A. Jolly, B.S.E., M.S.E., A.A., Ed.D., Lecturer of Computer Information Sciences, 1999-2016.

Douglas H. Jones, B.A., Clinical Coordinator and Lecturer of Diagnostic Medical Sonography, 2000-2014.

Patricia A. Joyce, B.S.N., M.S., S.N.C., Assistant Professor of Nursing, 1994-2018.

Mark Kaufman, B.A., M.S.W., M.B.A., J.D., Ph.D., Associate Professor of Social Work, 1998-2018.

Michael Kaye, B.A., J.D., LL.M., Professor of Law, 1979-2016.

Kevin Kellim, D.M.A, Professor of Music, 1992-2021.

Vickie Kelly, B.S., M.S., Ed.D., Director and Associate Professor of Allied Health, 2008-2020.

Audrey H. Kennedy, B.S., M.S., Assistant Professor of Nursing, 1976-1997.

Thomas Kennedy, B.A., M.A., Ph.D., Professor of English, 1972-2008.

Robert B. Kerchner, B.S., M.A., Ph.D., Associate Professor of Economics, 1976-2009

L. Ali Khan, B.Sc., M.A., LL.B., LL.M., J.S.D., Professor of Law, 1983-2018.

Harlan J. Koca, B.S., M.S., M.A., Assistant Professor of Mathematics and Statistics, 1967-1995.

Paul H. Kopper, A.M., Ph.D., Chairperson and Professor of Biology, 1956-1979.

Laurine Kreipe, School of Applied Studies, Assistant Professor of Legal Studies, 1983-1992.

Donna E. LaLonde, A.B., M.A., Ed.D., Associate Professor of Mathematics, 1991-2015.

Bruce Levine, B.B.A., J.D., LL.M., Professor of Law, 1956-1971.

Teresita S. Leyell, Lic., M.A., Ph.D., Professor of Business Administration, 1982-2009.

Jalen Lowry, B.A., J.D., Associate Dean of School of Law, 2008-2023.

Gabriele Lunte, M.A., Ph.D. Associate Professor of Modern Languages, 2003-2019.

Susan Maendele, B.S., M.S., Lecturer of Nursing, 2011-2023.

Bobbe Mansfield, B.A., B.S., M.S.N., D.N.P., Associate Professor of Nursing, 1980-2024.

Richard Martin, B.S., J.D., Associate Professor of Criminal Justice and Legal Studies, 1993-2016.

Marilyn K. Masterson, B.S.N., B.A., M.S.N., Ph.D., Assistant Professor of Nursing, 1998-2016.

Nancy G. Maxwell, B.A., J.D., LL.M., Professor of Law, 1979-2015.

JuliAnn Mazachek, B.S., M.B.A., Ph.D., Vice President for Academic Affairs and Associate Professor of Accounting, 1992-2022.

Keith Mazachek, B.S., M.S., Ph.D., Coordinator, Pre-Engineering and Senior Lecturer of Physics, 1999-2022.

Maryellen McBride, B.S., M.N., Ph.D., Assistant Professor of Nursing, 1988-2018.

Margaret McCausland, A.B., A.M., Assistant Professor of English, 1963-1983.

Judith McConnell-Farmer (Mikkelsen), Ed.D., Professor of Education, 1994-2020.

James H. McCormick, B.S., M.A., P.E.D., Professor of Health, Physical Education and Exercise Science, 1981-2009.

Mary McCoy, B.A., M.A., Ph.D., Professor of Biology, 1976-2008.

Lawrence E. McKibbin, B.B.A., M.B.A., Ph.D., Professor of Business, 1991-1998.

Diane McMillen, B.S., M.S.W, Ph.D., Professor and Clinical Coordinator of Human Services, 1990-2017.

Gordon McQuere, B.M., M.A., Ph.D., Professor of Music, 2002-2015.

Kathy A. Menzie, B.A., M.S., Ph.D., Associate Professor of Mass Media, 1998-2018.

Linda Merillat, B.S., M.Ed., Ph.D., Lecturer of Nursing, 2014-2024.

Carolyn Y. Middendorf, B.A., M.N., Assistant Professor of Nursing, 1983-1997.

Susan Miller, B.A., M.S., Ph.D., Associate Professor of Health, Physical Education and Exercise Science, 1984-2005.

Billy E. Milner, B.S., M.S., M.A., D.A., Professor of Mathematics, 1970-2001.

Carl Monk, B.A., J.D., Professor of Law, 1974-2009.

Loretta W. Moore, B.A., J.D., Professor of Law, 1991-2005.

Meredith A. Moore, B.S., M.A., Ph.D., Chair and Professor of Communication, 1976-2009.

Tom Morgan, B.M., M.M., DMA, Professor of Music, 1988-2022.

Mike Mosier, B.S., M.A., Ph.D., Professor of Mathematics and Statistics, 2001-2022.

Pat Munzer, B.S., M.S., D.H.S, Dean of the School of Applied Studies and Professor of Allied Health, 1984-2021

Carl S. Myers, B.A., M.S.W., Assistant Professor of Social Work, 1977-2016.

Edward W. Navone, B.A., M.A., Professor of Art, 1964-2007.

Samuel J. Newland, B.A., M.A., M.Ph., Ph.D., Instructor of Criminal Justice and Legal Studies, 2007-2017.

Faye Niesen, B.A., A.A.S., M.A., Lecturer Radiation Therapy, 2004-2015.

Jorge Luis Nobo, B.A., Ph.D., Professor of Philosophy, 1972-2010.

Kanalis Ockree, CPA, CMA, B.B.A., M.Acc., Ph.D, Professor of Accounting, 1992-2020.

Brian K. Ogawa, B.A., M.Div., D.Min., Professor of Human Services, 2001-2017.

Ken Ohm, B.S.; M.S., Ed.D., Lecturer of Mathematics & Statistics, 1992-2009.

Richard E. Olson, B.S., M.S., Ph.D., J.D., Professor of Economics and Business Administration, 1980-2001.

Adebisi Otudeko, B.A., M.A., Ph.D., Professor of Sociology & Anthropology, 1982-2007.

Nan Palmer, B.A., M.S.W., Ph.D., Professor of Social Work, 1991-2015.

Marie-Luce Parker, License es Lettres, M.A., Ph.D., Chair of Modern Languages and Professor of French, 1986-2008.

Darrell Parnell, B.S., M.S., Ph.D., Associate Professor of Physics, 1962-2001.

Brenda Patzel, B.S.N., M.S.N., Ph.D., Associate Professor of Nursing, 2004-2018.

Gregory Pease, B.A., J.D., Professor of Law, 1979-2010.

Daniel Petersen, B.A., M.A., Ph.D., Professor of Social Work, 1993-2020.

Mark Peterson, B.A., M.P.A., Ph.D., Chair and Professor of Political Science, 1998-2018.

Timothy Peterson, B.A., M.Ed., E.D.S., Ph.D., Dean of Academic Outreach, 1998-2016.

Lynette Petty, B.A., M.A., J.D., Associate Professor of Law, 1992-2016.

David Pierce, B.A., J.D., LL.M., Professor of Law, 1989-2020.

Mary Pilgram, A.B., M.A., Ph.D., Associate Professor of Communication Studies, 2007-2022.

Evelyn Pitts, B.A., M.A., Lecturer of Mathematics and Statistics, 1996-2019.

Paul Prece, B.A., M.F.A., Ph.D., Chair and Professor of Theatre and BIS Director, 1982-2017.

Virginia D. Pruitt, B.A., M.A., Ph.D., Professor of English, 1974-2013.

Paul B. Rasor, B.Mus., J.D., Professor of Law, 1978-1993.

J. Karen Ray, B.A., M.A., Ph.D., Professor of English, 1996-2010.

Gerald Reed, B.B.A., M.B.A., Lecturer of Computer Information Sciences, 1997-2009

Sheila Reynolds, B.A., J.D., Professor of Law, 1979-2010.

William Rich, B.A., J.D., Professor of Law, 1977-2020.

Wilma Rife, B.A., M.A., M.L.S., Director of Mabee Library, 1977-1994.

A. Allan Riveland, B.A., M.A., Ph.D., Professor of Mathematics and Statistics, 1971-2010.

James C. Rivers, Artist Diploma, B.M., Professor of Music and Artist Pianist in Residence, 1969-2014.

William L. Roach, B.S., M.B.A., Ph.D., Professor of Business, 1983-2014.

Clifford Roberson, B.A., J.D., Ph.D., LL.M., Professor of Criminal Justice, 1997-2006.

Jera Roberts, B.A., M.S., Ed.S., Program Director of Radiologic Technology and Associate Professor, Allied Health, 1983-2022.

Thomas J. Romig, B.A., M.S., J.D., Dean of the School of Law and Professor of Law, 2007-2021.

Harold J. Rood, B.A., M.A., Ph.D., Chair and Professor of Philosophy, 1970-2012.

Kay Rute, B.A., J.D., Professor of Criminal Justice and Legal Studies, 1989-2014.

David L. Ryan, B.A., J.D., LL.M. Distinguished Professor of Law, 1968-2005.

Roberta Sue Salem, B.S., M.S., Ph.D., Lecturer of Chemistry, 1999-2014.

Michael Sarkesian, B.S., M.Ed., Professor of Health, Physical Education and Exercise Science, 1966-1997.

Monica Scheibmeir, B.S.N., Ph.D., Dean, School of Nursing, and Professor of Nursing, 2009-2019.

Cecil Schmidt, B.S., M.S., Ph.D., Professor of Computer Information Science, 1994-2023.

Gary E. Schmidt, B.A., M.S., Ph.D., Professor of Computer Information Sciences, 1973-2010.

Tom Schmiedeler, B.A., M.A., Ph.D., Professor of Geography and Director of Kansas Studies Program, 1996-2017.

Mary Sheldon B.A., M.A., Ph.D., Associate Professor of English, 1987-2021.

Roy Sheldon, B.A., M.A., Ph.D., Associate Professor of English, 1982-2015.

Richard Shermoen, B.S., M.S., M.A., Ed.D., Chairperson and Professor of Mathematics, Statistics and Computer Information Sciences, 1967-1993.

Mary Shoop, B.S., M.A., Ph.D., Professor of Education, 1982-2013.

J. Elwood Slover, B.S., J.D., LL.M., Professor of Law, 1968-1983.

Charlene Smith, B.A.; M.A., J.D., LL.M., Professor of Law, 1982-2003.

Russ Smith, A.B., M.S., M.A., Ph.D., Associate Dean, School of Business and Associate Professor of Economics, 1984-2022.

Virgie Smith, B.S., M.L.S., Librarian, School of Law, 1976-2008.

Ann Marie Snook, B.M., M.M., D.M.A., Chair and Professor of Music, 1991-2018.

Lee E. Snook, B.A., M.A., D.M.A., Professor of Music, 1990-2018.

Robert Soppelsa, B.A., M.A., Ph.D., Director of Mulvane Art Museum and Professor of Art, 1981-2002.

Stephen Spyres, B.A., M.S., Director of Practicum and Lecturer of Social Work, 2004-2018.

Robert D. Stein, B.A., M.A., Ph.D., Chair and Professor of English, 1973-2006.

Laura Stephenson, B.A., M.A., Ph.D., Dean, College of Arts and Science, 1985-2024.

Barbara A. Stevenson, B.S.N., M.S., Lecturer of Nursing, 1997-2018.

Margaret E. Stewart, A.B., M.A., Ph.D., Professor of English, 1990-2010.

Reed Stolworthy, B.S., M.S., Ed.D., Associate Professor of Education, 1965-1994.

Sharon Sullivan, B.A., M.A., Ph.D., Professor of Theatre, 2002-2023.

Carolyn Szafran, LCSW, B.A., M.S., M.S.W., Practicum Director and Senior Lecturer of Social Work, 1999-2019.

Nancy Tate, B.S., M.S.; Ed.D., Associate Professor of Computer Information Sciences, 1985-2020.

Rusty Taylor, B.S., M.Ed., Senior Lecturer of Respiratory Therapy, 1987-1997, 2005-2024.

Robert Thompson, B.S., M.A., D.S.C., Associate Professor of Mathematics, 1967-1989.

Rita Tracy, B.S.N., M.S., M.N., Assistant Professor of Nursing, 1976-2000.

Katherine Ure, A.A.S., B.S., M.S.N., Lecturer of Nursing, 2011-2024.

Sara Waitstill Tucker, B.A., M.A., Ph.D., Professor of History, 1975-2009.

Sandy Tutwiler, B.A., M.S.E., Ph.D., Professor of Education, 1999-2020.

Ann Ellen Ukena, B.S., M.A., Assistant Professor of Mathematics and Statistics, 1965-1996.

Carol Lyon Vogel, B.A., M.A.T., Director of Affirmative Action and Instructor of Modern Languages, 1969-2013.

William O. Wagnon, Jr., B.A., M.A., Ph.D., Professor of History, 1968-2008.

Mary Dorsey Wanless, B.S., M.A., M.F.A., Associate Professor of Art, 2000-2015.

Curtis Waugh, B.A., B.S.Ed., J.D., Visiting Associate Professor of Law, 2003-2017.

Shirley Waugh, B.S.N., M.B.A., Ph.D., Associate Professor of Nursing, 2009-2022.

Penny Weiner, B.S., M.F.A., Associate Professor of Theatre, 1998-2017.

David Winchester, B.A., M.A., M.L.S., Serials Librarian, Mabee Library, 1982-2017.

Martin Wisneski, B.A., M.L.S., Assistant Director and Head Technical Services of Law Library, 1986-2023.

Mary Ann Wittman, B.A., MEd, Lecturer Intensive English, 2012-2020.

Royal E. Wohl, B.S., M.S., Ph.D., Chair and Professor of Kinesiology, 1992-2024.

Thomas Wolf, B.S., M.S., Ph.D., Professor of Biology, 1971-2006.

Linda L. Woolf, B.S., M.A., M.S., Ph.D., Associate Professor of Economics, 1969-1999.

Donald C. Wright, B.S., M.A., Professor of Economics and Business Administration, 1949-1984.

Gene Wunder, B.B.A., M.B.A., Ph.D., Associate Professor of Marketing, 1991-2009.

Donald R. Yelen, B.A., Ph.D., Professor of Psychology, 1963-2001.

Bruce M. Zerkovitz, B.A., M.A., Ph.D., Chair and Professor of Sociology & Anthropology, 1978-2010.

ACCOUNTING (AC)

AC 224 Financial Accounting (3)

The study of accounting as a means of communicating financial information about the activities of business enterprises. Emphasis is placed on concepts and principles underlying the measurement of income and financial position and how this information may be used to evaluate the progress of a firm. Prerequisites: EN 101 and MA 116 (recommended) or MA 112, or MA 123, or MA 141, or MA 151.

AC 225 Managerial Accounting (3)

The development and use of information in the accounting system as a management decision tool. Prerequisites: AC 224, EN 101, MA 116 (recommended) or MA 112, or MA 123, or MA 141, or MA 151, and BU 250 or concurrent enrollment.

AC 303 The Role of Accounting in Business and Society (3)

Role of accounting in society, including public and private sector organizations. Information needed for external reporting to investors and creditors, internal management planning and control decisions, assessment of risks and controls critical to reliable financial and non-financial data, and regulatory oversight. Overarching themes include decision-making related to recognition and valuation of economic events, effective communication related to accounting and economic information, as well as the importance of diversity, a global mindset, and good professional judgment by accounting professionals. Prerequisites: AC 224 and AC 225 with a grade of C or better, and consent of instructor.

AC 321 Intermediate Financial Accounting I (3)

Financial theory and problems. Emphasis is on valuation and measurement problems of income determination and balance sheet presentation. Prerequisites: AC 225 and BU 250. May not be taken A/Pass/Fail.

AC 322 Intermediate Financial Accounting II (3)

A continuation of financial accounting theory and problems. Prerequisite: AC 321. May not be taken A/Pass/Fail.

AC 325 Cost Accounting (3)

A study of inventory valuation procedures in manufacturing concerns and the processing, analysis and interpretation of data for use by management in the planning and control of operations. Prerequisites: AC 225 and BU 250. May not be taken A/Pass/Fail.

AC 330 Accounting Information Systems (3)

The study of the development and design of an accounting system. Emphasis on procedures necessary to meet generally accepted auditing standards and methods and techniques to evaluate internal control of an accounting system. Prerequisites: AC 225 and BU 250. May not be taken A/Pass/Fail.

AC 403 Special Topics/Accounting (3)

Selected topics announced in advance. May be taken more than one semester. Prerequisite: Admission to the School of Business. Other prerequisites will be specified for each topic. May not be taken A/Pass/Fail.

AC 404 Independent Study - Accounting (3)

Individual study of a topic in accounting. Activity must be supervised by a full-time School of Business faculty member with professorial rank. Prerequisites: Admission to the School of Business and consent of directing faculty member prior to enrollment. May not be taken A/Pass/Fail.

AC 421 Advanced Financial Accounting (3)

Accounting methods and procedures related to partnerships, branches, business combinations, and foreign exchange. Prerequisites: Admission to the School of Business and AC 322. May not be taken A/Pass/Fail.

AC 423 Federal Income Taxation - Individual (3)

Income tax laws, regulations, and procedures pertinent to individual taxpayer reporting. Prerequisites: Admission to the School of Business and AC 224, AC 225, and BU 250 completed with grades of "C" or better. May not be taken A/Pass/Fail.

AC 424 Federal Income Taxation - Business Entities (3)

Income tax laws, regulations, and procedures pertinent to partnership, corporation, and fiduciary reporting. Prerequisites: Admission to the School of Business and AC 225 and BU 250. May not be taken A/Pass/Fail.

AC 425 Auditing (3)

The course covers essential processes of auditing including specific procedures and techniques usable in the public and private sectors. Technical standards of these sectors receive attention with an emphasis on ethics related to the profession of auditing. The course includes operational and compliance auditing in addition to auditing of financial statements. Other content areas are the auditor's role in society, the application of internal control concepts, the understanding of accounting information systems, the methods of statistical sampling and the use of auditing software. Prerequisites: Admission to the School of Business and AC 321, AC 322, and AC 330 completed with grades of "C" or better. (AC 322 may be taken concurrently.) May not be taken A/Pass/Fail.

AC 427 Governmental and Institutional Accounting (3)

Methods and procedure used in fund accounting with emphasis on governmental units and not-for-profit organizations. Prerequisites: Admission to the School of Business and AC 225 and BU 250. May not be taken A/Pass/Fail.

AC 428 Fraud Examination (3)

Theory, techniques, methods and procedures for the detection, investigation, and deterrence of fraud. Prerequisites: Admission to the School of Business and AC 224, AC 225, and BU 250 or equivalent. May not be taken A/Pass/Fail.

AC 431 Contemporary Issues in Accounting (3)

Current issues in accounting with emphasis on the releases of the American Institute of Certified Public Accountants and the Financial Accounting Standards Board. Includes accounting theory to solving accounting problems. Prerequisites: Admission to the School of Business and AC 322. May not be taken A/Pass/Fail.

AC 499 Internship In Accounting (3)

Professional work experience with a business firm or governmental agency in some phase of public, private, or governmental accounting. The work situation must create a new learning experience for the student. Credit hours in this course may be used only as elective business hours and will not count toward the minimum 63 hours of accounting, business, and economics hours required of the BBA candidate nor will they count toward the minimum twenty-four hours of accounting required of accounting majors. Internship credit hours will be counted in the maximum School of Business hours an accounting major may earn within a 120-hour program. The student's grade will be awarded on a pass-fail basis, as determined by the supervising faculty member. Prerequisites: Admission to the School of Business, consent of the accounting faculty, appropriate academic background, at least 75 semester credit hours, at least a 2.5 overall grade average, and meet the general qualifications specified by the sponsoring business firm or governmental agency.

AC 524 Accounting Concepts (3)

Accelerated and in-depth introduction to conceptual accounting foundations. Presents accounting as a dynamic information system for communicating and measuring use of financial data for planning and control purposes. Primary focus is to provide background for upper-level graduate courses. Prerequisite: College Algebra

AC 621 Advanced Financial Accounting (3)

Concepts and procedures related to business combinations - domestic and foreign, foreign currency transactions, partnerships, and other related financial reporting topics. Prerequisite: Admission to the Master of Accountancy program and AC 321 and AC 322.

AC 624 Tax for Business Entities (3)

Income tax laws, regulations, and procedures pertinent to partnership, corporation, and fiduciary reporting. Prerequisite: Admission to the Master of Accountancy program and AC 224, AC 225, and BU 250.

AC 625 Advanced Auditing (3)

Concepts of, and approaches to, auditing & assurance services in a computerized environment, including skill development to apply the underlying concepts and approaches to these professional services. Development of professional judgment through analysis and discussion of real company cases covering complex topics in assurance services. Prerequisite: Admission to the Master of Accountancy program and AC 425.

AC 626 Contemporary Issues Accounting (3)

Current and emerging issues in accounting and accounting standards from theoretical and accounting practice perspectives. Topics vary by semester. May be repeated for credit. Prerequisite: Admission to the Master of Accountancy and AC 321 and AC 322.

AC 627 Advanced Managerial Accounting (3)

Assignment and control of organizational costs including decision making and reward structures. Application of concepts in academic readings to organizational case scenarios. Prerequisite: Admission to the Master of Accountancy program and AC 325.

AC 628 Government/Not for Profit Accounting (3)

Methods and procedures used in fund accounting with emphasis on state and local governmental units and not-for-profit organizations. Prerequisite: Admission to the Master of Accountancy program and AC 224, AC 225, and BU 250.

AC 629 Accounting Research Seminar (3)

Based on review of research literature in the diverse areas of accounting, the development and design of an accounting research project in the student's area of choice employing relevant technology and statistical analysis. Prerequisite: Admission to the Master of Accountancy program and AC 621, AC 624, and AC 627.

AC 630 Advanced Accounting Information Systems (3)

Integration of accounting systems in support of organizations in global business environments including end-to-end cross-functional business processes. Application and extension to the professional environment of technology knowledge and skills in Microsoft computer operating systems and applications. Prerequisite: Admission to the Master of Accountancy program and BU 250 and AC 330 or Admission to the MBA program, BU 522, BU 526 (Accounting) and AC 654.

AC 639 Accounting Theory and Ethics (3)

Major and alternative ethical models and the historical development of financial accounting theory. Analysis of cases that illustrate ethical failures and dilemmas in accounting practice. Current and proposed accounting standards. Prerequisite: Admission to the Master of Accountancy program and AC 621.

AC 654 Management Accounting Analysis (3)

In-depth study of the uses of management accounting tools and their impact on the contemporary business organization. Includes evolution of cost and decision models and the management accounting function, as well as the application of fundamental methods. Emphasis on case studies and research and the development of written and oral communication skills in a management accounting context. Prerequisite: BU 522, BU 526 (Accounting) or equivalent, and admission to the MBA program.

AC 699 Internship in Accounting (3)

Professional work experience in accounting with a business firm, governmental agency, or not-for-profit organization. The work experience must create a new learning experience for the student. Credit hours may only be used as elective hours and will not count toward the minimum 21 hours of accounting and economic hours required of the MAcc candidate. Grades for this class are awarded on a pass-fail basis. Prerequisite: Admission to the Master of Accountancy program and Consent to Internship Director.

AFRICAN AMERICAN AND AFRICAN DIASPORA STUDIES (AD)

AD 199 Special Topics in African American and African Diaspora Studies (3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: Consent of Instructor

AD 200 Introduction to Critical Race & Ethnic Studies (3)

This course provides students with foundational knowledge of Critical Race Theory as a lens to understand race and ethnicity as socially, culturally, and historically constructed realities that sustain unequal distribution of political and socioeconomic power and inform constructions of identity and community. Students will gain skills to work toward an anti-racist and socially just society. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

AD 299 Special Topics in African American and African Diaspora Studies (3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: Consent of Instructor

AD 395 Directed Study in African American and African Diaspora Studies (1-3)

Directed readings and individualized research program on a subject relevant to African American and African Diaspora Studies and with the guidance of a professor. May be taken for more than one semester. Prerequisite: Consent of Instructor and approval of the AAADS Director.

AD 397 Internship in AAADS (1-3)

A program for junior/senior-level undergraduates offered in cooperation with a local or state agency with the supervision of faculty and/or the AAADS Director. Prerequisite: Approval of the AAADS Director.

AD 399 Special Topics in African American and African Diaspora Studies (3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: Consent of Instructor

ALLIED HEALTH (AL)

AL 101 Foundations of Healthcare (3)

An overview of the role of various health care professions, ethical and legal responsibilities, patient communication methods, cultural competence, patient assessment techniques, medical terminology, electronic health records and preventative health care. Through role playing and case studies, students learn how the various members of the health care team interact and communicate with one another in order to provide the most efficient and effective delivery of patient care. Additional technical competencies included in this course are: assessment of vital signs, safe body mechanics, patient transfers and safety, basic first aid, standard and transmission-based infection precautions.

AL 120 Radiographic Procedures & Patient Care I (3)

Focuses on the principles of producing and evaluating radiographs of the skeletal and urinary systems. Discusses patient care procedures such as vital signs, infection control, medical emergencies and aseptic techniques. Prerequisite: Admission to the Radiologic Technology program and concurrent with AL 120A.

AL 120A Procedures Lab I (0)

Required laboratory demonstrations will include chest, KUB, upper extremity, lower extremity, spine, and contrast studies. A one hour weekly session is held on campus. Concurrent with AL 120.

AL 121 Radiographic Procedures & Patient Care II (3)

Explores those procedures employed in the more complicated investigation of the human body. Continues to examine present techniques necessary for the assessment and care of the ill and injured patient. Prerequisites: AL 120, AL 130, AL 134, and concurrent with AL 121A.

AL 121A Procedures Lab II (0)

Required laboratory demonstrations include spine, contrast studies, cranium, bony thorax, and miscellaneous positions. A one hour session is held each week. Concurrent with AL 121.

AL 130 Radiographic Exposure I (3)

Principles of radiographic image formation related to digital imaging. Physics of x-ray production and influences on image creation. The course provides an understanding and analysis of the radiographic image. Prerequisite: Admission to the Radiologic Technology program and concurrent with AL 130A.

AL 130A Exposure Lab I (0)

Demonstrations will be directed towards the primary factors of radiograph (image) production. An energized x-ray unit will be available for the one hour weekly session. Concurrent with AL 130.

AL 131 Radiographic Exposure II (3)

A continuation of AL 130 emphasizing imaging principles. Problem solving through mathematical application. Techniques of quality control. An additional fee is associated with this course. Prerequisites: AL 120, AL 130, AL 134, and concurrent with AL 131A or consent.

AL 131A Exposure Lab II (0)

Demonstrations will involve the imaging systems, computation of radiation dosages, and quality control techniques. The one hour weekly session will utilize an energized x-ray unit. Concurrent with AL 131.

AL 134 Radiology Clinical I (3)

This course requires a specific number of hours of limited radiographic assistance in a healthcare setting. Students will achieve competency in simple procedures under direct supervision. Prerequisite: Admission to the Radiologic Technology program.

AL 135 Radiology Clinical II (4)

This course requires a specific number of hours of limited radiographic assistance in a healthcare setting. This course builds on competencies achieved in AL 134. Students will achieve competency in more complex procedures with direct and/or indirect supervision. Prerequisite: AL 134 or consent.

AL 141 Medical Terminology (3)

This course covers word elements that form the base on which the medical language is constructed, including commonly used abbreviations. Emphasis on competency in spelling, pronunciation, correct usage and meaning of terminology related to all body systems, medical science and medical specialties.

AL 150 Principles of Health Information Technology (3)

This course covers the organization, analysis, and evaluation of health records, methods of storage, retrieval and preservation, an introduction to computer and information systems in health care, and an overview of health information department management. Prerequisites: AL 101, Admission to HIT Program.

AL 157 Specialized Records & Registries for Health Information Technology (2)

This course explores health information requirements in non-hospital settings including long-term and ambulatory care, & functions and procedures for specialized health information registries. Prerequisite: AL 150, AL 366 or concurrent.

AL 161 Foundations of Occupational Therapy (2)

This course is an introduction to the history and philosophical base of occupational therapy. Areas of instruction include: models of practice; frames of reference; the role of the Occupational Therapist/Occupational Therapy Assistant; Code of Ethics; Core Values; Standards of Practice and the Delivery of Occupational Therapy Services. Prerequisite: Formal Admission to the Occupational Therapy Assistant Program.

AL 162 Occupational Therapy Interventions I (3)

This lecture and lab course will discuss the dynamics of the occupation to include the activity, performance skills, and performance patterns from conception to age 18. The student will exhibit the ability to analyze tasks and implement an intervention plan for the occupational therapy client. Prerequisite: AL 161.

AL 163 Foundations of Occupational Therapy II (3)

This lecture/lab course is a continuation of AL 161 and will allow the student to develop the ability to select and implement occupational therapy interventions related to the activities of daily living. Prerequisite: AL 161 and concurrent with AL 164.

AL 164 Level I OTA Fieldwork Rotation I (1)

This course requires a specific number of hours of limited occupational therapy assistant exposure in the healthcare setting. Prerequisite: AL 161 and Concurrent with AL 163.

AL 166 Occupational Therapy Interventions II (3)

This lecture lab course is a continuation of AL 162 and will discuss the dynamics of the occupation to include the activity, performance skills, and performance from early adulthood to later maturity. Prerequisite: AL 162.

AL 167 Foundations of Occupational Therapy III (3)

This course is a continuation of AL 163 and will allow the student to develop the ability to administer selected assessments, screening, evaluation tools, and skilled observations and to develop skills that relate to analysis of movement, orthotic devices, superficial thermal and mechanical modalities. Prerequisite: AL 163.

AL 168 Level I OTA Fieldwork Rotation II (1)

This course requires a specific number of hours in the health care setting to allow the student to employ logical thinking, critical analysis, problem solving and creativity as it relates to the psychosocial aspects of occupational therapy in the clinical setting.

AL 170 Physical Therapy Procedures (4)

This class features the development of early Physical Therapy skills and the understanding of basic procedures. Specific emphasis is placed on range of motion, measurement of range of motion, therapeutic exercise basics, aseptic and isolation techniques, proper bed positioning, massage, transfers, wheelchair management, architectural barriers, locomotion training, documentation, vital signs and safety. All skills are reinforced and practiced in supervised scheduled laboratories and open lab sessions. Prerequisite: Admission to PTA Program.

AL 171 Musculoskeletal Assessment in Physical Therapy (5)

This course follows AL 170 PT Procedures in the curriculum sequence and is designed to provide the Physical Therapist Assistant student with a foundation for musculoskeletal assessment and treatment. Emphasis is on orthopedic physical therapy assessment, including manual muscle testing, cranial nerve testing, dermatomal and myotomal assessment, special tests, joint mobilization theory, therapeutic exercise, motor control theory, clinical decision making according to the Physical Therapist Plan of Care, identification of red flags, specific orthopedic protocols and implementation of specific physical therapy programs for various rehab clients. Prerequisite: AL 170 and concurrent enrollment in AL 261

AL 185 Principles of Respiratory Therapy I (2)

Specific modes of respiratory care are examined to understand principles of application to patients, indications, hazards, contraindications, and evaluation of therapy. Emphasis is placed on detailed knowledge of equipment used in these modes. Modes of care include medical gas therapy, humidity and aerosol therapy, lung expansion techniques and basic diagnostic studies. An additional fee is associated with this course. Prerequisite: Consent and concurrent with AL 185L.

AL 185L Principles of Respiratory Therapy Lab (0)

Explores the procedures for specific respiratory therapies. Students will practice skills and complete required competencies. Concurrent with AL 185.

AL 186 Cardiopulmonary Assessment (2)

This course is for Allied Health students and is designed to provide the student with an understanding of the cardiopulmonary systems. Areas of study will include a review and assessment of the anatomy and physiology of the pulmonary, cardiac, and renal systems. Prerequisites: OTA-AL 167; RT-AL 185; PTA-concurrent with AL 265 and AL 272 or consent.

AL 187 Respiratory Therapy Clinical I (3)

An introduction to basic respiratory therapy procedures. Orientation to clinical practice, charting of records, infection control, emergency procedures, therapeutic procedures and diagnostic procedures are emphasized. The student will be introduced to routine respiratory care and equipment. Prerequisite: AL 185.

AL 220 Radiographic Procedures III (2)

Presents cross-sectional anatomy as a background for radiographic related imaging modalities. Develops an awareness of related areas including venipuncture, computed tomography, sonography, nuclear medicine, radiation therapy, magnetic resonance, mammography, and interventional procedures. The investigation of alternative methods of radiography of the atypical patient is included. Prerequisite: AL 121 or consent.

AL 230 Radiologic Equipment Operation (2)

Focuses on radiography physics, electromagnetic radiation, and x-ray production. Emphasizes electrical concepts including electrodynamics, circuitry, electromagnetism, rectification and the application of these principles to radiography. A working knowledge of basic algebraic equations is required. Prerequisite: AL 131 or consent.

AL 231 Radiation Protection & Biological Effects (2)

Provides the knowledge and serves to develop the attitude necessary to intelligently protect the patient, themselves, and others from the potentially harmful effects of radiation. Includes an in-depth discussion of biological effects, cell and organism sensitivity, and somatic and genetic effects of ionizing radiation. Prerequisite: AL 121 or AL 131 or consent.

AL 236 Radiology Clinical III (3)

This course requires a specific number of hours of direct radiographic assistance in a healthcare setting. Students will demonstrate competence in a variety of procedures with indirect supervision. Prerequisite: AL 121, AL 131, AL 135, or consent.

AL 237 Radiology Clinical IV (4)

This course requires a specific number of hours of direct radiographic assistance in a healthcare setting. Students demonstrate competence in special procedures utilizing positioning techniques covered in AL 220 with direct supervision. Rotations through specialized areas of radiology will begin. Prerequisite: AL 236 and concurrent with AL 220 or consent.

AL 238 Radiology Clinical V (4)

Additional experience and expertise in routine and non-routine examinations is gained. Rotations through the specialized areas of radiology will continue. Students are under indirect supervision. Prerequisites: AL 237 and AL 220 or consent.

AL 240 Professional Practice I for Health Information Technology (2)

This course includes simulated projects completed independently, and supervised clinical experience in the technical aspects of health records in approved health care facilities and agencies. Prerequisites: Admission to Health Information Technology Program, AL 150 or concurrent enrollment.

AL 241 Professional Practice II for Health Information Technology (3)

Continuation of AL 240. Prerequisite: AL 240.

AL 243 Coding Professional Practice for Health Information Technology (2)

Simulated projects performed independently, and supervised clinical including inpatient and outpatient coding in approved health care facilities and agencies. Prerequisites: AL 245, AL 246, or concurrent.

AL 244 Healthcare Statistics - Health Information Technology (2)

This course covers the collection, computation, analysis, presentation and use of healthcare statistical data. Prerequisite: AL 150.

AL 245 Health Information Coding I (3)

This course covers coding principles for diseases and operations using the International Classification of Diseases. Focus is on the identification, coding & sequencing of inpatient medical diagnosis and procedures. Prerequisites: BI 230, BI 250, AL 320 or concurrent.

AL 246 Health Information Coding II (3)

This course covers coding principles for outpatient services using the International Classification of Diseases and Current Procedure Terminology manuals. Focus is on the identification, coding & sequencing of outpatient diagnosis & procedures. Prerequisite: AL 245.

AL 247 Healthcare Reimbursement Methods (3)

This course covers healthcare reimbursement methodologies and advanced coding skills for inpatient and outpatient settings. Prerequisite: AL 250, AL 246 or concurrent.

AL 250 Seminar in Health Information Technology (1)

This course includes an analysis of major trends and issues affecting health information, review of the fundamental principles of health information technology & successful completion of a simulated certification examination. Concurrent with AL 241.

AL 252 Psychosocial Occupational Therapy (3)

This lecture lab course provides the student with the knowledge and understanding of psychiatric disorders, human behavior, and the role of occupational therapy in psychosocial mental health. The course prepares the student to interact therapeutically with clients across the lifespan in various settings who have psychosocial needs, with emphasis on the therapeutic use of self and therapeutic process. Prerequisite: AL 164

AL 253 Level I OTA Fieldwork Rotation III (1)

This course requires a specific number of hours in the health care setting to allow the student to employ logical thinking, critical analysis, problem solving and creativity as it relates to the occupational therapy clinical setting. Prerequisites: AL 164, AL 167.

AL 254 Current Topics Occupational Therapy (2)

This course will allow the student to obtain the knowledge and understanding of the systems and structures that create federal and state legislation and regulation for occupational therapy. Topics include reimbursement, national, international and state regulations for licensure, certification and/or registration for occupational therapy. Prerequisite: AL 167.

AL 255 Level II Occupational Therapy Fieldwork (8)

This fieldwork placement consists of two, full time, eight week rotations and provides the student with the opportunity to develop into competent, entry-level occupational therapy assistants. The student will be exposed to a variety of clients across the life span and a variety of settings. Prerequisite: Satisfactory completion of all previous coursework.

AL 257 Applied Neurophysiology - Occupational Therapy (3)

This course is designed to provide the Occupational Therapy Assistant with a foundation in applied neurophysiology concepts. This includes, but is not limited to, specific assessment and treatment techniques for patients in special populations, such as spinal cord injury, pediatrics, amputees, traumatic head injury, cerebrovascular accidents, as well as other neurological or cardiovascular disorders. Prerequisite: AL 167 and BI 230.

AL 260 Independent Study (1-3)

Allied Health majors may pursue an independent research project if approved by the Program Director in consultation with the Department Chair. Independent Study may not be used in place of any courses required in the major. Independent Study courses must meet equivalencies to Federal definition of a credit hour. Prerequisites: Consent

AL 261 Therapeutic Modalities in Physical Therapy (4)

This course follows AL 170 Physical Therapy Procedures in the curriculum sequence and is designed to provide the student with a foundation for the use of therapeutic modalities. This course includes instruction on the various modalities of heat, cold, electrical stimulation, hydrotherapy, diathermy, ultrasound, traction, ultraviolet/infrared light and other physical agent modalities and treatments. Prerequisites: AL 170 and concurrent enrollment in AL 171.

AL 264 Physical Therapy Clinical I and Lab (3)

This course involves observation and supervised hands-on treatment of various types of patients in different clinical settings with the practicum of skills learned in AL 170 Procedures and AL 171 Musculoskeletal Assessment in Physical Therapy, and AL 261 Therapeutic Modalities in Physical Therapy. This course will include an on-going communication between the clinical instructor (CI), the student and the academic coordinator. The student is given the opportunity to work with a variety of patients and to begin developing competence as a medical team member. The student also attends 6 clinical labs prior to the start of the clinical rotation to further develop his/her skills with patients and department procedures. Prerequisites: AL 261 and AL 171.

AL 265 Applied Neurophysiology - Physical Therapist Assistant (3)

This lecture/lab course is designed to provide the Physical Therapist Assistant with a foundation in applied neurophysiology concepts and common neurologic disease processes, physical therapy assessment and intervention techniques. This includes, but is not limited to, specific assessment and treatment techniques for patients in special populations, such as spinal cord injury, pediatrics, traumatic head injury, cerebrovascular accidents, as well as other neurological or cardiovascular disorders. Prerequisite: AL 264, AL 268, AL 271 and concurrent enrollment in AL 272 and AL 186.

AL 268 Integumentary Assessment in Physical Therapy (2)

Therapy management of various wounds and integumentary disorders. Specific emphasis will be placed on proper identification/staging of wounds, assessment and measurement, treatment protocols including selection of proper debridement techniques and dressings, along with other topics regarding integumentary assessment and wound care. Prerequisite: AL 261 and AL 171.

AL 271 Health Policy & Systems in Physical Therapy (2)

This course emphasizes professional aspects of the Physical Therapist Assistant. Included in that realm are topics such as professional behavior with colleagues and patients, health care history, policy, and systems, reimbursement guidelines, legislative issues, continuing education and plan for professional advancement, code of ethics, cultural sensitivity and competence, current developments in Physical Therapy, professional relationships, research, evidence based practice, employment, etc. This course is designed to broaden the student's understanding of professional responsibility and motivate them towards personal improvement, commitment and continuing competence in the Physical Therapy profession. Prerequisite: AL 261, AL 171, and concurrent enrollment in AL 264 and AL 268.

AL 272 Current Rehabilitation Techniques in Physical Therapy (2)

This course emphasizes the characteristics, clinical problems, and physical therapy treatment of various rehabilitation patients, including the physical, psychological, sexual and vocational problems encountered. Specialized areas of Physical Therapy such as Aquatics, Geriatrics, Oncology, Women's Health Issues, Prosthetics/Orthotics, Sports Physical Therapy and Pediatrics are included in this course. Prerequisite: Satisfactory completion of all previous coursework. AL 264, AL 268, AL 271 and concurrent enrollment in AL 265.

AL 273 Physical Therapy Issues (1)

In consultation with a faculty member, the student is assigned for intensive study a specific area of concern related to physical therapy. This may include intensive reading and the preparation of patient and/or practitioner educational materials related to the subject. This will give the student an opportunity to develop an area or topic of expertise by exploring various avenues of information and compiling those into one document. During this course the student will also be reviewing for the Program Comprehensive Final to be given during the second or third week of the spring semester. Prerequisites: AL 265, AL 272. AL 186, AL 265, AL 272 and concurrent enrollment in AL 279.

AL 279 Physical Therapy Clinical II & III (6)

This course is clinical in nature and consists of two six-week full-time rotation following the completion of all didactic course work. The student will be involved in practicing all Physical Therapist Assistant skills in an assigned healthcare facility. The course will entail either on-site or phone/skype communication between the clinical instructor, the student and the academic coordinator (at least once during each rotation). The student is given the opportunity to practice advanced applications with direct supervision on a variety of patients and to develop competence as a full-time member of the medical team. Prerequisites: AL 265, AL 272, AL 186, and concurrent enrollment in AL 273.

AL 289 Respiratory Therapy Clinical II (5)

Students are assigned to various clinical settings designed to allow the student to complete procedural evaluations in basic respiratory care. The student will also be introduced to critical care medicine. Prerequisite: AL 187.

AL 290 Special Topics/Allied Health (1-3)

Selected topics related to one of the Allied Health programs, which vary from semester to semester. Announced in advance. Prerequisite: Specified on each topic.

AL 291 Respiratory Therapy Principles and Procedures I (3)

Lectures and laboratory topics on cardiopulmonary resuscitation, airway care and management, emergency care, mechanical ventilation and care of the critically ill patient. Prerequisite: AL 289.

AL 292 Respiratory Therapy Principles and Procedures II (5)

Lectures, simulation and group discussion of diagnostic procedures used by the pulmonary physician in evaluating patients with respiratory disease. Special emphasis will be placed on etiology, pathophysiology, clinical manifestations, patient education, and treatment of obstructed and restricted pulmonary diseases. Prerequisite: Consent

AL 293 Respiratory Therapy Clinical III (5)

An in-depth exploration of critical care medicine. The student will execute procedures relating to care of the patient being mechanically ventilated. The student will also be given clinical experience in EKG's and pulmonary function studies. The student will also be introduced to neonatal critical care medicine. An additional fee is associated with this course. Prerequisite: AL 289.

AL 294 Respiratory Therapy Clinical Topics II (3)

An introduction to medical microbiology. Special emphasis on pathogens related to the cardiopulmonary systems. Students will also be exposed to new, current and advanced clinical respiratory therapy topics. Prerequisite: AL 292.

AL 295 Respiratory Therapy Clinical IV (5)

Clinical rotations in pulmonary rehabilitation/home care, advanced ventilation techniques, hemodynamic monitoring, and specialty rotations that the student is concerned with related to respiratory therapy. Students will also receive clinical experience in pediatrics and neonatology. Prerequisite: AL 293.

AL 296 Respiratory Therapy Clinical Topics III (3)

Instruction in fields of obstetrics, neonatology and pediatrics as related to respiratory care. Includes sections on medical ethics. Prerequisite: AL 382.

AL 300 Introduction to Diagnostic Medical Sonography (3)

An introduction to the Diagnostic Medical Sonography profession. Topics include discussion of sonographic terminology, basic theories of equipment operation, body imaging, seminars in patient care, professionalism, and information concerning clinical education. Prerequisite: Admission to Diagnostic Medical Sonography Program or consent.

AL 301 Clinical Radiation Therapy I (4)

In this course the student therapist will participate in the daily activities of the radiation oncology department while under direct supervision at affiliated clinical education sites. The student therapist will work to develop skills to achieve competency and learn to interact professionally and ethically with staff and patients.

AL 302 Radiation Therapy Principles I (3)

This course is designed to provide a basic overview of radiation therapy treatment planning and delivery concepts as well as foundational knowledge related to patient assessment, pharmacology, ethics, and law.

AL 303 Radiation Therapy Physics I (3)

This course is designed to establish knowledge of basic physics concepts relevant to fundamental physical units, principles, atomic structure, types of radiation, x-ray production, interactions with matter, measurement devices, and x-ray generating equipment.

AL 304 Therapeutic Radiobiology (3)

This course is designed to explore the biological, chemical, and physical effects of radiation on cells, tissues, and the body as a whole.

AL 305 Radiation Therapy Physics II (3)

This course is designed to examine factors that influence and govern the optimal planning of external beam radiation therapy and brachytherapy. Topics include isodose distributions, compensating factors, methods of dosimetric calculations, and clinical applications of treatment beams.

AL 307 Oncology, Simulation, and Treatment Procedures I (3)

This course is designed to examine and evaluate the management of neoplastic disease. The epidemiology, etiology, diagnosis, treatment approaches, sequelae, and prognosis are discussed.

AL 308 Allied Health Portfolio (3)

This is a required course for Bachelor of Health Science majors who are requesting credit for a radiographer, sonographer or radiation therapist accredited program which was not completed at a University/ College. Students will develop a portfolio demonstrating completion of appropriate education and registry examinations in addition to retrospective and prospective self-evaluation

AL 309 Foundations of Radiation Therapy (2)

This course is designed to provide an introduction to radiation oncology and the role of the professional radiation therapist. Radiation therapy medical terminology, patient assessment, radiation protection, and safety are explored. Students are oriented to the policies and procedures of the educational program.

AL 310 Radiation Therapy Procedures II (3)

This course is designed to provide instruction regarding radiation therapy quality management.

AL 311 Imaging in Radiation Therapy (3)

This course is designed to introduce crosssectional anatomy as it relates to the practice of radiation therapy with a focus on location of normal gross anatomy and relationship to other structures. Anatomy will be identified in axial (transverse), sagittal, and coronal planes. Radiation oncology imaging and simulation equipment/components, and related devices

AL 315 Allied Health Pharmacology (3)

This course is for allied health students and is designed to familiarize the student with general classification of drugs, the mechanism of action, indications, contraindications, and major adverse effects. Principles of drug administration and pharmacokinetic are also presented.

AL 320 Human Disease (3)

A study of diseases, their causes and complications, and the modern practices of diagnosis and treatment. Prerequisite: BI 230 or BI 250 or BI 255 or BI 275.

AL 321 Advanced Radiographic Imaging (2)

A continuation of disease concepts with a direct application to patient assessment, patient care, selection of radiation exposure factors and radiologic procedures. Prerequisite: Consent.

AL 330 Sonography Principles and Instrumentation I (3)

This course provides information concerning the basic physical principles of sound waves, their applications to the human body, the operation and physical characteristics of the transducer, the method by which the sound waves are converted into an image. In-depth instruction on physics principles and instrumentation will be presented. Prerequisite: Admission to Diagnostic Medical Sonography program or consent.

AL 331 Sonography Principles and Instrumentation II (3)

This course is a continuation through the physics of sonography. It will continue the exploration of the basic physical principles of sound waves, their applications to the human body, the operation and physical characteristics of the transducer, the method by which the sound waves are converted into an image. An in-depth instruction on physics principles and instrumentation will be presented. Prerequisite: Admission to Diagnostic Medical Sonography program or consent.

AL 332 Sonography Principles and Instrumentation III and Registry Review (2)

This course will review all of the curriculum related to the physics of sonography and sonography instrumentation to prepare the student for the national credentialing examinations. Prerequisite: Admission to Diagnostic Medical Sonography program or consent.

AL 340 Clinical Radiation Therapy II (4)

This course is a continuation of AL301. The student therapist will participate in the daily activities of the radiation oncology department while under direct supervision at affiliated clinical education sites. The student therapist will work to develop skills to achieve competency and learn to interact professionally and ethically with staff and patients.

AL 341 Sectional Anatomy & Imaging Applications (4)

Detailed study of gross anatomical structures will be conducted systematically for location, relationship to other structures and function. Gross anatomical structures are located and identified in axial (transverse), sagittal, coronal and orthogonal (oblique) planes. Illustrations and anatomy images will be compared with magnetic resonance (MR) and computed tomography (CT) images in the same imaging planes and at the same level when applicable. The characteristic appearance of each anatomical structure as it appears on CT and MR, when applicable, will be stressed. Prerequisite: Consent.

AL 347 Magnetic Resonance (MR) Physics I (3)

Content is intended to impart an understanding of theories of magnetic resonance properties. Additional concepts such as pulse sequencing, coils, gradient usage and signal production will be covered. Prerequisite: Consent.

AL 348 Magnetic Resonance (MR) Imaging I (3)

Content is designed to provide a review of anatomy involving selected body regions with an understanding of MR tissue characteristics. Routine imaging of the abdomen, pelvis, thorax, musculoskeletal system and central nervous system will be discussed. Common pathology as demonstrated through MR imaging will be presented. Prerequisite: Consent.

AL 349 Magnetic Resonance Clinical Experience I (1-3)

Assignment to a MR facility for application of theory and development of competency in routine imaging. Establish eligibility for certification through the American Registry of Radiologic Technologists. Prerequisite: Consent.

AL 350 Magnetic Resonance (MR) Physics II (3)

A continuation of Physics I concepts including pulse sequencing application, coil selection relating to scans, calculation of scan times as well as scan parameters and image factors. Prerequisite: AL 347 or consent.

AL 351 Magnetic Resonance (MR) Imaging II (3)

A continuation of imaging methods with a focus on non-routine or specialized protocols of the abdomen, pelvis, thorax, musculoskeletal system, central nervous system and vascular system. Prerequisite: AL 348 or consent.

AL 352 Magnetic Resonance Clinical Experience II (1-3)

Assignment to a MR facility for application of theory and development of competency in specialized imaging. Establish eligibility for certification through the American Registry of Radiologic Technologists. Prerequisite: AL 349 or consent.

AL 354 International Health Care Experience (3)

This course will offer students the opportunity to experience the culture of countries other than the United States while engaging in meaningful healthcare services or studies. In addition to completing their studies or service project, students will learn about the history, political systems, healthcare systems and culture of the country they visit. Prerequisite: Permission of the course instructor.

AL 355 Basic Concepts Health Services Administration (3)

This course is designed primarily for students who are new to the Bachelor of Health Science program and do not possess an allied health or other healthcare certification. This course will consist of introductory information and examines the health profession, health care administration and the organization of health care. Prerequisite: None.

AL 360 Independent Study/Allied Health (1-3)

Allied Health majors may pursue an independent research project if approved by the Program Director in consultation with the Department Chair. Independent Study may not be used in place of any courses required in the major. Independent Study courses must meet equivalencies to Federal definition of a credit hour. Prerequisites: Consent

AL 361 General Sonography Clinical I (6)

Students are assigned to various clinical settings to allow the student to begin developing the technical skills necessary to become an entry-level sonographer. Students receive supervision, training, and feedback from a registered sonographer. Prerequisite: Admission to Diagnostic Medical Sonography program or consent.

AL 362 General Sonography Clinical II (6)

Students are assigned to various clinical settings to allow the continuation of developing the technical skills necessary to become an entry-level sonographer. Students receive supervision, training, and feedback from a registered sonographer. Prerequisite: Admission to the Diagnostic Medical Sonography program or consent.

AL 363 General Sonography Clinical III (3)

Students are assigned to various clinical settings to allow the continuation of developing the technical skills necessary to become an entry-level sonographer. Students receive supervision, training, and feedback from a registered sonographer. Prerequisite: Admission to the Diagnostic Medical Sonography program or consent.

AL 366 Legal & Regulatory Issues for the Health Care Professional (3)

This course is an overview of the legal and regulatory issues that impact the delivery of health care. Emphasis will be placed on the management of a health care organization from a leadership perspective. Prerequisite: Admission to the Bachelor of Health Science major/minor or HIT program.

AL 367 Foundations of Quality Improvement in Health Care (3)

The course introduces the student to key quality and process improvement issues impacting the administrators of today's health care organizations and explores how those issues affect the delivery of care. Data-driven process and quality improvement is a central theme in the exploration of a variety of health care topics. This course provides basic knowledge of process improvement to be used in later courses. Prerequisite: Admission to the Bachelor of Health Science major/minor or HIT program.

AL 370 Oncology, Simulation and Treatment Procedures II (3)

This course is designed to examine and evaluate the management of neoplastic disease. The epidemiology, etiology, diagnosis, treatment approaches, sequelae, and prognosis are discussed.

AL 371 Abdomen Sonography Procedures I (3)

This Course will introduce introductory topics concerning abdominal sonography including but not limited to anatomy, pathophysiology, anatomical disease processes, patient care applications and sonographic principles and practices. Prerequisite: Admission to the Diagnostic Medical Sonography program or consent.

AL 372 Abdomen Sonography Procedures II (3)

This Course will continue to explore general abdominal sonography and general small parts sonography topics. Topics will include but not limited to anatomy, pathophysiology, anatomical disease processes, patient care applications and sonographic principles and practices. Additionally special topics, pediatrics and interventional sonography practices will be explored. Prerequisite: Admission to the Diagnostic Medical Sonography program or consent.

AL 375 Health Care Policy (3)

This course focuses on government and private policy and how it impacts the delivery of health care. Students will learn how a health care leader can be an advocate for change. Prerequisite: Admission to the Bachelor of Health Science major.

AL 379 General Sonography Procedures III and Registry Review (2)

This course will combine all information concerning general sonography procedures and OBGYN sonography procedures courses. This course will serve as a review course with mock board review exams tailored to the requirements of the National Registry exams of the Abdominal and OBGYN specialty board exams. Prerequisite: Admission to the Diagnostic Medical Sonography program or consent.

AL 380 Clinical Radiation Therapy III (3)

This course is a continuation of AL340. The student therapist will participate in the daily activities of the radiation oncology department while under direct supervision at affiliated clinical education sites. The student therapist will work to develop skills to achieve competency and learn to interact professionally and ethically with staff and patients.

AL 381 Radiation Therapy Seminar (3)

This course offers a is designed to provide a systematic review of the ARRT content specifications with a focus on real world radiation therapy situations, which challenge a therapist's problem solving and critical thinking skills. This course prepares the student for the national certification examination and entry-level problem solving.

AL 382 Cardiovascular Monitoring and Scanning (3)

Course for Respiratory Therapy students designed to provide the student with an understanding of cardiovascular monitoring. Areas of study will include an introduction to heart development, review of anatomy and physiology of the heart, hemodynamic monitoring, effects on hemodynamics due to disease states, and cardiac arrhythmia recognition. Prerequisite: Admission to Respiratory Therapy program.

AL 383 Cardiac Sonography Procedures I (3)

The content of this course will an indepth exploration of cardiac embryology, anatomy and physiology, pathophysiology, echocardiographic procedures, imaging techniques, and protocols specific to echocardiography.

AL 384 Cardiac Sonography Procedures II (3)

A detailed and in-depth exploration of various cardiac pathology and their echocardiographic manifestations. Prerequisite: Admission to the Diagnostic Medical Sonography program or consent.

AL 385 Cardiac Sonography Clinical I (6)

Students are assigned to various clinical settings to allow the student to begin developing the technical skills necessary to become an entry-level sonographer. Students receive supervision, training, and feedback from a registered sonographer.

AL 386 Cardiac Sonography Clinical II (6)

Students are assigned to various clinical settings to allow the continuation of developing the technical skills necessary to become an entry-level sonographer. Students receive supervision, training, and feedback from a registered sonographer.

AL 387 Cardiac Sonography Clinical III (3)

Students are assigned to various clinical settings to allow the continuation of developing the technical skills necessary to become an entry-level sonographer. Students receive supervision, training, and feedback from a registered sonographer.

AL 388 Cardiac Sonography Procedures III and Registry Review (2)

The course will cover new and highly specialized procedures in the realm of echocardiography, such as stress echo (treadmill and pharmacological), contrast echocardiography, diastology, and transesophageal echocardiography. It will also provide a review and Mock Testing for Boards. Prerequisite: Admission to the Diagnostic Medical Sonography program or consent.

AL 389 OBGYN Sonography Procedures I (3)

This Course will introduce introductory topics concerning obstetrical and gynecological sonography including but not limited to anatomy, pathophysiology, anatomical disease processes, fetal anatomy and disease, patient care applications and sonographic principles and practices. Prerequisite: Admission to the Diagnostic Medical Sonography program or consent.

AL 390 Special Topics/Allied Health (1-3)

Selected topics related to allied health which vary from semester to semester. Announced in advance. Prerequisite: Consent.

AL 391 Chemistry Application in Respiratory Care (3)

Introduction to medical chemistry. This course will discuss the basic aspects of chemistry and biochemistry as related to cardiopulmonary physiology and therapeutic intervention. This course includes atomic theory, chemical bonding and acid-base balance.

AL 392 OBGYN Sonography Procedures II (3)

This Course will continue to explore obstetrical and gynecological sonography including but not limited to anatomy, pathophysiology, anatomical disease processes, fetal anatomy and disease, patient care applications and sonographic principles and practices. Additionally special topics, fetal anomalies, and interventional OBGYN sonography practices will be explored.

AL 393 Vascular Sonography Procedures I (3)

An in-depth discussion of the anatomy, physiology, and pathophysiology of the peripheral and cerebral vascular systems. The focus will be on the cerebrovascular system and the arterial and venous systems of the lower extremities. Hemodynamics, Doppler waveforms, pressure measurements, plethysmography, appropriate pharmacology, sonographic appearance, and scanning techniques will be discussed. This will include arterial and venous systems, therapeutic intervention, and non-invasive testing-exam protocols. Prerequisite: Admission to Diagnostic Medical Sonography program.

AL 394 Vascular Sonography Procedures II (3)

Continuation of AL 393 to include discussion of the anatomy, physiology, and pathophysiology of the abdominal and peripheral vascular systems. The focus will be on the abdominal vasculature and on the arterial and venous systems of the upper extremities. Hemodynamics, Doppler waveforms, pressure measurements, plethysmography, appropriate pharmacology, sonographic appearance and scanning techniques will be discussed. Therapeutic intervention includes arterial and venous systems, non-invasive testing, and exam protocols. Prerequisite: Admission to the Diagnostic Medical Sonography program or consent.

AL 395 Vascular Sonography Clinical I (6)

Students are assigned to various clinical settings to allow the student to begin developing the technical skills necessary to become an entry-level sonographer. Students receive supervision, training, and feedback from a registered sonographer.

AL 396 Vascular Sonography Clinical II (6)

Students are assigned to various clinical settings to allow the continuation of developing the technical skills necessary to become an entry-level sonographer. Students receive supervision, training, and feedback from a registered sonographer. Prerequisite: AL 395.

AL 397 Vascular Sonography Clinical III (3)

Students are assigned to various clinical settings to allow the continuation of developing the technical skills necessary to become an entry-level sonographer. Students receive supervision, training, and feedback from a registered sonographer.

AL 398 Vascular Procedures III and Registry Review (2)

The course will cover new and highly specialized procedures in the realm of vascular sonography. Among the content will be hemodialysis access, transcranial doppler, and mapping procedures. It will also provide review and Mock Testing for Boards. Prerequisite: Admission to the Diagnostic Medical Sonography Program or consent.

AL 399 Health Information Systems (3)

This course is designed to help current and future health care professionals understand the impact of data and technology on daily clinical practice. In this course, we will examine the processes involved in acquiring, organizing, protecting, and utilizing information to support and improve health care delivery. We will discuss aspects of technology and their relevance to health care, including computer applications, infrastructure planning, ethical and legal aspects of health informatics, data security and management, and the future of data and information in health care practice. Throughout the course, we will emphasize the importance of providing competent, patient-focused care. Prerequisite: Admission to the Bachelor of Health Science major/minor or HIT program.

AL 400 Supervisory Practices for the Health Care Professional (3)

This course will introduce students to basic supervisory functions and responsibilities related to managing in health care organizations. Topics include history of management theory, the primary supervisory functions of planning, organizing, staffing, influencing, and controlling, and effective practices for managing a diverse workforce. Prerequisite: Admission to the Bachelor of Health Science program and EN 300.

AL 405 Financial Issues in Health Care I (3)

This course will introduce the student to common financial practices and issues in today's health care facilities, including a focus on the regulatory environment. Prerequisite: Admission to the Bachelor of Health Science major/minor and MA 112 or 116 with a C or higher grade.

AL 406 Finan Issues in Health Care II (3)

This course introduces the student to the economics of healthcare and the current system of financing health care. Addresses basic budgeting and management systems applicable to various health care industries. Examines the role of capital management and strategic planning in the success of a healthcare organization. Prerequisite: AL 405

AL 420 Current Issues in Health Care (3)

This course will explore current health care issues from the perspective of the Health Services Administrator. Special emphasis will be placed on the impact of the issue under study for the delivery, practice and organization of the American Health care system.

AL 430 Essentials of Public Health (3)

This course will provide students with an introduction to public health concepts as well as public health professional practice. Throughout the course, students will explore the origins and development of modern public health organizations and the relationship of public health to the overall healthcare system. Course topics include the basic structure of the public health system, the laws that influence public health, the public health workforce, and managing public health programs. Prerequisite: Admission to a Bachelor of Health Science program.

AL 450 Application of Quality Improvement in Health Care (3)

The course builds on the foundations of quality improvement class. It provides students the background to develop and implement quality assurance and patient safety programs according to national initiatives. Students explore methods of making organizations and individuals more adaptive and productive. Emphasis is on using tools and techniques that will improve critical thinking skills and students will apply communication skills to maintain positive stakeholder relationships. Prerequisite: Admission to the Bachelor of Health Science major and AL 367.

AL 460 Research in Health Care (3)

This course is designed to give you an introductory understanding of quantitative and qualitative research terminology and methodology. Throughout the semester, you will demonstrate the ability to locate scholarly sources of information, and you will develop the skills to evaluate published literature to determine the quality of the content and its relevance to health care practice. By the end of the course, you will be able to discuss the role of research in evidence-based practice and health care decision-making. Prerequisite: Admission to the Bachelor of Health Science program and EN 300.

AL 465 Evidence-Based Approaches to Public Health (3)

This course will explore ways that epidemiology and research are used to inform public health practice. Throughout the course, basic research methodologies will be reviewed, examining the role of data collection and analysis in the field of public health. Topics include principles of epidemiology, research methodologies as applied to public health practice and using evidence to support public health initiatives. Prerequisites: Admission to a public health degree or AL 430

AL 470 Public Health Program Planning (3)

This course will explore how evidence-based concepts are utilized in public health program planning, implementation, and evaluation. Focus on developing public health interventions that prioritize community concerns and resources. Course topics include a review of public health data sources, evaluating factors that influence health behaviors, the importance of community engagement, the role of stakeholders, and strategies for communicating with diverse populations. Prerequisites: Admission to a public health degree or AL 430

AL 475 Public Health Program Management (3)

This course is an introduction to essential public health program management skills. Throughout the course, the student will learn strategies for effectively managing resources to support implementing public health programs and interventions. Course topics include leadership theories and practices, strategic planning concepts, team building and performance evaluation, and securing and managing financial resources. Prerequisites: Admission to a public health degree or AL 430

AL 480 Senior Seminar In Healthcare (3)

A capstone course designed to provide integration and application of health care administration and leadership principles. This course also requires a summative reflection of the student's experience and growth as a health care leader. Prerequisite: Admission to the Bachelor of Health Science Health Services Administration major, EN 300, and senior standing. This course should be taken during the last semester. Medical imaging majors require BHS advisor approval.

AL 600 Foundations of Health Care Education (3)

Introduces students to essential aspects of understanding and facilitating adult learning. Students will examine the characteristics, needs, and motivations of adult learners and uncover personal philosophical orientations toward teaching and learning.

AL 601 Legal/Ethical Issues in Health Care (3)

Provides foundational knowledge concerning legal and ethical concepts that guide health care professionals. The primary focus will be on applying ethical theories and legal principles to contemporary health care issues or cases.

AL 602 Special Populations in Health Care (3)

Includes a discussion and analysis of the impact of special populations on the health care delivery system. Major topics will include diverse ethnic populations, rural populations, migrant populations, minority populations and populations defined by diagnosis (e.g., diabetes, etc). This course is designed to acquaint the student with health care delivery implications of globalization in the context of cultural competence.

AL 603 Health Care Decision Making (3)

Decision making is the study of identifying and choosing alternatives based on reducing uncertainty and selecting a reasonable choice based on the values and preferences of the decision maker. Decision making theories, methods, and processes will be studied as well as the application of decision analysis and knowledge-based systems, including data mining, data warehouses, data marts, clinical data repositories, and data modeling. Prerequisite: None.

AL 620 Research Methods in Health Care Education (3)

Introduces students to the general principles of quantitative and qualitative research approaches and prepares students to become critical thinkers and responsible consumers of research. Emphasis is placed on the processes of planning, conducting, and reporting research results focused on the improvement of practice (action research).

AL 622 Educational Program Administration (3)

Focuses on the fundamental elements of educational health professions program planning, assessment, and troubleshooting by examining the activities of Program Directors and Clinical Coordinators. The impact of credentialing, accreditation, and licensure requirements is discussed along with issues related to higher education such as general education requirements, academic advising, grievance/appeal processes, and tenure and promotion.

AL 624 Assessment in Health Care Education (3)

Builds a foundation of classroom assessment literacy focusing on the accurate collection of information about student achievement and its effective use to improve teaching and learning. Students will develop skills and knowledge to formulate measurable learning targets, ensure a match between targets and assessment method, and design various classroom assessments.

AL 626 Instructional Technology (3)

Prepares students to apply theoretical frameworks to evaluate, select, and plan for instructional technology use to facilitate learning. Through practical application students will discover how to integrate technology into instruction and gain an awareness of the benefits and possible challenges of technology use.

AL 720 Curriculum/Instructional Methods in Health Care Education (3)

Explores various conceptualizations of curriculum and the role of educators in the curriculum development process. Instructional design models and various methods of instruction will be examined and applied.

AL 722 Trends in Health Care and Education (3)

Examines significant trends within health care and education practice including the influence of political, social, and economic variables.

AL 724 Capstone I (3)

This is the first of a two course sequence. Provides students with the foundation needed to develop an approved proposal for a comprehensive capstone project that draws upon skills and knowledge acquired in the MHS program and related experiences. The proposed project will be completed in the Capstone II course during the last semester of academic enrollment.

AL 726 Capstone II (3)

This is the last of a two-course sequence. Provides students with the opportunity to integrate and apply knowledge and skills gained from the MHS course of study and other related experiences through the completion of a comprehensive capstone project.

AL 777 Continuous Enrollment (1-3)

This course is to allow students additional time to complete Capstone, Thesis or Practicum requirements. Prerequisites: Instructor Permission

ANTHROPOLOGY (AN)

AN 112 Cultural Anthropology (3)

Students will learn about contemporary global cultures to develop a culturally relative understanding of and appreciation for diverse societies. Students will explore major domains of culture (such as economics, kinship, social stratification, political organization, communication, and religion) and the impact of globalization and colonialism on culture. Finally, students will explore how anthropological work is applied to contemporary social problems. Prerequisites: None

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

AN 113 Linguistic Anthropology (3)

This course is an introduction to the cross-cultural examination of language and communication. Students will learn how language shapes culture, behavior, and thought, the evolution of language over time, the impact of globalization and colonialism, and the intersectionality of race, ethnicity, class, and gender on language. The class will explore how linguistic anthropologists conduct research and apply research to real world settings.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

AN 114 Introduction to Archaeology (3)

This course will introduce students to the theories and methods of archaeological science to understand how archaeological remains are used to interpret human prehistory. This course covers what archaeology has revealed about the evolution and experience of humankind from the origins of stone-tool use to the emergence of complex societies around the world. No prerequisites.

Course Attributes:

- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

AN 116 Biological Anthropology (3)

This course introduces students to biocultural evolution across time and space. Students will investigate the biological aspects of human life through the study of the principles of evolution, genetics, adaptation, and human variation. This course will explore the evolutionary history of human ancestors and nonhuman primates using fossil evidence.

Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Quantitative and Scientific Reasoning and Literacy

AN 118 Introduction to Forensic Science (3)

This course provides an overview of the multi-disciplinary nature of forensic science. Students will learn how forensic scientists in various fields, such as anthropology, biology, chemistry, criminal justice, and digital science, apply the scientific method to collect and evaluate evidence. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Quantitative and Scientific Reasoning and Literacy

AN 200 Special Topics in Anthropology (1-3)

Topics will vary from semester to semester and will be announced in advance. May be taken more than one semester. Prerequisite: Varies by topic and semester.

AN 300 Special Topics in Anthropology (1-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: Varies by topic and semester.

AN 302 Culture, Gender & Sexuality (3)

This course introduces students to anthropological perspectives on sex, gender, and sexuality. Special attention is given to the social, political, economic, and cultural processes that shape us to act and think as particular kinds of sexed, gendered, and sexualized persons, including the complexities and dilemmas posed by intersecting identities (race, ethnicity, class, religion). Prerequisite: AN 112, or AN 113, or consent of instructor.

AN 303 Human Origins and Evolution (3)

This course examines the evolutionary fossil record of human and nonhuman primates from a bio-cultural perspective. Students will explore current anthropological methods and theories used to interpret the evolutionary data including the development of bipedalism, human adaptations, and the emergence of Homo sapiens. Prerequisite: AN 116.

AN 311 Primate Social Behavior (3)

This course focuses on the behavioral ecology and evolution of the Order Primate. Students will examine the taxonomic classification of nonhuman primates and investigate how evolution has shaped the diversity of their social structure and behavior. In addition to watching several anthropological films, we may observe nonhuman primate interactions at a local zoo. Prerequisite: AN 116.

AN 312 Medical Anthropology (3)

This course will explore biocultural constructions of health and illness across the globe. Students will critically assess biomedical assumptions and the effects of inequality to gain a better understanding of how different societies view and treat illness, the interaction of biology and culture, and the political and economic roles in relation to patterns of health and healing. Prerequisite: AN 112 or AN 116.

AN 313 Religion, Magic and Witchcraft (3)

This course is a cross-cultural study of the forms and functions of non-Western and Western supernatural beliefs. Students will examine a wide range of religious systems and worldviews including myth, ritual, symbolism, magic, ancestor worship, witchcraft, religious healing, and spirit possession. Major theories about the origins and social functions of such beliefs and practices will be explored. Prerequisite: AN 112.

AN 314 The Im/migrant Experience in America (3)

This course explores the historical and modern implications of im/migration in the United States; how globalization, colonialism, and transnationalism affect im/migrant communities; and how im/migrants acculturate into their host communities. Special attention will be given to the experiences of im/migrants in Kansas today. Prerequisite: AN 112, AN 113, or consent of instructor.

AN 316 Forensic Anthropology and Laboratory (3)

In this laboratory-based course, students will apply forensic anthropological methods and theories to recover and positively identify human remains and to evaluate trauma and taphonomy in medico-legal contexts. Forensic anthropology will also include an overview of the historical and current developments in the field. Prerequisites: AN 114 or AN 116.

AN 317 Peoples and Cultures of Africa (3)

This course explores sub-Saharan African societies through selected case studies covering topics such as kinship, gender, religion, political economy, geography, and contemporary social issues. Analysis includes the pre-colonial, colonial, and post-colonial histories of the various groups. Prerequisite: AN 112.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

AN 318 North American Archaeology (3)

As a survey of the diverse prehistoric cultures and environments of North America, this course will examine economic, technological, and organizational changes from the earliest hunter-gatherers to pre-Colombian complex societies. Students will gain an understanding of the history and theory of North American archaeology and explore experimental archaeological techniques through ancient tool making. Prerequisite: AN 114 or consent of instructor.

AN 319 Peoples and Cultures of Indigenous North America (3)

This course explores indigenous North American cultures through selected case studies covering topics such as kinship, gender, religion, political economy, geography, and contemporary social issues. Analysis includes the pre-colonial, colonial, and post-colonial experiences of the various groups. Prerequisite: AN 112.

AN 320 Ancient Latin America (3)

This course is an archaeological survey of the Pre-Columbian heritage of Mesoamerica and South America. Cultures such as the Olmec, Maya, Aztec, Moche, Nazca, Chimú, and Inca will be examined through artifacts, art, architectural remains, and ethnohistoric documents. Students will achieve an understanding of the growth and decline of complex societies, and will examine the relationship between the past and contemporary Latin American cultures. Prerequisite: AN 114 or consent of instructor.

AN 321 Anthropology of Women (3)

The roles and statuses of women around the world are examined in the three sub-systems of culture – material, social and ideational – including in-depth studies of women in horticultural, peasant, and modern societies. Prerequisite: AN 112 or consent of instructor.

AN 322 Visual Anthropology (3)

This course explores how images and other types of media are created, circulated, and consumed by members of diverse cultures and by anthropologists. Topics to be covered include how culture is portrayed in media and in museums, the use of media as a tool in ethnographic research; analysis of media from an anthropological perspective; and the creation of the “other” through media. Prerequisite: AN 112.

AN 324 History and Theory of Anthropology (3)

This course examines the history of Anthropology while also exploring current debates, schools of thought, and contemporary theories from a four-field perspective. Prerequisites: Declared major, AN 112, and junior standing.

AN 327 Fragmentary Human Osteology (3)

This laboratory-based course focuses on the growth and development of the human skeletal system and the identification of fragmentary skeletal and dental remains. Students will also explore how trauma, pathology, taphonomy, and cultural factors affect skeletal biology. Prerequisite: AN 316.

AN 332 Forensic Anthropology in Popular Culture (3)

Forensic anthropology is arguably one of the lesser-known forensic fields, but popular television shows have brought forensic anthropology to the forefront of popular culture. This course explores the general public's fascination with anything dubbed forensics in popular culture through the lens of forensic anthropology. We'll explore the difference between science and fiction through an in-depth analysis of how forensic anthropology is presented and manifests within popular culture versus the reality of the scientific discipline. Themes to be covered in the course include, but are not limited to, the CSI effect, “body farms,” culture change in body deposition practices, social media, beauty-related skeletal modifications, buying and selling human remains, dark tourism, cultural appropriation, politics of the “border crisis,” fascination with death, the TV drama series *Bones*, and skeletons in art, media, couture, and religion/ritual. No prerequisites

AN 334 Archaeological Myths, Frauds, and Controversies (3)

This course critically evaluates archaeological frauds, myths, controversies, and other mysteries perpetuated by pseudoarchaeology. We will investigate the origins of these myths and mysteries, break down the controversies, and learn to recognize frauds. We will evaluate the types of “evidence” used to create them and examine the reasons and rationales that lead people to invent, disseminate, and believe pseudoarchaeological claims. Most importantly, we will consider how these claims impact our culture, society, and how we view the human past. This course requires active discussion and hands-on applied projects to debunk pseudoarchaeology and promote the scientific endeavor of archaeology. No prerequisites.

AN 336 Globalization (3)

This course examines the causes and consequences of economic, political, and cultural globalization – the increasing interconnectedness among societies. Anthropological and interdisciplinary frameworks are applied to specific cases to understand how the world is changing and what it means for the world's people. Prerequisites: AN 112 or AN 113 or AN 114 or AN 116 or consent of instructor

AN 358 Human Skeletal Biology and Laboratory Methods (3)

In this laboratory-based course, students apply the principles, methods, theories, and techniques that anthropologists use to macerate, identify, analyze, and curate human skeletal remains. Students will work with real human skeletal material and forensic cases in a series of hands-on learning activities. Prerequisite AN 327.

AN 362 Methods of Social Research (3)

This course introduces students to the foundations of social science research including: designing an ethically and methodologically sound research project, generating research questions, conducting a literature review, selecting appropriate data collection methods, planning for data analysis, and sharing results. Prerequisites: 12 hours of Anthropology; or consent of instructor.

AN 363 Internship (1-3)

Field training to provide students with experience in an operational or research setting through assignment to local social agencies or museums approved and supervised by a faculty member. May be elected twice for a maximum of three hours. Prerequisites: Declared major, senior standing, and consent of instructor.

AN 366 Directed Readings (1-3)

Under supervision of a faculty member, students will undertake an extensive readings course to further their understanding of a specific topic within Anthropology. May be repeated for a maximum of six hours. Students are limited to six hours total from AN 366 and AN 367 combined. Prerequisite: Declared major, junior/senior standing, and consent of instructor.

AN 367 Directed Research (1-3)

Upon supervision of a faculty member, students will undertake an independent research project in a specific aspect of Anthropology. May be repeated for a maximum of six hours. Students are limited to six hours total from AN 366 and AN 367 combined. Prerequisite: Declared major, junior/senior standing, and consent of instructor.

AN 369 Kansas Archaeology (3)

This course is a survey of the archaeological record of Kansas from the earliest Paleoindian inhabitants through the Historic period. Students may have the opportunity to visit archaeological sites and museums in Kansas and participate in archaeological analysis through hands-on work with collections. Prerequisite: AN 114 or consent of instructor.

AN 370 Historical Archaeology (3)

In this course, students will examine the recent past through material remains of societies that also have some form of written evidence. Students will also learn about historic preservation, museum curation methods, and historic interpretation for public archaeology. Prerequisite: AN 114 or consent of instructor.

AN 371 Field and Lab Methods in Archaeology (3)

In this course, students will learn how to properly survey and excavate an archaeological site and how to identify and analyze artifacts, cultural features, and sediments using state-of-the-art techniques. Students will gain hands-on experience working in a mock-excavation setting and with real archaeological collections. This course is a prerequisite for AN 372 Archaeological Field School. Prerequisite: AN 114 or consent of instructor.

AN 372 Archaeological Field School (1-6)

This course provides students with practical, hands-on experience where they apply their archaeological training and knowledge at a field site held off-campus. The field school may include survey, location, and excavation techniques, technical mapping, and proper documentation and collection of field data. Long-distance and overnight travel may be required. Prerequisite: AN 371 or consent of instructor.

AN 374 Forensic Archaeology (3)

In this course, students will learn how to properly survey and excavate outdoor crime scenes containing human remains and forensic evidence using state-of-the-art techniques. Students will gain hands-on experience working in a mock-forensic excavation setting. This course is a prerequisite for AN 375 Forensic Anthropology Field School. Prerequisites: AN 114 or AN 316.

AN 375 Forensic Anthropology Field School (3)

This course provides students with practical, hands-on experience through a series of mock forensic cases including surface scatters, burials, and/or fatal fires. Students will apply knowledge gained in AN 374 Forensic Archaeology to simulated forensic cases beginning with the initial search to the recovery and transport of remains to the laboratory. Prerequisites: AN 374.

AN 400 Special Topics in Anthropology (1-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: Varies by topic and semester.

