

1999-2000 Season

Defying Gravity

by **Jane Anderson**

June 18, 19, 25, 26, 27

Anderson's uplifting play is a work of poetic fantasy inspired by the 1986 Challenger disaster. It inter- weaves the past and the present with the lives of the participants and bystanders. It challenges us to reach beyond ourselves—daring the universe, striving for the outer limits of human possibility.
