

How to Report a Phishing Email

Did you know you can report a phishing email easily to ITS? You can do it straight from any versions of Outlook. This method is better than a forward, as it will capture all pertinent info needed to respond and address a phishing campaign.

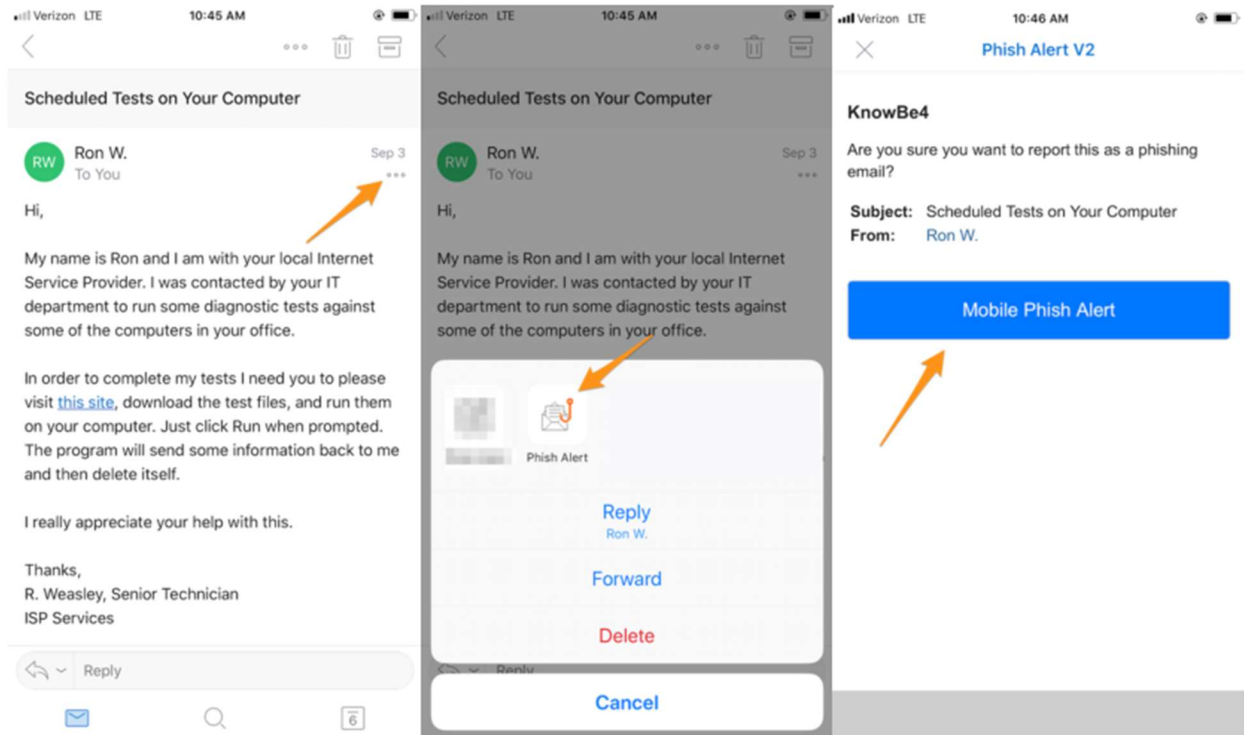

Desktop Outlook (under the Home tab):

Outlook Web Access (under the ellipsis (...)):

Outlook Mobile App on iOS Devices – iPhone, iPad (under the ellipsis (...)):

Outlook Mobile App on Android Devices (under the three dots):