AN 428 Case Studies Forensic Anthropology (3)

Utilizing real forensic case studies, this class will highlight the anthropological techniques and methods used to recover and identify human remains. Students will work on cases from initial recovery to the preparation of the final forensic anthropological case report. Prerequisite: AN 358 and AN 374.

AN 490 Applied Anthropology (3)

In this course, students will apply core knowledge from the subfields of anthropology to real-world problems. Special attention is given to reflection and professional preparation for various career paths including nonprofit and community-based organizations, businesses and corporations, and governments. Prerequisite: AN 324 and junior/senior status.

AN 600 Special Topics in Anthropology (1-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: Admission to the MLS program and consent of instructor.

AN 621 Anthropology of Women (3)

The roles and statuses of women around the world are examined in the 3 sub-systems of culture-material, social and ideational—including in depth studies of women in horticulture, peasant, and modern societies. Prerequisites: AN 112 and admission to the MLS program or consent of instructor.

AN 624 History and Theory of Anthropology (3)

This course examines the history of Anthropology while also exploring current debates, schools of thought, and contemporary theories from a four-field perspective. Prerequisite: AN 112, admission to a graduate program; or consent of instructor.

APPLIED STUDIES (AU)

AU 300 Principles of Leadership (3)

This course provides a thorough review of established leadership and management theory, principles, and traits. The course also will focus on leadership skills relevant to future leaders in a wide variety of professional fields.

AU 495 Proseminar (1)

This course is designed as a forum for graduate and faculty exchange of ideas related to teaching scholarship and creative activities. Faculty or faculty and their students can present on their scholarship or research.

This is a forum for the exchange of ideas and provides a venue for graduate and select undergraduate students to learn about research and creative endeavors. This forum can also provide an opportunity for collaboration, inquiry, critical analysis and collegial exchange of ideas. For graduate and select undergraduate students this can be an opportunity to present scholarly achievements to a professional audience. A/Pass/Fail only. Course can be repeated.

AU 595 Proseminar (1)

This course is designed as a forum for graduate and faculty exchange of ideas related to teaching scholarship and creative activities. Faculty or faculty and their students can present on their scholarship or research.

This is a forum for the exchange of ideas and provides a venue for graduate and select undergraduate students to learn about research and creative endeavors. This forum can also provide an opportunity for collaboration, inquiry, critical analysis and collegial exchange of ideas. For graduate and select undergraduate students this can be an opportunity to present scholarly achievements to a professional audience. A/Pass/Fail only. Course can be repeated.

ARMY ROTC (ARMY)

ARMY 101 Introduction to Military Science I (1)

Required introductory course for the Army military science program. Course is comprised of lecture, laboratory and physical fitness weekly, as well as other field training exercises. Introduces the military science program as an element of the reserve forces and includes an examination of major legislation, the Army organization structure, and military leadership techniques. Course must be taken in conjunction with ARMY 101L.

ARMY 101L Army ROTC Lab (0)

Required ROTC Lab. Must be taken in conjunction with ARMY 101.

ARMY 102 Introduction to Military Science II (1)

Course comprised of lecture, laboratory and physical fitness weekly, as well as other field training exercises. A general study and appreciation of the American military system from colonial times to the present. The course identifies factors present in the American society and national policy in each particular historical period which influenced the development of American military systems. The relationship between the military establishment and the larger American society is examined in each historical period. Course must be taken in conjunction with ARMY 102L Lab. Prerequisites: ARMY 101/ARMY 101L or department approval.

ARMY 102L Army ROTC Lab (0)

Required ROTC Lab. Must be taken in conjunction with ARMY 102.

ARMY 201 Basic Military Science I (1)

Course comprised of lecture, laboratory, and physical fitness weekly, as well as other field training exercises. Analyzes the principles of war and military leadership at small unit level, and introduces principles of military writing. Course must be taken in conjunction with ARMY 201L Lab. Prerequisites: ARMY 102/ARMY 102L or department approval.

ARMY 201L Army ROTC Lab (0)

Required ROTC lab. Must be taken in conjunction with ARMY 201.

ARMY 202 Basic Military Science II (1)

Course is comprised of lecture, laboratory, and physical fitness weekly, as well as other field training exercises. Curriculum consists of the fundamentals of topographic map reading and their application in a field environment. Includes instruction in various types of maps, marginal information, topographic symbols and colors, scale, distance, direction and use of the magnetic compass. Course must be taken in conjunction with ARMY 202L Lab. Prerequisites: ARMY 201/ARMY 201L or department approval.

ARMY 202L Army ROTC Lab (0)

Required ROTC lab. Must be taken in conjunction with ARMY 202.

ARMY 301 Theory & Dynamics of Tactical Operations I (3)

Course is comprised of lecture, laboratory, and physical fitness weekly, as well as other field training exercises. A comprehensive study of conventional tactical operations. Emphasizes the fundamentals of land warfare and the qualities necessary to conduct fluid, non-linear operations. Introduces the student to the tenets of Air-Land Battle, the underlying structure of modern warfare, the dynamics of combat power, and the application of classical principles of war to a contemporary battlefield. Prerequisite: ARMY 202 or department approval.

ARMY 301L Army ROTC Lab (0)

Required ROTC lab. Must be taken in conjunction with ARMY 301.

ARMY 302 Theory & Dynamics of Tactical Operations II (3)

Course is comprised of lecture, laboratory, and physical fitness weekly, as well as other field training exercises. Expands on the application of conventional tactical operations in the low, medium, and high intensity conflict spectrum. Examines the three-dimensional nature of modern warfare and the unified battlefield. Prerequisite: ARMY 301 or department approval.

ARMY 302L Army ROTC Lab (0)

Required ROTC lab. Must be taken in conjunction with ARMY 302.

ARMY 303 Military Conditioning (1)

Introduction to the theoretical and practical aspects of developing physical fitness programs for all Army personnel from the commander or supervisor's perspective. Provides an overview of total fitness, defines physical fitness, outlines the phases of fitness, discusses various types of fitness programs, and presents evaluation criteria.

ARMY 401 Concepts of Military Management (3)

Course is comprised of lecture, leadership, and physical fitness weekly, as well as other field training exercises. An introduction to the military management system with special attention to the functions, organizations, and operations of military training, logistics and administration. The use of standardized staff formats in the development of plans and orders is emphasized from the standpoint of the leader with limited resources. Extensive use of standard staff procedures is emphasized in problem solving scenarios. Prerequisite: ARMY 302 or department approval.

ARMY 401L Army ROTC Lab (0)

Required ROTC lab. Must be taken in conjunction with ARMY 401.

ARMY 402 The Military Profession (3)

Course is comprised of three hours of lecture and two hours of leadership laboratory per week. A seminar on the military profession as an object of social inquiry. Focus is on the internal structure of the profession, current problems, and interaction with the larger American society. Seminar topics include but are not limited to the following: a historical perspective on the military profession; civil-military relations; social and political impact of military activities; military justice; professionalism versus careerism. One hour lecture and one hour lab (ARMY 402L) per week. Prerequisite: ARMY 401 or KU department approval.

ARMY 402L Army ROTC Lab (0)

Required ROTC lab. Must be taken in conjunction with ARMY 402.

ARMY 450 Military Analysis (1)

A study of present and future military operations; emphasis placed on analysis of problem. The student will defend his/her analysis through written and oral presentations. Prerequisite: Department approval.

ART (AR)

AR 101 Survey of Art History, Prehistoric to Medieval (3)

A survey of major monuments and movements in the history of art from Paleolithic through Medieval times.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

AR 102 Survey of Art History, Renaissance to Contemporary (3)

Major monuments and movements in Western Art from the Proto-Renaissance through the arts of today.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

AR 103 Introduction to Art (3)

The major principles and ideas of art, with emphasis on different purposes art has served in both Western and non-Western cultures. This course is for non-art majors.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

AR 120 2D Design (3)

An exploration of the fundamentals of visual communication. Students will become familiar with the elements of design and organizational principles. Using traditional and digital media, studio assignments will encourage creative thinking, synthesis and analysis, and problem solving. Prerequisites: none.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

AR 121 3D Design (3)

An expanded investigation of the basic design principles with an emphasis on idea generation and creative translation. Students will learn how to think critically about visual art, problem solve, and consider a broad range of contemporary and historical approaches. Prerequisite: AR 120.

AR 140 Drawing I (3)

Basic principles of drawing and design. This course is fundamental to all studio courses and should be taken in the freshman year.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

AR 141 Drawing II (3)

A continuation of Drawing I. Prerequisite: AR 140 or equivalent.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

AR 219 Introduction to Printmaking (3)

Drawing and cutting upon the blocks (plywood, linoleum, and masonite), assemblage will be explored for form and texture. Initial prints will be considered temporary evidence of how marks or forms work toward a completed work. Prerequisites: AR 120 and AR 140.

AR 220 Photography I (3)

Lecture and studio. History of the development of the Photographic process, equipment and material. Darkroom procedures with an emphasis on composition and design in the black and white print.

AR 222 Video Game Design (3)

This course introduces the making and creating of 2D/3D video games. Students learn to create a fully interactive video game. This hands-on course focuses on design, aesthetics and interactivity of the video game. Prerequisite: CM 101, AR 131, or equivalent computer competency.

AR 223 Graphic Design I (3)

Introduction to graphic design through formal and theoretical context. Focus is on development of technical skills and design concepts for print production. Prerequisite: AR 120.

AR 226 Video Editing: FinalCut Pro (3)

Fundamentals of digital video, including lighting, sound composition and editing are taught with the aim of creating time-based art forms. Aesthetic issues evident in video design and editing structure will be examined through viewing, discussion and critique. Software: FinalCut Pro. Prerequisite: AR 120 or MM 100.

AR 231 Basic Multimedia (3)

Introduction to the use of social media to share creative artwork, including video and animations. This course covers video capture with simple video cameras or smart phones, movie editing, and posting work to the Internet. It will include basic animation, sound and interactivity. Students must provide their own phone or other video capture device. Prerequisite: None.

AR 240 Painting I (3)

Introduction to oil or acrylic painting techniques. Emphasis is placed on color theory and effects. Subject matter includes still life, landscape, figure drawing and abstraction. Prerequisite: AR 141.

AR 260 Ceramics I (3)

Introduction to ceramics as creative media for utilitarian and expressive purposes. Course content includes forming techniques, the nature of clay and glazes, firing principles and ceramic history. Creative Thinking will be practiced and assessed as part of the ceramic process. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

AR 262 Sculpture I (3)

Introduction to modeling, casting, carving, and construction as basic methods of executing 3-dimensional form. Prerequisite: AR 121.

AR 265 Kiln-formed Glass & Mosaics (3)

Applied design work utilizing glass techniques of cutting, grinding, fusing, and slumping.

AR 291 Art Therapy (3)

Practice of Art Therapy as a treatment and diagnostic tool in the psychiatric setting. Visiting lecturers and field experience will be included. Prerequisite: PY 100.

AR 299 Special Topics in Art (1-3)

Special media or content offerings not covered in other art courses. May be repeated with different topics. Prerequisites as specified for each offering.

AR 300 Art Theory Past and Present (3)

This class will examine approaches to art and art history from mimesis to the competing theoretical approaches used today. Methods employed by critics, historians, sociologists, and others will be studied as constructions that reflect the sociopolitical circumstances of their authors and audience. Prerequisite: AR 101 and AR 102.

AR 301 Ancient Art (3)

The arts of the Ancient Near East, Egypt, Aegean, Greece, and Rome.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

AR 303 Medieval/Renaissance Art History (3)

Study of the diverse cultural expressions found in art and architecture from the early Medieval to the Renaissance period. Although Western in focus, non-Western influences and exchange will be considered throughout. Prerequisite: AR 101, AR 102, AR 103 or junior standing

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

AR 306 Development of Modern Art (3)

Survey of the broad trends in art and architecture from 17th - 20th century. Course material will be examined through visual and historical analysis, emphasizing the sociopolitical, religious, and cultural shifts for each period. Prerequisite: AR 101, AR 102 or AR 103; or junior standing

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

AR 307 Twentieth Century Art (3)

Examination of the response of the visual art world to historical, cultural and political changes of the twentieth century. Modernist movements, performance, installation, and the effects of globalization will be considered through visual and historical analysis. Prerequisite: AR 101 or AR 102 or AR 103; or junior standing.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

AR 309 Art of Africa (3)

A historical survey of the major arts produced by African cultures.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

AR 310 Art of Asia (3)

A survey of the major traditions of art in Asia from Neolithic times through the 19th century.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

AR 311 Art of the Americas (3)

An overview of the visual arts traditions of the ancient and contemporary cultures of the indigenous peoples of North, Central and South America.

AR 312 Research in Art History (3)

Library and Archival research and writing on specific research topics in the History of Art. Prerequisite: Major/minor in Art History or consent.

AR 313 Museum Studies (3)

Study of the history, organization and practices of museums as well as art materials, conservation and archival methods. Prerequisites: AR 101 or AR 102.

AR 315 History Of Photography (3)

History of photography as related to the visual arts, including technical innovations, major photographers and aesthetic philosophies. Prerequisites: AR 101 or AR 102 or AR 103 or consent.

AR 317 Art Theory in Practice (3)

This course is equal parts art history, theory and studio. Includes exploration of contemporary artists, practices, new audiences and markets with an emphasis on studio experimentation and production. Prerequisites: None

AR 318 Typography (3)

Introduction to the fundamentals of typography and design, including the use of type to solve visual problems. Topics include: anatomy, legibility, hierarchy, and verbal/visual relationships. Prerequisites: AR 223

AR 319 Etching (3)

An exploratory course in etching. Emphasis will be placed on black and white techniques, including intaglio, drypoint, and aquatint. Prerequisite: AR 219.

AR 320 Photography II (3)

Course focuses on developing technical proficiency in photography. Students will work primarily with fiber-based paper. Emphasis is placed upon exploration and expansion of traditional photographic values. Prerequisite: AR 220 or consent.

AR 321 Photoshop Imaging (3)

An intermediate course in creative Photoshop software techniques. Students execute assignments such as photo coloring, restoration and retouching, print design, and collage. Prerequisites: AR 120 and AR 131 and AR 223.

AR 322 Graphic Design II (3)

Advanced graphic design course building on concepts learned in Graphic Design I. Emphasis is on systems of design with a focus on branding, packaging, and information design. Prerequisites: AR 120 and AR 131 and AR 223.

AR 323 Silkscreen (3)

An introductory course in silkscreen printing. Sequential thinking for the production of prints plus application of color theories is investigated. Emphasis will be placed on traditional photographic and inventive applicators of silkscreen techniques for the production of personal images. Prerequisite: AR 219.

AR 324 Lithography (3)

An introductory course for lithography. The printing process of stone and plate lithography is explored with emphasis on imagery and the aesthetics of the fine print. Prerequisites: AR 140, AR 141, AR 219.

AR 325 Photoshop Imaging II (3)

An advanced course in photoshop software techniques focusing on aesthetics and critical issues. Students produce assignments with an emphasis on photo composites for illustration, printing, and fine art. Prerequisite: AR 321.

AR 326 2D & 3D Digital Animation (3)

Through the use of 3D animation software and Adobe Premier, students will create computer graphics and animations. Also includes digital video and sound. Software: Lightwave 3D, Final-Cut Pro. Prerequisite: AR 223.

AR 332 Advanced Photo Techniques I (3)

Course focuses on developing technical proficiency in use of different format cameras and large size printing. Students explore aspects of photography such as cibachrome, Polaroid transfer and emulsion lifts, or mural printing. Prerequisite: AR 220.

AR 333 Digital Painting and Drawing (3)

This course is designed to provide the student with knowledge and skills necessary to create digital paintings and drawings using a range of visual art media related to digital processes, including AR/VR and 3D virtual painting. Emphasis of the course is focused on the student. Prerequisites: AR 120 or AR 140.

AR 336 Video Editing and FX (3)

This course covers video editing techniques using Final Cut Pro, Motion, Soundtrac Pro and Live Type software. The course introduces various aspects of digital editing related to special effect, motion graphics, visual and special effects using text. The course covers the basics of sound, camera and editing for special effects in film, the use of green screen, composite effects and integration of computer graphics to digital film. Prerequisite: AR 131 or MM 210.

AR 340 Advanced Oil Painting (Topic) (3)

Advanced study of specific oil or acrylic painting techniques, subjects and styles. Includes class paintings, outside work, and research documentation. May be repeated with different content to 6 hours total credit. Prerequisite: AR 240.

AR 341 Art of Landscape (3)

Creative activity in the outdoor environment. Students consult with instructor regarding media choice and expressive intent. Prerequisite: AR 140 for students engaged in Painting or Drawing; AR 140 and AR 220 for students emphasizing photography.

AR 342 Watercolor (3)

Exploration of watercolor techniques. Subject matter includes still life, landscape, figure and abstraction. Prerequisite: AR 240

AR 343 Figure Drawing (3)

Drawing from the nude and draped human figure. Prerequisite: AR 141

AR 345 Chinese Painting (3)

Introduction to Chinese Painting techniques, including handling ink and color on raw and sized rice paper. Subject matter includes landscapes, plants, animals and figures. Prerequisite: AR 120 and AR 140.

AR 352 Professional Photographic Lighting (3)

Introduction to studio lighting using 35 mm digital cameras. Students will study the principles of lighting and their practical use in areas such as portraiture, products, food and fashion. Field trips will expose students to professional studios and practices. Prerequisite: AR 220.

AR 353 Alternative Photo Processes (3)

Study of historical non-silver photographic processes used in the early stages of photographic development and currently used by contemporary artists as a creative element. Processes include: cyanotype, Van Dyke, platinum/palladium, salted paper, gum bichromate. Prerequisite: AR 220.

AR 354 Documentary Photography (3)

Course focuses on basic principles and techniques of documentary photography. Topics will vary by semester and will be announced in advance. Prerequisite: AR 220 or consent.

AR 355 Experimental Photography (3)

Experimental and creative methods using digital and historic photographic techniques. Students will experiment and combine new techniques with old, and use the results in mixed-media art. Techniques include: bromoil, pronto plates, albumen on paper, anthotypes, tintypes, mixed-media. Prerequisite: AR 220.

AR 360 Ceramics II (3)

Continued exploration of ceramics with emphasis on wheel-throwing techniques, glaze formulation, and various firing methods.

AR 361 Ceramic Glaze/Surface Exploration (3)

Study of fired ceramic surfaces through experiments with raw materials. Theoretical, historical, and empirical methods are applied to research. Prerequisite: AR 260.

AR 364 Advanced Sculpture (3)

Study of advanced sculptural techniques to achieve artistic expression. May involve environmental or multimedia emphasis. Prerequisite: AR 262. May be repeated with different content. Limit of 9 hours.

AR 365 Kiln-formed Glass & Mosaics (3)

Applied design work utilizing glass techniques of cutting, grinding, fusing, and slumping. 365-level students are expected to complete more advanced projects and class presentations. Prerequisite: AR 121 or AR 265.

AR 380 Elementary Art Education (3)

Study of the artistic development of children, practice with art materials, techniques, and concepts appropriate to the elementary grades including planning and presentation of art lessons. Production, aesthetics, criticism, and history of artworks are emphasized as the basis for children's growth in art learning.

AR 381 Experimental Media (3)

Exploration of papermaking, batik, weaving, and metal working processes. Health and safety, traditions and current trends in crafts are studied. Education majors write unit/lesson plans. Non-ED majors do extra projects. Prerequisites: AR 120, AR 121.

AR 382 Methods and Philosophy in Art Education (3)

Examination of historical and current theories of art education, the development of personal philosophy of art education, and the examination of curriculum goals and objectives. Effective teaching methods for lesson planning, presentation, and evaluation are studied.

AR 390 Independent Study in Art (1-3)

Students work with faculty member to complete independent art projects. Does not involve formal group faculty critiques. Primarily intended for advanced nonmajors. Prerequisites: Advanced course work in discipline, mentor approval, chair approval.

AR 391 Art Therapy (3)

Practice of Art Therapy as a treatment and diagnostic tool in the psychiatric setting. Visiting lecturers and field experience will be included. Prerequisite: PY 100.

AR 398 Art and Culture Abroad (0-3)

Teaches students how to respectfully engage with people and places outside of Kansas, with most trips focused on international experiences. The course may be counted as either studio or art history credit. Students are expected to research the destination's culture in order to communicate their knowledge through art and/or written projects. Prerequisites: None.

AR 399 Special Topics (0-3)

Special media or content offerings not covered in other art courses. May be repeated with different topics. Prerequisites as specified for each offering

AR 400 Senior Exhibition (1)

Preparation and presentation of an exhibit of student's artwork. Prerequisite: BFA-senior status, BA with Department approval.

AR 401 Internship (3)

Work experience in art-related businesses, institutions, or non-profits. 3 hrs required for all BFA majors. Licensure students meet requirement through student teaching. Prerequisite: Instructor permission

AR 403 Workshop in Art Media (3)

Independent work under faculty mentor in studio area of choice. Must include written plan, research, and report. Students must present work for mid-term and final critiques by all studio faculty. May be repeated for limit of 6 hours. Prerequisite: Jr or Sr BFA Major and AR 407.

AR 404 Professional Practices (3)

Professional preparation for all art majors, taken the semester prior to AR 400 Senior Exhibition. Includes exhibition preparation, portfolio, careers, and other professional concerns of fine artists. Prerequisite: Senior Art major.

AR 407 Themes-Contemporary Art Practice (3)

This course is equal parts art history, theory and studio. Includes exploration of contemporary artists, practices, new audiences and markets with an emphasis on studio experimentation and production. Prerequisite: AR 102 and admission to the BFA Program.

AR 418 UX / UI Design (3)

Students will learn the concepts and skills necessary for Human-Computer Interaction (HCI). Course materials teach students how to utilize user behavior, conduct effective user research, and employ various design tools and technologies in order to create seamless experiences on mobile platforms. Prerequisites: AR 223 and AR 318.

AR 419 Advanced Relief Printing (3)

In-depth study and experimentation with various relief processes including large scale printing. Prerequisite: AR 219.

AR 421 Advanced Digital Painting/Drawing (3)

The course is designed to provide the students with advanced knowledge and skills in digital paintings and drawing. Students will explore a variety of visual art media related to the drawing and painting process, which will be created digitally via computer and software. Emphasis of this course is focused on the wide format artwork and advanced creative expression. The students will demonstrate artistic design, creativity, and concepts in the language of paintings and drawings. Prerequisite: AR 327.

AR 426 Interactive Art: Digital (3)

Students will learn to make their artwork interactive digitally and also make it compatible for web interactivity. The process will include using various types of digital software and the web. Prerequisite: AR 223.

AR 429 Web Design (3)

An introduction to web design through front end web development. Focus on interactivity and Information Architecture to support usability and web standards. Students will apply design principles and explore visual organization of digital space. Prerequisites: AR 223 or AR 318.

AR 432 Advanced Photo Techniques II (3)

See course description under AR 332. Students enrolled at the 432 level must complete additional research in a photo technique and document their research through creative work. Prerequisite: AR 332.

AR 441 Art of Landscape II (3)

Creative activity in the outdoor environment. Students consult with instructor regarding media choice and expressive intent. Advanced students are expected to bring a more experienced and personal creative approach to the course, and are evaluated accordingly. Prerequisite: AR 341.

AR 442 Advanced Watercolor Painting (3)

In-depth study of personal expression through the watercolor medium. Prerequisite: AR 342.

AR 443 Figure Drawing II (3)

Advanced course in drawing the nude and draped human figure. Prerequisite: AR 343.

AR 445 Advanced Chinese Painting (3)

Continuation of Chinese Painting with emphasis on experimentation in techniques and pursuit of personal artistic language. Prerequisite: AR 345.

AR 453 Alternative Photo Processes II (3)

See course description for AR 353. AR 453 will study one process of choice in-depth. Prerequisite: AR 353.

AR 454 Documentary Photography (3)

Course focuses on basic principles and techniques of documentary photography. Topics will vary by semester and will be announced in advance. Prerequisite: AR 220 or consent.

AR 455 Experimental Photography II (3)

Experimental and creative methods using digital and historic photographic techniques. Students will experiment and combine new techniques with old, and use the results in mixed-media art. Techniques include: bromoil, pronto plates, albumen on paper, anthotypes, tintypes, mixed-media. Advanced students are expected to complete in-depth research and professional level work in chosen techniques. Prerequisite: AR 355.

AR 460 Advanced Ceramics (Topic) (3)

Study of specialized ceramic techniques of firing, surface and forming to achieve differing purposes. May involve multimedia applications. May be repeated with different topic. Limit of 9 hours. Prerequisite: AR 360.

AR 600 Directed Grad Study Art Studio (1-3)

Graduate students work with appropriate faculty to study in art studio. Written documentation of research is required. Repeatable to 6 hours credit with different subject matter. Prerequisites: Chair permission, undergraduate experience in the discipline.

AR 601 Dir. Grad. Study-Art History (1-3)

Graduate students work with Art History faculty to research and document study in art history. May be coordinated with upper division Art History course, but must include in-depth study and writing appropriate for graduate level. Prerequisites: Chair permission, undergraduate experience in the discipline.

AR 680 Grad Field Exper Art Educ (1-3)

Fieldwork in educational setting, such as public school, museum, community center, summer, or after school programs. Application of personal research in studio and/or art history to educational settings. Prerequisites: Chair permission, Admission to M. Ed. Program in Curriculum and Instruction with concentration in Art.

AR 690 Graduate Thesis Art (3)

Culmination of artistic research in Art Studio and Art history as part of Master of Education degree in Curriculum and Instruction with Concentration in Art. Must include written thesis relating art production/research to education. Must also include exhibition or project documentation. Prerequisites: Chair permission, Completion of 30 hours in M. Ed. in Curriculum and Instruction with concentration in Art Degree Program.

ASTRONOMY (AS)

AS 101 Introduction to Astronomy/Cosmology (3)

A qualitative study of stellar, galactic, and extragalactic astronomy and cosmology surveying what is known and how it is known.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

AS 102 Introduction to Astronomy - Solar System (3)

A qualitative study of the history of astronomy, the origin, evolution, and functioning of the solar system surveying what is known and how it is known.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

AS 103 Observational Astronomy (1)

Use of telescope, planetarium, and other laboratory equipment commonly used in astronomy together with selected descriptive experiments in astronomy. Prerequisite: AS 101 or AS 102 or consent of instructor.

AS 104 Life in the Universe (3)

A scientific investigation of the question "Are we alone in the universe?"

Course content includes the origin and properties of stars and planets, the requirements for life, and the emergence and sustainability of civilizations. Students will complete a variety of interactive assignments and a term project. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

AS 201 Introduction to Astro Photography (1)

Photographic procedures and techniques peculiar to astronomical photography. Prerequisite: Consent of instructor.

AS 251 General Astronomy (3)

A review of the key ideas and discoveries in astronomy at the intermediate level. Prerequisite: AS 101 or AS 102, and MA 116 with a grade of C or better, or consent of instructor.

AS 360 Research in Astronomy (1-2)

Research in any of the fields of astronomy/astrophysics. Prerequisite: Consent of instructor.

AS 370 Special Subjects/Astronomy (1-5)

Material to be chosen according to student interest from any one of a number of astronomical subjects. Offered on demand as teaching schedules permit. Prerequisite: Consent of instructor.

BIOLOGY (BI)

BI 100 Human Biology (3)

This course is an introduction to fundamental life processes in humans. Topics will include the structure and function of biomolecules, chemical reactions and enzymes, and the structure, function, and energy transformations of cells. Cell division, the central dogma, and introductory genetics are introduced as is a general survey of human organ systems. This course is primarily for majors in nursing, allied health, and kinesiology. Not applicable toward credit for biology major requirements. Three hours of lecture per week. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Natural and Physical Sciences
- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Critical and Creative Thinking

BI 101 Human Biology Laboratory (2)

This lab course complements the BI 100 lecture course. Laboratory exercises will provide hands-on applications to understand human biology concepts. Not applicable toward credit for biology major requirements. Three hours of laboratory per week. Prerequisite: A grade of "C" or better in BI 100, or concurrent enrollment.

Course Attributes:

- Gen Ed AY 2024-2025: Natural and Physical Sciences
- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

BI 106 Everyday Biology (5)

An integrated lecture and laboratory course designed for people pursuing degrees outside the natural or health sciences and who are interested in understanding basic biological concepts and their applications in everyday life. Topics include scientific inquiry, health, nutrition, natural resources, ecosystems, and biotechnology. Laboratory exercises apply biological concepts towards investigating pertinent questions. This course requires no previous science or mathematics background and cannot count towards Biology Department degree programs. Fulfills the general education requirement of a natural science course with lab. Course consists of three hours of lecture and three hours of laboratory exercises per week. Prerequisites: None.

Course Attributes:

- Gen Ed AY 2024-2025: Natural and Physical Sciences
- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- USLO: Quantitative and Scientific Reasoning and Literacy

BI 140 Introduction to Forensic Biology (3)

An introduction to the collection, processing and testing of biological evidence during forensic investigations. Topics include: the use of biological samples in crime scene investigation, molecular biology techniques used to detect biological samples and evaluating the strength of DNA profiling. Three hours of lecture per week. Prerequisites: None.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

BI 150 Evolution (3)

The course is designed for non-science majors who want a basic explanation of evolution, how it works, and why it matters. The course will include discussion of simple genetics, origins of life, mechanisms of evolution, and the applied value of evolution. Three hours of lecture per week. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

BI 155 Sexually Transmitted Disease (1)

An overview of diseases, which rely on sexual interactions for transmission, e.g., AIDS, syphilis, herpes, and others. The history, epidemiology, clinical nature, treatment and prevention of these diseases are discussed. Two hours of lecture per week for an 8-week course.

Prerequisite: None.

BI 180 Special Topics/Biology (1-3)

Selected topics of general interest. Not applicable toward credit for biology major requirements. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Natural and Physical Sciences
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Critical and Creative Thinking

BI 192 General Cellular Biology (5)

The organization and activities of organisms at the cellular level. Analysis of the chemical, genetic, and microscopic properties shared by all cells. This is the beginning biology course for the student who wishes to major in biology. Four hours of lecture and three hours of laboratory per week.

Prerequisites: None.

Course Attributes:

- Gen Ed AY 2024-2025: Natural and Physical Sciences
- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Critical and Creative Thinking

BI 194 General Organismal Biology (5)

An introduction to the basic principles of organismal biology with an emphasis on plants and animals. Topics covered will include general ecology and evolution, anatomy and physiology, and organismal diversity. Four hours of lecture and three hours of laboratory per week. Prerequisite: A grade of "C" or better in BI 102 or BI 192.

BI 202 Biology of Behavior (3)

Biological aspects of human & animal behavior, including sociobiology, ethology, behavioral genetics & evolution, heredity vs. environment, male-female differences, & the neurological & hormonal basis of behavior. Three hours of lecture per week. Prerequisites: None.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

BI 203 Human Impact on the Environment (3)

The structure and function of a natural environment and the impact of humans on that environment. Topics include population and food, various pollution problems, energy problems, and possible solutions. Three hours of lecture per week. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Global Citizenship, Ethics and Diversity

BI 206 Introductory Microbiology (4)

The basic characteristics of microbes and an analysis of their effects on humans. Emphasis on human medical microbiology. Basic microbiological techniques, with an emphasis on those used in medicine. Developed primarily for students majoring in nursing. Not applicable toward credit for biology major requirements. Three hours of lecture and one three-hour laboratory per week. Prerequisites: A grade of "C" or better in BI 100 and BI 101 or BI 102 or BI 192.

BI 230 Introduction to Human Physiology (3)

This human physiology course is designed for those needing a basic background in physiology principles without the additional functional knowledge that is obtained in the laboratory setting. The emphasis of this course will include learning basic relationships and necessary language to be able to understand the terminology that may be used in fields that are in the periphery of physiology. Three hours of lecture per week. Prerequisite: A grade of "C" or better in BI 100 or BI 102 or BI 192.

BI 234 Introduction to Biotechnology (3)

The purpose of this course is to introduce and explore the scientific basis of a broad range of topics in the emerging areas of biotechnology involving microbes, plants, animals, and medicine to understand the impact of biotechnology on society. Additional topics include: history, development, current operations, future advances, industry structure, and career opportunities within the biotechnology industry. Three hours of lecture per week. Prerequisite: A grade of "C" or better in BI 102 or BI 192.

BI 250 Introduction to Human Anatomy (3)

The structure of the human body, with emphasis on skeletal and muscular systems. Three hours of lectures per week. Prerequisite: A grade of "C" or better in BI 100 or BI 102 or BI 192.

BI 255 Human Physiology (4)

The basic functions of human organ systems. Three hours of lecture and one three-hour laboratory period per week. Prerequisites: A grade of "C" or better in BI 100 and BI 101 or BI 102 or BI 192.

BI 260 Biology of Aging (3)

Mechanisms of aging processes with special reference to human gerontology. Unfavorable progressive changes in molecules, cells, systems, and organisms will be examined. Three hours of lecture per week. Prerequisites: None.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Critical and Creative Thinking

BI 275 Human Anatomy (4)

Designed primarily for students majoring in biology, nursing or physical therapy. Lectures survey the organ systems with emphasis on skeletal, muscular, nervous, circulatory and reproductive systems. Laboratory exercises include both animal and human cadaver dissection. Two hours of lecture and two two-hour laboratory periods per week. Prerequisites: A grade of "C" or better in BI 100 and BI 101 or BI 102 or BI 192. NOTE: Pregnant women should consult with physician and instructor prior to enrollment due to specimen preservatives used in this course.

BI 280 Special Topics/Biology (1-3)

Selected topics of general interest. Prerequisite: One or more general biology course(s).

BI 300 Field Biology (3)

Identification and study of plants and animals in the field, including their ecology. One hour of lecture and three hours of laboratory per week. Prerequisite: A grade of "C" or better in BI 103 or BI 194.

BI 301 General Microbiology (4)

Characteristics of microorganisms with major emphasis on bacteria and viruses. Principle roles of microorganisms in our environment. Laboratory introduces basic techniques used in microbiological studies. Three lectures and one three-hour laboratory period a week. Prerequisites: BI 103 or BI 194 with a grade of C or better, and CH 151.

BI 302 Entomology (4)

Designed to cover the general biology of insects with a focus on their ecology, importance to humans and the environment, and their identification and taxonomy. Field trips will be an integral part of this course. Three hours of lecture and one three-hour laboratory period per week. Prerequisites: A grade of "C" or better in BI 103 or BI 194.

BI 303 Invertebrate Zoology (4)

The invertebrate groups with emphasis on basic zoological principles. Field trips are an integral part of this course. Three lectures and one three-hour laboratory period a week. Prerequisite: BI 103 or BI 194 with a grade of C or better.

BI 305 Parasitology (4)

This course will explore the various protozoan, helminth, and arthropod parasites of humans. Three hours of lecture and one three-hour laboratory period per week. Prerequisite: A grade of "C" or better in BI 103 or BI 194.

BI 310 Ecology (4)

Examines the interactions between organisms, their environment, and their evolution; major topics include global ecology, physical ecology, community ecology, species interactions, and biodiversity. Three lectures and one three-hour laboratory period a week. Prerequisite: BI 103 or BI 194 with a grade of C or better.

BI 311 Field Ecology (3)

Introduction to experimental and observational studies in field ecology; stressing experimental design, data collection, analysis, and interpretation and presentation of results. The course will emphasize fieldwork and student led projects. The course will also use field and computer exercises designed to familiarize students with research and analysis tools in ecology. One hour of lecture and one three-hour laboratory per week. Prerequisites: A grade of "C" or better in BI 310, or consent of instructor.

BI 312 Behavioral Ecology (4)

An advanced approach to the study of animal behavior, with a focus on how animals interact with one another and how those interactions influence their evolutionary fitness. Topics will include foraging, movement and space-use, parental care, behavioral types, and predator-prey interactions. Three hours of lecture and one three-hour lab per week. Prerequisites: A grade of "C" or better in BI 103 or BI 194, or consent of instructor.

BI 314 Statistics for Biologists (3)

A course designed as an overview of statistical procedures common in biological research emphasizing their biological relevance and interpretation. Lectures will cover data presentation, parameter estimation, hypothesis testing, goodness of fit, analysis of variance, regression, and a brief introduction to modern methods of analysis. Labs will cover the practical implementation of statistical analyses using the statistical package R. Two hours of lecture and two hours of laboratory per week. Prerequisite: Grades of "C" or better in BI 102 or BI 192 and MA 116. Recommended: MA 140 with a grade of C or better.

BI 315 Vertebrate Zoology (4)

A taxonomic approach to the study of vertebrate animals, with a focus on phylogeny, evolution, comparative anatomy, ecology, and behavior. Laboratory experiences will mostly entail fieldwork or field trips and focus on the ecology and behavior of different vertebrate taxa. Three hours of lecture and one three-hour laboratory period per week with several optional weekend field trips. Students will be expected to drive and/or carpool to field sites each week during their assigned laboratory time. Prerequisites: A grade of "C" or better in BI 103 or BI 194.

BI 319 Biology for STEM Educators (3)

An exploration of the core concepts and principles that unite the major disciplines of the Biological Sciences. The impacts that each of these concepts have on society will be discussed. Special emphasis will be placed on developing lessons and models that effectively communicate complex ideas to a range of ages, and in a variety of classroom, museum, and clinical settings. Three hours of lecture per week. Prerequisite: A grade of "C" or better in either BI 100 and BI 101 or BI 106 or BI 102 or BI 192, and Junior standing.

BI 322 Advanced General Botany (4)

A survey of the anatomy, physiology, and diversity of plants. Evolutionary development, ecology, and applied botany will be discussed. The laboratory will include both field-based and laboratory-based experiments. Three lectures and one three-hour laboratory period a week. Prerequisite: A grade of "C" or better in BI 103 or BI 194.

BI 324 Systematic Botany (3)

Exploration of the flowering plants of Kansas and their habitats. Major principles of systematics are covered. Two three-hour class periods per week, and nearly all periods are devoted to field trips to local areas of interest. Prerequisite: BI 103 or BI 194 with a grade of C or better.

BI 325 Microbiology of Human Disease (5)

Basic principles involved in pathogenesis of human disease, host resistance, and epidemiology. Characteristics and laboratory diagnosis of major bacterial pathogens. Three hours of lecture and two two-hour laboratory periods per week. Prerequisite: A grade of "C" or better in BI 301.

BI 328 Plant Anatomy and Physiology (3)

Examines the anatomy and physiology of the stems, roots, leaves and reproductive organs of plants, from the molecular to the organismal levels. Prerequisite: BI 103 or BI 194 with a grade of C or better.

BI 330 Animal Physiology (4)

A comparative study of the basic physiological processes occurring throughout the animal kingdom. Three lectures and one three-hour laboratory period a week. Prerequisites: BI 103 or BI 194 with a grade of C or better, and CH 152.

BI 333 General Genetics (4)

A course designed to cover basic genetic principles, including Mendelian genetics, cytogenetics, population genetics and an introduction to molecular genetics. Laboratory experiments will be used to illustrate the genetic principles covered in lecture. Three hours of lecture and one three-hour laboratory period per week. Prerequisites: BI 103 or BI 194 with a grade of C or better, and CH 151.

BI 340 Evolutionary Biology (3)

A course designed to cover the fundamental aspects of evolutionary biology from classical Darwinian evolution to modern analyses of evolutionary theory. Specific topics covered include the history and development of evolutionary thought, population genetics, cooperation and conflict, phylogenetics, and patterns and tempo of diversification. The course will also include a discussion of the relevance of evolution to societal issues. Three hours of lectures per week. Prerequisite: A grade of "C" or better in BI 103 or BI 194, or consent of instructor.

BI 343 Human Genetics (3)

This course explores classical and molecular mechanisms of inheritance in individuals, families, and populations. Topics include genetics of behavior, outcomes of gene and chromosomal mutations, cancer genetics, genetic counseling, personalized genomics, and issues and applications of current gene and reproductive technologies. Three hours of lecture per week. Prerequisites: A grade of "C" or better in BI 333, or consent of instructor.

BI 353 Molecular Genetics (3)

The molecular basis of genetic systems including chromosomal and extrachromosomal elements. Topics include manipulation of DNA, molecular techniques, cloning, methods for the study of gene expression, mutability of DNA, plasmid systems, prokaryotic and eukaryotic genomes, and practical aspects of biotechnology. Three hours of lecture per week. Prerequisite: A grade of "C" or better in BI 301 or BI 333.

BI 354 Molecular Biology Laboratory (3)

A laboratory course designed to introduce the student to modern molecular biology techniques, including recombinant DNA technology (gene cloning), DNA sequence analysis, PCR, Southern hybridization, bioinformatics, and more. This course is designed to mimic a real-world research experience. Two periods totaling 5 hours per week to include one hour for lecture/discussion. Prerequisite: A grade of "C" or better in BI 301 or BI 333 or BI 353 or consent of instructor.

BI 355 Developmental Biology (5)

Topics in modern developmental biology will be covered in lecture and through readings so as to gain a working knowledge of the analyses of developmental processes such as fertilization, embryonic cleavage, cell determination and cell differentiation in selected species. Emphasis will be on experiments that reveal how these processes are controlled at the molecular and cellular levels. Three hours of lecture and two two-hour laboratory periods per week. Prerequisite: A grade of "C" or better in BI 333.

BI 357 Histology (4)

Microscopic examination of fundamental tissues and vertebrate organs. Two hours of lecture and two two-hour laboratory periods per week. Prerequisite: A grade of "C" or better in BI 103 or BI 194.

BI 360 Human Cadaver Dissection (3)

This course is intended to give students who aspire to go to medical school, dental school or post graduate human anatomy programs a chance to gain experience dissecting and learning human cadaveric anatomy. This is a five week summer course that covers the dissection of the entire human cadaver. Focus of dissection is primarily on muscle and joint anatomy, but includes thoracic and abdominopelvic organs along with vascular dissection and identification. Student evaluation is based on participation and dissection skills. Prerequisites: BI 103 or BI 194 with a grade of C or better, or BI 275, and instructor consent.

BI 362 Immunology (3)

Molecular and cell biology of specific and nonspecific immune responses in mammals, with special emphasis on human immune systems. Reviews experimental support for current immunological theories. Roles of immunology in human health and disease. Three hours of lectures per week. Prerequisite: Grades of "C" or better in BI 301 and (BI 333 or BI 353 or CH 350).

BI 363 Immunology Laboratory (2)

Laboratory course designed to introduce students to current clinical & research procedures in immunology. Includes techniques utilized in biological & biochemical research as well as medical applications. Four hours of laboratory per week. Prerequisite: A grade of "C" or better in BI 362, or concurrent enrollment.

BI 370 Virology (3)

The structure and properties of animal viruses. Molecular aspects of virus replication and the role of viruses in disease states. Three hours of lecture per week. Prerequisite: A grade of "C" or better in BI 301.

BI 380 Special Topics/Biology (1-3)

A consideration of various emerging or advanced specialty areas in biology, offered according to student and staff availability. Prerequisites: BI 103 or BI 194 with a grade of C or better, and consent of instructor (Additional prerequisites might be needed depending upon particular topic).

BI 389 Biology Literature Review (2)

Students will learn to critically read and analyze primary biology literature in at least four of the five core biology disciplines: cell biology, botany, zoology, microbiology and genetics. It is designed for students who have not yet taken Biology Seminar (BI 390). Students will orally present the data from these papers to the class and complete a series of worksheets on the content of the literature. Students will also learn the basics of a thorough, scientific literature search online and the mechanics of writing a scientific abstract. Two hours of lecture per week. Prerequisite: A grade of "C" or better in BI 103 or BI 194, and one other biology core course, and consent of instructor.

BI 390 Biology Seminar (1)

Organization and oral presentations of the results of current research in the biological sciences. Utilization of recent journal literature, abstracting techniques, and oral communication of scientific data will be emphasized. One semester is required of all majors. Up to three credit hours may be applied toward meeting departmental or university graduation requirements. Prerequisites: 15 hours of BI and Jr. standing.

BI 395 Research in Biology (1-3)

This course is the capstone course in the Biology degree, and open only to declared majors at Washburn University. Independent, undergraduate research on some special problem in biology, the field to be chosen by the student in conference with the instructor. Open only to students, from any discipline, with at least fifteen hours of credit derived from core majors' courses in Biology. At least one semester is required of every Biology major. A maximum of six credit hours of research may be taken by any student, and no more than 3 credits in one semester. Prerequisite: Consent of instructor.

BI 420 Forensic Molecular Biology (4)

This course will thoroughly cover the theory behind the molecular biology used in forensic DNA analysis as well as the practical considerations pertaining to the forensic lab environment. Through simulated examples of real-life sample types, students will learn and gain experience with techniques and equipment currently used in the forensic biology field. Three lectures and one three-hour laboratory period per week. Prerequisites: A grade of C or better in BI 333, CH 340, and CH 342 or consent of instructor.

BI 440 Biotechnology Internship (3)

Experience and training in an approved biotechnology or related industry laboratory, or academic research laboratory. Prerequisites: 27 credit hours of biology, 15 credit hours of chemistry, and Instructor approval.

BI 448 Zoo Internship (3)

Field experience and training at an AZA accredited Zoo. Students can specialize in either an education, animal, or horticulture tract. Prerequisite: A grade of "C" or better in BI 102 or BI 192 and BI 103 or BI 194, Junior Standing, and consent of instructor.

BUSINESS (BU)

BU 101 Introduction to Business (3)

Designed to introduce the student to the American business system and to analysis of business organization and operation.

BU 115 Entrepreneurship and Entrepreneurship Law (3)

Assists aspiring business owners and managers in recognizing issues relevant to starting-up, maintaining, and growing a company.

BU 180 Personal Finance (3)

Personal and family financial planning. Topics include: consumer legislation, consumer finance, family budgeting, estate planning, insurance, individual income tax, home buying, mortgages, retirement pensions, and investments.

BU 250 Management Information Systems (3)

Concepts of information systems; analysis, evaluation, and implementation of management information systems; data-base management; information systems and management. (Assumes intermediate knowledge of MS Office applications, including Excel spreadsheets.) Prerequisites: EN 101, and MA 116 (recommended) or MA 112, or MA 123, or MA 141, or MA 151.

BU 258 Foundations of Data Analysis (3)

Foundational knowledge and technology to perform fundamental data analysis supporting problem solving and evidence based decision making. Through hands-on experiences, students will identify, extract, prepare, and analyze data and communicate those results that inform decisions. Prerequisites: EN 101, MA 116 (recommended) or MA 112, and BU 250.

BU 259 The Business of Art (3)

Explores and analyzes approaches to art valuation, art appraisal, and entrepreneurship in the arts. Examines the art market, the art consumer, and the value of art. Business problems and opportunities in the world of art are identified, analyzed, and assessed. Prerequisite: MA 112.

BU 260 Business Plan Development (3)

Through application of an entrepreneurial framework, learn to evaluate opportunities and develop a business concept to determine feasibility and access funding. Gain confidence to use entrepreneurial thinking and action with future opportunities.

BU 302 Business Communications (3)

Written communications including simpler types of business messages. Emphasis is placed on positive planning for effective human relations through management messages. Prerequisites: EN 101 with grade of "C" or better, CM 101, or equivalent, CN 150 or CN 365, or equivalent.

BU 305 Contemporary Information Systems (3)

Enterprise Resource Planning (ERP) computer systems. Understanding of business processes and their relation to Integrated Information Systems. Advanced Computer Modeling. Prerequisites: BU 250 and AC 225.

BU 309 Business Data Communication and Networking (3)

Understanding of the technical and managerial aspects of business data communications and networking to support business processes. Prerequisites: BU 250, AC 225, EC 200, and EC 201.

BU 315 Legal Environment of Business (3)

Legal process, nature, and sources of the law, government regulation and administrative law as they affect business. Prerequisites: EC 200, EC 201, and 2.0 GPA.

BU 319 Labor Law & Legislation (3)

The statutory, judicial and administrative law pertaining to labor-management relations. Prerequisites: EC 200 and EC 201.

BU 342 Organization & Management (3)

Management theory and practice, including fundamentals of management; making things happen; meeting the competition; organizing people, projects, and processes; and motivating and leading. Emphasis is given to the development of management, organizational structures, organizational dynamics, the impact of environmental forces and use of analytical tools in the performance of the management function. Prerequisites: EC 200 and EC 201; one of the following: PY 100 or SO 100; and 2.0 GPA.

BU 343 Entrepreneurship, Creativity, and Innovation (3)

Provides students with an overall understanding of the entrepreneurship process. Specifically explores the dimensions of creativity and innovation, and how these can aid firm growth. Explores the scope of entrepreneurship as new venture development and examines entrepreneurship as a manageable process that can be applied in any organizational setting. Exposes students to a mix of theory and practice which is applied to real world situations. Prerequisites: BU 260, or EC 200, EC 201, and BU 342 (or concurrent).

BU 345 Human Resources Management (3)

The principles and practices of sound employee relations with emphasis upon the selection, development and morale of employees. Prerequisites: EC 200 and EC 201.

BU 346 Organizational Behavior (3)

Review of theory and research related to work behavior in organizations with focus on individual and group behavior. Prerequisites: PY 100 or SO 100.

BU 347 Production and Operations Management (3)

Operations management in both manufacturing and service organizations. Use of models to make operations management decisions in the areas of productivity, quality, customer service, and production and process strategy. Prerequisites: BU 250, BU 342, EC 211 (or MA 346), AC 225, MA 116 or higher, and 2.0 GPA.

BU 355 International Business (3)

The global economic and political environment in which international trade and investment activities as conducted by multinational and national business organizations. Examination of the international dimensions of the areas of finance, management, marketing, operations, and business strategy. Prerequisites: AC 225 or BU 101, EC 200 and EC 201.

BU 356 Cross-Cultural Management (3)

Critical assessment of practices in managing a culturally diverse workforce. Applications of culture to ethics and values across the globe, communication, motivation, dispute resolution, and human resource management. Prerequisite: BU 342 (or concurrent).

BU 360 Principles of Marketing (3)

Marketing concepts and their relevance to organizational objectives and methods of operation. Marketing environment, marketing mix, marketing planning, strategy implementation, and assessment of marketing performance. Emphasis on improving marketing performance in a socially and ethically responsible manner. Prerequisites: EC 200, EC 201, and 2.0 GPA.

BU 361 Principles of Retailing (3)

Structural organization for retailing and the functional activities involved. Principles of site selection, staffing, planning, pricing, buying merchandise, sales promotion and expense management are included. Prerequisite: BU 360.

BU 362 Marketing Research (3)

Techniques by which industries and individual firms seek to coordinate buying with consumer demand. Application of research techniques to various marketing problems. Prerequisites: BU 360 and EC 211 (or MA 346).

BU 363 Promotion (3)

Examination of the promotion function of the marketing mix. Topics include: promotion strategy; management of the promotion mix (advertising, sales promotion, public relations); media strategy; and evaluation. Prerequisite: BU 360.

BU 364 Consumer Behavior (3)

The behavior of buyers of goods and services. An examination will be made of theories, concepts, methods and research findings of other disciplines and a study of the relation of these findings to management decision making. Industrial and consumer buying behavior will be considered within the context of the course. Prerequisite: BU 360.

BU 366 Sales (3)

A detailed examination of the selling dimension of the promotion mix. Topics include: personal communication; personal selling; relationship-building; and sales strategy and management. Prerequisite: BU 360.

BU 368 International Marketing (3)

Analysis of marketing management problems, techniques and strategies in international marketing, emphasizing changes in competition and market structure abroad.

BU 369 Entrepreneurial Marketing (3)

Framework to identify, create, and implement innovative marketing techniques for new ventures and small businesses in a resource-constrained environment. Creative strategies for the start-up phase for new products and services or in new markets and also applicable in large organizations. Prerequisite: BU 360.

BU 370 Entrepreneurship Clinic (3)

The capstone of the entrepreneurship program. Key building blocks: in class debate, field cases, redefinition and development of business ideas moderated by instructors. Students will be expected to work for and with entrepreneurs and develop business models that can be implemented. They will present a working model by the completion of the course. Successful entrepreneurs will participate as speakers/moderators and mentors for the participating students. Prerequisites: BU 343 or Admission to the School of Business.

BU 371 Digital Marketing (3)

Examines how digital technologies can be employed to enhance and implement the marketing function. Provides an overview of the concepts defining the digital environment and examines the concepts and techniques that characterize marketing in the digital environment. Prerequisite: BU 360.

BU 374 Principles of Risk and Insurance (3)

The study of risk and insurance, dealing with the principal risks to which individuals are exposed, and the various means of dealing with risk, including insurance, risk retention, self-insurance, and loss prevention. Examines the responsibilities and activities for treating risk at three levels: personal and family, employer, and government.

BU 375 Property and Liability Insurance (3)

An advanced insurance course of current financial, legal and social problems involving property-liability insurance; analysis of legal problems involving insurance coverage, financial aspects, and governmental regulation of the property-liability insurance enterprise, and economic aspects of the insurance industry. Prerequisite: BU 374.

BU 378 Life and Health Insurance (3)

The problems of and the alternative techniques for the insuring of health and human life values from the differing viewpoints of the company, the economy, and the consumer. Among the topics covered are health and financial needs in the life cycle of the family, settlement options and the programming elements of business insurance, estate planning, probability theory mortality, rating and reserves, and the recent changes in the health insurance industry. Prerequisite: BU 374.

BU 381 Business Finance (3)

Theory and techniques of financial management, designed to provide the basic financial background needed by students in business, economics, or related fields. Topics include: capital budgeting, capital structure, dividend policy, the cost of capital, and working capital management. Prerequisites: EN 101, AC 224, AC 225, BU 250, MA 116 or higher, EC 211 (or MA 346), and 2.0 GPA.

BU 387 Credit Management (3)

Principles and procedures involved in mercantile and consumer credit. The organization and operation of a credit department, source of credit information, and collection procedure and policies. Prerequisites: EC 200 and EC 201.

BU 389 Entrepreneurial Finance - Small Business (3)

The financial aspects of the management of small business and entrepreneurial firms (sole proprietorships, partnerships, small nonpublic corporations). Prerequisite: BU 381.

BU 390 Principles of Real Estate (3)

A course that surveys the many areas of the real estate business and real estate investment. Financing, appraisal, loan closing, marketing, property management, land description, title transfer and other topics are included in the course.

BU 392 Real Estate Law (3)

Elements of property laws, purchase contracts, listing agreements, estates and trusts. Prerequisite: BU 315.

BU 393 Real Estate Appraisal (3)

An introduction to real estate appraising including the market comparison, cost and income approaches to value with emphasis on house appraisal.

BU 403 Special Topics/Business (3)

Selected topics announced in advanced. May be taken more than one semester. Prerequisite: Admission to the School of Business. Other prerequisites will be specified for each topic.

BU 404 Independent Study-Business (3)

Individual study of a topic in business. Activity must be supervised by a full-time School of Business faculty member with professorial rank. Prerequisites: Admission to the School of Business and consent of directing faculty member prior to enrollment.

BU 405 Honors Research-Business (3)

Restricted to those students seeking to qualify for honors in the major field and designed to provide an intellectual challenge for superior students with a strong interest in scholarship. Course activity must be supervised by a member of the full-time School of Business faculty with professorial rank. Prerequisites: Admission to the School of Business and consent.

BU 406 International Business and Entrepreneurial Experience (3)

First-hand business experience acquired in an international setting. Analysis of business problems, ideas, opportunities, techniques, and strategies in an international context. Emphasizes changes in competition and market structure abroad. Washburn students will work in teams with foreign students to solve a problem for an overseas company. With approval, this course may be taken for credit more than once. Prerequisites: Admission to the School of Business, BU 315, BU 347, BU 381 (or concurrent), and consent.

BU 416 Commercial Transactions (3)

Commercial law in the area of the Uniform Commercial Code, suretyship, insurance, professional responsibilities, etc. Prerequisites: Admission to the School of Business and BU 315.

BU 417 Legal Business Associations (3)

Examination of the law of agency, partnerships, corporations, and security regulations. Prerequisites: Admission to the School of Business and BU 315 recommended.

BU 419 Labor Relations (3)

Labor relations and collective bargaining including the history, structure, and policies of labor organizations. Mediation and arbitration are considered. Prerequisites: Admission to the School of Business and EC 341.

BU 449 Strategic Management (3)

Integrate the functional areas of business in formulating and implementing basic policy for business. Analytical approach to strategic decisions applied to practical examples of problems faced by business firms. May not be taken for graduate credit. Prerequisites: Admission to the School of Business, BU 342, BU 347, BU 360, BU 381, and 2.0 GPA.

BU 457 Multinational Enterprise Practices (3)

Multinational enterprise principles and solutions to meet international accounting and global supply chain business needs. Benefits risks, and costs associated with MNE managers's decisions. Prerequisite: Admission to School of Business, and BU 342 or BU 355.

BU 460 Small Business Institute (3)

Student groups counsel and consult with small business firms selected by the Small Business Administration and the instructor. Field work with the firms provides opportunities to identify and analyze problems, and to make recommendations. Prerequisites: Admission to the School of Business, senior business major, and consent.

BU 461 Small Business Institute (3)

Student groups counsel and consult with small business firms selected by the Small Business Administration and the instructor. Field work with the firms provides opportunities to identify and analyze problems, and to make recommendations. Prerequisites: Admission to the School of Business, senior business major, and consent.

BU 470 Entrepreneurship Clinic (3)

The capstone of the entrepreneurship program. Key building blocks: in class debate, field cases, redefinition and development of business ideas moderated by instructors. Students will be expected to work for and with entrepreneurs and develop business models that can be implemented. They will present a working model by the completion of the course. Successful entrepreneurs will participate as speakers/ moderators and mentors for the participating students. Prerequisites: BU 115, BU 260 and junior status; or EC 201 and CM 335 and junior status; or admission to the School of Business.

BU 471 Marketing Management (3)

Examination of the strategic marketing management process planning, implementation, and control. Topics include: environmental, competitor, and customer analysis; market targeting; the marketing mix; and the international aspects of marketing management. Case analysis and marketing models are used. Prerequisites: Admission to the School of Business and BU 360.

BU 473 Marketing Channels (3)

The distribution function of the marketing mix. Topics include: channel structure and function; strategic channel development; channel management and logistics; direct channels, service channels, franchising, and international distribution channels. Prerequisites: Admission to the School of Business and BU 360.

BU 475 Theory of Insurance (3)

The nature and cost of risk in our economic society, and of the methods of handling it. Prerequisites: Admission to the School of Business and BU 375.

BU 477 International Finance (3)

The financial management of a multinational business enterprise. Develops strategies for investing internationally, including hedging exchange rate risk, adjusting to client preferences and home currencies, evaluating performance, estimating a corporation's exposure to real exchange rate risk, strategies to hedge risk or to dynamically adjust to shocks, and reasons for a corporation to hedge. Also covers international capital budgeting, multinational transfer pricing, and international cash management. Prerequisites: Admission to the School of Business and BU 381, or equivalent (assumes accounting and statistics).

BU 483 Investments (3)

The theory and techniques of financial asset analysis including the fundamental, technical, and efficient market approaches. The course is designed to provide background needed by individuals (regardless of major) to make investment decisions. Topics include: market mechanism, mutual funds, the yield curve, fundamental common stock analysis, and portfolio theory. Prerequisites: Admission to the School of Business and BU 381.

BU 484 Applied Portfolio Management (3)

Provides students with the opportunity to practice investment analysis and portfolio management. Students will use industry tools to analyze investment strategies and allocate funds provided by the Washburn University Foundation to various investments held in a portfolio that is reviewed and updated in subsequent semesters. Prerequisites: Admission to the School of Business or declaration of the Actuarial Science major and BU 483.

BU 488 Financial Management (3)

Specialized skills in corporate financial management are developed through the application of techniques such as the discounted cash flow method, dividend valuation model, capital asset pricing model, and options pricing models. Problem areas covered include working capital management, capital budgeting, and capital structure. Prerequisites: Admission to the School of Business and BU 381.

BU 491 Real Estate Finance (3)

Methods of financing residential, commercial and industrial properties. The nature of mortgage loans for construction and permanent financing and land development. Sources of funds, lender requirements, and loan and investment yield analysis. Secondary mortgage market financing. Prerequisites: Admission to the School of Business and BU 381.

BU 493 Income Property Appraisal (3)

Techniques and methods used in appraising income properties. Prerequisites: Admission to the School of Business and BU 393.

BU 495 Real Estate Investment (3)

Cash flow and investment return analyses are applied to income-producing properties. The most commonly used methods of yield analysis are used in real estate investment case analysis. Financing, appraisal, taxation, and property rights are applied to apartment and office buildings, rental houses, shopping centers, industrial parks, and other types of properties. The capstone real estate course. Prerequisites: Admission to the School of Business.

BU 499 Internship in Business (3)

Professional work experience with a business firm or governmental agency in the following areas of specialization: finance and banking, management, and marketing. The work situation must create a new learning experience for the student. Credit hours may be used only as elective business hours and will not count toward the minimum 63 hours of accounting, business, and economics hours required of the BBA candidate. The grade will be awarded on a pass-fail basis, as determined by the supervising faculty member. Prerequisites: Admission to the School of Business, consent of the major area faculty, appropriate academic background, at least seventy-five (75) semester credit hours, at least a 2.5 overall GPA, and meet the general qualifications specified by the sponsoring business firm or governmental agency.

BU 522 Business Analysis Tools (3)

Quantitative methods in business decision making. Emphasis on the use of computer-based technologies in quantitative analysis, including the use of databases and spreadsheets. Prerequisite: College Algebra or equivalent and Admission to the MBA program.

BU 523 Quantitative Methods II (3)

Business statistics, data analysis, quality control statistics, computer states, computer-based. Prerequisite: BU 522

BU 526 Accounting and Finance for Managers (3)

Accounting is taught during the first 8 weeks of the semester and finance is taught during the second 8 weeks of the semester. The principles and concepts of accounting and finance. Emphasis on (1) the use of an accounting information systems for measuring and communicating financial information for planning, control, and decision-making, (2) applying time value of money concepts and trade-offs in risk and return in business decisions, and (3) analysis of financial information for capital structure formation, capital budgeting, and dividend policies. Prerequisite: College Algebra or equivalent and Admission to the MBA program.

BU 527 Marketing Concepts (3)

Role and importance of marketing in our economy; principles, methods, and problems involved in the management of marketing operations and activities. Prerequisite: EC 525 or consent of instructor.

BU 528 Production and Operations Systems (3)

Management of the production/operations function and service, retailing and manufacturing. Discusses models for strategic, tactical, and operational decisions. Prerequisite: BU 522 recommended, or consent of instructor.

BU 529 Human Behavior in Organizations (3)

Aspects of individual and group behavior as they affect the business environment. Prerequisite: None.

BU 616 Commercial Transactions (3)

Nature and sources of commercial law, legal process, common, and statutory law as they pertain to sales, negotiable instruments, secured transactions, suretyship, insurance and bankruptcy. (Not available to those who have taken BU 416.). Prerequisite: Admission to the Master of Accountancy program and BU 315 or Admission to the MBA program and BU 526.

BU 630 Entrepreneurship/Creativity (3)

Entrepreneurship as a way of thinking and acting applicable to new ventures in any organizational setting. Explores creativity and innovation as sources of entrepreneurial opportunities and entrepreneurship as a manageable process that can be applied in the private and public sectors. Includes a mix of theory and practice applied to the real world situations and may be co-taught by a practitioner with specific industry experience. Prerequisite: Admission to the Doctor of Nursing Practice program or Admission to the MBA program.

BU 653 Product Systems (3)

Management of integrated production and marketing systems. Prerequisite: BU 522, and BU 528.

BU 655 Financial Strategies (3)

Analytical skills in corporate financial management are developed. Topics include: security valuation, capital budgeting, capital structure, options, dividends, mergers, and financial ratio analysis. Prerequisite: BU 522, BU 526 (Finance) and Admission to the MBA program.

BU 656 Computer-Based Information Systems (3)

Computer-based systems for supporting management decisions. Prerequisite: BU 522 and Admission to the MBA program.

BU 657 Strategic Marketing Management (3)

An analytical approach to the marketing function of a firm. Development of competitive marketing strategy in a dynamic environment. Prerequisite: BU 526 (Accounting) and Admission to the MBA program.

BU 658 Managerial Skills/Professional Experiences (3)

Course will be composed of two components. In the first, managerial skills, students will acquire a set of skills to manage and group and individual dynamics in organizations. The second, Professional Experiences, will consist of local and regional CEOs, CIOs, CFOs, and middle managers presenting seminars addressing managerial issues they encounter in their professional lives. The emphasis of these seminars will be the legal and ethical responsibilities of organizations. Prerequisite: Admission to the MBA program.

BU 659 Strategic Analysis (3)

Study of approaches for defining, analyzing, and resolving complex strategic problems facing a profit and not-for-profit organization. Prerequisites: Admission to the MBA program. The course should be taken during the last two semesters of the MBA program after completion of most of the upper-level required courses.

BU 671 Legal and Ethical Issues (3)

The influence of legal, ethical, political, social, and regulatory issues in organizations. Prerequisite: Admission to the MBA program.

BU 674 International Business (3)

Study of international business and the multinational corporation. The environment of international business is analyzed, including political and economic factors. Financial, marketing and human resource management in the international context is addressed. Prerequisite: Admission to the MBA program, BU 526 (Accounting) or equivalent, or consent.

BU 677 International Financial Strategy (3)

Theory, methods, technique, financial instruments, and practices of international corporate finance. Emphasis is placed on currency risk management, international banking, international trade finance, and international investment. Prerequisites: BU 522, and BU 526.

BU 678 International Marketing (3)

The economic, political, legal, and cultural environments that affect a firm's international marketing program. Methods, policies, and organizations for marketing in various countries and cultures. Prerequisite: Admission to the MBA program, BU 526 (Accounting) or equivalent, or consent.

BU 679 Investments (3)

Introduction to theory of investment portfolio evaluation. Topics include: bonds, preferred stock, common stock, puts, calls, and mutual funds. Prerequisites: Admission to the MBA program; BU 526 (Finance) or equivalent, BU 655 Financial Strategies or consent.

BU 683 Venture Creation (3)

Covers the entrepreneurial process from conception to implementation of a venture. Concentrating on attributes of entrepreneurs and entrepreneurial teams, their search for and assessment of opportunities, and the gathering of resources to convert opportunities into businesses. Students learn how to evaluate entrepreneurs and their plans for new businesses. While the heart of entrepreneurship is opportunity assessment, a holistic approach to venture creation is taken. Students work in teams to write a business plan for a new venture. Prerequisite: Admission to the MBA program.

BU 684 Mergers, Acquisitions, Ethics (3)

A study of the theory and techniques pertaining to mergers, acquisitions, and related ethical decision making. Coursework will include analysis and application. Students will analyze successful and failed mergers and related ethical issues. Requirements include student identification and potential merger parties and proposition of a structure and strategy for merger completion and integration. Prerequisite: Completion of foundation level requirements and admission to the MBA program.

BU 685 Business Intelligence Systems (3)

Business intelligence systems combine operational data with analytical tools to present complex and competitive information to planners and decision makers. The objective is to improve the timeliness and quality of inputs to the decision process. Business intelligence is used to understand the capabilities available in the firm; the state of art, trends, and future directions in the markets, the technologies, and the regulatory environment in which the firm competes; and the actions of competitors and the implications of these actions. Prerequisite: Completion of foundation level requirements, BU 656, and admission to the MBA program.

BU 696 Research Project in Business (3)

Individual study of selected problems in business or economics as conducted through extensive reading and research. Approval of project proposal must be obtained before enrolling in the course. Approved project proposals are to be filed with the MBA Program Director and faculty sponsor. Enrollment by consent of faculty sponsor and MBA Program Director only. Prerequisites: Admission to the MBA program and completion of all foundational courses. Cannot be taken during a student's first semester in the MBA program.

BU 697 Internship Experience (3)

Professional work experience in a business-related area pertaining to the MBA program curriculum with a business firm, governmental agency, or not-for-profit organization. The work experience must create a new learning experience for the student. Approval of the internship and its terms must be obtained from the MBA Program Director prior to enrolling in the course. Prerequisites: Enrollment by consent of instructor/MBA Program Director only. Admission to the MBA program.

BU 698 Special Topics/Business (3)

Special topics announced in advance. May be taken more than once. Enrollment by consent of instructor and MBA Program/MAcc Program Director. Prerequisites: Admission to the MBA Program or Admission to the MAcc Program.

CHEMISTRY (CH)

CH 100 Science Success Strategies (2)

Interdisciplinary class may be taken as MA 105. Develops math and science skills fundamental to science majors. Prerequisite: MA 104, or MA 110, or MA 112, or MA 116 with a grade of D or better.

CH 103 Introduction to Forensic Chemistry (3)

This course emphasizes the history, philosophy and major theories of chemistry as they apply to current forensic analytical techniques. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

CH 111 Chemistry in Everyday Life (0-5)

An integrated lecture and laboratory course designed for people pursuing degrees outside the natural or health sciences and who are interested in understanding basic chemistry concepts and their applications in everyday life. Topics include composition, phases and structure of matter, chemical reactions, solution chemistry, electrochemistry, and chemical equilibrium and their effects on health, the environment, water quality, energy sources, food, and polymers. Lab exercises help students apply concepts and models. This course requires no previous science or mathematics background and cannot count towards Chemistry Department degree programs. Fulfills the general education requirement of a natural science course with lab. Course consists of three hours of lecture and three hours of laboratory exercises per week. Prerequisites: None.

Course Attributes:

- Gen Ed AY 2024-2025: Natural and Physical Sciences
- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- USLO: Quantitative and Scientific Reasoning and Literacy

CH 121 General, Organic, and Biological Chemistry (5)

Designed for those students who need only a one-semester survey of the principles of chemistry or for nursing students. Includes vocabulary, laws, and applications of the basic concepts of chemistry. Laboratory work includes preparations, illustrations of laws and typical quantitative experiments. Chemistry 121 will not count towards a major or minor in chemistry. High school or on-line courses will not be considered equivalent to this course. Three one-hour lectures, one hour of recitation, and one three-hour laboratory period a week. Prerequisite: Equivalent or higher of MA 116 or MA 112 with a grade of C or better.

Course Attributes:

- Gen Ed AY 2024-2025: Natural and Physical Sciences
- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

CH 126 RN-BSN General, Organic, Bio Chemistry (3)

Designed to fulfill the degree requirement in chemistry for the Registered Nurse to Bachelor of Science in Nursing program, this course introduces measurements, atomic theory, compounds, solutions, and reactions. Prerequisite: The student must be a registered nurse and enrolled in or received a C or better in MA 116, its equivalent or higher.

CH 151 Fundamentals of Chemistry I (5)

Designed for those students who need one year of general chemistry. This course discusses vocabulary and basic laws that are necessary as a foundation for future studies in chemistry. Topics covered will include such subjects as atomic structure, states of matter, chemical bonding and solutions. The emphasis in the laboratory is on quantitative work. Credit for CH 151 precludes subsequent earning of credit in CH 121. High school or on-line courses will not be considered equivalent to this course. Three class periods, one hour of recitation, and one three-hour laboratory period per week. Prerequisite: MA 116 or concurrent enrollment.

Course Attributes:

- Gen Ed AY 2024-2025: Natural and Physical Sciences
- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

CH 152 Fundamentals of Chemistry II (5)

A continuation of Chemistry 151. Includes a study of equilibrium, electrochemistry, thermodynamics, thermochemistry, and kinetics. Laboratory work deals with experimental studies on the theories of chemistry, qualitative analysis and independent laboratory projects. High school or on-line courses will not be considered equivalent to this course. Three one-hour lectures, one hour of recitation, and one three-hour laboratory period a week. Prerequisite: CH 151 with a grade of C or better.

Course Attributes:

- Gen Ed AY 2024-2025: Natural and Physical Sciences
- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

CH 202 Professional Forensic Science Seminar (2)

Students will be introduced areas of forensic science not covered in traditional science coursework through seminars as presented by professionals in the field. These areas will include topics that pertain to every field in forensics such as courtroom testimony, ethics and professionalism and government reporting on forensics. Additional topics may include arson investigation, digital evidence, gunshot residue analysis, firearms and toolmarks analysis and fraud investigation.

Prerequisite: None

CH 212 Chemistry of Food and Cooking (3)

This course will introduce students to advanced chemistry topics through examples of food and cooking. One two-hour lecture and one three-hour laboratory period per week. Prerequisite: CH 101 or higher.

CH 300 Special Topics/Chemistry (1-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: Consent of instructor.

CH 317 Chemistry for STEM Educators I (3)

Designed to introduce concepts and applications of chemistry to STEM educators. This includes chemical safety, vocabulary, atomic structure, states of matter, gases, chemical interactions, bonding, solutions, kinetics, thermodynamics, and thermochemistry. Composed of three hours of lectures/demonstrations/laboratory exercises each week. This course does not satisfy any chemistry prerequisite/requirement outside of the STEM program. Prerequisites: MA 112 or MA 116 and PS 108 with a letter grade of a "C" or higher; concurrent enrollment in ED 317 Chemistry for STEM Educators II

CH 320 Analytical Chemistry (3)

The theoretical and practical fundamentals of classical and physiochemical methods of analysis, with special emphasis on the relationship between physical and analytical chemistry. Prerequisites: CH 152 with a grade of C or better.

CH 321 Analytical Chemistry Lab (1)

Principles and techniques of analytical and physical measurements with computer assisted analysis. One three hour laboratory per week. Prerequisites: CH 152 with a grade of C or better and concurrent enrollment in CH 320 or consent of instructor.

CH 323 Advanced Forensic Chemistry (0-4)

Advanced Forensic Chemistry will familiarize students with the most common laboratory equipment and techniques found in a forensic chemistry lab, allowing them to apply the principles learned in the lecture portion to analyze mock evidence, correctly interpret data and effectively communicate results. At the end of the course, there will be a mock case that students will work from start to finish, ending with a testimony in a mock courtroom. Prerequisites – CH 340 Organic Chemistry I with a C or better

CH 340 Organic Chemistry I (3)

The principles of organic chemistry and their application to the preparation, properties, and reaction of aliphatic, aromatic, and a few heterocyclic compounds. Prerequisites: CH 152 with a grade of C or better.

CH 341 Organic Chemistry II (3)

A continuation of Chemistry 340. Three class periods per week. Prerequisite: CH 340 with a grade of C or better.

CH 342 Organic Chemistry Lab I (2)

Principles and techniques of organic chemistry, including preparation, separation, identification, and use of microscale equipment. One hour of lecture and one three-hour laboratory period per week. Prerequisites: CH 152 and CH 340 with a grade of C or better or concurrent enrollment.

CH 343 Organic Chemistry Lab II (2)

A continuation of CH 342 with emphasis on spectroscopy and other instrumental techniques. One hour of lecture and one three-hour laboratory period per week. Prerequisites: CH 341 or concurrent enrollment, and a grade of C or better in CH 342.

CH 345 Inorganic Chemistry Lab (2)

Emphasis on inorganic preparations and analytical and physical measurements on inorganic and organometallic compounds with computer assisted analysis of data. One hour lecture and one three-hour laboratory period per week. Prerequisites: CH 152 and CH 342 with a grade of C or better.

CH 346 Instrumental Analysis (2)

Advanced techniques, instrumentation, computational analysis, and computer analysis are used to investigate biological, inorganic, and organic compounds. One hour lecture and one three-hour laboratory period per week. Prerequisites: CH 321 and CH 343 with a grade of C or better.

CH 347 Physical Chemistry Concepts Lab (1)

Techniques and interpretation of physical systems measurements. One three-hour laboratory per week. Prerequisite: CH 343 with a grade of C or better.

CH 350 Biochemistry I (3)

Basic principles of the structure and chemistry of biochemical molecules, such as proteins, nucleic acids, carbohydrates, lipids, enzymes, and vitamins. Prerequisites: CH 340 with a grade of C or better.

CH 351 Biochemistry Laboratory I (2)

Biochemistry from the laboratory aspect, with special emphasis on modern techniques and instruments. One four-hour laboratory period a week, one hour lecture and one three-hour laboratory period per week. Prerequisites: CH 342 and CH 350 with a grade of C or better or concurrent enrollment and consent of instructor.

CH 352 Biochemistry II (3)

A continuation of CH 350 emphasizing metabolism, regulatory mechanisms, and DNA replication and expression. Prerequisite: CH 350 with a grade of C or better.

CH 353 Biochemistry Laboratory II (2)

Emphasis on individual projects using the tools of biochemistry from CH 351 and the biochemical literature. One four-hour laboratory period a week. Prerequisites: CH 350 and CH 351 with a grade of C or better.

CH 355 Medicinal Chemistry (2)

A brief history of the development of medicinal chemistry and its social and political implications. Major emphasis will be placed on the methods of discovery and development of drugs. Examples will be drawn from natural products, including plants, animal, and microbiological sources, from organic synthesis, and from modern physicochemical approaches. The mechanism of action, metabolism, and proof of structure of representative drugs will be presented. Prerequisite: CH 341 with a grade of C or better.

CH 360 Descriptive Inorganic Chemistry (3)

Descriptive chemistry of the inorganic elements based on the principles learned in freshman chemistry. Prerequisite: CH 152 with a grade of C or better.

CH 362 Spectroscopy (2)

An introduction to the interpretation of the spectra of organic compounds. Prerequisite: CH 343 with a grade of C or better.

CH 371 Advanced Topics in Chemistry (1)

The specific course content will depend on the instructor. At least two of the following four topics will be introduced: synthetic polymers, biological macromolecules, supramolecular aggregates, meso or nanoscale materials. Introduction to these topics will include preparation, characterization, and physical properties. Thirty hours of chemistry or consent of instructor(s) is required.

CH 380 Fundamentals of Physical Chemistry (3)

A non-calculus based physical chemistry class. Prerequisites: a score of at least the 40th percentile on the American Chemical Society full-year General Chemistry Exam, CH 152, PS 261 or PS 281 with a grade of C or better.

CH 381 Physical Chemistry I (3)

Covers the properties of gases, kinetic principles, thermodynamics, state changes, equilibrium, and properties of solution. Prerequisites: CH 152 with a grade of C or better, MA 151 with a grade of C or better, PS 262 or PS 282 (recommended or concurrent enrollment), and MA 152 (recommended).

CH 382 Physical Chemistry II (3)

Covers quantum principles with applications to atomic and molecular structure and spectroscopy, statistical thermodynamics, and kinetic theory of gases. Prerequisites: CH 381 with a grade of C or better and MA 152 or concurrent enrollment.

CH 383 Physical Chemistry III (3)

Application of quantum theory in spectroscopy, gas and solution phase molecular reaction dynamics, surface chemistry, and electrochemistry are investigated. Prerequisite: CH 382 with a grade of C or better.

CH 385 Physical Chemistry Lab (1)

Experimental measurements and data analysis emphasize the physics of chemical systems. One three hour laboratory per week. Prerequisite: CH 381 with a grade of C or better or concurrent enrollment.

CH 386 Inorganic Chemistry (3)

Modern theories in inorganic chemistry, including atomic structure, molecular structure and bonding, symmetry and point groups, acid/base definitions, and oxidation/reduction concepts. These topics are applied to main groups, coordination compounds, and organometallic compounds and their respective reactions. Prerequisite: CH 340 with a grade of C or better.

