

# Business Minor with Entrepreneurship Certificate

## Program Description

The Business Minor and the Entrepreneurship Certificate can be earned at the same time by using entrepreneurship courses as electives within the business minor. This combination will enable students who want to start their own venture, operate a family business, or become a champion of change within a large corporate organization. The program exposes students to various business disciplines and how to create a detailed business plan for a start-up venture. Innovation and creativity are explored to understand how ideas can be brought to reality and commercialized. Students will also have the opportunity to launch their ventures in the capstone clinic class. The additional courses in accounting, economics, and management form a well-rounded business foundation to supplement entrepreneurship courses.

A grade of C or better must be earned in each course used to satisfy the requirements for the minor and for the Entrepreneurship Certificate. Half of the hours used to meet the requirements of the minor and of the Certificate must be earned at Washburn University.

## Required Entrepreneurship Certificate Courses

**BU101 Introduction to Business (or BU 115 Entrepreneurship and Entrepreneurial Law)** (No Pre-requisites)

Students are introduced to basic business systems and business organizations. Fundamentals such as management, marketing, finance and entrepreneurship are introduced as a foundation for business understanding in both the domestic and international contexts.

**BU260 Business Plan Development** (BU101, BU115, or Equivalent)

Students work to develop their own business plan or work with real companies to solve business problems. All aspects of early-stage business planning and start-up formation is covered in developing a business plan.

**BU343 Entrepreneurship, Innovation & Creativity** (BU260 or BU342 (Concurrent))

Students examine how the entrepreneurship process begins as this class explores the early stages of business formation. They are introduced to individual and group creative processes and how ideas are developed into potential innovations and commercialized.

**BU370 Entrepreneurship Clinic** (BU343 or Admission to the SOBU)

This course has students prepare a business proposal and prepare to commercialize their business ideas, and encourages them to launch their business. Students have the option to work with local business owners to help launch new companies or help grow their firms. The class is taught by the director of the Small Business Development Center.
