Mathematics

- MA112 or higher or transfer equivalent to MA112 or higher)

Physics

- AL390 ST Allied Health: Physics

Medical Terminology

- AL101

Is your prior work transferable? Please refer to this [Washburn transfer guide](#). If your school is not in this list, the sonography Program Director can evaluate your courses to determine if they meet the sonography pre-req requirements. While they may meet the sonography program pre-req requirements, they may not meet other Washburn program requirements, that determination would need to be determined by the other program faculty you are working with.