CH 390 Undergraduate Chemical Research (1-5)

Laboratory or theoretical computational research in any of the fields of chemistry, a typed formal report is required. Students may enroll for more than one semester of research. No more than five credit hours may be applied toward meeting departmental or graduation requirements. Prerequisite: departmental permission.

CH 391 Chemistry Seminar (1)

Students must enroll for one credit of seminar and give oral and written presentations on subjects chosen from a list of supplied topics to meet the requirement of the major in chemistry. Prerequisite: departmental permission.

CH 393 Internship (3)

Experience training in a professional forensic laboratory. Prerequisites: Chemistry, 25 credits; Biology, 12 credits; chair approval.

CLINICAL LABORATORY SCIENCES (CL)

CL 407 Clinical Laboratory Operations (2)

This course provides a basic introduction to the theory, practical application, technical performance and evaluation of laboratory skills specific to the practice of clinical laboratory science. Laboratory safety; microscopy; pipetting; general laboratory equipment; quality control; mathematics; phlebotomy; pre-analytic, analytic and post-analytic processes, including specimen collection, processing and transport to maintain test result integrity, will be addressed. Prerequisite: Admission to the Clinical Laboratory Science program.

CL 408 Introduction to Clinical Hematology (2)

This course introduces the theory, practical application, technical performance and evaluation of hematological and hemostasis procedures. There is an emphasis on the correlation of clinical laboratory data with the diagnosis of erythrocyte, leukocyte and bleeding/clotting disorders. Prerequisite: Admission to the Clinical Laboratory Science program.

CL 409 Introduction to Microbiology (2)

This course introduces the theory, practical application, technical performance and evaluation of procedures for isolation, identification and susceptibility testing of infectious disease organisms in humans. The course focuses on bacteriology, emphasizing the correlation of clinical laboratory data with the patient's diagnosis and treatment. Prerequisite: Admission to Clinical Laboratory Science program.

CL 410 Introduction to Clinical Chemistry & Urinalysis (1)

This course introduces the theory, practical application, technical performance and evaluation of basic laboratory skills and methods in clinical chemistry and urinalysis. Correlation of laboratory data with the diagnosis and treatment of carbohydrate, renal, liver, protein, electrolyte and acid-base disturbances is emphasized. Prerequisite: Admission to Clinical Laboratory Science program.

CL 411 Introduction to Clinical Immunohematology (1)

This course introduces the theory, practical application, technical performance and evaluation of immunohematology procedures required for the collection, processing, storage and transfusion of blood and blood components and management of immunohematologic conditions. Prerequisite: Admission to Clinical Laboratory Science program.

CL 412 Clinical Laboratory Science Theory, Application, Correlation (5)

This course includes the application, evaluation and correlation of laboratory procedures used in the diagnosis and treatment of common disease states. Opportunities for building critical thinking, oral communication, professional behavior, and teamwork skills are provided in small group clinical case decisions.

CL 413 Clinical Endocrinology & Toxicology (1)

This course incorporates advanced theory, practical application, and evaluation of clinical chemistry laboratory procedures. Correlation of clinical laboratory data with diagnosis and treatment of endocrine disorders, toxicology disturbances and therapeutic drug monitoring is emphasized.

CL 414 Clinical Chemistry & Urinalysis I (2)

This course expands on the theory, practical application, technical performance and evaluation of basic laboratory procedures introduced in CL410, Introduction to Clinical Chemistry and Urinalysis. This course will focus on the interpretation, evaluation, and correlation of clinical laboratory data with the diagnosis and treatment of carbohydrate, renal, liver, protein, cardiac, lipid, electrolytes, trace elements, pancreatic-GI and acid-base disturbances. Prerequisite: CL 410.

CL 415 Clinical Chemistry & Urinalysis II (2)

This course expands on the theory, practical application, and evaluation of laboratory procedures introduced in CL 414 Clinical Chemistry and Urinalysis I and CL 444 Clinical Core Laboratory Practical I. Correlation of clinical laboratory data with the diagnosis and treatment monitoring of carbohydrate, renal, hepatic, cardiac, lipid/lipoprotein, protein, major and minor electrolyte, trace element, enzyme, pancreatic-gastrointestinal and acid-base disorders; tumor markers; and inborn errors of metabolism is emphasized. Prerequisite: CL 414.

CL 416 Clinical Hematology I (2)

This course expands on the theory, practical application, technical performance and evaluation of hematological and hemostasis procedures introduced in Introduction to Clinical Hematology. There is an emphasis on the correlation of clinical laboratory data with the diagnosis and treatment of erythrocyte, leukocyte and bleeding/clotting disorders. Prerequisite: CL 408

CL 417 Clinical Hematology II (2)

This course expands on the theory, practical application, and evaluation of hematological and hemostasis procedures introduced in CL 416 Clinical Hematology I and CL 444 Clinical Core Laboratory Practicum I, and includes the analysis of cerebrospinal, synovial and serous fluids. Correlation of clinical laboratory data with the diagnosis and treatment of erythrocyte, leukocyte and bleeding/clotting disorders will be emphasized. Prerequisite: CL 416.

CL 418 Clinical Microbiology I (2)

This course expands on the theory, practical application, technical performance and evaluation of procedures for isolation, identification and susceptibility testing of infectious disease organisms in humans introduced in Introduction to Clinical Microbiology. The course focuses on bacteriology emphasizing the correlation of clinical laboratory data with patient's diagnosis and treatment. Prerequisite: CL 409.

CL 419 Clinical Microbiology II (2)

This course incorporates advanced theory, practical application, technical performance and evaluation of procedures for isolation, identification and susceptibility testing of infectious disease organisms in humans. This course includes bacteriology, mycology, parasitology, virology and serology, and emphasizes the correlation of clinical laboratory data with the patient's diagnosis and treatment. Prerequisite CL 418.

CL 420 Clinical Immunology & Molecular Diagnostics (2)

This course includes the theory, practical application, and evaluation of immunological components, principles and methodologies used in the assessment of immunologically related disorders, including hypersensitivity reactions, autoimmune, immunoproliferative and immunodeficient disorders. The theory and application of molecular diagnostic tools, such as polymerase chain reaction (PCR), nucleic acid probes, and microarrays are also addressed. Prerequisite: Declared major in Clinical Laboratory Science and acceptance into CLS program.

CL 422 Clinical Immunohematology I (2)

This course expands on the theory, practical application, technical performance and evaluation of immunohematology procedures required for the collection, processing, storage and transfusion of blood and blood components and management of immunohematologic conditions that was introduced in CL 411 Introduction to Clinical Immunohematology. Prerequisite: CL 411.

CL 423 Clinical Immunohematology II (2)

This course incorporated advanced theory, practical application, technical performance and evaluation of blood bank procedures required for transfusion of blood and blood components and for handling and storage of blood and blood components. Prerequisite: CL 422.

CL 430 Clinical Laboratory Management I (2)

This course includes the theory, practical application, technical performance and evaluation of laboratory management principles and associated models. Lectures and assignments focus on effective written and oral communications, critical evaluation of research studies, compliance and regulatory issues, educational methodology, human resources financial management, laboratory operations, cultural competency, professionalism and ethical decision making. Opportunities to build problem-solving, teamwork and management skills are provided.

CL 431 Clinical Laboratory Management II (3)

This course includes the theory, practical application, technical performance and evaluation of laboratory management principles and associated models. Opportunities for building critical thinking, problem-solving, and management/professional leadership skills are provided. Prerequisite: CL 430.

CL 442 Clinical Immunohematology Practicum I (1)

This course provides practical application in a clinical laboratory setting for the technical performance and evaluation of clinical immunohematology procedures and preparation of blood components. Course content will include new skills and procedures, in addition to the skills and procedures presented in CL 407 Clinical Laboratory Operations and CL 411 Introduction to Clinical Immunohematology. Prerequisite: Admission to Clinical Laboratory Science program.

CL 443 Clinical Immunohematology Practicum II (1)

This course provides practical application in a clinical laboratory setting for the technical performance and evaluation of clinical immunohematology procedures and preparation of blood components. Course content will include new skills and procedures, in addition to the skills and procedures presented in CL 442 Clinical Immunohematology Practicum I. Prerequisite: Admission to the Clinical Laboratory Science program.

CL 444 Clinical Core Lab Practicum I (1)

This course provides practical application in a clinical laboratory setting for the technical performance and evaluation of clinical hematology/hemostasis, chemistry and urinalysis procedures. Course content will include new skills and procedures and the application of automation and automatic verification techniques, building on the skills and procedures presented in CL 407 Clinical Laboratory Operations, CL 408 Introduction to Clinical Hematology and CL 410 Introduction to Clinical Chemistry and Urinalysis. Prerequisite: Admission to the Clinical Laboratory Science program.

CL 445 Clinical Core Lab Practicum II (1)

This course provides practical application in a clinical laboratory setting for the technical performance and evaluation of clinical hematology/hemostasis, chemistry and urinalysis procedures. Technical content will include new skills and procedures, in addition to CL 444 Clinical Core Practicum I. Prerequisite: Admission to Clinical Laboratory Science program.

CL 448 Clinical Microbiology Lab Practicum I (1)

This course provides practical application in a clinical laboratory setting for the technical performance and evaluation of clinical microbiology procedures. Course content will include new skills and procedures, in addition to the skills and procedures presented in CL 407 Clinical Laboratory Operations and CL 409 Introduction to Clinical Microbiology. Prerequisite: Admission to Clinical Laboratory Science program.

CL 449 Clinical Microbiology Lab Practicum II (1)

This course provides practical application in a clinical laboratory setting for the technical performance and evaluation of clinical microbiology procedures. Course content will include new skills and procedures, in addition to the skills and procedures presented in CL 448 Clinical Microbiology Laboratory Practicum I. Prerequisite: Admission to Clinical Laboratory Science program.

COMMUNICATION (CN)

CN 101 Introduction to Communication Studies (3)

Examines concepts and skills involved in human communication. Topics include language, nonverbal communication, relationships, perception, and conflict management. Emphasizes the ability to analyze and synthesize information, and to interpret and assess human values.

Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Communications
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

CN 150 Public Speaking (3)

Focuses on the process of speech preparation and presentations. Emphasizes the development of critical thinking and listening, clear speaking, and the interpretation of human values through the development of public speaking competencies. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Communications
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

CN 151 Introduction to Interpersonal Communication (3)

This course introduces the basic principles of relationships in dyadic, group, and social mediated settings and the various opportunities for application within everyday life. This introductory course prepares students to reflect upon various types of relationships using a variety of lenses and perceptions. This course will also prepare students for advanced courses within and outside the discipline.

Course Attributes:

- Gen Ed AY 2024-2025: Communications
- Gen Ed AY 2024-2025: Inclusion and Belonging
- USLO: Global Citizenship, Ethics and Diversity

CN 154 Debate (1-3)

Preparation for intercollegiate debate. May be repeated up to 3 hours.

Prerequisite: Consent.

CN 302 Communication Theory (3)

Explores the theoretical foundations that underlie applications in a variety of communication contexts. Provides broad exposure to contemporary communication theory. Prerequisite: CN 101.

CN 303 Research Methods (3)

This course will introduce a variety of ways of conducting research in the Communication Studies discipline that might include Interviews, Observation, Textual Analysis, Rhetorical Criticism, and/or Surveys.

Prerequisites: CN 101 and CN 302 or special permission.

CN 304 Qualitative Communication Research Methods (3)

Presents fundamental types and steps of qualitative research in communication. Prerequisites: CN 101 and CN 302 or special permission.

CN 305 Quantitative Communication Research Methods (3)

Presents fundamental types and steps of quantitative research in communication. Prerequisites: CN 101 and CN 302 and MA 112 or higher, or special permission.

CN 306 Health Communication (3)

Explores the concepts and theories of health communication. Examines the demands of health care and health promotion, communication issues and problems in modern health care systems, and identifies communication strategies health care consumers and providers can employ to achieve their health care goals.

CN 307 Communication in Legal Process (3)

Explores the practice of communication in the legal setting, including attorney-client interaction, the trial process, attorney-jury interaction, and legal negotiation.

CN 308 Organizational Communication (3)

Examines organizations from a communication perspective. Emphasizes how organizational variables affect communication patterns. Topics include concepts, skills, theories, and strategies for improving organizational communication.

CN 309 Political Communication (3)

Examines communication concepts in campaigns, presidential addresses, and other political environments.

CN 330 Communication in Conflict and Negotiation (3)

Explores the roles of communication in conflict and negotiation within relationships, groups, and organizations. Examines both theory and practice.

CN 340 Interviewing (3)

Examines the key concepts and needed skills to conduct effective interviews in many settings.

CN 341 Persuasive Speaking (3)

Sharpens persuasive speaking skills initiated in Public Speaking. Focuses on preparation, delivery, and analysis of persuasive speeches in a variety of contexts, including political and corporate settings. Prerequisite: CN 150.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

CN 342 Communication-Teams and Groups (3)

Provides an in-depth look at group dynamics and communication.

Focuses on communication and decision making, relationships, conflict, leadership, and group development.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

CN 343 Debate (1-3)

Preparation for intercollegiate debate. May be repeated up to 4 hours.

Prerequisite: Consent

CN 344 Oral Interpretation (3)

This course will introduce students to the skills and techniques involved in creating and evaluating acts of oral interpretation. Particular attention will be paid to those events and acts common to the forensic arts.

CN 350 Persuasion (3)

Examines theory and research on the role of communication in influencing attitudes, beliefs, values, and behaviors.

CN 351 Special Topics in Interpersonal Communication (3)

Examines critical factors in interpersonal communication. Analyzes and applies various interpersonal theories and concepts to a variety of relationships.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Communications
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

CN 352 Truth and Deception (3)

This course examines a particularly human activity (or skill?): Lying and deception. Study of these topics draws from recent scholarship in the disciplines of Communication Studies, Psychology, Philosophy, Public Policy, and Marketing. Theoretical concepts will be brought down to earth as we consider them at work in applications to current events and breaking news.

CN 353 Environmental Communication (3)

This course looks at ways human symbols define, construct, and impact "the environment." Focuses include understanding and creating environmental messages, examining constructs of wilderness and civilization, and analyzing strategies designed to meet environmental challenges, to build communication campaigns, and to engage in environmental advocacy. Topics include eco-tourism, "green" schemes, and representations in social and mass media, visual media, and popular culture.

CN 354 Reputation Management (3)

This course examines the role strategic communication with publics plays within corporate and institutional settings, specifically its effectiveness in developing and maintaining external and internal relationships. Methods combine close reading, current event applications, case analyses and focused discussion. Special attention is paid to strategies of crisis planning and management, apologia, and rhetorical reputation management techniques.

CN 359 Methods of Teaching Speech and Drama (3)

The study and application of teaching strategies for secondary education certification in speech. Prerequisites: Advisor approval and formal admission to teacher education.

CN 361 Communication in Social Movements (3)

Assesses theories, models, practice, and criticism of protest communication related to a variety of sociocultural movements.

CN 362 Sexual Communication (3)

This course is designed to provide you with more advanced theory and practice in the study of sexual communication.

CN 363 Intercultural Communication (3)

Explores speech communication in and between different cultures and communities.

CN 364 Gender Communication (3)

Focuses on how gender influences communication patterns between and among men and women. Communication influences the creation of gender roles and identity.

CN 365 Business/Professional Presentation (3)

Focuses on principles and practices of public speaking in corporate and professional settings such as reports, proposals, and meetings. Emphasizes clear speaking and information processing in terms of synthesis and analysis.

CN 366 Nonverbal Communication (3)

Explores nonverbal communication by individuals and society.

CN 367 Crisis Communication (3)

Crises are best managed through sound communication practices. This class will help you to develop understanding of the crisis life-cycle, along with effective strategies you can use to foresee, prepare for, and manage crises in professional and personal dimensions of life.

CN 368 The Rhetoric of Hip Hop and Rock n Roll (3)

This course explores the rhetorical dimensions of rock 'n' roll and hip hop by examining four interconnected themes and their relation to communication: fandom, stardom, criticism, and failure. In addition, concepts such as identity, anti-heroism, appropriation, place, production, improvisation, tone, and flow are explored and discussed. With the benefit of open access content as well as short readings, we will focus on some of the key figures in rock 'n' roll and hip hop (e.g., AC/DC, Jimi Hendrix, Beyoncé, Drake, Kendrick Lamar) along with their motivations and messages.

CN 369 Critical Studies (3)

Examines cultural practices and their relation to communication as both the object of study and the location of political criticism and action.

CN 370 Communication Training & Development (3)

Emphasizes the theory and practice of training and development in organizations. Prerequisites: CN 150 and CN 308, or with consent of instructor.

CN 380 Strategic Management Communication (3)

Strategic Management Communication links current theories of business communication to applications and practices that build on these within professional settings. The course provides essential information as to expectations for form and content of a variety of message types that apply to all business situations. Using the case method as a tactic for understanding applications of this material in current business settings, students develop theory-based and strategy-driven skills in production of written and oral document types used in business, corporate, and management communication. Prerequisites: CN 101 required; preferred CN 308 Organizational Communication.

CN 395 Special Topics/Communication (1-3)

Focuses on a topic not regularly offered, but that enhances the curriculum because of specialized faculty or student interest.

CN 490 Directed Research (1-3)

Selected research on communication topics not provided in the curriculum.

CN 491 Senior Capstone Internship (3)

Experience and training in professional settings related to communication careers. Second semester junior or senior status. Majors only. Prerequisites: 27 hrs of communication courses completed including: CN 101, CN 150, CN 302, CN 304 or CN 305, EN 300, and instructor approval. Note: Students can choose either CN 491 or CN 498 to meet their Capstone requirement.

CN 498 Senior Capstone (3)

Students design and execute an appropriate project which provides a culminating experience for the undergraduate academic career and is presented in a departmental forum. Prerequisites: 27 hrs of communication courses completed, including CN 101, CN 150, CN 302, CN 304 or CN 305, EN 300 and Instructor approval. Note: Students can choose either CN 498 or CN 491 to meet their Capstone requirement.

CN 601 Introduction to Graduate Study - Communication Study (3)

This course examines concepts and skills involved in human communication. Topics include language, nonverbal communication, relationships, perception, and conflict management. The course emphasizes the ability to analyze and synthesize information, and to interpret and assess human values. This course is designed to introduce students to graduate learning. Prerequisite: Admission to graduate school. Consent of Department.

CN 630 Communication-Conflict/Negotiation (3)

Combines theory and application to prepare students to understand, negotiate and resolve disputes among parties with differing objectives and desires within relationships, groups, organizations and communities. An emphasis is placed on the narrative structure of conflict and negotiation. Prerequisite: CN 601 or instructor permission.

CN 642 Team Communication in Organizations (3)

This course provides an in-depth look at group dynamics and communication focusing on communication and decision making, relationships, conflict, leadership, and group development. Students will examine the theory and research on the role of communication in effective and efficient work teams. Prerequisite: CN 601 or instructor permission.

CN 645 Community Dialogue & Deliberation (3)

This course examines how communication can help students navigate differences in their professional and personal lives. Given the political polarization and exacerbation of structural inequities in the United States, this course will grant special attention to the ways public dialogue (1) encourages diverse groups and identities to discuss their differences, (2) helps local citizens to discover their similarities, and (3) further promotes equity and inclusivity in their communities. Prerequisites: CN 601

CN 650 Persuasion (3)

This course examines the theoretical and practical elements into the role of communication in influencing attitudes, beliefs, values, and behaviors. The course allows students to take this research and put it into practice in forming and analyzing persuasion campaigns in various contexts. Prerequisite: CN 601 or instructor permission.

CN 680 Seminar - Strategic Management Communication (3)

This course is built upon a 21st century theoretical foundation that links disciplines of business, organizational communication and corporate management, with a focus on planning and leadership. According to our textbook author, a unique and important aspect of the course is its emphasis "on strategy formulation, making a clear distinction between strategic and tactical elements of communication." Using the case method and other applications for theories we cover, students will understand how they can best use various channels and contexts of communication as tactics that will help them to achieve strategic goals. Prerequisite: CN 601 or instructor permission.

CN 695 Special Topics (3)

Focuses on a topic not regularly offered, but that enhances the curriculum because of specialized faculty or student interest. Prerequisites: None.

CN 698 Capstone (3)

Communication and Leadership Capstone Experience (3 credits) The capstone experience is the culminating experience of the master's degree program and is taken in the final semester. It requires the identification of an organizational or community problem or opportunity and the development and implementation of a project that defines, measures, analyzes, and improves the problem or opportunity. Prerequisite: CN 601 and 15 credit hours in graduate communication courses

CN 777 Continuous Enrollment (1-3)

This course is to allow additional time to complete Capstone, Thesis, or Practicum Requirements. Prerequisite: Instructor permission.

COMMUNITY ENGAGEMENT (CE)

CE 250 Introduction to Community Studies (3)

This course introduces students to the interdisciplinary academic discipline of community studies. Topics include the importance of understanding self and place, theories of community change, basic community-based research methods, and the importance of civic engagement.

CE 251 Introduction Poverty Studies (3)

This course examines poverty as a problem for individuals, families, and societies. It focuses on the United States, perhaps the most impoverished of any developed nation. This course emphasizes discussion intended to advance understanding and prompt critical analyses of the assigned readings. Prerequisites: None.

CE 300 Special Topics in Community Studies (0-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisites: CE 250 or consent of instructor.

CE 350 Community-based Research (3)

Community-based research (CBR) is a collection of research methods focused on social justice and social change. This field-based course presents an overview of CBR weaving together three key areas. First, an exploration of the historical and theoretical underpinnings of CBR. Second, key aspects of CBR practice such as ethics, working with diverse populations, program planning, and program evaluation. Third, the skills CBR practitioners use to collect and analyze data in their work. Prerequisite: CE 250 or consent of instructor.

CE 391 Social Change and Political Activism (3)

This course is designed to familiarize students with mobilizing and development of issue campaigns. The content of the course will focus on an understanding of social action, change and advocacy. Organizing a campaign refers to a particular form of community participation in which "grassroots" people learn techniques to share in power. This implies that the model will focus on recruiting grassroots membership and targeting systems for change. The methods may include collaborative problem solving, strategic planning and confrontation. Targets for change may be individuals, systems, institutions, and policies.

CE 397 Directed Readings (1-3)

Under the supervision of a faculty member, students will undertake an extensive reading course to further their understanding of a specific topic within Community Studies. May be repeated for a maximum of six hours. Students are limited to six hours total from CE 397 and CE 398 combined. Prerequisites: CE 250, declared minor, junior/senior standing, and consent of instructor.

CE 398 Directed Research (1-3)

Under the supervision of a faculty member, students will undertake an independent research project to further their understanding of a specific topic within Community Studies. May be repeated for a maximum of six hours. Students are limited to six hours total from CE 397 and CE 398 combined. Prerequisites: CE 250 or consent of instructor.

CE 399 Internship (1-3)

Under the supervision of a faculty member, students will be placed with a local community-based organization to gain practical experience in a community setting. May be repeated twice for a maximum of three hours. Prerequisites: CE 250 or consent of instructor.

CE 400 Special Topics in Community Studies (1-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: CE 250 or consent of instructor.

CE 401 Community Studies Capstone (3)

In this course, students will apply core knowledge from the interdisciplinary academic discipline of community studies to address a community-identified need. Special attention is given to reflection and professional preparation for various career paths including nonprofit and community-based organizations, and governments. Prerequisites: CE 250 and 12 credits in the minor or instructor consent.

COMPUTER INFORMATION SCIENCE (CM)

CM 101 Computer Concepts and Applications (3)

Overview of computer hardware, software, applications, and social implications. Emphasis on computer literacy, basic tools and applications to access resources on the Internet, and hands-on experience. The course provides an introduction to word processing, spreadsheet, database, presentation software, and emerging technologies. This course does not apply toward CIS departmental major requirements. Prerequisite: None. Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

CM 105 Introduction to Computer Science (3)

A broad perspective of the field of Computer Science from core concepts to computing's most important application areas and their ethical issues. Core concepts include data, hardware, software, operating systems, communications, and programming. Application areas include software development, cybersecurity, and data science. Prerequisites: MA 112 or higher, or an ACT Mathematics score at or above 22, or Math Diagnosis score at or above 75.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

CM 111 Introduction to Structured Programming (4)

Introduction to essential concepts of structured programming including sequence, selection, iteration, and function calls. These concepts are examined through learning the syntax and semantics of a popular programming language. Students will apply structured programming to problem solving through utilizing basic data structures, logic, algorithm development, and APIs (Application Programming Interfaces). This course will prepare students for more advanced programming techniques. Three credit hours of lecture and a weekly two-hour laboratory session. Prerequisites: MA 112 or higher, or an ACT Mathematics score at or above 22, or Math Diagnosis score at or above 75.

CM 130 Web Development I (3)

Introduction to basic web development using HTML, cascading style sheets, frameworks, and elementary JavaScript. Emphasis on following the latest standards to create accessible, well-designed, and full-featured web pages that are easy to use and maintain. Prerequisites: None.

CM 203 Digital Forensics I (3)

Introduction to the field of digital forensics. Topics include data representation, file signatures, Windows artifacts, creating and using drive images, drive layout, partition tables, FAT32 and NTFS file systems, basic cryptography, and others as time permits. Prerequisites: MA 112 or higher, or an ACT Mathematics score at or above 22, or Math Diagnosis score at or above 75.

CM 231 Computer Organization/Assembler Language (3)

Introduction to computer organization and architecture. Topics include data representation, digital circuits, instruction set architectures, assembler language, and memory organization. Prerequisite: CM 111.

CM 244 C Programming Language (3)

Introduction to the C programming language and the use of C for applications. All aspects of the C language will be covered including syntax, data types, control structures, operators, data structures, pointers, and file input/output. Prerequisite: CM 111.

CM 245 Contemporary Programming Methods (3)

A study of advanced programming techniques with a focus on object-oriented programming. Topics include object-oriented design, event-driven programming, fundamentals of graphical user interfaces, and software testing. Prerequisite: CM 111.

CM 261 Networked Systems (3)

Introduction to the theory and practice of networking. Topics include network standards, ISO and TCP/IP reference models, routing and switching techniques, SDN, services, and protocols. Prerequisite: CM 231.

CM 290 Introduction to Python Programming (3)

Introduction to computer programming using Python. Topics include structured programming concepts, object-oriented programming, algorithm development, problem solving, and basic machine learning. Students will use Python libraries for manipulation, visual representation, and statistical interpretation of data. Prerequisites: MA 112 or higher, or an ACT Mathematics score at or above 22, or Math Diagnosis score at or above 75.

CM 298 Special Topics/Non-Majors (1-3)

Special topics course or directed study in CIS at the lower-division level. This course does not count toward the required electives of any CIS degree. Prerequisite: Determined by instructor.

CM 299 Special Topics/CIS (1-3)

Special topics course or directed study in CIS at the lower-division level. This course may count toward the lower-division electives of a CIS degree. Prerequisite: Determined by instructor.

CM 303 Digital Forensics II (3)

A follow-up course in digital forensics. Topics include the investigative process, court testimony, mobile forensics, computer forensics, online investigations, case studies, and tools used by professional digital forensic investigators. Prerequisites: CM 203

CM 307 Data Structures & Algorithmic Analysis (3)

Introduction to algorithmic analysis and algorithmic strategies. Topics include mathematical analysis of algorithms such as linear and divide and conquer algorithms, recursive programming, use of array-based and linked lists, stacks, queues, priority queues, trees, graphs, and selection of data structures to solve common problems in computer science. Prerequisites: MA 206 and CM 245.

CM 322 Operating Systems (3)

Introduction to the basic principles of the function and design of operating systems. Topics include processes and dispatching, kernels, resource management, scheduling, virtual memory, concurrency, inter-process communications, multiprocessing and multithreading, memory management, file systems, and virtualization. Prerequisite: CM 231.

CM 330 Web Development II (3)

Advanced studies in web development using a scripting language and a database. The student will learn to develop web applications that display dynamic content. Advanced features of client-side scripting will be introduced. Prerequisite: CM 111 or CM 290.

CM 331 Artificial Intelligence (3)

Introduction to the concepts, techniques, and applications of artificial intelligence. Topics include knowledge representation, reasoning, search, constraint satisfaction, creativity, learning, impacts of AI technology, ethical questions, logic and deduction, uncertainty, and planning. Prerequisite: CM 307.

CM 332 Data Mining (3)

Problem solving through the analysis of data. Topics include ethical issues, collecting and transforming data, machine learning algorithms, statistical and linear models, and clustering techniques. Prerequisites: CM 307 and MA 140.

CM 333 Software Engineering (3)

Study of disciplined approaches to the production of quality software products and an examination of social and professional issues related to software production and use. Topics include software requirements and specifications, lifecycle models, design, validation and evolution of software, project management, CASE tools, as well as social and ethical considerations. Prerequisite: CM 307 or CM 335.

CM 334 Modeling with VBA/Excel (3)

Introduction to the fundamentals of programming with Visual Basic for Applications using the Excel object model, and the application of those concepts in the creation of Decision Support Systems with their supporting models. Topics include ranges, control logic, worksheets, workbooks, charts, arrays, functions, subroutines, user forms, file handling, error handling, database access, and the application of these concepts in the creation of a decision support system. Prerequisites: CM 245 and MA 140

CM 335 Advanced Application Programming & Design (3)

Advanced topics in application programming and design using state of the art design techniques and implementation language. Topics include design of user interfaces, interacting with file systems, multi-threading, database programming, client-server programming, and basic web programming. Prerequisite: CM 245.

CM 336 Database Management Systems (3)

Characteristics and objectives of database management systems. Topics include entity-relationship models, relational database models, normalization to address modification anomalies, SQL, functions, stored procedures, triggers, and multi-user database issues. Prerequisite: CM 307 or CM 335.

CM 339 Computer Information Science Research (3)

Introduction to conducting research in the CIS field. Students learn to form research questions, conduct literature reviews, collect data, use statistical techniques to analyze data, and write research papers for submission to a CIS journal or conference. Prerequisites: CIS major with Junior Standing or consent of the instructor.

CM 341 Information Security: Technical Issues (3)

In-depth examination of technical issues associated with information security. The tools and techniques necessary to provide information security will be discussed in class and investigated in the laboratory whenever possible. Risks and threats to information security will also be discussed. Prerequisites: CM 261 and CM 322.

CM 342 Information Security Governance (3)

An examination of the development, function, roles, and responsibilities of information security programs. Topics include policy development, risk management, incident response, compliance, monitoring, and disaster recovery. Current law, regulations, and case studies will be discussed. Prerequisite: Junior standing and (CM 105 or higher).

CM 361 Introduction to Cybersecurity (3)

Introduction to computer security threats, vulnerabilities, and risks and the policies and best practices for mitigation. Topics include physical security, network security, information assurance, cryptography, malware, ethical hacking, and social engineering. Prerequisite: CM 261.

CM 370 Information Technology Project Management (3)

Introduction to project management concepts and techniques with an emphasis on CIS projects. Students will gain experience with project management software and developing project management documents and artifacts. Upon completing the course, students will be prepared to pass industry recognized project management certification exams. Prerequisite: Junior standing and (CM 105 or higher).

CM 390 Special Topics/Computer Information Science (1-4)

Special topics course or directed study in CIS at the upper-division level. This course may count toward the upper-division electives of any CIS degree. Prerequisites: Determined by instructor.

CM 400 Internship in Computing (1-6)

Practicum in the computing field that leverages computer science knowledge towards problem solving in the real world. The student will share internship experience in a public forum. Credit/No Credit Only. Repeatable. Prerequisites: A declared Major in CIS, an employment contract, and consent of the instructor.

CM 465 Computer Information Science Capstone Project (3)

Students will assimilate and synthesize knowledge and skills acquired during the course of study for the major to initiate and complete a functioning system through analysis, design, implementation, and testing. Students may choose to conduct a research project in the CIS field. Credit/No Credit Only. Prerequisites: CM 333 and CM 336 or (CM 307 and 90 hours).

CRIMINAL JUSTICE (CJ)

CJ 100 Crime & Justice in America (3)

This is an introductory course in the field of criminal justice. It introduces the student to the nature and extent of crime in America and provides a detailed description of the components of the American criminal justice system: police, courts and corrections. In the second portion of the course, the role of the crime victim and the principal functions of criminal justice agencies are considered.

CJ 110 Introduction to Law Enforcement (3)

This course examines the history and major functions of modern law enforcement agencies and personnel. Special attention to career opportunities and alternatives in the field of law enforcement.

CJ 115 Introduction to Forensic Investigations (3)

This course introduces students to forensic science and is a primer to more advanced courses in the field of forensic science. The history of forensic science is explored, with particular emphasis on forensic investigations, as well as the developing and changing nature of the field. The role that forensic science plays within the American Criminal Justice System is a focus of study. The various technologies used are reviewed as are the limitations of forensic science. Prerequisite: None.

CJ 116 Applied Intro to Forensic Investigations - Lab (3)

Applied Introduction to Forensic Investigations provides a more practical application of materials and information learned in Intro to Forensic Investigations (CJ 115). Students will use real-world tools and resources in a hands-on lab setting to gain a better understanding of topics covered in CJ 115. Corequisites: CJ 115

CJ 120 Introduction to Corrections (3)

Contemporary correctional activities and the functions performed by correctional agencies and personnel. Includes an overview of the functions performed by correctional institutions and agencies for juveniles and adults.

CJ 130 Public & Private Security (3)

History and philosophy of security, goals and measures of businesses, security firms, military services, and governmental agencies.

CJ 210 Criminal Law (3)

Review of substantive criminal law theory and specific elements common to index offenses will be presented. Course will offer a brief synopsis of the historical development of penal codes, as well as application of the Model Penal Code. Special emphasis will include a review of established defenses to criminal liability such as the insanity, self-defense and diminished mental capacity defenses.

CJ 220 Criminal Justice Communications (3)

Methods of gathering and reporting information essential to effective criminal justice operations are reviewed, discussed, and practiced. Emphasis is on developing effective interviewing skills and accurate reporting of information gathered by criminal justice practitioners.

CJ 225 Jail Workshop (3)

This course provides the student an overview of the history, functions, design and operation of the American jail.

CJ 230 Principles of Investigation (3)

Gathering information; principles and procedures used for crime scene protection and search; collection and preservation of evidence; interviewing and interrogation of complainants, witnesses, suspects, and victims; and scientific applications to a variety of investigations conducted in criminal justice setting.

CJ 235 Traffic Law & Investigation (3)

Provides a basic introduction to the traffic regulation function in modern society with particular emphasis on the impact on technology, judicial decisions, Federal mandates and societal expectations on the enforcement of traffic laws and the investigation of related violations.

CJ 245 Officer Survival (3)

Comprehensive police officer survival seminar designed for basic and in-service police training. Includes examination of the laws regarding use of force, civil and criminal liability, mental conditioning, post shooting trauma, the dynamics of lethal force and other special topics, including biomedical hazards, dealing with gangs and plainclothes and off-duty officer survival. Strenuous physical activity expected. Advise instructors of any medical condition that would prevent involvement in the training.

CJ 250 Patrol Procedures (3)

Provides a comprehensive study of police patrol procedures, beginning with a historical overview of local policing and moves into current patrol practices. Includes presentations of old training films, as available, to allow students to critique early methods with techniques learned. Includes legal issues and their impact on police methods.

CJ 260 Independent Study (1-3)

Criminal Justice majors may pursue an independent research project approved by faculty in consultation with the Department Chair. Independent Study may not be used in place of any courses required of the criminal justice major. Independent Study courses must meet equivalencies to Federal definition of a credit hour. Prerequisites: 6 hours of CJ course work.

CJ 290 Special Topics (1-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester for variable credit. Prerequisite: Consent of instructor.

CJ 303 Diversity in American Culture (3)

This course is designed to explore the relationship between culture and the criminal justice system. Emphasis is given to understanding the historical, theoretical, and structural perspectives of racial/ethnic and minority groups in society.

CJ 305 Crime & Justice in Film (3)

The course is intended to survey modern America's attitudes about our criminal justice system through analysis of several motion pictures dealing with various facets of the system.

CJ 310 Police Problems & Practices (3)

Analysis of police functions and problems commonly encountered in the performance of those functions. Problem-solving methods and techniques are reviewed, discussed, and practiced. Prerequisite: CJ 110 or consent of instructor.

CJ 315 Drug Abuse & Criminality (3)

Societal reaction to drug abuse in terms of legal sanctions, treatment alternatives, and the criminal justice response (law enforcement, the courts, corrections). How substance abuse and criminal behavior are interrelated.

CJ 318 Juvenile Justice (3)

This course provides an overview of the American Juvenile Justice System, including theories and measurements of juvenile offending; the roles and relationships of law enforcement, courts, probation and parole, diversion programs, service agencies, and correctional institutions. Prerequisites: CJ 100.

CJ 320 Correctional Treatment Strategies (3)

Treatment strategies employed in adult and juvenile corrections programs, focusing on classification, types of institutional programming, as well as community and aftercare facilities. Prerequisite: CJ 120 or consent of instructor.

CJ 323 Serial Killers (3)

This course will review the methods used by criminal justice agencies to identify and track serial killers, examine various aspects of this particular criminal profile and review the impact of such criminal activity on our society. Case studies of convicted serial killers will be used to demonstrate the various factors that influence the development of this abnormal criminal mind. Prerequisite: None.

CJ 324 Evidenced Based Corrections (3)

This course is designed to explore best practices in corrections that are based on research. Emphasis is given to studying the findings from program evaluations to better understand EBP that have reduced recidivism and enhanced public safety. Prerequisites: CJ 120.

CJ 325 Applied Criminology (3)

Applied criminology will examine various criminological theories including delinquent subculture, differential association, and conflict theories, and their application by criminal justice professionals. In addition, the student will understand and practice the application of criminological theory in dealing with an individual offender.

CJ 330 Judicial Process (3)

Historical development and contemporary structure of state and federal trial courts and courts of appellate review will be presented. Constitutional and statutory authority for courts, court procedure, and defendant rights in the judicial process will be reviewed to include due process, public and speedy trial, jury composition, self-incrimination, punishment and state and federal post-conviction relief and/or appellate review. Other statutory and administrative/regulatory laws will be reviewed pertaining to the Code of Professional Responsibility as it applies to respective judicial officers. Close analysis is offered of the respective roles, duties performed, and career paths for judicial officers such as judges, prosecutors and defense counsel.

CJ 332 Law of Corrections (3)

This course is designed to explore the law of corrections by providing an in-depth examination of the court system with particular focus on prisoners' post-conviction rights. Topics covered include the various sources of correctional law, prisoners' statutory and constitutional rights, potential liability for corrections employees, and other controversial legal issues in corrections. Prerequisites: CJ 120.

CJ 337 Sex Offenders (3)

This course concerns sex offenders, sexual offending behavior and the policy responses of this type of crime. The course will cover "typical" sex offender characteristics, at least as much as the behavior can be typified. It will investigate the nature and procedure of sexual offending behavior. Policy targeted toward preventing or curbing behavior will also be explored. Prerequisite: None.

CJ 340 Crime Prevention (3)

Situational crime prevention, environmental design, physical security measures, defensible space, opportunity theories, crime displacement, rational choice theory, and crime prevention studies. Prerequisite: CJ 130 or consent of instructor.

CJ 342 Capital Punishment in America: The Death Penalty (3)

An overview of capital punishment in America with specific application to Kansas. The course covers different philosophical and religious positions on the death penalty; pro and con arguments related to retribution, deterrence, and incapacitation; the relative costs of the death penalty vs. permanent incarceration; innocent people on death row, discrimination, and arbitrariness in the application of the death penalty; and the role of judges, prosecutors, defense attorneys, juries, and witnesses in death penalty cases. Prerequisite: CJ 100 or consent of instructor.

CJ 345 Homicide (3)

An in-depth examination of homicide investigation and the tools required to bring the case to a successful completion. Prerequisite: CJ 110 or CJ 115, or consent of instructor.

CJ 350 Legal Issues in Security and Safety (3)

Civil and criminal liability of security officers and employers, security laws of arrest/search/seizure, security regulations, security licensing and training, OSHA standards and legal requirements, and case studies. Prerequisite: CJ 130 or consent of instructor.

CJ 352 Firearms Decision Making (3)

Firearms decision making provides students with the opportunity to examine the legal aspects of police use of force incidents. During the course students will learn about firearms and the proper safety, usage and storage of weapons. Each student will be provided the opportunity to use the Firearms Training System (FATS) and the simmunitions weapons system and experience split second decision making in a use of force incident. Finally, student will study the basic preparation for dealing with critical incidents and the aftermath of a shooting incident. An additional fee is associated with this course. Prerequisite: CJ 100 or consent of instructor.

CJ 355 Women in Criminal Justice (3)

An overview of the theories and facts on female criminality, employment practices and on-the-job problems that affect female criminal justice workers, and factors relative to female victims of crime.

CJ 360 Independent Study (1-3)

Criminal Justice majors may pursue an independent research project approved by faculty in consultation with the Department Chair. Independent Study may not be used in place of any courses required of the criminal justice major. Independent Study courses must meet equivalencies to Federal definition of a credit hour. Prerequisites: 6 hours of CJ course work or consent.

CJ 362 Human Trafficking (3)

An advanced undergraduate course that focuses on contemporary human trafficking and slavery. Types of trafficking and slavery to be covered include sex trafficking, bonded labor, forced labor, child soldiers, chattel slavery, and domestic servant slavery. The contributing roles of the state, organized crime, the media, culture, and corruption will be examined. Debates about defining trafficking and the connection between sex trafficking and prostitution will be reviewed. Course materials may include testimonies and autobiographies by survivors, research reports, theoretical essays, policy statements, expert testimonies, podcasts and videos. Prerequisite: Junior Standing or permission of the course instructor.

CJ 364 Homeland Security (3)

This course will provide an introduction and general overview of homeland security in the United States. The course will focus on helping students understand the key elements of homeland security strategies and operational policies. The role and purpose of homeland security strategy will be evaluated in regard to its implementation in a contemporary democratic society. Prerequisite: None.

CJ 365 Police & the Community (3)

Relevant literature and the scope of the problem, psychological and sociological considerations; and viable programs that effectively improve communications between the police and the public. Prerequisite: CJ 110 or consent of instructor.

CJ 366 Advanced Criminal Investigations (3)

This course will build on principles learned in CJ 230 Principles of Investigation. Students will examine more in-depth issues related to the investigation of crime scenes. The course will review the constitutional protections offered by the Fourth Amendment and consider the role they play in maintaining the integrity of the crime scene, search, and any evidence seized. Students will also experience hands on application of these principles, through use of mock crime scenes, simulated investigations, and mock interviews and interrogations, as well as discuss the various parties they may encounter at crime scenes. Prerequisites: CJ 110 and CJ 230

CJ 367 Firearms and Tool Mark Examination (3)

This course will provide an understanding of the history and scope of firearms and toolmark examination as well as introducing students to basic methods of firearms and tool mark identification and examination. An emphasis will be placed on the use of this type of evidence as a means of facilitating effective crime scene investigations. The theory of firearms and tool mark evidence identification will be discussed as students are able to develop a better understanding of the scientific method and how it is applied to criminal investigations. Prerequisite: CJ 115 or consent of instructor.

CJ 368 Introduction to Bloodstain Pattern Analysis (3)

This is the first of two courses in Bloodstain Pattern Analysis (BPA). Each course will cover different aspects of BPA. In combination, the two courses will meet all the requirements of the International Association of Bloodstain Pattern Analysis (IABPA) Basic BPA Course. BPA is an investigative tool utilized by forensic scientists, crime scene technicians and investigators to identify bloodstain patterns at a crime scene, which may assist in reconstructing events. This course will introduce students to bloodstain pattern identification and analysis. Attention will be focused on how bloodstain analysis can be used to help facilitate criminal investigations. Prerequisite: CJ 115 or consent of instructor.

CJ 369 Advanced Bloodstain Pattern Analysis (3)

This is the second part of two courses in Bloodstain Pattern Analysis (BPA). Each course will cover different aspects of BPA. In combination, the two courses will meet all the requirements of the International Association of Bloodstain Pattern Analysis (IABPA) Basic BPA Course. BPA is an investigative tool utilized by forensic scientists, crime scene technicians and investigators to identify bloodstain patterns at a crime scene, which may assist in reconstructing events. Prerequisite: CJ 368.

CJ 370 Fire Investigation and Prevention (3)

Examines the principles of fire investigation, burn patterns, arson, fraud, industrial and commercial fire prevention, hazard recognition, fire control and suppression methods. Prerequisite: CJ 115 or consent of instructor.

CJ 371 Intro to Forensic Photography (3)

This course introduces students to both basic and more advanced techniques in forensic photography to include overall, midrange, and close up photography composition as well as low light photography and comparison quality photography. Prerequisite: CJ 115

CJ 372 Intro to Fingerprint (3)

This is an introductory course on the surface of the skin referred to as friction ridge skin. This course examines the role of fingerprints in forensic investigations as well as focuses on fingerprint classification, orientation, and collection of known fingerprint impressions. Prerequisites: None

CJ 373 Fingerprint Development Lab (3)

This intermediate course will introduce students to different chemical and physical development processes that are utilized in the latent fingerprint laboratory. Students will gain a better understanding of the factors that affect latent print deposition, along with the proper processes utilized to search for, document, and preserve latent fingerprints on different surfaces. Prerequisite: CJ 372

CJ 374 Intro to 3-D Scanner (3)

This course enhances students sketching and mapping skillsets by introducing them to scanning equipment that allows for complete 360-degree documentation of a crime scene. Students will learn more about proper measuring and sketching methods, along with how to operate the scanning equipment and using the associated software to enhance and utilize the scan data. Prerequisite: CJ 115

CJ 375 Forensic Psychological and Criminal Profiling (3)

This course introduces students to the diverse ways in which the forensic psychologist participates in the legal system. Particular attention is given to the role of the forensic psychologist in criminal proceedings as it relates to the state of mind of the offender. The course also introduces students to basic theories of criminal profiling and ethical considerations in the use of profiling. Prerequisite: CJ 110 or CJ 115, or consent of instructor.

CJ 380 Terrorism (3)

An exploration of the incidence and threats of terrorism and an investigation of the security and law enforcement measures needed to combat it. Topics such as assassination, kidnapping, hijacking, extortion, sabotage, bomb threats/searches, hostage negotiations, victims' survival, and medical/tactical reaction teams will be discussed as they relate to executive protection and terrorism.

CJ 382 Security Technologies (3)

This course provides an overview of the technologies used by security professionals and criminalists working in public safety. Emphasis is given to methods of assessing public and private security threat and managing security protection in government and industrial agencies, and digital, cyber and protective services. Prerequisites: CJ 130.

CJ 386 Footwear and Tire Tracks (3)

This is an introductory course on footwear and tire track impressions. This course examines the role of track impressions in forensic investigations with a specific focus on outsole and tire tread characteristics. Students will demonstrate, through hands-on practicals, how to properly search for, document, and collect all types of tread evidence. Prerequisites: None

CJ 387 Digital Enhancement (3)

This course introduces students to the capabilities and functions of digital enhancement through the use of Adobe Photoshop as well as proper collection, tracking, and storage of digital images. Prerequisites: None

CJ 388 Shooting Incident Reconstruction (3)

This course will give students a better understanding of ballistics and the amount of information that is available when handling a shooting incident. Students will learn proper documentation practices for shooting incidents as well as learn tools and resources that are needed for reconstructive purposes. Prerequisites: None

CJ 390 Special Topics (1-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester for variable credit. Prerequisite: Consent of instructor.

CJ 395 Seminar in Metropolitan Criminal Justice (3)

An overview of the functions, interrelations and problems of metropolitan law enforcement, judicial and correctional agencies is provided through lectures, assignments and agency visitations. Usually conducted in the Kansas City metropolitan area over a five-day period. Prerequisite: Consent of instructor.

CJ 400 Criminal Justice Research Methods (3)

This course allows students to learn and demonstrate knowledge of research methodology within the criminal justice system and become acquainted with the range and scope of quantitative and qualitative tools available to the criminal justice researcher. Prerequisite: 12 hours Criminal Justice or consent of instructor.

CJ 401 Criminal Justice Ethics (3)

An advanced exploration of the field of ethics as specifically applied to the criminal justice field. Theoretical ethics will be examined alongside a pragmatic and applied focus on the application of these ethical principles in a contemporary criminal justice professional environment. Prerequisite: None.

CJ 410 Criminal Procedure and Evidence (3)

Advanced analysis of the constitutional statutory foundations of modern criminal procedure will be emphasized, with particular focus on the 4th, 5th, and 6th Amendments. The law of search and seizure, interrogations and confessions, warrants, indictment/information, pretrial suppression and exclusionary rule applications will be presented. Rules pertaining to obtaining, qualifying and admitting evidence will be discussed, to include direct and cross examination, application of the hearsay rule, recognized privileged communications, and common evidentiary objections will be offered in the criminal prosecution/defense perspective.

CJ 415 Advanced Forensic Investigations (3)

Examines the role of forensic science in the investigation and solution of crime. Each type of physical evidence normally encountered in criminal investigation is studied with regard to collection and packaging techniques which maximize evidentiary value, the current types of scientific analyses available, and the significance and limitations of the scientific results. The history of forensic science is also briefly examined. Prerequisite: CJ 115 or consent of instructor. Corequisite: Must be taken at the same time as CJ 416.

CJ 416 Forensic Applied Science Laboratory (3)

This skills application course is designed to complement CJ 415 Forensic Investigations in Criminal Justice. Emphasis is given to the application of forensic investigation techniques and practices related to the preservation of evidence and the processing of crime scenes, including: processing latent prints, gathering trace evidence, documenting firearms and toolmarks evidence, and the collection of illicit drugs. Preparations for court testimony and presentation of evidence in court proceedings are covered. This course must be taken the same semester as CJ 415. Prerequisite: CJ 115 or consent of instructor. Corequisite: CJ 415

CJ 417 Probation, Parole and Community Based Corrections (3-6)

Crime scene investigation internships are created for CSI students to put their classroom-learned skills to real-life applications. Moreover, having an on-the-job training under a crime scene investigation unit will expose you to different specializations of your career choice such as photography skills at crime scenes; this way, you can choose which aspect of a CSI job to concentrate on. This internship requires summative reflection, serving as a culminating experience for Bachelor's degree students. Prerequisites: CJ 115, CJ 415, and Consent of Instructor.

CJ 420 Probation, Parole and Community Based Corrections (3)

Probation and parole, including the administration, procedures, and techniques used in the treatment and supervision of offenders. Also, the history and trends of probation and parole, and professional training in these fields. Prerequisite: CJ 120 or consent of instructor.

CJ 425 White Collar Crime (3)

Occupational crime, fraud, theft, computer crimes, environmental crimes, business and governmental crimes, and prevention measures. Prerequisite: CJ 110 or consent of instructor.

CJ 435 Death Investigations (3)

An accurate death investigation is a critical piece of information in any homicide case. Students will learn more in depth information about the importance of proper death investigation in a homicide as well as different manners of death. This course will cover different aspects of a death investigation from the crime scene to the autopsy. Prerequisites: None. Corequisites: CJ 436

CJ 436 Applied Death Investigations (3)

Applied Death Investigation provides a more practical application of materials and information learned in Death Investigations (CJ 435). Students will be given the resources to critically think through different situations encountered at a death investigation. Prerequisites: CJ 415, CJ 416, and permission of the course instructor. Corequisites: CJ 435

CJ 440 Enforcement Administration (3)

For those interested in police administration. Students are required to participate in field & classroom experiences designed to expose & prepare them for an administrative role in the criminal justice system. Students demonstrate through exams, assigned papers, reports, & classroom participation their knowledge of administration principles & practices. Prerequisite: CJ 110 or consent of instructor.

CJ 445 Drug Enforcement Policies and Programs (3)

The role in establishing alcohol and other drug policy and the development of regulation for the implementation of federal policy. Officials from federal, state, and local agencies describe agency functions and effects at addressing the drug problem. The course will also examine the impact of federal drug policy at the local level. Prerequisite: CJ 110 or consent of instructor.

CJ 455 Criminal Justice Administration (3)

This course provides an overview of the basic functions of criminal justice agency management and administration, including activities such as planning, forecasting, budgeting, organizing, training, evaluating and directing personnel. The special requirements for the administration of criminal justice agencies and facilities such as building public support, communicating results, informing policy decisions, maintaining transparency, and interacting with other criminal justice agencies are explored. Case studies from a variety of criminal justice settings including law enforcement, corrections, and courts are analyzed to enhance understanding of management and administrative complexities. Prerequisite: None.

CJ 465 Criminal Justice Planning (3)

Criminal Justice planning, including analysis of crime data and systems interrelations, forecasting, problem identification, establishing goals and objectives, and developing plans for implementation and evaluation.

CJ 470 Internship in Security (3-6)

Supervised practical internship in a security setting. May be taken for 3 hours in two semesters or 6 hours in one semester. Placement requires agency approval. This internship requires summative reflection, serving as a culminating experience for Bachelor's degree students. Prerequisite: CJ 100, CJ 110, CJ 220, CJ 340, CJ 400, and CJ 450 (or consent of instructor).

CJ 475 Police Experience (3)

Travel to law enforcement agencies, guest lectures and class discussion. Prerequisite: CJ 110 or consent of instructor.

CJ 484 Internship in Criminal Justice (3)

Supervised observation & participation in the functions of a federal, state, or local criminal justice agency. Assignment supervision is received from experienced agency personnel and an orientation to agency operations is provided. Students may participate in specific law enforcement, corrections, forensic investigation, or security administration activities. Experience may be concentrated in one agency or divided among more than one agency. Placement and continuation in the internship require approval of the criminal justice agency where the student completes their internship experience. This internship requires summative reflection and serves as a culminating experience for criminal justice students. Prerequisites: Permission of the course instructor.

CJ 485 Internship in Criminal Justice (3-6)

Supervised observation & participation in the functions of a federal, state, or local criminal justice agency. Assignment supervision is received from experienced agency personnel and an orientation to agency operations is provided. Students may participate in specific law enforcement, corrections, forensic investigation, and/or security administration activities. The criminal justice internship may be taken in one semester or over the course of two semesters. Experience may be concentrated in one agency or divided among more than one agency. Placement and continuation in the internship requires approval of the criminal justice agency where the student completes their internship experience. This internship requires summative reflection and serves as a culminating experience for criminal justice students. Prerequisite: Permission of the course instructor.

CJ 486 Seminar in Criminal Justice (3)

This course provides an opportunity for students to examine more in-depth an area or aspect of the criminal justice system, including problems or challenges for policy or practices. Students will select an area of interest and complete an original research project or a research paper under the supervision of a department faculty member with related experience. Prerequisites: Permission of the course instructor.

CJ 495 Correctional Experience (3)

Impact course designed to provide the student with the opportunity to "experience" the correctional institution and draw a unique insight into corrections. Students visit correctional institutions, observe their operations, and interact with correction practitioners and confined offenders. Institutions have been chosen for visitation to provide the student with as broad a correctional experience as possible, beginning with juveniles through adults, including county, state, and federal institutions. Prerequisite: CJ 120 or consent of instructor.

CJ 499 International Travel Experience in Criminal Justice (1-3)

This course will provide students with an opportunity to earn course credit for participation in educational travel opportunities. These opportunities will incorporate elements of both travel and education, providing students with an applied opportunity to learn as they explore different locations. Prerequisite: Permission of the course instructor.

CJ 600 Seminar in Criminal Justice Systems (3)

This is a professional graduate seminar designed to engage the first-semester criminal justice graduate student in the analysis of the array of issues in the process of justice administration. Criminal Justice system operations are reviewed, and key issues impacting criminal justice theory and practice are explored. Prerequisite: Admitted to MCJ program or permission of MCJ Program Coordinator.

CJ 602 Criminal Justice Research (3)

The student will be able to develop and implement basic research designs and interpret findings. Both qualitative and quantitative methods will be examined. Instruction and application will focus upon criminal justice issues and the impact of criminal justice research upon the profession. Prerequisite: Admission to MCJ program or permission of MCJ Program Coordinator.

CJ 603 Issues in Criminal Procedure (3)

Current significant issues in criminal procedure will be addressed. Emphasis will be placed upon significance of recent judicial decisions to both enforcement and corrections. Additionally, the relationship between the judiciary and the other segments of the criminal justice system will be examined. Methods for conducting legal research will be examined. Prerequisites: Admission to MCJ program or permission of MCJ Program Coordinator.

CJ 604 Seminar in Criminal Justice Organization and Management (3)

This course will address the application of organizational, administrative and management principles in law enforcement, courts, and corrections. The course will examine issues in organizational structure, administration, problem solving, planning, and budgeting. Prerequisite: Admitted to MCJ program or permission of MCJ Program Coordinator.

CJ 605 Ethics in Criminal Justice (3)

The course will evaluate issues of professionalism and ethical behavior within the criminal justice profession. Key issues examined will include professional behavior of the individual and the agency. Current topics, such as sexual harassment, accreditation, and maintenance of standards, and community relations will be significant topics of focus. Prerequisite: Admission to MCJ program or permission of MCJ Program Coordinator.

CJ 610 Corrections in the United States (3)

This course will study the policies that affect modern correctional agencies in the United States. Corrections will be examined from a historical perspective to provide a benchmark for the analysis of current and future trends. Prerequisite: Admitted to MCJ program or permission of MCJ Program Coordinator.

CJ 620 Role of Law Enforcement in the United States (3)

Policies and human issues affecting law enforcement agencies in the United States will be addressed. Law enforcement will be examined from a historical perspective with analysis of current activities and expected future trends. Prerequisite: Admitted to MCJ program or permission of MCJ Program Coordinator.

CJ 625 Seminar In Criminological Theory (3)

Theories of crime causation and criminal behavior are discussed and researched. Theories are traced from the 1700's through modern times. Prerequisite: Admitted MCJ program.

CJ 630 Seminar in Correctional Administration (3)

The course will develop students' capacity to develop and evaluate policies and procedures in all parts of the correctional administration arena. Judicial decisions which impact the legal status of the operation of correctional institutions and offender confinement will be examined. Prerequisite: Admitted to MCJ program or permission of MCJ Program Coordinator.

CJ 635 Organized and White Collar Crime (3)

This course examines organized crime, white collar crimes, and gang activity in the United States. Focus will be on the historical development of these criminal patterns with an evaluation of current activities as well as proposed intervention theories. Prerequisite: Admitted to MCJ program or permission of MCJ Program Coordinator.

CJ 640 Seminar in Legal Issues in Law Enforcement (3)

Current significant issues in enforcement administration will be addressed. Emphasis will be placed upon significance to federal, state, and local enforcement administrators, their agencies, and their communities. Prerequisite: Admitted to MCJ program or permission of MCJ Program Coordinator.

CJ 645 Comparative Criminal Justice Systems (3)

This course studies the criminal justice systems of four to six major countries. Each country's different philosophical and practical approaches to criminal justice will be evaluated and compared. Field study will be utilized when possible. Prerequisite: Admitted to MCJ program or permission of MCJ Program Coordinator.

CJ 650 Seminar in Community Corrections (3)

The course will examine the traditional practices of probation and parole, as well as newer community methods. The major focus will be on the organization and integration of community-based programs into the modern criminal justice system. Prerequisite: Admitted to MCJ program or permission of MCJ Program Coordinator.

CJ 655 Seminar in Juvenile Justice And Delinquency (3)

This course addresses delinquency prevention policies, investigation of juvenile crime, dispositions of offenders, and judicial waiver issues. The Seminar also examines the roles and interaction of juvenile agencies' operations and the administrative challenges to them as well as a review of the due process considerations mandated by courts. Prerequisite: Admitted to MCJ program or permission of MCJ Program Coordinator.

CJ 660 Seminar in Operational and Staff Planning (3)

This course will examine principles and practical applications of operational and staff planning as applied to law enforcement agencies. Emphasis will be placed on the development and implementation of organizational goals and objectives, strategic, and tactical planning and operational needs assessment. Prerequisite: Admitted to MCJ program or permission of MCJ Program Coordinator.

CJ 670 Seminar in Correctional Law (3)

This course studies correctional law as related to probation and parole, juvenile and adult institutions, local jails, legal liabilities, and legal research. Prerequisite: Admitted to MCJ program or permission of MCJ Program Coordinator.

CJ 675 Problems & Practices in Judicial Administration (3)

In this course, students will examine the problems that face judicial administration and how those problems affect other elements of the criminal justice system. Prerequisite: Admitted to MCJ program or permission of MCJ Program Coordinator.

CJ 680 Seminar in Staff Development (3)

This course examines the role of staff development in the management of human resources in criminal justice, and effective staff development methods and techniques. Emphasis will be placed on training and human resources development in criminal justice, organizationally determined outcomes, training needs assessment, performance standards, and assessment. Prerequisite: Admitted to MCJ program or permission of MCJ Program Coordinator.

CJ 685 Special Topics - Criminal Justice (1-3)

These courses offer an opportunity for students and faculty to explore topics of contemporary or historical interest that are not covered in regular course offerings. Prerequisite: Admitted to MCJ program or permission of MCJ Program Coordinator.

CJ 690 Directed Readings - Criminal Justice (1-3)

This course provides students with an opportunity to conduct an in-depth exploration of literature related to a particular criminal justice topic. Consent from the supervising professor is required. Directed readings courses must meet the Federal definition of a credit hour. Prerequisite: Admitted to MCJ program and Instructor consent or permission of MCJ Program Coordinator and instructor permission.

CJ 692 Analytical Research and Statistics (3)

Statistical methods and computer applications are covered as they relate to survey research, agency evaluation, and content analysis. Qualitative methods are also taught and include field methods, historical research, and legal bibliography. Prerequisite: Admitted to MCJ Program and CJ 602 or permission of MCJ Program Coordinator.

CJ 693 Capstone Experience (3)

A Capstone course is a graduate course that typically serves as a comprehensive assessment of the knowledge and skills of a graduate student in the major field of study. It is usually completed at the end of the degree program. This Capstone course is a self-directed, integrated, learning opportunity. It is designed to integrate and synthesize all coursework in the criminal justice graduate program and related areas so the student has a broad conceptual and practical understanding of the criminal justice career field. Prerequisite: Admitted to MCJ program, 24 hours of coursework completed (including all core coursework), and Instructor permission.

CJ 699 Thesis (1-6)

This course may be directed by any member of the criminal justice graduate faculty who accepts responsibility for supervising the thesis. The thesis topic must be pre-approved by the faculty advisor who serves as the student's graduate committee chair. The student normally conducts original empirical research which involves the collection and analysis of new data, or re-analyzing existing data to arrive at certain conclusions. The written Thesis report is submitted to the student's Thesis Committee for evaluation and approval. An oral defense of the Thesis is required for graduation. Prerequisite: Admitted to MCJ program, 24 hours of MCJ coursework (including all core coursework), and instructor permission.

CJ 777 Continuous Enrollment (1-3)

This course is to allow students additional time to complete Capstone, Thesis or Practicum requirements. Prerequisite: Instructor permission.

DATA ANALYTICS (DA)

DA 348 Data Discovery and Management (3)

Students will identify and manipulate data that will provide actionable information to solve business problems. Prerequisite: BU 250, BU 248 or BU 258, and EC 211 or MA 346

DA 358 Data Methods and Warehousing (3)

Students will learn methods to process a variety of data types (unstructured and semi-structured) and to use technologies that convert, analyze and store large volumes of data. Unstructured and semi-structured data will be converted into information useful for problem solving. Prerequisite: BU 250 and BU 248 or BU 258, and EC 211 or MA 346

DA 368 Data Mining and Modeling (3)

Students will learn technologies that can be used to discover relationships among data. These relations can be used to create models used to predict or classify new data. Prerequisite: BU 250 and BU 248 or BU 258 and EC 211 or MA 346

DA 478 Data Analytics Applied - Practicum (3)

Students will apply the data analytics process, including data discovery, transformation, organization, and modeling, to a real-world project and learn to effectively communicate the solutions. Prerequisite: DA 348 and DA 358 and DA 368.

ECONOMICS (EC)

EC 100 Introduction to Economics (3)

Factors determining the general levels of employment and inflation are examined as well as an analysis of markets, prices and production. Current economic problems are used to illustrate these concepts. Not open to students who have credit in EC 200 or EC 201. EC 100 may not be used as a substitute for EC 200 or EC 201.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Quantitative and Scientific Reasoning and Literacy

EC 200 Principles of Microeconomics (3)

The fundamentals of price theory. A study of the interaction of markets and decisions made by consumers and firms. Market structure, allocation of resources, and efficiency issues are addressed. Prerequisites: MA 116 (recommended) or MA 112, or higher. (Formerly EC 202)

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Quantitative and Scientific Reasoning and Literacy

EC 201 Principles of Macroeconomics (3)

Nature and performance of the American economy considered in the aggregate. Topics include the determinants of aggregate output, unemployment, and inflation. Analyses of national income, business cycles, fiscal and monetary policies, and international trade are introduced. Prerequisites: EC 200, MA 116 (recommended) or MA 112, or higher.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Quantitative and Scientific Reasoning and Literacy

EC 211 Statistics for Business and Economics (3)

The application of statistical methods to decision problems in business and economics. Topics include sampling distributions and their properties, statistical inference, simple linear and multivariate regression analysis, application of regression and smoothing techniques to time series analysis, analysis of variance, distribution-free and chi-square test procedures, and concepts of statistical quality control. Prerequisites: MA 140, or its equivalent, and MA 116 (or MA 141 or MA 151 or higher), or their equivalents with grades of C or better.

EC 300 Microeconomic Analysis (3)

An in-depth analysis of the behavior of individual economic units and various economic policies is developed, using the tools of price theory and game theory. Prerequisites: EC 200, EC 201, MA 116 or higher, and 2.0 GPA. MA 141 is recommended but not required.

EC 301 Macroeconomic Theory (3)

A study of the determinants of the level of aggregate income, employment, and prices. Analyses of secular and cyclical changes in economic activity, and of the effects of public policy on aggregate economic experience. Integration of international trade and finance into macroeconomic models. Classical, Keynesian, and Monetarist theories are analyzed. Prerequisites: EC 200, EC 201, MA 116 or higher, and 2.0 GPA.

EC 306 Game Theory and Applications (3)

Acquaints the student with concepts and tools of game theory and their use in strategic decision making. Applications of game theory to business, sociology, political science, and evolutionary biology are discussed. Prerequisites: MA 116 and MA 140.

EC 310 History of Economic Thought (3)

Comparative study of the historical origin, content, and impact of selected schools of economic thought. Emphasis upon tracing evolution of economic theories out of specific historical contexts. Major schools of economic thought from the Greeks through Adam Smith to the present. Prerequisites: EC 200 and EC 201.

EC 313 Industrial Organization and Policy (3)

An in-depth look at market structures and their effect on tactics and strategies of firms. Includes economic analysis of government efforts to regulate and control business activities. Prerequisites: EC 200 and EC 201.

EC 341 Labor Economics (3)

An analysis of the market for labor in the United States. Investigates issues of wage determination, worker productivity, labor supply and demand analysis, employment, and education and training. May include income inequality, discrimination, promotion, compensation, and immigration. Prerequisites: EC 200 and EC 201.

EC 388 Urban & Regional Economics (3)

The location of economic activity for firms, industries and cities used as a base for considering regional growth and decline and urban economic structure, problems, and policies. Prerequisites: EC 200 and EC 201.

EC 403 Special Topics/Economics (3)

Selected topics announced in advance. May be taken more than one semester. Prerequisites will be specified for each topic.

EC 404 Independent Study-Economics (3)

Individual study of an economic problem. Course activity must be supervised by a member of the full-time faculty with professorial rank in the School of Business. Prerequisite: Consent of directing faculty member prior to enrollment.

EC 405 Honors Research in Economics (3)

Restricted to those students seeking to qualify for honors in the major field. The study is designed to provide an intellectual challenge for superior students with a strong interest in scholarship. Course activity must be supervised by a member of the full-time faculty with professorial rank in the School of Business. Prerequisites: Senior major and consent.

EC 409 Introductory Econometrics (3)

An introduction to analysis and its applications. Investigates the use of linear regression models, their standard assumptions, and correction for violation of these assumptions. Special topics may include qualitative explanatory variables, distributed lags, and simultaneous equation models. Prerequisites: EC 200, EC 201, and EC 211 (or MA 343).

EC 410 International Economics (3)

The theory of international trade and international finance. Costs and benefits of international economic interdependence. Discussion of current issues in trade policy and the international economic system.

Prerequisites: EC 200 and EC 201.

EC 480 Public Finance (3)

The theory of taxation, public expenditure and fiscal policy. Impact of government financial policies upon resource allocation, income distribution, economic growth, economic stabilization and balance of payments. Foundations for balanced state and local taxation.

Prerequisites: EC 200 and EC 201.

EC 485 Money & Banking (3)

The economic principles and institutional features of money, the payments system, and the financial system, with emphasis on commercial banking. Analyzes the Federal Reserve System and the effect of monetary policy on the economy. Prerequisites: EC 200 and EC 201.

EC 499 Internship in Economics (3)

Professional work experience with a government agency, financial institution, or other business firm in the area of economic analysis or planning. The work situation must create a new learning experience for the student. Credit hours in this course will not count toward the minimum 63 hours in the School of Business required for the BBA. The student's grade will be awarded on a pass/fail basis, as determined by the supervising faculty member. Prerequisites: Consent of major area faculty, appropriate background, at least seventy-five (75) semester credit hours, at least a 2.5 overall GPA and meet the general qualifications specified by the sponsoring business firm or governmental agency.

EC 525 Economic Environment (3)

Nature and scope of economics, the firm in a market environment, level of economic activity, international aspects, and policy alternatives.

Prerequisites: Admission to the MBA program.

EC 652 Managerial Economics (3)

Management problems from an economic point of view. The content focuses on the applications of economic theory to day-to-day managerial decision making. Prerequisite: EC 525 and Admission to the MBA program or Admission to the MAcc program.

EDUCATION (ED)

ED 155 Teaching, Learning, Leadership (3)

This course is designed to acquaint students with the education profession and to help them develop a realistic understanding of teaching, learning, and leadership. Students will examine motives for teaching, explore the qualities of effective teachers and leadership, and discuss the various diversities teachers encounter as well as the implications for teachers and learning. Students will begin to identify strategies and options for successful classroom practice. Ethical, legal, and controversial issues affecting education today will be addressed along with how to become a teacher leader in the profession. Prerequisite: None.

ED 165 Ed. 1, Examining Teaching as a Profession: Diversity 1, Literacy 1, Technology 1 (3)

First in a series of four courses that comprise the foundational education program for future teachers. The four courses address four topics that are essential to establishing and maintaining a successful learning environment: Classroom Management, Diversity, Literacy and Technology. Topics in the first phase are centered around diversity, literacy, and technology. The foundational courses are sequential in nature and build upon the previous course. The courses are intended to be taken in consecutive semesters.

ED 217 Introduction to STEM and STEM Education (3)

This course, introduces the history and current state of STEM (Science, Technology, Engineering and Mathematics) and STEM education while giving students the opportunity to explore the various components of STEM and STEM careers. A strong emphasis is placed upon critical STEM areas (specifically underrepresented populations in STEM and how STEM impacts people and the environment) and STEM in the Community. Students will explore various STEM careers. Prerequisite: None.

ED 275 Ed. 2 Exploring Teaching as a Profession (Classroom Management 1, Diversity 2, Technology 2) Ed. 2 (3)

Second in a series of four courses comprise the foundational education program for future teachers. The four courses address four topics that are essential to establishing and maintaining a successful learning environment: Classroom Management, Diversity, Literacy and Technology. Topics in this phase are centered around further building on diversity and technology, and introducing classroom management. The foundational courses are sequential in nature and build upon the previous course. Prerequisite: ED 165

ED 285 Educational Psychology (3)

The purpose of this course is for students to develop a working knowledge of theories, concepts and models derived from the discipline of psychology as they apply to teaching, learning, and other aspects of educational practice. In addition to theories of learning, motivation, intelligence, students study child and adolescent development. Students also address social, cultural, and family influences on human behavior and human development as well as the experiences of diverse student populations in school settings. ED 285 must be taken prior to admission to the Professional Teacher Education Program. Prerequisite: None.

ED 290 The Whole Child (3)

The Whole Child is an educational child psychology-oriented course which looks at the whole child from birth to age 12. The course explores the developmental levels of the elementary child along with the academic, physical, and social-emotional areas of the child in relation to educating the whole child.

ED 295 Ed. 3 Experiencing Teaching as a Profession (Classroom Management 2, Diversity 3, Literacy 2) (3)

Third in series of four courses comprise the foundational education program for future teachers. The four courses address four topics that are essential to establishing and maintaining a successful learning environment: Classroom Management, Diversity, Literacy and Technology. Topics in the third phase are centered on reinforcing and enhancing previously covered topics in classroom management, diversity, and literacy. The foundational courses are sequential in nature and build upon the previous course. Prerequisite: ED 275. Corequisite: ED 395.

ED 302 Teaching Exceptional Learners (3)

A survey of the characteristics and educational needs of all types of exceptional learners, with particular emphasis given to those students included into the regular classroom. Instructional strategies and appropriate resources for various exceptionalities are explored in detail. Prerequisite: Admission to teacher education.

ED 310 Teaching Math in Elementary School (3)

One course in the unified block in the teaching of mathematics and science. Investigates general content and teaching strategies for each strand of the elementary mathematics program. Problem solving and mental computation will be integrated and the development and use of manipulatives will be stressed. Current curriculum trends and the role of will be explored. Prerequisites: Admission to teacher education and a grade of "C" or better in both MA 112 or MA 116 and MA 228; Concurrent enrollment in ED 315 and ED 317.

ED 314 Chemistry Methods for STEM Edu (3)

This course is designed for pre-service education students and covers a range of chemistry topics related to curriculum and instruction at the middle or secondary grades level. It includes planning instruction, instructional methods and strategies, managing the classroom, assessing student performance, and working with others in the school environment, especially pertaining to the teaching of chemistry. Students are also required to participate in a 6 week observation/practicum and experience actually teaching several lessons in the student's major area. Corequisite: CH 317

ED 315 Teaching Science in Elementary School (3)

One course in the unified block in the teaching of mathematics and science. Methods and materials for teaching knowledge, processes, and applications in physical, earth and life sciences will be developed. Emphasis will be placed on activity-oriented programs. Prerequisites: Admission to teacher education, PS 126, BI 100, and BI 101; Concurrent enrollment in ED 310 and ED 317.

ED 317 Math/Science Practicum (2)

A supervised field experience in the teaching of mathematics and science in the elementary grades. Prerequisites: Concurrent enrollment in ED 310 and ED 315, and admission to teacher education.

ED 318 Earth/Space Science for STEM E (3)

This course is designed for pre-service education students and covers a range of Earth and space science topics related to curriculum and instruction at the middle and secondary level. It is designed to be taught in conjunction with Earth/Space Science for STEM Educators (PS 318). It includes planning instruction, instructional methods and strategies, managing the classroom, assessing student performance, and working with others in the school environment, especially pertaining to the teaching of chemistry. Students are also required to participate in a 6 week observation/practicum and experience actually teaching several lessons in an Earth/Space science classroom. CO-REQUISITE: Earth/Space Science for STEM Educators (PS 318)

ED 319 STEM Practicum I (1)

Catalog Description: Supervised field experience in the teaching of STEM in the middle grades. ED 319 will be taught in conjunction with BI 319 (or an approved substitute). The course will focus on the Biology course content as it relates to teaching the content at the middle grades level. Prerequisite: Admission to Professional Teacher Education Program. Concurrent enrollment in BI 319

ED 320 Teaching Reading in Elementary School (3)

The theory and practice of teaching reading including word attack, comprehension, and study skills. Special emphasis is given to the use of basal and other instructional materials in regular and special reading classes. Prerequisite: Admission to teacher education, ED 310 and ED 315. Corequisites: ED 325, ED 327, ED 330, ED 354

ED 321 STEM Practicum II (1)

Supervised field experience in the teaching of STEM in the middle grades. ED 321 will be taught in conjunction with EG 320 (or an approved substitute) and will focus on the course content as it relates to teaching the content at the middle grades level. Prerequisite: Admission to Professional Teacher Education Program. Concurrent enrollment in EG 320 or approved PY or EG course.

ED 322 Social Studies Content for Elementary Educators (3)

Social Studies Content for Elementary Teachers provides a broad foundation of social studies topics covered in the elementary school classroom. The focus of the course will emphasize the big four disciplines addressed in social studies—History (including American History and World History), Government and Civics, Geography and Economics.

ED 325 Teaching Language Arts & Children's Literature (3)

The theory and practice of teaching oral and written communication skills. Special emphasis is given to the interrelationship between literature for young people and the language arts skills of listening, speaking, reading and writing. Prerequisite: Admission to teacher education; Concurrent enrollment in ED 320 and ED 327.

ED 327 Literacy Practicum (2)

A supervised field experience in the teaching of literacy skills in the K-6 classroom. Prerequisite: Admission to teacher education; Concurrent enrollment in ED 320 and ED 325.

ED 330 Teaching Social Studies through Integrating Curriculum (3)

This course includes content, methods, and learning theory for effective social studies instruction. Methods for integrating social studies instruction with other content areas, including the arts will be addressed. Special attention is given to methods which promote critical thinking abilities necessary for participation in a diverse democratic society. Prerequisite: Admission to teacher education, ED 310 and ED 315. Corequisite: ED 320 and ED 337.

ED 335 Creative Experiences in Early Childhood Through Middle School (3)

Explores various elements of aesthetics, including art, music, drama, dance, and movement and the relationship of such activities to the teaching-learning environment. Emphasis will emphasize use of creative activities to enrich other content areas. Prerequisite: Admission to the Professional Teacher Education Program. Corequisites: ED 310 and ED 315.

ED 337 Social Studies Practicum (1)

One course in a unified block in the teaching of social studies and aesthetics. This course requires students to develop and teach social studies lessons in the elementary school classroom. Prerequisite: Admission to teacher education. Corequisites: ED 330 and ED 320.

ED 340 Teaching in Adolescent Middle Level Environment (2)

Understanding the unique nature of middle level education will be the focus of this course. Based upon readings, field experience, and class discussion, students will study the nature of adolescent development, curriculum and instruction, programs and collaborative interactions that support an effective middle school program. Prerequisite: Admission to teacher education; Concurrent enrollment in one of the following practicum sections, ED 346, ED 348 or ED 349.

ED 346 Middle Level History Practicum (1)

A supervised field experience in the teaching of history in the middle level classroom. Prerequisite: Admission to teacher education; Concurrent enrollment in ED 340.

ED 348 Middle Level English/Language Arts Practicum (1)

A supervised field experience in the teaching of English/Language Arts in the middle level classroom. Prerequisite: Admission to teacher education; Concurrent enrollment in ED 340.

ED 349 Middle Level Mathematics Practicum (1)

A supervised field experience in the teaching of mathematics in the middle level classroom. Prerequisite: Admission to teacher education; Concurrent enrollment in ED 340.

ED 350 General Secondary Methods (3)

Extensive laboratory and simulated classroom experiences with field-based observation. All secondary majors are required to have at least one methods course, and this course fills the basic requirement when a "special area" methods course is unavailable. All students who enroll in this methods course participate in a field-based teaching experience at various secondary schools. Prerequisite: Admission to teacher education.

