Physics Scholarships

Scholarships up to \$2000 annually are offered to qualified students for the study of physics at Washburn University in Topeka, Kansas.

Qualification Criteria

Scholarship recipients will be selected from those applicants who satisfy the criteria listed below.

- 1. A 3.00 GPA (4 point scale) in all completed high school or prior college work;
- 2. A combined ACT score of 25.

A scholarship recipient must enroll in at least one mathematics course at the level of Calculus I (MA 151) or above their first semester at Washburn, and enroll in General Physics I (PS 281) in their first spring semester thereafter. The recipient will receive half of their scholarship award during the fall semester at Washburn, with the remainder awarded at the beginning of the spring semester, provided the mathematics course is passed with a grade of "B" or better.

Continuation Criteria at Washburn University

The scholarship may be extended for additional years. The amount may vary depending on the monies available and the success of the recipient in their program. For consideration of this year-by-year extension the student MUST satisfy the criteria listed below during their previous year at Washburn University:

- 1. The student must take at least one physics course at the level of PS 281 or higher each semester unless the Scholarship Committee agrees otherwise.
- 2. The student must maintain at least a 3.00 GPA in all courses taken at Washburn University, and at least a 3.00 GPA in all physics courses taken.
- 3. The student must pass at least 12 credit hours each semester.

Have you applied for admission to Washburn University? Yes No	

Please write a few paragraphs outlining your academic goals at Washburn University and your career goals thereafter. A letter of support (under separate cover) from your current mathematics instructor, science instructor, or guidance counselor will be helpful. All completed applications for the upcoming academic year should be received by February 15 for first priority. Application materials must include the application form with requested goals discussion, a copy of your high school transcript (or college transcript for continuing and/or transfer students), copy of ACT/SAT scores, and (if desired) a letter of support. Please send application materials to:
