

Manish Bhatta

I'm Manish Bhatta, an international student from Nepal. At Washburn, I'm a senior majoring in Chemistry and minoring in Physics and Mathematics. I enjoy playing soccer and FIFA; apart from that, I love to travel. For me, choosing Washburn university was a no brainer. The professors have really helped me refine my career focus. Despite its size, Washburn is a diverse school and has provided me with an unforgettable experience. Being the PAIS, we will be there for you to assist in your journey at Washburn.