ED 353 Assessment & Evaluation in Early Childhood Education (3)

Students in this course will learn how to assess and evaluate young children's development and learning. Typical assessment procedures appropriate for children from birth through third grade will be studied. Techniques will be developed to record children's behavior individually and in group settings. Prerequisite: Admission to teacher education.

ED 354 Curriculum and Assessment (3)

The curriculum and assessment course provides students with an opportunity to examine how to design implement and assess curriculum to address the needs of all learners. Prerequisites: Admission to Teacher Education and ED 275.

ED 362 Methods of Teaching English in Secondary School (3)

The study of and practice in the methods of teaching literature, language, and writing, in the secondary schools. Major concerns include teaching theory; the relationship between oral and written language; language development; language used in various social, regional, and cultural settings; curriculum development and evaluation; and the assessment of students' progress in reading and writing. Students participate in a field-based experience at various secondary schools. Prerequisites: Admission to teacher education and permission of the instructor.

ED 363 Methods of Teaching Math in Secondary School (3)

Principles and methods of teaching the process and content of secondary school mathematics. Includes emphasis and training in general mathematics, algebra, geometry, as well as advanced mathematics. All students who enroll in this course participate in field based teaching experiences at various secondary schools. Prerequisites: Admission to teacher education and permission of the instructor.

ED 366 Methods of Teaching Social Studies in Secondary School (3)

Principles and methods of teaching the process and content of the social studies. Includes emphasis and training in locating information, developing instructional units, and using instructional aids. All students enrolled in this course participate in field-based teaching experiences at various secondary schools. Prerequisites: Admission to teacher education and permission of instructor.

ED 368 Methods of Teaching Foreign Language (3)

Principles and methods of teaching foreign languages. Extensive laboratory and simulated classroom experiences with field experiences with field based observation. Discussion of problem situations observed in the classroom. Emphasis given to proficiency oriented teaching of various target languages, developing instructional units, use of multimedia resources, and principles of foreign language testing. Prerequisites: Admission to teacher education and permission of instructor.

ED 369 Student Teaching in Preschool Education (3)

A supervised field experience in a pre-school setting and a seminar exploring child development issues. This course includes planning, teaching, and assessing developmentally appropriate activities for preschoolers in field placements. Prerequisite: ED 160, ED 343, ED 345, and admission to the Professional Teacher Education Program. Concurrent enrollment in ED 367.

ED 395 Ed. 4 Extending Teaching as a Profession (Classroom Management 3, Literacy 3, Technology 3) (3)

ED 395 Ed 4. Extending Teaching as a Profession (3) Fourth in series of four courses comprise the foundational education program for future teachers. The four courses address four topics that are essential to establishing and maintaining a successful learning environment: Classroom Management, Diversity, Literacy and Technology. Topics in the fourth phase are centered on reinforcing and enhancing previously covered topics in classroom management, literacy and technology. The foundational courses are sequential in nature and build upon the previous course. Prerequisite: ED 275. Corequisite: ED 295.

ED 410 Secondary Student Teaching (6-12)

Directed and supervised teaching of content in 6-12 classrooms. Students are assigned to Topeka and neighboring schools for a period of twelve weeks. Not available for graduate credit. May be taken on a Pass/fail basis only. Prerequisites: Completion of appropriate professional education courses, and teaching specialization courses, and admission to student teaching.

ED 415 5th-8th Grade Student Teaching (4-12)

Directed and supervised teaching of content in 5-8 classrooms. Students are assigned to Topeka and neighboring schools for a period of six to twelve weeks. Not available for graduate credit. May be taken on a pass/fail basis only. Prerequisites: Completion of appropriate professional education courses, middle school teaching content courses, and admission to student teaching.

ED 420 K - 6 Student Teaching (8-12)

Directed and supervised student teaching for a minimum 8 weeks in a K-6 classroom. Not available for graduate credit. May be taken on a pass/fail basis only. Prerequisites: Completion of appropriate professional education courses, and teaching specialization courses, and admission to student teaching.

ED 430 Student Teaching Birth to Grade 3 (4)

Directed and supervised student teaching in a kindergarten through grade three educational setting. Not available for graduate credit. May be taken on a pass/fail basis only. Prerequisites: Completion of appropriate professional education courses, and teaching specialization courses, and admission to student teaching.

ED 440 Student Teaching Grades P-12 (4-12)

Directed and supervised student teaching in grades Pre-Kindergarten through grade 12 educational setting. Not available for graduate credit. May be taken on a pass/fail basis only. Prerequisites: Completion of appropriate professional education courses, and teaching specialization courses, and admission to student teaching.

ED 450 Methods & Cross-Cultural Communication (3)

Emphasis on practical methods of teaching English as a Second Language and strategies for working with speakers of other languages. Includes a review of resource materials, lesson planning, and in-class teaching practice as well as an analysis of problems posed by conflicting cultural and language habits. Prerequisites: Admission to Teacher Education.

ED 461 ESOL Assessment Administration Teacher Education (2)

This course focuses on language assessment theory and practice in ESOL settings. The content of the course will include purposes for assessment, types of assessment including alternative assessment and construction of assessment instruments. Central issues in the assessment of language will be presented and analyzed. Prerequisite: Admission to the program.

ED 463 ESOL Teaching and Learning (3)

This course is designed to provide students with a critical understanding of instructional delivery which caters for the linguistic and literacy needs of minority/heritage communities. The focus of this course is located within postmodernist principles of cultural capital, discursive practices and difference. Students will be required to engage with the political debates and resultant educational ramifications concerning bilingual education, dual language programs, ESOL education, as well as other issues such as power and inequalities in language education. This sociocultural-critical theoretical framework will provide students with the basis to then negotiate issues of second language learning, critical pedagogy, language varieties, multicultural communities as well as critical literacy and reading development. Prerequisite: Admission to the program.

ED 464 ESOL Practicum-Assessment & Administration Teacher Education (3, 4)

A supervised clinical experience with three ESOL learners of different levels (one elementary level learner, one middle level learner, and one secondary level learner). Students administer tests, analyze data, determine the learners' strengths and weaknesses, develop instructional plans for each learner, select and implement appropriate strategies and materials, and assess progress towards instructional goals using skills developed as critical and reflective professionals. Appropriate conduct is maintained with parents and classroom teachers with oral or written reports as deemed appropriate. Prerequisites: ED 450, ED 463, ED 461, and ED 462.

ED 466 Linguistics for ESOL Teachers (3)

This course provides an introduction to language as a system, with a particular focus on teaching English as a second language to students in public schools, in grades P-12. Among the topics addressed are: first and second language acquisition processes; English phonology, morphology, syntax, and discourse; implications for teaching English language learners the four language skills – listening, speaking, reading, and writing; and implications for teaching content-specific language (math, science, social studies). Prerequisites: Admission to Teacher Education.

ED 474 Special Topics in Education (0-3)

Courses in special topics that will vary from semester to semester and will be announced in advance. ED 474 may be taken for more than one semester. Prerequisite: Permission of the Department Chairperson.

ED 497 Independent Study in Education (1-3)

Intensive guided study in a special topic in education. Independent Study in Education is available only to candidates for teaching licenses. Prerequisites: Admission to an approved program of study and written approval of the Chairperson of the Department of Education.

ED 614 Guidance in Elementary/Secondary Schools (3)

Role of the classroom teacher and administrator in guidance and counseling program of the elementary/secondary school. Emphasis on unique needs of elementary children in regular, mainstream, and special classes. Prerequisite: Permission of the instructor.

ED 633 Advanced Child Development (3)

Advanced course in theory and basic concepts of child development. Topics include assumptions and principles of five major approaches: normative-maturation, psychoanalytic, social learning, cognitive-development and behavior analysis. Includes historical background of developmental theory and cross cultural perspectives. Prerequisites: Graduate standing.

ED 641 Language and Literature Development in Early Childhood Education (3)

Students identify speech and language behaviors which are developmentally appropriate for young children birth to age eight. Students identify and practice methods and techniques necessary to foster listening, speaking, pre-writing, pre-reading, and pre-math skills in children birth to five years of age.

ED 644 Art in Elementary/Middle School (3)

Understanding the purpose behind the creative process as it applies to teaching and evaluating art produced by the child. Relates various art experiences to students' developmental and emotional level. Applies elementary, middle, and secondary art experiences to the "regular" classroom.

ED 645 Introduction to Craft Techniques (3)

Lectures and demonstrations covering a variety of craft materials utilized in the elementary, middle, and secondary schools. Includes experience and practice with block printing, fabric art, casting and molding techniques, and safety standards associated with the craft production.

ED 647 PreKindergarten and Kindergarten Methods (3)

Focus on methods and materials that support physical, emotional, social and intellectual needs of the kindergarten and pre-kindergarten child.

ED 650 Graduate Seminar (3)

This course serves as an orientation to the Washburn Teacher Education Program as well as an exploration of the teaching profession for students pursuing an initial teaching license at the graduate level. Students will be introduced to the social, historical, and philosophical foundations of education, as well as a variety of teaching models, and the planning and assessment practices expected of all teachers. A review of influences on P-12 students' individual family, and community characteristics on the teaching and learning process will also be explored. The process for developing the education department required professional portfolio is included. A minimum of a 35 hour school/community field experience is required. Prerequisite: Concurrent enrollment in ED 660.

ED 651 Language Problems of non-English Speakers (3)

Emphasis on practical methods of teaching ESL and strategies for working with speakers of other languages. Includes a review of resource materials, lesson planning, and in-class teaching practice as well as an analysis of problems posed by conflicting cultural and language habits. May be taken for undergraduate credit and EN 499 for graduate credit.

ED 652 Cognitive & Language Development (3)

Emphasizes study of two essential areas of human development as they apply to early childhood teaching and learning: theoretical perspectives and research on cognitive and language development and instructional knowledge which provides understanding of teaching and learning that demonstrate instructional strategies grounded in theory and research.

ED 653 Assessment & Evaluation in Early Childhood Education (3)

Students learn ways in which young children's development is assessed and evaluated. Typical assessment procedures appropriate to children to age eight are studied. Techniques are developed to record children's behavior individually and in group settings. Prerequisite: Graduate standing.

ED 660 Advanced Educational Psychology (3)

Explores advanced topics in educational psychology as they apply to teacher practice. Topics include learning theory, child and adolescent psychology, theories of motivation and achievement, and social and cultural influences on learning and development. Part of the graduate core curriculum. Prerequisite: Consent of instructor.

ED 661 Exceptional Infants & Young Children (3)

Survey of exceptionalities including etiology, curriculum, identification, adaptation of materials and environments, play, referral and development of an individual educational plan (IEP). Prerequisite: ED 343 or equivalent course in child development.

ED 662 Methods of Teaching English-Secondary (4)

Study of and practice in the methods of teaching literature, language, and writing in the secondary schools. Major concerns include teaching theory; the relationship between oral and written language; language development; language used in various social, regional, and cultural settings; curriculum development and evaluation; and the assessment of students' progress in reading and writing. Students participate in a field-based experience at various secondary schools. Prerequisite: Admission to the Professional Teacher Education Program or consent of instructor.

ED 663 Advanced Social Studies (3)

Advanced survey and analysis of issues and practice of social studies education in elementary/middle school. Innovative approaches for teaching history, social issues, psychology, political science, anthropology, and/or philosophy in the classroom are explored. Emphasis on the content and materials of a variety of topics within the social science field. May be taken for undergraduate or graduate credit.

ED 665 Introduction to Educational Research (3)

Introduces graduate students to basic information needed to understand processes to plan, conduct, and report research on education-related issues and problems. Focus on increasing students' appreciation of the field of educational research, while increasing their ability to interpret and evaluate published research studies. Both qualitative and quantitative research methodologies are reviewed. Part of the graduate core curriculum.

ED 667 Curriculum Development and Evaluation - Elementary Education (3)

Examination of social and psychological influences upon curricular design and implementation. Emphasis on study of the societal forces which affect school curricula, prominent instructional models and supporting theoretical rationale, barriers on implementation of innovative curricula, and systematic evaluation of educational programs. Students review the process of curricular modification from a perspective integrating theory and practice.

ED 669 Curriculum Development and Evaluation - Secondary Education (3)

Examination of social and psychological influences upon curricular design and implementation. Emphasis on study of the societal forces which affect school curricula, prominent instructional models and supporting theoretical rationale, barriers on implementation of innovative curricula, and systematic evaluation of educational programs. Students review the process of curricular modification from a perspective integrating theory and practice.

ED 670 Curriculum Development and Evaluation - Middle/Secondary School (3)

Examination of social and psychological influences upon curricular design and implementation. Emphasis on study of the societal forces which affect school curricula, prominent instructional models and their supporting theoretical rationale, barriers on implementation of innovative curricula, and systematic evaluation of educational programs. Students review the process of curricular modification from a perspective integrating theory and practice. May be taken for undergraduate or graduate credit.

ED 671 ESOL Teaching and Learning (3)

This course will provide an overview of curriculum and instruction as it relates to ESOL learners. Candidates will learn appropriate teaching strategies and subject matter content relevant to this population. An emphasis will be placed on understanding language and literacy acquisition and working with students with special needs.

ED 672 Issues in Modern American Education (3)

Critical analysis of contemporary problems and issues in American education. Consideration of historical, sociological, and philosophical foundations affecting problems and issues included. This course is part of the graduate core. Prerequisites: Consent of instructor.

ED 674 Special Topics/Education (0-3)

Courses in special topics which will vary from semester to semester and will be announced in advance. ED 674 may be repeated for credit. Prerequisites: Permission of Department Chairperson and the instructor.

ED 678 Organization & Administration of Early Childhood Education Program (3)

Organization and administration of early childhood programs. Emphasis on supervision of volunteers and paraprofessionals. Introduces the student to techniques for organizing staff as an instructional Early Childhood Education team.

ED 680 Integrating Technology in Curriculum (3)

Presents students with principles underlying selection and use of technology to enhance learning. Examines software and multimedia technologies contributing to the instructional process. Prerequisites: ED 667 or ED 669.

ED 682 Leadership in Technology (3)

Provides guidance regarding varying aspects of technology implementation, including software/hardware acquisitions, funding, and staff development. Prerequisite: Graduate standing.

ED 684 Multimedia in the Classroom (3)

Multimedia gives teachers and students powerful new tools for teaching and learning by combining technologies such as video, audio, graphics, interactivity and text. Students in this course will learn how to identify, choose, plan for, produce and integrate multimedia into instruction.

ED 685 Issues in Educational Technology (3)

Critical exam of historical, sociological, philosophical foundations and implications of the implementation and use of technology in an educational setting.

ED 686 Integrating Internet Into Instruction (3)

The Internet is providing many educational opportunities for the connected classroom. This course will investigate the various components of the Internet such as the World Wide Web, telecommunications and other resources for use in the classroom. Students will learn to find, identify, evaluate and utilize Internet resources for instruction.

ED 687 Emerging Technologies in Education (3)

Technology is a constantly changing and ever evolving process. Many new emerging technologies hold promise for application for learning in the classroom. Students in this course will explore new technologies, evaluate them and determine their applicability for the classroom.

ED 688 Using Technology with Special Needs Students (3)

Using technology, including computers to enhance education of students with exceptionalities. Prerequisite: ED 300, Graduate standing, and either ED 302, or SE 476.

ED 690 Tests and Measurements (3)

Evaluation procedures as an integral part of the teaching/learning process. Involves identifying and defining intended learning outcomes, writing educational objectives, constructing and selecting various evaluation instruments, and interpreting and using test results to improve instruction. Emphasis on criterion and norm-referenced tests of ability and achievement as well as tests of individual assessment. May be taken for undergraduate or graduate credit.

ED 694 Philosophy of Education (3)

Historical and contemporary analysis of philosophical perspectives concerning the educational process. Develops and traces schools of educational thought in an effort to help students clarify their own educational philosophy. Emphasis on relationship between educational philosophy and practice. May be taken for undergraduate or graduate credit.

ED 696 Thesis (3-6)

Research design and analysis of action research or library research study. Culminating activity for graduate students interested in research or advanced study. Professional lab experiences in child study, innovative problems constitute the typical projects for thesis designs. Prerequisite: ED 665 and permission of Education chair.

ED 697 Independent Study in Education (1-3)

Independent research for graduate students investigating a special problem in a specific areas. Prerequisite: Chair consent.

ED 698 Action Research Capstone (1-2)

ED 698 Action Research Capstone (1-2) Students will identify a question about their own teaching or school practices, review the current research literature, develop a plan to collect data, collect and analyze their data, identify emergent themes, write an action research paper, and present their project and findings to the faculty committee. The objectives of the action research project are to help students understand the research process in an educational setting; provide students with the opportunity to study and improve their own teaching through an action research project; and to show students how research can have a positive effect on school improvement and change. Prerequisites: Admission to the graduate program, successful completion of at least 18 credit hours of course work and successful completion of ED 665 Educational Research.

EDUCATIONAL ADMINISTRATION (EA)

EA 663 Building a School Learning Culture (4)

This course is designed as a foundational course for aspiring Building Level Administrators. The course will provide building leaders information to develop a school vision and to build an environment for a successful school learning culture. Course assignments will help future building administrators learn how to create and sustain a collaborative school vision, how to assess and encourage a healthy learning culture, and how to develop and maintain a rigorous and coherent instructional program. The course will include a one-credit hour practicum where the building level candidate will practice and implement the course objectives in a real-life setting. Prerequisite: Departmental Permission.

EA 664 Creating and Evaluating the Instructional Program (4)

This course will prepare aspiring school building administrators to develop and revise curriculum and instruction within the building, including the differentiation of instruction to meet the needs of all students. Learning how to provide supports for all students will be an essential element of this course. Teacher evaluation models will be explored along with how professional development can improve and enhance teacher performance. The course will include a one-credit hour practicum where the building level candidate will practice and implement the course objectives in a real-life setting. Prerequisite: Departmental permission.

EA 666 Building Level Management (4)

This course is one of the four courses required for building level leadership licensure. The course will cover topics regarding the management of a school building, including budgeting, facility management, instructional scheduling, building wide discipline management, and capacity for building leadership. The course will include a one-credit hour practicum where the building level candidate will practice and implement the course objectives in a real-life setting. Prerequisite: Departmental permission.

EA 667 Leading and Engaging a Collaborative Environment (4)

This course deals with communication within the school and the greater school community, including parents and community partners. Building relationships and practicing distributed leadership concepts are also a part of this course. All aspects of school improvement will be explored including the professional responsibility and ethics within the school community. The course will include a one-credit hour practicum where the building level candidate will practice and implement the course objectives in a real-life setting. Prerequisite: Departmental permission.

EA 673 Creating a Systemic District Learning Culture (4)

This course is designed as a foundational course for aspiring District Level Administrators. The course will provide district leaders information to develop a district vision and to build an environment for a successful district learning culture. Course assignments will help future district administrators learn how to create and sustain a collaborative district vision, how to assess and encourage a healthy learning culture, and how to maintain and support a rigorous and coherent instructional program. The course will include a one-credit hour practicum where the district level candidate will practice and implement the course objectives in a real life setting. Prerequisite: Departmental permission

EA 674 Spec Topics In Ed Admin (1-3)

Topics vary each semester & are announced in advance. May be repeated. Prerequisite: Chair & instructor consent.

EA 675 Creating and Evaluating a Systemic Instructional Program (4)

This course will prepare aspiring district administrators to review, evaluate, and lead revision of curriculum and instruction at a district level, including the differentiation of instruction to meet the needs of all students. District level supports of all students through special education, general education intervention, behavior interventions, and other supports will be addressed. Teacher and principal evaluation models will be explored along with how professional development can improve and enhance teacher and principal performance. The course will include a one-credit hour practicum where the building level candidate will practice and implement the course objectives in a real-life setting. Prerequisite: Departmental permission.

EA 676 District Level Management (4)

This course is one of the four courses required for district level leadership licensure. The course will cover topics regarding the management of a school district, including district finances and budgeting, facility management and maintenance, human resources, and policies for district welfare and safety. The course will include a one-credit hour practicum where the building level candidate will practice and implement the course objectives in a real-life setting. Prerequisite: Departmental permission.

EA 677 Building a Systemic Collaborative District Environment (4)

This course deals with communication with the school district and the greater school community, including parents, community partners, and school board relations. A particular focus on district improvement plans and the involvement of district leadership in this process will be an essential element of this course. The course will include a one-credit hour practicum where the building level candidate will practice and implement the course objectives in a real-life setting. Prerequisite: Departmental permission.

EA 681 Basic Concepts of Educational Administration (3)

Introduction to basic concepts underlying school building administration. Theory and practice of educational administration is analyzed and major concepts of formal organization, motivation, authority, leadership, decision making, conflict in organization, and organizational change are analyzed. Prerequisite: Graduate standing.

EA 683 School Supervision and Staff Development (3)

Improves the instructional competencies of teachers and to help those in supervisor positions develop competencies necessary to help others improve instructional performance. Topics include the characteristics of effective instruction, alternative instructional strategies and alternative supervisory models. Prerequisite: Graduate standing.

EA 684 School Finance & Business Administration (3)

Describes forms of school revenue including ad valorem tax and bonded indebtedness; appropriate school accounting methods according to the Kansas Department of Education; and models for effective business management. Prerequisite: Graduate standing.

EA 686 School Law and Ethics (3)

The legal rights, duties, and responsibilities of school personnel. Specific topics in this course include due process, tort liability, negligence, and contracts. Basic legal relationships between employer, colleagues, pupils, and adults are addressed. A focus is also placed on the basic principles of ethical behavior established by legal and professional organizations, moral and legal consequences of decision making in schools, and the relationship between ethical behavior, school culture, and student achievement. Prerequisite: Graduate Standing

EA 688 Elementary/Middle School Principalship (3)

Role and responsibility of the principal in organizing, administering, and supervising the elementary school. Examines the multifaceted role of the building administrator. Prerequisite: Graduate standing.

EA 689 The Building Leader (3)

The role and responsibility of the school principal in organizing, administering, and supervising the pre-K-12 school. This course examines the multifaceted role of the building administrator. Prerequisite: Graduate standing.

EA 692 School Community Relationships (3)

Development of effective skills in communication, group facilitation, interpersonal relations, climate-building, conflict resolution, and relationships to the publics served. Prerequisites: Graduate standing.

EA 694 Practicum I Educational Administration (3)

Series of structured, field-based experiences in elementary, middle or secondary school to demonstrate competency in such administrative areas as: discipline, scheduling, counseling, financial management, line/staff relationships, professional personnel and other leadership skills. Prerequisite: Permission of instructor.

EA 695 Practicum II in Educational Administration (3)

Supervised field-based experience for the superintendent candidate to demonstrate competencies identified through the NCATE/ELCC categories. Field candidates will demonstrate competency in the area of finance, facilities, human resources, curriculum leadership, and other designated leadership skills. Candidates will develop an experience portfolio to validate job skills. Prerequisite: Building level licensure/certification.

EA 696 Human Resources Management (3)

This course deals with personnel policies and issues in the following areas of human resources: teacher recruitment, orientation, evaluation, promotion, termination, tenure, retirement, and related areas. Included will be an emphasis on adherence to legal aspects of the personnel function as well as dealing with professional organizations. Prerequisite: Building Level Licensure/Certification.

EA 697 School Planning/Facility Management (3)

This course is designed for aspiring school superintendents and central office leaders. This course will prepare school leaders to be proactive in developing educational specifications for school buildings thereby enhancing the educational process. This course includes the planning procedures for new buildings, remodeling and/or retrofitting buildings. Community and school surveys, site selection, design and maintenance and operations of school buildings are also components of the course. Prerequisite: Building Level Licensure/Certification.

EA 698 The District Leader (3)

This course is designed for individuals who wish to become central office administrators. The course emphasizes sound administration of financial, material, and human resources as necessary for optimal realization of the goals of the school district. Effective public school administrators must understand the systems principles and leadership potential which are found in the area of central office administration. Relationships with the board, community, staff, and students are a major focus. Prerequisite: Building Level Licensure/Certification.

ENGINEERING (EG)

EG 103 Physics & Engineering Seminar I (1)

An overview of the fields and practice of physics and engineering. Students will participate in weekly readings and discussions, and complete at least one written piece and at least one presentation. Specific content will change each time the course is offered.

EG 105 Introduction to Engineering (3)

Introduction to the professional role of an engineer with an orientation to the academic requirements of engineering studies, responsibilities of engineering students and professionals, discussion of various engineering careers, job site duties, professional development and registration and engineering ethics. Included are problem definition and solution, engineering design and terminology and the role of technology and its influence on society.

EG 116 Engineering Graphics (3)

Elements of geometry of engineering drawing with emphasis on spatial visualization and applications. Freehand sketching, dimensioning, and graphs. Computer aided design and engineering analysis.

EG 250 Engineering Mechanics: Statics (3)

Vector notation; resultants of force systems; analysis of force systems in equilibrium including beams, frames and trusses; analysis of systems involving friction forces; determination of centroids, centers of gravity, second moments of areas, moments of inertia. Prerequisites: MA 151 and PS 281.

EG 303 Physics & Engineering Seminar II (1)

An overview of the fields and practice of physics and engineering. Students will participate in weekly readings and discussions, and complete at least one written piece and at least one presentation. Specific content will change each time the course is offered. Prerequisite: upper-division standing

EG 320 Engineering for STEM Educators (3)

Designed to introduce concepts and applications of engineering to STEM educators. Course will explore various experimental, analysis, and design situations to develop knowledge about how objects work together to perform a function. Experiments will develop an understanding of basic engineering concepts such as motion, solid mechanics, fluid mechanics, thermodynamics, electricity, and magnetism. Analysis of experiments will provide recognition of experimental variables and their relationships to mathematical equations. Significant emphasis is on conceptual understanding of how mathematics and physics work together to solve engineering problems. This course does not satisfy any engineering prerequisite/requirement outside of the STEM education program. Prerequisite: BI 319 Biology for STEM Educators with a "C" or better; concurrent enrollment in MA 320 Mathematics for Middle School Teachers.

EG 351 Engineering Mechanics: Dynamics (3)

Displacement, velocity, and acceleration of a particle; relation between forces acting on rigid bodies and the changes in motion produced; translation; rotation; motion in a plane; solutions using the principles of force, mass and acceleration, work and energy, and impulse and momentum. Prerequisites: EG 250 and MA 152.

EG 360 Mechanics of Materials (3)

Elementary theories of stress and strain, behavior of materials, and applications of these theories and their generalizations to the study of stress distribution, deformation, and instability in the simple structural forms that occur most frequently in engineering practice. Prerequisites: EG 250 and MA 253.

ENGLISH (EN)

EN 100 Developmental English (3)

Small classes and individual attention, focusing on developing the basic habits of good writing through short writings and culminating in the writing of organized and developed themes. Does not count towards degree credit hour requirements or general education requirements.

EN 101 Introductory College Writing (3)

Introduction to writing at the college level with a focus on developing flexibility and skill as a writer. Analysis of texts and arguments in preparation for creating a variety of essays that include personal, analytical, and argumentative writing. Special attention given to the processes of drafting, revision, and reflection. Instruction in and practice of writing conventions such as grammar, mechanics, and citations. Required, with a minimum grade of C, for graduation. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: English
- USLO: Communication

EN 102 Freshman English Honors (3)

The analysis of texts that purport to gather facts, to structure experience into pleasing formal structures, to persuade others to action, judgment, or evaluation, and to articulate principles whose power shapes diverse experiences into meaningful patterns of coherence. The writing of expository prose that communicates thoughtfully and clearly the results of those analyses. Open to those students accepted into the University Honors Program and by invitation from the Composition staff.

EN 103 Academic Reading & Research (3)

This course provides training and practice in academic reading, writing, and research for students who desire more focused instruction in using academic texts, including syllabi, rubrics, textbooks, and articles. There will be instruction and practice in different methods of reading and responding to texts in writing and orally. Students will read a variety of texts, including a book-length text, and will create a culminating project which synthesizes their course reading with personal research. Students who complete the course will be more confident and competent in their interactions with college-level texts. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

EN 105 Introduction to English Studies (3)

This course provides a firm grounding in English as an academic discipline, covering a variety of concepts and approaches critical to English studies. The course will emphasize building students' critical and creative vocabulary, knowledge, and skills in order to foster future success both in English coursework and in their academic careers more generally. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 110 Multicultural American Literature (3)

A study of literature written by, and expressing the perspectives of, authors from diverse ethnic, racial, and cultural groups in the United States, including but not limited to Native Americans, African Americans, Asian Americans, and Latino/a Americans, as well as multiracial, multicultural, and other culturally diverse Americans. Course readings include poetry, drama, fiction, and autobiographical non-fiction.

Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

EN 112 Masterpieces of American Literature (3)

Focuses on celebrated and influential works of fiction, drama, and poetry by American authors from the late eighteenth through the early twenty-first centuries. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 116 Mystery Literature (3)

Mystery fiction, still a popular form of literature today, is a longstanding genre that has been evolving for the last two centuries. The course will examine some of the most important mystery writers of the 19th and 20th centuries. The mystery genre has taken several forms over the years, in large part due to the social history and culture of a particular time period. Over time the mystery genre has shifted from "the novel with a secret" to more complicated examinations of character, an emphasis on psychology over plot, and further explorations of both setting and theme. Many of the novels read are written by authors who became well-known in the mystery genre for developing a certain literary type, technique, or situation that other writers would continue to explore in the years that followed. The course will explore several prominent themes in this type of fiction, in particular the propensity for violence, murder, crime, and the appeal of other taboo subjects. The role of the reader is also critical to the genre as the shadow figure who in part determines which secrets are revealed or disguised, how the characters are developed for a connection to or isolation from the reader, and how the drama itself is written expressly for readers seeking the "thrill" of the mystery. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 131 Understanding Short Fiction (3)

This course provides an introduction to reading and analyzing short fiction, with a particular emphasis upon the short story. Readings will include works of short fiction from a range of historical and cultural contexts and will represent a variety of genres. Students will develop a critical vocabulary and analytical skills to foster better understanding of and appreciation for short fiction as a literary form.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

EN 133 Stories Around the World (3)

Focuses on modern and contemporary fiction by European, Latin American, Asian, Middle Eastern, and African authors.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

EN 135 Introduction to Literature (3)

The appreciation of literature showing relationships through analysis of different genres.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 138 Kansas Literature (3)

A study of Kansas through its poetry, short stories, novels, and journalism. Lectures on Kansas history provide background as an aid to better understanding the literature. A study of the literature of pioneering, the small town, and contemporary accounts of Kansas, its land and people.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 177 Science Fiction (3)

Selected novels and short stories depicting innovations and discoveries in science and their impact on people, society, and the universe.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 178 Fantasy (3)

Selected novels and short stories depicting fictive worlds that contemporary knowledge considers impossible.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 190 Film Appreciation (3)

Film as a mode of artistic expression with emphasis on selected films, short and feature-length, American and foreign, for understanding and appreciation. Stress will be given to the development of a "vocabulary" with which to discuss, criticize, and otherwise enjoy film art. May be repeated with a change of content.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 192 Literature & Film (3)

A study of literary texts and their adaptations into the medium of film, with emphasis on the comparative strengths and weaknesses of each version. Stress will be given to the critical vocabulary shared by these narrative forms.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 193 Types of Popular Culture (3)

Examination of subjects and themes in popular literature, with focus on the relationship between popular genres and the traditional canon. May be repeated with change of content.

EN 199 Special Topics - Writing/Reading (1-3)

A variable topic course in selected subjects in literature and language. See schedule for current offerings.

EN 200 Intermediate College Writing (3)

This class builds on writing process skills developed in EN 101, including drafting, revising, and reflecting with additional emphasis on developing and supporting an academic argument, analyzing and synthesizing sources, and making choices appropriate for a variety of rhetorical situations encountered in college-level writing. #Required, with a minimum grade of C, for graduation. Prerequisites: EN 101

Course Attributes:

- Gen Ed AY 2024-2025: English
- USLO: Communication

EN 206 Beginning Poetry Writing (3)

An introduction to and practice in the writing of poetry. Prerequisite: EN 101 or EN 102.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

EN 207 Beginning Nonfiction Writing (3)

An introduction to and practice in the writing of memoir, narrative essays, New Journalism, travel writing and other nonfiction forms. Prerequisite: EN 101 or EN 102.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

EN 208 Professional Writing (3)

A review of the basic essentials of business/technical usage and style, with emphasis on organizing ideas and managing basic business and technical writing forms. Prerequisite: EN 101 or EN 102.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

EN 209 Beginning Fiction Writing (3)

An introduction to and practice in the writing of the short story.

Prerequisite: EN 101 or EN 102.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

EN 210 Mythologies in Literature (3)

A study of mythologies that have been a reference point for literature, focusing mainly on Greek and Roman materials, but drawing upon others such as Norse, Celtic, Gaelic, and Eastern. Readings will include both literary works and supplemental texts.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 212 Sexuality & Literature (3)

Examines the various roles that sexuality, which includes categories such as intimacy, sex, gender, and sexual orientation, has played in literature and film.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 214 Women & Literature (3)

This course surveys literature by women from the medieval to the contemporary periods. Particular attention is given to recurring themes and issues addressed by women writers, as well as how the intersection of gender with factors like class, race, and ethnicity impacts women's experiences and their literary representation. Readings consist of representative works of fiction, poetry, drama, and select nonfiction by women of diverse backgrounds.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 240 Introduction to Film Studies (3)

This course provides students with an introduction to the elements, techniques, and vocabulary critical to the study of film as a medium. The course will emphasize building students' critical vocabulary, knowledge, and skills through the discussion of numerous films from various genres and historical periods. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 300 Advanced College Writing (3)

Intensive writing and revision practice designed to help students develop skills needed to write successful analyses and arguments in their academic disciplines and their careers. Focus on critical thinking about how writing works in various appropriate contexts and on advanced research writing. Some sections for specific academic programs. Required, with a minimum grade of C, for graduation.

EN 301 Literary Criticism & Theory (3)

Practical criticism and writing, stressing the types and methods of critical approaches to literature, ancient and modern, and their application in the interpretation of literary works. Students taking the course for graduate credit will write a substantial additional paper focusing on one aspect of the relationship between critical theory and an individual work or author. Prerequisites: EN 101 or EN 102 and EN 300. For EN 601, admission to MLS program or consent.

EN 305 Advanced Fiction Writing (3)

Continued practice in fiction writing with special emphasis on technique. Students taking EN 605 will, in addition to the short stories due as work for 305, revise and edit their stories and write an introduction that shows how their practice of craft has been shaped by their experience in the course. Prerequisite: EN 209 or consent. For EN 605, admission to MLS program or consent.

EN 306 Advanced Poetry Writing (3)

Continued practice in poetry writing with special emphasis on technique. Students taking EN 606 will be required to select at least five of the poems due as work for 306 and write an introduction to those five that shows how their practice of craft has been shaped by their experience in the course. Prerequisite: EN 206 or consent. For EN 606, admission to MLS program or consent.

EN 307 Advanced Nonfiction Writing (3)

Continued practice in the writing of creative nonfiction, including but not limited to personal essay, memoir, literary journalism, travel and science writing. Students taking EN 607 will develop writing projects of considerable length and/or research depth. Prerequisite: EN 207 or consent. For EN 607, admission to the MLS program or consent.

EN 308 Scientific and Technical Writing (3)

This writing course provides students with intensive practice organizing, developing, writing, and revising various scientific and technical documents (e.g., technical reports, proposals, process analyses, procedure/instruction manuals, etc.). Emphasizes strategies for analyzing and adapting content to various audiences and purposes. Includes individual and collaborative writing practice. Prerequisite: EN 101

EN 309 ESL Methods & Cross-Cultural Communication (3)

Designed for those who work with non-English speakers. Special emphasis on improving intercultural understanding, on the interaction of language and culture, and on language learning and language teaching. Not regularly offered.

EN 310 English Grammar/Linguistics (3)

Description and analysis of English grammar, its smallest parts up through how those parts are expressed as meaningful discourse. Instruction in how to understand and discuss the English language effectively. Studies the dynamics (formal, historical, social) of language as a particularly human form of communication. Investigates what language is and how it works, how language changes and varies over time and place, and how language is used in social contexts. Students will learn major linguistic categories of phonology (sounds), morphology (words), syntax (sentences), and semantics (meaning), and ask questions about rules and standards of usage, as well as issues of style and politics as they pertain to English language use. Graduate students must write a substantial paper developing in greater detail one of the topics covered in the course. Prerequisite for EN 610: admission to MLS program or consent.

EN 312 Theories of Persuasive Writing (3)

Study of theories about how people use language/writing persuasively to shape knowledge and opinion. The course focuses on selected theoretical readings from the history of mainstream and marginalized rhetorics. The course will build students' understanding of rhetorical theory and their skill in using it to analyze persuasive writing in their areas of interest. Prerequisites: EN 101, First-Year College Writing. Completion of EN 300, Advanced College Writing, or simultaneous enrollment strongly recommended.

EN 315 Reading as Writers (3)

Practice in the study of literature from a writer's perspective, primarily exploring the elements of craft involved in creating literary art (point of view, voice, style, prosody, figurative language, diction, syntax). Through critical analysis, aesthetic investigation, and imitation, students will discover the various tools writers employ to create meaning. Students taking EN 615 will be expected to write a paper of 20 pages analyzing the elements of craft involved in one or more essays by a non-fiction writer chosen in consultation with the professor. Prerequisite for EN 615: admission to MLS program or consent.

EN 320 Teaching Young Adult Literature (3)

This course provides pre-service teachers intensive instruction in ways to teach young adult literature at the middle school and high school levels, including a focus on reading strategies, response strategies, reading engagement and motivational strategies, discussion strategies, lesson design, and instruction. Attention will also be given to the content and history of young adult literature, the diversity inherent in the genre, and censorship and selection of young adult literature. Prerequisite: None.

EN 321 Teaching Composition (3)

Students will conduct, review, analyze, and discuss the teaching of composition, applying the best research-based strategies for elementary- and secondary-level learners from diverse perspectives. Pre-service teachers of literacy will explore writing as a process and develop instructional practices that will increase their students' writing abilities across the curriculum. Students will also reflect on their learning as they study and practice instructional methods in microteaching opportunities. The course will emphasize the writing process, purposes of writing, grammar and conventions, response groups, multigenre writing, research writing, technology resources, struggling writer strategies, instructional practice and design strategies, and assessment and evaluation techniques. Prerequisites: EN 300.

EN 325 British Lit through 1785 (3)

Covers major literary movements, major authors, and the careful reading of masterpieces through 1785. Students in 625 will write a substantial paper, including scholarship, on selected works of a single author from the Middle Ages, Renaissance, or 18th Century on a topic chosen in consultation with the professor. Prerequisite for EN 625: admission to MLS program or consent.

EN 326 British Literature since 1785 (3)

This course examines the major literary movements in Britain from the Romantic period to the present in relation to their historical and cultural contexts. This class also surveys how the genres of poetry, the novel, the short story, and drama emerge and evolve through the late eighteenth to the early twenty-first centuries. Students in EN 626 will write an extended research paper on a topic chosen in consultation with the instructor. Prerequisite for EN 626: admission to MLS program or consent.

EN 330 American Literature through 1865 (3)

The course provides a survey of early American literature from pre-Columbian legends through the end of the Civil War. Graduate students will be required to investigate in depth one of the following areas: colonial literature, early national literature, or the literature of the American Renaissance. Prerequisite for EN 630: admission to MLS program or consent.

EN 331 American Literature since 1865 (3)

The course provides a survey of American literature from the Civil War to the present in historical and generic contexts. It stresses close readings of individual texts of fiction, poetry, and drama. Graduate students will select one major author and examine his/her treatment in literary criticism during last fifty years. Prerequisite for EN 631: admission to MLS program or consent.

EN 332 Literature of American West (3)

Focuses on the fiction, but also includes the autobiographies, poetry, and/or essays, of authors shaped by the landscape, diverse peoples, and values of the American west.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

EN 336 Contemporary Theatre (3)

A study of developments in playwriting, directing, acting since WWI to the present with special emphasis on influences that have affected contemporary theatre and drama. Graduate students must prepare an oral report on an assigned work of literary (or dramatic) criticism and must write a research paper of 15-20 pages with full scholarly apparatus. Cross listed with TH 306. Cannot enroll for credit in both EN 336 and TH 306. Prerequisite for EN 636: admission to MLS program or consent. Not regularly offered.

EN 337 Short Story (3)

This course provides an introduction to the history and characteristics of the short story as a literary form. Students will read representative works of short fiction from a variety of cultural and historical contexts in order to better understand how writers have adapted the short story form to represent the diverse range of human experience.

EN 345 Shakespeare (3)

Students read, discuss, and write on some of Shakespeare's poetry and a selection from the Comedies, Tragedies, and Histories. Consideration of historical and cultural contexts of the plays, as well as their performance history, will help us appreciate both the works and the culture which inspired them. Graduate students will conduct primary research on topics of their choosing. Prerequisite for EN 645: admission to MLS program or consent.

EN 350 Major Authors (3)

The advanced study of a major literary author or two authors. Special attention will be paid to the evolution of an author's writing style within the historical and cultural framework in which he or she was writing. May be repeated with change of content. Prerequisite: None.

EN 360 World Literature through 1650 (3)

This course focuses on close readings of masterpieces in world literature to 1650 in relation to their historical and cultural contexts. Attention is given to authors and genres of central importance, and how emerging themes evolve over the centuries. Prerequisite: None.

EN 361 World Literature since 1650 (3)

This course focuses on close readings of masterpieces in world literature from 1650 to the present in relation to their historical and cultural contexts. Attention is given to authors and genres of central importance, and how emerging themes evolve. Prerequisite: None.

EN 370 Medieval Literature (3)

A survey of English literature in the Middle Ages with special emphasis on the works of Chaucer. Special attention to the contextual relationship of literature and the thought and culture of the period. Prerequisite for EN 670: admission to MLS program or consent.

EN 371 Renaissance Literature (3)

A survey of the literature written from 1475 to 1660, focusing on major poets and dramatists, such as Spenser, Shakespeare, Jonson, Donne, and Milton, but also lesser-known writers such as the Countess of Pembroke and Aemilia Lanyer. Special attention to the contextual relationship of literature and the thought and culture of the period. Graduate students will additionally write a substantial research paper on a topic of their choosing. The course also requires two class presentations on selected writers of the period, drawing on current scholarly criticism. Prerequisite for EN 671: admission to MLS program or consent.

EN 372 Restoration & 18th Century Literature (3)

A survey of the principal genres and major authors of literature written between 1660 and 1800. The course may emphasize a certain genre such as the novel or satire, or an individual author such as Jonathan Swift, Aphra Behn, Samuel Johnson, Henry Fielding, or Fanny Burney. Special attention to the contextual relationship of literature and the thought and culture of the period. Graduate students must present an oral report on an assigned work of literary (or dramatic) criticism and must additionally write a substantial research paper with full scholarly apparatus. Prerequisite for EN 672: admission to MLS program or consent.

EN 373 Romantic & Victorian Literature (3)

Readings in Romantic and Victorian literature. The course begins with Wordsworth's expressions of religion in nature, working through selections from the other major Romantics, and concludes with the prophetic and public solutions to the problems of industrial England offered by Carlyle, Tennyson, Ruskin, and Arnold. Special attention to the contextual relationship of literature and the thought and culture of the period. Graduate students must present an oral report on an assigned work and must additionally write a substantial research paper with full scholarly apparatus. Prerequisite for EN 673: admission to MLS program or consent.

EN 374 Modern Literature (3)

Readings will cover the expressions of Modernism in all the major creative arts with primary focus on the reading and analysis of selected "modernist" literary writers from the genres of fiction, poetry, and drama. Some attention to defining the concept and historical parameters of "modernist". Prerequisite for EN 674: admission to MLS program or consent.

EN 375 Contemporary Literature (3)

Readings in the literary milieu from 1960 to the present in poetry, short fiction, and the novel with attention to the cultural, social, and historical context of individual works and their authors. Graduate students will additionally write a substantial paper, including contemporary scholarship, examining one author, theme, or movement from this period. Prerequisite for EN 675: admission to MLS program or consent.

EN 376 Nineteenth Century American Literature (3)

Readings in nineteenth century American literature from the rise of literary nationalism through the Gilded Age, with special focus on the major literary movements of the period. Graduate students must write a research paper of 15-20 pages with full scholarly apparatus. Prerequisite: None.

EN 380 Modern Poetry (3)

Major British and American poets from about 1890 to 1945, including Yeats, Eliot, and Frost. Prerequisites: None.

EN 381 Drama (3)

A study of drama as a literary form. Students will read representative works of drama from a variety of contexts. Graduate students will complete additional assignments appropriate to the post-baccalaureate level. Prerequisite for EN 681: admission to MLS program or consent.

EN 382 Modern Novel (3)

This course will examine the novel as a literary form, paying particular attention to the origins and development of the genre from the 18th century through to the contemporary period. Graduate students will complete additional writing and research in consultation with the professor. Prerequisite for EN 682: admission to MLS program or consent.

EN 384 Publishing Lab (3)

Students gather, evaluate and edit creative manuscripts to produce and publish a literary magazine. Prerequisite: EN 305, EN 306, or EN 307.

EN 385 Directed Reading/Writing/Research (1-3)

Designed to investigate a field of special interest which will not be covered in detail in the courses offered by the department. After securing the approval of the chairperson of the department and the consent of a member of the department who is prepared to supervise their reading, students will carry out their projects with the supervising teacher. Prerequisite: consent of instructor.

EN 390 Aspects of Film (2-3)

Variable specified content in film, such as the American novel into film, the science fiction film, western novels in film. May be repeated with change of content.

EN 393 Literature of Pop Culture (3)

The study of such individual literary topics as the western, detective fiction, sports literature, and prizewinning novels. Students taking this course as 693 will write a substantial paper, including scholarly research, examining one author, theme, or movement in the genre under consideration. The topic will be chosen in consultation with the instructor. May be repeated with change of content. Prerequisite for EN 693: admission to MLS program or consent.

EN 396 Topics in Women & Literature (3)

An advanced study of the works of a major woman author, the women writers of a particular period or in a particular genre, or a thematic study of women writers. Not regularly offered. Prerequisite: 3 hours of one of the following: EN 330, EN 331, EN 360, or EN 361. For EN 696: admission to MLS program or consent.

EN 399 Special Topics - Writing/Reading (1-3)

See schedule for the current offerings.

EN 400 Senior Thesis (3)

Capstone experience for the EN degree in the literature and film criticism emphasis. Working independently under the supervision of an assigned faculty member, students conduct research culminating in the writing of a substantial paper and a presentation of their research in a departmental or public forum. Prerequisites: Senior standing in the literature and film criticism emphasis and chair approval.

EN 402 Internship (1-3)

Applicants should be majors and minors who have second semester junior or senior status, and the approval of their academic advisor and the internship coordinator. Interns will be supervised by the internship coordinator and a workplace supervisor(s). Prerequisites: 15 hrs. of English courses completed, including EN 105, EN 300, and 9 hours at the 300 level, as well as a 3.0 GPA in English coursework.

EN 499 Special Topics - Teaching and Study of English (1-3)

Special topics of a varying nature for teachers doing in-service work, for graduate students in education and English education, and upper-division English majors. Not regularly offered.

EN 601 Literary Criticism and Theory (3)

Practical criticism and writing, stressing the types and methods of critical approaches to literature, ancient and modern, and their application in the interpretation of literary works. Prerequisites: EN 101, or EN 102, or EN 300 or equivalent and admission to the MLS program or consent.

EN 605 Advanced Fiction Writing (3)

Continued practice in fiction writing with special emphasis on technique. Additional requirement: Students taking EN 605 will, in addition to the 8 short stories due as work for EN 305, revise and edit 3 of their stories and write an introduction to those three that shows how their practice of craft has been shaped by their experience in the course. Prerequisites: EN 209 and admission to the MLS program or consent.

EN 606 Advanced Poetry Writing (3)

Continued practice in poetry writing with special emphasis on technique. Additional requirement: Students taking EN 606 will be required to select at least five of the poems due as work for EN 306 and write an introduction to those five that shows how their practice of craft has been shaped by their experience in the course. Prerequisites: EN 206 and admission to the MLS program or consent.

EN 607 Creative Writing, Nonfiction (3)

Continued practice in the writing of creative nonfiction, including but not limited to personal essay, memoir, literary journalism, travel and science writing. Students taking EN 607 will develop writing projects of considerable length and/or research depth. Prerequisites: EN 207 or consent. For EN 607, admission to the MLS program or consent.

EN 610 English Grammar/Linguistics (3)

Surveys different points of view about language, including traditional grammar and an introduction to transformational grammar. Topics include: phonology, morphology, history of the language, psycholinguistics, language acquisition, dialects, syntax and sentence combining, and their implications for language learning at all levels. Graduate students must write a 12-page paper developing in great detail one of the topics covered in class. Prerequisites: Admission to the MLS program and consent.

EN 615 Reading as Writers (3)

Practice in the study of literature from a writer's perspective, primarily exploring the elements of craft involved in creating literary art (point of view, voice, style, prosody, and figurative language, diction, syntax). Through critical analysis, aesthetic investigation and imitation, students will discover the various tools writers employ to create meaning. Additional requirements: Students taking EN 615 will be expected to write a paper of 20 pages analyzing the elements of craft involved in one or more essays by a nonfiction writer chosen in consultation with the professor. Prerequisites: Admission to the MLS program or consent.

EN 620 Teaching Young Adult Lit (3)

This course provides pre-service teachers intensive instruction in ways to teach young adult literature at the middle school and high school levels, including a focus on reading strategies, response strategies, reading engagement and motivational strategies, discussion strategies, lesson design, and instruction. Attention will also be given to the content and history of young adult literature, the diversity inherent in the genre, and censorship and selection of young adult literature. Prerequisite: Admission to the MLS program or consent.

EN 625 Survey of English Literature I (3)

Major literary movements, major authors, and the careful reading of masterpieces through the mid-eighteenth century. Special attention to the history of the English language as a literary medium. Additional requirements: students in EN 625 will write a fifteen-page paper on selected works of a single author from the middle ages, renaissance, or 18th century. The specific topic must be approved by the professor. Prerequisite: Admission to the MLS program or consent.

EN 626 English Literature II (3)

Major literary movements, major authors, and careful reading of masterpieces from the romantic period to the present. Additional requirements: Students in EN 626 will write a fifteen-page paper, including scholarship, on selected works of a single author from the period. The specific topic will be arranged in consultation with the instructor. Prerequisites: Admission to the MLS program or consent.

EN 630 American Literature I (3)

Survey of early American literature, from pre-Columbian legends through literature of 1850s. Graduate students are required to investigate in-depth one of the following areas: colonial, early national, or American Renaissance literature. Prerequisites: Admission to the MLS program or consent of instructor.

EN 631 American Literature II (3)

Survey of American literature from Civil War to present in historical and generic contexts. Stresses close readings of individual texts of fiction, poetry, and drama. Graduate students select one major author and examine their treatment in literary criticism during last fifty years. Prerequisite: Admission to MLS program and consent of instructor.

EN 636 Contemporary Theater (3)

A study of developments in playwriting, directing, and acting from WWI to the present with special emphasis on influences that have affected contemporary theater and drama. Additional requirements: Students must present an oral report on an assigned work of literary (or dramatic) criticism and must write a research paper of 15-20 pages with full scholarly apparatus. Prerequisites: Admission to the MLS program or consent.

EN 645 Shakespeare (3)

Students read, discuss, and write on some of Shakespeare's poetry and a selection from Comedies, Tragedies, and Histories. Consideration of historical and cultural context of the plays, as well as their performance history, to help appreciate the works and the culture which inspired them. Graduate students conduct primary research on topics of their choosing. Prerequisites: Admission to the MLS program and consent of instructor.

EN 660 World Literature I (3)

Readings in the great works of world literature in translation (from Europe, Asia, Latin America, Africa) from ancient times to 1600. Additional requirements: Students will write a paper of substantial length explaining how knowledge of some aspect of world culture helps in the understanding of a work discussed in class. Scholarly references must be included. Prerequisites: Admission to the MLS program or consent.

EN 661 World Literature II (3)

Readings in the great works of world literature in translation from 1600 to the present. Additional requirements: Students will write a paper of substantial length explaining how knowledge of some aspect of world culture helps in the understanding of a work discussed in class. Scholarly references must be included. Prerequisites: Admission to the MLS program or consent.

EN 670 Medieval Literature (3)

Survey of English literature in the Middle Ages. Emphasis on the works of Chaucer. Includes the contextual relationship of literature and the thought and culture of the period. Prerequisite: Admission to the MLS program or consent.

EN 671 Renaissance Literature (3)

A survey of the literature written from 1475 to 1660, focusing on major poets and dramatists, such as Spenser, Shakespeare, Jonson, Donne, and Milton, but also lesser-known writers such as the Countess of Pembroke and Aemilia Lanyer. Special attention to the contextual relationship of literature and the thought and culture of the period. Additional requirements: Graduate students will write one short analytical paper and a longer (15-20 pages) research paper on a topic of their choosing. The course also requires two class presentations on selected writers of the period, drawing out current scholarly criticism. Prerequisite for EN 671: Admission to the MLS program or consent.

EN 672 Restoration and Eighteenth-Century Literature (3)

A survey of the principal genres and major authors of literature written between 1660 and 1800. The course may emphasize a certain genre such as the novel or satire, or an individual author such as Jonathan Swift, Aphra Behn, Samuel Johnson, Henry Fielding, or Fanny Berney. Special attention to the contextual relationship of literature and the thought and culture of the period. Graduate students must present an oral report on an assigned work of literary (or dramatic) criticism and must write a research paper of the 15-20 pages with full scholarly apparatus. Prerequisites: Admission to the MLS program or consent.

EN 673 Romantic/Victorian Literature (3)

Readings in Romantic and Victorian literature. The course begins with Wordsworth's expressions of religion and nature, working through selections from the other major Romantics, and concludes with the prophetic and public solutions to the problems of industrial English offered by Carlyle, Tennyson, Ruskin, and Arnold. Special attention to the contextual relationship of literature and the thought and culture of the period. Additional requirements: Students must present an oral report on an assigned work and must write a research paper of 15-20 pages with full scholarly apparatus. Prerequisites: Admission to the MLS program or consent.

EN 674 Modern Literature (3)

Readings will cover the expressions of Modernism in all the major creative arts with primary focus on the reading and analysis of selected "modernist" literary writers from the genres of fiction, poetry, and drama. Some attention to defining the concept and historical parameters "Modernists". Prerequisites: Admission to the MLS program or consent.

EN 675 Contemporary Literature (3)

Readings in the literary milieu from 1960 to the present in poetry, short fiction, and the novel with attention paid to the cultural, social, and historical context of individual works and their authors. Additional requirements: Students will write a 20-page paper, including contemporary scholarship, examining one author, theme, or movement studied in the class. Prerequisites: Admission to the MLS program or consent.

EN 680 Modern Poetry (3)

Major British and American poets from about 1890 to 1945, including Yeats, Eliot, and Frost. Graduate students will write a paper of approximately 20 pages, including critical apparatus, examining one author, theme, or movement from this period. Prerequisites: Admission to the MLS program or consent.

EN 681 Drama (3)

The study of drama as a literary form. Additional requirements: Students will write a paper of 15-20 pages, including scholarly apparatus, examining one author, theme, movement, or context for dramatic literature. Prerequisites: Admission to the MLS program or consent.

EN 682 Modern Novel (3)

A survey of the art and vision of the novel as a modern expression of world literature. Special attention to the contribution of non-western literature to the development of the narrative form. Additional requirements: Students will write a paper of 15-20 pages, including scholarly apparatus, examining a novel or novels from this period, the work to be chosen in consultation with the professor. Prerequisites: Admission to the MLS program or consent.

EN 685 Directed Reading, Writing, Research (1-3)

Designed to investigate a field of special interest which will not be covered in detail in the courses offered in the department. After securing the approval of the chairperson of the department and the consent of a member of the department who is prepared to supervise their reading, students will carry out their projects with the supervising teacher. Prerequisite: Admission to the MLS program and consent of instructor.

EN 693 Literature of Popular Culture (3)

Study of such individual literary works as the western, detective fiction, sports literature, and prize-winning novels. May be repeated with change of content. Additional requirements: Students will write a paper of approximately 20 pages, including scholarly research, examining one author, theme, or movement in the genre under consideration. The topic will be chosen in consultation with the instructor. Prerequisites: Admission to the MLS program or consent.

EN 699 Spec Topics: Writing/Research (1-3)

A variable topic graduate-level course in selected subjects in literature and language. Prerequisites: Consent of instructor.

FOREIGN LANGUAGE (FL)

FL 100 Specified Topics (2-4)

Custom designed curriculum for elementary-level training in foreign language.

FL 101 Beginning Foreign Language I (4)

Introduction to conversation, reading, grammar and composition in foreign languages not regularly offered. Development of aural/oral skills and emphasis on contemporary culture and social customs of the language area.

FL 102 Beginning Foreign Language II (4)

Continuation of FL 101. Prerequisite: FL 101 or consent of instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

FL 190 Study Abroad in a Non-Program Language (1-12)

Students who are planning to study abroad in a country whose language is not offered in a Washburn University program must use this course to transfer their credits.

FL 200 Specified Topics/Foreign Language (3)

Continuation in the specified topic of FL 100. Prerequisite: FL 100.

FL 201 Intermediate Foreign Language I (3)

This course is intended as reinforcement of the 5 skills learned in FL 102: speaking, listening, reading, writing, and culture. This course is the continuation of FL 102.

Course Attribute: Gen Ed AY 2024-2025: Arts and Humanities

FL 202 Intermediate Foreign Language II (3)

This course is the continuation of FL 201.

Course Attribute: Gen Ed AY 2024-2025: Arts and Humanities

FL 207 Conversation (3)

Vocabulary expansion, stressing everyday practical usage. Development of oral/aural skills on cross-cultural topics. Stress on tradition and current political/social developments. May be repeated for credit when the language studied is different. Prerequisite: Consent of Instructor.

FL 209 Reading & Conversation (3)

Development of oral/aural proficiency through the reading of short literary works as a basis for discussion. Comparison between materials read and life patterns in order to understand a different cultural heritage. May be repeated for credit when the language studied is different.

Prerequisite: FL 207

FL 290 Study Abroad in a Non-Program Language (1-12)

Students who are planning to study abroad in a country whose language is not offered in a Washburn University program must use this course to transfer their credits back. Prerequisite: 1st year of college level coursework in the target language.

FL 399 Spec. Tpcs in Frgn Lit/Clt (3)

FL399 Special Topics in Foreign Literature or culture: Study of individual authors, literary and/or cultural topics. May be repeated. Prerequisite: Consent of instructor.

FRENCH (FR)

FR 101 Beginning French I (4)

Introduction to conversation, reading, grammar, and composition. Development of oral/aural skills. Particular emphasis on contemporary culture and social customs in the French-speaking countries. An audiovisual program to develop phonological skills is a component of this course. Offered fall semester only. No prerequisite.

FR 102 Beginning French II (4)

Continuation of French 101. Offered spring semester only. Prerequisite: FR 101 or two years of high school French, or consent of instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

FR 201 Intermediate French I (3)

This course is intended as reinforcement of the 5 skills learned in FR 102: speaking, listening, reading, writing and culture. Offered fall semester only. Prerequisite: FR 102 or 3 years of high school French with B or better.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

FR 202 Intermediate French II (3)

This course is the continuation of FR 201. Offered spring semester only. Prerequisite: FR 201 or consent of the instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

FR 207 French Conversation (3)

Vocabulary expansion, stressing everyday practical usage. Development of oral/aural skills in conversations on cross-cultural topics. Stress on traditions and current political/social developments in French-speaking countries. Use of magazines, newspapers, and other topical materials as basis for conversation. Prerequisite: FR 202 or three years of high school French, or consent of instructor.

FR 274 Independent Study (1-3)

Directed study. May be repeated. Prerequisite: Consent of instructor.

FR 290 Study Abroad French Speaking Country (1-15)

Students who are planning to study in a French speaking country should enroll under this number after consultation with their major advisor. Prerequisite: 1st year university-level French (FR 101/FR 102) or equivalent.

FR 295 Faculty Led Program French Speaking Country (1-6)

Students who plan to study French in a French speaking country in a program led by a faculty member at Washburn should enroll in this class. Prerequisite: Consent of Faculty Group Leader.

FR 307 Contemporary French Civilization (3)

This course is an introduction to contemporary France. We will study France through its regions, its politics, and its relations with Europe and the United States. We will look at the different institutions that participate in the construction of identities in France, as well as moments when individuals or groups "disidentify" with the nation. THIS COURSE IS TAUGHT IN ENGLISH. French majors may enroll in this course and use it as an elective if they do not have FR 308 and FR 309.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

FR 308 French Literature in Translation (3)

This course introduces students to some of the most important French speaking thinkers (writers, poets, and film directors). An emphasis on historical and cultural context will provide students with a better understanding of literary texts and culture. Each course is organized around one theme or question subject to change. Students will enhance their skill of analyzing narrative [literature, films] and gain an understanding of historical and cultural aspects in the modern French-speaking world. Students will work on producing good academic prose, clear and concise essays on novels, plays, poems, films and/or theoretical works studied in class. Selected films in French will be shown with English subtitles. Class will be conducted in English and it is only valid for the major in the language as a correlated course. Prerequisite: Sophomore Standing or Consent of Instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

FR 309 French Fiction and Films (3)

This class is taught in English and is intended for students who have an interest in French literature and French cinema. This course will include films which are adopted from novels or short stories and students will examine the influence of literature on films. The texts will be translated from the French and the films will be subtitled. No knowledge of French is necessary. French majors may enroll in this course and use it as an elective if they do not have FR 307 and FR 308.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

FR 311 French Grammar Review (3)

Comprehensive review of French Grammar with emphasis on the development of free composition. Stress on grammatical accuracy, clarity, and the appropriate use of idioms and syntax. Offered fall semester only. Prerequisite: FR 202 or consent of the instructor.

FR 312 French Composition (3)

Development of grammatical accuracy and proficiency in composition. Use of readings to illustrate grammatical points and form the basis for composition and discussion. Offered spring semester only. Prerequisite: FR 311 or consent of the instructor.

FR 315 Translation (3)

French-English and English-French translation of a variety of texts. Focus on techniques of translation and improving French grammar, syntax and idioms. Prerequisite: FR 312 or consent of instructor.

FR 324 French Civilization (3)

A systematic study of France from its beginning to the present from a historical and social perspective. Prerequisite: FR 312 or consent of instructor

FR 326 La France Contemporaine (3)

Readings from contemporary sources, including magazines and newspapers for discussion and composition. Prerequisite: FR 312 or consent of instructor.

FR 331 Introduction to French Literature (3)

Analysis of selected texts from various genres, poetry, theatre and novels. Emphasis on Explication de textes. Prerequisite: FR 312 or consent of instructor.

FR 351 French and Francophone Literature (3)

FR 351 introduces students to a sampling of chefs-d'oeuvre of literature from France and the Francophone world. In this survey course, we study French literature from its beginnings as a Romance language and its development during the Middle Ages up to the present. We analyze selected texts of canonical literature from various genres, including poetry, plays, novels, and short stories. Some of the texts will be read in their entirety, some in excerpts. We will study these literary texts in relation to literary, social, political, and economic trends and the historical changes that shape these trends. Prerequisite: FR 312 or consent of instructor.

FR 374 Independent Study (1-3)

Directed study. May be repeated. Prerequisite: Consent of instructor.

FR 390 Study Abroad French Speaking Country (1-15)

Students who are planning to study in a French speaking country should enroll under this number after consultation with their major advisor. Prerequisite: 2nd year university-level French (FR 201/FR 202) or equivalent.

FR 395 Faculty Led Program French Speaking Country (1-6)

Students who plan to study French in a French speaking country in a program led by a faculty member at Washburn should enroll in this class. Prerequisite: Consent of Faculty Group Leader.

FR 399 Special Topics/French (3)

Study of individual authors or literary topics. May be repeated. See chairperson and/or schedule for current offerings. Prerequisite: Consent of instructor.

FR 400 Senior Thesis (3-6)

A major research project culminating in a thesis which deals with a literary topic, or other topics as approved by the thesis director. May be presented to the departmental faculty for consideration for departmental honors. Prerequisite: Senior standing.

FR 674 Independent Study (3)

Directed study. May be repeated. Prerequisites: Admission to the MLS program and consent of instructor.

FR 699 Special Topics/French (3)

Study of individual authors or literary topics. Prerequisites: Admission to the MLS program or instructor consent.

GEOGRAPHY (GG)

GG 101 Introduction to Geography (3)

A study of the principal themes of geography: human and environment in interaction, the patterns of distribution of natural phenomena affecting human use of the earth, and the cultural patterns of occupancy and exploitation of the physical world. This course satisfies general education requirements.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

GG 102 World Regional Geography (3)

World regional geography is a comparative study of physical and human environments of world realms and the interplay of forces which gives each realm its distinctive character. This course satisfies general education requirements.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

GG 151 Urban Geography (3)

This course examines the geographic origins and development of urbanism, with special emphasis on physical attributes of site and spatial attributes of situation.

GG 201 Environmental Geography (3)

Also known as physical geography, this course introduces students to the distribution and components of the natural environment, including climate, biomes, soils, vegetation and landforms. The course also examines the interactions between these elements, and the effects of humans on the natural environment. Prerequisite: GG 101.

GG 220 Special Topics/Geography (3)

Topics will vary from semester to semester and will be announced in advance. Prerequisite: 3 hr GG or consent

GG 300 Special Topics/Geography (3)

Topics will vary from semester to semester and will be announced in advance. Prerequisite: 3 hr GG or consent

GG 302 Natural Resources Conservation (3)

A study of the principles of natural resource conservation and management, particularly as they relate to human populations, soil conservation and agriculture, water and air pollution and energy resources. Human activities that affect preservation, conservation, and multiple uses and options in a sustainable economy and society are emphasized. Prerequisite: GG 101.

GG 303 Introduction to Land Use (3)

Students are introduced to the conceptual basis of land use planning as it relates to the determinants, classification and survey, and environmental and fiscal impact analysis of the controlled use of land. The course also examines zoning and subdivision regulations in the approaches to land use planning at local, state and national levels. Prerequisite: GG 101.

GG 304 Geography of Kansas (3)

This course is a survey of the distributions and interrelationships of various physical, cultural and economic phenomena of the state. Topics include physiographic regions, settlement patterns, agricultural and urban geography. The High Plains, the Southeastern mining areas, and the urban Northeast regional cultures are examined. Prerequisite: Second semester sophomore status.

GG 325 Introduction to GIS (3)

As one of the most important areas in geography, Geographic Information System (GIS) is widely used in various disciplines for storing, sharing, displaying, analyzing and managing geographically referenced information. The objectives of this class are to provide a firm conceptual and technical understanding of how to present, synthesize, process and analyze geographic data. This class will have both a lecture and a lab session and the lab is taught using ArcGIS 10.5.1 (ESRI, Inc.). This class serves as a pre-requisite for the class of GG 326 Advanced GIS. No prerequisites.

GEOLOGY (GL)

GL 101 Physical Geology (3)

Special emphasis on the observation of the phenomena of erosion, mountain formation, and stream and glacial action. Lecture-recitation and some field trips.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

GL 103 Historical Geology (3)

For students interested in the history and evolution of the planet Earth. Lecture and in-class laboratory work will include exercises with commonly found fossils and geologic-topographic maps. Will provide information about the environment of the early Earth and changes through time.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

GERMAN (GE)

GE 101 Beginning German I (4)

Introduction to conversation, reading, grammar, and composition. Development of oral/aural skills. Particular emphasis on contemporary culture and social customs in the German-speaking countries. An audiovisual program to develop phonological skills is a component of this course. Offered fall semester only. No prerequisite.

GE 102 Beginning German II (4)

Continuation of German 101. Offered spring semester only. Prerequisite: GE 101 or two years of high school German, or consent of instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

GREAT TEXTS (TX)

TX 100 Critical Thinking, Communication, and Transformative Texts: Antiquity to Modernity (3)

This first-year gateway course introduces students to the great questions and problems of humankind through discussion-based exploration of transformative texts from a variety of disciplines and genres. These texts will be examined in the context in which they were written and explored for what they mean today. The course helps students practice the critical thinking and communication skills they will need for success in college and in life. Throughout the course, students' understanding and enjoyment of the selected texts will be supplemented by extracurricular activities and presentations, such as visits to historic and cultural sites, plays, musical performances, films, galleries, poetry readings, public lectures, and community engagement. Prerequisites: Acceptance into Great TEXTS certificate program

TX 200 Enduring Questions and Transformative Texts (3)

This course examines a series of transformative texts written in a variety of different genres, cultural traditions, and historical periods that engage with life's big questions, both contemporary and enduring. Throughout the course, students' understanding and enjoyment of the selected texts will be supplemented by extracurricular activities and presentations, such as visits to historic and cultural sites, plays, musical performances, films, galleries, poetry readings, public lectures, and community engagement. Specific topics and texts will change each semester. Prerequisites: TX 100

TX 300 Complex Problems and Transformative Texts (3)

This course examines a series of transformative texts written in a variety of different genres, cultural traditions, and historical periods that engage with the essential problems of the human condition, both contemporary and enduring. Throughout the course, students' understanding and enjoyment of the selected texts will be supplemented by extracurricular activities and presentations, such as visits to historic and cultural sites, plays, musical performances, films, galleries, poetry readings, public lectures, and community engagement. Specific topics and texts will change each semester. Prerequisites: TX 100 and TX 200

TX 301 Inspiring Visions and Transformative Texts (3)

This course examines a series of transformative texts written in a variety of different genres, cultural traditions, and historical periods that inspire, foresee, or call to action. Throughout the course, students' understanding and enjoyment of the selected texts will be supplemented by extracurricular activities and presentations, such as visits to historic and cultural sites, plays, musical performances, films, galleries, poetry readings, public lectures, and community engagement. Specific topics and texts will change each semester. Prerequisites: TX 100, TX 200, and TX 300

TX 400 TEXTS Capstone (3)

With faculty consultation, students will complete a project based in transformational texts that applies to their lives, major, and interests. The project may be based in research, creative work, or community engagement. Prerequisites: TX 100, TX 200, TX 300, and TX 301

HEALTH (HL)

HL 277 Principles of Health Education and Promotion (3)

Designed to familiarize the student with the purpose, function, organization and administration of health education and promotion services. Some areas to be discussed are history and philosophy of health education, effective settings, behavior change theories, government initiatives, and ethics. Prerequisite: KN 248 or consent of instructor

HL 377 Critical Issues in Health (3)

This course will focus on controversies surrounding a wide range of current health science and personal health issues. When confronted by differing opinions and points of view, it is necessary to use critical thinking skills to comprehend, evaluate and make decisions in the face of uncertainty. Pros and cons of selected issues will be presented through readings, lectures, class discussions and both oral and written presentations. Prerequisite: KN 248 or consent of instructor.

HL 477 Health Program Planning and Evaluation (3)

This course is designed to study the fundamental concepts, models, theories and strategies pertaining to health education and promotion program planning and evaluation. Students will gain practical knowledge and will be expected to develop a comprehensive, theory-based strategy for delivery of a health promotion program, as well as provide for appropriate evaluation mechanisms throughout the program. Prerequisites: HL 277 and HL 377, or consent of instructor.

HISTORY (HI)

HI 100 Survey of Early World History (3)

Stone-age origins to c. 1200 CE. Basic introductory survey of earliest eras of world cultures and history. Covers late pre-history; first and classical age civilizations of Mediterranean, Asia, and Americas; and emerging peripheral cultures and civilizations of Africa, Asia, Europe and Americas.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

HI 101 Changing World History: Traditions and Transitions (3)

Basic introductory survey of world developments, c. 1200-1750 CE. Begins with Mongol conquests. Continues with resurgence and change in established civilizations of Asia, Africa, Europe and Americas. Traces emergence and impact of modernizing West, early era of world explorations and empire building, and development of global trading networks.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

HI 102 Modern World History (3)

Basic introductory survey of world developments, c. 1750 to present. Begins with industrialization and political change in the West, producing technologically-advanced Western economic, social and political world dominance. Traces power, processes of decolonization, emerging late 20th-century world economies, states and societies.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

HI 105 Introduction to World Music and its History (3)

This course explores the history of world cultures by focusing specifically on the development of musical traditions from around the world. Students explore the history and cultural development of selected world cultures, and listen to and analyze the musical traditions from those cultures to understand how a culture's music reflects both its traditions and its interaction with other cultures. Prerequisites: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging

HI 111 History of the United States through the Civil War (3)

Survey of American history from the first encounters between American Indians, Europeans, and Africans through the period immediately following the Civil War, which introduces students to the study of the past and familiarizes them with records of American experiences. It exposes students to political, economic, social and intellectual forces shaping the American heritage and contributing to the nation's development. No prerequisites.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

HI 112 History of the United States since the Civil War (3)

Survey of American history from the emergence of an urban and industrial society after the Civil War to the present, which introduces students to the study of the past and familiarizes them with records of American experiences. Exposes students to political, economic, social and intellectual factors shaping the American heritage and contributing to the nation's development. No prerequisites.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

HI 300 Topics in History (1-3)

Topics will vary from semester to semester and will be announced in advance. Prerequisite: 3 hrs HI or consent.

HI 303 Colonial America to 1763 (3)

Study of the age of exploration and the establishment of the original colonies. Emphasis will be given to the British colonies of the western hemisphere, but the course will also include those colonies of other nations as they affect American growth and development. It will include a broad treatment of social, political, economic and intellectual forces to 1763. Prerequisite: 3 hrs HI or consent.

HI 304 American Revolutionary Period, 1763-1789 (3)

An examination of the problems of Great Britain and the colonies following the French and Indian War. The causes of the American Revolution as well as the events resulting from it will be studied in detail. The critical period, the writing of the Constitution and the laying of the foundations of our government by the Federalists will be analyzed. Prerequisite: 3 hrs HI or consent.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

HI 305 Early National United States (3)

This class examines topics and themes in American society, politics, economics, and culture between roughly 1787 and 1850. In this period, deep changes unfolded throughout the young nation. As we will see, America in these years was marked both by more inclusive democracy and greater hierarchy; it became simultaneously more confident and defined as an independent nation, but also more fragmented according to the regional, economic, gender, racial, and ethnic distinctions among its peoples. In our assessment of early national U.S. history, we will pay special attention to the profound economic and cultural upheavals historians refer to as the market revolution as a way to view the period as a whole and to understand the transformations in human experience and national identity that took place during it. Prerequisites: 3 hours of History or permission of instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

HI 307 American Civil War: 1848-1877 (3)

A survey of the sectional crisis beginning with the conclusion of the Mexican War in 1848 to resolution of the crisis by 1877. Themes include: the nature of Northern and Southern societies; the political crisis of the 1850s; the relative military strengths of each side; the major battles and campaigns; the Northern and Southern home fronts, the role African-Americans played in their own liberation; the process by which reconstruction first emerged and then collapsed. Prerequisite: 3 hrs HI or consent.

HI 308 Making of Modern America, 1880-1920 (3)

The history of the United States from the end of Reconstruction to World War I. Examines social, political and economical changes. Topics covered include industrialization and its effects, popular culture, reform movements, and immigration. Prerequisite: 3 hrs History or consent.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

HI 309 America in the 1920s & 30s (3)

History of the United States from the "Roaring Twenties" through the New Deal. Focuses on the dramatic shifts in American life in the interwar period. Topics of special interest include entertainment and leisure, youth culture, the Great Depression, and the expansion of the American state through New Deal programs. Prerequisite: 3 hrs History or consent.

HI 311 Cold-War America, 1945-1990 (3)

Examines the development of the US as it responds to the pressures of the Cold War, repercussions of the corporate economy, dynamics of changing race relations and the emergence of a New World Order in the 1980s. Prerequisites: 3 hrs. HI or consent.

HI 312 War's Impact on America (3)

A twentieth-century U.S. History course emphasizing social, economic, and cultural implications of American involvement in wars from the First World War through the Gulf War of 1991. The course addresses, from comparative perspective, mobilization and conscription issues, societal implications on the American home front, and civil liberties issues in wartime from the 1910s to the 1990s. Prerequisite: 3 hrs HI or consent.

HI 315 Women in US History (3)

American women's history from the nineteenth century to the present with an emphasis on their role in society, and how women's experiences have been affected by social, economic, and political changes.

Prerequisite: 3 hrs HI or consent.

HI 316 History of American Childhood (3)

This course surveys the wide range of historical literature on children and youth in American culture, and considers evolving notions of childhood from America's colonial period to the present. This is a seminar-style, discussion-oriented course, complemented with lectures, films and students' research presentations. Readings will include historical monographs, autobiographies, and primary sources. Grading criteria will be based on students' research and essay-writing, class participation, and a final exam. This course can be utilized toward fulfillment of an upper-division requirement for American history. Prerequisite: 3 hours of History or permission of instructor.

HI 317 Topeka & Urban American History (3)

Explores the development of Topeka within the context of urban growth in America. The first half focuses on individuals, groups, institutions, and ideas that define the nation's urban experience, while the second half weaves Topeka into the pattern. Prerequisite: 3 hrs HI or consent.

HI 319 American Indian History (3)

Examines the history of American Indian societies, concentrating mainly on the period from the 17th century to the present. Emphasizes topics related to sovereignty, intercultural relations, political and economic trends, and the diversity of American Indian cultures. Prerequisite: 3 hrs History or consent.

HI 320 American West (3)

Focuses on the development of the west as a region. It addresses innovative institutions and practices, the changing environment, and the diversity and interaction of cultures. Prerequisite: 3 hrs HI or consent.

HI 322 Kansas History (3)

Social, economic and political history from Spanish explorations to the present, including the role of the native-American, non-English ethnic groups, and women, and the part played by Kansas and Kansans on the national scene. Prerequisite: 3 hrs HI or consent.

HI 325 American Religious History (3)

This course serves as an introduction to religion in American history by focusing upon the impact of religion on American culture and of American culture on religion. It examines the major figures, themes, and theological positions in American religious history from approximately 1600 to the modern era. Prerequisite: 3 hrs HI or consent.

HI 326 Anabaptism: The Radical Reformation and Beyond (3)

This course focuses on the major events, persons, literature, and practices of Anabaptist-related groups from the 16th-century Reformation to the present. History department faculty and guest speakers will trace the evolution of this religious movement from its multi-faceted European origins to diverse contemporary practices of Mennonites, Amish, Hutterites, and other Anabaptists on five continents. Course components include research projects on religious identity formation, storytelling about Anabaptists' lives and essays on novels and other literature drawn from Anabaptist experience. Students taking the course HI 526 for graduate credit will choose an appropriate topic for a research paper utilizing primary and secondary sources, in consultation with the professor. Prerequisites: 3 hours of History or permission of instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

HI 328 African-American History (3)

The black experience in America from African origins to the present. Themes to be emphasized include: the process of enslavement, the emergence of African-American culture, the nature of slavery, the struggle for freedom, the migration to the North, the Civil Rights movement, and contemporary issues. Prerequisite: 3 hrs HI or consent.

