

Hi! I am Sangya Yogi from Nepal. I am a Sophomore studying Business, with a concentration in Data Analytics and Finance. My Washburn Experience started with rocky roads because as soon as I got here, the pandemic started. Although I was unhappy to start college in such a situation, I feel lucky to have received the support Washburn gave me. I have been trying my best to make the most out of my college experience, so I started getting involved on-campus. (This is my advice for you too; Get involved) I work as a Student Coordinator for Multicultural Intersectional Learning Space(MILS), a Tutor for School of Business, a Peer Educator, a Student Orientation Counselor(2021), and have also worked as a Content Creator for the Washburn Student Media. I am excited to start a new chapter as a Presidential Ambassador for International Students(PAIS) this year. I hope I can help and support you in starting your journey at Washburn!
