

It's your program. Let's make it happen.

Custom Educational Tours
with Fellowship Travel

Planning trips that change lives.

Planning Your Program's Custom Itinerary

We take a collaborative approach to developing customized faculty-led tours, tailoring them to the academic goals as well as the budget.

Whether you have an approved program for an existing course, are looking for someone to plan the logistics, or you have a dream for a future program (or find yourself somewhere in the middle), FTI is here to help you get your study tour off the ground.

On the following pages, you'll find a few examples of trips we've organized in the past, including the unique hands-on & behind-the-scenes components that complemented the field of study.

Which services would you like to include?

- Flights
- Ground Transportation
- Accommodations
- Guided Tours
- Travel Insurance
- Interactive Components
 - Hands-on activities
 - Lectures
 - Visits or networking
 - Service-learning or volunteer

💡 Program Idea

A Comparative Study: Economy, Government & Culture in Cuba

Explore contemporary Cuba through site visits, meetings & interviews with local residents. Students will learn about the country's culture, political structure, domestic & foreign policies, as well as the importance of the Revolution in shaping Cuba's modern identity.

Highlights

Industry Visits

Sugar & tobacco dominated the Cuban economy for much of its history. Visit a factory where some of the finest cigars in the world are made. Then, see the Valley of the Sugar Mills, a center for sugar production in the late 18th Century.

Committee for the Defense of the Revolution

Meet with members of the Committee for the Defense of the Revolution, an organization promoting social welfare & protecting its community from counter-revolutionary activity.

Yoruba Cultural Association of Cuba

This museum is dedicated to Santería & features sculptures representing the different Afro-Cuban orishas (saint-gods). People still come to pray & give offerings to the various orishas, so you may even witness a Santería ceremony or ritual here.

Muraleando Project

Local artists began teaching workshops, but later moved into the streets where the seeds of "Muraleando" (mural-making) were sown. In a country where nothing is disposable, broken typewriters, old telephones & tire rims were all fair game to weld, paint & turn into sculpture.

💡 Program Idea

Sports Management in England

This program takes a look at various aspects of sports management in the professional, amateur & non-profit arenas.

Highlights

Tennis

Tour Wimbledon & Wembley. Students learn about the venues' history, the Championships & the English Lawn Tennis Association's role.

Rugby

Take a tour of Twickenham stadium to learn about the game, the management & development of the stadium, sponsorship & training.

Cricket

Visit Lord's Cricket Ground, home of the world's most famous cricket club. Learn about the game, the history of the ground.

Soccer

Speak with the marketing & events team at a "football" stadium & stay for a match.

Collegiate Sports

Students meet with a representative of an Oxford University sports team to learn how they balance their academics with their rigorous training schedule.

Olympics

Visit Olympic Park to learn about the development of the area, how the 2012 Olympics boosted the economy, as well as how local residents feel about the changes.

Follow your guide through the Olympic training facilities to discover how elite athletes are trained, what funding is available to UK athletes & how venues were developed prior to the 2012 Olympic Games.

Ability Over Disability

Visit Stoke Mandeville Stadium where Dr. Ludwig Guttmann arranged the first Paralympic Games for WWII servicemen with spinal cord injuries.

Students meet with the founder of a sports charity to learn how they help athletes with disabilities excel in their sport.

Blue Zone

in Greece & Italy

Seek to understand the lifestyles & mindset of people in Blue Zones, where the highest number of centenarians live. Students will meet centenarians & local experts to explore several theories of longevity.

Highlights

Dr. Gianni Pes

Speak with Dr. Pes, the Senior Researcher who first reported on Sardinian longevity. Discuss his findings on nutrition & lifestyle factors associated with long life.

Honey House

Honey is considered a longevity food in Ikaria. Learn about its quality & production.

Agios Kirikos Hospital

Meet a cardiologist & general surgeon to discuss centenarian health, then shadow a physiotherapist.

Bread-making Workshop

A Sardinian proverb states, "With bread, you will never die." The "Carta di Musica" flatbread was traditionally consumed by shepherds who needed nutrient-rich food that would sustain them through long days.