HI 329 Civil Rights Movement (3)

Examines the way black and white Americans have redefined race relations between the mid-1950's and mid-1980's. Class discussion comprises a significant portion of the course. Prerequisite: 3 hrs HI or consent.

HI 330 Ancient/Medieval Europe to 1400 (3)

The development of Greek civilization through the Hellenistic period, the phases of Roman civilization, and the forms of civilization in Europe in the wake of the Roman collapse (including feudal and manorial structures, the spread of Christianity, and the first stages of the emergence of nation states). Prerequisite: 3 hrs HI or consent.

HI 331 Early Modern Europe, 1300-1750 (3)

Covering the Italian Renaissance and its diffusion to the north, the Reformation as social and political as well as a religious movement, the conditions that fueled the European Age of Exploration, the consolidation of nationstates, and the formation of a trans-Atlantic trade network grounded on slavery. Prerequisite: 3 hrs HI or consent.

HI 332 Modern Europe, 1750-Present (3)

Begins with Industrialization and its effects and continues to the French Revolution and its broader impact, the development of democratic institutions in the context of industrial consolidation in the 19th century through the total wars of the 20th century, the Soviet Revolution, trends toward broader democratization and welfare statism, the collapse of communism in the East, and current movements toward European union. Prerequisite: 3 hrs. HI or consent.

HI 334 Civilization of Ancient Rome (3)

This survey course covers the history of ancient Roman civilization from its origins to Late Antiquity. The course is divided into three major sections. The first section, FOUNDATIONS, covers the early development of Italy, the establishment and development of the Roman Republic, and key Roman cultural institutions, especially the Roman state religion. The second section, TRANSFORMATION examines the slow disintegration of the institutions of the Republic, and its eventual collapse under the weight of the political ambition of senators such as Marius, Sulla, Pompey and Julius and Augustus Caesar. The third section, IMPERIUM, covers the history of the empire from Augustus to its collapse in the West in 476 and beyond, with special attention to the development of new religions to challenge the older order, namely Christianity and the other Mystery Cults. Throughout the semester we will be exploring sub-themes, such as the legitimacy and usefulness of drawing parallels between the histories of Rome and the United States, and the ever-changing perception of Rome in the modern popular imagination as evidenced in film. Also part of the course will be an extended simulation of the Roman Senate in the aftermath of the assassination of Julius Caesar, with students representing senators faced with the conflict between the achievement of personal ambition and the good of the state in troubled times. Prerequisite: 3 hours of History or permission of the instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

HI 336 History of England (3)

Origins and historical development of England in its political, economic and social aspects from the earliest times to the present. Prerequisite: 3 hrs HI or consent.

HI 338 Victorian Britain, c. 1830-WWI (3)

Intensive study of British history and life during the Victorian era, 1837-1901. Emphases will include the impact of industrialization, the continued evolution of parliamentary rule, changing women's and family roles, Victorian culture and the expansion of Empire. Prerequisite: 3 hrs HI or consent.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

HI 339 History of France (3)

Study of the development of French history and culture from the earliest times to the present. Prerequisite: 3 hrs HI or consent.

HI 340 French Revolution & Napoleon (3)

A study of the decade of revolution, 1789-1799, and of the Napoleonic regime. Constitutional, political, societal, economic, and cultural issues will be considered. Prerequisite: 3 hrs HI or consent.

HI 342 History of Germany (3)

Study of the development of German history and culture from the earliest times to the present. Prerequisite: 3 hrs HI or consent.

HI 343 The European Reformation (3)

A survey of the history and theology of the Magisterial, Radical, and Roman Catholic Reformation movements of the early sixteenth century, with particular emphasis on the religious ideas and practices of leading reformers such as Luther, Zwingli, Calvin, and Ignatius Loyola. Reformation ideas will be examined within the context of the experiences of these principal figures and of the public they addressed and by whom they were interpreted. The reformation will be considered in relation to the cultural, social, economic, and political changes of the early modern period. Prerequisite: 3 hrs HI or consent.

HI 344 The Holocaust: A Seminar (3)

In consultation with the instructor, students will select a topic related to the Holocaust, research it, make a class report, be critiqued by their peers and the instructor, and prepare a research paper. Prerequisite: 3 hrs HI or consent.

HI 354 History of Middle East (3)

Origins, historical development and interaction of the major events, ideas, figures, and patterns shaping the history of the Middle East from the rise of Islam to the present. Prerequisite: 3 hrs HI or consent.

HI 357 History of Traditional China (3)

Origins, historical development and interplay of major forces, events and characteristics of Chinese Civilization from pre-history to c. 1800. Prerequisite: 3 hrs HI or consent.

HI 358 History of Modern China (3)

Origins, historical development and interplay of major forces, events and characteristics of Chinese Civilization from c. 1800 to the present. Prerequisite: 3 hrs HI or consent.

HI 360 History of Mexico (3)

Origins of Mexican Civilization in the blending of the Indian and Spanish races and civilizations and the historical development of that civilization to the present. The interaction of physical, economic, political and social forces in the shaping of that civilization is emphasized. Prerequisite: 3 hrs HI or consent.

HI 361 Colonial Latin America (3)

The course surveys Latin American history from the pre-Columbian era to 1820. Through the exploration of the fundamental events of colonial Latin American history using primary sources, the course identifies and analyzes key political, social, economic, and religious institutions of the colonial experience in Latin America, evaluates the role of state and religion in society, examines intersections of race, class, and gender, and assesses the causes of and wars of independence. Prerequisite: 3 hrs HI or consent.

HI 362 History of Latin America (3)

Latin American history from 1820 to the present. The course will focus on the interaction of social, cultural, economic, political, and international factors in the creation of the reality lived by Latin Americans from all socioeconomic backgrounds from the nineteenth century to the present. Prerequisite: 3 hrs HI or consent.

HI 363 Borderlands and Beyond (3)

The course explores Latino history in the United States within the broader U.S., Latin American, and global economic perspective. Beginning during the Spanish colonial period and including the major formative events in U.S./Mexican/and Latin American history, (Mexican Independence, Texas Independence, Mexican-American War, Mexican Revolution, Spanish-American-Cuban War, etc.), the course asks students to think about the multiple meanings of borders, past and present, as well as the changing role of migration and immigration within that historical context. Prerequisite: 3 hrs HI or consent.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

HI 364 History/Literature of Latin America (3)

This course focuses on the relationship between history and literature in modern Latin America. Through the study of novels, poetry, film, and other genres the course examines how authors use literature to interpret the meaning of history and society as well as moments in which literature became part of the historical process. Prerequisite: HI 100, HI 101, or HI 102, or consent.

HI 370 Modern Africa, c. 1700-Present (3)

Covers the basic developments in sub-Saharan African history since 1700. Begins with the intensification of slave trading, widening trade networks within Africa and linking Africa to the Atlantic world, and continues with the New Imperialist conquest of Africa and its consequences from the 19th century on. Closes with the rise of nationalist movements, decolonization and formation of independent states in Africa. Prerequisite: 3 hrs HI or consent.

HI 380 Women in World History (3)

Surveys major figures, philosophies, patterns and events shaping women's changing roles and status within human society, origins of civilization to current industrial society. Traditional civilizations covered include Classical Mediterranean World, Confucian Asia, and Islam; significant emphasis will also be placed on understanding the impact of industrialization and modern political revolution both within the west and in the developing world. Prerequisite: 3 hrs HI or consent.

HI 381 History & Psychology of Sex & Gender (3)

Team taught by an historian and a psychologist. Surveys historic and current experience of being male and female within changing western society. Examines past roles and ideas about distinctions between sexes and surveys current psychological research in the area. See Psychology for cross-listing. Prerequisite: 3 hrs Social Science or consent.

HI 383 Film and History (3)

In this course, students will survey and evaluate films about historical subjects, seeking to understand the role film plays in shaping popular attitudes towards history and trying to assess the sort of history that film versions of the past promulgate. The main business of the class will be watching films and then discussing them, primarily through E-mail exchanges and debates, a required component of the course. In addition, students will do two book reports and a research paper. Prerequisite: 3 hrs HI or consent.

HI 395 History Forum (3)

A seminar on the nature of history and its application. Prerequisites: any three 100 level HI courses.

HI 397 Internship in Historical Agencies (3)

A program for junior/senior level undergraduates principally offered in cooperation with the Kansas State Historical Society and the Brown v. Board of Education National Historic Site on a limited basis, in Museum Display, History Education, Archives and Manuscripts. Prerequisites: HI 111, HI 112, 6 hours upper division HI, consent.

HI 398 Directed Readings (1-6)

Directed readings in selected fields of history. Regular conferences. May be taken until six credit hours are earned. Prerequisite: Senior history major or approval of the department chair.

HI 399 Historical Methods & Research (3)

Research and bibliographical techniques and practice in the application of these techniques in selected research. A capstone course required of history majors. Prerequisites: HI 111, HI 112, HI 395 and two of The World History courses.

HI 526 Anabaptism: The Radical Reformation and Beyond (3)

This course focuses on the major events, persons, literature, and practices of Anabaptist-related groups from the 16th-century Reformation to the present. History department faculty and guest speakers will trace the evolution of this religious movement from its multi-faceted European origins to diverse contemporary practices of Mennonites, Amish, Hutterites, and other Anabaptists on five continents. Course components include research projects on religious identity formation, storytelling about Anabaptists' lives and essays on novels and other literature drawn from Anabaptist experience. Students taking the course HI-526 for graduate credit will choose an appropriate topic for a research paper utilizing primary and secondary sources, in consultation with the professor. Prerequisites: 3 hours of History or permission of instructor.

HI 534 Civilization of Ancient Rome (3)

This survey course covers the history of ancient Roman civilization from its origins to Late Antiquity. The course is divided into three major sections. The first section, FOUNDATIONS, covers the early development of Italy, the establishment and development of the Roman Republic, and key Roman cultural institutions, especially the Roman state religion. The second section, TRANSFORMATION examines the slow disintegration of the institutions of the Republic, and its eventual collapse under the weight of the political ambition of senators such as Marius, Sulla, Pompey and Julius and Augustus Caesar. The third section, IMPERIUM, covers the history of the empire from Augustus to its collapse in the West in 476 and beyond, with special attention to the development of new religions to challenge the older order, namely Christianity and the other Mystery Cults. Throughout the semester we will be exploring sub-themes, such as the legitimacy and usefulness of drawing parallels between the histories of Rome and the United States, and the ever-changing perception of Rome in the modern popular imagination as evidenced in film. Also part of the course will be an extended simulation of the Roman Senate in the aftermath of the assassination of Julius Caesar, with students representing senators faced with the conflict between the achievement of personal ambition and the good of the state in troubled times. Prerequisite: 3 hours of History or permission of the instructor.

HI 600 Special Topics in History (1-3)

Topics will vary from semester to semester and will be announced in advance. Prerequisite: 3 hrs History or consent.

HI 604 American Revolutionary Period (1763-1789) (3)

Examination of the problems of Great Britain and the colonies following the French and Indian War. Causes of the Revolution as well as the events resulting from it will be studied in detail. The critical period, the writing of the Constitution, and the laying of the foundations of our government by the Federalists are analyzed. Prerequisites: 3 hours History or consent.

HI 607 American Civil War: 1848-1877 (3)

A survey of the sectional crisis beginning with the conclusion of the Mexican War in 1848 to resolution of the crisis by 1877. Themes include: the nature of Northern and Southern societies; the political crisis of the 1850s; the relative military strengths of each side; the major battles and campaigns; the Northern and Southern home fronts, the role African-Americans played in their own liberation; the process by which reconstruction first emerged and then collapsed. Prerequisites: 3 hours History or consent.

HI 611 Cold-War America, 1945-1990 (3)

Examines the development of the US as it responds to the pressures of the Cold War, repercussions of the corporate economy, dynamics of changing race relations and the emergence of a New World Order in the 1980s. Prerequisites: 3 hours History or consent.

HI 612 Wars' Impact on America (3)

A twentieth-century U.S. history course, emphasizing social, economic, and cultural implications of American involvement in wars from the First World War through the Gulf War of 1991. The course addresses, from comparative perspective, mobilization, and conscription issues, societal implications on the American homefront, and civil liberties issues in wartime from the 1910s to the 1990s. Prerequisites: 3 hours History or consent.

HI 615 Women in U.S. History (3)

American women's history from the nineteenth century to the present with an emphasis on their role in society, and how women's experiences have been affected by social, economic, and political changes. Prerequisites: 3 hours History or consent.

HI 617 Topeka and Urban American History (3)

Explores the development of Topeka within the context of urban growth in America. The first half focuses on groups, individuals, institutions, and ideas that define the nation's urban experience, while the second half weaves Topeka into the pattern. Prerequisites: 3 hours History or consent.

HI 620 The American West (3)

Focuses on development of the west as a region. Addresses innovative institutions and practices, interaction of culture, and the diversity and the changing environment. Prerequisites: 3 hours History or consent.

HI 622 Kansas History (3)

Social, economic and political history from Spanish explorations to the present, including the role of the Native-American, non-English ethnic groups, and women, and the part played by Kansas and Kansans on the national scene. Prerequisite: 3 hours History or consent.

HI 625 American Religious History (3)

This course serves as an introduction to religion in American history by focusing upon the impact of religion on American culture and of American culture on religion. It examines the major figures, themes, and theological positions in American religious history from approximately 1600 to the modern era. Prerequisite: 3 hrs History or consent.

HI 628 African American History (3)

The black experience in America from African origins to the present. Themes to be emphasized include: the process of enslavement, the emergence of African-American culture, the nature of slavery, the struggle for freedom, the migration to the North, the Civil Rights movement, and contemporary issues. Prerequisite: 3 hours History or consent.

HI 636 History of Britain (3)

Origins and historical development of England in political, economic and social aspects from the earliest times to the present. Prerequisite: 3 hours History or consent.

HI 638 Victorian Britain: c. 1830-WWI (3)

Intensive study of British history and life during the Victorian era, the dates 1837-1901. Emphases will include the impact of industrialization, continued evolution of parliamentary rule, changing women's and family roles, Victorian culture and the expansion of Empire. Prerequisite: 3 hours History or consent.

HI 643 The European Reformation (3)

A survey of the history and theology of the Magisterial, Radical, and Roman Catholic reformation movements of the early sixteenth century, with particular emphasis on the religious ideas and practices of leading reformers such as Luther, Zwingli, Calvin, and Ignatius Loyola. Reformation ideas will be examined within the context of the experience of these principal figures and that of the public they addressed and by whom they were interpreted, and in relation to the cultural, social, economic, and political changes of the early modern period. Prerequisites: 3 hours History or consent.

HI 644 The Holocaust: A Seminar (3)

In consultation with the instructor, students will select a topic related to the Holocaust, research it, make a class report, be critiqued by their peers and the instructor, and prepare a research paper. Prerequisite: 3 hours History or consent.

HI 660 History of Mexico (3)

Origins of Mexican Civilization in the blending of the Indian and Spanish races and civilizations and the historical development of that civilization to now. The interaction of physical, economic, political and social forces in the shaping of that civilization is emphasized. Prerequisites: 3 hours History or consent.

HI 663 Borderlands and Beyond (3)

The course explores Latino history in the United States within the broader U.S., Latin American and global economic perspective. Beginning during the Spanish colonial period and including the major formative events in U.S./Mexican/and Latin American history, (Mexican Independence, Texas Independence, Mexican-American War, Mexican Revolution, Spanish-American-Cuban War, Cold War, etc.), the course asks students to think about the multiple meanings of borders, past and present, as well as the changing role of migration and immigration within that historic context. Prerequisites: 3 hours History or consent.

HI 670 Modern Africa: c. 1700-Present (3)

Covers the basic developments in subsaharan African history since 1700. Begins with the intensification of slave trading, widening trade networks within Africa and linking Africa to the Atlantic world and continues with the New Imperialist conquest of Africa and its consequences from the nineteenth century on. Closes with the rise of nationalist movements, decolonization and formation of independent states in Africa. Prerequisites: 3 hours History or consent.

HI 680 Women in World History (3)

Surveys major figures, philosophies, patterns and events shaping women's changing roles and status within human society, origins of civilization to current industrial society. Traditional civilizations covered include Classical Mediterranean World, Confucian Asia, and Islam; significant emphasis will also be placed on understanding the impact of industrialization and modern political revolution both within the west and in the developing world. Prerequisites: 3 hours History or consent.

HI 698 Directed Readings (1-6)

Directed readings in selected fields of history. Regular conferences. Prerequisites: Senior History major or approval of the department head. May be taken until 6 credit hours are earned.

HONORS (HN)

HN 101 Honors First Year Experience (3)

HN 101 is a three credit hour course, designed for first-year honors students (incoming honors freshmen) providing students with a common first-semester experience. The course will substitute for WU101 thereby fulfilling this university-wide requirement. Like WU 101, course content will focus upon information literacy, technology, and the transition into the Washburn University Community of Learning in addition to exposure to co-curricular activities (a.k.a., passport activities). Common themes such as the exploration of writing, study skills, research, wellness, technology, plagiarism, and others will be covered to introduce students to a series of best practices for success. HN 101 differs from WU 101 in general in that additional topics will be explored and some shared topics with WU 101 (e.g., writing) be emphasized more. For example, students will learn more about conducting research through instruction and by conducting a group research project, complete a service learning project, and actively participate in seminar-style discussions covering assigned readings. Prerequisite: Accepted into Honors program.

Course Attribute: USLO: Information Literacy and Technology

HN 201 Seminar Humanities Fine Arts (3)

An integrated humanities topics course that takes some special problem, theme, or subject matter and explores it from a humanistic perspective. Topics vary from semester to semester. Satisfies three hours of general education credit in the humanities and fine arts. May be taken more than once with different topics.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

HN 202 Seminar in the Social Sciences (3)

An integrated social sciences topics course that takes some special problem, theme, or subject matter and explores it from the perspective of the social sciences. Topics vary from semester to semester. Satisfies three hours of general education credit in the social sciences. May be taken more than once with different topics.

Course Attributes:

- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

HN 203 Seminar Physical Science & Mathematics (3)

A special topics course that takes some special problem or subject matter and explores that subject matter or problem from the perspective of the natural sciences or mathematics. Topics vary from semester to semester. Satisfies three hours of general education credit in the natural sciences and mathematics. May be taken more than once with different topics.

Course Attributes:

- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Critical and Creative Thinking

HN 301 Seminar Humanities Fine Arts (3)

An integrated humanities topics course that takes some special problem, theme, or subject matter and explores it from a humanistic or fine arts perspective. Topics vary from semester to semester. May be taken more than once with different topics. Prerequisites: Sophomore Standing.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

HN 302 Seminar in the Social Sciences (3)

An integrated social sciences topics course that takes some special problem, theme, or subject matter and explores it from the perspective of the social sciences. Topics vary from semester to semester. May be taken more than once with different topics. Prerequisite: Sophomore standing.

Course Attributes:

- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

HN 303 Seminar Natural Sciences & Mathematics (3)

A special topics course that takes some special problem or subject matter and explores from the perspective of the natural sciences or mathematics. Topics vary from semester to semester. May be taken more than once with different topics. Prerequisites: Sophomore Standing.

Course Attributes:

- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Critical and Creative Thinking

HN 305 Colloquium Liberal Arts Professional Disciplines (3)

A special topics course that involves the study of the relationship of the professional disciplines – for example, law, education, business, public planning and administration, social work or other applied studies, the health professions – to the liberal arts, or one of the liberal arts – for example, history, poetry, rhetoric, or philosophy.

HN 392 Directed Readings (1-3)

A special topics course designed to allow students and faculty the opportunity to explore and develop areas of study as a foundation for thesis work.

HN 399 Honors Thesis (1-6)

Independent research in a specified area approved by the Dean of University Honors.

HUMAN SERVICES (HS)

HS 100 Family and Human Services (3)

This course provides an introduction to the philosophical framework, major theoretical models, and interdisciplinary nature of family and human services. Students will examine various approaches to family and human services within historical, societal, and cultural contexts. Students will explore occupations, professional organizations, and community resources relevant to family and human services. Students will complete a 30 hour service learning project in a relevant agency in their own community. Prerequisite: None

HS 131 Human Development (3)

This course provides a holistic introduction to human development across the lifespan and considers different theoretical approaches and research methods used to study development. The course examines developmental processes using social, emotional, cognitive, physical, and sexual lenses from conception through childhood, adolescence, adulthood, later life and death. The course offers information designed to support healthy human development using an interdisciplinary approach based on science and applied toward important human problems. Prerequisite: None.

HS 222 Juvenile Justice (3)

The American system of juvenile justice, including the roles and relationships of law enforcement, courts, probation and parole, diversionary programs, service agencies, and correctional institutions. Prerequisite: None.

HS 231 Methods of Long Term Mental Health Care (3)

This course will build on the theoretical issues of basic health care, with emphasis on acquiring the skills to care for the health and safety concerns of people in long-term treatment programs. Prerequisite: None.

HS 232 Introduction to Community Mental Health Services (3)

This course is designed to familiarize students with the history and development of community mental health; federal, state and local policies impacting the delivery of community mental health services; and methods utilized in community mental health service delivery such as short-term counseling, crisis intervention, case management, prevention, education, and assessment of need for services. Prerequisite: None.

HS 240 Introduction to Intellectual Disabilities (3)

This is a survey course designed to introduce the student to a philosophy and set of practices for providing services to people with intellectual disabilities. Course topics include rights of individuals, legal issues, assessment and planning, communication, prevention, and supportive services for promoting independence and well-being. The course focuses on practical skill development for working with people with intellectual disabilities. Prerequisite: None.

HS 243 Fundamentals of American Sign Language (3)

This course is designed to provide students with a basic framework of knowledge regarding the nature of hearing loss and its extremely varied influence on the lives of people who are deaf, hard of hearing, late-deafened, and deaf with a dual diagnosis. Important issues within the field of deafness will be addressed, namely: Deaf culture, education of deaf people, technological advances, and political influences. Emphasis will be placed on learning the fundamentals of American Sign Language (ASL) while providing the student with a working vocabulary of approximately 500 signs. The student can expect sign demonstration and practice as well as lecture on various salient topics in deafness.

HS 250 Skills for Helping Professionals (3)

This course is designed to address foundational skills and techniques for providing family and human services. Students will engage in assignments to aid in their preparation for human services practice at the internship level. This course will explore ethics and professional conduct, goal setting, behavior-change strategies, communication skills, and relationships built on respect, compassion, and responsibility. Students will consider how values and biases influence helping. Special consideration will be given to understanding and working with diverse populations. Prerequisite: None.

HS 260 Directed Study (1-3)

Family and Human Services majors may pursue an independent study project if approved by the instructor in consultation with the Department Chair. A contract must be signed by all parties that specifies learning outcomes, assignments, deadlines, and assessment strategies. Independent Study courses must meet equivalencies to Federal definition of a credit hour. Prerequisite: Department Consent.

HS 290 Special Topics/Human Services (1-3)

Topics will vary from semester to semester and will be announced in advance.

HS 300 Prevention and Social Change (3)

This course will examine the foundational roles of prevention and social change in Family and Human Services. Content will focus on selection and implementation of social change and prevention strategies, with special attention to the importance of social justice in promoting a healthy society. Prerequisite: None.

HS 301 Working with Trauma (3)

This course provides information on the concept of psychological trauma as well as an overview of the common responses to trauma in individuals and families, PTSD diagnostic criteria, family stress theories, resource management, and resilience. Current treatment practices, both evidence-based and alternative, are reviewed. Principles for working with trauma-exposed populations in family and human services are emphasized. This course is required for the Trauma and Recovery Certificate in Family and Human Services. Prerequisite: None.

HS 304 Case Management (3)

This course is designed to enhance students' ability to provide case management services. This course will focus on serving children with severe emotional disturbance and adults with mental illness. In addition, students will investigate issues and responsibilities of case managers, community resources, the family support perspective, client advocacy, the strengths approach when working with people, and the fundamental philosophy and applications of wraparound community services. This course will be helpful for those students with the desire to work as case managers, social workers who would like to expand their knowledge of case management in community settings, bachelor level psychology students wanting to work in community mental health, and administrators/supervisors who have the desire to implement case management services within their agencies. Prerequisite: None.

HS 308 Working with Parents and Youth (3)

This course examines effective parenting strategies and parent education programs, with attention to contemporary sociocultural issues impacting families. Students will study evidence-based prevention and intervention practices for working with parents and youth that promote healthy child development, effective family functioning and resilience. Prerequisite: None.

HS 310 Gender and Sexuality (3)

This course provides information on the physiological, psychological, and social aspects of human sexuality across the lifespan. In addition, this course discusses issues of sexual, gender, and relationship diversity within the helping professions. Students will learn to communicate about gender, sexual, and relationship diversity with appropriate vocabulary and evidence-based information. The course will emphasize how helping professionals can create an inclusive and supportive environment for working with sexual and gender minority populations. Prerequisite: None.

HS 312 Mental Health and Addiction (3)

This course teaches students about effective addictions treatment for persons with co-occurring disorders. The course will provide students with an understanding of terms, services delivery systems, assessment, and strategies for working with clients with co-occurring disorders. The course will cover methods for providing individualized treatment based on a consumer's biological, psychological, social and spiritual needs. The content of this course is based on TAP21 competencies. This is a required course for addictions counseling licensure with the Kansas BSRB. Prerequisite: None.

HS 316 Addictions Treatment (3)

This course describes the most generally accepted and scientifically supported models of treatment, recovery, relapse prevention, and continuing care for addiction and other substance-related problems. Students will be exposed to the principles and philosophy of prevention, treatment and recovery. The course will focus on the social, political, economic, cultural, and family context within which addiction and substance abuse exist, including risk and resiliency factors that characterize individuals and groups and their living environments. Emphasis will be given to the behavioral, psychological, physical health and social effects of psychoactive substances on the user and significant others and the importance of research and outcome data and their application in clinical practice. The content of this course is based in part on TAP 21 competencies. This is a required course for addictions counseling licensure with the Kansas BSRB. Prerequisite: None.

HS 321 Youth & Violence (3)

This course is designed to provide an overview of violence and youth, specifically the problems associated with it; including, but not limited to, such issues as definition, reporting, investigations, causes, treatment, the importance of family preservation and re-integration, institutional abuse, institutional neglect, parent training, parent support, prevention, the roles of foster care, state agencies, the court system, the schools, etc. The role of the human service worker in preventing and dealing with child abuse and youth violence will be an area of special focus. Child abuse will be viewed as a part of a continuum of personal/family violence. Prerequisite: None.

HS 323 Service Coordination (3)

This course focuses on the coordination of services for human services clients. Students will learn about intake, screening, assessment, diagnosis, client placement, treatment planning, discharge/transfer plans, report writing, referral and other aspects of service coordination. The course stresses a multidisciplinary approach to service coordination and examines the roles of professionals, agencies, families, community groups, and other support systems in the treatment process across the continuum of care. Students will learn effective, ethical ways to work with clients, with a focus on recovery-oriented systems of care. The content of this class is based in part on TAP21 competencies. This is a required course for addictions counseling licensure with Kansas BSRB. Prerequisite: None.

HS 325 Group Work (Group Counseling) (3)

This course is designed to provide both knowledge and skills in the organization and facilitation of psycho-educational and other group experiences used in the helping process, with special focus on addiction and recovery. Students will learn a variety of techniques and strategies designed to facilitate and enhance group learning and the personal growth of participants—particularly psycho-social development. The content of this course is based in part on TAP 21 competencies. This is a required course for addictions counseling licensure with the Kansas BSRB. Prerequisite: None.

HS 341 Applied Behavioral Interventions (3)

This course is designed to familiarize students with the history, theory, and practice of applied behavior analysis. Emphasis will be on the "practice" side, with students learning how to define and observe behaviors, design effective and socially valid interventions to help consumers reach valued goals, and analyze the impact of interventions on important behaviors. Students will learn about best practices in behavior analysis with a variety of consumer populations and will gain experience in reading and evaluating reports of behavior-analytic research. Prerequisite: None.

HS 355 Peacemaking (3)

The course will cover the need for peace education in our society. Peace education is pertinent for students majoring in human services with an interest in working with violence and poverty prevention, social justice, the environment, youth, and sustainable communities. Other students will find value in the course through the experiential component of designing a peace education presentation that can be used in their community. Topics include personal peacemaking, nonviolence, conflict resolution, compassionate intentional living, civil rights, equity, education and the environment. Prerequisite: None.

HS 360 Directed Study (1-3)

Family and Human Services majors may pursue an independent study project if approved by the instructor in consultation with the Department Chair. A contract must be signed by all parties that specifies learning outcomes, assignment deadlines, and assessment. Independent Study courses must meet equivalencies to Federal definition of a credit hour. Prerequisite: Department consent

HS 362 Human Trafficking and Modern Day Slavery (3)

This course is an advanced undergraduate course that focuses on contemporary human trafficking and slavery. Types of trafficking and slavery to be covered include sex trafficking, bonded labor, forced labor, child soldiers, chattel slavery, and domestic servant slavery. The contributing roles of the state, organized crime, the media, culture, and corruption will be examined. It will review the debates about defining trafficking and the connection between sex trafficking and prostitution. Course materials may include testimonies and autobiographies by survivors, research reports, theoretical essays, policy statements, expert testimonies, podcasts and videos. Prerequisite: None.

HS 370 Mass Victimization/Mental Health (3)

This course will provide an overview of interventions used with victims following mass violence and disasters. Additionally, compassion fatigue effects and methods used to assist emergency responders who become victims of disaster through their role in response and recovery will be thoroughly discussed. Attention will focus on mental health effects dealing with both immediate and long-term recovery issues for immediate victims and those responding to the incident.

HS 371 Mental Health and Aging (3)

This course provides an overview of biological, psychological, and social factors related to successful aging, with an emphasis on the development and maintenance of mental health across the lifespan. The course considers ways that HS professionals can support mental health throughout the aging process. Students will also learn about mental health problems in relation to the aging process. Prerequisite: None.

HS 372 Death & Dying (3)

This course will cover biological, psychological, social, and cultural issues surrounding death and the dying process. Topics will include stages of dying, approaches to working with people who are dying and their families, the bereavement process, cross-cultural practices related to death and dying, services available to people who are dying and to their caregivers, and legal and ethical issues surrounding end-of-life decision making. Prerequisite: None.

HS 373 Disaster Response and Recovery (3)

This course provides an overview of the hazard cycle and basic concepts of disaster preparedness, response and recovery. Additionally, this course will provide an overview of the helping professional's role during times of disaster including discussion of the specific emergency support functions assigned to groups and agencies as designated in the National Response Framework. Emphasis will also be paid to concepts used when working with direct and indirect victims of disaster. Prerequisite: None.

HS 375 Hate and Bias Crimes (3)

This course provides an overview of hate and bias crimes in the United States. Focus will be on causative factors, human service and criminal justice responses, and impact on victims/survivors and communities. Hate violence based upon race and ethnicity will be a primary focus, but discussion will also include hate violence targeting persons because of gender, sexual orientation, age, religion, and disabilities. Prerequisite: None.

HS 377 Personal & Community Prevention (3)

This course explores a principle-based model of professional health and helping. It focuses on a new and innovative approach to prevention and human services that changes lives, communities, and organizations from the inside-out. Most recently known as The 3 Principles (also known as Health Realization), this approach emphasizes people's innate health and resilience to foster the capacity for personal well-being and the ability to function productively and successfully among colleagues and constituents. This course is directed toward strengthening the student's approach to life and work, which is necessary for developing the capacity to serve others and respond to the consistent demands of the helping profession. Prerequisite: None.

HS 378 Issues in Aging (3)

The course provides an interdisciplinary examination of the human aging process by surveying biological, psychological, sociological, and cultural theories, and influences, on aging. While this course does not focus solely on old age, the course will examine social policies and human services for older people that are informed by our knowledge of the aging process. Prerequisite: None.

HS 381 Internship I (3)

This course is the first internship required in the Associate and, Baccalaureate programs, and may be used to meet certificate requirements. The internship consists of a minimum of 150 clock-hours of field experience in an agency in the community under the supervision of agency staff and university faculty. In addition, a weekly seminar is required to integrate learning in the field with classroom instruction. Students work on specific competencies related to the delivery of human services. Additionally, addiction counseling students work on TAP 21 competencies. This is a required course for addiction counseling licensing with the Kansas BSRB. Prerequisite: Department consent.

HS 390 Special Topics (1-6)

Topics will vary from semester to semester and will be announced in advance.

HS 395 International Service Experience (0-3)

This course will offer the students the opportunity to experience the culture of countries other than the United States while engaged in meaningful service in both urban and rural settings. Through a partnership with a non-governmental agency service assignments will be arranged to meet the needs of various communities. The focus of this assistance is on community and economic development, sustainable agriculture, health, education, training in non-violent resolution of conflicts, and women's empowerment. The purpose of the experience is to develop friendships and a sense of partnership with the members of the community organizations and people the students interact with during their time in country. In addition to completing the service project students will learn about the history, political systems, and the culture of the country they visit. Prerequisite: Instructor consent.

HS 402 Trauma and Recovery Services (3)

This course provides an overview of prevention and intervention services available to persons and families who have experienced traumatic stress. Particular focus will be placed on trauma-informed strategies and ethical interventions. Topics will include various traumatic exposures that may be experienced across the lifespan, including child abuse, bullying, partner violence, sexual violence, human trafficking, hate crimes, homicide, elder abuse, military trauma, natural disasters, and vehicle accidents. Prerequisite: None.

HS 410 Pharmacology & SUDs (3)

This course covers fundamental concepts of pharmacology, including physiological, behavioral, psychological, social and health effects of psychoactive substances. The course also covers infectious diseases associated with substance use and methods of disease prevention. Students will learn about drug screening, drug testing and HIV/AIDS testing and counseling, and associated legal and ethical issues. The content of this course is based on TAP21 competencies. This is a required course for addictions counseling licensure with the Kansas Behavioral Sciences Regulatory Board. Prerequisite: None.

HS 411 Family Issues (3)

This course will explore the role that family interaction plays in the various areas of Family and Human Services. Different theories of family functioning and intervention will be reviewed, as well as major risk and resiliency factors. Specific attention will be paid to family issues using a strengths-based approach to domestic violence, youth issues, aging family members, illness and disability, and addictions. For students preparing to work as addiction and recovery counselors, knowledge of ways to teach or facilitate discussions of how substance use and abuse affects families and concerned others will be emphasized. The content of this course is based in part on TAP 21 competencies. This is a required course for addictions counseling licensing with the Kansas BSRB. Prerequisite: None.

HS 414 Individual Counseling Methods (3)

This course will introduce students to a variety of evidence-based counseling theories and approaches for working with individual clients and family/significant others. Students will study common topics that arise in individual counseling as well as cultural and ethical issues associated with effective counseling practice. In addition, the course will examine methods for forming effective helping relationships along with strategies for helping clients establish and work toward realistic, meaningful goals. Students will have the opportunity to demonstrate an individual counseling approach covered in this course. The content of this course is based in part on TAP 21 competencies. This is a required course for addiction counseling licensing with the Kansas BSRB. Prerequisite: None.

HS 421 Women and Addiction (3)

Women with substance use disorders have serious and unique health concerns. Using a bio-psycho-social-spiritual framework, this course will examine how treatment services are changing to help women successfully navigate the road to recovery. Prerequisite: None.

HS 429 Adolescence & Substance Abuse (3)

This course is designed to cover the dynamics of substance abuse for children and youth, and the state-of-the-art of prevention and intervention. Special topics of the course will include growth and development, family process, assessment, intervention, treatment, co-dependency, education, cultural factors, at-risk populations, prevention, and resources. Prerequisite: None.

HS 446 Legal, Ethical, & Professional Issues (3)

This course will address legal, ethical, and professional issues which impact the delivery of human services, including codes of ethics, confidentiality, duty to warn, and similar issues. The content of this course is based in part on TAP 21 competencies. This is a required course for addictions counseling licensing with the Kansas BSRB. Prerequisite: None.

HS 450 Multicultural Issues (3)

This course provides an overview of the major issues in providing family and human services to the increasingly pluralistic population of the United States. Themes to be discussed are: cross-cultural theories of intervention, communication styles, definitions of suffering and recovery, and working with diverse individuals and groups. The range of human service delivery systems, including mental health, alcohol and substance abuse, youth services, gerontology, and victim/survivor services, will be addressed from a multicultural perspective. Emphasis will be on exploring provider attitudes and competencies as well as developing practical applications and solutions. For students preparing to work as addiction and recovery counselors, special emphasis will be given to recognizing the social, political, economic, and cultural context within which addiction and substance abuse exist, including risk and resiliency factors that characterize individuals and groups and their living environments. Prerequisite: None.

HS 480 Internship II (3)

This course is the second internship required in the Baccalaureate program and may also be used to meet certificate requirements. The internship consists of a minimum of 150 clock-hours of field experience in an agency in the community under the supervision of agency staff and university faculty. In addition, a weekly seminar is required to integrate learning in the field with classroom instruction. Students will work on specific competencies related to the delivery of human services. Additionally, addiction counseling students will work on TAP 21 competencies. This internship requires summative reflection, serving as a culminating experience for Bachelor's degree students. This is a required course for addiction counseling licensing with the Kansas BSRB. Prerequisite: Department consent.

HS 481 Internship in Family & Human Services (3)

HS 481 is a supplemental internship course for baccalaureate and certificate students within the Human Services Department who want to obtain additional field experience. The internship consists of a minimum of 150 clock-hours of experience in an agency in the community specific to the student's area of concentration, under the supervision of agency staff and university faculty, as well as a weekly seminar to integrate learning in the field with classroom instruction. Practice will focus on advanced-level skills specific to the student's area of emphasis. Department consent is required for enrollment in this course.

HS 495 Research and Evaluation (3)

This course introduces students to applied research and evaluation in family and human services. The purposes and techniques of applied research and evaluation are explored, including qualitative and quantitative approaches. Students gain experience with the critical reading of research articles relating to the evaluation of human service programs. Projects give students direct experience with program evaluation and applied research. The content of this course is based in part on TAP 21 competencies. This is a required course for addictions counseling licensing with the Kansas BSRB. This is a summative course that requires students to synthesize knowledge learned across the curriculum. Prerequisite: Junior/Senior Standing.

HS 498 Senior Capstone Seminar (3)

This capstone course is meant to provide students with the opportunity to assimilate and synthesize the knowledge, skills, and attitudes they have acquired through their coursework and field experiences in the major. Through the development of a portfolio, students will demonstrate the acquisition of the major learning objectives necessary to become a skilled human service professional. This course will address additional issues related to professional development and educational advancement. Prerequisite: Majors only.

HS 600 Integrative Family and Human Services (3)

This course uses an integrative lens to survey the profession and practice of family and human services, with an emphasis on addiction counseling. An advanced ecological approach will be used to examine various dimensions of professional practice, including historical and international contexts, family and community involvement, culture-informed practices, integrated treatment, and professional self-care. The content of this course is based on TAP-21 Competencies. Prerequisite: Admission to Graduate Program or Department consent.

HS 601 Working with Trauma (3)

This course provides information on the concept of psychological trauma as well as an overview of the common responses to trauma in individuals and families, PTSD diagnostic criteria, and resilience. Current treatment practices, both evidence-based and alternative, are reviewed. Principles for working with trauma-exposed populations in Human Services/Addiction Counseling are emphasized.

HS 602 Trauma and Recovery Services (3)

This course provides an overview of prevention and intervention services available to persons and families who have experienced traumatic stress. Particular focus will be placed on trauma-informed strategies and ethical interventions. Topics will include various traumatic exposures that may be experienced across the lifespan, including child abuse, bullying, partner violence, sexual violence, human trafficking, hate crimes, homicide, elder abuse, military trauma, natural disasters, and vehicle accidents.

HS 604 Advanced Methods Individual Counseling (3)

This course provides the study of counseling theories and practical skills necessary for effective face-to-face and individual counseling. Students will learn a variety of evidenced-based and culturally sensitive techniques designed to facilitate the therapeutic relationship as well as the educational and psycho-social development of clients. Competence in counseling is built on an understanding of, appreciation of, and ability to appropriately use the contributions of various addiction counseling theoretical models as they apply to modalities of care for individuals, groups, families, couples, and significant others. The content of this course is based in part on TAP 21 competencies. This is a required course for addiction counseling licensure at the clinical level with the Kansas BSRB. Prerequisite: Admission to Graduate Program or Department consent.

HS 605 Advanced Methods Group Counseling (3)

This course is designed to provide knowledge and practical skills in management of psycho-educational and therapeutic groups. Students will learn a variety of techniques and strategies designed to facilitate educational and psycho-social development of groups of clients and significant others. This course will include information on criteria for cognitive-behavioral strategies and other evidence-based, culturally sensitive approaches to group counseling. Prerequisite: Admission to Graduate Program or Department consent.

HS 610 Professional Ethics/Practice (3)

This course covers major professional readiness issues, including code of ethics, privacy rights and confidentiality, legal responsibilities and liabilities of clinical supervision, and development of a professional attitude and identity. Cultural competence, professional organizations, and licensure and certification are also covered topics. The content of this course is based in part on TAP 21 competencies. This is a required course for addiction counseling licensure at the clinical level with the Kansas BSRB. Prerequisites: Admission to Graduate Program or Department consent.

HS 611 Family Issues (3)

This course will explore the role that family interaction plays in the various areas of Family and Human Services. Different theories of family functioning and intervention will be reviewed, as well as major risk and resiliency factors. Specific attention will be paid to family issues using a strengths-based approach to domestic violence, youth issues, aging family members, illness and disability, and addictions. For students preparing to work as addiction and recovery counselors, knowledge of ways to teach or facilitate discussions of how substance use and abuse affects families and concerned others will be emphasized. The content of this course is based in part on TAP 21 competencies. Prerequisite: Department consent.

HS 615 Advanced Pharmacology and Substance Use Disorders (3)

This course will address concepts of pharmacological properties and effects of psychoactive substances. The continuum of drug use will be discussed, such as initiation, intoxication, harmful use, abuse, dependence, withdrawal, craving, relapse, and recovery. Behavioral, psychological, social, and physical health effects of psychoactive substances, drug interactions, and medication-assisted therapies will be presented. The content of this course is based in part on TAP 21 competencies. This is a required course for addictions counseling licensing with the Kansas BSRB. Prerequisites: Admission to Graduate Program or Department consent.

HS 620 Integrative Approaches to Co-Occurring Disorders (3)

This course will discuss the collaborative approaches of psychopharmacology, psycho education, supported employment, and culturally sensitive/ integrated/recovery-oriented substance use and mental health treatment. The content of this course is based in part on TAP 21 competencies. This is a required course for addictions counseling licensing with the Kansas BSRB. Prerequisites: Admission to Graduate Program or Department consent.

HS 621 Women and Addictions (3)

Women with substance use disorders have serious and unique health concerns. Using a bio-psycho-social-spiritual framework, this course will examine how treatment services are changing to help women successfully navigate the road to recovery. Prerequisite: Admission to Graduate Program or Department consent.

HS 623 Addiction Service Coordination (3)

This course focuses on the coordination of services for family and human services clients. Students will learn about intake, screening, assessment, diagnosis, client placement, treatment planning, discharge/transfer plans, report writing, referral and other aspects of service coordination. The course stresses a multidisciplinary approach to service coordination and examines the roles of professionals, agencies, families, community groups, and other support systems in the treatment process across the continuum of care. Students will learn effective, ethical ways to work with clients, with a focus on recovery-oriented systems of care. The content of this class is based in part on TAP21 competencies. Prerequisite: Admission to Graduate Program or Department consent.

HS 625 Addiction/Recovery Services (3)

This course will cover the holistic theories and models of treatment which include the philosophies, practices, policies and outcomes of the most generally accepted and evidence-based models of treatment, recovery, relapse prevention, and continuing care for addiction and other substance-related problems. Students will consider the neurobiological, psychological, sociological, and spiritual theories of addiction and recovery, including theories necessary for social change related to addiction and recovery. An emphasis in the course will be given to recovery-oriented systems of care. The content of this course is based in part on TAP 21 competencies. This is a required course for addictions counseling licensing with the Kansas BSRB. Prerequisites: Admission to Graduate Program or Department consent.

HS 630 Lifespan Development (3)

This course will focus on an integrative approach to wellness from before conception through the end of life. Students will learn about research-supported strategies for supporting biological, psychological, social, and spiritual health and well-being with a focus on meeting needs of the "whole person" throughout the lifespan. Prerequisites: Admission to Graduate Program or Department consent.

HS 635 Diagnosis of Substance Use Disorders (3)

The course will cover diagnosis of substance use disorders, including the established diagnostic criteria for culturally sensitive screening, assessment, treatment planning, referrals, service coordination, documentation, and consultation. The theories and principles that support the diagnosis and treatment of substance use disorders will be discussed, including indications and contraindications for use of each theory or technique, rationale for intervention, role of the counselor, and importance of incorporating gender and ethnicity in selecting and using assessment and treatment methods. The content of this course is based in part on TAP 21 competencies. This is a required course for addictions counseling licensing with the Kansas BSRB. Prerequisites: Admission to Graduate Program or Department consent.

HS 640 Practicum I (3)

This course includes a seminar and placement at an approved practicum site, providing the opportunity for applying clinical professional skills under supervision. Course completion will require satisfactory evaluation by the field supervisor, fulfillment of seminar course requirements, and completion of required fieldwork and supervision hours. The skills practiced in this practicum are based on TAP-21 competencies. This is a required course for addiction counseling licensure with the Kansas BSRB. Prerequisites: HS 604, HS 605, HS 610, HS 635.

HS 641 Practicum II (3)

This course includes a seminar and placement at an approved practicum site, providing the opportunity for further refinement of clinical professional skills under supervision. Course completion will require satisfactory evaluation by the field supervisor, fulfillment of seminar course requirements, and completion of required fieldwork and supervision hours. The skills practiced in this practicum are based on TAP-21 competencies. This is a required course for addiction counseling licensure with the Kansas BSRB. Prerequisites: HS 604, HS 605, HS 610, HS 635; concurrent or prerequisite HS 640.

HS 650 Multicultural Issues (3)

This course provides an overview of the major issues in providing family and human services to the increasingly pluralistic population of the United States. Themes to be discussed are: cross-cultural theories of intervention, communication styles, definitions of suffering and recovery, and working with diverse individuals and groups. The range of human service delivery systems, including mental health, alcohol and substance abuse, youth services, gerontology, and victim/survivor services, will be addressed from a multicultural perspective. Emphasis will be on exploring provider attitudes and competencies as well as developing practical applications and solutions. For students preparing to work as addiction and recovery counselors, special emphasis will be given to recognizing the social, political, economic, and cultural context within which addiction and substance abuse exist, including risk and resiliency factors that characterize individuals and groups and their living environments. Prerequisites: Admission to Graduate Program or Department consent.

HS 655 Peacemaking (3)

The course will cover the need for peace education in our society. Peace education is pertinent for students majoring in family and human services with an interest in working with violence and poverty prevention, social justice, the environment, youth, and sustainable communities. Other students will find value in the course through the experiential component of designing a peace education presentation that can be used in their community. Topics include personal peacemaking, nonviolence, conflict resolution, compassionate intentional living, civil rights, equity, education and the environment. Prerequisites: Admission to Graduate Program or Department consent.

HS 660 Supervision and Leadership (3)

This course will provide the knowledge and skills for successful clinical supervision and leadership/administration in family and human services. The content of this course is based on TAP-21 Competencies. Prerequisites: Admission to Graduate Program or Department consent.

HS 665 Integrative Residential Experience (3)

This course offers students the opportunity to practice integrative approaches in a group setting. This is a 5-day residential that involves intense immersion in creative, expressive, service, and routine activities to enhance the experiential learning of students to incorporate these aspects into addiction counseling and other residential treatment facilities. Prerequisites: Admission to Graduate Program or Department consent.

HS 670 Mass Victimization/Mental Health (3)

This course will provide an overview of interventions used with victims following mass violence and disasters. Additionally, compassion fatigue effects and methods used to assist emergency responders who become victims of disaster through their role in response and recovery will be thoroughly discussed. Attention will focus on mental health effects dealing with both immediate and long-term recovery issues for immediate victims and those responding to the incident. Prerequisites: Admission to Graduate Program or Department consent.

HS 673 Disaster Response and Recovery (3)

This course will provide an overview of the hazard cycle, and basic concepts of disaster preparedness, response, and recovery. Additionally, this course will provide an overview of the helping professional's role during times of disaster, including the discussion of the specific emergency support functions assigned to groups and agencies as designated in the National Response Framework. Emphasis will also be paid to concepts used when working with direct and indirect victims of disaster. Prerequisites: Admission to Graduate Program or Department consent.

HS 679 Narrative Practice (3)

This course explores the approach of narrative practice as a tool for healing and teaching. Students will become familiar with the basic goals, concepts, and approaches of narrative practice, and the potential contributions of narrative practice to create change. Narrative practice includes using poetry, letter writing, storytelling, journaling, and more, as tools to promote healing, recovery and personal growth. Students will read and discuss the literature relating to narrative practice and will study the implications of the narrative perspective for counseling. They will learn about the application of narrative practice through classroom based experiential exercises and other assignments. Students will learn how narrative practice helps individuals and groups rewrite their stories to transform their lives. Prerequisites: Admission to Graduate Program or Department consent.

HS 685 Special Topic Seminars (1-6)

Topics will vary by semester and will be announced in advance. Prerequisites: Admission to Graduate Program or Department consent.

HS 695 Applied Research (3)

This course covers the purposes and techniques of applied research, including qualitative and quantitative approaches. Topics to be discussed include research methodology, data collection and analysis, computer research skills, critical evaluation of professional research reports, and practical application of research within cultural and historical context. The content of this course is based in part on TAP 21 competencies. This is a required course for addictions counseling licensure with the Kansas BSRB. Prerequisite: Admission to the Graduate Program or Department consent.

HS 777 Continuous Enrollment (1-3)

This course is to allow students additional time to complete Capstone, Thesis or Practicum requirements. Prerequisite: Admission to the Graduate Program or Department consent.

INFORMATION LITERACY (IL)

IL 170 Library Research Strategies (1)

Designed to both introduce and improve basic library research skills using the print and automated information retrieval resources of the University Library. Additional in-depth analysis of database sources, the ability to construct search strategies and evaluation of materials are covered. Prerequisites: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- Gen Ed Pre-AY 2024-2025: Natural Science
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Information Literacy and Technology

IL 171 Internet Research Strategies (1)

Designed to both introduce and improve research strategies for finding scholarly information on the Internet, including resources in the Invisible Web that cannot be accessed with standard search engines, such as Google. Students will learn to formulate and modify an effective search strategy, investigate the theory behind the search process, and critically evaluate electronic resources based on appropriate criteria. This course is offered on-campus, on-line or hybrid. Prerequisites: IL 170.

IL 172 Advanced Research Strategies (1)

Designed to introduce and improve advanced research strategies for students that have completed both IL 170 and IL 171. Students will focus on research in the disciplines and create artifacts for an identified discipline. This course is ideal for students that are interested in designing a research plan for publication. This course is offered on-campus, on-line or hybrid. Prerequisites: IL 171.

IL 174 Trace Your Family History (1)

In this course, students will use an advanced approach to the research process and methods for retrieving information for a scholarly paper or presentation. Experience in the research process, selecting a topic, and retrieving information on topics is required. Focus is on developing the following skills: understanding the many types of research, methods, delivery of research results in the academic community. Prerequisites: None.

IL 300 Information Literacy for Scholars (3)

In this course, students will use an advanced approach to the research process and methods for retrieving information for a scholarly paper or presentation. Experience in the research process, selecting a topic, and retrieving information on topics is required. Focus is on developing the following skills: understanding the many types of research, methods, delivery of research results in the academic community. Prerequisites: None.

IL 301 Google and Beyond (3)

An introduction to information searching and evaluating information in digital, print, visual, and aural formats, students will learn advanced search techniques used in online resources. Students will develop skills to locate reliable information to become and remain informed citizens. This class will improve student communication, critical thinking, and information literacy skills. Prerequisites: None.

IL 311 Information Literacy Health Professions (3)

This course acquaints students with the processes of finding, organizing, using, producing and distributing information in a variety of formats specific to the Health Sciences. Students will examine the flow of information in a variety of Health Sciences disciplines, effective research processes, how to access information in multiple formats and how to formulate effective searches in health specific electronic databases and on the Internet. Learning how to evaluate the quality of information and becoming familiar with practical, social and ethical issues relating to information within the health professions in an increasingly technological society is a key component of the course. This class seeks to improve student communication, critical thinking and information literacy skills in health professions. Prerequisites: None.

IL 321 Information Organization and Access (3)

This course introduces the fundamentals of identifying objects or ideas, including description, content indication, and metadata. Students will learn basic aspects of representing and organizing information resources in daily lives or academic settings. This class will improve student communication, critical thinking, and information literacy skills. Prerequisites: None.

IL 351 Information, Culture, & People (3)

In a study of how individuals and groups create meaning, students will explore research topics concerning people and communication, including information literacy, organization and innovation, knowledge management, and information as cultural phenomenon. Students will study various international and generational cultures' access to and ways to share information, preparing them for interaction with professional colleagues from varied backgrounds. This class will improve student communication, critical thinking, information literacy skills, and understanding of the knowledge society. Prerequisites: None.

IL 398 Information Literacy Readings (3)

The 3-credit forum course for Information Literacy Minors to provide students guidance and training in the skills and processes necessary for the practice of Information. The course draws upon research methods and critical analysis culminating with an annotated bibliography. Also, students will be introduced to opportunities in the Information Literacy field and the ethics of information literate citizens in the knowledge society. The course will be delivered online. Prerequisites: IL 170, IL 171, and IL 172 or consent of instructor.

IL 399 Information Literacy Research (1-3)

The capstone course for Information Literacy Minors devoted to guided and independent research, developing bibliographic techniques in the creation of a written artifact and culminating in a presentation to the class. The course will be delivered online. Prerequisites: IL 170, IL 171, and IL 172 or consent of instructor.

INTENSIVE ENGLISH (IE)

IE 070 Intensive English-Acad Purp I (1-3)

Combined skills course with IE 100 centered around U.S. cultural themes. It is considered a special topic course as the needs of the students taking it are considered when designating the specific outcomes of English language learning and cultural competence. It may be offered as a short-term course for exchange/visiting students for English language skills improvement within a U.S. cultural experience.

IE 072 Reading Comprehension for Academic Purposes I (4)

Develops nonnative English speakers' vocabulary and reading skills for personal and academic communication using materials with diverse topics. Students focus on learning the most common words in English and begin to do sustained content reading at a high beginning level using strategies to help them increase comprehension and gain fluency and vocabulary. Prerequisite: None.

IE 073 Speaking and Understanding for Academic Purposes I (4)

Students are introduced to the words and phrases needed for everyday social situations including introductions and begin to develop their listening skills in simple conversations and speaking skills for the U.S. college classroom.

IE 074 Writing for Academic Purposes I (4)

This course is for nonnative English speakers and focuses on foundational writing skills from sentence structure to well-organized paragraphs of various kinds. Besides analyzing audience and purpose, basic citation and research skills are covered. Students will develop skills in writing sentences with correct structure and a beginning-level paragraph on concrete or personal subjects. They will also be able to use technology to compose their writing, including appropriate written communication with an instructor.

IE 091 Language & Culture in Context Seminar I (0-2)

IE 091 and IE 092 give international students unique opportunities to experience language in local cultural contexts and challenge their application of the English language. Students will go on field trips and hear guest speakers from diverse backgrounds on relevant topics to the international student. Students will be required to complete a project and write a journal with reflections on their experiences. IE 091 is offered in the fall and IE 092 is offered in the spring. These courses meet for one-three hours per week but do not count toward the 120 hour baccalaureate degree requirement. Full time Intensive English students are required to enroll in these courses. No prerequisite. Repeatable.

IE 092 Language & Culture in Context Seminar II (0-2)

IE 091 and IE 092 give international students unique opportunities to experience language in local cultural contexts and challenge their application of the English language. Students will go on field trips and hear guest speakers from diverse backgrounds on relevant topics to the international student. Students will be required to complete a project and write a journal with reflections on their experiences. IE 091 is offered in the fall and IE 092 is offered in the spring. These courses meet for one-three hours per week but do not count toward the 120 hour baccalaureate degree requirement. Full time Intensive English students are required to enroll in these courses. No prerequisite. Repeatable.

IE 100 Intensive English-Acad Purp II (1-3)

Combined skills course with IE 070 centered around U.S. cultural themes. It is considered a special topic course as the needs of the students taking it are considered when designating the specific outcomes of English language learning and cultural competence. It may be offered as a short-term course for exchange/visiting students for English language skills improvement within a U.S. cultural experience.

IE 102 Reading Comprehension for Academic Purposes II (4)

Develops nonnative English speakers' vocabulary, grammar, and reading skills for personal and academic communication using materials on diverse topics. Students will become active readers of content in English at an intermediate level and further develop their strategies for vocabulary learning and reading fluency to increase their comprehension and also their understanding of text organization. Prerequisite: IE 072, or equivalent English proficiency test scores, or IEP coordinator permission.

IE 103 Speaking and Understanding for Academic Purposes II (4)

Nonnative English-speaking students practice to improve their oral and aural skills. They prepare to participate in everyday social conversations, classroom interactions, listening effectively to lectures and being involved in basic discussions. Students are expected to prepare and give short speeches and will be tested weekly on a list of idiomatic expressions. Students develop intermediate level skills, including grammar, to participate in everyday social conversations, classroom interaction, and intermediate-level discussions. Students will also increase their listening and note-taking skills to be able to comprehend short lectures on general topics. Prerequisite: IE 073, or appropriate listening and speaking English proficiency test scores, or IEP coordinator permission.

IE 104 Writing for Academic Purposes II (4)

This course for nonnative English speakers focuses on foundational writing skills from sentence structure to well-organized paragraphs of various kinds. Besides analyzing audience and purpose, basic citation and research skills are covered. Students will develop skills in writing and grammar for intermediate-level academic paragraphs of the following types: definition, description, opinion, explaining processes. Students will also learn strategies to apply to writing and editing. Prerequisite: IE 074, or appropriate English proficiency test scores, or IEP coordinator permission.

IE 202 Reading Comprehension for Academic Purposes III (4)

By reading books, articles and sample academic texts, nonnative English speakers in this course study and practice effective reading and investigating strategies to discover the ways ideas are expressed and put into writing. Students will develop academic vocabulary, grammar skills, reading fluency, comprehension and strategies to become active readers at a high intermediate/low advance level monitoring and adjusting their strategies to meet the demands of academic reading for university courses. Prerequisite: IE 102, or equivalent English proficiency test scores, or IEP coordinator permission.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

IE 203 Speaking and Understanding for Academic Purposes III (4)

This course focuses specifically on the speaking, listening, and grammar skills needed for presentations, the basic organization of American communication, and idiomatic expressions that prepare the student for the American academic and professional environment. Cannot be taken concurrently with CN 150 Public Speaking. Students will also increase their listening and note-taking skills to be able to comprehend lectures on general academic topics. Prerequisite: IE 103, or equivalent English proficiency listening and speaking test scores, or IEP coordinator permission.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

IE 204 Writing for Academic Purposes III (4)

Students develop the ability to compose, (i.e., comprehend, select, plan, draft) and produce essay length texts on diverse general education academic topics by applying appropriate grammar skills and writing strategies with basic knowledge of how to use other sources and cite without plagiarism. Cannot be taken concurrently with EN 101. Prerequisite: IE 104, or appropriate English proficiency test scores, or IEP coordinator permission.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

IE 294 Writing for Academic Purposes III (GR only) (3)

Transitional course for graduate students. Expressing ideas in writing for the American academic and business reader is the goal in these courses for nonnative English speakers. Students will learn the conventions of expository paragraphs, essays and investigative reports. Summary, analysis, citation and research skill practice are included. Cannot be taken concurrently with EN 101 First Year Writing or EN 300 Advanced College Writing.

IE 295 Special Topics: Enhancing Skills for Graduate Studies (3)

This course for non-native English speakers only will orient students who haven't completed an undergraduate degree in the US to the style and rigor specified by individual graduate programs. Typically this will involve specific instruction to help students improve research, presentation, group work, and higher level academic writing skills that are required by graduate programs. Topics and targeted programs will be announced in advance. Prerequisite: IE 202 and IE 204 or equivalent iBT, TOEFL, IELTS scores or instructor permission.

INTERDISCIPLINARY STUDIES (IS)

IS 000 Reservation Placeholder (0)**IS 110 Special Topics (0-6)**

Special topics in interdisciplinary studies announced in advance. May be repeated with different topics. Prerequisite: Consent of Instructor

IS 201 Study Abroad Internal Program (1-18)

Approved study abroad program coordinated by the Office of International Programs.

IS 203 Study Abroad Departmental-Specific Program (1-18)

Approved departmental-specific study abroad program coordinated by the Office of International Programs.

IS 221 Study Abroad External Program (0-18)

Approved external (non-Washburn) study abroad program coordinated by the Office of International Programs.

IS 270 Grant Writing I (3)

This internship course is designed to provide pre-professional work experience, in a sponsored projects office, to facilitate professional development and career exploration in grant writing and grant proposal development in response to either a private or a public opportunity. Prerequisite: None.

IS 300 Mock Trial II (1)

Enrollment is open only to students selected to the Mock Trial Team.

IS 301 Study Abroad Internal Program (1-18)

Approved study abroad program coordinated by the Office of International Programs.

IS 303 Study Abroad Departmental-Specific Program (1-18)

Approved study abroad program coordinated by the Office of International Programs.

IS 321 Study Abroad External Program (0-18)

Approved external (non-Washburn) study abroad program coordinated by the Office of International Programs. Prerequisite: Consent of Instructor.

IS 389 Integrated Studies Capstone Proposal (1)

This course is the prerequisite course to the IS 390 Capstone Project course and must be taken the semester immediately preceding IS 390 or special permission by the BIS Director. This course is designed to assist the student in developing an appropriate capstone project. Prerequisite: At least thirty completed hours from either the Individualized Study Plan (ISP) or the Multi-Disciplinary Study Plan (MDSP) or special permission by the BIS Director.

IS 390 Integrated Studies Capstone (1-7)

The thoughtful integration of diverse materials is a major demand on the student working toward a Bachelor of Integrated Studies. The format may vary in terms of the student's special interests, abilities, imagination, and creativity. May consist of a research paper, a comprehensive written examination on selected reading materials, an oral presentation, or a special performance utilizing one or more art forms or modes of expression. Prerequisite: IS 389 or by consent of the BIS Director.

IS 400 Special Topics (0-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: Consent of instructors.

IS 420 Study Abroad Internal Program (1-18)

Approved senior- or graduate-level study abroad programs coordinated by the Office of International Programs.

IS 421 Study Abroad External Program (0-18)

Approved study abroad programs for senior- or graduate-level hosted by another US institution.

IS 470 Grant Writing II (3)

This internship course is designed to provide pre-professional work experience, in a sponsored projects office, to facilitate professional development and career exploration in grant writing and grant proposal development in response to both private and public grant opportunities. Prerequisite: None.

IS 471 Grant Administration Internship (3)

This course is designed to provide pre-professional work experience, in a sponsored projects office, to facilitate professional development and career exploration in the administration and management of a grant (sponsored project) award. Prerequisite: IS 270 or IS 470.

JAPANESE (JP)

JP 101 Beginning Japanese I (4)

Introduction to conversation, reading, writing, grammar and composition. Development of oral/aural skills. Particular emphasis on contemporary culture and social customs in Japan. A CD Rom program to develop phonological skills is a component of this course. Offered fall semester only. No prerequisite.

JP 102 Beginning Japanese II (4)

Continuation of Japanese I. Offered spring semester only. Prerequisite: JP 101 or consent of instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

JP 201 Intermediate Japanese I (3)

This course is intended as reinforcement of the 5 skills learned in JP 102: speaking, listening, reading, writing and culture. This course is the continuation of JP 102.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

JP 202 Intermediate Japanese II (3)

This course is a continuation of JP 201.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

KANSAS STUDIES (KS)

KS 199 Special Topics: Kansas Studies (3)

An interdisciplinary topics course on a theme associated particularly with Kansas history and culture, which is team taught by Fellows of the Center. Students and faculty will be challenged to integrate material from different perspectives on a common topic based on joint interest and available resources. As topics change, the course may be repeated for credit.

KS 340 Kansas Studies (1-3)

A multidisciplinary course taught by faculty members of the Center for Kansas Studies that stresses the interrelationships among all aspects of Kansas including anthropology, archaeology, ethnicity, fine arts, geography, geology, history, literature, politics and religion. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

KS 395 Independent Study - Kansas Studies (1-3)

Directed readings and individualized research program on a subject relevant to Kansas Studies and with the guidance of a professor. May be taken for more than one semester. Prerequisite: Consent of Instructor and approval of Director of the Center for Kansas Studies.

KS 397 Internship in Kansas Studies (1-3)

A program for junior/senior-level undergraduates offered in cooperation with a local or state agency with the supervision of the Director of the Center for Kansas Studies. Prerequisite: Approval of Director of the Center for Kansas Studies.

KS 399 Special Topics-Kansas Studies (3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: Consent of Instructor

KINESIOLOGY (KN)

KN 100 Rhythmic Fitness (1)

Rhythmic Fitness

KN 101 Body Toning (1)

Body toning.

KN 102 Archery (1)

Archery

KN 103 Badminton (1)

Badminton

KN 104 Step Aerobics (1)

Step Aerobics

KN 107 Basketball (1)

KN 240 Coaching Principles and Philosophy (2)

This course is required for the Minor in Coaching. It is designed to provide students with a basic understanding of coaching principles and help students develop a sound coaching philosophy. Students will examine their roles as coaches, improve communication and management skills, develop technical coaching skills, and learn proper team training and management strategies. This course will provide content necessary for students to complete the American Sport Education Program's (ASEP) certification exam. Prerequisite: Sophomore status.

KN 248 Wellness Concepts and Applications (3)

The purpose of this course is to introduce and explore the essential concepts of wellness and to gain an understanding of the processes that contribute to developing and maintaining a healthy lifestyle. The wellness approach will emphasize personal responsibility for one's health through critical examination and evaluation of the consequences of lifestyle choices, the selection and development of behavior change skills that promote optimal enhancement of all wellness dimensions, and the creation of a personal wellness plan for a productive and satisfying life. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

KN 250 Introduction to Kinesiology (2)

This course examines the process of human movement as a unifying element in the study of the discipline of Kinesiology. Content areas include the scientific foundations of human movement, the history and philosophy of physical education, the role of physical education in the educational process, general purposes of Kinesiology programs, career orientation and the future of Kinesiology.

KN 257 Prevention and Care of Athletic Injuries (3)

This course will instruct and evaluate contemporary methods of conditioning, prevention, recognition and acute care of athletic injuries. This course will also focus on risk assessment and management relating to physical activity. The course is appropriate for Kinesiology majors, pre-healthcare majors, and students interested in coaching. An additional fee is associated with this course.

KN 266 Microcomputer Applications to Kinesiology (2)

This course examines computer technology applications and software related to Kinesiology and Physical Education. Prerequisite: Kinesiology or Physical Education Major, KN 248 and KN 250; or 54 credit hours and consent of instructor.

KN 271 First Aid and CPR (2)

General emergency first aid including sudden illness, musculoskeletal injuries, heat/cold emergencies, splinting, bandaging and CPR. Opportunity is provided to earn both American Red Cross Responding to Emergencies First Aid and CPR certifications. An additional fee is associated with this course.

KN 280 Sports Officiating I (2)

Study and interpretation of current rules; field work for practicing officiating techniques. Prerequisite: Consent of instructor.

KN 281 Coaching Football (2)

Fundamentals and coaching techniques in coaching football. Rules, planning and implementing practice sessions, offensive and defensive techniques and strategies, game day organization, and administrative responsibilities will be covered. implementing practice sessions, offensive and defensive techniques and strategies, game day organization, and administrative responsibilities will be covered.

KN 282 Coaching Basketball (2)

Fundamentals and coaching techniques in basketball. Rules, offensive and defensive strategies, planning and implementing practice sessions and administrative requirements will be covered. strategies, planning and implementing practice sessions and administrative requirements will be covered.

KN 283 Coaching Track and Field (2)

Fundamentals and coaching techniques and methods in all events within a track and field program. Rules and regulations, meet strategies, planning and implementing practice sessions and administrative requirements will be covered.

KN 284 Coaching Baseball and Softball (2)

Fundamentals and coaching techniques in baseball and softball. Rules, offensive and defensive strategies, planning and implementing practice sessions and administrative requirements will be covered.

KN 285 Coaching Volleyball (2)

Fundamentals and coaching techniques involved in coaching volleyball. Rules, practice and game day organization, offensive and defensive strategies, and administrative responsibilities will be covered.

KN 286 Coaching Soccer (2)

Fundamentals and coaching techniques in soccer. Rules, offensive and defensive strategies, planning and implementing practice sessions administrative requirements will be covered.

KN 291 Field Experience 1 in Exercise and Rehabilitation Science (1)

This course is designed to help students explore exercise and rehabilitation professions, providing them a framework for the foundational knowledge and skills gained as an exercise and rehabilitation science major. Field observations exposing majors to potential careers and professional settings are included. Prerequisites: KN 248 & AL 101 or KN 250 & NU 102.

KN 299 Measure & Eval in Kinesiology (2)

This course is designed to provide students with an understanding of measurement and evaluation principles in Kinesiology, and emphasizes the selection, development, administration and interpretation of appropriate assessments for physical education. Skill performance and fitness assessments with computer applications will be included. Prerequisites: KN 248 and KN 250, plus MA 112 or MA 116.

KN 300 Psychology of Sport and Physical Activity (3)

The study of psychological processes related to sport and exercise behavior. The course will provide a broad overview of the major topics, including: motivation, arousal, goal-setting, self-confidence, and imagery. Prerequisites: KN 248 and KN 250, or junior standing and consent of instructor.

KN 306 Organization and Administration in Kinesiology (3)

This course is designed to provide a theoretical and practical approach to the organization and administration of Kinesiology programs. Students will be assigned administrative projects to enhance learning. Prerequisite: junior standing or consent of instructor.

KN 308 Nutrition for Sports & Fitness (3)

This course will provide an understanding of nutrition and its relationship to physical fitness and sports performance. Students will learn about nutrition guidelines and the effects of nutrition on topics such as metabolism, hydration, body composition, supplements, ergogenic aids, and sports specific training. In addition, students will perform and analyze nutrition and energy assessments and make recommendations to improve performance. Prerequisite: KN 248 and KN 250, or junior standing and consent of instructor.

KN 311 Motor Development (3)

This course is designed to provide students with an examination of current theories of motor development throughout the life cycle. Emphasis is placed on development of fundamental motor skills, physical growth and development, and assessment. Students will be required to conduct a variety of assessments on diverse individuals. Prerequisites: KN 248 and KN 250 and KN 341 or KN 342 (Kinesiology majors must have C or better in prerequisites).

KN 315 Special Topics in Kinesiology (1-3)

May vary from semester to semester. May be taken more than one semester depending upon topic.

KN 318 Exercise Psychology (3)

This course will introduce students to the basics and provide a solid foundation of psychological consequences and adherence aspects associated with the psychology of exercise. The interconnection among theory, research, application, and intervention will be utilized in order to apply the knowledge learned in this course to actual situations. Prerequisites: KN 248 and KN 250, or junior standing and consent of instructor.

KN 321 Anatomical Kinesiology (3)

The study of anatomical and mechanical principles in relation to human motion. Prerequisite: BI 250 or BI 275.

KN 326 Physiology of Exercise (3)

Process of scientific inquiry applied to physiological systems engaged in exercise. Examination of the acute and chronic effects of exercise on structure, function, and performance. Prerequisite: BI 255.

KN 327 Physiology of Exercise Lab (1)

The purpose of this course is to gain an understanding of the physiology (neuromuscular, metabolic, and cardiopulmonary) of exercise, including the physiology of training (i.e., the acute responses and chronic adaptations that occur due to exercise). This course will reinforce the basic exercise physiology concepts via application, increase awareness of and proficiency in performing selected laboratory tests and measurements commonly used in exercise physiology studies of humans, and provide practice in the process of data collection, evaluation and reporting. Prerequisites: BI 255; must be taken concurrently with KN 326.

KN 330 Administration of Exercise and Rehabilitation Science (3)

This class is designed to provide foundational information relating to the Administration of Exercise and Rehabilitation Science professions for Kinesiology majors who intend on pursuing Exercise or Rehabilitation Science professions. Students will learn the importance of quality management of financial, human, and facility resources. Prerequisites: KN 291 and junior standing.

KN 335 Human Factors and Ergonomics (3)

This course examines human factors and ergonomics as the interdisciplinary study of humans interacting with elements of systems in the workplace and other environments. Thorough analysis, evaluation, and synthesis are employed in the application of design to optimize well-being and performance. Prerequisite: junior standing or consent of instructor.

KN 340 Adapted Physical Education (3)

This course will provide students with the knowledge, skills and instructional techniques necessary to adapt and modify physical activities for students with developmental delays and/or mental and physical disabilities. Legal issues associated with educating individuals with disabilities in the physical education setting will be examined. A practicum experience in the public school setting and/or community setting is required. Prerequisite: KN 311 or consent of instructor.

KN 341 Physical Education Activity Techniques I (2)

This course emphasizes the learning of basic skills and teaching progressions, including lead-up games/activities, instructional strategies & teaching methods for activities such as basketball, soccer/speedball, softball, flag football, team handball, lacrosse, and floor hockey. Prerequisites: KN 248 and KN 250.

KN 342 Physical Education Activity Techniques II (2)

This course emphasizes the learning of basic skills and teaching progressions, including lead up games/activities, instructional strategies and teaching methods of aerobics, weightlifting, track and field, and unique physical education games. Prerequisites: KN 248 and KN 250.

KN 343 Physical Education Activity Techniques III (2)

This course will provide undergraduate physical education majors with an introduction to a variety of sports and activities found in various school curricula. Additionally, the course will provide an opportunity for students to gain teaching experience through peer-teaching experiences. Sports and activities to be covered will include: Archery, Badminton, Bowling, Golf, Pickleball, Table Tennis, Tennis, and Volleyball. Prerequisites: KN 248 and KN 250

KN 344 Physical Education Activity Techniques IV (2)

This course emphasizes the learning of basic skills and teaching progressions, instructional strategies and teaching methods for these activities: Pre-K – 12 rhythms and dance, including creative rhythms, social, folk and line dances, and basic tumbling, stunts and balance activities. Prerequisites: KN 248 and KN 250.

KN 345 Physical Education Activity Techniques V (2)

This course will provide Physical Education and Kinesiology majors with an introduction to a variety of outdoor activities and related teaching experiences. The overall purpose is to provide potential teachers and recreational leaders with the foundational knowledge and skills necessary to teach and participate in a variety of outdoor leisure activities. An additional fee is associated with this course. Prerequisites: KN 248 and KN 250.

KN 350 Orthopedic Evaluation (3)

This course is designed to instruct students on the techniques involved evaluating orthopedic injuries. This course will cover the sequence of a formal evaluation, documentation, the signs & symptoms of common injuries, & differential diagnosis. Prerequisite: KN 321.

KN 357 Sports Performance Training and Conditioning (3)

This course provides students with the knowledge and skills to design, measure, and instruct contemporary activity-specific functional training programs. The course will emphasize methods and progression of strength, flexibility, speed, power including Olympic lifts and plyometrics, agility, balance, core and endurance training techniques with modern tools and exercise equipment. Peer teaching and testing and opportunity to participate in practical application of skills is included. Prerequisite: BI 255 and KN 342.

KN 367 Therapeutic Exercise (3)

This course is designed to provide Kinesiology majors with theoretical basis, comprehension and synthesis in the application of therapeutic exercise to address metabolic disease and musculoskeletal disorders. Students will develop specific exercise approaches for a varied population of people with a variety of special conditions to improve movement, function and quality of life. Prerequisite: KN 321.

KN 370 Facility & Event Management (3)

This course addresses the principles and procedures involved in sports facility and event management. Special emphasis will be given to sports event planning, production, and evaluation. Prerequisite: KN 306 or instructor approval.

KN 403 Biomechanics (3)

This course provides an overview of biomechanics related to sport and exercise. Specific topics include: external forces and their effect on the body and its movement, including linear and angular kinetics; work, power, and energy in human activity; and the internal mechanics of human tissues, specifically the bones, skeletal muscle, ligaments, and tendons that make movement possible. This course will consist of lecture, discussion, and laboratory sessions to communicate the background of biomechanical principles, as well as their application. Prerequisites: KN 321 and PS 131/PS 132 or PS 261

KN 410 Fitness Testing and Exercise Prescription (3)

Students will become familiar with current fitness testing procedures and exercise prescription methods. Prerequisites: KN 326 and KN 342, MA 140 or PY 151.

KN 411 Current Literature in Kinesiology (3)

This course acquaints students with the processes by which research generates information and theoretical advances in Kinesiology and also explores specific recent developments in the field. Prerequisite: KN 326, MA 140 or PY 151.

KN 420 Curriculum Development for Elementary and Secondary Physical Education Methods (3)

Instructional methods, resources and curriculum development aimed at preparing future physical education teachers with the knowledge to create developmentally appropriate activities for preschool through high school age students, utilizing practical site-based experiences in planning, teaching, and evaluating physical education programs. Prerequisites: KN 311, plus any of the following: KN 341, KN 342, KN 343, KN 344, KN 345, and formal admission to the Professional Teacher Education Program or consent of instructor.

KN 430 Senior Seminar Physical Education (1)

This is a capstone course in which teacher candidates will review and update their Physical Education philosophy, complete their Physical Education portfolio, further develop their professional goals and plan for professional development; create their advocacy plan, and complete a practical experience related to the major. Prerequisites: Senior standing and formal acceptance into the Professional Teacher Education Program; or consent of instructor.

KN 491 Field Experience 2 in Exercise and Rehabilitation Science (3-6)

This course is designed for students interested in gaining practical experience in settings related to exercise and rehabilitation science, such as athletic training, physical therapy, clinical exercise physiology, fitness/wellness, sports and conditioning or research settings. Prerequisites: KN 291, KN 357 and KN 410; current First Aid and CPR certifications must be on file prior to the start of the field experience.

KN 497 Internship: Sport Management (6-12)

This course provides an off-campus experience in the field of sport management, in areas such as facility operations, game day promotions and advertising, ticket sales, and/or front-office administration. Each credit hour of internship equates to 50 contact hours at the internship site. This internship is for a minimum of 300 hours and a maximum of 600 hours. Prerequisite: All Major and Activity Requirements completed; current First Aid and CPR certifications must be on file prior to start of internship.

KN 498 Internship: Health and Fitness Promotion (3-6)

This course provides an off-campus experience in health promotion and/or fitness settings such as public health, corporate wellness, personal training, strength and conditioning, and recreation administration. Each credit hour of internship equates to 50 contact hours at the internship site. This internship is for a minimum of 150 hours and a maximum of 300 hours. Prerequisite: All Major and Activity Requirements completed; current First Aid and CPR certifications must be on file prior to start of internship.

