

Hi! My name is Junnosuke Saito and I'm from Yokohama, Japan. I'm a sophomore year and majoring in communication. My hobby is playing sports, especially good at basketball and volleyball. In my freshman year, I had a lot of difficulties with class and cultural differences but some of my friends and member of PAIS helped me to get over the difficulties. So, I want to become a student such as people who helped me. That's why I joined PAIS members this time. If you have some concerns or questions, please don't hesitate to ask me. I'm so welcome to meet and talk with you! I'm looking forward to meeting new students. Let's enjoy a new life in WU together.