Seulo Walk

Discover the connection between hiking & longevity. Meet a shepherd who will demonstrate how to make local cheese. Then, try a shepherd's-style lunch.

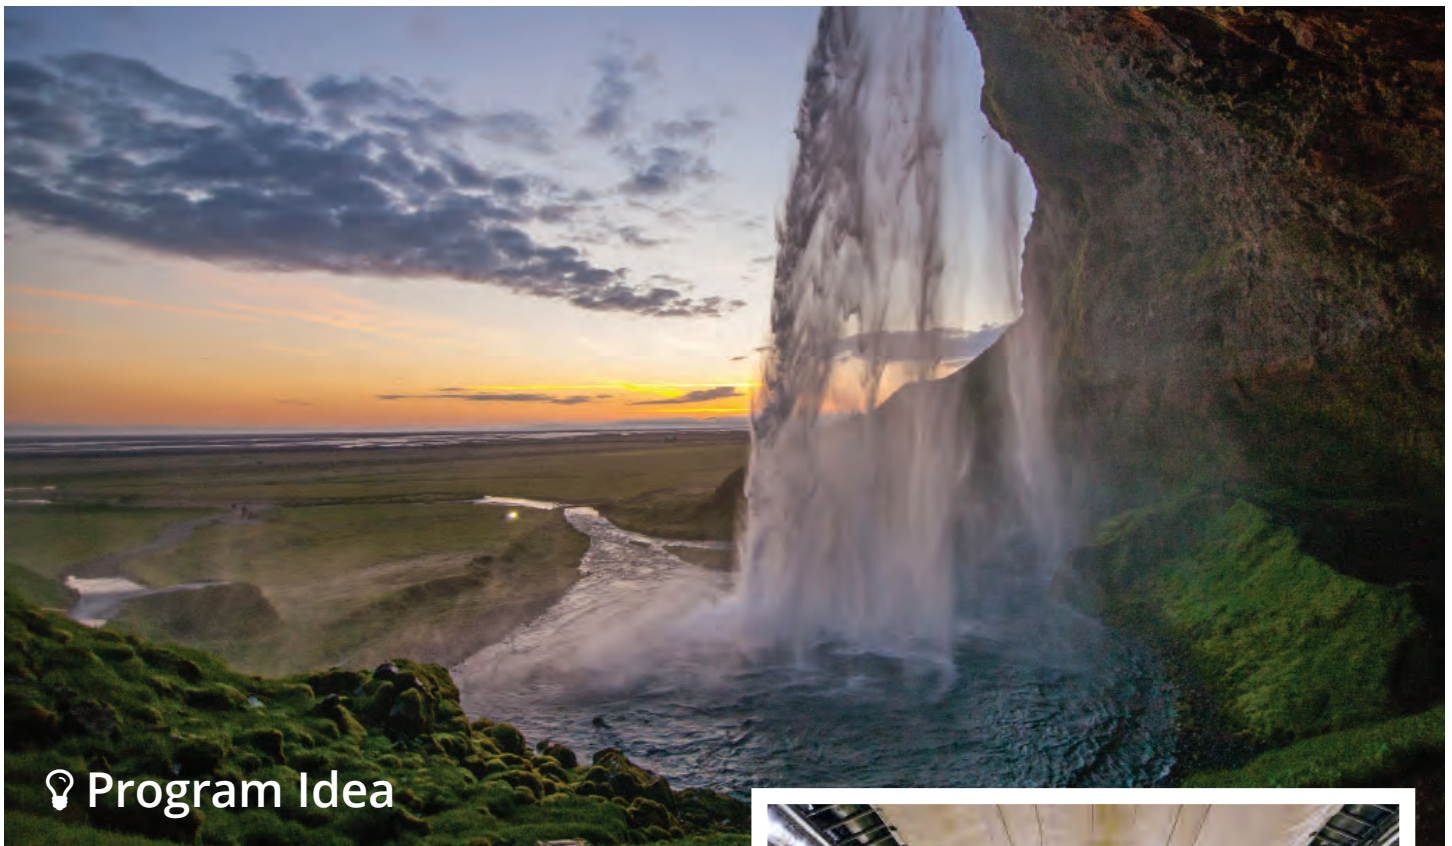

Local Centenarians

Talk with local centenarians as you prepare a meal for the group. Learn their secrets to living long & healthy lives.