LEADERSHIP (LE)

LE 100 Exploring the Concept of Leadership (3)

A survey of leadership theories and introduction to the academic study of leadership using contexts of the leadership process and case studies; requires identifying personal leadership potential, articulating a personalized leadership theory, and applying leadership concepts in a Campus Action Project. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

LE 125 Foundations of Leadership in Society (1-3)

This course will expose students to a variety of concepts, theories and skills relevant to contemporary leadership thought. Students will be challenged to consider their personal conceptions and philosophy of leadership. Students will examine leadership within particular contexts such as creating change, ethical leadership, leadership and management, and historical leadership thought and leaders. Prerequisite: None.

LE 200 Ethical Responsibilities of Leadership (3)

A survey of the fundamental ethical responsibilities of leadership; requires examination of obstacles to and opportunities for ethical leadership, an understanding of the cultural contexts of leadership and an articulation of a personal ethics statement as a foundation for applied ethics in the leadership process. Prerequisite: LE 100 or appropriate HN 202 or consent.

LE 300 Leadership Skills Development (3)

Students focus on developing individual and interpersonal leadership skills, teamwork and collaboration skills, and an understanding that leadership is more than the exercise of power; techniques for embracing and leading change are practiced in a semester-long change project. Prerequisite: LE 200 or appropriate HN 201 section or consent.

LE 301 Leadership Skills Integration (0-3)

Students will integrate their learning from a leadership skills course from another department with the curriculum of the Leadership Institute. Outcomes include development of individual and interpersonal leadership skills, teamwork and collaboration skills, and an understanding that leadership is more than the exercise of power; techniques for embracing and leading change are practiced in a semester-long change project. Prerequisite: LE 200 or appropriate HN 201 section or consent; Corequisite: NU 450 or another departmental leadership skills course at a 300 level or higher.

LE 320 Leadership Campus Experience I (0-1)

Students will review a contemporary leadership theory as a framework with which to integrate their learning from a campus leadership position with an understanding that leadership is more than just a position. Students will begin to think critically about creating change in association with a campus leadership experience. Prerequisite: Consent of instructor or junior standing.

LE 321 Leadership Campus Experience II (0-1)

Students will participate in a campus leadership position and reflect on the experience to develop a greater awareness of self and how they contribute to the process of leadership. Prerequisite: Consent of instructor or junior standing and completion of LE 320.

LE 322 Leadership Campus Experience III (0-1)

Students will reflect on leading change through implementation of a change project. Within this course, students will reflect on their learning from their student involvement within the framework of leadership theories. Prerequisite: Consent of instructor or junior standing and completion of LE 320 and LE 321.

LE 350 Leadership Practicum Experience (3)

Students pursuing the Leadership Studies Certificate will practice a "change agent" leadership role by implementing and evaluating a change process, and produce a detailed record of the experience suitable for archiving. Prerequisite: LE 300 or consent of instructor.

LE 375 Gender and Leadership (3)

An examination of an analytic framework for understanding the role that gender plays in defining and determining access to leadership and power. Contains an analysis of the myths, challenges, and opportunities that accompany the issue of gender through an exploration of gender and leadership both conceptually and practically. Prerequisite: Consent of instructor or junior standing.

LE 398 Special Projects - Leadership (0-3)

Independent study or project in leadership. The same project may be repeated up to 3 credits. Prerequisite: Consent of instructor.

LE 399 Special Topics in Leadership (0-3)

Special topics in leadership. May be repeated for different topics. See course schedule for current offerings. Prerequisite: Consent of instructor or junior standing.

LE 400 Leadership Internship (3)

Students will practice a "change agent" leadership role by implementing and evaluating an evidence-based change process, and produce a detailed record of the experience suitable for archiving. Prerequisite: LE 300 and consent of instructor.

LE 401 Leadership Internship Integration (0-3)

Students integrate their learning from an internship from another department with the curriculum of the Leadership Institute. Students must practice a "change agent" leadership role within this internship. Within this course, students will reflect on their learning from the internship within the framework of the Leadership Institute curriculum. Prerequisite: Consent of Instructor. Corequisite: NU 462 or another departmental leadership internship course.

LE 601 Self and Systems Leadership (3)

This course explores the ways in which one interacts with given systems to provide effective leadership, and the various elements of both self and system that must be considered in this process. This requires an ability to critically examine oneself as a leader, including analysis of one's own core values and adherence to these values. Students will seek and critically examine new knowledge to improve one's leadership practice and consider the ramifications of leadership actions in systems of various scale. Students will develop a personal leadership plan and consider how this plan will affect their community of interest.

LE 620 Leadership/Resource Stewardship (3)

This course explores a leader's responsibility as a steward of an organization's human, financial and technological resources. Students will explore how the concepts of stewardship can be applied to the organization through responsible planning and management of resources. Students will develop an understanding of how to align resource plans with the organizations strategic goals and direction. The course will focus on key concepts and current readings in strategic budgeting, strategic organizational management structures, and strategic performance measurement. Students will critically evaluate organizational practices in these areas, consider alternatives and potential enhancements, and develop plans to align with and ensure achievement of the organization's strategic goals. Prerequisite: LE 601 or instructor permission.

LE 630 Organization Improvement & Innovation (3)

This course will focus on the role of leaders in the realization of organizational mission and vision through assessment, utilizing a continuous improvement framework, and innovation. Organizational assessment is required to understand critical problems to solve and opportunities to explore. Continuous improvement, utilizing Lean Six Sigma, provides a model for problem solving and opportunity development. If organizational assessment and a process improvement framework is supported, then innovation is more likely to occur. This requires the leader to work collaboratively with various stakeholders, and to manage the change process to ensure sustained outcomes. Prerequisite: LE 601 or instructor permission.

LE 640 Public Policy & Global Leadership (3)

Diversity in the organization is the new norm, and leaders must develop a high level of cultural intelligence in order to balance micro- to macro-system priorities and competing perspectives. This course will emphasize leadership of local/global organizations within environments of escalating complexity and change. This course builds upon previous leadership courses to analyze, implement and evaluate effective leadership strategies within local/global settings, with an emphasis on policy development, ethics, and social advocacy. Prerequisite: LE 601, LE 620, and LE 630 or instructor permission.

LE 695 Special Topics in Leadership (0-3)

Special topics in leadership. May be repeated for different topics. See course schedule for current offerings. Prerequisite: Consent of instructor.

LE 698 Communication/Leadership Capstone Experience (1-3)

The capstone experience is the culminating experience of the master's degree program and is taken in the final semester. It requires the identification of an organizational or community problem or opportunity and the development and implementation of a project that defines, measures, analyzes, and improves the problem or opportunity. Prerequisite: 18 hours of graduate communication curriculum and 9 hours of graduate leadership curriculum.

LE 777 Continuous Enrollment (1-3)

This course is to allow additional time to complete Capstone, Thesis, or Practicum Requirements. Prerequisite: Instructor permission.

LEGAL STUDIES (LG)

LG 101 Introduction to Legal Practice (3)

Introduction to basic legal terminology and legal principles, as well as hands on experience with computer technology applicable to law office management, document production, scheduling, research, litigation support, and ethics. Prerequisite: None.

LG 200 Introduction to Law (3)

Introduction to the basic skills of legal analysis and case briefing, understanding the state and federal legal systems, and judicial decision-making. The course will also include a survey of torts, contracts, criminal law, and property law. Prerequisite: None.

LG 205 Corporate Law (3)

A study of business organizations and the tasks a paralegal would be required to perform in setting up and maintaining those organizations. Topics covered include: law of agency, partnership, limited partnership and corporations. Prerequisite: LG 101 or LG 200 or consent.

LG 210 Family Law (3)

Family law issues are the focus of this course, including the law of divorce, annulment and separate maintenance actions. The gathering of information and preparation of pleadings are undertaken. Adoption and custody procedures are reviewed. Prerequisite: LG 101 or LG 200 or consent.

LG 215 Property Law (3)

Procedural and substantive principles of real and personal property laws. Preparation of documents for common real estate transactions, including deeds, contracts, and mortgages. Personal property topics will include bailments, possession, accession and gifts. Prerequisite: LG 101 or LG 200 or consent.

LG 220 Wills & Estate Administration (3)

Involves probating a will or administering an estate; assembling information necessary for collection and evaluating assets; maintaining proper records for accounting purposes; preparing pleadings for initial petition and appointment of an administrator and executor; sale, mortgage, and lease of assets; and preparing estate tax returns, wills and trusts. Intestate succession and tax implications are studied. Prerequisite: LG 101 or LG 200 or consent.

LG 240 Constitutional Law (3)

This course explores the basic structure of the Constitution, the powers it grants to the federal government, and the basic rights and protections it provides to individuals. Students will analyze and think critically about United States Supreme Court opinions on such topics as rights against discrimination, privacy rights, rights to the freedom of speech and religion, due process rights, and the right to bear arms. Prerequisite: None.

LG 250 Legal Research I (3)

Introduction to primary and secondary authorities, including court decisions, legislation, annotations, digests, legal periodicals and specialty texts and reports. Practical research projects, including legal writing. Prerequisite: LG 101 or LG 200 or consent.

LG 300 Legal Writing (3)

The various forms of legal writing are the focus of this course, including letters, memoranda, motions, and briefs. Students will learn further research techniques, including an introduction to computerized legal research. Practical writing projects are included. Prerequisite: LG 250 or consent.

LG 305 Litigation I (3)

Analysis of the steps and procedures in preparing for litigation. Course topics include a detailed study of the preparation and use of discovery devices, the drafting of pleadings and motions, and a detailed analysis of the steps involved in trial preparation and procedure. Prerequisite: LG 101 or LG 200 or consent.

LG 310 Interviewing & Investigation (3)

Study of basic interviewing techniques in various legal settings. Mock interviews of clients and witnesses. Various styles of interviewing covered, as well as question-asking and listening techniques. Factual and legal investigation theories, plans and techniques will be used. Ethical concerns related to interviewing witnesses and clients covered. Rules of evidence are reviewed. Prerequisite: LG 101 or LG 200 or consent.

LG 315 Legal Research II (3)

This course is designed to teach students further research techniques, including the research of legislative history and administrative law, both through library research and computer-assisted legal research. Prerequisite: LG 250 or consent.

LG 320 Elder Law (3)

Introduction to laws that affect the elderly population. Study of course topics will include estate planning, guardianship and conservatorship, patients' rights, entitlement programs, managed care, social security, Medicare, Medicaid, and elder abuse. Prerequisite: LG 101 or LG 200 or consent.

LG 325 Personal Injury Law (3)

Introduction to basic concepts in tort law, including elements of various tort claims, defenses, privileges, and immunities. Prerequisite: LG 101 or LG 200 or consent.

LG 330 Administrative Law for Paralegals (3)

An introduction to administrative law concepts. Topics covered in the course will include, but not be limited to: delegation of authority to administrative agencies; limitations on agencies' authority; due process of law in the administrative arena; informal versus formal agency actions; rule-making; FOIA; the Privacy Act; open meetings; adjudicative functions of agencies; Administrative Procedures Act; and judicial review. Practical application of the concepts studied will occur through the completion of exercises and drafting assignments. Prerequisite: LG 101 or LG 200 or consent.

LG 340 Law and the Cinema (3)

This course uses movies in the study of law and legal principles. By watching law-based films and reading related journal articles, we will discuss and analyze rules of civil and criminal procedure, rules of evidence, and rules of ethics. In addition, the broader legal and moral issues raised by the films will be discussed and studied. This course will also allow students to develop a heightened awareness of how depictions in popular culture can affect a society's understanding and discourse concerning issues surrounding the law. Prerequisite: None.

LG 342 Capital Punishment in America (3)

An overview of capital punishment in America with specific application to Kansas. The course covers different philosophical and religious positions on the death penalty; pro and con arguments related to retribution, deterrence, and incapacitation; the relative costs of the death penalty vs. permanent incarceration; innocent people on death row, discrimination, and arbitrariness in the application of the death penalty; and the role of judges, prosecutors, defense attorneys, juries, and witnesses in death penalty cases. Prerequisite: LG 101 or LG 200 or CJ 100 or consent.

LG 345 Criminal Law (3)

Introduction to substantive criminal law and criminal procedure for the paralegal. Topics covered include elements of crimes against persons and property; burden of proof; defenses and constitutional protection; comparison of Kansas law with common law, federal law, and selected other states. Prerequisite: LG 101 or LG 200 or CJ 100 or consent.

LG 350 Professional Ethics (3)

An overview of the Kansas Rules of Professional Conduct, which govern the practice of law in Kansas. Subjects covered include: ethics in the law office, unauthorized practice of law, advertising of legal services, contact with parties who are represented by counsel, impaired, lawyers, competency, professionalism, and fees for paralegal work. Complaints, disciplinary proceedings, and possible sanctions are covered. The role of the Kansas Supreme Court and the duties of attorneys under the rules are studied. Prerequisite: LG 101 or LG 200 or consent.

LG 355 Introduction to Contracts (3)

Overview of contract law in relation to the formation of contracts, the Statute of Frauds, third-party beneficiary contracts, assignment of rights and delegation of duties, liability for breach of contract, termination, discharge and other related issues. Practical drafting projects are included. Prerequisite: LG 101 or LG 200 or consent.

LG 360 Independent Study (1-3)

Legal Studies students pursuing the Bachelor of Legal Studies degree may enroll in an independent research project if approved by faculty in consultation with the Department Chair. Independent Study courses must meet equivalencies to Federal definition of a credit hour. Prerequisites: 6 hours of LG course work.

LG 390 Special Topics/Legal Asst (1-3)

Selected topics which vary from semester to semester. Announced in advance. Prerequisite: Specified on each topic.

LG 399 International Travel Experience in Legal Studies (3)

This course allows students from Washburn University to work collaboratively with the students from a partnering university outside the United States. Students will participate in a comparative analysis of international differences in law, the legal system, and litigation practices; and develop a better understanding of the cross-cultural significance of diversity in the legal system. Prerequisite: Consent.

LG 405 Litigation II (3)

Analysis of the steps involved in criminal procedure. Constitutional principles and limitations will be studied. Appropriate pleadings will be drafted relating to the various stages of a criminal trial. Advanced civil litigation topics will also be studied, such as class actions, complex litigation, and various settlement devices, including alternative dispute resolution modalities. Students will research and complete a comparative study of the criminal and civil litigation systems. Prerequisite: LG 305.

LG 410 Bankruptcy & Collections (3)

Acquaints students with the legal foundations for methods commonly used to collect delinquent accounts, as well as the terminology of bankruptcy practice, and the statutory framework of and proceedings under, the Bankruptcy Act. Prerequisite: LG 101 or LG 200, and LG 250 or consent

LG 450 Internship (2-3)

Special placement of a student in a law firm, agency, or other legal setting using paralegals. Specific learning objectives established for each placement. Internship consists of a minimum of 160 clock-hours of experience under the supervision of a practicing attorney or paralegal and university faculty, performing tasks appropriate to a paralegal in a professional setting. Pass/Fail only. This internship requires summative reflection, serving as a culminating experience for Bachelor's degree students. Prerequisite: Students must apply with the program director and be given consent to enroll.

LG 495 Legal Studies BLS Capstone (3)

Students who have completed all of their major course work (or who are concurrently enrolled in their final semester and completing their major course work) may enroll in the capstone course with the consent of the program director. Students will complete a self-assessment by completion of a portfolio, using the core competencies for the profession to determine if remedial work needs to be done in any area before graduation. In addition, students may participate in resume-writing, job interviewing skills and networking. Mock interviews may be scheduled for each student. Students will attend two different paralegal organization meetings and two court sessions. Report writing will be included. Ethics will be emphasized by the use of hypothetical situations which will be analyzed and discussed. Students must participate in at least one pro bono activity (i.e., serve as a witness or juror in mock trial or client counseling competitions at the law school or high schools; assist at the Washburn University Law Clinic; assist a not-for-profit organization in the provision of legal services and assistance to low-income individuals and/or children; or, any other approved volunteer effort). This Capstone requires summative reflection, serving as a culminating experience for Bachelor's degree students. Prerequisite: Consent

LIBERAL STUDIES (LS)

LS 600 Introduction to Graduate Research Liberal Studies (3)

An introduction to the process, method, and style of graduate research in the humanities, natural sciences, and social sciences. Prerequisite: Acceptance into the MLS program or instructor consent.

LS 601 Interdisciplinary Seminar in Humanities (3)

A team-taught seminar on a special topic in the humanities as it relates to either the social or natural sciences; the course will be cross-listed with either LS 602 or LS 603. Variable, but interdisciplinary subject matter. A student may repeat the course when it is offered on a different topic. Prerequisites: Acceptance into the MLS program or consent of the instructors.

LS 602 Interdisciplinary Seminar in the Social Sciences (3)

A team-taught seminar on a special topic in the social sciences as it relates to either the humanities or the natural sciences; the course will be cross-listed with either LS 601 or LS 603. Variable, but interdisciplinary subject matter. A student may repeat the course when it is offered on a different topic. Prerequisites: Acceptance into the MLS program or consent of the instructors.

LS 603 Interdisciplinary Seminar in the Natural Sciences (3)

Team-taught seminar on a special topic in the natural sciences as it relates to either the humanities or the social sciences; the course will be cross-listed with either LS 601 or LS 602. Variable, but interdisciplinary subject matter. A student may repeat the course when it is offered on a different topic. Prerequisites: Acceptance into the MLS program or consent of the instructors.

LS 604 Interdisciplinary Seminar in Creative and Performing Arts (3)

A team-taught seminar on a special topic in creative and performing arts as it relates to the humanities, social sciences, or natural sciences; the course will be cross-listed with LS 601, LS 602, or LS 603. Variable, but interdisciplinary subject matter. A student may repeat the course when it is offered on a different topic. Prerequisites: Acceptance into the MLS program or consent of instructors.

LS 690 Special Topics (1-6)

With the consent of the advisory committee, students may arrange with a member of the graduate faculty a special topics course in Liberal Studies. Prerequisites: Admission to the MLS program or consent of instructor.

LS 699 Capstone Experience (3)

Students apprentice themselves to one faculty member to pursue one theme developed in the core interdisciplinary program or individualized study program. The expectation is a research paper of 30 pages or an approved equivalent. Students are strongly encouraged to develop creative alternatives. Regardless of the form the project takes, it must in some significant way, reflect both an in-depth understanding of a specific subject matter and the interdisciplinary nature of learning. Papers or projects are defended before a three- to five-person committee consisting of the advisor and 2-4 other faculty members chosen by the student and approved by the advisor. The capstone course provides the final opportunity to evaluate the student's mastery of the liberal studies curriculum. Prerequisites: Admission into the MLS program and approval of the course instructor.

LS 799 Liberal Studies Capstone Experience (3)

Students will apprentice themselves to one faculty member to pursue a theme developed in the core interdisciplinary program or individualized study program. The expectation is a research paper of thirty pages or an approved equivalent. Students will be strongly encouraged to develop creative alternatives. Regardless of the form the project takes, it must in some significant way reflect both an in-depth understanding of a specific subject matter and the interdisciplinary nature of learning. Papers or projects are defended before a three- to five-person committee consisting of the advisor and two to four other faculty members chosen by the student and approved by the advisor and the MLS director. The capstone course provides the final opportunity to evaluate the student's mastery of the liberal studies curriculum. The final project should reflect the student's appreciation of the interdisciplinary nature of learning.

MASS MEDIA (MM)

MM 100 Introduction to Mass Media (3)

The subject of this course is mass media. It is designed to acquaint students with newspapers, magazines, books, radio, recordings, television, films, advertising, public relations, and the interactive media of computers and information technology. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Information Literacy and Technology

MM 128 The Impact of The Walt Disney Company on Society (3)

This course will explore the impact that the Walt Disney company has had on society in both the domestic and international cultural spaces. Topics explored include the company's influence on society and culture through:

1) mass media, such as film, television, radio, publishing, literature, online, and gaming; 2) business, such as tourism, merchandising, licensing, franchising, marketing, and promotions; 3) innovation, such as technology, creative development, engineering, and architecture; 4) history, such as historical, gender, race, and colonial representation.

Prerequisites: None.

MM 155 Sports and the Media (3)

This course is designed as a foundational course and, as such, examines the interrelationship between the media and sport. Emphasis is placed on how media tell the story of sport. Students critically examine how media shape sports news, images, events, identities, and the cultural values of fans regarding sport. Also, students become acquainted with a diverse array of media and media industries (i.e., newspapers, magazines, books, radio, recordings, television, film, gaming, advertising, public relations, and digital media) in the context of the sport industry in order to understand the role these media play in transmitting sport as a cultural phenomenon. Prerequisites: None

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Information Literacy and Technology

MM 199 Professional Media Applications (3)

This class implements technology processes and the construction of messages to be used in commercial, social and mobile media while creating an understanding of the significance and application of basic media terminology. Prerequisite: None.

MM 202 Professional Media Writing (3)

The study and practice of fundamentals of media writing for journalism, public relations and advertising. Prerequisites: MM 100 and MM 199 or consent.

MM 222 Screenwriting (3)

The focus in this course is to develop knowledge and skills relating to visualization of cinematic story elements, and writing a narrative film script. Topics include: formatting, structure, character development, conflict, dialogue, and other script elements. Prerequisites: MM 100 and MM 199 or consent.

MM 300 Media Law, Ethics & Diversity (3)

This course takes an in-depth look at the First Amendment, ethics, and diversity from a media practitioner's standpoint. Students will think critically about the freedoms of speech in the United States, privacy in a digital age, and common legal protections in the workplace. The course will also include an examination of professional ethics in mass media and how those may be applied in case studies. Furthermore, students will also examine the societal representations of gender, race, and disability in media and how those images influence and reinforce cultural stereotypes. Prerequisites: MM 100 or consent.

MM 301 Mass Media & Cinema (3)

Investigation into how the cinema portrays the media of radio, television, film and the press. Discussion of various types of film analysis and criticism, including production analysis, sociological, genre, and ideological criticism of film form and content. Prerequisites: MM 100 or consent.

MM 303 Video Game Storytelling (3)

This course empowers students to learn the professional side of video games, and understand the central role of storytelling and character development. In addition to storytelling basics, students are exposed to the vital history and design elements in the industry. Professionals from all sides of the video game industry interact directly with students, providing them with first-hand insights. This course provides a foundation for pursuing a career in the video game industry from the producer, designer, executive, journalistic, and public relations standpoints. Prerequisites: None

MM 308 Intro Film & Video Techniques (3)

This course provides students the opportunity to learn the basics of film and video production. Students are introduced to a variety of valuable video content creation tools and techniques such as effectively shooting video with a smartphone, and video editing using Adobe Premiere Pro. Students will apply what they learn throughout the course through the completion of various video projects. Prerequisites: MM 100 and MM 199

MM 311 TV Studio Production (3)

Practice of the production roles and technical operations required to work collaboratively in a multi-camera TV studio environment. This course will provide students the opportunity to live-direct and work as part of a TV studio production crew in a variety of roles to produce a series of studio and field productions. Prerequisite: MM 202 or MM 222 or consent

MM 312 Cinematography (3)

This course focuses on the skills and theory of the camera department in the modern professional film and video environment. Students learn how to operate as the cinematographer/director of photography, gaffer, 1st and 2nd assistant camera, and grip. Through lecture students learn the theory and technique of visual storytelling as well as gain hands-on practice in the studio. Prerequisite: MM 100, MM 199 or consent.

MM 321 Advanced Professional Media Applications (3)

This course introduces students to a practice-based approach to visual communication where fundamental principles of typography, color and design are introduced alongside a variety of projects that expose students to industry-standard applications and software. Prerequisites: MM 100 and MM 199 or consent of instructor.

MM 326 Student Media Practicum (1)

This course provides students with the opportunity to gain hands-on experience by becoming contributing members within Student Media's newsroom at Washburn. Students will emerge with augmented skills in writing, reporting, editing, photography, podcasting, videography and graphic design as a result of their contribution to the Washburn Review Newspaper, the Kaw Yearbook, and the Bod Magazine. Prerequisites: MM 202 or consent.

MM 328 The Impact of The Walt Disney Company on Society (3)

This course will explore the impact that the Walt Disney company has had on society in both the domestic and international cultural spaces. Topics explored include the company's influence on society and culture through: 1) mass media, such as film, television, radio, publishing, literature, online, and gaming; 2) business, such as tourism, merchandising, licensing, franchising, marketing, and promotions; 3) innovation, such as technology, creative development, engineering, and architecture; 4) history, such as historical, gender, race, and colonial representation. Prerequisites: EN 101.

MM 350 Film Editing and Theory (3)

This course examines the craft and art of editing in the digital age and explores film history and theory as related to the editing process. Students engage in editing assignments to apply continuity and non-linear techniques. Prerequisites: MM 100, MM 199 or consent

MM 351 Data Literacy & Audience Research (3)

To make effective strategic decisions, advertising and public relations professionals must be informed of trends and changes related to an organization and its competitive environment. Furthermore, advertising and public relations professionals must know how to design and execute research that will inform organizational decision-making and the creative process. Working from the perspective of a brand strategist, students in this course collect, interpret, evaluate, and report research findings. Students are exposed to both qualitative and quantitative research methods for advertising and public relations program management. Emphasis is placed on the research process, sampling techniques, data collection methods, evaluation of data, and report writing. Prerequisite: MM 321 or consent. This class is a corequisite to MM 352.

MM 352 Advertising and PR Strategies (3)

This course focuses on the fundamentals related to the fields of advertising and public relations, and the larger roles that each discipline plays in an organization's overall integrated brand promotion (IBP) function. Students explore the foundational concepts related to the IBP industry's structure, professional careers in the field of IBP, how organizations segment and target potential and current consumers. Students also develop creative messaging for a variety of media channels, engage in strategic promotional planning, and discover brand building through reputation management and crisis communication techniques. Through this course, students emerge with both a broad understanding of IBP and its place in business and society, as well as a specific understanding of the IBP process. Prerequisites: MM 202 and MM 321 or consent. MM 351 is a corequisite

MM 355 Sports & The Media (3)

Mediated sport is an important facet of modern life. This course will explore the fundamentals of media as related to both collegiate and professional sports. Students will apply strategic thought in the creation of various media related to the sport industry. Prerequisites: EN 101 and MM 199

MM 360 Minorities & The Media (3)

This class is an examination of the portrayal of underrepresented groups in the media, and how these audiences can be reached via media messages. Prerequisite: MM 100 or consent.

MM 372 Film Production (3)

This lab course provides students an opportunity to utilize the skills and theory they've learned from the prerequisite film courses on three high quality film projects as a collaborative trio. Students learn directing, producing and production/post sound skills as well as utilize their editing and cinematography skills with a focus on collaboration. With an emphasis on the professional environment, students acquire skills that allow them to walk onto any set or post-production environment on any type of narrative production. Prerequisites: MM 222, MM 312, and MM 350.

MM 375 Murder, Mayhem and Media (3)

This course teaches real-world skills and provides valuable information for students interested in covering crime or courts for media outlets; working in law enforcement or judicial public relations; or telling crime stories through books, movies or TV. The course provides insight into what police officers do, how the criminal justice system works and how the media covers crime, with an emphasis on social media and current events. The class seeks to help enable students to serve as the eyes and ears of their readers and viewers, telling stories in a descriptive manner that helps people hear the sirens and smell the smoke. Prerequisite: MM 202.

MM 393 Special Topics/Mass Media (1-3)

Special subject courses not covered in the department catalog listing. May be repeated when topics vary. Prerequisite: MM 100 or consent.

MM 401 Media Analysis & Criticism (3)

This class includes a discussion of various levels of media analysis and criticism, including production analysis, sociological, feminist and ideological criticism of media form and content. There is also an emphasis on news analysis and television criticism. Prerequisites: MM 100 or consent.

MM 403 Advanced Professional Media Writing (3)

This course focuses on writing and information design skills by giving students the opportunity to practice writing mechanics, story editing, interviewing, and design for real-world publications like the Mass Media Alumni Newsletter, the Mass Media Messenger, and the Washburn Review. Students will also learn how to tailor messages to specific audiences and explore the duties of publication editors and managers from an organizational standpoint. Prerequisite: MM 202

MM 405 Documentary Filmmaking (3)

Through readings, screenings, and assignments, this course will develop an understanding of the background and methods for producing independent documentary films, and the accompanying issues commonly encountered in this process. Students will develop a documentary project and script treatment on a topic of their choosing. Prerequisites: MM 222, MM 312, and MM 350 or consent.

MM 408 Sports Branding & Promotion (3)

This course surveys the strategies, techniques, and media employed to promote a wide array of sports products available to the American audience. In this course, students explore the fundamentals of branding and promotion as related to both collegiate and professional sports. Topics explored include understanding the landscape of the sports industry, the variety of promotional tactics employed in the field, the role of entertainment related to the sports venue, the role of media in delivering the sports product, and consumer behavior related to the fan experience. Students emerge from the course with a strong understanding of the roles that branding and promotion play in building relationships between sports entities and consumers. Prerequisites: MM 321

MM 411 Entrepreneurial Media (3)

The class emphasizes how business principles are utilized to explore entrepreneurial opportunities in media. Students gain insight into how media content and service enterprises are conceived, planned, financed, and managed. The legal, ethical, and social implications of independent digital media ventures are considered. Prerequisites: MM 100 and MM 199 or consent.

MM 414 Advanced Film Production (3)

This advanced lab course functions as a full-fledged production company that works on one high-quality film project. Students select a director and producer duo from the class who then hire out the rest of the class as the DP/cinematographer, editor(s), production sound, post sound, assistant director, costume designer, production designer, and additional positions. The business aspects are analyzed from funding to distribution so students can leave the class with a high-quality project and a deeper understanding of how to work in whatever aspect of the business they chose. Prerequisites: MM 372 or consent.

MM 416 Digital and Social Content Strategies (3)

This course teaches students to recognize the vital role that social media play in an organization's communication efforts as well as exposes them to the material related to developing an effective social media strategy. The class functions as a social media agency where students produce high-quality work for a client. Prerequisites: MM 321 or consent.

MM 421 Event Planning and Management (3)

This course focuses on event planning and crisis communication from a media practitioner's perspective. Students will help plan and manage real-world events throughout the semester, putting into practice the skills they have learned. Along with this, the class studies creating and implementing crisis communications plans to show how organizations navigate the communication process during a crisis. Prerequisites: MM 321 or consent.

MM 426 Advanced Student Media Practicum (2)

This course provides students with the opportunity to gain hands-on experience by becoming contributing members within Student Media's newsroom at Washburn. Students will assume assistant-level leadership responsibilities and a specific project to manage. Students will oversee a small group of staff members to complete a more in-depth media assignment, developed in consultation with the director of Student Media and a Core leader of the organization while continuing to build skills in writing, reporting, editing, photography, podcasting, videography and graphic design as a result of their contributions to the Washburn Review Newspaper, the Kaw Yearbook, and the Bod Magazine. Prerequisites: MM 202 or consent.

MM 431 Creative Media Publications (3)

Students will work with on and off-campus clients to produce, edit, and design communication materials, both print and online, associated with business, industry, and non-profit groups. Students will also write, design, edit, and sell advertising for the department alumni magazine, the Mass Media Messenger. Prerequisite: MM 321.

MM 432 Advanced Advertising and PR Strategies (3)

Building on the foundational concepts studied in MM352, this course explores integrated brand promotion (IBP) through the execution of a complete IBP project with a real-world client. As part of this project students analyze a specific industry, cultivate insights related to the client's targeted consumers, develop objectives to solve the client's issue from an IBP perspective, create messaging for a variety of media channels, put forth a media plan and a means for the client to effectively measure the proposed plan, and pitch the plan to the client. Through this course, students emerge with real-world, practical experience in the field of IBP. Prerequisite: MM 352 or consent.

MM 433 Film Festival Management (3)

This course follows the planning and execution of the annual WIFI Film Festival, with students in charge of programming, promotion, fundraising, marketing and logistics. Students experience all aspects of running a large entertainment event in a real-world setting. Prerequisites: MM 202 or MM 222 or consent.

MM 485 International Media Systems (3)

This class covers and analyzes the development, structure, and functions of media in other nations, and offers an examination of the role of communications in the international arena. Prerequisites: MM 100 and EN 300, or consent.

MM 492 Independent Study (1-3)

Investigates a mass media area of interest not covered in regular courses. Involves producing research or creative projects. Prerequisites: Consent of faculty and chairperson; majors only.

MM 493 Special Topics/Mass Media (1-3)

Special subject course not covered in the department catalog listing. May be repeated when topics vary. Prerequisites: MM 100 or consent.

MM 494 Internship (1-2)

Experience and training in professional setting related to mass media careers. Mass media faculty and the sponsoring organization supervise students. A total of 64 hours of work per credit hour is given to the sponsoring organization during the semester. Usually requires 8-12 hours per week. Prerequisites: consent; second semester junior or senior standing; 24 credit hours completed in the major and 9 hours completed in concentration.

MM 499 Career Development & Digital Portfolio (2)

Students in this class explore career options and make preparations for a transition from academic life to professional careers or graduate school. A significant portion of this class will be devoted to developing and/or improving the credentials needed to land a job in the media field. In particular, this class will provide students with the opportunity to finalize their resume and digital portfolio. Prerequisites: majors only; senior status.

MM 505 The Documentary Film (3)

Readings, screenings, and assignments will develop an understanding of the background and methods for producing independent documentary films, and the accompanying issues commonly encountered in this process. Students will develop a documentary project and script treatment about a socially significant topic of their choosing. Prerequisite: MM 302 or Consent.

MM 514 Digital Filmmaking II (2)

This lab course explores the craft of creating the documentary or narrative film. At an advanced level, students gain theoretical and practical experience in the production of a dramatic narrative or documentary film. Students create original works and fill crew positions as needed. Prerequisite: MM 312 or MM 350 or Consent.

MM 522 Cinematic Storytelling (3)

This course analyzes modern American films with particular attention to storytelling techniques, genre, cinematic rendering and thematic meaning. Films will be examined against the backdrop of their specific historical-socio-political context. Prerequisite: MM 200 or Consent.

MM 532 Digital Cinematography (3)

This course will show students the similarities and differences between film camera systems and electronic camera acquisition, using lecture, demonstration, and example. Students will understand how basic functions and relationships in camera systems and support have similar qualities, but with different consequences relative to the production process. This course will have a central role for student filmmakers in creative storytelling. Prerequisite: MM 200 or MM 302.

MM 600 Mass Media Law (3)

This class will study ethical and legal issues in mass communication contexts. Examines the limitations and responsibilities of communicators. Prerequisites: MM 100 or consent.

MM 601 Mass Media and Cinema (3)

Investigation into how the cinema portrays the media of radio, television, film and the press. Discussion of various types of film analysis and criticism, including production analysis, sociological, genre, and ideological criticism of film form and content. Prerequisites: MM 100 or consent.

MM 605 The Documentary Film (3)

This course will present a study in critical analysis toward the portrayal of social conflicts in documentary films. Through applied activity, the course will also focus on the power and responsibility that documentary filmmakers have in a world where communication is dominated by the moving image media. Prerequisites: MM 302 or consent.

MM 611 Entrepreneurial Media (3)

Basic concept of managing broadcast stations, a study of the various departments within broadcast organizations and how they interrelate, and an overview of the regulatory and technological landscapes that face broadcast managers. Prerequisites: MM 100 or consent.

MM 614 Digital Filmmaking II (3)

This advanced course will focus on continued practical experience in storytelling in both narrative and documentary treatments. Emphasis is on the planning, management and production of materials suitable for the cinema, television or other news media. Students will be directly involved in producing original work. Prerequisites: MM 312 and MM 350 or consent.

MM 622 Cinematic Storytelling (3)

Students will learn to understand the structure and format of the narrative script form. While the principles of visual storytelling, dialog, and general visual communication techniques will be examined, students will learn the skills of script analysis including: writing treatments, synopsis, content outlines and evaluation of a script based on structure, motif, character, theme and marketability. Prerequisites: MM 199 or consent.

MM 651 Mass Media Research (3)

Study of quantitative and qualitative research techniques and of the interpretation and reporting of research findings. Prerequisites: MM 100 or consent.

MM 692 Independent Study (1-3)

Investigates a mass media area of interest not covered in regular courses. Involves producing research or creative projects. Prerequisites: Consent of faculty and chairperson, majors only.

MM 693 Special Topics (3)

Special subject courses not covered in the department catalog listing. May be repeated when topics vary. Prerequisites: MM 100 or consent.

MATHEMATICS (MA)

MA 090 Preparation for Quantitative Reasoning Pathway (3)

Selected topics in pre-algebra, algebra, geometry and other areas designed to prepare students for quantitative reasoning and beyond. Not open to students with credit for MA 108 or above. Does not count towards degree credit hour requirements, nor general education requirements. Prerequisites: ACT English score of at least 18 or a C or better in EN 101 or EN 103

MA 095 Preparation for College Algebra Pathway (3)

Selected topics in pre-algebra, algebra, geometry and other areas designed to prepare students for college algebra and beyond. Not open to students with credit for MA 108 or above. Does not count towards degree credit hour requirements, nor general education requirements. Prerequisites: ACT English score of at least 18 or a C or better in EN 101 or EN 103

MA 108 College Algebra Preparation (3)

This course is the first of a two-semester College Algebra sequence. Topics covered include: factoring, equations (linear, quadratic, rational, absolute value, root, linear systems), functions (notation, domain), graphing (linear, quadratic, piece-wise), inequalities (linear, compound, absolute value), applications involving linear, quadratic, and rational equations. Not open to students with credit in MA 116, or any MA-designated course numbered above MA 116. Prerequisite: ACT Mathematics score of at least 18 or an equivalent background as determined by the Mathematics Department, for example, comparable score on Departmental Placement Exam, Accuplacer, or the Quantitative Section of the SAT.

MA 112 Contemporary College Mathematics (3)

This course will focus on the mathematical skills and knowledge required for quantitative literacy, so the topics of understanding numerical relationships, financial mathematics, probability, and data analysis and statistics will be addressed. Each academic year the course will adopt a theme such as the political endeavor, the environment, art and culture and will study the topics from the context of the theme. The course will be project-based and to the extent possible the projects will investigate contemporary issues related to the overarching course theme. In addition to demonstrating mastery of the mathematical content, students will be expected to demonstrate an ability to understand how to determine the appropriate representation of quantitative information and to effectively communicate their assumptions and analysis. This course is not intended to prepare students for calculus. Graphics calculator required. Prerequisite: A grade of A or B in MA 090 or an ACT mathematics score of at least 22 or an equivalent background as determined by the Mathematics Department, for example, comparable SAT, COMPASS, or ACCUPLACER score.

Course Attributes:

- Gen Ed AY 2024-2025: Math and Statistics
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

MA 116 College Algebra (3)

Equations (linear system, polynomial, rational, absolute value, root, exponential, logarithmic), functions (notation, combining, domain, inverse), graphing (linear, quadratic, polynomial, piece-wise, rational, exponential, logarithmic), inequalities (compound, absolute value, polynomial, rational), logarithmic expressions, applications involving various types of equations and/or systems of equations. Not open to students with credit in MA 117, MA 123, or any course numbered above MA 140. Prerequisite: A grade of A or B in MA 095 or an acceptable (as determined by the Mathematics Department) ACT mathematics score or SAT quantitative score or Compass or Accuplacer Mathematics Placement Test score.

Course Attributes:

- Gen Ed AY 2024-2025: Math and Statistics
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

MA 117 Trigonometry (3)

Trigonometric functions, their inverses, graphs, and identities. Solving trigonometric equations. A wide variety of applications, and appropriate use of technology. Graphics calculator required. Prerequisite: A grade of C or better in MA 116 or concurrent with MA 116 or an acceptable (as determined by the Mathematics Department) ACT mathematics score or SAT quantitative score or equivalent knowledge as determined by the Mathematics Department.

Course Attributes:

- Gen Ed AY 2024-2025: Math and Statistics
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

MA 123 Pre-Calculus (3)

Algebraic, exponential and trigonometric functions. Topics in plane analytic geometry. Designed for the student preparing for calculus. Not open to students with credit in MA 141 or MA 151. Prerequisite: A grade of "C" or better in MA 116 or MA 117 or an acceptable ACT mathematics score or SAT quantitative score or equivalent knowledge as determined by the Mathematics Department.

Course Attributes:

- Gen Ed AY 2024-2025: Math and Statistics
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

MA 131 Topics in Trigonometry and Introduction to Calculus (3)

Trigonometric functions, using right triangles and the unit circle. Trigonometric identities, sinusoidal graphs, and trigonometric applications, including periodic phenomena. Limits, continuity, rates of change, and the meanings of differentiation and integration. Not open to students with credit in MA 141 or MA 151. Prerequisites: MA 116 with a grade of "C" or better or an acceptable ACT mathematics score or SAT quantitative score or equivalent knowledge as determined by the Mathematics Department.

Course Attributes:

- Gen Ed AY 2024-2025: Math and Statistics
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

MA 140 Statistics (3)

Introduction to statistics and probability with practical applications. Descriptive techniques including graphical methods, linear regression, probability distributions, sampling distributions, confidence intervals, hypothesis tests. Graphics calculator required. Prerequisite: A grade of "C" or better in either MA 116 or MA 112 or, an acceptable ACT mathematics score or SAT quantitative score or Compass or Accuplacer Mathematics Placement score.

Course Attributes:

- Gen Ed AY 2024-2025: Math and Statistics
- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

MA 141 Applied Calculus I (3)

Definition and elementary properties of the derivative and definite integral with emphasis on the application of the derivative and integral to problems in business. Not open to students with credit in MA 151.

Prerequisite: A grade of "C" or better in MA 116 or MA 123 or an acceptable ACT mathematics score or SAT quantitative score or equivalent knowledge as determined by the Mathematics Department.

Course Attributes:

- Gen Ed AY 2024-2025: Math and Statistics
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

MA 151 Calculus & Analytic Geometry I (5)

Differential and integral calculus of the elementary functions with applications. Prerequisite: A grade of "C" or better in MA 117 or MA 123 or an acceptable ACT mathematics score or SAT quantitative score or equivalent knowledge as determined by the Mathematics Department.

Course Attributes:

- Gen Ed AY 2024-2025: Math and Statistics
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

MA 152 Calculus & Analytic Geometry II (5)

A continuation of Mathematics 151. Topics in plane analytical geometry, techniques of integration with applications, and infinite series. Graphics calculator required. Prerequisite: A grade of C or better in MA 151.

MA 200 Number & Operation for Elementary Teachers (3)

Investigation of K-6 mathematical concepts and procedures for counting & cardinality, patterns & algebraic thinking, number systems, operation with whole numbers, fractions, decimals & integers. Significant emphasis on conceptual in-depth understanding of these mathematical topics and connecting concepts to a range of procedures for beginning teachers. Prerequisite: MA 112 or higher (or appropriate ACT or SAT quantitative score as determined by the Mathematics Department)

MA 201 Geometry, Proportion & Data Analysis for Elementary Teachers (3)

Investigation of K-6 mathematical concepts and procedures for geometry, measurement, proportional reasoning, and probability & statistics. Significant emphasis on conceptual in-depth understanding of these mathematical topics and connecting concepts to a range of procedures for beginning teachers. Prerequisite: MA 200 with a "C" or better.

MA 204 Number Theory and Discrete Math for Middle School Teachers (3)

Fundamental ideas of number theory, including divisors, factorization, and modular arithmetic. An introduction to discrete mathematics, including discrete structures, enumeration, logic, and applications. Prerequisite: A grade of "C" or better in MA 201 or concurrent.

MA 206 Discrete Mathematics for Computing (3)

Discrete mathematics topics useful in computer-aided problem solving. Topics will include Boolean algebra and computer logic, graphs and trees with algorithms, and analysis of algorithm complexity. Prerequisites: CM 111 and one of the following: A "C" or better in MA 116 or MA 123, or an acceptable (as determined by the Mathematics Department) ACT mathematics score or an acceptable SAT quantitative score, or equivalent knowledge as determined by the Mathematics Department.

MA 253 Calculus/Analytic Geometry III (3)

A continuation of Mathematics 152. Multivariable calculus, vectors in two and three-dimensional spaces. Graphics calculator required. Prerequisite: A grade of "C" or better in MA 152.

MA 260 Introduction to Number Theory (3)

Topics include properties of numbers (prime, composite, rational, irrational, transcendental), divisibility, congruences, Diophantine equations, and continued fractions. Prerequisites: MA 152 or concurrent.

MA 271 Contemporary Actuarial Concepts (1)

Current issues in Actuarial Mathematics with emphasis on the releases of the Society of Actuaries. Includes practical application to solving problems of the type included in the Society of Actuary's Course P. Prerequisite: MA 253.

MA 281 History of Early Mathematics (1)

Chronological development of early mathematics, with emphasis on the great mathematicians and the corresponding concrete & pictorial representations utilized during periods of discovery and invention. Topics include numeration systems and geometry. Focus on extending understandings from physical representations to abstract/formula representations for the mathematics of the time in history. Prerequisite: MA 116 or consent of instructor.

MA 299 Special Topics in Mathematics (1-6)

Directed study in some area of mathematics at the lower division level.

MA 301 Linear Algebra (3)

An introduction to the fundamental concepts and basic computational techniques of linear algebra. Topics investigated from both a theoretical and computational perspective include systems of linear equations, vector spaces, transformations, matrices, eigenvalues and eigenvectors, and orthogonality. Prerequisite: MA 152.

MA 307 Discrete Mathematics (3)

Logic, counting methods, induction, functions, equivalence, partial order, and congruence relations. Set up and solve recurrence relations problems. Graph theory and its applications. Significant emphasis on the format and method of mathematical proof. Prerequisites: MA 151 or MA 204 or MA 206, and PH 220 or consent of instructor.

MA 315 Seminar: Teaching Mathematics (1)

Practical applications of pedagogical techniques for teaching mathematics. Prerequisites: Concurrent with MA 316 or MA 317 or MA 318.

MA 316 Teaching Algebra (1)

Pedagogical knowledge needed for teaching algebra. Emphasis on fundamental ideas of algebra including algebraic notation; interpreting the structure of an expression in terms of its context; function families and representations; and patterns of change. Includes co-teaching an algebra-based course. Prerequisites: A grade of "C" or better in MA 151 and ED 275. A grade of "C" or better in MA 315 or taken concurrently with MA 315.

MA 317 Teaching Trigonometry (1)

Pedagogical knowledge needed for teaching trigonometry. Emphasis on fundamental ideas of trigonometry including right triangles, identities, application of periodic phenomena, and trig function families. Includes co-teaching a trigonometry-based course. Prerequisites: A grade of "C" or better in MA 151 and ED 275. A grade of "C" or better in MA 315 or taken concurrently with MA 315.

MA 318 Teaching Statistics (1)

Pedagogical knowledge needed for teaching statistics. Emphasis on fundamental ideas of statistics including variability, measures of central tendency, randomness, inference, and multiple representations. Includes co-teaching a statistics-based course. Prerequisites: C or better in MA 140, MA 151, and ED 275. A grade of "C" or better in MA 315 or taken concurrently with MA 315.

MA 320 Mathematics for Middle School Teachers (3)

The investigation of mathematical problems as a means to develop as practitioners of the discipline of mathematics. Problems rely on a wide range of math topics. The primary focus of the course is on developing expertise in doing mathematics. By solving problems, students gain expertise in reasoning, constructing arguments, modeling, using resources, being precise, noticing deep structures of problems & expressing those structures with appropriate mathematical language. Significant emphasis on conceptual understanding of mathematics, connecting concepts to a range of realistic problem situations and appropriate use of technology. Understand and develop mathematical arguments and be able to clearly communicate those arguments using multiple representations. Prerequisite: MA 201 or concurrent

MA 331 Differential Equations (3)

Methods for solving ordinary differential equations and systems of ordinary differential equations including Laplace transforms, series, numerical methods with applications. Prerequisite: MA 253 or concurrent.

MA 340 ANOVA/Design of Experiments (3)

An introduction to the design and analysis of experiments, both single and multi-factor. Analysis of variance, both fixed effects and random effects. Topics will include Randomized Complete Block Design, the Latin Square Design, Incomplete Block Designs, Nested Designs, and the Split-Plot Design. Prerequisite: A 'C' or better in MA 140 Statistics.

MA 341 Nonparametric Tests/Quality Control (3)

An introduction to nonparametric statistical procedures including signed-rank tests, sign tests, rank and rank sum tests, along with an introduction to the use of statistical methods for the purpose of quality control, including control charts for variables, control charts for attributes, the analysis of process capability, and acceptance sampling. Prerequisite: A "C" or better in MA 140 Statistics.

MA 342 Statistical Computing (3)

An introduction to the statistical software packages SAS and R that includes basic commands and the structure, as well as data entry and manipulation, creating graphs and plots, simulation, bootstrapping, and introductory level programming. Prerequisite: A "C" or better in MA 140 Statistics.

MA 344 Mathematical Statistics I (3)

Probability, random variables and expectation, conditional distributions and stochastic independence, distributions of functions of random variables. Prerequisites: MA 253 or concurrent, and one of MA 340, MA 341 or MA 346.

MA 345 Mathematical Statistics II (3)

An introduction to the theoretical framework of statistical methods including: point and interval estimators, large and small sample theories, hypothesis testing methods, linear statistical models with emphasis on regression and correlation, non-parametric testing methods, brief introduction to Bayesian methods for statistical inference. Prerequisite: MA 344.

MA 346 Regression Analysis (3)

Linear regression and correlation concepts and methods, multiple regression, curvilinear regression, applications including use of statistical software. Prerequisite: MA 140 or consent of course instructor.

MA 347 Stochastic Processes (3)

Generating functions, normal processes and covariance stationary processes, Poisson processes, renewal processes, Markov chains, discrete time processes. Prerequisite: MA 344.

MA 348 Time Series Analysis (3)

Regression models with time series error, autocorrelation function, spectral density, autoregressive and moving average processes, and seasonal time series; applications including use of statistical software. Prerequisites: MA 344 and MA 346.

MA 349 Statistical Topics for Actuarial Science (1)

Emphasis on topics in probability and statistics of special importance to actuarial science students. Prerequisites: MA 140 or consent of course instructor.

MA 354 Abstract Algebra (3)

An introduction to abstract algebraic structures and their substructures. Emphasis on groups (including symmetry groups, cyclic groups, and permutation groups), with rings and fields as time allows. Prerequisites: MA 253 and MA 307, or consent of the instructor.

MA 361 Game Design (3)

This course offers students the necessary background to design games on their own, including an introduction to the history of game design in the last 150 years. Students are then guided through an exploration of individual game mechanics which are frequently used in highly successful games. During these explorations the game mechanics are deconstructed to understand their structure using elementary mathematical tools, techniques, and language. While making these connections and observations, students are guided through isolated examples on how to integrate these into a game design. The course culminates with a final project in the form of an original game design of the students' own making – either analogue (physical) or digital. Prerequisite: A grade of "C" or better in MA 112 or MA 116, or consent of instructor.

MA 367 Modern Geometry (3)

This course will focus on the study of geometry as an axiomatic system. Emphasis will be placed on conjecture, proof and construction utilizing both classical tools as well as appropriate technology. Geometries investigated will include Euclidean, affine, projective, hyperbolic, and elliptical. A variety of approaches (synthetic, analytical and transformation) will be used to investigate the geometries. Prerequisite: MA 151.

MA 371 Introduction to Real Analysis I (3)

Sets and functions, properties of the real number system, sequences, limits of functions and continuity of functions. Prerequisites: MA 253 and MA 307, or consent of the instructor.

MA 372 Introduction to Real Analysis II (3)

Continuity, differentiation, the Riemann integral, sequences of functions, and infinite series. Prerequisite: MA 371.

MA 380 Problem Solving Strategies (1)

Weekly problem sets require a wide variety of techniques to achieve solutions to the problems. Problem solutions may feature one or more techniques from calculus, linear algebra, discrete mathematics, statistics, geometry, and other areas. The course is repeatable up to three times. Prerequisite: A grade of "C" or better in MA 152, or consent of the instructor.

MA 381 History of Mathematics (3)

Chronological development of mathematics, with emphasis on the great mathematicians and the corresponding concrete & pictorial representations utilized during periods of discovery and invention. Topics include numeration systems, algebra, geometry, measurement, probability, and statistics. Focus on extending understandings from physical representations to abstract/formula representations for the mathematics of the time in history... Prerequisite: MA 116 or consent of instructor.

MA 384 Theory of Interest (3)

Topics include measure of interest (emphasis on continuous nature), accumulated and present value factors, annuities, yield rates, sinking funds, and bonds and related securities. Prerequisite: MA 152 or concurrent.

MA 385 Actuarial Mathematics (3)

Theory and application of contingency mathematics in the area of life and health insurance, annuities and sections from both the probabilistic and deterministic approaches. Prerequisites: MA 344, MA 384 or consent of instructor.

MA 388 Capstone Research (1)

Students must complete an individual semester project on a topic in the mathematical sciences under the guidance of one or more faculty from the department. The project serves as a culminating experience for Bachelor's degree students, requiring both a written and an oral component. A minimum of two hours of MA 380 Problem Solving Strategies are required unless permission is granted by the department Chair. Prerequisites: MA 151, MA 152, MA 253, MA 301, a minimum of two hours of MA 380; and, a total of 19 or more hours in mathematics/statistics (MA 151 or above), at least 6 hours of which must have been completed at Washburn University; and, consent of the instructor. Students must have junior or senior standing to enroll in this course.

MA 390 Seminar (1-3)

Directed study in some advanced area. Prerequisite: Consent of instructor.

MA 400 Internship in Mathematics or Statistics (1-6)

A work experience in the area of mathematics and/or statistics performed in cooperation with a business, industrial, medical or educational institution. The internship study must provide a learning experience in the applications of mathematics or statistics. Prerequisite: Consent of Department Chair.

MA 450 Topics in Mathematics (1-6)

Directed study in some area of mathematics at the graduate level. Prerequisite: Consent of instructor.

MILITARY AND STRATEGIC STUDIES (MS)

MS 100 Introduction to Military Studies (3)

This course explores the use of the armed forces as an instrument of national power. Students will develop an understanding of the doctrinal principles of war, fundamentals of the offense and defense, just war doctrine, rules of engagement, and how nations organize and execute military operations in pursuit of national objectives and vital interests. The course also examines the doctrine of Military Operations Other Than War (MOOTW), focusing on the use of the military during peacetime. Historical case studies and examinations of current events are presented as they relate to the course objectives.

MS 110 Fundamentals of Military Leadership (3)

This course is oriented toward the college graduate entering the workforce in any profession. Fundamental leadership principles developed by the United States military and Department of Defense are presented, including leadership traits, principles, styles, values, and disciplinary strategies. Foundation for the course begins with individual self-evaluation, including the Myers-Briggs Type Indicator and other personal tendency tests, and progresses through selected group dynamics exercises, and in-depth case study analyses of historically effective leadership examples. The primary focus of the course causes students to become familiar with individual preferences and personality traits in order to form an effective personal leadership style.

MS 120 History of The American Military (3)

Historical presentation of the evolution of the American military from colonial period through the present. A survey of those aspects of organization, training and employment of military forces developed over time—either created in response to particular need or borrowed from other international military examples—and presented as a means of providing foundation for an evolving military legacy.

MS 210 A Soldier's Story (3)

A view of warfare from the bottom up, using the individual soldier's perspective as a means of de-emphasizing national strategy in favor of the social, psychological and emotional impact experienced by those engaged in close armed combat. Individual experiences reported from news accounts, personal diaries, journals, letters, and autobiographies are used as the primary source materials for the course.

MS 215 America at War (3)

Exploration of United States participation in the major wars experienced through its history, with special emphasis on the World Wars. Presentation is made on a broad perspective, to include national interests, mobilization of the home front, and the effect of wars on American society, economy and government.

MS 301 Great Battle Campaigns (3)

Examines the conduct of war through in-depth analysis of a particular battle or campaign shown to be pivotal to the prosecution of a war. Students are allowed to select the battle/campaign of their choice, with advisement, and proceed with customized research. Prerequisite: Undergraduate-junior standing or permission.

MS 320 National Security Policy (3)

Study of the institutions, actors and processes that formulate and execute national security policy in the United States. Traces the historical and contemporary roles of governmental branches, administrative agencies, civilian consultants and contractors, and non-governmental organizations in the development and implementation of policy. Also incorporates the development of intelligence analysis in the formulation of policy, to include the evolution of intelligence assets.

MS 322 Terrorism (3)

Course provides an overview of terrorism with emphasis on assisting students to understand foreign and domestic terrorism and counter-terrorism efforts. Prerequisite: None.

MS 330 International Conflict (3)

Examination of contemporary international conflict. Issues addressed include the evolution of warfare within and between nation states, the interplay between conflict and international diplomacy, economic interdependence, and foundational conflict theory.

MS 335 Elite Forces and Special Operations (3)

This course examines the history, organization, and functioning of modern elite military forces. Analyzes the counter-terrorist forces of the United States and other countries, including the U.S. Army Rangers and Special Forces, Navy Sea-Air-Land (SEALs), Air Force Task Force 160 (Night Stalkers), and Marine Corps Reconnaissance (RECON) units. Also exposes students to foreign elite military forces, to include the British Special Air Service (SAS) and Special Boat Squadron (SBS), French Foreign Legion, Israeli Sayeret (Reconnaissance) units. Uses historical case studies illustrating the use of elite forces in special operations, and follows current special operations in the war on terror.

MS 336 Hollywood Goes to War (3)

Examines the dual role of filmmakers, the cinema, and the motion picture industry to both entertain and inform. Special emphasis placed on how cinematography can shape popular perceptions and attitudes about warfare in general, as well as particular conflicts. Course makes extensive use of film library materials in making thoughtful analysis.

MS 352 Homeland Security (3)

This course will provide an introduction and general overview of homeland security in the United States. The course will focus on helping students understand the key elements of homeland security strategies and operational policies. The role and purpose of homeland security strategy will be evaluated in regard to its implementation in a contemporary democratic society. Prerequisite: None.

MS 360 Independent Study (1-3)

A research project of extensive reading in aspects of the disciplines or engagement in a field experience. May be carried on in absentia. Students are required to prepare and gain approval of the department chair (Criminal Justice) and the supervising professor of a comprehensive learning contract. Students must complete a project prospective that is approved by supervising professor prior to enrollment. Prerequisite: Consent of the Department Chair.

MS 390 Special Topics (1-3)

Course titles and topics will vary from semester to semester, and will present current trends of interest in the organization, equipment, training, and employment of military forces. May be taken more than once under different topical areas, and may be offered for variable credit depending upon the scope, amount of material, or course length.

MS 400 Strategic Leadership (3)

Analysis and assessment of skills, knowledge, attributes, and competencies of senior and strategic leaders. Examines the characteristics, values and responsibilities of military and civilian professionals. Provides and appreciation of leadership characteristics of historical figures.

MS 420 Combat Journalism (3)

Explores war reporting by the media in both historical and political contexts, and demonstrates the balance between open, fair reporting and the security required for military operations. Also presents the role of news accounts in shaping popular opinion. Prerequisite: Undergraduate-junior standing or permission.

MS 425 Military Justice and The Law of War (3)

Traces the development of modern international rules pertaining to the conduct of war, and presents the various treaties and conventions that govern the conduct of military operations. Course comprises a serious literature review within the context of actual war crime investigations and trials to present the geopolitical consequences of war conduct. Prerequisite: Undergraduate-junior standing or permission.

MS 432 Hitler, WWII, and Holocaust (3)

Course is designed to provide in-depth overview of the rise of National Socialism in Germany and subsequent 13 year Third Reich. A component of the course gives emphasis to WWII, changes in the face of Eastern and Western Europe, and evaluating Hitler as a military leader. Prerequisite: None.

MS 450 Military Intelligence (3)

Comprehensive analysis of military intelligence operations from tactical to strategic. Studies aspects of collection, analysis and dissemination of intelligence information, to include the use of national intelligence assets and strategic planning. Prerequisite: Undergraduate-junior standing or permission.

MS 462 Military Operations/Tactics (3)

Course provides doctrine that frames counterinsurgency within the context of the range of military operations. A major component of the course is dedicated to understanding how commanders synchronize their efforts to achieve end states. Also, overview of Army and Marine Corps military tactics. Prerequisite: None.

MS 470 Insurgency & Guerilla War (3)

Overview of insurgent campaigns and guerilla warfare throughout history. Emphasis on popular political movements, opposition to recognized and existing governments, and transition of guerilla leadership into legitimate government. Presents topical coverage of significant historical examples of both successes and failures in revolution and revolt. Prerequisite: Undergraduate-junior standing or permission.

MS 475 Directed Readings (1-3)

Students pursuing the minor in Military Studies may enroll in an independent research project if approved by faculty in consultation with the Department Chair. Independent Study courses must meet equivalencies to Federal definition of a credit hour. Prerequisites: 3 hours of MS course work.

MS 480 Military Operations Other Than War (3)

Explores the emerging role of military forces in non-standard missions such as peacekeeping, humanitarian relief, non-combatant evacuation operations, and support to host nation military training. Also examines the relationship between and cooperation with non-governmental agencies and organizations through the use of case studies.

MS 490 Special Topics (1-3)

Topics vary each semester & are announced in advance. May be taken for more than one semester for variable credit.

MUSEUM AND CURATORIAL STUDIES (MC)

MC 199 Special Topics in Museum and Curatorial Studies (3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: Consent of Instructor.

MC 200 Introduction to Museum and Curatorial Studies (3)

Museums, collections, and exhibition spaces: why do we have them and what are their functions in society? What sort of institutions fall under the definition of a museum? What does it mean to work in a museum, a gallery, a private collection, or to serve in a curatorial role? This class will explore the history of museums and exhibition spaces and current debates about these institutions, including mission and vision statements, roles and organizational structure, architecture and facilities management, and legal and ethical issues. Lectures, readings, and assignments will encompass interdisciplinary ideas and establish for students the capabilities required of a curatorial professional—from the practical skills needed to operate a museum or gallery to theories on the societal role of museums and other exhibition spaces. Students will learn through lecture, discussion, in-class activities, reading, writing assignments, museum visits, and guest speakers. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

MC 313 Museums and Materials (3)

Drawing on the resources of the Mulvane Art Museum, this class will examine collection and curatorial practices for museums. Students will learn protocols and guidelines for managing collections. They will study current preventative conservation methods and recommendations for object care. Through hands-on activities, they will learn best practices for object documentation, handling, and storage. They will explore the issues and considerations involved in loaning objects between museums.

Prerequisites: MC 200

MC 399 Special Topics in Museum and Curatorial Studies (3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: Consent of Instructor.

MC 400 Capstone in Museum and Curatorial Studies (3)

The Museum and Curatorial Studies Capstone prepares students to successfully plan and complete a project related to their professional interests in Museum and Curatorial Studies. Capstone projects may include an analysis of an issue or topic in areas such as collections, curatorial management, education or administration. Prerequisites: MC 200, AR 313, and at least 12 hours of credit in the Museum and Curatorial Studies minor or permission of the director of the Museum and Curatorial Studies program.

MUSIC (MU)

MU 070 Performance Class (0)

Weekly master class-performance/recital course required of all music majors who enroll in private lessons. Prerequisite: Music Major/ Concurrent enrollment in private lessons.

MU 070A Performance Class (0)

Weekly master class-performance/recital course required of all music majors who enroll in private lessons. Prerequisite: Music Major/ Concurrent enrollment in private lessons.

MU 070B Performance Class (0)

Weekly master class-performance/recital course required of all music minors who enroll in private lessons.

MU 100 Enjoyment of Music (3)

The materials and structure of music, as they relate to perceptive listening and increased listening enjoyment. Frequent use of recordings and lecture recitals places the course on a plane of practical appreciation. Planned primarily for non-music majors. No prerequisite.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

MU 103 Jazz History (3)

The materials and structure of jazz music with an emphasis on listening skills. Includes New Orleans, Chicago, Swing, Bop, Free-form and Fusion styles. Frequent use of recordings and live demonstration and performance. No prerequisite.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

MU 104 Movies & Music (3)

An exploration of the role of music in motion pictures and the relationship between music and other aspects of the film medium. No prerequisite.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

MU 106 Introduction to World Music and its History (3)

A survey of music from cultures around the world from musical and anthropological perspectives. *This course has been approved as a multi-cultural course by the Department of Education. No prerequisite.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

MU 108 History of American Rock & Roll (3)

In this course students will study the origins of American rock and roll music from its early roots to current genres. The focus will be on how the development of rock and roll continues to intersect with the social, economic, and cultural trends of popular culture.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

MU 109 Piano for Beginners I (2)

Development of basic piano techniques, sight reading, improvisation, transposition, and keyboard harmony. Planned for non-music majors. No prerequisite.

MU 110 Piano for Beginners II (2)

Development of basic piano techniques, sight reading, improvisation, transposition, & keyboard harmony. Planned for non-music majors.

Prerequisite: Consent of instructor.

MU 111 Guitar for Beginners (2)

Designed to acquaint the beginner with basic chords and accompanying techniques. No prerequisite.

MU 120 Fundamentals of Music Theory (2, 3)

Music fundamentals including basic notation, intervals, scales, rhythm, ear training, writing of simple harmonic material with selected music for harmonic & form analysis.

MU 122 Rhythm Perception-Music Majors (1)

Study of rhythm and meter through the analysis of mathematical constructs, notation practices, counting systems and tapping/clapping exercises. Development of rhythmic perception through rhythmic dictation and singing. Prerequisite: Music Major.

MU 123 Integrating Technology in Music (1)

An introduction to understanding the use of computer music applications and MIDI (Musical Instrument Digital Interface) in music. Will include software applications addressing ear training and music theory, sequencing and music notation. Prerequisite: Music Major.

MU 133 Group Piano I (1)

Development of basic piano techniques, sight reading, keyboard harmony and harmonization skills. Prerequisite for MU 133: Music Major status. Prerequisite for MU 134 is MU 133 or consent of instructor.

MU 134 Group Piano II (1)

Development of basic piano techniques, sight reading, keyboard harmony and harmonization skills. Prerequisite for MU 133: Music Major status. Prerequisite for MU 134 is MU 133 or consent of instructor.

MU 145 Marching Band (0-1)

The Fighting Blues Marching Band is open to all majors and non-majors. The Fighting Blues take great pride in entertaining and thrilling our fans in Yager Stadium with our precision marching and exciting music selections. The band also performs for other events, including bowl games, pep-rallies, alumni, administrative and foundation functions. Audition is not required. No prerequisite.

MU 146 Pep Band (0-1)

The WU Blues Pep Band is a driving force of the game day experience at basketball games. Comprised of students from across campus, and performing a repertoire of over 70 pieces, the WU Blues Pep Band is a high-energy, powerful ensemble that enhances the experience of the students, fans, and athletes. Participation in the WU Blues provides students with both musical and nonmusical benefits, developing musical skills in addition to learning valuable life skills relating to their overall education, including communication, teamwork, responsibility, and a sense of accomplishment. Prerequisites: Students selected, by audition, for Pep Band; participation are required to have successfully completed all Marching Band (MU 145/MU 345) requirements in the Fall semester immediately preceding Pep Band. Audition required.

MU 150 Introduction to Music Education (1)

Supervised school-based field experience designed for potential music teacher education candidates to investigate school music teaching as a profession. A minimum of 20 hours in an assigned school setting is required. Orientation to the Washburn teacher education program is included during university classroom sessions. MU 150 must be taken prior to admission to the Professional Teacher Education Program. Prerequisite: Admission into the Bachelor of Music degree in Music Education or consent of instructor.

MU 200 Special Topics/Music (0-3)

A variable content course treating areas of interest to both music majors and non-music majors. May be repeated for credit. Prerequisite: Consent of Instructor.

MU 204 Vocal Techniques - Instrumental Majors (1)

Study of pedagogical techniques for appropriate vocal development and health for instrumentalists. Prerequisite: Admission to Bachelor of Music - Music Education degree, or admission to Bachelor of Music - Instrumental Performance, or consent of instructor.

MU 205 Woodwind Techniques (1)

A practical study of pedagogy, tone production, embouchure, technique, care, repair, and other aspects of playing and teaching for the flute, clarinet, saxophone, oboe, and bassoon in the public schools. No prerequisite.

MU 206 Improvisation (2)

Introduction to the basic materials utilized in the practice of improvisation. Includes practical application through performance and utilization of major scales and modes, ear training, transcription, and the learning of patterns. Prerequisite: MU 215 or Consent of instructor.

MU 208 Guitar Techniques (1)

A study of tone production, technique, care and maintenance of the guitar. Pedagogical approaches for teaching guitar in school settings include: basic chords, positioning, and musical elements. Prerequisite: None.

MU 210 Brass Techniques (1)

The study of tone production, technique, care and maintenance of brass instruments, with an emphasis focused on teaching methods for public education. Prerequisite: None.

MU 211 String Techniques (1)

The study of tone production, technique, care and maintenance of string instruments, with an emphasis focused on teaching methods for public education. Prerequisite: None.

MU 212 Percussion Techniques (1)

The study of technique, care and maintenance of percussion, with an emphasis focused on teaching methods for public education. Prerequisite: None.

MU 213 Group Piano III (1)

Continuation of Group Piano II. Development of functional skills including transposition, score reading and improvisation. Also includes study of the intermediate level piano literature from various style periods. For music majors. Prerequisite: MU 134

MU 214 Group Piano IV (1)

Continuation of Group Piano II. Development of functional skills including transposition, score reading and improvisation. Also includes study of the intermediate level piano literature from various style periods. For music majors. Prerequisite for MU 213: MU 134. Prerequisite for MU 214: MU 213.

MU 215 Music Theory I (3)

Study of music notation, scales, intervals, rhythm, meter, triads, seventh chords, figured bass, and Roman numerals, with an introduction to part-writing, harmonic progressions, cadences, and basic non-harmonic tones. Corequisite: MU 217 and MU 123 or consent of instructor. Prerequisite: music major, music minor, or musical theatre concentration status.

MU 217 Aural Skills I (1)

Development of aural skills through sight singing and melodic, rhythmic, and harmonic dictation. Reinforces fundamental concepts covered in Music Theory I. Corequisite: MU 215 or consent of instructor. Prerequisite: music major, music minor, or musical theatre concentration status.

MU 220 Vocal Diction I (2)

The study of the International Phonetic Alphabet, and application of these tools to study lyric diction in English, Italian, and Latin. Prerequisite: Music major or consent of instructor.

MU 222 Vocal Diction II (2)

Application of the International Phonetic Alphabet to study lyric diction in German and French. Prerequisites: MU 220; Music major or consent of instructor.

MU 226 Wind Ensemble (0-1)

The Washburn Wind Ensemble is comprised of the finest woodwind, brass, and percussion students at Washburn University. The Wind Ensemble exposes students to the highest quality of music written for wind instruments from the Renaissance to the present. This repertoire, along with visits by renowned artists and educators, give the students a unique opportunity to experience a wide range of compositional techniques, rehearsal processes, and musical possibilities. Membership in the Wind Ensemble is open to both music and non-music majors, through audition.

MU 237 Choral Lab (0)

The initial experience in secondary music education in the area of choral work. No prerequisite.

MU 238 Instrumental Lab (0)

The initial experience in secondary music education in the area of instrumental works. Prerequisite: None.

MU 239 University Band (0-1)

The University Band is an ensemble that performs works from the standard literature for wind band. The University Band promotes the musical and intellectual growth of its members through careful selection of appropriate repertoire. Membership in the University Band is open to both music and non-music majors, through audition.

MU 240 Beginning Conducting (1)

Basic beat patterns, baton technique, score reading, philosophy and basic concepts of conducting. No prerequisite.

MU 243 Composition (1-3)

Individual tutoring in music composition with emphasis on the development and expansion of music materials. May be taken as an elective. May be repeated as an elective with consent of instructor. Prerequisite: MU 215 or consent of instructor.

MU 244 Collaborative Piano (1)

A laboratory designed to develop proficiency in sight reading and accompanying at the keyboard. Required for keyboard concentrations and keyboard majors.

MU 245 Concert Jazz Ensemble II (0-1)

The Washburn Concert Jazz Ensemble studies and performs works from various styles of jazz literature. The Ensemble promotes musical development and intellectual growth of its members through careful selection of appropriate jazz repertoire. Membership is open to both music and non-music majors through audition.

MU 246 Women's Chorus (0-1)

Open, by audition, to both majors and non-majors. Membership is based upon appropriate vocal range and quality, and not gender. The Women's Chorus focuses on the fundamentals of proper choral singing and a wide range of literature. In addition, the ensemble performs on campus and off campus during the year.

MU 247 Choir, Singers (0-1)

Open, by audition, to both majors and non-majors. The Washburn Singers perform a variety of styles of music from the chamber choir repertoire. In addition to participating in on-campus concerts each year, the ensemble also performs throughout the region for various high school choral programs and civic functions.

MU 248 Choir, Washburn (0-1)

Open, by audition, to both majors and non-majors. The Washburn Choir excels in performing a wide variety of styles of choral music. The choir performs regularly in both on and off-campus concerts, including major works with the Topeka and Kansas City symphonies.

MU 249 Washburn Jazz Orchestra (0-1)

The Washburn University Jazz Orchestra meets for the purpose of exploring various styles of jazz literature from swing to contemporary works of notable arrangers and composers through the instrumentation of the jazz big band. Expectations for the ensemble are of a professional quality with the highest possible standards in performance. Selection and placement is by audition only.

MU 250 Washburn Opera Studio (0-1)

Works from the operatic and musical theatre repertoire are rehearsed and performed workshop style. Practice and performance in solo and ensemble singing and staging in material ranging from modern and contemporary Broadway and off-Broadway musicals and revues to classic opera and operettas. Prerequisite: Consent of instructor.

MU 251 Orchestra (0-1)

Enrollment in Washburn University Orchestra is open to music and non-music majors by audition only. Repertory performed ranges from Baroque through contemporary literature. The ensemble performs at least two concerts each semester including Christmas Vespers in the Fall semester. Class participants may audition to perform solos with the orchestra. Selection and placement is by audition.

MU 252 Orchestra, String (0-1)

Enrollment in Washburn University String Orchestra is open to music and non-music majors by audition only. Repertory performed ranges from Renaissance through contemporary literature. Selection and placement is by audition.

MU 254 Small Ensembles-Lower Division (0-1)

This class offers students a chamber music experience with only one person on a part. Pre-existing chamber groups may enroll, or students will be assigned to various chamber groups based upon current enrollment. Recital performance is required.

MU 255 Bassoon (1-3)

Private Lesson - Bassoon. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 256 Cello (1-3)

Private Lesson - Cello. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 257 Clarinet (1-3)

Private Lesson - Clarinet. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 258 Euphonium (1-3)

Private Lesson - Euphonium. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 259 Flute (1-3)

Private Lesson - Flute. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 260 Guitar (1-3)

Private Lesson - Guitar. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 262 Harpsichord (1-3)

Private Lesson - Harpsichord. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 263 Horn (1-3)

Private Lesson - Horn. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 264 Oboe (1-3)

Private Lesson - Oboe. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 265 Organ (1-3)

Private Lesson - Organ. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 266 Percussion (1-3)

Private Lesson - Percussion. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 267 Piano (1-3)

Private Lesson - Piano. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 268 Saxophone (1-3)

Private Lesson - Saxophone. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 269 String Bass (1-3)

Private Lesson - String Bass. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 270 Trombone (1-3)

Private Lesson - Trombone. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 271 Trumpet (1-3)

Private Lesson - Trumpet. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 272 Tuba (1-3)

Private Lesson - Tuba. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 273 Viola (1-3)

Private Lesson - Viola. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 274 Violin (1-3)

Private Lesson - Violin. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 275 Voice (1-3)

Private Lesson - Voice. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 276 Applied Jazz Lessons (1-3)

Private Lesson - Applied Jazz. Private lessons are not for beginners. Only BM Performance majors may enroll for 3 hours. An additional fee is associated with this course. Prerequisite: Non-majors must have consent of instructor. Private lessons are not available for auditors.

MU 300 Music, Politics, Soc Comment. (3)

Interdisciplinary study of music as a tool for social and political commentary, propaganda, and protest, focusing primarily on 20th and 21st century genres, cultural movements, and events. Special emphasis is placed on American trends. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

MU 305 Business of Music (1)

An overview of the music industry, with specific attention given to career development and opportunities, promotion and marketing techniques, contracts and negotiation, and arts management. Prerequisite: Jr. standing or consent of instructor.

MU 307 Music and the Brain (3)

Study of the biological processes of active and passive music involvement; and the resulting effect on individuals' learning, physical health, and mental well-being. Includes an experimental component.

Prerequisite: EN 101 and BI 100.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

MU 311 Aural Skills II (1)

Development of aural skills through sight singing and melodic, rhythmic, and harmonic dictation. Reinforces fundamental concepts covered in Music Theory I and II. Corequisite: MU 314 or consent of instructor.

Prerequisites: MU 215 and MU 217 or consent of instructor.

MU 312 Aural Skills III (1)

Development of aural skills through sight singing and melodic, rhythmic, and harmonic dictation. Reinforces fundamental concepts covered in Music Theory II and III. Prerequisites: MU 311 and MU 314. Corequisite: MU 315 or consent of instructor.

MU 313 Foundations of Elementary Music Education (2)

This course will examine the history and general principles of aesthetic education, the position of elementary music education in the historical and contemporary frameworks of universal public education, administrative operation of schools and music education programs, elementary music curriculum design and implementation, the management of music material, human relations aspects of teaching music, and aspects of the music educator's professional development. Elementary Music Practicum requirement: All students in this course participate in field-based teaching experiences in the schools. Prerequisite: Accepted in Professional Education program.

MU 314 Music Theory II (3)

Continued study of part-writing, harmonic progressions, cadences, and non-harmonic tones, with an introduction to tonicization, modulation, phrase and period forms, and baroque and classical style analysis. Corequisite: MU 311 or consent of instructor. Prerequisites: MU 215 and MU 217 or consent of instructor.

MU 315 Music Theory III (3)

Study of chromatic harmony, modulation, smaller and larger forms, and other topics related to music before 1900. Corequisite: MU 312 or consent of instructor. Prerequisites: MU 311 and MU 314 or consent of instructor.

MU 316 Music Theory IV (3)

Analysis of modern music and various analytical methods, including set theory, introduction to composition using tools of post-tonal genres, and study of jazz/popular music theory, including improvisation. Prerequisites: MU 315

MU 317 Orchestration (2)

Practical arranging of piano, choral and instrumental literature. Scoring for voices, strings, woodwinds, brass and percussion instruments including the study of tone, timbre, ranges, transpositions and the blending of these elements. Prerequisite: MU 314 or consent of instructor.

MU 320 Form and Analysis (2)

Musical works from the 17th through 20th centuries are analyzed using a variety of analytical techniques. Students explore standard musical forms, musical structures, and questions of aesthetics. Prerequisite: MU 316

MU 325 Music History I (3)

Survey of musical styles, composers, and forms in Western art music from Greco-Roman antiquity through the Baroque era (approx. 1750). Prerequisite: MU 215 or consent of instructor.

MU 326 Music History II (3)

Survey of musical styles, composers, and forms in Western art music from the Classical era (c. 1750) to the end of the Romantic Era (c. 1900). Prerequisite: MU 325

MU 327 Music History III (2)

Survey of musical styles, composers, and forms in Western art music from c. 1900 through the present. Prerequisite: MU 326 or consent of instructor.

