

Exit teaser:

Bumper Music fade in

KB: It's the end of the semester and the NFOA Bridge 10 minute mini bodcasts.

N-F-O-A is the acronym for Not for Ourselves Alone, Washburn's motto. And the virtual bridge has been located right here on Teaching Tuesdays, connecting Washburn with the Topeka community and beyond through community-engaged learning also known as CEL.

I'm Karen Barron, Community-Engaged Learning Coordinator for the Center for Teaching Excellence and Learning. It's been my pleasure to *host* this series featuring brief audio snippets by Washburn admin, faculty, staff, community members and partners designed to inform and inspire you about what community-engaged learning is, what your colleagues and partners are doing, and current community needs.

We hope you've enjoyed listening!

CTEL offers an initiative to support planning and implementing a CEL course or project. Selected scholars are awarded a \$1500 stipend and monthly mentoring to develop a project. Please check the CTEL CEL webpage for more information.

Now, enjoy our bumper music with special thanks to Tom Morgan for composing and the Washburn jazzband for recording, featuring Craig Treinin on sax.