San Benedetto Food Market

Sample local food at the largest covered fish market in Europe.

💡 Program Idea

Clean Energy in Iceland

Iceland produces the cleanest energy in the world! Learn how natural resources are used to produce energy while enjoying the country's natural beauty.

Highlights

Hellisheidar Power Plant

Visit the third-largest geothermal power station in the world to learn how geothermal energy is used as a sustainable energy source in Iceland & heat their entire country!

Fontana Geothermal Bakery

Learn how geothermal energy works as a natural oven as you watch the baker dig bread out from the hot ground. After a walk, you'll sample some of the bread, served hot from the ground with some Icelandic butter.

Friðheimar Greenhouse

Learn about the magic behind growing delicious, pesticide-free tomatoes & cucumbers with the aid of geothermal heat. This greenhouse produces about 300 tons of organic vegetables annually!

Golden Circle Tour

Visit Þingvellir National Park to see the Mid-Atlantic Ridge – the point where North America & Europe's tectonic plates meet. Make a quick stop at Gullfoss waterfall for a photo opportunity before visiting Strokkur, one of Iceland's most famous geysers. It sprays 25-30 meters in the air every 6-10 minutes.

💡 Program Idea

Women's Health in Tanzania

Every year over 300,000 women die as a result of pregnancy & childbirth because they do not have access to safe medical care. Students will gain greater insight into the practice of medicine in a developing country as well as the cultural perceptions surrounding medicine & medical care.

Highlights

Mt. Meru, Ngarenaro & Levelosi Hospitals

Students will work with local medical personnel in urban & rural pediatric & maternity medical facilities. Focused on reducing maternal mortality & the incidence of obstetric fistula, they will develop an understanding the medical challenges facing Tanzania's poorest communities.

Wsilelei Dispensary

Visit a local rural clinic that serves the Maasai people & participate in a Q&A session with a traditional midwife. Then, conduct health workshops with local Maasai women from the surrounding community.

Maasai Guided Walk

Your Maasai guide will take you for a leisurely stroll through the bushland surrounding the Isoitok Camp toward the Rift Valley Viewpoint. Along the way, you'll learn about the different root & plant extracts still being used by the Maasai to treat ailments.

Ngorongoro Crater Safari

A trip to Tanzania isn't complete without a safari. Within the crater rim you can see large herds of zebra & wildebeest grazing with nearby lions, leopards, elephants & black rhinos.

💡 Program Idea

New Perspectives Through Journalism in Vietnam

Students collaborate with their Vietnamese peers on journalism assignments that represent multiple perspectives, aimed at helping Americans better understand contemporary Vietnam.

Highlights

University of Social Sciences & Humanities

Participate in a joint exercise, discussing backpack journalism with students, faculty & journalists.

War Remnant Museum

Discover the Vietnamese perspective of the Vietnam War.

Cu Chi Tunnel Experience

This immense network of tunnels was used for military operations during the Vietnam War, most prominently by the Tet Offensive in 1968. Walk through a gallery of handmade weapons before crawling through the underground tunnels used by the Viet Cong.

Non-Profit Organization Visit

Visit Project RENEW, a veteran founded project aimed at removing unexploded ordnance from the Quang Tri province.

Academy of Journalism & Communication

Partner with Vietnamese students to write stories that will help Americans better understand contemporary Vietnam.

Build your next study abroad program with FTI.

Group Travel Experts

FTI agents specialize in working with schools & consortiums to promote global learning through student group travel.

Save Time, Money & Sanity

Leverage your buying power & make travel planning easy with one contact for flights, ground transportation, hotels & tours.

Vetted Partners

FTI's experienced local partners provide safety, quality service & knowledgeable guides who help bridge cultural gaps.

Destinations Worldwide

Our experienced travel agents send faculty-led student groups to major cities & remote destinations around the globe.

Trip Management Software

Use this free tool for online registration, participant data, financial updates, trip document access & due date reminders.

Free After-Hours Helpline

Faculty, staff & students enjoy peace of mind with 24-hour access to a travel agent in case of an emergency during the trip.