MU 330 Vocal Pedagogy and Literature (2)

Examines the anatomy and physiology of the vocal mechanism and its application for the singer, voice teacher, and music educator. The second half of the semester is devoted to song literature and its application for the solo singer as well as the voice teacher. Prerequisite: Music Major status or consent of instructor.

MU 335 Organ Literature I (2)

Study of organ literature from the Renaissance to the present incorporation styles, registration, and instrument of each period. Prerequisite: Music Major status or consent of instructor.

MU 336 Organ Pedagogy (1)

Study of various organ method books and relevant literature for use in teaching, plus knowledge of styles, registration, and organs of each musical period. Prerequisite: Music Major status or consent of instructor.

MU 337 Piano Literature I (2)

Keyboard music from the Elizabethan virginal school to the present time, designed primarily for piano majors and prospective piano teachers. Prerequisite: Music Major status or consent of instructor.

MU 338 Piano Literature II (2)

Keyboard music from the Elizabethan virginal school to the present time, designed primarily for piano majors and prospective piano teachers. Prerequisite: Music Major status or consent of instructor.

MU 339 Piano Pedagogy (2)

Examines learning theories, methods and materials for private and group piano teaching at the elementary to intermediate levels, including business and professional aspects of teaching. Prerequisite: Music Major status or consent of instructor.

MU 345 Marching Band (0-1)

The Fighting Blues Marching Band is open to all majors and non-majors. The Fighting Blues take great pride in entertaining and thrilling our fans in Yager Stadium with our precision marching and exciting music selections. The band also performs for other events, including bowl games, pep-rallies, alumni, administrative and foundation functions. Audition is not required. No prerequisite.

MU 400 Special Topics in Music (1-3)

A variable content course treating areas of interest to music majors. May be repeated for credit. Prerequisite: Consent of instructor.

MU 402 Senior Research Seminar (2)

Development and application of research, information literacy, and writing skills in preparation for graduate study and professional activity in music. Designed for music performance majors, but open to all music majors.

MU 415 Tonal Counterpoint (2)

The study, analysis, and writing of inventions, canons and fugues in 18th-century style, using works of J.S. Bach as a model. Prerequisite: MU 316.

MU 417 Secondary Choral Methods (3)

This course will examine materials and specific instructional methods of teaching choral music for grades 7-12 through a concept and skill building approach. Additional emphasis will be placed on the organization and development of vocal performing groups for grades 7-12. Secondary choral practicum requirement: All students in this course participate in field-based teaching experiences in the schools. Prerequisite: MU 313 or consent of instructor

MU 418 Elementary/Secondary Music Education Instrumental Methods (3)

This course will examine materials and specific instructional methods of teaching elementary and secondary instrumental music, by a concept and skill building approach, and emphasize the organization and development of instrumental performing groups. Practicum requirement: All students in this course participate in field-based teaching experiences in the schools. Prerequisite: MU 313 or consent of instructor.

MU 420 Jazz Band Pedagogy (1)

This course will examine the various jazz styles, rehearsal techniques, and improvisation in jazz band. Prerequisite: Pass Fourth Semester Jury or consent of instructor.

MU 421 Marching Band Pedagogy (1)

This course will examine the various marching band styles, marching fundamentals, rehearsal techniques, show design principles and other facets of organization for teaching High School Marching Band. Prerequisite: MU 245/MU 445 Marching Band.

MU 426 Wind Ensemble (0-1)

The Washburn Wind Ensemble is comprised of the finest woodwind, brass, and percussion students at Washburn University. The Wind Ensemble exposes students to the highest quality of music written for wind instruments from the Renaissance to the present. This repertoire, along with visits by renowned artists and educators, give the students a unique opportunity to experience a wide range of compositional techniques, rehearsal processes, and musical possibilities. Membership in the Wind Ensemble is open to both music and non-music majors, through audition.

MU 439 University Band (0-1)

The University Band is an ensemble that performs works from the standard literature for wind band. The University Band promotes the musical and intellectual growth of its members through careful selection of appropriate repertoire. Membership in the University Band is open to both music and non-music majors, through audition.

MU 441 Advanced Choral Conducting (1)

A practical opportunity to direct, under supervision, voices under conditions approximating the rehearsal situation. Prerequisite: MU 237 and 240 or consent of instructor.

MU 442 Advanced Instrumental Conducting (1)

A practical opportunity to direct, under supervision, strings and woodwind instruments under conditions approximating the rehearsal situation. Prerequisite: MU 238 and 240 or consent of instructor.

MU 443 Composition (1-3)

Individual tutoring in music composition with emphasis on the development and expansion of music materials. May be taken as an elective. May be repeated as an elective with consent of instructor. Prerequisite: MU 316 or consent of instructor.

MU 444 Collaborative Piano (1)

A laboratory designed to develop proficiency in sight reading and accompanying at the keyboard. Required for keyboard concentrations and keyboard majors.

MU 445 Concert Jazz Ensemble (0-1)

The Washburn Concert Jazz Ensemble studies and performs works from various styles of jazz literature. The Ensemble promotes musical development and intellectual growth of its members through careful selection of appropriate jazz repertoire. Membership is open to both music and non-music majors through audition.

MU 446 Women's Chorus (0-1)

Open, by audition, to both majors and non-majors. Membership is based upon appropriate vocal range and quality, and not gender. The Women's Chorus focuses on the fundamentals of proper choral singing and a wide range of literature. In addition, the ensemble performs on campus and off campus during the year.

MU 447 Choir, Singers (0-1)

Open, by audition, to both majors and non-majors. The Washburn Singers perform a variety of styles of music from the chamber choir repertoire. In addition to participating in on-campus concerts each year, the ensemble also performs throughout the region for various high school choral programs and civic functions.

MU 448 Choir, Washburn (0-1)

Open, by audition, to both majors and non-majors. The Washburn Choir excels in performing a wide variety of styles of choral music. The choir performs regularly in both on and off-campus concerts, including major works with the Topeka and Kansas City symphonies.

MU 449 Washburn Jazz Orchestra (0-1)

The Washburn University Jazz Orchestra meets for the purpose of exploring various styles of jazz literature from swing to contemporary works of notable arrangers and composers through the instrumentation of the jazz big band. Expectations for the ensemble are of a professional quality with the highest possible standards in performance. Selection and placement is by audition only.

MU 450 Washburn Opera Studio (0-3)

Works from the operatic and musical theatre repertoire are rehearsed and performed workshop style. Practice and performance in solo and ensemble singing and staging in material ranging from modern and contemporary Broadway and off-Broadway musicals and revues to classic opera and operettas. Prerequisite: Consent of instructor.

MU 451 Orchestra (0-1)

Enrollment in Washburn University Orchestra is open to music and non-music majors by audition only. Repertory performed ranges from Baroque through contemporary literature. The ensemble performs at least two concerts each semester including Christmas Vespers in the Fall semester. Class participants may audition to perform solos with the orchestra. Selection and placement is by audition.

MU 452 Orchestra, String (0-1)

Enrollment in Washburn University String Orchestra is open to music and non-music majors by audition only. Repertory performed ranges from Renaissance through contemporary literature. Selection and placement is by audition.

MU 454 Small Ensembles-Upper Division (0-1)

This class offers students a chamber music experience with only one person on a part. Pre-existing chamber groups may enroll, or students will be assigned to various chamber groups based upon current enrollment. Recital performance is required.

MU 455 Bassoon (1-3)

Private Lesson - Bassoon. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 456 Cello (1-3)

Private Lesson - Cello. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 457 Clarinet (1-3)

Private Lesson - Clarinet. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 458 Euphonium (1-3)

Private Lesson - Euphonium. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 459 Flute (1-3)

Private Lesson - Flute. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 460 Guitar (1-3)

Private Lesson - Guitar. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 462 Harpsichord (1-3)

Private Lesson - Harpsichord. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 463 Horn (1-3)

Private Lesson - Horn. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 464 Oboe (1-3)

Private Lesson - Oboe. An additional fee is associated with this course.
Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 465 Organ (1-3)

Private Lesson - Organ. An additional fee is associated with this course.
Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 466 Percussion (1-3)

Private Lesson - Percussion. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 467 Piano (1-3)

Private Lesson - Piano. An additional fee is associated with this course.
Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 468 Saxophone (1-3)

Private Lesson - Saxophone. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 469 String Bass (1-3)

Private Lesson - String Bass. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 470 Trombone (1-3)

Private Lesson - Trombone. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 471 Trumpet (1-3)

Private Lesson - Trumpet. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 472 Tuba (1-3)

Private Lesson - Tuba. An additional fee is associated with this course.
Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 473 Viola (1-3)

Private Lesson - Viola. An additional fee is associated with this course.
Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 474 Violin (1-3)

Private Lesson - Violin. An additional fee is associated with this course.
Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 475 Voice (1-3)

Private Lesson - Voice. An additional fee is associated with this course.
Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

MU 476 Applied Jazz Lessons (1-3)

Private Lesson - Applied Jazz. An additional fee is associated with this course. Prerequisite: BM students must pass "4th semester Jury." BA students must pass "Double Jury."

NURSING (NU)

NU 102 Medical Terminology (1)

Introduction to basic terminology used in medical reports and treatment recommendations. Word compositions, prefixes, suffixes, and roots of medical terms are studied in relation to body systems. Extensive use of audiovisual media.

NU 220 Principles of Nutrition (3)

Principles of normal nutrition with emphasis on nutrient interrelationships, dietary assessment, and nutritional needs through the life cycle. Recommend students take BI 100 / BI 101 prior to this course.

NU 301 Applied Pharmacology for RNs (2)

Builds on previously learned knowledge of anatomy, physiology, chemistry, and genetics and introduces concepts of pharmacologic therapy for collaborative nursing practice. Selected medication categories are studied with emphasis on nursing responsibility, accountability, and safety. Case study-based critical thinking exercises focus learning on lifespan issues, patient assessment, and therapeutic response. Prerequisite: Admission to RN to BSN Program.

NU 302 Nursing for Military Healthcare Personnel (2)

This course content covers the assessment and nursing skills that supplements the content from the 68W or equivalent medic training. Students will learn additional assessment and nursing skills to enhance role development as a professional nurse. This is important information that will develop the knowledge, skills, and attitudes to provide holistic nursing care across the lifespan. Prerequisite: Admission to the Nursing program and approved military training (68W or equivalent).

NU 306 Health Assessment & Promotion (4)

This course introduces the processes of health assessment and promotion including interviewing, history-taking, physical assessment, and health education across the lifespan. Incorporated throughout the course is the importance of assessing a culturally diverse population. Prerequisite: Admission to the nursing major.

NU 310 Pathway to Nursing Student Success Elective (0)

This course reinforces strategies to promote successful completion of the Pre-licensure BSN program. It focuses on time management, test-taking skills, learning strategies, study methods, and individualized student success activities. It is required for students who are unsuccessful in an upper-division nursing course. Prerequisites: Admission to the Nursing Major.

NU 311 Medical/Surgical I: Fundamentals of Nursing/Practicum (6)

This course introduces nursing as a professional discipline. It is designed to provide the student with the evidence-based theory, rationale, and procedure for performing the skills needed for entry level nursing practice. Prerequisite: Admission to the nursing major.

NU 312 Clinical Concepts I (3)

The first of two courses designed to strengthen and enhance learner knowledge about physical assessment, pathophysiology, and pharmacology for major health problems. Exploration will include cellular, immune, lymphatic, circulatory, respiratory, gastrointestinal, and renal systems. Learners are challenged to enhance their comprehension of health promotion, disease prevention, and disease management strategies that improve the care of healthy and compromised individuals, groups, and populations.

NU 314 Clinical Concepts II (3)

The second of two courses designed to strengthen and enhance learner knowledge about physical assessment, pathophysiology, and pharmacology for major health problems. Exploration will include endocrine, neurological, musculoskeletal, integumentary, and reproductive systems. Learners are challenged to enhance their comprehension of health promotion, disease prevention, and disease management strategies that improve the care of healthy and compromised individuals, groups, and populations.

NU 317 Applied Health Assessment for RNs I (2)

Focuses on comprehensive health assessment skills for the professional registered nurse. Expands on health assessment knowledge with an emphasis on health history, critical thinking, clinical reasoning, and advanced physical assessment techniques. Health assessment principles and techniques are expected to be identified and applied to health issues across the lifespan. Incorporated throughout the course is the importance of communication and collaboration across culturally diverse populations and developmental dimensions. Students are expected to identify and apply pathophysiological principles to selected health issues across the lifespan. This fully online course includes virtual simulation experiences. Prerequisite: Admission to RN to BSN Program.

NU 318 Professional Transformation I: Becoming a Nurse (1)

This course introduces professional nursing expectations with an emphasis on the principles of therapeutic relationships, ethics, self-reflection, and communication. Prerequisite: Admission to the nursing program.

NU 319 Applied Health Assessment for RNs II (2)

Focuses on the continuation of comprehensive health assessment skills for the professional registered nurse. Expand existing skills and knowledge processes of health assessment to include history taking, physical assessment, and application of clinical reasoning and critical thinking. Emphasis is placed on health promotion and disease prevention across the lifespan. Students are expected to identify and apply pathophysiological principles to selected health issues across the lifespan. Students also synthesize nursing knowledge and physical assessment skills to complete comprehensive health assessments on complex patient scenarios. This fully online course includes virtual simulation experiences. Prerequisite: NU 317 and Admission to RN to BSN Program.

NU 320 Pathophysiology I (3)

This course introduces pathophysiologic concepts related to the functional and structural changes that accompany disease processes. The course focuses on the general mechanisms of disease, and the application of the basic concepts to body systems and selected disease processes. Prerequisite: Admission to nursing major or permission of instructor.

NU 321 Professional Transformation (3)

Introduces professional nursing expectations. Students learn to establish therapeutic relationships as the foundation of professional nursing practice and personal accountability. The communication of theory of TEAMSTEPPS is incorporated throughout the course. The value of self-care and reflection in relation to professional transformation is also explored. Prerequisite: Admission to RN to BSN Program.

NU 322 Pharmacology I with Lab (2)

This course introduces the principles of pharmacokinetics, pharmacodynamics, and pharmacogenetics for major drug classes. This includes basic drug dosage calculations and safe medication administration to a culturally diverse population. Prerequisite: Admission to nursing major or consent of instructor.

NU 323 Applied Pathophysiology for RNs I (2)

Designed for the professional registered nurse building on current knowledge and experience. Focuses on mechanisms of disease and recognition of the importance of clinical management across the lifespan. Students analyze risk factors and clinical manifestation associated with pathophysiological changes. Emphasis is placed on interpretation and prioritization of data. Prepares the professional nurse to critically approach complex situations systematically. Prerequisite: Admission to RN to BSN Program and NU 317 (can be taken concurrently).

NU 324 Pathophysiology II (2)

This course focuses on the application of basic pathophysiology concepts to body systems and disease processes. Etiology of disease, prevention, manifestations, laboratory, and diagnostic tests are discussed to provide a foundation to understand an individual's illness experience. Prerequisite: NU 320 or consent of instructor.

NU 325 Nursing Informatics (2)

This course introduces information and technology literacy necessary to improve quality and safety in nursing practice. Prerequisite: NU 311 or consent of instructor.

NU 326 Pharmacology II (2)

This course emphasizes pharmacotherapeutic agents used in the prevention, promotion, maintenance, and restoration of health in treating various diseases. Nursing implications and patient/family education relative to the drug therapies are examined. Prerequisite: NU 322 or consent of instructor.

NU 327 Applied Pathophysiology for RNs II (2)

Designed for the professional registered nurse and builds on current knowledge, experience, and Applied Pathophysiology I. Presents the pathophysiology of common variations according to body systems. Students analyze risk factor and clinical manifestations associated with pathophysiological changes. Emphasis continues to be placed on interpretation and prioritization of data, as well as on disease prevention and health promotion. Prerequisite: Admission to RN to BSN Program, NU 323, and NU 319 (can be taken concurrently).

NU 328 Evidence Based Nursing (2)

This course introduces the principles of nursing research and application through evidence-based practice. Prerequisites: MA 140 or equivalent and NU 311.

NU 329 Introduction to Nursing Informatics (3)

Provides a systematic application of information and computer technology to related nursing practice. Emphasis is on integrating nursing practice systems and information technology. Examination of the evolution, future, and role of nursing informatics is discussed. Prerequisite: Admission to RN to BSN Program.

NU 330 Indep Study - Nursing (1-3)

Advanced study and/or guided learning experiences in a selected area of nursing. Student defines objectives and learning experiences and selects faculty preceptor. Prerequisite: Consent.

NU 333 Stress Management for Nurses (2)

Discussion of stress theory and the effects stress has on the nurse, professionally and personally. Introduction and application of a variety of stress reduction interventions will be incorporated into each class. Prerequisite: NU 311.

NU 334 Interpreting Lab Tests and Diagnostic Modalities (2)

Interpretation of results of laboratory tests and diagnostic procedures with implications for nursing care of clients. Exploration of new technology used in diagnostic modalities. Prerequisite: NU 311.

NU 335 Special Topics/Nursing (0-3)

Selected subjects of relevance for nursing, announced in advance. Prerequisite: Consent.

NU 338 Nursing for Pain Management (2)

Application of nursing theoretical concepts in the care of clients with pain and comfort needs. Exploration of the nature of the pain experience, theories of pain transmission, types of pain and nursing interventions in the management of pain. Upper division nursing course designed to supplement basic knowledge in the care of patients with pain. Prerequisite: NU 311.

NU 341 Evidence-Based Nursing (3)

Emphasizes appraisal of research studies as the foundation for evidence-based nursing practice. Prerequisite: Admission to RN to BSN Program.

NU 344 Health Promotion (3)

In this course, learners will explore the theoretical foundations and principles of health promotion and disease prevention across the lifespan for individuals, families, and populations. Lifestyle behaviors, protective and predictive factors that influence health including genetics, will be examined. The importance of communication and interprofessional collaboration to improve health are discussed.

NU 347 Curricular Practical Training (1)

Provides international students the opportunity to gain experience in a USA-based health care system. Emphasis is on an immersion experience to better understand the nursing role within the US health care system. Practicum is a precepted experiences. Prerequisites: 1) Acceptance into the undergraduate nursing program, 2) International student must have a student visa, 3) completion of two required Curricular Practical Training (CPT) forms through the Washburn Office of International Programs, 4) receipt of the CPT authorization on the I-20 document, and 5) approval of the chairperson of the School of Nursing International Studies Committee.

NU 348 Psychiatric/Mental Health Nursing/Practicum (3)

This course introduces basic theories and concepts related to psychiatric care across the lifespan. The emphasis is on knowledge of psychopharmacological and nursing management. Advanced communication skills will be explored. Prerequisites: All Level 1 courses.

NU 360 Professional Transformation II: Nursing Role in Healthcare (1)

This course introduces nurse leadership roles in healthcare. Concepts such as interdisciplinary teamwork, organizational structure, systems, and inequities in care will be explored. Prerequisites: NU 318

NU 386 Medical/Surgical Nursing II/Practicum (6)

This course emphasizes nursing care of chronic diseases. Learning objectives focus on risk factors, manifestations, treatments, and prevention of commonly occurring medical-surgical illnesses. Prerequisites: All Level 1 courses.

NU 450 Professional Transformation III: Nurses as Leaders (2)

This course introduces leadership skills that promote ethical and critical decision-making, effective working relationships, care coordination and conflict resolution strategies. A basic overview of complex systems and the regulatory expectations guiding these systems is provided. Prerequisites: All Level 1 courses or consent.

NU 451 Leadership, Mgmt, Hlth Policy (2-3)

Focuses on leadership skills that emphasize ethical and critical decision-making, initiating and maintaining effective working relationships, communication and collaboration within interprofessional healthcare teams, care coordination, delegation, and developing conflict resolution strategies. Students obtain a basic understanding of complex systems and the impact of power, politics, policy, and regulatory guidelines on these systems. Prerequisite: Admission to RN to BSN Program.

NU 452 Maternal/Women/Newborn Nursing/Practicum (3)

This course is the study of the human life process from conception through the newborn period. Basic theory and concepts related to the maternity cycle, care of the newborn, and nursing care of the mother are emphasized. General knowledge of women's health is introduced.

NU 456 Medical/Surgical Nursing III/Practicum (7)

This course focuses on the theory and concepts related to evidence-based nursing care of adult individuals, families, and groups with varying health-illness across acute care settings. Students will build upon their foundational nursing knowledge and skills obtained in previous and current courses to provide holistic, quality, and safe nursing care for a baccalaureate generalist. Prerequisites: All Level 1 and Level 2 courses.

NU 462 Professional Transformation IV: Quality and Safety in Health Care (3)

This course focuses on system leadership, quality improvement and safety concepts to promote high quality healthcare. Emphasis is placed on the application of evidence-based knowledge from contemporary sciences and communication with interprofessional healthcare team members. Prerequisites: All Level 1, 2 and 3 courses or consent.

NU 463 Quality and Safety in Healthcare (2-3)

System leadership, quality improvement, and safety concepts are presented to promote high quality nursing practice in healthcare settings. Emphasis is placed on the application of evidence-based knowledge from the contemporary sciences and communication with interprofessional healthcare team members. Prerequisite: Admission to RN to BSN Program.

NU 465 Population Health with Practicum (3)

This course explores social determinants of health for aggregates of people, communities, and populations. Emphasis on public health science and epidemiology principles will guide students in the identification of the social, cultural, environmental, and legislative issues within complex community systems. Prerequisites: All Level 1, 2, and 3 courses.

NU 467 Clinical Prevention and Population Management (3)

The focus of this course emphasizes population health management principles to guide learners in the identification of the social, cultural, environmental, and legislative issues within complex community systems. Learners examine clinical prevention and health promotion strategies for effectiveness, efficiency, and equity to identify resources that contribute to the population's overall health status. Prerequisite: Admission to RN to BSN Program.

NU 468 Pediatric Medical-Surgical Nursing with Practicum (3)

This course focuses on basic theory and concepts related to children and their families in varying stages of health in complex settings. Prerequisites: All Level 1, 2 and 3 courses.

NU 494 Capstone/Seminar (5)

This course integrates all previous theoretical and clinical learning in preparation for NCLEX and entry level clinical practice. Prerequisites: All Level 1, 2, and 3 courses; Co-requisites: NU 462, NU 465, and NU 468.

NU 495 Leadership Capstone (3)

The focus of this course is the integration of knowledge, skills, and attitudes central to functioning as a nursing leader. Experiences allow learners to practice cultural competence in providing safe, quality care of patients of diverse race and ethnicity. Prerequisite: Admission to RN to BSN Program.

NU 580 Nursing Externship (1)

Provides international students the opportunity to gain experience in a USA based health care facility. Emphasis is on an immersion experience to better understand the US healthcare system. The immersion experience may provide the student an opportunity to be reimbursed by the facility, practice the English language, and become familiar with US culture and health care customs. Prerequisites: International students with an F-1 student visa only. Accepted into the graduate nursing program with a current RN license in Kansas.

NU 801 Theoretical Foundations (2)

Emphasis is placed on the philosophical, conceptual, and theoretical foundations of nursing practice. Students are introduced to the language of theory as it has developed over time and the patterns of knowing that have influenced the development of nursing theory. Selected theories and conceptual models are explored and related to contemporary nursing practice. Prerequisite: Admission to DNP program or consent of instructor.

NU 802 Population Health (3)

Explores population health principles, concepts and procedures used in the surveillance and investigation of health-related states or events. Emphasis is placed on the concepts and methods of population health through the use of epidemiologic investigation, appropriate summaries and displays of data, and the use of statistical approaches to describe the health of populations. Aggregate data from a variety of sources will be used to demonstrate the use of epidemiological investigation to support and apply evidence-based practice to current population health concerns. The role of the advanced practice nurse in prevention of disease and injury will be a focus of this course. A basic understanding of the practices of community health and biostatistics is recommended. Prerequisite: Admission to DNP program or consent of instructor.

NU 804 Emerging Concepts Informatics (2)

Gives the advanced practice nurse the necessary computing skills to critically assess, plan, intervene, and evaluate health care delivery. Discussion topics will include how the advanced practice nurse gathers, stores, retrieves, and utilizes data. Content on utilization of the computer to search for information and data will be included. Prerequisite: Admission to DNP program or consent of instructor.

NU 805 Health Policy (2)

Focuses on dynamics of healthcare policy and its influence on complex health care systems and delivery of care. Prepares students to design, implement and influence health care policy formation and to develop skill in competent political action. Prerequisite: Admission to DNP Program or consent of instructor.

NU 809 Doctoral Leadership (2)

Emphasizes the role of doctoral nurse graduates as healthcare leaders in complex systems. Builds upon understanding personal values and vocational goals in relation to self-leadership strengths. Examines methodologies for expanding leadership competencies to promote innovation, collaborative problem-solving, and improved health outcomes. Prerequisite: Admission to DNP Program or consent of instructor.

NU 812 Innovations in Quality Care (2)

Emphasis is placed on quality improvement (QI) methods, tools, and strategies from the science of improvement and the science of safety. Students examine phases and steps of QI and tools for data analysis and display. They also examine strategies for improving teamwork, improving communication, preventing errors, and leading QI projects with an emphasis on ambulatory care settings. Prerequisite: Admission to DNP Program or consent of instructor.

NU 813 Advanced Psychiatric Mental Health Roles (2)

Designed to familiarize students with the roles and scope of practice of the advanced practice psychiatric mental health nurse practitioner (PMHNP), including those of psychotherapist and psychopharmacologist. Developing roles in emerging delivery of care systems also will be explored. Integration of established scope and standards of advanced psychiatric mental health nurses into practice are examined. Prerequisite: Admission to PMHNP certificate, or DNP-PMHNP track or consent of instructor.

NU 815 Research Methods for Practice Scholarship (3)

Provides an overview of research terminology and methods used in quantitative and qualitative research. Content is selected to enhance the ability of students to evaluate the strength and value of empirical evidence for application to practice. Emphasis is placed on the critical appraisal of scholarly products for their scientific merit and ability to provide quality evidence for advanced nursing practice. Prerequisites: Admission to the DNP Program and a graduate-level inferential statistics course or consent of instructor.

NU 817 Evidence-Based Practice (3)

Focuses on the principles and steps of evidence-based practice (EBP), addresses how to apply evidence to practice and how to evaluate the outcomes of an intervention, and addresses practical strategies for the creation of a culture of EBP. Prerequisites: NU 815 or consent of instructor.

NU 819 Selected Topics of Sub-Relevance for Nursing (1-3)

Selected subjects of relevance for graduate students, announced in advance. Prerequisite: Admission to DNP Program and consent of instructor.

NU 820 Advanced Pathophysiology (3)

Focuses on application of basic pathophysiologic concepts to situations found in ambulatory care with clients across the life-span. Emphasis is given to analysis of presenting manifestations with the intent to determine cause. Provides a foundation for clinical decision-making in terms of diagnostic findings and the initiation of therapeutic regimes. Application situations will be age specific and clinical diagnosis and management must be made accordingly. Prerequisites: Admission to the DNP program or Post-graduate PMHNP Certificate Program or consent of instructor.

NU 821 Advanced Pathophysiology Family (1)

Pathophysiology related to children and infants for students in the family nurse practitioner track. Content includes conditions and diseases specific to pregnancy, post-partum, infancy and childhood. Application of principles from advanced pathophysiology course to age-appropriate case studies. Clinical diagnosis and management focuses on birth to eighteen years of age. Prerequisites: Admission to the DNP program or Post-graduate PMHNP Certificate Program or consent of instructor.

NU 822 Advanced Pharmacology: Lifespan (1-3)

Promotes understanding and application of advanced pharmacotherapeutic principles used for the management of selected acute and chronic conditions across the lifespan. Emphasis is placed on clinical decision-making as it applies to safe and effective prescribing and monitoring of medications appropriate for the client and clinical situation. Indications, pharmacologic actions, side effects, contraindications, appropriate dosing, and guidelines for use are addressed. Ethical, legal, and economic issues for diverse populations are also considered. Directed learning to achieve a lifespan perspective is accomplished through use of age-specific modular content and learning activities. Prerequisite: Admission to the DNP program or Post-graduate PMHNP Certificate Program or consent of instructor and NU 820 or consent of instructor.

NU 827 Psychiatric Differential Diagnosis & Diagnostic Interviewing (3)

Focuses on the development of advanced psychiatric interviewing skills for competent assessment of culturally diverse clients across the lifespan and provides the basis for the differential diagnosis of psychiatric disorders. Prerequisites: Admission to the DNP Program or Post-graduate PMHNP Certificate Program or consent of the instructor. NU 828 may be taken concurrently.

NU 828 Advanced Psychopharmacology/Neurobiology (3)

Neurobiological processes are emphasized in the study of advanced psychopharmacological treatment of psychiatric symptoms and disorders. Medication selection, dosage and monitoring in the psychopharmacological treatment of individuals is covered including prescriptive issues associated with ethnicity and age. Prerequisite: Admission to PMHNP certificate, NU 827 (may be taken concurrently) and NU 822 or equivalent transfer course.

NU 829 Advanced Health Assessment and Differential Diagnosis Across the Lifespan (1-3)

Provides opportunity to gain advanced health assessment skills essential for diagnostic reasoning and clinical decision making across the lifespan. Builds on knowledge of anatomy and physiology to discriminate between normal and abnormal physical and psychological states. Emphasis is placed on accurately collecting, analyzing, and interpreting patient/client data to guide evidence-based health promotion, disease prevention, and disease management. Directed learning to achieve life-span assessment skills is accomplished through use of age specific modular content and learning activities. Simulation Description: Students use virtual patients to apply a systematic approach to diagnostic reasoning, treatment plan development, patient-family education, and follow-up evaluation plans. No clinical hours will be required. Prerequisites: Admission to the DNP Program or Post-graduate PMHNP Certificate Program or consent of the instructor; NU 820 Advanced Pathophysiology

NU 830 Primary Care I (3)

Develops knowledge and skill to provide person- and family-centered care in the primary care setting for culturally diverse people across the lifespan. Wellness and health promotion of individuals and families are emphasized. Simulated management of cardiovascular, respiratory, endocrine, dermatologic and psychological alternatives and patient responses are considered. Prerequisite: Admission to DNP Program, NU 820, NU 822, and NU 824 or NU 829.

NU 832 Primary Care Practicum I (3)

Application of knowledge and skills in caring for diverse patients across the lifespan in primary care and related settings as they experience common acute and chronic health conditions. Utilization of diagnostic reasoning, clinical decision-making, pharmacologic and non-pharmacologic therapeutics, and interdisciplinary collaboration in the provision of person- and family-centered care are emphasized. Primary, secondary, and tertiary levels of prevention are integrated. Emphasis is placed on advanced nursing roles and provision of ethical care. Prerequisite: Concurrent with NU 830.

NU 834 Primary Care II (3)

Builds upon knowledge and skills to provide person- and family-centered care in the primary care setting for culturally diverse people across the lifespan. Wellness and health promotion of individuals and families are emphasized. Simulated management of urinary, renal, reproductive, genomic, immunologic, gastrointestinal, and psychological alterations and patient responses are considered. Prerequisite: Admission to DNP Program, NU 830, NU 832.

NU 836 Primary Care Practicum II (3)

Application of knowledge and skills in caring for diverse patients across the lifespan in primary care and related settings as they experience more complex acute and chronic health conditions. Builds upon advancing skills in diagnostic reasoning, clinical decision-making, pharmacologic and non-pharmacologic therapeutics, and interdisciplinary collaboration in the provision of person- and family-centered care. Primary, secondary, and tertiary levels of prevention are integrated. Emphasis is placed on the integration of independent practice models, collaboration, and team-based care. Prerequisite: Concurrent with NU 834.

NU 838 Primary Care III (3)

Builds upon and advances knowledge and skills to provide person- and family-centered care in the primary care setting for culturally diverse people across the lifespan. Wellness and health promotion of individuals and families are emphasized. Simulated management of neurologic, musculoskeletal, sensory, and psychological alterations and patient responses are considered. Maternal and newborn health topics are discussed. Special topics are introduced to address emerging practice needs. Prerequisite: Admission DNP Program, NU 834 and NU 836.

NU 840 Primary Care Practicum III (3)

Application of knowledge and skills in caring for diverse patients across the lifespan in primary care and related settings as they experience complex acute and chronic health conditions. Utilizes advanced skills in diagnostic reasoning, clinical decision-making, pharmacologic and non-pharmacologic therapeutics, and interdisciplinary collaboration in the provision of person- and family-centered care. Special emphasis is placed on patient- and family-centered care of healthy pregnant and post-partum women, newborns, and patients with complex health conditions. Primary, secondary, and tertiary levels of prevention are integrated. Prerequisite: Concurrent with NU 838.

NU 843 Basic Office Procedures and Assessment (1)

Develops knowledge and skill to perform office procedures and advanced health assessments common to the primary care and behavioral health settings. Identifies indications, contraindications, potential complications, equipment, patient preparation, proper technique, and procedure codes for topics covered. Demonstrates documentation reflective of procedures completed. Prerequisites: Admission to the Doctor of Nursing Practice program or consent of instructor.

NU 850 Advanced Practice Psychiatric Nursing I (3)

Theoretical approaches are explored in addressing short-term and less complex illnesses. Evidence-based psychotherapeutic approaches are explored for the treatment of individuals, families, and groups and provide the foundation for clinical management of psychiatric mental health problems that are often time-limited as well as those that commonly occur across the life span. Health promotion and prevention measures are included in therapeutic interventions. Prerequisite: Admission to PMHNP certificate, or DNP-PMHNP program, and NU 826 or NU 827 and NU 828.

NU 854 Advanced Practice Psychiatric Mental Health Nursing II (3)

Theoretical approaches are explored in addressing chronic and complex illnesses. Evidence-based psychotherapeutic approaches are explored for the treatment of individuals, families, and groups experiencing complex and chronic mental illnesses and addictions. Differential diagnostic skills and interventional strategies are explored as well as the role of rehabilitation and psycho-educational approaches across the life span. Prerequisites: Admission to PMHNP certificate, or DNP-PMHNP program and, NU 826 or NU 827 and NU 828.

NU 857 Advanced Practice Psychiatric Mental Health Nursing Practicum (1-4)

Provides opportunities for direct practice experience with individuals, families, and groups and development of the advanced practice psychiatric nurse. Students engage in activities involving assessment, diagnosis, and interventions including psychopharmacologic and psychotherapeutic skills in working with individuals experiencing short-term, commonly occurring, complex, chronic psychiatric illnesses and addictions. Must complete 6 credits of NU 857 to be eligible to take NU 859. Prerequisites: Admission to PMHNP certificate, or DNP-PMHNP program and NU 826 or NU 827, and NU 828, and concurrent with NU 850 or NU 854, and consent of instructor.

NU 859 Advanced Psychiatric Nursing Special Focus Practicum (1-3)

Provides opportunities for the student to focus on skill building in a particular practice setting or client population of interest as well as the synthesis of the knowledge into this advanced practice role. In this final practicum, students function in the role of the advanced psychiatric mental health nurse practitioner providing psychopharmacological and psychotherapy interventions. In this final practicum, students function in the role of the advanced psychiatric mental health practitioner providing psychopharmacological and psychotherapy interventions. Must complete NU 850 and NU 854 and 6 credits of NU 857 to be eligible to take NU 859. Prerequisite: Admission to PMHNP certificate, or DNP-PMHNP program, and NU 850 and NU 854, 6 credits of NU 857, and consent of instructor.

NU 860 Special Topics: Advanced Psychiatric Nursing Child/Adolescent (1)

Designed to enhance students' knowledge of current evidence-based psychotherapeutic approaches in treatment of children and adolescents. Prerequisite: Admission to PMHNP certificate, or DNP-PMHNP program and, NU 827, NU 828, or consent of instructor.

NU 870 Data Driven Practice (2)

Challenges students to better understand systems thinking and its application to managing dynamic, uncertain, and complex problems in the healthcare environment. Through this lens, students will explore, apply, and integrate data collection and analysis methods and strategies to use as a basis for initiating system-level change to improve healthcare outcomes. Prerequisites: NU 804 and NU 807 or NU 817 and NU 812; or consent of instructor.

NU 874 Applied Diagnostic Reasoning and Clinical Decision-Making (2)

Builds upon an understanding of diagnostic reasoning to generate actual and differential diagnoses for the treatment and management of selected acute and chronic conditions encountered during the lifespan. Integrates advanced pathophysiology, advanced health assessment, and advanced pharmacotherapy principles to inform diagnoses and clinical decision-making. Emphasis is placed on quality and safety in developing an evidence-based approach for the clinical application of drug therapy and other treatment modalities. Prerequisites: NU 820 and NU 822 and NU 824 or NU 829; or equivalent transfer courses.

NU 876 Advanced Office Procedures (2)

Builds on foundational knowledge and skills needed to perform office procedures commonly encountered in primary care and urgent/emergency care settings. Focuses on selection of appropriate equipment or tools, patient education and preparation, and correct procedural technique. Provides opportunities for application of knowledge and for proficiency demonstration of procedural skills in simulated clinical situations. Emphasizes accurate documentation to support coding and billing. Prerequisites: Admission to the Doctor of Nursing Practice program and prior completion of NU 843; or equivalent transfer course.

NU 900 Philosophical Worldviews for Doctoral Nursing Practice (2)

Emphasizes the philosophical orientations that serve as the basis for doctoral nursing practice. Promotes philosophical reflection, understanding of evolutionary processes of nursing science, application of nursing and interdisciplinary philosophies and theories to advanced nursing practice, and articulation of the student's philosophical worldview. Prerequisites: Admission to DNP Program or consent of instructor.

NU 902 Health Care Economics (3)

Focuses on economic theories and principles that can assist health care providers to be effective leaders and decision makers. Examines the economic and political environment in which health care is delivered in the United States and explores the role of regulation in protecting consumers. Provides frameworks for conceptualizing costs, risk, value, and strategic decision making in a competitive environment. Students explore economic analysis commonly used in health care decision making. Prerequisites: Admission to DNP Program.

NU 903 Perspectives for the Advancement of Global Health (2)

Focuses on the complexities of contemporary global health issues within the context of social, cultural, economic, political, and environmental factors. Incorporates concepts of doctoral leadership to analyze, evaluate and promote collaborative strategies to advance health equity across cultures. Prerequisite: Consent of instructor

NU 904 DNP Residency: BSN-DNP (1-6)

Expands advanced nursing practice clinical knowledge and skills within the track. Synthesis of clinical knowledge and incorporation of evidence-based decision making is used to construct symptom-based assessments, advanced differential diagnoses, independent therapeutic interventions, and outcome evaluation of the care of clients/families. Prerequisite: NU 840 or NU 859.

NU 905 DNP Residency: MSN-DNP (1-7)

Expands breadth and depth of current advanced practice nursing clinical knowledge and skills with a focus on delivery of sub-specialty care services and/or full spectrum health care services. Synthesis of clinical knowledge and incorporation of evidence-based decision making is used to construct symptom-based assessments, advanced differential diagnoses, independent therapeutic interventions, and outcome evaluation of the care of clients/families/populations. Prerequisite: NU 840 or NU 859.

NU 971 Practice Inquiry DNP Project I (2)

Provides an overview of methods to promote the systematic uptake of clinical research findings and other evidence-based practices into routine practice. Students complete an in-depth investigation of a practice-focused problem and prepare an evidence-based project proposal for a practice setting. Prerequisite: NU 870 and NU 902.

NU 972 Practice Inquiry DNP Project II (2)

Prepares students to translate evidence into practice and implement evidence-based changes into a practice setting. Data are collected and analyzed to guide recommendations for practice change and hence to improve the quality and effectiveness of health care services. Prerequisite: NU 971.

NU 973 Practice Inquiry DNP Project III (2)

Provides the culminating experience for students to complete and defend the DNP Practice Inquiry Project. Project design, application of theory, implementation processes, analysis of financial implications, contributions to the profession of nursing, leadership skills, and interprofessional experiences are considered. Dissemination of the project findings to a targeted audience is an expectation. Prerequisite: NU 972.

NU 977 Continuous Enrollment (1)

This course is to allow students additional time to complete graduate practice inquiry DNP project requirements. Prerequisite: Consent of instructor

PHILOSOPHY (PH)

PH 100 Introduction to Philosophy (3)

Philosophy is introduced to students by a survey of major areas of Philosophy (e.g., metaphysics, epistemology, ethics, history of philosophy,) with an emphasis on traditional techniques of philosophical analysis and logical argument. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

PH 102 Ethics: Introduction to Moral Problems (3)

Rational decision-making procedures in moral theory and their application to specific moral problems and problem areas; e.g. racism and sexism; the moral status of animals; moral issues in sexual orientation.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

PH 103 Introduction to Political Philosophy (3)

Philosophical examination of the central problems and ideas of Politics and the State; e.g., the legitimate nature and extent of the State; justification of political authority; rights of citizens.

PH 104 Introduction to Logic and Critical Thinking (3)

Students are exposed to general principles of thought and reason and to workable guidelines for improving their powers of rational thought. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

PH 105 Introductory Topics in Philosophy (1-3)

Topics will vary from semester to semester and will be announced in advance. May be repeated for credit when topics vary.

PH 115 Philosophy of Love & Sex (3)

An introduction to philosophical thinking about human love and sexual relationships. The course will examine fundamental questions such as "What is Love?" and "What is Perversion?" It will also raise moral questions dealing with the proper role and circumstances of sex, and deal with socio-sexual issues such as pornography and the sexist implications of sex.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

PH 117 Creation, Evolution, Morality (2-3)

Evolutionary theory appears to hold that human beings are natural products of evolutionary forces, without special moral or religious status. What does this mean for morality? Can notions of right and wrong, good and evil, have a place in an evolutionary world? What are the religious implications of evolution? This course will consider these and other philosophical and moral issues raised by Darwinism.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

PH 200 General Topics in Philosophy (1-3)

Topics will vary from semester to semester and will be announced in advance. May be repeated for credit when topics vary.

PH 201 Corrupting the Youth: Ancient Greek Philosophy (3)

It is probably no exaggeration to say that the entire Western intellectual cannon can trace its roots to the first Philosophers in fifth-century BCE Greece. By far the most famous, was Socrates. So, should we be disturbed that he was sentenced to death for 'corrupting the youth'? We will look at the claims he made that resulted in his execution, before focusing on the ways in which his student, Plato, built upon and systematized these ideas. We will close by looking at Plato's student, Aristotle, widely regarded as one of the most influential thinkers in human history, and of whom it has been said, "it is doubtful whether any human being has ever known as much as he did." Prerequisite: EN 101 or EN 102 with a grade of C or better.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

PH 203 Introduction to Buddhist Philosophy (3)

An introduction to the basic problems, issues and theories of the Buddhist philosophical tradition, including: the four noble truths, the claim that there is no self as we normally understand it, and the claim that everything is impermanent and illusory. Prerequisite: EN 101 or 102 with grade of C or better.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

PH 205 Existentialism (3)

Introduction to both theistic and atheistic existentialism through the study of some of the more prominent existentialists (e.g. Kierkegaard, Nietzsche, Sartre, Camus, Buber, Tillich), major existentialist themes (e.g., concrete individuality, freedom of choice, dread, alienation and death), and the influences of existentialist thought on contemporary literature, ethics, social and political theory, psychology and religion. Prerequisite: EN 101 or EN 102 with a grade of C or better.

PH 207 Existence of God (3)

An elementary course in Philosophy and Religion focusing upon the specific rational arguments which have been advanced for and against the existence of a supreme being. Prerequisite: EN 101 or EN 102 with a grade of C or better, or consent of the Instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

PH 211 Introduction to Ethical Theory (3)

Introductory survey of problems and positions in ethical theory: moral absolutism and moral relativism; moral decision-making theories, including Utilitarianism and Kant; evidence in moral argument.

Prerequisite: EN 101 or EN 102 with a grade of C or better.

PH 214 Medical Ethics (3)

Philosophical examination of moral problems that arise in health care; e.g., professional-patient relationship; role and rights of the patient; truth-telling and confidentiality; abortion and euthanasia. Prerequisite: EN 101 or EN 102 with a grade of C or better.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

PH 220 Symbolic Logic (3)

Analysis of argument forms, using symbolic logic as a primary tool.

Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Quantitative and Scientific Reasoning and Literacy

PH 300 General Topics in Philosophy (1-3)

Topics will vary from semester to semester and will be announced in advance. May be repeated for credit when topics vary.

PH 301 I think therefore I am? Modern Philosophy 1600-1800 (3)

Contemporary scientific consensus seems to be that the Universe is an infinitely large machine, and that, ultimately, everything in it – including us – can be explained mathematically. But where did these notions come from, and why should we believe them? Is this really how the world is, and how can we find out? We will trace the origin of these claims to the sixteenth century. René Descartes, the ‘father of modern philosophy’, proclaimed, “I think, therefore I am.” As one of the ‘Rationalists’ he argued that the world could be explained, mathematically, and through reason, alone. We will follow by investigating the ‘Empiricists’, who argued instead that the world could be known, if at all, only through experience. We will finish in the eighteenth century with Immanuel Kant, who claimed that the world as we know it is in some sense a product of our own minds. Prerequisites: EN 101 or EN 102 with a grade of C or better AND either PH 100, PH 201, PH 203, or PH 207 with a grade of C or better.

PH 302 Philosophy of Religion (3)

Analyzes basic religious concepts such as God, faith, the problem of evil, etc. and looks closely at the meaning of religious language. Prerequisite: PH 201 or PH 301 with a grade of C or better, or consent of the instructor.

PH 303 Topics-History of Philosophy (3)

Advanced study of a major period, movement, or individual in the History of Philosophy. May be repeated for credit when topics vary. Prerequisite: PH 201 or PH 301 with a grade of C or better, or consent of the instructor.

PH 311 Issues in Ethical Theory (3)

Specific issues in the philosophical study of morality; e.g., the objectivity of moral judgments, the place of reason in moral thinking, proof of basic moral principles, the status of moral language. Prerequisite: At least one of the following: PH 100, PH 102, PH 201, PH 211 or PH 301 with a grade of C or better.

PH 312 Social-Political Philosophy (3)

Current problems in social and political philosophy including but not limited to distributive justice, reparations, liberalism, alienation, radicalism, freedom and natural rights, social decision procedures, the concept of public interest, and the relationship between justice and equality. Prerequisite: At least one of the following: PH 100, PH 102, PH 103, PH 201, PH 211 or PH 301 with a grade of C or better.

PH 313 Professional Ethics (3)

The study of complex ethical issues that arise in professions such as medicine, finance, law, journalism, engineering, and others. Issues examined include, but are not limited to those that are found across many different professions: whistleblowing and loyalty, truth-telling and lying, privacy and confidentiality, and issues of social responsibility for professionals. Prerequisite: 3 credit hours of Philosophy with a grade of C or better, or instructor's consent.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

PH 315 Philosophy of Law (3)

A philosophical examination of such topics as the fundamental concept of law; relations between legal theory and moral theory; the nature of legal reasoning; justification of punishment. Prerequisite: 3 credit hours of Philosophy with a grade of C or better.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

PH 317 Ethics of Genetic Technologies (3)

This course investigates ethical issues regarding genetic technologies (or genethics). We will consider the ethics of genetic screening and testing and the ethics of gene therapy and genome (or gene) editing. We will consider ethical issues in these areas both within the human context and outside of the human context.

PH 319 Midwestern Environmental Ethics (3)

When people think about environmental ethics in the US, they think about coasts or mountains. The Middle Western plains have been largely forgotten as an area of interest for environmental ethics since the dust bowl. In fact, most environmental issues and values that get traction in the American national media, in anthologies on environmental ethics, in movies focused on environmental issues, etc. focus on issues in the West and East Coast (think of all the ink that has been spilled on water rights in the West, for example). Bucking this history, we will focus on environmental issues that are manifest in the American Midwest (though of course can be manifest in other regions of America and in other parts of the world). Prerequisites: 3 credit hours of Philosophy with grade of C or better, or instructor's consent.

PH 320 Advanced Logic (3)

Advanced study of logical theory and language calculi. Prerequisite: PH 220 with a grade of C or better.

PH 323 Philosophy of Race (3)

This course explores metaphysical and epistemological issues surrounding the concept of race, including but not limited to: historical development of the modern concept of race; the ontological status of race; how race and racism function within lived bodily experience; how race affects one's status as a knower. Prerequisites: 3 credit hours of Philosophy with grade of C or better, or instructor's consent.

PH 325 Philosophy of Mathematics (3)

Philosophical aspects of mathematics, including the foundation of mathematics, the nature of mathematical truth, and the ontological status of mathematical objects. Prerequisite: PH 220 or MA 307 with a grade of C or better.

PH 327 Philosophy of Science (3)

Philosophical aspects of the physical and social sciences, including the nature and problems of theory construction and concept formation, empirical testability, explanation and prediction, and problems of induction and confirmation. When the topics studied differ significantly, this course may be repeated for credit. Prerequisite: PH 104 or PH 200 with a grade of C or better.

PH 330 Philosophy of Mind (3)

Classical and contemporary treatments of the traditional problems of mind-body, other minds, mental acts, self, persons, perception etc. Prerequisite: PH 100, PH 201 or PH 301 with a grade of C or better, or consent of the instructor.

PH 335 Metaphysics (3)

Alternative theories of the nature of ultimate reality, including concepts such as cause, substance, time, etc. Prerequisite: PH 201 or PH 301 with a grade of C or better, or consent of the instructor.

PH 340 Aesthetics (3)

A philosophical approach to such questions as the nature of art, aesthetic value, and art criticism. Prerequisite: PH 201 or PH 301 with a grade of C or better, or consent of the instructor.

PH 386 Special Studies (1-3)

Individual study in the thought of a particular philosopher or on a particular philosophical problem. Regular conferences to be scheduled with the professor directing the study. May be repeated for credit. Prerequisites: 9 hours of Philosophy, and permission in advance by the professor with whom the student desires to work.

PH 397 Senior Capstone for Majors (3)

Students will complete a portfolio project which asks them to submit a folder containing philosophy papers from previous courses along with their reflection upon their development over time in writing such papers. The students will also need to take a paper written for a previous 200 or 300 level philosophy course and rewrite it to a standard that would be considered sufficient for presentation at a public event like Apeiron, a Philosophy Club presentation, or an undergraduate philosophy conference. The student will then be required to present their paper at such a public event. Prerequisites: Senior Philosophy Major

PH 398 Senior Philosophy Honors Thesis Preparation (3)

Independent research in preparation for a senior thesis. Students will complete preliminary research in the area of their senior thesis and prepare a thesis proposal. In addition, students will complete the portfolio project which asks them to submit a folder containing philosophy papers from previous courses along with their reflection upon their development over time in writing such papers. The proposal completed in PH 398 may not be or have been submitted for credit in any other course. Prerequisite: Senior Honors Philosophy Major. Honors candidates are those who both have a 3.5 overall GPA at the beginning of the senior year and an intention to finish with Philosophy Program Honors by enrolling in PH 398 rather than PH 397.

PH 399 Senior Philosophy Honors Thesis (3)

Independent research, writing and defense of a substantial paper, under faculty supervision. Work completed in PH 398 and PH 399 may not be or have been submitted for course credit in any other course. Prerequisite: PH 398 with a grade of C or better.

PHYSICS (PS)

PS 101 Physics in Everyday Life (5)

An integrated lecture and laboratory course designed for people pursuing degrees outside the natural or health sciences and who are interested in understanding how physics forms the backdrop of modern life.

Topics include motion, gravity, energy, heat, sound, light, electricity, and magnetism, discussed in terms of impact on modern society and everyday life. Laboratory exercises demonstrate physical concepts while emphasizing the scientific process of data collection and analysis. This course requires no previous science or mathematics background and cannot count towards Physics Department degree programs. Fulfills the general education requirement of a natural science course with lab. Course consists of three hours of lecture and three hours of laboratory exercises per week. Prerequisites: None.

Course Attributes:

- Gen Ed AY 2024-2025: Natural and Physical Sciences
- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

PS 103 Physics & Engineering Seminar I (1)

An overview of the fields and practice of physics and engineering. Students will participate in weekly readings and discussions, and complete at least one written piece and at least one presentation. Specific content will change each time the course is offered.

PS 108 Physical Science (3)

Introduces basic physics and chemistry with an emphasis on the understanding and significance of accepted fundamental principles. It provides an opportunity to develop critical thinking suited to pursuing any science, as well as giving a larger perspective than can be obtained by study of a single science. Explores contemporary issues as well as the methods, limitations, and societal implications of scientific advancement. Students will be encouraged to explore the relationship between science and everyday life. For non-majors. Recommended for partial fulfillment of the graduation requirement in natural science. Prerequisite: MA 112 Essential Mathematics or MA 116 College Algebra or higher, or concurrent enrollment.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

PS 120 Meteorology (3)

The Earth's atmosphere and basic circulation patterns including types and classification of clouds and air masses, the formation of fronts, winds aloft computations, principles of forecasting, energy considerations and other associated physical processes. Prerequisite: MA 095 or higher.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

PS 126 Physical Science for Elementary Educators (5)

This course introduces the fundamentals of physics and chemistry, for the pre-service elementary school teacher. The course features lab-based, hands-on activities, and collaborative, inquiry-based exercises. Course activities serve to improve confidence in both scientific process and content learning, with methods applicable to elementary curricula.

Course Attributes:

- Gen Ed AY 2024-2025: Natural and Physical Sciences
- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

PS 131 Biological Physics for the Health and Life Sciences (3)

A one-semester course covering classical and modern physics, designed primarily for students in the health professions. Typical subjects include the laws of motion, gravity, heat, sound, light, electricity, and magnetism. Subjects are treated conceptually along with the use of basic data. Recommended for partial fulfillment of the graduation requirement in natural science. Not applicable toward credit for physics major requirements. Students will not receive credit for both PS 101 and PS 131. Prerequisite: MA 112 Essential Mathematics or MA 116 College Algebra or higher, or concurrent enrollment.

Course Attributes:

- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

PS 132 Biological Physics for the Health and Life Sciences Laboratory (1)

A laboratory exploring classical and modern physics, designed primarily for students in the health professions. Experiments in motion, gravity, heat, sound, light, electricity, and magnetism are designed to teach physics concepts and basic laboratory techniques. The course is designed to introduce students to laboratory techniques used in physics emphasizing instrumentation, data acquisition, and analysis. One three-hour laboratory period per week. Recommended for partial fulfillment of the graduation requirement in natural science. Not applicable toward credit for physics major requirements. Prerequisite: PS 131 Biological Physics for the Health and Life Sciences or concurrent enrollment. Concurrently enrolled students may not drop PS 131 and remain enrolled in PS 132.

PS 261 College Physics I (5)

Recommended for medical arts and general science students. Mechanics, heat, and sound are studied. Lecture-recitation and laboratory. Prerequisite: MA 117 or MA 123 or MA 151 (or concurrent).

Course Attributes:

- Gen Ed AY 2024-2025: Natural and Physical Sciences
- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

PS 262 College Physics II (5)

A continuation of College Physics I. Electricity, optics and modern physics. Lecture-recitation and laboratory. Prerequisite: PS 261 with a grade of C or better.

PS 281 General Physics I (5)

Required for students who wish to major in physics and astronomy and for pre-engineering students. Mechanics, heat, and sound are studied. Lecture-recitation and laboratory. Prerequisite: MA 151.

Course Attributes:

- Gen Ed AY 2024-2025: Natural and Physical Sciences
- Gen Ed AY 2024-2025: Scientific Reasoning and Literacy
- Gen Ed Pre-AY 2024-2025: Natural Science
- USLO: Quantitative and Scientific Reasoning and Literacy

PS 282 General Physics II (5)

A continuation of General Physics I. Electricity and magnetism, optics, and modern physics. Lecture-recitation and laboratory. Prerequisite: PS 281 with a grade of C or better.

PS 291 Elementary Computational Physics (2)

An introduction to computer modeling of physics problems using spreadsheet programs, computer algebra systems, and other mathematical software. Prerequisite: MA 151 or concurrent.

PS 303 Physics & Engineering Seminar II (1)

An overview of the fields and practice of physics and engineering. Students will participate in weekly readings and discussions, and complete at least one written piece and at least one presentation. Specific content will change each time the course is offered. Prerequisite: upper-division standing

PS 310 Relativity (2)

Concepts of space and time, frames of reference, Einstein's Theory of Special Relativity and Elements of General Relativity. Prerequisite: PS 262 or PS 282; MA 253.

PS 318 Earth and Space Science for STEM Educators I (3)

Designed to introduce the history, structure, composition, and dynamic processes that shape our planet, as well as the impact humans have on Earth's resources, to STEM educators. Connects astronomy and geology through the study of planetary science and exploration. This course does not satisfy any physics requirement outside of the STEM education program. Prerequisites: CH 317 with a letter grade of C or higher; concurrent enrollment in ED 318.

PS 320 Electromagnetic Theory I (3)

The basic theory of electro-magnetic fields and waves using the calculus and vector methods. Prerequisites: PS 262 or PS 282; MA 253.

PS 321 Electromagnetic Theory II (3)

A continuation of Physics 320. Prerequisite: PS 320.

PS 322 Circuits and Electronics (3)

Design and applications of DC and AC circuits along with electrical measurement and analysis. Topics include filters, complex impedance, Fourier analysis, and semiconductor devices. Two lecture hours and three laboratory hours per week. Prerequisite: PS 262 or PS 282.

PS 330 Optics (3)

Physical and geometrical optics. Lecture-recitation. Prerequisite: PS 262 or PS 282.

PS 332 Optics Lab (1)

Experiments with lens systems, mirrors, aberrations, the spectrometer, interference and diffraction, and polarization. Prerequisite: PS 330 or concurrent enrollment.

PS 334 Thermodynamics (3)

Consideration of heat phenomena, first and second laws of thermodynamics, their principal consequences and application to simple systems, and the kinetic theory of gases. Prerequisite: PS 262 or PS 282; MA 253.

PS 335 Theoretical Mechanics I (3)

A mathematical study of classical mechanics. Rigid body statics and dynamics, kinematics and dynamics of particles and systems of particles, and conservative and non-conservative force fields. Prerequisites: PS 262 or PS 282; MA 253.

PS 336 Theoretical Mechanics II (3)

A continuation of Theoretical Mechanics I. Prerequisite: PS 335.

PS 340 Computer Interfacing and Instrumentation (3)

Design and implementation of scientific instruments via computer interfacing, emphasizing both software and hardware considerations. LabVIEW and Arduino platforms are used specifically. Two lecture hours and one three-hour laboratory per week. Prerequisites: PS 262 or PS 282

PS 350 Modern Physics I (3)

Phenomena specific to the extra-nuclear structure of the atom; phenomena peculiar to the atomic nucleus; introduction to quantum and wave mechanics, and relativity. Prerequisites: PS 262 or PS 282; MA 253.

PS 351 Modern Physics II (3)

A continuation of Physics 350. Prerequisite: PS 350.

PS 352 Modern Physics Laboratory (1)

Measurements of constants fundamental to atomic physics: Planck's constant, electron charge and mass, speed of light, etc. Techniques of nuclear alpha, beta and gamma ray spectroscopy. Prerequisite: PS 350.

PS 360 Physics Research (1, 2)

Experimental design and techniques. Extensive use of technical literature will be necessary. Independent work is encouraged. This Capstone requires summative reflection, serving as a culminating experience for Bachelor's degree students. Prerequisite: Consent of instructor.

PS 365 Introduction to Theoretical Physics (3)

Application of ordinary and partial differential equations, Fourier series and Transforms, partial differential equations with solution methods, and tensor analysis as applied to problems in the fields of physics and engineering. Prerequisites: PS 262 or PS 282 or concurrent enrollment; MA 253.

PS 366 Introduction to Computational Physics (3)

Techniques and models in computational physics. Prerequisites: PS 262 or PS 282; MA 253.

PS 368 Computational Physics Research (1)

Computational physics research in any of the areas of physics. A written and an oral presentation of the work is required. This Capstone requires summative reflection, serving as a culminating experience for Bachelor's degree students. Prerequisite: Departmental permission.

PS 370 Special Subjects in Physics (1-3)

Offered on demand as teaching schedules permit. Material is to be chosen according to student interest from any one of a number of fields of physics. Prerequisite: consent of instructor.

POLITICAL SCIENCE (PO)

PO 106 The Government of the United States (3)

Theory, organization and functioning of our democratic government in modern society with special emphasis on the national government and its relations with the states. The role of government in a democratic society as a supplier of services, the embodiment of values and the arbiter of conflict is stressed.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

PO 107 Kansas, State, and Local Government (3)

Examines American state and local politics, government, and public policies from the grassroots to the institutional level with a particular emphasis on the similarities and differences that exist in Kansas in comparison to the characteristics found in the rest of the states. Contrasting the fundamental differences between states and localities and the national government is also an emphasis of the course.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

PO 225 Introduction to International Politics (3)

Theory and practice of international politics with special attention to foreign policy and decision-making process, major issues facing the international system, the role and functions of international and transnational organizations with respect to conflict and cooperation in the international community.

Course Attributes:

- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

PO 235 Governments of the World: Comparative Politics (3)

Examines selected governments of the world. Basic concepts, theories and methods in comparative analysis of political institutions, processes, and policies of nations. Case studies of selected political systems developed and developing, Western and non-western, democratic and non-democratic illustrate the analytical approaches.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

PO 245 Introduction to Public Administration (3)

Designed to acquaint the student with the organization and functioning of the administration of government. Includes introduction to theories of administration, policy and administration values, study of the governmental bureaucracy and administrative behavior.

PO 255 Introduction to the American Legal System (3)

Designed to acquaint the student with the basic institutions and procedures of the American legal system. Also a very basic introduction to substantive areas of American law such as: torts, contracts, civil procedure, regulation of business.

Course Attributes:

- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

PO 300 Special Topics/Political Science (1-3)

Topics will vary from semester to semester and will be announced in advance.

PO 305 Public Policy (3)

Examines the role of government as a supplier of services to its citizens. It will cover the following topics: the nature of politics and policy, social problem identification and articulation, interest groups and the formation of public policy, the analysis of policy content, policy implementation, and policy evaluation.

PO 306 American Urban and Metropolitan Planning (3)

Analysis of historical, political, economic, social, and physical development of urban America. Emphasis will be placed on evolution of the post-industrial American city through its contemporary form, solutions to urban problems through local and regional planning, and how communities are shaped by the land use, transportation, urban design, public policy, housing, political, economic, environmental, social equity, legal, and ideological contexts of urban and metropolitan government decision-making.

PO 307 Internship (3-6)

Experience in the administration of any public, private, or non-profit operation or service related to the political science or public administration field. Prerequisites: PO 107 and/or consent of instructor. Junior or Senior standing.

PO 308 American Elections and Federalism (3)

Examines American national elections in the context of the American federal system. A study of the nature, patterns, and impact of American federalism, including historical, fiscal, economics, policy and political significance.

PO 309 Kansas Legislative Experience (3)

Analysis of the Kansas legislature and governor, along with other state-wide offices and the media — how all function within the governmental system of Kansas. Along with an in-depth study of the legislative session, the student will be required to attend legislative committee meetings, floor debates, and gubernatorial press conferences. Students will also conduct participant observation within a legislative or executive branch office.

PO 325 Advanced International Relations (3)

The course will examine traditional realist approaches to international power; alternative perspectives to power politics; American foreign policy; and understandings of the roots and resolution of international conflict.

PO 332 Politics through Film & Literature (3)

Exposes students to the nature and varied dynamics of politics through film and literature. Emphasis will be placed on classical, modern, and post-modern understandings of politics as expressed in film and literature with the expectation of sharing an informed and inviting view of politics in the Western world.

PO 335 Advanced Comparative Politics (3)

A study of the governments politics, policies and political cultures of the countries in particular regions of the world e.g. Latin America, Central and Western Europe, or China, Japan and Eastern Asia. Analysis of the political processes, government institutions, national and multi-national alliances, public policies, political economies, cultures, interest groups and leaders that shape the political landscapes of the particular region covered in a given semester constitutes the scope of each semester's class. A specific emphasis on the forces of political and economic change will be central to the course.

PO 337 Religions and Politics (3)

Describes the many current trends of religions and politics in the U.S. focusing on the major religions and their political teachings, considerable political power and activism in contemporary American politics, society and life. Prerequisite: 3 hours of political science, or consent of the instructor.

PO 343 Administrative Law (3)

The scope of the law as it applies to administrative agencies of the government. Focuses on the powers of agencies, administrative rule-making, regulatory activities, due process, and judicial review of administrative actions.

PO 346 Problems in Public Administration (3)

Problems and cases involved in administering public policy.

PO 371 Topics: American Politics and Government (3)

At the discretion of the instructor this course may investigate any aspect of the theories, institutions, contexts, or contemporary problems of American politics and government. Chief subject elements they include are the various branches of American government, federalism, constitutionalism, the roles of the press, public opinion, interest groups and non-governmental policy and service institutions, and the various policy fields of the government, e.g. economic, welfare, education, public health, and military defense.

PO 372 Topics: Comparative Politics (3)

At the discretion of the instructor this course may investigate any aspect of the theories, institutions, contexts, or contemporary problems of comparative politics. Chief subject elements may include regional international alliances, democratization, non-democratic governmental systems, international political economy, human rights issues, global trade, the international political implications of immigration, food production, environmental degradation and restoration, species migration, and climate change.

PO 373 Topics: International Relations (3)

At the discretion of the instructor this course may investigate any aspect of the theories, institutions, contexts, or contemporary problems of international relations. Chief subject elements may include theories of nation-state interaction, negotiation, and war, American foreign policy, and examining aspects of changing global hegemonic power.

PO 374 Topics: Public Administration (3)

At the discretion of the instructor this course may investigate any aspect of the theories, institutions, contexts, or contemporary problems of the field of Public Administration including but not limited to: the theories of bureaucratic administration; public law; personnel management and labor relations; organizational theory, management and behavior; public policy making, implementation, and evaluation; intergovernmental relations; leadership; public finance, budgeting and auditing; urban planning.

PO 386 Independent Study (1-3)

Studies in the selected fields of Political Science and Public Administration. May be taken until three credit hours are earned. This course is repeatable for another 1-3 hours if the topic areas differ. Prerequisite: Senior Political Science or Public Administration majors or approval of the department head.

PO 390 Applied Political Research (3)

Introduction to utilization of basic research techniques in public administration and political science.

PO 391 Managing People in Public Organizations (3)

The fundamental principles, techniques, and legal constraints that guide human resource relationships with employees serving the public. Particular attention is given to budgets, civil service and union environments, retention and attraction of talent, benefits, organizational relationships including executive and legislative, professional development, inclusiveness, and other relevant employment demands in the public sector.

PO 393 Managing Public Money (3)

The politics of planning, financing, and managing governmental budgets at the national, state, and local levels. Develop necessary skills to engage in financial analysis to make better decisions for the public.

PO 394 Challenges Managing Public Organizations (3)

This class explores concepts and practices in organization behavior and management theory as they apply to public organizations. It covers dynamics associated with organizational structures, accountability, and culture and dynamics of risk in leadership, collaboration, performance and contracting. It emphasizes approaches to understanding the dynamics of individuals, groups, and teams within organizations.

PO 395 Non-Profit Management and Leadership (3)

A survey of the various forms and particular differences of the management and operation of Non-Profit organizations as distinguished from traditional government administration. Elements of leadership will be emphasized.

PO 396 Topics in Applied Research (3)

This is an expansion of the methodological foundation laid in PO 390, the required methodology course for PO majors. In this course the basic techniques and tools introduced in PO 390 are reviewed and expanded to include contemporary techniques in multi-variate analysis. Students will also be expected to develop and complete research inquiries into relevant quantitative and/or qualitative data, and prepare and present their analysis before a departmental audience. Prerequisite: PO 390 or by permission of the course instructor.

PO 397 Advanced Applied Research (3)

This is an advanced course in social science research methodology involving instruction and student participation in various aspects of the research enterprise as used by political campaign staffs, consultants, public agencies and other public policy investigative organizations. Possible areas of investigation include but are not limited to survey research design, questionnaire development and testing, focus group research, quasi-experimental research design and execution, qualitative research tools, multi-variate statistical analysis, OLS regression analysis, data description, and presentation formatting. Prerequisite: PO 390 or by permission of the course instructor.

PO 401 Equity and Hard Choices in Public Administration (3)

The most vital methods of evaluating the effects of public policies, programs and agency goals of government and non-profit agencies as viewed through the tensions of equitable and political environments.

PO 450 Seminar in Political Science and Public Administration (1)

Required course for all political science and public administration majors and should be taken after student has completed sixty hours of university coursework. Course is a review of major areas of political science and public administration and also helps students develop skills and gain insight into preparing for post-graduate study and careers.

PO 671 Topics in American Politics and Government (3)

At the discretion of the instructor this course may investigate any aspects of the theories, institutions, contexts, or contemporary problems of American Politics and Government. Chief subject elements may include the various branches of American government, federalism, constitutionalism, the roles of the press, public opinion, interest groups and nongovernmental policy and service institutions, and the various policy fields of the government, e.g., economic, welfare, education, public health, and military defense. Prerequisites: Admission to MLS graduate program or consent.

PO 672 Topics in Comparative Politics (0-3)

At the discretion of the instructor this course may investigate any aspect of the theories, institutions, contexts, or contemporary problems of comparative politics. Chief subject elements may include regional international alliances, democratization, non-democratic governmental systems, international political economy, human rights issues, global trade, the international implications of immigration, food production, environmental degradation and restoration, species migration, and climate change. Prerequisites: Admission to MLS graduate program or consent.

PO 686 Directed Readings (1-3)

Readings in the selected fields of political science. May be taken until 3 credit hours are earned. Prerequisites: Admission to the MLS Program or consent.

PSYCHOLOGY (PY)

PY 100 Basic Concepts in Psychology (3)

An introduction to fundamental areas of Psychology including an overview of the concepts and methods of such areas as perception, learning, motivation, memory, development, personality, abnormal and social.

Course Attributes:

- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

PY 151 Psychological Statistics (3)

The course will introduce students to descriptive and inferential statistical techniques used in contemporary psychology. The course will not only to help students understand the mathematical and statistical concepts presented but also to assist in the application of the procedures. Prerequisite: PY 100 with a grade of C or better, or concurrent enrollment, and MA 090 or MA 095.

PY 209 Psychological Development through the Life-Span (3)

Psychological research and theories which describe and explain life-cycle stability and change in perception, cognition, language, psychomotor behavior, personality, interpersonal relationships, etc. Prerequisite: PY 100.

PY 210 Psychology of Infancy and Childhood (3)

Overview of theory and research on the psychological development of infants and children. Included are the development of sex roles, aggression, friendship, attachment to parents, perception, cognition, language, and moral reasoning and behavior.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

PY 211 Adolescent Psychology (3)

Theory and research on adolescent personality, social and cognitive development, including problems of adjustment during the teenage years.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

PY 212 Psychology of Adulthood and Aging (3)

Psychological theory and research on the changes and continuities of the adult years: personality, intelligence, memory, sex roles, interpersonal relationships, death and dying, and the psychological consequences of physical and health changes.

Course Attributes:

- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Information Literacy and Technology

PY 231 Abnormal Psychology (3)

A survey of the origins, processes, and diagnostic characteristics of representative syndromes of maladaptive behavior.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

PY 234 Applied Behavior Analysis (3)

Elementary principles of learning & their application for managing the behavior of normal & abnormal populations in a variety of settings including schools, mental institutions, hospitals & businesses.

Prerequisite: PY 100.

PY 251 Research Methods in Psychology (3)

This course is an introduction to research methods in psychology. The goals of the course are for the student to learn how research is planned, carried out, communicated, and critiqued. Although only a few of students may pursue a career as a research psychologist, everyone is a consumer of research from psychology and other scientific disciplines. As such, a major goal of this course is to develop the capacity for critically evaluating "scientific evidence" that is communicated in journals, magazines, newspapers, and news programs. Prerequisite: PY 100.

PY 295 Special Topics (1-3)

Selected topics in psychology, announced in advance. Prerequisite: Specified for each topic.

PY 299 Psychological Forum (1)

Survey of applied issues in the profession of Psychology including an overview of employment and graduate school opportunities as well as vocational techniques for achieving those goals. Pass/Fail Only. Prerequisites: PY 100 and Sophomore Psychology Major.

PY 301 Principles of Learning (3)

Examines factors involved in acquiring and changing behaviors. Theories, historical and current models, and empirical findings in the field of learning and memory are explored. Prerequisite: PY 100.

PY 305 Sensation & Perception (3)

Focus on the anatomy and functions of sensory systems (vision, audition, olfaction, gustation, haptics). Emphasis on differences in theoretical backgrounds. Prerequisite: PY 100.

PY 306 Cognition (3)

A study of the intellectual structures and processes involved in the acquisition, storage, transformation, and use of knowledge. Prerequisite: PY 100.

Course Attributes:

- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

PY 307 Physiological Psychology (3)

Examines the physiological basis of psychological phenomena (e.g., behavior). Concentrates on the function of biological systems on both general and specific behaviors. Prerequisite: PY 100.

PY 309 Theories of Personality (3)

Psychological theories of personality, including psychoanalytic, learning, and humanistic approaches. Prerequisite: PY 100.

PY 310 Social Psychology (3)

Theory and research on cognitive and behavioral responses to social stimuli. Prerequisite: PY 100.

PY 311 Multicultural Psychology (3)

This course is an introduction to multicultural psychology theory, research, and practice. In this class, students will develop multicultural competencies (i.e., knowledge, awareness, and skills) and cultural humility (i.e., openness, curiosity, perspective taking) in order to prepare them to live and work with individuals from diverse backgrounds. No prerequisites.

PY 312 Psychology of Creativity (3)

Exploration of the many facets of creativity, including the nature, measurement, prediction, and cultivation of creativity, and its relationship to other cognitive abilities. Prerequisite: PY 100.

PY 314 Personality and Social Behavior (3)

Description of the characteristics that distinguish individuals and a review of the processes by which these characteristics are thought to be established and changed. Prerequisite: PY 100.

PY 316 Consumer Psychology (3)

Psychological principles and theories of learning, perception, motivation, attitude formation, personality and decision making are examined as they affect consumer behavior and the influence process.

PY 317 Music and the Brain (3)

Study of the biological processes of active and passive music involvement and the resulting effect on individuals' learning, physical health, and mental well-being. Includes an experimental component. Prerequisite: EN 101 and BI 100 or higher; or PY 100; or consent of instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

PY 320 Psychological Testing and Measurement (3)

Theory and methods in psychological measurement, and their application to the construction, selection, and interpretation of psychological tests. Includes a survey of representative personality and ability tests. Prerequisite: PY 100.

PY 325 Community Psychology (3)

The study of community and organizational approaches to intervention and prevention strategies for mental health care, general health care, and various social problems. Prerequisite: PY 100.

PY 326 Health Psychology (3)

Introduction to the contributions of psychology to the prevention and treatment of illness, promotion and maintenance of health, and the improvement of the healthcare system. Topics include the role of stress and physiological factors in illness, chronic pain disorders and pain management, lifestyle and psychosocial influences on health, complementary and alternative methods for health promotion, and interpersonal factors involved in illness and health. Prerequisites: PY 100.

PY 327 Correctional Psychology (3)

An introduction to the field of Correctional Psychology. Applies psychological theories, principles and research to correctional issues. Topics include inmate behavior, women in prison, and psychological disorders found among offenders and prevention of fatigue, stress, and burnout in staff members. Prerequisite: PY 100 or consent.

PY 333 Counseling Psychology (3)

Major theories and techniques of psychological counseling. Prerequisite: PY 100.

PY 336 Internship (1-3)

Supervised experience in the application of psychological concepts and methods or volunteer work. Work in non-classroom situations required. Arrangements for enrollment must be completed prior to registration. (May be used to meet Senior Capstone Experience requirement). Pass/Fail Only. Prerequisites: One related advanced course and consent of instructor.

PY 338 Childhood Psychopathology (3)

An overview of psychological and behavioral disorders of children and adolescents, including their characteristics, origins, and treatment. Prerequisite: None.

PY 339 Psychology of Sex and Gender (3)

This course will examine and analyze ways biology, culture, and society shape females' and males' identities, life experiences and other aspects of psychology. To study the psychology of sex and gender, we will examine historical views, physiology, socialization, friendships, sexuality, romantic relationships, childbearing and rearing, work, and mental and physical health. Prerequisite: PY 100.

PY 350 Introduction to Clinical Psychology (3)

Clinical Psychology as a science and a profession. The history, scope, ethics, theories, and methods of clinical psychology. Prerequisite: PY 100.

PY 353 Psychology of Everyday Life (3)

Applications of psychological theory and research in common life arenas, including family, work, and interpersonal relationships. Prerequisite: PY 100.

PY 356 Psychology of Marital and Family Processes (3)

An overview of psychological theories and research pertaining to family processes and the influence of the family on the psychological development of the individual. Topics to be covered include various psychological theories pertaining to family functioning, family dysfunction and divorce, and relationships between family functioning and psychopathology. Prerequisite: PY 100.

PY 385 From Classroom to Career (3)

Students work with the instructor and career services to hone professional development skills to transfer from the classroom into their careers and review academic literature relating to some aspect of professional development. This course helps to address APA's Professional Development guidelines for undergraduate psychology majors. (May be used to meet Senior Capstone Experience requirement.) Prerequisites: PY 100

PY 386 Advanced Research Design/Scientific Writing (3)

This course is primarily designed for students considering directed research and graduate school. This course will provide students with hands-on experience with regard to experimental research methods. Students will gain the skills necessary to conduct a literature review that will then be used to design, conduct, and analyze a novel empirical investigation. This course will enhance student's writing skills, with an emphasis on scientific writing using APA format. Prerequisites: PY 151 and PY 251 with grades of "C" or better; 3.0 cumulative GPA.

PY 387 History and Systems of Psychology (3)

An examination of philosophical and empirical roots that led to the development of the discipline of psychology and the historical progression of ideas central to modern psychology. (May be used to meet Senior Capstone Experience requirement). Prerequisite: Psychology Senior or consent.

PY 388 Directed Collaborative Research (3)

Supervised small group research project(s) designed to provide the opportunity to work collaboratively with peers. (May be used to meet Senior Capstone Experience requirement). Prerequisites: PY 386 and consent of instructor.

PY 389 Independent Study (1-3)

Individual problems planned and executed by the student under supervision. (May be used to meet Senior Capstone Experience requirement.) May be repeated up to a total of 6 hours. Prerequisite: Consent of instructor.

PY 390 Directed Research (1-3)

Supervised independent research involving gathering, analysis, and reporting of empirical data. This course serves as a culminating experience for Bachelor's degree students and may be used to meet the Senior Capstone Experience requirement. May be repeated up to a total of 6 hours. Prerequisites: PY 386 and consent of instructor.

PY 395 Special Topics (1-3)

Selected topics in psychology, announced in advance. Can be repeated for credit under different topic areas. Prerequisite: Specified for each topic.

PY 602 Advanced Physiological Psychology (3)

Critical issues within cognitive and behavioral neuroscience are discussed, including neuronal physiology, functional neuroanatomy, and methods used in psychophysiological research. Special emphasis is placed on biological foundations of psychopathology and psychopharmacology. Prerequisite: Consent.

PY 603 Advanced Health Psychology (3)

Advanced health psychology examines how biological, psychological, and social factors interact with and affect the efforts people make in promoting good health and well-being as well as preventing illness. Advanced study includes reviewing and discussing contemporary empirical research related to the science and practice of health psychology. Prerequisite: Graduate standing or consent of instructor.

PY 610 Intermediate Statistics (3)

Survey of basic statistical principles including parametric and non-parametric hypothesis testing techniques, correlation, and an introduction to computer statistical packages. Prerequisite: Consent.

PY 611 Graduate Research Design (2)

Advanced, detailed study of research design, including experimental, quasi-experimental, and non-experimental designs. Issues of ethics, sampling, reliability, validity, and analysis will be discussed. Students will also develop skills in critiquing and reporting scientific research. Prerequisite: Consent.

PY 612 Scientific Writing (1)

Scientific writing is a unique form of writing and vastly different from the manner students typically write. Students in this course will be exposed to the various nuances that define APA style scientific writing, be exposed to the common errors made when writing scientifically, and will develop their skill in writing in a scientific manner. Prerequisite: PY 611.

PY 615 Counseling Skills and Interviewing Techniques (1.5)

The purpose of this course is to assist students in developing necessary skills to be an effective interviewer/therapist. This will be done through readings, self-exploration, and practicing therapeutics skills of motivational interviewing and other therapeutic and information-gathering techniques. Prerequisite: Consent.

PY 625 Advanced Psychopathology (3)

Theory, research, and clinical approaches to problems of adulthood and childhood. Prerequisite: Consent.

PY 631 Psychological Assessment of Adults Practicum (1.5)

This practicum, which is a co-requisite of PY 632 Psychological Assessment of Adults, is designed to provide students with the applied skills required to competently administer, score and interpret various adult psychological assessments. Students will also utilize related information gathering techniques toward the goal of validly and reliably assessing the intellectual, personality, and, to a lesser degree, social, emotional, and behavioral functioning of adults. Prerequisite: Departmental permission.

PY 632 Psychological Assessment of Adults (3)

The purpose of this course is to provide students with the fundamental skills and knowledge necessary to choose, administer, and interpret various instruments and information gathering techniques with the goal of assessing the intellectual, social, emotional, and behavioral functioning of adults. Prerequisite: Graduate standing.

PY 633 Psychological Assessment of Children (3)

The purpose of this course is to provide students with the fundamental skills and knowledge necessary to choose, administer, and interpret various instruments and information gathering techniques with the goal of assessing the intellectual, social, emotional, and behavioral functioning of children. Prerequisite: Graduate standing.

PY 634 Psychological Assessment of Children Practicum (1.5)

This practicum will focus on the application of child and family assessment skills acquired in PY 633 Psychological Assessment of Children. The practicum will involve a combination of lecture, discussion, role plays, supervision, and practical experience with clients in the Psychological Services Clinic. Prerequisite: Graduate standing.

PY 635 Ethics Psychological Practice (2)

This course will explore contemporary aspects of professional practice germane to master's level psychologists. The primary focus will be on the understanding and application of the APA Ethics Code when providing psychotherapy and psychological assessment services. Special topics such as requirements for licensure and career options may also be explored. Prerequisite: Graduate Standing.

PY 637 Diversity Issues Treatment & Assessment (2)

Introduction to diversity issues in counseling and psychological/educational assessment, including culture, gender, language, and related issues. Training in models for providing effective psychological services to clients, taking into account their unique background. Prerequisite: Graduate standing.

PY 640 Introduction to Psychotherapy Techniques (3)

Theory and practice of basic interviewing and therapy skills, with an emphasis on the cognitive behavioral approach for treatment of anxiety disorders. Must be taken with PY 641. Prerequisites: Graduate standing.

PY 641 Psychotherapy Practicum I (1.5)

Students are expected to demonstrate and master a variety of clinical techniques involving therapeutic skills being taught concurrently in PY 640. Prerequisite: Concurrent enrollment in PY 640.

PY 653 Psychological Assessment of Children (3)

The purpose of this course is to provide students with the fundamental skills and knowledge necessary to choose, administer, and interpret various instruments and information gathering techniques with the goal of assessing the intellectual, social, emotional, and behavioral functioning of children. Prerequisite: Graduate standing.

PY 670 Individual Adult Psychotherapy (3)

Theory and practice of psychotherapeutic intervention skills with an emphasis on interpersonal, cognitive, and brief therapy approaches for treatment of mood disorders. Must be taken concurrently with PY 671. Prerequisites: PY 630 and PY 640.

PY 671 Psychotherapy Practicum II (1.5)

Students are expected to demonstrate and master a variety of clinical techniques involving therapeutic skills being taught concurrently in PY 670. Prerequisite: Concurrent enrollment in PY 670.

PY 680 Psychological Assessment: Personality and Behavior (3)

Research bases and clinical applications of objective psychological instruments, projective techniques, and behavioral assessment designed to measure child, adolescent, and adult personality, affect, and psychopathology. Prerequisite: Consent.

PY 690 Group Therapy: Theory & Application (2)

This course provides foundational knowledge and experience to support the facilitation of group approaches to psychotherapy. Didactic instruction will be supplemented with an experiential training component. Prerequisites: Consent.

PY 691 Group Therapy Practicum (1)

The faculty is committed to the belief that the integration of theoretical knowledge and practical experience is an integral part of the curriculum. This practicum will focus on application of group therapy theory and skills acquired in PY 690 Group Therapy: Theory and Application. PY 691 will involve a combination of lecture, discussion, and practical experience with clients in the Psychological Services Clinic. Prerequisite: PY 690.

PY 700 Child and Family Therapy (3)

Theory and practice of family and child management interventions. Prerequisite: PY 670.

PY 701 Child and Family Therapy Practicum (1.5)

This practicum will focus on the application of child and family therapy theory and skills acquired in PY 700 Child and Family Therapy. The practicum will involve a combination of lecture, discussion, role plays, and practical experience with clients in the Psychological Services Clinic. Concurrent enrollment in PY 700 is required. Prerequisite: Graduate standing.

PY 720 Seminar in Psychology (2)

Selected topics of relevant psychological, clinical, and professional issues. May be repeated with different topics. Prerequisite: Consent.

PY 780 Internship (1-4)

Field training experience oriented toward development of skill in assessment and therapeutic intervention, consultation experiences, preventive applications, and group and family interventions. Repeated to a maximum of 12 hours toward the degree. Prerequisite: Admission to candidacy status and consent of instructor.

PY 795 Directed Research (1-3)

Independent supervised research. Does not count toward graduation. Prerequisite: 6 completed hours in PY 799.

PY 799 Thesis (1-3)

Independent supervised research. Repeated to a maximum 6 credit hours toward degree. Prerequisite: Admission to candidacy status.

READING (RD)

RD 610 Literacy/ESOL Instructional Approaches (3)

This course is designed to investigate theories and practices of reading instruction with the goal of improving literacy instruction in the classroom. Students learn various current theories of the reading and writing processes as well as the internal and external variables that affect the acquisition of literacy skills. From these theories students are encouraged to adopt a personal view of the literacy process upon which instructional decisions as critical and reflective professionals in classrooms with diverse cultural and learning needs can be made. Current literacy research that supports instructional decision-making for native English speakers and ESOL learners will be infused throughout the course. Theory, which forms the basis for the course, is balanced with concern for practical applications in the classroom. Prerequisite: Graduate Standing.

RD 612 Literature for Children, Adolescents, and Young Adults (3)

This course examines literature across P-12 levels with an emphasis on how literature can be used in the development of literacy skills, including with learners whose native language is not English. Students will explore a variety of literature, including multicultural books, picture books, award winning books, poetry, and non-fiction books. Students will explore trends and issues in literature, including censorship, gender bias, cultural representation, as well as others. Prerequisite: Graduate Standing.

RD 616 Teaching Writing in Classrooms (3)

Current approaches to teaching writing based on whole language philosophy across a K-9 curriculum. Instructional strategies for improving writing skills through a writing workshop and methods of evaluating writing including portfolio assessment will be emphasized. Explores current issues and recent research findings relating to teaching writing.

RD 618 Integrating Language Arts in Classrooms (3)

Current approaches to teaching communication skills based on whole language philosophy across a K-9 curriculum. Instructional strategies for developing oracy and literacy skills are based on an integrated language arts perspective and include the development of thematic planning and reading workshop. Explores current issues and recent research findings relating to teaching language arts.

RD 619 Literacy for Young Adults (3)

Study of books read by young adults between 12 and 18. Covers history of young adult literature, the relationship between children's and young adult literature, censorship and selection, and teaching methods.

RD 620 Literacy and ESOL Assessment (3)

Principles and techniques of assessment of literacy skills of learners whose native language is English and in ESOL settings. Students will examine purposes for assessment, types of assessments (including formal and informal assessment procedures), analyzing assessment data, and evaluating learners' strengths and areas of need to determine goals for instruction. Prerequisite: Graduate Standing.

RD 622 Literacy/ESOL Instructional Strategies (3)

The scope of this course includes the principles and techniques of literacy instruction for learners whose native language is English and for ESOL learners with diverse learning needs. Current research in literacy provides the basis for understanding the needs of learners and the best strategies for assisting them. Focus on learning will be on making critical and reflective decisions in selecting the most appropriate strategies, resources, and materials for readers who exhibit specific strengths and challenges in reading. Prerequisite: Graduate Standing.

RD 624 Practicum in Reading (3)

Supervised clinical experience with learners who exhibit reading problems. Students administer tests, analyze data, determine reader's strengths and weaknesses, develop an instructional plan, select and implement appropriate strategies and materials, and assess progress towards instructional goals. Prerequisites: RD 610, RD 620, and RD 622.

RD 626 The Literacy/ESOL Specialist (3)

A seminar in the role of the literacy specialist and ESOL specialist in elementary, middle, or secondary school settings with emphasis on the knowledge and skills necessary to think and act as a literacy/ESOL professional with students, teachers, paraprofessionals, administrators, professional colleagues, and the community. This course will focus on federal, state, and local literacy/ESOL programs, current research and curricular practices, historical and current trends and issues in the field of literacy and ESOL, and organizations which support and advocate for literacy, ESOL learners, and literacy/ESOL specialists.

RD 628 Linguistics, Language Development, and Assessment (3)

Principles of the processes of language development including factors which affect language development, the stages of language acquisition, and the relationship between oral language and literacy. Focus on developing assessment procedures and instructional strategies to facilitate language development. The course also focuses on language and linguistics in ESOL settings, including first and second language acquisition processes; English phonology, morphology, syntax, and discourse; and implications for teaching English language learners. Prerequisite: Graduate Standing.

RD 630 Literacy/ESOL Practicum (3)

A supervised clinical experience in which students work with learners to improve their literacy skills. Students administer assessments, analyze data, determine learners' strengths and weaknesses, develop instructional plans, select and implement appropriate strategies and materials, and assess progress towards instructional goals using skills developed as critical and reflective professionals. Appropriate conduct is maintained with parents and classroom teachers with oral or written reports as deemed appropriate. Prerequisites: RD 610 and RD 612 and RD 620 and RD 622 and RD 628

RD 656 Advanced Children's Literature (3)

Advanced survey and analysis of the literature written for children through middle school. A variety of literary forms are explored. Emphasis on evaluation and development of specific strategies to enhance reader comprehension and appreciation. Emphasis also on incorporating children's literature in instruction across the curriculum.

RD 684 Literacy Instruction in the Middle and Secondary Content Areas (3)

A study of the specific literacy skills relating to the various disciplines found in middle and secondary schools. Emphasis is given to the importance of text complexity and readability, academic vocabulary acquisition, comprehension skills, use of text-based evidence, critical & analytical reading and writing, reading strategies (both universal and discipline specific), and working with ESOL learners. Prerequisite: Graduate Standing.

RELIGIOUS STUDIES (RG)

RG 101 Introduction to the Study of Religion (3)

This course introduces the academic study of religion. In it, we learn social scientific methods of study and we apply them to religious communities within the greater Topeka area. Students will ultimately be able to use what they learn in the course to make sense of religion wherever and however they encounter it in their careers and in their lives. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

RG 102 World Religions (3)

A study of selected religious traditions around the world, using humanistic methods and focusing on questions of comparison and classification. What do religions have in common with one another? What makes them distinct? What makes something a "world" religion, and who gets to decide? Who gets left out? Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

RG 103 Introduction to the Bible (3)

An introduction to the academic study of the Bible, including 1) biblical and non-biblical ancient texts in their historical contexts and 2) the historical processes that led to the creation of different canons of the Bible among Jews and Christians, and 3) the Bible's impact on modern issues like abortion, immigration, and the environment. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

RG 110 Special Topics/Religion (1-3)

Topics will vary from semester to semester and will be announced in advance. May be repeated for credit when topics vary.

RG 207 Existence of God (3)

An elementary course in Philosophy and Religion focusing upon the specific rational arguments which have been advanced for and against the existence of a supreme being. Prerequisite: EN 101 or EN 102.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

RG 300 Special Topics/Religion (2-3)

Topics will vary from semester to semester and will be announced in advance. May be repeated for credit when topics vary. Prerequisite: three hours of Religion or PH 302.

RG 301 Prophets and Prophetic Books in Ancient Judaism (3)

In this course, ancient Jewish prophetic literature is examined, including biblical books like Isaiah and extra-canonical traditions like Enoch. Prophecy is studied against the backdrop of ancient Near Eastern divination, and focus is on the role of prophetic books (a uniquely Jewish phenomenon) in the shaping of early Judaism. Prerequisite: three hours of Religion.

RG 302 Jews, Christians, and Sex (3)

This course examines the historical development of Jewish and Christian teachings on sexuality, emphasizing the distinctions between Judaism and Christianity and the tremendous impact of the latter on Euro-American societies. We will examine ancient sources and modern interpretations of those sources. Students will have opportunities to critique various teachings about sexuality and to develop and defend their own ideas. Prerequisites: RG 101, RG 102, or RG 103.

RG 304 Race and Religion (3)

This course explores the generative intersections "race" and "religion" in the greater Atlantic world from the 15th century until the present moment. The purpose of this class is to evaluate claims about these intersections on the basis of public evidence and rational argumentation, in particular the claim that "race" and "religion" are social constructs invented by Europeans to facilitate the colonization of the rest of the world. Prerequisites: RG 101, RG 102, or RG 103.

RG 306 Ritual (3)

This class is an exploration of the concept of ritual. Do all societies have rituals and/or engage in ritualized behavior? Do animals have ritual? Is ritual a distinctly religious phenomenon? What roles do rituals play in human socialization? We will read a variety of theoretical and ethnographic materials on ritual; we will also observe and invent rituals in the real world. Prerequisites: RG 101, RG 102, or RG 103.

RG 331 Understanding Religion (3)

What do we mean when we call something "religion"? Who decides what is and is not "religion"? This course examines various approaches to the academic study of religion, focusing on current disciplinary debates over description versus explanation, insider/outsider dynamics, and the heuristic value of "religion" when applied to non-Western traditions. Prerequisite: Religious Studies Major, or consent of the instructor.

RG 386 Special Study (1-3)

Individual study of specialized subjects pertaining to religion. May be repeated for credit. Prerequisites: nine hours of Religion and permission in advance by the professor with whom the student desires to work.

RG 398 Capstone Preparation (3)

Students prepare for their senior capstone (RG 399) by developing a portfolio of prior work and reflecting on their growth during their time in college. They engage in vocational discernment, exploring potential career paths and identifying the steps that they need to take on those paths. Ultimately, they propose a senior capstone project for RG 399 that connects their prior learning in the major with their short- and long-term goals. Prerequisite: Senior Religious Studies Major.

RG 399 Religious Studies Capstone (3)

Students design and implement a project that reflects what they have learned in their careers as religious studies majors. The project will be chosen and prepared in RG 398. Potential senior capstone projects include, but are not limited to: independent research papers, community service projects, and internships. Students are required to submit materials demonstrating what they have learned and how it connects to their religious studies coursework, and they are required to present their project at a public campus event. Prerequisite: RG 398 with a grade of C or better.

SOCIAL WORK (SW)

SW 100 Introduction to Social Work & Social Welfare (3)

The purpose of the course is to introduce interested students to the basic mission, values and ethics, knowledge base, methods, and services of the social work profession. An overview of the United States' historical response to human needs and the current status of public social welfare policy will be explored. Prerequisite: None.

SW 250 Diversity and Social Justice in Social Work (3)

This course presents an overview of concepts related to diversity, equity, inclusion, anti-racism, and social justice, in the context of social work practice with individuals, families, groups, organizations, and communities. Students will practice self-awareness of their personal biases and values, and strategies for managing their influence on working with diverse clients and constituencies.

SW 325 Person In Environment I: Individuals & Families (3)

The purpose of this course is to develop knowledge about human behavioral interactions, using a person-in-environment perspective. Bio-psycho-social aspects of individual and family interactions will be emphasized. This course will provide the foundation for developing direct social work practice skills. Prerequisites: SW 100 and SW 250.

SW 326 Person In Environment II: Groups, Organizations, & Communities (3)

The purpose of this course is to develop knowledge about human interactions relevant to groups, organizations, communities, cultures, societies, and other, larger systems. The emphasis will be to build upon the person-in-environment perspective, and to expand this model to encompass the effects of larger systems on individual functioning. This course will provide the foundation for developing social work macro-level practice skills. Prerequisites: SW 100 and SW 250.

SW 350 Social Policy and Programs (3)

The major purpose of this course is to develop the conceptual knowledge of policy formulation, and the content, values, and process elements necessary for conducting social policy analysis. Prerequisites: SW 100 and SW 250.

SW 352 Micro Social Work Practice (3)

The major purpose of this course is to prepare social work students for their field practicum work. The emphasis is on the development of working knowledge of the generalist practice model, interactional theories, and methods of facilitating change. In addition, there will be an emphasis placed on developing skills for providing social work services. For social work majors only. Prerequisites: SW 100 and SW 250.

SW 353 Macro Social Work Practice (3)

This second practice course will emphasize more advanced theoretical material, and the application of the generalist practice model to more complex systems. Skill development will be emphasized for assessment of client systems, and delivery of social work services. For social work majors only. Prerequisites: SW 100 and SW 250.

SW 354 Seminar & Field Education I (6)

This course integrates the Field education component and the Practice Seminar. Students will spend 16 hours per week in their field education placements, with direct supervision by a licensed professional social worker. Opportunities for engaging in generalist social work practice at micro, mezzo and macro levels will be provided. In addition, students will attend a three-hour seminar each week. The seminar will emphasize the integration of their field experiences with the generalist practice model, and theories of change. Students must make application for the field in their junior year by the posted deadlines. Concurrent enrollment in SW 425 BSW Field Education Workshop is required. The culmination of the BSW program is the Field Education Placement. Two consecutive field education/seminar courses are required and constitute this culminating educational experience. Prerequisites: SW 100, SW 250, SW 325, SW 326, SW 352, SW 353, and a 2.5 cumulative grade point average; admission to the BSW program; and a field education-director-approved field education placement.

SW 355 Seminar & Field Education II (6)

This is the second semester of the field education experience and seminar required for social work majors. The culmination of the BSW program is the field education placement. This field education placement requires summative reflection, serving as a culminating experience for Bachelor's degree students. Two consecutive field education/seminar courses are required and constitute this culminating educational experience. Prerequisites: SW 100, SW 250, SW 325, SW 326, SW 352, SW 353, SW 354; admission to the BSW program; and a field education director-approved placement in a field education agency.

SW 356 Social Work Practice in Healthcare (3)

This course introduces students to generalist social work practice in healthcare settings, including the technological, social, political, ethical, and financial factors impacting patient care. This course emphasizes the relevant theories and models for healthcare practice at the micro, mezzo, and macro levels. Prerequisite: None.

SW 357 Inclusive and Competent Social Work Practice in Healthcare (3)

The purpose of this course is to prepare social workers for generalist healthcare practice with clients with diverse backgrounds. The emphasis is on inclusive and culturally competent social work practice, to include the development of cultural awareness, humility, and knowledge about health and healthcare, as well as issues that can affect inclusive access, such as language and literacy, physical and cognitive ability, gender and sexuality, and macro, policy, and legal factors. Prerequisite: None.

SW 358 Family Decisions in Healthcare (3)

The purpose of this course is to provide overall theoretical information about how families function and communicate during the process of health and long-term care decision-making. This course will provide overall generalist social work application skills and addresses interdisciplinary communication skills critical for working in a variety of healthcare settings. Prerequisite: None.

SW 359 Human Sexuality and Social Work Practice (3)

The major purpose of this course is to prepare social work students to explore the physiological, psychological, and socio-cultural variables associated with sexual identity, sexual orientation, sexual behavior, as well as to introduce a variety of theories explaining sexual behavior, development of sexual norms, and gender fluidity. Students will develop an understanding and appreciation of all aspects of human sexual behavior. Prerequisite: None.

SW 360 Geriatric Social Work Practice (3)

The purpose of this course is to provide students with an overview of gerontological social work in generalist practice with an emphasis on the principles of practice, the application of research, and the formulation of policies as they relate to older adults. The course will define the role of the social worker from a gerontological perspective and will introduce considerations for special populations that are most vulnerable: aging people of color, the disabled, and gay and lesbian aged. Prerequisite: None.

SW 361 Independent Study (1-3)

Social Work majors may pursue an independent research project approved by the BSW Program Director in consultation with the Department Chair. Independent Study may not be used in place of any courses required of the social work major. Independent Study courses must meet equivalencies to Federal definition of a credit hour. Prerequisites: SW 100 and SW 250.

SW 362 Generalist Quantitative Research (3)

Introduces students to the basic principles of generalist quantitative social work research, including ethics, problem formulation, and quantitative research designs and methodologies. Emphasis is placed on becoming a responsible consumer of quantitative research as well as exploring quantitative evaluation of programs and outcomes of practice. Prerequisites: SW 100 and SW 250.

SW 363 Generalist Qualitative Research (3)

Introduces students to the basic principles of generalist qualitative social work research, including ethics, problem formulation, and qualitative research designs and methodologies. Emphasis is placed on becoming a responsible consumer of qualitative research as well as exploring qualitative evaluation of programs and outcomes of practice. Prerequisites: SW 100 and SW 250.

SW 372 Social Work Practice in Child Welfare (3)

The purpose of this course is to provide students with an overview of child welfare services from a historical, theoretical, and social work practice perspective. This course will examine specific types of child endangerment through the lens of social and racial justice, including the etiology of the maltreatment, provision of services, how the consumer views the services, as well as the influence of bias, power, and personal values on client outcomes.

SW 373 Case Management in Social Work Practice (3)

This course provides students with an overview of generalist case management, including the contexts in which services are delivered, with clients from diverse backgrounds. An emphasis is placed on social work knowledge and skills regarding assessment, goal setting and monitoring, and coordination of services; knowledge of person-in-environment and other culturally responsive frameworks; and cultural humility and respect for client self-determination.

SW 374 Social Work Practice with Survivors (3)

This course introduces social work practice with children and adults who have experienced sexual assault/abuse, interpersonal/family violence, human trafficking, or violent crime. An emphasis is placed on: person-in-environment and empowerment theories; social work assessment, intervention, and advocacy practices; related policies and laws and their connection with social work practice; intersections with the National Association of Social Workers Code of Ethics; managing affective reactions, vicarious traumatization, and self-care; and intersections with anti-racism, diversity, equity, and inclusion. Prerequisites: SWK major or minor only.

SW 390 Contemporary Issues in Social Work (3)

A series of courses are designed to supplement the core curriculum. Each of these four required elective courses will focus on a contemporary issue, and will emphasize the integration of core social work values and ethics, the generalist practice model, and theories of human interactions and change. Specific courses taught under this course number include, among other courses: Child Welfare, Social Work and the Law, Multicultural Social Work, Case Management, and Social Work Policy Practice.

SW 395 Social Work International Service (3)

This course uses an international lens to provide BSW students the opportunity to learn about social work practice, including the effects of historical, social, psychological, physical, and environmental conditions on well-being at the micro, mezzo, and macro levels. The course will emphasize ways that culture and diversity intersect with social work practice. A portion of this course includes international travel.

SW 425 BSW Field Education Workshop (0)

In this mandatory one-day workshop, BSW students will be oriented to the field education program, expectations regarding professional comportment, duties/responsibilities in completing tasks, required field education program paperwork, and other aspects of the field education experience. Concurrent enrollment in SW 354 Seminar and Field Education I is required. Prerequisites: SW 100, SW 250, SW 325, SW 326, SW 352, SW 353, and a 2.5 grade point average overall; admission to the BSW program; and a field education-director-approved placement in a field education agency.

SW 606 Person in Environment I: Individuals & Families (3)

Presents a bio-psycho-social perspective on the developmental processes of human personality and behavior. It also examines human interactions within the social environment, concentrating on interactions between individuals and families, while emphasizing the ecological perspective. Fall semester only. Prerequisite: Admitted MSW students only or consent.

SW 607 Person in Environment II: Groups, Organizations, & Communities (3)

Students are exposed to concepts and substantive information about persons-in-environment transactions. Emphasis is placed on the structure and dynamic processes of organizations, communities and societies. Spring semester only. Prerequisites: Admitted MSW students only or consent.

SW 608 Foundations of Social Policy (3)

The major purpose of this course is to prepare social work students as social work practitioners to serve as knowledgeable and committed participants in efforts to achieve social and economic justice through social policies and social programs. An important element of this course is the development of a conceptual map to focus the student's ability to critically analyze social policies and develop broad understanding of the dynamics of social policy formulation. In addition, some course content will focus on developing familiarity with the practice skills involved in policy analysis and advocacy. Throughout the course, significant consideration is placed on the actual delivery of social services and social work practice in micro, mezzo, and macro dimensions. Fall semester only. Prerequisites: Admitted MSW students only.

SW 621 Quantitative Social Work Research (3)

Introduces students to the basic principles of quantitative social work research, including ethics, problem formulation, and quantitative research designs and methodologies. Emphasis is placed on teaching students to become critical thinkers and responsible consumers of quantitative research. In addition, students will learn how to utilize various quantitative research strategies and methodologies to evaluate social service programs and practice outcomes. Fall semester only. Prerequisites: Admitted MSW students only or consent.

SW 622 Qualitative Social Work Research (3)

Introduces students to the basic principles of qualitative social work research, including ethics, problem formulation, and qualitative research designs and methodologies. Emphasis is placed on teaching students to become critical thinkers and responsible consumers of qualitative research. In addition, students will learn how to utilize various qualitative research strategies and methodologies to evaluate social service programs and practice outcomes. Spring semester only. Prerequisites: Admitted MSW students only or consent.

SW 640 Fundamentals of Social Work Practice (3)

This practice course focuses on the development of core social work skills at the generalist level with individuals, families, groups, organizations, and communities, and in preparation for clinical study at the advanced level. Client concerns and case conceptualization throughout the course will be explored through the lenses of person-in-environment, social justice and human rights, trauma-informed practice, systems theory, and the strengths perspective. Students will be introduced to the history of social work and the current contexts in which social workers practice. Students will reflect on professional use of self as a necessary component of competent and ethical practice. This experiential, action-driven course provides students the opportunity to investigate the reciprocity between academic learning, skill development, and social work practice in the field education setting. MSW students are expected to take this course concurrently with SW 690 and SW 691. Fall semester only. Prerequisites: Admitted MSW students only. Corequisites: SW 690 and SW 691

SW 641 Fundamentals of Social Work Practice II (3)

This practice course builds on social work skills gained in SW 640 Fundamentals of Social Work Practice at the generalist level with individuals, families, groups, organizations, and communities in preparation for clinical study at the advanced level. Students will be expected to develop skills in generalist social work case conceptualization and treatment planning of diverse populations at the micro, mezzo, and macro levels with particular emphasis on inclusive, anti-oppressive practices that build on the resiliency and strengths of human beings. Students will be expected to demonstrate an integration of academic learning, skill development, and social work practice in the field education setting. Prerequisites: MSW students are expected to take this course concurrently with SW 693. Spring semester only. Admitted MSW students only. SW 640, SW 691. Corequisites: SW 693

SW 680 Clinical Social Work Practice in Healthcare (3)

This course introduces students to clinical social work practice in healthcare settings, including the technological, social, political, ethical, and financial factors impacting patient care. This course emphasizes the relevant theories and models for healthcare practice at the micro, mezzo, and macro levels. Prerequisite: Enrolled MSW students only.

SW 681 Inclusive and Competent Social Work Practice in Healthcare (3)

The purpose of this course is to prepare social workers for clinical health care practice with clients with diverse backgrounds. The emphasis is on inclusive and culturally competent social work practice, to include the development of cultural awareness, humility, and knowledge about health and healthcare, as well as issues that can affect inclusive access, such as language and literacy, physical and cognitive ability, gender and sexuality, and macro, policy, and legal factors.

SW 682 Family Decisions in Healthcare (3)

The purpose of this course is to provide overall theoretical information and application about how families function and communicate during the process of health and long term care decision-making. This course allows students to develop clinical skills that assist families in making these difficult end of life and healthcare decisions. This course also addresses interdisciplinary communication skills and how these skills are necessary for working with others who have different professional backgrounds in a variety of healthcare settings.

SW 683 Human Sexuality and Social Work Practice (3)

The major purpose of this course is to provide a theoretical background for social work students to explore the physiological, psychological, and socio-cultural variables associated with sexual identity, sexual orientation, sexual behavior, as well as introducing a variety of theories explaining sexual behavior, development of sexual norms, and gender fluidity. Students will develop an understanding and appreciation of all aspects of human sexual behavior, and will then also learn theoretically-based clinical skills that they can apply in a wide variety of social work settings.

SW 685 Diversity and Justice in Social Work (3)

This course presents an overview of key concepts and theories related to oppression, diversity, equity, inclusion, anti-racism, human rights, and justice, in the context of social work practice with individuals, families, groups, organizations, and communities. Students will develop self-awareness of their personal biases and values in the context of cultural humility, and practice strategies for managing their influence on working with diverse clients and constituencies. Prerequisites: Admitted MSW students only or consent. Required of all regular standing MSW students who have not taken an introductory course to social work and social welfare at the undergraduate or graduate level.

SW 690 Generalist Field Education Workshop (0)

In this mandatory one day workshop, regular standing MSW students will be oriented to generalist field education, expectations regarding professional comportment, duties/responsibilities in completing tasks, required field education program paperwork, and other aspects of the field education experience. Concurrent enrollment in SW 691 and SW 640 is required. Fall semester only. Prerequisite: Admitted MSW students only and a field education-director-approved field education placement.

SW 691 Generalist Field Education I (3)

Students will gain supervised generalist level social work experience in selected community agencies. A minimum of 16 hours per week (240 clock hours) will be spent in mastering the knowledge and skills for multi-level client assessment, planning, intervention and evaluation. Fall semester only. Prerequisite: Admitted MSW students only and a field education-director-approved field education placement. Concurrent enrollment in SW 690 and SW 640 is required.

SW 693 Generalist Field Education II (3)

This Generalist field education placement provides the student further opportunities to gain supervised social work experience in selected community organizations and programs for a minimum of 20 hours per week (160 clock hours). The focus is on refining generalist practice skills, and applying them to more complex social work situations, with multi-level systems. Concurrent enrollment in SW 641 is required. Spring semester only. Prerequisite: Admitted MSW students only and completion of SW 640, SW 690, and SW 691. Corequisites: SW 641

SW 700 Clinical Assessment and Diagnosis (3)

Presents an in-depth analysis of assessment techniques and diagnostic tools, including the DSM-IV, guided by social work values and ethics. Focus is on developing the knowledge and skills for competent, multi-cultural assessment of client functioning, within societal and environmental contexts. Prerequisites: Admitted MSW students only and completion of all MSW foundation coursework or consent.

SW 705 Clinical Social Work Practice with Individuals (3)

Students are expected to develop an understanding of theories, and development of skills, relevant to assessment and intervention with individuals, consistent with social work values and ethics. Special consideration is given to developing cultural competency and providing services to individuals who are vulnerable and/or oppressed. Prerequisites: Admitted MSW students only and completion of all MSW foundation coursework.

SW 706 Clinical Social Work Practice with Families (3)

Students are expected to develop an understanding of theories, and development of skills, relevant to assessment and intervention with families, consistent with social work values and ethics. Special consideration is given to developing cultural competency and providing services to family units who are vulnerable and/or oppressed. Prerequisites: Admitted MSW students only and completion of all MSW foundation coursework.

SW 707 Clinical Social Work Practice with Groups (3)

Students are expected to develop an understanding of theories and development of skills relevant to assessment and facilitation of small group interactions, consistent with social work values and ethics. Special consideration is given to developing cultural competency and providing services to vulnerable populations. Prerequisites: Admitted MSW students only and completion of all MSW foundation coursework.

SW 777 Continuous Enrollment (1-3)

This course is to allow students additional time to complete Capstone, Thesis or Practicum requirements. Prerequisites: Instructor Permission

SW 779 Independent Study (1-3)

This opportunity for study is designed for students wishing to complete an in-depth project in a specific area. The study must be approved by and coordinated with an individual member of the core social work faculty.

SW 780 Special Topics (1-3)

Using a (1-3) credit hour format, a variety of clinical social work electives may be offered. These are meant to introduce a specific topic or intervention skill to students. Elective courses that are currently listed under the special topics number include but are not limited to: Applied Behavior Analysis, Multisystemic Family Therapy, Adult Mental Health, Play Therapy, and Social Work Policy Practice. Prerequisites: Admitted MSW students only and completion of MSW foundation coursework.

SW 781 Clinical Social Work Practice with the Exceptional Child (3)

In this elective clinical course within the MSW program, students are expected to develop an understanding of the historical and current social work practices relating to the educational characteristics, needs, and placement alternatives for exceptional learners. Prerequisites: Admitted MSW Students only, completion of all MSW foundation coursework, and a practicum-director-approved placement in a clinical field practicum.

SW 782 Clinical Social Work Practice in the Educational Environment (3)

Students in this content-driven course are expected to develop the knowledge and skills necessary for school social work practice or other forms of social work practice that might be influenced by the educational setting. In this course, students will gain a deeper understanding of the history, philosophy, and issues/trends of the American educational system. Students will be provided with an opportunity to critically analyze and discuss various historical, philosophical, and current trends in the education system, all the while juxtaposing social work philosophy, ethics, and practice principles against their findings. Prerequisites: Admitted MSW students only, completion of all MSW foundation coursework, and a practicum-director-approved placement in a clinical field practicum.

SW 783 Clinical Social Work Practice in Schools (3)

Students in this course are expected to develop the knowledge and skills necessary for effective practice of school social work. An emphasis on the impact of policies for student and family functioning is included. Concurrent placement in a school-based clinical practicum is suggested.

SW 784 Psychopharmacology (3)

Students in this course are expected to develop the conceptual background needed to understand current pharmacological interventions used with clients. An emphasis is placed on the social worker's role in direct service with the client, the family, and other providers. Ethical issues involved with medications and medication compliance are stressed.

SW 786 Clinical Social Work Practice with Trauma (3)

Students in this course are expected to develop the knowledge and skills necessary for effective clinical or systemic interventions for children, adolescents, and adults who have survived a traumatic event.

SW 787 Geriatric Social Work in Clinical Practice (3)

This course is designed to provide students with an overview of gerontological social work in clinical practice with an emphasis on the principles of practice, the application of research, and the formulation of policies as they relate to older adults. The course will define the role of the social worker from a gerontological perspective. It will introduce the student to special populations that are most vulnerable: aging people of color, the disabled, and gay and lesbian aged.

SW 788 Multicultural Social Work in Clinical Practice (3)

Students in this course are expected to develop the knowledge and skills necessary for effective assessment and treatment of ethnic minorities, women, and other disenfranchised groups. The psychological and sociological implications of discrimination are examined from a local, national and international framework, as well as the development of specific skills, including advocacy and empowerment, in working with disadvantaged groups.

SW 789 International Social Work (3)

This course is designed to provide clinical social work students with an overview of international aspects of social work and its global context. This course covers working with migration, refugees, natural disasters, terrorism, and human rights issues. It will look at the role of humanitarian groups worldwide. This course will challenge students to explore the various ways that different cultures perceive the role of social work and social workers. Students will learn to analyze social development and policy issues. The course will define the role of the social worker from a global perspective, and introduce the student to special populations worldwide with an emphasis on the most vulnerable.

SW 790 Clinical Field Education Workshop (0)

In this mandatory one day workshop, MSW students will be oriented to clinical field education, expectations regarding professional comportment, duties/responsibilities in completing tasks, required field education program paperwork, and other aspects of the field education experience. Fall semester only. Concurrent enrollment in SW 791 and SW 792 is required. Prerequisite: Admitted MSW students only; completion of all MSW foundation coursework, and a field education-director-approved field education placement.

SW 791 Clinical Field Education I (3)

This first semester of Clinical Field Education is taken concurrently with SW 792 Clinical Seminar. In this semester, students begin their professional development in community agencies. Small case load and close supervision is expected. Concurrent enrollment in SW 790 and SW 792 is required. Fall semester only. Prerequisite: Admitted MSW students only; completion of all MSW foundation coursework, and a field education-director-approved field education placement.

SW 792 Clinical Practice Seminar I (3)

In this seminar, taken concurrently with the Clinical Practicum I, students are expected to integrate academic course work, including values and ethics, with the practice of clinical social work, and to analyze and evaluate their effectiveness with clients. Concurrent enrollment in SW 790 and SW 791 is required. Fall semester only.

SW 793 Clinical Field Education II (3)

This field experience is a continuation of Clinical Field Education I. Students are expected to further develop their clinical skills for assessment and intervention with individuals, families, and groups. Spring semester only. Prerequisite: SW 791.

SW 794 Clinical Practice Seminar II (3)

Clinical Seminar II must be taken concurrently with Clinical Practicum II. This online seminar/online course provides students with further opportunity to integrate academic course work, including values and ethics, with the actual practice of clinical social work, and to think critically about their clinical work with clients. The seminar/online course allows students to continue with peer clinical case consultation format. In addition, the seminar/online course permits students to focus on creating a portfolio that will be reviewed by peers and the instructor at the end of the semester. Spring semester only.

SW 795 Social Work International Service (3)

This course uses an international lens to provide MSW students the opportunity to learn about social work practice, including the effects of historical, social, psychological, physical, and environmental conditions on well-being at the micro, mezzo, and macro levels. The course will emphasize ways that culture and diversity intersect with social work practice. A portion of this course includes international travel.

SOCIOLOGY (SO)

SO 100 Introduction to Sociology (3)

This course introduces students to theories, concepts, and methods used by sociologists in the study of society. Through this course, students should come to realize how many aspects of their lives are influenced by the social world in which they live and, as a result, should obtain a better understanding of themselves as social individuals and their place in society. Students will also develop an awareness and appreciation of how other individuals, groups, and/or societies have arrived at quite different perspectives. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Global Citizenship, Ethics and Diversity

SO 101 Social Problems (3)

This course introduces students to the complexity of major social problems that are currently facing the U.S. and the world. Special emphasis is given to problems emerging from various divisions and inequalities in society related to social power, social class, race/ethnicity, sex, etc. Students will learn tools needed to critically evaluate these issues using sociological perspectives. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Social and Behavioral Sciences
- Gen Ed Pre-AY 2024-2025: Social Science
- USLO: Critical and Creative Thinking

SO 200 Special Topics in Sociology (1-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: SO 100 or SO 101.

SO 300 Special Topics in Sociology (1-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: SO 100 or SO 101.

SO 301 Population and Society (3)

This course provides students with an overview of the field of population studies. In the course, students will explore topics including fertility, mortality, immigration, marriage, and the consequences of these demographic changes on both social and individual levels. Prerequisite: SO 100.

SO 302 Culture, Gender and Sexuality (3)

This course introduces students to sociological perspectives on sex, gender, and sexuality. Special attention is given to the social, political, economic, and cultural processes that shape us to act and think as particular kinds of sexed, gendered, and sexualized persons, including the complexities and dilemmas posed by intersecting identities (e.g., race, ethnicity, class, religion). Prerequisite: SO 100, or consent of instructor.

SO 304 The Family (3)

This course provides an examination of contemporary U.S. and global family life, including courtship, marriage, divorce, child-rearing, and caring for aging parents. Prerequisite: SO 100.

SO 305 Criminology (3)

This course examines theories of causation of crime as well as conformity (non-criminal behavior), and their relationships to social structure and culture. In this course, we examine how laws are created, applied, and enforced in society. Prerequisite: Six hours of Sociology including SO 100 or SO 101.

SO 306 Law and Society (3)

In this course, the legal system is studied not in terms of the rules that make up the system, but in terms of the activities involved in creating, interpreting and enforcing these rules. The primary concern is with the ways in which the legal system affects society and in which society is an integral part of the larger social system and not an isolated set of rules, procedures, and activities. Prerequisite: SO 100 or SO 101.

SO 308 Sociology of Mental Health (3)

Survey and sociological analyses of major theoretical approaches toward mental health and illness exploring the social factors associated with mental illness; examination of the dynamics of societal reactions to mental illness. Prerequisite: SO 100.

SO 309 Sociology of Deviance (3)

This course includes presentation, evaluation, and integration of sociological perspectives of deviance. The course focuses on the social processes producing and maintaining deviance. Consideration is given to a variety of deviant expressions. Prerequisite: SO 100 or SO 101.

SO 310 Social Class in the U.S. (3)

This course explores the definition of social class and the impact of social class on everyday lives including opportunity, education, marriage, and parenting. Prerequisite: SO 100.

SO 313 Sociology of Disasters (3)

This course analyzes the phenomena we call "disaster" using a sociological perspective. Some of the topics covered will include: What is a disaster? Do disasters randomly affect populations, or are some groups more vulnerable than others? How can disasters act as an agent for or against social change? Prerequisite: SO 100.

SO 314 Organizations (3)

This course examines organizations from the sociological perspective with emphasis on formal organizations. Through this course, students will learn to apply concepts of organizational structure; organizational culture; processes of power, leadership, and decision-making; and understand outcomes of organizations on individuals, communities, and society, as well as the larger environments. Prerequisite: SO 100.

SO 315 Sociology of Sport (3)

In this course we examine sport as a microcosm of society, in that we critically examine the social, cultural, political, and economic realities of society. Further, the sociology of sport exists to promote, stimulate, and encourage the sociological study of play, games, and contemporary physical culture and examine what these activities tell us about society. Prerequisite: SO 100.

SO 316 Japan and East Asia (3)

The main objective of this course is to examine social, cultural, demographic, economic, and political trends in East Asia through the lens of sociologists and other social scientists. Emphasis will be on China, Japan, and Korea. Prerequisites: SO 100.

SO 318 Sociology of Religion (3)

This course provides a comparative study of the phenomenon of religion with special emphasis on the impact and future of religion in the modern world. Classical and contemporary theories serve as a basis for the approach to religious values, norms, institutional structures, and changing religious practices. Prerequisite: SO 100.

SO 319 Food and Culture (3)

Food is a part of everyday life, and we often taken the act of cooking and eating for granted. In this course, we will explore larger social phenomena through our consumption of food. Much of the focus of this course will involve reading scholarly analyses of different issues surrounding food. Prerequisites: SO 100 or consent of instructor.

SO 320 Sociology of Race and Ethnic Relations (3)

This course will examine the historical construction of race from a Sociological perspective. We will explore on how race and ethnicity shape, and are shaped by social life. This course will focus on the experiences of racial and ethnic groups primarily within the United States. Prerequisites: SO 100

SO 323 The City and Urban Life (3)

This course provides a comparative study of the origin and development of cities. The focus is on processes of urban development, rural-urban migration, inter-relationships between people, urban cultures, social institutions, use of space and competing theoretical perspectives. Prerequisite: SO 100 or SO 101.

SO 326 Aging and Society (3)

This course explores the aging process from the vantage point of sociological theories and related empirical studies. Emphasis is on the social, political, economic, medical, and demographic contexts of aging. Special attention is given to "new ageism." The course also focuses on the effect on U.S. society of an aging population. Prerequisite: SO 100.

SO 336 Globalization (3)

This course examines the causes and consequences of economic, political, and cultural globalization—the increasing interconnectedness among societies. Sociological and interdisciplinary frameworks are applied to specific cases to understand how the world is changing and what it means for societies and individuals. Prerequisites: SO 100 or SO 101 or consent of instructor.

SO 338 Strategies for Social Change (3)

This course explores the major economic, political, and social forces that influence structural and cultural change in the U.S. and the world using a sociological perspective. The course also introduces students to different types of social movements and provides a framework for activism, as individuals and as members of groups. Prerequisite: SO 100 or SO 101.

SO 360 Sociological Theory (3)

This course provides a historical examination of the field of sociology and the development of sociological theory from its classical roots to contemporary debates. "Schools of thought" and the work of particular theorists are used to explore central concepts. Prerequisite: Declared major, junior / senior standing.

SO 362 Methods of Social Research (3)

This course introduces students to the foundations of social science research including: designing an ethically and methodologically sound research project, generating research questions, conducting a literature review, selecting appropriate data collection methods, planning for data analysis, and sharing results. Prerequisites: 12 hours of Sociology, or consent.

SO 363 Internship (1-3)

Field training to provide students with experience in an operational or research setting through assignment to local social agencies or museums approved and supervised by a faculty member. May be elected twice for a maximum of three hours. Prerequisites: Declared major, senior standing and consent.

SO 366 Directed Readings (1-3)

Under supervision of a faculty member, students will undertake an extensive readings course to further their understanding of a specific topic within Sociology. May be repeated for a maximum of six hours. Students are limited to six hours total from SO 366 and SO 367 combined. Prerequisite: Declared major, junior/senior standing, and consent.

SO 367 Directed Research (1-3)

Upon supervision of a faculty member, students may undertake an independent research project in a specific aspect of Sociology. May be repeated for a maximum of six hours. Students are limited to six hours total from SO 366 and SO 367 combined. Prerequisite: Declared major, junior/senior standing, and consent.

SO 377 Sociology of Education (3)

This course examines theories and methods focusing on the role of education in stabilizing and changing industrial society particularly the United States. We describe and analyze how schools and universities figure into recurring crises and struggles—especially those related to the job market and to people's concerns as to what constitutes a rewarding life. Prerequisite: SO 100, SO 101 or consent of instructor.

SO 400 Special Topics/Sociology (1-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: SO 100 or SO 101.

SO 495 Sociology Senior Capstone (3)

Students will define a sociological problem or project and utilize knowledge and skills gained from previous sociology coursework to engage in contemporary issues using a critical framework. The Sociology Senior Capstone serves as a culminating experience for graduating seniors majoring in sociology. Prerequisites: SO 360 and SO 362.

SO 600 Special Topics in Sociology (1-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisites: Admission to a graduate program and consent of instructor.

SO 614 Organizations (3)

This course examines organizations from the sociological perspective with emphasis on formal organizations. Through this course, students will learn to apply concepts of organizational structure; organizational culture; processes of power, leadership, and decision-making; and understand outcomes of organizations on individuals, communities, and society, as well as part of larger environments. Prerequisites: Admission to a graduate program or consent of the instructor.

SO 638 Strategies for Social Change (3)

This course explores the major economic, political, and social forces that influence structural and cultural change in the U.S. and the world using a sociological perspective. The course also introduces students to different types of social movements and provides a framework for activism, as individuals and as members of groups. Prerequisites: Admission to a graduate program or consent of instructor.

SO 660 History and Theory Sociology (3)

This course provides a historical examination of the field of sociology and the development of sociological theory from its classical roots to contemporary debates. "Schools of thought" and the work of particular theorists are used to explore central concepts. Prerequisites: SO 100 and admission to a graduate program, or consent of instructor.

SPANISH (SP)

SP 101 Beginning Spanish I (4)

Introduction to conversation, reading, grammar, and composition. Development of oral/aural skills. Particular emphasis on contemporary culture and social customs in the Spanish-speaking world. An audiovisual program to develop phonological skills is a component of this course. No prerequisite.

SP 102 Beginning Spanish II (4)

Continuation of Spanish 101. Prerequisite: SP 101 or two years of high school Spanish, or consent of instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

SP 201 Intermediate Spanish I (3)

This course is intended as reinforcement of the 5 skills learned in SP 102: speaking, listening, reading, writing and culture. Offered fall semester only. Prerequisite: SP 102 or 3 years of high school Spanish with B or better.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

SP 202 Intermediate Spanish II (3)

This course is the continuation of SP 201. Offered spring semester only. Prerequisite: SP 201 or consent of the instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

SP 207 Basic Spanish Conversation (3)

Development of oral skills with emphasis on practical vocabulary. Use of magazines, newspapers, and other topical materials as basis for conversation. Offered fall semester only. Prerequisite: SP 202 or two years of high school Spanish, or consent of instructor.

SP 240 Spanish for Heritage Speakers (3)

This is a course designed for heritage speakers of Spanish, that is, those individuals with oral proficiency but no formal training in the language. In this course we build on the language skills these student possess, focusing on developing their vocabulary, writing skills, and grammar accuracy through activities related to the Latino communities in the U.S. and the Hispanic world. Prerequisite: Heritage speaker (consult with the instructor).

SP 274 Independent Study (1-3)

Directed study. May be repeated. Prerequisite: Consent of instructor.

SP 290 Study Abroad Spanish Speaking Country (1-15)

Students who are planning to study in a Spanish speaking country should enroll under this number after consultation with their major advisor. Prerequisite: 1 year of university-level Spanish (SP 101/SP 102) or equivalent.

SP 295 Faculty Led Program Spanish Speaking Country (0-6)

Students who plan to study Spanish in a Spanish speaking country in a program led by a faculty member at Washburn should enroll in this class. Prerequisite: Consent of Faculty Group Leader.

SP 307 Contemporary Hispanic Culture (3)

This course explores the diversity and complexity of the Spanish-speaking world through its geography, history, politics, and cultural manifestations. Through the study of different media, the course examines how culture interprets and shapes the identity of Hispanic countries. THIS COURSE IS TAUGHT IN ENGLISH. Spanish majors may enroll in this course and use it as an elective if not counting SP 308. Prerequisite: Sophomore status.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

SP 308 Hispanic Narrative in Translation (3)

This course introduces students to some of the most important Hispanic speaking thinkers (writers, poets, and film directors). An emphasis on the historical and cultural context will provide students with a better understanding of literary texts and culture. Each course is organized around one theme or question subject to change. Students will enhance their skill of analyzing narrative [literature, films] and gain an understanding of historical and cultural aspects in the modern Spanish-speaking world. Students will work on producing good academic prose, clear and concise essays on novels, plays, poems, films and/or theoretical works studied in class. Selected films in Spanish will be shown with English subtitles. Class will be conducted in English and it is only valid for the major in the language as a correlated course. Prerequisite: Sophomore Standing or Consent of Instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

SP 311 Spanish Grammar Review (3)

Comprehensive review of Spanish grammar with emphasis on the development of free composition. Grammatical accuracy, clarity, and the appropriate use of idioms and syntax are stressed. Offered fall semester only. Prerequisite: SP 202 or consent of instructor.

SP 312 Spanish Composition (3)

Development of grammatical accuracy and proficiency in composition. Use of readings to illustrate grammatical points and form the basis for composition and discussion. Offered spring semester only. Prerequisite: SP 311 or consent of instructor.

SP 315 Translation (3)

Spanish-English and English-Spanish translation of a variety of texts. Focus on techniques of translation and improving Spanish grammar, syntax and idioms. Prerequisite: SP 311 or consent of instructor.

SP 324 Civilization of Spain (3)

Oral and written treatment of geography, history, art, economy, and customs in order to understand present conditions in this country. Use of multimedia resources. Prerequisite: SP 312 or consent of instructor.

SP 326 Civilization of Latin America (3)

Oral and written treatment of geography, history, art, economy, and customs in order to understand present conditions in this area of the world. Use of multimedia resources. Prerequisite: SP 312 or consent of instructor.

SP 331 Introduction to Hispanic Literature (3)

Intensive readings in modern Hispanic literature to give students critical methods for dealing with Hispanic literary genres. Prerequisite: SP 312 or consent of instructor.

SP 351 Spanish Literature (3)

SP 351 is an introduction to the world of Spanish Peninsular literature, from its origins in the Middle Ages to the present. The course has two main objectives: On the one hand it presents the necessary elements so that the student can understand and analyze a literary work, and on the other, to present the student with a series of works, generally from the established canon, of different genres. Prerequisite: SP 312 or consent of instructor.

SP 371 Latin American Literature (3)

This is a survey course of Latin American literature from its beginnings to the present. The course offers a general view of the history and literary movements of literature in this region of the world, along with readings and discussion of unabridged novels, short stories, poems and plays by Latin American authors from pre-Hispanic times to the present. Prerequisite: SP 312 or consent of the instructor.

SP 374 Independent Study (1-3)

Directed study. May be repeated. Prerequisite: Consent of instructor.

SP 380 Hispanic Culture thru Film (3)

This course is an introductory survey of the history of Hispanic film, and how film reflects and shapes Hispanic history, culture, and society. The course can focus on a particular Spanish-speaking country. Special attention will be paid to the study of significant movies, stars and directors, as well as the basics of critical language needed to talk and write about a film. Prerequisite: SP 312 or consent of instructor.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

SP 390 Study Abroad Spanish Speaking Country (1-15)

Students who are planning to study in a Spanish speaking country should enroll under this number after consultation with their major advisor. Prerequisite: 2nd year of university-level Spanish (SP 201/SP 202) or equivalent.

SP 395 Faculty Led Program Spanish Speaking Country (0-6)

Students who plan to study Spanish in a Spanish speaking country in a program led by a faculty member at Washburn should enroll in this class. Prerequisite: Consent of Faculty Group Leader.

SP 399 Special Topics/Spanish (3)

Study of individual authors or literary topics. May be repeated. See chairperson and/or schedule for current offerings. Prerequisite: Consent of instructor.

SP 400 Senior Thesis (3-6)

A major research project culminating in a thesis which deals with a literary topic, or other topics as approved by the thesis director. May be presented to the departmental faculty for consideration for departmental honors. Prerequisite: Senior standing.

SP 674 Independent Study (3)

Directed study. May be repeated. Prerequisites: Admission to MLS program and consent of instructor.

SP 699 Special Topics/Spanish (3)

Study of individual authors or literary topics. Prerequisites: Admission to MLS program and consent of instructor.

SPECIAL EDUCATION (SE)

SE 420 Planning for Children and Youth with Mid-Moderate Disabilities (3)

Introduction to programming, planning and scheduling procedures to structure the learning environment for pre-school and elementary students with learning and behavioral problems. Emphasis placed on establishment of procedures for laws and regulations, regular class integration, student and teacher time management, class scheduling, grading practices, and student/program evaluation. Prerequisite: Admission to the Professional Teacher Education Program and ED 302.

SE 422 Educational Planning for Youth with Disabilities (3)

Introduction to programming, planning and scheduling procedures to structure the learning environment for middle and secondary school students with learning and behavioral problems. Emphasis placed on establishment of procedures for regular class integration, student and teacher time management, class scheduling, grading practices, and student/program evaluation. Prerequisite: Admission to the Professional Teacher Education Program and ED 302.

SE 430 Methods & Materials for Teaching Youth with Disabilities (Pre K-Grade 5) (3)

Emphasis on selection and implementation of instructional methods including affective and learning behaviors, selection and adaptation of materials to support student learning, behavior, and social adjustment in regular education classroom. IEP development. Prerequisites: Admission to teacher education and ED 302.

SE 432 Methods & Materials for Teaching Youth with Disabilities (Grade 6-12) (3)

Emphasis on selection and implementation of instructional methods including affective and learning behaviors, selection and adaptation of materials to support student learning, behavior, and social adjustment in regular education classroom. Prerequisite: Admission to the Professional Teacher Education Program and ED 302.

SE 440 Individual & Group Management - Children & Youth with Disabilities (3)

Principles and applications of individual and group management techniques for children and youth with mild/moderate disabilities. Topics addressed include various theoretical approaches, practical techniques, and assessment procedures. Prerequisites: Admission to teacher education and ED 302.

SE 456 Special Education Practicum (4)

Directed and supervised intensive teaching experiences with children with mild/moderate disabilities in educational settings which include elementary age children. Prerequisite: Admission to the Professional Teacher Education Program, ED 302, and Admission to Student Teaching.

SE 460 Exceptions-Early Childhood (3)

Focuses on children with disabilities ages birth through grade three. Emphasis is placed on understanding assessment, uses of technology, working with families, development of IEP's/IFSP, legal and historical foundations, program models, and collaboration with school personnel. Prerequisite: ED 302.

SE 610 Learning and Behavioral Problems of Children and Youth with Mild-Moderate Disabilities (3)

Social, cognitive, behavioral, educational, medical aspects of development to establish etiology, characteristics, and best practice interventions for children and youth with learning and behavioral problems and theories of the causes of learning and behavioral problems. Emphasis on identifying disabilities according to state guidelines, utilizing appropriate assessment data, engaging in multi-disciplinary planning, and developing appropriate interventions. Prerequisite: ED 302 or SE 476.

SE 620 Educational Planning for Children and Youth with Mild-Moderate Disabilities (Pre-School/Elementary) (3)

Introduction to programming, planning and scheduling procedures to structure the learning environment for pre-school and elementary students with learning and behavioral problems. Emphasis on establishment of procedures for laws and regulations, regular class integration, student and teacher time management, class scheduling, grading practices, and student/program evaluation. The Individual Educational Planning (IEP) process and training in development of computerized IEP included. Prerequisite: SE 610.

SE 622 Educational Planning for Children and Youth with Mild-Moderate Disabilities (Middle/Secondary School) (3)

Introduction to programming, planning and scheduling procedures to structure the learning environment for middle and secondary school students with learning and behavioral problems. Emphasis on establishment of procedures for regular class integration, student and teacher time management, class scheduling, grading practices, and student/program evaluation. Prerequisite: SE 610.

SE 630 Methods and Materials for Teaching Mild-Moderate Disabled Children/Youth (Pre-School/Elem School) (3)

Emphasis on selection and implementation of instructional methods including affective and learning behaviors, selection and adaptation of materials to support student learning, behavior, and social adjustment in regular classroom. Prerequisite: ED 302 or SE 610.

SE 632 Methods and Materials for Teaching Mild-Moderate Disabled Children/Youth (Middle School/Secondary) (3)

Implementation of comprehensive Individualized Education Program (IEP). Emphasis on selection and implementation of instructional methods including affective and learning behaviors, selection and adaptation of materials to support student learning, behavior, and social adjustment in regular classroom. Prerequisite: ED 302 or SE 610.

SE 635 Conferencing and Consulting in Special Education (3)

Introduction of counseling and communication skills to develop multidisciplinary approaches to work with parents and other professionals to secure supportive school/home environments for exceptional children. Prerequisite: ED 302 or SE 476 and SE 610.

SE 640 Individual and Group Management for Children and Youth with Mild-Moderate Disabilities (3)

Principles and applications of individual and group management techniques for youth with mild/moderate disabilities. Methods of targeting behaviors through positive management procedures stressed, various theoretical approaches and practical techniques.

SE 655 Special Education Practicum (4)

Directed and supervised intensive teaching experiences with children with mild/moderate disabilities in educational settings which include elementary age children. Prerequisite: Admission to Student Teaching.

SE 656 Special Education Practicum I (Pre-Elementary) (2, 3)

Directed and supervised intensive teaching experiences with children with mild/moderate disabilities in educational settings which include pre-school/elementary age children. Prerequisite: SE 610, SE 620 (or concurrent).

SE 657 Special Education Practicum II (Pre-Elementary) (2, 3)

Interrelated teaching experiences with students with mild/moderate disabilities. Prerequisite: SE 656 and 18 hours of graduate coursework.

SE 658 Special Education Practicum I (Middle/Secondary) (2, 3)

Directed and supervised intensive teaching experiences with children with mild/moderate disabilities in educational settings which include middle school and secondary age children. Prerequisite: SE 610, SE 620 (or concurrent classified as educable mentally handicapped learning enrollment in SE 622).

SE 659 Special Education Practicum II (Secondary) (2, 3)

Interrelated teaching experiences with students with mild/moderate disabilities. Prerequisite: SE 658 and 18 hours of graduate coursework.

SE 660 Assessment in Special Education (Pre-Elementary) (3)

Survey and analysis of individual tests, curriculum-based and ecological measures applicable to diagnosing and planning instructional programs for children with mild/moderate disabilities. Emphasis on development of individual portfolios through data collection, administration and interpretation of multi-sources educational information, test results, and personal records to develop appropriate curriculum. Stresses use of data in the development of Individualized Educational Plans. (Fee may be assessed to cover the cost of consumable materials.) Prerequisite: SE 610, SE 620, and consent of instructor.

SE 662 Assessment in Special Education (Middle/Secondary) (3)

Survey and analysis of individual tests and curriculum-based measures applicable to diagnosing and planning instructional programs for children with mild/moderate disabilities. Emphasis on developing individual portfolios through data collection, administration and interpretation of multi-sourced educational information, test results, and personal records to develop appropriate curriculum. Stresses use of data in the development of individual educational plans. (Fee may be assessed to cover the cost of consumable materials.) Prerequisite: SE 610, SE 620, and consent of instructor.

SE 663 Exceptionals in Early Childhood Education (3)

Focuses on children with disabilities ages birth through grade 3. Emphasis is placed on understanding assessment, uses of technology, working with families, development of IEP.

SE 674 Special Topics in Special Education (3)

Topics vary from semester to semester and will be announced in advance. ED 674 may be repeated for credit. Prerequisites: Permission of Department Chairperson and Instructor.

SE 676 Psychology of the Exceptional Student (3)

Historical and current practices relating to the educational characteristics, needs, and placement alternatives for exceptional students. Emphasis on procedure and strategies for teaching exceptional students in the classroom. Prerequisite: Graduate Standing.

SE 680 Resources for Families with Disabilities (3)

Study of the local, state and national resources available to assist children with disabilities and their families. Structural characteristics of families is presented to assist students in understanding the needs of individuals with disabilities. Prerequisite: ED 302 or graduate standing.

TECHNOLOGY ADMINISTRATION (TA)

TA 210 Technology Survey (3)

Reviews the historical and practical development of technology in a wide variety of settings. Students will learn about the development of technological innovation and the effect on today's society; systems design and analysis; planning and managing a safe environment; tools and techniques to forecast future development in technology; the conflict between technological innovation and resources including local, national and global consequences; using and managing technology in the workplace and at home; and leadership and management in a variety of settings with a technology focus. Prerequisite: none.

TA 300 Evolution & Development of Technology (3)

This course includes a historical account of the development and innovation of technology. Emphasis is on the development of scientific knowledge and its relationship to inventions, their role in careers and impact on civilization.

TA 310 Technology & Society (3)

Course will focus on current technology in the context of historical development and the effect of technology on today's society. Students will develop critical analysis of technological innovation through a variety of readings, research and projects.

TA 320 System Design, Assessment, & Evaluation (3)

This course provides practice in skills to analyze organizational opportunities and evaluates systems using techniques such as flow charts, cause and effect diagrams and others to determine how systems can be utilized to meet organizational challenges. The course will cover such topics as systems planning, analysis, design, testing, implementation and maintenance. Prerequisite: MA 110, or MA 112, or MA 116, or MA 140.

TA 330 Safety Analysis & Quality Assurance (3)

The purpose of the course is to review the organization of accident prevention programs, job hazards, accident cost control, and planning and maintaining a safe environment. The course includes analysis of data, including the use of statistical process control, risk management, and quality assurance issues such as inspections, reports, and external standards of federal, state and local agencies.

TA 340 Technology Policy (3)

This course will provide an in-depth study of policy and law practices relating to technology. The course will deal with technology policy, legal ramification in relation to local environments, state, national and international communities. Consideration in the course will deal with issues such as technological efficiency, socio-economic development, environment, security and others. Special emphasis will be given to the political process in which technology policies are shaped in public and private organization.

TA 360 Independent Study (1-4)

Technology Administration majors may pursue an independent research project approved by the Program Director in consultation with the Department Chair. Independent Study may not be used in place of any courses required of the TA work major. Independent Study courses must meet equivalencies to Federal definition of a credit hour. Prerequisites: Consent

TA 370 Technology Internship (1-4)

Provides the opportunity under the direction of a faculty member to gain insight and practical experiences in an area of technology administration.

TA 380 Technology and the Future (3)

This course will examine applications of a variety of predication tools and techniques to forecast future developments in their career field. Outcomes will include identification and implementation of strategies to create a desired future in an operation, production or market. Prerequisite: (MA 110 or MA 112 or MA 116) and EN 101.

TA 381 Technology and Ecology (3)

The purpose of the course is to examine ecological policy in terms of technology and innovation, including the political, geographical, legal and social contexts in which technological innovation occurs. The course will examine conflicts between innovation and resources, risk assessment, national and global impact, and scale of consequences.

TA 390 Special Topics in Technology (1-3)

These special topic courses cover a variety of subjects designed to instill current topics into the technology program.

TA 400 Technology Administration (3)

This course provides an introduction to several core concepts in technology management and the role of managers of technology in their respective organizations. The course will cover topics such as technology strategy, effective use of resources, the impacts of technology systems, funding technology and ethical approaches to using and managing technology.

TA 410 Technology Planning (3)

This course investigates the increasing use of projects to accomplish organizational goals, including how project plan inputs are accurately gathered, integrated and documented. Topics include project life cycle, work breakdown structure, and the importance of quality, risk, and contingency management in planning development. Prerequisite: None.

TA 420 Technology Project (3)

Students working individually and in teams will complete projects as assigned. These projects may take a variety of forms, but will integrate students' technical and professional coursework. Students will be required to produce written and oral presentations of their projects. Evaluation will be based both on individual performance and performance as a team member. Leadership skills will be a critical component of the course. This Capstone project requires summative reflection, serving as a culminating experience for Bachelor's degree students. Prerequisite: TA 300, TA 310, TA 320, TA 330 or concurrent.

THEATRE (TH)

TH 100 Theatre Practicum (0-1)

This course is designed for both theatre majors and other students interested in performing onstage or working backstage to provide practical experience as a member of a theatre production crew. Students will have the opportunity to perform onstage, or serve as crew members, designers or directors, who may work in several technical or production areas, including stage management, costumes, set design and construction, lighting, sound, properties, house management, and publicity.

TH 101 Drama Classics on Video (3)

Introduction to the theatre through play reading and viewing of selected recordings of staged plays that cover the work of theatre artists, production styles range from the Greeks to the American Musical theatre. Students who enroll in or have completed TH 301 are ineligible to enroll in TH 101.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

TH 102 Introduction to Theatre (3)

Current views of theatre in society; theatre as art and ritual and its relationship to other fine arts, the nature of the theatrical metaphor and the aesthetic evaluation by the audience. Career opportunities associated with the art: professional, educational, community, and amateur.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

TH 103 Voice, Diction & Interpretation (3)

Training the speaking voice; study of vocal mechanism, breathing, projection, articulation, enunciation; practical application of speaking principles in oral interpretation reading; projects.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

TH 104 Theatre Movement Dance I (3)

Theatre Movement and Dance I is designed to introduce students to the fundamentals of dance. Dance I is a beginner class. Repeatable for credit. Prerequisite: None.

TH 199 Special Topics in Theatre (1-3)

Newly developed course material offered for variety and expansion of the course curriculum.

TH 202 Acting I (3)

Introduction to basic acting principles and practice involving physical, vocal, improvisatory, and text-based character analysis and performance techniques.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Communication

TH 204 Theatre Movement Dance II (3)

Theatre Movement and Dance II is designed to further the development and understanding of the performers' body and mind connection. Dance II is an intermediate class. Prerequisites: TH 104 or permission of the instructor

TH 206 Early Theatre History (3)

Play-reading in historical context. Study and interpretation of dramatic and performance texts including elements of production, performance practice, form, and style. Representative periods span from Ancients to 18th century.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

TH 207 Late Theatre History (3)

Play-reading in historical context. Study and interpretation of dramatic and performance texts including elements of production, performance practice, form, and style. Representative periods span from 18th century to Contemporary.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

TH 208 Principles of Playwriting (3)

Practical writing lab. Analysis of established texts leads students to creation and development of dramatic monologues, short and one-act plays. Class will culminate in public readings and/or staging of original work.

TH 209 Musical Theatre Performance I (3)

Performance class; students practice fundamental performance techniques for musical theatre repertoire; fundamental analysis of song forms and acting objectives for solo and scene work from selected styles. Singing, movement and public performance required. Prerequisite: None.

TH 211 Stagecraft (3)

Lecture and laboratory exploration of the concepts of stage drafting, construction and painting. Crew assignment will be required.

TH 218 Acting & Directing Workshop I (3)

Practical experiences in acting and directing through analysis, preparation and performance of scenes and monologues, and other performance exercises. Focus: Realism and Serious Contemporary Drama. Prerequisite: None.

TH 300 Theatre Practicum (0-1)

This course is designed for both theatre majors and other students interested in performing onstage or working backstage to provide practical experience as a member of a theatre production crew. Students will have the opportunity to perform onstage, or serve as crew members, designers or directors, who may work in several technical or production areas, including stage management, costumes, set design and construction, lighting, sound, properties, house management, and publicity.

TH 301 Drama Classics on Video (3)

An introductory Theatre course which involves viewing performances and play reading. Production styles range from the Greeks to the American Musical theatre. This course carries a mutual exclusion with the following course; you may not enroll in TH 301 if you have completed TH 101 with a passing grade.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

TH 304 Theatre Movement Dance III (3)

Course is designed to continue to develop dance skills and techniques. Dance III includes jazz, modern, ballet and tap. Prerequisites: TH 204 or permission of the instructor.

TH 306 Contemporary Theatre (3)

Study of developments in playwriting, directing, and acting since WWII to the present with special emphasis on influences that have affected contemporary theatre and drama. Students who enroll in or have completed EN 336 are ineligible to enroll in TH 306/TH 606.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Creative Performing
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

TH 307 Non-Western Drama (3)

Detailed examination of the drama and theatre of selected Non-Western theatrical forms. Special emphasis is placed upon the relationship of cultural elements to the theatrical event.

TH 308 Principles of Playwriting (3)

Practical writing lab. Analysis of established texts leads students to creation and development of dramatic monologues, short and one-act plays. Class will culminate in public readings and/or staging of original work.

TH 309 Musical Theatre Performance II (3)

Performance Class; students practice intermediate performance techniques for musical theatre repertoire; analysis of form, style, acting and movement for solo, scene and ensemble work from multiple styles. Singing, movement and public performance required. Prerequisites TH 209 or permission.

TH 311 Stagecraft (3)

Lecture and laboratory exploration of the concepts of stage drafting, construction and painting. Crew assignment will be required.

TH 313 Introduction to Children's Theatre (3)

Study of theatre production for children and youth. Investigation into the Children's Theatre repertory with special emphasis on playwriting. Development of a philosophy of theatre for children and youth.

TH 314 Children's Theatre Tour (3)

Touring area schools as a performer or stage manager throughout a given semester. Preparation, rehearsal and performance of play chosen for a specific age group. Prerequisite: TH 202, TH 313 or consent.

TH 315 Set and Prop Construction (3)

This course will focus on scenic and prop construction. Prerequisite: None.

TH 316 Costume Construction (3)

Costume Construction will teach students how to make costumes and costume accessories. Prerequisite: None.

TH 317 Lighting and Sound (3)

Light and Sound Production will teach students how to read a light plot, hang/focus lights, write cues and run a light board. Additionally, students will learn how to record and edit sound for theatre productions. Prerequisite: None.

TH 318 Acting & Directing Workshop II (3)

Practical experiences in acting and directing through analysis, preparation and performance of scenes and monologues, and other performance exercises. Focus: Realism, Experimental and Contemporary Comedy. Prerequisite: TH 218 - Acting and Directing Workshop I or consent of instructor

TH 319 Stage Makeup (3)

A practical guide to the theory and practice of theatrical makeup. Students will become familiar with the traditional and color theory approaches to makeup. Various conceptual and technical problems will be studied and solved.

TH 320 Acting II (3)

Advanced acting course continuing development of skills acquired from Acting I. Emphasis on styles and methods of analysis, interpretation, and portrayal of characters from selected plays, (contemporary to historical period): Prerequisite: TH 202 or instructor permission

TH 333 Digital Painting and Drawing (3)

AR327 is designed to provide the student with knowledge and skills necessary to create digital paintings and drawings using a range of visual art media related to digital processes, including AR/VR and 3D virtual painting. Emphasis of the course is focused on the student.

TH 359 Methods of Teaching Speech and Drama (3)

The study and application of teaching strategies for secondary education certification in speech. Prerequisites: Advisor approval and formal admission to teacher education.

TH 399 Special Topics/Theatre (0-3)

Newly developed course material offered for variety and expansion of the course curriculum.

TH 401 Analysis and Directing (3)

Students practice analytical skills and apply directing concepts and skills to stage a scene or short play. Prerequisites: TH 202 and TH 211 (Acting I and Stagecraft) or Instructor permission.

TH 403 Acting III (3)

TH 403 Acting III : Advanced acting course continuing development of skills acquired from Acting II. Emphasis on ensemble-based styles and methods using text and/or non-text based sources to create character. Prerequisite: TH 320 or Instructor permission.

TH 406 History - American Musical (3)

Examines major cultural, artistic, historical, economic and social influences surrounding the creation, performance and reception of the American Musical.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

TH 407 Drama Theory & Criticism (3)

Study of general principles of Western literary theory and the methods, aims, functions and characteristics of Drama as an art form, derived from and/or illustrated by examples in criticism and reviewing.

TH 408 Advanced Playwriting (3)

Practical writing lab for the development of full-length texts. Advanced critique and rewriting techniques will be employed to assist in script development. Prerequisite: TH 208 or TH 308 or consent.

TH 409 Musical Theatre Performance III (3)

Performance Class: Students practice advanced performance techniques for musical theatre repertoire; analysis of form, style, acting, movement for solo, scene and ensemble work from varied styles. Singing, movement and public performance required. Prerequisite: TH 309 or permission of the instructor.

TH 415 Experimental Theatre (3)

Practical introduction and practice in performance theory, collective creation and conceptualization. Creation of theatre piece from existent or original sources.

TH 416 Special Theatre Projects (1-3)

Majors must complete a faculty mentored project. Specifically developed projects or internships (1-3) in acting, directing, playwriting, design, public relations, and theatre management.

TH 606 Contemporary Theatre (3)

Study of developments and playwriting, directing, and acting since WW II to the present with special emphasis on influences that have affected contemporary theatre and drama. Students who enroll in or have completed EN 336/EN 636 are ineligible to enroll in TH 306/TH 606. Prerequisites: Consent of instructor.

TH 607 Non-Western Drama (3)

Detailed examination of the drama and theatre of selected Non-Western theatrical forms. Special emphasis is placed upon the relationship of cultural elements to the theatrical event. Prerequisites: Consent of instructor.

WASHBURN UNIVERSITY (WU)

WU 101 The Washburn Experience (3)

This three-hour course for first-year students focuses on developing the skills necessary to be successful in college. Each section of the course will use common themes such as the exploration of study skills, wellness, technology, academic integrity, information literacy, global citizenship and others to introduce students to a series of best practices. Prerequisite: None.

Course Attribute: USLO: Information Literacy and Technology

WU 105 Life Skills (1)

Focuses on developing the critical-thinking and life skills needed for a successful transition into independence. The course covers topics ranging from basic auto maintenance to personal finance with the goal of promoting the development and refinement of important life skills.

The target audience for this course is students participating in success programs through the Center for Student Success and Retention.

Prerequisite: Approval of course instructor.

WU 110 Peer Educator Training (0)

The WU 110 course is utilized to train new peer educators for future service in FYE courses. Students will gain skills in classroom management, student engagement, and public speaking. Prerequisite: Consent of Instructor.

WU 115 Academic Enhancement (0)

The WU 115 course is utilized as a learning laboratory for students participating in curricular success programs offered through the Center for Student Success & Retention. Prerequisite: Consent of Instructor.

WU 120 Major and Career Exploration (2)

WU 120 will use a Social Science research process to guide students through academic and career exploration in the Information Age.

Engaged and capable citizens need a firm grounding in digital research to navigate successfully the Knowledge Economy. Because this world continues to evolve rapidly, having a skill set that provides the ability to evaluate a changing environment is essential. This course meets a core student need by teaching Information Literacy and Technology skills while encouraging students to consider thoughtfully their role as citizens.

Prerequisite: None.

WOMEN'S AND GENDER STUDIES (WG)

WG 175 Introduction to Women's Studies (3)

Introduces the principal history, methods, issues and debates in Women's Studies utilizing an interdisciplinary approach. Through a broad range of issues confronting women, the course examines both historical and contemporary ideas, institutions, and constraints that shape women's lives. Attention will be focused on differences among women as well as the potential for women's unity and empowerment. Prerequisite: None. Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed AY 2024-2025: Inclusion and Belonging
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Global Citizenship, Ethics and Diversity

WG 199 Special Topics (0-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: Varies by course and instructor.

WG 375 Women and Popular Culture (3)

This course explores the ways women are depicted in popular culture and how these integrated patterns and beliefs are transmitted to succeeding generations. We will identify how these images influence basic assumptions about societal roles and expectations of women and, therefore, female development. This examination of popular culture genres reveals the influence of pop culture and its impact on stereotypes, personal and professional relationships. Through readings, text analysis, discussion and research-oriented writing assignments, the course will engage interdisciplinary methods to examine gender and popular culture. Students will learn to analyze and critique the narratives that shape their own perceptions of gender, sex and identity, and formulate a personal response to gender identity. Prerequisite: None.

Course Attributes:

- Gen Ed AY 2024-2025: Arts and Humanities
- Gen Ed Pre-AY 2024-2025: Humanities
- USLO: Critical and Creative Thinking

WG 390 Human Trafficking and Modern Day Slavery (3)

An advanced undergraduate course that focuses on contemporary human trafficking and slavery. Types of trafficking and slavery to be covered include sex trafficking, bonded labor, forced labor, child soldiers, chattel slavery, and domestic servant slavery. The contributing roles of the state, organized crime, the media, culture, and corruption will be examined. Debates about defining trafficking and the connection between sex trafficking and prostitution will be reviewed. Course materials may include testimonies and autobiographies by survivors, research reports, theoretical essays, policy statements, expert testimonies, podcasts and videos. Prerequisite: Junior standing or permission of the instructor.

WG 395 Independent Study (0-3)

This course allows the student to pursue individualized scholarship with guidance from a professor. The format may vary in terms of the student's special interests, abilities, imagination, and creativity. May consist of a research paper, a comprehensive written examination on selected reading materials, an oral presentation, or a special performance utilizing one or more art forms or modes of expression. Prerequisite: Consent of Instructor.

WG 399 Special Topics (0-3)

Topics will vary from semester to semester and will be announced in advance. May be taken for more than one semester. Prerequisite: Varies by course and instructor.

WG 400 Women's/Gender Study Capstone (3)

The capstone is a required course that gives students a forum to synthesize and apply theories, methods and concepts that they have learned throughout their minor in Women and Gender Studies. Individualized advanced projects focused on women, gender and/or sexuality are designed in collaboration between the student and their WG adviser and can include a research paper, an internship, service learning or activist project. Prerequisite: Junior standing.
